Dear Brittany -

Hi, I hope all is well with you. Peggy wanted this added to the agenda. I think it's important to have. However, we already have the Sunshine, Engineering, and Public Comments all on the agenda, and based on that - the meeting scheduled will be well over an hour, maybe even 1-1/2 - 2 hours and this will add an additional 15 minutes to that. I'm okay with adding this to the agenda, so long as we communicate the additional time needed to the board members, staff and commissioner Broderick right away, so they have time to adjust their schedules accordingly.

Thank You.

Gus Gutierrez

Good morning Gus,

Yes, I should be able to come to the April meeting. Also, I am attaching a revision we have been working on to the parking ordinance. Can you put this on the agenda as well?

Thanks!

Hello Peggy -

Please see below. I think if you are available to attend the next meeting it will help. Let me know if you have any questions or how I can help.

Thank You,

Gus

Good Morning,

I wanted to share how I saw Saturday go downtown with parking. I was at my office at 171 Melody Lane 830am and parked in an open space right in front of my door. This is one of the four spots discussed that is already a 2 hr marked and signed space. I parked there and there also was a vendor already parked there. I also walked the gravel parking lot, (see pictures attached), 6 trucks with vendor trailers and 2 other vendor vans, that's 14 spaces taken up in that lot the full time and more for the Saturday market time frame.

During the day I didn't see any enforcement, including for the two spots being taken up in the 2 hour spaces.

Then around 1130 am I stopped a "Parking Enforcement pick up truck right outside my office. I introduced myself and said I was on the Parking committee and that we had discussed issues with the 2 hr parking and the gravel lot having trailers parked in there, with the sign up. The man said yes I heard about that and will look into it.

So, I write this because I never moved my car, the same vendor van in 2 hr parking and all the above issues in the parking lot remained the same and unticketed as I checked them at 1, 2 and 3 o'clock.

I feel if we have issues to discuss, it's doing what we already have on the books along with additional parking. I would think that the Parking Code Enforcement should be a big part of this committee. Can we have someone at the next meeting in April?

I also understand the ventors need a place to park, we need to work this out as a Parking Committee
