Dear Mr. Quintanilha,

The building is currently in "shut down" mode, meaning mechanical systems have been turned off to conserve energy and dollars. Re-starting the HVAC systems in severely hot weather may cause the compressors to short cycle on/off, freeze up, etc. which may result in some minor repairs and Freon

expense. Facility will need some light cleaning, etc. However, nothing we can't handle; just need to receive confirmation within the next 3-4 days in order to be properly prepared for the event. Also, you may want to check with Oscar Garza in Purchasing regarding his renovation project at the facility and the start date, which I doubt will conflict with this event.

I'll be out on vacation 7 – 13 June, so Mr. Sefe Garza (956-292-8367) will be handling "Infrastructure Systems Division" issues such as this during my absence.

Thanks,

Rick Sunday , Cell 956-874-4677, Ofc. 956-289-7858, richard.sunday@co.hidalgo.tx.us
