Ignite Fellows must successfully clear each background check to begin tutoring students.

Background Check Type	**Check Description**
Social Security Number Search	A Social Security number (SSN) trace searches databases, such as from banks, utilities, and schools, for a name and SSN. The search returns information about potential names, aliases, and addresses for the SSN, compiled from credit and banking history. The search determines the state and approximate year the SSN was issued, detects if the SSN is known to be false based on its format, and acts as pointers to other possible records.
County Criminal Records Search	County criminal record searches conducted in all counties of residence for the Ignite Fellow in the past seven years. County courts can include the following record types: every adjudicated trial, felony, infraction, misdemeanor, and other violations.
National Sex Offender Registry Search	Searches sex offender registries from every US state, the District of Columbia, and tribal territories. The sex offender registry search includes all public registries nationwide. Search results include offenses and personally identifying information, such as birth date. The search confirms results using national and state sources, including the National Sex Offender Public Website (NSOPW, the Department of Justice).
National Criminal Search	A national criminal search checks thousands of national databases and millions of records to find records that might have more detailed information and to determine where to search for criminal records. If a national criminal search identifies potential records, an automatic criminal search in relevant counties is initiated and completed.
Global Watchlist Search	Search a comprehensive network of domestic and international government watchlists for industry bans, such as healthcare and finance, and criminal history.

We encrypt data in transfer as well as at rest when it is being stored in a data repository. For our internal data storage, we change encryption keys on a regular basis to avoid stale credentials and unwanted legacy access. Data is regularly obfuscated for analytics and reporting purposes. We use best practices for data isolation, including limiting accounts for vendors who push data to our systems and centralized oversight of user accounts

for external systems when we need to pull the data ourselves. We use a "least privilege granted" model for access to internal systems, employing multi- factor authentication where feasible, and monitor access across these systems with auditable logs. Additionally, we have blanket data privacy training for all staff that covers key elements of working with PII, sensitive data, and student data.

Teach For America shall also have a written incident response plan, which shall include but is not limited to, prompt notification to Partner in the event of a security or privacy incident, as well as procedures for responding to a breach of any of Partner's Data that is in Teach For America's possession. This Agreement may also be terminated without cause at any time by either party giving thirty (30) days

written notice to the other. Notwithstanding the above, if Customer fails to provide student registration information and organizational files to ACT by the deadline required by ACT, Customer's participation in the Assessments, Products, and/or Services, as applicable, will be automatically cancelled and this Agreement will be deemed terminated without further notice. Customer shall pay ACT for all Assessments, Products, and Services delivered through the date of termination. Upon termination of this Agreement for any reason, Customer shall immediately discontinue use of the ACT Materials and shall immediately return all copies of the ACT Materials in its possession. Depending upon the specifics of this Contract, this may include approvals by the Commissioner of Finance and Administration, the Commissioner of Human Resources, the Comptroller of the Treasury, and the Chief Procurement Officer. Approvals shall be evidenced by a signature or electronic approval.

2. Modification and Amendment. This Contract may be modified only by a written amendment signed by all Parties and approved by all applicable State officials.

3. Subject to Funds Availability. The Contract is subject to the appropriation and availability of State or federal funds. In the event that the funds are not appropriated or are otherwise unavailable, the State reserves the right to terminate this Contract upon written notice to the Contractor. The State's exercise of its right to terminate this Contract shall not constitute a breach of Contract by

the State. Upon receipt of the written notice, the Contractor shall cease all work associated with the Contract. If the State terminates this Contract due to lack of funds availability, the Contractor shall be entitled to compensation for all conforming goods requested and accepted by the State and for all satisfactory and authorized services completed as of the termination date. Should the State exercise its right to terminate this Contract due to unavailability of funds, the Contractor shall have no right to recover from the State any actual, general, special, incidental, consequential, or any other damages of any description or amount.

4. Termination for Convenience. The State may terminate this Contract for convenience without cause and for any reason. The State shall give the Contractor at least thirty (30) days written notice before the termination date. The Contractor shall be entitled to compensation for all conforming goods delivered and accepted by the State or for satisfactory, authorized services completed as of the termination date. In no event shall the State be liable to the Contractor for compensation for any goods neither requested nor accepted by the State or for any services neither requested by the State nor satisfactorily performed by the Contractor. In no event shall the State's exercise of its right to terminate this Contract for convenience relieve the Contractor of any liability to the State for any damages or claims arising under this Contract.

5. Termination for Cause. If the Contractor fails to properly perform its obligations under this Contract in a timely or proper manner, or if the Contractor materially violates any terms of this Contract ("Breach Condition"),the State shall have the right to immediately terminate the Contract and withhold payments in excess of compensation for completed services or provided goods. Notwithstanding the above, the Contractor shall not be relieved of liability to the State for damages sustained by virtue of any Breach Condition and the State may seek other remedies allowed at law or in equity for breach of this Contract.

6. Assignment and Subcontracting. The Contractor shall not assign this Contract or enter into a subcontract for any of the goods or services provided under this Contract without the prior written approval of the State. Notwithstanding any use of the approved subcontractors, the Contractor shall be the prime contractor and responsible for compliance with all terms and conditions of this Contract. The State reserves the right to request additional information or impose additional terms and conditions before approving an assignment of this Contract in whole or in part or the use of subcontractors in fulfilling the Contractor's obligations under this Contract.

7. Conflicts of Interest. The Contractor warrants that no part of the Contractor's compensation shall be paid directly or indirectly to an employee or official of the State of Tennessee as wages, compensation, or gifts in exchange for acting as an officer, agent, employee, subcontractor, or consultant to the Contractor in connection with any work contemplated or performed under this Contract.

   The Contractor acknowledges, understands, and agrees that this Contract shall be null and void if the Contractor is, or within the past six (6) months has been, an employee of the State of Tennessee or if the Contractor is an entity in which a controlling interest is held by an individual who is, or within the past six (6) months has been, an employee of the State of Tennessee.

8. Nondiscrimination. The Contractor hereby agrees, warrants, and assures that no person shall be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract or in the employment practices of the Contractor on the grounds of handicap or disability, age, race, creed, color, religion, sex, national origin, or any other classification protected by federal or state law. The Contractor shall, upon request, show proof of nondiscrimination and shall post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.

9. Prohibition of Illegal Immigrants. The requirements of Tenn. Code Ann. § 12-3-309 addressing the use of illegal immigrants in the performance of any contract to supply goods or services to the state of Tennessee, shall be a material provision of this Contract, a breach of which shall be grounds for monetary and other penalties, up to and including termination of this Contract.
    a) The Contractor agrees that the Contractor shall not knowingly utilize the services of an illegal immigrant in the performance of this Contract and shall not knowingly utilize the services of any subcontractor who will utilize the services of an illegal immigrant in the performance of this Contract. The Contractor shall reaffirm this attestation, in writing, by submitting to the State a completed and signed copy of the document at Attachment D, semi-annually during the Term. If the Contractor is a party to more than one contract with the State, the Contractor may submit one attestation that applies to all contracts with the State. All Contractor attestations shall be maintained by the Contractor and made available to State officials upon request.
    b) Prior to the use of any subcontractor in the performance of this Contract, and semi-annually thereafter, during the Term, the Contractor shall obtain and retain a current, written attestation that the subcontractor shall not knowingly utilize the services of an illegal immigrant to perform work under this Contract and shall not knowingly utilize the services of any subcontractor who will utilize the services of an illegal immigrant to perform work under this Contract. Attestations obtained from subcontractors shall be maintained by the Contractor and made available to State officials upon request.
    c) The Contractor shall maintain records for all personnel used in the performance of this Contract. Contractor's records shall be subject to review and random inspection at any reasonable time upon reasonable notice by the State.

    e) For purposes of this Contract, "illegal immigrant" shall be defined as any person who is not: (i) a United States citizen; (ii) a Lawful Permanent Resident; (iii) a person whose physical presence in the United States is authorized; (iv) allowed by the federal Department of Homeland Security and who, under federal immigration laws or regulations, is authorized to be employed in the U.S.; or (v) is otherwise authorized to provide services under the Contract.

10. Records. The Contractor shall maintain documentation for all charges under this Contract. The books, records, and documents of the Contractor, for work performed or money received under this Contract, shall be maintained for a period of five (5) full years from the date of the final payment and shall be subject to audit at any reasonable time and upon reasonable notice by the State, the Comptroller of the Treasury, or their duly appointed representatives. The financial statements shall be prepared in accordance with generally accepted accounting principles.

11. Monitoring. The Contractor's activities conducted and records maintained pursuant to this Contract shall be subject to monitoring and evaluation by the State, the Comptroller of the Treasury, or their duly appointed representatives.

12. Progress Reports. The Contractor shall submit brief, periodic, progress reports to the State as requested.

13. Strict Performance. Failure by any Party to this Contract to require, in any one or more cases, the strict performance of any of the terms, covenants, conditions, or provisions of this Contract shall not be construed as a waiver or relinquishment of any term, covenant, condition, or provision. No term or condition of this Contract shall be held to be waived, modified, or deleted except by a written amendment signed by the Parties.

14. Limitation of State's Liability. The State shall have no liability except as specifically provided in this Contract. In no event will the State be liable to the Contractor or any other party for any lost revenues, lost profits, loss of business, decrease in the value of any securities or cash position, time, goodwill, or any indirect, special, incidental, punitive, exemplary or consequential damages of any nature, whether based on warranty, contract, statute, regulation, tort (including but not limited to negligence), or any other legal theory that may arise under this Contract or otherwise. Code Ann. § 12-3-701, the Contractor's liability for all claims arising under this Contract shall be limited to an amount equal to two (2) times the Estimated Liability amount detailed in Special Terms and Conditions Item 2 and as may be amended, PROVIDED THAT in no event shall this Section limit the liability of the Contractor for: (i) intellectual property or any Contractor indemnity obligations for infringement for third-party intellectual property rights; (ii) any claims covered by any specific provision in the Contract providing for liquidated damages; or (iii) any claims for intentional torts, criminal acts, fraudulent conduct, or acts or omissions that result in personal injuries or death. For clarity, except as otherwise expressly set forth in this Section, Contractor's indemnification obligations and other remedies available under this Contract are subject to the limitations on liability set forth in this Section.

16. Hold Harmless. The Contractor agrees to indemnify and hold harmless the State of Tennessee as well as its officers, agents, and employees from and against any and all claims, liabilities, losses, and causes of action which may arise, accrue, or result to any person, firm, corporation, or other entity which may be injured or damaged as a result of acts, omissions, or negligence on the part of the Contractor, its employees, or any person acting for or on its or their behalf relating to this Contract. The Contractor further agrees it shall be liable for the reasonable cost of attorneys' fees, court costs, expert witness fees, and other litigation expenses for the State to enforce the terms of this Contract.

In the event of any suit or claim, the Parties shall give each other immediate notice and provide all necessary assistance to respond. The failure of the State to give notice shall only relieve the Contractor of its obligations under this Section to the extent that the Contractor can demonstrate actual prejudice arising from the failure to give notice. This Section shall not grant the Contractor, through its attorneys, the right to represent the State in any legal matter, as the right to represent the State is governed by Tenn. Code Ann. § 8-6-106.

17. Statewide Contract Reports. All reports shall be submitted electronically in Microsoft Excel format. Reports shall include the ability to sort or summarize data in accordance with the Contract Administrator's specifications. All reports shall be provided at no additional cost to the State.

    d) The Contractor will indemnify the State and hold it harmless for any violation by the Contractor or its subcontractors of the Privacy Rules. This includes the costs of responding to a breach of protected health information, the costs of responding to a government enforcement action related to the breach, and any fines, penalties, or damages paid by the State because of the violation.

19. Tennessee Consolidated Retirement System. Subject to statutory exceptions contained in Tenn. Code Ann. §§ 8-36-801, *et seq.*, the law governing the Tennessee Consolidated Retirement System ("TCRS"), provides that if a retired member of TCRS, or of any superseded system administered by TCRS, or of any local retirement fund established under Tenn. Code Ann. §§ 8-35-101, *et seq.*, accepts State employment, the member's retirement allowance is suspended during the period of the employment. Accordingly and notwithstanding any provision of this Contract to the contrary, the Contractor agrees that if it is later determined that the true nature of the working relationship between the Contractor and the State under this Contract is that of "employee/employer" and not that of an independent contractor, the Contractor, if a retired member of TCRS, may be required to repay to TCRS the amount of retirement benefits the Contractor received from TCRS during the Term.

20. Tennessee Department of Revenue Registration. The Contractor shall comply with all applicable registration requirements contained in Tenn. Code Ann. §§ 67-6-601 – 608. Compliance with applicable registration requirements is a material requirement of this Contract.

b) have not within a three (3) year period preceding this Contract been convicted of, or had a civil judgment rendered against them from commission of fraud, or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or grant under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false statements, or receiving stolen property;

d) have not within a three (3) year period preceding this Contract had one or more public transactions (federal, state, or local) terminated for cause or default.

22. Force Majeure. "Force Majeure Event" means fire, flood, earthquake, elements of nature or acts of God, wars, riots, civil disorders, rebellions or revolutions, acts of terrorism or any other similar cause beyond the reasonable control of the Party except to the extent that the non-performing Party is at fault in failing to prevent or causing the default or delay, and provided that the default or delay cannot reasonably be circumvented by the non-performing Party through the use of alternate sources, workaround plans or other means. A strike, lockout or labor dispute shall not excuse either Party from its obligations under this Contract. Except as set forth in this Section, any failure or delay by a Party in the performance of its obligations under this Contract arising from a Force Majeure Event is not a default under this Contract or grounds for termination. The non-performing Party will be excused from performing those obligations directly affected by the Force Majeure Event, and only for as long as the Force Majeure Event continues, provided that the Party continues to use diligent, good faith efforts to resume performance without delay. The occurrence of a Force Majeure Event affecting Contractor's representatives, suppliers, subcontractors, customers or business apart from this Contract is not a Force Majeure Event under this Contract. Contractor will promptly notify the State of any delay caused by a Force Majeure Event (to be confirmed in a written notice to the State within one (1) day of the inception of the delay) that a Force Majeure Event has occurred, and will describe in reasonable detail the nature of the Force Majeure Event. If any Force Majeure Event results in a delay in Contractor's performance longer than forty-eight (48) hours, the State may, upon notice to Contractor: (a) cease payment of the fees for the affected obligations until Contractor resumes performance of the affected obligations; or (b) immediately terminate this Contract or any purchase order, in whole or in part, without further payment except for fees then due and payable. Contractor will not increase its charges under this Contract or charge the State any fees other than those provided for in this Contract as the result of a Force Majeure Event.

23. Governing Law. This Contract shall be governed by and construed in accordance with the laws of the State of Tennessee, without regard to its conflict or choice of law rules. The Tennessee Claims Commission or the state or federal courts in Tennessee shall be the venue for all claims, disputes, or disagreements arising under this Contract. The Contractor acknowledges and agrees that any rights, claims, or remedies against the State of Tennessee or its employees arising under this Contract shall be subject to and limited to those rights and remedies available under Tenn. Code Ann. §§ 9-8-101 - 408.

24. Severability. If any terms and conditions of this Contract are held to be invalid or unenforceable as a matter of law, the other terms and conditions of this Contract shall not be affected and shall remain in full force and effect. The terms and conditions of this Contract are severable.

25. Headings. Section headings of this Contract are for reference purposes only and shall not be construed as part of this Contract.

26. Incorporation of Additional Documents. Each of the following documents is included as a part of this Contract by reference. Code Ann. §12-12-103(5) that engage in investment activities in Iran, shall be a material provision of this Contract. The Contractor certifies, under penalty of perjury, that to the best of its knowledge and belief that it is not on the list created pursuant to Tenn. Code Ann. § 12-12-106.

28. Major Procurement Contract Sales and Use Tax. Pursuant to Tenn. Code Ann. § 4-39-102 and to the extent applicable, the Contractor and the Contractor's subcontractors shall remit sales and use taxes on the sales of goods or services that are made by the Contractor or the Contractor's subcontractors and that are subject to tax.

29. Confidentiality of Records. Strict standards of confidentiality of records and information shall be maintained in accordance with applicable state and federal law. All material and information, regardless of form, medium or method of communication, provided to the Contractor by the State or acquired by the Contractor on behalf of the State that is regarded as confidential under state or federal law shall be regarded as "Confidential Information." Nothing in this Section shall permit Contractor to disclose any Confidential Information, regardless of whether it has been disclosed or made available to the Contractor due to intentional or negligent actions or inactions of agents of the State or third parties. Confidential Information shall not be disclosed except as required or permitted under state or federal law. Contractor shall take all necessary steps to safeguard the confidentiality of such material or information in conformance with applicable state and federal law.

Special Terms and Conditions

1. Conflicting Terms and Conditions. Should any of these special terms and conditions conflict with any other terms and conditions of this Contract, the special terms and conditions shall be subordinate to the Contract's other terms and conditions.

2. Estimated Liability. The total purchases of any goods or services under the Contract are not known. The State estimates the purchases during the Term shall be twenty-five million dollars ($25,000,000) ("Estimated Liability"). This Contract does not grant the Contractor any exclusive rights. The State does not guarantee that it will buy any minimum quantity of goods or services under this Contract. Subject to the terms and conditions of this Contract, the Contractor will only be paid for goods or services provided under this Contract after a purchase order is issued to Contractor by the State or as otherwise specified by this Contract.

3. Travel Compensation. The Contractor shall not be compensated or reimbursed for travel time, travel expenses, meals, or lodging.

4. Invoice Requirements. The Contractor shall invoice the State only for goods delivered and accepted by the State or services satisfactorily provided at the amounts stipulated above. Contractor shall invoice each State user agency ("Customer") directly, and that agency shall pay the vendor directly, with the funds coming from that agency's budget. Contractor shall submit invoices and necessary supporting documentation, no more frequently than once a month, and no later than thirty (30) days after goods or services have been provided to the following address:

In any such claim or action brought against the State, the Contractor shall satisfy and indemnify the State for the amount of any settlement or final judgment, and the Contractor shall be responsible for all legal or other fees or expenses incurred by the State arising from any such claim. The State shall give the Contractor notice of any such claim or suit, however, the failure of the State to give such notice shall only relieve Contractor of its obligations under this Section to the extent Contractor can demonstrate actual prejudice arising from the State's failure to give notice. This Section shall not grant the Contractor, through its attorneys, the right to represent the State of Tennessee in any legal matter, as provided in Tenn. Code Ann. § 8-6-106.

9. Additional lines, items, or options. At its sole discretion, the State may make written requests to the Contractor to add lines, items, or options that are needed and within the Scope but were not included in the original Contract. As part of the certification and at least annually afterwards, Contractors must be advised of the provisions of IRCs 7431, 7213, and 7213A (see Exhibit 4, Sanctions for Unauthorized Disclosure, and Exhibit 5, Civil Damages for Unauthorized Disclosure). III. INSPECTION

The IRS and the State, with 24 hour notice, shall have the right to send its inspectors into the offices and plants of the Contractor to inspect facilities and operations performing any work with FTI under this Contract for compliance with requirements defined in IRS Publication 1075. I. PERFORMANCE

In performance of this Contract, the Contractor agrees to comply with and assume responsibility for compliance by officers or employees with the following requirements:

(1) All work will be performed under the supervision of the Contractor.

(2) The Contractor and Contractor's officers or employees to be authorized access to FTI must meet background check requirements defined in IRS Publication 1075. The Contractor will maintain a list of officers or employees authorized access to FTI. Such list will be provided to the agency and, upon request, to the IRS.

(3) FTI in hardcopy or electronic format shall be used only for the purpose of carrying out the provisions of this Contract. FTI in any format shall be treated as confidential and shall not be divulged or made known in any manner to any person except as may be necessary in the performance of this Contract. Inspection or disclosure of FTI to anyone other than the Contractor or the Contractor's officers or employees authorized is prohibited.

(4) FTI will be accounted for upon receipt and properly stored before, during, and after processing. In addition, any related output and products require the same level of protection as required for the source material.

(5) The Contractor will certify that FTI processed during the performance of this Contract will be completely purged from all physical and electronic data storage with no output to be retained by the Contractor at the time the work is completed. If immediate purging of physical and electronic data storage is not possible, the Contractor will certify that any FTI in physical or electronic storage will remain safeguarded to prevent unauthorized disclosures.

(6) Any spoilage or any intermediate hard copy printout that may result during the processing of FTI will be given to the agency. When this is not possible, the Contractor will be responsible for the destruction of the spoilage or any intermediate hard copy printouts and will provide the agency with a statement containing the date of destruction, description of material destroyed, and the destruction method.

(7) All computer systems receiving, processing, storing, or transmitting FTI must meet the requirements in IRS Publication 1075. To meet functional and assurance requirements, the security features of the environment must provide for the managerial, operational, and technical controls. All security features must be available and activated to protect against unauthorized use of and access to FTI.

(8) No work involving FTI furnished under this Contract will be subcontracted without the prior written approval of the IRS.

(9) Contractor will ensure that the terms of FTI safeguards described herein are included, without modification, in any approved subcontract for work involving FTI.

(10) To the extent the terms, provisions, duties, requirements, and obligations of this Contract apply to performing services with FTI, the Contractor shall assume toward the subcontractor all obligations, duties and responsibilities that the agency under this Contract assumes toward the Contractor, and the subcontractor shall assume toward the Contractor all the same obligations, duties and responsibilities which the Contractor assumes toward the agency under this Contract.

(11) In addition to the subcontractor's obligations and duties under an approved subcontract, the terms and conditions of this Contract apply to the subcontractor, and the subcontractor is bound and obligated to the Contractor hereunder by the same terms and conditions by which the Contractor is bound and obligated to the agency under this Contract.

(12) For purposes of this Contract, the term "Contractor" includes any officer or employee of the Contractor with access to or who uses FTI, and the term "subcontractor" includes any officer or employee of the subcontractor with access to or who uses FTI.

(3) Additionally, it is incumbent upon the Contractor to inform its officers and employees of the penalties for improper disclosure imposed by the Privacy Act of 1974, 5 U.S.C. 552a. Specifically, 5 U.S.C. 552a(i)(1), which is made applicable to contractors by 5 U.S.C.

552a(m)(1), provides that any officer or employee of a contractor, who by virtue of his/her employment or official position, has possession of or access to agency records which contain individually identifiable information, the disclosure of which is prohibited by the Privacy Act or regulations established thereunder, and who knowing that disclosure of the specific material is so prohibited, willfully discloses the material in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than $5,000.

(4) Granting a contractor access to FTI must be preceded by certifying that each officer or employee understands the agency's security policy and procedures for safeguarding FTI. A contractor and each officer or employee must maintain their authorization to access FTI through annual recertification of their understanding of the agency's security policy and procedures for safeguarding FTI. The initial certification and recertifications must be documented and placed in the agency's files for review. As part of the certification and at least annually afterwards, a contractor and each officer or employee must be advised of the provisions of IRC sections 7213, 7213A, and 7431 (see Exhibit 4, Sanctions for Unauthorized Disclosure, and Exhibit 5, Civil Damages for Unauthorized Disclosure). The training on the agency's security policy and procedures provided before the initial certification and annually thereafter must also cover the incident response policy and procedure for reporting unauthorized disclosures and data breaches. (See Section 10) For the initial certification and the annual recertifications, the contractor and each officer or employee must sign, either with ink or electronic signature, a confidentiality statement certifying their understanding of the security requirements.

III. INSPECTION

The IRS and the Agency, with 24-hour notice, shall have the right to send its inspectors into the offices and plants of the Contractor to inspect facilities and operations performing any work with FTI under this Contract for compliance with requirements defined in IRS Publication 1075. The IRS' right of inspection shall include the use of manual and/or automated scanning tools to perform compliance and vulnerability assessments of information technology (IT) assets that access, store, process or transmit FTI. Board Update

To: Superintendent's Leadership Team
From: Shannon Jackson, Executive Director of College and Career Readiness
Subject: Renewal of Memorandum of Agreement with Ford Next Generation Learning (Ford NGL)

Knox County Schools is seeking approval to renew our Memorandum of Agreement (MOA) with Ford Next Generation Learning (Ford NGL) as a continuation of the district's long-term commitment to the work that began in Phase 1 of the Ford NGL framework.

We are currently entering the second year of Phase 5, a phase that emphasizes collaboration, refinement, and sustainability. As part of this phase, KCS will continue to actively engage with other districts in the national Ford NGL network through participation in both the Superintendents' Council and the Leadership Council.

Ford NGL Coaches will continue to provide support to Knox County Schools, though that support will now be more targeted to specific district needs as we move into deeper implementation and refinement.

For the 2025–2026 school year, Knox County Schools has identified three key priorities under this agreement:

1. Support Cohort 1 Schools during the final year of their academy development, with a focus on implementing high-quality senior capstone experiences for all students.

2. Further develop the Portrait of a Graduate by creating consistent language, instructional practices, and assessment tools that align with employer-identified durable skills and industry expectations.

3. Support Fulton High School as part of the Region 5 Plan, working toward the goal of securing NCAC Model Academy designations to promote and recognize excellence in one of the district's highest-need areas.

This renewed agreement reflects our district's ongoing commitment to ensuring all students graduate with the skills, experiences, and credentials needed to thrive whether they enroll, enlist, or employ after high school. We are grateful for the continued relationship and expertise that Ford NGL brings to this work.

FORD NEXT GENERATION LEARNING

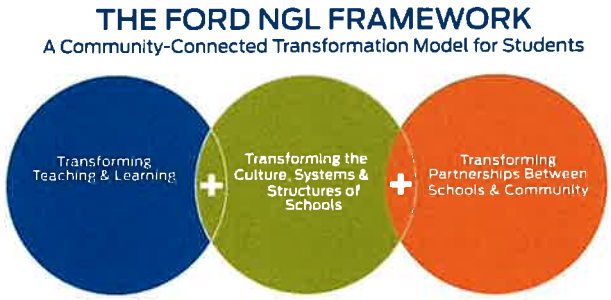
Ford NGL Phase 5: *"Go Further"* 2025-2026
Memorandum of Understanding

Knox County Schools, TN has completed Phase 1: Explore, Phase 2: Envision, Phase 3: Plan, Phase 4: Implement and Phase 5, Year 1: Going Further of the Ford NGL Roadmap. The 865 Academies would like Ford NGL's continued support in Phase 5, Year 2: Going Further of the Ford NGL Roadmap to achieve community-connected transformation. Knox County Schools and Ford NGL understand this work will begin July 1, 2025, and extend through June 30, 2026.

Comprised of an international network of communities, Ford NGL is dedicated to transforming cities, counties, and school systems by leveraging a collaborative, community-connected approach to transforming schools with the intent of increasing prosperity, strengthening talent pipelines, increasing equity, and ultimately preparing and supporting young people for colleges, careers, lifelong learning, and leadership.

The Ford Next Generation Learning Framework

The Ford NGL Framework consists of three distinct, but interconnected strands designed to transform schools. Implemented in tandem, these three strands—transforming teaching and learning; transforming the culture, systems, and structures of schools; and transforming partnerships between schools and communities—serve as the foundation upon which the Ford NGL change model is built.



Leveraging each of these strands, the Ford NGL Roadmap is a critical tool that guides communities through a structured community-connected process of exploring, envisioning, planning for, and implementing transformation.

2. STUDENT GROUP TICKET POLICIES

Please carefully review the following ticket policies for your Student Group Visit. This will ensure your school group, as well as all of our guests at Biltmore, will have an enjoyable and memorable experience.

It is important, ***in advance of your visit to Biltmore***, to identify your **Biltmore-Recognized Chaperones** vs. **Adult Guests**, as defined below:

- **Self-Guided groups** are required to have a minimum of two **Biltmore-Recognized Chaperones** assigned to each group of 20 students.
- **Biltmore-Recognized Chaperones** are defined as those pre-determined adults required to stay with their assigned Self-Guided group at all times and in all areas of Biltmore Estate including, but not limited to, Biltmore House, Gardens, and Antler Hill Village. Biltmore-Recognized Chaperones must maintain order and acceptable behavior of their group during the entirety of the school's visit to Biltmore.
    - As Biltmore requires two Biltmore-Recognized Chaperones per assigned group to ensure safety, those Recognized Chaperones will receive complimentary admission. Prior to arrival, it is the responsibility of the lead teacher to pre-determine those adults who will serve as Biltmore-Recognized Chaperones.

Division of students in groups are as follows:

Number of total students	Number of self-guided groups	Required number of Recognized Chaperones
75-80	4	8
81-100	5	10
101-120	6	12
121-140	7	14

- **Adult Guests** are defined as additional adults (including teachers, parents, etc.) outside of the aforementioned Biltmore-Recognized Chaperones guidelines.
    - Adult Guests are afforded a specially priced ticket rate for an audio-guided visit of Biltmore House, based on general ticket and Biltmore House entry time availability.
- **Bus Drivers** will receive complimentary Gardens and Grounds tickets. Gardens and Grounds tickets do not include admission into Biltmore House.
    - Groups with Bus Drivers who are also designated as Biltmore-Recognized Chaperones must arrive 60 minutes prior to their **Biltmore House** entry time, as opposed to the standard 45-minute prior arrival. This additional time allows for the arrival and parking sequence required for motorcoaches.

3. STUDENT GROUP ARRIVAL

- It is imperative that groups arrive on time and stay on schedule.
- School groups must arrive at the entrance to Biltmore Estate at least 45 minutes prior to your first scheduled activity.
- If your group is running late, please call the Group Sales Office at 828-225-1401.

4. STUDENT GROUP BILTMORE HOUSE GUIDELINES

- **Students must be divided into their chaperoned groups before entering the queue for Biltmore House.**
- Any student or adult displaying disruptive or destructive behavior will be asked to leave Biltmore House and may result in the entire class/school being asked to leave the Estate.
- A Self-Guided visit to Biltmore House includes multiple floors and several flights of stairs. Because of the historic architecture, only the First and Second Floors are accessible to guests with limited mobility and those guests may ride the elevator between those two floors. Guests who are unable to go to the Third Floor and Basement may visit our designated Second Floor rest area and watch a video of the rooms they are unable to access. An additional complimentary Biltmore-Recognized Chaperone ticket will be provided with advanced notice and approval from Group Sales to support any student with limited mobility or medical need.
- All backpacks, including child carriers, are prohibited. Guests should leave these items in their car or bus. Exceptions will be made for medical items after inspection. It is the responsibility of the Lead Teacher or a Biltmore-Recognized Chaperone to carry the medical items.
    - Estate Security will be conducting bag searches prior to entering Biltmore House. Unless it is medically necessary, we require all non-essential bags and backpacks be stored on your bus.
- Encourage students to dress for the weather.
    - Comfortable shoes are highly recommended.
    - Shoes with wheels (such as Heelys®) are not permitted inside Biltmore House.
- Food, drinks, chewing gum, tobacco, and vaping products of any kind are not permitted inside Biltmore House or any estate building.
- Biltmore is a privately owned estate with both Security Personnel and Law Enforcement Officers on the property. **In the interest of public safety, and for the safety of Biltmore employees and officers, Biltmore does not permit weapons/firearms inside Biltmore House or in estate establishments that serve alcohol.**
- Biltmore Merchandise Shops do not accept cash as a form of payment. Only credit cards, debit cards, and Biltmore gift cards are accepted.

5. STUDENT GROUP ANTLER HILL VILLAGE GUIDELINES

- If your plans include a visit to Antler Hill Village, please be sure to check our hours of operation prior to arrival at **https://www.biltmore.com/hours/hours-of-operation/**.
- Please be aware that some areas may be unavailable due to programs in session.
- When visiting Antler Hill Farm and Barnyard it is imperative to treat our animals with respect and care. The animals at the Barnyard are there for learning and enjoyment, and the younger animals are more easily injured.

6. COVID-19 CLAUSE

Biltmore and Group (each a "Party" and collectively, the "Parties") recognize the ongoing existence of Covid-19 at the time of contract signing. Additionally, each Party acknowledges the potential for certain limitations to exist, based on restrictions enacted by governmental agencies including, but not limited to, the State of North Carolina ("the State") and Buncombe County ("the County"). By signing this Contract, both Parties acknowledge the current level of restrictions within the State and the County are acceptable for the Event and hereby waive any right to modify this Contract, including cancellation, with Covid-19 as a rationale, as long as those restrictions do not increase to a level that would impact Biltmore's ability to fulfill obligations outlined within this Contract. Both Parties also agree that should Covid-19 related restrictions be modified and increased by the State or the County prior to the Event beyond the current restrictions and limit Biltmore's ability to perform services outlined within this Contract, Biltmore and Group agree to collaborate in good faith on mutually agreeable solutions including, but not limited to, modifying Group numbers, moving to alternate venues and rescheduling. Any modification to State or County restrictions that do not limit Biltmore's ability to provide the services contracted shall not be a cause for cancellation, modification or rescheduling of the contracted dates and events. If modifications to Covid-19 restrictions are implemented by the State or County and the Parties are unable to mutually agree upon a solution, either Party may choose to cancel the entire Group event which is the subject of this Contract, without penalty to either Party. All references to "Covid-19" herein shall include any variants thereof or other pandemic concerns.

Garrett, can you let me know when (if) HVA is authorized to proceed?
Checovoia, I assume since we previously determined that the hitting facility is shared between baseball & softball, there are no resultant Title IX issues, correct?

Thanks.

Thank you.

BEFORE INSTALLATION BEGINS

1. Your installation dates are tentative and may change due to weather and/or other unforeseen circumstances. We cannot be liable for lost wages due to schedule changes.
2. We will perform only the work specifically listed on the contract. Verbal agreements cannot/will not be honored.
3. If your insurance check has your mortgage company(s) listed on it, you may need to contact them directly to complete their paperwork. Please begin working with our Accounts Receivable department to expedite the processing of the check(s) if your mortgage company(s) is listed on them to avoid interest. This process can take several weeks, so please begin the process as soon as possible, or let us do it for you. If you choose to let us process payments with your mortgage company(s), we may need to obtain documentation from you.
4. Sags in your roof may be caused by old age, sagging rafters or weak decking. During installation of your roof, we will replace damaged decking not suitable to hold nails. Decking that is warped may not be replaced unless instructed on the contract. If you wish to have sags and/or dips removed, this work needs to be described on the contract.
5. We order extra material so that we don't run short on your job. Leftover material is the property of Best Choice Roofing.
6. Do you have air conditioning coolant lines or any other pipes running on the underside of decking? NO (yes or no)

INITIALS: [illegible] X

DURING INSTALLATION

1. Homeowner agrees to make their residence available during regular business hours Monday through Friday for repairs. If access is not allowed to the property, Best Choice Roofing reserves the right to credit funds for those services back to the homeowner and preclude itself from engaging in that work. Interior work may take more than one day.
2. Crews that show up are only knowledgeable about the work they are doing that day. They will not be able to answer questions regarding other work that needs to be performed. If you have questions regarding your installation, please call your local branch or (866) BESTCHOICE.
3. We clean up regularly but can assure you we will not get all of the debris and/or nails. Please take caution during and after the installation process. A freshly mowed lawn will help us clean up debris and nails.
4. During installation, your home will be a construction zone. We do our best to protect landscaping, but damage may occur. We cannot be held liable for bushes and/or other landscaping. We request a six-to-eight-foot buffer zone to be cleared around your house. Please be sure to move cars out of the driveway and clear your patio and/or deck.
5. We do our best to protect your property, but small dings and scratches to your gutters may be present after the removal and installation of your new roof.
6. Unless specified on the contract, replacement of decking is not included in your pricing. If decking is required, an additional charge will be necessary. Please refer to your contract for pricing of decking.
7. There may be debris in your attic after the installation. Please take precautions.
8. Best Choice Roofing may preclude itself from services for any reason, including if the scope of work changes. Best Choice Roofing will then provide a refund or credit to the property owner for work not completed.
9. During the installation of your roof, we are required to use manufacturer approved fasteners (nails) that may penetrate completely through the decking. The nails may disturb the paint and/or be exposed on open soffits. The cost to paint or cover those nails, if desired, is an additional expense.

AFTER INSTALLATION

1. After completion of the entire job, we will need to obtain a Certificate of Completion within 24 hours. If we are unable to obtain this within 48 hours, we will notify your insurance carrier that the contracted work has been completed and ask they contact you directly to verify and to release remaining funds (if applicable).
2. Your out-of-pocket expenses will be collected immediately upon completion.
3. Balances owed by you are due immediately upon completion.
4. After completion of all the work, we will file for depreciation (if applicable). These funds will be sent directly to you. We ask that you forward the funds to us promptly upon receipt.
5. If you have a warranty claim, please call (866) BESTCHOICE.
6. We will not file for depreciation for work we did not complete for you, nor will we file supplemental claims for work we are not contracted to do.
7. Any concerns with completed work or damage(s) must be communicated to our corporate office within 48 hours.

Liminex Products Terms of Service and End User License Agreement

Last Updated Date: June 11, 2025

Introduction

Welcome! Before using any of our Offerings, please take the time to review this combined Terms of Service and End User License Agreement (EULA), together with any applicable Order Form(s), the **Product Privacy Policy**, and, if applicable, the **Data Processing Addendum** and **Professional Services Addendum** (collectively, the "Agreement"). Capitalized words have the definitions set forth throughout this Agreement, including in Section 17 (Definitions).

When does this Agreement apply? This Agreement governs the use of the Offerings and is a binding contract between School (sometimes referred to as "School," "you," or "your") and Liminex, Inc. doing business as GoGuardian and Pear Deck Learning, and acting on behalf of itself and its Affiliates ("Liminex", "we," "us", or "our"). This Agreement is distinct from our **Website Terms of Service**, which governs only use of our Website.

BY CLICKING AN "I AGREE" OR "I ACCEPT" BUTTON; EXECUTING AN ORDER FORM THAT REFERENCES THIS AGREEMENT; COMPLETING THE REGISTRATION PROCESS; OR INSTALLING OR USING ANY OFFERINGS IN ANY WAY, SCHOOL AGREES TO THE TERMS OF THIS AGREEMENT. IF THE INDIVIDUAL ACCEPTING THIS AGREEMENT IS ACCEPTING THIS AGREEMENT ON BEHALF OF A SCHOOL, SCHOOL DISTRICT, CORPORATION, ORGANIZATION OR OTHER LEGAL ENTITY, SUCH INDIVIDUAL REPRESENTS AND WARRANTS THAT THEY ARE AT LEAST EIGHTEEN (18) YEARS OLD AND HAVE THE AUTHORITY, THE RIGHT, AND THE CAPACITY TO LEGALLY BIND SUCH SCHOOL, SCHOOL DISTRICT, CORPORATION, ORGANIZATION OR OTHER LEGAL ENTITY AND ITS AFFILIATES TO THIS AGREEMENT, IN WHICH CASE THE TERM "SCHOOL" SHALL REFER TO EACH SUCH ENTITY AND ITS AFFILIATES.

You are free to reject this Agreement, but if you do not agree with all of the provisions of this Agreement, then you may not use any of our Offerings in any way.

IMPORTANT NOTICES:

- Section 15.2 contains provisions governing how claims are resolved between us, including a requirement for binding arbitration and class action waiver.
- You understand that use of some of our Offerings may require the consent for monitoring and recording information and communications of all users on the Managed Devices or Accounts under Applicable Law. You represent and warrant that you have obtained such requisite consent.
- We may make non-material modifications to this Agreement or changes that expand our obligations, reduce your obligations, or introduce a new product offering immediately without notice to you. Otherwise, we will only modify or replace this Agreement, after providing notice to you in accordance with Section 16.1. You are responsible for regularly reviewing your Account and our Website for any changes to the Agreement.
- Your use of, and participation in, certain Offerings may be subject to additional terms ("Supplemental Terms") and such Supplemental Terms will either be listed in this Agreement, an Order Form or will be presented to you for your acceptance when you sign up to use the supplemental Offerings. If this Agreement is inconsistent with the Supplemental Terms, the Supplemental Terms will control with respect to the Offerings with which it applies.

i. *We have included, in italics at the beginning of each section, summaries that provide short explanations of the legal language in plain English to aid in understanding, but such summaries are not legally binding.*

1. Getting Access To and Started With Our Offerings

i. *This Section explains how to establish and maintain Account(s). This Section describes the importance of being mindful about the information and settings in an Account – the value of our tools is dependent on the accuracy of the information you provide and the proper selection of product settings.*

We generally make our Offerings available on a paid subscription-based license. As further described in Section 4.1, from time to time and in its sole discretion, we may offer limited free, trial or beta Offerings at no additional charge. For Pear Deck Tutor, we may offer pre-paid tutoring hours for a subscription term, in addition to the paid subscription-based licensing model.

1.1 Ordering

You may obtain Subscriptions to our Offerings either directly from us or one of our Affiliates or indirectly through one of our Authorized Resellers. If you purchase a Subscription to an Offering through an Authorized Reseller, you will enter into an Order Form directly with such Authorized Reseller and may be subject to additional terms as agreed upon between you and the Authorized Reseller. You expressly agree that this Agreement governs your access to and use of any Offering that you acquire from an Authorized Reseller, as well your relationship with us as to any products or services you purchase through an Authorized Reseller. You further agree that we and our Affiliates have the right to enforce the terms of this Agreement with respect to such purchases. You also acknowledge that no Authorized Reseller is authorized to provide warranties with respect to any Offerings in excess of those provided by us in this Agreement. The terms regarding any value-added

services provided to you by an Authorized Reseller are solely between you and the Authorized Reseller and we have no responsibility for any such services.

If during the Subscription Term, you would like to expand your base Subscription(s) to include additional licenses above your Licensed Capacity, please contact us so that we can send you an additional Order Form for those Add-Ons. If we do not hear from you and you deploy additional Licenses, we or, as applicable, an Authorized Reseller will send you an Order Form and invoice you for the subscriptions to the Add-Ons that you use above your Licensed Capacity. Add-Ons, once deployed and paid, will be rolled into your base Subscription.

1.2 Accounts

Before accessing certain Offerings, you may be required to create an Account. When setting up your Account, you may link your Offerings with your Google, Microsoft, and/or Learning Management System ("LMS") account for ease of sign on and, for certain Offerings, to pull in a directory of Managed Accounts or Devices. In linking your Account to your Google, Microsoft, and/or LMS account, you are granting us access to certain account information from your Google, Microsoft, and/or LMS account, as permitted under the applicable terms and conditions that govern your use of that Google, Microsoft, or LMS account.

1.2.1

Authorized Users. Within your Account, you may have the ability to enable separate sub-accounts for Authorized Users. You are responsible for issuing and maintaining such sub-accounts only for appropriate Authorized Users, as well as issuing and maintaining appropriate permission settings for each Authorized User.

1.2.2

School Information. When creating an Account, you agree to (a) provide true, accurate, current and complete information necessary to create the Account and to deploy the Offerings you have subscribed to on Managed Devices or Accounts; and (b) promptly update any such information to maintain its accuracy and completeness during the Term. Without limiting the generality of the foregoing, you agree to provide and maintain accurate, up-to-date and complete School Profile Information, and for Accounts, Authorized School Personnel Information, Personal Student Information, Parent/Guardian Information, and Association Data. You acknowledge and agree that proper implementation and operation of certain Offerings depends largely on the accuracy, completeness and timeliness of the Personal Student Information, Parent/Guardian Information and Association Information ingested into the product; therefore, it is of the utmost importance that you take great care in maintaining and updating this Personal Student Information, Parent/Guardian Information and Association Information at all times during the Term.

You are responsible for ensuring the confidentiality and security of School Account Information, including protecting, and requiring your Authorized Users to protect, usernames and passwords associated with your Account, and notifying us immediately if you suspect or know that (1) a username and password is known by someone other than the applicable Authorized User; and/or (2) your Account (including any individual Authorized User account) has been compromised.

1.2.3

Account Settings. You are responsible for selecting and updating the settings in the Offerings you subscribe to as you see fit and ensuring that the selections comply with all Applicable Law, as well as any guidelines and requirements you have established, including, with respect to use of the GoGuardian Offerings, for monitoring Managed Devices or Accounts and parents' or guardians' authorization of such monitoring. If you have questions about any settings in an Offering or your Account, such as permissions and settings associated with Managed Devices or Accounts, please visit, as applicable, the GoGuardian **Help Center** and/or contact **support@goguardian.com**, or visit the Pear Deck **Help Center** and/or contact **support@deck.peardeck.com**, or visit the Pear Assessment **Help Center** and/or contact **support@assessment.peardeck.com**, or visit the Pear Deck Tutor **Help Center** and/or contact **support@tutor.peardeck.com**, or visit the Pear Practice **Help Center** and/or contact **support@practice.peardeck.com**.

1.3 Payment Terms

Fees due for initial orders, any Add-Ons to, and any subscription renewals of Offerings shall be set forth in the applicable Order Form ("Fees"). Fees for Subscriptions you purchase directly from Liminex or one its Affiliates shall be paid within thirty (30) days of the date of our issuance of an invoice for such purchases, unless otherwise stated on an Order Form. Payment obligations for purchases made through an Authorized Reseller shall be as agreed upon by you and the Authorized Reseller.

Fees do not include any taxes, levies, duties or similar governmental assessments of any nature, including, for example, value-added, sales, use or withholding taxes, assessable by any jurisdiction; you are responsible for paying all such taxes, levies, duties and assessments associated with purchases and transactions under this Agreement.

Unless otherwise stated on an Order Form, Fees are paid in advance of each billing period. Payment obligations under this Agreement are non-cancelable and all Fees paid are non-refundable. Upon your cancellation or termination of any Subscription, you remain responsible for payment of all Fees allocable to the terminated portion of the Subscription Term referenced in the applicable Order Form without any refund owed to you, unless otherwise mutually agreed to in writing between you and us.

Upon notice to you, we may increase any Fees specified in an Order Form, provided the increase will not become effective until the expiration of the current Subscription Term. We may increase any Fees that are not specified in an Order Form at any time, with or without notice to you. We may allow you to continue using a free, trial or beta Offering on a paid Subscription basis, but your continued use and your Subscription would be subject to a completed Order Form and payment of the applicable Fee.

For certain Offerings, we will endeavor to notify you if your paid Account has delinquent fees. If delinquent fees are not paid, we will suspend your use of the Services.

2. Offerings

i. *This Section explains more about the Offerings, including updates to such offerings and linkages with other third party integration software that we make available to you. Offerings may experience downtime or we may suspend access to Offerings in certain situations.*

2.1 Access and Updates to Offerings

We will make our Offerings to which you have subscribed available to you, subject to the terms of this Agreement. From time to time, we may also make updates to the Offerings available to you. You agree that we may automatically install or add updates, upgrades, and new features to the Offerings that we deem to be reasonable, beneficial to you, and/or reasonably necessary without advance notice to you. You acknowledge and agree that any obligation we may have to support previous version(s) of any Offering may end when we release an update, upgrade, and/or additional feature for the Offering. The license granted for a Subscription shall apply to any updates, upgrades, and/or additional features that are not distributed with a separate license or other agreement. If we make any material changes to an Offering, we will notify you within the Offering interface or by sending you an email.

With respect to an Offering accessed through or downloaded from the Apple App Store, Google Play Store, or Microsoft Store (each, an "App Store") (an "App Store Sourced Application"), you acknowledge and agree that the availability of the App Store Sourced Application is dependent on the App Store.

2.2 Downtime and Suspension of Offerings

You acknowledge that you may experience downtime (a) as a result of our conducting maintenance; or (b) in connection with a force majeure event (as described in Section 16.5). In addition, you acknowledge that we, may at our discretion, suspend your access, or suspend access of one of your Authorized Users, to the Offerings for your breach, or your Authorized Users' breach, of this Agreement, if we have reasonable grounds to suspect that any School Account Information provided by you or any Authorized User is untrue, inaccurate, not current or incomplete, or if we deem it reasonably necessary to avoid or mitigate harm to us, you, any other of our customers or a third party if the Offerings were not suspended, or to comply, in our sole discretion, with legal requirements.

2.3 Integrations with Offerings

We may allow you to access certain third party software or offerings (e.g., YouTube) through your Account via an application programming interface ("API") or other technical connection (such software or offering, an "Integration Offering"). Because you control whether to integrate and use an Integration Offering, you are solely responsible for all interactions with the Integration Offering, including ensuring appropriate privacy, contractual, and other protections with it as well as ensuring that you are complying with any terms, such as the YouTube Terms of Service, you are required to agree with the provider of such Integration Offering depending on the Integration Offering being accessed. Integration Offerings are not "Offerings" under this Agreement and are not subject to any of the warranties, service commitments or other obligations with respect to Offerings hereunder. The availability of any Integration Offering through any of our Offerings does not imply our endorsement of or affiliation with the provider of such Integration Offering. We do not control any Integration Offering and will have no liability to you in connection with any Integration Offering. We have no obligation to monitor or maintain access to Integration Offerings, and may disable the ability to integrate with them or restrict access to any Integration Offerings at any time, with or without notice to you (though we, of course, will endeavor to provide notice of any such disabling whenever reasonably practicable under the circumstances). By using or enabling any Integration Offering, you are expressly permitting us and our Affiliates to disclose your School Profile Information, and, to the extent applicable to your Offering, your Authorized School Personnel Information, Personal Student Information, Parent/Guardian Information, Association Information or other information, including

support requests and Log and Cookie Information to the extent necessary to utilize the Integration Offering. Regarding the Google Workspace API, we do not use this API to develop, improve, or train generalized artificial intelligence and/or machine learning models. YOUR USE OF ANY INTEGRATION OFFERINGS IS AT YOUR OWN RISK AND IS SUBJECT TO ANY ADDITIONAL TERMS, CONDITIONS AND POLICIES APPLICABLE TO SUCH INTEGRATION OFFERINGS (SUCH AS TERMS OF SERVICE OR PRIVACY POLICIES OF THE PROVIDERS OF SUCH INTEGRATION OFFERINGS).

3. Your Use of Offerings and Your Responsibilities

i. *This Section explains that Liminex licenses our Offerings to you for certain uses. Please use our Offerings responsibly and appropriately.*

3.1 License Grant to You; Restrictions

We hereby grant to you a limited, non-exclusive, non-transferable, non-sublicensable, revocable license and right to use the specific Offering(s) as set forth in an Order Form and the related User Documentation, during the Subscription Term and solely for School's internal business purposes.

The rights granted to School in this Agreement are subject to the following restrictions: School shall not (a) license, sell, rent, lease, transfer, reproduce, distribute, host or otherwise commercially exploit any portion of any Offering or User Documentation, or otherwise provide access to any portion of any Offering or User Documentation to any third party (other than Authorized Users, when and as permitted herein); (b) frame or utilize framing techniques to enclose any trademark, logo, or other portion of any Offering (including images, text, page layout or form); (c) use any metatags or other "hidden text" using the names or trademarks of Liminex or any of its Affiliates; (d) modify, translate, adapt, merge, make derivative works of, disassemble, decompile, reverse compile or reverse engineer any part of any Offering or User Documentation; (e) use any manual or automated software, devices or other processes (including but not limited to spiders, robots, scrapers, crawlers, avatars, data mining tools or the like) to "scrape" or download data from any web pages contained in any Offering or User Documentation; (f) access any Offering or User Documentation in order to build a similar or competitive website, product or service; (g) access any Offering for purposes of monitoring its availability, performance or functionality, or for any other benchmarking or competitive purposes without our prior written permission; and (h) remove any copyright notices or other proprietary markings contained on or in any Offering or User Documentation. Any future release, update or other addition to any Offering shall be subject to this Agreement. We and our suppliers reserve all rights not granted in this Agreement. Any unauthorized use of an Offering terminates your right to use all Offerings.

3.2 School Responsibilities

School will (a) be responsible for Authorized Users' compliance with this Agreement (including any applicable Order Form) and the User Documentation, (b) be responsible for the accuracy, quality and legality of School Account Information, and the means by which School acquires School Account Information, Activity Information, Personal Student Information, Parent/Guardian Information, and Log and Cookie Information and School's use of any such information, (c) use commercially reasonable efforts to prevent unauthorized access to or use of the Offerings, and notify

us promptly of any such unauthorized access or use, (d) use the Offerings only in accordance with this Agreement, User Documentation, and all Applicable Law, and (e) comply with the terms of service of any Integration Offering with which School use an Offering. Any use of an Offering in breach of the foregoing by School or any Authorized User that in our judgment threatens the security, integrity, or availability of an Offering may result in immediate suspension of access to any or all Offerings.

School acknowledges that it is solely responsible for compliance with any legal or policy obligations related to the protection of the well-being of its students and that it understands that certain Offerings are only intended to be a tool to assist School as part of a broader program intended to fulfill any legal or policy obligations, to the extent applicable. For example, the Liminex Parties make no representation or warranty that any of the GoGuardian Offerings, alone or in combination with any other efforts, will be effective in detecting or stopping suicide, violence to self or others, or any other kind of risky behavior by a student of School or any other individual. We are not responsible for, and School expressly waives any claim for liability against the Liminex Parties related to, any student or other individual's death, illness, bodily injury, disability, emotional distress or other outcome. To the maximum extent permissible by law, such waiver shall extend to any School personnel, student, student family, estate or other third parties. To the extent that any Liminex Party is made a party to any dispute related to any such death, illness, bodily injury, disability, or other outcome, School shall indemnify us in accordance with Section 13, below.

3.3 General Acceptable Use Policy

We need your help to ensure that the Offerings are used safely and appropriately. You agree, represent and warrant that you and your Authorized Users will not use any Offering:

- On any computers and/or accounts on which you do not have permission to operate and on which the Offerings cannot be legally and rightfully operated.
- To do anything, including posting or otherwise communicating any information that is abusive, harmful, threatening, harassing, libelous, bullying, stalking, or otherwise objectionable.
- To do anything unlawful, deceptive, misleading, illegal, unethical, malicious, or discriminatory.
- To intentionally violate another person's privacy rights under Applicable Law.
- For commercial purposes (beyond School's internal business purposes).
- To do anything to burden, compromise, or interfere with any Offering, its appearances, security, or functionality.
- In any way that jeopardizes the security of your or any other party's account.
- To advertise, solicit, or transmit commercial advertisements, including without limitation, junk e-mail, spam, or any other unsolicited messages regardless of the medium (e.g., email, text, SMS, chat, etc.).

School is responsible for any failure by any Authorized User to comply with this General Acceptable Use Policy.

4. Special Terms for Free, Trial and Beta Offerings

i. *This Section explains that we may make free, trial, or beta offerings available for you to test and provide us with Feedback about whether an Offering meets your needs. Because these Offerings are different from paid Subscriptions, there are special terms for them.*

4.1 Free or Trial Subscriptions

If we make an Offering available to you on a free or trial basis, it is so you can use the Offering before purchasing a Subscription to determine if it meets your needs. Trial subscriptions to an Offering shall be subject in all respects to the terms of this Agreement, except that to the extent permitted by Applicable Law, we (a) may discontinue the Offering or your ability to use it at any time, with or without notice and without any further obligations to you; (b) provide the Offering to you solely "AS IS" without any warranties of any kind; and (c) will have no liability for any harm or damages suffered by you or any third party in connection with the use or inability to use the Offering during the trial period.

4.2 Beta Offerings

We sometimes make new Offerings or features within existing Offerings available on a beta basis ("Beta Offerings"). Beta Offerings are generally prerelease or untested products or features. Features or offerings labeled as "alpha," "beta," or "test" within the interface of an Offering are beta Offerings subject to this Section. Unless otherwise agreed in writing by us, any Offering or feature provided as a beta Offering shall be subject in all respects to the terms of this Agreement, except that to the extent permitted by Applicable Law, we (a) may discontinue the beta Offering or feature or your ability to use it at any time, with or without notice and without any further obligations to you (though we, of course, will endeavor to provide notice of any such disabling whenever reasonably practicable under the circumstances); (b) provide the beta Offering or feature to you solely "AS IS" without any warranties of any kind; and (c) will have no liability for any harm or damages suffered by you or any third party in connection with the use or inability to use the beta Offering or feature during the beta period. Additionally, as consideration for access to and use of any beta Offering, you agree to (1) treat the beta Offering as our Confidential Information; and (2) provide regular Feedback about the beta Offering, if requested.

5. Term, Termination

i. *This Section explains the duration of this Agreement as well as your and our' obligations after this Agreement ends.*

5.1 Term

Unless terminated earlier in accordance with the terms of this Agreement, the Term commences on the Effective Date and continues until all of your Order Forms and Subscription Terms expire.

5.2 Termination

Either party may terminate this Agreement (a) if the other party is in material breach of this Agreement and fails to cure such breach within thirty (30) days after its receipt of notice thereof, or (b) upon thirty (30) days' notice to the other party. School shall continue to be responsible for all Fees for the terminated Subscription Term and other Fees agreed to in the Order Form except to the extent School terminates this Agreement as a result of our uncured material breach or we terminate this Agreement without cause (i.e., not as a result of School's uncured material breach), in which cases School shall not be obligated to pay for (and shall be entitled to a refund by us of) the Fees allocable to the unused portion of the Subscription Term.

5.3 Effect of Termination or Expiration

Upon termination or expiration of this Agreement, you will have no rights to continue use of (or to provide your Authorized Users with access to) the Offerings or User Documentation, and you immediately will cease accessing and/or using the Offerings and User Documentation, including by, where applicable, erasing and/or uninstalling all downloaded or copied versions of any Offerings and User Documentation, and returning to us or destroying any accompanying User Documentation in your possession or control. The following will survive any expiration or termination of this Agreement: Sections 1.2, 1.3 (for Fees incurred during the Term), 2.3, 3 (except as otherwise set forth therein), 5.2, 5.3, 6, 7, 8, 10, 11, 12, 13, 14, 15, and 16.

6. Intellectual Property

i. *This Section explains that we ask that you please protect our and others' intellectual property.*

6.1 Ownership

We or our Affiliates (or their licensors) own all right, title and interest in and to the Offerings (including, but not limited to, all photographs, animations, statistics, graphics, text, and any other materials contained therein), the Liminex Information, including, without limitation, all intellectual property rights therein. Subject to the limited rights expressly granted to you under this Agreement, we and our Affiliates reserve all rights, title and interest in and to the Offerings and the Liminex Information, including, without limitation, all related intellectual property rights. The service marks, logos and product and service names of Liminex and its Affiliates (the "Liminex Marks") are owned by Liminex and our Affiliates. You agree not to display or use any Liminex Marks in any manner without our prior written permission. Any trademarks, service marks and logos associated with an Integration Offering may be the property of the third party provider, and you should consult with their trademark guidelines before using any of their marks.

6.2 Feedback

Any and all of your feedback about us or the Offerings, such as suggestions, whether made by you or any of your Authorized Users, for corrections, updates, alterations, changes, or modifications to the Offerings ("Feedback") will be our property and you hereby assign any rights in such Feedback to us, without payment to you.

6.3 Protection of Our Rights

You agree to protect our intellectual property and proprietary rights and any provider of an Integration Offering you access in connection with an Account, and notify us of any unauthorized access or use of the Offerings or Integration Offerings of which you become aware.

7. Confidentiality

i. *This Section explains that each party must respect each other's Confidential Information.*

As a reminder, our **Product Privacy Policy** explains our commitment to protecting School Account Information, Personal Student Information, Parent/Guardian Information, Activity Information and/or Log and Cookie Information, and nothing in this Section 7 limits the parties' respective rights or obligations under the **Product Privacy Policy** or Section 8, below. A party will not disclose or use any Confidential Information of the other party except: (a) as reasonably necessary to perform its obligations or exercise any rights granted pursuant to this Agreement; (b) with the other party's prior written permission; or (c) to the extent required by law or order of a court or other governmental authority or regulation. Each party agrees to protect the other party's Confidential Information in the same manner that it protects its own Confidential Information of like kind, but in no event using less than a commercially reasonable standard of care consistent with Applicable Law. Notwithstanding any exceptions in the definition of Confidential Information, the parties agree to treat all Education Records as Confidential Information and disclosure thereof is allowed only to the extent permitted under FERPA.

8. Privacy and Data

i. *This Section explains that the parties each have responsibilities to help protect the privacy of data ingested or maintained in the Offerings. The **Product Privacy Policy** explains, in more detail, how we protect information.*

8.1 Our Privacy Responsibilities

Our **Product Privacy Policy**, incorporated herein by reference, explains how we collect, use, share, and safeguard School Account Information, Personal Student Information, Parent/Guardian Information, Activity Information and/or School Log and Cookie Information accessed, recorded and collected through the Offerings, including any free, trial or beta Offerings. Our data collection practices related to our Offerings that utilize artificial intelligence comply with our **Product Privacy Policy**. We rely on consent obtained from School, acting as an agent of the parent(s) or legal guardian(s) of School's students, as permitted by the Children's Online Privacy Protection Act ("COPPA") for using Offerings in connection with students under thirteen (13) years of age, if any, through a COPPA Notice and Disclosure Form we provide to you. For transparency and informational purposes, we also distribute this COPPA Notice and Disclosure Form to Subscription purchasing Schools with children of all ages, including ones who do not have students under thirteen (13) years of age. To the extent School is located in the European Union ("EU"), European Economic Area ("EEA"), or Switzerland, our **Data Processing Addendum** also applies to your use of the Offerings. School hereby authorizes us to use School Account Information in accordance with this Agreement, the **Product Privacy Policy** and, to the extent applicable, the **Data Processing Addendum**.

8.2 School Privacy Responsibilities

You represent and warrant that your collection, provision and use of School Account Information, Personal Student Information, Parent/Guardian Information, Activity Information and/or Log and Cookie Information through and in connection with the Offerings does not violate any Applicable Laws or rights of any third party. Without limiting the foregoing, to the extent you are using the Offerings, you represent and warrant that you have obtained all requisite consent for monitoring and recording information and communications, including the Activity Information. You are solely responsible for notifying the appropriate individuals about the existence of any Offerings on the Managed Devices or Accounts they use and/or in connection with their accounts associated with School's Account and obtaining any required consent from such individuals in accordance with Applicable Law. Even if not required by Applicable Law, we recommend that you notify all users of Managed Devices or Accounts and their respective parents/guardians, teachers, and other appropriate staff about your use of Offerings. More specifically, we recommend that you provide such persons with a copy of our **Product Privacy Policy**, our COPPA Notice and Disclosure Form, and with respect to GoGuardian Offerings, GoGuardian's form Parental Letter, and any other parental information made available by us.

8.3 Educational Records; FERPA

Where School is located in the United States and to the extent we collect, through the provision or maintenance of any Offerings, any information that constitutes an Education Record, the parties agree that we are acting as a "school official" with "legitimate educational interests" in School's students' Education Records under FERPA, or if applicable, is acting under another applicable FERPA exception listed in under FERPA regulation 34 C.F.R. § 99.31(a)(1), such as the "directory information" exception. School acknowledges and agrees that we may process School Account Information, Personal Student Information, Parent/Guardian Information, Activity Information and/or School Log and Cookie Information for the purpose of providing the Offerings and related functions. Our **Product Privacy Policy** explains how we cooperate with School under FERPA to fulfill Education Records requests directed from School (or through School from parents/guardians or eligible students). School represents and warrants that it is authorized to process such information, including any Education Records contained therein, and make such information available to us as set out in this Agreement and the **Product Privacy Policy**.

8.4 Data-Related Disputes

School is solely responsible for resolving disputes between it and third parties regarding ownership or access to any School Account Information, and any Personal Student Information, Parent/Guardian Information, Activity Information and/or School Log and Cookie Information, including any dispute with any Authorized User, user of a Managed Device or Account, or their families. School acknowledges and agrees that we have no obligation to resolve or intervene in such disputes.

8.5 Disclosure of School Information

You acknowledge, consent, and agree that we may access, preserve, and disclose your School Account Information, Personal Student Information and Parent/Guardian Information, Activity Information and/or School Log and Cookie Information if required to do so by law or in a good faith belief that such access, preservation, or disclosure is reasonably necessary to: (a) comply with legal

process; (b) to enforce this Agreement or the **Product Privacy Policy**; (c) respond to claims that any content violates the rights of third parties; (d) respond to your requests for customer service; or (e) protect the rights, property, or personal safety of us, our users, and/or the public.

9. Alerts and Notifications

This section applies to the GoGuardian Offerings only.

i. *This Section explains that some GoGuardian Offerings are designed to generate alerts and/or have other notification features, and that, through your settings, you have some ability to control whether to receive certain alerts and/or notifications. It is important for you to understand these features and settings, and to review alerts and notifications carefully and promptly so that you can properly intervene to help students stay safe.*

Some GoGuardian Offerings contain features that generate alerts and/or notifications for School or a designated Authorized User's review and attention related to a user's activity through a Managed Device or Account. These alerts and notifications are tools designed to help you support and protect the wellbeing of your students and school community. If you receive an alert and/or gain access to any information that triggers a legal obligation, such as a reporting or intervention duty for you (including, for an example, an alert from a GoGuardian Offering that one of your students is potentially at risk of suicide), it is your sole responsibility to fulfill that legal obligation and take any additional, responsible actions necessary to safeguard the students in compliance with Applicable Law. In addition, to the extent you elect not to receive one or more types of alerts and/or notifications in your settings, you are solely responsible for that decision. Unless otherwise specified in the Supplemental Terms, we do not review alerts generated through any of the Offerings or take any action based on these alerts or review your settings.

Your escalation and notification list for such alert and/or notification feature in your account for a particular GoGuardian Offering may change from time to time, including because contact information changes (e.g., changes in School Profile Information, its Authorized School Personnel Information, Personal Student Information and Parent/Guardian Information (e.g., contact information, including an Authorized User's email address, or changes in Parent/Guardian Information), and Association Information, including, for example, the relationship of an Authorized School Personnel or a guardian/parent to a child/student changes (e.g., change in guardianship or educational rights holder). Without limiting the generality of Section 1.2.1, it is important that you maintain accurate and up-to-date Authorized School Personnel Information, Personal Student Information, Parent/Guardian Information, and Association Information to ensure the appropriateness and timeliness of any alerts and notifications generated through a GoGuardian Offering. It is also important that you remind parents/guardians to update School of any changes, including contact information and guardianship.

Additionally, without limiting the generality of the other terms of this Agreement, if your School uses GoGuardian Beacon or GoGuardian Admin (the Beacon starter function), your School represents and warrants that your School: (1) is solely responsible for having, to the extent legally required, an up-to-date and easily available suicide prevention policy; (2) is solely responsible for having, to the extent legally required, a necessary suicide prevention program; and (3) your School will notify parents/guardians about your School's adoption of GoGuardian Beacon and educate them about suicide prevention (including, suicide risk factors, warning signs, and resources) before enabling the Guardian Notification feature (or similar functionality) of GoGuardian Beacon or GoGuardian Admin (the self harm smart alerts or Beacon starter function).

Further, GoGuardian Beacon sends SMS messages only to users who have opted-in to receive text messages from "Your Beacon Profile" for certain alerts as described above. Only those notifications

which have been enabled in the "Staff Notifications" section of the "Alert Preferences" will be sent. You can cancel this SMS service at any time by texting "STOP" to 38121. After you send the SMS message "STOP", we will send you an SMS message to confirm that you have been unsubscribed and you will no longer receive SMS messages from us. You may join again by texting "START" to 38121. If you experience issues with GoGuardian Beacon SMS messages you can text "HELP" to 38121, contact **support@goguardian.com**, or visit **https://help.goguardian.com**. Carriers are not liable for delayed or undelivered messages. Message and data rates may apply for any messages sent to you from GoGuardian. Message frequency is recurring and depends on your GoGuardian Beacon settings, and whether an alert is triggered. Contact your wireless provider with any questions about your text or data plan. If you have any questions regarding privacy, please read our **Product Privacy Policy**.

10. Content, Copyright Policies, and Community Galleries

i. This Section explains how content is used in certain Offerings and the rights to such content.

10.1 Content in the Services Generally

10.1.1

You understand that all information (such as data files, fonts, written text, computer software, music, audio files, image files or other sounds, photographs, videos or other images) which you may have access to as part of, or through your use of, any Offerings ("Content") is the sole responsibility of the person from which such Content originated. All such Content that is uploaded into or generated in any Offerings by or on behalf of you or your Authorized Users shall be referred to herein as "Your Content".

10.1.2

You should be aware that Content, other than Your Content, made available as part of any Offerings, including but not limited to licensed and sponsored-Content, may be protected by intellectual property rights which are owned by the third party that provided that Content to us (or by other persons or companies on their behalf). You may not modify, rent, lease, loan, sell, distribute or create derivative works based on such Content (either in whole or in part) unless you have been specifically told that you may do so by us or by the owners of such Content, in a separate agreement.

10.1.3

We reserve the right (but shall have no obligation) to pre-screen, review, flag, filter, modify, refuse or remove any or all Content, including Your Content, from any Offering.

10.1.4

You understand that by using any Offering, you may be exposed to Content that you may find offensive, indecent or objectionable and that, in this respect, you use any Offering at your own risk.

10.1.5

You agree that you are solely responsible for (and that neither Liminex nor any Liminex Parties from which you purchased any Offerings have any responsibility to you or to any third party for) any Content that you create, transmit or display while using any Offering and for the consequences of your actions (including any loss or damage which any Liminex Party may suffer) by doing so.

10.2 License to Your Content

10.2.1

You retain copyright and any other rights you already hold in Your Content that you submit, share, upload, post or display on or through, any Offering. Unless otherwise stated in a separate written agreement between Liminex and You, by submitting, sharing, uploading, posting, or displaying Your Content you hereby grant to Liminex and our Affiliates a worldwide, royalty-free, and non-exclusive license to reproduce, adapt, modify, translate, publish, publicly perform, publicly display, and distribute Your Content, solely for the purpose of enabling Liminex and our Affiliates to provide you with any Offering in accordance with the terms of this Agreement and the **Product Privacy Policy**.

10.2.2

You understand that, in performing the required technical steps to provide any Offering to our users, we may (a) transmit or distribute Your Content over various public networks and in various media; and (b) make such changes to Your Content as are necessary to conform and adapt that content to the technical requirements of connecting networks, devices, services or media. You agree that this license shall permit us to take these actions.

10.2.3

You confirm and warrant that you have all the rights, power and authority necessary to grant the above license. You agree that you will not submit, share, upload, post or display any Content on or through, any Offering that is copyrighted, protected by trade secret or otherwise subject to third party proprietary rights, including privacy and publicity rights, unless you are the owner of such rights or have permission from their rightful owner to submit, share, upload, post or display such Content and to grant Liminex all of the license rights granted in this Section.

10.3 Copyright Policies

10.3.1

It is our policy to terminate access privileges of any users who repeatedly infringe copyright(s) embedded or used in connection with our Offerings upon prompt notification to Liminex by the copyright owner or the copyright owner's legal agent. Without limiting the foregoing, if you believe that your work has been copied and posted on or within the Offerings in a way that constitutes copyright infringement, please provide our Copyright Agent with the following information: (a) an electronic or physical signature of the person authorized to act on behalf of the owner of the copyright interest; (b) a description of the copyrighted work that you claim has been infringed; (c) a description of the location on or within the Offerings of the material that you claim is infringing; (d)

your address, telephone number and e-mail address; (e) a written statement by you that you have a good faith belief that the disputed use is not authorized by the copyright owner, its agent or the law; and (f) a statement by you, made under penalty of perjury, that the above information in your notice is accurate and that you are the copyright owner or authorized to act on the copyright owner's behalf. Contact information for Liminex's Copyright Agent for notice of claims of copyright infringement is as follows:

Liminex, Inc.

2030 E Maple Ave, Suite 100

El Segundo, CA 90245

We may remove any Content from the Offering if we believe or have reason to believe such Content infringes the intellectual property rights of a third party. Without prior notice and at any time, in our sole discretion, we reserve the right to remove any Content, disable your ability to share or upload Content through the Offerings, or terminate your access to any Offerings (a) for uploading or sharing such Content in violation of this Agreement; or (b) if, under appropriate circumstances, you are determined to be a repeat infringer.

10.3.2

We reserve the right in our sole discretion to decide whether your conduct is inappropriate and whether it complies with this Agreement for violations other than copyright infringement, such as, but not limited to, pornography, obscene or defamatory material, etc. We may terminate your access for such inappropriate conduct in violation of this Agreement at any time and remove any such objectionable Content, without prior notice and at its sole discretion.

10.4 Third Party Websites and Resources

10.4.1

The Offerings may include hyperlinks to other websites or resources that are controlled, owned or operated by third parties. You acknowledge and agree that we have no control over any such websites or resources and you access and use such websites and resources at your own risk.

10.4.2

Without limiting the foregoing, you acknowledge and agree that neither Liminex, its Affiliates nor any Authorized Reseller are responsible for the availability of any such external sites or resources, and that we do not endorse any advertising, products or other materials on or available from such websites or resources.

10.4.3

You acknowledge and agree that neither Liminex, its Affiliates nor any licensor or Authorized Reseller are liable for any loss or damage which may be incurred by you as a result of the availability

of those external sites or resources, or as a result of any reliance placed by you on the completeness, accuracy or existence of any advertising, products or other materials on, or available from, such websites or resources.

10.5 Community Galleries and Gallery Content

10.5.1

Certain Offerings may contain galleries ("Community Galleries"), which may include Content, including templates or questions, supplied by us or third parties, including other users of any Offerings ("Other Content Users"). Community Galleries include any Content, library or gallery that we choose at our discretion to make available to you as part of the Community Galleries (such content, the "Gallery Content"). As between you and the creators of Gallery Content, any intellectual property or proprietary rights remain with the creators.

10.5.2

The Gallery Content: (a) is meant to serve as a suggestion only; and (b) is not a substitute for professional advice or specific, authoritative knowledge or direction. We do not promise that the Gallery Content will work for your purposes, or that it is free from viruses, bugs, or other defects. The Gallery Content is provided "as is" and without warranty of any kind. You alone bear the risk of using Gallery Content. No Liminex Party provides any express warranties, guarantees and conditions with regard to the Gallery Content. To the extent permitted under Applicable Law, the Liminex Parties expressly disclaim any and all implied warranties and conditions of merchantability, fitness for a particular purpose, workmanlike effort, title and non-infringement.

10.5.3

If you choose to submit Your Content to become part of the Community Galleries ("Your Gallery Submission"), you direct and authorize Liminex and its affiliates to host, link to, and otherwise incorporate Your Gallery Submission into any Offering, and you hereby grant to Liminex and its Affiliates, and the Other Content Users an irrevocable, perpetual, worldwide, royalty-free, non-exclusive license to:

(A) reproduce Your Gallery Submission or any component thereof;

(B) create and reproduce derivative works of Your Gallery Submission [or any component thereof; or

(C) publicly display and distribute copies of Your Gallery Submission or any components or derivatives thereof ("Your Gallery Submission License").

10.5.4

For the avoidance of doubt, we reserve, and you hereby grant us, the right to syndicate Your Gallery Submission and to use Your Gallery Submission in connection with any of the Offerings. While you may stop distributing Your Gallery Submission through the Community Galleries at any time, doing so will not in any way affect our right or the right of Other Content Users to exercise the rights granted to us as part of Your Gallery Submission License under this Agreement. To stop distributing

Your Gallery Submission through the Community Galleries, (1) for Pear Deck, you must send an email to support@deck.peardeck.com, in which case Your Gallery Submission will be removed in accordance with our standard procedures; and (2) for Pear Assessment and Pear Practice, you must delete Your Content or change Your sharing level permissions.

10.5.5

You represent and warrant that (a) you own or have obtained the necessary legal rights to provide Your Gallery Submissions and will maintain these rights for as long as Your Gallery Submission is made available to Other Content Users; and (b) all of Your Gallery Submissions abide by the posted Program Policies.

10.5.6

We claim no ownership over any of Your Gallery Submission. You retain copyright and any other rights, including all intellectual property rights, you already hold in Your Gallery Submissions. You agree that you are responsible for protecting and enforcing those rights and that we have no obligation to do so on your behalf.

10.5.7

You agree that you are solely responsible for (and that we have no responsibility to you or to any third party for) any of Your Gallery Submissions that you submit. We are not in any way responsible for the subsequent use or misuse by any Other Content User or other third party who accesses Your Gallery Submission through any Offering or otherwise.

11. App Store Sourced Application

i. *This Section explains terms related to accessing and downloading an App Store Sourced Application.*

11.1 Accessing and Downloading an App Store Sourced Application from an App Store

You acknowledge that the Agreement is between you and Liminex or one of its Affiliates, and not with the App Store. We, not the App Store, are solely responsible for Offerings, the content thereof, maintenance, support services, and warranty therefor, and addressing any claims relating thereto (e.g., product liability, legal compliance or intellectual property infringement). You agree to comply with, and your license to use the Offerings is conditioned upon your compliance with all terms of agreement imposed by the applicable App Store when using the Offerings. You acknowledge that the App Store (and its subsidiaries) are third-party beneficiaries of the Agreement and will have the right to enforce it.

11.2 Accessing and Downloading an App Store Sourced Application from the Apple App Store

11.2.1

You acknowledge and agree that (a) the Agreement is concluded between you and us only, and not Apple, and (b) we, not Apple, are solely responsible for the App Store Sourced Application and content thereof. Your use of the App Store Sourced Application must comply with the Apple App Store Terms of Service. You agree to only use an App Store Sourced Application that is accessed through or downloaded from the Apple App Store (a) on an Apple-branded product that runs the iOS (Apple's proprietary operating system) and (b) as permitted by the "Usage Rules" set forth in the Apple App Store Terms of Service.

11.2.2

You acknowledge that Apple has no obligation whatsoever to furnish any maintenance and support services with respect to the App Store Sourced Application.

11.2.3

In the event of any failure of the App Store Sourced Application to conform to any applicable warranty, you may notify Apple, and if applicable, Apple will refund the purchase price for the App Store Sourced Application to you and to the maximum extent permitted by applicable law, Apple will have no other warranty obligation whatsoever with respect to the App Store Sourced Application. As between the Liminex Parties and Apple, any other claims, losses, liabilities, damages, costs or expenses attributable to any failure to conform to any warranty will be the sole responsibility of the Liminex Parties.

11.2.4

You and the Liminex Parties acknowledge that, as between the Liminex Parties and Apple, Apple is not responsible for addressing any claims you have or any claims of any third party relating to the App Store Sourced Application or your possession and use of the App Store Sourced Application, including, but not limited to: (a) product liability claims; (b) any claim that the App Store Sourced Application fails to conform to any applicable legal or regulatory requirement; and (c) claims arising under consumer protection or similar legislation.

11.2.5

You and the Liminex Parties acknowledge that, in the event of any third-party claim that the App Store Sourced Application or your possession and use of that App Store Sourced Application infringes that third party's intellectual property rights, as between the Liminex Parties and Apple, the Liminex Parties, not Apple, will be solely responsible for the investigation, defense, settlement and discharge of any such intellectual property infringement claim.

11.2.6

The parties acknowledge and agree that Apple, and Apple's subsidiaries, are third-party beneficiaries of the Agreement as related to your license of the App Store Sourced Application, and that, upon your acceptance of the terms and conditions of the Agreement, Apple will have the right (and will be deemed to have accepted the right) to enforce the Agreement as related to your license of the App Store Sourced Application against you as a third-party beneficiary thereof.

11.2.7

Without limiting any other terms of the Agreement, you must comply with all applicable third-party terms of agreement when using the App Store Sourced Application.

12. Warranties, Disclaimer, and Release

i. *This Section explains that we strive to provide you with our Offerings with a certain level of skill and care, but we cannot promise that our Offerings are perfect.*

We provide the Offerings using a commercially reasonable level of skill and care, but we cannot make guarantees about the operation, use or results achieved through the use of the Offerings. ACCORDINGLY, TO THE FULLEST EXTENT PERMISSIBLE UNDER APPLICABLE LAW, EACH OFFERING IS PROVIDED ON AN "AS-IS" AND "AS AVAILABLE" BASIS, WITH ALL FAULTS, WITHOUT WARRANTY OF ANY KIND, AND SCHOOL'S USE IS AT ITS SOLE RISK. THE ENTIRE RISK OF SATISFACTORY QUALITY AND PERFORMANCE RESIDES WITH SCHOOL. THE LIMINEX PARTIES MAKE NO REPRESENTATIONS OR WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, AND HEREBY SPECIFICALLY DISCLAIM ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION ALL WARRANTIES OR CONDITIONS OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, QUIET ENJOYMENT, ACCURACY, OR NON-INFRINGEMENT. THE LIMINEX PARTIES MAKE NO WARRANTY THAT ANY OFFERINGS WILL MEET SCHOOL'S REQUIREMENTS, WILL BE AVAILABLE ON AN UNINTERRUPTED, TIMELY, SECURE, OR ERROR-FREE BASIS, OR WILL BE ACCURATE, RELIABLE, FREE OF VIRUSES OR OTHER HARMFUL CODE, COMPLETE, LEGAL, OR SAFE. SCHOOL IS SOLELY RESPONSIBLE FOR THE SCHOOL ACCOUNT INFORMATION, THE MEANS BY WHICH SCHOOL ACQUIRES SCHOOL ACCOUNT INFORMATION, ACTIVITY INFORMATION, PERSONAL STUDENT INFORMATION, PARENT/GUARDIAN INFORMATION, AND SCHOOL LOG AND COOKIE INFORMATION, AND ALL COMMUNICATIONS AND INTERACTIONS BASED ON THE OFFERINGS, INCLUDING ANY AUTOMATICALLY GENERATED ALERTS THAT SCHOOL MAY RECEIVE. WE ARE NOT A MEDICAL HEALTHCARE PROVIDER. SCHOOL UNDERSTANDS AND AGREES THAT LIMINEX AND THE OTHER LIMINEX PARTIES ARE UNDER NO OBLIGATION OTHER THAN TO PROVIDE THE OFFERINGS TO SCHOOL IN ACCORDANCE WITH THE TERMS OF THIS AGREEMENT.

SCHOOL HEREBY RELEASES EACH OF THE LIMINEX PARTIES AND THEIR RESPECTIVE SUCCESSORS IN RIGHTS FROM ANY CLAIMS, DAMAGES, AND DEMANDS OF EVERY KIND ARISING OUT OF OR IN ANY WAY RELATED TO ANY CLAIMS MADE BY SCHOOL, ANY AUTHORIZED USER, ANY USER OF A MANAGED DEVICE OR ACCOUNT OR THEIR FAMILIES. IF APPLICABLE LAW REQUIRES ANY WARRANTIES WITH RESPECT TO ANY OFFERING, ALL SUCH WARRANTIES ARE LIMITED IN DURATION TO NINETY (90) DAYS FROM THE DATE OF

FIRST USE. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES OR HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE EXCLUSION AND/OR LIMITATION MAY NOT APPLY TO SCHOOL. NOTHING IN THIS AGREEMENT EXCLUDES, RESTRICTS OR MODIFIES ANY GUARANTEE, WARRANTY, TERM OR CONDITION, RIGHT OR REMEDY IMPLIED OR IMPOSED BY ANY APPLICABLE LAW WHICH CANNOT LAWFULLY BE EXCLUDED, RESTRICTED OR MODIFIED.

13. Indemnification

School agrees, to the extent permitted by Applicable Law (and in the United States, the School's state laws), to indemnify, defend and hold Liminex and the other Liminex Parties harmless from any losses, costs, liabilities and expenses (including reasonable attorneys' fees) relating to or arising from (a) School's failure to receive any consents or provide any notices required to be received or provided under Applicable Law in respect of all users of Managed Devices or Accounts, including for the monitoring and recording of Activity Information in connection therewith; (b) errors in the School Account Information, including Association Information, Parent/Guardian Information, Personal Student Information, and School's selection of settings in the Offerings and maintenance of Authorized User accounts and their permission levels; (c) School's acts or omissions relating to or regarding alerts generated through GoGuardian Beacon or GoGuardian Admin; (d) School's failure to comply with Applicable Laws, including Applicable Mental Health Laws; (e) School's violation of any rights of another party, including any users of Managed Devices or Accounts, (f) Your Content that you submit, share, upload, post or display on or to any Offering; (g) any use by other users of the Offerings of Your Content; and (h) any claim that Your Content violates any Applicable Laws or that it violates or infringes the rights of any third party. We reserve the right, at our own expense, to assume the exclusive defense and control of any third party claims for which we are entitled indemnification under this Section 13, and in any event, School agrees to cooperate with us in asserting any and available defenses.

14. Limitations and Exclusions of Liability

14.1 Disclaimer of Certain Damages

TO THE MAXIMUM EXTENT PERMITTED BY LAW, IN NO EVENT SHALL LIMINEX OR ANY OTHER LIMINEX PARTY BE LIABLE TO SCHOOL OR ANY THIRD PARTY FOR PERSONAL INJURY, PROPERTY DAMAGE, ANY LOST PROFITS, LOST DATA OR INFORMATION, COSTS OF PROCUREMENT OF SUBSTITUTE PRODUCTS, LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER OR DEVICE FAILURE OR MALFUNCTION, OR ANY INDIRECT, CONSEQUENTIAL, EXEMPLARY, INCIDENTAL, SPECIAL OR PUNITIVE DAMAGES ARISING FROM OR RELATING TO THIS AGREEMENT OR SCHOOL'S USE OF, OR INABILITY TO USE, ANY OFFERING, EVEN IF LIMINEX OR THE OTHER LIMINEX PARTIES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. ACCESS TO, AND USE OF, THE OFFERINGS IS AT SCHOOL'S OWN DISCRETION AND RISK, AND SCHOOL WILL BE SOLELY RESPONSIBLE FOR ANY DAMAGE TO ANY DEVICES OR COMPUTER SYSTEMS USED TO ACCESS OR USE ANY OFFERING, OR LOSS OF DATA OR INFORMATION RESULTING THEREFROM.

14.2 Cap on Liability

TO THE MAXIMUM EXTENT PERMITTED BY LAW, NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED HEREIN, THE AGGREGATE LIABILITY OF LIMINEX AND ANY OTHER LIMINEX PARTIES FOR ANY DAMAGES ARISING FROM OR RELATING TO THIS AGREEMENT OR SCHOOL'S USE OR INABILITY TO USE AN OFFERING (WHETHER ORDERED DIRECTLY FROM A LIMINEX PARTY OR THROUGH AN AUTHORIZED RESELLER) FOR ANY CAUSE WHATSOEVER, AND UNDER ANY LEGAL THEORY, INCLUDING NEGLIGENCE, TORT OR STRICT LIABILITY, AND REGARDLESS OF THE FORM OF THE ACTION, WILL AT ALL TIMES BE LIMITED TO THE FEES ACTUALLY PAID BY SCHOOL (WHETHER TO A LIMINEX PARTY OR AN AUTHORIZED RESELLER) FOR THE OFFERING GIVING RISE TO SUCH CLAIM FOR CALENDAR YEAR IN WHICH SUCH CLAIM AROSE. THE EXISTENCE OF MORE THAN ONE CLAIM WILL NOT ENLARGE THIS LIMIT. SCHOOL AGREES THAT OUR LICENSORS AND SUPPLIERS WILL HAVE NO LIABILITY OF ANY KIND ARISING FROM OR RELATING TO THIS AGREEMENT. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OR EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OR LIABILITY FOR DEATH OR PERSONAL INJURY, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO SCHOOL.

14.3 Basis of the Bargain

THE LIMITATIONS OF DAMAGES SET FORTH ABOVE ARE FUNDAMENTAL ELEMENTS OF THE BASIS OF THE BARGAIN BETWEEN US AND YOU.

15. Governing Law and Dispute Resolution

15.1 Governing Law and Venue

This Agreement and any dispute arising from or relating to this Agreement are governed by the laws of the state of California, United States, without regard to its conflict of law principles. You further agree to accept service of process by mail. To the extent the parties are permitted under this Agreement to initiate litigation in court, the parties consent to exclusive personal jurisdiction and venue in the courts located in Los Angeles County, California. If School is a United States public and accredited educational institution, domiciled in a state within the United States that expressly requires a different choice of law other than California law, then School's state's law will apply. If School is a United States public and accredited educational institution domiciled in a state within the United States that expressly requires venue or jurisdiction of a different state, then School's state's required venue and jurisdiction will apply.

15.2 Dispute Resolution; Binding Arbitration; Class Action Waiver ("Arbitration Agreement")

In the event of a dispute, claim, or controversy arising out of or relating to this Agreement, any Offering, any person's access to and/or use of the Offering, and/or the provision of content, features, and/or technology on or through the Offering (collectively, "Claims"), the parties must first give the other notice of the Claim. This notice must include a brief written statement with the name, address, and contact information of the party giving it, as well as the facts giving rise to the Claim and the relief requested. You must send any such notice to Liminex by email to legal@goguardian.com AND by U.S. Mail to Liminex, 2030 E Maple Ave Suite 100, El Segundo, CA 90245. If we have your contact information, we will send any such notice to you by U.S. Mail and your email address.

The parties shall use reasonable, good faith efforts to resolve any Claim through consultation and good faith negotiations within thirty (30) days from the date that any notice of a Claim is sent. After thirty (30) days, you or we may resort to the other alternatives described in Section 15.2.1. Notwithstanding the foregoing, the notice requirement in this section and the 30-day negotiation period required shall not apply to Claims involving patents, copyrights, moral rights, trademarks, trade secrets or piracy or unauthorized use of an Offering.

15.2.1

Binding Arbitration. *Arbitration Rules and Forum* Except as otherwise specifically set forth below, any Claims between you and us, if unresolved through informal consultation and negotiation pursuant to the preceding paragraph, shall be resolved by binding arbitration to be held in Los Angeles, California. Notwithstanding the foregoing, if School is a United States public and accredited educational institution domiciled in a state within the United States that expressly requires a different location for arbitration other than Los Angeles, California, then School's state's required location for binding arbitration will apply. If School that is a United States public and accredited educational institution and your consent to binding arbitration is expressly prohibited by the laws of the state within the United States in which School's educational institution is domiciled, then this Section is hereby waived. The Federal Arbitration Act governs the interpretation and enforcement of this Arbitration Agreement. The arbitration shall be conducted by a single arbitrator, governed by JAMS pursuant to its Comprehensive Arbitration Rules & Procedures (collectively, "JAMS Rules"), as modified by this Agreement, and administered by JAMS. The JAMS Rules and fee information are available at www.jamsadr.org or by calling JAMS at 1-800-352-5267. The arbitrator shall have exclusive authority to (a) determine the scope and enforceability of this Arbitration Agreement, and (b) resolve any dispute related to the interpretation, applicability, enforceability or formation of this Arbitration Agreement including, but not limited to, any claim that all or any part of this Arbitration Agreement is void or voidable. The arbitrator will decide the rights and liabilities, if any, of each party. The arbitration proceeding will not be consolidated with any other matters or joined with any other cases or parties.

Exceptions: Litigation of Intellectual Property and Small Claims Court Claims concerning patents, copyrights, moral rights, trademarks, and trade secrets, and Claims of piracy or unauthorized use of any Offering shall not be subject to arbitration under this Section 15.2.1. In addition, the parties may choose to pursue a Claim in small claims court where jurisdiction and venue over the parties otherwise qualify for such small claims court and where the Claim does not include a request for any type of equitable relief.

Batch Arbitration: Notwithstanding this Section 15.2.1, to increase the efficiency of administration and resolution of arbitrations, you and Liminex agree that, in the event there are ten (10) or more individual Claims of a substantially similar nature (i.e., Claims that arise out of or relate to the same or similar facts and raise the same or similar legal issues and requests for relief) filed against Liminex by or with the assistance of the same law firm, group of law firms, or organizations, within a ninety (90) day period, JAMS shall (1) administer the arbitration demands in batches of 100 Claims per batch (or, if between ten (10) and ninety-nine (99) individual Disputes are filed, a single batch of

all those Claims, and, to the extent there are less than 100 Claims remaining after the batching described above, a final batch consisting of the remaining Claims); (2) appoint one arbitrator for each batch; and (3) provide for the resolution of each batch as a single consolidated arbitration with one set of filing and administrative fees due per side per batch, one procedural calendar, one hearing (if any) in a place to be determined by the arbitrator, and one final award ("Batch Arbitration"). If there is any dispute about the applicability of these Batch Arbitration procedures, JAMS shall appoint a single administrative arbitrator to determine the applicability of the Batch Arbitration process.

Authority of Arbitrator: In binding arbitration, the arbitrator shall have the authority (a) to grant motions dispositive of all or part of any Claim; (b) to award monetary damages; and (c) to grant any non-monetary remedy or relief available to an individual under Applicable Law, the arbitral forum's rules, and this Agreement (including the Arbitration Agreement). The arbitrator shall issue a written award and statement of decision describing the essential findings and conclusions on which the award is based, including the calculation of any damages awarded. The arbitrator has the same authority to award relief on an individual basis that a judge in a court of law would have. The award of the arbitrator is final and binding upon you and us.

Confidentiality: All aspects of the arbitration proceeding, including but not limited to the award of the arbitrator and compliance therewith, shall be strictly confidential. Both parties agree to maintain confidentiality unless otherwise required by law. This paragraph shall not prevent either party from submitting to a court of law any information necessary to enforce this Agreement, to enforce an arbitration award, or to seek injunctive or equitable relief.

15.2.2

Class Action Waiver. THE PARTIES HEREBY WAIVE ANY CONSTITUTIONAL AND STATUTORY RIGHTS TO SUE IN COURT AND HAVE A TRIAL IN FRONT OF A JUDGE OR A JURY. The parties are instead electing that all Claims not otherwise resolved informally as permitted above shall be resolved by arbitration under this Arbitration Agreement. An arbitrator can award on an individual basis the same damages and relief as a court and must follow this Agreement as a court would. However, there is no judge or jury in arbitration, and court review of an arbitration award is subject to very limited review.

16. Miscellaneous

16.1 Changes to this Agreement

Before we make a material change to this Agreement, we will notify you as described in this Section. We may make immaterial changes (e.g., correcting a typographical error or another immaterial change) without notifying you. Please regularly review our Website and your Account for any changes. On our Website, we provide notice of any changes by posting the updated Agreement with a "Last Updated" date indicating the date of our most recent update. If we make material changes to this Agreement, we will also take an additional step (beyond posting on our Website) of notifying you of changes in another way that we believe is reasonably likely to reach you, such as emailing you at your email address associated with your Account, posting an announcement on our Website, or via a pop up in our Offering. Some changes may require your consent before further use of the Offerings is permitted. If you do not agree to any change(s), you agree to stop using the Offerings, and email us at terms@goguardian.com. Otherwise, your continued use of the Offerings after a change made in accordance with this provision constitutes your acceptance of such change(s).

16.2 Entire Agreement

This Agreement, including any applicable Order Forms and any terms and policies that are incorporated into this Agreement by reference (including by reference to a URL), including any applicable Supplemental Terms, constitutes the entire agreement between you and the Liminex Parties with respect to the subject matter hereof and supersedes all prior agreements between you and the Liminex Parties and any other contractual obligations any Liminex Party or you may have to the other, whether written or oral, relating to the same subject matter. We reject additional or conflicting terms of School's form-purchasing document you provide to us in connection with your procurement of access to any Offering. The headings of this Agreement are for readability only and do not constitute terms.

16.3 Language

You agree that this Agreement and all related documents shall be drawn up in the English language.

16.4 Severability

If any provision of this Agreement is invalid or unenforceable, such provision will be changed and interpreted to accomplish the objectives of such provision to the greatest extent possible under Applicable Law and the remaining provisions will continue in full force and effect.

16.5 Force Majeure

Our failure to comply with any provision of this Agreement due to an act of God, hurricane, war, fire, riot, earthquake, terrorism, act of public enemy, actions of governmental authorities outside of our control (excepting compliance with applicable codes and regulations), or other force majeure event will not be considered a breach of this Agreement.

16.6 No Third Party Beneficiaries

You agree that, except as otherwise expressly provided in this Agreement, there shall be no third party beneficiaries to this Agreement.

16.7 Electronic Communications

The communications between you and Liminex or its Affiliates may take place via electronic means, whether you use an Offering or send us e-mails, or whether we post notices on or through any Offering or communicate with you via e-mail. For contractual purposes, you (a) consent to receive communications from us in an electronic form; and (b) agree that all terms and conditions, agreements, notices, disclosures, and other communications that we provide to you electronically satisfy any legal requirement that such communications would satisfy if it were to be in writing. The foregoing does not affect your statutory rights.

16.8 Assignment

This Agreement, and your rights and obligations hereunder, may not be assigned, subcontracted, delegated or otherwise transferred by you without our prior written consent, and any attempted assignment, subcontract, delegation, or transfer in violation of the foregoing will be null and void. Subject to the foregoing, this Agreement shall bind and inure to the benefit of the parties, their respective successors and permitted assigns.

16.9 Notice

Where we require that you or any Authorized Users provide an e-mail address, you are responsible for ensuring that we are provided with the most current e-mail address for the designated Authorized User. 5.2 Customer License for Product Development. Provided that any usage by Turnitin and its Affiliates is in an Anonymized, De-Identified and/or Aggregated manner that does not identify Customer or any of its Authorized Users, Customer grants Turnitin and its Affiliates a perpetual, irrevocable, non-exclusive, royalty-free, transferable, and sublicensable license to use Customer Data, Authorized User Data, and Submissions (in whole or in part) for the purposes of developing, enhancing, or further refining Turnitin's existing products and services and developing new products and services, including those that leverage artificial intelligence. This license is subject to Turnitin's compliance with its confidentiality obligations under the Agreement and all Applicable Laws, including privacy laws.

5.3 Aggregated, Anonymized, and/or De-Identified Data. Upon creation, Turnitin shall own all right, title, and interest to any Aggregated, Anonymized, and/or De-Identified Data, and Turnitin may use, disclose, reproduce, distribute, display, perform, create derivative works from, and otherwise exploit Aggregated, Anonymized, and/or De-Identified Data for any lawful purposes, including, but not limited to, improving its existing products and services, developing new products and services, and for research, marketing, and promotional purposes, provided that such use does not directly or indirectly identify Customer or any Authorized User and is not prohibited by Applicable Data Protection Laws.

5.4 Required Consents. Customer represents and warrants that it will comply with and has provided all required notices and obtained all necessary consents and authorizations from its Authorized Users, as required by Applicable Law, to grant Turnitin the licenses set forth in this Section 5.

6. Service Terms.

The Service Terms apply to specific Services and provide additional terms and conditions governing your use of those Services. These Service Terms are available at www.turnitin.com/service-terms and are incorporated herein by reference. Your access to and use of the applicable Services are subject to the relevant Service Terms, in addition to the terms and conditions of the Agreement.

7. Reports and Source Database.

With respect to any Services that include reports evaluating textual sources, AI writing content and the database of source documents ("**Source Database**"), you agree (a) to maintain any Turnitin notices (including legal notices relating to Turnitin's proprietary rights such as copyright and trademark notices) and disclaimers on the reports; (b) to exercise independent professional judgment in, and to assume sole and exclusive responsibility for, determining the actual existence of plagiarism in submitted papers, acknowledging and understanding that the reports are only tools for detecting textual similarities between compared works and/or writing likely generated by AI and do not determine conclusively the existence of plagiarism; (c) that any disclosure of a report to any third party is at the your own risk; and (d) that for papers stored in the Source Database, you authorize and instruct Turnitin to retain such papers for the purpose of using them as source material to detect unoriginal text in

other papers in the future, including after the Term of the Agreement, unless your Turnitin administrator makes a written request to us to delete such papers.

8. Turnitin Obligations.

Turnitin agrees to: (a) use industry standards to protect the security of accounts, passwords, and the Source Database; (b) comply with the then-current Turnitin Policies, which are incorporated herein by reference; and (c) use reasonable efforts to make reports available online for a period of one hundred and eighty (180) days after the set end date for each class, with subsequent access, as available, to be provided via request to your account representative.

9. Restrictions; Other Obligations.

9.1 Restrictions. You and your Authorized Users may use the Services solely for the purposes expressly permitted by the Agreement. Neither you nor any Authorized User shall (or shall attempt to): (a) use the Services for purposes other than your internal use; (b) reverse engineer, decompile, disassemble, modify or create works derivative of the Services; (c) assign, sublicense, rent, timeshare, loan, lease or otherwise transfer the Services, or directly or indirectly permit any third party to use or copy the Services; (d) use the Services for purposes of (i) benchmarking or competitive analysis of the Services, (ii) developing, using or providing a competing software product or service, or (iii) any other purpose that is to our detriment or commercial disadvantage; (e) probe, scan, penetrate or test the vulnerability of the Services or breach the Services' security or authentication measures, whether actively or passively; (f) impersonate or misrepresent us, any of our employees, another user, or any other person or entity (including without limitation, by using email addresses associated with any of the foregoing); or (g) introduce any programs that contain viruses, worms, and/or Trojan horses or any other computer code, files, or programs designed to interrupt, destroy, or limit the functionality of the Services. You shall maintain the confidentiality of any passwords associated with the use of the Services in strict confidence and shall not share such passwords with any third party. For clarity, you may not share user credentials with any third-party without Turnitin's prior written consent.

9.2 Other Obligations. You shall be solely responsible for all use of the Services made with your passwords. Additionally, you: (a) must use the Services in accordance with Turnitin's then-current Documentation; (b) shall not remove any proprietary notices (e.g., copyright and trademark notices) from either the Services, Documentation, content, or reports provided by Turnitin; (c) shall ensure your use of the Services complies with all Applicable Laws; (d) abide by all Turnitin Policies provided on the Turnitin Site (https://www.turnitin.com/); and (e) shall not (i) use the Services to store or transmit infringing, libelous, or otherwise unlawful or tortious material, or to store or transmit material in violation of third-party privacy rights, (ii) use the Services to store or transmit Malicious Code, (iii) interfere with or disrupt the integrity or performance of the Services or third-party data contained therein, or (iv) attempt to gain unauthorized access to the Services or its related systems or networks.

10. Professional Services.

If an Order Form includes the provision of certain professional services (which typically include implementation, training with respect of the use of the Services, or assistance in creating Outputs (as defined below)) (**"Professional Services"**), then such services shall be provided in accordance with the Statement of Work to be attached to the Order Form (**"SOW"**). The Professional Services shall be provided remotely (and not at Customer's site), unless otherwise agreed in writing between the Parties in the SOW. The Professional Services may be performed by a third party if mutually agreed in the SOW.

11. Telecommunications and Internet Services.

You acknowledge and agree that your and your Authorized Users' use of the Services is dependent upon access to telecommunications and Internet services. You are solely responsible for acquiring and maintaining all telecommunications and Internet services and other hardware and software required to access and use the Services, including, without limitation, any and all costs, fees, expenses, and taxes of any kind related to the foregoing. Turnitin is not responsible for any loss or corruption of data, lost communications, or any other loss or damage of any kind arising from any such telecommunications and Internet services.

12. Privacy and Data Protection; Security.

12.1 Collection/Processing of Personal Data. Solely to the extent necessary for Turnitin's provision of the Services to Customer, Customer (in its capacity as Data Controller) may from time to time provide or make available access to Personal Data contained in Customer Content to Turnitin (in its capacity as a Data Processor). Turnitin's collection, use, processing, and disclosure of Personal Data in connection with the Services will be subject to and in compliance with the Data Processing Agreement available at www.turnitin.com/dpa (**"DPA"**) and as described in its Privacy Policies available at https://help.turnitin.com/Privacy_and_Security/Privacy_and_Security.htm or https://examsoft.com/privacy-policy (as may be amended and/or updated from time to time by Turnitin in its sole discretion).

12.2 Customer's Undertakings. Customer acknowledges and agrees that Personal Data and information may be transferred outside of the United States or any other jurisdiction where Customer, its third-party vendors, and users are located. Customer shall be solely responsible for providing all required notices, obtaining all consents, opt-ins, and authorizations, and providing and managing all opt-outs as may be required by all Applicable Data Protection Laws, for the collection, disclosure, transfer, storage and processing of Personal Data and/or Sensitive Personal Data by Turnitin according to Customer's instructions under this Agreement. When information or data is provided by Customer, Customer shall also have the sole responsibility for accuracy, quality, integrity, reliability, appropriateness, and copyright permission.

12.3 Security. Turnitin shall have in place—and shall comply with—documented written information security policies and procedures, periodically reviewed, covering the administrative, physical, and technical safeguards in place to protect against unauthorized access to or acquisition of Personal Data. Such policies and procedures will include encryption of data, where practicable, virus detection, and firewall utilization.

13. Suspension of Access.

In addition to any Service specific suspension rights set forth in the Service Terms, we may, in our sole discretion, also suspend your or any Authorized User's access to the Services (i) in order to prevent damage to, or degradation of, the Services; (ii) to comply with Applicable Laws, court order, or other governmental requests; (iii) to otherwise protect us from potential legal liability; (iv) if we believe that your or any Authorized User's use of the Services is causing immediate and ongoing financial, physical, or reputational harm to us or others (including our customers); or (v) to address a breach of any Turnitin Policy or the Agreement, including, but not limited to, failure to timely pay amounts due and payable for use of the Services. Subject to the foregoing, we shall use reasonable efforts to provide you with notice prior to or promptly following any suspension of the Services. We shall use commercially reasonable efforts to restore access to the Services as soon as it has determined that the event giving rise to suspension has been resolved unless we have elected to terminate the Agreement for breach. You agree that Turnitin will not be liable to you or to any third party for any suspension of any Service under such circumstances as described in this Section 13.

14. Return of ExamSoft Data.

Upon request by Customer within ninety (90) days of the termination of an Order Form for ExamSoft Services, Turnitin shall provide access to ExamSoft Services for the sole purpose of permitting Customer to download Authorized User Data, Test Data, and Proctoring Reports using ExamSoft's standard features and processes. After such 90-day period, Turnitin will have no obligation to maintain or provide Customer access to Authorized User Data or any other relevant data or reports and may thereafter, unless legally prohibited, delete all such data and reports in Turnitin's Systems or otherwise in Turnitin's possession or under its control. In the event of expiration or termination of an Order Form for ExamSoft Services, Turnitin shall not use Personal Data, Test Data, or Proctoring Reports related to those Services that have not been deleted, except as otherwise permitted by the Agreement.

15. Proprietary Rights; Ownership.

15.1 Turnitin Ownership. Subject to 15.2 (Customer/Student Ownership), Turnitin or its Affiliates, as the case may be owns (a) all rights in and to the Services, including the underlying software and technology (including all Intellectual Property Rights therein or thereto), all as may be updated, improved, modified or enhanced from time to time; (b) all trademarks, service marks, trade names and other statutory or common law intellectual property or other proprietary rights related to the Services; and (c) with the exception of Output (which is owned by Customer), all other reports and all materials created by the Services (including the format of any such reports but excluding the Personal Data of Customer or any Authorized User). With the exception of the limited license granted to Customer in Section 2 (Right to Use Services; License Grant), nothing contained in the Agreement shall be construed as granting Customer, any Authorized Users, or any other third party any right, title, or interest in or to Turnitin's or its Affiliates', as the case may be, Intellectual Property Rights whether expressly, by implication, estoppel, or otherwise. All rights in such items are expressly reserved to Turnitin or its Affiliates, as the case may be.

15.2 Customer/Student Ownership: As between the Parties and subject to Sections 5.2 (Customer License for Product Development); 5.3 (Aggregated, Anonymized, and/or De-Identified Data); and 15.3 (Feedback), (a) Customer owns the Authorized User Data, Test Data, and Proctoring Data and acts as the Controller for any Personal Data contained therein; and (b) Students own the Submissions.

15.3 Feedback. All right, title and interest in the Services and any other Turnitin materials furnished or made available hereunder, and all modifications and enhancements thereof, and all suggestions, ideas and feedback proposed by Customer regarding Turnitin, LLC, its Affiliates, or the Services, including all copyright rights, patent rights and other intellectual property rights in each of the foregoing, belong to and are retained solely by Turnitin, LLC, or its Affiliates, as the case may be. Customer hereby

does and will irrevocably assign to Turnitin all evaluations, ideas, feedback and suggestions made by Customer to Turnitin regarding the Services (collectively, "**Feedback**") and all Intellectual Property Rights in the Feedback.

16. FERPA.

To the extent Customer or Customer Content is subject to the Family Educational Rights and Privacy Act ("**FERPA**"), Customer designates Turnitin a "school official" within the meaning of FERPA 34 CFR Section 99.31. Turnitin will remain under the direction of Customer with respect to the use and maintenance of personally identifiable information and education records, as those terms are defined in FERPA 34 CFR Section 99.3, and Turnitin may use personally identifiable information and education records only as set forth under the Agreement and in compliance with Applicable Law.

17. Insurance.

Turnitin will maintain the current applicable commercial general liability and cyber liability insurance limits as presented in any certificates of insurance (evidence of coverage only) ("**Turnitin COIs**") provided to you, and will ensure that such coverage extends to Turnitin, with the limits therein not materially decreasing during the Term. Upon your written request during the Term, we will provide you with the then-current Turnitin COIs.

18. Support.

We will provide reasonable email and phone support to you via your sole appointed primary account administrator during our normal support hours.

19. Term and Termination

19.1 Term.

19.1.1 Term for Non-Governmental Customers. With the exception of any customers who are governmental entities (which are governed by Section 19.1.2), the initial term of the Agreement ("**Initial Term**") commences on the start date specified in the Order Form and continues until terminated in accordance with this Section 19.1.1 or as otherwise set forth in the Agreement. If the Initial Term is not perpetual, the Agreement remains in effect for the duration set forth in the Order Form. Following the Initial Term, the Agreement automatically renews for successive one (1) year periods (each, a "**Renewal Term**", and collectively with the Initial Term, the "**Term**") unless either Party provides the other Party with written notice of termination at least ninety (90) days prior to the end of the then-current Term. Each Renewal Term shall incorporate and is subject to our then-current pricing. Your administrator will receive reminders regarding renewal requirements when logging into the Services before the Term expires.

19.1.2 Term for Governmental Customers. This section applies only to customers who are governmental customers or state institutions. For any governmental customers or state institutions, the Initial Term will be as specified in the Order Form; however, the automatic renewal of the Agreement for each Renewal Term is contingent upon the continued need and the availability of adequate appropriations from the relevant government authority. If any of these conditions are not met, the governmental customer or state institution may terminate the Agreement without penalty by providing written notice to us at least ninety (90) days prior to the end of the then-current Term. For clarity, termination is strictly tied to the appropriations from the state and not any budgetary changes made by the governmental customer or state institution. Each Renewal Term shall incorporate and is subject to our then-current pricing.

19.2 Termination.

19.2.1 Turnitin Immediate Right of Termination. Turnitin shall have the right to immediately terminate the Agreement or any Order Form(s) by giving written notice to Customer if Customer or any of its Authorized Users does or attempts to do any of the following: (a) decodes, decompiles, reverse engineers, merges, modifies, translates, attempts to defeat or disable the Services, or otherwise alters the Services in any form; (b) reproduces, duplicates or copies Services or creates derivative works based on Services, transfers, resells or grants any other rights of any kind for any copy of Services; (c) uses the Services for purposes of: (i) benchmarking or competitive analysis of the Services; (ii) developing, using or providing a competing software product or service; or (iii) any other purpose that is to Turnitin's detriment or commercial disadvantage; (iv) probes, scans, penetrates or tests the vulnerability of the Services or breaches the Services' security or authentication measures, whether actively or passively; (v) impersonates or misrepresents Turnitin, any Turnitin personnel, another user, or any other person or entity (including without limitation, by using email addresses associated with any of the foregoing); (vi) introduces any Malicious Code or other programs designed to interrupt, destroy, or limit the functionality of the Services; (vii) fails, within thirty (30) days, after receipt of written notice from Turnitin, to immediately discontinue the distribution or use of software or Services that infringe any copyright of Turnitin; or (viii) Uses the Services in any manner that breaches the terms of the Agreement or fails to follow

the operating instructions provided by Turnitin; or (ix) fails, within thirty (30) days, after receipt of written notice from Turnitin, to pay any fees due and payable pursuant to the Agreement; or (x) if Customer becomes or is declared insolvent or bankrupt, is the subject of any proceedings relating to its liquidation, insolvency, or for the appointment of a receiver or similar officer for it, or makes an assignment for the benefit of any creditors.

19.2.2 Mutual Termination for Material Breaches. If either Party is in material breach of the Agreement and fails to cure such breach within thirty (30) days after written notice thereof, the non-breaching Party may terminate the Agreement by subsequent written notice to the breaching Party. Notwithstanding the foregoing, if Turnitin is terminating the Agreement due to Customer's failure to pay any amounts due, Turnitin may terminate the Agreement if Customer has not cured the breach within (5) business days after receipt of notice of the breach from Turnitin.

19.2.3 Termination Due to Third Party Service Providers. In the event our ability to provide the Services is dependent upon a third-party provider of services, either used by you or us (in each case, "Third-Party Services"), and that third-party is unwilling or unable to provide the Third Party Services, we reserve the right to terminate that particular Service by written notification to you (which notification, notwithstanding 26.8 (Notice) may be delivered by telephone or electronic communication), or suspend the affected Service until such time as the third-party service provider becomes capable or willing to provide the Third-Party Services.

19.2.4 Rights and Obligations Upon Termination. Upon expiration or termination of the Agreement, subject to Section 19.2.5 (Use of ExamSoft Beyond Expiration) and Section 19.2.6 (Survival), Customer's and its Authorized Users' right to access and use the Services shall immediately terminate, Customer and its Authorized Users shall immediately cease all use of the Services, and each Party shall return or destroy and make no further use of the other Party's Confidential Information, materials, or other items (and all copies thereof).

19.2.5 No Refunds. Except as provided in Section 1.10 of the Service Terms, and Sections 12 (Privacy and Data Protection; Security) and 26.12 (Modifications to Turnitin Policies) herein, no Order Form from Customer may be canceled or terminated by Customer, and in no other termination event shall Customer be owed a refund of prepaid fees. For clarity, Customer may not cancel or terminate any fees owed under the Agreement or any Order Form for its convenience, whether payment terms require Customer to make a single payment in full or multiple payments during the Term.

19.2.6 Use of ExamSoft Beyond Expiration Date. In the event the Parties have not renewed the ExamSoft Services beyond the then-current Term, but Customer desires to continue to use the ExamSoft Services, Turnitin reserves the right to permit Customer to continue to access and use the ExamSoft services pursuant to Section 14; provided however, the fees applicable to Customer's usage for the ExamSoft Services shall automatically increase by 20% during any such post-expiration usage period.

19.2.7 Survival. Sections 5 (Turnitin Data Usage Rights); 7 (Reports and Source Database); 15 (Proprietary Rights; Ownership); 19.2.4 (Rights and Obligations upon Termination) through 19.2.7 (Survival); and 20 (Confidentiality) shall survive any expiration or termination of the Agreement, regardless of the reason for such termination, and shall continue in full force and effect thereafter.

20. Confidentiality.

20.1 Customer's Use of Turnitin's Confidential Information. Customer may (a) use Turnitin's Confidential Information only in connection with Customer's use of the Services as expressly permitted by the Agreement; and (b) use the Turnitin Content solely as expressly permitted under the Agreement.

20.2 Turnitin's Use of Customer's Confidential Information. To the extent Customer submits Confidential Information to the Service(s), Turnitin may use Customer's Confidential Information only as necessary to perform the Services in accordance with the Agreement and as otherwise expressly permitted by the Agreement.

20.3 Mutual Confidentiality Obligations. Each Party will take all reasonable measures to prevent the disclosure, dissemination, or unauthorized use of the other Party's Confidential Information, including, at a minimum, those measures they take to protect their own confidential information of a similar nature. The receiving Party's obligations under this Section shall not apply to information that: (a) is or becomes publicly available without breach of this Agreement; (b) is lawfully obtained from a third party without a duty of confidentiality; (c) is independently developed by the receiving Party without reference to the disclosing Party's Confidential Information; or (d) is required to be disclosed by law, regulation, or court order, provided that the receiving Party gives the disclosing Party prompt written notice of such requirement and reasonably cooperates with the disclosing Party's efforts to contest or limit the scope of the required disclosure. Each Party's obligations related to the other Party's Confidential Information (except for trade secrets) shall survive for five (5) years following the expiration or termination of the

Agreement. For any Confidential Information that constitutes a trade secret under Applicable Law, the receiving Party's confidentiality obligations shall survive for as long as such information remains a trade secret under Applicable Law.

21. Warranty and Disclaimer.

21.1 Warranty. Service Specific warranties (when and if applicable) are set forth in the Service Terms. In addition, during the Term, Turnitin warrants that (a) to the best of its knowledge, the Services (excluding any Customer Content and Third-Party Content) do not infringe the Intellectual Property Rights of any third party; and (b) it shall use reasonable efforts to provide the Services and support as set forth herein and as described on the Site and published Documentation. If the Services are found to be defective or not in compliance with the warranties set forth in this Section 21, Turnitin's sole obligation, and Customer's exclusive remedy, shall be for Turnitin to use commercially reasonable efforts to repair or replace (at Turnitin's option) the defective Services at no additional cost to Customer unless exclusive remedy is specified in Service Terms. Customer acknowledges that the Services are limited in scope by a finite database of material for comparison, a search process that might not have indexed the material used to create the submitted work, and non-access to certain proprietary databases of written work. Customer also acknowledges that reports indicate the possibility of textual matches only, and the actual determination of plagiarism is subject to Customer's professional judgment.

21.2 Warranty Disclaimer. EXCEPT AS SET FORTH IN SECTION 21.1 ABOVE, THE SERVICES (INCLUDING THE REPORTS) ARE PROVIDED ON AN "AS IS" AND "AS AVAILABLE" BASIS. TURNITIN SPECIFICALLY DISCLAIMS ALL WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED OR STATUTORY, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, QUIET ENJOYMENT, QUALITY OF INFORMATION, NON-INFRINGEMENT AND TITLE. NO WARRANTY IS MADE THAT THE SERVICES WILL BE TIMELY, SECURE OR ERROR-FREE. IN JURISDICTIONS NOT ALLOWING THE LIMITATION OR EXCLUSION OF CERTAIN WARRANTIES, TURNITIN'S WARRANTY SHALL BE LIMITED TO THE GREATEST EXTENT PERMITTED BY APPLICABLE LAW.

21.3 Risks Associated with Internet Use. THE SERVICES ARE ACCESSED AND USED OVER THE INTERNET. CUSTOMER ACKNOWLEDGES AND AGREES THAT TURNITIN DOES NOT OPERATE OR CONTROL THE INTERNET AND THAT VARIOUS RISKS ARE ASSOCIATED WITH ITS USE, INCLUDING BUT NOT LIMITED TO: (I) THE POTENTIAL FOR MALICIOUS CODE AND OTHER VIRUSES, WORMS, OR OTHER UNDESIRABLE DATA OR SOFTWARE; AND (II) THE POSSIBILITY OF UNAUTHORIZED USERS (E.G., HACKERS) ATTEMPTING TO OBTAIN ACCESS TO OR CAUSE DAMAGE TO CUSTOMER'S DATA, COMPUTERS, OR NETWORKS. TURNITIN SHALL NOT BE RESPONSIBLE FOR ANY SUCH ACTIVITIES OR CONSEQUENCES RESULTING FROM THE USE OF THE INTERNET IN CONNECTION WITH THE SERVICES.

22. Limitation of Liability.

22.1 WAIVER OF DAMAGES. EXCEPT FOR CLAIMS RELATING TO TURNITIN'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT (THE "**EXCLUDED CLAIMS**"), NEITHER TURNITIN, ITS AFFILIATES, NOR LICENSORS WILL BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL, EXEMPLARY OR PUNITIVE DAMAGES (INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, REVENUES, CUSTOMERS, OPPORTUNITIES, GOODWILL, USE, OR DATA), EVEN IF TURNITIN HAS BEEN ADVISED AS TO THE POSSIBILITY OF SUCH DAMAGES.

22.2 NO LIABILITY FOR CERTAIN CLAIMS. EXCEPT FOR (A) THE EXCLUDED CLAIMS; (B) OR IN CASE OF BREACH OF SECTION 20.2 (TURNITIN'S USE OF CUSTOMER'S CONFIDENTIAL INFORMATION) OR 20.3 (MUTUAL CONFIDENTIALITY OBLIGATIONS), OR (C) TURNITIN'S OBLIGATION TO INDEMNIFY CUSTOMER UNDER SECTION 23.2, AND REGARDLESS OF THE TYPE OF CLAIM OR THE NATURE OF THE CAUSE OF ACTION, TO THE EXTENT ALLOWED BY APPLICABLE LAW, CUSTOMER AGREES THAT IN NO EVENT WILL TURNITIN OR ITS AFFILIATES, OFFICERS, EMPLOYEES, AGENTS OR LICENSORS, BE LIABLE FOR: (I) ANY DECISION MADE OR ACTION TAKEN OR NOT TAKEN IN RELIANCE UPON ANY INFORMATION AND/OR OUTPUT OR OTHER REPORTS PROVIDED OR OTHERWISE ACCESSED IN CONNECTION WITH THE SERVICES; OR (II) FOR ANY LIABILITY ARISING FROM CUSTOMER'S DISCLOSURE OF ANY SUCH REPORTS OR OUTPUT TO ANY THIRD PARTY.

22.3 LIABILITY CAP. EXCEPT FOR (A) THE EXCLUDED CLAIMS; (B) IN CASE OF BREACH OF SECTION 20.2 (TURNITIN'S USE OF CUSTOMER'S CONFIDENTIAL INFORMATION) OR 20.3 (MUTUAL CONFIDENTIALITY OBLIGATIONS); OR (C) TURNITIN'S OBLIGATION TO INDEMNIFY CUSTOMER UNDER SECTION 23.2 (INDEMNIFICATION BY TURNITIN), AND TO THE EXTENT ALLOWED BY APPLICABLE LAW, TURNITIN AND ITS AFFILIATES, OFFICERS, EMPLOYEES, AGENTS OR LICENSORS' TOTAL CUMULATIVE LIABILITY ARISING UNDER OR RELATED TO THIS AGREEMENT AND THE SERVICES, WHETHER IN CONTRACT, TORT OR OTHERWISE, WILL NOT EXCEED THE GREATER OF THE AMOUNTS PAID TO TURNITIN BY CUSTOMER UNDER THE AGREEMENT DURING THE TWELVE (12) MONTHS IMMEDIATELY PRECEDING THE EVENT GIVING RISE TO THE LIABILITY, OR $25,000. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OR EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. IN THOSE JURISDICTIONS, TURNITIN'S LIABILITY UNDER THE AGREEMENT SHALL BE

LIMITED TO THE GREATEST EXTENT PERMITTED BY APPLICABLE LAW. THE LIMITATION OF LIABILITY AND LIABILITY CAP SHALL APPLY EVEN IF THE EXPRESS WARRANTIES SET FORTH ABOVE FAIL THEIR ESSENTIAL PURPOSE.

22.4 Third-Party Products. In connection with the Services, Turnitin may make available to Authorized Users or Customer or may separately license certain third-party products (collectively, the **"Third-Party Products"**). Except as otherwise provided in the third-party licensor's license agreement, if any, accompanying the Third-Party Products, Customer shall have a limited, non-transferable (except to a successor entity), non-exclusive license to use the Third-Party Products solely in connection with the Services.

EXCEPT AS OTHERWISE PROVIDED IN THE THIRD-PARTY LICENSOR'S LICENSE AGREEMENT, IF ANY, ACCOMPANYING THE THIRD-PARTY PRODUCTS, THE THIRD-PARTY PRODUCTS ARE PROVIDED "AS-IS", WITHOUT WARRANTIES OF ANY KIND AND TURNITIN AND THE THIRD-PARTY LICENSOR DISCLAIM ALL WARRANTIES WITH RESPECT TO THE THIRD-PARTY PRODUCTS, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, TITLE, MERCHANTABILITY, AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL TURNITIN OR ANY THIRD-PARTY LICENSOR BE LIABLE TO INSTITUTION, INSTRUCTORS, STUDENTS, OR ANY THIRD-PARTY FOR ANY DIRECT, INDIRECT, PUNITIVE, EXEMPLARY, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE THIRD-PARTY PRODUCTS, EVEN IF THEY HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSSES.

23. Indemnification.

23.1 Indemnification by Customer. To the extent allowed by Applicable Law, Customer shall indemnify, defend, and hold harmless Turnitin, its Affiliates, officers, directors, employees, agents, and licensors (collectively, **"Turnitin Indemnified Parties"**) from any and all claims, losses, damages, liabilities, settlements, and expenses (including but not limited to reasonable attorneys' fees and all related costs) (collectively, **"Losses"**) incurred by Turnitin Indemnified Parties as a result of any claim, lawsuit, demand, cause of action, or proceeding brought by a third party relating to or arising from: (a) Customer's or any Authorized User's breach of its restrictions or obligations under the Agreement; or (b) Customer's decision not to follow Turnitin's strong recommendations set forth in Section 3 (Turnitin Feedback Studio/Similarity/Clarity/SimCheck Services) of the Service Terms available at www.turnitin.com/service-terms.

23.2 Indemnification by Turnitin. To the extent allowed by Applicable Law, Turnitin shall indemnify, defend, and hold harmless Customer and its affiliates, officers, directors, employees, agents, and licensors (collectively, **"Customer Indemnified Parties"**) from Losses incurred by Customer's Indemnified Parties as a result of any claim, lawsuit, demand, cause of action, or proceeding brought by a third party alleging that (i) Customer's licensed use of the Services, as permitted hereunder, infringes the U.S. patent or copyrights of that third party, or; (ii) Turnitin has violated any state or federal privacy law relating to information provided by Customer hereunder. Turnitin shall have no obligation to indemnify Customer under this Section to the extent the infringement claim arises from (i) any content or other intellectual property provided by Customer or any other third party, including third party content contained in the Source Database; (ii) Customer's failure to use the Services in accordance with the Agreement; or (iii) any matter for which Customer is obligated to indemnify Turnitin hereunder.

23.3 Indemnification Procedures. To qualify for the foregoing indemnity obligation, the Party seeking indemnity must: (i) give the indemnify Party prompt written notice of any Claim; and (ii) allow the indemnifying Party to control, and fully cooperate with the indemnifying Party in, the defense and all related negotiations.

23.4 Governing Law and Dispute Resolution. The Agreement is governed by Applicable Law in accordance with Section 27 (Contracting Party; Applicable Law), and unless otherwise set forth in an Order Form, the Parties consent to the exclusive personal jurisdiction of the applicable jurisdiction detailed in Section 27 (Contracting Party; Applicable Law).

24. Accessibility.

While the parties agree the standards are evolving under the law, Turnitin Services target compliance with Web Content Accessibility Guidelines 2.0 (with the exception of ExamSoft, which conforms with version 2.1), Level AA. Areas of non-conformance, and Voluntary Product Accessibility Templates, are available on the Turnitin website. If a Student user of the Services raises a complaint regarding the accessibility of the Services to accessibility@turnitin.com, Turnitin shall use commercially reasonable efforts to resolve such complaint at no additional cost to the Customer. If Turnitin is unable to provide a satisfactory resolution, Customer's sole remedy and Turnitin's sole liability shall be for Customer to terminate the Agreement with thirty (30) days' written notice to Turnitin. In such case, Customer shall receive a refund of prepaid fees, prorated to the date of termination.

24.1 Other Provisions. Except as provided herein, all amendments or modifications to the Agreement must be agreed by an authorized signatory of each Party. A Party's failure to insist upon or enforce strict performance of any provision of the

Agreement shall not be construed as a waiver of any provision or right.

24.2 Third-Party Beneficiaries. Except as set forth in Section 23 (Indemnification), the Agreement does not create any third-party beneficiary rights in any individual or entity that is not a party to the Agreement.

24.3 Changes to Services. Turnitin reserves the right, in its sole discretion, to make any changes to the features and functionalities of the Services that it deems necessary or useful to: (a) maintain or enhance: (i) the quality or delivery of Services to its customers, (ii) the competitive strength of or market for Turnitin's services; (iii) the Services' cost efficiency or performance; (b) to comply with Applicable Laws; or (c) as otherwise determined by Turnitin as commercially necessary.

24.4 Equitable Relief. Each Party acknowledges that a breach by the other Party of any confidentiality or proprietary rights provision of the Agreement may cause the non-breaching Party irreparable damage, for which the award of damages would not be adequate compensation. Consequently, the non-breaching Party may institute an action to enjoin the breaching Party from any and all acts in violation of those provisions, which remedy shall be cumulative and not exclusive, and a Party may seek the entry of an injunction enjoining any breach or threatened breach of those provisions, in addition to any other relief to which the non-breaching Party may be entitled at law or in equity.

25. Representations and Warranties.

Each Party represents and warrants to the other Party that: (a) it has full power and authority to enter into and perform the Agreement, (b) the execution and delivery of the Agreement has been duly authorized, and (c) entering into the Agreement does not violate any Applicable Law.

26. Miscellaneous

26.1 Controlling Documents. ANNEX A

STANDARD CONTRACTUAL CLAUSES

SECTION I

Clause 1

Purpose and scope

(a) The purpose of these standard contractual clauses is to ensure compliance with the requirements of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation)1 for the transfer of personal data to a third country.

(b) The Parties:

(i) the natural or legal person(s), public authority/ies, agency/ies or other body/ies (hereinafter "entity/ies") transferring the personal data, as listed in Annex I.A. (hereinafter each "data exporter"), and

(ii) the entity/ies in a third country receiving the personal data from the data exporter, directly or indirectly via another entity also Party to these Clauses, as listed in Annex I.A. (hereinafter each "data importer")

have agreed to these standard contractual clauses (hereinafter: "Clauses").

(c) These Clauses apply with respect to the transfer of personal data as specified in Annex I.B.

(d) The Appendix to these Clauses containing the Annexes referred to therein forms an integral part of these Clauses.

Clause 2

Effect and invariability of the Clauses

(a) These Clauses set out appropriate safeguards, including enforceable data subject rights and effective legal remedies, pursuant to Article 46(1) and Article 46 (2)(c) of Regulation (EU) 2016/679 and, with respect to data transfers from controllers to processors and/or processors to processors, standard contractual clauses pursuant to Article 28(7) of Regulation (EU) 2016/679, provided they are not modified, except to select the appropriate Module(s) or to add or update information in the Appendix. This does not prevent the Parties from including the standard contractual clauses laid down in these Clauses in a wider contract and/or to add other clauses or additional safeguards, provided that they do not contradict, directly or indirectly, these Clauses or prejudice the fundamental rights or freedoms of data subjects.

(b) These Clauses are without prejudice to obligations to which the data exporter is subject by virtue of Regulation (EU) 2016/679.

Clause 3

Third-party beneficiaries

(a) Data subjects may invoke and enforce these Clauses, as third-party beneficiaries, against the data exporter and/or data importer, with the following exceptions:

(i) Clause 1, Clause 2, Clause 3, Clause 6, Clause 7;

(ii) Clause 8 - Module One: Clause 8.5 (e) and Clause 8.9(b); Module Two: Clause 8.1(b), 8.9(a), (c), (d) and (e); Module Three: Clause 8.1(a), (c) and (d) and Clause 8.9(a), (c), (d), (e), (f) and (g); Module Four: Clause 8.1 (b) and Clause 8.3(b);

(iii) Clause 9 - Module Two: Clause 9(a), (c), (d) and (e); Module Three: Clause 9(a), (c), (d) and (e);

(iv) Clause 12 - Module One: Clause 12(a) and (d); Modules Two and Three: Clause 12(a), (d) and (f);

(v) Clause 13;

(vi) Clause 15.1(c), (d) and (e);

(vii) Clause 16(e);

(viii) Clause 18 - Modules One, Two and Three: Clause 18(a) and (b); Module Four: Clause 18.

(b) Paragraph (a) is without prejudice to rights of data subjects under Regulation (EU) 2016/679.

Clause 4

Interpretation

(a) Where these Clauses use terms that are defined in Regulation (EU) 2016/679, those terms shall have the same meaning as in that Regulation.

(b) These Clauses shall be read and interpreted in the light of the provisions of Regulation (EU) 2016/679.

(c) These Clauses shall not be interpreted in a way that conflicts with rights and obligations provided for in Regulation (EU) 2016/679.

Clause 5

Hierarchy

In the event of a contradiction between these Clauses and the provisions of related agreements between the Parties, existing at the time these Clauses are agreed or entered into thereafter, these Clauses shall prevail.

Clause 6

Description of the transfer(s)

The details of the transfer(s), and in particular the categories of personal data that are transferred and the purpose(s) for which they are transferred, are specified in Annex I.B.

Clause 7 - Optional

Docking clause

(a) An entity that is not a Party to these Clauses may, with the agreement of the Parties, accede to these Clauses at any time, either as a data exporter or as a data importer, by completing the Appendix and signing Annex I.A.

(b) Once it has completed the Appendix and signed Annex I.A, the acceding entity shall become a Party to these Clauses and have the rights and obligations of a data exporter or data importer in accordance with its designation in Annex I.A.

(c) The acceding entity shall have no rights or obligations arising under these Clauses from the period prior to becoming a Party.

SECTION II – OBLIGATIONS OF THE PARTIES

Clause 8

Data protection safeguards

The data exporter warrants that it has used reasonable efforts to determine that the data importer is able, through the implementation of appropriate technical and organisational measures, to satisfy its obligations under these Clauses.

8.1 Instructions

(a) The data importer shall process the personal data only on documented instructions from the data exporter. The data exporter may give such instructions throughout the duration of the contract.

(b) The data importer shall immediately inform the data exporter if it is unable to follow those instructions.

8.2 Purpose limitation

The data importer shall process the personal data only for the specific purpose(s) of the transfer, as set out in Annex I.B, unless on further instructions from the data exporter.

8.3 Transparency

On request, the data exporter shall make a copy of these Clauses, including the Appendix as completed by the Parties, available to the data subject free of charge. To the extent necessary to protect business secrets or other confidential information, including the measures described in Annex II and personal data, the data exporter may redact part of the text of the Appendix to these Clauses prior to sharing a copy, but shall provide a meaningful summary where the data subject would otherwise not be able to understand the its content or exercise his/her rights. On request, the Parties shall provide the data subject with the

reasons for the redactions, to the extent possible without revealing the redacted information. This Clause is without prejudice to the obligations of the data exporter under Articles 13 and 14 of Regulation (EU) 2016/679.

8.4 Accuracy

If the data importer becomes aware that the personal data it has received is inaccurate, or has become outdated, it shall inform the data exporter without undue delay. In this case, the data importer shall cooperate with the data exporter to erase or rectify the data.

8.5 Duration of processing and erasure or return of data

Processing by the data importer shall only take place for the duration specified in Annex I.B. After the end of the provision of the processing services, the data importer shall, at the choice of the data exporter, delete all personal data processed on behalf of the data exporter and certify to the data exporter that it has done so, or return to the data exporter all personal data processed on its behalf and delete existing copies. Until the data is deleted or returned, the data importer shall continue to ensure compliance with these Clauses. In case of local laws applicable to the data importer that prohibit return or deletion of the personal data, the data importer warrants that it will continue to ensure compliance with these Clauses and will only process it to the extent and for as long as required under that local law. This is without prejudice to Clause 14, in particular the requirement for the data importer under Clause 14(e) to notify the data exporter throughout the duration of the contract if it has reason to believe that it is or has become subject to laws or practices not in line with the requirements under Clause 14(a).

8.6 Security of processing

(a) The data importer and, during transmission, also the data exporter shall implement appropriate technical and organisational measures to ensure the security of the data, including protection against a breach of security leading to accidental or unlawful destruction, loss, alteration, unauthorised disclosure or access to that data (hereinafter "personal data breach"). In assessing the appropriate level of security, the Parties shall take due account of the state of the art, the costs of implementation, the nature, scope, context and purpose(s) of processing and the risks involved in the processing for the data subjects. The Parties shall in particular consider having recourse to encryption or pseudonymisation, including during transmission, where the purpose of processing can be fulfilled in that manner. In case of pseudonymisation, the additional information for attributing the personal data to a specific data subject shall, where possible, remain under the exclusive control of the data exporter. In complying with its obligations under this paragraph, the data importer shall at least implement the technical and organisational measures specified in Annex II. The data importer shall carry out regular checks to ensure that these measures continue to provide an appropriate level of security.

(b) The data importer shall grant access to the personal data to members of its personnel only to the extent strictly necessary for the implementation, management and monitoring of the contract. It shall ensure that persons authorised to process the personal data have committed themselves to confidentiality or are under an appropriate statutory obligation of confidentiality.

(c) In the event of a personal data breach concerning personal data processed by the data importer under these Clauses, the data importer shall take appropriate measures to address the breach, including measures to mitigate its adverse effects. The data importer shall also notify the data exporter without undue delay after having become aware of the breach. Such notification shall contain the details of a contact point where more information can be obtained, a description of the nature of the breach (including, where possible, categories and approximate number of data subjects and personal data records concerned), its likely consequences and the measures taken or proposed to address the breach including, where appropriate, measures to mitigate its possible adverse effects. Where, and in so far as, it is not possible to provide all information at the same time, the initial notification shall contain the information then available and further information shall, as it becomes available, subsequently be provided without undue delay.

(d) The data importer shall cooperate with and assist the data exporter to enable the data exporter to comply with its obligations under Regulation (EU) 2016/679, in particular to notify the competent supervisory authority and the affected data subjects, taking into account the nature of processing and the information available to the data importer.

8.7 Sensitive data

Where the transfer involves personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, genetic data, or biometric data for the purpose of uniquely identifying a natural person, data concerning health or a person's sex life or sexual orientation, or data relating to criminal convictions and offences (hereinafter "sensitive data"), the data importer shall apply the specific restrictions and/or additional safeguards described in Annex I.B.

8.8 Onward transfers

The data importer shall only disclose the personal data to a third party on documented instructions from the data exporter. In addition, the data may only be disclosed to a third party located outside the European Union2 (in the same country as the data importer or in another third country, hereinafter "onward transfer") if the third party is or agrees to be bound by these Clauses, under the appropriate Module, or if:

(i) the onward transfer is to a country benefitting from an adequacy decision pursuant to Article 45 of Regulation (EU) 2016/679 that covers the onward transfer;

(ii) the third party otherwise ensures appropriate safeguards pursuant to Articles 46 or 47 Regulation of (EU) 2016/679 with respect to the processing in question;

(iii) the onward transfer is necessary for the establishment, exercise or defence of legal claims in the context of specific administrative, regulatory or judicial proceedings; or

(iv) the onward transfer is necessary in order to protect the vital interests of the data subject or of another natural person.

Any onward transfer is subject to compliance by the data importer with all the other safeguards under these Clauses, in particular purpose limitation.

8.9 Documentation and compliance

(a) The data importer shall promptly and adequately deal with enquiries from the data exporter that relate to the processing under these Clauses.

(b) The Parties shall be able to demonstrate compliance with these Clauses. In particular, the data importer shall keep appropriate documentation on the processing activities carried out on behalf of the data exporter.

(c) The data importer shall make available to the data exporter all information necessary to demonstrate compliance with the obligations set out in these Clauses and at the data exporter's request, allow for and contribute to audits of the processing activities covered by these Clauses, at reasonable intervals or if there are indications of non- compliance. In deciding on a review or audit, the data exporter may take into account relevant certifications held by the data importer.

(d) The data exporter may choose to conduct the audit by itself or mandate an independent auditor. Audits may include inspections at the premises or physical facilities of the data importer and shall, where appropriate, be carried out with reasonable notice.

The Parties shall make the information referred to in paragraphs (b) and (c), including the results of any audits, available to the competent supervisory authority on request.

Clause 9

Use of sub-processors

(a) The data importer has the data exporter's general authorisation for the engagement of sub-processor(s) from an agreed list. The data importer shall specifically inform the data exporter in writing of any intended changes to that list through the addition or replacement of sub- processors at least thirty (30) days in advance, thereby giving the data exporter sufficient time to be able to object to such changes prior to the engagement of the sub-processor(s). The data importer shall provide the data exporter with the information necessary to enable the data exporter to exercise its right to object.

(b) Where the data importer engages a sub-processor to carry out specific processing activities (on behalf of the data exporter), it shall do so by way of a written contract that provides for, in substance, the same data protection obligations as those binding the data importer under these Clauses, including in terms of third-party beneficiary rights for data subjects.3 The Parties agree that, by complying with this Clause, the data importer fulfils its obligations under Clause 8.8. The data importer shall ensure that the sub-processor complies with the obligations to which the data importer is subject pursuant to these Clauses.

(c) The data importer shall provide, at the data exporter's request, a copy of such a sub- processor agreement and any subsequent amendments to the data exporter. To the extent necessary to protect business secrets or other confidential information, including personal data, the data importer may redact the text of the agreement prior to sharing a copy.

(d) The data importer shall remain fully responsible to the data exporter for the performance of the sub-processor's obligations under its contract with the data importer. The data importer shall notify the data exporter of any failure by the sub- processor to fulfil its obligations under that contract.

(e) The data importer shall agree a third-party beneficiary clause with the sub-processor whereby - in the event the data importer has factually disappeared, ceased to exist in law or has become insolvent - the data exporter shall have the right to terminate the sub-processor contract and to instruct the sub-processor to erase or return the personal data.

Clause 10

Data subject rights

(a) The data importer shall promptly notify the data exporter of any request it has received from a data subject. It shall not respond to that request itself unless it has been authorised to do so by the data exporter.

(b) The data importer shall assist the data exporter in fulfilling its obligations to respond to data subjects' requests for the exercise of their rights under Regulation (EU) 2016/679. In this regard, the Parties shall set out in Annex II the appropriate technical and organisational measures, taking into account the nature of the processing, by which the assistance shall be provided, as well as the scope and the extent of the assistance required.

(c) In fulfilling its obligations under paragraphs (a) and (b), the data importer shall comply with the instructions from the data exporter.

Clause 11

Redress

(a) The data importer shall inform data subjects in a transparent and easily accessible format, through individual notice or on its website, of a contact point authorised to handle complaints. It shall deal promptly with any complaints it receives from a data subject.

(b) In case of a dispute between a data subject and one of the Parties as regards compliance with these Clauses, that Party shall use its best efforts to resolve the issue amicably in a timely fashion. The Parties shall keep each other informed about such disputes and, where appropriate, cooperate in resolving them.

(c) Where the data subject invokes a third-party beneficiary right pursuant to Clause 3, the data importer shall accept the decision of the data subject to:

(i) lodge a complaint with the supervisory authority in the Member State of his/her habitual residence or place of work, or the competent supervisory authority pursuant to Clause 13;

(ii) refer the dispute to the competent courts within the meaning of Clause 18.

(d) The Parties accept that the data subject may be represented by a not-for-profit body, organisation or association under the conditions set out in Article 80(1) of Regulation (EU) 2016/679.

(e) The data importer shall abide by a decision that is binding under the applicable EU or Member State law.

(f) The data importer agrees that the choice made by the data subject will not prejudice his/her substantive and procedural rights to seek remedies in accordance with applicable laws.

Clause 12

Liability

(a) Each Party shall be liable to the other Party/ies for any damages it causes the other Party/ies by any breach of these Clauses.

(b) The data importer shall be liable to the data subject, and the data subject shall be entitled to receive compensation, for any material or non-material damages the data importer or its sub-processor causes the data subject by breaching the third-party beneficiary rights under these Clauses.

(c) Notwithstanding paragraph (b), the data exporter shall be liable to the data subject, and the data subject shall be entitled to receive compensation, for any material or non-material damages the data exporter or the data importer (or its sub-processor) causes the data subject by breaching the third-party beneficiary rights under these Clauses. This is without prejudice to the liability of the data exporter and, where the data exporter is a processor acting on behalf of a controller, to the liability of the controller under Regulation (EU) 2016/679 or Regulation (EU) 2018/1725, as applicable.

(d) The Parties agree that if the data exporter is held liable under paragraph (c) for damages caused by the data importer (or its sub-processor), it shall be entitled to claim back from the data importer that part of the compensation corresponding to the data importer's responsibility for the damage.

(e) Where more than one Party is responsible for any damage caused to the data subject as a result of a breach of these Clauses, all responsible Parties shall be jointly and severally liable and the data subject is entitled to bring an action in court against any of these Parties.

(f) The Parties agree that if one Party is held liable under paragraph (e), it shall be entitled to claim back from the other Party/ies that part of the compensation corresponding to its / their responsibility for the damage.

(g) The data importer may not invoke the conduct of a sub-processor to avoid its own liability.

Clause 13

Supervision

(a) The supervisory authority with responsibility for ensuring compliance by the data exporter with Regulation (EU) 2016/679 as regards the data transfershall act as competent supervisory authority.

(b) The data importer agrees to submit itself to the jurisdiction of and cooperate with the competent supervisory authority in any procedures aimed at ensuring compliance with these Clauses. In particular, the data importer agrees to respond to enquiries, submit to audits and comply with the measures adopted by the supervisory authority, including remedial and compensatory measures. It shall provide the supervisory authority with written confirmation that the necessary actions have been taken.

SECTION III – LOCAL LAWS AND OBLIGATIONS IN CASE OF ACCESS BY PUBLIC AUTHORITIES

Clause 14

Local laws and practices affecting compliance with the Clauses

(a) The Parties warrant that they have no reason to believe that the laws and practices in the third country of destination applicable to the processing of the personal data by the data importer, including any requirements to disclose personal data or measures authorising access by public authorities, prevent the data importer from fulfilling its obligations under these Clauses. This is based on the understanding that laws and practices that respect the essence of the fundamental rights and freedoms and do not exceed what is necessary and proportionate in a democratic society to safeguard one of the objectives listed in Article 23(1) of Regulation (EU) 2016/679, are not in contradiction with these Clauses.

(b) The Parties declare that in providing the warranty in paragraph (a), they have taken due account in particular of the following elements:

(i) the specific circumstances of the transfer, including the length of the processing chain, the number of actors involved and the transmission channels used; intended onward transfers; the type of recipient; the purpose of processing; the categories and format of the transferred personal data; the economic sector in which the transfer occurs; the storage location of the data transferred;

(ii) the laws and practices of the third country of destination– including those requiring the disclosure of data to public authorities or authorising access by such authorities – relevant in light of the specific circumstances of the transfer, and the applicable limitations and safeguards4; any relevant contractual, technical or organisational safeguards put in place to supplement the safeguards under these Clauses, including measures applied during transmission and to the processing of the personal data in the country of destination.

(iii) any relevant contractual, technical or organisational safeguards put in place to supplement the safeguards under these Clauses, including measures applied during transmission and to the processing of the personal data in the country of destination.

(c) The data importer warrants that, in carrying out the assessment under paragraph (b), it has made its best efforts to provide the data exporter with relevant information and agrees that it will continue to cooperate with the data exporter in ensuring compliance with these Clauses.

(d) The Parties agree to document the assessment under paragraph (b) and make it available to the competent supervisory authority on request.

(e) The data importer agrees to notify the data exporter promptly if, after having agreed to these Clauses and for the duration of the contract, it has reason to believe that it is or has become subject to laws or practices not in line with the requirements under paragraph (a), including following a change in the laws of the third country or a measure (such as a disclosure request) indicating an application of such laws in practice that is not in line with the requirements in paragraph (a).

(f) Following a notification pursuant to paragraph (e), or if the data exporter otherwise has reason to believe that the data importer can no longer fulfil its obligations under these Clauses, the data exporter shall promptly identify appropriate measures (e.g. technical or organisational measures to ensure security and confidentiality) to be adopted by the data exporter and/or data importer to address the situation if appropriate in consultation with the controller. The data exporter shall suspend the data transfer if it considers that no appropriate safeguards for such transfer can be ensured, or if instructed by the controller or the competent supervisory authority to do so. In this case, the data exporter shall be entitled to terminate the contract, insofar as it concerns the processing of personal data under these Clauses. If the contract involves more than two Parties, the data exporter may exercise this right to termination only with respect to the relevant Party, unless the Parties have agreed otherwise. Where the contract is terminated pursuant to this Clause, Clause 16(d) and (e) shall apply.

Clause 15

Obligations of the data importer in case of access by public authorities

15.1 Notification

(a) The data importer agrees to notify the data exporter and, where possible, the data subject promptly (if necessary with the help of the data exporter) if it:

(i) receives a legally binding request from a public authority, including judicial authorities, under the laws of the country of destination for the disclosure of personal data transferred pursuant to these Clauses; such notification shall include information about the personal data requested, the requesting authority, the legal basis for the request and the response provided; or

becomes aware of any direct access by public authorities to personal data transferred pursuant to these Clauses in accordance (ii) with the laws of the country of destination; such notification shall include all information available to the importer.

(b) If the data importer is prohibited from notifying the data exporter and/or the data subject under the laws of the country of destination, the data importer agrees to use its best efforts to obtain a waiver of the prohibition, with a view to communicating as much information as possible, as soon as possible. The data importer agrees to document its best efforts in order to be able to demonstrate them on request of the data exporter.

(c) Where permissible under the laws of the country of destination, the data importer agrees to provide the data exporter, at regular intervals for the duration of the contract, with as much relevant information as possible on the requests received (in particular, number of requests, type of data requested, requesting authority/ies, whether requests have been challenged and the outcome of such challenges, etc.).

(d) The data importer agrees to preserve the information pursuant to paragraphs (a) to (c) for the duration of the contract and make it available to the competent supervisory authority on request.

(e) Paragraphs (a) to (c) are without prejudice to the obligation of the data importer pursuant to Clause 14(e) and Clause 16 to inform the data exporter promptly where it is unable to comply with these Clauses.

15.2 Review of legality and data minimisation

(a) The data importer agrees to review the legality of the request for disclosure, in particular whether it remains within the powers granted to the requesting public authority, and to challenge the request if, after careful assessment, it concludes that there are reasonable grounds to consider that the request is unlawful under the laws of the country of destination, applicable obligations under international law and principles of international comity. The data importer shall, under the same conditions, pursue possibilities of appeal. When challenging a request, the data importer shall seek interim measures with a view to suspending the effects of the request until the competent judicial authority has decided on its merits. It shall not disclose the personal data requested until required to do so under the applicable procedural rules. These requirements are without prejudice to the obligations of the data importer under Clause 14(e).

(b) The data importer agrees to document its legal assessment and any challenge to the request for disclosure and, to the extent permissible under the laws of the country of destination, make the documentation available to the data exporter. It shall also make it available to the competent supervisory authority on request.

(c) The data importer agrees to provide the minimum amount of information permissible when responding to a request for disclosure, based on a reasonable interpretation of the request.

SECTION IV – FINAL PROVISIONS

Clause 16

Non-compliance with the Clauses and termination

(a) The data importer shall promptly inform the data exporter if it is unable to comply with these Clauses, for whatever reason.

(b) In the event that the data importer is in breach of these Clauses or unable to comply with these Clauses, the data exporter shall suspend the transfer of personal data to the data importer until compliance is again ensured or the contract is terminated. This is without prejudice to Clause 14(f).

(c) The data exporter shall be entitled to terminate the contract, insofar as it concerns the processing of personal data under these Clauses, where:

(i) the data exporter has suspended the transfer of personal data to the data importer pursuant to paragraph (b) and compliance with these Clauses is not restored within a reasonable time and in any event within one month of suspension;

(ii) the data importer is in substantial or persistent breach of these Clauses; or

(iii) the data importer fails to comply with a binding decision of a competent court or supervisory authority regarding its obligations under these Clauses.

In these cases, it shall inform the competent supervisory authority of such non-compliance. Where the contract involves more than two Parties, the data exporter may exercise this right to termination only with respect to the relevant Party, unless the Parties have agreed otherwise.

(d) Personal data that has been transferred prior to the termination of the contract pursuant to paragraph (c) shall at the choice of the data exporter immediately be returned to the data exporter or deleted in its entirety. The same shall apply to any copies of the data. The data importer shall certify the deletion of the data to the data exporter. Until the data is deleted or returned, the data importer shall continue to ensure compliance with these Clauses. In case of local laws applicable to the data importer that prohibit the return or deletion of the transferred personal data, the data importer warrants that it will continue to ensure compliance with these Clauses and will only process the data to the extent and for as long as required under that local law.

(e) Either Party may revoke its agreement to be bound by these Clauses where (i) the European Commission adopts a decision pursuant to Article 45(3) of Regulation (EU) 2016/679 that covers the transfer of personal data to which these Clauses apply; or (ii) Regulation (EU) 2016/679 becomes part of the legal framework of the country to which the personal data is transferred. This is without prejudice to other obligations applying to the processing in question under Regulation (EU) 2016/679.

Clause 17

Governing law

These Clauses shall be governed by the law of the EU Member State in which the data exporter is established. Where such law does not allow for third-party beneficiary rights, they shall be governed by the law of another EU Member State that does allow for third-party beneficiary rights.

Clause 18

Choice of forum and jurisdiction

(a) Any dispute arising from these Clauses shall be resolved by the courts of an EU Member State.

(b) The Parties agree that those shall be the courts of the EU member state in which the data exporter is established.

(c) A data subject may also bring legal proceedings against the data exporter and/or data importer before the courts of the Member State in which he/she has his/her habitual residence.

(d) The Parties agree to submit themselves to the jurisdiction of such courts.

  Names, email addresses, academic ID numbers (if provided by the data exporter), academic submission content and associated online identifiers.
- *Sensitive data transferred (if applicable) and applied restrictions or safeguards that fully take into consideration the nature of the data and the risks involved, such as for instance strict purpose limitation, access restrictions (including access only for*

staff having followed specialised training), keeping a record of access to the data, restrictions for onward transfers or additional security measures:
It is possible that sensitive personal data could be processed if a student submits work relating to their own sensitive personal data, but the likelihood is very remote.

- *The frequency of the transfer (e.g., whether the data is transferred on a one-off or continuous basis):*
Dependent on the use of the services by the data exporter and the frequency of their submissions, which is their choice. Generally continuous due to regular submissions during the academic year.

- *Nature of the processing:*
Collection, storage, retrieval, use (in the context of text matching functions), service and product improvement.

- *Purpose(s) of the data transfer and further processing:*
The provision of academic integrity and/or assessment software.

- *The period for which the personal data will be retained, or, if that is not possible, the criteria used to determine that period:*Storage of the content of submissions is indefinite unless instructed otherwise by the data exporter. The data controller may at any time during or after the service period instruct the data importer(s) to delete such submissions and data.

- *For transfers to (sub-) processors, also specify subject matter, nature and duration of the processing:*
Submission content is processed by sub-processors for textual comparison purposes.

C. COMPETENT SUPERVISORY AUTHORITY

The competent supervisory authority/ies in accordance with Clause 13 shall be the competent supervisory authority in the Member State where the data exporter is established. If the data exporter is not established in the Union, the competent supervisory authority shall be the data protection authority of the Netherlands.

ANNEX II - TECHNICAL AND ORGANISATIONAL MEASURES INCLUDING TECHNICAL AND ORGANISATIONAL MEASURES TO ENSURE THE SECURITY OF THE DATA

1. Measures of pseudonymisation and encryption of personal data:

- All data is encrypted in flight using up-to-date HTTPS when traversing public networks;
- Encryption utilises a proprietary, one-way hash method providing pseudonymisation. Decryption keys are isolated from the encryption system.
- Encryption applies to Personal Data that is written into databases that reside in encrypted filesystems (AES-256 cipher), which are backed up continuously (files replicated in N+3 redundancy), the back-ups of which are encrypted in a separate server farm;
- Storage devices are encrypted in accordance with the US Federal Information Processing Standards (FIPS) Publication 140-2

2. Measures for ensuring ongoing confidentiality, integrity, availability and resilience of processing systems and services:

- AICPA's SOC2 certification applies to Turnitin's infrastructure. SOC 2 defines criteria for managing customer data based on five 'trust service principles': security, availability, processing integrity, confidentiality and privacy. Periodic third-party penetration testing is carried out;
- AWS Cloud Security applies to any services hosted on AWS. AWS supports more security standards and compliance certifications than any other offering, including HIPAA, FedRAMP, GDPR, FIPS 140-2, and NIST 800-171, helping Turnitin satisfy compliance requirements for its customers globally;
- SSL network security applies to all relevant domains used in the solution. Other features include intrusion detection systems, file integrity monitors; security event monitoring and sophisticated firewalls;
- Turnitin continuously monitors the US National Vulnerability Database and patches as necessary.

3. Measures for ensuring the ability to restore the availability and access to personal data in a timely manner in the event of a physical or technical incident:

- Databases are backed up continuously. Submissions are replicated five times: 4 on active storage and 1 copy on a back-up server.

4. Processes for regularly testing, assessing and evaluating the effectiveness of technical and organisational measures in order to ensure the security of the processing:

- Periodic third-party penetration testing;
- Programmatic analysis of software code for open-source and proprietary vulnerabilities;
- Policies and processes that enforce segregation of duties and peer-reviews to govern production stability and security;
- Annual or semi-annual incident-response tabletop drills and disaster recovery drills;
- Continuous vulnerability monitoring by multiple third-party tools;
- Host intrusion-detection systems;
- Security, privacy, and availability processes audited by AICPA;
- Periodic internal red-team exercises;
- Weekly vulnerability-scans;
- Monthly company-wide meetings dedicated to information security processes and practices;
- Centralized logging SIEM infrastructure;
- Security response team staffed and responding at all times with tiered-response procedures and programmatic escalation and alerting infrastructure;
- Cloud security posture monitoring;
- Continuous risk aggregation and reporting systems;
- Vendor auditing and supply-chain monitoring for third-party processor security.

5. Measures for user identification and authorisation:

- Employee identity is controlled by a central team, members of which prescribe role identity to an Active Directory system;
- The employee Active Directory system acts as the programmatic source of truth, and federates various levels of authority to security providers that govern systems at varying levels of diligence dependent on the risk those systems pose if identity or credentials were compromised. These systems employ MFA and other sophisticated challenge techniques depending on risk;
- Customer identity is managed by server single-sign on partners as well as our own proprietary identity management framework.

6. Measures for the protection of data during transmission:

- All data is encrypted in transit using the technical measures described in section 1 herein.

7. Measures for the protection of data during storage:

- All data is encrypted at rest using the technical measures described in section 1 herein;
- Any student submissions stored on the AWS platform in the EU will be exclusively stored in the EU.

8. Measures for ensuring physical security of locations at which personal data are processed:

- Access to data centers is limited to staff and approved contractors who need access to perform their duties on Turnitin's behalf to benefit the Controller. Turnitin's private corporate network provides secure, encrypted, and redundant connectivity between Turnitin's offices and its data centers;

- Access to devices that contain Personal Data is restricted to specific, security-trained personnel who may only access these systems in the course of their employment. Access and privilege escalation is monitored and logged for 2 years. Remote access is only possible using cryptographic SSH keys, physical access is restricted to authorized employees via badge access - all server racks have locked cage doors with codes that are only known to Turnitin employees.
- Employee device encryption and central management.

9. Measures for ensuring events logging:

- Centralized logging infrastructure consolidates all relevant events for human and programmatic consumption and processing.

10. Measures for ensuring system configuration, including default configuration:

- Configuration management is deployed on all traditional host-based systems to idempotently define configuration standards.
- System deployment templates are used for all VM and physical infrastructure.
- Container images are designed and stored locally for consistent microservice configuration.

11. Measures for internal IT and IT security governance and management:

- Turnitin's on-call technology team provides 24/7 coverage by monitoring and alerting on any issues or problems with servers, operating systems, network devices (switches/routers) backup systems and server-side performance. Turnitin will notify its customers immediately of any changes to its environment that could adversely impact security.
- Internal governance assessments that measure the likelihood/impact of risk events that may occur within the environment;
- Annual training to measure employees' security readiness concerning protection of information assets, minimization of phishing attempts, and regulatory requirements for sharing personal data. Results from the training are assessed and action plans are developed to address gaps in training;
- Measuring the effectiveness of IT Disaster Recovery with the creation of issue categorization and response timeframes for events that occur based on level of risk severity.

12. Measures for certification/assurance of processes and products:

- Turnitin is SOC2 certified by a third-party auditor, AICPA;
- Qualys ™ grades of 'A' apply to all relevant domains;
- Turnitin's infrastructure is compliant with the 'SANS Top 20' security controls as published by the Center for Internet Security Critical Security Controls for Effective Cyber Defense.

13. Measures for ensuring data minimisation:

- Turnitin only processes the data provided by the Controller, which is generally the minimum required to achieve the processing aims.

14. Measures for ensuring data quality:

- Turnitin only processes the data provided by the Controller. Data rectification is always available via Customer Support.

15. Measures for ensuring limited data retention:

- The default retention period is indefinite due to the nature of the services; however data will be deleted upon the instruction of the Controller.

16. Measures for ensuring accountability:

- Turnitin has appointed a Data Protection Officer who can be contacted at DPO@turnitin.com and has appointed a Chief Information Security Officer to assist the Data Protection Officer with their role and to continuously monitor Turnitin's data security practices;

- Turnitin has implemented policies on GDPR breach notifications, data retention and data subject access requests;
- Turnitin has instigated an ongoing programme of GDPR awareness training within its organisation and receives Executive level support for data protection initiatives.

17. Measures for allowing data portability and ensuring erasure:

- All data requiring portability is supplied in commonly used, readable formats via email;
- Erasure is managed by the Customer Support and Engineering teams who have over 3 years of experience in GDPR erasure requests/actions;
- Equipment removed for off-site maintenance is sanitized of any personal data in accordance with NIST SP 800-88 Revision 1. Turnitin sanitizes or destroys media containing Personal Data in accordance with NIST SP 800-88 Revision 1 before disposal or re-use.

18. Sub-Processors

- For details of the technical and organisational measures that sub-processors utilize, refer to Annex III.

19. Additional Safeguards further to Schrems II applicable to transfers to the USA

19.1 Turnitin has assessed the impact of the Foreign Intelligence Surveillance Act S.702, **"FISA 702"**; Executive Order 12333, **"EO12333"**; the Clarifying Lawful Overseas Use of Data Act, **"CLOUD Act"**, and the **"PRISM"** and **"UPSTREAM"** programs on transfers of Personal Data to Turnitin in the United States. As noted below, Turnitin has determined that given the safeguards provided under the Standard Contractual Clauses and this Appendix 2, Personal Data transferred to Turnitin pursuant to the Standard Contractual Clauses is afforded an adequate level of protection under EU data protection law.

19.1A On 7 October 2022, the US passed into law an Executive Order on Enhancing Safeguards for United States Intelligence Activities, intended to address the concerns in the case of Schrems II. In particular, the Executive Order:

- provides that US intelligence activities shall be 'necessary' and 'proportionate' to a 'validated intelligence priority';
- defines the steps to be taken for the handling of personal data collected through signals intelligence;
- establishes a mechanism for non-US data subjects to seek review of intelligence activities; and
- creates a 'Data Protection Review Court' to review qualifying complaints.

19.2 **FISA 702** sets forth processes and conditions for U.S. intelligence agencies to lawfully collect from **electronic communication service providers** information relating to non-U.S. persons who are reasonably believed to be outside the United States. Turnitin is **not** an 'electronic communications service provider' as per 50 U.S.C. § 1881. At the time of the 2013 Edward Snowden leaks regarding the scope of FISA 702 surveillance, fewer than 10 companies were reported as receiving FISA 702 directives; all of those companies provided electronic communications services aimed at facilitating the exchange of communications between users of the services. Turnitin has no such communications functionality and has not received a request to provide information pursuant to FISA 702. If Turnitin receives a directive pursuant to FISA 702, it shall resist and, as permitted by law, inform its data exporters in accordance with the Standard Contractual Clauses.

19.3 **EO12333** authorizes and governs surveillance activities by U.S. intelligence agencies. EO12333 provides no mechanism or process for the U.S. government to compel entities to assist the government in surveillance activities, therefore Turnitin is not legally required to cooperate with U.S. intelligence agencies seeking to conduct foreign intelligence surveillance pursuant to EO12333. Turnitin shall resist any requests issued pursuant to EO12333. Furthermore, EO12333 cannot compel data importers to provide decryption keys which would allow the US Government to decrypt Turnitin's encrypted data as set out in section 1 herein, and such decryption keys shall not be provided by Turnitin. EO12333 works by exploiting vulnerabilities in telecommunications infrastructure over which Turnitin data is not passed. Restrictions were placed upon the use of EO12333 in 2014 by Presidential Policy Directive 28 (PPD28).

19.4 **The CLOUD Act** establishes a framework via which U.S. law enforcement may obtain from U.S.-based cloud providers information stored outside the United States provided that the information is relevant to an ongoing criminal investigation. And to obtain contents of communications that have been stored for 180 days or less, U.S. law enforcement must obtain from a judge a warrant supported by probable cause. The CLOUD Act does not authorize bulk collection of information, and the Court of Justice of the European Union has never raised concerns regarding the U.S. regime for criminal investigations.

19.5 **PRISM** and **UPSTREAM**: both these programs operate under FISA 702, which we consider to be non-applicable in terms of potential access to Turnitin data.

19.6 Turnitin undertakes to adopt appropriate measures to protect the personal data received under the Standard Contractual Clauses from the data exporter ("**SCC Personal Data**") in accordance with the requirements of EU data protection law, including by implementing appropriate technical and organizational safeguards, such as encryption or similar technologies described in sections 2 and 3 herein to protect personal data against any interference that goes beyond what is necessary in a democratic society to safeguard national security, defence and public security.

19.7 In the event that Turnitin receives from a U.S. government authority a legally binding request for access to the SCC Personal Data, such as a court order, Turnitin will promptly notify the data exporter of such request to enable the data exporter to intervene and seek relief from such disclosure, unless Turnitin is otherwise prohibited from providing such notice, such as a prohibition under criminal law to preserve the confidentiality of a law enforcement investigation. If Turnitin is so prohibited:

- It will use its reasonable best efforts to obtain the right to waive this prohibition in order to communicate as much information as it can and as soon as possible, and be able to demonstrate that it did so.
- In the event that, despite having used its reasonable best efforts, Turnitin is not permitted to notify the data exporter, it will make available on an annual basis general information on the requests it received to the data exporter and/or the competent supervisory authority of the data exporter.
- It will work with the data exporter to oppose any such request for access.

19.8 In the event of a legally binding request such as a court order, for access to the SCC Personal Data by a public authority, Turnitin will:

- not make any disclosures of the SCC Personal Data to any public authority that are determined to be massive, disproportionate and indiscriminate in a manner that it would go beyond what is necessary in a democratic society; and
- upon request from the data exporter, provide general information on the requests from public authorities it received in the preceding 12-month period relating to SCC Personal Data.

1. Where the data exporter is a processor subject to Regulation (EU) 2016/679 acting on behalf of a Union institution or body as controller, reliance on these Clauses when engaging another processor (sub-processing) not subject to Regulation (EU) 2016/679 also ensures compliance with Article 29(4) of Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC (OJ L 295 of 21.11.2018, p. 39), to the extent these Clauses and the data protection obligations as set out in the contract or other legal act between the controller and the processor pursuant to Article 29(3) of Regulation (EU) 2018/1725 are aligned. This will in particular be the case where the controller and processor rely on the standard contractual clauses included in Decision [...].

2. The Agreement on the European Economic Area (EEA Agreement) provides for the extension of the European Union's internal market to the three EEA States Iceland, Liechtenstein and Norway. The Union data protection legislation, including Regulation (EU) 2016/679, is covered by the EEA Agreement and has been incorporated into Annex XI thereto. Therefore, any disclosure by the data importer to a third party

3. This requirement may be satisfied by the sub-processor acceding to these Clauses under the appropriate Module, in accordance with Clause 7.

4. As regards the impact of such laws and practices on compliance with these Clauses, different elements may be considered as part of an overall assessment. Such elements may include relevant and documented practical experience with prior instances of requests for disclosure from public authorities, or the absence of such requests, covering a sufficiently representative time-frame. This refers in particular to internal records or other documentation, drawn up on a continuous basis in accordance with due diligence and certified at senior management level, provided that this information can be lawfully shared with third parties. Where this practical experience is relied upon to conclude that the data importer will not be prevented from complying with these Clauses, it needs to be supported by other relevant, objective elements, and it is for the Parties to consider carefully whether these elements together carry sufficient weight, in terms of their reliability and representativeness, to support this conclusion. In particular, the Parties have to take into account whether their practical experience is corroborated and not contradicted by publicly available or otherwise accessible, reliable information on the existence or absence of requests within the same sector and/or the application of the law in practice, such as case law and reports by independent oversight bodies.

1.7 Confidential Information. In the absence of (i) a Turnitin Confidential Information provision in your Agreement with us, and/or (ii) an effective non-disclosure agreement between you and us, then you agree not to disclose Turnitin Confidential Information (as defined in the Turnitin Master Registration Agreement), except as required by Applicable Law.

1.8 Turnitin Contracting Party. Only the applicable Turnitin Contracting Party (as defined in the Turnitin Master Registration Agreement) will have obligations with respect to each Turnitin account, and no other Turnitin Contracting Party has any obligation with respect to such account. Invoices for each account will reflect the Turnitin Contracting Party that is responsible for that account during the applicable billing period. If the Turnitin Contracting Party responsible for your account changes and you had previously made an up-front payment for any Services to that Turnitin Contracting Party, then that Turnitin Contracting Party may remain the Turnitin Contracting Party for the applicable account only with respect to the Services related to such up-front payment.

1.9 Associated Services. When you use certain Services, you may be able to use or may be required to use one or more other Services (each, an "**Associated Service**"), and when you use an Associated Service, you are subject to the terms and fees that apply to that Associated Service.

1.10 Service Credits. If an SLA applies to the Services you purchased and you have been charged for a Service period when that Service was unavailable (as defined in the applicable SLA for each Service), you may request a Service credit equal to any charged amounts for such period by contacting the applicable Turnitin Contracting Party.

2. Early Access Services.

2.1 General Information. This Section 2 (Early Access Services) describes the additional terms and conditions under which you may (i) access and use certain features, technologies, and services made available to you by Turnitin that are not yet generally available to the public, including, but not limited to, any products, services, software, or features labeled "beta", "preview", "pre-release", "early access," "developmental," or "experimental", and any related Turnitin Content (each, an "**Early Access Service(s)**"); or (ii) access and use Services and any related Turnitin Content available in Turnitin regions that are not generally

available to the public, including, but not limited to, any Turnitin regions identified by Turnitin as "beta", "preview", "pre-release", "early access," "developmental," or "experimental" (each, an **"Early Access Region"**).

2.2 Compliance with Early Access Terms. You must comply with all terms related to any Early Access Service or Early Access Region as posted on the Site or otherwise made available to you, including in an applicable Order Form. Turnitin may add or modify terms related to your access to or use of any Early Access Services or Early Access Regions provided via the Site at any time and without prior notice. SLAs will not apply to Early Access Services or Early Access Regions.

2.3 Test Observations. You may provide Turnitin with information relating to your access, use, testing, or evaluation of Early Access Services or Early Access Regions, including observations or information regarding the performance, features, and functionality of Early Access Services or Early Access Regions (**"Test Observations"**). Turnitin will own and may use and evaluate all Test Observations for its own purposes. You will not use any Test Observations except for your internal evaluation purposes of any Early Access Service or Early Access Region.

2.4 Feedback and Testimonials. As a condition of receiving an Early Access Service and upon Turnitin's prior written request in an executed Order Form, Turnitin may require you to perform utilization and testing of Early Access Services in real-world environments and provide your Test Observations and Feedback to Turnitin on the results of such utilization and testing on a periodic basis (cadence to be established by mutual agreement). Such Test Observations and Feedback may include, as applicable, information including, without limitation, the design, use, application, operation, and speed of the Early Access Service. After completion of the Early Access Service term, Turnitin may require you to provide—on Turnitin's behalf—testimonials concerning the Services either in print, by quotation, recorded, or video format. In addition, and only at Turnitin's prior written request and expense, Turnitin may require that you participate with us in presenting the Early Access Services in a meeting or conference environment. You acknowledge that Turnitin may modify, adapt, and use any of the foregoing testimonials in marketing and promotional purposes, and you agree to cooperate with Turnitin in mutually agreed additional use cases (if agreed in writing between you and us).

2.5 Confidentiality of Early Access Services. Test Observations and Feedback concerning an Early Access Service or Early Access Region, and any other information about or involving (including the existence of) any Early Access Service or Early Access Region are considered Turnitin Confidential Information and are subject to the confidentiality provisions in the Agreement.

2.6 Termination of Early Access Services. Turnitin may suspend or terminate your access to or use of any Early Access Service or Early Access Region at any time and without prior notice. Your access to and use of each Early Access Service and Early Access Region will automatically terminate upon the release of a generally available version of the applicable Early Access Service or Early Access Region or upon notice of termination by Turnitin, whichever occurs first. Notwithstanding anything to the contrary in the Agreement or these Service Terms, after suspension or termination of your access to or use of any Early Access Service or Early Access Region for any reason, (a) you will not have any further right to access or use the applicable Early Access Service or Early Access Region, and (b) Your Content used in the applicable Early Access Service or Early Access Region may be deleted or made inaccessible to you.

2.7 Testing, Benchmarking, and Other Initiatives. Testing, benchmarking and other performance-related development initiatives may be ongoing during the period in which the Early Access Services are made available to you. By accepting and using the Early Access Services, you acknowledge that the Early Access Services may not be fully-functioning or functioning as designed and further acknowledge that you may experience issues with regard to Early Access Service availability, reliability, and stability.

2.8 NO WARRANTY; DISCLAIMER OF DAMAGES; LIMITATION OF DAMAGES. DURING THE EARLY ACCESS SERVICE TERM, BECAUSE TURNITIN IS SUPPLYING THE EARLY ACCESS SERVICE TO YOU ON A TEST BASIS, AND NOTWITHSTANDING ANY OTHER PRODUCT OR SERVICE WARRANTY PROVIDED IN THE AGREEMENT, TURNITIN IS MAKING THE EARLY ACCESS SERVICE AVAILABLE TO YOU "AS IS" FOR EVALUATION ONLY, AND ACCORDINGLY MAKES NO WARRANTIES WHATSOEVER, EXPRESS OR IMPLIED, WHETHER ORAL OR WRITTEN, WITH RESPECT TO THE SOFTWARE, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTIES OF MERCHANTABILITY, OF FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, OR ARISING FROM USAGE OF TRADE OR COURSE OF DEALING OR PERFORMANCE. YOU AGREE NOT MAKE ANY CLAIM OR FILE ANY SUIT AGAINST TURNITIN, WHETHER IN CONTRACT, TORT, STRICT LIABILITY OR OTHERWISE REGARDING ANY ASPECT OF THE PERFORMANCE OR NON-PERFORMANCE OF THE EARLY ACCESS SERVICE, AND YOU HEREBY IRREVOCABLY WAIVE ANY RIGHTS, IF ANY, WHICH YOU MAY HAVE TO DIRECT, INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING FROM THE PERFORMANCE OR NON-PERFORMANCE OF THE EARLY ACCESS SERVICE, EVEN IF TURNITIN HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. ANY DAMAGES AWARDED AGAINST TURNITIN, WHETHER ARISING IN CONTRACT, TORT OR STRICT LIABILITY SHALL NOT EXCEED AN AMOUNT GREATER THAN $100.00.

FULLY DIGITIZED CMT REPORTING AND DISTRIBUTION

Since 1988, ECS field technicians have been utilizing our proprietary Field Report and Electronic Distribution (FRED) system. This completely digital method of construction material testing information allows for a quick, efficient and accurate reporting process.

field technicians write reports on-site using a hand-held electronic device

reports are transmitted to the office

project manager / principal engineer review and approve reports

client receives report via email, within hours of completion

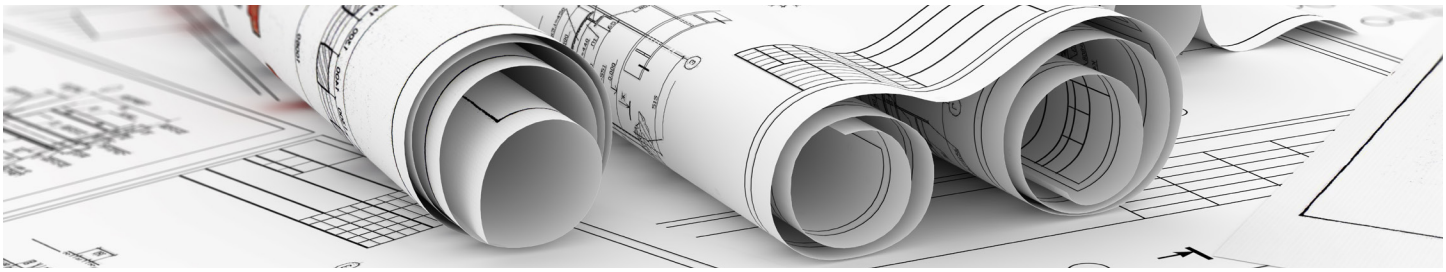
SPEED • ACCURACY • VALUE • EFFICIENCY

WHAT THIS MEANS FOR OUR CLIENTS

With FRED, finalized reports are typically delivered in two business days or less (often less than one day) from when the work was performed. The reports are written on-site, resulting in more precise data and observations. With the information gathered, everyday construction problems in the field can be resolved quickly by the project engineer, saving the client time and money.

Our paperless reporting system can be instantly forwarded to the parties involved.

PART IX: ADDITIONAL INFORMATION



ECS utilizes a seamless, digital, in-house developed suite of software. Our systems are as follows:

FRED

FRED (Field Reporting and Electronic Distribution): Laboratory and field data is processed in FRED automatically once the specific information related to a work order or lab test is uploaded and submitted to Project Management for review. Once approved by the Project Manager, the report is submitted to the Principal Engineer for their approval and signature. Then, the report is automatically transmitted to the recipients on the distribution list.

ETHEL

ETHEL (ECS Technician Handheld Electronic Logbook): Our field technicians are equipped with tablets or touch-screen laptops to store their field testing results, observations and communication. The ETHEL system, which is the platform for organizing all of this data into an easy to use interface that translates all the entered information into our standard reports. Transcription is not required and time is not lost in transition. Once the field data and field write-up are completed, the field technician attaches digital photos and site location sketches, then uploads them wirelessly to our system. Upon completion of the upload, the automatically assembled reports are available in the FRED system for Project Manager review.

IVAN

IVAN (Invoice Verification and Notification): On a monthly basis, our invoices are automatically prepared and are made available to our management team in an easy to use platform. IVAN, synchronized with GEORGE, ETHEL and FRED, gathers all time and materials associated with our services and assembles the invoices for review. Following the initial setup of the project and execution of services, the invoice assembly process is simple and straight forward requiring very little manipulation or modification making for a rapid review and finalization process. The Project Manager performs the initial review then approves for the Principal Engineer to do the same. Upon completion and approval by both the PM and the PE, the invoice is transmitted and copied to all those set up to receive them. Being contained within the same electronic system, this process is simplified and operates with little complication.

PART IX: ADDITIONAL INFORMATION

Whether your project requires local project management, specialty expertise or both, we have you covered. ECS provides the best of both worlds - the attention your projects deserve from our local team, coupled with abundant staffing and technical resources. ECS has grown across the Mid-Atlantic, Midwest, Southeast, Southwest and Pacific.

PART III - GENERAL QUALIFICATIONS OF FIRM

TESTING LABORATORY QUALIFICATIONS

UES's Knoxville laboratory is among the most comprehensively accredited facilities in the region, holding both AASHTO Accreditation and U.S. Army Corps of Engineers (USACE) validation. These credentials affirm the lab's technical capability, reliability, and compliance with the highest standards of construction materials testing. Proof of our lab certifications are included in the appendices.

AASHTO Accreditation

The UES Knoxville laboratory is fully accredited by AASHTO ReSource for compliance with AASHTO R18, which sets the standard for establishing and maintaining a quality management system in construction materials testing laboratories. This accreditation includes, but is not limited to, the following ASTM standards required by the RFQ:

- ASTM E329 – Specification for Agencies Engaged in Testing and/or Inspection of Materials Used in Construction (Aggregate, Asphalt Mixture, Concrete, Soil)
- ASTM C1077 – Practice for Laboratories Testing Concrete and Concrete Aggregates (Concrete and Aggregate)
- ASTM D3666 – Specification for Agencies Testing and Inspecting Road and Paving Materials (Aggregate and Asphalt Mixture)
- ASTM D3740 – Practice for Agencies Engaged in Testing and/or Inspection of Soil and Rock

The lab is accredited across a wide scope of materials and test methods, including:

- Concrete: slump, air content (pressure and volumetric), compressive strength, temperature, flexural strength, curing environments, and drilled core evaluation.
- Soils: Atterberg limits, Proctor density, CBR, particle size analysis, specific gravity, in-place density (sand cone and nuclear methods), organic content, and triaxial shear.
- Aggregates: sieve analysis, specific gravity, moisture content, soundness, organic impurities, and abrasion resistance.
- Asphalt Mixtures: Marshall stability, air voids, specific gravity, asphalt content (ignition method), nuclear density testing, and gradation of extracted aggregates.
- Fire-Resistive Materials: thickness and cohesion/adhesion testing of SFRM as applied to structural members.

These accreditations verify that our laboratory personnel, procedures, calibration methods, record keeping, and quality assurance programs meet nationally recognized standards for precision and integrity.

USACE Validation

In addition to AASHTO accreditation, the Knoxville laboratory has been validated by the U.S. Army Corps of Engineers (USACE) for its capacity to perform testing in accordance with federal requirements for government-funded projects. This validation further enhances our standing as a lab capable of meeting rigorous standards for geotechnical and construction materials testing on military, municipal, and civil infrastructure projects.

Reporting and Turnaround

Lab results are processed and verified using UES's internal QA/QC procedures, and reports are delivered promptly via secure digital formats. Our documentation is structured to meet the requirements of project specifications, IBC, and municipal guidelines.

PROJECT MANAGEMENT APPROACH

UES applies a proactive and structured project management model tailored to the complexity and demands of municipal and educational construction environments. Our Knoxville team brings a deep understanding of local project requirements and stakeholder expectations, allowing us to plan and deliver services with precision and responsiveness.

PART III - GENERAL QUALIFICATIONS OF FIRM

Integrated Team Leadership

Every engagement begins with the assignment of a Project Manager who serves as the operational lead. This individual is responsible not only for managing schedules and personnel assignments but also for anticipating and resolving logistical challenges in the field. They act as a liaison between Knox County stakeholders and our technical staff, ensuring that client priorities and timelines are consistently met.

Our internal structure ensures clear role delineation:

- Engineers manage scope interpretation and technical problem-solving.
- Field supervisors coordinate day-to-day logistics, monitor progress, and enforce quality control.
- Lab managers oversee timely processing and review of test results, ensuring alignment with project deliverables.

Technical Oversight and Special Inspections

Special inspections are coordinated and reviewed under the direct supervision of a licensed Tennessee Professional Engineer, who also serves as the designated Lead Special Inspector for the project. This engineer is responsible for:

- Reviewing inspection scopes for conformance with IBC and local standards.
- Approving inspection protocols before field execution.
- Conducting periodic site visits to validate inspection quality and compliance.

This role bridges the field and the engineering review process, adding an additional layer of quality assurance that complements routine technician-level inspections.

Workflow Coordination and Scheduling

UES utilizes a combination of regional resource planning tools and local dispatch protocols to coordinate testing schedules around active construction timelines. Our systems allow for rapid mobilization of inspectors and equipment, real-time updates to project managers, and detailed tracking of tests performed.

All scheduling is driven by client needs, site readiness, and project milestones—ensuring testing occurs at the correct intervals to support quality control without causing construction delays.

Quality and Documentation

All inspections and tests are documented in standardized reports, which undergo internal QA/QC review before being submitted to the client. Reports are formatted for ease of use, with clear data presentation, interpretations when necessary, and a concise summary of any deviations or observations requiring action.

Should any deficiencies be observed during fieldwork, our team provides same-day communication and consultative guidance on corrective action. Our internal QA team conducts regular audits to ensure reports are accurate, complete, and delivered within required timeframes.

SAFETY AND SITE PROTOCOLS

Project execution includes strict adherence to safety standards and site-specific protocols. All personnel working on school or county facilities comply with background check requirements under Tennessee Code § 49-5-413. Our field teams are trained in site-specific safety procedures, including hazard recognition, PPE usage, and respectful engagement in sensitive environments such as occupied campuses.

Question 1: Are the services requested primarily on an “on call” basis?

Question 2: Is this service for regular home to school fixed routes?

Answer 2: Yes.

Question 6: Can the District provide a copy of the current fleet listing including year, make, model, seating capacity/configuration and number of lift required vehicles being used for this service?

Answer 16: Approximately 20-30 per month, with more clustered at the start of the school year.

If awarded, we would provide the district with our tracking and scheduling software that includes GPS and allows district staff and caregivers/parents to track rides in real time.

Is there a different process that has been developed that we can expect for the new contract period that will produce a more manageable timeline to help us provide service for the high demand and fluctuation of this contract?

Answer 39: The district will work with vendors to the greatest extent possible to expedite onboarding of new drivers.

Question 40: RFP states that all safety employees are to be listed on our roster for random drug screenings. What would the process be from your perspective if a mechanic or tech failed? Is there a moratorium on their return and what has to be completed for that person to return to service?

Answer 40: Violations of drug and alcohol testing policy will be handled on a case-by-case basis.

Question 41: Can you tell us for sure that the Board is requiring the 2mil umbrella going forward (or more) so we know how to adjust our pricing?

Answer 41: The district does not anticipate the insurance requirements changing but cannot categorically or unilaterally guarantee that for the life of the contract. The pricing should reflect the insurance requirements. If amendments to a contract are desired, both parties would need to agree to those amendments.

Question 42: Please clarify if you would like 1 original printed proposal, 1 exact printed copy of the proposal, and 1 exact copy on USB, or is 1 original print and 1 exact copy via USB sufficient?

Answer 42: Please submit one (1) original hard copy, one (1) exact copy and a USB with one PDF file on the proposal.

PROPOSED COSTS:

In realization that the economy has suffered significantly, due to cost of insurance increases and the high cost of gas and all other factors involved in running a business, we understand the need to keep cost lowered and still be able to deliver quality service. The pricing is as follows:

These Trips will be identified as:

1) From Home (origination) to School (destination).
2) From School (origination) to Home (destination).
3) From Point (origination) to Point (destination).

Each Student's fare calculated at a rate of $2.95 per mile by the shortest drivable route from their origination location to their destination location. The shortest route will be determined using GIS/GPS applications developed by the KCSTD. The base area is referring to the existing contract GSA points.

Deadhead miles previously charged to each student(s) trip fare when an origination or destination was located outside of the defined base service area. City Shuttle LLC will no longer be using Deadhead miles.

City Shuttle LLC has never requested fuel reimbursement, but due to rising fuel cost is requesting this reimbursement upon award of this contract.

There will be minimum fare of $17.00 for any student transported without a notice prior to 6:00 p.m. on the previous day of operation for KCSTD. The minimum trip fee is $17.00 per student for up to 5.75 miles, thereafter, billed at a rate of $2.95 per mile.

In instance of multiple students from same origination to same destination rate will be $2.95 per mile for first student or $17.00 or the greater of each.

Pick up attempts that do not use the service will be charged as though they were picked up and taken to their destination.

The fare for a student failing to utilize transportation services as scheduled by KCSTD will be at the full mileage rate of $2.95 or the greater of $17.00 per student.

The pricing schematic is not negotiable.

The following is for clarification:

Question 1: Are the services requested primarily on an “on call” basis?

Answer 1: The bulk of services will be scheduled but call-in services will make up a significant minority of the total.

Question 2: Is this service for regular home to school fixed routes?

Answer 2: Yes.

Question 3: If fixed route service, please provide copies of current routes.

Answer 3: Routes will change between now and the initiation of service, the examples in the RFP give an idea of the types of service we’re looking for.

Question 4: Does the District prefer vehicles that are FMVSS compliant for home to school transportation services?

Answer 4: Yes.

Question 5: Please provide a copy of the Transportation Handbook referenced in 4.14

Question 6: Can the District provide a copy of the current fleet listing including year, make, model, seating capacity/configuration and number of lift required vehicles being used for this service?

Answer 15: All those functions are contractor-specific and not governed or facilitated by the district.

Question 16: How many of the on-demand call-in trips has the district seen on average per month over the past year?

Answer 16: Approximately 20-30 per month, with more clustered at the start of the school year.

Question 17: What is the average mileage per trip?

Answer 17: It varies enough that an average per trip is not a descriptive number. Some trips are 3 miles long, others are 50 miles, depending on the needs of the district.

Question 18: Are we permitted to submit our standard driver qualifications along with a sample list of local drivers, with the understanding that the final list may be subject to change based on district demand?

Answer 18: Yes, but all drivers will be required to meet the requirements of the Knox County Schools Eligibility Roster. It is conceivable that drivers who meet your standard driver qualifications will also meet many of those necessary to be included on the Eligibility Roster, but the district will evaluate that on a case-by-case, driver-by-driver basis.

Answer 19: $2.15 per mile, $2.25 per mile, $2.50 per mile

Answer 34: It has not been necessary to assess Liquidated Damages during our current contract.

Question 35: Can the district please confirm if vendors are required to supply safety equipment such as vests or harnesses? If yes, how many students currently require this type of equipment?

Answer 35: The district will supply all necessary specialized student transportation equipment.

Question 36: Can the district please confirm what software they are using to manage their bus routing?

Answer 36: Edulog.

Question 37: Can the district please clarify if the intent of 4.16 Global Positioning System (p.12) is to integrate the awarded vendor's software and GPS system with their current GPS system for yellow buses? If awarded, we would provide the district with our tracking and scheduling software that includes GPS and allows district staff and caregivers/parents to track rides in real time.

Answer 37: Use of district-provided GPS, camera, and radio systems will be a requirement for working for the district. Any vendor unwilling to do so will be deemed non-responsive to the RFP.

Question 38: Would the district be open to a complete list of the drivers and vehicles following award and prior to start of service at a mutually agreed upon time?

Answer 38: The district is open to any drivers that meet the qualifications and stipulations for inclusion on the Knox County Schools Eligibility Roster and any vehicles that meet the Knox County Schools Shuttle Specifications.

Question 39: Currently, there is only 1 class per month AND a minimum of 3 people required before a class can be scheduled for potential new drivers. Is there a different process that has been developed that we can expect for the new contract period that will produce a more manageable timeline to help us provide service for the high demand and fluctuation of this contract?

Answer 39: The district will work with vendors to the greatest extent possible to expedite onboarding of new drivers.

Question 40: RFP states that all safety employees are to be listed on our roster for random drug screenings. What would the process be from your perspective if a mechanic or tech failed? Is there a moratorium on their return and what has to be completed for that person to return to service?

Answer 40: Violations of drug and alcohol testing policy will be handled on a case-by-case basis.

Question 41: Can you tell us for sure that the Board is requiring the 2mil umbrella going forward (or more) so we know how to adjust our pricing?

Answer 41: The district does not anticipate the insurance requirements changing but cannot categorically or unilaterally guarantee that for the life of the contract. The pricing should reflect the insurance requirements. If amendments to a contract are desired, both parties would need to agree to those amendments.

Question 42: Please clarify if you would like 1 original printed proposal, 1 exact printed copy of the proposal, and 1 exact copy on USB, or is 1 original print and 1 exact copy via USB sufficient?

Answer 42: Please submit one (1) original hard copy, one (1) exact copy and a USB with one PDF file on the proposal.

Question 43: Per Pg. 10, section 4.1 regarding daily vehicle mileage between 50-150 miles per vehicle, can the district please provide the average mileage per one way route?

Answer 43: See answer 17.

Question 44: Who is the current Vendor(s)?

Answer 44: See answer 20.

Question 45: What is the current vendor(s) rates?

Answer 45: See answer 19.

Question 46: Are there any service-related items that the district is trying to address/improve with this RFP?

Answer 46: Not specifically, no.

Question 48: How will participation in the call-in service be valued/weighted in regard to proposal evaluations?

Answer 48: The district is interested in working with vendors who can offer unexpected or emergency service with little notice. While not offering this type of service is not disqualifying, it will be a part of a vendor's evaluation.

Question 49: Section 4.19 - Random Drug and Alcohol Testing- Who is responsible for the costs associated with enrollment in the testing program managed by the KCSTD?

Answer 49: There is no cost for enrollment into the KCSTD testing program, it is a requirement for working with the district.

To the community of Knox County,

We believe transportation has the power to change lives. Each time we connect schools to resources, drivers to routes, and students to their education, we create opportunities for stability. Transportation fuels the health of communities by getting people to places and resources they need to thrive. But it isn't always easy, and that's where we come in. We are here to create ***solutions and partnerships*** that make transportation easier and more attainable while removing key barriers in the process.

Collaborative Student Transportation (CST) is an organization dedicated to **Every Student, Every Partner, and Every Community.** Founded in 2018 in Minneapolis, Minnesota, CST set out with a mission to create stability for our nation's most vulnerable student populations. We support transportation departments across the United States by managing the extensive logistics needed to safely and effectively transport a district's special needs, highly mobile, and homeless student populations.

At CST, we are driven to break down barriers and connect resources every chance we get, because it's our responsibility to the students we serve, to the communities, schools, partners and livelihoods that depend on us and to the nation-wide need for education stability that transportation can provide.

Who we are:
We are transportation professionals, technologists and logistical experts with a heart for students. We work across time zones, cultures and languages. We understand the transportation difficulties schools face, and are here to facilitate connections to solve those problems and drive stability.

What we do:
We foster connections between schools and transportation vendors. We leverage our network and technology capabilities to provide cost-effective, safe and efficient transportation solutions for students across the nation.

How we do it:
We provide comprehensive transportation services that include daily routing & planning, customer service, safety & compliance, vendor management, and billing & reporting that allows schools to focus on other areas of responsibility of the department.

Sincerely,

Dr. Stephanie Burrage
Chief Executive Officer

Brief History of Organization
Collaborative Student Transportation (CST) is an organization dedicated to **Every Student, Every Partner, and Every Community.** Founded in 2018 in Minneapolis, Minnesota , CST set out with a mission to create stability for our nation's most vulnerable student populations. We are driven to break down barriers and share resources every chance we get. It is our responsibility to the students, schools, and communities that we serve, as well as the service partners whose livelihoods depend on us, and to the nation-wide need for education stability that transportation can provide.

We are transportation professionals, technologists and logistical experts with a heart for students. We are here to create ***solutions and partnerships*** that make transportation easier and more attainable while removing key barriers in the process.

CST partners with transportation departments in public school districts, charter schools, and private schools across the United States to ensure we find equitable, efficient, and effective transportation solutions for special needs, homeless, and highly-mobile student populations.

We leverage our service provider network and technology capabilities to provide cost-effective, safe and efficient transportation solutions. Comprehensive transportation services include daily routing and planning, customer service, safety and compliance, vendor management, billing and reporting, allowing schools to focus on other areas of responsibility of the department.

E-Commerce and Cooperative Procurement Policy
CST does not accept E-Commerce as payment. We do accept checks and we can work together on an agreement on the timeline of which we shall be paid.

CST will allow Cooperative Procurement.

CST acknowledges that we received Addendum 1.

Tab 3 | Available Resources

Tab 3 | Available Resources

3.1 | Number of Vehicles

CST is prepared to provide 20 vehicles at the start of service to transport students for Knox County. A detailed list of our vehicles can be found in the “Attachments” section at the end of this proposal.

3.2 | List of Drivers

CST maintains a dedicated team of experienced and licensed drivers who meet all state and federal requirements for student transportation services. While a full list of drivers is not included in this proposal, we can confirm that the necessary documentation will be provided to Knox County prior to the commencement of services. Additionally, we understand and acknowledge that if awarded a contract, we may be required to submit each individual’s Social Security Number (SSN) and we are willing to comply with this request.

3.3 | Staff Absenteeism and Dress Policy Code

CST Service Partners are required to maintain a backup fleet of 10% of the vehicles and 10% of drivers required to service the contract in case of staff absenteeism or unforeseen circumstances.

All of our vendors that we partner with shall have a professional dress code in place. The dress code policy is designed to help provide a consistent professional appearance to our customers and colleagues. Drivers and aides are expected to dress in appropriate attire for the assigned tasks. Employees must always present a clean, professional appearance. Everyone is expected to be well-groomed and wear clean clothing, free of holes, and tears. Clothing with offensive or inappropriate designs or stamps are not allowed.

Tab 4 | Qualifications & Experience

Tab 4 | Qualifications and Experience

Founded in 2018, CST has served over 100 school districts and charter schools. Our current work involves serving over 80 school districts and charter schools in Arizona, California, Delaware, Florida, Illinois, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Carolina, Tennessee, Texas, Washington, and Wisconsin by managing over 800 routes each day to transport over 7,500 students each school year. Through our unique collaborative model, we provide schools access to transportation resources that could not be achieved alone.

Our administrative team leads over 30 customer service, finance and routing professionals with over 150 years of combined experience in pupil transportation to bridge the gap in transportation accessibility for communities with limited resources. We are equipped to take on the most challenging circumstances and ensure students receive safe and sustainable transportation each day.

4.1 | Post Accident Procedures

CST will provide a report to the district whenever an accident or incident occurs that involves equipment, personnel, or pupils being transported. The following is an example of possible operating procedures in the event of an accident or emergency. We will work closely with your district to establish an official district/ CST schools policy.

Driver Responsibilities

- Submit a verbal report to CST immediately or within 15 minutes following of an accident with basic information which includes:
    - Are there injuries?
    - The number of students on board at the time of the accident
    - Location of the accident
    - Time of the accident
    - Basic information of what happened to cause the accident
    - Has 911 been called
- Call 911 to report the accident anytime there are students on board a route
    - 911 is called immediately if the vendor suspects injuries to driver or passengers
- Follow service partner's drug & alcohol policy in regards to post-crash requirements
- Provide detailed written report within 4 hours of the time of the accident using CST's accident report
- Submit police report and other information (pictures, video, etc) when available to CST
- Submit insurance claim to insurance provider when applicable
- Provide insurance claim information when other parties are injured
- Send additional vehicle to transport students to destination

CST's Responsibilities

- Student Experience representative reports accident immediately to CST leadership
- Report accident to district (transportation department and school) immediately following district reporting procedures
- Send accident report to district upon request
- Follow up with service partners on all accidents

4.2 | Driver Files Information

CST utilizes a comprehensive internal system called **Contractor Compliance**, designed to centralize and manage all essential documentation and credentials for our drivers. This secure database stores critical information for each contractor and employee, including insurance certificates, background checks, fingerprinting records, and other pre-employment requirements.

By consolidating this data, Contractor Compliance allows us to proactively track expiration dates and renewal deadlines for licenses, certifications, and insurance policies. This ensures that every driver and staff member remains fully compliant with federal, state, and district requirements at all times. The system provides real-time visibility and accountability allowing CST to serve the district at the highest capability.

4.3 | Sample Daily Summary Report

While CST does not currently provide Daily Summary Reports as a standard offering, we are fully open to collaborating with the district to design and implement a reporting solution tailored to its needs.

Should the district find value in daily operational summaries, CST can work closely with designated contacts to develop a customized reporting plan. These reports can include metrics such as the number of students transported, on-time performance, route delays, or any additional data points the district may find helpful. Our goal is to provide transparency and partnership, ensuring the district has access to the information it needs to support its transportation program effectively

4.4 | Student Interaction Policies

At CST, ensuring student safety and fostering respectful, professional interactions are core to our values. All CST staff, drivers, aides, and administrative personnel, are expected to maintain appropriate boundaries, communicate respectfully, and act as positive representatives of the organization while transporting students.

Employees are strictly prohibited from forming personal relationships with students outside the scope of service. Physical contact is limited to necessary and appropriate situations, such as helping a student board safely. Any form of physical punishment, aggressive contact, or inappropriate behavior is not tolerated.

Staff must communicate with students only through professional channels and never through personal devices or social media. To support these standards, CST provides annual training on

appropriate interaction, child safety, and mandated reporting. Employees are required to acknowledge and adhere to this policy in writing each year.

CST takes concerns seriously and has procedures in place for reporting and addressing policy violations. We prohibit retaliation against employees who report in good faith. As part of our commitment to our school district partners, CST will provide copies of this policy and documentation of staff training upon request, and will fully cooperate with any compliance reviews.

4.5 | Harassment or Discrimination Reporting Procedure

The ultimate responsibility and authority to suspend or expel any student from transportation services shall rest with CST or student's resident or providing school district. If it is deemed necessary, CST will transport single student riders if it's in the best interest of the district and the student.

Drivers are responsible only for such discipline as is required to safely and properly operate vehicles. In no case will a driver eject a student from a vehicle for misbehavior except in the event of an extreme emergency endangering the safety of the student, other students, the driver or the vehicle aide, and then only after radio notice to the terminal and to the student's building principal. If the misbehavior is extreme to the point of removing the student from the vehicle, police will be called to assist with the issue. The district will be notified if police intervention is required.

All discipline problems shall be reported in writing following completion of the route so that the school and/or CST can address the issue in accordance with their policies. The repair and/or replacement of equipment or facilities due to vandalism shall be the sole responsibility of CST.

CST fully agrees to the terms outlined regarding the reporting and handling of student-on-student harassment or discrimination. CST acknowledges its responsibility to promptly inform both the administration of the school it serves and Knox County of any such incidents that occur on a CST-operated vehicle.

CST further agrees that in any instance where it fails to report an incident that it knew about or reasonably should have known about, it will indemnify and defend the Board of Education, its agents, and its employees from any costs, losses, damages, or judgments resulting from such an incident. CST understands that knowledge of an incident will be presumed if any CST employee observed the harassment or discrimination.

This commitment reflects CST's broader dedication to student safety, transparency, and accountability in every aspect of its service delivery

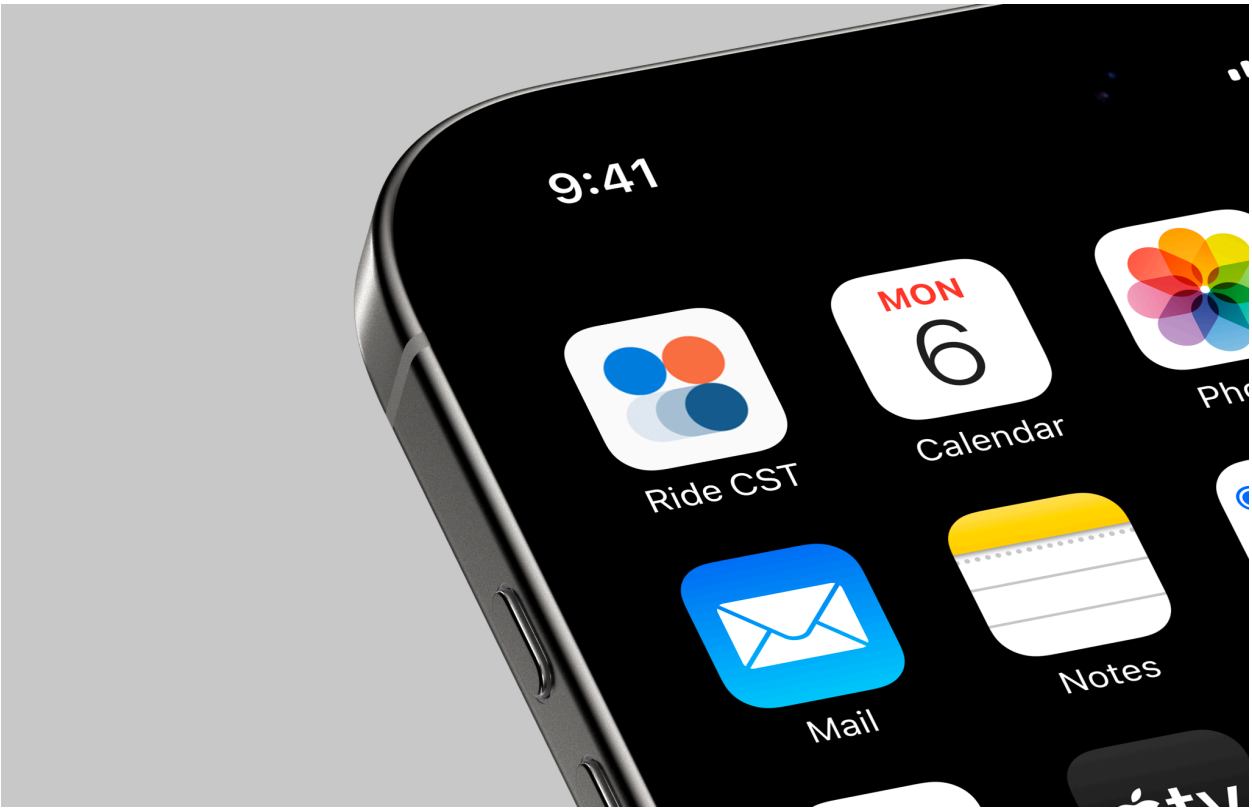
The RideCST Mobile App

*Access to the RideCST Mobile App is included at no cost to the district

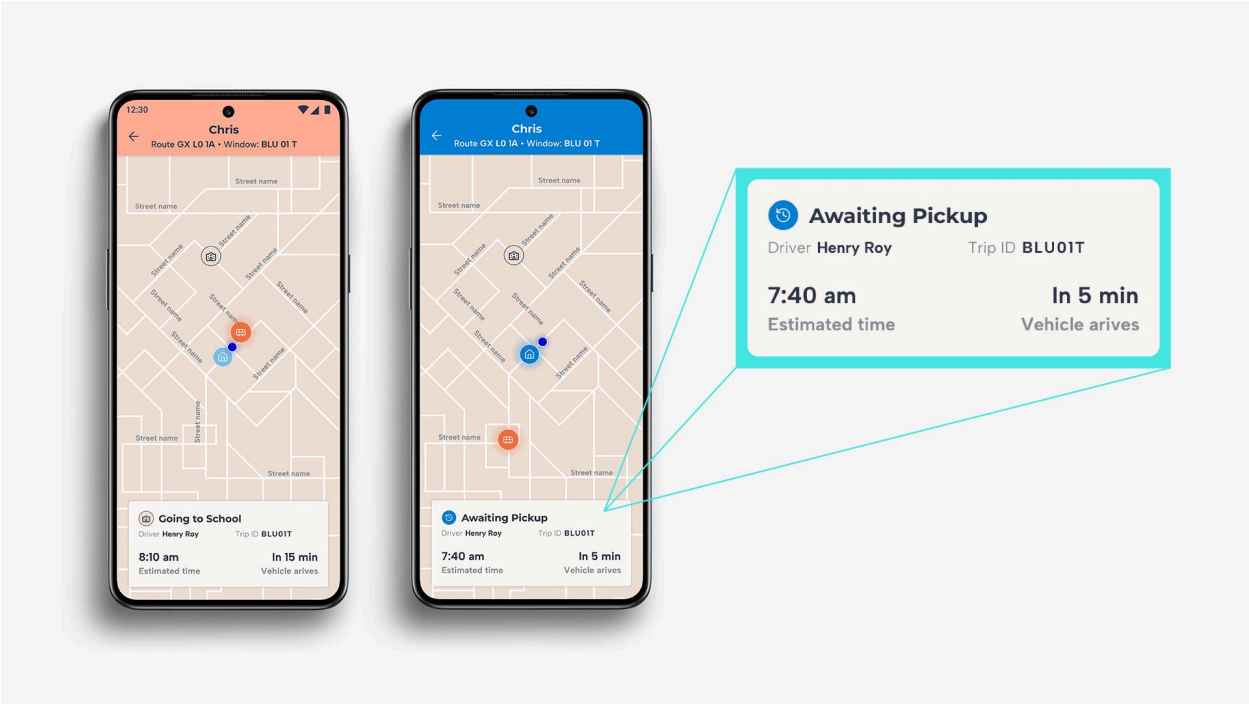


App Overview

The Collaborative Student Transportation (CST) Parent App, RideCST, is designed to provide parents with up to date information for driver pick up and drop off times. Each morning, parents will be provided with an estimated time of arrival, a notification when the driver arrives, and a push notification when the driver arrives at their child's school.

In the afternoon, parents will receive a push notification when drivers leave school and when their child has been dropped off at their assigned stop.

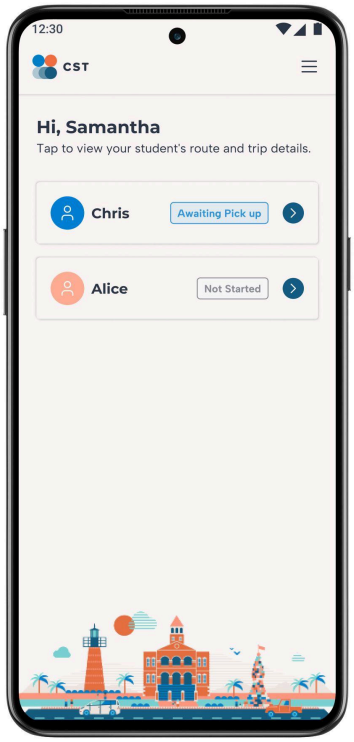
The RideCST App has the option to not display turn by turn directions. District staff may utilize this feature to provide an extra layer of privacy protection when students from multiple households are riding in a vehicle together.



Late Route Notifications

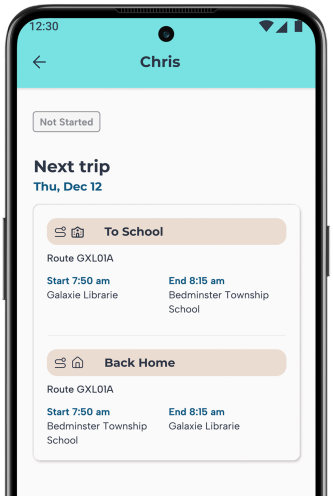
We are proud to report an on-time performance record of 98.9%. But that other 1.1% can cause extreme anxiety for parents and students. Thankfully, CST's Parent App is designed to relieve that stress whenever a driver is running late due to issues like unusual traffic or inclement weather. Parents will receive a push notification when vehicles are running late by more than 5 minutes. Once the initial "running late" notification is sent, parents will continue to receive updates if the driver's ETA changes.

In the event of vehicle breakdowns or excessive delays, drivers can use the app to transfer the route to another driver. In these situations, parents will be notified immediately with updated arrival information for the substitute driver as well as details on the driver's name and face, so parents and students know who to look for upon arrival.



District Staff Access

While the CST Portal is the best tool for district staff to access student transportation information, they will be able to use the RideCST App to access Driver ETAs as well as all live driver locations.



District staff can set up push notifications from the RideCST App. Staff at individual schools can also filter information so that they will only see ride information on students who attend their schools.

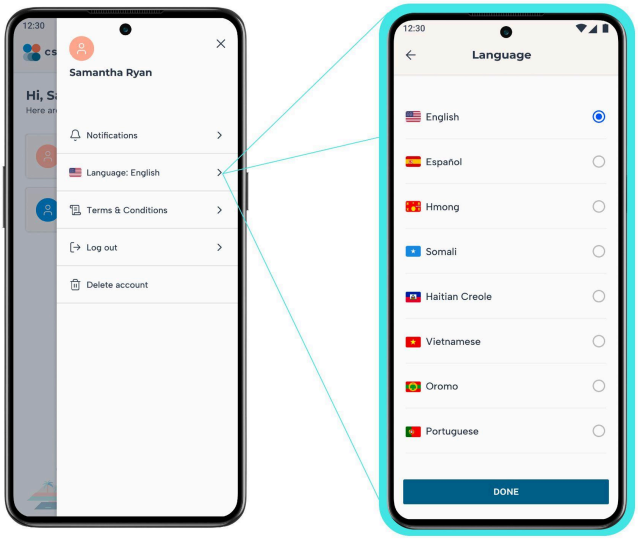
No Load Reporting

No Load Reporting ensures complete visibility and accountability during student transportation. As drivers reach each designated stop, they record in real time whether a student was loaded onto the vehicle or marked as a no load (not present or not boarding). This data is instantly synced and accessible, enabling the district to monitor trip status and student attendance in real time.

To keep families informed, parents receive immediate push notifications through the app — letting them know when their child is picked up at the stop, and confirming when they have been safely dropped off. This feature enhances communication, builds trust, and improves safety across the entire transportation process.

Language Accessibility

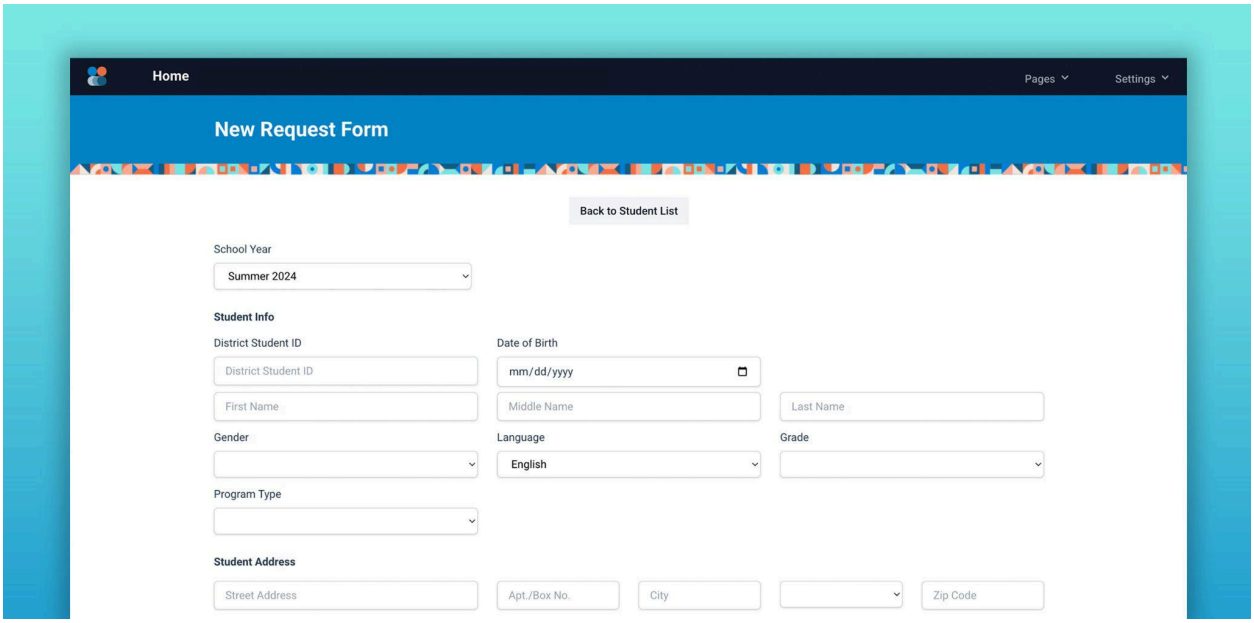
Oftentimes, language barriers can be a hindrance to a positive transportation experience for CST families and drivers. Thankfully, CST has addressed this challenge by allowing users to select from a list of eight available languages for use in the RideCST app including English, Hmong, Spanish, Somali, Haitian-Creole, Vietnamese, Oromo, and Portuguese.



The CST Customer Portal

*Access to the CST Customer Portal is included at no cost to the district

One of the most powerful tools that we have available for all of our district partners is the CST Customer Portal. This is your one stop shop for submitting new student ride information, updating or canceling current student ride information, reviewing no show data or any other critical information related to your district's transportation experience.



CST Customer Portal Features

New Student Transportation

At CST, we strive to make timely transportation accessible to every student who needs it, regardless of changing circumstances. To that end, we follow this protocol when a district wants to provide transportation for a new student:

- Ride Requests can be submitted using the CST Customer Portal, which can be found on our website, www.drivecst.org.
- Most routing requests are processed within 2-5 business days
- We review emergency requests on a case-by-case basis for expedited turnaround time
- Families are notified by phone and email with new or changed bus information for their student

When a new student is entered into the CST Portal, complete this simple form, detailing student information, and any other critical details to ensure a safe, consistent transportation experience for each student in our care. Once you have completed this form, our routing team will get started on discovering the most efficient and effective way to get them to and from school each day.

**Student data can be uploaded in bulk by uploading a .csv file.*

Update Existing Student Information

Follow the process described above to update existing student information. As student addresses, phone numbers, and other information change, simply update that student's information and our routers and customer experience team will get to work immediately to accommodate this change.

Reporting

The CST Portal is where you will find critical, real time, student data. Simply search for a student by name to find information related to their transportation experience including vehicle assignments, pick up and drop off locations/times, and unique accommodations such as IEP's or vehicle aides.

Other reports such as No Ride Reports are available as well.

Question 1: Are the services requested primarily on an “on call” basis?

Answer 1: The bulk of services will be scheduled but call-in services will make up a significant minority of the total.

Question 2: Is this service for regular home to school fixed routes?

Answer 2: Yes.

Question 3: If fixed route service, please provide copies of current routes.

Answer 3: Routes will change between now and the initiation of service, the examples in the RFP give an idea of the types of service we’re looking for.

Question 4: Does the District prefer vehicles that are FMVSS compliant for home to school transportation services?

Answer 4: Yes.

Question 6: Can the District provide a copy of the current fleet listing including year, make, model, seating capacity/configuration and number of lift required vehicles being used for this service?

Answer 16: Approximately 20-30 per month, with more clustered at the start of the school year.

Question 18: Are we permitted to submit our standard driver qualifications along with a sample list of local drivers, with the understanding that the final list may be subject to change based on district demand?

Answer 18: Yes, but all drivers will be required to meet the requirements of the Knox County Schools Eligibility Roster. Answer 39: The district will work with vendors to the greatest extent possible to expedite onboarding of new drivers.

Question 40: RFP states that all safety employees are to be listed on our roster for random drug screenings. What would the process be from your perspective if a mechanic or tech failed? Is there a moratorium on their return and what has to be completed for that person to return to service?

Answer 40: Violations of drug and alcohol testing policy will be handled on a case-by-case basis.

Question 41: Can you tell us for sure that the Board is requiring the 2mil umbrella going forward (or more) so we know how to adjust our pricing?

Answer 41: The district does not anticipate the insurance requirements changing but cannot categorically or unilaterally guarantee that for the life of the contract. The pricing should reflect the insurance requirements. If amendments to a contract are desired, both parties would need to agree to those amendments.

Question 42: Please clarify if you would like 1 original printed proposal, 1 exact printed copy of the proposal, and 1 exact copy on USB, or is 1 original print and 1 exact copy via USB sufficient?

Answer 42: Please submit one (1) original hard copy, one (1) exact copy and a USB with one PDF file on the proposal.

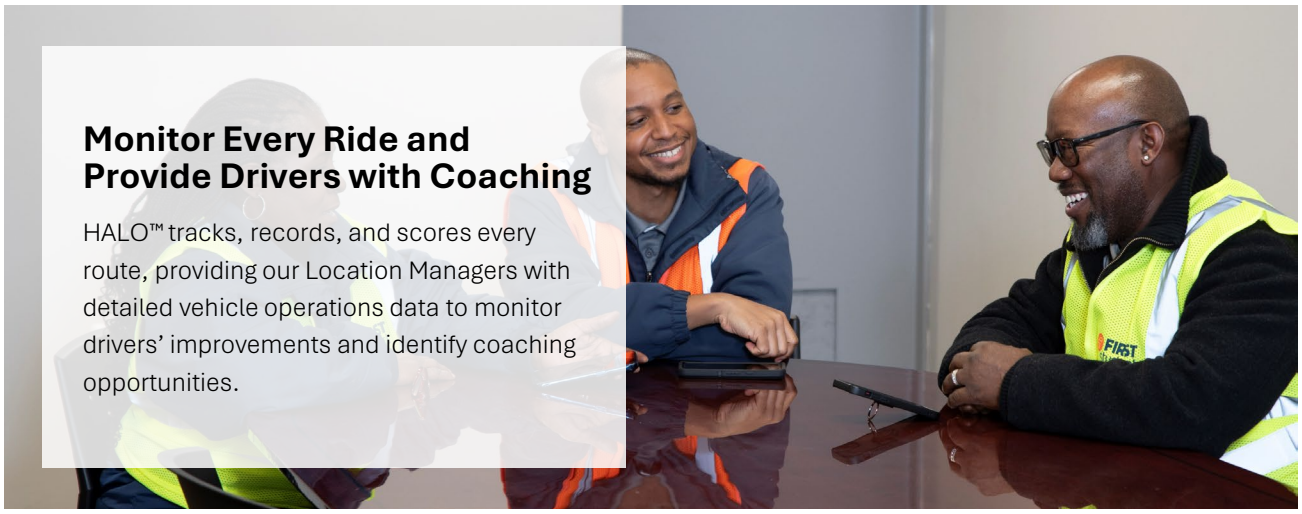
Proprietary Technology Platform

HALO™, First Student's proprietary technology platform, connects all the people and systems involved in transporting students. The HALO™ platform connects all aspects of our operations, from recruiting, training, routing, dispatching, vehicle telematics, student ridership, and maintenance to provide a 360º view of each trip.

All parties involved in transportation have simple dashboards and apps to enable communication and provide transparency all the way down to the student rider.

HALO™ is an award-winning integrated technology platform. Fueled by artificial intelligence, it provides insights and analytics to help us continually improve our promise to provide the best experience for all our student passengers.

HALO™ has been recently awarded Forrester's 2024 Technology Strategy Impact Award for how our platform has used tech to drive our business goals. In addition, HALO™ has also been awarded T-Mobile's Unconventional Award for the way our bus connectivity has improved school bus behavior and student experience.



Monitor Every Ride and Provide Drivers with Coaching

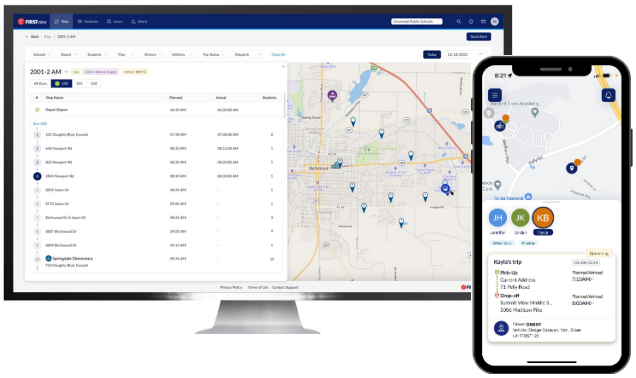
HALO™ tracks, records, and scores every route, providing our Location Managers with detailed vehicle operations data to monitor drivers' improvements and identify coaching opportunities.

Provide Parents Peace of Mind with First View®

While on the road, parents, caregivers, and students can easily track our vehicles with our vehicle tracking app, First View®, powered by HALO™. Once downloaded, the app allows for monitoring multiple students, customizable distance notifications, and district alerts in multiple languages with live support.

View Your Entire Fleet with First View®

District personnel can see the whole picture with our vehicle tracking dashboard, powered by HALO™. This solution provides a complete fleet view and allows personnel to drill down to the route and stop level to always know where every vehicle is.



Our pricing fully encompasses all the cost structures of the RFP specifications, along with factoring in the appropriate costs to continue to attract and retain drivers in the current labor market with the current economic headwinds we are all facing.

After a thorough review of bid specifications, we believe we can offer the best and most competitively priced solutions for Knox County Schools.

A detailed breakdown of our price proposal can be found in the Pricing Overview section of this proposal.

Contract Start Date

Under the current scenario, our services would begin July 1, 2025. Alternate start dates are available if your district makes an award earlier or requires additional time to finalize your decision.

Invoicing

We accept contract customer payments via ACH/EFT (E-Commerce) via banking institution and live check submission to the AR lockbox. We do not accept credit card payments from Contract customers due to the large processing fees associated with the large payments. We utilize JPMC Chase to compile and submit all receipts and remittance details that are received with an ACH and/or live check as well as the AR team receives remittance details into our shared Outlook e-mail box.

Received Addendum

We acknowledge receipt of School Transportation Services RFP #3655 Addendum I, dated 4/30/25.

Contract Terms & Suggested Language

Our proposal assumes that, based on the RFP #3655 and this submission, Knox County Schools and First Alt® sign a mutually acceptable contract for a 2-year term. Subsequent to the award and any additional negotiation, our legal team will work with your legal representative to create a mutually agreeable contract.

Company Background

One Billion
Student Trips Completed in 2024

As the largest and most trusted student transportation provider, we are a proven solution. First Student has a century of history, experience, and dedicated service that showcase our commitment to student safety, parent trust, and school district partnerships across the country. We deliver industry-leading transportation solutions tailored to our district partners' specific needs, supported by cutting-edge technology that improves operations.

Knox County Schools is looking for more than a partner with extensive technology offerings, streamlined operations, and a professional staff with over 40 years of experience in the industry. You need a partner you can trust who shares your commitment to caring for the children that fill your classrooms — one who seeks to build a relationship around a shared goal of caring for your students. We are that partner. The well-being and potential of the children we transport have always been the pulse of our business. While our district customers continuously recognize our dedication and care, they recently rated our service with an impressive 9.2 out of 10 for caring for the students we serve (Customer Survey School Years 2022/23 and 2023/24).

First Student is trusted by more districts like Knox County Schools than any other provider. We move beyond daily operations and deliver on your community's needs – now and in the future.

Recognitions and Awards

In addition to being a trusted partner to our districts, we're also celebrated by our peers. In 2023, the National School Transportation Association (NSTA) named First Student its Contractor of the Year for our leadership in innovation, safety, and operational excellence. We have developed several programs to improve the student transportation experience, including our one-of-a-kind First Serves® special education program and First Alt®, our alternative transportation program. We are also leaders in sustainability efforts, with a robust school bus electrification division and several initiatives to lower our emissions. With First Student, Knox County Schools has a truly first-in-class partner for its student transportation.

First Student has also received numerous other awards, including School Transportation's News' Green Bus Fleet award for our electrification milestones. We are the only student transportation provider to receive the National Safety Council's Green Cross for Safety. We are also members of the Campbell Institute, a recognized leader in environmental, health, and safety (EHS) initiatives. These awards demonstrate our obsession with driving the industry forward into a safer, cleaner future.

Company Overview

First Student's History

Our company's history traces back to 1913 when Frank A. Patchett rallied his limited resources to develop a transportation solution for his rapidly growing community of Newman, California. Patchett attached bench seats, wood paneling, and a roof to the frame of a Ford Model-T, creating a preliminary design that would go on to become the yellow school bus we know and love today.

Over the years, First Student has acquired several companies with dedicated people and resources who have helped to broaden our reach and hone our trade, creating a curated powerhouse focused on the safety of students. We now serve over 1,330 school districts across the continent.

Today, we follow Patchett's example by using our resources to create innovative transportation solutions for communities big and small, putting students first and listening to our District partners as we continue to raise the bar for the entire industry. Other companies may claim to be modernizing the industry but lack the experience to implement effective solutions that drive real, lasting change. Their so-called "modern" solutions look nice on paper, but in practice are impractical for most school districts.

That is why First Student strongly believes in innovation with a purpose. Our breadth of experience in the industry empowers us to drive the industry into the future with effective, practical innovations for our partners. Our wide network of resources and our long history in the industry mean we develop and implement truly modern solutions for our customers that actually work.

That is why more school districts across North America choose First Student over any other provider for their student transportation needs.

At First Student, satisfying customers begins

with our commitment to high standards of excellence. We are continuously learning and proactively applying best practices. Our success can be summarized by the following achievements:

Student-Centric Partnership Model

A First Student partnership is one focused on safety and dependability. All aspects of our operations ensure quality care for students and proactive support for our district partners.

Safety

We're proud to be the only school transportation company to have been invited to the prestigious Campbell Institute – Center of EHS Excellence and to have been awarded the National Safety Council (NSC) Green Cross for Safety medal.

Operational Excellence

To achieve operational excellence within your transportation system, we leave nothing up to chance. We use interactive, proprietary tools and disciplined processes to help your students along their journey through the school day. With this approach, our locations have advanced 11 out of 12 key metrics, including a 95% on-time performance rate and a 99% preventative maintenance compliance rate.

Environmental and Social Responsibility

We provide sustainable solutions and contributes to the improvement of the communities we serve. Since 2018, we have reduced our carbon dioxide emissions by 33.3%, nitrogen oxide emissions by 39.6%, and our PM2.5, or small particulate matter, emissions by 47.9%. We continue to employ a variety of strategic environmental efforts to further improve these numbers and reduce our impact on the environment.

Customer and Community Partnership

Our students and communities are at the heart of all we do; we invest in local employees who clearly share this core value. Our dedication to the community is recognized and respected by our district partners – 95% of them have reported that they would recommend a partnership with First Student.

Innovation

We are driving the future of student transportation through the forward-thinking culture we've developed over our 100 years in the industry. From our early adoption of onboard GPS technology to our recent development of the Driver Scoring Program, which helps our managers provide individualized driver performance coaching, we continuously innovate through programs, tools, and processes.

Diversity and Inclusion

We are committed to attracting, engaging, and developing a diverse workforce that reflects the students, customers, and communities we serve. Our Diversity and Inclusion Council underpins our commitment by fostering an inclusive environment where different backgrounds are not only represented but valued and respected. We're proud that the First Student workforce is more diverse than the United States overall workforce, as reported by the Bureau of Labor Statistics.*

Technology

First Student's proprietary technology platform simplifies transportation, improves overall quality, creates new efficiencies for districts, and provides a direct line of communication between First Student, districts, and parents. As an industry leader in technology implementation, we've employed GPS-powered reporting tools, Child Check-Mate System®, and our bus tracking app, First View®, to name a few.

Transparency and Accountability

Your entire transportation team gains service visibility and access to reporting tools when you choose to partner with First Student. To meet your expectations and deliver on our promises, we measure key performance indicators daily, weekly, and monthly. Our customers rate us a 9 out of 10 for being a company they can trust, a score we have earned by closely tracking performance and proactively communicating.

Student Experience

We are committed to providing an exceptional transportation experience for each of our passengers. In our most recent customer survey, our districts provided us with an average score of 9.2 out of 10 on our commitment to caring for their students. Part of our effort to deliver on this commitment has been to implement PBIS training (positive behavioral interventions and support), extending your student's classroom experience onto the bus.

That expertise, along with the most experienced management team in alternative transportation, brings a level of knowledge and experience no other alternative transportation company can match.

First Student is the first and only bus company to offer a complete K-12 transportation solution. Districts can now work with one vendor to provide safe, reliable, and cost-efficient to all students regardless of their transportation needs.

First Alt® provides a cost-effective and safe transportation alternative for students, including students with special needs and students experiencing homelessness, to get to school safe and on-time in the hands of caring, consistent drivers. Our alternative transportation solution is built from a network of local transportation service providers. First Alt® can meet the needs of Knox County Schools by coordinating the services of local transportation providers. Our team works closely with districts to decide upon the correct number and type of vehicles needed to serve your students most effectively.

Benefits of First Alt®:

- Supplementing bus service with subcontractors' small capacity vehicles eliminates unused capacity.
- The flexibility to expand and contract fleet to accommodate the ever-changing requirements of these student populations.
- We are committed to creating a safe, familiar, and comfortable experience for your students by consistent communication and striving to provide your families with the same professional driver every day. As a result, students spend more days in the classroom.

A Complete K-12 Transportation Solution:

Experienced Management Team

- We have the most experienced management team in alternative transportation.
- Our management team consists of highly trained, experienced, caring professionals who are enabled to support your most vulnerable students.

Technology

- First Alt® offers custom technology designed specifically for alternative transportation and its unique challenges.
- Our technology tracks every trip and every student, providing real-time updates to parents and districts.

Consistency

- We ensure all students get to school safely and on time each day, in the hands of caring, consistent drivers.
- First Alt® provides the same driver, for every student, every day.

Industry-Leading Standards

- Background and MVR Checks
  - Our contracted drivers must pass an initial background and MVR checks. Once fully onboarded, our system automatically enrolls drivers in a continuous background and MVR check monitoring program.
- Drug and Alcohol Testing
  - We apply drug testing procedures consistently throughout our organization; all drivers are compliant to pre-service, random, post-accident, and reasonable suspicion tests.
- Driver Training
  - Customized training specifically developed to help drivers work with special needs students.
  - Drivers will be trained to understand the functions of behavior and the Rage Cycle, which will help drivers relate to the students and de-escalate issues as they arise.

Prior to providing services, all vehicle operators

must have a valid driver's license for the type of vehicle being driven, successfully completed all required pre-service training, submitted to the required background and/or fingerprinting checks, demonstrated physical and mental capabilities required to carry out all assigned responsibilities, and be enrolled in a drug and alcohol testing consortium that provides for pre-employment testing as well as random, reasonable suspicion and post-accident drug and alcohol testing.

Driver Qualifications

First Alt®'s screening process for our subcontracted follows these steps:

1 Initial Review

Drivers must have the following qualifications to start the onboarding process:

- Must be 21 years of age or older unless otherwise specified by contract
- Must possess a valid driver's license in the state or province of residency
- Must provide an updated photo for driver ID
- Must have three (3) years of licensed driving experience

2 Background and Motor Vehicle Record Checks

We work with a third-party vendor, First Advantage, who provides our pre-service and ongoing checks for all drivers. Then, our Employment Standards team reviews all results to ensure drivers are compliant with federal, state, and local laws. Driver qualifications include:

Initial & Ongoing Motor Vehicle Records Check

- No more than three (3) moving violations or three (3) minor accidents in past three (3) years
- Must have three (3) years of licensed driving experience
- We also examine Motor Vehicle Records (MVRs) for any pattern of unsafe driving behaviors exhibited by a continual accumulation of minor infractions

Initial & Ongoing Criminal Records Checks

- Applicant's entire conviction history is viewed holistically
- DUI/DWI convictions may disqualify applicants from employment

3 Drug and Alcohol Testing

In addition to a pre-service drug screen, drivers are entered into a quarterly random drug testing pool and will also be tested upon reasonable suspicion or accidents. Drivers with a positive result or refusal of pre- or post-engagement, random, post-accident, or reasonable suspicion drug/alcohol test, will be disqualified.

4 State, Local, and Client Required Checks

In addition to a pre-service drug screen, drivers are entered into a quarterly random drug testing pool and will also be tested upon reasonable suspicion or accidents. Drivers with a positive result or refusal of pre- or post-engagement, random, post-accident, or reasonable suspicion drug/alcohol test, will be disqualified.

Our training equips drivers with the tools they need to understand the functions of behavior and the Rage Cycle. These behavior management tools help drivers relate to the students and de-escalate issues as they arise. In addition, we ask parents and caregivers to fill out an "All About Me" form for their student to provide the drivers a better understanding of the student's likes, dislikes, and items needed to make the student comfortable. Once a driver is fully vetted and has passed all training requirements, they are prepared to handle everything — from behavioral challenges to installing and using special needs equipment.

Driver Training

We require subcontracted drivers to complete a student transportation-specific multi-module training which includes insights from behavioral experts and testing. All these training modules are available on our First Alt® Driver App. The training also provides a set of guidelines, best practices, and tools.

Key training elements include:

- Safety & Best Practices
- Distracted Driving
- Transportation Challenges
- Preparing Students to Learn
- Diversity & Inclusion
- Characteristics of Disabilities
- Sensitivity
- Influencing Student Behavior
- Supporting Parents & Students
- Vehicle Operation, Including Specialized Equipment Such as Wheelchair Lift Operation
- Emergency, Incident, and Accident Procedures

In order to ensure the safest possible service

for your students, all vehicles will have GPS tracking and onboarding requirements.

First Alt® developed custom technology

specifically designed for alternative transportation and its unique challenges. This technology will benefit districts, parents, transportation providers, drivers, and the students they service. Our technology provides end-to-end ride visibility providing the safest ride experience for students, their families, and school districts. Dashboards alert the team to any trips running late, substitute drivers needed, and each driver and student's status. Districts and parents will also have access to these tools via a district dashboard and a parent app.

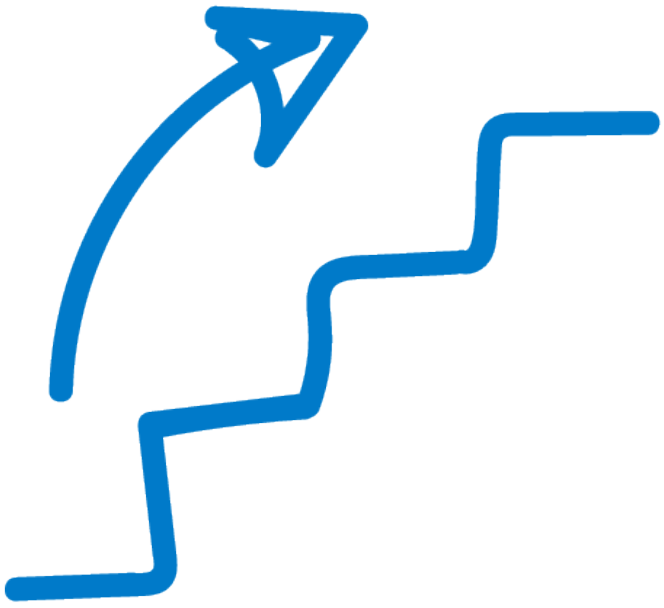
Qualifications and Experience



First Alt® is the best choice for alternative solutions.

First Alt® is a division of First Student,

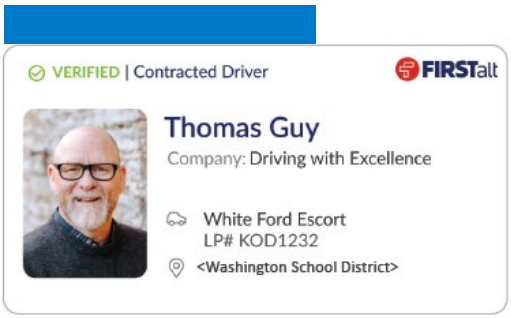
responsible for providing school districts with a safe and reliable alternative vehicle transportation option for students with special needs, students experiencing homelessness, out-of-district students, and hard-to-serve trips. Utilizing a fleet of small-capacity vehicles from qualified local transportation companies that are expertly operated and maintained, First Alt® gives school districts flexibility in their everchanging transportation program, therefore, reducing costs and freeing up resources for higher capacity trips.

In partnership with school districts, the leadership team at First Alt® thoroughly analyzes each school district's transportation program and creates the most efficient, cost-effective routes. Once routes are reviewed and finalized, First Alt® identifies qualified, local transportation providers and coordinates services using unmatched proprietary compliance, routing, and dispatching software. Before each student is transported, First Alt® guarantees routes have been reviewed, parents/guardians and school staff have been notified, and each driver has been fully vetted and trained. While students are being transported, First Alt® trip guardians will closely monitor each trip to ensure safe and timely rides to and from school and promise that if there are any delays or issues all parties will be notified quickly.

We have more experience in student transportation, and we are powered by First Student, the trusted national leader in pupil transportation. First Alt® operates with strict safety standards, has the most efficient routing techniques, and provides various types of services. First Alt® makes sure all students get to school safely and on time using the right-sized vehicle. So, whether you need a transportation solution for inefficient routing, or for students who do not fit on a bus because of location or need, First Alt® has you covered.

Who is Driving Your Students?

First Alt® partners with qualified, local transportation companies utilizing a fleet of drivers and vehicles – a mix of sedans, SUVs, minivans, and wheelchair vans – that meet all First Student and school district standards. Before transporting any students, companies and their drivers must upload compliance documentation and complete First Alt® student transportation training. First Alt® confidently confirms that all transportation providers, drivers and vehicles meet or exceed all First Alt® , state, local, and school district transportation requirements before transporting students.



DIGITAL DRIVER ID

First Alt® 's industry-first digital driver ID allows parents and school staff to see real-time verification of the driver's eligibility to service their student. The digital driver ID provides up-to-the-minute validation that the driver has been fully vetted and assigned to the specific student and trip. Parents/caretakers and staff can ask to view this digital ID before loading their students.

All contracted drivers and vehicles will also carry easy-to-identify badges and vehicle stickers allowing staff and parents to quickly identify the vehicle and driver. The First Alt® vehicle sticker will be visible on the passenger side windshield and drivers will have badges that will be easy to spot from a distance for staff and parents.

Driver Vetting

Prior to providing services, all vehicle operators must have a valid driver's license, successfully complete all required pre-service training, submit to the required background and/or fingerprinting checks, demonstrate physical and mental capabilities required to carry out all assigned responsibilities and be enrolled in a drug and alcohol testing consortium that provides for pre-employment testing as well as random, reasonable suspicion and post-accident drug and alcohol testing.

Driver Onboarding

After fulfilling the requirements above, all drivers must complete the required vehicle inspections, school district or local requirements such as physicals or TB tests as required and industry-leading First Alt® driver training that's specifically designed for drivers providing student transportation in smaller capacity vehicles.

Dress Code

All drivers representing First Alt® are required to adhere to a professional dress code. This includes wearing closed-toe shoes, long pants, and a shirt that is clean, appropriate, and professional in appearance. Drivers must also be well-groomed at all times to maintain a clean and respectful presentation while transporting students.

Drivers with a positive result or refusal of pre- or post-engagement, random, post-accident or reasonable suspicion drug/alcohol test, will be disqualified.

State, Local, & Client Required Checks

First Alt® knows that the safety of students is the number one priority. First Alt® confirms that all transportation providers and their drivers have met all First Alt® , state, local and school district requirements before transporting students.

Driver Onboarding

Insurance and Workers' Compensation

First Alt®'s insurance program is tailored to meet the contractual requirements of your school district, therefore, protecting your district and any subcontractors who are named as 'Additional Insureds' under the General and Auto Liability policies as required by contract. In the event of an insured claim, First Alt® (and First Student) will provide coverage as the customer is protected by the insurance program provided.

When required, First Alt® will provide the school district a certificate of insurance and endorsements satisfactory to the district's requirements. Insurance costs have dramatically increased in recent years, especially for small businesses such as local subcontractors. First Alt® and its insurance provider have developed a program that's mutually beneficial for your school district, First Alt® and local, qualified subcontractors that allows First Alt® the flexibility to best serve you and your students. The insurance program provides coverage for all trips serviced by First Alt® and any qualified subcontractor. The insurance program protects your school district, regardless of the subcontractor's primary insurance as your school district is named as 'Additional Insured' under the General and Auto Liability policies as required.

All First Alt® subcontractors must maintain the following minimum limits for Auto Liability:

- $100,000 per person
- $300,000 per occurrence
- $50,000 for property damage

In the event of a claim, First Alt® will initially look at the subcontractor's policy as evidenced by the certificate of insurance. In addition to the subcontractor's coverage, First Alt® is covered for claims exceeding the subcontractor's limits where First Alt® is deemed liable. The school district will be an additional insured to these policies as well. Regardless of the status of the insurance of the subcontractor, your school district is protected by the insurance provided.

Monitors/Attendants

In order to ensure the safest possible service for your students, monitors can be provided. Monitors will complete the same onboarding process as drivers do minus the vehicle-specific requirements.

Performance Concerns or Absenteeism

First Alt® proactively manages staff absenteeism by maintaining a bench of qualified drivers who are prepared to step in as needed to ensure uninterrupted service. We encourage clear and timely communication from all team members regarding absences and reinforce this with established reporting protocols. To promote reliability, we recognize and reward drivers with exemplary attendance records. This approach supports service continuity while fostering a culture of accountability and commitment.

Our operations team will investigate the cause of any late trip to determine the cause (traffic flow issues, potential student behavior, etc.) and determine the best way to mitigate these circumstances moving forward. If there is a trip and/or driver that is late or absent on a repeated basis our team takes the following steps to resolve the issue.

1. **Initial Communication:** A scheduled conversation with the driver is held to discuss the timeliness issues. This conversation would be aimed at understanding the reasons behind the delays and whether there are any underlying issues contributing to the problem.
2. **Review of Contract Terms:** We would review the terms of the contract with the driver, specifically focusing on the specified window of 10 minutes or less for arrival and pickup. It's important to ensure that the driver is fully aware of their contractual obligations regarding timeliness.
3. **Performance Evaluation:** We would conduct a performance evaluation to assess the extent of the timeliness issues. This may involve reviewing records of past pickups and arrivals to identify patterns of lateness and quantify the impact on our operations and customer satisfaction.
4. **Identifying Root Causes:** We would work with the driver to identify the root causes of the timeliness issues. This could involve examining factors such as traffic conditions, route planning, vehicle maintenance, or scheduling conflicts.
5. **Developing an Action Plan:** Based on our evaluation and the identified root causes, we would collaborate with the driver to develop a concrete action plan for improving their timeliness. This plan may include specific strategies for addressing the root causes and setting measurable goals for improvement.
6. **Training and Support:** We may provide additional training or support to help the driver improve their time management skills, optimize their routes, or overcome any other challenges contributing to the delays.
7. **Monitoring and Feedback:** We would closely monitor the driver's performance following the implementation of the action plan and provide regular feedback. This could involve reviewing performance metrics, conducting follow-up meetings, and addressing any ongoing issues as they arise.
8. **Escalation if Necessary:** If the timeliness issues persist despite our efforts to address them, we may need to escalate the situation further. This could involve imposing penalties or sanctions as outlined in the contract, or ultimately terminating the contract if the issues cannot be resolved satisfactorily. Overall, our goal is to work collaboratively with the driver to address the timeliness issues while ensuring compliance with the terms of the contract and maintaining the quality of service for our customers.

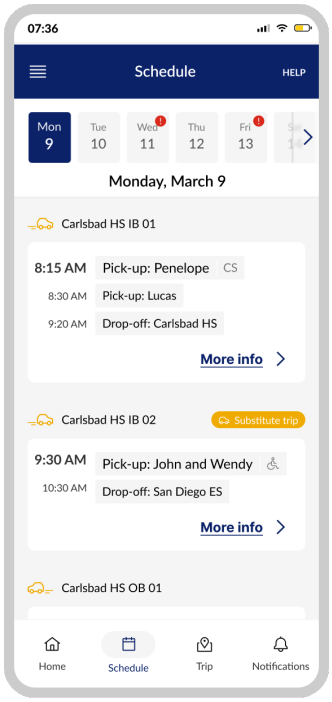
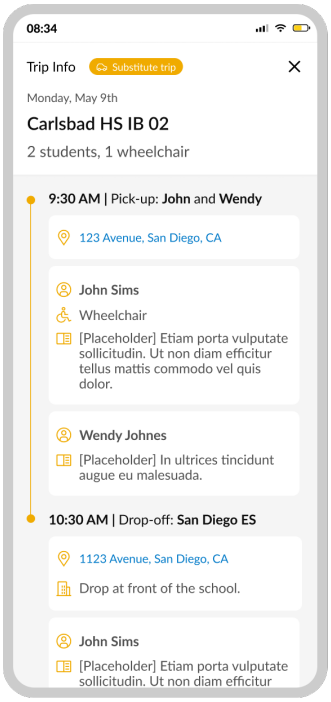
Enhance Safety and Efficiency With the Driver App

The Driver App, powered by HALO™, is designed for drivers. It enables drivers to begin their driving journey in a few steps. The Driver App is used by drivers to onboard and manage their vetting process. Once fully compliant, a driver will use the driver app to service and manage their day-to-day trips. Drivers will also use their device to receive information throughout the course of the day regarding their trip.

The Driver App has five key areas of functionality: trip acceptance, trip tracking, schedule view, driver data management and messaging. Each of these areas within the app simplifies the drivers interactions with the First Student team while providing access to everything they need to be successful. All drivers must have access to an Android or IOS smartphone and install the app to ensure that all trips are properly tracked.





Onboard

The Driver App will automatically sync each driver with First Student, state, city and district vetting requirements depending on the registration process initially set by their transportation provider. Once invited to the application, each driver will be able to complete all required onboarding materials. The system will also track the expiration dates of documents to guarantee full compliance. All driver documents are automatically uploaded into the Data Management Tool. A First Alt® team member will then review and validate.

Service

The Driver App allows drivers to login, check-in or reject trips, upload and change their data, and communicate with First Alt® digitally. The goal of this app is to digitize all logging of driver trip events and statuses and to simplify the process for the driver as much as possible, while allowing them to keep track of their daily trip progress. The driver app is the first interaction that some drivers will have with First Alt®. The app is extremely user-friendly and focused on ease-of-use for the driver.

Comprehensive Provider Portal Powered by HALO™

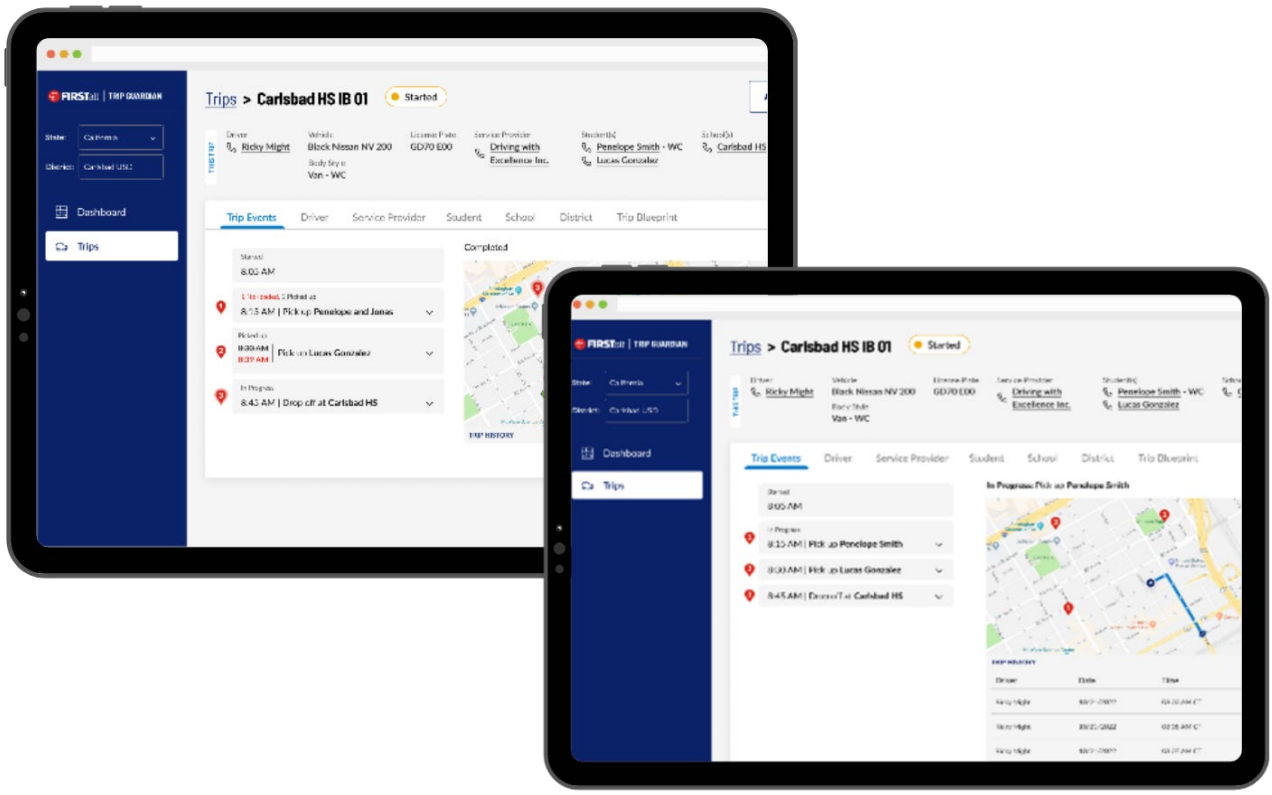
The Provider Portal is used by transportation providers to onboard, invite drivers, manage their fleet and manage their trips. The transportation provider is invited to have access to the portal once they have been vetted by a First Alt® employee. Once they receive access, they can easily onboard and register their businesses and start adding drivers.

The Provider Portal is intended to allow the business manager to scale rapidly while ensuring that all companies and their drivers are fully compliant with First Student, state, city and district requirements. All documents will go through the Data Guardian Tool for authorization by a First Student employee.

Transportation Providers can login and confirm route assignments and confirm or make changes to any future trips. This allows for efficient coverage of all routes. Additionally, managers will get instant notification to change regarding their trips such as day cancelations for students, time updates, bad weather cancelations or delays.

Real-Time Trip Data through the Trip Guardian Tool

Powered by HALO™, this tool gives the trip tracker the capability to view real-time trip data in a simple, visual way so that we can easily identify time-sensitive issues, implement corrective actions and provide real-time transportation updates as needed to our partners. Trip tracking is a core part of the day-to-day operation of the First Alt® transportation model, and one of the six core pieces of software needed to run trips successfully. This internal tool allows the First Alt® team to surface data anomalies and provides a robust amount of information so the trip tracking specialist can quickly identify issues and correct them with ease.



Seven (7) Essential Functions of the Trip Guardian Tool Include:

1 Trip Exception and Trend Analysis Dashboards

Highlights exceptions that occur during daily transportation operations and rolls up data to different levels of management to show problems across different areas. Examples of these exceptions include late-running trips, trips that have not yet been accepted, no-show requests, no load, trip rejections, etc. The managerial dashboards highlight metrics related to key performance indicators such as on-time performance and percentage of substitute drivers.

2 Issue Resolution Workflows

Allows for updating fields related to tactical, day-to-day trip information as issues arise. This includes trip emulation, end-of-day audits and resolution of reports.

3 Search Functionality

Allows trip trackers to search for records related to the issue they are trying to solve, through a combination of well-defined search terms and business rules in collaboration with an easy-to-use interface.

4 Role and Area-Based User Access

The system is designed to have regional and hierarchal permissions related to data editing and viewing so users can focus on information related to their assigned duties and area.

5 Employee Performance Tracking

The platform displays high-level phone metrics related by region, allowing the management team to track employee performance and regional managers can look for potential issues with service.

6 Messaging

The trip tracker will integrate with an instant messaging platform so that trip trackers can field questions through third party tools integrated within the company's website and tools (i.e., district portal and parent app). This will also allow for easier communication directly between drivers and parents.

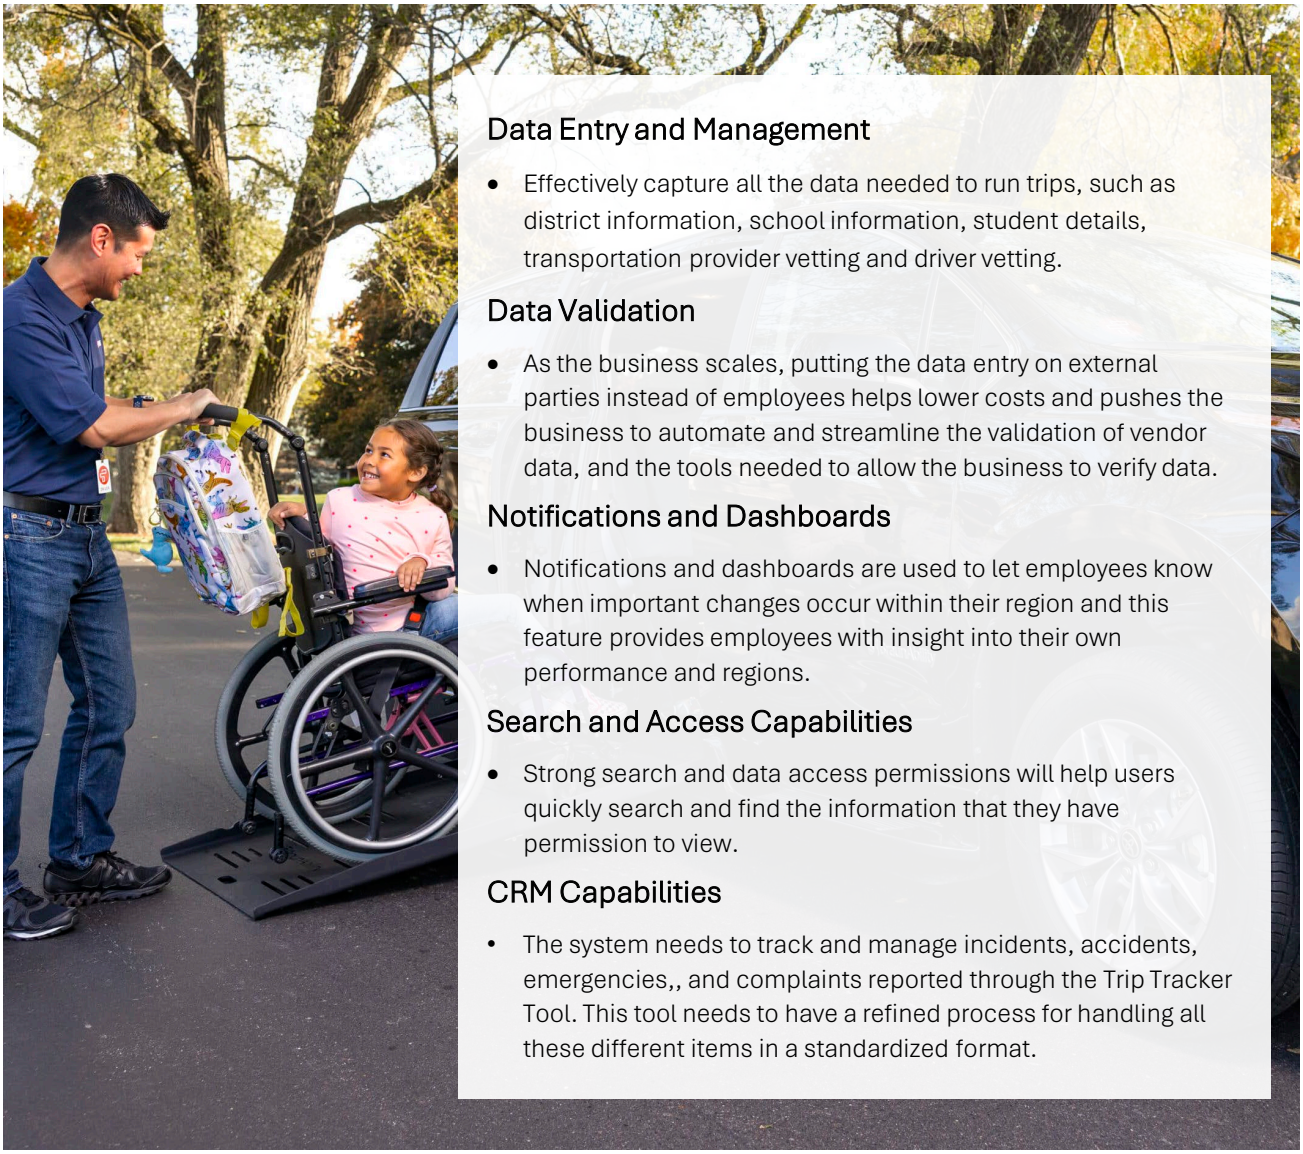
7 Actionable Notifications

As trips begin going out and the day gets busier, it gets harder for trip trackers to keep searching and looking for issues in the system. The trip tracker tool has a robust notification system that highlights problems and provides users with a way to fix or update the item highlighted as a notification.

Creating Operational Efficiencies through the Data Guardian Tool

The Data Guardian Tool plays a pivotal role in the state entry, management and retrieval of information. The tool surfaces all data related to the First Alt® team in a single place, allowing data and account specialist to perform their work in a common and consistent interface. This creates operational efficiencies by providing a tool tailored to their daily duties and measures KPIs important to clients and parents.

The data management tool is divided into the following functionality groups:



Data Entry and Management

- Effectively capture all the data needed to run trips, such as district information, school information, student details, transportation provider vetting and driver vetting.

Data Validation

- As the business scales, putting the data entry on external parties instead of employees helps lower costs and pushes the business to automate and streamline the validation of vendor data, and the tools needed to allow the business to verify data.

Notifications and Dashboards

- Notifications and dashboards are used to let employees know when important changes occur within their region and this feature provides employees with insight into their own performance and regions.

Search and Access Capabilities

- Strong search and data access permissions will help users quickly search and find the information that they have permission to view.

CRM Capabilities

- The system needs to track and manage incidents, accidents, emergencies,, and complaints reported through the Trip Tracker Tool. This tool needs to have a refined process for handling all these different items in a standardized format.

Customer Service

Our students and families are important to us

and positive customer relations is at the forefront of what we do. In fact, we do everything possible to establish peace of mind for parents, guardians and school staff as a timely, safe ride to school is one of the first things that prepare students to learn. First Student has been operating for over 40 years, and we have a proven team of customer service experts dedicated to you and your students who track rides and proactively address and track concerns as they arise to check they're properly addressed and documented.

Managing Customer Feedback

Using our Data Management Tool, our Customer Service Team tracks cases and finds the appropriate course of action. These cases are all monitored, and details are collected until they're closed. Once closed, cases will be stored in our Data Management Tool for five years or more depending on the contract. Throughout this process of gathering details, you will be notified of any updates and sent confirmation once cases are closed.

District Manager

All complaints will be fielded and documented carefully by our Customer Service Team. Upon intake of the complaint, we'll make sure you're notified, and a proper plan of action is made and tracked. You will actively be updated on our progress until the case is closed and will be sent a full report after. Any additional information will be provided upon request.

A complete support structure

In order to ensure your satisfaction, Knox County Schools will partner with First Alt® 's dedicated team of support professionals. From the location level to your regional support team, we provide the resources you can rely on to maintain a successful transportation operation.

1 Local Operations Team
2 Call Center Team
3 Trip Service Hours

1 Local Operations Team

The local First Alt® team structure is below with each role and its responsibilities are explained. The local team is hired, trained and prepared to serve you.

District Manager

District Managers oversee the success of the entire operation and make sure there's adequate staff to handle all your transportation needs. On a daily basis, District Managers will meet with school district officials, hire and train new First Alt® employees and meet with or identify existing or new transportation providers.

Location Manager

Location Managers and their teams ensure there's a sufficient number of drivers and vehicles, visit schools and student homes when needed, and proactively order vehicle equipment.

Transportation Providers

Transportation providers are local companies who have partnered with First Alt® to supply quality drivers, vehicles, and monitors. Transportation Providers help ensure drivers and monitors are properly trained and understand how to use the necessary equipment and make sure all vehicles meet First Alt® and school district standards.

2 Call Center Team

To make sure no trip or student is missed, and all details are captured, First Alt® also has a centralized call center that acts similar to air traffic control, for First Alt® , our partnering school districts and their students. The Call Center Team ensures compliance, inputs and maintains data, routes and schedules trips and fields calls and communication from school districts, school staff and parents or guardians.

Call Center Manager

Similar to a local District Manager, the Call Center Manager oversees the success of First Alt® 's internal operations. Call Center Managers are ultimately responsible for maintaining appropriate staffing levels, onboarding, and training staff.

Account Guardian

Account Guardians are one of the most important First Alt® roles. On a daily basis they:

- Ensure driver and vehicle compliance
- Monitor school district, school and student data-input
- Review routing & scheduling
- Oversee account maintenance

Trip Guardian

Trip Guardians are dedicated to closely monitoring student trips to and from school. The Trip Guardians will start their day by making sure drivers are logged in and, on their way, and if they're not, Trip Guardians will quickly identify substitute drivers to ensure ensuring students arrive safely and on time.

Customer Service

Customer Service will be staffed and readily available to make sure any incidents and accidents are properly documented and tracked. Customer service cases are tracked within First Alt® software and will not be closed until all of the information is gathered and dispersed per contract.

3 Trip Service Hours

Trip Services Team is available from 6:00 a.m. to 8:30 p.m., Eastern Time

Tracking and Invoicing Example

Customers are invoiced on the 15th of each month for the prior month with Net 30 terms, however, accommodations can be made if preferred by the District. Invoices can be broken out by different departments and population types at the direction of the client. Payment is accepted by ACH/EFT (E-Commerce) and check only. We do not accept credit card payments from contract customers due to the large processing fees associated with the large payments. The following are examples of our tracking and invoicing templates the District will receive each month. Additional types of reporting may be provided at the District's request as well.

Each month, districts receive an individual invoice detailing the transportation services provided for their student(s). Along with these invoices, we provide a confidential routing report. This report lists all students grouped together on each trip for that billing period, regardless of whether they belong to different families or are picked up/dropped off at different locations. Students who share a ride are listed on the same trip in this report solely for logistical transparency and scheduling verification.

Please note:

- The confidential report is provided only to districts receiving transportation services and is not shared outside of this purpose.
- Routing decisions are made with careful consideration of student safety, travel time, and operational efficiency.
- Grouping students helps reduce overall transportation costs, contributing to more affordable rates for all families.

To ensure efficient transportation and cost-effective service, students who live near one another and travel to the same or nearby destinations may be routed together. This approach allows us to maximize vehicle capacity and reduce overall travel time and cost

Start-Up Plan Overview

This start-up plan outlines a structured, phased approach for the launch and ongoing management of student transportation services. It emphasizes efficiency, safety, and collaboration with stakeholders, focusing on preparation, communication, and optimization. Below are the key steps and processes involved:

1. **Introduction of Dedicated Team:** One month prior, the district meets its First Alt® team comprising customer service and operations representatives.
2. **Data Collection and Routing:** Two to three weeks prior, student data is processed for optimized routing based on location, student needs, and vehicle capacity.
3. **Parent/Guardian Communication:** 24-48 hours before service starts, parents receive trip details including timings, driver info, and contact numbers.
4. **Driver and Vehicle Onboarding:** Drivers undergo rigorous training and vehicle inspections, ensuring compliance with safety standards and district-specific needs.
5. **Ongoing Services:** Our typical routing timeframe is 48 hours for new/changing trips, however at the start of the school year, we request all student data two weeks prior to transportation. As students are added throughout the school year, our Client Services Team will first do their best to fit students into existing routes which will minimize additional costs, and in some cases, not incur any additional costs. If a student cannot be accommodated in an existing route, a new route will be created, and information will be provided to the district for approval before initiating route setup. Our team is constantly reoptimizing as students enter and leave the transportation program as well as performing regular reviews of existing routes to ensure maximum efficiency.

Routing & Scheduling Narrative

Our service and routing approach to maximize economies of scale and ensure accuracy of billing is a multi-step process:

Step 1: Onboarding, Training and Vetting of Drivers

- Drivers onboard through our Driver App and upload all required documentation from First Student, the state of California and the district.
- Once all documentation is uploaded, we verify that the documents are valid and meet all our requirements as well as state and district requirements. For further details please reference Section Qualifications and Experience.
- Once a driver is cleared, the driver then completes First Student's driver training course which focuses on transporting students with special needs. For further details please reference Section Safety and Training.
- When the driver has finished onboarding, and training, we meet with them to inspect their vehicle and ensure the vehicle meets First Student and district standards and has all necessary equipment.
- The driver's vehicle then must complete and pass a certified vehicle inspection. Once both the driver and vehicle have cleared all requirements, the driver receives an ID Badge and First Student vest to help identify them as certified drivers. Their vehicles will also receive a First Student logo window decal to identify their vehicle.

Step 2: Student Data Review & Parent/Guardian Communication

Data Review

- Once the district provides us with the student data, we complete an initial review of the student information. During this process we review the student's name, student address, contact information, equipment needs, school of attendance, school address and school bell times.
- Next, we reach back out to the district to discuss any inconsistencies, questions, missing information, or discrepancies that may have been found during our initial review of the student data.

Parent/Guardian Communication

- The second step is communicating with the parent/guardian to ensure the student information we have received from the district is accurate. During this meeting we introduce our service model, explain the process for cancelling or changing trips and help set proper expectations for student readiness. We take our time to make sure that we contact every parent/guardian prior to starting their student's transportation, to ensure they have all the necessary information and that their questions have all been answered prior to the first day of transportation. This communication reduces issues during start-up since we have already verified that we are picking up the correct students, at the correct address and have the correct equipment for their needs.

Step 3: Routing & Scheduling

Outlined below are the steps our Routing and Optimization team takes for each student transportation request:

Routing

- After completing the initial student data review, the updated student details are entered into our software system that has been custom built specifically for alternative transportation. Items entered in our system include items such as:
    - School of attendance.
    - Bell times.
    - Special equipment needs.
    - Personalized student notes.
    - Early out days and other unique holiday and program dates.
    - Max student ride time, as specified by the district.
    - The student's ability to ride with others, or their need to ride alone, etc.

Students are then grouped into vehicles based on their proximity to one another, their school location, school bell times, equipment needs, and any other special needs that may apply (i.e., must ride alone).

- Special care is then taken to ensure that the student's route and ride time do not exceed the maximum ride time outlined by the district.
- The goal is to fill every seat of each vehicle to ensure the lowest cost possible cost to the district without jeopardizing safety. Due to safety concerns, we never put students in the front seat unless specifically directed to do so by the district.

Continued Routing Optimization

- Throughout the school year, our Routing and Optimization team, along with our Operations team will continuously look for ways to minimize cost by alerting the district of students who consistently fail to utilize transportation and making every effort to ensure there are no solo riders and that each vehicle is properly utilized.
- We will also continuously monitor the existing routes to find the opportunity to consolidate routes as students are added to or removed from the transportation program. This is another reason we conduct monthly and quarterly reviews with the district's financial team to illustrate steps that are being taken to reduce spend.

Step 4: Preparing for Service

The third and final step before starting service is to complete practice trips, prior to the start of school.

- Practice trips normally consist of visiting the school campus to view their designated pick-up and drop-off areas and become familiar with the school's protocols. Upon parent request, we will also use this time to introduce the driver to the parent and their student.
- During this time, we will drive the proposed route to make sure the driver is aware of the address locations and to also validate that the time designated to complete the trip is realistic in a real-world scenario.

Post-Startup

- To best serve the district, families, and students, we will continue to onboard and verify drivers and vehicles to ensure there are always enough drivers available should the program grow or have other additional transportation needs. We strive to always have a bench of additional drivers that represent 10% of the current number of vehicles transporting students.
- As the school year progresses, our staff will also perform ongoing school and home campus site visits, this helps to make sure schools and families are having a great experience and that they can provide us with ongoing feedback as the need arises.

Accuracy in Billing:

Our dedicated Business Support team meticulously reviews each monthly invoice before it is sent to the district. We have also created custom software designed specifically to support the financial billing model of alternative transportation. This system provides the district with reporting that shows each day's trips, the number of miles traveled, the students transported, and the equipment utilized. This allows the district to have full transparency into each trip and view a line-item report for every aspect of their student transportation program.

Customization

At First Alt®, we recognize that every school district has unique needs when it comes to student transportation. Our approach is rooted in flexibility, responsiveness, and innovation to ensure that Knox County Schools receives a tailored solution that aligns with its goals.

Scalable Services
- Ability to grow or reduce service levels quickly based on district needs, including enrollment changes, program expansions, or budget adjustments.
- First Alt® is built to scale. Whether the district needs to expand services during peak times or reduce them due to changing enrollment or budget adjustments, we will remain agile—adjusting capacity and services accordingly while maintaining a high standard of safety and reliability.

Student-Centered Flexibility
- Service models designed to support after-school programs, mid-day transports, and emergency needs, based on district scheduling.

Dedicated Support Team
- A responsive support structure to collaborate directly with district staff and respond to day-to-day operational adjustments.

Core Processes

1. **Data Review and Communication:**
    - Initial data checks for inconsistencies.
    - Discussions with the district and communication with parents for accuracy and expectations setting.
2. **Routing and Optimization:**
    - Customized routing software manages data like bell times, equipment needs, and max ride times.
    - Regular reviews to consolidate routes and minimize costs while maintaining safety.
3. **Practice Trips:**
    - Drivers conduct practice runs to familiarize themselves with routes, school protocols, and parent/student needs.

Post-Startup Support

- Ongoing driver and vehicle verification to accommodate program growth.
- Regular site visits to gather feedback from schools and families.
- Continuous route optimization to improve efficiency and reduce costs.

Billing Transparency

- A dedicated business support team uses custom software to generate detailed, transparent invoices. Reporting includes trip details, miles traveled, and equipment used.

Commitment to Excellence

- Established relationships with local drivers and experience in alternative transportation.
- Orientation sessions for drivers ensure compliance with training and district expectations.
- Proactive engagement with district stakeholders for tailored solutions.

With our *I Care + We Care* initiative, students in the vehicle are given meaningful and proactive feedback when they are "getting it right". Positive feedback like this helps to develop trusting relationships based on mutual respect and establishes a foundation on which to resolve issues together when they occur.

I Care + We Care training curriculum includes the following topics:

- Serving as a positive role model.
- Resolving conflicts and mediating disagreements.
- Asserting authority and obtaining support to prevent escalation and halt unsafe situations.
- Responding to dangerous behavior in coordination with local police (i.e., using radio codes and action team protocols.
- Recognizing and rewarding positive behavior.
- Being fair and consistent with all students.
- Intensive driver training addressing a wide range of potential compliance with ADA regulations.

Using the beliefs of our special education training program, FirstServes™, our training focuses on understanding that children's behavior is a form of communication. Instead of a traditional "behavior management" approach, our program emphasizes understanding and influencing students' actions in order to respond in the most beneficial manner.

Student Behavior Reporting

While our driver training emphasizes positive reinforcement, there may be times to consider behavior intervention to maintain safety and order in the vehicle. When deemed necessary, drivers and monitors will report conduct improvements and infractions to First Alt® management, who will then notify the district according to district policies. When our staff, drivers and school personnel work as a team, the result is a cohesive and effective student behavior program.

First Student's proprietary program, is a web-based communication tool that helps to streamline student behavior reporting and tracking.

Emergency and Security Preparedness

While each emergency is unique, our training is designed to bring structure to incident management and appropriate response to emergency and security situations.

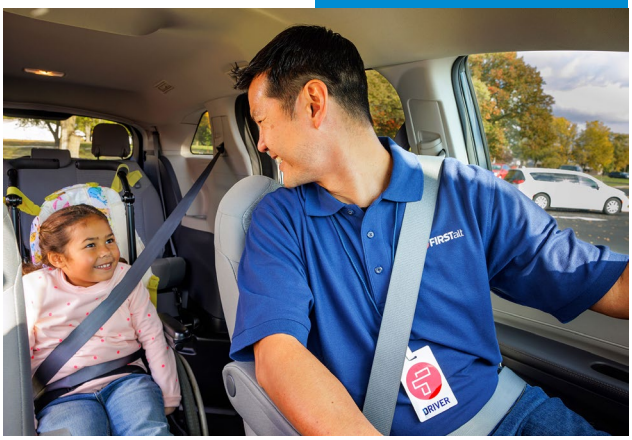
Ongoing Driver Training

Continuous Improvement Materials

In addition to meeting all district, local, state, and federal driver training requirements, First Alt® Student Transportation Drivers participate in annual refresher and remedial training sessions and meetings.

Transporting Students with Special Needs Training

We understand that every child with physical and developmental disabilities and other concerns is an individual with unique characteristics, a unique personality, and unique abilities. First Alt® is dedicated to educating our transportation providers on the characteristics of disabilities and how to address challenges, ensuring a safe and enjoyable ride for every student.
Drivers and monitors are required to complete a multi-module training that includes material developed by behavioral experts. The training also includes guidelines, best practices, and tools for manipulating and operating specialized equipment.



Post Accident Procedures

In the rare case of an accident, an internal notification system alerts all parties which initiates phone calls to the district, guardians, and school. Documentation, known as an Incident Report, will be sent to the district once all details have been gathered. For non-urgent incidents, such as a student removing their seatbelt while in the vehicle, Incident Reports are sent within 2 business days. Our policies align with the DOT regulations to ensure safety and compliance.

Customer Service is readily available to make sure any incidents and accidents are documented and tracked using First Student software and will not be closed until all information is gathered and dispersed per contract. Internally, the First Student alternative transportation process is:

- Notify the Account Manager
- Notify the district
- Notify the guardians
- Notify the school
- Driver completes post-accident paperwork
- Driver completes post-accident drug/alcohol screening, as needed, within 32 hours if the accident is considered preventable. A preventable collision is “one in which the driver failed to do everything reasonable to avoid or prevent it” and means “driving to prevent accidents in spite of the incorrect actions of others, and in spite of the adverse conditions.”
- First Alt® completes post-accident report or incident report, which is submitted to the district
- Case closed once all matters resolved and documentation has been logged

Centralized Driver Files

First Alt® utilizes a customized technology platform that allows drivers to securely upload all required documentation directly into our system. This platform is closely monitored by our Partner Services team to ensure that all driver files are complete, compliant, and consistently updated in accordance with applicable regulations and contract requirements. All documents are stored securely, and the system automatically tracks expiration dates and notifies drivers and staff of any upcoming renewals or missing items, ensuring continuous compliance. All records are stored within our platform and kept for a minimum of five years.

Recognitions and Awards

In addition to being a trusted partner to our districts, we're also celebrated by our peers. In 2023, the National School Transportation Association (NSTA) named First Student its Contractor of the Year for our leadership in innovation, safety, and operational excellence. We have developed several programs to improve the student transportation experience, including our one-of-a-kind First Serves® special education program and First Alt®, our alternative transportation program. We are also leaders in sustainability efforts, with a robust school bus electrification division and several initiatives to lower our emissions. With First Student, Knox County Schools has a truly first-in-class partner for its student transportation.

First Student has also received numerous other awards, including School Transportation's News' Green Bus Fleet award for our electrification milestones. We are the only student transportation provider to receive the National Safety Council's Green Cross for Safety. We are also members of the Campbell Institute, a recognized leader in environmental, health, and safety (EHS) initiatives. These awards demonstrate our obsession with driving the industry forward into a safer, cleaner future.

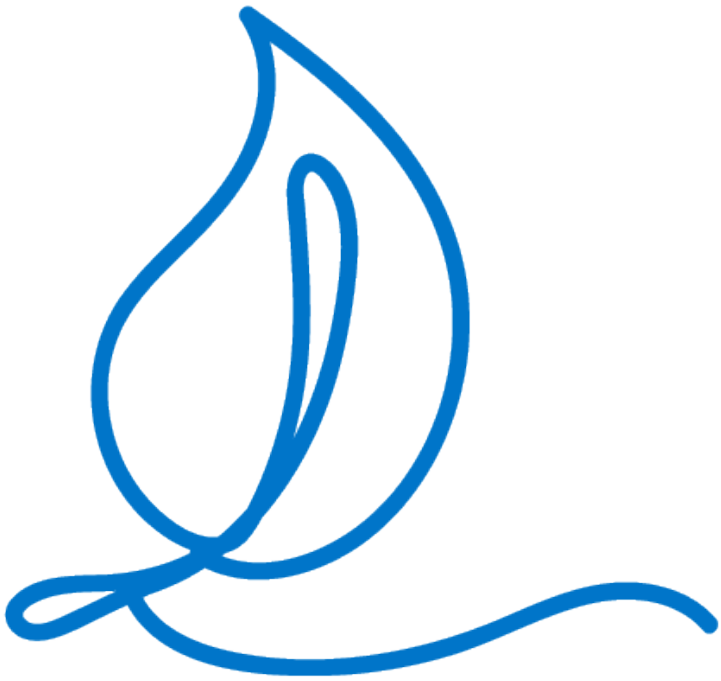
Incident and Collision Overview



Incident & Collision Procedures

In case of an incident or collision during transportation of a student, First Alt's staff immediately initiates contact with the district, guardians, and school (s) as applicable. Once all parties have been notified and we have ensured the safety and wellbeing of the students, we then create and distribute an Incident Report. For urgent incidents/collisions, a report will be delivered to the district within 24 hours. For non-urgent incidents, such as a student removing their seatbelt while in the vehicle, an Incident Report will be sent within 2 business days.

When notification of an accident/incident is received, First Alt will immediately notify the following:

- Local First Alt Operations Manager
- First Alt's Safety and Risk Specialists
- The School District
- The impacted school
- The student's parent/guardian

Additional Steps:

- The First Alt Operations Manager will assist with communication updates, find a substitute driver if needed, etc.
- Documentation of the collision or incident is gathered from all parties.
- Driver completes post-collision paperwork/statement and post-collision drug/alcohol screening (as needed).
- The incident report is submitted to the district.
- First Alt continues communication and gathering of data until the district's expectations have been met.

In the event of a collision, the safety and well-being of everyone involved is paramount. Drivers are instructed to follow the steps outlined below:

1. **Ensure Safety First**: The immediate priority for the driver is to ensure the safety of the students, themselves, and any other individuals involved in the collision/incident. This may involve moving to a safe location away from traffic if possible and attending to any injuries.
2. **Contact Emergency Services**: If there are injuries or significant damage, the driver should immediately contact emergency services (such as the police and medical assistance) by dialing 911. It is crucial to provide accurate information about the location and nature of the collision or incident.
3. **Notify First Alt:** The driver should then notify First Alt as soon as possible following the collision or incident. They should provide a detailed account of what happened, including any injuries, damage to vehicles or property, and actions taken at the scene. This allows First Alt to provide appropriate support and guidance to the driver and initiate any necessary follow-up actions.
4. **Exchange Information**: The driver should exchange contact and insurance information with the other parties involved.
5. **Document the Scene:** Safety of the passenger(s) and driver is always the priority. The driver should document the scene of the collision by taking photos or videos from multiple angles if they can do so safely.
6. **Cooperate with Authorities:** The driver should cooperate fully with law enforcement officers and emergency responders at the scene of the collision.
7. **Follow Company Policies:** Drivers are expected to follow any specific incident or collision reporting, and documentation procedures outlined in our company policies. This may include completing incident reports, participating in investigations and adhering to any other relevant protocols.

By following these procedures, drivers can help ensure that the students are safe, First Alt, the School District and parents/guardians are promptly informed, and the collision/incident is properly documented.

Trip Elements and Pricing Definitions

All pricing is applied per one-way trip and not per student. The trip minimum also includes as many students as can be routed into the vehicle. Most vehicles carry one to four students.

As additional students are added to existing routes there is no additional charge other than any additional mileage over the included mileage or needed equipment. Vehicle type and capacity are determined by student requirements and vehicle availability.

The district will only be charged for miles incurred while a student or monitor is on board the vehicle. When no student or monitor is on board the vehicle, no mileage charges will be assessed.

Trip Charges

One-way transportation from home-to-school (inbound trip) or school-to-home (outbound trip) with a student or monitor continually on board. A trip is a collection of students combined into one vehicle with all pick up/drop off and other needs accounted for. Customers are billed on a per trip basis. A trip may contain any of the following: a single student, multiple students, monitor, special equipment. Billable elements of a trip may include - a trip minimum fee, trip mileage, monitor, equipment, and any other applicable considerations. The total number of trips a district is charged for is determined by adding together each of the one-way trips.

Trip Minimum

The minimum charge for any trip regardless of miles, equipment, etc.

Mileage Charges

The district will only be charged for miles incurred while a student or monitor is on board the vehicle. When no student or monitor is on board the vehicle, no mileage charges will be incurred. Mileage charges are calculated on driving distance through a third-party provider such as Google or MapQuest. We determine the mileage based on the most efficient route for the district and students. The total mileage is rounded up to the next whole mile. All mileage will be calculated based on approved student and school addresses provided by the district. When monitors are riding on the vehicle the mileage rate will continue until the monitor is returned to their point of origin.

Student Equipment Service Fee

Per student/per trip cost for students requiring additional equipment such as a car seat, safety vest, buckle guard, etc. An equipment fee is only applied for any equipment supplied by First Alt®, at the direction of the District.

Wheelchair Vehicle

An additional cost is charged when a wheelchair vehicle is required, the cost is applied per wheelchair.

Miles Included

Miles Included in Trip Minimum. If additional students are added to a trip and the miles remain under the “miles included” number, no additional charge will be incurred.

Monitor

If the district provides the monitor, there is no additional monitor charge, other than any additional mileage that might be added to the trip. A monitor charge (per trip) will be applied for any monitor supplied by First Alt®, per the District’s request, in addition to any added mileage to the trip.

Travel Time

Per most school district and state standards, the expected travel time for students we are transporting will not exceed one hour for each one-way trip unless approved by the school district. However, we fully understand some children may live quite a distance from school, have adverse weather, traffic, or other unusual conditions, and therefore will need more than one hour of travel time.

Standard Wait Time

Drivers will wait three minutes past the regular scheduled pick-up time if students are not ready for pick-up at the scheduled pick-up time. If the students are still not ready after the three minutes of wait time, the student will be marked as a no-show and the driver will move on to their next scheduled stop.

When returning home, if the parents or responsible party are not available to receive the student, we will contact the responsible party by phone for further instructions. If they are unavailable, we will contact the school district for instructions. If we are directed to return the student to school or are unable to reach either party, we will return the student to a school district representative at the student's school.

If we contact the school district and are advised to wait onsite, we will then bill according to the school district's approved wait time.

District Approved Wait Time

Wait time will only be charged upon the district's request and/or approval. Wait time will be billed per hour, in 15-minute increments. Wait time is utilized when a district requests a driver to wait at the home or school beyond the scheduled pick-up/drop-off time.

Hard to Service Trips

If a particular trip or group of trips are determined to be "hard to service," First Alt® will work closely with the district to determine the best method to service these trips and what additional costs will be needed to assist drivers in servicing these trips. Examples would include students that may urinate or vomit on a regular basis during the trip, trips that are in remote service areas, etc. The purpose of this pricing element is to provide First Alt® and the district with a method and approach to service trips that include exceedingly challenging circumstances.

No-Shows and Late Cancels

A late cancel charge is incurred when First Alt® has been notified of a trip cancellation less than two hours prior to the scheduled pick-up time.

A no-show is incurred once the driver has arrived at the pick-up location within the scheduled pick-up window and having waited the designated time to pick-up the student, no student is present. A trip is marked as a no-show when 100% of the students on a trip are not present. All trips will remain active unless the district indicates otherwise.

Adding and Removing Students

We recognize that a district's student transportation needs are constantly changing. Examples include new students needing transportation, students moving out of the district or to a new address within the district, students no longer needing transportation, etc. When it becomes necessary to make changes to a previously routed trip, First Alt® will provide the district with the updated details including the updated cost of trip, the new order of student pick-ups and the updated pick-up times. First Alt® will then await district approval of the cost impact before proceeding.

New student transportation requests or changes to existing trips often take 48 hours or less but may take up to 72 hours to implement. If First Alt® staff believes the requested addition or change could take more than 72 hours, we will communicate with the school district to determine a reasonable amount of time.

Amendment of Rates

Rates for services provided under this agreement shall be adjusted at an increased rate of 3% each year.

Fuel Surcharges

When the average fuel price exceeds $5.00 per gallon, the mileage rate will be increased by calculating 50% of the fuel price that exceeds $5.00 and adding it to the base mileage rate. Thus, if the price of fuel, according to the average fuel price index, is $5.60, the increase would be 50% of the 60 cents or 30 cents. Such surcharges apply for the miles included in the ride base price. The fuel price index to be used shall be found under the category of "[Your Specific State or Region] U.S. and an Average Fuel Prices (dollars per gallon) to be calculated from the following website: https://www.eia.gov/dnav/pet/pet_pri_gnd_dcus_sca_w.htm

STUDENT CANCELLATIONS

Temporary Student Cancellation: If a student is sick or will not be attending school temporarily (5 days or less), the parent or district can reach out to First Alt® directly to make this request. If a student is a single rider and is temporarily cancelled there will be no trip charge. If the student is part of a multiple rider trip, the district will be charged the normal trip rate.

Permanent Student Cancellation: The permanent cancellation of a student from a trip requires district notification and approval. If the student is a single rider, then the trip will be permanently cancelled, and no additional costs will be incurred by the district. If the student is part of a multi-rider trip, First Alt® will consolidate the route, remove any mileage or equipment charges associated with the cancelled student and provide the district with the updated trip and cost information.

Contract Suggestions

A long, mutually beneficial partnership is our goal. We have requested modifications to certain terms and conditions accompanying the bid specifications and suggested preferred language below. It is our intent that these items be discussed with Knox County Schools during contract negotiations and that the end product of these discussions provides clear expectations for our relationship, as well as appropriate protections for both parties.

Indemnification
Document Location: Page 5, Section 2.11 and Page 24, Contract No. 14

First Student respectfully requests a discussion with Knox County pertaining to the following:

Contractor agrees to indemnify, hold harmless, and defend County, its schools and their respective governing board, officers, employees and agents from and against every claim or demand which may be made by any person, firm, or corporation, or any other entity arising from or caused by the negligence or willful misconduct of Contractor, its agents, or employees in the performance of this Agreement, except to the extent that such claim or demand arises from or is caused by the negligence or willful misconduct of County, its schools and their respective agents or employees; student upon student violence; routing or scheduling; or Contractor's good faith adherence to County's policies, procedures, or directives.
County agrees to indemnify, hold harmless, and defend Contractor, its directors, officers, employees and agents from and against every claim or demand which may be made by any person, firm, or corporation, or any other entity arising from or caused the negligence or willful misconduct of County, its schools and their respective boards, agents, or employees in the performance of this Agreement, except to the extent that such claim or demand arises from or is caused by the negligence or willful misconduct of Contractor, its agents or employees.
Notwithstanding the foregoing, (a) each Party shall advise the other Party in writing of any claims, notices, or additional information received by it or of which it becomes aware for which such Party will seek indemnification hereunder, in such time and manner as not to impair or prejudice the ability of the indemnifying Party to defend such claims or investigate such notice, (b) each Party shall provide the indemnifying Party with the cooperation and assistance necessary to defend such claim requested by the indemnifying Party, and (c) neither Party shall settle or compromise any claim admitting the fault, liability, or negligence of the other Party without the other Party's prior written consent, which shall not be unreasonably withheld, conditioned or delayed. The obligations set forth in this paragraph shall survive the termination of this Agreement. As it applies to both Parties, nothing in this Agreement shall be construed to prevent or reduce the immunities from civil liability granted by applicable law.

Pricing and Billing
Document Location: Page 2, Section 1.15, Section 1.17 on Page 2, Page 8, Sections 3.18-3.20, Page 9, Section 3.26

First Student respectfully requests to open a conversation with Knox County to outline the language below, ensuring clarity and mutual understanding between both parties:

Contractor will submit to County a monthly invoice of its services rendered during the prior month. County shall pay all undisputed amounts due to the Contractor on or before the 10th business day following the date on which the invoice has been submitted.
If any portion of the billed service in the statement is disputed by County or the County seeks a revised invoice, County shall deliver written notice specifying the disputed amount or requested revisions to the Contractor within five (5) business days of receipt of the invoice by County. In the absence of County timely providing said written notice, County waives any right to dispute said statement or reject the invoice in the future. All disputes shall be resolved pursuant to the Dispute Resolution clause of this Agreement.
In the event that County fails to make a payment on any sums due hereunder, and such sums remain unpaid for 30 days, Contractor shall be entitled to charge interest on unpaid amounts at the rate of the lesser of 1.5% per month or the maximum amount allowed by state law. In the event of repeated delinquency by County, Contractor shall have the right to request a deposit or payment bond from County before resuming service. Without limitation, Contractor shall be entitled to court costs, litigation expenses and attorneys' fees incurred in any attempt to collect unpaid amounts due under this Agreement.

Installation of Cameras/Radios/GPS Software

First Student respectfully requests a discussion regarding the installation and monitoring of cameras, radios and GPS within the vehicle(s) assigned to the district's routes. This suggestion is aimed at enhancing operational safety, ensuring equipment functionality, and supporting efficient incident resolution.

The following is for clarification:

Question 1: Are the services requested primarily on an “on call” basis?

Answer 1: The bulk of services will be scheduled but call-in services will make up a significant minority of the total.

Question 2: Is this service for regular home to school fixed routes?

Answer 2: Yes.

Question 3: If fixed route service, please provide copies of current routes.

Answer 3: Routes will change between now and the initiation of service, the examples in the RFP give an idea of the types of service we’re looking for.

Question 4: Does the District prefer vehicles that are FMVSS compliant for home to school transportation services?

Answer 4: Yes.

Question 5: Please provide a copy of the Transportation Handbook referenced in 4.14

Answer 5: School Bus Handbook (The School Bus Handbook can be found on the left side of the Knox County Schools Transportation Department Page https://www.knoxschools.org/Page/17300.)

Question 6: Can the District provide a copy of the current fleet listing including year, make, model, seating capacity/configuration and number of lift required vehicles being used for this service?

Answer 6: No lift vehicles are currently being used for this service, but the district is interested in exploring that possibility. All vehicles must meet Knox County Schools Shuttle Specifications.

Question 7: Is there a minimum/maximum age criteria for vehicles?

Answer 7: No.

Question 8: Are current vehicles equipped with GPS by the District?

Answer 8: Yes.

Question 9: Are current vehicles equipped with radios by District?

Answer 9: Yes.

Question 10: Are current vehicles equipped with cameras by District?

Answer 11: No, all vehicles will be required to use district provided GPS, radios, and cameras.

Question 12: Please provide school bell times.

Answer 13: The district is only interested in proposals utilizing a per mile cost.

Answer 14: All drivers are employees of private contractors; the district has no information about their wage and/or benefit packages.

Question 15: Do current contractors utilize a central facility for dispatch, vehicle parking and maintenance?

Answer 15: All those functions are contractor-specific and not governed or facilitated by the district.

Question 16: How many of the on-demand call-in trips has the district seen on average per month over the past year?

Answer 16: Approximately 20-30 per month, with more clustered at the start of the school year.

Question 17: What is the average mileage per trip?

Answer 17: It varies enough that an average per trip is not a descriptive number. Some trips are 3 miles long, others are 50 miles, depending on the needs of the district.

Question 18: Are we permitted to submit our standard driver qualifications along with a sample list of local drivers, with the understanding that the final list may be subject to change based on district demand?

Answer 18: Yes, but all drivers will be required to meet the requirements of the Knox County Schools Eligibility Roster. It is conceivable that drivers who meet your standard driver qualifications will also meet many of those necessary to be included on the Eligibility Roster, but the district will evaluate that on a case-by-case, driver-by-driver basis.

Answer 33: See Section 1.5.

Question 34: Could the district share the historical Liquidated Damages that they've assessed to their current provider(s)?

Answer 34: It has not been necessary to assess Liquidated Damages during our current contract.

Is there a different process that has been developed that we can expect for the new contract period that will produce a more manageable timeline to help us provide service for the high demand and fluctuation of this contract?

Answer 39: The district will work with vendors to the greatest extent possible to expedite onboarding of new drivers.

Question 40: RFP states that all safety employees are to be listed on our roster for random drug screenings. What would the process be from your perspective if a mechanic or tech failed? Is there a moratorium on their return and what has to be completed for that person to return to service?

The pricing should reflect the insurance requirements. If amendments to a contract are desired, both parties would need to agree to those amendments.

Question 48: How will participation in the call-in service be valued/weighted in regard to proposal evaluations?

Answer 48: The district is interested in working with vendors who can offer unexpected or emergency service with little notice. While not offering this type of service is not disqualifying, it will be a part of a vendor's evaluation.

Question 49: Section 4.19 - Random Drug and Alcohol Testing- Who is responsible for the costs associated with enrollment in the testing program managed by the KCSTD?

Describe how the organization handles staff absenteeism.
Our policy is to first use our spare drivers. We have a few and typically that works well. After that, we split the route onto other possible shuttles and cover the best we can.

Describe the organization's dress code policy.
For the most part we are casual. I request that the drivers look nice. They are required to wear Knox Co badges. We are looking into vests and shirts.

TAB IV

QUALIFICATIONS & EXPERIENCE

In narrative form, describe your organization's qualifications and experience in a manner that effectively demonstrates comprehensive understanding and willingness to comply with all of the requirements detailed in Section IV (Scope of Work) of this RFP.
At a minimum, include:

• The number of years that your organization has been in business. 12

• A description of your organization's post-accident testing procedures.
First is to assess the situation around them and verify safety.
Once they call us, we can move into questions about students on board, etc.
If so, we send them for a drug and alcohol test. Those results are directed to Knox Co Schools Transportation Dept.

• An overview of how your organization collects and maintains information for Driver Files
Driver information is collected through the driver application process and employee personnel forms. Employee information is stored electronically in password protected files along with paper files kept securely in locking file cabinets.

• A sample daily summary report (ATTACHMENT 1A)

• A description of your organization's Student Interaction policies

- Always treat students and parents like you want to be treated.
- Limit physical contact with students. Unless you are in danger of physical harm, do not touch students unless necessary to perform your job duties.
- Attempt to avoid scenarios where you are alone with a student, except in cases where they are the only individual remaining in the vehicle while on your route.
- Avoid making comments to students about their physical appearance.
- Avoid discussing the personal affairs of other students or colleagues.
- Limit the sharing of personal information, such as political conversations.
- Limit contact with students outside of official duties and outside of school. You must seek supervisor approval for contact with students outside of school.
- Take precautions to respect student privacy and maintain propriety at all times.
- Refrain from giving gifts of a personal or intimate nature to students.

- Do not exit your vehicle during loading or unloading to help or talk with students or parents, unless necessary to execute your job duties. Never go inside a student's home to assist a student or their parent.

Employees are required to report to any member of the Administrative Team any behavior they deem inappropriate between an adult employee and a student. All reports must be communicated to the President. In some circumstances, employees also have the duty to report such conduct in accordance with mandated reporter requirements. Any employee who engages in behavior that violates this policy or who fails to report such activity by others will be subject to disciplinary action, up to and including termination of employment. We will not retaliate against anyone who reports conduct that may violate this policy, and any employee who retaliates against an individual who makes a report under this policy will be subject to discipline.

• A description of your organization's Student-On-Student Harassment or Discrimination reporting procedure

Any employee witnessing student-on-student harassment or discrimination must immediately tell the students involved that the behavior must stop. The employee must complete a write up, or request the aide complete a write up, even if the behavior stops. If the behavior persists on more than one occasion management may request the student be removed from our roster to another contractor.

Employees must respect students and their parents during these interactions, despite disrespectful behavior, and report all instances of harassment, bullying & discrimination.

TAB V

PROPOSED COSTS

Contractor is to provide a pricing schematic based on a flat rate per travelled mile for distance between origination location and destination.
Contractor must clearly state any charges for additional passengers.
Contractor must clearly state any applicable minimum charges or any other charges for their proposed service. Use the template provided as Attachment A (Pricing).
Contractors may submit additional information detailing any alternative pricing schematics that may be utilized by Knox County Schools, but at a minimum, Contractors must submit pricing as requested per Attachment A.
NOTE: This tab will be reviewed after the other sections of the vendor's proposal have been reviewed and scored. Failure to submit pricing as requested per Attachment A may result in a vendor being deemed non-responsive.

*special pricing structure below
- Outside Knox Co. to school will be billed at $3 per mile if it is part of an ongoing route. If it is a 1-off then billed at a $100 minimum.
- Program Trips. Trips billed at $100 for first 2hrs and $50 per hour after, up to 4hrs without approval.
- Vision Program
- Stem to Paul Kelley (we have had 2 up to 6 riders on a steady basis – No idea on who rides day to day)
- Any Similar
- Sarah Moore Green Work Program – $250 day minimum. We have 3 work programs and the other 2 are set up more like a typical route, SMG is different. I would like to use this pricing only when enough of the students have fallen off the route and we need a minimum in place. Due to the scheduling times, you cannot add this program to another route which would allow flexibility during that window of time. This would be very minimal days.
- Homeless Program - $3.00 per mile due to constant monitoring and extra work involved.
- Solo Riders – $250 day minimum.
- Coverage and then Take Backs - $250 minimum. This happened twice this year where we were sent a bulk list of students another contractor could not cover. We began working on them (1 and 2 days to figure out coverage.) Started the route and was told kids were picked up. Called Transportation to find out the original company decided to cover all or most. So this fee is to cover time spent in the event this ever happened again.

TAB VI

OTHER INFORMATION

Proposers may include any other information deemed pertinent to this solicitation.

*Interested in Wheelchair service if they are ever needed on Shuttles.

TAB VII

EXCEPTIONS

Please note any and all exceptions taken to any part this Request for Proposal. If none are taken, please clearly state so. Do not mark through or otherwise alter the language of this RFP in your response.

We have no exceptions.

The following is for clarification:

Question 1: Are the services requested primarily on an “on call” basis?

Answer 1: The bulk of services will be scheduled but call-in services will make up a significant minority of the total.

Question 2: Is this service for regular home to school fixed routes?

Answer 2: Yes.

Question 3: If fixed route service, please provide copies of current routes.

Answer 3: Routes will change between now and the initiation of service, the examples in the RFP give an idea of the types of service we’re looking for.

Question 4: Does the District prefer vehicles that are FMVSS compliant for home to school transportation services?

Answer 4: Yes.

Question 5: Please provide a copy of the Transportation Handbook referenced in 4.14

Question 6: Can the District provide a copy of the current fleet listing including year, make, model, seating capacity/configuration and number of lift required vehicles being used for this service?

Answer 6: No lift vehicles are currently being used for this service, but the district is interested in exploring that possibility. All vehicles must meet Knox County Schools Shuttle Specifications.

Question 7: Is there a minimum/maximum age criteria for vehicles?

Answer 7: No.

Question 8: Are current vehicles equipped with GPS by the District?

Answer 8: Yes.

Question 9: Are current vehicles equipped with radios by District?

Answer 9: Yes.

Question 10: Are current vehicles equipped with cameras by District?

Answer 11: No, all vehicles will be required to use district provided GPS, radios, and cameras.

Question 12: Please provide school bell times.

Answer 13: The district is only interested in proposals utilizing a per mile cost.

Answer 14: All drivers are employees of private contractors; the district has no information about their wage and/or benefit packages.

Question 15: Do current contractors utilize a central facility for dispatch, vehicle parking and maintenance?

Answer 15: All those functions are contractor-specific and not governed or facilitated by the district.

Question 16: How many of the on-demand call-in trips has the district seen on average per month over the past year?

Answer 16: Approximately 20-30 per month, with more clustered at the start of the school year.

Question 17: What is the average mileage per trip?

Answer 17: It varies enough that an average per trip is not a descriptive number. Some trips are 3 miles long, others are 50 miles, depending on the needs of the district.

Question 18: Are we permitted to submit our standard driver qualifications along with a sample list of local drivers, with the understanding that the final list may be subject to change based on district demand?

Answer 18: Yes, but all drivers will be required to meet the requirements of the Knox County Schools Eligibility Roster. It is conceivable that drivers who meet your standard driver qualifications will also meet many of those necessary to be included on the Eligibility Roster, but the district will evaluate that on a case-by-case, driver-by-driver basis.

Answer 37: Use of district-provided GPS, camera, and radio systems will be a requirement for working for the district. Any vendor unwilling to do so will be deemed non-responsive to the RFP.

Question 38: Would the district be open to a complete list of the drivers and vehicles following award and prior to start of service at a mutually agreed upon time?

Answer 38: The district is open to any drivers that meet the qualifications and stipulations for inclusion on the Knox County Schools Eligibility Roster and any vehicles that meet the Knox County Schools Shuttle Specifications.

Question 39: Currently, there is only 1 class per month AND a minimum of 3 people required before a class can be scheduled for potential new drivers. Is there a different process that has been developed that we can expect for the new contract period that will produce a more manageable timeline to help us provide service for the high demand and fluctuation of this contract?

Answer 39: The district will work with vendors to the greatest extent possible to expedite onboarding of new drivers.

Question 40: RFP states that all safety employees are to be listed on our roster for random drug screenings. What would the process be from your perspective if a mechanic or tech failed? Is there a moratorium on their return and what has to be completed for that person to return to service?

Answer 40: Violations of drug and alcohol testing policy will be handled on a case-by-case basis.

Question 41: Can you tell us for sure that the Board is requiring the 2mil umbrella going forward (or more) so we know how to adjust our pricing?

Answer 41: The district does not anticipate the insurance requirements changing but cannot categorically or unilaterally guarantee that for the life of the contract. The pricing should reflect the insurance requirements. If amendments to a contract are desired, both parties would need to agree to those amendments.

Question 42: Please clarify if you would like 1 original printed proposal, 1 exact printed copy of the proposal, and 1 exact copy on USB, or is 1 original print and 1 exact copy via USB sufficient?

Answer 42: Please submit one (1) original hard copy, one (1) exact copy and a USB with one PDF file on the proposal.

Question 43: Per Pg. 10, section 4.1 regarding daily vehicle mileage between 50-150 miles per vehicle, can the district please provide the average mileage per one way route?

Answer 43: See answer 17.

Question 44: Who is the current Vendor(s)?

Answer 44: See answer 20.

Question 45: What is the current vendor(s) rates?

Answer 45: See answer 19.

Question 46: Are there any service-related items that the district is trying to address/improve with this RFP?

Answer 46: Not specifically, no.

Question 47: Is it required for bidders to provide call-in service?

Answer 47: Any vendor unwilling to provide call-in service should specify that in their response in Section V behind Tab VII.

Question 48: How will participation in the call-in service be valued/weighted in regard to proposal evaluations?

Answer 48: The district is interested in working with vendors who can offer unexpected or emergency service with little notice. While not offering this type of service is not disqualifying, it will be a part of a vendor's evaluation.

Question 49: Section 4.19 - Random Drug and Alcohol Testing- Who is responsible for the costs associated with enrollment in the testing program managed by the KCSTD?

Answer 49: There is no cost for enrollment into the KCSTD testing program, it is a requirement for working with the district.

Question 50: Section 4.19 - Random Drug and Alcohol Testing- Who is responsible for the costs associated with the tests performed by the testing program managed by the KCSTD?

Answer 50: Vendors are responsible for pre-employment testing, KCSTD will pay for random and post-accident testing.

Question 51: What's the minimum number of routes you will award? Will it be 40 routes to one vendor?

Answer 51: See Section 3.33.

Answer 52: No.

Question 53: Who performs routing duties currently?

Answer 53: KCSTD.

Question 54: What software is used for routing?

Answer 55: District GPS units will be used, made by Zonar.

Question 56: Will the district use its cameras or the vendors? If the district uses theirs, what camera system do you use?

Question 58: If the district provides the three options above, will you let us propose our technology?

Answer 58: No.

Question 59: What is the estimated volume of extracurricular trips (Athletic and Field trips) for the school year? Include: number of trips, hours and miles billed, total cost for the year

Answer 59: Extracurricular trips are booked directly with schools/groups and not through KCSTD – those trips are not a part of this RFP.

Question 60: What are the estimated summer School transportation needs? Include: number of routes and number of days operated

Answer 60: This solicitation will not go into effect until summer programming for 2025 will already have ended. Summer programming for 2026 is yet to be determined.

Question 61: Are you currently experiencing a driver shortage?

Answer 61: Yes.

Question 62: How many monitors are required?

Answer 62: Monitors are district-provided and the number fluctuates.

Question 63: Will you provide the starting rate and wage range, and salary range for drivers, monitors, and mechanics?

Answer 63: All transportation provided to Knox County Schools is contracted. Wages and salaries vary by contractor and are not the purview of the district.

Question 64: Please provide a complete list of all routes with start and end times and/or driver hours for the day and mileage. The list should include: Route type (Regular or Special Needs), Midday Shuttles (how many and times), vehicle size, aide or monitor required, special equipment needed (Wheelchair lift, Air Conditioning, Star-Seat)

Answer 64: Routes have not yet been determined for the coming year.

Question 65: How many school days?

Answer 65: 177

Question 66: Can we propose a daily route cost instead of a per-mile cost?

Answer 66: See answer 13.

Question 67: When will you award?

Answer 67: As expeditiously as possible.

Question 68: When will the contract start?

Answer 68: The County cannot guarantee an exact start date.

Question 69: Page 23, Contract, No. 1 states that the initial term will be from July 1, 2025 to June 30, 2026. However, that same provision states that County intends to issue a 2-year contract and Page 6, Section 3.5 also states the contract will be for two years. Can the district please clarify?

Answer 69: Page 23 is a Sample Contract. Per Section 3.5 the Contract will be two (2) years with the option to renew upon mutual consent of both parties for three (3) additional one (1) year options. The Contract could be extended for a possible total of five (5) years.

The following questions were answered using the additional information attached:

Question 70: Can the district please provide historical and/or estimated information on the following:

- Average number of riders per vehicle per one-way trip

Company History: RPM Transit, Inc. has been performing shuttle services for the Knox County Schools Transportation Services Division for 15 years. The company was originally set up while shuttling for KCS through ALC- American Logistics Company before deciding to bid on my own.

Will you accept E-commerce for payment? Yes

Will you allow Cooperative Procurement? Not without further discussion on costs

I can acknowledge that I am not aware of any addendums at this time.

Available Resources

RPM Transit, Inc. currently has 4 vans available and can add more if needed by KCS. I have 4 drivers including myself. I have been very fortunate to have very little absenteeism with my team as when they are hired it is made clear there is no room for tardiness or not driving. This year and from here on out I will plan on having drivers for all vans available and I will be back up for any driver that due to illness can't drive. My drivers are also told the rules for phones and conduct on the van with the students and are required to dress appropriately in front of the student.

Vans:

Van #	Make	Year	Model	Color	VIN#
40	Chrysler	2012	Town and Country	White	2C4RC1BG1CR306374
41	Dodge	2013	Caravan (SE)	White	2C4RDGCG1DR759278

202	Honda	2016	Pilot	Black	5FNYF5H73GB009173

The vans are weekly washed, vacuumed and gassed up for the weeks run. Each vehicle is equipped with front and rear heat and air, GPS preset with each students address and seats available for 7 passengers including driver. All drivers have cellular phones with them should they need to contact me, but the van must be stopped and parked before they are to use the phones. All vans have been equipped with video and auto cameras through Knox County Schools.

Qualifications & Experience

I, Richard Miller Jr., have lived in Knox County for 50 years. My 3 children all attended Farragut schools.Before owning and driving shuttles, I worked approximately 30 years for Locheed Martin Energy Systems in Oak Ridge, TN.

I have been an owner and driver of my shuttles for Knox County Schools Transportation for 15 years; 5 for ALC and 10 years for myself. I personally have had no accidents or traffic violations for over 70 years. I always pride myself on keeping the shuttles well maintained and exceptionally clean.I also strive tohad a great relationship with the transportation department, students, parents and my drivers.

My drivers are familiar with the Accident Procedure that is located on the back of their badges that they are required by Knox County and RPM Transit, LLC to wear while with the students in the shuttle. They are to call 911, then the Transportation Department and then call me. They are then to not remove the students unless needed. They are never to leave them unattended. I also have attached to their clipboards in the van the Knox County School Bus Incident Report for them to use and to provide to me and Knox County. These are under their route schedule again on the clipboards.

Each week all vans will receive a (5) daily route schedule sheets for the week showing students to be transported for that van. They must log the time they receive the student and drop the student. They are to also note any comments/messages for each student on these sheets. I collect them weekly from all the drivers and go over them. I have attached a blank sheet for your review.

RPM Transit, LLC does have policy on how to interact with the students. For vans with teacher aides, they know that the aid is responsible for the student but will if necessary, step in to control the situation within guidelines, i.e. pull van over, ask student to reframe from current act, etc. All drivers make sure students are buckled in the seats before they drive, all seats stay in upright positions, if the students have cell phones we require them to be turned off, students are not to touch each other and absolutely not move around in the van once moving. We reserve the right to add more policies as they become needed.

Should the student harass or hurt another student, the driver is to use the Knox County School Bus Incident Report, already mentioned above, to report the incident and the document will be provided to me and Knox County.

I have an understanding for all required services in Section IV scope of work 3655 bid solicitation.

Proposed Costs

Contractor must provide a pricing schematic based on a flat rate per travelled mile for distance between origination location and destination:

Scenario 1 (Peak Time Period)
Route A: 3528 Laurel View Rd. to Whittle Springs MS (1 student) = 1.8 miles x $2.5 = $4.50
Route B: 1219 Pilleaux Dr. to Powell Elementary School (1 student)
1219 Pilleaux Dr. to Powell MS (1 student) (2 students total) = 6.8 + 1.6 miles x $2.5 = $21.00
Route C: 2544 Byington Solway Rd. to West High School (2 students) = 11.3 miles x$2.5 +$15 = 43.25
Total Cost: $68.75 **plus start up fee of $20) = $88.75**

Scenario 2 (Peak Time Period)
Route A: Pickup 1: 9314 Smoky Row Rd. (1 student) = no mileage
Pickup 2: 1119 Andrew Johnson Highway (1 student) = 2.9 miles x $2.5 =$7.25
Pickup 3: 3308 Mine Rd. (1 student) = 6.0 miles x $2.5 = $15.00
Pickup 4: 6210 Cardwell Rd. (1 student) = 6.6 miles x $2.5 =$16.50
Drop-Off: Gibbs Middle School (4 students) = 3.4 miles x $2.5 = $8.50
Total Cost:$47.25**(plus start up fee of $20) = $67.25**

Scenario 3 (11:30 AM)
Route A: Farragut High School to Goodwill Industries (2 students) = 17.7 miles x $2.5 + $15= $44.25
Total Cost:$59.25**(would be considered an extra route) = $79.25**

Scenario 4 (Peak Time Period)
Route B: 103 Ithaca Ln., Oak Ridge, TN 37830 to Cedar Bluff Elementary School (1 student) = 14.8 x $2.5 = $37.00
Total Cost:$37.00**(plus start up fee of $20) = $57.00**

Alternative pricing schematics :

- For any additional passengers we will add them to the existing route and add their mileage to the regularly scheduled day.
- For any charges for transportation during non peak time periods we usually would just have a flat rate that is provided or negotiated with KCS or the school requesting the extra service.
- RPM Transport, Inc. does have an applicable minimum charge of $20 start up fee per day for AM routes and $20 per day for PM routes to equal $40 per day if I have morning and evening routes.
- See Example:
  Scenario A: Take students to Ridgedale in AM = $20 plus route charges
  Pick up students to Goodwill in PM = $20 plus route charges = $40 minimum charge
  Scenario B: No students in AM route = $ no charge
  Pick up students to Goodwill in PM = $20 plus route charges = $20 minimum charge
- If shuttle arrives to pickup location and student does not ride without prior notification, the route will be charged.
- Reimbursements for damages to vehicle from malicious conduct by student to be covered by Knox County. Driver will provide all documentation to include photos and report.
- Minimum Charge per day = $190.
- Modified compensation will occur in the event multiple passengers board the bus at the same location as past of their initial daily pickup and/or their final daily destination. In these cases first student will be calculated by mileage and $15.00 for each additional passenger.
- Emergency and unscheduled school closures are to be charged the minimum charge per day due to insurance fees.

1.11 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys." The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of Purchase Orders, on-line retrieval and submittal of quotes and bids for our vendor-clients and on-line requisitioning and receiving for our county departments.

In order for the County to maximize its investment and minimize the cost associated with office operations, we need your help. When doing business with Knox County we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our on-line procurement system, "KnoxBuys," if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions, please contact the Procurement Division Representative listed in Section 1.1 of this document.
