Solicitations must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.20 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, requests that proposals being submitted on paper shall:

1.20.1 Be submitted on recycled paper;
1.20.2 Not include pages of unnecessary advertising;
1.20.3 Be made on both sides of each sheet of paper.

1.21 **RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS:** It is the responsibility of the prospective proposer to review the entire Request for Proposal (RFP) packet and to notify the Procurement Division if the specifications are formulated in a manner that would unnecessarily restrict competition. Any such protest or question regarding the specifications or proposing procedures must be received in the Procurement Division by **April 24, 2025 at 4:30 p.m. local time**. These requirements also apply to specifications that are ambiguous.

1.22 **SIGNING OF PROPOSALS:** In order to be considered, all proposals must be signed. Please sign the original in blue ink. By signing the proposal document, the vendor acknowledges and accepts the terms and conditions stated in the proposal document.

1.23 **TAXES:** Knox County purchases are not subject to taxation. Tax exemption certificates will be provided upon request.

1.24 **TITLE VI OF THE 1964 CIVIL RIGHTS ACT AND TITLE IX OF THE EDUCATIONAL AMENDMENT OF 1972:** "Nondiscrimination in Federally Assisted Programs"—"No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. Section 2000. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI and Title IX.

1.25 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regards to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.26 **USE OF PROPOSAL FORMS:** Vendors must complete the proposal forms contained in the proposal package. Failure to complete the proposal forms may result in proposal rejection.

1.27 **VENDOR DEFAULT:** Knox County reserves the right, in case of vendor default, to procure the articles or services from other sources and hold the defaulting vendor responsible for any excess costs occasioned thereby. Should vendor default be due to a failure to perform or because of a request for a price increase, Knox County reserves the right to remove the vendor from the County's bidder's list for twenty-four (24) months.

1.28 **VENDOR REGISTRATION:** Prior to the closing of this proposal, ***ALL PROPOSERS*** must be registered with the Procurement Division. Please register on-line at our website at www.knoxcounty.org/procurement and click on "Online Vendor Registration." Vendors must be registered with the Procurement Division *prior* to submitting their proposal. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register electronically less than twenty-four (24) hours prior to the proposal closing time.

1.29 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II OBLIGATIONS, RIGHTS AND REMEDIES

These terms and conditions shall be part of the Contract. Knox County reserves the right to negotiate other terms and conditions it deems appropriate and necessary under the circumstances to protect the public's trust.

2.1 **ALTERATIONS OR AMENDMENTS:** No alterations, amendments, changes, modifications or additions to this Contract shall be binding on Knox County without the prior written approval of the County.

2.2 **APPROPRIATION:** In the event no funds are appropriated by Knox County for the goods or services in any fiscal year, or insufficient funds exist to purchase the goods or services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

2.3 **ASSIGNMENT:** Contractor shall not assign or subcontract this agreement, its obligations or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County.

2.4 **BOOKS AND RECORDS:** Vendor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract and make such materials available at its offices at all reasonable times during the Contract period and for five (5) years from the date of the final payment under this agreement for inspection by County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Vendor's costs of manufacturing, acquiring or delivering the products and services governed by this agreement.

2.5 **CHILD LABOR:** Contractor agrees that no products or services will be provided or performed under this Contract that have been manufactured or assembled by child labor.

2.6 **COMPLIANCE WITH ALL LAWS:** Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of goods and/or services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

2.7 **CRIMINAL HISTORY RECORDS CHECK:** Any and all successful proposers, Contractor's employees, Contractor's subcontractors and the employees of any subcontractors must submit to a criminal history records check at the Contractor's expense, conducted by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation prior to permitting the employee to have contact with students or enter school grounds when students are expected to be present. Reference Tennessee Code Annotated Section 49-5-413. Proposers **must** submit with their proposals the Criminal History Affidavit of Compliance.

2.8 **DEFAULT:** If Contractor fails to perform or comply with any provision of this Contract or the terms or conditions of any documents referenced and made a part hereof, Knox County may terminate this Contract, in whole or in part, and may consider such failure or noncompliance a breach of Contract. Knox County expressly retains all its rights and remedies provided by law in case of such breach, and no action by Knox County shall constitute a waiver of any such rights or remedies. In the event of termination for default, Knox County reserves the right to purchase its requirements elsewhere, with or without competitive solicitation.

2.9 **GOVERNING LAW; VENUE:** This agreement shall be exclusively construed, governed, and controlled by the laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery County or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum.

2.10 **INCORPORATION:** All specifications, drawings, technical information, Request for Proposal, Proposal, Award and similar items referred to or attached or which are the basis for this Contract are deemed incorporated by reference as if set out fully herein.

2.11 **INDEMNIFICATION—HOLD HARMLESS:** Contractor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the agreement by Contractor, its subcontractors, suppliers, agents, or employees or due to any negligent act or occurrence or any omission or commission of Contractor, its subcontractors, suppliers, agents or employees.

2.12 **INDEPENDENT CONTRACTOR:** Contractor shall acknowledge that it and its employees serve as independent contractors and that Knox County shall not be responsible for any payment, insurance or incurred liability.

2.13 **INSPECTION AND ACCEPTANCE:** Warranty periods shall not commence until Knox County inspects and formally accepts the goods and/or services. The terms, conditions and timing of acceptance shall be determined by Knox County. Knox County reserves the right to reject any or all items or services not in conformance with applicable specifications, and Contractor assumes the costs associated with such nonconformance. Acceptance of goods or services does not constitute a waiver of latent or hidden defects or defects not readily detectable by a reasonable person under the circumstances.

2.14 **IRAN DIVESTMENT ACT:** By submission of this RFP response, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not on the list created pursuant to Tennessee Code Annotated § 12-12-106.

2.15 **LIMITATIONS OF LIABILITY:** In no event shall Knox County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

2.16 **NO BOYCOTT OF ISRAEL:** Pursuant to Tennessee Code Annotated Title 12, Chapter 4, Part 1, by submission of a response to this solicitation, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not currently engaged in, and will not for the duration of the Contract engage in, a boycott of Israel.

2.17 **NON-DISCRIMINATION AND NON-CONFLICT STATEMENT:** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin or any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this agreement or in the employment practices of vendor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination. Contractor covenants that it complies with the Fair Wage and Hour Laws, the National Labor Relations Act, and other federal and state employment laws as applicable. Contractor covenants that it does not engage in any illegal employment practices.

Contractor covenants that it has no public or private interest and shall not acquire directly or indirectly any interest that would conflict in any manner with the provision of its goods or performance of its services. Contractor warrants that no part of the total Contract amount provided herein shall be paid directly or indirectly to any officer or employee of Knox County as wages, compensation, or gifts in exchange for acting as officer, agent, employee, subcontractor or consultant to Contractor in connection with any goods provided or work contemplated or performed relative to the agreement.

2.18 **ORDER OF PRECEDENCE:** In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) Written Contract, (2) Request for Proposal, (3) Contractor's Response, (4) Award, (5) Special Terms and Conditions, (6) General Terms and Conditions, (7) Specifications, (8) Drawings.

2.19 **REMEDIES:** Knox County shall have all rights and remedies afforded under the U.C.C. and Tennessee law in Contract and in tort, including but not limited to, rejection of goods, rescission, and right of set-off, refund, incidental, consequential and compensatory damages and reasonable attorney's fees.

2.20 **RIGHT TO INSPECT:** Knox County reserves the right to make periodic inspections of the manner and means the service is performed or the goods are supplied and warehoused.

2.21 **SEVERABILITY:** If any provision of this Contract is declared illegal, void or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

2.22 **TAX COMPLIANCE:** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its proposal or proposal and signature, it is current in its respective federal, state, county, and city taxes of whatever kind or nature, and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

2.23 **TERMINATION:** County may terminate this agreement with or without cause at anytime. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the termination date shall be paid.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give Knox County at least one hundred twenty (120) business days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

2.24 **WARRANTY:** Contractor warrants to Knox County that all items delivered and all services rendered shall conform to the specifications, drawings, solicitation and/or other descriptions furnished and/or incorporated by reference, and will be fit for the particular purpose purchased of merchantable quality, good workmanship, and free from defects. Contractor extends to Knox County all warranties allowed under the U.C.C. Contractor shall provide copies of warranties to the County upon request. Return of merchandise not meeting warranties shall be at contractor's expense.

SECTION III SPECIAL TERMS AND CONDITIONS

3.1 **INTENT:** The intent of this solicitation is to set forth and convey to prospective proposers the general type and character of Point-to-Point School Transportation Services as desired by the Knox County Schools Transportation Department (hereafter referred to as KCSTD). Award will be based on Best Value. Best Value means more than lowest cost, it includes safety, the initial cost, service quality and other factors detailed herein.

3.2 **ACCEPTANCE:** Vendors are advised that the payment of an invoice does not necessarily constitute as an acceptance of services that are provided. Acceptance requires a specific written action by Knox County so stating.

3.3 **ADDITION OR DELETION OF SERVICES:** Knox County reserves the right to add services as the need arises or to delete services that have become obsolete in demand. If services are to be added, Knox County and the Contractor will arrive at a mutually agreed price. Any additions or deletions must be approved in writing by Knox County Procurement prior to any changes in service.

3.4 **AGENCY CONTACTS:** The Contractor will be given a list of key personnel directly associated with the services to be performed for contact information. Only the Knox County Procurement Division will have the authority to make changes during the term of this agreement and in compliance with any resulting Contract.

3.5 **AWARD LENGTH:** The length of this Contract will be two (2) years with the option to renew upon mutual consent of both parties. The term agreement may be extended for three (3) additional one (1) year options, for a possible total of five (5) years. Knox County reserves the right to purchase these products and/or services from other sources if the need arises. Knox County reserves the right to revoke the award if a pattern of unavailability arises with the vendor.

3.6 **CHANGES AFTER AWARD:** It is possible that after award, Knox County might change its needs or requirements. Knox County reserves the right to make such changes after consultation with the vendor. Should additional costs arise, Knox County reserves the right to consider accepting these charges provided the vendor can document the increased costs. Knox County also reserves the right to accept proposed service changes from the vendor if they will lower the cost to Knox County and/or provide improved service.

3.7 **COMMUNICATIONS:** The successful execution of this contract will require extensive communication between all involved parties. While information may be transmitted via telephone, it should always be followed up with an email. It is essential that the Contractor have an email address that is regularly monitored. The Contractor will be required to submit a list of individuals, along with direct phone numbers, cell phone numbers, and email addresses for the agency's contacts.

These individuals must be familiar with the Knox County Contract and have authority to make adjustments as requested by Knox County.

3.8 **COMPLIANCE WITH ALL APPLICABLE REGULATIONS:** Vendor agrees and covenants that the company, its agents and employees will comply with all city, county, state and federal codes, laws, rules and regulations applicable to the business to be conducted under this contract. If the vendor performs any work knowing it to be contrary to such laws, ordinances, rules and regulations, the vendor shall bear all costs arising from such work.

3.9 **CONTACT PERSONNEL:** Essential to the success of this Contract is the development of a good working relationship between the vendor and Knox County. It is imperative that the Knox County account be handled efficiently and professionally. Knox County should be assigned no more than two (2) vendor contacts to handle billing inquiries and service-related issues. In the event on or both contacts leave the Knox County account, the vendor shall formally introduce the new contacts to Knox County personnel. These contacts must be knowledgeable of the County's account to avoid an interruption of service.

3.10 **CONTRACT EXECUTION:** The award of this proposal may result in a Contract between Knox County and the successful vendor(s). The Contract may require Knox County Board of Education and/or Knox County Commission approval. The successful vendor(s) may be required to be present at the Board of Education and/or County Commission meeting(s) to answer questions relating to the service to be performed. Adequate notification will be given by Knox County Procurement Division if the awarded vendor(s) will need to attend meetings. There shall be no cost to Knox County for attendance of the vendor(s). Knox County will draft the Contract. A sample contract can be found under Exhibit A. The Knox County Procurement Division will not accept any vendor's contract. If Master Agreements, Service Agreements, Terms and Conditions or other contract agreements are submitted they will not be accepted.

3.11 **CONTRACTOR DUTIES:** At the Contractor's own expense, the Contractor shall:

3.11.1 Provide competent supervision;
3.11.2 Provide competent personnel;
3.11.3 Take precautions necessary to protect persons or property against injury or damage and be responsible for any such damage or injury that occurs as a result of their fault or negligence.

3.12 **EVALUATION CRITERIA:** This proposal will be evaluated using the following criteria:

- Available Resources 35 Points
- Qualifications & Experience 25 Points
- Proposed Cost 40 Points

3.13 **EVALUATION REVIEW:** Knox County reserves the right to use all pertinent information that might affect the County's judgment as to the appropriateness of an award to the best evaluated vendor(s). This information may be appended to the proposal evaluation process results. Information on a service provider from reliable sources, and not within the service provider's proposal, may also be noted and made part of the evaluation file. Knox County shall have sole responsibility for determining a reliable source. Knox County reserves the right to conduct written and/or oral discussions/interviews after the proposal closing. The purpose of such discussions/interviews is to provide clarification and/or additional information to make an award that is in the best interest of Knox County.

3.14 **EXCEPTIONS TO SPECIFICATIONS:** Vendors taking exception to any part or section of these specifications shall indicate such exceptions on their submittal. A failure to indicate any exception(s) shall be interpreted as the vendor's intent to fully comply with the specifications as written. Conditional or qualified offer are subject to rejection in whole or in part. Any exceptions shall be included in Section V, Tab VII of the submittal. Do not strike through or in any other way alter the RFP. Exceptions listed within other sections of the submittal shall not be reviewed or considered.

3.15 **GRATUITIES AND KICKBACKS:** It shall be a breach of ethical standards for any person or company to offer, give, or agree to give any employee or former employee, or for any employee or former employee to solicit, demand, accept, or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or a purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing or in any other advisory capacity in any proceeding or application, request for ruling, determination, claim, or controversy or other particular matter, pertaining to any program requirement of a contract or subcontract or to any solicitation or proposal therefore. It shall be a breach of ethical standards for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor or a person associated therewith, as an inducement for the award of a subcontract or order. Breach of the provisions of this paragraph is, in addition to a breach of this Contract, a

breach of ethical standards which may result in civil or criminal sanction and/or debarment or suspension from being a contractor or subcontractor under Knox County contracts.

3.16 **IDENTIFICATION:** Employees of the Contractor shall have proper photo identification displayed at all times while on property belonging to Knox County.

3.17 **INSURANCE:** The successful vendor(s) must carry the insurance as indicated on the Insurance Checklist Attachment hereto. As proof of the vendor's willingness to obtain and maintain the insurance, the vendor must complete, sign and have its insurance agent sign the attachment and submit it with the proposal. Upon the Notification of Intent to Award, the successful vendor will be required to submit a Certificate of Insurance (COI) including any corresponding endorsement page(s) with the specified coverage and listing Knox County and Knox County Schools as an additional insured. It shall be the successful vendor's responsibility to keep a current COI and endorsement page(s) on file with Knox County Procurement for as long as the contract is in effect.

3.18 **INVOICE DETAIL:** Knox County is requesting invoices to show the following detail to help expedite review and payment. The Contractor(s) may be required to modify invoicing procedures to show the detail. All potential Contractors are hereby cautioned that Knox County will only pay from original invoices and not facsimiles or copies. Invoices which do not adhere to these details may be returned to the Contractor for correction.

3.18.1 The invoice must show the amount due to the Contractor by Knox County;
3.18.2 The invoice must show a summary of completed work;
3.18.3 Invoices are to be original and uniquely pre-numbered;
3.18.4 Invoices which do not show this information are subject to rejection.

3.19 **INVOICE REVIEW:** Knox County shall review all invoices for adherence to the terms and conditions of the Contract. Variations from the Contract and Contract pricing are strictly prohibited. Any variance found on the invoice will result in rejection of that invoice. Rejected invoices will be returned to the Contractor(s) for correction. Repeated variations may result in termination.

3.20 **INVOICING PROCEDURES:** Knox County requests that invoices be easy to read and understand. Invoices are to be original and uniquely pre-numbered. Each participating agency to this Contract may be required to use different invoicing information and procedures.
This information and procedures shall be provided to the Contractor(s) prior to Contract execution. There shall be no additional charge for this information and procedures to be included.

Each invoice shall include a summary of service(s) provided and shall list the associated unit price. Supporting documentation shall be included with invoices as applicable. Invoices without this information will be returned to the Contractor for correction.

Invoices shall be sent to the billing address indicated on the Purchase Order. Each department or division of Knox County is responsible for its own budget. Departments cannot charge or pay bills for another department. Therefore, it is critical that the successful Contractor's invoices specify the correct department. Do not credit payments to another department's account. Invoices must match the corresponding Purchase Order number. Vendors are hereby notified that invoices may take up to thirty (30) business days to process payment. There shall be no component billing. Mail invoices for Knox County Schools to:

Knox County Schools Transportation Department
Post Office Box 2188
Knoxville, TN 37901
invoices@knoxschools.org

3.21 **MINIMUM QUALIFICATION EXPECTATIONS:**

3.21.1 Respondent must address all submittal requirements as defined under Section IV.
3.21.2 Respondent must have the experience and capabilities to carry out the work contemplated and equipment and personnel available for the work.
3.21.3 If the respondent has a permanent office in Knox County, respondent must have a current business license issued by Knox County. This requirement also applies to any of the Respondent's proposed subcontractors or subconsultants with a permanent office in Knox County. A Knox County business license is not required of any Respondent or proposed subcontractor or subconsultant who does not have

a permanent office in Knox County. For more information, contact the Knox County Clerk's office at 865.215.2392.

3.22 **NEGOTIATION:** Knox County may select a successful proposer on the basis of initial offers received without discussions. Therefore, each proposal shall contain the proposer's best terms from a cost or price and service standpoint. Knox County reserves the right to enter into Contract negotiations, including, but not limited to, rates and term, with the highest-rated proposer. If Knox County and the selected proposer cannot negotiate a successful agreement, Knox County may terminate said negotiations and begin negotiations with the next highest-rated proposer. This process will continue until an agreement has been reached or all proposers have been rejected. No proposer shall have any rights against Knox County arising from such negotiations.

3.23 **NEWS RELEASES BY VENDORS:** As a matter of policy, Knox County does not endorse the services of a Contractor. A Contractor will not make news releases concerning any resultant Contract from this solicitation without the prior written approval of Knox County.

3.24 **NO CONTACT POLICY:** After the date and time that the vendor receives this solicitation, any contact initiated by any proposer with any Knox County representative, other than the Procurement Division representative listed herein, concerning this Request for Proposal, is strictly prohibited. Any such unauthorized contact may cause the disqualification of the proposer from this procurement transaction.

3.25 **OFFER WITHDRAWAL:** No proposal can be withdrawn after it is filed unless the proposer makes a request in writing to the Knox County Procurement Division prior to the time set for the closing of proposals or unless the County fails to accept within one hundred twenty (120) business days after the date fixed for the closing the RFP.

3.26 **PRICING:** The proposer(s) warrants that the unit price stated shall remain firm for a period of twenty-four (24) months from the first day of the Contract period.

If the Contractor's price is increased after the first contract period, Knox County must be given a written notice to consider. Such a request shall include as a minimum, (1) the cause for the adjustment; (2) the amount of the change requested with documentation to support the requested adjustment. Price increases will only be considered at the renewal period(s). If the price increase is rejected the Contractor may:

- Continue with the existing prices;
- Request a lower price increase;
- Not accept the renewal offer.

If a price increase is approved by Knox County, the approval notification will be done in writing and the Contractor will be notified of the new price schedule and effective date of increase. This documentation will become part of the proposal file. No approvals will be authorized verbally.

3.27 **PROPOSAL CONTENT:** The proposer's response must contain a thorough description of the background of the proposer and sufficient evidence showing that the proposer is capable of providing the services. The proposer's response must thoroughly expound on the proposer's understanding of how the proposed services will meet Knox County's needs. The proposal must also contain an explanation of the implementation plan and the proposer's ongoing commitment to service.

3.28 **PROPOSAL EVALUATION:** In evaluating the submitted proposals, Knox County reserves the right to use any or all of the ideas from the proposals submitted without limitation and to accept any part or the entire successful proposal in selecting an operation which is judged to be in the best interest of Knox County. All material submitted becomes property of Knox County.

3.29 **PROPOSAL FORMAT:** This solicitation is in the Request for Proposal (RFP) format. As the specified date and time, each proposer's name will be publicly read aloud. No further information will be given at that time. Evaluation of the proposals will proceed as expeditiously as possible and successful, as well as unsuccessful, notification will be given.

3.30 **PROPOSER INTERVIEWS:** Knox County may require proposers to give oral presentations/interviews in support of their proposal or to exhibit or otherwise demonstrate the information contained therein. These presentations/interviews may be conducted virtually through video conferencing or in person. Knox County reserves the right to request oral presentations and/or interviews during the initial evaluation phase. The County also reserves the right to complete the initial evaluation phase and then request oral presentations and/or

interviews from all proposers or the highest rated proposers. In this case, the evaluations may be revised based on additional information received during presentations.

3.31 **PROPOSER OBLIGATION:** Proposers shall become fully acquainted with conditions relating to the scope of the work detailed in this RFP. Failure to become acquainted with the existing conditions shall in no way absolve the proposer of any obligations with respect to this RFP or the Contract.

3.32 **PUBLIC RECORDS ACT:** Knox County is subject to the Tennessee Open Records Act 10-7-503 et seq. Proposers are cautioned that all documents submitted on behalf of this Request for Proposal shall be open to the public for viewing and inspection.

3.33 **QUANTITIES:** Knox County does not guarantee any quantity of services will be utilized under this solicitation. Services will be utilized on an as needed basis.

3.34 **REFERENCES:** Proposers must provide three (3) professional references relating to work of a similar scope completed within the last five (5) years. Include the name of the agency or institution, point of contact with both a telephone number and email address, and the nature and size of the Contract. Proposer must submit Attachment A. Do not list any Knox County Government entity or Knox County Schools.

3.35 **REJECTION OF PROPOSALS:** Knox County reserves the right to reject any and all proposals received as a result of this request and to waive any informality, technical defect or clerical error in any proposal, as the interests of Knox County may require. Non-acceptance of any proposal will be devoid of any criticism of the proposal and of any implication that the proposal is deficient in any manner.

Non-acceptance of any proposal shall be construed as meaning simply that the County does not deem the proposal acceptable or that another proposal was deemed more advantageous to Knox County for the particular services proposed.

3.36 **REMOVAL OF CONTRACTOR'S EMPLOYEES:** Contractor agrees to utilize only experienced, responsible and capable people in the performance of the work specified in this RFP.
Knox County may require that the Contractor remove from the job covered by this Contract, employees who endanger persons or property or whose continued employment under this Contract is inconsistent with the interest of Knox County.

3.37 **SUBMIT QUESTIONS:** Prospective proposers may submit questions concerning this solicitation until **April 24, 2025 at 4:30 p.m. local time**. No oral interpretation will be made to any bidder regarding the meaning of specifications. All questions are to be submitted in writing via email and will be answered in the form of an addendum to the solicitation by the Knox County Procurement Division, if applicable. Submit questions as noted in Section 1.1.

SECTION IV SCOPE OF WORK

4.1 **SCOPE OF WORK:** The purpose of this solicitation is to provide "point-to-point" transportation services for individuals at the direction of Knox County Schools. Knox County Schools is hereinafter referred to as KCS. This Contract is not limited to those transportation services specifically to and from school on a scheduled instructional day and may be used to provide services to any program associated with KCS. Instructional days are determined by the Board of Education and published on the KCS web page (www.knoxschools.org) and are subject to change. It shall be the responsibility of the vendor to verify all instructional days. These transportation services, for the most part, are within the boundaries of Knox County. KCS currently utilizes approximately forty (40) vehicles across three separate Contractors to transport approximately five hundred students each instructional day, typically between 6:30 AM and 5:30 PM. Mileage varies by route but is often between fifty (50) and one hundred fifty (150) miles a day.

4.2 **BACKGROUND:** Knox County Schools (KCS) is a public education agency. It is responsible for the education of children from preschool through high school. There are approximately fifty-nine thousand (59,000) Pre-K through 12th-grade students and approximately seven thousand eight hundred (7,800) employees. For purposes related to this RFP, the district is comprised of ninety-two (92) schools that represent urban, suburban, and rural populations.

4.3 **ACCEPTANCE OF POLICY AND DIRECTIVES:** The Contractor, while performing work under this Contract, expressly agrees to abide by Knox County Schools Board Policies and the Transportation Handbook. The

Contractor also agrees to follow directives and procedures regarding the implementation or execution of this Contract from the Superintendent of Knox County Schools and any of her or his designees.

4.4 **ACCIDENTS:** The Contractor shall immediately inform the Knox County Schools Transportation Department (KCSTD) of the occurrence of any accident involving any vehicle while performing services under this agreement. The Contractor shall follow the Department of Transportation (DOT) post-accident testing procedures for alcohol and controlled substances. The Contractor must comply with all requirements as set forth in the Drug-Free Workplace Policy as defined in the Knox County Schools Handbook: https://www.knoxschools.org/cms/lib7/TN01917079/Centricity/Domain/1034/GAN.pdf.

4.5 **ADDITIONAL TRAINING:** The Contractor will participate, and will ensure their drivers or driver candidates participate, in any training sessions mandated by the KCSTD. Such trainings will be located within the boundaries of Knox County and Contractors will be compensated for the time their drivers spend in training. Contractors will not be entitled to compensation.

4.6 **ASSIGNMENT OF WORK:** All service to be conducted under this agreement will be at the direction of the Knox County School Transportation Department personnel. Failure to abide by this directive may be just cause for immediate termination and a report sent to the District Attorney General.

4.7 **CALL-IN SERVICE:** Some trips may require a "call-in" to the successful Contractor(s). These trips could occur between the hours of 6:00 a.m. and 10:00 p.m. Monday thru Saturday. When call-in service is requested between the hours of 6:00 a.m. and 6:00 p.m. Monday thru Friday, the successful Contractor(s) must arrive within thirty (30) minutes from when the call-in was placed. When call-in service is requested between the hours of 6:00 p.m. and 10:00 p.m. Monday thru Friday, or 6:00 a.m. and 10:00 p.m. on Saturday, the successful Contractor (s) must arrive within sixty (60) minutes from when the call-in was placed.

Repeated late arrivals may result in termination of the Contract. The person who calls in the request must be listed on the approved Contract list provided by the School Transportation Department.

4.8 **CELLULAR COMMUNICATIONS:** The Contractor(s) shall maintain on his or her person and shall equip each vehicle with a cellular telephone and must be in the "on" position and operable at all times, to the extent service is provided by commercial communications provider, while performing services under this Contract. The Contractor shall furnish the cellular numbers to the KCSTD as needed. The Contractor(s) shall be liable for the cost of the cellular services and all accompanying charges to meet this requirement. The Contractor will also ensure that all of their drivers are made aware of and trained on any laws, rules, and regulations regarding the usage of cellular phones while driving a vehicle. This includes but is not limited to hands-free laws.

4.9 **CENTRALIZED DRIVER FILES:** By agreement of the parties, all information necessary to meet driver eligibility requirements shall be housed in the KCSTD facility and will be made available to authorized employees of the Knox County Transportation Department to ensure compliance. The Contractor shall provide to the KCSTD a complete file on each driver, which, at a minimum, shall contain the following:

- Driver's name, address (current), telephone number (current), and driver's license number,
- A negative D.O.T. pre-employment drug screening;
- An annual D.O.T. satisfactory physical examination;
- A photocopy of their driver's license with proper endorsement;
- Any and all other required documentation or information as set forth by the School Board or the KCSTD.

4.10 **CRIMINAL HISTORY BACKGROUND CHECK:** All driver candidates must undergo a criminal history background check conducted at the direction of KCSTD utilizing an entity of KCSTD's choosing. KCSTD personnel will schedule this procedure but Contractors are responsible for payment. All driver candidates must sign paperwork releasing these results to KCS prior to a background check being scheduled. In addition, Attachment B, Criminal History Records Check Affidavit, must be completed and returned with your submittal.

The results for each driver candidate will be forwarded to the KCSTD upon completion. The KCSTD will notify the vendor if any identified prior criminal history would prevent a driver's eligibility.

4.11 **DRIVER AND DESIGNEE INSPECTION:** In compliance with Applicable Law, the Contractor(s) shall insure that their drivers fully inspect each vehicle after dropping the final student from each school they serve or any time the vehicle is vacated by the driver for any purpose to verify that no pupil remains on the vehicle.

4.12 **DRIVER ELIGIBILITY & STANDARDS:** The Knox County Transportation Department will maintain a driver eligibility roster listing all drivers meeting the requirements pursuant to an awarded Contract, Knox County Board of Education Policy, the Knox County Schools Transportation Handbook, and any additional Applicable Law. Only drivers listed on the driver eligibility roster shall perform services pursuant to this Contract. Contractor staffing changes must be reported to KCSTD immediately. The Contractor, in providing services pursuant to this agreement, shall only use drivers included on the Knox County Schools Driver Eligibility Roster.

4.13 **DRIVER SUSPENSION**: When anyone providing services pursuant to this Contract has been involved in an accident; is the subject of civil or criminal violations or charges; has been accused of sexual harassment, sexual assault, child abuse, or child endangerment; has received a traffic citation or a moving violation; or has failed to meet the obligations or performance standards as defined in this Agreement, Board Policy, including but not limited to the Knox County Schools Civility Code, or the Knox County Schools Transportation Handbook, that person may be temporarily suspended from his/her driving position pending an investigation. This suspension will be lifted or continued based on investigative findings by Knox County School Security, KCS or KCSTD administration, and/or the appropriate law enforcement agency and could ultimately result in removal from the eligibility roster.

Once an individual has been removed from the Roster, only the Director of Schools for Knox County Schools may reinstate that person to the Roster. Anyone wishing to be reinstated to the Roster should submit a written petition to the Director of Schools for Knox County Schools. No reinstatement shall be considered before one (1) calendar year has passed.

4.14 **EQUIPMENT REQUIREMENTS:** The Contractor(s) must use vehicles that are compliant with all Federal, State and Local Laws and Regulations in addition to all Knox County Board of Education Policy and Procedures, and the Transportation Handbook.

4.15 **FUEL SURCHARGE:** The purpose of the Fuel Surcharge is to offset increases in gasoline prices experienced by shuttle Contractors while operating for Knox County Schools. As such, the surcharge will increase and decrease with the price of fuel. The formula for calculating the Fuel Surcharge is as follows:

(Current Fuel Price – Base Fuel Price) / 12 Miles Per Gallon = Per Mile Surcharge

1. Current Fuel Price is the cost of Regular Grade fuel in Knoxville as listed on the Tennessee Metro Average Prices available on the American Automobile Association (AAA) website.
2. The Base Fuel Price is $2.75 per gallon.
3. 12 Miles Per Gallon is meant to represent an average fuel economy for the vehicles in the shuttle fleet, not that of any specific vehicle.
4. The Per Mile Surcharge is an amount that will be added to every mile billed by the Contractor. It will be in addition to the mileage rate specified in the Contract and will be rounded to the nearest cent.
5. The Knox County Schools Transportation Department will establish the Current Fuel Price on the first business day of each month. KCSTD will also communicate the Per Mile Surcharge to the Contractor.
6. The Contractor will include the Per Mile Surcharge as a separate item on all of their invoicing for that month.
7. The Fuel Surcharge will not exceed $1.50 per mile without Knox County School Board approval.

4.16 **GLOBAL POSITIONING SYSTEM:** The Knox County Schools Transportation Department may, at its discretion, install or have installed on each vehicle operated under this agreement a Global Positioning System (GPS) compatible with the GPS system utilized by the KCSTD. The Contractor shall ensure this equipment is functional and properly maintained and that the Contractor's employees are trained in the proper use of this equipment. Any malfunction or degradation of the equipment shall be immediately reported to the Knox County Schools Transportation Department so that it may be repaired in a timely manner. Contractors will be responsible for the replacement cost of any lost or maliciously damaged GPS equipment. Although this equipment will be installed on the Contractor's vehicle, it will remain the property of Knox County Schools. Before a vehicle is removed from service by the Contractor, KCSTD must be notified and provided a reasonable time frame to uninstall the equipment or to have it uninstalled.

4.17 **NON-STUDENT PASSENGERS:** The Contractor(s) agrees to limit non-student passengers while performing under this Contract as required in Knox County Schools Board of Education Policy and the Knox County Schools Transportation Department Handbook.

4.18 **RADIO COMMUNICATIONS:** The Knox County Schools Transportation Department may, at its discretion, install or have installed on each vehicle operated under this agreement a radio compatible with the radio system utilized by the KCSTD. The Contractor shall ensure this equipment is functional and properly maintained and that the Contractor's employees are trained in the proper use of this equipment. Any malfunction or degradation of the equipment shall be immediately reported to the Knox County Schools Transportation Department so that it may

be repaired in a timely manner. Contractors will be responsible for the replacement cost of any lost or maliciously damaged radio equipment. Although this equipment will be installed on the Contractor's vehicle, it will remain the property of Knox County Schools. Before a vehicle is removed from service by the Contractor, KCSTD must be notified and provided a reasonable time frame to uninstall the equipment or to have it uninstalled.

4.19 **RANDOM DRUG AND ALCOHOL TESTING:** All persons driving under this Contract and all persons performing Safety-Sensitive Functions (see Section 4.23) in relation to this Contract shall be included in a random drug and alcohol testing pool managed by the KCSTD. Although those persons are not employees of Knox County Schools, all testing shall be conducted in accordance with Knox County Board of Education Policy G-210. All persons providing services under this Contract are required to comply with the stipulations of that policy.

4.20 **REPORTING OF SERVICES:** The Contractor(s) shall submit a daily summary of provided services to the KCSTD through email. The summary shall be submitted on a Microsoft Excel formatted template provided by the KCSTD. A monthly invoice shall be submitted for services rendered in a format determined by the KCSTD.

4.21 **REQUIRED REPORTING:** The Contractor(s) shall inform the KCSTD of any and all civil or criminal violations or charges; accusations of sexual harassment, sexual assault, child abuse, or child endangerment; and traffic citations or moving violations for all drivers on the eligibility roster within 24 hours of their occurrence.

4.22 **ROUTING AND SCHEDULING:** KCSTD will determine the method and manner of the transportation services delivered under this Contract. This includes all routing determinations, locations at which students are served, the time at which students are picked up and dropped off, the order in which students are picked up and dropped off, the path traveled between pick up points, the configuration of the vehicle (consistent with the specifications laid out in this Contract), or any other parameters KCSTD deems necessary to the successful transport of students. At KCSTD's discretion, it may provide routes for the Contractor to run, work with the Contractor to establish routes, delegate to the Contractor the construction of routes, or any combination thereof.

4.23 **SAFETY-SENSITIVE FUNCTION:** Safety-sensitive functions include, but are not limited to:

- All time at a Contractor's terminal, facility, garage, parking location, or other property, or on any public property, waiting to be dispatched, unless the driver has been relieved from duty by the employer;
- All time inspecting equipment as required by all applicable Laws, Rules, and Regulations, requirements include herein this Contract, inspecting, servicing, or conditioning any motor vehicle at any time;
- All time spent at the driving controls of a motor vehicle in operation;
- All time spent providing services and performing pursuant to this Contract;
- All time repairing, obtaining assistance, or remaining in attendance upon a disabled vehicle.

The Contractor(s) and all of their employees or subcontractors performing safety-sensitive functions shall be included on the Driver Eligibility Roster. All individuals meeting criteria as a participant in a safety-sensitive function shall be included and participate in the alcohol and substance abuse program (see Section 4.19).

4.24 **STUDENT INTERACTION:** The vendor(s) must have effective policies in place regarding appropriate interaction between Contractor's employees and students and to train all employees regarding appropriate interaction with students. Contractor further agrees to provide to the Knox County Board of Education with copies of policies developed and documentation that these policies have been communicated to all employees upon request.

4.25 **STUDENT-ON-STUDENT HARASSMENT OR DISCRIMINATION:** Contractor agrees to inform the administration of the school(s) served and the KCSTD of any instances of student-on-student harassment or discrimination that occurs on the vehicle. If Contractor(s) fails to inform the administration of the school(s) served and the transportation office of any instances of student-on-student harassment or discrimination the vendor knew about, or should have known about, Contractor agrees to indemnify and defend the board and its agents and employees from any costs, losses, damages or judgments rendered against the board for such student-on-student harassment or discrimination. The Contractor(s) will be deemed to have known about student-on-student discrimination or harassment if vendor or vendor's employee observed such student-on-student discrimination or harassment.

4.26 **VIDEO CAMERA SYSTEMS:** The Knox County Schools Transportation Department may, at its discretion, install or have installed on each vehicle operated under this agreement a video camera system compatible with the camera system utilized by the KCSTD. Knox County Schools will have sole access to this system and any and all video captured by it by will be the property of Knox County Schools. Neither the Contractor nor their drivers shall at any time attempt to access this camera system or the video it captures. The Contractor shall ensure this equipment is functional and properly maintained.

Any damage to or degradation of the equipment shall be immediately reported to the Knox County Schools Transportation Department so that it may be repaired in a timely manner. Contractors will be responsible for the replacement cost of any lost or maliciously damaged camera equipment. Although this equipment will be installed on the Contractor's vehicle, it will remain the property of Knox County Schools. Before a vehicle is removed from service by the Contractor, KCSTD must be notified and provided a reasonable time frame to uninstall the equipment or to have it uninstalled.

SECTION V PROPOSAL FORMAT

The following guidelines should be followed when responding to the Request for Proposal. Negligence in adhering to the criteria listed below will be considered when reviewing the responses and evaluating the proposals. Knox County reserves the right to reject any proposal for failure to comply with the requested response specifications. The County reserves the right to amend the Request for Proposal by addendum prior to the final date of proposal submission. **PROPOSERS MUST HAVE THEIR BINDERS IN THE EXACT FORMAT LISTED BELOW.**

- Knox County requests proposals be in sufficient detail to address all requirements.
- The County requests responses be submitted in a three-ring binder containing sections separated by tabs. **Do not submit spiral bound or glued responses.**
- Please submit one (1) marked original and one (1) exact copy.
- Proposers shall also submit an exact copy of the original proposal on a Flash drive. **This shall be in one (1) complete pdf file. Do not include multiple folders on the Flash drive.**
- Page numbers should be placed on bottom center of pages.

TAB I **COVER LETTER**

Include cover letter authorizing the submission of the proposal signed by the principal of the company.

TAB II **COMPANY PROFILE**

Company Name, Address, Telephone Numbers and Email Addresses
Contact name(s) and information
Proposer's Vendor Number as assigned by Knox County
Knox County Business License (if applicable)
Employer Identification Number (EIN)
Brief History of Organization
Will you accept E-commerce for payment? Will you allow Cooperative Procurement?
Acknowledgement of the receipt of any Addendum issued

TAB III **AVAILABLE RESOURCES (35 POINTS)**

Proposers are to state the number of vehicles available for this service. Include a complete description of each of the vehicles associated with the delivery of services. Describe the Cellular Communications capabilities of each vehicle.

Proposers are to state the number of eligible drivers and submit a personnel roster and resumes of all key personnel who will be involved in the delivery of services under this Contract. Contractor must list each individual's full name, address and driver's license number. If awarded a contract, Contractor may be required to submit each individual's Social Security Number (SSN) to be used for background checks.

Describe how the organization handles staff absenteeism. Describe the organization's dress code policy.

TAB IV **QUALIFICATIONS & EXPERIENCE (25 POINTS)**

In narrative form, describe your organization's qualifications and experience in a manner that effectively demonstrates comprehensive understanding and willingness to comply with all of the requirements detailed in Section IV (Scope of Work) of this RFP. At a minimum, include:

- The number of years that your organization has been in business
- A description of your organization's post-accident testing procedures
- An overview of how your organization collects and maintains information for Driver Files
- A sample daily summary report
- A description of your organization's Student Interaction policies
- A description of your organization's Student-On-Student Harassment or Discrimination reporting procedure

TAB V **PROPOSED COSTS (40 POINTS)**

Contractor is to provide a pricing schematic based on a flat rate per travelled mile for distance between origination location and destination. Contractor must clearly state any charges for additional passengers. Contractor must clearly state any applicable minimum charges or any other charges for their proposed service. Use the template provided as Attachment A (Pricing).

Contractors may submit additional information detailing any alternative pricing schematics that may be utilized by Knox County Schools, but at a minimum, Contractors must submit pricing as requested per Attachment A.

NOTE: This tab will be reviewed after the other sections of the vendor's proposal have been reviewed and scored. Failure to submit pricing as requested per Attachment A may result in a vendor being deemed non-responsive.

TAB VI **OTHER INFORMATION**

Proposers may include any other information deemed pertinent to this solicitation.

TAB VII **EXCEPTIONS**

Please note any and all exceptions taken to any part this Request for Proposal. If none are taken, please clearly state so. Do not mark through or otherwise alter the language of this RFP in your response.

TAB VIII **ATTACHMENTS**

- References (Attachment B)
- Insurance Checklist (Attachment C)
- Criminal History Check Affidavit (Attachment D)
- Iran Divestment Act/ No Boycott of Israel (Attachment E)

EXHIBIT A
Sample Contract
Knox County Government
and
(Contractor Name)

This Contract, made and entered into by and between the Knox County Government, hereinafter referred to as the "County" and (Contractor Name) hereinafter referred to as "Contractor".

Whereas, the County requested proposals for School Transportation Services for Knox County Government and Knox County Schools (Request for Proposals #3655) and;

Whereas, Contractor submitted a proposal in accordance with said requested specifications, the response of which is the most responsible and responsive proposal meeting specifications accepted by the County;

Whereas, Contractor agrees and undertakes to provide said services for the County, as set forth in the Request for Proposal, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Request for Proposal specifications and the Contractor's proposal and response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;
Arises

Witnesseth:

1. Terms of this Contract. This Contract commences on the 1st day of July 2025 and ends upon the 30th day of June 2026 unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. The County intends to issue a two-year (2) award. Upon the mutual agreement of the vendor and the County, the award may be extended for three (3) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability with the vendor.

2. Payment. Contractor warrants that the pricing shall remain firm for the initial two (2) year period. At the end of the first two (2) year period, and pursuant to the renewal terms in Paragraph 1, the Contractor may request price increases for each subsequent renewal. Price increases will only be given at the renewal time and must remain in effect for the next one (1) year term. No price increases will be given during the term of a Contract. The County shall pay Contractor the amount as agreed upon in the County's Request for Proposal for School Transportation Services per the Contractor's response to Request for Proposal #3655 and negotiations; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County.

3. Invoicing and reporting requirements. Contractor shall invoice the County for School Transportation Services pursuant to Request for Proposal #3655.

TBA

4. Termination. The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

Should the Contractor fail to provide School Transportation Services detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was contacted. The Contractor shall rectify the problem within thirty (30) business days of notification of the problem. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least one hundred twenty (120) days' written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

SAMPLE

5. Appropriations. In the event no funds are appropriated by the County for the School Transportation Services in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the School Transportation Services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County.

10. This Contract shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient form.

11. Right to inspect. The County reserves the right to make periodic inspections of the manner and means the services are performed.

12. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin or any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. Contractor shall indemnify**,** defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees.

15. Delivery. Contractor shall render the School Transportation Services for the County in accordance with Request for Proposal #3655.

16. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages

SAMPLE

18. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

A. Request for Proposal #3655
B. Contractor's Response to Request for Proposal #3655

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year last written below.

Addendum I to RFP No. 3655
School Transportation Services

Addendum Date: **April 30, 2025**

Buyer: **Rachel Cabrera**

Closing Date: **May 8, 2025**

Pages: **Twenty-Two (22)**

The following is for clarification:

Question 1: Are the services requested primarily on an “on call” basis?

Answer 1: The bulk of services will be scheduled but call-in services will make up a significant minority of the total.

Question 2: Is this service for regular home to school fixed routes?

Answer 2: Yes.

Question 3: If fixed route service, please provide copies of current routes.

Answer 3: Routes will change between now and the initiation of service, the examples in the RFP give an idea of the types of service we’re looking for.

Question 4: Does the District prefer vehicles that are FMVSS compliant for home to school transportation services?

Answer 4: Yes.

Question 5: Please provide a copy of the Transportation Handbook referenced in 4.14

Answer 5: School Bus Handbook (The School Bus Handbook can be found on the left side of the Knox County Schools Transportation Department Page https://www.knoxschools.org/Page/17300.)

Question 6: Can the District provide a copy of the current fleet listing including year, make, model, seating capacity/configuration and number of lift required vehicles being used for this service?

Answer 6: No lift vehicles are currently being used for this service, but the district is interested in exploring that possibility. All vehicles must meet Knox County Schools Shuttle Specifications.

Question 7: Is there a minimum/maximum age criteria for vehicles?

Answer 7: No.

Question 8: Are current vehicles equipped with GPS by the District?

Answer 8: Yes.

Question 9: Are current vehicles equipped with radios by District?

Answer 9: Yes.

Question 10: Are current vehicles equipped with cameras by District?

Answer 10: Yes.

Question 11: Would the District prefer proposals to include GPS, radios and cameras?

Answer 11: No, all vehicles will be required to use district provided GPS, radios, and cameras.

Question 12: Please provide school bell times.

Answer 12: Elementary and some specialty programs: 7:45-2:45, Middle and High Schools and other special programs: 8:30-3:30, Specialty High Schools: 9:30-4:30

Question 13: Will the District accept proposals based on hours per day, and guaranteed number of days and vehicles?

Answer 13: The district is only interested in proposals utilizing a per mile cost.

Question 14: Please provide any wage/benefit information the district may have for current drivers.

Answer 14: All drivers are employees of private contractors; the district has no information about their wage and/or benefit packages.

Question 15: Do current contractors utilize a central facility for dispatch, vehicle parking and maintenance?

Answer 15: All those functions are contractor-specific and not governed or facilitated by the district.

Question 16: How many of the on-demand call-in trips has the district seen on average per month over the past year?

Answer 16: Approximately 20-30 per month, with more clustered at the start of the school year.

Question 17: What is the average mileage per trip?

Answer 17: It varies enough that an average per trip is not a descriptive number. Some trips are 3 miles long, others are 50 miles, depending on the needs of the district.

Question 18: Are we permitted to submit our standard driver qualifications along with a sample list of local drivers, with the understanding that the final list may be subject to change based on district demand?

Answer 18: Yes, but all drivers will be required to meet the requirements of the Knox County Schools Eligibility Roster. It is conceivable that drivers who meet your standard driver qualifications will also meet many of those necessary to be included on the Eligibility Roster, but the district will evaluate that on a case-by-case, driver-by-driver basis.

Question 19: What is the current per-mile rate being offered?

Answer 19: $2.15 per mile, $2.25 per mile, $2.50 per mile

Question 20: Which transportation provider(s) are they currently utilizing?

Answer 20: City Shuttle, RPM Transit, Inc., McConkey Transportation Inc.

Question 21: Do the current vendors have any type of minimum cost or initial cost associated with the rides or do they only charge the mileage rate per ride?

Answer 21: Each vendor has a minimum cost per rider, and RPM Transit charges an initial cost upon beginning a route.

Question 22: Would the District be open to considering bids from supplemental transportation solutions utilizing sedans and SUVs?

Answer 22: Yes.

Question 23: Can the District please allow for digital submission (e.g. by email or portal upload, or similar)?

Answer 23: No

Question 24: Can the District please allow the use of verified e-signatures for this submission?

Answer 24: Yes

Question 25: Can the district please confirm if this solicitation is open to small vehicle alternative transportation providers that utilize Sedans, SUVs and minivans to transport students?

Answer 25: Please see answer 22.

Question 26: Can the district please confirm how often the call-in services mentioned on p.11 have been utilized throughout the current school year?

Answer 26: Please see answer 16.

Question 27: Can the district please confirm what type of vehicles are currently being utilized to provide this type of transportation?

Answer 27: Primarily SUV's and minivans.

Question 28: Can the district please confirm their current provider and rates?

Answer 28: See Answer 19 and Answer 20.

Question 29: Can the district please provide their current vendor's cancellation fee and policy?

Answer 29: Our current vendors do not have cancellation fees or policies.

Question 30: Will the district allow for contract negotiations post RFP?

Answer 30: There are some provisions that are nonnegotiable. See Section 3.14 and 3.22.

Question 31: Can the district please clarify if they intend to award one or multiple providers as part of this RFP?

Answer 31: See Section 1.5.

Question 32: Is this RFP intended to supplement or replace existing contracts with current vendors?

Answer 32: This RFP is to replace existing contracts.

Question 33: Can the district please confirm if they intend 1 or multiple vendors? If multiple, can you please confirm how many?

Answer 33: See Section 1.5.

Question 34: Could the district share the historical Liquidated Damages that they've assessed to their current provider(s)?

Answer 34: It has not been necessary to assess Liquidated Damages during our current contract.

Question 35: Can the district please confirm if vendors are required to supply safety equipment such as vests or harnesses? If yes, how many students currently require this type of equipment?

Answer 35: The district will supply all necessary specialized student transportation equipment.

Question 36: Can the district please confirm what software they are using to manage their bus routing?

Answer 36: Edulog.

Question 37: Can the district please clarify if the intent of 4.16 Global Positioning System (p.12) is to integrate the awarded vendor's software and GPS system with their current GPS system for yellow buses? If awarded, we would provide the district with our tracking and scheduling software that includes GPS and allows district staff and caregivers/parents to track rides in real time.

Answer 37: Use of district-provided GPS, camera, and radio systems will be a requirement for working for the district. Any vendor unwilling to do so will be deemed non-responsive to the RFP.

Question 38: Would the district be open to a complete list of the drivers and vehicles following award and prior to start of service at a mutually agreed upon time?

Answer 38: The district is open to any drivers that meet the qualifications and stipulations for inclusion on the Knox County Schools Eligibility Roster and any vehicles that meet the Knox County Schools Shuttle Specifications.

Question 39: Currently, there is only 1 class per month AND a minimum of 3 people required before a class can be scheduled for potential new drivers. Is there a different process that has been developed that we can expect for the new contract period that will produce a more manageable timeline to help us provide service for the high demand and fluctuation of this contract?

Answer 39: The district will work with vendors to the greatest extent possible to expedite onboarding of new drivers.

Question 40: RFP states that all safety employees are to be listed on our roster for random drug screenings. What would the process be from your perspective if a mechanic or tech failed? Is there a moratorium on their return and what has to be completed for that person to return to service?

Answer 40: Violations of drug and alcohol testing policy will be handled on a case-by-case basis.

Question 41: Can you tell us for sure that the Board is requiring the 2mil umbrella going forward (or more) so we know how to adjust our pricing?

Answer 41: The district does not anticipate the insurance requirements changing but cannot categorically or unilaterally guarantee that for the life of the contract. The pricing should reflect the insurance requirements. If amendments to a contract are desired, both parties would need to agree to those amendments.

Question 42: Please clarify if you would like 1 original printed proposal, 1 exact printed copy of the proposal, and 1 exact copy on USB, or is 1 original print and 1 exact copy via USB sufficient?

Answer 42: Please submit one (1) original hard copy, one (1) exact copy and a USB with one PDF file on the proposal.

Question 43: Per Pg. 10, section 4.1 regarding daily vehicle mileage between 50-150 miles per vehicle, can the district please provide the average mileage per one way route?

Answer 43: See answer 17.

Question 44: Who is the current Vendor(s)?

Answer 44: See answer 20.

Question 45: What is the current vendor(s) rates?

Answer 45: See answer 19.

Question 46: Are there any service-related items that the district is trying to address/improve with this RFP?

Answer 46: Not specifically, no.

Question 47: Is it required for bidders to provide call-in service?

Answer 47: Any vendor unwilling to provide call-in service should specify that in their response in Section V behind Tab VII.

Question 48: How will participation in the call-in service be valued/weighted in regard to proposal evaluations?

Answer 48: The district is interested in working with vendors who can offer unexpected or emergency service with little notice. While not offering this type of service is not disqualifying, it will be a part of a vendor's evaluation.

Question 49: Section 4.19 - Random Drug and Alcohol Testing- Who is responsible for the costs associated with enrollment in the testing program managed by the KCSTD?

Answer 49: There is no cost for enrollment into the KCSTD testing program, it is a requirement for working with the district.

Question 50: Section 4.19 - Random Drug and Alcohol Testing- Who is responsible for the costs associated with the tests performed by the testing program managed by the KCSTD?

Answer 50: Vendors are responsible for pre-employment testing, KCSTD will pay for random and post-accident testing.

Question 51: What's the minimum number of routes you will award? Will it be 40 routes to one vendor?

Answer 51: See Section 3.33.

Question 52: Does the district provide a facility?

Answer 52: No.

Question 53: Who performs routing duties currently?

Answer 53: KCSTD.

Question 54: What software is used for routing?

Answer 54: Edulog.

Question 55: Will you use your GPS or the vendors? If it's the district uses their GPS, what system do you use?

Answer 55: District GPS units will be used, made by Zonar.

Question 56: Will the district use its cameras or the vendors? If the district uses theirs, what camera system do you use?

Answer 56: District cameras will be used, made by REI.

Question 57: Will the district use its radios or the vendors?

Answer 57: District radios will be used, made by Motorola.

Question 58: If the district provides the three options above, will you let us propose our technology?

Answer 58: No.

Question 59: What is the estimated volume of extracurricular trips (Athletic and Field trips) for the school year? Include: number of trips, hours and miles billed, total cost for the year

Answer 59: Extracurricular trips are booked directly with schools/groups and not through KCSTD – those trips are not a part of this RFP.

Question 60: What are the estimated summer School transportation needs? Include: number of routes and number of days operated

Answer 60: This solicitation will not go into effect until summer programming for 2025 will already have ended. Summer programming for 2026 is yet to be determined.

Question 61: Are you currently experiencing a driver shortage?

Answer 61: Yes.

Question 62: How many monitors are required?

Answer 62: Monitors are district-provided and the number fluctuates.

Question 63: Will you provide the starting rate and wage range, and salary range for drivers, monitors, and mechanics?

Answer 63: All transportation provided to Knox County Schools is contracted. Wages and salaries vary by contractor and are not the purview of the district.

Question 64: Please provide a complete list of all routes with start and end times and/or driver hours for the day and mileage. The list should include: Route type (Regular or Special Needs), Midday Shuttles (how many and times), vehicle size, aide or monitor required, special equipment needed (Wheelchair lift, Air Conditioning, Star-Seat)

Answer 64: Routes have not yet been determined for the coming year.

Question 65: How many school days?

Answer 65: 177

Question 66: Can we propose a daily route cost instead of a per-mile cost?

Answer 66: See answer 13.

Question 67: When will you award?

Answer 67: As expeditiously as possible.

Question 68: When will the contract start?

Answer 68: The County cannot guarantee an exact start date.

Question 69: Page 23, Contract, No. 1 states that the initial term will be from July 1, 2025 to June 30, 2026. However, that same provision states that County intends to issue a 2-year contract and Page 6, Section 3.5 also states the contract will be for two years. Can the district please clarify?

Answer 69: Page 23 is a Sample Contract. Per Section 3.5 the Contract will be two (2) years with the option to renew upon mutual consent of both parties for three (3) additional one (1) year options. The Contract could be extended for a possible total of five (5) years.

The following questions were answered using the additional information attached:

Question 70: Can the district please provide historical and/or estimated information on the following:

- Average number of riders per vehicle per one-way trip
- Number of one-way trips per month
- Average mileage per one-way trip
- Total trip mileage per month

Answer 70: Please see Additional Information-Attachment A Sample Invoice and Attachment B Previous Invoices.

Question 71: Per Pg. 13, section 4.20, please elaborate and provide an example of what a daily summary of provided services report would entail.

Answer 71: Please see Additional Information- Attachment A Sample Invoice.

Question 72: Please provide a 3-month of actual billing invoices demonstrating how the contract rates are applied.

Answer 72: Please see Additional Information- Attachment B Previous Invoices.
End of Addendum I

Note: Addendum must be acknowledged in Section V Tab II of the proposal.

Rachel Cabrera
Senior Buyer, Knox County Procurement

SCU Bus Lines will not accept Cooperative Procurement

Since its inception in 2015, SCU Bus Lines, LLC has made remarkable strides in the transportation sector, particularly within Knox County Schools. Beginning with just two school bus routes, the company has grown exponentially, expanding its fleet to encompass over 52 vehicles. This growth is not merely a reflection of increased service demand but also a testament to SCU Bus Lines' unwavering commitment to safety, quality service, and customer satisfaction.

One of the key aspects that set SCU Bus Lines apart is its strict focus on safety. The company understands that transporting students and passengers comes with significant responsibility. Hence, it maintains a clean and well-monitored facility, ensuring that all vehicles are regularly inspected and maintained. This careful attention to detail helps guarantee that every trip is safe and reliable, alleviating concerns for parents and guardians entrusting their children to the company.

Furthermore, SCU Bus Lines serves a diverse clientele beyond just school transportation. The company extends its services to include event transportation, such as weddings, airport pickups, and local activities. This variety not only showcases the versatility of SCU's fleet but also reflects its intent to cater to the community's broader transportation needs. Whether it's transporting students to school or helping a couple celebrate their special day, SCU Bus Lines is dedicated to providing an excellent experience to all its passengers.

As of the 2024-2025 school year, SCU Bus Lines has proudly logged over a million miles of service, navigating through all areas of Anderson County and Knox County, from the Tri-Cities to Nashville. This extensive coverage emphasizes the company's commitment to connecting communities and ensuring accessibility for all residents. By prioritizing its service areas and understanding the need for efficient transportation, SCU Bus Lines positions itself as an integral part of the regional infrastructure.

Ultimately, SCU Bus Lines, LLC aims to be a leader in the transportation industry. With dedicated personnel who work tirelessly to meet customer needs and an ongoing commitment to excellence, the company continues to pave the way for innovative and reliable transport solutions. Whether it is in providing safe rides for students or facilitating events for the community, SCU Bus Lines exemplifies what it means to prioritize service, safety, and quality in transportation. As the company continues to grow, its foundational values of excellence and commitment will undoubtedly guide its future successes.

SCU Bus Lines, LLC Fleet of 1-13 passenger vehicles:

(2) 2020 Ford Transit 13 passengers

(4) 2024 Nissan Altima 4-6 passengers

Willing to process/purchase more vehicles upon the need of the contract 2020 or newer.

Each Driver will be equipped with a monitored two-way radio with Metro Communications and a cellular type of device for emergency contact.

SCU Bus Lines LLC maintains a strict zero tolerance policy regarding absenteeism. According to our policy handbook, the disciplinary process is as follows: the first instance of absenteeism results in a verbal warning, the second instance leads to a written warning, and the third instance may result in termination.

We have several local drivers who are on call 24/7. In the event a driver is delayed due to illness, weather conditions, or any other reason, our approved Knox County drivers are prepared to step in.

All drivers are required to adhere to the guidelines outlined in the Knox County School Bus Drivers Handbook Dress Code.

Personnel who will be involved directly with this contract.

Daily Summary Report

Our dedicated staff operates 24/7 to respond to phone calls, emails, and text messages, ensuring seamless service. We have three drivers on call around the clock, enabling continuous movement throughout our weekend schedules. During weekdays, we manage 36 school bus routes, with workdays beginning at 5:30 AM and often extending until 6:00 PM. Throughout the day, we facilitate between 2 to 30 school trips alongside our regular routes.

Our team is strategically positioned during these routes to address emergencies, respond to radio communications, handle emails, and manage inquiries or complaints from parents and Knox County Transportation. Between 8 AM and 5 PM, our daytime staff focuses on vehicle maintenance, thorough cleaning, and daily operational activities.

Chad Hyatt supervises garage operations, overseeing cleaning and preventive maintenance, while Stephen Underwood is primarily responsible for dispatching and coordinating the drivers' schedules for both the week and the month.

During transportation hours for Anderson and Knox County schools, our staff remains fully prepared to tackle any challenges that may arise, fostering an "all hands on deck" environment. We consistently have drivers on standby to respond to mechanical issues or provide assistance when needed. The last school bus typically returns around 6:00 PM.

Transportation is a vital part of a student's day, especially for those attending schools that are not within walking distance. SCU Bus Lines, LLC plays a crucial role in this aspect by transporting an average of 1,800 students each school day. This company is not only responsible for getting students to and from school safely but also for providing services for various trips, charters, and events. Their commitment to skill and professionalism makes them a trusted partner in the educational community.

One of the key strengths of SCU Bus Lines is its focus on safety. Every day, countless parents rely on the assurance that their children will arrive at school and return home safely. SCU Bus Lines employs experienced drivers who are trained to navigate busy roads and handle unexpected situations with calmness and efficiency. Regular vehicle maintenance checks ensure that all vehicles are in top condition, minimizing the risk of mechanical failures. Such dedication to safety is not merely a requirement; it is a core value of the company.

In addition to safety, SCU Bus Lines prides itself on professionalism. From the moment students step onto the bus, they are greeted by drivers who foster a respectful and welcoming environment. This professionalism extends beyond the bus drivers and involves all staff members, from the administrative team to the maintenance crew. Each individual contributes to the overall experience by ensuring that services run smoothly and that any concerns are promptly addressed.

SCU Bus Lines offers transportation services for school-related trips and special events. Whether it's a field trip to a museum or a sports event, the company understands the importance of these outings in a student's educational journey. By providing efficient and reliable transportation for these occasions, SCU Bus Lines enriches the students' learning experiences outside the classroom.

SCU Bus Lines, LLC is more than just a bus service; it is a vital partner in the education of nearly 1,800 students every school day. Through their unwavering commitment to safety, professionalism, and service, they ensure that students can rely on them not only to reach their destinations but also to support their growth and learning. The role that SCU Bus Lines plays in the community goes beyond transportation—it contributes to creating a positive and supportive environment for students.

POST-ACCIDENT TESTING PROCEDURES

1. **Ensure Safety:**

- First and foremost, make sure the scene is safe. If needed, move to a safe location away from traffic or hazards.

2. **Check for Injuries:**

- Assess yourself and others for injuries. If someone is injured, call for medical assistance immediately.

3. **Call Emergency Services:**

- If necessary, contact emergency services (e.g., police, ambulance) to report the accident and request help.

4. **Exchange Information:**

- If it's a vehicle accident, exchange information with the other parties involved, including names, contact numbers, insurance information, and vehicle details.

5. **Document the Scene:**

- Take pictures of the scene, the vehicles involved, and any damages. Document the time, date, and conditions (weather, road conditions, etc.).

6. **Do Not Admit Fault:**

- Avoid discussing fault or liability at the scene. Simply provide facts to the authorities.

7. **File a Police Report:**

- Depending on the severity of the accident, you may need to file a police report. This is often required for insurance claims.

8. **Notify Your Insurance Company:**

- Report the accident to your insurance provider as soon as possible, providing them with all necessary documentation and details.

9. **Keep Records:**

- Maintain all records and documentation related to the accident, including medical records, repair bills, and correspondence with your insurance company.

10. **Follow-Up:**

- Stay in touch with your healthcare provider if you have ongoing medical issues and follow any recommended treatment plans.

SCU Bus Lines has been a contractor for Knox County Schools for the past 10 years, having started in 2015. Since then, SCU Bus has expanded its fleet to over 46 school buses serving the Anderson County and Knox County areas, along with a sister company operating 9 motor coaches.

SCU Bus Lines has a well-experienced dispatch office, an up-to-date garage facility, and all buses, cars, and vans undergo regular inspections. We have also added local 1-15 passenger vehicles to accommodate movements requiring a smaller number of passengers.

All drivers adhere to the SCU Bus Lines Driver Policy and Handbook. We maintain driver files in compliance with FMCSA requirements and Knox County Transportation standards, conducting annual MVR checks and drug tests for new hires as well as random testing throughout their employment. Every driver is required to complete training with Knox County Transportation and must abide by all guidelines set forth in Knox County's handbook.

We strive to ensure positive interactions with students, greeting them with a smile as they board and disembark. Drivers will follow Student Interaction policies in Knox County School Bus drivers Handbook. Any incidents of harassment or discrimination, whether fault-related or not, will be reported immediately to school administration, Knox County Transportation, and SCU Bus Lines personnel. In the event of an accident involving a student on board, the first call will be made to 911, followed by notifying Knox County Transportation and SCU Bus Lines.

If a driver is found at fault in an incident a drug and alcohol test, driver will be required to undergo testing before returning to duty.

Pricing Schematics

Scenario 1:

Route A: 3528 Laurel View Rd to Whittle Springs Middle School (1 student)
1.8 miles x $3.00(per mile) + $60.00 (Minimum) =$65.40

Route B: 1219 Pilleaux Dr. Powell Elementary School (1 student)
1219 Pilleaux Dr. to Powell Middle School (1 student)
8.2 miles x $3.00(per mile) + $15.00 (1 extra student) + $60.00 (minimum) =$99.60

Route C: 2544 Byington Solway Rd to West High School (2 students)
11.7 miles x $3.00(per mile) +$15.00 (1 extra student) + $60.00 (minimum) =$110.10

Total Scenario 1: $279.47

Scenario 2:

Route A:
9314 Smoky Row Rd (1 student)
1119 Andrew Johnson Highway (1 student)
3308 Mine Rd (1 student)
6210 Cardwell Rd (1 student)
Gibbs Middle School
17.5 miles x $3.00 (per mile) + $45.00 (3 extra students) + $60.00 (minimum) = $157.50

Scenario 3
Farragut High School to Goodwill Industries, 5412 Pleasant Ridge (2 students)
17.2 miles x $3.00 (per mile) + $15.00 (1 extra student) + $60.00 (minimum) =$126.60

Scenario 4:
103 Ithaca Lane Oak Ridge TN to Cedar Bluff Elementary School (1student)
14.7 miles x $3.00 (per mile) + $60.00 (minimum) =$104.10

SCU Bus Lines, LLC has diligently worked to establish itself as one of the premier transportation contractors in Knox County. As a testament to our commitment to exceptional service, we have expanded our reach to Anderson County and received the Small Business "Above and Beyond" award from the City of Knoxville in 2024. Our team is dedicated to ensuring safe passenger transport in a clean environment, while maintaining a level of professionalism that exceeds everyday expectations.

At SCU Bus Lines, LLC, we possess the skills and experience necessary for the daily transportation of passengers. Our in-house maintenance and cleaning teams, along with our dedicated office staff, are fully prepared to manage the daily tasks associated with transportation.

WHEREAS, Knox County Schools desires to have a contractor provide stage curtains and rigging services; and

WHEREAS, the Knox County Procurement Division conducted a competitive bid process for this purpose and it has been determined that School and Office Supply submitted the bid that is most responsible and responsive and best conforms to the specifications and needs of Knox County and the Knox County Schools; and

WHEREAS, the proposed contract with School and Office Supply is effective for a one (1) year term beginning on November 1, 2025 and may be extended for four (4) additional years, one (1) year at a time, which may result in a total of five (5) years; and

WHEREAS, at its regularly scheduled meeting on July 10, 2025, the Knox County Board of Education approved the contract with School and Office Supply for the provision of stage curtains and rigging services up to $125,000.00 annually.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The contract with School and Office Supply for the provision of stage curtains and rigging services is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the contract with School and Office Supply for the provision of stage curtains and rigging services shall be executed subject to such amendment or action not affecting the substantive provisions of the contracts as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

KNOX COUNTY GOVERNMENT

AND

SCHOOL AND OFFICE SUPPLY

This Contract made and entered into this _____ day of _____, 2025 by and between **Knox County Government** through its governing body and authorized representative, hereinafter referred to as "**Knox County" and School and Office Supply** hereinafter referred to as **"Contractor."**

Whereas, County requested sealed bids for the provision of Stage Curtains and Rigging Services for Knox County Government, (Invitation for Bid 3653);

Whereas, Contractor submitted a Bid in accordance with said requested specifications, the response of which is the most responsible and responsive bid meeting specifications accepted by Knox County;

Whereas, Contractor agrees and undertakes to provide Stage Curtains and Rigging Services to Knox County, as set forth in the Invitation for Bid, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the Knox County Government, the Contractor agrees in all respects, to be governed by the Invitation for Bid specifications and the Contractor's response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this contract to set forth their respective rights and obligations and do mutually agree that;

Witnesseth:

1. Terms of this contract. This contract commences on the 1st day of November 1, 2025 and ends the 31st day of October 2026, unless terminated in conformity with the terms of this contract as contained in paragraphs 7 and 8. Upon the mutual agreement of Knox County and the Contractor, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years.

2. Payment. Knox County shall pay Contractor the amount as agreed upon in Knox County's Invitation for Bid 3653 for Stage Curtains and Rigging Services as follows:

See Attachment "B" Contractor's Written Response to Invitation for Bid 3653

pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed.

3. **Placement of Orders.** Knox County departments and agencies will place orders with the Knox County Procurement Division. Knox County Procurement will issue purchase orders to the Contractor. Only purchase orders issued by Knox County Procurement shall be honored.

4. **Invoicing and reporting requirements.** Contractor shall invoice Knox County upon the successful completion of all aspects of a particular job. Contractor is hereby cautioned that it can take a minimum of 30 days to process invoices.

As several different departments may use this contract, please adhere to the following guidelines:

For KCSMO mail all invoices to:

Knox County Schools Maintenance & Operations
Purchasing Supervisor
900 East Fifth Avenue
Knoxville, Tennessee 37917

For Knox County Departments mail all invoices to:

The address listed on the Purchase Order for the ordering department.

5. **Pricing and Escalation.** Contractor warrants that the unit pricing stated in Attachment "B" shall remain firm for a period of one (1) year from the first day of the contract period. If the Contractors price is increased after the first year, Knox County must give written approval before the increase shall become effective. Requests for price adjustments must be submitted at least sixty (60) days in advance of the date the price increase is requested. Justification for the requested adjustment (costs of labor and/or materials) must be accompanied by appropriate documentation.

6. **Safety.** The successful vendor shall exercise all safety measures associated with the services to be performed under this contract and hereby warrants that all employees working under this contract have been trained in the proper and safe practices of Stage Curtains and Rigging Services and related duties.

7. **Termination.** Knox County may terminate this contract with or without cause, upon written notice of not less than thirty calendar days. Upon termination, County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed written permission of Knox County. The agencies utilizing this Contract may also terminate their individual participation by written notice.

Should the Contractor fail to provide Stage Curtains and Rigging Services as detailed herein, Knox County will communicate the **problem(s) to the Contractor** verbally and keep a written record as to what the problem(s) are and when the contractor was contacted. **The Contractor shall have 72 hours** to rectify the problems. If the same or other problems persist or reoccur, Knox County may terminate the contract.

In the event Contractor intends to interrupt or discontinue service under this contract, Contractor agrees to give Knox County 90 day advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance or service without said advance written notice shall constitute a material breach of this contract.

8. Appropriations. In the event no funds are appropriated by Knox County for Stage Curtains and Rigging Services in any fiscal year or insufficient funds exist to provide the services, then the contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no obligations owed to or by either party.

9. Independent contractor. Contractor and Contractor's employees shall serve as independent contractors and County shall not be in any manner responsible for any payment, insurance, or incurred liability.

10. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of Stage Curtains and Rigging Services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

11. Criminal background check. Contractor agrees to comply with Tennessee Code Annotated Section 49-5-413. As required under the statute, Contractor will provide fingerprinting and criminal history records checks, conducted by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation, for all employees, subcontractor personnel and students that will enter the grounds of any of the schools (previously defined as premises) in performance of the Services in this contact before permitting the employee, subcontractor personnel or student to have contact with students or enter school grounds when students are present. Criminal background checks are the expense of the Contractor. If the employee or subcontractor personnel has previously had a criminal history check in accordance with Tennessee Code Annotated Section 49-5-413, Contractor shall provide a copy of the criminal background check to the Knox County and this will serve as compliance with said requirement.

12. Severability clause. If any provision of this contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

13. Prohibition against assignment. Contractor shall not assign this contract to any party, company, partnership, incorporation, or person without prior specific written consent of Knox County.

14. Jurisdiction. This Contract shall be governed by the laws of the State of Tennessee both as to interpretation and performance. The Chancery Court and/or the Circuit Court of Knox County, Tennessee, shall have exclusive and concurrent jurisdiction of any disputes, which arise hereunder.

15. Right to inspect. Knox County reserves the right to make periodic inspections of the manner and means the services are performed.

16. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex or national origin, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this contract, or in the employment practices of Contractor. Contractor shall upon request show proof of such non-discrimination, and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

17. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this contract and make such materials available at their offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under the contract for inspection by Knox County or by any other governmental entity or agency participating in the funding of this contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that **represent the Contractor's costs** of manufacturing, acquiring or delivering the products and services governed by this contract.

18. Limitations of liability. In no event shall Knox County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

19. Contractor shall indemnify, defend, save and hold harmless, Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the **contract by Contractor**, its subcontractors, agents or employees or due to any negligent act or occurrence or omission or **commission of Contractor**, its subcontractors, agent, or employees.

20. Delivery. Contractor shall render Stage Curtains and Rigging Services for Knox County in accordance with the **Contractor's** schedule and coordinated with Knox County or its designee.

21. Contract documents. It is mutually agreed by both parties that the following documents are made part of this contract and are incorporated herein by reference:

a. Invitation for Bid 3653
b. Contractor's Written Response to Invitation for Bid 3653

It is agreed that this contract, represents the **entire contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this contract to be executed on the day and year first above written.

KNOX COUNTY BOARD OF EDUCATION

Invitation for Bid #3653

Stage Curtains and Rigging Services

The Procurement Division of Knox County, Tennessee will receive sealed bids for the provision of **Stage Curtains and Rigging Services** as specified herein. Bids must be received by 2:00 p.m. on **May 14, 2025**. Late bids will be neither considered nor returned.

Please Deliver Bids to:

Bid Number 3653
Knox County Procurement Division
Suite 100, 1000 North Central Street
Knoxville, Tennessee 37917

The Bid Envelope must show the Company Name, Bid Number, Bid Name and Bid Opening Date.

SECTION I GENERAL TERMS AND CONDITIONS

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information routed to Donnie Fawver, CPPB, at 865.215.5756. Questions may be emailed to donnie.fawver@knoxcounty.org. If you have not heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division may be obtained on the Internet at www.knoxcounty.org/procurement.

1.2 **ACCEPTANCE:** Vendors shall hold their price firm and subject to acceptance by Knox County for a period of sixty (60) business days from the date of the bid opening, unless otherwise indicated in their bid.

1.3 **ALTERNATIVE BIDS:** Knox County will not accept alternate bids (those not equal to specifications) unless authorized by the Invitation for Bid.

1.4 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste or abuse, please call 1.866.858.4443 (toll-free). You can also file a report online by accessing http://www.knoxcounty.org/hotline/index.php.

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.5 **AWARD:** Award will be made to the most responsive, responsible bidder(s) meeting specifications, who presents the product or service that is in the best interest of Knox County. Knox County reserves the right to award this bid on, an "all or none" basis, or by a multiple award, whichever is in the best interest of the County. Knox County reserves the right to not make an award.

1.6 **BID DELIVERY:** Knox County requires bidders, when hand delivering bids, to time and date stamp the envelope before depositing it in the bid box. Knox County will not be responsible for any lost or misdirected mail sent by common carrier. Knox County will not be responsible for bids delivered to other addresses other than the one listed at the top of this solicitation. The time clock in the Procurement Division shall serve as the official record of time. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register electronically less than twenty-four (24) hour prior to the bid opening time.

Solicitations must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.7 **BID EXPENSES:** Expenses for developing the bids are entirely the responsibility of the bidder and shall not be chargeable in any manner to Knox County.

1.8 **BIDS REQUESTED ON BRANDS OR EQUAL:** Unit price bids are requested on products that equal or exceed the quality and performance of the brands and model numbers listed. References to brand names, trade names, model numbers or other descriptions peculiar to specific brand products are made to establish a required level of quality and functional capabilities and are not intended to exclude other products of that level. Comparable products of other manufacturers will be considered if proof of comparability is contained in their bid.

Or Equal does not mean the manufacturing process, but rather that the item will perform in the manner needed by the County. It shall be the responsibility of the bidders, including bidders whose product is referenced, to furnish with their bid such specifications, catalog pages, brochures or other data as will provide an adequate basis for determining the quality and functional capabilities of the product offered. Failure to provide this data may be considered valid justification for rejection of their bid.

1.9 **BUSINESS OUTREACH PROGRAM:** Knox County has established a Business Outreach Program, which has the responsibility of increasing opportunity for small, minority and women owned businesses. This is being accomplished through community education programs, policy edification, active recruitment of interested businesses and process re-engineering. Knox County is committed to ensuring full and equitable participation for all disadvantaged businesses. Knox County welcomes submittals from those disadvantaged businesses that have an interest in providing goods and/or services listed herein. In addition, Knox County strongly encourages the inclusion of disadvantaged businesses by non-disadvantaged Contractors who may wish to partner or subcontract portions of this agreement in order to accomplish the successful delivery of goods and/or services.
If you are a small, minority or woman owned business and would like additional information about our Business Outreach Program please contact:

Diane Woods, Business Outreach Administrator
Knox County Procurement
Telephone: 865.215.5760
Fax: 865.215.5778
Email: diane.woods@knoxcounty.org

1.10 **CONFLICT OF INTEREST:** Vendors must have read and complied with the "Non-Conflict of Interest" statement provided in the vendor registration process prior to the opening of this solicitation.

1.11 **DECLARATIVE STATEMENTS:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the bid being non-responsive and disqualified.

1.12 **DUPLICATE COPIES:** Knox County **requires** that bids being submitted by hand be one (1) marked original and one (1) exact copy.

1.13 **ELECTRONIC TRANSMISSION OF BIDS:** Knox County's Procurement Division **will** accept, and strongly encourages, electronically transmitted bids through the County's On-Line Purchasing System. Facsimile and email submission are strictly prohibited.

1.14 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys". The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of purchase orders, on-line retrieval and submittal of quotes, bids and proposals for our vendor-clients and on-line requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations we need your help. When doing business with Knox County we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our on-line Procurement system, "KnoxBuys", if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions please contact the Procurement Division Representative listed in Section 1.1 of this document.

1.15 **MULTIPLE BIDS:** Knox County will consider multiple bids that meet specifications.

1.16 **NON-COLLUSION:** Vendors, by submitting a signed bid or proposal, certify that the accompanying bid or proposal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under Tennessee or United States law.

1.17 **PAYMENT METHOD:** Knox County utilizes two (2) methods of placing orders for products. The first is the use of Purchase Orders. These Purchase Orders will be issued from Knox County Procurement Division via the method selected by the vendor during registration. The Purchase Order will detail the quantity, specific items(s) and the contracted price for each item.

The second method is the use of the Knox County Credit Card (VISA). Orders placed with the credit card will list the same information as the Purchase Order. Vendors will be given the card information and approval to process the transactions by the requesting department. Vendors must indicate in their bid response if the vendor will accept the Knox County Credit Card (VISA) as a form of payment. Bidders are prohibited to charge Knox County any type of merchant fee from their financial institution to accept this type of payment.

1.18 **POSSESSION OF WEAPONS:** All vendors and their employees and their agents are prohibited from possessing any weapons on Knox County property without prior written consent from the County. In the case of a vendor whose Contract requires possession of firearms or other weapons to successfully complete their Contract, vendor must provide personnel who are bonded to bear said weaponry.

1.19 **PROCESSING TIME FOR PAYMENT:** Vendors are advised that a minimum of thirty (30) calendar days is required to process invoices for payment.

1.20 **PROOF OF FINANCIAL AND BUSINESS CAPABILITY:** Bidders must, upon request, furnish satisfactory evidence of their ability to furnish products or services in accordance with the terms and conditions of these specifications. Knox County will make the final determination as to the bidder's ability.

1.21 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, requests that bids submitted on paper shall:

- Be submitted on recycled paper;
- Not include pages of unnecessary advertising;
- Be made on both sides of each sheet of paper.

1.22 **RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS:** It is the responsibility of the prospective bidder to review the entire Invitation for Bid packet and to notify the Procurement Division if the specifications are formulated in a manner that would unnecessarily restrict competition. Any such protest or question regarding the specifications or bidding procedures must be received in the Procurement Division by **May 2, 2025 by 4:30 p.m. local time.** These requirements also apply to specifications that are ambiguous.

1.23 **SIGNING OF BIDS:** When submitting your bid, in order to be considered all bids must be signed. Please sign the original in blue ink. When submitting electronically, the submission of the bid constitutes the acceptance of all terms and conditions and will legally bind the Vendor to the County's request for goods and/or services and the Vendors subsequent response.

1.24 **TAXES:** Knox County purchases are not subject to taxation. Tax exemption certificates will be provided upon request.

1.25 **TERM BID AGREEMENTS:** If this bid results in a term bid Contract with the vendor, Knox County must receive all general price decreases that other similar customers receive.

1.26 **TITLE VI OF THE 1964 CIVIL RIGHTS ACT AND TITLE IX OF THE EDUCATIONAL AMENDMENT OF 1972:** "Nondiscrimination on Federally Assisted Programs" — "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. section 2000d. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI and Title IX.

1.27 **USE OF BID FORMS:** Vendors must complete the bid forms contained in the bid package. Failure to complete the bid forms may result in bid rejection.

1.28 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regards to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.29 **VENDOR DEFAULT:** Knox County reserves the right, in case of vendor default, to procure the articles or services from other sources and hold the defaulting vendor responsible for any excess costs occasioned thereby. Should vendor default be due to a failure to perform or because of a request for a price increase, Knox County reserves the right to remove the vendor from the County's bidders' list for twenty-four (24) months.

1.30 **VENDOR REGISTRATION:** Prior to the opening of this bid, ***ALL BIDDERS*** must be registered with the Procurement Division. A vendor application may be submitted online at www.knoxcounty.org/Procurement. Select the Vendor Registration link and complete the forms. Vendors must be registered with the Procurement Division **prior** to submitting their bid. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register or submit their bid less than twenty-four (24) hours prior to the bid opening time.

1.31 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II OBLIGATIONS, RIGHTS AND REMEDIES

These terms and conditions shall be part of the Contract. Knox County reserves the right to negotiate other terms and conditions it deems appropriate and necessary under the circumstances to protect the public's trust.

2.1 **ALTERATIONS OR AMENDMENTS:** No alterations, amendments, changes, modifications or additions to this Contract shall be binding on Knox County without the prior written approval of the County.

2.2 **APPROPRIATION:** In the event no funds are appropriated by Knox County for the goods or services in any fiscal year or insufficient funds exist to purchase the goods or services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

2.3 **ASSIGNMENT:** Contractor shall not assign or sub-contract this agreement, its obligations or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County.

2.4 **BOOKS AND RECORDS:** Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract and make such materials available at its offices at all reasonable times during the Contract period and for five (5) years from the date of the final payment under this agreement for inspection by Knox County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this agreement.

2.5 **CHILD LABOR:** Contractor agrees that no products or services will be provided or performed under this Contract which have been manufactured or assembled by child labor.

2.6 **COMPLIANCE WITH ALL LAWS:** Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of goods and/or services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits. All Contractors must be properly licensed by the State of Tennessee and all other authorities having jurisdiction. ***COPIES OF ALL SUCH LICENSES AND/OR PERMITS ARE TO BE SUBMITTED WITH THE BID. FAILURE TO SUBMIT COPIES OF SUCH MAY LEAD TO BID REJECTION.***

2.7 **CRIMINAL HISTORY CHECK:** Any and all contractors, sub-contractors, successful vendors, vendor employees and school employees agree to comply with Tennessee Code Annotated Section 49-5-413. Tennessee Code Annotated Section 49-5-413 requires that all parties providing services at Knox County Schools must submit to a criminal history records check at their expense. The criminal history check is to be conducted by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation prior to permitting the party to have contact with students or enter school grounds when students are present.

2.8 **DEFAULT:** If Contractor fails to perform or comply with any provision of this Contract or the terms or conditions of any documents referenced and made a part hereof, Knox County may terminate this Contract, in whole or in part, and may consider such failure or noncompliance a breach of Contract. Knox County expressly retains all rights and remedies provided by law in case of such breach, and no action by Knox County shall constitute a waiver of any such rights or remedies. In the event of termination for default, Knox County reserves the right to purchase its requirements elsewhere, with or without competitive bidding.

2.9 **GOVERNING LAW; VENUE:** This agreement shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum..

2.10 **INCORPORATION:** All specifications, drawings, technical information, Invitation for Bid, Bid, Award and similar items referred to or attached or which are the basis for this Contract are deemed incorporated by reference as if set out fully herein.

2.11 **INDEMNIFICATION/HOLD HARMLESS:** Contractor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the agreement by Contractor, its subcontractors, suppliers, agents, or employees or due to any negligent act or occurrence or any omission or commission of Contractor, its subcontractors, suppliers, agents or employees.

2.12 **INDEPENDENT CONTRACTOR:** Contractor shall acknowledge that it and its employees serve as independent Contractors and that Knox County shall not be responsible for any payment, insurance or incurred liability.

2.13 **INSPECTION AND ACCEPTANCE:** Warranty periods shall not commence until Knox County inspects and formally accepts the goods and/or services. The terms, conditions and timing of acceptance shall be determined by Knox County. Knox County reserves the right to reject any or all items or services not in conformance with applicable specifications, and Contractor assumes the costs associated with such nonconformance. Acceptance of goods or services does not constitute a waiver of latent or hidden defects or defects not readily detectable by a reasonable person under the circumstances.

2.14 **IRAN DIVESTMENT ACT:** By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each bidder is not on the list created pursuant to Tennessee Code Annotated § 12-12-106.

2.15 **LIMITATION OF LIABILITY:** In no event shall Knox County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

2.16 **NO BOYCOTT OF ISRAEL:** Pursuant to Tennessee Code Annotated Title 12, Chapter 4, Part 1, by submission of a response to this solicitation, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint response each party thereto as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each person is not currently engaged in, and will not for the duration of the contract engage in, a boycott of Israel.

2.17 **NON-DISCRIMINATION AND NON-CONFLICT STATEMENT:** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin, or any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this agreement, or in the employment practices of Vendor. Contractor shall upon request show proof of such non-discrimination, and shall post in conspicuous places available to all employees and applicants notices of non-discrimination. Contractor covenants that it complies with the Fair Wage and Hour Laws, the National Labor Relations Act, and other federal and state employment laws as applicable. Contractor covenants that it does not engage in any illegal employment practices.

Contractor covenants that it has no public or private interest, and shall not acquire directly or indirectly any interest, that would conflict in any manner with the provision of its goods or performance of its services. Contractor warrants that no part of the total Contract amount provided herein shall be paid directly or indirectly to any officer or employee of Knox County as wages, compensation, or gifts in exchange for acting as officer, agent, employee, subcontractor or consultant to Contractor in connection with any goods provided or work contemplated or performed relative to the agreement.

2.18 **ORDER OF PRECEDENCE:** In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) Written Contract, (2) Invitation for Bid, (3) Bid Response, (4) Award, (5) Special Terms and Conditions, (6) General Terms and Conditions, (7) Specifications, (8) Drawings.

2.19 **REMEDIES:** Knox County shall have all rights and remedies afforded under the U.C.C. and Tennessee law in Contract and in tort, including but not limited to rejection of goods, rescission, right of set-off, refund, incidental, consequential and compensatory damages and reasonable attorney's fees.

2.20 **RIGHT TO INSPECT:** Knox County reserves the right to make periodic inspections of the manner and means the service is performed or the goods are supplied.

2.21 **SEVERABILITY:** If any provision of this Contract is declared illegal, void or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

2.22 **TAX COMPLIANCE:** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

2.23 **TERMINATION:** Knox County may terminate this agreement with or without cause at any time upon thirty (30) days written notice. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the termination date shall be paid.

2.24 **WARRANTY:** Contractor warrants to Knox County that all items delivered and all services rendered shall conform to the specifications, drawings, bid and/or other descriptions furnished and/or incorporated by reference, and will be fit for the particular purpose purchased, of merchantable quality, good workmanship, and free from defects. Contractor extends to Knox County all warranties allowed under the U.C.C. Contractor shall provide copies of warranties to the County. Return of merchandise not meeting warranties shall be at Contractor's expense.

SECTION III SPECIAL TERMS AND CONDITIONS

3.1 **INTENT:** The intent of these specifications is to set forth and convey to prospective bidders the general type, character and quality of Stage Curtains and Rigging Services desired by Knox County Schools Maintenance and Operations (KCSMO). Award will be based on Best Value. Best value means more than low cost. It includes initial cost, service quality and other factors detailed herein.

3.2 **ACCEPTANCE:** Vendors are advised that the payment of an invoice does not necessarily constitute an acceptance of goods or services that are provided. Acceptance requires a specific written action by Knox County so stating.

3.3 **ADDITIONS/DELETIONS:** Knox County reserves the right to add items to this term Contract or delete items that have become obsolete. The successful vendor(s) shall notify the Knox County Procurement Division of any items that have been discontinued and recommend an appropriate substitution. Knox County will be the sole judge if the substitution is appropriate.

3.4 **AWARD STATUS:** Knox County intends to issue a one-year (1) award. Upon the mutual agreement of each vendor and Knox County, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years. Knox County and the Knox County Schools reserve the right to purchase these services from other sources if the need arises. Knox County and Knox County Schools reserve the right to revoke the award if these services are not satisfactory or a pattern of unavailability arises.

3.5 **BID EVALUATION:** In evaluating the bids, Knox County reserves the right to use any or all of the ideas from the bids submitted without limitation and to accept any part or all of the successful bid in selecting an operation which is judged to be in the best interest of the Knox County. All material submitted becomes the property of Knox County

3.6 **CHANGES AFTER AWARD:** It is possible that after award, Knox County might change its needs or requirements. Knox County reserves the right to make such changes after consultation with the vendor. Should additional costs arise, Knox County reserves the right to consider accepting these charges provided the vendor can document the increased costs. Knox County also reserves the right to accept proposed service changes from the vendor if they will lower the cost to Knox County and/or provide improved service.

3.7 **COMPLIANCE WITH ALL APPLICABLE REGULATIONS:** Vendor agrees and covenants that the company, its agents and employees will comply with all City, County, State and Federal codes, laws, rules and regulations applicable to the business to be conducted under this Contract. If the Vendor performs any work knowing it to be contrary to such laws, ordinances, rules and regulations, the Vendor shall bear all costs arising from them.

3.8 **CONTACT PERSONNEL:** It shall be essential to the success of this term contract to develop a good working relationship with the successful bidder(s). It is imperative that the Knox County account be handled efficiently and professionally. Knox County should be assigned no more than two vendor contacts to handle billing inquiries and service-related issues. In the event one or both contacts leave the Knox County account, the successful bidder shall formally introduce the new contacts to Knox County personnel. These contacts must be knowledgeable of Knox County to avoid any interruption of service.

3.9 **CONTRACT EXECUTION:** The award of this bid will result in a Contract between Knox County and the successful bidder(s). The Knox County Procurement Division will draft this contract and no vendor forms, (e.g. Terms and Conditions, Service Agreements, or other standard Company forms, etc.) will be accepted as Contract documents or as Contract attachments.

3.9 **DESTINATION AND DELIVERY:** Bidders are to include all destination and delivery charges in their price. **There will be no extra hidden charges.**

3.10 **DRUG-FREE WORKPLACE:** If **CONTRACTOR** has five (5) or more employees receiving pay: **CONTRACTOR** shall have a drug-free workplace program that complies with Title 50, Chapter 9 of the Code of Tennessee, shall obtain a certificate of compliance with the applicable portions of the Drug-Free Workplace Act from the Department of Labor and Workforce, and shall Provide the Affidavit required by Public Acts, 2000, Chapter 918. **CONTRACTOR** shall ensure that it is in compliance with Public Acts, 2000, Chapter No. 918.

3.11 **EVALUATION CRITERIA:**

Price	**70 points**
Delivery (business days) after receiving a Purchase Order	**20 points**
Warranty	**10 points**

3.12 **EVALUATION REVIEW:** Knox County reserves the right to use all pertinent information that might affect the County's judgment as to the appropriateness of an award to the best evaluated bidder. This information may be appended to the bid evaluation process results. Information on a service provider from reliable sources, and not within the service provider's bid, may also be noted and made part of the evaluation file. Knox County shall have sole responsibility for determining a reliable source. Knox County reserves the right to conduct written and/or oral discussions/interviews after the bid opening. The purpose of such discussions/interviews is to provide clarification and/or additional information to make an award that is in the best interest of Knox County.

3.13 **INSURANCE CHECKLIST:** Vendors and their insurance agents must sign the attached insurance requirement form and submit it with their bid. This serves as proof that the vendor can and will obtain and maintain the insurance required for this project. **Upon notification of Intent to Award, the successful vendor shall be required to submit a Certificate of Insurance showing the specified coverage and listing Knox County Government as additional insured.** The successful vendor must maintain the required insurance coverage, including endorsement pages, with no lapse in coverage. If found to have a lapse in insurance coverage the vendor will be immediately terminated and disbarred from doing business with Knox County and Knox County Schools.

3.14 **INTERPRETATION:** No oral interpretation will be made to any bidder regarding the meaning of specifications. All questions are to be submitted in writing or electronically (email) and will be answered in the form of an amendment to the solicitation by the Knox County Procurement Division.

3.15 **INVOICING REQUIREMENTS:** KCSMO prefers to use E-Commerce cards as payment for these services. As several different departments may use this Contract, please adhere to the following guidelines for KCSMO. **Follow the guidelines of other departments when they purchase from you**. Do not put KCSMO charges on any other department and do not put the charges of other departments on KCSMO.

3.15.1 **MAIL ALL INVOICES FOR KCSMO TO:**
Knox County Schools Maintenance & Operations
Julie Todd, Purchasing Supervisor
900 East Fifth Avenue
Knoxville, Tennessee 37917

3.15.2 **TRACKING NUMBER:** All invoices must have a Knox County Purchase Order number on them or they will be returned. Knox County Schools uses Purchase Order numbers for tracking. You will only have one number per invoice. If paid by credit card no tracking number will be required.

3.15.3 **INVOICE DETAIL:** At a minimum, these items must be shown on the invoice:

a. The grand total amount

b. An itemized list detailing the description, quantity and cost of each item or service provided (not if the job was a "Not to Exceed" project.)

c. The location delivered to (Such as XYZ School or Maintenance 5th Avenue)

d. The date the work/materials were delivered

e. A statement that the price invoiced is per the bid/quote

f. The Purchase Order Number

3.15.4 **SUBMIT ONE ORIGINAL INVOICE AND ONE COPY OF IT.**

3.15.5 **INVOICES ARE TO BE ORIGINAL, WITH A UNIQUE REFERENCE NUMBER. PREFERABLY INVOICES WILL BE WHITE.**

3.15.6 **REVIEW OF INVOICES:** Invoices will be reviewed for adherence to bid terms and/or the quotation.

3.15.7 **VARIATION:** Variation from the terms of our bids or quotations is strictly prohibited. It will help speed your payment if your invoice notes the bid number or name. It will be even more helpful if your invoice clearly states that the charges are in accordance with the bid or quotation terms. While failure to follow these guidelines may slow down the payment process, following these steps will help you receive payment faster.

3.15.8 **UNPAID INVOICES:** If invoices are unpaid after thirty (30) calendar days, for KCSMO please contact at 865.594.3635 to ascertain the status.

3.16 **NEW MATERIAL:** Unless specified otherwise in the bid package, Contractor(s) must provide new supplies. New, as used in this clause, means previously unused materials. Material includes but is not limited to, raw material, parts, items, components, and end products. Bidder submission of other than new materials may be cause for the rejection of the bid. Refurbished or remanufactured materials **will not** be accepted.

3.17 **NEWS RELEASES BY CONTRACTORS:** As a matter of policy, Knox County does not endorse the services of a Contractor. A Contractor will not make news releases concerning any resultant contract from this solicitation without the prior written approval of Knox County.

3.18 **NO CONTACT POLICY:** After the date and time the bidder receives this solicitation, any contact initiated by any bidder with any Knox County representative, other than the Procurement Division representative listed herein, concerning this bid is strictly prohibited. Any such unauthorized contact may cause the disqualification of the bidder from this procurement transaction.

3.19 **OPEN BIDDING INTENDED:** It is the intent and purpose of Knox County that this Invitation for Bid promotes competition. It shall be the bidder's responsibility to advise the Procurement Division, if any language, requirements, et cetera or any combination thereof, inadvertently restricts or limits this Invitation for Bid. These requirements also apply to specifications that are ambiguous. Such notification must be submitted in writing and must be received by the Procurement Division no later than **May 2, 2025 by 4:30 p.m.** local time.

3.20 **PRICING:** Vendors are to quote a firm fixed price for the services noted herein. The price may not change during the term of the contract. However the vendor may request a price increase at each renewal period. A request for a price increase must be accompanied by proof of increased price to the vendor. Knox County reserves the right to accept or reject the requested price increase. If the price increase is rejected the vendor may:

- Continue with existing prices;
- Not accept the renewal offer;
- Request a lower price increase.

3.21 **QUANTITIES:** Knox County does not guarantee any quantities of items or services to be purchased. Knox County will purchase these items or services on an as-needed basis.

3.22 **REJECTION OF BIDS:** Knox County reserves the right to reject any and all bids received as a result of this request and to waive any informality, technical defect or clerical error in any bid, as the interests of the County may require. Non-acceptance of any bid will be devoid of any criticism of the bid and of any implication that the bid is deficient in any manner. Non-acceptance of any bid shall be construed as meaning simply that the County does not deem the bid to be acceptable or that another bid was deemed to be more advantageous to Knox County for the particular services proposed.

3.23 **REMOVAL OF VENDORS' EMPLOYEES:** The successful vendor(s) agrees to utilize only experienced responsible and capable people in the performance of the work. Knox County may require that the successful vendor(s) remove from the job covered by this contract, employees who endanger persons or property or whose continued employment under this contract is inconsistent with the interest of Knox County.

3.24 **SAFETY:** Vendor will ensure that its employees observe and exercise all necessary caution and discretion so as to avoid injury to person or damage to property of any and all kinds. All buildings, appurtenances and furnishings shall be protected by the vendor from damage, which might be done or caused by works performed under this contract. Such damages to the foregoing shall be repaired and/or replaced by approved methods so as to restore the damaged areas to their original condition at the expense of the vendor.

3.25 **SCHEDULING OF WORK:** Vendor(s) shall cooperate with officials in performing work so that interference with the normal program will be held to a minimum. Work will normally be scheduled for regular work hours and not for overtime hours.

3.26 **SIGN-IN FOR KNOX COUNTY SCHOOLS:** Vendors must sign the Vendor Check-In Log at each school site where work is to be performed. Ask for the "Maintenance & Contractor's Sign in Book" in the office area. It is a white notebook. Failure to sign-in will negate KCSMO responsibility to pay the resulting invoice. Vendors do not have to sign-in if the office area of the facility is locked.

3.27 **SUB-CONTRACTING:** Any sub-contracting must be approved, in advance by the KCSMO and Knox County. Knox County may terminate the contract if subcontracting is done without written approval.

3.28 **SUB-CONTRACTORS:** Bidders are strongly encouraged to solicit minority owned and operated sub-contractors for this bid and during the duration of the award.

3.29 **SUBMIT QUESTIONS:** Prospective bidders may submit questions concerning this solicitation by **May 2, 2025 by 4:30 p.m.** local time. Submit questions as noted in Section 1.1.

3.30 **VALUE ADDED RELATIONSHIP:** Knox County intends for this bid to result in a relationship with a vendor. Knox County desires a long-term relationship with a vendor in which common goals are shared. Among those goals are:

- Fair and equitable treatment of vendor and owner.
- Vendor expertise in methods of cost reduction. Vendors are encouraged to suggest ways in which costs can be reduced by product substitution or process modification.
- Vendor involvement in the school system or a specific school on a non-business basis.

SECTION IV SPECIFICATIONS

4.1 STAGE DRAPE AND VALANCE:

• Shall be KM Fabrics "Princess" or equal.

- Weight per lineal yard: 16 oz. minimum prior to fireproofing.
- 100% cotton fiber (velour).
- Width: 54 inches, minimum.
- Flame Resistance: Conforms to NFPA #701. The manufacturer only shall treat material for flame resistance. On-site or bidder applied treatments are unacceptable.
- Colors: Chosen at time of order from standard selections
- All bottom hems of curtains (including stage drape, cycloramas, and side legs) extending to floor shall be approximately 6" deep with a rust-resistant chain or other approved weights encased in a separate sleeve or pocket mounted at the top of hems to reduce any abrasion wear.

• Shall be KM Fabrics "Marvel" or equal.

- Weight per lineal yard: 20 oz. minimum prior to fireproofing.
- 100% cotton fiber (velour).
- Width: 54 inches, minimum.
- Flame Resistance: Conforms to NFPA #701. The manufacturer only shall treat material for flame resistance. On-site or bidder applied treatments are unacceptable.
- Colors: Chosen at time of order from standard selections
- All bottom hems of curtains (including stage drape, cycloramas, and side legs) extending to floor shall be approximately 6" deep with a rust-resistant chain or other approved weights encased in a separate sleeve or pocket mounted at the top of hems to reduce any abrasion wear.

• Shall be KM Fabrics "Memorable" or equal.

- Weight per lineal yard: 25 oz. minimum prior to fireproofing.
- 100% cotton fiber (velour).
- Width: 54 inches, minimum.
- Flame Resistance: Conforms to NFPA #701. The manufacturer only shall treat material for flame resistance. On-site or bidder applied treatments are unacceptable.
- Colors: Chosen at time of order from standard selections
- All bottom hems of curtains (including stage drape, cycloramas, and side legs) extending to floor shall be approximately 6" deep with a rust-resistant chain or other approved weights encased in a separate sleeve or pocket mounted at the top of hems to reduce any abrasion wear.

• Shall be KM Fabrics "Majestic" or equal.

- Weight per lineal yard: 25 oz. minimum prior to fireproofing.
- 100% cotton fiber (velour).
- Width: 54 inches, minimum.
- Flame Resistance: Conforms to NFPA #701. The manufacturer only shall treat material for flame resistance. On-site or bidder applied treatments are unacceptable.
- Colors: Chosen at time of order from standard selections
- All bottom hems of curtains (including stage drape, cycloramas, and side legs) extending to floor shall be approximately 6" deep with a rust-resistant chain or other approved weights encased in a separate sleeve or pocket mounted at the top of hems to reduce any abrasion wear.

• Shall be KM Fabrics "Magic" or equal.

- Weight per lineal yard: 32 oz. minimum prior to fireproofing.
- 100% cotton fiber (velour).
- Width: 54 inches, minimum.
- Flame Resistance: Conforms to NFPA #701. The manufacturer only shall treat material for flame resistance. On-site or bidder applied treatments are unacceptable.
- Colors: Chosen at time of order from standard selections
- All bottom hems of curtains (including stage drape, cycloramas, and side legs) extending to floor shall be approximately 6" deep with a rust-resistant chain or other approved weights encased in a separate sleeve or pocket mounted at the top of hems to reduce any abrasion wear.

4.2 CYCLORAMA, BAFFLES AND SIDE LEGS:

• Shall be Oxford "Chevron" (Repp) or equal.

- 100% cotton material.
- Width: 54 inches, minimum.
- Colors: Chosen at time of order from standard selections
- Flame Resistance: Conforms to NFPA #701. Material shall be treated for flame resistance by the manufacturer only. On-site bidder applied treatments are unacceptable.

• Shall be Nassau "Chevron" (Repp) or equal.

- 100% cotton material.
- Width: 54 inches, minimum.
- Colors: Chosen at time of order from standard selections
- Flame Resistance: Conforms to NFPA #701. Material shall be treated for flame resistance by the manufacturer only. On-site bidder applied treatments are unacceptable.

• Shall be KM Fabrics "Commando" or equal.

- Weight per lineal yard: 16 oz. minimum prior to fireproofing.
- 100% cotton fiber.
- Width: 54 inches, minimum.
- Flame Resistance: Conforms to NFPA #701. The manufacturer only shall treat material for flame resistance. On-site or bidder applied treatments are unacceptable.
- Colors: Chosen at time of order from standard selections
- All bottom hems of curtains (including stage drape, cycloramas, and side legs) extending to floor shall be approximately 6" deep with a rust-resistant chain or other approved weights encased in a separate sleeve or pocket mounted at the top of hems to reduce any abrasion wear.

4.3 LINING:

• Shall be KM Fabrics "Denim lining cloth" or equal.

- Medium weight 100% cotton fiber.
- Width: 54 inches, minimum.
- Flame Resistance: Conforms to NFPA #701. The manufacturer only shall treat material for flame resistance. On-site or bidder applied treatments are unacceptable.
- Colors: Chosen at time of order from standard selections
- All bottom hems of curtains (including stage drape, cycloramas, and side legs) extending to floor shall be approximately 6" deep with a rust-resistant chain or other approved weights encased in a separate sleeve or pocket mounted at the top of hems to reduce any abrasion wear.

4.4 FRINGE:

• Shall be fire-resistant material.

- Shall be "bullion-type" trim. 6" overall finish height.
- Color to be chosen at time of order from standard selections

4.5 EXISTING TRACKS:

If a given job is to replace stage drapes and curtains while using existing tracks, the successful vendor shall be required to inspect, make necessary adjustments, and clean and lubricate existing tracks and hardware to provide for smooth and proper operation of system. Existing track shall be used, unless otherwise directed.

4.6 TRAVERSING STAGE TRACK:

• Shall be Automatic Devices Co., "Besteel" # 280, or equal.

- ❖ Furnish and install complete assembly with necessary ball bearing, end block pulleys, floor pulley, track carriers and master carriers with trim chain, guides, polyester cord for traversing operation, splicing clamps, all fasteners, and all other necessary accessories for complete operation.
- ❖ Track to be mounted to existing ceiling system wherever possible. Distance between hangers shall not exceed seven (7) feet.

• Shall be Automatic Devices Co., "Besteel" # 170, or equal.

- Furnish and install complete assembly with necessary ball bearing, end block pulleys, floor pulley, track carriers and master carriers with trim chain, guides, polyester cord for traversing operation, splicing clamps, all fasteners, and all other necessary accessories for complete operation.
- Track to be mounted to existing ceiling system wherever possible. Distance between hangers shall not exceed six (6) feet.

4.7 CYCLORAMA WALK-ALONG TRACK:

• Shall be Automatic Devices Co., Besteel #173, or equal.

- Furnish and install complete assembly with flexible curvature I-beam track, or equal, to accommodate a wide radius range, complete with carriers, guides, all fasteners and ceiling (or hanging) anchor clamps, splicing clamps, and all other necessary accessories for complete operation.
- Track to be mounted to existing ceiling system wherever possible.

4.8 STUDIO TRACK:

• Shall be II gauge extruded aluminum I-Beam construction consisting of a center grid and top, intermediate and bottom flanges. Automatic Devices Co., RIG-I-FLEX Model #142R, or equal.

- Furnish and install complete assembly with flexible curvature I-beam track to accommodate a wide radius range, complete with carriers, guides, all fasteners and ceiling (or hanging) anchor clamps, splicing clamps, and all other necessary accessories for complete "walk-along" operation.
- Track shall be rigidly supported from ceiling clamps (Model 1423) or hanging clamps (Model 4208).
- If not possible, vendor shall install Support Assembly.
- Vendor must conform to all applicable building codes.

4.9 CURVES: (90 deg, 75 deg, 60 deg, 45 deg)

• Shall be Automatic Devices Co., #1752 (90 deg), #1753(75 deg), #1754 (60 deg), or #1755 (45 deg), or equal.

- Furnish and install complete assembly with flexible curvature track, or equal, to accommodate a wide radius range, complete with carriers, guides, all fasteners and ceiling (or hanging) anchor clamps, splicing clamps, and all other necessary accessories for complete operation.
- Track to be mounted to existing ceiling system wherever possible.

4.10 PIPE, SUPPORT ASSEMBLY: (Battens)

4.10.1 Pipe, to be used if required, shall be a minimum of 1 1/4" diameter steel support, or equal. Pipe shall be used for supporting tracks, curtains, etc., where necessary for proper operation.

4.11 LABELS:

4.11.1 All curtain material shall have permanent labels stating material is flame resistant as per NFPA #701 and as specified herein. The labels shall be located in such a manner that they can be read while standing on the platform floor level (stage).

4.12 50% FULLNESS:

4.12.1 All stage curtain, side legs, baffles, and cyclorama material shall be installed with 50% fullness, minimum for optimum operation and finished appearance. Locate pleats 12" on center, closed at back. Cross seams are unacceptable. All curtains to be hung with rustproof brass grommets or approved equivalent.

4.13 INITIATION, INSTALLATION AND COMPLETION OF WORK:

4.13.1 SITE MEASUREMENTS: Within ten (10) calendar days of request, the successful vendor shall visit the job site, and familiarize themselves with existing conditions. The successful vendor will provide the required job measurement and detailed proposal to the Knox County Schools. Measurements for material and condition of existing track and hardware shall be assessed. The vendor shall be responsible for accurately measuring each job and providing proper amount of materials. The vendor shall immediately notify the Knox County Schools if existing tracks cannot be utilized or if any extenuating conditions are thought to exist.

4.13.2 **FAMILIARITY WITH WORK SITE:** The successful vendor shall be responsible for properly assessing work conditions at job site prior to initiating work. All suspect problem areas shall be brought to the Knox County Schools attention immediately. It is the successful vendor's responsibility to become fully informed as to the nature and extent of the work required and its relation to any other work in the area, including possible interference from academic or other school activities. Arrangements for inspection of facilities and/or activity schedules may be secured from the Office of the School Principal. The successful vendor shall schedule all visits to facilities with the Office of the School Principal prior to visiting.

4.13.3 **BID PRICES:** Bid prices, as bid, shall include all labor charges for a complete and proper installation/operation of stage curtain system. Work shall commence when a Purchase Order is issued. No work shall commence without a Purchase Order.

4.13.4 **FRINGE MATERIAL FOR STAGE CURTAIN:** If the original drape/valance had fringe, then the replacement drape/valance will also have fringe unless decided otherwise by KCSMO. Installation cost of fringe material if required shall be included in the applicable prices.

4.13.5 **INSTALLATION COSTS:** Installation costs shall not include any extenuating and extraordinary costs such as requiring electric high lifts, repairs to inferior ceiling structure integrity, etc. These extra costs may be separately itemized on the vendor's bid for the job, but under no circumstances shall the vendor proceed with such extras without expressed written permission from Knox County. Installation of side legs and/or baffles shall be included in the installation prices.

4.14 **INSTALLATION:** Maximum deflection for a support assembly for track shall not Length of Span/180, 1-1/4" diameter pipe may be used for support assembly, if required. Installation cost of pipe must be included in the material price. Attach track assembly to existing ceiling members, as directed by manufacturer, unless otherwise directed by KCSMO. Finished curtains shall hang approximately one (1) inch above platform floor when complete. Provide adequate amount of trim chain(s) at track carriers to allow for vertical adjustments. Install side legs and baffles as directed by manufacturer and as space and fastening areas allow. KCSMO shall be responsible for determining that an extenuating situation exists and shall be responsible for any repairs that prevent the vendor from proper installation and operation of the curtain system.

4.15 **DEBRIS:** The vendor shall be responsible for all removal and proper disposal of any existing drapes, tracks, hardware, etc., as applicable. If there might be extensive damage caused during the removal of existing tracks, etc., the school principal and the KCSMO must be notified prior to removal. All removal costs shall be included in the installation prices bid. Knox County Schools shall be responsible for any major repairs required prior to installation of new curtain systems. Vendor shall be responsible for the prompt removal of all debris from the school area, which is a result of this service or delivery. School trash receptacles/dumpsters will not be used under any circumstances for disposal of old stage drapes and/or hardware.

Note: Bidders need not to return pages 1-13. Only return pages 14-18.

MEMORANDUM

TO: Jennifer Hemmelgarn, Assistant Superintendent of Business and Talent

FROM: Ron McPherson, CFO

DATE: June 9, 2025

RE: Proposed Fund Balance Designation

I request that the following fund balance designations totaling $8,535,114 be placed on the Board of Education's July 10, 2026 agenda for consideration of approval.

Capital Plan Supplemental Funding - $4,400,000
This amount, as part of the approved FY26 capital plan, will be transferred from General Purpose Fund Balance into the School Construction Fund. Doing so mitigates debt levels that otherwise would have been incurred through general obligation bond issuances.

Qualified School Construction Bond (QSCB) Payoff - $4,000,114
Payoff the remaining three years of debt service obligations resulting from QSCB Bond Series 2010. This action was discussed during the FY26 General Purpose budget deliberation. This one-time payoff from GP Fund Balance to the county-wide Debt Service Fund will create $3.24 million of annual capacity within the FY26 GP budget and will avoid three years-worth of interest charges totaling $2.97 million.

Time and Attendance Software - $135,000
Amount includes base quote of $128,000 plus contingency of $7,000. This cloud-based solution (called ExecuTime) would integrate with our current payroll/HR system (Munis) to modernize workforce management, strengthen internal controls, improve data accuracy and align district operations under one streamlined platform by replacing outdated and inefficient manual processes.

c. Garfield Adams, Assistant Superintendent of Operations
Doug Shover, Executive Director of Facilities and New Construction
Ashley Huffaker, Executive Director of Staffing and Compensation

WHEREAS, Knox County Schools desires to enter into an Elementary School Dental Program Agreement with Elgin Children's Foundation for the operation of an Elementary School Dental Program to provide free dental care and treatment to qualified children at selected schools; and

WHEREAS, the aforesaid Agreement sets forth the terms and conditions for the program and provides that Elgin Children's Foundation will reimburse Knox County Schools up to $8,000.00 for the transportation of students to and from local dentists for treatment; and

WHEREAS, the Agreement is effective beginning July 1, 2025 and ending June 30, 2026 and may be extended for additional one (1) year periods by agreement of the parties up to a total of five (5) years; and

WHEREAS, at its regularly scheduled meeting on July 10, 2025, the Knox County Board of Education approved the attached Elementary School Dental Program Agreement and Elgin Children's Foundation Grant for the aforesaid purpose.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Elementary School Dental Program Agreement with Elgin Children's Foundation for the operation of an Elementary School Dental Program is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Elementary School Dental Program Agreement with Elgin Children's Foundation for the operation of an Elementary School Dental Program shall be executed subject to such amendment or action not affecting the substantive provisions of the agreement as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, the Knox County Commission hereby authorizes the acceptance of the Elgin Children's Foundation Elementary School Dental Grant in an amount up to $8,000.00 for student transportation costs associated with the program, as further detailed in the attached Elementary School Dental Program Agreement.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

ELEMENTARY SCHOOL DENTAL PROGRAM AGREEMENT

Elgin Children's Foundation (the "**Foundation**") has selected Knox County Schools, a political subdivision of the State/Commonwealth of Tennessee, within the meaning of Section 170(c)(1) of the Internal Revenue Code of 1986 (the "**District**") as a participant in the Elgin Children's Foundation Elementary School Dental Grant (the "**Grant**"), subject to the terms and conditions of this Elementary School Dental Program Agreement (the "**Agreement**") set forth below.

Article I

Description of Program

1.1 Description of Program. The Foundation provides financial support for the operation of an Elementary School Dental Program (the "**Program**") to provide free dental care and treatment to qualified children at selected schools. The District will be responsible for the coordination and implementation of the Program.

Article II

Obligations of the District

2.1 Obligations of the District. For all grades pre-Kindergarten through sixth grade, the District shall participate in and implement the Program pursuant to the guidelines set forth in the Dental Grant Handbook, which is attached hereto as Exhibit A and incorporated herein by reference (the "**Handbook**").

Article III

Obligations of the Foundation

3.1 Duties and Obligations of the Foundation. The Foundation will pay dental care providers for dental services provided to qualified students in accordance with the Dental Grant Handbook. The Foundation will reimburse the District for the safe transportation of students to and from local dentists for treatment in an amount not to exceed **$8,000.00**. Expected reimbursement rates will be consistent with the attached transportation rates in Exhibit B. The District will invoice the Foundation for transportation on or before June 30, 2026.

Article IV

Other Provisions

4.1 Exempt Status. The District represents that it is a public school system under the laws of the State/Commonwealth of Tennessee and that it has the authority under state law to conduct the Program, enter into and abide by the terms of this Agreement and that the Program will be used for exclusively public purposes, consistent with each of the terms and conditions of this Agreement.

4.2 Indemnification. To the extent permitted by law, the District agrees to indemnify and hold the Foundation and its contractors harmless from and against all claims, damages, judgments, assessments, expenses ~~(including reasonable attorneys' fees)~~ and other liabilities arising from the District's implementation and operation of the Program.

4.3 Term of Program. The Program period will begin upon written acceptance of the Grant by both parties as evidenced by execution of this Agreement; and will be for one year beginning July 1, 2025, and ending June 30, 2026. By agreement of both parties, the Grant may be extended for additional one (1) year periods. The District acknowledges that the Foundation does not assume, by entry into this Agreement, any obligation to provide other or future support for the Program, beyond the currently effective period.

up to a total of five (5) years.

4.4 Cancellation of Grant.

a. If the District fails, within 10 days after notice from the Foundation, to perform any of its duties under this Agreement, the Foundation may, at any time thereafter, in the Foundation's sole discretion, cancel this Agreement and terminate the Grant.

b. Either party may cancel this Agreement and discontinue participation in the Program with or without cause, upon thirty (30) days' written notice.

c. In the event of any cancellation of the Program, the Foundation will, nevertheless, pay for the services properly provided pursuant to the Handbook prior to notice of cancellation.

4.5 Publicity. Any news releases or other publicity with respect to the Program shall be coordinated with and require written approval of the Foundation.

4.6 Notices. Notices under this Agreement shall be in writing and shall be deemed to be given when delivered or mailed by registered or certified mail as follows:

If to the Foundation: Elgin Children's Foundation
Attention: Tracy Farmer
Director of Dental Operations
38 Owens Road
Manchester, KY 40962
Email: tracy@elginfoundation.org

Two Lakeside Center
2095 Lakeside Centre Way, Suite 110
Knoxville, TN 37922
Attention: Kacie McRee, General Counsel
Email: kmcree@bradley.com

To the District Knox County Schools
PO Box 2188
Knoxville, TN 37901
Attention: Lisa Wagoner
Email: lisa.wagoner@knoxschools.org

4.7 Waiver. No waiver of any right under this Agreement shall be effective unless set forth in a notice from the party possessing such right to the other party, and the exercise by either party of any right or remedy under this Agreement shall not thereafter prevent that party from exercising any other rights or remedy.

4.8 Due Execution and Authorization. The undersigned representative of the District warrants and represents that he/she is duly authorized to execute and deliver this Agreement, and to bind the District to the performance hereof, that all actions and approvals required in connection herewith have occurred, and that there is no law, contract, regulation or ordinance which restricts or prohibits the District from entering into or performing this Agreement.

4.9 Relationship of Parties. Nothing in this Agreement is intended to create a partnership, joint venture or principal and agent or other relationship. The only rights or obligations between the parties shall be as set forth herein. Neither party has the authority to bind the other party or incur any obligation on behalf of the other party.

4.10 Governing Law. This Agreement shall be deemed to be entered into and formed in Knoxville, Tennessee and shall become effective when the Foundation receives signed counterpart

of this instrument bearing the District's acceptance.

4.11 Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original, but such counterparts, when taken together, shall constitute one agreement, and shall become effective when each party has received counterparts signed by each of the other parties, it being understood and agreed that delivery of a signed counterpart signature page to this Agreement by facsimile transmission, by electronic mail in portable document format form or other similar form (e.g., .pdf, .jpeg, .TIFF), or by any other electronic means intended to preserve the original graphic and pictorial appearance of a document (e.g., through e-signature applications such as DocuSign) (each of the foregoing, an "***Electronic Signature***") shall constitute valid and sufficient delivery thereof provided that a party with the intent to sign this Agreement executes the Electronic Signature. Any Electronic Signature executed by a party shall be deemed to be an original signature hereto. Any executed counterpart which is transmitted to a party or its attorneys by facsimile or electronic mail transmission shall be deemed to have been properly executed and delivered by all parties executing such counterpart for all purposes hereof to the same effect as if such original executed counterpart was delivered to a party or its attorneys.

4.12 Miscellaneous. This Agreement contains the entire agreement between the parties hereto with respect to the transactions contemplated by this Agreement and supersedes all prior written or unwritten arrangements or understandings with respect thereto. All parties represent that they are not relying on any representation, statement, or action by any other party except as expressly stated herein. The descriptive headings of this Agreement are for convenience only. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns, heirs, beneficiaries, fiduciaries, personal representatives, and executors. This Agreement shall be deemed to have been jointly prepared and shall not be construed strictly against the drafter thereof. This Agreement may not be modified, amended, or revoked, except in a writing signed by all parties. This provision may not be orally waived.

[*Remainder of page intentionally left blank; signatures on the following page.*]

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date next to its signature below.

Dental Grant Handbook

SCHOOL-BASED DENTAL PROGRAM
PROGRAM GUIDELINES AND PROCEDURES FOR SCHOOLS

OVERVIEW

The Dental Program Handbook represent the Foundation's expectations as to the district's operation of the Program, including an initial dental health screening and subsequent dental work/treatment for qualified elementary students. The school districts will strive to arrange an initial dental screening for 90% of qualified students and arrange for at least 90% of students identified as a #1 and #2 to receive treatment

Participating Districts should use the following guidelines and procedures to provide the above-described screenings and dental treatments. The objective of these guidelines is to make the process as efficient as possible and may be modified from time-to-time by the Foundation. The handbook will include sample forms for facilitating the program. Forms will reflect the school district name, address, and contact information. The Foundation will not be named on any forms, correspondence, and/or media releases regarding the school-based dental program without prior approval.

TRAINING (SUMMER)

Each participating school district should name one (1) District Dental Liaison and one (1) School-based Dental Liaison for each elementary school. The Foundation will train each dental liaison in procedures for dental screenings, recordkeeping (data) and retention, transportation, and authorization for noninsured students to be considered for financial assistance from the Foundation for treatment costs.

SCREENING PERMISSION (LATE AUGUST)

School-based Dental Liaisons will facilitate the collection of Dental Screening Permission Forms. If Dental Screening Forms must be signed, they will be included in the initial school registration packets/parent handbooks with a deadline date for return no later than **September 30.** The district needs to maintain these permissions for at least **four** years.

SCREENING (EARLY FALL)

Dental professionals will travel to partnering schools as volunteers to conduct dental screenings, using a space in each school identified and secure by school officials. A dental professional will complete a Dental Screening Score form for every student screened at the time of the screening/examination, of which a copy will be sent home to parents. Screenings will occur *August through October and are to be*

completed by October 31st.

School officials should send home forms to parents to secure permission for the transportation and dental treatment of their children.

TREATMENT (T0 BEGIN AFTER SCREENINGS)

The school-based dental liaison will work in coordination with the partnering dentist to schedule initial and follow up appointments for students requesting treatment, focusing first on students with the most urgent need (Dental Screening Scores #1 & #2) and then students needing preventive treatment such as sealants and cleanings (Dental Screening Scores #3). **The school-based dental liaison will be responsible for scheduling bus transportation** to the dentist and submitting the student passenger lists to the district dental liaison on a weekly basis. The dentist should also receive a copy of the bus transportation student list.
Once a treatment plan is prepared, dental offices may send home a student's treatment plan to parents. Extraordinary care will be given to students who scored a #1 or #2 on their Dental Screening. A Dental Screening Score of #1 or #2 may involve school nurses/social workers/staff doing home visits as necessary to obtain the necessary permission for treatment.

TREATMENT PROCEDURE (ON GOING)

The dental office should communicate weekly with the school-based dental liaison to advise what children need follow-up dental appointments. A student passenger list can be created for the children scheduled for transportation. This list should be finalized at least one week before scheduled appointments for the dental office to establish whether the child has Medicaid or other insurance. Children who do not have Medicaid and are requesting financial assistance from The Foundation **SHOULD NOT** be transported to the dental office for treatment **UNTIL** a Form 409 Financial Assistance form has been signed.

TREATMENT REPORTING (MONTHLY)

Dental treatment data will be tracked by the school-based dental liaison by obtaining the list of students being transported to the dental office. The school-based liaison will enter the data into the reporting form provided by their Elgin State Dental Coordinator. **Each dental liaison should complete and submit the report to the state coordinator by email or text no later than the 15th of each month.**

TRANSPORTATION COSTS (JUNE 30)

The Foundation will reimburse the district at the rate specified in the yearly contract signed by school districts for safe transportation of students to and from a local dentist for treatment.
Instructions for submitting a dental invoice for transportation reimbursement:

- Participating districts will invoice the Foundation for transportation on or before June 30th.
- Transportation should be logged per individual trip with the following information:
    - Date of trip
    - School name
    - Dental office
    - Route trip mile with fix rate withing the districts MOU
    - The above information should be compiled on a single invoice (Exhibit F) and sent to your State Coordinator.

WHEREAS, Big History Project, LLC desires to donate to the Knox County Schools Social Studies Department the amount of $5,000.00 and curricular resources and professional learning support to include five (5) virtual learning events and two (2) cohort-specific meetings; and

WHEREAS, the proposed Donation Agreement sets forth the terms, conditions and responsibilities of the parties with respect to the donations; and

WHEREAS, the Donation Agreement is effective for the term of August 1, 2025 to July 31, 2026; and

WHEREAS, at its regularly scheduled meeting on July 10, 2025, the Knox County Board of Education approved the Donation Agreement with Big History Project, LLC.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Donation Agreement with Big History Project, LLC for the receipt of funds in the amount of $5,000.00 and curricular resources and professional learning support to include five (5) virtual learning events and two (2) cohort-specific meetings is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the aforesaid Donation Agreement with Big History Project, LLC shall be executed subject to such amendment or action not affecting the substantive provisions of the agreement as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

BIG HISTORY PROJECT

DONATION AGREEMENT

Donation Summary & Signatures

BETWEEN: **KNOX COUNTY SCHOOLS** "Donee," a tax-exempt organization based on Internal Revenue Code (IRC) _X_ Section 501(c)(3) **OR** ____ IRC Section 501(c)(4) **OR** ____ IRC Section 501(c)(6), with its head office located at:

400 W Summit Hill Drive
Knoxville, TN 37902
Primary Contact: Kristi Letsinger, K-12 Social Studies Instructional Facilitator, kristi.letsinger@knoxschools.org

AND: **BIG HISTORY PROJECT, LLC** "Donor"
4110 Carillon Point
Kirkland, WA 98033
Primary Contact: Becca Horowitz, Engagement Manager, becca.horowitz @gatesventures.com

DONATION AMOUNT: $5,000, for the term of August 1st, 2025, to July 31st, 2026. The Donation Amount will be paid in October of 2025.

INCORPORATED BY REFERENCE: The Project Proposal, incorporated by reference as Attachment A, and the Donation Terms and Conditions incorporated by reference as Attachment B.

THIS AGREEMENT is between Donor and Donee and is effective as of the date of last signature. Each party to the Agreement may be referred to individually as a "*Party*" and together as the "*Parties.*" As a condition of this donation, the Parties enter into this Agreement by having their authorized representatives sign below.

BIG HISTORY PROJECT, LLC ("DONOR")	**KNOX COUNTY SCHOOLS ("DONEE")**

ATTACHMENT A: PROPOSAL

Big History Project, LLC. agrees to:

1. **Resources and Support:** Donor will supply the Donee with curricular resources and professional learning supports in the form of five (5) virtual learning events and two (2) cohort-specific pre-post- virtual meetings.
2. **Online Teacher Community:** Donor will develop an online teacher community forum for Donee participants to share resources, materials, and insights from cohort.

Donee agrees to:

1. **Teacher Recruitment:** Donee will, in good faith, try to recruit a minimum of 30 teachers to participate in Donor's professional learning cohort throughout the term of this agreement.
2. **OER Material Usage:** Donee will, in good faith, encourage at least 30 teachers to implement Donee's curricular materials and sign up for an OER Project account during the duration of this agreement.
3. **Teacher Professional Learning and Coaching Work Participation**:
    a. Donee will select five dates from the existing OER Schedule, to be provided by Donor, that participants will attend. These sessions should align with Donee's goals and strategic instructional objectives.
    b. Donee will determine two (pre- post-) additional collaboration session dates where participants and members of Donor's staff will interact to discuss goals and insights.
4. **Local Administrator:** Donee will provide one local administrator point of contact to coordinate with teachers and promote/monitor the implementation of OER Project resources and participation in the cohort.

ATTACHMENT B: TERMS AND CONDITIONS

This Agreement is subject to the following terms and conditions.

[redacted]

Payments
Donor will make payments of funds according to the terms of this Agreement ("Donation Funds") and, where specified, contingent on Donee completion of the applicable target, milestone, or output. Donor may approve changes to the schedule from time to time and will confirm any such changes in writing.

Project Description and Purpose
Donor is providing Donee this donation to carry out the project described in the Proposal (the *"Project"*) in order to further the purposes and activities of the Donee set forth therein. Donor does not have power or authority to exercise control over Donee, and Donee has complete discretion and control over the Project and its activities.

[redacted]

Use of Funds
Donee shall use all Donation Funds in a manner that is consistent with, and in furtherance of, its charitable purposes and its entity status indicated on the first page of this Agreement. Donee may not use Donation Funds for any purpose other than the Project. Donee may not use Donation Funds to reimburse any expenses Donee incurred prior to the Agreement date.

Investment of Funds
Donee must invest Donation Funds in highly liquid investments in order to preserve the principal (e.g., interest-bearing bank accounts or a registered money market mutual fund).

[redacted]

Responsibility for Others
Donee is responsible for (a) all acts and omissions of any of Donee's trustees, directors, officers, employees, subcontractors, agents, and affiliates assisting with the Project, and (b) ensuring their compliance with the terms of this Agreement.

[redacted]

Anti-Corruption; Anti-Bribery
Donee will not offer or provide money, gifts, or any other things of value directly or indirectly to anyone to improperly influence any act or decision relating to Donor or the Project, including by assisting any party to secure an improper advantage.

Lobbying and Other Rules
If Donee's tax-exempt status is based on Section 501(c)(3) of the IRC, Donee acknowledges that (a) Donor is not requiring Donee to engage in, and has not provided Donee with any direction or

requirement to support, lobbying activities or attempts to influence legislation, and (b) Donee does not engage in or support any political or election activities. In addition, and without regard to distinct tax-exempt classifications, Donee agrees to comply with any national, state, local, or other gift, and ethics rules applicable to the Project.

PUBLICITY

Publicity by Donor
Donor may include information about this donation, including Donee's name, in its periodic public reports, on its website and as part of press releases, public reports, social media posts, speeches, newsletters, tax returns and other public disclosure.

Publicity by Donee
Donee must obtain Donor's prior written approval before: (a) issuing a press release or other announcement regarding this donation; and (b) any use of Donor's name or logo

OTHER

Compliance with Laws
In carrying out the Project, Donee will comply with all applicable laws and regulations, and will not infringe, misappropriate, or violate the intellectual property rights of any third party.

Reliance
Donee acknowledges that Donor is relying on the information Donee provides in meetings and reports and in connection with any due diligence conducted before or during the term of this Agreement. Donee represents that Donor may continue to rely on this information and on any additional information Donee provides regarding activities and progress.

Indemnification
Donee agrees to indemnify, defend and hold Donor and its directors, officers, agents, employees, subcontractors, and affiliates harmless from and against any and all liability, loss, and expense (including reasonable attorneys' fees and expenses) or claims for injury or damages arising out of or resulting from, or that are alleged to arise out of or result from, the actions or omissions by Donee or any of Donee's directors, officers, agents, employees, subcontractors and affiliates with respect to this donation or the Project.

Not allowed under Tennessee law.

TERM AND TERMINATION

Term
This Agreement commences on the later of the two signature dates hereto and continues until the completion of the Project or until the Termination Date indicated on the first page of this Agreement, unless terminated earlier as provided in this Agreement.

Termination
Donor may modify, suspend, or discontinue any payment or terminate this Agreement if: (a) Donor is not reasonably satisfied with Donee's progress on the Project; (b) there are significant changes to Donee leadership or other factors that Donor reasonably believes may threaten the Project's success; (c) there is a change in Donee control; (d) there is a change in Donee's tax status, or (e) Donee fails to comply with the terms of this Agreement.

Record Keeping
Donee will maintain adequate accounting records related to this Donation and make such records available to enable Donor to monitor and evaluate the use of Donation Funds.

Survival
A Party's obligations under this Agreement will be continuous and survive expiration or termination of this Agreement as expressly provided in this Agreement or otherwise required by law or intended by their nature.

[redacted]

Entire Agreement and Amendments
This Agreement contains the entire agreement of the Parties and supersedes all prior agreements concerning its subject matter. Except as specifically permitted in this Agreement, no modification, amendment, or waiver of any provision of this Agreement will be effective unless in writing and signed by authorized representatives of both Parties.

Notices and Approvals
Written notices and approvals under this Agreement must be delivered by mail or email to the other Party's primary contact specified on the Donation Summary or as otherwise directed by the other Party.

Severability
Each provision of this Agreement must be interpreted in a way that is enforceable under applicable law. If any provision is held unenforceable, the rest of the Agreement remains in effect.

Assignment
Donee may not assign, or transfer by operation of law or court order, any of its rights or obligations under this Agreement without Donor's prior written approval. This Agreement will bind and benefit any permitted successors and assigns.

Counterparts
This Agreement and any amendment may be signed in counterparts, by facsimile, PDF, or other electronic means, each of which will be deemed an original and all of which when taken together will constitute one agreement.

Gift Acknowledgement
Donee agrees to provide Donor with a contemporaneous written gift acknowledgement reflecting its receipt of Donation Funds and indicating the extent to which the Donation Funds are tax deductible as charitable contributions or otherwise in compliance with IRC Section 170(f)(8) and the applicable regulations, or as otherwise required by law.

Agenda Item Fiscal Note

Description

Submitted on behalf of Katherine Shultz, Social Studies Supervisor: The Social Studies Department would like to work with OER (Open Educational Resources) to support World History teachers during the 2025-2026 school year. The donation would gift $5,000 to KCS to be used at the discretion of the Social Studies Department (funds can possibly be spent on stipends, substitutes for work days, teacher field trips, etc.) A cohort of 30 World History teachers will be selected and will be required to participate in four professional development opportunities during the school year. Additionally, teachers will be asked to incorporate OER resources as supplemental primary/secondary sources into their Tier 1 instruction. The KCS Social Studies Dept. will help teachers identify resources that align with state standards and how to use those in their classroom. OER may conduct in-person visits to cohort member's classes at no cost to KCS.

Gravel Bed Stormwater Detention System for Growing Trees in Extra-urban Areas

A Cooperative demonstration project with the City of Knoxville, University of Tennessee Departments of Civil and Environmental Engineering and Forestry, Wildlife, and Fisheries, and the USDA Forest Service

Prepared by:
Eric Kuehler
Eric.Kuehler@usda.gov
Science Delivery/Technology Specialist
Urban Forestry South
320 Green St., Athens, GA
706-559-4268

Development has been shown to increase stormwater runoff especially in highly-developed, extra-urban areas like downtown cores. Forest systems (tree canopy, ground cover, and soil) retain significantly more stormwater runoff than developed, urban areas primarily due to better soil conditions. Uncompacted soils in forests allow for greater water infiltration and storage belowground for tree roots to use unlike in urban areas where soils are typically compacted. Access to more abundant ground water and soil nutrients allows trees to maximize leaf surface area which drives environmental benefits such as shade in parking lots and improved air quality.

Because of the need for belowground stability in developed areas like parking lots and pedestrian areas, soils are typically compacted. This restricts water storage and movement within the soil leading to increased water runoff by overland flow. As such, stormwater retention/detention systems are built to attenuate stromwater runoff. In highly developed parts of town, parking lots and pedestrian areas are typically uninviting to people because of the lack of trees to provide shade for comfort. Trees that are planted in small parking lot islands or tree boxes typically do not grow well because of the lack of belowground volume needed for root growth.

Products have been developed, such as suspended pavement systems or structural soil, to provide needed soil volume for tree root growth while providing stability for impervious surfaces. However, they can be quite expensive, and smaller communities with limited budgets may not be able to afford them. A potential alternative to these products is to store runoff in gravel beds beneath paved surfaces and give tree roots access to that water resource.

Gravel is relatively inexpensive. By constructing parking lots, sidewalks, pedestrian plazas, etc. on gravel beds, we could achieve the stability needed for construction and allow for increased stormwater storage and movement similar to pre-development soils. Planting trees in smaller soil beds adjacent to these belowground gravel systems will allow roots to exploit the stored water (and nutrients) and could help return the environmental benefits that forest systems provide for less money than other engineered practices.

The purpose of this demonstration project is to investigate the feasibility of growing trees in parking lots where gravel is used as the base on which the structure is built. This method could allow municipalities to maximize stormwater storage below-ground and grow trees in highly developed parts of town thus reducing stormwater runoff, urban heat island effects, and ambient air pollution while increasing property values and general standard of living at a much reduced cost compared to currently available suspended pavement technologies.

Gravel Bed Stormwater Detention System Structure and Function Overview

For this demonstration project a 6' x 6' x 3' mineral soil bed was surrounded by an 18' x 18' x 3' gravel bed (Fig. 1) adjacent to an asphalt-paved parking lot into which stormwater runoff from the parking lot flowed. A 4" perforated PVC under-drain with an up-turned PVC elbow at the outfall was used to regulate the volume of water stored in the system and allow excess water to drain.

The mineral bed provided 108 ft^3 of soil volume and the gravel bed had 864 ft^3 of storage volume. Assuming that

gravel allows for 40% volume storage capacity[1], this system can store approximately 486 ft^3 of water (3650 gallons).

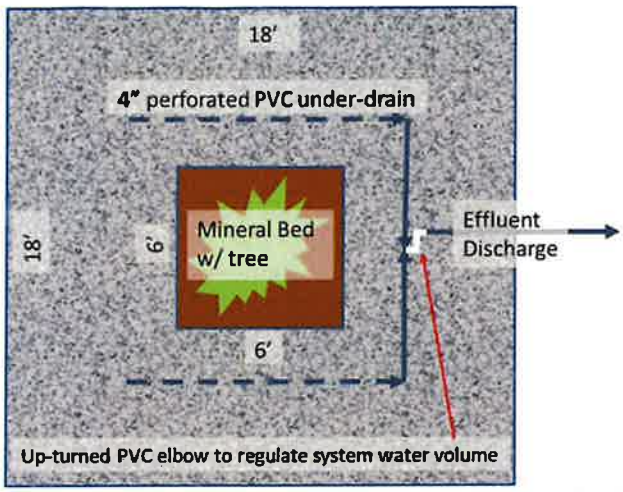

Figure 1 Gravel bed stormwater storage system diagram showing position of mineral soil bed within the gravel bed and the PVC underdrain location

Primarily, this system is a belowground stormwater detention structure that temporarily holds stormwater runoff from a large paved area. Water fills the large pore space between the rocks and is stored. Excess water is released from the system via an underdrain system to prevent extended periods of inundation and allows space for oxygen for tree root respiration and growth (Fig. 2). Although pore space is extremely large in the gravel layer, stored water in the system increases humidity deeper in the gravel profile giving roots adequate moisture for growth. Between rainfall events water level in the gravel system is slowly released by infiltration into the existing soil layer, conductance and evaporation through the mineral soil bed, and by transpiration of the tree(s) planted in the mineral bed.

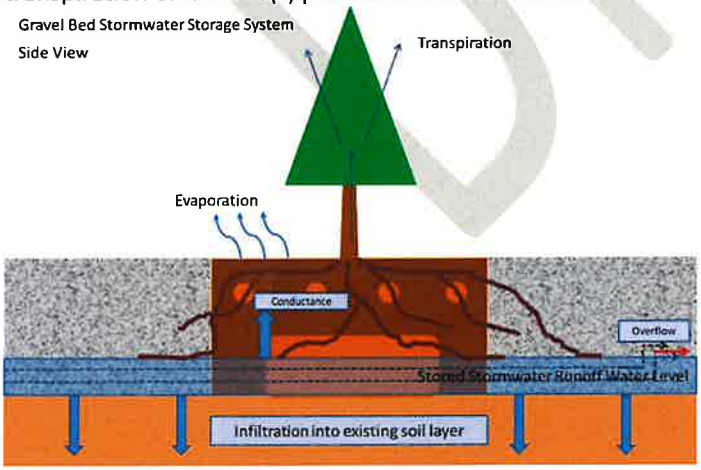

Figure 2 Stormwater stored in this system exits as overflow, infiltration, and evapotranspiration. Tree roots are able to explore the gravel layer for additional nutrients and moisture.

[1] http://www.deeproot.com/blog/blog-entries/the-pros-and-cons-of-using-aggregate-to-store-stormwater

Stormwater Catchment Area

The City of Knoxville was not willing to tear up a paved parking lot for this demonstration project, so the gravel bed system was placed on the downhill end of a city-maintained parking lot (Fig. 3). The total catchment area for this stormwater system was approximately 16,000 ft^2. It included 4,215 ft^2 of directly connected impervious area (DCIA) draining directly to the gravel bed. The remainder of the catchment consisted of permeable surfaces. The total catchment to gravel bed area ratio was 49:1. The ratio of DCIA to gravel bed was 13:1.

Figure 3 Gravel bed stormwater storage system located at the northwest corner of the parking lot. The system is adjacent to the paved parking lot to allow stormwater runoff (blue arrow) from the parking lot to drain into system.

Mineral Soil Bed Construction

A box constructed of untreated Oriented Strand Board (7/16" OSB sheathing) was used to keep the mineral soil separated from the gravel layer (Fig. 4). OSB was chosen as a temporary form because it is inexpensive and quickly decomposes when continually exposed to moisture. Holes were cut into the OSB to allow for tree roots to migrate from the mineral soil layer into the gravel layer. Five 3" circular holes were cut every 12" on center at 9" below the top of the form. A larger 18" x 36" hole was centered and cut from the bottom of the OSB sheathing to allow for root migration deeper in the soil/gravel profile. The form was joined at the corners by driving 1.25" wood screws into a 3' section of untreated 2x4. The mineral bed form was covered with an 8 ounce, non-woven geotextile fabric to provide continued separation of soil and gravel after the OSB form disintegrated (Fig. 5). Because it was not certain that roots could penetrate the geotextile, slits were cut into the fabric at each hole in the form. Non-woven geotextile fabric was also placed at the bottom of the form to prevent erosion of mineral soil from the mineral bed into the gravel

layer below the form. Originally, soil excavated from the gravel bed was to be used in the mineral bed form, however, because the quality of the existing soil was suspect, a higher quality top soil from another site was used for the mineral bed.

Figure 4 A wooden form constructed of 7/16" Oriented Strand Board (OSB) was used to keep the mineral soil separate from the gravel layer.

Figure 5 Mineral soil bed form was covered with an 8 ounce non-woven geotextile fabric to provide additional separation support of mineral soil and gravel after the OSB form disintegrates. Slits were cut into the fabric to allow roots to migrate from the mineral soil into the gravel layer.

Gravel Bed Construction

An 18' x 18' hole was excavated to a depth of approximately three feet adjacent to the low end of the parking lot, and a 4" PVC drain line was installed into the side of the bed closest to the street to allow excess stormwater to exit the system (Fig. 6). The bed was lined with a non-woven geotextile fabric to help keep the sides of the existing mineral soil from eroding into the gravel bed. Four layers of 6 mil vapor barrier lined the gravel bed to help prevent stormwater runoff from infiltrating into the surrounding soil. For this project, we wanted to quantify the evapotranspiration properties of the tree/mineral soil in the system, and thus needed to eliminate the infiltration effects of the stored stormwater into the surrounding soil. If infiltration into the surrounding soil is desired, then do not line the gravel bed.

Because the excavated hole was slightly deeper than needed, several inches of #57 sandstone gravel was placed in the bottom of the pit and leveled so that the mineral bed form would be at the proper depth for adequate stormwater drainage at the outfall. After placing the mineral bed form in the center of the pit, gravel was loaded around the form. A perforated, PVC under-drain with a 10" upturned elbow was also installed in the gravel bed around the mineral bed form. See Under-drain Construction section below for more details. To prevent the mineral bed form from being crushed by the weight of the gravel around it, we filled the gravel bed to half the height of the form, and then filled the mineral bed form with soil before finishing filling the gravel bed.

Figure 6 18'x18'x3' excavated pit next to parking lot lined with non-woven geotextile fabric. A 4" PVC drain line was installed to allow excess stormwater to drain from the system.

Gravel Material

Forty-six tons (approximately 33 cubic yards) of ¾" crushed, quartzitic sandstone was used to fill the gravel bed. The larger stone provides larger macropores to store more stormwater, and will not adversely affect tree root exploration within the system. Larger river rock on the upper 4 inches of the gravel bed was used to keep vehicles from parking on the bedding area, however, if prepared properly, this system could be parked upon without damaging its functionality. Caution should be taken when choosing gravel material so as not to change the pH of the water stored in the system. This could have an adverse effect to tree growth and health. Do not use limestone or any other material that could raise or lower the belowground pH.

Under-drain Construction

To prevent inundation of the tree roots in the system, a 4" perforated PVC under-drain was placed in the gravel bed to allow for excess stormwater to exit the system (Fig. 7). An upturned elbow was installed at the outfall at a depth to allow the system to store approximately 18" of water. The elbow was connected to the previously installed drain line mentioned in the Gravel Bed Construction section. A filter fabric encased the perforated PVC to help prevent fines from accumulating in the pipe.

Figure 7 Under-drain constructed of 4" perforated PVC pipes, wrapped with black filter fabric, and connected to the previously installed drain line. An upturned elbow was used to regulate the amount of stored water in the system. The angled, white PVC pipes were not part of the drainage system.

Monitoring Equipment

To monitor the volume of water being stored in the system a pressure transducer (HOBO Onset Water Level Logger) was placed in a 4", perforated PVC well set in the Northwest corner of the gravel bed. This was the lowest point in the gravel system. The well was encased by filter fabric to prevent fine particles from entering the well. The pressure transducer recorded water pressure every minute and stored the data until downloaded bi-monthly. A V notched weir box was also installed outside the system at the outfall. A pressure transducer was placed in the weir box to record stormwater effluent discharge every minute from the system. Rainfall data were collected every minute at the gravel bed site using a tipping-bucket rain gauge.

A 2" caliper baldcypress tree was planted in the mineral soil bed of the system and one was planted in the lawn next to the gravel bed to compare growth rates. Clear, plastic mini-rhizotron tubes were installed to observe root growth in the mineral bed and in the gravel profile. Four clear, plastic tubes were placed at various locations around the mineral soil bed (Fig. 8); two completely in the mineral bed and two in the interface between the mineral and gravel layer.

Figure 8 Location of monitoring equipment (left) and finished project (right). Perforated PVC gravel bed monitoring well (1); mini-rhizotrons in the mineral bed (2); mini-rhizotrons in the mineral/gravel interface (3).

Material Costs

The cost of this system was relatively inexpensive for the area covered. The major expense was the gravel (Table 1). Labor and equipment costs were not considered because the project was installed using municipal employees and equipment. Monitoring equipment costs were included.

Table 1 Cost of gravel bed construction not including labor and equipment.

Mineral Soil Bed Form Materials			
Item Description	Unit Price	# Units Needed	Total
Oriented Strand Board Sheathing 7/16"	$8.65	4	$34.60
#2 Kiln-dried whitewood lumber 2x4 12'	$4.68	1	$4.68
#8 x 1.25" Wood screw – 110 count	$6.28	1 box	$6.28
3" Bi-metal arbored hole saw	$19.98	1	$19.98
8 oz. Non-woven geotextile fabric (15 ft. wide)	$2.35	6 ft	$14.10
Under-Drain System Materials			
Perforated PVC Sewer Drain Pipe – 4" x 10'	$8.65	4	$34.60
Solid PVC Sewer Drain Pipe – 4" x 10'	$8.65	4	$34.60
PVC Cap Fitting – 4"	$1.98	2	$3.96
PVC Sewer Drain Elbow 90 degrees – 4"	$3.45	2	$6.90
PVC Sewer Drain Street Elbow 90 degrees – 4"	$5.38	2	$10.76
PVC Sewer Drain Sanitary Tee – 4"	$5.98	1	$5.98
PVC Cement and Primer	$8.48	1	$8.48
Drain Sleeve – 4" 100 feet	$21.98	1 box	$21.98
6 mil clear plastic sheeting – 20' x 100'	$98.00	1 box	$98.00
Gravel			
Quartzitic Sandstone – 0.75" Crushed Stone	$30.00	46 Yd^3	$1380.00
Trees			
15# baldcypress	$90.00	2	$180.00
Monitoring Equipment			
HOBO Water Level Data Logger (0-13 ft.) – Part# U20L-04	$299.00	3	$597.00
Weir box (built to fit site)	$450.00	1	$450.00
TOTAL			**$2861.90**

Observed Results

Hydrology

Rainfall and hydrology data were collected from 21 storm events in 2016 and early 2017. Rainfall totals ranged from 0.1 to 1.23 inches with an average depth of 0.45 inches. The gravel bed system was shown to generally retain stormwater runoff for rainfall less than 0.75 inches with few exceptions (Fig. 9).

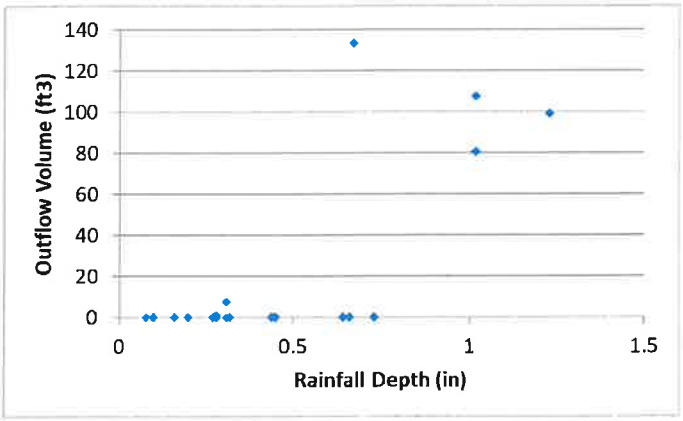

Figure 9 Gravel bed effluent discharge volume by rainfall depth. Significant discharge volume was generally not evident until the rainfall depth exceeded about 0.75 inches.

The gravel bed captured 100% of the runoff in 15 of the 21 recorded storm events, mostly from storms less than 0.75 inches (Fig. 10). The average capture percentage of the six storms having effluent discharge was 68%.

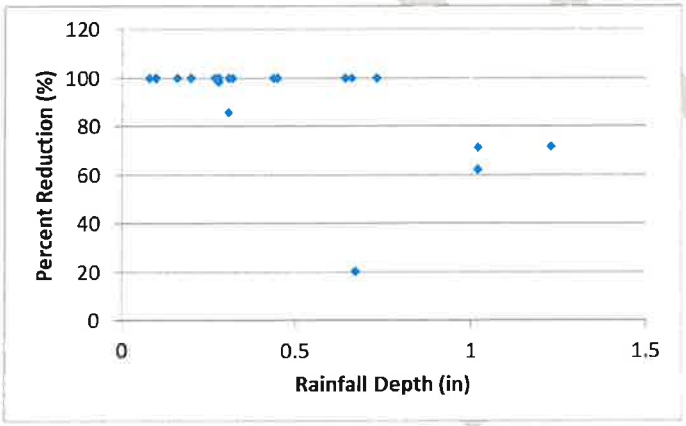

Figure 10 Capture rate of the gravel bed system from 21 recorded storm events.

From the monitoring data in the gravel bed and the weir box, water levels seemed to rise soon after rainfall began and water flowed from the parking lot into the gravel system indicating that the system functioned as expected (Fig. 11).

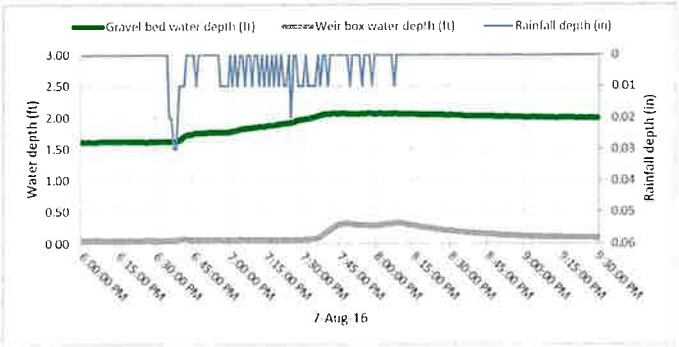

Figure 11 Gravel bed stormwater detention system functionality during a relatively light, steady rainfall event. As rain begins to fall water depth in the gravel system rises. Eventually, excess water from the gravel bed is discharged as observed by the weir box water depth.

For larger storms stormwater runoff was shown to be detained and delayed (Fig. 12), however, this delay may be dependent on the water level in the gravel system at the time of rainfall. For example, on July 26, 2016 a 1.22 inch rain fell on the parking lot and gravel system. The rainfall began at 7:52 p.m. and effluent discharge from the system was observed at 8:26 p.m., some 34 minutes later. For this rain event over 72% of the stormwater runoff was retained. Of the estimated 3200 gallons of rain falling on the parking lot, 741 gallons were recorded as discharge out of the gravel system.

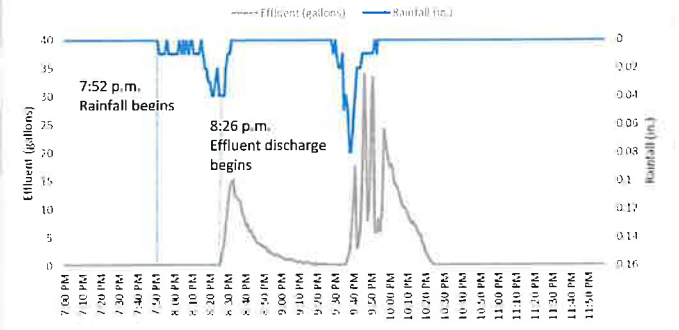

Figure 12 Rainfall (in inches) and stormwater effluent (in gallons) from the gravel retention system. For this rain event, effluent from the gravel system was observed approximately 30 minutes after the initial rain began to fall.

Data collected from this demonstration project showed that gravel-based stormwater detention systems have the potential for reducing runoff volume especially if the size of the underdrain system is adjusted such that the gravel bed is able to maximize its water holding capacity during a storm and release the stored water slowly. We used a four inch perforated PVC underdrain for this project, but perhaps using a smaller diameter pipe would reduce effluent volume and extend the flow over a greater period of time. Effluent discharge volume from this system was dependent on the stored water level at the beginning of a storm. Our system was lined thus inhibiting exfiltration into the surrounding soil

profile. Allowing the stored water to infiltrate into surrounding soil would help to increase volume capacity between storm events.

Tree Growth

Two, 2" caliper baldcypress trees were planted in April 2016; one inside the gravel system and one outside the system. The tree planted in the lawn outside the gravel bed was planted downhill of the system but was not given supplemental water after being planted. The tree did not survive the hot, dry summer and was dead by September 2016. The tree planted in the gravel system also was not given supplemental water but used the stored runoff in the gravel bed, and it survived. In May 2018, caliper diameter was 5.5" and in June 2019 it was 8.7". After three and a half growing seasons the tree in the gravel bed had increased diameter by 6.7". The crown spread by 2019 was 16', and the dripline was nearing the extent of the gravel bed (Fig. 13).

Figure 13 Baldcypress tree growing in gravel bed stormwater retention system from 2016 to 2019

Large, healthy trees need abundant, healthy roots. Root growth was observed in September 2016 and again in May 2018 using a lighted periscope with a camera inserted into the mini-rhizotron tubes. Toward the end of the 2016 growing season abundant root growth was observed in both the mineral soil bed and in the gravel profile (Fig. 14). Again in 2018, roots were evident in the gravel layer of the system. It was not possible to quantify the number of roots growing in the gravel profile of the system, but visual observations showed that roots were growing in the highly porous gravel layer.

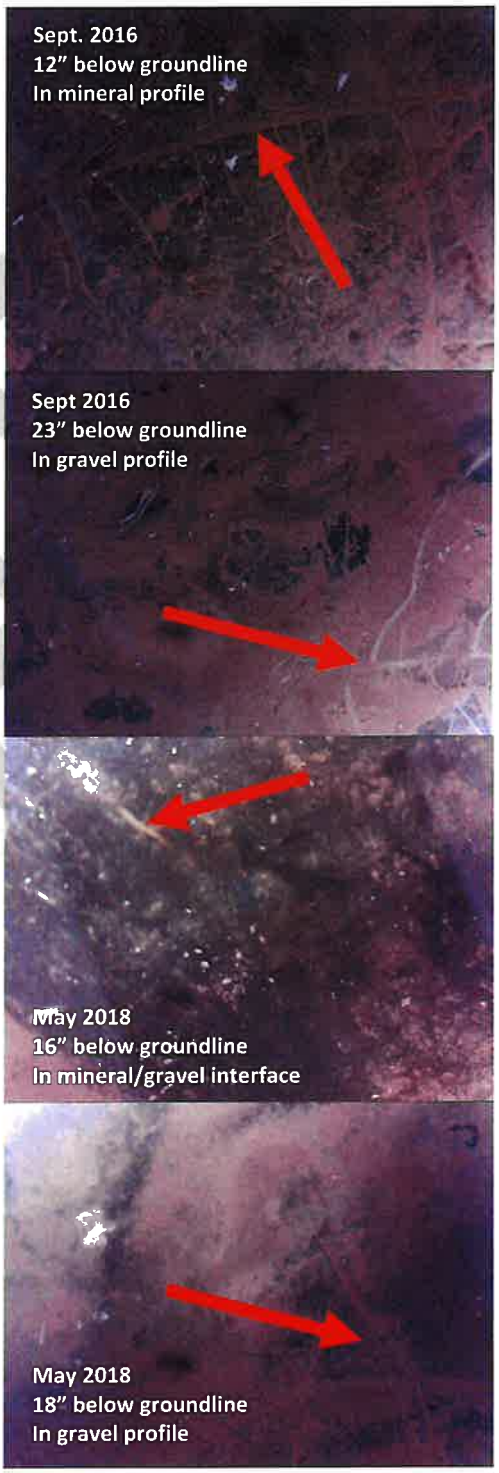

Figure 14 Root growth observed from mini-rhizotrons in mineral and gravel profile.

The abundant stem growth of the tree in the gravel bed system and the observation of root growth in the gravel profile is encouraging and indicate that this type of system may be feasible in ultra-urban areas to sustain tree growth. Using non-engineered top soil in the mineral soil bed did not seem to impede above-ground growth for the tree in this project. Jim Urban and DeepRoot recommend a minimum soil volume for urban trees[2]. Although this project has only four growing seasons of growth data, canopy diameter for this tree exceeds the projected mature tree size for the soil volume provided (108 ft^3). It is suspected that trees in this gravel-based system may not reach their potential mature size, but smaller trees in ultra-urban areas provide more benefits than no trees at all.

A complimentary greenhouse demonstration project using trees growing in perforated, mineral soil columns surrounded by gravel was conducted in 2019 to quantify root growth in the gravel profile over a growing season[3]. The trees showed abundant root growth into the gravel layer. This gravel system may provide a path for root growth to an area of higher mineral soil volume if available near the practice. Giving roots access to mineral soil could help trees in this practice reach their full growth potential.

Potential Uses

This type of system may be useful in large parking lots with gravel parking bays surrounding narrow mineral soil beds instead of raised planting islands to provide greater belowground volume for root growth (Fig. 15). Sidewalks and pedestrian plazas under which water could be stored would also be a good use for this system. Planting trees in long, narrow mineral beds surrounded by gravel provides shared mineral soil to maximize canopy growth.

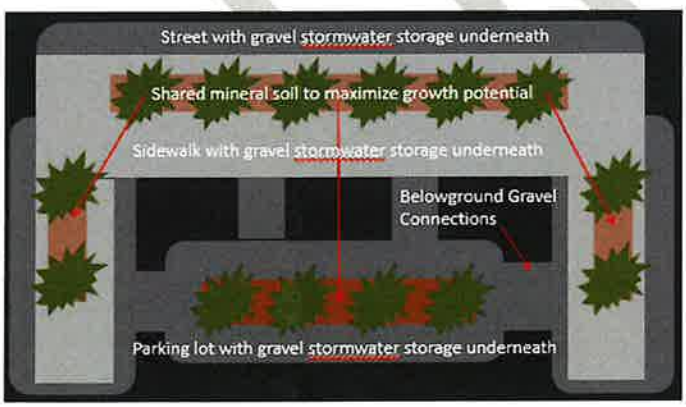

Figure 15 Potential uses of a gravel-based stormwater detention system

Conclusion

Typically in smaller communities parking lots take priority over tree canopy cover. Reduced tree canopy cover increases stormwater runoff and may not be very attractive to visitors. Providing adequate soil volume for tree growth can be expensive in highly impervious areas. The purpose of this demonstration project was to show the potential of an inexpensive, gravel-based stormwater detention system to store water for use by trees in ultra-urban areas without sacrificing needed parking space. This Green Stormwater Infrastructure system can maximize water-storage capacity by using gravel, which has greater pore space than soil (compacted or non-compacted), while providing increased belowground rooting volume for trees. Storing water in this way allows for greater infiltration into the existing soil layer helping to improve water quality downstream and has the potential for creating a more natural hydrologic runoff pattern in extra-urban areas.

Larger trees have greater leaf area which drives environmental services (i.e. energy conservation, reduced urban heat island, air pollution removal, stormwater runoff mitigation, etc.). Trees need an adequate volume of mineral soil to reach their full growth potential. Tree roots grow where there is water, oxygen, and nutrients. Stormwater runoff typically has essential nutrients in it for trees to utilize (i.e. N and P). It has yet to be determined how this gravel system impacts tree growth. Even if trees planted in this type of system are smaller than trees growing in a larger mineral soil bed, having some canopy cover is better than nothing to provide environmental benefits and attract potential visitors for the local economy.

Green Infrastructure Outdoor Learning Facilities for Lonsdale Elementary School

Prepared for Lonsdale Elementary School by the University of Tennessee, Knoxville and Socially Equal Energy Efficient Development (SEEED)

April 10, 2025

To: Knox County Schools Board of Education
400 W Summit Hill Dr SW, Knoxville, TN 37902

From:
Victoria Rexhausen
Post Doctoral Research Associate

PROJECT SUMMARY

The University of Tennessee, Knoxville (UTK), and Socially Equal Energy Efficient Development (SEEED), a 501(c)(3) in East Knoxville, would like to collaborate with Lonsdale Elementary School (LES) to install outdoor learning facilities to be used to teach learning modules about green infrastructure, stormwater, and forestry. The cost of installations will be donated to LESby UTK and SEEED. The cost of materials and labor for this project totals $9,025, which is outlined on page 4. Funding for this project is provided by the Inflation Reduction Act and the USDA Forest Service, Urban and Community Forestry Program, awarded to UTK.

The installations will include a gravel tree stormwater system (GTSS) on LES's campus. Page2 describea the project's scope, and an aerial photo indicating the project's location on campus can be found below (Figure 1). The GTSS will be outfitted with monitoring devices, including a water level data logger and rain gauge, exposing the students to citizen science and allowing hands-on activities to accompany in-classroom learning modules. Lessons will be carefully crafted to ensure these efforts integrate and don't detract from course content. Page 6 elaborates on lesson plan subjects and the corresponding TN State Science Standards.

Figure 1: Aerial photo indicating the location of the proposed installations on campus is on the left. The GTSS (indicated by a yellow square inside the red circle) will be located south of the campus's main building, adjacent to the parking area with a driveway on Gloria Garner Street. The blue shaded area within the red circle indicates the parking lot that will drain to the GTSS. The parking lot's curb cut will supply runoff to the GTSS, indicated by the blue arrows in the photo to the right.

GRAVEL TREE STORMWATER SYSTEM

Background

Gravel Tree Stormwater Systems (GTSS) were originally conceived by staff in the Urban Forestry South office in Athens, GA. In these systems, soils are excavated to a depth of approximately 3 ft within an 18 X 18 ft area specifically sized to trap stormwater runoff from a given catchment. The system is designed to, at a minimum, have a volume sufficient for a mature tree. Within this excavated area, a 6 ft x 6 ft x 3 ft wooden box is placed and filled with mineral soil (Figure 2). A tree is planted inside the mineral soil, and holes are drilled in the side of the cube to allow the tree roots to migrate into the surrounding area. Around this cube, in the remainder of the excavated area, washed #57 stone is placed providing space for the roots to grow and access the incoming stormwater runoff. The stone provides structural stability as well as void space for runoff storage. This system is designed to mimic bioretention (i.e., rain gardens) and functions similarly. However, by using stone instead of bioretention media, the cost of these systems is nearly one third that of more traditional bioretention areas, making it an extremely attractive potential alternative. Further, these systems are specifically designed to promote tree health, resulting in a tree-centric approach to stormwater management where benefits such as shading, evaporative cooling, and ecosystem services the tree provides are still realized. One of the first GTSS was installed in East Knoxville in a collaborative effort between the U.S. Forest Service, the University of Tennessee (UT), and the City of Knoxville Urban Forestry Division. Observations showed the system was well functioning, and tree growth and health in the system were excellent.

(a) (b) (c)

Figure 2: Gravel tree stormwater system pilot installation in East Knoxville. (a) gravel being added to the excavated area with tree box installed, (b) system after completion of construction, and (c) project after tree maturation (pictures courtesy of Eric Kuehler)

Proposed Installation

A GTSS is proposed to be built adjacent to the parking area south of LES's main building on Gloria Garnet Street. This location is This location receives sheet flow from most of the parking lot during rain events. GIS data was used to determine a watershed size of approximately 5,000 ft^2, with an anticipated stormwater volume of approximately 400 cubic feet resulting from a 1-inch rain event. An aerial photo describing the location of the proposed site is included (Figure 1).

Upon approval of this proposal, survey equipment will be used to determine the exact topography of the proposed build site. UT will create design plans for the location based on survey results and oversee construction from local contractors. Contractors will be fully supervised by UT staff and undergo a background check/TAPS clearance. The GTSS will cost approximately $7,500 to build, including labor, heavy machine operation, and materials. The school's faculty and students will be invited to help with planting the tree in the GTSS. The project's PI, Dr. Jon

Hathaway, has extensive experience with such installations and has successfully completed a number of similar design and construction projects in both academic and industry settings.

BUDGET

The following table outlines the estimated cost of materials and labor. The entire cost of this project is provided by the Inflation Reduction Act and the USDA Forest Service, Urban and Community Forestry Program, and will be a donation to Knox County Schools.

Budget Outline

Item	Cost/Unit	Quantity/unit	Cost
PLANTS			
Bald Cypress Tree for GTSS	$90	1	$90
MATERIALS			
Gravel (3⁄4" crushed, quartzitic sandstone)	$30 / yd3.	40 yd3	$1,200
Soil (from site)	-	100 ft3	-
Riverstone	$385 /ton	1 ton	$385
PVC Drain Pipe (4" diameter, 10 ft length)	$10 / section	4 sections	$40
Perforated PVC Sewer Drain Pipe (4" diameter, 10 ft length)	$10 / section	4 sections	$40
PVC Elbow (90 degrees, 4" diameter)	$5.38	2	$10.76
PVC Cement and Primer 100 feet $21.98 1 box $21.98 6 mil clear plastic sheeting – 20' x 100' $98.00 1 box $98.00	$8.48	1	$8.46
Drain Sleeve – 4"	$21.98 / box	1 box	$21.98
6 mil clear plastic sheeting	$98	1 box	$98
Non-woven geotextile fabric (15 ft. wide)	$2.50 / ft	6 ft	$15
Wood (7/16" Oriented Strand Board)	$14.78 / 4x8 board	4 boards	$59.12
#8 X 1.23" Wood Screw	$6.28 / 100 count box	1 box	$6.28

LABOR			
Contracted GTSS installation			$5,800
Educational Supplies			
Rain gauge with logger	1	$600	$600
Depth Sensors	2	$350	$350
Soil Moisture Sensor with logger	1	$300	$300
TOTAL			**$9,025**

TIMELINE

Installation

Upon approval from the school board and facilities management, UTK will immediately begin work to install the GTSS and Raingarden before the start of the upcoming school year. UTK will coordinate with LES to invite students to participate in the tree planting.

Maintenance

This project's scope allows for 4 years (Fall 2025 - Spring 2029) of dedicated maintenance and landscaping from the University of Tennessee. During this time, UTK and forestry interns funded by this project will be responsible for care of the tree in the GTSS. UTK will provide ample instruction to the school's faculty and staff during this time for the prolonged upkeep of these resources, which will not be labor intensive once the tree is well established.

CURRICULUM

Our team plans to install these green infrastructure practices not only to improve ecosystem services on the campus of Lonsdale Elementary School but also to use them as an avenue for teaching K-12 students about green infrastructure, stormwater, and forestry. Team members will coordinate with William Smith, Executive Principal at LES, to develop a project plan to accompany the donated facilities. We will deliver in-classroom learning modules and expose students to citizen science, instructing them on methods to monitor tree health and hydrological processes in the green infrastructure practices. The following sections outline which sections of the TN State Science Standards best correlate with the learning opportunities provided by our proposed installations. The state science standards that link to the curriculum that can be linked to this outdoor learning facility are outlined below by grade level.

Kindergarten

K.ESS2: EARTH'S SYSTEMS

- Analyze and interpret weather data (precipitation, wind, temperature, cloud cover) to describe weather patterns that occur over time (hourly, daily) using simple graphs, pictorial weather symbols, and tools (thermometer, rain gauge).
- Develop and use models to predict weather and identify patterns in spring, summer, autumn, and winter.
- rainfall

K.ESS3: EARTH AND HUMAN ACTIVITY

- Use a model to represent the relationship between the basic needs (shelter, food, water) of different plants and animals (including humans) and the places they live.
- Explain the purpose of weather forecasting to prepare for, and respond to, severe weather in Tennessee.
- Communicate solutions that will reduce the impact from humans on land, water, air, and other living things in the local environment.
- Highlight flooding and its causes as "severe weather to prepare for" and green infrastructure as "solutions that will reduce the impact from humans on land, water, air, and other living things in the local environment"

K.ETS2: LINKS AMONG ENGINEERING, TECHNOLOGY, SCIENCE, AND SOCIETY

- Show the students a rain gauge

First Grade

1.PS3: ENERGY

- effects of sunlight on the Earth's surface

1.LS1: FROM MOLECULES TO ORGANISMS: STRUCTURES AND PROCESSES

- Analyze and interpret data from observations to describe how changes in the environment cause plants to respond in different ways
- Recognizing the structure of plants and describe the function of its parts

1.LS2: ECOSYSTEMS: INTERACTIONS, ENERGY, AND DYNAMICS

- Conduct an experiment to show how plants depend on air, water, minerals from soil, and light to grow and thrive.
- Recognize how plants depend on their surroundings and other living things to meet their needs in the places they live.

1.ETS1: ENGINEERING DESIGN

- Solve scientific problems by asking testable questions, making short-term and long-term observations, and gathering information.

1.ETS2: LINKS AMONG ENGINEERING, TECHNOLOGY, SCIENCE, AND SOCIETY

- Use appropriate tools (magnifying glass, basic balance scale) to make observations and answer testable scientific questions.

Second Grade

2.ESS2: EARTH'S SYSTEMS

- Compare the effectiveness of multiple solutions designed to slow or prevent wind or water from changing the shape of the land.

2.ETS2: LINKS AMONG ENGINEERING, TECHNOLOGY, SCIENCE, AND SOCIETY

- Use appropriate tools to make observations, record data, and refine design ideas.

Third grade

3.LS4: BIOLOGICAL CHANGE: UNITY AND DIVERSITY

- Explain the cause and effect relationship between a naturally changing environment and an organism's ability to survive.
- Infer that plant and animal adaptations help them survive in land and aquatic biomes.
- Explain how changes to an environment's biodiversity influence human resources.

3.ESS2: EARTH'S SYSTEMS

- Explain the cycle of water on Earth.
- Associate major cloud types (cumulus, cumulonimbus, cirrus, stratus, nimbostratus) with weather conditions.
- Use tables, graphs, and tools to describe precipitation, temperature, and wind (direction and speed) to determine local weather and climate.

3.ESS3: EARTH AND HUMAN ACTIVITY

- Explain how natural hazards (fires, landslides, earthquakes, volcanic eruptions, floods) impact humans and the environment.
- Design solutions to reduce the impact of natural hazards (fires, landslides, earthquakes, volcanic eruptions, floods) on the environment.
- This can include urban flooding and the ways it can be mitigated, including green infrastructure
- This course can encourage kids to think of trees as one of the solutions to the problem

Fourth grade

4.LS2: ECOSYSTEMS: INTERACTIONS, ENERGY, AND DYNAMICS

- Support an argument with evidence that plants get the materials they need for growth and reproduction chiefly through a process in which they use carbon dioxide from the air, water, and energy from the sun to produce sugars, plant materials, and waste (oxygen); and that this process is called photosynthesis.
- Plant processes like photosynthesis and transpiration (cooling urban environments)
- Ecosystem balance: removing a species from an ecosystem and how it affects the system

4.ESS3: EARTH AND HUMAN ACTIVITY

- Create an argument, using evidence from research, that human activity (farming, mining, building) can affect the land and ocean in positive and/or negative ways.
- Use data to investigate the impact of human-built environments on water cycling/storage

4.ETS2: LINKS AMONG ENGINEERING, TECHNOLOGY, SCIENCE, AND SOCIETY

- Discuss stormwater engineering systems and the solutions (/ecosystem services) contributed by trees
- How do living things impact these systems/solutions?

Fifth grade

4.ETS2: LINKS AMONG ENGINEERING, TECHNOLOGY, SCIENCE, AND SOCIETY

- While the content best covered by these learning facilities does not correspond with state science standards as clearly as in other grade levels, engineered stormwater technologies could be highlighted in

4.ETS2: Links Among Engineering, Technology, Science, and Society and be used for a long term monitoring study/science experiment.

Dear Kathleen,

The Dollar General Literacy Foundation is pleased to award your organization a grant in the amount of $1,600. We recognize the important role your organization plays in the lives of teachers, students and families. We hope these funds will help strengthen your literacy efforts.

Enclosed you will find your grant check along with several important reminders. Please review these documents carefully and note important dates and requirements.

Thank you for working to build brighter futures through your literacy efforts. We are proud to support your organization and wish you every success in the coming year.

Sincerely,

Denine Torr

Mission Statement

Cedar Bluff Middle School's mission is, "Strive to succeed. Empower each other. Invest in our future."

This school mission works in tandem with the Knox County Schools Library Media Services Department, which strives to "invest our time and skills in nurturing, promoting, and advocating for a learning environment that maximizes services and equitable access to resources. Our library programs are essential to a school-wide culture of innovation, achievement, and collaboration."

Statement of Impact

will result in 1) higher interest and participation in summer reading, 2) self-reflection on reading habits, and 3) increased circulation of newer and digital publications that may be unfamiliar to students.

Project Design

Funding for this project will go directly to providing students with engaging books to keep them reading over the summer in two specific ways:
1) Copies of the 2025 Volunteer State Book Award (VSBA) Middle School nominees.
Upon the spring publication of the 2025 VSBA Middle School nominees (by the Tennessee Association of School Librarians, or TASL), approximately half of our grant funding will be used to purchase multiple copies of each nominated title. Identified students (based on teacher/librarian recommendations and student self-identification) will be provided informational materials to help them choose one of the nominated books to read over the summer. This will give these students a CHOICE in a HIGH-QUALITY book, in a manner that is both authentic and rewarding. Consequently, students can also get a "jump start" on the three-book target for eligibility to vote on the VSBA award the following spring.
2) 24/7 access to graphic eBooks online through Comics Plus.
Half of the grant funding will be used to purchase a year-long subscription to Comics Plus, an online database of multi-user graphic formatted texts. ALL Cedar Bluff Middle School students (with internet access) may access these books, on demand, over the summer months without leaving their homes. Because the database will be available throughout the year, students will be given instruction, ongoing promotions, and practice accessing Comics Plus so that it becomes a go-to resource for pleasure reading.

Timeline

April 2025: Target students for VSBA books are identified (by teacher/librarian recommendations and self-identification) and provided informational materials about the award and nominees. The Tennessee Association of School Librarians (TASL) releases the 2025 Volunteer State Book Award nominees.
May 2025: Summer Reading Grant funding is reviewed and formally accepted by Knox County Schools (KCS) Board of Education. Hard copies of the VSBA nominees are purchased with grant funding. Selected students are allowed to choose their VSBA books to take home.
June-July 2025: Target students read their hardcopy books and all students access Comics Plus online during summer vacation. Library Media Specialist (LMS) monitors Comics Plus usage data through administrative reports.
August 2025: As target students return to school, the Library Media Specialist will assess project success through a formal survey, individual student circulation reports, and informal approaches, like librarian-student dialogue (see "Assessment Method" and "Measuring Results" below). Students will be invited to celebrate their reading and participate in a Volunteer State Book Award kick-off, including creating a shelf-talker, bookmark, and/or other visual overview of their chosen book (flier, slide, etc.).
November 2025: A one-year subscription to the online database Comics Plus will be renewed using grant funding, providing continuity and much needed access throughout the school year and summer.

Weekly Instructional Hours Per Individual Served

1 Hours

Delivery of Instruction

- Blended Model/Hybrid
- Classroom
- Small group

Assessment Methods

The methods for assessing effectiveness include
1) VSBA target student participation and engagement.
Participation of the VSBA target students will be monitored by engagement (self-identification and anecdotal), follow-through, and a survey at the start of the new school year. The survey will prompt reflection on students' independent experiences, including a book rating and self-assessment of their reading interests and habits. Individual circulation numbers for each student as well as participation in the VSBA spring vote will also be monitored to see if target students increase their library usage and how this compares to their peers.
2) Comics Plus circulation reports.
Comics Plus, powered by Library Pass, is the online subscription service for graphic novels, which is vetted by Knox County Schools Library Media Services. This platform provides an administrative portal that will enable the LMS to view patron usage numbers for specific time periods, including summer vacation.

Measurable Results - Defining Success

Measurable results for this project will include
1) Participation in the VSBA program.
100% of participants will complete the formal survey containing self-reflection prompts. At least 80% of the target group will participate in creating a promotional overview of their chosen book. At least 50% of the target group will read enough nominated books (three total) to cast their vote for the VSBA award in the spring. As a result of the influx of readership and student-created promotions, more students

2) Comics Plus usage reports.
Administrative reports will indicate sustained usage throughout summer vacation (minimum of 45 books accessed each month), even when students are not receiving direct instruction and in-class reminders.

Available Technology

Students can access our school's Comics Plus subscription online either through the school's website or the library's Canvas course (our Learning Management Software). During the school year, students are 1:1 with individually assigned Chromebooks. In addition, students attending summer learning maintain access to their Chromebooks through that program.

DGLF Budget Narrative

The $1,600 funding will cover the two primary initiatives of this program: 1) hard copies of the 2025 Volunteer State Book Award nominated books; and 2) a year-long subscription to the Comics Plus eBook database. $716 will be put toward the purchase of multiple copies of the books on the VSBA nominee list, announced in the spring of 2025. These purchased books will then be selected by our target students (determined by teacher/librarian recommendations and self-identification) to take and read over summer vacation. Ideally, physical ownership will strengthen students' emotional investment in the program and they will be eager to promote their book, share their experiences, and continue reading--a minimum of three nominated books--to qualify for VSBA voting in the spring. The ultimate ordering decision will be determined by each book's market availability, cost, and formatting options–paperback or hardbound. The remaining $884 will be used to purchase a year-long subscription of the Comics Plus database, which all students can access with internet and a device, including their school-issued Chromebooks during school and the summer learning program. Because students will receive ongoing instruction and promotion regarding Comics Plus during the school year, they'll feel comfortable accessing this familiar resource independently over their summer vacation.

To: ANNA SCHNUCK <anna.schnuck@knoxschools.org>
Subject: Request #R-2025-08445 has been approved for Studying Spanish and Mayan Languages in Guatemala

CAUTION: External Email. This message originated from outside of the KCS e-mail system.

Dear Anna,

Congratulations! I am pleased to inform you that you are a recipient of an NEA Foundation Learning & Leadership grant for $1,734.00 for the Spring 2025 round of Grants to Educators. Your proposal stood out among many strong applications, and we are honored to support you and your students.

To support your proposal, The NEA Foundation will send a check to you or your fiscal agent, should you choose to use one, upon:

1. Verification of your fiscal agent (if applicable) and submission of a W-9 for you or your fiscal agent. You will receive a separate email with instructions for submitting your information tomorrow.

2. Receipt of the grant agreement through DocuSign which will be sent to you for electronic signature after you verify your fiscal agent (if applicable) and submit your W-9.

If your grant award amount is more than $3,000, you will receive the remaining $500 after submission of your final report, which is due Friday, May 23, 2026.

Note: your application on the grant portal will appear as "Under Review" until the grant agreement is signed.

Throughout the grant period, we welcome any questions you may have as well as any interim updates you may care to offer on your project. Please direct those questions and/or updates to Emma Larson at elarson@nea.org.

By accepting this grant, you agree to comply with all the terms specified in this letter, the

signed grant agreement, the original grant application, and the published guidelines of the Learning & Leadership Grant program.

Thank you for your dedication to your students and your commitment to public education.

We look forward to working with you!

Best,
The NEA Foundation

Project Summary

Please provide a short, 100-word summary of your project and its intended impact.

This project will fund a language and cultural immersion experience in Guatemala. This experience includes two weeks of Spanish classes in the Mayan village of San Pedro La Laguna, one week of Spanish classes in the town of Quetzaltenango, and a trip to the Academia de las Lenguas Mayas in Huehuetenango. My intention is to achieve Spanish fluency, gain a cultural understanding of the different regions and Mayan dialects of Guatemala, and bring back language teaching strategies I can use in my own classroom so that I can better connect with my ELL students and their families.

Describe the professional development plan. What are your goals in this learning? What professional standards and learning resources do you plan to address and use? What is the structure/sequence of learning? When and where will learning take place? (2500 words)

This professional development plan is to spend three weeks in Guatemala in July of 2025 to study Spanish, deepen my cultural understanding of the country and its school systems in which the majority of my ELL students come from, and learn how to help preserve the Mayan languages spoken in Guatemala for my students. These goals are directly related to many Tennessee state professional standards on the TEAM rubric including Teacher Knowledge of Students, Creating a Respectful Culture, and School and Community Involvement. As I come closer to Spanish fluency and learn more about Guatemalan languages and cultures, it will allow me to tailor my instruction to best meet my students' needs and better communicate with my students and their families. My plan begins in the Mayan village of San Pedro at San Pedro Spanish School where I will enroll in their intensive Spanish language program and live with a local host family. This school has been in operation for 27 years and hires local language instructors to teach

Spanish lessons. I also plan to visit the Academia de Lenguas Mayas de Guatemala (also known as ALMG) to learn about the orthography for the language of Tz'utujil, the Mayan language spoken in the village of San Pedro. On July 20th, I will travel to Quetzaltengo, which is known for its Spanish language programs and rich Mayan culture. I will enroll in Spanish classes and stay with a host family through Utatlan Spanish School. The indigenous language of Q'eqchi' is spoken in this region and I plan to study at the Quetzaltenago location of the Academia de Lenguas Mayas,bringing back resources for my classroom. On July 24th, I will travel to Huehuetenago to learn more about the Mayan dialect of Akateko at the Academia de Lenguas Mayas. Speaking with as many language experts as possible while I am in these different regions and visiting libraries with ancient texts will help me better gain a better understanding of the importance of these languages and how to incorporate them into my instruction. Participating in these rigorous Spanish courses and being immersed in the language by living with a host family will help me reach my long term goal of becoming fluent in Spanish. These classes will also help me refine my language teaching strategies in my own classroom. Lastly, it will deepen my cultural understanding of my students' backgrounds.

Question 2: How would the proposed professional development strengthen your practice and advance your professional goals? How will this professional development benefit your students? How will this professional development benefit other educators, your colleagues or the wider field? (2500 words)

Being an ELL teacher, I have always been interested in learning about the language acquisition process and the cultural backgrounds of the students that make up our community. At our school, we have 106 ELL students who speak languages other than English. Of these students, the majority are from Guatemala. These students speak Spanish and also Mayan languages such as Akateko, Mam, Chui, and others. This year I have been working hard towards my goal of acquiring the Spanish language so that I can better communicate with my students and their families. Through taking Spanish classes online, participating in conversation clubs with native Spanish speakers, and

practicing my Spanish with my students, I have been able to reach an intermediate level of Spanish. This ability has allowed me to translate basic conversations during parent meetings, comfort students and families who are new to the country, and make phone calls home when necessary to Spanish speaking families. That being said, I am still very far from fluency, and there are situations where communication is still difficult. Three weeks of complete Spanish and cultural immersion in Guatemala would definitely be a step in the right direction towards fluency. If I was an advanced Spanish speaker, I would be able to translate academic content for my students when needed, and have more in depth conversations with students' families. While a lot of our students speak Spanish, we also have a large population who only speak Mayan languages. Students who only speak Akateko, or any of the other 27 languages indigenous to Guatemala, tend to struggle with literacy. These Mayan languages are not commonly written, so they have little background knowledge of reading or writing in their native language. However, a spelling system, or orthography, was recently created to preserve this language. I plan to learn about this orthography through the various locations of Academia de Lenguas Mayas so that I can bring it back to my classroom and connect it to the English alphabet to better serve these students. Experiencing language learning through the lens of a student and digging deeper with language teaching strategies will strengthen my practice as an ELL teacher. I will have the opportunity to share my learning with colleagues and administrators in an after school professional development and district-wide on district learning days.

How will the benefits of this project extend beyond the grant period? How will you continue sharing the knowledge gained in this project? Describe sharing in relation to your colleagues, students, and administrators. (2500 words)

This language learning, cultural research, and refinement of language teaching practices will not end once this professional development experience is over. I will continue learning Spanish once I return from Guatemala through online classes, leading a Spanish conversation club with community members, and practicing my Spanish with students and their families. My long term goal is to become a resident interpreter for my

school community so that when there is a parent meeting, a presentation, a lesson, or a document that needs to be interpreted, I can assist with this so that information is more quickly accessible to our students and their families. Our school district has interpreters that work with our school, but when information comes straight from a teacher, it can be more meaningful. Having another fluent Spanish speaker on staff will be transformative in the lives of colleagues, students, and administrators. While I know three weeks of Spanish classes will not automatically transform me into a fluent Spanish speaker, it will definitely be a step in the right direction, and I will continue learning until I reach this goal. When it comes to sharing the knowledge gained surrounding Mayan languages, I hope to share this learning with colleagues and students in several ways. For example, I hope to create a poster that can be hung in every classroom in my school that includes the Mayan alphabet and how it relates to the English alphabet. This would greatly benefit all students. It would make the students from Guatemala feel more welcome and confident in the classroom andspark the curiosity of our American students. There are very few materials and resources available online regarding these languages, but after speaking with language experts over the phone at the Academia de Lengua Maya in various locations of Guatemala, they have many print resources in these spaces that I could use to help me with this project. I also plan to host a professional development at our school and for the district about how these languages and Guatemalan culture can be incorporated into the classroom. Our supervisors use professional development days to allow teachers to present their new learning, and I would take this opportunity to share all of the knowledge I gain through this experience. Thank you for considering this grant. I am entirely committed to these goals. Receiving this grant will assist me in achieving them as quickly as possible.

Budget:

HE NEA FOUNDATION

UITY. EXCELLENCE. OPPORTUNITY.

Learning & Leadership Grants

DONATE (HTTPS://WWW.NEAFOUNDATION.ORG/DONATE)

LEARNING & LEADERSHIP GRANTS

Educators are the backbone of our public education system, yet all too often, don't have resources at their disposal to prioritize their professional learning journeys. Learning and Leadership Grants enable educators to grow their leadership skills and invest in professional development to maximize their impact inside and outside the classroom.

Application Timeline

APPLICATION PERIOD

Monday, June 16 - Monday, September 15

NOTIFICATION: TBD | PLEASE REGISTER BY SEPTEMBER 11TH

Overview

Learning and Leadership Grants are available to individual educators or groups of educators who are pursuing high-quality professional learning experiences that will enhance their classroom teaching, leadership skills, or professional partnerships.

- **Individuals** to participate in high-quality professional development like summer institutes, conferences, seminars, travel abroad programs, or action research.
- **Groups** to fund collegial study, including study groups, action research, lesson plan development, or mentoring experiences for faculty or staff.

Learning and Leadership grants are intended to provide resources for educators hoping to engage in professional learning that can be implemented in their classrooms.

We do not fund tuition or board certification.

Application Registration

The NEA Foundation recently transitioned to a new grants application system to provide an upgraded experience for our applicants and grantees. To receive access to an application, **follow the steps below**!

If you have any questions, please contact GrantsAndPrograms@nea.org (mailto:GrantsAndPrograms@nea.org).

1) Register

2) Purpose

3) Provide Required Information

4) Approval

After you submit your registration, our team will review your information and verify your NEA membership status. This process may take up to 3 business days.

Once approved, you will receive an email with your login information, granting you access to the portal and application forms.

If your NEA membership is not active, you will not be granted access to the application portal.

Funding

Learning & Leadership grants will fund projects up to **$5,000**. Grants fund activities for 12 months from the date of the award.

Eligibility

Applicants must be teachers, education support professionals, or specialized instructional support personnel and must be current NEA members. Current NEA Foundation grantees are ineligible for this funding opportunity. A successful proposal will also make an individual ineligible for other NEA Foundation funding opportunities, until the grant is successfully completed and closed out.

**Education support professionals (ESPs) are defined as: paraeducators, school bus drivers or other transportation staff, custodial and maintenance staff food services staff, school nurses, health aides and other health and student services staff clerical staff, security staff, skilled trades staff, and technical services staff.*

**Specialized instructional support personnel (SISP) include professionals such as school counselors, psychologists, social workers, occupational therapists, library media specialists, speech pathologists and others.*

Knoxville, TN 37902

Subject: Donation for Flooring Installation at Vine School Health Center

Dear Members of the Knox County Board of Education,

I am writing to share some exciting news regarding the Vine School Health Center. We are thrilled to announce that we've received a generous donation from a philanthropic foundation, to fund the installation of new flooring within your facility.

Furthermore, the University of Tennessee will be covering all associated costs for the flooring materials and labor for painting and flooring (*totaling $46,993.55*). This collaborative effort will significantly enhance the quality and appearance of the health center, providing a more modern and welcoming environment for the patients and families we serve.

We are incredibly grateful for this support, which will allow us to make these important improvements without impacting the county's budget. We believe this investment will greatly benefit the Vine School community.

Thank you for your continued support of the Vine School Health Center.

Sincerely,

Victoria Niederhauser

Knoxville, TN 37917

Dear Justin:

It is my pleasure to nominate Laura Johns to the Knox County Air Pollution Control Board.

Ms. Johns, a chemical engineer, has worked for the past 24 years at Dow Chemical. She has held progressively responsible positions at Dow Coatings Materials in Knoxville, including the site's senior manufacturing director. She currently serves as Dow Coatings Americas Manufacturing Director.

Ms. Johns professional experience and Dow Chemical's significant operations in Knoxville make her an ideal person to serve on this board.

Please don't hesitate to let me know if I can provide additional information.

Sincerely,

Mike Odom
President & CEO

KNOX COUNTY
COMMISSION

agency personnel for their communities. Represent IPS on the system wide Diversity Advisory Council. Assisted in chairing or participating in search committees for Vice President and Director vacancies for the University. Interact with senior leaders across the UT system, elected officials, LEIC board members and stakeholders on a regular basis. Managed and wrote grants securing both federal, state and private funds. Involved in development initiatives that provided funding for programs. Handled human resources related items to include hiring, training, discipline and dismissals as well as budget and facility issues associated with the Center. Presented on a variety of topics; agency initiatives, leadership, diversity, homeland security, domestic violence, etc.

Program Manger, National Forensic Science Institute, 2008-2009

Act as program manager to the University of Tennessee's Law Enforcement Innovation Center, providing oversight of the National Forensic Science Institute. Manage the National Forensic Science Academy, a ten-week, hands-on training program for criminalistic officers as well as specialized training components. Wrote and managed grants. Established relationships with stakeholders, participants, future customers, potential partners and funding sources.

KNOXVILLE POLICE DEPARTMENT, August 1979 to April 2008
Authorized sworn officer strength: 416
Non-sworn employees: 91
Annual Budget: $41 million
Accreditation: Department since 1992, Training Academy since 2004

Deputy Chief of Police, Division Commander, 2002 to 2008

Assistant to the Chief of Police, providing oversight of the Department. During the Chief's absences, assume responsibility for all operational issues. Routinely provide administrative support and counsel to the Chief and represent him to other city departments and government agencies, as well as neighborhood communities. As a member of the command staff, respond as needed on a twenty-four hour / seven day a week basis to events requiring specific administrative oversight. Regularly represent the Department when policy issues are discussed on issues of operational activities, homeland security, discipline, litigation issues, budget, planning, training, personnel issues, communications, fleet management, technology, special projects and community meetings. Interact with the public safety entities of other city, county, state and federal agencies. Work closely with the Mayor and City Council and participate in media releases both by interview and presentation. Also function as liaison for the Department in Homeland Security issues.

Previously served as Division Commander for the Criminal Investigative Division from July of 2007 to April 2008. Division is responsible for investigating crimes against the community, persons, and property and pursuing successful prosecutions in our judicial system. Partner with various federal and state agencies, as well as other adjacent law enforcement organizations to enhance the safety of our community. Task forces include Internet Crimes Against Children, JTTF, ATF, U.S. Marshals, and DEA.

Served as Division Commander for the Support Services Division from 2002 till 2007, responsible for a wide range of departmental activities, including assistant to the Chief of Police, homeland security, technology, program development, media relations, training, personnel administration, investigation of departmental personnel, adjudication of performance deviations, review of budgetary issues, grants

administration, and relationships with other city and government agencies and neighborhood communities. Oversaw and advised direct report work units which include: Records Management, Evidence and Property, Central Supply (acquisition and distribution of supplies for everyday operations), Technology (in-car camera systems, mobile dispatch terminals, radio communications, red light camera enforcement), Training, the School Resource Officer Program and the Safety Education Unit (SEU). The SEU comprises the Crime Prevention and Neighborhood Watch activities, DARE, and law enforcement educational programs such as Safety City.

Provide training on leadership, supervision, and ethics to Departmental members. Host an employee forum at in-service training to address employee's issues and serve on the County's Justice Workgroup to address jail overcrowding and other prosecution issues.

Captain, Office of the Chief of Police, 2000 – 2002

Represented the Knoxville Police Department as the first Fellow of the Federal Bureau of Investigation's Leadership Fellows Program at Quantico, VA. As a staff member of the Leadership and Management Science Unit, provided instruction for the F.B.I.'s National Academy, International Law Enforcement Academy in Budapest, Hungary, and for F.B.I. field offices on leadership and supervision. Assigned to continue development of the Leadership Fellows Program and assisted in selection of additional Fellows. Interacted with and instructed students from throughout the United States and the world and developed important lessons contributing to own development and consequently to the success of the Knoxville Police Department.

As Staff Officer for the Chief of Police coordinated Homeland Security funding for the City of Knoxville, overseeing the Nunn-Luger-Domenici Grant ($310,000), Major Metropolitan Medical Response Grant ($600,000), and provided input for additional Homeland Security funding, training, and planning. Completed evaluation and submitted recommendations and specifications for specialized equipment purchase by the Department and the City of Knoxville. Helped develop response strategies should crisis situations occur.
Assisted the Chief of Police in reviewing internal investigations and disciplinary action resulting in reprimands, suspensions and terminations of employees, provided recommendations on policy decisions, training, selection and deployment of personnel (examples include entry level, both sworn and non-sworn, promotional, and special units), special projects, community involvement and assisted in budgetary decisions.

Lieutenant, Operations Division, 1996 –2000

As a field lieutenant for the West District, supervised 70 patrol officers and twelve sergeants. Made day-to-day operational decisions, assisted in the development of strategic plans for the District, worked with community groups and individuals to resolve concerns and complaints, evaluated employee performance standards, mediated complaints and grievances with employees, assigned officers based on need and abilities, completed reports and analysis of performance and assisted on budgetary requests.

As the coordinator for the Department's Public Housing Policing Program, selected, assigned, and evaluated over 200 sworn officers to provide supplemental policing in the public housing developments and adjacent communities. Acted as liaison with Knoxville's Community Development Corporation and the Department, ensuring overall effectiveness of the program, expenditures of grant funding of approximately $1,000,000 each year, reduction in criminal victimization, increase in arrests and law

enforcement activity, relationship with community, and grant related information. While under my oversight, violent crime decreased by 33% in the developments. Conducted citizen surveys of residents on safety concerns and community involvement.

Continued to provide leadership and supervision to the Department's Teleserve Unit, Cadet Program, and other specialized components of the Operation Division's Support Services Section.

Sergeant, 1992 - 1996

Assigned to the Patrol Division, supervising fourteen officers in the West geographic area of the City of Knoxville. Did yearly evaluations, provided resources for directed patrol activities, monitoring and motivating employees during daily patrol activities and providing direction during major investigations and critical incidents. Conducted traffic accident reconstruction and investigations.

Assigned to oversee the Teleserve Unit and Cadet Program for the Support Services Unit of the Patrol Division. Managed staffing and scheduling for the telephone reporting function, maintaining a reporting level of 40-45%. Scheduled and monitored the activity of the Cadets who were employed as report takers and issued parking citations while maintaining a college schedule.

Assisted and did field oversight of shifts of Public Housing Policing officers, maintaining supplemental police presence and activity in the seven separate developments.

Police Officer, 1979 – 1992

Conducted criminal and traffic investigations, responded to calls for service, prepared and submitted directed patrol activities, including plain clothes/undercover assignments. Performed as a Field Training Officer, providing one-on-one training and evaluations for new officers.
Worked as Night Shift Supervisor in the Detention Unit for eight months during the 1982 World's Fair, maintaining booking operations, identifications, fingerprinting, warrant checks, and inspections for as many as 150 inmates.

Assigned on a temporary basis to the Organized Crime Unit, working Vice Operations. Conducted search warrants, developed informants, and worked undercover / plain clothes. Also assigned to the Training Unit, for a period of nine months, assisting with the training of the 1991 Recruit Class. Provided training on specialized topics.
Assigned to supplemental duties, in addition to regular patrol responsibilities as member of the Special Operations Squad, Traffic Accident Reconstruction, Hazardous Materials Officer, Boating Officer, Breathanalyzer Operator, and assistant Public Information Officer.

Special Operations Squad, 1989 – 2001

Selected for the Department's Special Weapons and Tactics Unit. Assigned leadership responsibility as an entry team leader and executive officer, with final assignment as Squad Commander. Coordinated tactical plans and operations dependent on nature of Unit use.

Received increased responsibility from the Command Staff and Squad Commander, annually coordinating training, preparing budget, evaluated equipment (vests, weapons,

vehicles, fiber optics, shields, etc.) conducted personnel selection, made tactical recommendations during critical incidents and directed crisis planning. Advancement continued to Executive Officer and ended with Commander. Made the initial recommendation for the Knoxville Police Department to transition to less lethal options, conducted testing and evaluation on possible options, and finalized the purchase and policy on use of impact munitions and Tasers. Assisted in dignitary protection to include the President and Vice President of the United States.

The reputation of the Department's Squad and training was considered the best in our region, with adjacent agencies requiring attendance to Squad's training a prerequisite for their own Unit's members. During critical incidents our Squad is often requested to assist other agencies.

To Whom It May Concern:

I respectfully submit this letter of interest for appointment to the Knox County Sheriff's Office Employees' Merit System Board of Directors. As a licensed attorney practicing in Knoxville, I am deeply committed to the principles of fairness, professionalism, and integrity in public service, principles which form the very foundation of the Merit System's mission.

I currently work as an attorney with Banks & Jones, where I advocate for individuals across a wide range of socioeconomic, cultural, and educational backgrounds. This experience has strengthened my ability to approach complex situations with empathy, objectivity, and sound judgment. Prior to that, I clerked with the firm throughout law school, gaining valuable experience in legal research writing, and advocacy for others.

There Merit Council's purpose of ensuring a fair hiring, promotion, and employment practices within the Knox County Sheriff's Office, while protecting law enforcement personnel from political coercion, is essential to maintaining public trust and operational integrity. I believe my legal background, analytical skill set, and commitment to impartiality position me well to serve effectively on this Board.

I would be honored to contribute to the work of the Merit System Board and to support the mission of strengthening Knox County's law enforcement community through equitable governance. Thank you for considering my application.

Sincerely,

Dylan Shelton

NOTICE

TO: MEMBERS OF THE KNOX COUNTY COMMISSION
DEPARTMENTS, AGENCIES, AND NEWS MEDIA

FROM: OFFICE OF KNOX COUNTY COMMISSION

DATE: JUNE 30, 2025

The Knox County Commission shall receive letters and resumés/credentials from candidates seeking appointment to one (1) vacancy to serve an unfulfilled term expiring September 30, 2025 on the Knox County Sheriff's Office Employees' Merit System Board of Directors. Resumés should be submitted by mail, fax, e-mail or hand-delivered no later than ***Wednesday, July 16, 2025 at 4:00 pm*** to:

Office of the Knox County Commission
Suite 603, City County Building
400 Main Street
Knoxville, TN 37902
Phone: 215-2534
FAX: 215-2038
E-mail: commission@knoxcounty.org

The Knox County Commission will interview candidates at the Commission Optional Agenda Review meeting on Monday, July 21, 2025 at 3:00 p.m. in the Main Assembly Room of the City-County Building, 400 West Main Street.

The Commission's appointment shall be considered during the regularly scheduled meeting of the Knox County Commission on Monday, July 28, 2025 at 5:00 p.m. in the Main Assembly Room of the City-County Building, 400 West Main Street.

The following provisions apply in accordance with Ordinance O-22-6-103:

- Membership is completely voluntary, and members will receive no compensation for their service.
- The board meets quarterly, unless a special-called meeting is held.
- Applicants must be over 21 years of age; of good moral character; a citizen of the United States and the State of Tennessee; and a resident of Knox County.
- No person shall be eligible to serve as a member on the Merit System Board of Directors if they have previously been employed by the Knox County Sheriff's Office department within the ten (10) calendar years preceding his/her appointment by the Commission, or if any member of such person's immediate family is or becomes employed by the Knox County Sheriff's Office or the Knoxville Police Department at any time during such person's term of service as a member of the board council. For purposes of this section, "immediate family" shall include spouse, parent, grandparent, siblings, in-laws, or children
- Members will be required to attend an Ethics training provided by the Knox County Human Resources Department, as required of all employees of Knox County.
- The County Commission finds that the actual or apparent political influence on the members of the Merit System Board is injurious to the credibility of the board and undermines its mission as an apolitical civil service system for KCSO employees. Therefore, membership on the Merit System Board shall be conditioned upon the following:
    - No person holding a position on the Merit System Board shall take an active part in any political campaign while a member of the Merit System Board.
    - No member of the Merit System Board shall solicit money for political campaigns.
    - No member of the Merit System Board shall make any public endorsement of any candidate in any campaign for elected office.
    - A member of the Merit System Board shall not use such position to reflect the member's personal political feelings as those of the Sheriff's department or to exert any pressure on anyone to influence that person's political views.
    - No member of the Merit System Board shall display any political advertising or paraphernalia on such person's body or automobile while conducting business on behalf of the Merit System Board. However, nothing in this part shall be construed to prohibit or prevent any such employee Board Member from becoming or continuing to be a member of a political club or organization and enjoying all the rights and privileges of such membership or from attending any political meetings while not on duty. Such employee Board Member shall not be denied freedom in the casting of a vote.
    - During a Merit System Board Member's term of service, should that Member take active steps toward becoming a political candidate, such member shall immediately resign from the Board of Directors.

WHEREAS, Knox County has received a grant contract from the State of Tennessee, Office of the Secretary of State, Tennessee State Library and Archives for the provision of providing access to and circulation of library materials for the period beginning July 1, 2025 and ending June 30, 2026; and

WHEREAS, under the terms of the proposed General Library Services Grant Contract, the Knox County Public Library will receive grant funding in an amount not to exceed $430,500.00 to provide the aforesaid services, as further defined in the Scope of Services and Deliverables section of the attached contract; and

WHEREAS, this grant contract does not require matching funds from Knox County.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The grant contract with the Tennessee State Library and Archives for the provision of providing access to and circulation of library materials is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the grant contract with the Tennessee State Library and Archives for the provision of providing access to and circulation of library materials shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

GRANT CONTRACT
BETWEEN THE STATE OF TENNESSEE, OFFICE OF THE SECRETARY OF STATE, TENNESSEE STATE LIBRARY AND ARCHIVES AND KNOX COUNTY GOVERNMENT

This grant contract ("Grant Contract"), by and between the State of Tennessee, Office of the Secretary of State, Tennessee State Library and Archives, hereinafter referred to as the "State" or the "Grantor State Agency" and Grantee Knox County Government, hereinafter referred to as the "Grantee," is for the provision of providing access to and circulation of library materials, as further defined in the "SCOPE OF SERVICES AND DELIVERABLES."

Grantee Edison Vendor ID # 2830

A. SCOPE OF SERVICES AND DELIVERABLES:

A.1. The Grantee shall provide the scope of services and deliverables ("Scope") as required, described, and detailed in this Grant Contract.

A.2. General Library Services. The Grantee agrees to provide access to and/or circulation of library materials in a variety of formats for all patrons.

A.3. Incorporation of Federal Award Identification Worksheet. The federal award identification worksheet, which appears as Attachment Two, is incorporated in this Grant Contract.

B. TERM OF CONTRACT:

This Grant Contract shall be effective for the period beginning on July 1, 2025 ("Effective Date") and ending on June 30, 2026 ("Term"). The State shall have no obligation to the Grantee for fulfillment of the Scope outside the Term.

C. PAYMENT TERMS AND CONDITIONS:

C.1. Maximum Liability. In no event shall the maximum liability of the State under this Grant Contract exceed Four Hundred Thirty Thousand Five Hundred Dollars ($430,500.00) ("Maximum Liability"). The Grant Budget, attached and incorporated as Attachment One is the maximum amount due the Grantee under this Grant Contract. The Grant Budget line-items include, but are not limited to, all applicable taxes, fees, overhead, and all other direct and indirect costs incurred or to be incurred by the Grantee.

C.2. Compensation Firm. The Maximum Liability of the State is not subject to escalation for any reason unless amended. The Grant Budget amounts are firm for the duration of the Grant Contract and are not subject to escalation for any reason unless amended, except as provided in Section C.6.

C.3. Payment Methodology. The Grantee shall be reimbursed for actual, reasonable, and necessary costs based upon the Grant Budget, not to exceed the Maximum Liability established in Section C.1. Upon progress toward the completion of the Scope, as described in Section A of this Grant Contract, the Grantee shall submit invoices prior to any reimbursement of allowable costs.

C.4. Travel Compensation. Reimbursement to the Grantee for travel, meals, or lodging shall be subject to amounts and limitations specified in the "State Comprehensive Travel Regulations," as they are amended from time to time, and shall be contingent upon and limited by the Grant Budget funding for said reimbursement.

C.5. Invoice Requirements. The Grantee shall invoice the State no more often than monthly, with all necessary supporting documentation, and present such to:

Jennifer Cowan-Henderson
Tennessee State Library and Archives
1001 Rep John Lewis Way N.
Nashville, TN 37219

a. Each invoice shall clearly and accurately detail all of the following required information (calculations must be extended and totaled correctly).

(1) Invoice/Reference Number (assigned by the Grantee).
(2) Invoice Date.
(3) Invoice Period (to which the reimbursement request is applicable).
(4) Grant Contract Number (assigned by the State).
(5) Grantor: Office of the Secretary of State, Tennessee State Library and Archives.
(6) Grantor Number (assigned by the Grantee to the above-referenced Grantor).
(7) Grantee Name.
(8) Grantee Tennessee Edison Registration ID Number Referenced in Preamble of this Grant Contract.
(9) Grantee Remittance Address.
(10) Grantee Contact for Invoice Questions (name, phone, or fax).
(11) Itemization of Reimbursement Requested for the Invoice Period— it must detail, at minimum, all of the following:

i. The amount requested by Grant Budget line-item (including any travel expenditure reimbursement requested and for which documentation and receipts, as required by "State Comprehensive Travel Regulations," are attached to the invoice).
ii. The amount reimbursed by Grant Budget line-item to date.
iii. The total amount reimbursed under the Grant Contract to date.
iv. The total amount requested (all line-items) for the Invoice Period.

b. The Grantee understands and agrees to all of the following.

(1) An invoice under this Grant Contract shall include only reimbursement requests for actual, reasonable, and necessary expenditures required in the delivery of service described by this Grant Contract and shall be subject to the Grant Budget and any other provision of this Grant Contract relating to allowable reimbursements.
(2) An invoice under this Grant Contract shall not include any reimbursement request for future expenditures.
(3) An invoice under this Grant Contract shall initiate the timeframe for reimbursement only when the State is in receipt of the invoice, and the invoice meets the minimum requirements of this section C.5.

C.6. Budget Line-items. Expenditures, reimbursements, and payments under this Grant Contract shall adhere to the Grant Budget. The Grantee may vary from a Grant Budget line-item amount by up to twenty percent (20%) of the line-item amount, provided that any increase is off-set by an equal reduction of other line-item amount(s) such that the net result of variances shall not increase the total Grant Contract amount detailed by the Grant Budget. Any increase in the Grant Budget, grand total amounts shall require an amendment of this Grant Contract.

C.7. Disbursement Reconciliation and Close Out. The Grantee shall submit any final invoice and a grant disbursement reconciliation report within sixty (60) days of the Grant Contract end date, in form and substance acceptable to the State.

a. If total disbursements by the State pursuant to this Grant Contract exceed the amounts permitted by the section C, payment terms and conditions of this Grant Contract, the Grantee shall refund the difference to the State. The Grantee shall submit the refund with the final grant disbursement reconciliation report.

b. The State shall not be responsible for the payment of any invoice submitted to the State after the grant disbursement reconciliation report. The State will not deem any Grantee costs submitted for reimbursement after the grant disbursement reconciliation report to be allowable and reimbursable by the State, and such invoices will NOT be paid.

c. The Grantee's failure to provide a final grant disbursement reconciliation report to the State as required by this Grant Contract shall result in the Grantee being deemed ineligible for reimbursement under this Grant Contract, and the Grantee shall be required to refund any and all payments by the State pursuant to this Grant Contract.

d. The Grantee must close out its accounting records at the end of the Term in such a way that reimbursable expenditures and revenue collections are NOT carried forward.

C.8. Indirect Cost. Should the Grantee request reimbursement for indirect costs, the Grantee must submit to the State a copy of the indirect cost rate approved by the cognizant federal agency or the cognizant state agency, as applicable. The Grantee will be reimbursed for indirect costs in accordance with the approved indirect cost rate and amounts and limitations specified in the attached Grant Budget. Once the Grantee makes an election and treats a given cost as direct or indirect, it must apply that treatment consistently and may not change during the Term. Any changes in the approved indirect cost rate must have prior approval of the cognizant federal agency or the cognizant state agency, as applicable. If the indirect cost rate is provisional during the Term, once the rate becomes final, the Grantee agrees to remit any overpayment of funds to the State, and subject to the availability of funds the State agrees to remit any underpayment to the Grantee.

C.9. Cost Allocation. If any part of the costs to be reimbursed under this Grant Contract are joint costs involving allocation to more than one program or activity, such costs shall be allocated and reported in accordance with the provisions of Central Procurement Office Policy Statement 2013-007 or any amendments or revisions made to this policy statement during the Term.

C.10. Payment of Invoice. A payment by the State shall not prejudice the State's right to object to or question any reimbursement, invoice, or related matter. A payment by the State shall not be construed as acceptance of any part of the work or service provided or as approval of any amount as an allowable cost.

C.11. Non-allowable Costs. Any amounts payable to the Grantee shall be subject to reduction for amounts included in any invoice or payment that are determined by the State, on the basis of audits or monitoring conducted in accordance with the terms of this Grant Contract, to constitute unallowable costs.

C.12. State's Right to Set Off. The State reserves the right to set off or deduct from amounts that are or shall become due and payable to the Grantee under this Grant Contract or under any other agreement between the Grantee and the State of Tennessee under which the Grantee has a right to receive payment from the State.

C.13. Prerequisite Documentation. The Grantee shall not invoice the State under this Grant Contract until the State has received the following, properly completed documentation.

a. The Grantee shall complete, sign, and return to the State an "Authorization Agreement for Automatic Deposit (ACH Credits) Form" provided by the State. By doing so, the

Grantee acknowledges and agrees that, once this form is received by the State, all payments to the Grantee under this or any other grant contract will be made by automated clearing house ("ACH").

b. The Grantee shall complete, sign, and return to the State the State-provided W-9 form. The taxpayer identification number on the W-9 form must be the same as the Grantee's Federal Employer Identification Number or Social Security Number referenced in the Grantee's Edison registration information.

D. STANDARD TERMS AND CONDITIONS:

D.1. Required Approvals. The State is not bound by this Grant Contract until it is signed by the parties and approved by appropriate officials in accordance with applicable Tennessee laws and regulations (depending upon the specifics of this Grant Contract, the officials may include, but are not limited to, the Commissioner of Finance and Administration, the Commissioner of Human Resources, and the Comptroller of the Treasury).

D.2. Modification and Amendment. This Grant Contract may be modified only by a written amendment signed by all parties and approved by the officials who approved the Grant Contract and, depending upon the specifics of the Grant Contract as amended, any additional officials required by Tennessee laws and regulations (the officials may include, but are not limited to, the Commissioner of Finance and Administration, the Commissioner of Human Resources, and the Comptroller of the Treasury).

D.3. Termination for Convenience. The State may terminate this Grant Contract without cause for any reason. A termination for convenience shall not be a breach of this Grant Contract by the State. The State shall give the Grantee at least thirty (30) days written notice before the effective termination date. The Grantee shall be entitled to compensation for authorized expenditures and satisfactory services completed as of the termination date, but in no event shall the State be liable to the Grantee for compensation for any service that has not been rendered. The final decision as to the amount for which the State is liable shall be determined by the State. The Grantee shall not have any right to any actual general, special, incidental, consequential, or any other damages whatsoever of any description or amount for the State's exercise of its right to terminate for convenience.

D.4. Termination for Cause. If the Grantee fails to properly perform its obligations under this Grant Contract, or if the Grantee violates any terms of this Grant Contract, the State shall have the right to immediately terminate this Grant Contract and withhold payments in excess of fair compensation for completed services. Notwithstanding the exercise of the State's right to terminate this Grant Contract for cause, the Grantee shall not be relieved of liability to the State for damages sustained by virtue of any breach of this Grant Contract by the Grantee.

D.5. Subcontracting. The Grantee shall not assign this Grant Contract or enter into a subcontract for any of the services performed under this Grant Contract without obtaining the prior written approval of the State. If such subcontracts are approved by the State, each shall contain, at a minimum, sections of this Grant Contract pertaining to "Conflicts of Interest," "Lobbying," "Nondiscrimination," "Public Accountability," "Public Notice," and "Records" (as identified by the section headings). Notwithstanding any use of approved subcontractors, the Grantee shall remain responsible for all work performed.

D.6. Conflicts of Interest. The Grantee warrants that no part of the total Grant Contract Amount shall be paid directly or indirectly to an employee or official of the State of Tennessee as wages, compensation, or gifts in exchange for acting as an officer, agent, employee, subcontractor, or consultant to the Grantee in connection with any work contemplated or performed relative to this Grant Contract.

D.7. Lobbying. The Grantee certifies, to the best of its knowledge and belief, that:

a. No federally appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

b. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this contract, grant, loan, or cooperative agreement, the Grantee shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

c. The Grantee shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into and is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352.

D.8. Communications and Contacts. All instructions, notices, consents, demands, or other communications required or contemplated by this Grant Contract shall be in writing and shall be made by certified, first class mail, return receipt requested and postage prepaid, by overnight courier service with an asset tracking system, or by email or facsimile transmission with recipient confirmation. All communications, regardless of method of transmission, shall be addressed to the respective party as set out below:
The State:

Jennifer Cowan-Henderson, Director of Planning and Development
Tennessee State Library and Archives
1001 Rep John Lewis Way N.
Nashville, TN 37219
jennifer.cowan-henderson@tnsos.gov
Telephone # 615-741-1923
FAX # 615-532-9904

The Grantee:

Myretta Black, Director
Knox County Public Library
500 West Church Street
Knoxville, TN 37906
mblack@knoxlib.org
Telephone # 865-215-8701

A change to the above contact information requires written notice to the person designated by the other party to receive notice.

All instructions, notices, consents, demands, or other communications shall be considered effectively given upon receipt or recipient confirmation as may be required.

D.9. Subject to Funds Availability. This Grant Contract is subject to the appropriation and availability of State or Federal funds. In the event that the funds are not appropriated or are otherwise unavailable, the State reserves the right to terminate this Grant Contract upon written notice to the Grantee. The State's right to terminate this Grant Contract due to lack of funds is not a breach of this Grant Contract by the State. Upon receipt of the written notice, the Grantee shall cease all work associated with the Grant Contract. Should such an event occur, the Grantee shall be entitled to compensation for all satisfactory and authorized services completed as of the termination date. Upon such termination, the Grantee shall have no right to recover from the State any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

D.10. Nondiscrimination. The Grantee hereby agrees, warrants, and assures that no person shall be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination in the performance of this Grant Contract or in the employment practices of the Grantee on the grounds of handicap or disability, age, race, color, religion, sex, national origin, or any other classification protected by federal, Tennessee state constitutional, or statutory law. The Grantee shall, upon request, show proof of nondiscrimination and shall post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.

D.11. HIPAA Compliance. As applicable, the State and the Grantee shall comply with obligations under the Health Insurance Portability and Accountability Act of 1996 (HIPAA), Health Information Technology for Economic and Clinical Health Act (HITECH) and any other relevant laws and regulations regarding privacy (collectively the "Privacy Rules"). The obligations set forth in this Section shall survive the termination of this Grant Contract.

a. The Grantee warrants to the State that it is familiar with the requirements of the Privacy Rules and will comply with all applicable HIPAA requirements in the course of this Grant Contract.

b. The Grantee warrants that it will cooperate with the State, including cooperation and coordination with State privacy officials and other compliance officers required by the Privacy Rules, in the course of performance of this Grant Contract so that both parties will be in compliance with the Privacy Rules.

c. The State and the Grantee will sign documents, including but not limited to business associate agreements, as required by the Privacy Rules and that are reasonably necessary to keep the State and the Grantee in compliance with the Privacy Rules. This provision shall not apply if information received by the State under this Grant Contract is NOT "protected health information" as defined by the Privacy Rules, or if the Privacy Rules permit the State to receive such information without entering into a business associate agreement or signing another such document.

D.12. Public Accountability. If the Grantee is subject to Tenn. Code Ann. § 8-4-401 *et seq.*, or if this Grant Contract involves the provision of services to citizens by the Grantee on behalf of the State, the Grantee agrees to establish a system through which recipients of services may present grievances about the operation of the service program. The Grantee shall also display in a prominent place, located near the passageway through which the public enters in order to receive Grant supported services, a sign at least eleven inches (11") in height and seventeen inches (17") in width stating:

NOTICE: THIS AGENCY IS A RECIPIENT OF TAXPAYER FUNDING. IF YOU OBSERVE AN AGENCY DIRECTOR OR EMPLOYEE ENGAGING IN ANY ACTIVITY WHICH YOU CONSIDER TO BE ILLEGAL, IMPROPER, OR WASTEFUL, PLEASE CALL THE STATE COMPTROLLER'S TOLL-FREE HOTLINE: 1-800-232-5454.

The sign shall be on the form prescribed by the Comptroller of the Treasury. The Grantor State Agency shall obtain copies of the sign from the Comptroller of the Treasury, and upon request from the Grantee, provide Grantee with any necessary signs.

D.13. Public Notice. All notices, informational pamphlets, press releases, research reports, signs, and similar public notices prepared and released by the Grantee in relation to this Grant Contract shall include the statement, "This project is funded under a grant contract with the State of Tennessee." All notices by the Grantee in relation to this Grant Contract shall be approved by the State.

D.14. Licensure. The Grantee, its employees, and any approved subcontractor shall be licensed pursuant to all applicable federal, state, and local laws, ordinances, rules, and regulations and shall upon request provide proof of all licenses.

D.15. Records. The Grantee and any approved subcontractor shall maintain documentation for all charges under this Grant Contract. The books, records, and documents of the Grantee and any approved subcontractor, insofar as they relate to work performed or money received under this Grant Contract, shall be maintained in accordance with applicable Tennessee law. In no case shall the records be maintained for a period of less than five (5) full years from the date of the final payment. The Grantee's records shall be subject to audit at any reasonable time and upon reasonable notice by the Grantor State Agency, the Comptroller of the Treasury, or their duly appointed representatives.

The records shall be maintained in accordance with Governmental Accounting Standards Board (GASB) Accounting Standards or the Financial Accounting Standards Board (FASB) Accounting Standards Codification, as applicable, and any related AICPA Industry Audit and Accounting guides.

In addition, documentation of grant applications, budgets, reports, awards, and expenditures will be maintained in accordance with U.S. Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

Grant expenditures shall be made in accordance with local government purchasing policies and procedures and purchasing procedures for local governments authorized under state law.

The Grantee shall also comply with any recordkeeping and reporting requirements prescribed by the Tennessee Comptroller of the Treasury.

The Grantee shall establish a system of internal controls that utilize the COSO Internal Control - Integrated Framework model as the basic foundation for the internal control system. The Grantee shall incorporate any additional Comptroller of the Treasury directives into its internal control system.

Any other required records or reports which are not contemplated in the above standards shall follow the format designated by the head of the Grantor State Agency, the Central Procurement Office, or the Commissioner of Finance and Administration of the State of Tennessee.

D.16. Monitoring. The Grantee's activities conducted and records maintained pursuant to this Grant Contract shall be subject to monitoring and evaluation by the State, the Comptroller of the Treasury, or their duly appointed representatives.

D.17. Progress Reports. The Grantee shall submit brief, periodic, progress reports to the State as requested.

D.18. Annual and Final Reports. The Grantee shall submit, within three (3) months of the conclusion of each year of the Term, an annual report. For grant contracts with a term of less than one (1) year,

the Grantee shall submit a final report within three (3) months of the conclusion of the Term. For grant contracts with multiyear terms, the final report will take the place of the annual report for the final year of the Term. The Grantee shall submit annual and final reports to the Grantor State Agency. At minimum, annual and final reports shall include: (a) the Grantee's name; (b) the Grant Contract's Edison identification number, Term, and total amount; (c) a narrative section that describes the program's goals, outcomes, successes and setbacks, whether the Grantee used benchmarks or indicators to determine progress, and whether any proposed activities were not completed; and (d) other relevant details requested by the Grantor State Agency. Annual and final report documents to be completed by the Grantee shall appear on the Grantor State Agency's website or as an attachment to the Grant Contract.

D.19. Audit Report. The Grantee shall be audited in accordance with applicable Tennessee law.

At least ninety (90) days before the end of its fiscal year, the Grantee shall complete the Information for Audit Purposes ("IAP") form online (accessible through the Edison Supplier portal) to notify the State whether or not Grantee is subject to an audit. The Grantee should submit only one, completed form online during the Grantee's fiscal year. Immediately after the fiscal year has ended, the Grantee shall fill out the End of Fiscal Year ("EOFY") (accessible through the Edison Supplier portal).

When a federal single audit is required, the audit shall be performed in accordance with U.S. Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

A copy of the audit report shall be provided to the Comptroller by the licensed, independent public accountant. Audit reports shall be made available to the public.

D.20. Procurement. If other terms of this Grant Contract allow reimbursement for the cost of goods, materials, supplies, equipment, or contracted services, such procurement shall be made on a competitive basis, including the use of competitive bidding procedures, where practical. The Grantee shall maintain documentation for the basis of each procurement for which reimbursement is paid pursuant to this Grant Contract. In each instance where it is determined that use of a competitive procurement method is not practical, supporting documentation shall include a written justification for the decision and for use of a non-competitive procurement. If the Grantee is a subrecipient, the Grantee shall comply with 2 C.F.R. §§ 200.317—200.327 when procuring property and services under a federal award.

The Grantee shall obtain prior approval from the State before purchasing any equipment under this Grant Contract.

For purposes of this Grant Contract, the term "equipment" shall include any article of nonexpendable, tangible, personal property having a useful life of more than one year and an acquisition cost which equals or exceeds ten thousand dollars ($10,000.00).

D.21. Strict Performance. Failure by any party to this Grant Contract to insist in any one or more cases upon the strict performance of any of the terms, covenants, conditions, or provisions of this Grant Contract is not a waiver or relinquishment of any term, covenant, condition, or provision. No term or condition of this Grant Contract shall be held to be waived, modified, or deleted except by a written amendment signed by the parties.

D.22. Independent Contractor. The parties shall not act as employees, partners, joint venturers, or associates of one another in the performance of this Grant Contract. The parties acknowledge that they are independent contracting entities and that nothing in this Grant Contract shall be construed to create a principal/agent relationship or to allow either to exercise control or direction over the manner or method by which the other transacts its business affairs or provides its usual services. The employees or agents of one party shall not be deemed or construed to be the employees or agents of the other party for any purpose whatsoever.

D.23. Limitation of State's Liability. The State shall have no liability except as specifically provided in this Grant Contract. In no event will the State be liable to the Grantee or any other party for any lost revenues, lost profits, loss of business, loss of grant funding, decrease in the value of any securities or cash position, time, money, goodwill, or any indirect, special, incidental, punitive, exemplary or consequential damages of any nature, whether based on warranty, contract, statute, regulation, tort (including but not limited to negligence), or any other legal theory that may arise under this Grant Contract or otherwise. The State's total liability under this Grant Contract (including any exhibits, schedules, amendments or other attachments to the Contract) or otherwise shall under no circumstances exceed the Maximum Liability originally established in Section C.1 of this Grant Contract. This limitation of liability is cumulative and not per incident.

D.24. Force Majeure. "Force Majeure Event" means fire, flood, earthquake, elements of nature or acts of God, wars, riots, civil disorders, rebellions or revolutions, acts of terrorism or any other similar cause beyond the reasonable control of the party except to the extent that the non-performing party is at fault in failing to prevent or causing the default or delay, and provided that the default or delay cannot reasonably be circumvented by the non-performing party through the use of alternate sources, workaround plans or other means. A strike, lockout or labor dispute shall not excuse either party from its obligations under this Grant Contract. Except as set forth in this Section, any failure or delay by a party in the performance of its obligations under this Grant Contract arising from a Force Majeure Event is not a default under this Grant Contract or grounds for termination. The non-performing party will be excused from performing those obligations directly affected by the Force Majeure Event, and only for as long as the Force Majeure Event continues, provided that the party continues to use diligent, good faith efforts to resume performance without delay. The occurrence of a Force Majeure Event affecting Grantee's representatives, suppliers, subcontractors, customers or business apart from this Grant Contract is not a Force Majeure Event under this Grant Contract. Grantee will promptly notify the State of any delay caused by a Force Majeure Event (to be confirmed in a written notice to the State within one (1) day of the inception of the delay) that a Force Majeure Event has occurred, and will describe in reasonable detail the nature of the Force Majeure Event. If any Force Majeure Event results in a delay in Grantee's performance longer than forty-eight (48) hours, the State may, upon notice to Grantee: (a) cease payment of the fees until Grantee resumes performance of the affected obligations; or (b) immediately terminate this Grant Contract or any purchase order, in whole or in part, without further payment except for fees then due and payable. Grantee will not increase its charges under this Grant Contract or charge the State any fees other than those provided for in this Grant Contract as the result of a Force Majeure Event.

D.25. Tennessee Department of Revenue Registration. The Grantee shall comply with all applicable registration requirements contained in Tenn. Code Ann. §§ 67-6-601 – 608. Compliance with applicable registration requirements is a material requirement of this Grant Contract.

D.26. Charges to Service Recipients Prohibited. The Grantee shall not collect any amount in the form of fees or reimbursements from the recipients of any service provided pursuant to this Grant Contract.

D.27. No Acquisition of Equipment or Motor Vehicles. This Grant Contract does not involve the acquisition and disposition of equipment or motor vehicles acquired with funds provided under this Grant Contract.

D.28. State and Federal Compliance. The Grantee shall comply with all applicable state and federal laws and regulations in the performance of this Grant Contract. The U.S. Office of Management and Budget's Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is available here: http://www.ecfr.gov/cgi-bin/text-idx?SID=c6b2f053952359ba94470ad3a7c1a975&tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl

D.29. Governing Law. This Grant Contract shall be governed by and construed in accordance with the laws of the State of Tennessee, without regard to its conflict or choice of law rules. The Grantee agrees that it will be subject to the exclusive jurisdiction of the courts of the State of Tennessee in actions that may arise under this Grant Contract. The Grantee acknowledges and agrees that any rights or claims against the State of Tennessee or its employees hereunder, and any remedies arising there from, shall be subject to and limited to those rights and remedies, if any, available under Tenn. Code Ann. §§ 9-8-101 through 9-8-408.

D.30. Completeness. This Grant Contract is complete and contains the entire understanding between the parties relating to the subject matter contained herein, including all the terms and conditions agreed to by the parties. This Grant Contract supersedes any and all prior understandings, representations, negotiations, or agreements between the parties, whether written or oral.

D.31. Severability. If any terms and conditions of this Grant Contract are held to be invalid or unenforceable as a matter of law, the other terms and conditions shall not be affected and shall remain in full force and effect. To this end, the terms and conditions of this Grant Contract are declared severable.

D.32. Headings. Section headings are for reference purposes only and shall not be construed as part of this Grant Contract.

D.33. Iran Divestment Act. The requirements of Tenn. Code Ann. § 12-12-101, *et seq.*, addressing contracting with persons as defined at Tenn. Code Ann. §12-12-103(5) that engage in investment activities in Iran, shall be a material provision of this Grant Contract. The Grantee certifies, under penalty of perjury, that to the best of its knowledge and belief that it is not on the list created pursuant to Tenn. Code Ann. § 12-12-106.

D.34. Debarment and Suspension. The Grantee certifies, to the best of its knowledge and belief, that it, its current and future principals, its current and future subcontractors and their principals:

a. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal or state department or agency;

b. have not within a three (3) year period preceding this Grant Contract been convicted of, or had a civil judgment rendered against them from commission of fraud, or a criminal offence in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or grant under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false statements, or receiving stolen property;

c. are not presently indicted or otherwise criminally or civilly charged by a government entity (federal, state, or local) with commission of any of the offenses detailed in section b. of this certification; and

d. have not within a three (3) year period preceding this Grant Contract had one or more public transactions (federal, state, or local) terminated for cause or default.

The Grantee shall provide immediate written notice to the State if at any time it learns that there was an earlier failure to disclose information or that due to changed circumstances, its principals or the principals of its subcontractors are excluded or disqualified, or presently fall under any of the prohibitions of sections a-d.

D.35. Confidentiality of Records. Strict standards of confidentiality of records and information shall be maintained in accordance with applicable state and federal law. All material and information,

regardless of form, medium or method of communication, provided to the Grantee by the State or acquired by the Grantee on behalf of the State that is regarded as confidential under state or federal law shall be regarded as "Confidential Information." Nothing in this Section shall permit Grantee to disclose any Confidential Information, regardless of whether it has been disclosed or made available to the Grantee due to intentional or negligent actions or inactions of agents of the State or third parties. Confidential Information shall not be disclosed except as required or permitted under state or federal law. Grantee shall take all necessary steps to safeguard the confidentiality of such material or information in conformance with applicable state and federal law.

The obligations set forth in this Section shall survive the termination of this Grant Contract.

D.36. State Sponsored Insurance Plan Enrollment. The Grantee warrants that it will not enroll or permit its employees, officials, or employees of contractors to enroll or participate in a state sponsored health insurance plan through their employment, official, or contractual relationship with Grantee unless Grantee first demonstrates to the satisfaction of the Department of Finance and Administration that it and any contract entity satisfies the definition of a governmental or quasigovernmental entity as defined by federal law applicable to ERISA.

E. SPECIAL TERMS AND CONDITIONS:

E.1. Conflicting Terms and Conditions. Should any of these special terms and conditions conflict with any other terms and conditions of this Grant Contract, the special terms and conditions shall be subordinate to the Grant Contract's other terms and conditions.

E.2. Environmental Tobacco Smoke. Pursuant to the provisions of the federal "Pro-Children Act of 1994" and the "Children's Act for Clean Indoor Air of 1995," Tenn. Code Ann. §§ 39-17-1601 through 1606, the Grantee shall prohibit smoking of tobacco products within any indoor premises in which services are provided to individuals under the age of eighteen (18) years. The Grantee shall post "no smoking" signs in appropriate, permanent sites within such premises. This prohibition shall be applicable during all hours, not just the hours in which children are present. Violators of the prohibition may be subject to civil penalties and fines. This prohibition shall apply to and be made part of any subcontract related to this Grant Contract.

E.3. The Grantee shall provide a drug-free workplace pursuant to the "Drug-Free Workplace Act," 41 U.S.C. §§ 8101 through 8106, and its accompanying regulations.

E.4. Grantee Participation. Grantee Participation amounts detailed in the Grant Budget are intended as a goal for the total project, and the amount of actual Grantee Participation expenditures will not impact the maximum amounts reimbursable to the Grantee as detailed by the Grant Budget column, "Grant Contract."

E. 5. Title VI Compliance. Grantee shall comply with requirements of Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d-1, pursuant to the guidelines established by the Tennessee Human Rights Commission's Title VI Compliance Office, by completing all of the following items:

a. Provide name and contact information of Grantee's Title VI Coordinator to State.

b. Ensure Policies and Procedures Manual contains a Title VI section with information on: (a) Filing a complaint; (b) Investigations; (c) Report of findings; (d) Hearings and appeals; (e) Description of Title VI Training Program; (f) Limited English Proficiency (LEP) procedure; and (g) Retaliation.

c. Train all staff (regular, contract, volunteer) on Title VI upon employment and annually thereafter. Training documentation shall be made available upon request of State, and

include: 1) dates and duration of each training; 2) list of staff completing training on each date.

d. Annually complete and submit a Title VI self-survey as supplied by State.

e. Implement a process and provide documentation to ensure service recipients are informed of Title VI and how to file a discrimination complaint.

Additional Title VI resources may be found at: https://sos.tn.gov/TitleVI.

WHEREAS, Knox County desires to have a contractor provide vehicle oil change services for the Knox County Sheriff's Office; and

WHEREAS, the Knox County Procurement Division conducted a competitive bid process for this purpose and it has been determined that Pinnacle Sales Co dba Jiffy Lube Knoxville submitted the bid that is most responsible and responsive and best conforms to the specifications and needs of Knox County; and

WHEREAS, the proposed contract with Pinnacle Sales Co dba Jiffy Lube Knoxville is effective for a one (1) year term beginning on August 1, 2025 and may be extended for four (4) additional years, one (1) year at a time, which may result in a total of five (5) years; and

WHEREAS, Pinnacle Sales Co dba Jiffy Lube Knoxville has the necessary qualifications to provide the services for Knox County.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The contract with Pinnacle Sales Co dba Jiffy Lube Knoxville for the provision of vehicle oil change services is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the contract with Pinnacle Sales Co dba Jiffy Lube Knoxville for the provision of vehicle oil change services shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Knox County Government

and

Pinnacle Sales Co dba Jiffy Lube Knoxville

This Contract, made and entered into between the Knox County Government, hereinafter referred to as the "County" and Pinnacle Sales Co dba Jiffy Lube Knoxville, hereinafter referred to as "Contractor."

Whereas, the County requested bids for Vehicle Oil Change Services (Invitation for Bid #3651) and;

Whereas, Contractor submitted a bid in accordance with said requested specifications, the response of which is the most responsible and responsive bid meeting specifications accepted by the County;

Whereas, Contractor agrees and undertakes to provide said services for the County, as set forth in the Invitation for Bid, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Invitation for Bid specifications and the Contractor's bid and response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;

Witnesseth:

1. **Terms of this Contract.** This Contract commences on the 1st day of August 2025 and ends the 31st day of July 2026 unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. The County intends to issue a one-year (1) award. Upon the mutual agreement of the Contractor and the County, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability arises with the Contractor.

2. **Payment.** The County shall pay Contractor the amount as agreed upon in the County's Invitation for Bid for Vehicle Oil Change Services per the Contractor's response to Invitation for Bid #3651; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County. Per Invitation for Bid #3651, a minimum of thirty (30) days is required for processing of payment.

3. **Invoicing and reporting requirements.** Contractor shall invoice the County for Vehicle Oil Change Services pursuant to Invitation for Bid #3651.

Knox County Sheriff's Office
invoices@knoxsheriff.org

4. **Termination.** The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) calendar days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

Should the Contractor fail to provide the Vehicle Oil Change Services detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was contacted. The Contractor shall rectify the problem within the time frame established by Tennessee State Law. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least 120 days advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

5. **Appropriations.** In the event no funds are appropriated by the County for the Vehicle Oil Change Services in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. **Independent contractor.** Contractor acknowledges that Contractor and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. **Compliance with all federal, state, and municipal laws.** Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the Vehicle Oil Change Services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. **Severability clause.** If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. **Prohibition against assignment.** Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County.

10. **This Contract** shall be governed by the laws of the State of Tennessee both as to interpretation and performance. The Chancery Court and/or the Circuit Court of Knox County, Tennessee, shall have exclusive and concurrent jurisdiction of any disputes which arise hereunder.

11. **Right to inspect.** The County reserves the right to make periodic inspections of the manner and means the services are performed.

12. **Nondiscrimination and non-conflict statements.** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin or any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall upon Invitation show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. **Books and records.** Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. **Contractor** shall indemnify, defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees.

15. **Delivery.** Contractor shall render the Vehicle Oil Change Services for the County in accordance with Invitation for Bid #3651.

16. **Tax Compliance.** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Purchasing Division.

17. **Limitations of liability.** In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages

18. **Contract documents.** It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

A. Invitation for Bid #3651

B. Contractor's Response to Invitation for Bid #3651

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year last written below.

The Procurement Division of Knox County, Tennessee will receive sealed bids for the provision of **Vehicle Oil Change Services** as specified herein. Bids must be received by **2:00 p.m.** local time on **May 5, 2025.** Late bids will be neither considered nor returned.

Deliver Bids to:

Bid Number 3651
Knox County Procurement Division
Suite 100, 1000 North Central Street
Knoxville, Tennessee 37917

The Bid Envelope must show the Company Name, Bid Number, Bid Name, and the Bid Opening Date.

SECTION I GENERAL TERMS AND CONDITIONS

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information routed to Robert Mackey, Senior Buyer, at 865.215.5754. Questions may be emailed to robert.mackey@knoxcounty.org. If you have not heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division and current solicitations may be obtained online at www.knoxcounty.org/procurement.

1.2 **ACCEPTANCE:** Vendors shall hold their price firm and subject to acceptance by Knox County for a period of ninety (90) business days from the date of the bid opening, unless otherwise indicated in their bid.

1.3 **ALTERNATIVE BIDS:** Knox County will not accept alternate bids (those not equal to specifications) unless authorized by the Invitation for Bids.

1.4 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste, or abuse, file a report online by accessing https://www.knoxcounty.org/audit/hotline.php

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.5 **AWARD:** Award will be made to the most responsive, responsible bidder(s) meeting specifications, which presents the product that is in the best interest of Knox County. Knox County reserves the right to award this bid on an item-by-item basis, schedule basis, an all-or-none basis or by a multiple award. Knox County also reserves the right to not award this bid. The evaluation criteria are listed herein.

1.6 **BID DELIVERY:** Knox County requires respondents, when hand delivering submittals, to time and date stamp the envelope before depositing it in the bid box. Knox County will not be responsible for any lost or misdirected mail sent by common carrier, nor will Knox County be responsible for submittals delivered to addresses and Suites other than the delivery address and Suite specified at the top of this solicitation. The time clock in the Procurement Division shall serve as the official record of time.

Bids must be in a sealed envelope/box prior to entering the Procurement Division. Procurement Division personnel are not permitted to view the submittal nor assist in placing document in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials for submittals (e.g.: envelopes, boxes, tape).

1.7 **BIDS REQUESTED ON BRANDS OR EQUAL:** Unit price bids are requested on products that equal or exceed the quality and performance of the brands and model numbers listed. References to brand names, trade names, model numbers or other descriptions particular to specific brand products are made to establish a required level of quality and functional capabilities and are not intended to exclude other products of that level. Comparable products of other manufacturers will be considered if proof of comparability is contained in the bid. Or Equal does not mean the manufacturing process, but rather that the item will perform in the manner needed by the County. It shall be the responsibility of the bidders, including bidders whose product is referenced; to furnish with the bid such specifications, catalog pages, brochures or other data as will provide an adequate basis for determining the quality and functional capabilities of the product offered. Failure to provide this data may be considered valid justification for rejection of bid.

1.8 **BUSINESS OUTREACH PROGRAM:** Knox County has established a Business Outreach Program, which has the responsibility of increasing opportunity for small, minority and women owned businesses. This is being accomplished through community education programs, policy edification, active recruitment of interested businesses and process re-engineering.

Knox County is committed to ensuring full and equitable participation for all disadvantaged businesses. Knox County welcomes submittals from those disadvantaged businesses that have an interest in providing goods and/or services listed herein. In addition, Knox County strongly encourages the inclusion of disadvantaged businesses by non-disadvantaged contractors who may wish to partner or subcontract portions of this agreement in order to accomplish the successful delivery of goods and/or services. If you are a disadvantaged business and would like additional information about our Business Outreach Program, please contact:

Knox County Procurement Division
Diane Woods, Business Outreach Administrator
Telephone: 865.215.5760
Fax: 865.215.5778
E-Mail: diane.woods@knoxcounty.org

1.9 **CONFLICT OF INTEREST:** Vendors must have read and complied with the "Non-Conflict of Interest" statement provided in the vendor registration process prior to the opening of this solicitation.

1.10 **DECLARATIVE STATEMENTS:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the bid being non-responsive and disqualified.

1.11 **DESCRIPTIVE LITERATURE:** Vendors may be asked to identify the manufacturer and the specifications to which they are submitting.

1.12 **DUPLICATE COPIES:** Knox County requires that bids be submitted as one (1) marked original and one (1) exact copy. No additional copies are required when submitting electronically.

1.13 **ELECTRONIC TRANSMISSION OF BIDS:** Knox County's Procurement Division will accept, and strongly encourages, electronically transmitted bids through the County's online Procurement system. Facsimile and email submission are strictly prohibited. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register or submit their bid electronically less than twenty-four (24) hours prior to the bid opening time.

1.14 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys." The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user-friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of purchase orders, on-line retrieval and submittal of quotes, bids and proposals for our vendor-clients and on-line requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations we need your help. When doing business with Knox County we are urging you to please go to our website www.knoxcounty.org/procurement, register as a vendor in our on-line Procurement system, "KnoxBuys," and if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions, please contact the Procurement Division Representative listed in subsection 1.1 of this document.

1.15 **INCURRED COSTS:** Knox County will not be responsible for any costs incurred by the bidder in the preparation of their bid.

1.16 **MULTIPLE BIDS:** Knox County will consider multiple bids that meet specifications.

1.17 **NEW MATERIAL:** Unless specified otherwise in the bid package, the Contractor must provide new supplies. New, as used in this clause, means previously unused materials. Material includes but is not limited to, raw material, parts, items, components, and end products. Contractor submission of other than new materials may be cause for the rejection of their bid.

1.18 **NON-COLLUSION:** Vendors, by submitting a signed bid or proposal, certify that the accompanying bid or proposal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under Tennessee or United States law.

1.19 **PAYMENT METHOD:** Knox County utilizes two (2) methods of placing orders for products. The first is the use of Purchase Orders. These Purchase Orders will be issued from Knox County Procurement Division via email. The Purchase Order will detail the quantity, specific item(s) and the contracted price for each item.

The second method is the use of the Knox County E-Commerce Card (VISA). Orders placed with the credit card will list the same information as the Purchase Order. Vendors will be given the card information and approval to process the transactions by the requesting department. Vendors must indicate in their bid response if the vendor will accept the Knox County E-Commerce Card (VISA) as a form of payment. Bidders are prohibited from charging Knox County any type of merchant fee from their financial institution to accept this type of payment.

1.20 **POSSESSION OF WEAPONS:** All vendors and their employees and their agents are prohibited from possessing any weapons on Knox County property without prior written consent from the County. In the case of a vendor whose contract requires possession of firearms or other weapons to successfully complete their contract, vendor must provide personnel who are bonded to bear said weaponry.

1.21 **PROCESSING TIME FOR PAYMENT:** Vendors are advised that a minimum of thirty (30) days is required to process invoices for payment.

1.22 **PROOF OF FINANCIAL AND BUSINESS CAPABILITY:** Vendors must, upon request, furnish satisfactory evidence of their ability to furnish products or services in accordance with the terms and conditions of these specifications. Knox County will make the final determination as to the vendor's ability.

1.23 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, request that bids be sent electronically. Bids being submitted on paper shall:

- Be submitted on recycled paper
- Not include pages of unnecessary advertising
- Be made on both sides of each sheet of paper

1.24 **RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS:** It is the responsibility of the prospective bidder to review the entire Invitation for Bids (IFB) packet and to notify the Procurement Division if the specifications are formulated in a manner that would unnecessarily restrict competition. Any such protest or question regarding the specifications or bidding procedures must be received in the Procurement Division before **April 21, 2025 at 4:30 PM** local time. These requirements also apply to specifications that are ambiguous.

1.25 **SIGNING OF BIDS: In order to be considered all bids must be signed. Please sign the original in blue ink.** By signing the bid document, the vendor acknowledges and accepts the terms and conditions stated in the bid document. The submission of your electronic bid will be the acknowledgement of signature.

1.26 **TAXES:** Knox County purchases are not subject to taxation. Tax exemption certificates will be provided upon request.

1.27 **TERM BID AGREEMENTS:** If this bid results in a term bid Contract with the vendor, Knox County must receive all general price decreases that other similar customers receive.

1.28 **TITLE VI OF THE 1964 CIVIL RIGHTS ACT:** "Nondiscrimination in Federally Assisted Programs"—"No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. Section 2000 et seq. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI.

1.29 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regard to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.30 **USE OF BID FORMS:** Vendors must complete the bid forms contained in the bid package. Failure to complete the bid forms may result in bid rejection.

1.31 **VENDOR DEFAULT:** Knox County reserves the right, in case of vendor default, to procure the articles or services from other sources and hold the defaulting vendor responsible for any excess costs occasioned thereby. Should vendor default be due to a failure to perform or because of a request for a price increase, Knox County reserves the right to remove the vendor from the County's bidders list for twenty-four (24) months.

1.32 **VENDOR REGISTRATION:** Prior to the opening of this bid, ***ALL BIDDERS*** must be registered with the Procurement Division. Please register on-line at our website at www.knoxcounty.org/procurement and click on "Online Vendor Registration." Vendors must be registered with the Procurement Division prior to submitting their bid.

1.33 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II OBLIGATIONS, RIGHTS AND REMEDIES

These terms and conditions shall be part of the Contract. Knox County reserves the right to negotiate other terms and conditions it deems appropriate and necessary under the circumstances to protect the public's trust.

2.1 **ALTERATIONS OR AMENDMENTS:** No alterations, amendments, changes, modifications, or additions to this Contract shall be binding on Knox County without the prior written approval of the County.

2.2 **ASSIGNMENT:** Contractor shall not assign or sub-contract this agreement, its obligations, or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County.

2.3 **APPROPRIATION:** In the event no funds are appropriated by Knox County for the goods or services in any fiscal year or insufficient funds exist to purchase the goods or services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

2.4 **BOOKS AND RECORDS:** Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract and make such materials available at its offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under this agreement for inspection by County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring, or delivering the products and services governed by this agreement.

2.5 **CHILD LABOR:** Contractor agrees that no products or services will be provided or performed under this Contract that have been manufactured or assembled by child labor.

2.6 **COMPLIANCE WITH ALL LAWS:** Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of goods and/or services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

2.7 **DEFAULT:** If Contractor fails to perform or comply with any provision of this Contract or the terms or conditions of any documents referenced and made a part hereof, Knox County may terminate this Contract, in whole or in part, and may consider such failure or noncompliance a breach of contract.

Knox County expressly retains all its rights and remedies provided by law in case of such breach, and no action by Knox County shall constitute a waiver of any such rights or remedies. In the event of termination for default, Knox County reserves the right to purchase its requirements elsewhere, with or without competitive bidding.

2.8 **GOVERNING LAW; VENUE:** This agreement shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defense based on personal jurisdiction, venue, and inconvenient forum.

2.9 **INCORPORATION:** All specifications, drawings, technical information, Invitation for Bids, Bid, Award, and similar items referred to or attached or which are the basis for this Contract are deemed incorporated by reference as if set out fully herein.

2.10 **INDEMNIFICATION/HOLD HARMLESS:** Contractor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the agreement by Contractor, its subcontractors, suppliers, agents, or employees or due to any negligent act or occurrence or any omission or commission of Contractor, its subcontractors, suppliers, agents or employees.

2.11 **INDEPENDENT CONTRACTOR:** Contractor shall acknowledge that it and its employees serve as independent contractors and that Knox County shall not be responsible for any payment, insurance or incurred liability.

2.12 **INSPECTION AND ACCEPTANCE:** Warranty periods shall not commence until Knox County inspects and formally accepts the goods and/or services. The terms, conditions and timing of acceptance shall be determined by Knox County. Knox County reserves the right to reject any or all items or services not in conformance with applicable specifications, and Contractor assumes the costs associated with such nonconformance. Acceptance of goods or services does not constitute a waiver of latent or hidden defects or defects not readily detectable by a reasonable person under the circumstances.

2.13 **IRAN DIVESTMENT ACT:** By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each bidder is not on the list created pursuant to Tennessee Code Annotated § 12-12-106.

2.14 **LIMITATIONS OF LIABILITY:** In no event shall Knox County be liable for any indirect, incidental, consequential, special, or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

2.15 **NO BOYCOTT OF ISRAEL:** Pursuant to Tennessee Code Annotated Title 12, Chapter 4, Part 1, by submission of a response to this solicitation, each respondent and each person signing on behalf of any respondent certifies, and in the case of a joint response each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each respondent is not currently engaged in, and will not for the duration of the contract engage in, a boycott of Israel.

2.16 **NON-DISCRIMINATION AND NON-CONFLICT STATEMENT:** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, or national origin, or individual trait found to be an illegal consideration shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this agreement, or in the employment practices of vendor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination. Contractor covenants that it complies with the Fair Wage and Hour Laws, the National Labor Relations Act, and other federal and state employment laws as applicable. Contractor covenants that it does not engage in any illegal employment practices.

Contractor covenants that it has no public or private interest, and shall not acquire directly or indirectly any interest, which would conflict in any manner with the provision of its goods or performance of its services. Contractor warrants that no part of the total contract amount provided herein shall be paid directly or indirectly to any officer or employee of Knox County as wages, compensation, or gifts in exchange for acting as officer, agent, employee, subcontractor, or consultant to Contractor in connection with any goods provided or work contemplated or performed relative to the agreement.

2.17 **ORDER OF PRECEDENCE:** In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) Written Contract, (2) Invitation for Bids, (3) Bid, (4) Award, (5) Special Terms and Conditions, (6) General Terms and Conditions, (7) Specifications, (8) Drawings.

2.18 **REMEDIES:** Knox County shall have all rights and remedies afforded under the U.C.C. and Tennessee law in contract and in tort, including but not limited to rejection of goods, rescission, right of offset, refund, incidental, consequential, and compensatory damages, and reasonable attorney's fees.

2.19 **RIGHT TO INSPECT:** Knox County reserves the right to make periodic inspections of the manner and means the service is performed or the goods are supplied.

2.20 **SEVERABILITY:** If any provision of this Contract is declared illegal, void, or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

2.21 **TAX COMPLIANCE:** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges by submission of its bid or proposal and signature that it is current in its respective Federal, State, County and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

2.22 **TERMINATION:** County may terminate this agreement with or without cause at any time upon thirty (30) calendar days' notice. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the termination date shall be paid.

2.23 **WARRANTY:** Contractor warrants to Knox County that all items delivered and all services rendered shall conform to the specifications, drawings, bid and/or other descriptions furnished and/or incorporated by reference, and will be fit for the particular purpose purchased, of merchantable quality, good workmanship, and free from defects. Contractor extends to Knox County all warranties allowed under the U.C.C. Contractor shall provide copies of warranties to the County. Return of merchandise not meeting warranties shall be at contractor's expense.

SECTION III SPECIAL TERMS AND CONDITIONS

3.1 **INTENT:** The intent of these specifications is to set forth and convey to prospective bidders the general type, character and quality of Vehicle Oil Change Services as desired by Knox County and the Knox County Sheriff's Office. Award will be based on Best Value. Best Value means more than low cost. It includes the initial cost, service quality and other factors detailed herein.

3.2 **ACCEPTANCE:** Bidders are advised that the payment of an invoice does not necessarily constitute an acceptance of items that are provided. Acceptance requires a specific written action by Knox County so stating.

3.3 **ACCOUNT SET-UP:** The successful vendor(s) will be required to set up a separate account for the Knox County Sheriff's Office. The successful vendor(s) shall be given a list of authorized personnel who may initiate service on the helicopters. Successful vendor will be required to provide two complete sets of repair estimates, invoices, pictures of damage to helicopter and any other corresponding paperwork in an organized manner as directed by Knox County. Invoicing and account information are as follows:

Invoices for Knox County Sheriff's Office:
Knox County Sheriff's
Office Attn: Administrative
Office 400 Main Street,
Suite L-149 Knoxville, TN
37902
OR Email: invoices@knoxsheriff.org.

3.4 **ADDITION OR DELETION OF GOODS AND SERVICES:** Knox County reserves the right to add or delete goods or services as the needs arise. If items are to be added, Knox County and the contractor will arrive at a mutually agreed price.

3.5 **AWARD STATUS:** Knox County intends to issue a one-year (1) award. Upon the mutual agreement of each vendor and Knox County, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years. The renewal option is at the discretion of Knox County. Should Knox County desire not to renew, no reason needs to be given. Knox County reserves the right to purchase these items from other sources if the need arises. Knox County reserves the right to revoke the award if a pattern of unavailability arises with the vendor.

3.6 **BACKGROUND CHECKS:** A Knox County Sheriff's Office background check is required for any or all employees of the successful vendor's staff providing services to the Knox County Sheriff's Office (KCSO). All employees of the successful vendor's staff that are authorized in the secure area will be required to complete a vendor's orientation with the KCSO Fire/Safety/Sanitation Officer prior to authorized access to the property for services. Any cost will be borne by KCSO. Certain felony convictions will prevent individual persons from being on KCSO property.

3.7 **BID EVALUATION:** In evaluating the bids, Knox County reserves the right to use any or all of the ideas from the bids submitted without limitation and to accept any part or the entire successful bid in selecting an operation which is judged to be in the best interest of Knox County. All material submitted becomes the property of Knox County.

3.8 **CHANGES AFTER AWARD:** It is possible that after award, Knox County might change its needs or requirements. Knox County reserves the right to make such changes after consultation with the vendor. Should additional costs arise, Knox County reserves the right to consider accepting these charges provided the vendor can document the increased costs. Knox County reserves the right to make such changes after consultation with the vendor. Knox County also reserves the right to accept proposed service changes from the vendor if they will lower the cost to Knox County and/or provide improved services.

3.9 **CONTACT PERSONNEL:** It shall be essential to the success of this term Contract to develop a good working relationship with the successful bidder(s). It is imperative that the Knox County account be handled efficiently and professionally. Knox County should be assigned no more than two (2) vendor contacts to handle billing inquiries and service-related issues. In the event one (1) or both contacts leave the Knox County account, the successful bidder shall formally introduce the new contacts to Knox County personnel. These contacts must be knowledgeable of Knox County's account so as to avoid any interruption of service.

3.10 **CONTRACT EXECUTION:** The award of this bid may result in a Contract between Knox County and the successful vendor. The Knox County Procurement Division will draft the Contract, and the Contract must be approved by Knox County Commission and the Knox County Law Department. Knox County will not accept any vendor's contracts or Terms of Agreements, Service Agreements, etc.

3.11 **DESTINATION AND DELIVERY:** Bidders must include all destination and delivery charges in their price. **There will be no extra hidden charges.** Knox County will not pay freight or fuel surcharges.

3.12 **DISCONTINUED ITEMS:** The successful bidder shall notify the Knox County Procurement Division of any items that have been discontinued and recommend an appropriate substitution. KCSO will be the sole judge if the substitution is appropriate.

3.13 **ENTRANCE TO KNOX COUNTY SITES:** Only authorized employees of the successful vendor are allowed on the premises of Knox County sites. Vendor employees are not to be accompanied in their work area by acquaintances, family members, assistants or any person unless said person is an authorized employee of the vendor. Visual employee identification is greatly encouraged. (e.g. uniform, badge.) All vendor employees entering a secure area must pass a background check authorizing clearance and completion of a Vendor orientation, if required, prior to having authorization onto the property.

3.14 **EVALUATION CRITERIA:** This bid will be evaluated using the following criteria:

Price	**65 points**
Company Locations	**20 Points**
Services Provided with Oil Change Services	**15 Points**

3.15 **EVALUATION REVIEW:** Knox County reserves the right to use all pertinent information that might affect the County's judgment as to the appropriateness of an award to the best evaluated bidder. This information may be appended to the bid evaluation process results.

Information on a service provider from reliable sources, and not within the service provider's bid, may also be noted and made part of the evaluation file. Knox County shall have sole responsibility for determining a reliable source. Knox County reserves the right to conduct written and/or oral discussions/interviews after the bid opening. The purpose of such discussions/interviews is to provide clarification and/or additional information to make an award that is in the best interest of Knox County.

3.16 **FORCE MAJEURE:** The successful contractor(s) will not be held responsible for acts beyond the control of the party to which a contract is awarded. Drastic fluctuations in fuel prices will be addressed as needed. Knox County recognizes that national and/or international occurrences, unforeseen and beyond control of vendor, may impact distribution costs. The prices offered as a result of this bid is to be based upon known and calculated expenses; therefore, should unexpected occurrences (i.e. natural disaster, drought, war, etc.) happen as sated above, the vendor may request, but is not guaranteed relief for the duration of said occurrence.

3.17 **INSURANCE:** The successful vendor must carry the insurance as indicated on the Insurance Attachment hereto. As proof of the vendor's willingness to obtain and maintain the insurance, the vendor must complete, sign, and have its insurance agent sign the attachment and submit it with the bid. Upon the Notification of Intent to Award, the successful vendor will be required to submit a Certificate of Insurance showing the specified coverage and naming Knox County as additional insured. Endorsement page(s) shall be provided with each COI for the life of the contract.

3.18 **INTERPRETATION:** No oral interpretation will be made to any respondent regarding the meaning of specifications. All questions are to be submitted in writing or electronically (email) and will be answered in the form of an amendment to the solicitation by the Knox County Procurement Division.

3.19 **NEWS RELEASES BY VENDORS:** As a matter of policy, Knox County does not endorse the services of a Contractor. A Contractor will not make news releases concerning any resultant Contract from this solicitation without the prior written approval of Knox County.

3.20 **NO CONTACT POLICY:** After the date the vendor receives this bid, any contact initiated by any bidder with any Knox County representative, other than the Procurement Division representative listed herein, concerning this solicitation is prohibited. Any such unauthorized contact may cause the disqualification of the bidder from this procurement transaction.

3.21 **PUBLIC RECORDS ACT:** Knox County is subject to the Tennessee Public Records Act 10-7-503 et seq. Bidders are cautioned that all documents submitted on behalf of this Invitation for Bid shall be open to the public for viewing and inspection and Knox County **will** comply with all legitimate requests. Submission of your bid will be an acknowledgement to this provision.

3.22 **PRICING:** The bidder(s) warrants that the unit price stated shall remain firm for a period of twelve (12) months from the first day of the Contract period. If the contractor's price is increased after the first year, Knox County must be given a written notice to consider. Such a request shall include as a minimum, (1) the cause for the adjustment; (2) the amount of the change requested with documentation to support the requested adjustment. Price increases will only be considered at the renewal period(s). If the price increase is rejected the contractor may:

3.22.1 Continue with the existing prices;
3.22.2 Request a lower price increase;
3.22.3 Not accept the renewal offer.

If a price increase is approved by Knox County and the Knox County Sheriff's Office, the approval notification will be sent in writing and the contractor will be notified of the new price schedule and effective date of increase. This documentation will become part of the bid file. No approvals will be authorized verbally.

3.23 **QUANTITIES:** Knox County does not guarantee any quantities of items to be purchased. Orders will be issued on an as-needed basis.

3.24 **QUOTATIONS:** The successful vendor(s) may be required upon request to prepare and submit (prior to commencing work) a written quotation or estimate for each part and / or maintenance project. The estimate shall include but not be limited to, the cost of labor, material, detailed description of the scope of work, inspection services and any required subcontracted services. The quotation shall remain firm for a period of thirty (30) days from acceptance by Knox County and the Knox County Sheriff's Office. All estimates and quotation preparation shall be at no cost or obligation to Knox County or the Knox County Sheriff's Office.

3.25 **REMANUFACTURED/PRE-OWNED EQUIPMENT:** Vendors are advised that Knox County will not accept remanufactured or refurbished equipment/parts for this bid.

3.26 **REMOVAL OF VENDOR'S EMPLOYEES:** The successful vendor agrees to utilize only experienced responsible and capable people in the performance of the work. KCSO may require that the successful vendor remove from the job covered by this Contract, employees who endanger persons or property or whose continued employment under this Contract is inconsistent with the interest of KCSO.

3.27 **REPORTS:** When needed, Knox County will require the vendor to generate needed reports. Examples include, but are not limited to, reports of inspections. Knox County will expect prompt and legible reports. Any such cost for these reports is to be built into the costs asked for herein.

3.28 **SCHEDULING OF WORK:** The successful vendor shall cooperate with the Sheriff's Office designee in performing work so that interference with the normal operations of the Sheriff's Office will be held to a minimum.

3.29 **SUBMIT QUESTIONS:** Prospective bidders may submit questions concerning this solicitation until **April 21, 2025,** at **4:30 p.m.** local time. Submit questions as noted in Section 1.1.

3.30 **SUBCONTRACTING:** Any subcontracting must be approved in advance by Knox County. Knox County may terminate the Contract if subcontracting is done without approval.

3.31 **VENDOR'S CONTRACT:** The Knox County Procurement Division will not accept any vendor's contract. If these types of Master Agreements, Service Agreements, Terms of Agreements, Terms and Conditions or other submitted contract agreements are submitted, they will not be accepted.

3.32 **WARRANTY:** The vendor shall fully guarantee equipment to be free of defects, materials and workmanship for a period stated in vendor response. This is from the date of acceptance by the agency. All shipping charges shall be at no cost to the County. Any additional and/or supplemental warranties or guarantees will be considered in the evaluation of this submittal.

SECTION IV SPECIFICATIONS

4.1 Vendor must provide a "20-minute" style drive thru oil change service

4.2 Vendor's facility must have a minimum of one dedicated drive-thru oil change lane. Ideally, vendors would have multiple locations within Knox County, however, a facility that is centrally located in Knox County will be considered and evaluated according to Section 3.14.

4.3 Vendor must supply a list of all company-owned locations within Knox County including address, phone number, hours of operation and manager information.

4.4 Vendor shall retain all charge tickets and forward a copy to the KCSO Fleet Maintenance Division, along with monthly charge report by the 25th day of each month. Charge tickets must include date, store location, vehicle fleet number, vehicle license number, Officer/Employee signature and badge number/employee ID number. All information on charge ticket must be clearly legible.

4.5 Vendor shall provide a detailed explanation of services included with each oil change.

4.6 Vendor shall provide a fluid check and top-off service free during vehicles' normal 5,000-mile service interval.

4.7 Vendor shall provide prices in Section VI of other available services and replacement items such as, but not limited to:

- Transmission service (fluid and filter)
- Radiator service
- Rear differential service
- Tire rotation
- Air filter
- Serpentine belt replacement

4.8 Prices shall be based on 2012-2024 Dodge Chargers, 2009-2020 Ford Explorers, 2018-2025 Dodge Durango and 2010-2012 Ford Crown Vic's. KCSO may have other vehicles to be serviced. Some types of other vehicles include Chevrolet Malibu, Chevrolet Impala, and Chevrolet Tahoe. This list is not inclusive of all the vehicle types that are currently in service by the Knox County Sheriff's Office.
Pricing will be determined by manufacture recommended viscosity ratings required to ensure warranty coverage for all vehicles utilized across the Knox County Sheriff's Office fleet.

4.9 Any additional services must be pre-authorized by KCSO Fleet Management Division.

4.10 **WORKMANSHIP:** Where not more specifically described in any of the various sections of these specifications, workmanship shall conform to all of the methods and operations of best standards and accepted practices of the trade or trades involved and shall include all items of installation regularly furnished or required for completion of the services. All work shall be executed by personnel skilled in their respective lines of work.

Note: Bidders need not return pages 1-10 with their response. Pages 11-15 must be returned as your official bid response along with any other information requested. If bidding electronically, you must attach required documents to your response. If you have any questions, please contact the Buyer referenced in Section 1.1 of this document before you submit your bid response.

SECTION V VENDOR'S INFORMATION & PRICING FOR INVITATION FOR BID #3651, VEHICLE OIL CHANGE SERVICES

5.1 Vendor Name_____

WHEREAS, by means of Resolution R-23-6-409, the Knox County Commission approved a contract with Keep Knoxville Beautiful, Inc., designated as Contract No. 23-356, for the provision of litter outreach, education, and coordination services (the "Contract"); and

WHEREAS, Knox County and Keep Knoxville Beautiful, Inc. desire to enter into an amendment to the Contract for the addition of the Adopt-A-Stream Program in the amount of $23,293.00 per year, as further detailed in the attached amendment to the Contract.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Amendment to Contract No. 23-356 with Keep Knoxville Beautiful, Inc. for the addition of the Adopt-A-Stream Program is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Amendment to Contract No. 23-356 with Keep Knoxville Beautiful, Inc. for the addition of the Adopt-A-Stream Program shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Amendment to Contract No. 23-356

Knox County Government
and
Keep Knoxville Beautiful, Inc.

This Amendment to Contract is made and entered into by and between Knox County Government ("County"), and Keep Knoxville Beautiful, Inc. ("Contractor").

WITNESSETH:

WHEREAS, County and Contractor have previously entered into a certain Contract designated as Contract No. 23-356 for Litter Outreach Education and Coordination Services (hereinafter referred to as the "Contract"):

NOW, THEREFORE, in consideration of the foregoing premises, and other good and valuable consideration, the receipt and legal sufficiency of which are hereby acknowledged, County and Contractor agree to amend the Contract as follows:

Amend the Contract to add Attachment E attached hereto.

Except as hereby modified, all other terms and conditions of the original Contract between County and Contractor shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have caused this Amendment to Contract No. 23-356 to be executed as of the latest date written below.

ATTACHMENT E

KNOX COUNTY GOVERNMENT AND KEEP KNOXVILLE BEAUTIFUL, INC.
ADOPT-A-STREAM PROGRAM AGREEMENT

The purpose of this document is to provide guidance and clarification for contracting the operation and management of the Adopt-A-Stream program between Knox County Government and Keep Knoxville Beautiful, Inc.

KNOX COUNTY ADOPT-A-STREAM PROGRAM OBJECTIVES:

1. Provide citizens the opportunity to engage in a fulfilling program that improves stream water quality and fosters stewardship of our natural resources.
2. Meet the following Knox County MS4 permit Education Outreach and Public Participation requirements:
    a. General awareness of the stormwater impacts on water quality
    b. Awareness of the proper storage, use, and disposal of pesticides, herbicides, fertilizers oil and other automotive-related fluids.
    c. Awareness of identifying and reporting procedures for illicit connections/discharges, sanitary sewer seepage, spills, etc.
    d. Citizen participation in pollution prevention
    e. Participation in addressing the impacts on water quality or local stormwater management issues
    f. Participation in the proper storage, use, and disposal of household hazardous waste, automotive related fluids, pesticides, herbicides, and fertilizers use.
    g. And participation in identifying and reporting procedures for illicit connections/discharges, sanitary sewer seepage, spills, etc.
3. Increase citizen participation in the Adopt-A-Stream Program by increasing the number of groups and the number of adopted stream miles.

PROGRAM SUMMARY:

The Adopt-A-Stream (AAS) program aims to provide Knox County citizens the opportunity to participate in water quality improvement efforts while meeting public participation requirements for the Knox County MS4 NPDES Permit. Active groups are expected to complete two cleanups each year, usually in the spring and fall, document their efforts, and optionally complete additional activities with the goal of improving the quality and resilience of their adopted stream segment. Captains of new groups receive a mandatory orientation before their group's first cleanup. New groups become eligible for a road sign acknowledging their stream adoption after participating in the program for a year, completing two cleanups, and committing to continued participation. To ensure program participation is a fulfilling experience for volunteers, supplies and trash disposal support are provided as needed to each group.

PROPOSED COST

Keep Knoxville Beautiful, Inc. proposes an annual fee of **$23,293** for the management of this program. This amount would be invoiced to the County on a **quarterly basis**, with payments of **$5,823.25** issued at the beginning of each following quarter for services provided in the previous quarter. Invoices will be submitted in accordance with County procedures and will be accompanied by the quarterly report as outlined in the Quarterly Reporting section of this agreement.

ROLES AND RESPONSIBILITIES

KEEP KNOXVILLE BEAUTIFUL (KKB) RESPONSIBILITIES:

Group Coordination:

- Serve as the primary point of contact and go-between for the Adopt-A-Stream program with the Knox County Stormwater Compliance office (e.g., approval of groups, road sign requests, supplies, and assistance).
- Maintain supply inventory for cleanups and request needed cleanup supplies (e.g., trash bags, gloves, grabbers to loan) from Knox County Stormwater Compliance/ Solid Waste.
- Alert Knox County about sign needs, placement, or removal. Sign requests to the County should be made via email to the Knox County Sign Shop with Knox County Stormwater copied. The subject of the email should contain the name of the group. The body of the email should include the group name (exactly how it should appear on the sign with punctuation included), a description of the location, and a map with an "X" marking the desired sign location.
- Alert Knox County about the AAS map updates. Map updates should be made via email to stormwater@knoxcounty.org and include Stream Name(s), Stream Segment ID(s), adopting group name, and any other pertinent information.

New Group Coordination

- Contacting and explaining adoption responsibilities to interested groups.
- Completing a new group orientation with leaders of prospective groups and documenting their participation.
- Providing support at first cleanup as requested by new groups (e.g., staff attendance at first cleanup).
- Seek approval from County for final stream selection to ensure availability, safety, access, and program applicability (County makes final determination of stream eligibility).

Existing Group Coordination

- Coordinating and scheduling regular (twice yearly) cleanups.
- Providing program reminders which meet NPDES Permit requirements prior to each cleanup.
- Coordinate pickup or delivery (as requested) of supplies in a timely manner to cleanup groups.
- Ensuring that groups report data from the cleanup (e.g., number of volunteers, number of bags, number of hours worked, trash notes).
- Encouraging groups to take a group photo at each cleanup and provide it to KKB for reporting to the County.
- Coordinating return of supplies after cleanups.
- Reminding groups of their responsibilities to clean up their segments on a regular (twice yearly) basis.
- Attempting to accommodate add-on activities at the adopted stream site (e.g., invasive species removal, tree planting), and requesting any needed support from the County.
- Ensuring groups sign liability waivers.

Trash Disposal:

- Coordinate waste removal to closely follow cleanups, typically within one business day.
- Request litter crew assistance 2 weeks in advance, when possible, for waste removal for small cleanups where trash can be left in the County right-of-way by contacting Knox County Solid Waste. Requests received by the County with less than 2 weeks' notice may delay the County's response.
- Ensure groups leave trash in a predetermined location and in the County right-of-way when possible. Some groups may take their own trash to a Knox County Convenience Center. Knox County Parks and Recreation will assist with disposal of trash at park sites when available.
- Request assistance from County for waste removal for large cleanups, large waste disposal, and/or approval of exemptions at waste facilities.

Program Growth:

- Advertising the program via social media posts, brochures at tabling events, and newsletter articles.

Quarterly Reporting:

- Report activities quarterly using quantifiable data to the extent possible.
- Report cleanups, including documentation of group name, stream name, date of cleanup, number of participants, number of trash bags collected, average weight of bags, whether Litter Crew picked up the trash, stream miles cleaned, notes, and a group photo. Additional clean up photos are appreciated.
- Report new groups and new group orientations quarterly including documentation of captain name(s), group name, date, and stream name.
- Report group inactivity or missing documentation quarterly including documentation of group name, date as applicable, and stream name.
- Report program growth efforts quarterly including documentation of number of social media posts made, number of events, and number of newsletter articles.
- Make corrections and provide additional or supplemental data if requested by County.

Supplies:

- Maintain a set of cleanup supplies including waders, gloves, safety vests, first aid kit, bug spray, trash grabbers. Initial set supplied by the County.

KNOX COUNTY RESPONSIBILITIES:

Group/Stream Approvals:

- Review and grant approval for stream adoption, depending upon whether the stream has been pre-identified as adoptable, whether the group has access to the stream, whether the stream is currently safely accessible, whether the stream is currently in need of cleanup, and whether the stream is within County jurisdiction.
- Review and grant approval for group names. Groups are encouraged to adopt streams in their formal or family names to maintain the program's apolitical and respectful ethos. Names that could be interpreted as slogans, calls to action, endorsements, or memorials may not be allowed.

Signage:

- Review sign requests sent to the Knox County Sign Shop.
- Coordinate with KKB to revise the sign request if the Knox County Sign Shop determines the sign cannot be put in the desired location.

Map:

- Update program web map to reflect active groups and status of adoptable stream segments.
- Alert KKB about available stream segments that are preferred adoption sites.

Supplies:

- Provide an initial set of cleanup supplies including waders, gloves, safety vests, first aid kit, bug spray, trash grabbers.
- Provide trash bags for cleanups upon request (coordinated through Knox County Solid Waste).
- Provide Water Quality Forum (WQF) AAS program brochures while supplies last.
- Provide WQF AAS T-Shirts while supplies last.

WHEREAS, Knox County desires to have a contractor provide Construction Engineering Inspection Services for the Advanced Traffic Management System (ATMS) Phase 2 Traffic Signal Improvements; and

WHEREAS, the Knox County Procurement Division issued a solicitation for Letters of Interest and a Request for Qualifications for the purpose of finding a qualified contractor to provide the Construction Engineering Inspection Services for the ATMS Phase 2; and

WHEREAS, the response of CDM Smith, Inc. to the Letters of Interest and Request for Qualifications were determined to be the most responsible and responsive submittal meeting the specifications and needs of Knox County; and

WHEREAS, the proposed contract with CDM Smith, Inc. is in the amount of $237,900.00 and is effective beginning August 1, 2025 and ends upon completion of the services, as further detailed in the attached contract; and

WHEREAS, CDM Smith, Inc. has the necessary experience, qualifications, and expertise to perform the services for Knox County.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The contract with CDM Smith, Inc. for the provision of Construction Engineering Inspection Services for the Advanced Traffic Management System (ATMS) Phase 2 is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the contract with CDM Smith, Inc. for the provision of Construction Engineering Inspection Services for the Advanced Traffic Management System (ATMS) Phase 2 shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Knox County Government

and

CDM Smith, Inc.

This Contract, made and entered into this _____day of _____, 2025 between Knox County Government, hereinafter referred to as "County" and CDM Smith, Inc., hereinafter referred to as "Contractor".

Whereas, County requested solicitations for Construction Engineering Inspection Services for the Advanced Traffic Management System Phase 2 (Solicitation #3649) and;

Whereas, Contractor submitted qualifications in accordance with said requested specifications, the response of which is the most responsible and responsive submittal meeting specifications accepted by County;

Whereas, Contractor agrees and undertakes to provide said services for County, as set forth in the Request for Qualifications (Solicitation #3649), and at the price quoted for said services by Contractor in their Professional CEI Services Agreement (Attachment E). Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Request for Qualifications, the Contractor's submittal, and the Contractor's Professional CEI Services Agreement (Attachment E).

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;

Witnesseth:

1. Terms of this Contract. This Contract commences on the 1st day of August 2025 and ends upon completion of the services listed in the Contractor's Professional CEI Services Agreement (Attachment E) unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. Knox County reserves the right to obtain these services from other sources if the need arises. Knox County reserves the right to revoke the award if a pattern of unavailability arises with the Contractor.

2. Payment. County shall pay Contractor the amount as agreed upon per the Contractor's Professional CEI Services Agreement (Attachment E) pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by Knox County.

3. Invoicing and reporting requirements. Contractor shall invoice Knox County per the payment terms outlined the Contractor's Professional CEI Services Agreement (Attachment E). Invoices shall be sent to the following:

Knox County Engineering and Public Works
Attn: Jim Snowden
205 W. Baxter Avenue
Knoxville, TN 37917
brad.warren@knoxcounty.org

4. Termination. County may terminate this Contract with or without cause, upon written notice of not less than sixty (60) calendar days. Upon termination, County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the prior specific written permission of County.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give Knox County at least one hundred twenty (120) calendar day advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

5. Appropriations. In the event no funds are appropriated by the County for Construction Engineering Inspection Services for the Advanced Traffic Management System Phase 2 in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of Construction Engineering Inspection Services for the Advanced Traffic Management System Phase 2, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of County.

10. This Contract shall be governed by the laws of the State of Tennessee both as to interpretation and performance. The Chancery Court and/or the Circuit Court of Knox County, Tennessee, shall have exclusive and concurrent jurisdiction of any disputes, which arise hereunder.

11. Right to inspect. County reserves the right to make periodic inspections of the manner and means the services are performed.

12. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex or national origin, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall upon request show proof of such non-discrimination, and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under the Contract for inspection by County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. Contractor shall indemnify**,** defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, suppliers, agents or employees or due to any negligent act, occurrence, or omission or commission of Contractor, its subcontractors, suppliers, agents, or employees.

15. Delivery. Contractor shall render the Construction Engineering Inspection Services for the Advanced Traffic Management System Phase 2 in accordance with Request for Qualifications and the Contractor's Professional CEI Services Agreement (Attachment E).

16. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

17. Limitations of liability. In no event shall County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if County has been advised of the possibility of such damages.

18. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

A. Letter of Interest - Solicitation #3649
B. Contractor's Response to Letter of Interest – Solicitation #3649
C. Request for Qualifications – Solicitation #3649
D. Contractor's Response to Request for Qualifications – Solicitation #3649
E. Contractor's Professional CEI Services Agreement
F. Contractor's Certificate of Insurance

In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) this Contract, (2) Attachment C, (3) Attachment D, (4) Attachment E.

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year first above written.

Letter of Interest
Solicitation #3649

The Procurement Division of Knox County, Tennessee will receive sealed Letters of Interest (LOI) and Request for Qualifications (RFQ) for **Construction Engineering Inspection Services for the Advanced Traffic Management System Phase 2 Project** as specified herein. LOIs must be received by **2:00 p.m.** on **April 22, 2025**. Late submittals will neither be considered nor returned.

Deliver LOIs To:

Solicitation Number 3649
Knox County Procurement Division
Suite 100
1000 North Central Street
Knoxville, Tennessee 37917

The Envelope must show the Company Name, Solicitation Name, Solicitation Number & Closing Date.

SECTION I GENERAL TERMS AND CONDITIONS

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information be routed to Brian Hubbs, Construction and Contract Specialist, at 865-215-5753. Questions may be emailed to brian.hubbs@knoxcounty.org. If you haven't heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division may be obtained on the internet at www.knoxcounty.org/procurement.

1.2 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste, or abuse, please file your report online at http://www.knoxcounty.org/audit/hotline.php.

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.3 **BUSINESS OUTREACH PROGRAM:** Knox County has established a Business Outreach Program which has the responsibility of increasing opportunity for small, minority and women owned businesses. This is being accomplished through community education programs, policy edification, active recruitment of interested businesses and process re-engineering.

Knox County is committed to ensuring full and equitable participation for all disadvantaged businesses. Knox County welcomes submittals from those disadvantaged businesses that have an interest in providing the goods and/or services listed herein. In addition, Knox County strongly encourages the inclusion of disadvantaged businesses by non-disadvantaged Contractors who may wish to partner or subcontract portions of this agreementin order to accomplish the successful delivery of goods and/or services.

If you are a disadvantaged business and would like additional information about our Business Outreach Program, please contact:

Diane Woods, Business Outreach Administrator Knox County Procurement
Telephone: 865-215-5760
Fax: 865-215-5778
Email: diane.woods@knoxcounty.org

1.4 **CONFLICT OF INTEREST:** Vendors must have read and complied with the "non-conflict of interest" statement provided in the vendor registration process prior to the closing of this solicitation.

1.5 **COPIES:** Knox County **requires** that LOIs being submitted be one (1) marked original and three (3) exact copies. An electronic copy on CD/flash-drive, in one complete file, is also required.

1.6 **DECLARATIVE STATEMENT:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the LOI being deemed non-responsive and disqualified.

1.7 **ELECTRONICALLY SUBMIT RESPONSE:** Due to the nature of this solicitation, the Knox County Procurement Division **will not** accept electronically submitted responses. A hard copy response must be submitted with one (1) marked original and three (3) exact copies. An electronic copy on CD/flash-drive, in one complete file, is also required. Email and facsimile submissions are strictly prohibited.

1.8 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys." The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of purchase orders, on-line retrieval and submittal of quotes, bids and proposals for our vendor-clients and on-line requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations we need your help. When doing business with Knox County we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our on-line Procurement system, "KnoxBuys," if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions, please contact the Procurement Division Representative listed in Section 1.1 of this document.

1.9 **INCURRED COSTS:** Knox County will not be liable in any way for costs incurred by any respondent in the preparation and submission of its LOI in response to this solicitation, nor for the presentation of its qualifications and/or participation in any required meetings, discussions or negotiations. If any oral presentations are required, Knox County advises vendors to be thorough and complete in submission of information.

1.10 **LOI DELIVERY:** All LOIs must be submitted in hard copy to the address listed in the solicitation. Knox County requires vendors, when hand delivering LOIs, to time and date stamp the envelope before depositing it in the bid box. Knox County will not be responsible for any lost or misdirected mail sent by common carrier, nor will Knox County be responsible for submittals delivered to addressees and Suites other than the delivery address and Suite specified at the top of this solicitation. The time clock in the Procurement Division shall serve as the official record of time.

Solicitations must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.11 **NO CONTACT POLICY:** After the date and time the firm receives this solicitation, any contact initiated by any firm with any Knox County representative, other than the Procurement Division representative listed herein, concerning this LOI **is strictly prohibited**. Any such unauthorized contact may cause the disqualification of the firm from this process. If the firm is found in violation of this section for any reason, it could result in debarment from Knox County's bidders' list for twenty-four (24) months.

1.12 **NON-COLLUSION:** Vendors, by submitting a signed LOI, certify that the accompanying submittal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under Tennessee or United States law.

1.13 **PUBLIC RECORDS ACT:** Knox County is subject to the Tennessee Public Records Act 10-7-503 et seq. Respondents are cautioned that all documents submitted on behalf of this LOI shall be open to the public for viewing and inspection and Knox County will comply with all legitimate requests.

1.14 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, request that LOIs be submitted on paper and shall:

- Be submitted on recycled paper;
- Not include pages of unnecessary advertising;
- Be made on both sides of each sheet of paper.

1.15 **SIGNING OF SUBMITTALS:** **In order to be considered all Submittals must be signed. Please sign the original in blue ink.** By signing the response document, the respondent acknowledges and accepts the term and conditions stated in the LOI document. It is suggested that mailed LOIs be sent by certified or registered mail with return receipt requested or LOIs sent via common carrier include tracking and delivery confirmation.

1.16 **TITLE VI OF THE CIVIL RIGHTS ACT:** "Nondiscrimination in Federally Assisted Programs" - "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. section 2000 et seq. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI.

1.17 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regards to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.18 **VENDOR REGISTRATION:** Prior to the closing of this solicitation, ***ALL INTERESTED FIRMS*** must be registered with the Procurement Division. Please register on-line at our website at www.knoxcounty.org/procurement and click on "Online Vendor Registration." All interested firms must be registered with the Procurement Division **prior** to submitting their response.

1.19 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II SCOPE OF WORK

2.1 **SCOPE OF WORK:** Knox County, an Equal Opportunity Employer, is seeking to retain a vendor to provide Construction Engineering Inspection (CEI) Services for the Advanced Traffic Management System (ATMS) Phase 2 Project. This project involves the installation of equipment upgrades at thirteen (13) traffic signals along the Maynardville Pike corridor and two (2) intersections at N. Watt Rd and I-40. All intersections are subject to additional video detection and the installation of dedicated short range communications (DSRC) units as well as signal timing optimization. Four (4) intersections will require cabinet replacements, new controllers, battery backups and cell modems.

State Project Number: 47LPLM-F3-178
Federal Project Number: CM-4700(64)
Project Pin: 128833.00

The work includes but is not limited to the following:

A. Inspecting work performed by the contractors and ensuring all work conforms to Knox County / TDOT specifications
B. Recording all details/quantities in a daily inspection report
C. Reviewing and approving pay applications
D. Performing all necessary environmental inspections

All CEI Services must be performed in accordance with the latest edition of the TDOT Standard Specifications for Roadway and Bridge Construction and the latest edition of the TDOT Local Government Guidelines for the Management of Federal and State Funded Transportation Projects. Consultant invoicing and payment for services will be administered by Knox County in accordance with TDOT guidelines.

2.2 **AWARD:** Knox County intends to issue a one-time award and lump-sum contract. The Knox County Procurement Division will draft the contract. Knox County will not accept any vendor's contract. Vendors are cautioned that the Knox County Mayor is the only individual who can legally bind Knox County to a contractual agreement.

Knox County reserves the right to purchase these items/services from other sources if the need arises. Knox County reserves the right to revoke the award if a pattern of unavailability arises with the vendor.

2.3 **ESTIMATED SCHEDULE:**

1. Question deadline: Prospective respondents may submit questions no later than Tuesday, April 8, 2025 at 4:30 p.m. eastern time. All questions must be emailed to Brian Hubbs at brian.hubbs@knoxcounty.org.
2. Letters of Interest due Tuesday, April 22, 2025 at 2:00 p.m. eastern time.
3. Short list of three (3) firms selected by Tuesday, May 6, 2025.
4. Qualifications of short listed firms due by Tuesday, May 20, 2025 at 2:00 p.m. eastern time.
5. Final selection of highest ranked firm by Tuesday, June 3, 2025.

2.4 **LETTERS OF INTEREST:** Firms may request consideration by submitting a letter of interest to **Knox County Procurement, 1000 N. Central St., Suite 100, Knoxville, TN 37917**. All letters of interest must be received by **Knox County Procurement** on or before **April 22, 2025 at 2:00 p.m. local time.** The letter of interest shall indicate the scope of services to be completed by any sub-consultants. Knox County shall be billed on a monthly basis for work completed and accepted by the County and Knox County Engineering and Public Works.

2.5 **LETTERS OF INTEREST REQUIREMENTS/EVALUATION:** Firms shall submit letters of interest with firm contact information including name, address and e-mail of primary contact. The letters of interest shall also include:

- **Work experience in required discipline with other government agencies and projects of similar size and scope. Details shall include context and description of contracts. (20 Points)**
- **Demonstrated specialized expertise related to the project. (10 Points)**
- **Demonstrated capabilities of firm including number of employees assigned to the project and TDOT approval letter for projects of this nature of work. (10 Points)**
- **Professional licensure (10 Points)**

From the letters of interest, Knox County will select the top three (3) qualified firms to submit qualifications. A Request for Qualifications document will be sent to these top three (3) qualified firms upon selection. The top ranked consultant will be selected from this list.

2.6 **PRE-QUALIFICATION:** Knox County requires that all firms being considered are pre-qualified with TDOT. Additional TDOT pre-qualification procedures, pre-qualification forms and current "Standard Procurement Policy for Engineering and Technical Services" are available at this website: www.tennessee.gov/tdot.

2.7 **QUALIFICATIONS EVALUATION:** Knox County will evaluate the top three (3) firms on the following criteria:

- **General Qualifications of Firm (40 Points)**
  - Years in business and years key personnel have performed construction engineering inspection services
  - Number of inspectors and licensed professionals
  - Capabilities and resources of firm
  - Number of support personnel and roles
- **Key Personnel assigned to Projects (30 Points)**
  - Resumes of key personnel to work with Knox County
  - Specific areas of expertise
  - Availability of personnel to Knox County
- **Current Projects and Workload (20 Points)**
  - List of current or past projects of similar size and scope
  - Initial budget and final cost for above project
  - Start date and final completion date for above projects
  - Projected workload
- **Licensure, Insurance and Litigation (10 Points)**
  - Provide evidence of licensure to practice engineering in the State of Tennessee
  - Provide evidence of appropriate insurance coverage
  - Provide information of any litigation in which the firm has been involved within the past five (5) years

The consultant evaluation committee holds the ability to conduct interviews based on scoring.

Pre-qualification procedures, example letter of interest, list of pre-qualified firms and certified DBEs, TDOT's standard procurement policy, and additional information can be found at the following website: https://www.tn.gov/tdot/business-redirect/consultantinfo.html. For information on pre-qualification, please contact Christine Smotherman at (615) 741-4460 or Christine.Smotherman@tn.gov.

Evaluation proceedings will be conducted within the established guidelines regarding equal employment opportunity and nondiscriminatory action based upon the grounds of race, color, sex, creed or national origin interested certified Disadvantaged Business Enterprise (DBE) firms as well as other minority-owned and women owned firms are encouraged to respond to all advertisements by Knox County. For information on DBE certification, please contact David Neese at (615) 741-3681 or David.Neese@tn.gov. Details and instructions for DBE certification can be found at the following website: https://www.tn.gov/tdot/civil-rights/small-business-development-program.html.

Failure to submit any of the above information or any other information requested in this solicitation may result in the response being disqualified.

Subject: Knox County Solicitation No. 3649
Request for Letters of Interest & Qualifications; Construction Engineering Inspection (CEI) Services for the Advanced Traffic Management System (ATMS) Phase 2 Project

Dear Mr. Hubbs:

CDM Smith is pleased to respond to Knox County's request for letters of interest to provide Construction Engineering Inspection (CEI) services for implementation of the Advanced Traffic Management System (ATMS) Phase 2 project. This letter includes a brief description of the credentials of our firm and the individuals who will have key project assignments. We emphasize the following key points:

- ✓ **CDM Smith has served as prime CEI consultant for recent ATMS projects in our region, including construction of the Knox County ATMS Phase 1 project; the Sevier County Tourist Corridor Phase 1 ATMS project; the Maryville-Alcoa Phase 1 ATMS project; and the Sevier County EDA Smart Signal Upgrade project.** The same team members who provided CEI services for these TDOT Locally Managed projects are proposed to lead the Knox County ATMS Phase 2 project.
- ✓ **CDM Smith has proven success in completing CEI projects under TDOT's Locally Managed Program.** In fact, we have been under continuous direct contract with TDOT for one or more projects since the 1960's. We maintain unlimited prequalification status with the department, and our graded performance on TDOT projects is outstanding. In addition to the ATMS projects listed above, we have substantial experience with TDOT locally managed traffic signal projects in Knoxville, Knox County, Gatlinburg, Bristol, Greeneville, Memphis, and many other Tennessee communities.
- ✓ **Staff from CDM Smith's Knoxville office will oversee the project, giving us easy access to the project site and key County personnel.** Our local team includes a highly qualified CEI project manager, field inspectors, and records manager – as well as a team of seasoned traffic engineers to assist on an as-needed basis. If specialty expertise is needed, CDM Smith's national signal systems and communications experts will also be available to assist on this project.

We appreciate consideration of CDM Smith, and we look forward to the opportunity of again providing the services expected of your selected consultant. If you have any questions regarding our submittal or require additional information, please feel free to contact me by phone at (865) 963-4342 or email at MizeRJ@CDMSmith.com. Thank you for considering CDM Smith to lead this exciting project!

Sincerely,
CDM Smith Inc.

Jeff Mize, PE | Vice President

General Information

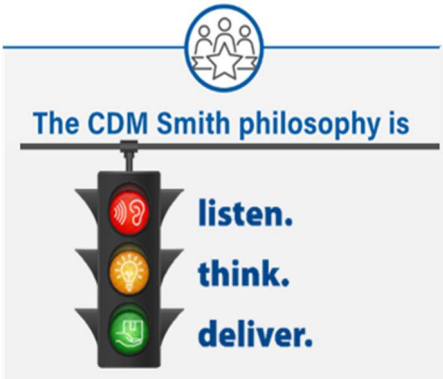
CDM Smith was incorporated in 2011 through the merger of two long established engineering firms, CDM Inc. and Wilbur Smith Associates (WSA). The firm is now a major worldwide transportation, water, environmental, energy and facilities consulting firm offering a wide array of planning, engineering and construction phase services. With a total staff of over 6,000 employees worldwide, including over 120 in Tennessee, CDM Smith has the breadth of knowledge and depth of quality individuals to deliver this Knox County project as we have on all of our past assignments.

CDM Smith's Tennessee transportation practice was established in Knoxville in the 1960's, initially to serve the Tennessee Department of Transportation (TDOT). CDM Smith has been providing engineering services under continuous contract with TDOT during the decades since and is pre-qualified with **unlimited status** to provide a variety of services for the Department. Our firm holds active TDOT on-call contracts in CEI, roadway design, survey, multimodal design, multimodal technical studies, planning, bridge repair & rehabilitation design, and bridge load rating. CDM Smith, Inc. is licensed (license number 6582) by the Tennessee Board of Architectural and Engineering Examiners to provide engineering services within the state.

In addition to 56 years of work directly for TDOT, CDM Smith has assembled an impressive resume of projects for local government clients, including: Knox County, Knoxville, Alcoa, Maryville, Blount County, Sevierville, Pigeon Forge, Gatlinburg, Bristol, Kingsport, Morristown, Etowah, Lenoir City, Cleveland, Chattanooga, Franklin, Nashville, Spring Hill, and Memphis. Having completed CEI projects for local governments and TDOT for several decades, CDM Smith is very familiar with the standards and policies required for TDOT Locally Managed projects, thereby allowing us to efficiently deliver the Knox County ATMS Phase 2 CEI project. Through hard work, dedication, and a great, stable employee base, CDM Smith is proud to have earned a reputation as a premier transportation engineering firm in the area.

A. WORK EXPERIENCE IN REQUIRED DISCIPLINE – SIMILAR SIZE / SCOPE PROJECTS

The following pages contain descriptions of successful recent CDM Smith projects that are similar in scope to the Knox County ATMS Phase 2 project. As demonstrated herein, CDM Smith has the technical ability, experience, and availability to successfully complete this CEI project consistent with the vision and goals of the County.



We listen to each client with a solution-driven attitude, tap the best minds to apply ingenuity and advanced technologies, and create lasting solutions to exceed your expectations.

Knox County ATMS Phase 1 – CEI (Knox County, TN)

CDM Smith worked under contract with Knox County to provide CEI services for the Advanced Traffic Management System (ATMS) Phase 1 project. This project involved improvements to 15 intersections along two busy Knox County corridors. Construction involved interconnecting 10 signals along Maynardville Pike and interconnecting 5 signals along N. Cedar Bluff Road. All intersections included ADA pedestrian and ramp modifications, phasing changes, pavement marking upgrades, signal head replacement, signage improvements, and testing and integrating new signal software.

Sevier County Tourist Corridor ATMS – CEI (Sevier County, TN)

CDM Smith worked under contract with the City of Sevierville to serve as prime CEI consultant for this TDOT locally managed ATMS project, funded through a CMAQ grant. The scope included traffic signal upgrades to nearly sixty (60) intersections along three major tourist corridors in the cities of Sevierville and Pigeon Forge. The large volume of work required the funding to be split into two separate TDOT PIN numbers. The project included upgrades to all traffic signals along the Parkway (US-441/SR-66) from I-40 to the southern city limit in Pigeon Forge; the entire length of Veterans Boulevard (SR-449); Dolly Parton Parkway (SR-35) from Downtown Sevierville to east of Veterans Boulevard; and other nearby strategic intersections. Construction was completed in 2022.

Specific work items included:

- Signal controller installation,
- Controller cabinet modifications,
- Signal head modifications,
- Signal pole & ped pole installation and upgrades,
- Video detection installation,
- Signal timing and detection zone setup,
- Pavement marking & signing replacement and upgrades,
- ADA curb ramp additions and modifications,
- Fully ADA accessible and audible pedestrian system installation.

Sevier County EDA Funded Smart Signal Upgrades – CEI (Sevier County, TN)

CDM Smith is working under contract with the City of Pigeon Forge to serve as prime CEI consultant for this multi-jurisdictional signal upgrade project that is funded through a U.S. Department of Commerce, Economic Development Administration (EDA) grant. The project involves upgrades to fifty-five (55) traffic signals located throughout Pigeon Forge, Sevierville, Gatlinburg, and Sevier County. The upgrades include a combination of new detection cameras, controllers, cabinets, conduit, wiring, signal communications, and upgrades to ADA pedestrian signals and curb ramps as needed at each intersection.

City of Pigeon Forge, Signal and Signal Systems – CEI (Pigeon Forge, TN)

CDM Smith served as CEI consultant under contract with the City of Pigeon Forge for the construction of traffic signal systems in two critical areas within the city that experience extremely high traffic volumes. CDM Smith completed the signal design, timing plans, interconnect plan, and full CEI services for construction of traffic signals at the following intersections that serve Dollywood's theme park property:

- SR-449 (Veterans Blvd) / Jake Thomas Rd / Dollywood Resorts Blvd
- SR-449 (Veterans Blvd) / Splash Country Exit Road
- SR-449 (Veterans Blvd) / McCarter Hollow Road
- McCarter Hollow Road / Dollywood Theme Park Exit Road

CDM Smith also completed signal design, timing plans, interconnect plans, and full CEI services for replacement of traffic signal poles, detection, heads, cabinets, and ADA pedestrian infrastructure at the following intersections in downtown Pigeon Forge along US-411/SR-66 (Parkway).

- US-441/SR-66 (Parkway) / SR-73 (Wears Valley Road)
- SR-73 (Wears Valley Road) / McGill Street
- US-441/SR-66 (Parkway) / Henderson Chapel Road
- US-441/SR-66 (Parkway) / The Island Drive
- US-441/SR-66 (Parkway) / Christmas Tree Lane
- US-441/SR-66 (Parkway) / Music Road

Maryville/ Alcoa - ATMS, Phase 1 – CEI (Maryville & Alcoa, TN)

CDM Smith served as CEI Consultant on this joint Phase 1 ATMS project in the Cities of Maryville and Alcoa, funded through TDOT's locally managed program. The project consisted of construction, installation, and testing approximately 10.3 miles of traffic signal system communications infrastructure and its fiber optic backbone. The project also included connection of forty (40) traffic signals throughout the cities with multi-mode fiber optic interconnect. Existing closed loop multi-mode fiber optic signal systems within both cities were connected to the fiber backbone, establishing an inter-agency fiber optic signal system interconnect controlled by three field masters. The project required replacing eleven (11) of Alcoa's existing signal controllers with equipment that would match that of the City of Maryville along with appropriate modifications to the associated cabinets.

A redundant single-mode fiber optic trunk line was installed along with the multi-mode fiber. This trunk line was built to accommodate future ITS devices and applications that the cities may add. The project also included upgrading pedestrian signal infrastructure at eleven (11) intersections within both cities, improvements to the phasing / sequencing of five (5) signals, and one (1) complete signal upgrade within Maryville. Additional construction involved ADA improvements, median pavement, sidewalks, and pavement markings at various intersections in both cities.

City of Gatlinburg Downtown Signal Upgrades – CEI (Gatlinburg, TN)

CDM Smith provided CEI services for intersection realignment and traffic signal upgrades at the intersection of Parkway/East Parkway; Parkway/Greystone Heights/River Road; Parkway Cherokee Orchard/River Rd; and a new pedestrian signal at River Road. This project included a complex coordination plan for four signals along the route, where an existing fiber optic trunk line was utilized as the backbone for the system. The signals were connected in an overall system with new controllers, new signal detection, and ADA pedestrian upgrades.

During the construction phase, CDM Smith provided CEI services to assist the city with inspection of traffic signals, signal interconnect, sidewalks, ADA improvements, signing, and roadway construction; project documentation; preparation and inspection of final punch list items; and project closeout. Construction was completed in 2021.

Signal and Signal System at University Commons Development – CEI (Knoxville, TN)

CDM Smith served as CEI Consultant under contract with the City of Knoxville during the construction phase of the University Commons project, adjacent to UT campus. In order to provide adequate access to the University Commons development site, a new bridge was designed to connect the site to an existing TDOT bridge between UT's main campus and agriculture campus. This new bridge provides a vital connection for traffic, bike, and pedestrian access to the redeveloped property. A new signal was added to serve the intersection between the two bridge structures. In addition, the signal at University Commons Way / Cumberland Avenue was modified, and the following four signals along UT's Agriculture Campus were interconnected.

- Joe Johnson Drive / University Commons Way
- Joe Johnson Drive / E.J. Campman Drive
- Volunteer Blvd / Joe Johnson Drive / Andy Holt Drive
- Neyland Drive / Joe Johnson Drive

The project received the ACEC TN Grand Award for Engineering Excellence in 2015.

City of Memphis Signal Upgrades – CEI (Memphis, TN)

CDM Smith served as CEI consultant under contract with the City of Memphis to upgrade and enhance traffic signals at eight (8) isolated intersections within the city. Enhancements were accomplished through completely rebuilding all eight traffic signals for improved visibility and target value as well as upgrading signal indications to LED displays where necessary. The project was funded through the Congestion Mitigation and Air Quality (CMAQ) Program and was managed by the Division of Engineering of the City of Memphis with CDM Smith providing full CEI services. The project was designed to better meet traffic operational needs and air quality goals by increasing the safety, reliability, and function of each signalized intersection. All project work was performed in accordance with the TDOT Local Government Guidelines. Construction was completed in 2015.

The following eight (8) intersections were upgraded:

- Poplar Avenue and Yates Road
- Holmes Road and Millbranch Road
- Raines Road and Third Street
- Southern Avenue and Goodlett Street
- Reese Road and Whitten Road
- Quince Road and Riverdale Road
- Summer Avenue and Raleigh Lagrange Road
- Walnut Grove Road and Yates Road

B. DEMONSTRATED SPECIALIZED EXPERTISE RELATED TO THE PROJECT

CDM Smith's CEI team in Knoxville is thoughtful about the specialized training and expertise that we provide our project managers and inspectors. We have four field inspectors with IMSA Traffic Signal Level 1 certifications, and one inspector with IMSA Fiber Optic certification. In addition, our CEI managers and lead inspectors have obtained TDOT's required specialty certification for CEI consultants on Locally Managed Projects. The staffing chart below shows the certifications and specialized experience for our CEI personnel in Knoxville.

Team Member / Task	Total Years of Experience	Years with CDM Smith	Professional Engineer (P.E.)	Certified Construciton Manager (CCM)	Cert. C. DEMONSTRATED CAPABILITIES OF FIRM

Including number of employees assigned to the project & TDOT approval letter

This section includes short resumes for key personnel who will be assigned to this project. We anticipate utilizing a subconsultant in a minor role for materials testing. All other work will be performed by CDM Smith.

PROJECT LEADERSHIP

CDM Smith's Knoxville CEI group includes a total of 19 staff members with 3 project managers, 2 records managers, and 14 field inspectors. For this project, we will assign the leadership team shown below:

Mary Beth Masi, P.E. will serve as **CEI project manager / records manager** for the project. In this capacity, she will be the primary point of contact for the County and will have day-to-day responsibility for the project, including overall coordination with the project team. She served in this same role for the Knox County ATMS Phase 1; Sevier County ATMS Phase 1; Sevier County EDA Smart Signals; and Maryville-Alcoa Phase 1 ATMS projects. Mary Beth began her career as a CDM Smith co-op student in 1994 and now serves as a construction project manager / resident engineer and records manager for the firm where she specializes in providing utility coordination efforts, correlating data, checking materials quantities, maintaining records, tracking shop drawings, tracking contractor payrolls, processing monthly estimates and construction reports, overseeing schedules, and scheduling team meetings and planning sessions. Mary Beth's organization skills are unmatched, and she has proven to be a tremendous asset to local government clients in navigating the TDOT locally managed process while maintaining project records that meet TDOT and federal requirements.

Joe Hillard, PE, CCM will serve as **CEI project director.** In this role, he will assist the project manager to assign appropriate staffing and will assist with TDOT coordination as needed. Joe began his career in began his career in 1991. He joined CDM Smith in 2006 as a senior inspector and now serves as a CEI project manager and project director. He maintains active certifications for TDOT CEI inspection, including TDOT's Local Government Program Development for CEI Consultants. Some recent projects include oversight of the Knox County ATMS Phase 1 project; Sevier County Phase 1 ATMS project; Sevier County EDA Smart Signal project; Maryville/Alcoa Phase 1 ATMS project; University Commons in Knoxville; Dollywood DreamMore Resort and Henderson Chapel Road intersections in Pigeon Forge.

Phil Watkins, PE will serve as **CEI resident engineer**. In this role, he will assist the project manager with field assignments and will assist with oversight and QC of field inspection work. Phil has 13 years of experience and is a CEI project manager, resident engineer, and senior inspector, having joined CDM Smith's Knoxville CEI team in 2024. He has extensive experience on TDOT and municipal roadway and traffic signal projects. Prior to joining CDM Smith, Phil worked for six years with a roadway contractor and then seven years as a TDOT Construction District Maintenance Supervisor.

Scott Garniss will serve as **senior CEI field inspector** for the project. Scott is a senior inspector with 33 years of experience (18 with CDM Smith) in providing CEI services for TDOT and local municipal traffic signal projects. Scott recently served as senior CEI inspector for the Knox County ATMS Phase 1; Sevier County Phase 1 ATMS; and Sevier County EDA Smart Signals projects, as well as two complex signal projects in downtown Gatlinburg. Scott's project responsibilities have included sampling, testing, and inspection of signal foundations; inspection of utilities and interconnect; inspection of traffic signal and cabinet installation; inspection of video detection; inspection of ADA components, and documentation and project closeout. Scott maintains active certifications for IMSA Traffic Signal Level 1, IMSA Fiber Optic Technicians, and TDOT Local Government Program Development for CEI Consultants. Scott is also an FAA licensed drone pilot, and he routinely utilizes drone photography and videos to document construction progress on CEI projects.

To assist the project leadership, CDM Smith's CEI project team will include three additional seasoned field inspectors with IMSA Traffic Signal certifications and all required TDOT CEI certifications **(Bill Levinsky, Steve Kirsch, and Josh Ogden)**. Our team will also include an experienced EPSC inspector **(Will Carroll, CPESC, TN-HQP)** who will provide EPSC inspections as needed.

Further, our Knoxville office offers a wealth of traffic engineering experience to assist the team on an as-needed basis. Senior Knoxville traffic engineers **John Gould, PE**, **Chris Kirby, PE, Kevin Cole, PE, and Stephanie Hargrove, PE, PhD** are all available to assist with technical questions that may arise during the progress of construction.

CDM Smith's Knoxville office is located less than 1 mile from Knox County's Engineering & Public Works office, and our project team can easily meet with County staff as needed throughout the duration of the project.

In addition to our Knoxville staff, CDM Smith's national signal systems and communications experts are available to assist the project team on an as-needed basis.

Jessie Carroll, PE, PTOE, PMP is one of CDM Smith's **national signal systems and communications experts** in the firm's Chicago office and is a licensed professional traffic engineer with 25 years of experience in ITS systems design, planning and inspection. Jessie is proficient in reviewing and recommending current ITS technologies; ITS infrastructure placement and design; traffic signal and system design; and developing full PS&E packages for signal system and ATMS projects. Her specific project experience includes serving as Project Manager for launching a new arterial operations center for Kane County, Illinois where she helped create the standard operating procedures to monitor and report on all KDOT maintained traffic signal systems and ATMS communications infrastructure. She also served as traffic engineer for the Indianapolis ATMS Phase 5 project where she was responsible for coordinating with INDOT on evaluating proposed CCTV camera tower and vehicle detection site layouts and site constructability for deployment of ITS equipment.

Jim MacKay, P.E. is also one of CDM Smith's **national signal systems and communications experts** in the firm's Pittsburgh, PA office and brings 30 years of experience in traffic engineering systems. His work has included designing integrated, multiple-phase, traffic signal systems on highly congested corridors that include computer controlled real-time monitoring between remote field devices and traffic control centers; fiber-optic communications including center-to-center (C2C) and sub-regional to regional TMC communications; data collection sessions software; emergency vehicle preemption; railroad preemption; transit priority; spread spectrum radio interconnect; video and radar detection; and closed loop coordination. Jim is a certified IMSA Level 2 Traffic Signal Field Technician and is knowledgeable in all areas of traffic signal equipment and controllers. Jim has monitored and inspected the installation of traffic signal systems on DOT and municipal construction projects, and he has trained construction inspectors, municipal personnel, consultant engineers, and contractors on the design, construction, operation and maintenance of advanced traffic signal systems.

CDM Smith is dedicated to efficient and timely project development with your goal being our goal as well. Our firm offers the qualifications, breadth of resources and expertise – not only to just deliver a result, but also to make the CEI process flow smoothly with minimal oversight required from your staff!

(DT-0330 Revised 08/09)

Dear Mr. Mize:

The Department has completed an evaluation of your firm's Consultant Pre-Qualification Form DT-0330 received on March 10, 2023. You are hereby informed that your firm shall be considered as having **Unlimited Qualification** for the following disciplines for a three-year period beginning **March 16, 2023**:

Administrative
Architect
Biologist
CADD Technician
Civil Engineer
Communications Engineer
Computer Programmer
Construction Inspector
Construction Manager
Cost Engineer / Estimator
Environmental Engineer
Environmental Scientist
Foundation/Geotechnical Engineer
GIS Specialist
Geologist
Hydraulic Engineer
Hydrologist
Land Surveyor
Planner: Urban / Regional
Scheduler
Soils Engineer
Specifications Writer
Structural Engineer
Technician / Analyst
Transportation Engineer

Your firm has requested experience code U03 Utilities: Subsurface Utility Engineering (SUE) and/or experience code U04 Utilities Design/Coordination/Inspection: Electrical Power; Communications; Gas/Oil; Water; Sewer/Sanitary Systems (Distribution/Transmission). The request for more information for these codes will come in a separate e-mail from our Right of Way Office.

Please be advised that consulting firms desiring to contract with TDOT must assume full responsibility for renewing their pre-qualification status via the DT-0330 Part 1 Form.

Thank you for keeping the information regarding the qualification of your firm current with us. Should you have any questions in this regard, please contact this office.

Sincerely,

for Jennifer Lloyd, P.E.
Civil Engineering Director
Roadway Design Division

1000 North Central Street
Knoxville, Tennessee 37917

The Envelope must show the Company Name, Solicitation Name, Solicitation Number & Closing Date.

SECTION I GENERAL TERMS AND CONDITIONS

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information routed to Brian Hubbs, Construction and Contract Specialist, at 865-215-5753. Questions may be emailed to brian.hubbs@knoxcounty.org. If you have not heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division may be obtained on the internet at www.knoxcounty.org/procurement.

1.2 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste, or abuse, file a report online by accessing http://www.knoxcounty.org/audit/hotline.php.

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.3 **BUSINESS OUTREACH PROGRAM:** Knox County has established a Business Outreach Program which has the responsibility of increasing opportunity for small, minority and women owned businesses. This is being accomplished through community education programs, policy edification, active recruitment of interested businesses and process re-engineering.

Knox County is committed to ensuring full and equitable participation for all disadvantaged businesses. Knox County welcomes submittals from those disadvantaged businesses that have an interest in providing the goods and/or services listed herein. In addition, Knox County strongly encourages the inclusion of disadvantaged businesses by non-disadvantaged Contractors who may wish to partner or subcontract portions of this agreement in order to accomplish the successful delivery of goods and/or services.

If you are a disadvantaged business and would like additional information about our Business Outreach Program, please contact:

Diane Woods, Business Outreach Administrator
Knox County Procurement
Telephone: 865-215-5760
Fax: 865-215-5778
Email: diane.woods@knoxcounty.org

1.4 **CONFLICT OF INTEREST:** Vendors must have read and complied with the "non-conflict of interest" statement provided in the vendor registration process prior to the closing of this solicitation.

1.5 **COPIES:** Knox County **requires** that Qualifications being submitted be one (1) marked original and three (3) exact copies. An electronic copy on CD/flash-drive, in one complete file, is also required.

1.6 **DECLARATIVE STATEMENT:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the RFQ being deemed non-responsive and disqualified.

1.7 **ELECTRONICALLY SUBMIT RESPONSE:** Due to the nature of this solicitation, the Knox County Procurement Division **will not** accept electronically submitted responses. A hard copy response must be submitted with one (1) marked original and three (3) exact copies. An electronic copy on CD/flash-drive, in one complete file, is also required. Email and facsimile submissions are strictly prohibited.

1.8 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys". The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of purchase orders, on-line retrieval and submittal of quotes, bids and proposals for our vendor-clients and on-line requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations we need your help. When doing business with Knox County we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our on-line Procurement system, "KnoxBuys", if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions please contact the Procurement Division Representative listed in Section 1.1 of this document.

1.9 **INCURRED COSTS:** Knox County will not be liable in any way for costs incurred by any respondent in the preparation and submission of its RFQ in response to this solicitation, nor for the presentation of its qualifications and/or participation in any required meetings, discussions, or negotiations. If any oral presentations are required, Knox County advises vendors to be thorough and complete in submission of information.

1.10 **NO CONTACT POLICY:** After the date and time the firm receives this solicitation, any contact initiated by any firm with any Knox County representative, other than the Procurement Division representative listed herein, concerning this RFQ **is strictly prohibited**. Any such unauthorized contact may cause the disqualification of the firm from this procurement transaction.

1.11 **NON-COLLUSION:** Vendors, by submitting a signed RFQ, certify that the accompanying submittal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under Tennessee or United States law.

1.12 **PUBLIC RECORDS ACT:** Knox County is subject to the Tennessee Public Records Act 10-7-503 et seq. Respondents are cautioned that all documents submitted on behalf of this RFQ shall be open to the public for viewing and inspection and Knox County will comply with all legitimate requests.

1.13 **QUALIFICATION DELIVERY:** Knox County requires respondents, when hand delivering responses, to time and date stamp the envelope before depositing it in the bid box. The time clock in the Procurement Division shall become the official record of time. Knox County shall not be responsible for lost or misdirected mail sent by common carrier, nor will Knox County be responsible for qualifications delivered to addresses and Suites other than the delivery address and Suite specified at the top of this solicitation.

Solicitations must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.14 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, request that RFQs be submitted on paper and shall:

- Be submitted on recycled paper.
- Not include pages of unnecessary advertising.
- Be made on both sides of each sheet of paper.

1.15 **SIGNING OF QUALIFICATIONS: In order to be considered all Qualifications must be signed. Please sign the original in blue ink.** By signing the response document, the respondent acknowledges and accepts the term and conditions stated in the RFQ document. It is suggested that mailed RFQ's be sent by certified or registered mail with return receipt requested or RFQ's sent via common carrier include tracking and delivery confirmation.

1.16 **TITLE VI OF THE CIVIL RIGHTS ACT:** "Nondiscrimination in Federally Assisted Programs" - "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. section 2000 et seq. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI.

1.17 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regards to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.18 **VENDOR REGISTRATION:** Prior to the closing of this solicitation, ***ALL INTERESTED FIRMS*** must be registered with the Procurement Division. A vendor application may be submitted online at www.knoxcounty.org/procurement. Select the On-Line Vendor Registration link and complete the forms. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register less than twenty-four (24) hours prior to the solicitation closing time.

1.19 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II OBLIGATIONS, RIGHTS AND REMEDIES

These terms and conditions shall be part of the contract. Knox County reserves the right to negotiate other terms and conditions it deems appropriate and necessary under the circumstances to protect the public's trust.

2.1 **ALTERATIONS OR AMENDMENTS:** No alterations, amendments, changes, modifications or additions to this Contract shall be binding on Knox County without the prior written approval of the County.

2.2 **APPROPRIATION:** In the event no funds are appropriated by Knox County for the goods or services in any fiscal year or insufficient funds exist to purchase the goods or services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

2.3 **ASSIGNMENT:** Contractor shall not assign or sub-contract this agreement, its obligations or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County.

2.4 **BOOKS AND RECORDS:** Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract and make such materials available at its offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under this agreement for inspection by County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this agreement.

2.5 **CHILD LABOR:** Contractor agrees that no products or services will be provided or performed under this Contract that have been manufactured or assembled by child labor.

2.6 **COMPLIANCE WITH ALL LAWS:** Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of goods and/or services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

2.7 **DEFAULT:** If Contractor fails to perform or comply with any provision of this Contract or the terms or conditions of any documents referenced and made a part hereof, Knox County may terminate this Contract, in whole or in part, and may consider such failure or noncompliance a breach of contract. Knox County expressly retains all its rights and remedies provided by law in case of such breach, and no action by Knox County shall constitute a waiver of any such rights or remedies. In the event of termination for default, Knox County reserves the right to purchase its requirements elsewhere, with or without competitive solicitation.

2.8 **GOVERNING LAW; VENUE:** This agreement shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province.

Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum.

2.9 **INCORPORATION:** All specifications, drawings, technical information, Request for Qualifications, Award and similar items referred to or attached or which are the basis for this Contract are deemed incorporated by reference as if set out fully herein.

2.10 **INDEMNIFICATION/HOLD HARMLESS:** Contractor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the agreement by Contractor, its subcontractors, suppliers, agents, or employees or due to any negligent act or occurrence or any omission or commission of Contractor, its subcontractors, suppliers, agents or employees.

2.11 **INDEPENDENT CONTRACTOR:** Contractor shall acknowledge that it and its employees serve as independent contractors and that Knox County shall not be responsible for any payment, insurance, or incurred liability.

2.12 **INSPECTION AND ACCEPTANCE:** Warranty periods shall not commence until Knox County inspects and formally accepts the goods and/or services. The terms, conditions and timing of acceptance shall be determined by Knox County. Knox County reserves the right to reject any or all items or services not in conformance with applicable specifications, and Contractor assumes the costs associated with such nonconformance. Acceptance of goods or services does not constitute a waiver of latent or hidden defects or defects not readily detectable by a reasonable person under the circumstances.

2.13 **IRAN DIVESTMENT ACT:** By submission of this RFQ, each respondent and each person signing on behalf of any respondent certifies, and in the case of a joint submittal each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each responding firm is not on the list created pursuant to Tennessee Code Annotated Section 12-12-106. Vendors are to submit the Affidavit of Compliance, **Exhibit B**, with their bid.

2.14 **LIMITATIONS OF LIABILITY:** In no event shall Knox County be liable for any indirect, incidental, consequential, special, or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

2.15 **NO BOYCOTT OF ISRAEL:** Pursuant to Tennessee Code Annotated Title 12, Chapter 4, Part 1, by submission of a response to this solicitation, each respondent and each person signing on behalf of any respondent certifies, and in the case of a joint response each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each respondent is not currently engaged in, and will not for the duration of the contract engage in, a boycott of Israel. Vendors are to submit the Affidavit of Compliance, **Exhibit B**, with their bid.

2.16 **NON-DISCRIMINATION AND NON-CONFLICT STATEMENT:** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin or any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this agreement, or in the employment practices of vendor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination. Contractor covenants that it complies with the Fair Wage and Hour Laws, the National Labor Relations Act, and other federal and state employment laws as applicable. Contractor covenants that it does not engage in any illegal employment practices.

Contractor covenants that it has no public or private interest and shall not acquire directly or indirectly any interest which would conflict, in any manner, with the provision of its goods or performance of its services. Contractor warrants that no part of the total contract amount provided herein shall be paid directly or indirectly to any officer or employee of Knox County as wages, compensation, or gifts in exchange for acting as officer, agent, employee, subcontractor, or consultant to Contractor in connection with any goods provided or work contemplated or performed relative to the agreement.

2.17 **ORDER OF PRECEDENCE:** In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) Contract, (2) Request for Qualifications (3) Contractor's Response, (4) Award, (5) Special Terms and Conditions, (6) General Terms and Conditions, (7) Specifications, (8) Drawings.

2.18 **RECORDS:** Contractor will maintain records of products and/or services provided to Knox County and make them available on request.

2.19 **REMEDIES:** Knox County shall have all rights and remedies afforded under the U.C.C. and Tennessee law in contract and in tort, including but not limited to rejection of goods, rescission, right of offset, refund, incidental, consequential, and compensatory damages and reasonable attorney's fees.

2.20 **RIGHT TO INSPECT:** Knox County reserves the right to make periodic inspections of the manner and means the service is performed or the goods are supplied.

2.21 **SEVERABILITY:** If any provision of this Contract is declared illegal, void or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

2.22 **TAX COMPLIANCE:** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges by submission of their signed submittal that they are current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

2.23 **TERMINATION:** Knox County may terminate this agreement with or without cause, upon written notice of not less than thirty (30) calendar days. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the terminationdate shall be paid.

2.24 **WARRANTY:** Contractor warrants to Knox County that all items delivered and all services rendered shall conform to the specifications, drawings, qualifications, and/or other descriptions furnished and/or incorporated by reference, and will be fit for the particular purpose purchased, of merchantable quality, good workmanship, and free from defects. Contractor extends to Knox County all warranties allowed under the U.C.C. Contractor shall provide copies of warranties to the County. Return of merchandise not meeting warranties shall be at contractor's expense.

SECTION III SCOPE OF WORK

3.1 **SCOPE OF WORK:** Knox County, an Equal Opportunity Employer, is seeking to retain a vendor to provide Construction Engineering Inspection (CEI) Services for the Advanced Traffic Management System (ATMS) Phase 2 Project. This project involves the installation of equipment upgrades at thirteen (13) traffic signals along the Maynardville Pike corridor and two (2) intersections at N. Watt Rd and I-40. All intersections are subject to additional video detection and the installation of dedicated short range communications (DSRC) units as well as signal timing optimization. Four (4) intersections will require cabinet replacements, new controllers, battery backups and cell modems.

State Project Number: 47LPLM-F3-178
Federal Project Number: CM-4700(64)
Project Pin: 128833.00

The work includes but is not limited to the following:

- Inspecting work performed by the contractors and ensuring all work conforms to Knox County / TDOT specifications.
- Recording all details/quantities in a daily inspection report.
- Reviewing and approving pay applications.
- Performing all necessary environmental inspections.

All CEI Services must be performed in accordance with the latest edition of the TDOT Standard Specifications for Roadway and Bridge Construction and the latest edition of the TDOT Local Government Guidelines for the Management of Federal and State Funded Transportation Projects. Consultant invoicing and payment for services will be administered by Knox County in accordance with TDOT guidelines.

3.2 **AWARD:** Knox County intends to issue a one-time award and lump-sum contract. The Knox County Procurement Division will draft the contract. Knox County will not accept any vendor's contract. Vendors are cautioned that the Knox County Mayor is the only individual who can legally bind Knox County to a contractual agreement. Knox County reserves the right to purchase these items/services from other sources if the need arises. Knox County reserves the right to revoke the award if a pattern of unavailability arises with the vendor.

3.3 **COMPLIANCE WITH ALL APPLICABLE REGULATIONS:** Successful firm agrees and covenants that the company, it's agents and employees will comply with all City, County, State and Federal codes, laws, ordinances, rules and regulations applicable to the business to be conducted under this Contract. If the vendor performs any work knowing it to be contrary to such codes, laws, ordinances, rules and regulations, the vendor shall bear all costs arising from them.

3.4 **CONTACT PERSONNEL:** It shall be essential to the success of this Contract to develop a good working relationship with the Contractor. It is imperative that the Knox County account be handled efficiently and professionally. Knox County should be assigned no more than two (2) Contractor contacts to handle billing inquiries and service related issues. In the event one (1) or both contacts leave the Knox County account, the Contractor shall formally introduce the new contacts to County personnel. These contacts must be knowledgeable of the Knox County account to avoid any interruption of service.

3.5 **CONTRACT EXECUTION:** It is the intent of Knox County to enter into a contract with the highest evaluated respondent to negotiate the contract cost. The Contact must be voted on by Knox County Commission and receive a majority vote. The successful vendor may be required to be present at the Knox County Commission Meetings to answer questions relating to the services performed. Adequate notification will be given by the Knox County Procurement Division if the vendor will need to attend the meetings. The Knox County Procurement Division will draft the Contract. Knox County **will not** accept any vendor's contract. Vendors are hereby cautioned that the Knox County Mayor is the only individual who can legally bind Knox County to a contractual agreement.

3.6 **EVALUTION REVIEW:** Knox Count reserves the right to use all pertinent information (also learned from sources other than disclosed in the RFQ process) that might affect the County's judgement as to the appropriateness of a qualified vendor. This information may be appended to the evaluation process results.

3.7 **EXCEPTIONS TO SPECIFICATIONS:** Vendors taking exception to any part or section of this solicitation shall indicate such exceptions in their submittal. Failure to indicate any exceptions shall be interpreted as the vendor's intent to fully comply with the solicitation as written. Conditional or qualified offers are subject to rejection in whole or in part. Any exceptions shall be included in Part VIII of the submittal as instructed in Section IV, RFQ Format. Do not strike through or in any way alter the RFQ. Exceptions listed within other sections of the submittal shall not reviewed or considered.

3.8 **INSURANCE:** The successful Contractor(s) must carry the insurance as indicated on the Insurance Attachment hereto. As proof of the Contractor's willingness to obtain and maintain the insurance, the Contractor must complete, sign and have its insurance agent sign the attachment, **Exhibit A**, and submit it with their response.

Upon the Notification of Intent to Award, the successful Contractor(s) will be required to submit a Certificate of Insurance (COI) showing the specified coverage and naming Knox County, Tennessee as additional insured; endorsement pages shall be included. It shall be the successful vendor's responsibility to keep a current COI and endorsement pages on file with the Knox County Procurement Division during the life of the Contract.

3.9 **LICENSING REQUIREMENTS:** Vendors must hold and maintain the proper license from the State of Tennessee Licensing Board for the type of work requested. Vendors must submit a copy of the license. All licensing must be in accordance with Tennessee Code Annotated.

3.10 **NEGOTIATIONS:** Knox County reserves the right to enter into Contract negotiations with the highest-rated vendor. If Knox County and the selected vendor cannot negotiate a successful agreement, Knox County may terminate said negotiations and begin negotiations with the next highest-rated vendor. This process will continue until a Contract has been executed or all submittals have been rejected. No vendor shall have any rights against Knox County arising from such negotiations.

3.11 **NEWS RELEASE BY VENDORS:** As a matter of policy, Knox County does not endorse the services of a Contractor. A Contractor will not make news releases concerning any resultant contract from this solicitation without the prior written approval of Knox County.

3.12 **PRE-QUALIFICATION:** Knox County requires that all consultants being considered are pre-qualified with TDOT. Additional TDOT pre-qualification procedures, pre-qualification forms and current "Standard Procurement Policy for Engineering and Technical Services" are available at this website: www.tennessee.gov/tdot.

3.13 **QUALIFICATIONS EVALUATION:** Knox County will evaluate the top three (3) firms on the following criteria:

- **General Qualifications of Firm (40 Points)**
  - Years in business and years key personnel have performed civil engineering design services
  - Number of licensed professionals
  - Capabilities and resources of firm
  - Number of support personnel and roles
- **Key Personnel assigned to Project (30 Points)**
  - Resumes of key personnel to work with Knox County
  - Specific areas of expertise
  - Availability of personnel to Knox County
- **Current Projects and Workload (20 Points)**
  - List of current or past projects of similar size and scope
  - Initial budget and final cost for above project
  - Start date and final completion date for above projects
  - Projected workload
- **Licensure, Insurance and Litigation (10 Points)**
  - Provide evidence of licensure to practice engineering in the State of Tennessee
  - Provide evidence of appropriate insurance coverage
  - Provide information of any litigation in which the firm has been involved within the past five (5) years

The consultant evaluation committee holds the ability to conduct interviews based on scoring.

Pre-qualification procedures, example letter of interest, list of pre-qualified firms and certified DBEs, TDOT's standard procurement policy, and additional information can be found at the following website: https://www.tn.gov/content/tn/tdot/business-redirect/consultantinfo.html. For information on pre-qualification, please contact Christine Smotherman at 615-741-4460 or Christine.Smotherman@tn.gov.

Evaluation proceedings will be conducted within the established guidelines regarding equal employment opportunity and nondiscriminatory action based upon the grounds of race, color, sex, creed or national origin interested certified Disadvantaged Business Enterprise (DBE) firms as well as other minority-owned and women owned firms are encouraged to respond to all advertisements by Knox County. For information on DBE certification, please contact David Neese at 615-741-3681 or David.Neese@tn.gov. Details and instructions for DBE certification can be found at the following website: https://www.tn.gov/tdot/civil-rights/small-business-development-program.html.

SECTION IV RFQ FORMAT

Vendors shall use the following format for the preparation and submission of their qualifications. Failure to follow this format may be just cause for rejection of submittals. Cost of preparation of qualifications is the sole responsibility of the vendor. Knox County requires that qualifications being submitted be one (1) marked original and three (3) exact copies. An electronic copy in a single .pdf file on a CD/DVD or flash drive is also required.

Part I **SIGNED LETTER AUTHORIZING SUBMISSION OF THE QUALIFICATIONS**

Part II **VENDOR INFORMATION**

- Company Name, Address, and telephone number
- Contact name(s) and telephone number(s)
- Contact email address
- Firm's Vendor Number as assigned by the Knox County Procurement Division
- Firm's Knox County Business License (if applicable)
- Firm's Employer Identification Number (EIN)
- Copies of all licenses, permits and professional certifications for company and employees
- Acknowledgment of Addenda (if applicable)

Part III **GENERAL QUALIFICATIONS OF THE FIRM**

Provide complete qualifications and capabilities of the firm for conducting the Scope of Work in Section 3.1. Include the firm's number of years in business and years key personnel have performed civil engineering design services. Provide the number of licensed professionals for this project along with support personnel and roles.

Part IV **KEY PERSONNEL ASSIGNED TO THE PROJECT**

Provide the resumes of the key personnel that will be working on the project. Resumes should be no longer than one page and include number of years working on similar projects and a list of sample projects similar to the scope of work. Include all specific areas of expertise and show availability of personnel to work on this project.

Part V **CURRENT PROJECTS AND WORKLOAD**

Provide a list of current or past projects that are similar in size and scope. Include initial budget/final costs and start/completion dates for current or past projects. Provide the firm's projected workload for next six months.

Part VI **LICENSURE, INSURANCE AND LITIGATION**

Provide evidence of licensure to practice engineering in the State of Tennessee and appropriate insurance coverage. Describe any litigation with which the firm has been involved in the past five (5) years.

Part VII **REQUIRED ATTACHMENTS**

Firms are to complete and provide the following attachments here:

- Knox County Insurance Checklist, **Exhibit A**
- Affidavit of Compliance with Iran Divestment Act / No Boycott of Israel, **Exhibit B**

Part VIII **ADDITIONAL INFORMATION**

Respondents may submit additional information regarding their Firm and the services they offer that may add value to their submittal.

Part VIX **EXCEPTIONS**

Respondents are to include any and all exceptions taken to this solicitation under this part. Do not mark through or otherwise alter the language of this RFQ in your response.

Failure to submit any of the above information or any other information requested in this Request for Qualifications may result in the response being disqualified.

Part I. Signed Letter Authorizing Submission of Qualifications

May 15, 2025

Mr. Brian Hubbs
Knox County Procurement
1000 N. Central St. Suite 100
Knoxville, TN 37917

Subject: Knox County Solicitation No. 3649
Shortlist for CEI Services for the Advanced Traffic Management System (ATMS) Phase 2 Project

Dear Mr. Hubbs and members of the Selection Committee:

We are excited to be shortlisted for Knox County's second phase requesting proposals for Construction Engineering Inspection (CEI) services for the Advanced Traffic Management System (ATMS) Phase 2 project. This qualifications package includes information about the credentials of our firm and the individuals who will have key project assignments. CDM Smith offers the following benefits:

- ✓ **CDM Smith has served as prime CEI consultant for recent ATMS projects in our region, including construction of the Knox County ATMS Phase 1 project; the Sevier County Tourist Corridor Phase 1 ATMS project; the Maryville-Alcoa Phase 1 ATMS project; and the Sevier County EDA Smart Signal Upgrade project.** The same team members who provided CEI services for these signal projects are proposed to lead the Knox County ATMS Phase 2 project.
- ✓ **CDM Smith has proven success in completing CEI projects under TDOT's Locally Managed Program.** In fact, we have been under continuous direct contract with TDOT for one or more projects since the 1960's. We maintain unlimited prequalification status with the department, and our graded performance on TDOT projects is outstanding. In addition to the ATMS projects listed above, we have substantial experience with TDOT locally managed traffic signal projects in Knoxville, Knox County, Gatlinburg, Bristol, Greeneville, Memphis, and many other Tennessee communities.
- ✓ **Staff from CDM Smith's Knoxville office will oversee the project, giving us easy access to the project site and key County personnel.** Our local team includes a highly qualified CEI project manager, field inspectors, and records manager – as well as a team of seasoned traffic engineers to assist on an as-needed basis. If specialty expertise is needed, CDM Smith's national signal systems and communications experts will also be available to assist on this project.

We appreciate your consideration and look forward to the opportunity to again be of service to Knox County. If you have any questions regarding our submittal or require additional information, please feel free to contact me by phone at (865) 963-4342 or email at MizeRJ@CDMSmith.com.

Sincerely,
CDM Smith Inc.

Jeff Mize, PE | Vice President

Subject: Evaluation of Consultant Pre-qualification Form
(DT-0330 Revised 08/09)

Dear Mr. Mize:

The Department has completed an evaluation of your firm's Consultant Pre-Qualification Form DT-0330 received on March 10, 2023. You are hereby informed that your firm shall be considered as having **Unlimited Qualification** for the following disciplines for a three-year period beginning **March 16, 2023**:

Administrative
Architect
Biologist
CADD Technician
Civil Engineer
Communications Engineer
Computer Programmer
Construction Inspector
Construction Manager
Cost Engineer / Estimator
Environmental Engineer
Environmental Scientist
Foundation/Geotechnical Engineer
GIS Specialist
Geologist
Hydraulic Engineer
Hydrologist
Land Surveyor
Planner: Urban / Regional
Scheduler
Soils Engineer
Specifications Writer
Structural Engineer
Technician / Analyst
Transportation Engineer

Your firm has requested experience code U03 Utilities: Subsurface Utility Engineering (SUE) and/or experience code U04 Utilities Design/Coordination/Inspection: Electrical Power; Communications; Gas/Oil; Water; Sewer/Sanitary Systems (Distribution/Transmission). The request for more information for these codes will come in a separate e-mail from our Right of Way Office.

Please be advised that consulting firms desiring to contract with TDOT must assume full responsibility for renewing their pre-qualification status via the DT-0330 Part 1 Form.

Thank you for keeping the information regarding the qualification of your firm current with us. Should you have any questions in this regard, please contact this office.

Sincerely,

for Jennifer Lloyd, P.E.
Civil Engineering Director
Roadway Design Division

Years in Business and Performing CEI Services

CDM Smith was incorporated in 2011 through the merger of two long established engineering firms, CDM Inc. and Wilbur Smith Associates (WSA). The firm is now a major worldwide transportation, water, environmental, energy and facilities consulting firm offering a wide array of planning, engineering and construction phase services. With a total staff of over 6,000 employees worldwide, including over 120 in Tennessee, CDM Smith has the breadth of knowledge and depth of quality individuals to deliver this Knox County project as we have on all of our past assignments.

For CDM Smith, construction engineering & inspection (CEI) services make a sizable portion of our firm's business. For nearly three decades, our firm has continually invested in the required resources and staff to provide CEI services to support our client's through the lifecycle of each project

Office Locations in Tennessee

CDM Smith's Tennessee transportation practice was established in Knoxville in the 1960's, initially to serve the Tennessee Department of Transportation (TDOT). CDM Smith has been providing engineering services under continuous contract with TDOT during the decades since and is pre-qualified with unlimited status to provide a variety of services for the Department. Our firm holds active TDOT on-call contracts in CEI, roadway design, survey, multimodal design, multimodal technical studies, planning, bridge repair & rehabilitation design, and bridge load rating. Today, our firm maintains an office in Knoxville, Nashville, and Chattanooga to serve the Tennessee area. CDM Smith, Inc. is licensed (license number 6582) by the Tennessee Board of Architectural and Engineering Examiners to provide engineering services within the state.

In addition to 56 years of work directly for TDOT, CDM Smith has assembled an impressive resume of projects for local government clients, including: Knox County, Knoxville, Alcoa, Maryville, Blount County, Sevierville, Pigeon Forge, Gatlinburg, Bristol, Kingsport, Morristown, Etowah, Lenoir City, Cleveland, Chattanooga, Franklin, Nashville, Spring Hill, and Memphis. Having completed CEI projects for local governments and TDOT for several decades, CDM Smith is very familiar with the standards and policies required for TDOT Locally Managed projects, thereby allowing us to efficiently deliver the Knox County ATMS Phase 2 CEI project. Through hard work, dedication, and a great, stable employee base, CDM Smith is proud to have earned a reputation as a premier transportation engineering firm in the area.

Company Structure

CDM Smith is an employee-owned corporation. No single individual shareholder owns more than two percent of the company stock, and the firm operates as a corporation.

Construction Engineering & Inspection Services

CDM Smith has been providing CEI services in Tennessee for nearly 30 years. We have a proven track record of delivering exceptional client service, quality results, and enduring value across the project lifecycle. In addition to our staff of experienced, construction inspectors, CDM Smith features unmatched project support services to include:

- **Professional staff providing comprehensive schedule management services** such as schedule development, schedule analysis, construction claims analysis and dispute resolution.
- **In-house survey capabilities for assistance with CEI services** from initial verification and monitoring of project control points to construction survey and quantity verification.
- **FAA licensed, seasoned drone pilots to provide aerial digital project documentation** of construction progress and real-time analysis using state of the art drone technology.

Additional Construction Support Services

Project Management

- Contract Administration
- Contractor Labor Compliance
- Federal Regulations Review
- TDOT Local Programs Compliance
- CPM Schedule Review

Construction Engineering, Inspection & Testing

- TDOT Certified Inspection Staff
- IMSA Certified Inspectors for Signal & Fiber Optic Installation
- Experienced Staff for ADA Inspections
- Construction Site Safety Reviews
- Traffic Control Review
- Erosion Control Inspection and Compliance
- Utility Coordination and Inspection
- Construction Verification Surveys
- Final Inspections

Project Documentation

- Proficiency in TDOT's SiteManager, eGrants, and ProjectWise
- Contractor Pay Requests
- Environmental Compliance, Monitoring, and Documentation
- DBE Compliance
- Change Order Review and Recommendation
- Photographic and Drone Documentation
- Project Closeout

Project Support Services

- Public Relations and Informational Meetings
- Claims Analysis and Mitigation
- Constructability and Plan Reviews
- Quantity Takeoffs and Cost Estimation
- Project Website Development and Maintenance

CDM Smith's Knoxville CEI team is thoughtful about the specialized training and expertise that we provide our project managers and inspectors. We have four field inspectors with IMSA Traffic Signal Level 1 certifications, and one inspector with IMSA Fiber Optic certification. Our CEI managers and lead inspectors have obtained TDOT's required specialty certification for CEI consultants on Locally Managed Projects. The staffing chart below shows the licensed professionals for this project along with support personnel and roles.

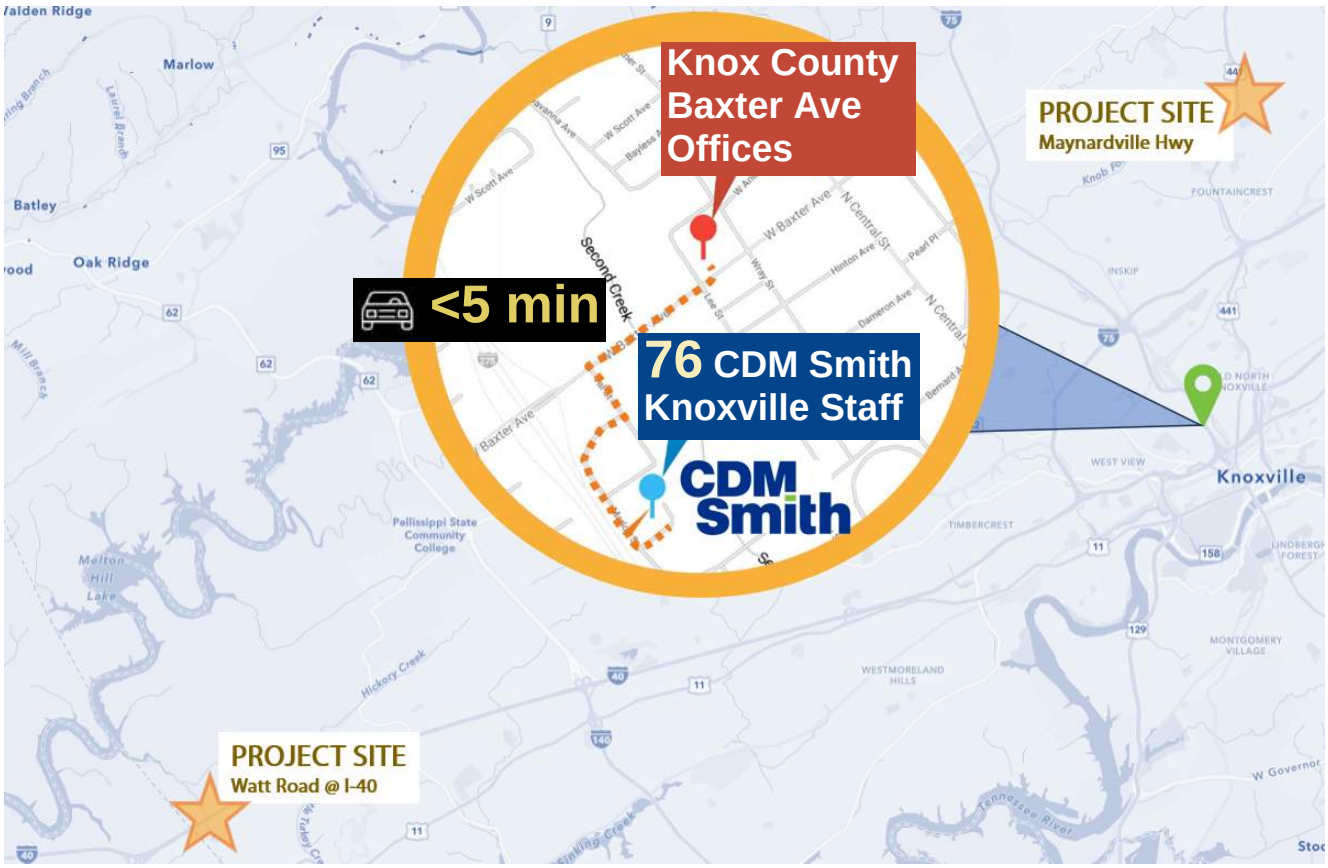
Capabilities and Resources of CDM Smith

CDM Smith's Knoxville office will have responsibility for project delivery. All key staff members are located in Knoxville for easy access to the project site and within minutes of Knox County's office for consultation. The project director and project manager will be responsible for monitoring workflow and assignment of personnel to ensure schedules and commitments are met during construction of this project.

Ability and Proximity to Meet with County Staff and Conduct Site Visits

CDM Smith's Knoxville office is located less than 3 blocks from the County's Baxter Avenue office. Our project manager and key staff will be readily available to meet with County personnel or conduct site visits to either project site as needed.



Part IV. Key Personnel Assigned to the Project

CDM Smith offers the capacity of a large, well-established consulting firm, but most importantly, personal and responsive local service from our Knoxville-based staff. We have assigned the following key staff who are available to begin work on the project immediately.

KNOX COUNTY TENNESSEE

Project Director
Joe Hillard, PE, CCM

Project Manager
Mary Beth Masi, PE

CONSTRUCTION INSPECTION STAFF

Phil Watkins, PE
RESIDENT ENGINEER / SENIOR FIELD INSPECTOR

Scott Garniss
SENIOR FIELD INSPECTOR

Bill Levinsky
SENIOR FIELD INSPECTOR

Steve Kirsch
FIELD INSPECTOR

Joshua Ogden
FIELD INSPECTOR

Will Carroll, CPESC, TN-QHP
EPSC INSPECTOR

SYSTEMS ENGINEERING SUPPORT

John Gould, PE
SENIOR TRAFFIC ENGINEER (LOCAL)

Kevin Cole, PE
SENIOR TRAFFIC ENGINEER (LOCAL)

Jim MacKay, PE
NATIONAL EXPERT

Jessie Carroll, PE, PTOE
NATIONAL EXPERT

We have successfully completed each project listed in this proposal as a cohesive team. These same team members have been selected once again to work closely with Knox County staff throughout the process of this ATMS Phase 2 CEI inspection project. Resumes are included on the following pages.

CDM Smith proposes a fully-responsive inspection team featuring local inspectors and engineers supported by national systems experts to guide Knox County for this important ATMS Phase 2 CEI inspection project!

1100 Marion Street, Suite 300
Knoxville, TN 37921
P: (865) 963-4300

HillardJB@CDMSmith.com

Joe Hillard, PE, CCM

CEI Project Director

Mr. Hillard began his career in 1991. He joined CDM Smith in 2006 as a senior inspector and now serves as a CEI project engineer and project manager. His major duties include management and oversight of CEI activities for roadway and bridge construction projects. He maintains active certifications as required for TDOT CEI inspection, including TDOT's Local Government Program Development for CEI Consultants.

CEI Project Director; Knox County Public Works On-call CEI Services, 2022 - present Resurfacing Program, Knox County, TN. Joe is serving as CEI project director for on-call services with Knox County's Public Works Division to provide inspectors for resurfacing of multiple county streets over two separate paving seasons. Work has included inspection services for milling, paving, placing pavement markings, and traffic control.

CEI Project Director, EDA Smart Signal Upgrade Project, Sevier County, TN. Joe is serving as CEI project director for this project to upgrade the detection, cabinets, controllers, and ADA for 55 signals throughout Sevier County and in the local jurisdictions of Sevierville, Pigeon Forge, and Gatlinburg. Construction is currently underway.

CEI Project Manager, Sevier County CMAQ – Intersection Improvement project; Sevier County, TN. Joe served as CEI project manager for this locally managed project under contract with Sevierville and Pigeon Forge. The job includes signal and ADA upgrades for nearly 60 intersections along the heavily traveled tourist corridors in Sevier County. Construction was completed in 2021.

CEI Project Supervisor, University Commons, Knoxville, TN. Joe served as resident engineer for this project to ensure TDOT specifications and standards were followed during construction. This project consisted of the construction of a new four span 366 foot bridge to connect the site to an existing TDOT bridge (Joe Johnson Drive), construction of two traffic signals, and coordination of a four signal system on UT's Agriculture campus.

CEI Project Director, Parkway / Henderson Chapel Road Improvements, (Pigeon Forge, TN). Joe served as CEI project director for this project to add turn lanes and replace the existing span wire signal with a mast arm configuration at the intersection of Parkway and Henderson Chapel Road in downtown Pigeon Forge. The signal replacement included new GridSmart 360 detection and full ADA upgrades for the ramps and pedestrian signals.

CEI Resident Engineer, SR-73 (Wears Valley Road) / Parkway Resurfacing (Pigeon Forge, TN). Joe served as CEI resident engineer for this TDOT locally managed project for the City of Pigeon Forge. The scope included replacing the existing asphalt pavement for the SR-73 approach to the intersection with fast track concrete to alleviate long term maintenance problems with pavement rutting. The job also replaced the existing traffic signal pavement loops with camera detection and upgraded the pedestrian ramps to current ADA standards. Construction was completed in 2020.

CEI Project Director and Resident Engineer, TDOT Region 1 On-call CEI Services, Multiple Counties. Joe has served as CEI project director and/or resident engineer for more than 50 assignments under multiple cycles of the TDOT Region I CEI on-call contract. CDM Smith has provided CEI services in 11 different counties for five different TDOT construction units. These projects have allowed CDM Smith to demonstrate depth of experienced construction professionals and a range of project skills – from inspections and analyses to project closeout.

Mary Elizabeth (Mary Beth) Masi, PE

CEI Project Manager / Records Manager

CDM Smith
Knoxville Office
1100 Marion Street, Suite 300
Knoxville, TN 37921
P: (865) 963-4300

MasiMB@CDMSmith.com

Ms. Masi began her career in 1994 and now serves as a construction engineering inspection records manager, correlating data, checking materials quantities, maintaining records, overseeing schedules, and participating in team meetings and planning sessions

CEI Project Manager & Records Manager; Knox County ATMS Phase 1; Knox County, TN. Mary Beth served as CEI project manager and records manager for this Knox County project that improved 15 intersections along two busy corridors. Construction involved interconnecting 10 signals along Maynardville Pike and interconnecting 5 signals along N. Cedar Bluff Road. All intersections included ADA signal and ramp modifications, phasing changes, pavement marking upgrades, signal head replacement, signage, and testing and integrating new signal software.

CEI Project Manager & Records Manager; EDA Smart Signal Upgrade Project, Sevier County, TN. Mary Beth is serving as CEI project manager and records manager for this project to upgrade the detection, cabinets, controllers, and ADA for 55 signals throughout Sevier County and in the local jurisdictions of Sevierville, Pigeon Forge, and Gatlinburg. Construction is underway.

CEI Records Manager, Sevier County CMAQ – Regional Signal Improvement project; Sevier County, TN. Mary Beth served as CEI records manager for this locally managed project under contract with Sevierville. The project included traffic signal and ADA upgrades for nearly 60 intersections along the heavily traveled corridors in Sevierville & Pigeon Forge. Construction was completed in 2021.

CEI Project Manager & Records Manager, US-321 (E. Parkway) Multimodal Improvements, Gatlinburg. Mary Beth served as CEI project manager and records manager for this TDOT locally managed project, funded through TDOT's multi-modal grant program. The scope of this project improved safety at five existing midblock pedestrian crosswalks by adding LED crosswalk signage and ADA ramps. The project also added a new crosswalk with sidewalk and streetscape elements at Rocky Top Sports World Boulevard on US-321. This project will construct a new large trolley stop on the campus of the popular Rocky Top Sports World attraction. Construction was completed in 2021.

CEI Records Manager, University Commons, Knoxville, TN. Mary Beth served as records manager for this project located near UT campus. This project consisted of construction of a new four span bridge to connect the site to an existing TDOT bridge (Joe Johnson Drive), construction of a new signal on the bridge at the intersection the development road and Joe Johnson Drive, and interconnect for four signals.

CEI Records Manager, Parkway / Henderson Chapel Road Signal Replacement, Pigeon Forge. Mary Beth served as records manager on this project to add turn lanes and replace the existing span wire signal with a mast arm configuration at the intersection of Parkway and Henderson Chapel Road in downtown Pigeon Forge. The signal replacement included new GridSmart 360 detection and full ADA upgrades for the ramps and pedestrian signals. Careful coordination was required with the local utility companies during construction of the foundations for the traffic signal mast arm poles.

CEI Resident Engineer & Records Manager, Marconi Boulevard and Duck Pond Greenway Phase 2 CEI, Alcoa, TN. Mary Beth served as CEI resident engineer and records manager for this locally managed road and greenway project for the City of Alcoa.

Phil has 13 years of experience and is a CEI project manager and senior inspector, having joined CDM Smith's Knoxville CEI team in 2024. He has extensive experience on DOT and municipal roadway and traffic signal projects. Prior to joining CDM Smith, Phil worked for six years with a roadway contractor and then worked for seven years with TDOT, including serving as a TDOT Construction District Maintenance Supervisor.

CEI Resident Engineer, EDA Smart Signal Upgrade Project, Sevier County, TN. CDM Smith has served as an on-call transportation consultant for the municipalities in Sevier County for over 30 years. CDM Smith worked with these four communities to develop a successful ARPA grant that will upgrade the traffic signal technology for 55 intersections. Phil is serving as CEI resident engineer and senior inspector for the construction phase of this county-wide signal upgrade project. This project will upgrade the detection, cabinets, controllers, and ADA for 55 signals throughout the county and in the local jurisdictions of Sevierville, Pigeon Forge, and Gatlinburg. Construction is currently underway.

CEI Resident Engineer, Sevier County Road Inventory Project; TDOT Long Range Planning, Sevier County. Phil served as CEI resident engineer and senior inspector for this county-wide road inventory project. The team completed a field inventory and built a GIS database for pavement, pavement markings, culverts, and signs on all of Sevier County's road system which includes nearly 1000 miles.

CEI Resident Engineer, Anderson County Road Inventory Project; TDOT Long Range Planning, Sevier County. Phil served as CEI resident engineer and senior inspector for this county-wide road inventory project. The team completed a field inventory and built a GIS database for pavement, pavement markings, culverts, signs, and guardrail on all of Anderson County's road system which includes nearly 500 miles.

CEI Senior Inspector; Westside Connector, Phase 4A; Pigeon Forge, Tennessee. Phil is CEI senior inspector for this City of Pigeon Forge roadway project. The scope involves widening existing Florence Drive to provide an improved route for local traffic and pedestrians that is parallel the main Parkway. The project adds curb, gutter, and sidewalks on both sides of the road for the entire project length, along with turn lanes at several critical intersections. Construction is underway.

CEI Resident Engineer, Sevier Avenue Streetscapes CEI; Knoxville, Tennessee. Phil is CEI resident engineer and senior inspector for this City of Knoxville project that is being delivered through TDOT's locally managed program. The project is located in south Knoxville and includes construction of new curb, gutter, and wide ADA compliant sidewalks; construction of a new roundabout intersection; rebuilding a railroad crossing; new streetlights and traffic signals; and upgraded utilities with relocation of unsightly overhead utility lines to underground. Construction is underway.

CEI Senior Inspector, Carpenters Grade Road Improvement CEI; Maryville, Tennessee. Phil is CEI senior inspector for this City of Maryville roadway project that is being delivered through TDOT's locally managed program. This one-mile project includes lane widening; new curb, gutter, and storm drainage; construction of a new sidewalk; and utility relocations for water, electric, gas and communications lines. Construction is currently underway.

CEI Senior Inspector

CDM Smith
Knoxville Office
1100 Marion Street, Suite 300
Knoxville, TN 37921
P: (865) 963-4300

GarnissSC@cdmsmith.com

Scott has 33 years of experience and is a senior inspector for CDM Smith. He has extensive experience on DOT and municipal roadway and traffic signal projects. Scott has served as an inspector and senior inspector with duties including sampling, testing, and inspection of signal foundations; inspection of utilities and interconnect; inspection of traffic signal and cabinet installation; inspection of ADA components, and documentation and project closeout. Scott is IMSA certified as a traffic signal inspector, traffic signal technician, and fiber optic technician.

CEI Senior Inspector; Knox County ATMS Phase 1; Knox County, TN. Scott served as senior CEI construction inspector for this Knox County project that improved 15 intersections along two busy corridors. Construction involved interconnecting 10 signals along Maynardville Pike and interconnecting 5 signals along N. Cedar Bluff Road. All intersections included ADA signal and ramp modifications, phasing changes, pavement marking upgrades, signal head replacement, signage, and testing and integrating new signal software.

CEI Senior Inspector, Sevier County CMAQ – Regional Signal Improvement project, (Sevier County, TN). Scott served as senior CEI inspector for this locally managed project under contract with Sevierville. The project included signal and ADA upgrades for nearly 60 intersections along the heavily traveled corridors in Sevierville & Pigeon Forge.

CEI Senior Inspector, EDA Smart Signal Upgrade Project, Sevier County, TN. Scott is serving as senior CEI inspector for this project to upgrade the detection, cabinets, controllers, and ADA for 55 signals throughout Sevier County and in the local jurisdictions of Sevierville, Pigeon Forge, and Gatlinburg. Construction is currently underway.

CEI Senior Inspector, Parkway / Henderson Chapel Road Improvements, (Pigeon Forge, TN). Scott served as senior inspector on this project to add turn lanes and replace the existing span wire signal with a mast arm configuration at the intersection of Parkway and Henderson Chapel Road in downtown Pigeon Forge. The signal replacement included new GridSmart 360 detection and full ADA upgrades for the ramps and pedestrian signals.

CEI Senior Inspector, River Road / Parkway (US-321) Intersection & Parkway (US-441)/ East Parkway (US-321) Intersection, (Gatlinburg, TN). Scott served as senior inspector for this city road and signal improvement project. The new road included several features to increase safety for traffic and pedestrians, including one-way traffic circulation, new signalized pedestrian crossings, and new sidewalk connections. The project also included fiberoptic interconnect and a new master signal controller for the two intersections. The new design provided a much safer system for the heavy volume of pedestrians between the Gatlinburg Ripley's Aquarium and Mountain Mall, and near the Old Red and Anakeesta developments. CDM Smith provided design and construction engineering and inspection (CEI) services. Construction was completed in 2020.

CEI Senior Inspector, Jake Thomas Road / Veterans Blvd (SR-449) Intersection, (Pigeon Forge, TN). Scott served as senior inspector on this City of Pigeon Forge project. Work included construction of a new mast arm traffic signal with Gridsmart 360 detection, turn lanes with curb and gutter and sidewalks on each side of the road, installation of a closed drainage system, and construction of concrete medians. The project also included coordination and inspection services for the relocation of utility lines.

Bill has 31 years of experience and is a senior inspector for CDM Smith. He has extensive experience on DOT and local municipal roadway and bridge projects and maintains a number of TDOT certifications for CEI inspection, Bill is IMSA certified as a traffic signal inspector.

CEI Senior Construction Inspector; Knox County ATMS Phase 1; Knox County, TN. Bill served as senior inspector for this Knox County project that improved 15 intersections along two busy corridors. Construction involved interconnecting 10 signals along Maynardville Pike and interconnecting 5 signals along N. Cedar Bluff Road. All intersections included ADA pedestrian and ramp modifications, phasing changes, pavement marking upgrades, signal head replacement, signage, and testing and integrating new signal software.

CEI Senior Inspector, Sevier County CMAQ – Regional Signal Improvement project; Sevier County, TN. Bill served as senior inspector for this locally managed project under contract with Sevierville. The project included traffic signal and ADA upgrades for nearly 60 intersections along the heavily traveled corridors in Sevierville & Pigeon Forge. Intersection upgrades included a combination of traffic signal camera detection, controllers, cabinets, ADA pushbuttons, pedestrian signals, and curb ramps at the various intersections. Construction was completed in 2021.

CEI Senior Inspector, River Road / Parkway (US-321) Intersection & Parkway (US-441)/ East Parkway (US-321) Intersection, Gatlinburg, TN. Bill served as senior inspector for this City of Gatlinburg roadway and signal improvement project. The new road included several features to increase safety and efficiency for traffic and pedestrians, including one-way traffic circulation, new signalized pedestrian crossings, and new sidewalk connections. The project also included fiberoptic interconnect and a new master signal controller for the two intersections.

CEI Senior Inspector, Jake Thomas Road Extension, Sevier County, TN. Bill oversaw bridge inspection and assisted with roadway inspection for the CEI phase of this project that was contracted under a TDOT Region 1 on-call assignment. The job consisted of new road construction on new alignment in mountainous terrain. The project included a new bridge over Ridge Road and a new bridge over Middle Creek. The design was completed under contract with Pigeon Forge, and the construction phase was managed by TDOT for this new state route between downtown Pigeon Forge and the Dollywood theme parks.

CEI Senior Inspector, Parkway / Henderson Chapel Road Improvements, (Pigeon Forge, TN). Bill served as senior inspector on this project to add turn lanes and replace the existing span wire signal with a mast arm configuration at the intersection of Parkway and Henderson Chapel Road in downtown Pigeon Forge. The signal replacement included new GridSmart 360 detection and full ADA upgrades for the ramps and pedestrian signals.

CEI Senior Inspector, SR-73 (Wears Valley Road) / Parkway Resurfacing (Pigeon Forge, TN). Bill served as senior inspector for this TDOT locally managed project for the City of Pigeon Forge. The scope included replacing existing asphalt pavement for the SR-73 approach to the intersection with fast track concrete to alleviate pavement rutting. The job also replaced the existing traffic signal pavement loops with camera detection and upgraded the pedestrian ramps to current ADA standards.

Certifications

IMSA Traffic Signal Inspector Level 1

10 hour OSHA Construction Safety

TDEC EPSC Level 1

TDOT HMA Roadway Inspector;

Radiation Safety;

TDOT Soils & Aggregate Technician;

Work Zone Traffic Control/Flagging;

ACI Concrete Field Technician Grade 1;

TDOT Training – SiteManager for Inspectors

Knoxville Office
1100 Marion Street, Suite 300
Knoxville, TN 37921
P: (865) 963-4300

KirschSA@CDMSmith.com

Mr. Kirsch has 28 years of experience and is a senior construction CEI field inspector for CDM Smith's Knoxville office. He maintains numerous active certifications for field inispection as required by TDOT, and his project experience includes a wide variety of TDOT and TDOT Locally Managed road, bridge, and signal projects. Steve is IMSA certified as a traffic signal inspector.

CEI Construction Inspector; Knox County ATMS Phase 1; Knox County, TN. Steve served as CEI construction field inspector for this Knox County project that improved 15 intersections along two busy corridors. Construction involved interconnecting 10 signals along Maynardville Pike and interconnecting 5 signals along N. Cedar Bluff Road. All intersections included ADA pedestrian and ramp modifications, phasing changes, pavement marking upgrades, signal head replacement, signage, and testing and integrating new signal software.

CEI Construction Inspector; Sevier County CMAQ – Regional Signal Improvement project; Sevier County, TN. Steve served as CEI construction field inspector for this locally managed project under contract with Sevierville. The project includes signal and ADA upgrades for nearly 60 intersections along the heavily traveled tourist corridors in Sevierville and Pigeon Forge.

CEI Senior Inspector, SR-73 (Wears Valley Road) / Parkway Resurfacing (Pigeon Forge, TN). Steve served as senior inspector for this TDOT locally managed project for the City of Pigeon Forge. The scope included replacing existing asphalt pavement for the SR-73 approach to the intersection with fast track concrete to alleviate pavement rutting and long term maintenance problems. The job also replaced the existing traffic signal pavement loops with camera detection and upgraded the pedestrian ramps to current ADA standards. Construction was completed in 2021.

CEI Senior Inspector, Marconi Boulevard and Duck Pond Greenway Phase 2 CEI, Alcoa, TN. Steve served as CEI Senior Inspector for this locally managed road and greenway project for the City of Alcoa. The project includes the construction of road on new alignment adjacent to Alcoa High School and the Springbrook Farm development.

CEI Construction Inspector; (Q030) I-640/Broadway Interchange, Knox County. Steve served as a senior inspector on this construction project for TDOT. The I-640 Broadway Interchange reconfiguration project included widening three (3) bridges, construction of one (1) new bridge, construction of ten (10) retaining walls, grading, base stone, concrete paving, lighting, signs and pavement markings. Construction was completed in 2020.

CEI Construction Inspector; (H206) S.R. 33 Drill Shaft & Bridge Construction Engineering and Inspection, Union County. Steve served as senior bridge inspector for the drilled shafts on the project, performed under the TDOT on-call CEI contract. It required drilling six shafts 20 feet below the anticipated bottom and collecting cores to ensure the bridge was footed on solid rock. The on-call team was given additional work orders to provide CEI services for the construction of a welded steel plate girder bridge on SR 33 over the Clinch River, including demolition of the existing bridge, EPSC Inspections, grading, drainage and paving.

Joshua Ogden

CEI Inspector

Joshua has 7 years of experience in constructon inspection. He spent the first five years of his career in Florida working as a QC Inspector, VT Inspector, and CEI Inspector. He joined CDM Smith's Knoxville office in 2023 as a transportation CEI inspector and has obtained a wide range of CEI certifications, including IMSA traffic signal and IMSA signal technician.

CEI Construction Inspector; Knox County ATMS Phase 1; Knox County, TN. Joshua served as CEI construction field inspector for this Knox County project that improved 15 intersections along two busy corridors. Construction involved interconnecting 10 signals along Maynardville Pike and interconnecting 5 signals along N. Cedar Bluff Road. All intersections included ADA pedestrian and ramp modifications, phasing changes, pavement marking upgrades, signal head replacement, signage, and testing and integrating new signal software.

CEI Construction Inspector, EDA Smart Signal Upgrade Project, Sevier County, TN. Joshua is serving as CEI inspector for this project to upgrade the detection, cabinets, controllers, and ADA for 55 signals throughout Sevier County and in the local jurisdictions of Sevierville, Pigeon Forge, and Gatlinburg. Construction is currently underway.

CEI Construction Inspector; Knox County CEI On-Call WO1 – Resurfacing; Knox County Dept of Eng & Pub Works. Joshua served as CEI inspector for Knox County's Fall milling and resurfacing program on various streets located throughout the county.

CEI Construction Inspector; Knox County CEI On-call WO 02 - Schaad Road; Knox County Dept of Eng & Pub Works. Joshua served as CEI inspector for the asphalt operations on Knox County's Schaad Road construction project. This is a new 5-mile-long road is being constructed on new alignment in northwest Knox County.

CEI Construction Inspector; TDOT 2024 Curb Ramp Upgrade Program – Regions 2 & 3; Nashville & Chattanooga, TN. Joshua served as CEI field inspector for curb ramp upgrades as part of TDOT's Region 2 & Region 3 resurfacing program. Joshua performed field inspections for all curb ramps on multiple resurfacing projects in various counties. He worked with the field team to document and inspect each ramp to verify ADA compliance.

CEI Construction Inspector; Gatlinburg Transit Maintenance Building Site; Gatlinburg, TN. Joshua served as CEI inspector for site grading and the installation of storm pipe and catch basins for the new Gatlinburg transit maintenance building site. This project was completed under TDOT local programs guidelines for Cei. Joshua also maintained quantities throughout the duration of the project.

CEI Construction Inspector; TDOT CEI On-Call WO 03; Dandridge, TN. Joshua served as CEI inspector for construction of a new TDOT Maintenance Building in Dandridge. He oversaw the electrical contractors, plumbing contractors, and the construction contractor through various phases.

CEI Construction Inspector; TDOT On-call WO6, Cocke County, TN. Joshua was CEI Inspector for this paving project in Cocke County. He inspected the paving, striping, milling, rumble strip installation, and installation of the snow plowable markers. He also maintained the quantities throughout the duration of the project.

Will Carroll, CPESC, QHP

CEI / Erosion Control Inspection

CDM Smith
Knoxville Office
1100 Marion Street, Suite 300
Knoxville, TN 37921
P: (865) 963-4356

CarrollWG@CDMSmith.com

Will Carroll, CPESC, QHP began his career in 1998 as an environmental scientist. He joined CDM Smith's Knoxville office in 2005 and has provided erosion control inspections, wetland delineation, stream identification, endangered species surveys, groundwater monitoring, and Phase I & II environmental assessments for public and private sector clients. He has assisted in permitting and coordination with municipal, state, and federal agencies and has been involved with EPSC inspections and documentation throughout his career. Will maintains CPESC certification and is also a TN Qualified Hydrologic Professional for stream/wet weather conveyance determinations. In addition to EPSC inspections, he stands ready to assist with general CEI inspection as needed.

Erosion Control Inspector, Sevier County CMAQ – Regional Signal Improvement project; Sevier County, TN. Will served as erosion control inspector for this locally managed project under contract with Sevierville. The project included traffic signal and ADA upgrades for nearly 60 intersections along the heavily traveled corridors in Sevierville & Pigeon Forge. Construction was completed in 2021.

Erosion Control Inspector, TDOT Region 1 On-Call CEI (N343) Halls Connector SR33 and SR71 from Afton Dr. to Emory Road, Knox County. As an erosion control inspector, Will conducted and documented on-site inspections for erosion and sediment control twice per week. The project provided CEI services for intersection construction, road improvements, traffic signal construction, bridge construction, and box culvert construction at SR 33 and SR 71 from Afton Drive to Emory Road.

Erosion Control Inspector, TDOT Region 1 On-Call CEI (N282) Harbison's Crossroads SR331 Intersection with SR131, Knox County. As an erosion control inspector, Will conducted and documented on-site EPSC inspections twice per week. The project provided construction services for intersection and roadway improvements of SR 331 and SR131 including box culvert construction and culvert extension.

Erosion Control Inspector, Marconi Boulevard and Duck Pond Greenway Phase 2 CEI, Alcoa, TN. Will served as CEI erosion control inspector for this TDOT locally managed project for the City of Alcoa. The project included the construction of road on new alignment adjacent to Alcoa High School and the Springbrook Farm development.

Erosion Control Inspector, I-640 Interchange at North Broadway (Phase II), Knox County. As an erosion control inspector, Will conducted and documented on-site inspections for erosion and sediment control twice per week. The project provides CEI services for improvement of the I-640 Interchange at Broadway including the construction of two detention basins, a 77-foot culvert along First Creek, an 18-foot culvert extension along Whites Creek, 2,820 feet of streambank stabilization along a tributary of First Creek, interchange ramp construction, and traffic signal construction.

QHP Stream Determination, Erosion Control Inspector; (LP110262.00) I-275 Business Park Access Road, Knox County, TN. Will provided stream determination during the design phase and served as CEI erosion control inspector during construction for this TDOT locally managed project for the City of Knoxville. The project included extending one road on new alignment, improving the alignment of another road, building curb, gutter and sidewalks, utility relocations, and drainage. Project is expected to be completed in Spring of 2022.

Education

B.S. - Plant and Soil Sciences, University of Tennessee, 2003

Certifications

Tennessee Qualified Hydrologic Professional (QHP) for stream/wet weather conveyance determinations: 2019

Rosgen Level I & II Certification for Stream Restoration: 2022

Certified Professional in Erosion and Sediment Control: 2005

Erosion Prevention and Sediment Control Level I & Level II

U.S. EPA Asbestos Hazard Emergency Response Act Asbestos Inspector, TN, 2004

Wetland Delineation Training, NC Board of Landscape Architects/NC State University, 2008

Hazardous Waste Operations and Emergency Response, OSHA

Meta-Asbestos Inspection

40-hour HAZMAT Certification

Construction Safety and Health, OSHA

CDM Smith

John F. Gould, PE

Senior Traffic Engineer

CDM Smith
Knoxville Office
1100 Marion Street, Suite 300
Knoxville, TN 37921
P: (865) 963-4326

GouldJF@CDMSmith.com

With more than 38 years in the traffic and transportation engineering field for both public and consulting organizations, Mr. Gould has obtained a broad experience in planning and design of traffic engineering and traffic signal projects.

Lead Traffic Engineer, US-411 (Parkway) / River Road and US-411 (Parkway) / Greystone Heights Road, Gatlinburg, TN. John prepared signal design plans and timing plans for this project at the "triangle" intersection in downtown Gatlinburg. The scope added a new protected crosswalk between the Gatlinburg Aquarium and Mountain Mall and provided ADA ramps and audible pedestrian phases at several legs of the adjacent intersections with River Road and Cherokee Orchard Road.

Lead Traffic Engineer, Elizabethton Signal System Plan, Elizabethton, TN. John served as lead engineer for this signal optimization project, completed for the City of Elizabethton and funded through a TDOT planning grant. The scope included data collection and operational analysis, as well as the development of a communication master plan and timing plans for the Town's 17 signalized intersections. The scope also included analysis and recommendations for optimizing the pedestrian crossings for all signals with pedestrian infrastructure.

Lead Traffic Engineer, Greeneville Signal System Plan, (Greeneville, TN). John served as lead traffic engineer for this signal optimization project, completed for the Town of Greeneville and funded through a TDOT planning grant. The scope includes data collection and operational analysis, as well as development of a communication master plan and timing plans for the Town's 34 signalized intersections. The project is organized into four coordinated signal system groups along major routes. The scope also includes analysis and recommendations for optimizing the pedestrian crossings for the downtown signals.

Lead Traffic Engineer, SR-343 Complete Streets & Traffic Signal Optimization Study, Morristown, TN. John was lead traffic engineer for this corridor study and signal optimization plan in Morristown. The goal of the study was to improve safety for all modes of transportation, enhance aesthetics to create a gateway into the city, optimize signal timings, and upgrade signals to mast arms with ADA pedestrian signals. Lakeway MTPO used this plan to apply for a successful $24M U.S. DOT RAISE grant to fund the final design and construction of the improvements.

Lead Traffic Engineer, Grigsby Chapel Road Corridor Study, Farragut, TN. John was lead traffic engineer for this Town of Farragut traffic study between Campbell Station Road and Smith Road. The study evaluated traffic along the corridor and examined alternative traffic control that might increase gaps to improve access from 12 different side streets during school and outside of the school calendar year. The study evaluated traffic volumes, crash history, intersection sight distances, capacity, and level of service. Alternatives were investigated for potential traffic control options at each intersection, including traffic signal warrants, roundabout analyses, and stop control analyses.

Lead Traffic Engineer, Maryville Walgreens, Maryville, TN. John performed the traffic impact study and the subsequent traffic signal design for this development in Maryville. The study showed that a signal was warranted, and the new traffic signal was installed at the intersection of E. Lamar Alexander Parkway and Chantilly Lane.

Kevin A. Cole, PE

Senior Traffic Engineer

CDM Smith
Knoxville Office
1100 Marion Street, Suite 300
Knoxville, TN 37921
P: (865) 963-4300

ColeKA@CDMSmith.com

Kevin Cole began his professional career in 1999, joining CDM Smith in the Knoxville, Tennessee office as a transportation engineer-in-training. Since 2005, Kevin has served as a senior project engineer where his primary duties include traffic impact studies, signal design, ARCview GIS, modeling, traffic simulation, and traffic data collection.

Senior Traffic Engineer; I-75 / Emory Road Interchange, Knoxville, Tennessee. Kevin is serving as senior traffic engineer for this TDOT design project to convert the existing diamond interchange at I-75 / Emory Road in Knoxville to a Diverging Diamond Interchange (DDI) configuration. CDM Smith's scope for this project includes design for two new traffic signals at the DDI ramps, design for a new signal at the Emory Road / Conner Road intersection, and signal coordination for a total of six traffic signals along the Emory Road corridor. Kevin completed Synchro modeling for traffic signal coordination and timing, and assisted with signal design plans for the project. Construction is scheduled to begin in 2025.

Senior Traffic Engineer, Grigsby Chapel Road Corridor Study, Farragut, Tennessee. Kevin served as traffic engineer and assisted with modeling and analysis for this Town of Farragut traffic study between Campbell Station Road and Smith Road. The study evaluated traffic along the corridor and examined alternative traffic control that might increase gaps to improve access from 12 different side streets during school and outside of the school calendar year. The study evaluated volumes, crash history, sight distances, capacity, and level of service. Alternatives were investigated for potential traffic control options at each intersection, including traffic signal warrants, roundabout analyses, and stop control analyses.

Senior Traffic Engineer, Greeneville Signal System Plan; Greeneville, Tennessee. Kevin served as traffic engineer for this signal optimization project, completed for the Town of Greeneville and funded through a TDOT planning grant. The scope includes data collection and operational analysis, as well as development of a communication master plan and timing plans for the Town's 34 signalized intersections. The project is organized into four coordinated signal system groups along major routes. The scope also includes analysis and recommendations to optimize pedestrian crossings for the downtown signal system.

Senior Traffic Engineer; I-640 Broadway Interchange (Knoxville, TN). CDM Smith was contracted by TDOT to develop an Interchange Modification Report and design plans for the I-640 / Broadway interchange in Knoxville. Kevin developed simulation models to evaluate traffic operations related timing optimization, geometrics, and travel patterns. Kevin then assisted with traffic signal design, signal timing, and signing/marking plans.

Senior Traffic Engineer, East Cedar Street; Bristol, Tennessee. Kevin was traffic engineer and assisted with signal design for this City of Bristol project, developed through TDOT's locally managed program. The project included improvements to an existing 2-lane road through an older, dense neighborhood with significant ROW and historical restrictions. CDM Smith studied multiple alternatives to improve safety while also looking for ways to accommodate pedestrian and bike traffic through the community and near the campus of King College. This project also included improvements and signal coordination at a Norfolk Southern Railroad mainline track. Construction was completed in 2023.

Jim MacKay, PE

National Signal Systems/Communications Engineer

Jim MacKay is one of CDM Smith's national signal systems and communications experts. He works in the firm's Pittsburgh, PA office and brings 30 years of experience in all aspects of traffic engineering. His work has included designing integrated, multiple-phase, traffic signal systems on congested corridors that include computer controlled real-time monitoring between remote field devices and traffic control centers; fiber-optic communications – including center-to-center (C2C) and sub-regional to regional TMC communications; data collection sessions software; emergency vehicle preemption; railroad preemption; transit priority; spread spectrum radio interconnect; video and radar detection; and closed loop coordination. Jim is a certified IMSA Level 2 Traffic Signal Field Technician. As a member of the PennDOT District 11-0 Traffic Unit, Jim monitored and inspected the installation of traffic signal systems on all department and municipal construction projects; and trained construction inspectors, municipal personnel, consultant engineers, and contractors on the design, construction, and operation and maintenance of advanced traffic signal systems.

Traffic Task Leader; Delaware DOT, Delaware Signal Timing Enhancement Project (DSTEP) (Newark, DE). This project selected 6 intersections for improvements along the Cleveland Avenue corridor. Jim was responsible for the retiming effort which included overseeing and providing quality control of all data collection conducted by University of Delaware students. Collected data was used to evaluate the capacity analysis of the intersections using Synchro and the critical movement summation (CMS) method. Individual timing plans and corridor time-space diagrams were developed for morning-, evening-, and off-peak times. There were 12 timing plans developed to provide a directional library of plans for use as a traffic responsive system. After installation and field observation, timing adjustments were made to fine tune and calibrate the system in real-time while in communication with the TMC.

Electrical Inspector, SR 4084 Section A01, PennDOT District 11-0 (Pittsburgh, PA). This project consisted of replacing the concrete roadway and installing all new equipment at six existing signalized intersections. Serving as the electrical inspector, Jim monitored the placing of traffic signal supports, 170 controller assemblies, junction boxes, conduit runs, and preformed loop sensors embedded in the concrete pavement and fiber-optic cable (to provide an interconnected closed-loop signal system). As the designers' field representative, he made decisions to accommodate field conditions and was present for every signal turn-on. This required verifying correct timings were programmed into the controller, conducting conflict monitor tests, and adjusting signal head placement.

Traffic Engineer, Georgia Avenue Transit Signal Priority, District of Columbia DOT, (Washington, DC). This project provided priority to Washington Metropolitan buses using the EMTRAC traffic signal priority system. The transit signal priority system encompassed the supply, installation, testing, and turn-on of the transit signal priority system at 33 intersections using 20 transmitters with GPS. The traffic signal priority control strategy is an early green/extended green bus priority control strategy for incorporation in the actuated portion of the district's local intersection control software. Jim was responsible for updating interval-based timing sheets for input into the 170 controllers to facilitate the integration of EMTRAC equipment with McCain central software (QuicNet).

CDM Smith

Jessie Carroll, PE, PTOE, PMP

National Signal Systems/Communications Engineer

Jessie Carroll is a senior traffic and national signal systems / communication expert in CDM Smith's Chicago office. She has experience in transportation planning, traffic engineering, and signal system design. Her experience includes reviewing and recommending current ITS technologies, ITS infrastructure placement and design, site planning, and developing PS&E packages for ATMS projects.

Project Manager, Kane County, IL Division of Transportation System Operations Manager. Project manager assisting in launching a new arterial operations center and creating the standard operating procedures to monitor and report on all KDOT maintained traffic signal systems and ATMS communications infrastructure. The contract also includes operational trouble shooting and responding to public complaints regarding traffic signal operation; electrical maintenance contractor supervision; field inspection; engineering "peer" review of signal timing and optimization plans, traffic signal/ traffic signal/roadway lighting/ITS plans, catalog cuts, and the county's Traffic Signal Specifications Traffic Network Architecture, specifications, and other related standards and guidelines; project management and administration; and quality assurance and quality control.

Traffic Engineer, Indianapolis Advanced Traffic Management System (ATMS) Phase 5, Indiana DOT, Indianapolis, Indiana. Traffic engineer responsible for coordinating with INDOT on evaluating proposed CCTV camera tower and vehicle detection site layouts and site constructability for deployment of ITS equipment. Conducted field visits to verify the site layout including identifying power sources and communication links, inventorying existing ITS devices, and incorporating existing ITS devices into the proposed design. Additional project tasks included developing the engineer's estimate and preparing final plans, special provisions, and estimate documents for construction.

ITS, Lead, Illinois State Toll Highway Authority, General Engineering Consultant (GEC). Team lead for the ITS unit for the GEC. Tasks include developing a 5-year ITS strategic plan for the Illinois Tollway including deployment, maintenance, and operations outlook; directing ITS team in design review, construction support/walkthroughs, ITS base sheet and special provisions development; providing assistance in ITS research and industry best practice to assist the owner in developing a toolkit for ITS strategies.

Project Engineer, U.S. Route 12 (Rand Road) and IL Route 53/68 (Dundee Road), Illinois Department of Transportation, Northeastern Illinois. Project engineer for redesigning the existing fiber optic interconnect equipment to accommodate the redesign of five traffic signals. Coordinated resetting the red-light running equipment and designing five temporary traffic signals. Also assisted in cost estimating for the temporary signal designs and interconnect installation.

Project Engineer, USH 41 ITS Design, Wisconsin Department of Transportation, Green Bay, Wisconsin. Project engineer, Jessie providing support on communications design, temporary work zone ITS design, CCTV design, vehicle detection design, cost estimating, and QA/QC. The project provided preliminary and final design on USH 41 in Winnebago County from STH 26 to Breezewood Land; and in Brown County from Orange Lane to CTH M.

CDM Smith's CEI group has the depth of resources to successfully complete all anticipated tasks within this scope. The same team members proposed for this project have delivered numerous CEI ATMS and traffic signal projects in Knoxville and the surrounding area – including Knox County's Phase 1 ATMS project. Project descriptions for similar-sized relevant projects are featured on the following pages.

Projected Workload:

Our team will be working on the Sevier County EDA Signal Upgrade project through June of 2026. That is the only other traffic signal project currently under contract for CDM Smith's CEI team. With this workload, our specialty CEI team for traffic signal inspection has immediate availability and resources to complete Knox County's Phase 2 ATMS CEI project.

Project Awards:

Another positive measure of our past work is the industry recognition we have received for outstanding projects developed by CDM Smith's Tennessee staff. This also demonstrates our commitment to responsive and efficient project development as well as a strong endorsement of our qualifications. Recent project awards include:

CDM Smith's project awards include:

- 2024 ACEC Tennessee Grand Award & National Recognition: TDOT Statewide Vulnerable Road User Assessment, TDOT
- 2024 Southern District ITE Project Award for TSMO: TN Statewide Traffic Incident Management Manual & Training, TDOT
- 2023 ASHE National Project of the Year: 12th Avenue South Complete & Green Street, Nashville
- 2023 ASHE Tennessee Project of the Year: 12th Avenue South Complete & Green Street, Nashville
- 2023 ACEC Tennessee Honor Award: 12th Avenue South Complete & Green Street, Nashville
- 2023 ACEC Tennessee Honor Award: SR-343 Complete Streets & Signal Optimization Plan, Morristown
- 2022 ACEC Tennessee Grand Award and National Recognition: TDOT SR-162 Virtual Public Meeting Room
- 2022 ACEC Tennessee Honor Award: TDOT Work Zone Manual Update
- 2021 ACEC Tennessee Grand Award & National Recognition: TDOT West Hills Roundabout Access
- 2021 ACEC Tennessee Grand Award & National Recognition: WeGo Nolensville Bus Stop Shelters
- 2020 Walk Bike Nashville Awards – Most Walkable/Bikeable Project: WeGo Nolensville Bus Stop Shelters
- 2019 ACEC-Tennessee Honor Award: TDOT I-640 Broadway Interchange
- 2018 ACEC-Tennessee Grand Award & National Recognition: Knoxville Old City Streetscape
- 2016 ACEC-Tennessee Grand Award: Knox County Strategic Transportation Safety Plan
- 2015 ACEC-Kentucky Grand Award & National Recognition: UK Alumni Drive
- 2014 ACEC-Tennessee Grand Award: University Commons Redevelopment
- 2012 ACEC-Tennessee Grand Iris Award: Knoxville Transit Center
- 2011 ACEC-Tennessee Honor Award: Dollywood Access Study
- 2010 ACEC-Tennessee Honor Award: TDOT SR-840 Context Sensitive Design
- 2009 ACEC-Tennessee Grand Iris Award and National Recognition: TDOT SmartFIX40

Knox County ATMS Phase 1 – CEI (Knox County, TN)

CDM Smith worked under contract with Knox County to provide CEI services for the Advanced Traffic Management System (ATMS) Phase 1 project. This is the first phase of the current RFP. CDM Smith successfully performed CEI for this project with the same project team that is proposed for the current RFP.

This project involved improvements to 15 intersections along two busy Knox County corridors. Construction involved interconnecting ten (10) signals along Maynardville Pike and interconnecting five (5) signals along N. Cedar Bluff Road.

All intersections included ADA pedestrian signal and ramp modifications, phasing changes, pavement marking upgrades, signal head replacement, signage improvements, and testing and integrating new signal software. Construction was completed in 2023.

Client Contact:

Jim Snowden, PE
Deputy Director
Knox County Engineering & Public Works

Key Project Features:

- *CEI for ATMS project to upgrade 15 signals*
- *Phase 1 CEI for current RFP*

CDM Smith CEI Budget:
$249,150 (initial budget)
$249,150 (final cost)

Start and End Dates:
July 2021 – Nov 2023

Sevier County Tourist Corridor ATMS – CEI (Sevier County, TN)

CDM Smith worked under contract with the City of Sevierville to serve as prime CEI consultant for this TDOT locally managed ATMS project, funded through a CMAQ grant. The scope included traffic signal upgrades to sixty (60) intersections along three major tourist corridors in the cities of Sevierville and Pigeon Forge. The large volume of work required the funding to be split into two separate TDOT PIN numbers. The project included upgrades to all traffic signals along the Parkway (US-441/SR-66) from I-40 to the southern city limit in Pigeon Forge; the entire length of Veterans Boulevard (SR-449); Dolly Parton Parkway (SR-35) from Downtown Sevierville to east of Veterans Boulevard; and other nearby strategic intersections. Construction was completed in 2022.

Specific work items included:

- Signal controller installation,
- Controller cabinet modifications,
- Signal head modifications,
- Signal pole & ped pole installation and upgrades,
- Video detection installation,
- Signal timing and detection zone setup,
- Pavement marking & signing replacement and upgrades,
- ADA curb ramp additions and modifications,
- Fully ADA accessible and audible pedestrian system installation.

Client Contact:
Joseph Dodgen
Traffic Operations Director
City of Sevierville
(865) 868-1793

Key Project Features:
- *CEI for ATMS project to upgrade 60 signals*

CDM Smith CEI Budget:
$385,480 (initial budget)
$385,480 (final cost)

Start and End Dates:
Dec 2019 – June 2021

Sevier County EDA Funded Smart Signal Upgrades – CEI (Sevier County, TN)

CDM Smith is working under contract with the City of Pigeon Forge to serve as prime CEI consultant for this multi-jurisdictional signal upgrade project that is funded through a U.S. Department of Commerce, Economic Development Administration (EDA) grant. The project involves upgrades to fifty-five (55) traffic signals located throughout Pigeon Forge, Sevierville, Gatlinburg, and Sevier County. The upgrades include a combination of new detection cameras, controllers, cabinets, conduit, wiring, signal communications, and upgrades to ADA pedestrian signals and curb ramps as needed at each intersection.

Specific work items include:

- Video camera detection installation,
- Signal controller installation,
- Controller cabinet modifications,
- Signal head modifications,
- Signal timing and detection zone setup,
- Pavement marking & signing replacement and upgrades,
- Pedestrian pole installation and upgrades,
- ADA curb ramp additions and modifications,
- Fully ADA accessible and audible pedestrian system installation.

Key Project Features:
- *CEI for ATMS project to upgrade 55 signals*

CDM Smith CEI Budget:
$439,200 (initial budget)
$439,200 (final cost)

Start and End Dates:
October 2024 –
June 2026 (scheduled)

City of Pigeon Forge, Signal and Signal Systems – CEI (Pigeon Forge, TN)

For more than a decade, CDM Smith has worked under contract with the City of Pigeon Forge to provide survey, design and CEI services for upgrades to several major signalized intersections in town. Project types have varied from new signal construction to replacements of existing signals to construction of signal systems.

CDM Smith's CEI services with Pigeon Forge have included construction of traffic signal systems in two critical areas within the city with extremely high traffic volumes. CDM Smith completed the signal design, timing plans, interconnect plan, and full CEI services for construction of traffic signals at the following intersections that serve Dollywood's theme park property:

Client Contact:
Earlene Teaster
City Manager
City of Pigeon Forge
(865) 850-7912

Key Project Features:
- *CEI for 10 signals within two separate systems*

a) SR-449 (Veterans Blvd) / Jake Thomas Rd / Dollywood Resorts Blvd
b) SR-449 (Veterans Blvd) / Splash Country Exit Road
c) SR-449 (Veterans Blvd) / McCarter Hollow Road
d) McCarter Hollow Rd / Dollywood Theme Park Exit Rd

CDM Smith CEI Budget Initial Budget / Final Cost	***Construction Schedule Start / End Dates***
a. $62,000 / $62,000	*Aug 2016-Feb 2017*
b, c, d. $165,200 / $165,200	*Aug 2008-May 2009*

CDM Smith also completed signal design, timing plans, interconnect plans, and full CEI services for replacement of traffic signal poles, detection, heads, cabinets, and ADA pedestrian infrastructure at the following intersections in downtown Pigeon Forge along US-411/SR-66 (Parkway).

e) US-441/SR-66 (Parkway) / SR-73 (Wears Valley Road)
f) SR-73 (Wears Valley Road) / McGill Street
g) US-441/SR-66 (Parkway) / Henderson Chapel Road
h) US-441/SR-66 (Parkway) / The Island Drive
i) US-441/SR-66 (Parkway) / Christmas Tree Lane
j) US-441/SR-66 (Parkway) / Music Road

h. $93,800 / $93,800	*Nov 2014-Oct 2015*
i. $54,000 / $54,000	*July 2004-April 2005*
j. $18,000 / $18,000	*June 2012-Jan 2013*

Maryville/ Alcoa - ATMS, Phase 1 – CEI (Maryville & Alcoa, TN)

CDM Smith served as CEI Consultant on this joint Phase 1 ATMS project in the Cities of Maryville and Alcoa, funded through TDOT's locally managed program. The project consisted of construction, installation, and testing approximately 10.3 miles of traffic signal system communications infrastructure and its fiber optic backbone.

The project also included connection of forty (40) traffic signals throughout the cities with multi-mode fiber optic interconnect. Existing closed loop multi-mode fiber optic signal systems within both cities were connected to the fiber backbone, establishing an inter-agency fiber optic signal system interconnect controlled by three field masters. The project required replacing eleven (11) of Alcoa's existing signal controllers with equipment that would match that of the City of Maryville along with appropriate modifications to the associated cabinets.

A redundant single-mode fiber optic trunk line was installed along with the multi-mode fiber. This trunk line was built to accommodate future ITS devices and applications that the cities may add. The project also included upgrading pedestrian signal infrastructure at eleven (11) intersections within both cities, improvements to the phasing / sequencing of five (5) signals, and one (1) complete signal upgrade within Maryville.

The project also included improvements to ADA ramps, truncated domes, sidewalks, median pavement, and pavement markings at various intersections in both cities.

Client Contact:
Kevin Stoltenberg
Assistant City Manager
City of Maryville
(865) 273-3500

Key Project Features:
- *CEI for ATMS project to upgrade 40 signals*

CDM Smith CEI Budget:
$80,320 (initial budget)
$80,320 (final cost)

Start and End Dates:
July 2010 – July 2011

City of Gatlinburg Downtown Signal Upgrades – CEI (Gatlinburg, TN)

CDM Smith was retained by the City of Gatlinburg for implementation of pedestrian and traffic safety improvements along Parkway (US 441/SR-71) and East Parkway (US 321/SR-73), near some of the most visited attractions in downtown Gatlinburg. This multi-faceted project was funded by the City and was closely coordinated with TDOT's Region 1 traffic and maintenance office.

The purpose of this project was to improve safety by relocating two heavily traveled unsignalized pedestrian crosswalks to be under signal control. The project also changed the traffic circulation pattern at the River Road/Parkway intersection to eliminate conflicts between pedestrians and traffic. CDM Smith provided survey and design services for preliminary, right-of-way, and final construction plans for roadway, sidewalk, crosswalk, ADA, traffic signal, and signal interconnect improvements.

The project included a complex coordination plan for four signals along the route, where an existing fiber optic trunk line was utilized as the backbone for the system. The signals at Parkway/East Parkway; Parkway/Greystone Heights/River Road; Parkway Cherokee Orchard/River Road; and a new pedestrian signal at River Road were connected in an overall system with new controllers, new signal detection, and ADA pedestrian upgrades.

Client Contact:
Roger Sims
Public Works Director
City of Gatlinburg
(865) 430-1370

Key Project Features:
- *CEI for signal modification, new signal construction, & signal system interconnect*

CDM Smith CEI Budget:
$97,000 (initial budget)
$97,300 (final cost)

Start and End Dates:
Design: Feb 2019 – Feb 2020
Const: Feb 2020 – Apr 2021

During the construction phase, CDM Smith provided CEI services to assist the city with inspection of traffic signals, signal interconnect, sidewalks, ADA improvements, signing, and roadway construction, project documentation, preparation and inspection of final punch list items, and project closeout. Construction was completed in 2021.

Signal and Signal System at University Commons Development – CEI (Knoxville, TN)

University Commons is the first urban, vertical retail structure in Knoxville, located adjacent to UT campus and just minutes from the central business district. This new development is built upon the former site of Fulton Bellows, a metal workings and foundry operation, which started manufacturing in 1917.

For almost 90 years the plant produced industrial bellows used in machinery, aircraft and medical equipment before closing in 2005. The factory was demolished shortly after the company ceased operations, with only the concrete slab remaining. The property was contaminated during its previous use, and was declared a brownfield site. The University Commons project converted this blighted site into a productive retail destination to have a positive economic impact on the community for decades to come. The development includes an upscale retail and grocery center to serve consumers that live on UT property and in the nearby Fort Sanders and South Knoxville communities.

Client Contact:
Tom Clabo, PE
Engineering Director
City of Knoxville
(865) 215-6106

Key Project Features:
- *CEI for signal modification, new signal construction, & signal system interconnect*

CDM Smith CEI Budget:
$156,000 (initial budget)
$188,300 (final cost)

Start and End Dates:
July 2013 – Dec 2014

CDM Smith served as CEI Consultant under contract with the City of Knoxville during the construction phase of the University Commons project, adjacent to UT campus. In order to provide adequate access to the University Commons development site, a new bridge was designed to connect the site to an existing TDOT bridge between UT's main campus and agriculture campus. This new bridge provides a vital connection for traffic, bike, and pedestrian access to the redeveloped property. A new signal was added to serve the intersection between the two bridge structures. In addition, the signal at University Commons Way/Cumberland Avenue was modified, and the following four signals along UT's Agriculture Campus were interconnected.

- Joe Johnson Drive/University Commons Way
- Joe Johnson Drive/E.J. Campman Drive
- Volunteer Blvd/Joe Johnson Drive/Andy Holt Drive
- Neyland Drive/Joe Johnson Drive

The project received the ACEC TN Grand Award for Engineering Excellence in 2015.

Litigation History

Because of its size and volume of business, CDM Smith, over the years it has been in business, and especially in these litigious times, has occasionally been involved in litigation.

There are no past or currently outstanding legal proceedings, judgments or contingent liabilities that could adversely affect the financial position or ability of the firm to perform its contractual commitments, and CDM Smith has not been involved in any litigation in the state of Tennessee within the past five years.

Insurance Coverage

CDM Smith carries workers compensation, employers liability, automobile liability, commercial general liability, premises/operations, independent contractor, contractual liability, umbrella liability coverage, and professional liability coverage per the requirements in Knox County's insurance checklist (Exhibit A).

In addition to these coverage limits, CDM Smith can provide other types of insurance and greater limits of insurance as mutually agreed upon. Upon request, CDM Smith can provide evidence of its insurance coverage through a certificate of insurance.

JULIE E. NIEDLING
STATE OF TENNESSEE NOTARY PUBLIC
KNOX COUNTY

Our team understands the expectations that Knox County has for their consultants, and we believe that the following critical success factors will fulfill our responsibilities to carry out this projects successfully:

QUALITY

We will confirm that all project deliverables meet Knox County's quality expectations. At each key milestone of the project, Knox County and the CDM Smith team project manager must know the status of the assignment in terms of both budget and schedule. In addition, these managers must be able to prepare accurate, timely reports to other senior managers to make decisions and control the direction of the project. CDM Smith will use a suite of proven project control tools to monitor and report project health.

BUDGET CONTROL

Our computer-based cost accounting system is organized into a series of reports including a weekly Current Period Charges Report, a monthly Billing Cost Detail Report, and a monthly Project Status Report, all of which serve as monitoring aids for cost control.

SCHEDULE CONTROL

In addition to controlling work task costs, CDM Smith will also pay close attention to the schedule for execution of each assignment. Using the task work breakdown structure (WBS), CDM Smith will prepare a work task schedule. For CEI projects, our project manager/resident engineer will closely monitor the contractor's schedule, and we will work as a team to assign inspection forces to adequately cover the project and meet the requirements of Knox County and TDOT Local Programs.

Schedule updates will be completed as frequently as necessary in order to respond to the contractor's production schedule.

RESPONSIVENESS

CDM Smith provides its project manager and staff with extensive tools to manage and execute the work and see that deadlines and deliverables meet our client's expectations. Our team performs a significant volume of projects each year, and we will schedule assignments such that key project personnel proposed for this contract will be available to initiate the work. The CDM Smith team has the staff and resources to successfully take on multiple projects at one time. The team members proposed will be dedicated and available to Knox County for this assignment.

COMMUNICATION

Our project team will establish and maintain effective working relationships with Knox County and affected stakeholders to promote frequent, open, and effective communication.

With experience throughout Tennessee and the U.S., **CDM Smith is well-equipped to provide practical, workable solutions.** Our talented team provides construction inspection services for small and large projects - and everything in between. We look forward to assisting Knox County to deliver CEI services for the Phase 2 ATMS project!

CDM Smith

listen. think. deliver.

Contractor's Professional CEI Services Agreement

1100 Marion Street, Suite 300
Knoxville, TN 37921
tel: 865 963-4300

June 26, 2025

Mr. Jim Snowden, P.E.
Senor Director
Knox County Engineering and Public Works
205 West Baxter Avenue
Knoxville, TN 37917

RE: Professional CEI Services per TDOT Local Programs PIN: 128833.00
Knox County ATMS Phase II

Dear Mr. Snowden:

CDM Smith is pleased to provide this proposal for professional Construction Engineering & Inspection (CEI) services for the above listed project. We understand this project involves improvements for multiple intersections within the county limits of Knox County, TN. This is a Knox County / Tennessee Department of Transportation's Locally Managed Federal and State funded program. The purpose of the project is to alleviate long term maintenance problems, improve operational efficiency/traffic flow, and improve pedestrian accessibility for these intersections. We understand work will include the following:

- Improvements to traffic signal/pedestrian systems along portions of North Watt Rd, Maynardville Pike, East Emory Rd, and Norris Freeway at fifteen (15) intersections, consisting of signal improvements and installation of new video detection.
- Installation of new traffic signal cabinets at certain intersections.
- Installation of concrete median pavement and concrete ADA ramps at Norris Freeway and E. Emory Rd.
- Installation of ped poles, push buttons, wiring, pull boxes, and appurtenances to connect to the traffic signal control cabinets at certain intersections.
- Installation of pavement markings and crossing devices at certain intersections.

In following TDOT's requirements for locally managed CEI projects and per our recent discussions, this scope of work will involve the following detailed tasks:

Meetings and Project Coordination

- Pre-Construction Meeting
  After contract award, CDM Smith will schedule and lead the pre-construction meeting once Knox County and the contractor determine a valid start date.

- Project Progress Meetings
  CDM Smith will hold bi-weekly project progress meetings. In-person meetings will occur at the Knox County office located at 205 West Baxter Avenue Knoxville, TN 37917. If meetings occur virtually, then CDM Smith will facilitate the progress meetings via Microsoft Teams.

- Utility Coordination
  CDM Smith's CEI team will coordinate with affected Utility Companies during the construction phase and if a conflict occurs, we will assist Knox County with a resolution to ease installation of planned items.

- TDOT Coordination/Meetings
  CDM Smith will provide part time management and administrative duties to advance the project to completion. We will coordinate with both the Knox County staff and the TDOT Local Programs staff during the construction phase of the project to help the project move forward in a timely manner.

Construction Engineering Inspection (CEI):
Based on the plans and information provided by the design engineer, the CEI services for this proposal have been estimated assuming a total contractor construction duration of 52 weeks, plus a 2-week startup and 4-week close out and de-mobilization period – for a total estimated schedule of 58 weeks. We anticipate a part time project/records management effort for the 58-week schedule. We estimate a total of 38 weeks for onsite field CEI services based on the assumed schedule breakdown below:

- Part time project/records management and utility coordination services for the entire 58-week period.
- Onsite field services for an estimated 38 weeks to include the following:
  - 1 full time onsite project representative at 40 hours per week (12 weeks)
  - 1 part time onsite project representative at 32 hours per week (6 weeks)
  - 1 part time onsite project representative at 24 hours per week (10 weeks)
  - 1 part time onsite project representative at 16 hours per week (10 weeks)
- Assume 1 part-time onsite project representative at 8 hours per week overtime (12 weeks)
- Actual time worked will be based on the contractor's schedule.

After contract award, CDM Smith will request consideration for any adjustments needed to the approved budget (either up or down) to ensure the project is staffed appropriately to cover the actual final construction schedule. As stated above, we anticipate a part time records closeout effort with TDOT's Local Government Office will require an additional 4 weeks at 7 hours per week.

The CEI team will provide our services using the plans and contract specifications to assist Knox County and the contractor in constructing the project while meeting the completion deadline. We anticipate providing our services described above for the anticipated duration of the contract. Services will include daily construction reports, project documentation, and project photographs. CDM Smith will also provide review and approval of pay estimates, general oversight of contract provisions, assistance with plans interpretation and construction related questions, and coordination of project efforts with the assigned Knox County and TDOT project representatives. We offer the following detailed scope of work which follows TDOT's CEI process:

- Lead the Pre-construction conference.
- Assign registered and qualified CEI field inspection staff for the time proposed above. Inspectors will be pre-qualified with TDOT to provide construction inspection services for earthwork, concrete, and asphalt and be familiar with TDOT's January 2021 Standard Specifications. Inspector responsibilities will include all roadway and signal items to ensure compliance with the plans and specifications.
- Coordinate with Kimley-Horn to receive assistance for any signal timing optimization needs as part of their contract with Knox County for design assistance during construction.
- Record all shop drawings and RFI's, and send them to Kimley-Horn for review, comments, and approval as part of their contract with the Knox County for design assistance during construction.
- Prepare for and attend FHWA inspections as required.
- Prepare for and assist TDOT / FHWA auditors assigned to review project records and payments.
- Provide records manager to compile all project records as required by TDOT.
- Negotiate additional pay item prices with contractor if needed.
- Notify Knox County and TDOT Project Supervisors of need for Supplemental Agreements or Construction Change Orders if required.
- If required, prepare change order, and submit to Knox County and TDOT Project Supervisor.
- If required, provide recommendations regarding time extension requests.
- Utilize certified employees to provide QA testing normally performed by TDOT personnel on the construction site.
- Document testing on standard TDOT forms.
- Monitor testing provided by contractor if applicable.
- Monitor documentation provided by contractor.
- Review material certifications submitted by the contractor.
- Prepare and submit a Final Materials and Tests certification with final records.
- Provide concrete cylinder breaks results.
- Document and assemble quantities for monthly progress payments.
- Submit quantities to Knox County and TDOT Project Supervisor on TDOT supplied forms.
- Maintain office files on all project correspondence.

- Inspect work for conformance with Project Plans and Specifications.
- Maintain project inspection records on standard forms supplied by TDOT.
- Provide daily inspection of traffic control and erosion control measures.
- Prepare daily diary of construction activities.
- Receive and check contractor payroll for conformance with state wage rates.
- Notify contractor of late payrolls.
- Verify contractor's payroll submittal before progress payment submittal.
- Conduct employee interviews using forms supplied by TDOT.
- Prepare and submit required reports to TDOT's Contract Compliance office.
- Compile and submit project records after project completion in TDOT standard format.
- Prepare and submit a final pay estimate.
- Prepare and submit a final summary Change Order.
- Prepare documentation for claims or potential claims by the contractor.
- Assist Knox County and TDOT in the evaluation of claims.

Not included in this Scope of Services

This scope of work does not include the following services; however, if requested by Knox County, CDM Smith can furnish these services as part of a supplemental agreement.

- Construction Staking or Survey (assume staking provided by the contractor)
- Systems Engineering Support (assume Kimley-Horn is providing this service as part of their contract with the County for design assistance during construction.)
- As-Built Plans (assume as-built plans by the contractor if required by the County)

Contractual

CDM Smith proposes to complete the assignment as described in this proposal under a time and materials contract with a not-to-exceed budget of $237,900.00. This budget will not be exceeded without your written approval. Following is a detailed breakdown of costs for each position. Note: A request to update unit rates for 2026 will be submitted during the month of December 2025.

- Part time Project/Records Management (assume 58 weeks) ..... $ 75,385.00
- On-site CEI Representative (assume 38 weeks) ..... $ 91,854.00
- Overtime for on-site CEI Representative (assume 12 weeks) ..... $ 17,226.00
- Senior CEI Representative/Utility Coordination Assistance ..... $ 41,232.00
- Subcontractor (materials testing) ..... $ 1,800.00
- Project Direct Costs (mileage, printing) ..... $ 10,403.00

  TOTAL ..... **$ 237,900.00**

Invoice submittals will occur monthly to Knox County and will include a progress report of activities completed during each billing period. All services and coordination will follow the TDOT's Local Government Guidelines.

We anticipate this letter proposal to be included as an exhibit to a mutually agreeable contract for professional services, inclusive of terms and conditions. These documents together shall serve as our contract for the project.

We appreciate the opportunity to present this proposal and look forward to working with Knox County to provide CEI services for this exciting project! Please advise if additional information or explanation is needed.

Sincerely,

CDM Smith Inc.

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

ADDITIONAL INSURED – OWNERS, LESSEES OR CONTRACTORS – SCHEDULED PERSON OR ORGANIZATION

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s)	Location(s) Of Covered Operations
Any person or organization for whom you have agreed in a written contract or agreement, prior to an “occurrence" or offense, that such person or organization on be added as an additional insured to your policy.	All locations as required by a written contract or agreement entered into prior to an 'occurrence' or offense
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.	

A. Section II – Who Is An Insured is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or

2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured(s) at the location(s) designated above.

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and

2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to "bodily injury" or "property damage" occurring after:

1. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or

2. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

 © Insurance Services Office, Inc., 2018

C. With respect to the insurance afforded to these additional insureds, the following is added to **Section III – Limits Of Insurance:**

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or

2. Available under the applicable limits of insurance;

whichever is less.

This endorsement shall not increase the applicable limits of insurance.

DESIGNATED INSURED FOR COVERED AUTOS LIABILITY COVERAGE

This endorsement modifies insurance provided under the following:

AUTO DEALERS COVERAGE FORM
BUSINESS AUTO COVERAGE FORM
MOTOR CARRIER COVERAGE FORM

With respect to coverage provided by this endorsement, the provisions of the Coverage Form apply unless modified by this endorsement.

This endorsement identifies person(s) or organization(s) who are "insureds" for Covered Autos Liability Coverage under the Who Is An Insured provision of the Coverage Form. This endorsement does not alter coverage provided in the Coverage Form.

This endorsement changes the policy effective on the inception date of the policy unless another date is indicated below.

Named Insured: CDM Smith, Inc

Endorsement Effective Date: 01/01/2025

SCHEDULE

Name Of Person(s) Or Organization(s):
BLANKET AS REQUIRED BY WRITTEN CONTRACT
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

Each person or organization shown in the Schedule is an "insured" for Covered Autos Liability Coverage, but only to the extent that person or organization qualifies as an "insured" under the Who Is An Insured provision contained in Paragraph **A.1.** of Section **II** – Covered Autos Liability Coverage in the Business Auto and Motor Carrier Coverage Forms and Paragraph **D.2.** of Section **I** – Covered Autos Coverages of the Auto Dealers Coverage Form.

NOTICE OF CANCELLATION TO CERTIFICATE HOLDER(S)

This policy is subject to the following additional Conditions:

A. If this policy is cancelled by the Company, other than for nonpayment of premium, notice of such cancellation will be provided at least thirty (30) days in advance of the cancellation effective date to the certificate holder(s) with mailing addresses on file with the agent of record or the Company.

B. If this policy is cancelled by the Company for nonpayment of premium, or by the insured, notice of such cancellation will be provided within (10) days of the cancellation effective date to the certificate holder(s) with mailing addresses on file with the agent of record or the Company.

If notice is mailed, proof of mailing to the last known mailing address of the certificate holder(s) on file with the agent of record or the Company will be sufficient proof of notice.

Any notification rights provided by this endorsement apply only to active certificate holder(s) who were issued a certificate of insurance applicable to this policy's term.

Failure to provide such notice to the certificate holder(s) will not amend or extend the date the cancellation becomes effective, nor will it negate cancellation of the policy. Failure to send notice shall impose no liability of any kind upon the Company or its agents or representatives.

This endorsement modifies insurance provided under the following:

ENHANCED COMMERCIAL UMBRELLA LIABILITY POLICY

The policy is amended as follows:

For any statutorily permitted reason, the number of days required for notice of cancellation by us, as provided in the Cancellation Condition or as amended by an applicable state cancellation endorsement, is increased to the number of days shown in the Schedule below.

SCHEDULE

Notice (Non-Payment of Premium): 90 **Days**

Notice (All Other Permitted Reasons): 10 **Days**

All other terms and conditions of the policy remain unchanged.

Authorized Representative

MEMORANDUM ELEVEN **BLANKET JOINT VENTURE**

With effect from inception, Exclusion 7 of this Policy is deleted in its entirety and coverage hereunder extends, subject to all other policy terms and conditions, to include YOUR liability resulting from any Joint Venture involving the NAMED ASSURED.

However, in the event of the existence of any separate valid and collectible insurance applying to such 'Joint Venture,' this insurance shall apply for the benefit of YOU only in excess of any such other insurance, and if the insuring agreements of the separately issued 'Joint Venture' Policy are more restrictive, this Policy shall cover, for the benefit of YOU only, any and all differences in the insuring agreements.

Nothing herein contained shall be held to vary, alter, waive or extend any of the Schedule, Insuring Agreements, Exclusion, Conditions, or Provisions of this Policy, other than as stated herein.

Notwithstanding any of the foregoing, OUR Limit of the Liability shall not be increased and shall not exceed the limit for each claim nor for all claims in the aggregate, as set forth in this Policy.

For purposes of this Memorandum 'Joint Venture' is defined as any ‘teaming’ arrangement including, but not limited to those set up as a partnership, limited liability corporation (LLC), limited liability partnership (LLP), corporation or otherwise.

MEMORANDUM TWELVE **MANILA WATER SUPPLY**

With regard to the Metropolitan Waterworks and Sewerage System (MWSS), Manila, Philippines for the Manila Water Supply I and Manila Water Supply II projects, it is agreed that to the extent that DCCD Engineering Corporation signs and seals construction plans and drawings for the benefit of YOU, that for purposes of this insurance, the signatures and seals appearing on all construction plans and drawings prepared pursuant to contract with the Metropolitan Waterworks and Sewerage System (MWSS) shall be insured "PROFESSIONAL SERVICES" under this policy.

MEMORANDUM THIRTEEN **LIMITED AUTHORITY TO ISSUE CERTIFICATES OF INSURANCE**

In consideration of the premium charged, it is hereby understood and agreed as follows:

1. WE authorize Aon the (“Certificate Issuer”) to issue Certificates of Insurance at YOUR request or direction. It is expressly understood and agreed that, subject to Paragraph (2) below, any Certificate of Insurance so issued shall not confer any rights upon the Certificate Holder, create any obligation on the part of US, or purport to, or be construed to, alter, extend, modify, amend, or otherwise change the terms or conditions of this Policy in any manner whatsoever. In the case of any conflict between the description of the terms and conditions of this Policy contained in any Certificate of Insurance on the one hand, and the terms and conditions of this Policy as set forth herein on the other, the terms and conditions of this Policy as set forth herein shall control.

2. Notwithstanding Paragraph (1) above, such Certificates of Insurance as are authorized under this endorsement may provide that in the event WE cancel or non-renew this Policy or in the event of a Material Change to this Policy, WE shall mail written notice of such cancellation, non-renewal, or Material Change to such Certificate Holder 30 days prior to the effective date of cancellation, non-renewal, or a Material Change, but 10 days prior to the effective date of cancellation in the event YOU have failed to pay a premium when

due. YOU shall provide written notice to US of all such Certificate Holders, if any, specified in each Certificate of Insurance (i) at inception of this Policy, (ii) 90 days prior to expiration of this Policy, and (iii) within 10 days of receipt of a written request from US. Underwriters' obligation to mail notice of cancellation, non-renewal, or a Material Change as provided in this paragraph shall apply solely to those Certificate Holders with respect to whom the Assured has provided the foregoing written notice to the Underwriters.

3. It is further understood and agreed that OUR authorization of the Certificate Issuer under this memorandum is limited solely to the issuance of Certificates of Insurance and does not authorize, empower, or appoint the Certificate Issuer to act as an agent for US or bind US for any other purpose. The Certificate Issuer shall be solely responsible for any errors or omissions in connection with the issuance of any Certificate of Insurance pursuant to this memorandum

4. As used in this memorandum:

   (i) Certificate of Insurance means a document issued for informational purposes only as evidence of the existence and terms of this Policy in order to satisfy YOUR contractual obligation.

   (ii) Material Change means an endorsement or memorandum to or amendment of this Policy after issuance of this Policy by US that restricts the coverage afforded to YOU.

MEMORANDUM FOURTEEN DESIGN BUILD

It is hereby understood and agreed that on Projects for which the NAMED ASSURED, a subsidiary of the NAMED ASSURED, a subcontractor to the NAMED ASSURED, an entity under common ownership, or an entity that owns the NAMED ASSURED, performs PROFESSIONAL SERVICES and construction, erection, fabrication, installation, assembly, manufacture, or the supply of equipment or materials incorporated therein, the following Extensions and Exclusions shall apply.

1. Mitigation of Loss Extension
   This Policy is extended to indemnify YOU in respect of reasonable costs and expenses necessarily incurred in respect of any action taken prior to hand-over of the contract, excess of the Self-Insured Retention, to mitigate a loss or potential loss arising out of an act, error or omission which otherwise would have been the subject of a CLAIM under this Policy.

   The onus of proving a claim under this memorandum shall be upon YOU who will be obliged:

   a. to give written notice to US during the Policy period of the intention to take actions that will incur such reasonable costs and expenses excess of the Self-Insured Retention, and
   b. to obtain written agreement from US prior to incurring such reasonable costs and expenses, payment of which shall be at OUR sole discretion.

   However, this extension shall not apply to contracts where YOU are the ultimate owner of the building and/or facility, unless specifically agreed by US.

2. Provided however this Policy shall not cover any CLAIM based upon or arising out of:

   a. the acquisition of any real estate or the securing of financing for the acquisition of any real estate;

WHEREAS, Knox County has determined the need to widen Bakertown Road between Schaad Road and Ball Road (the "Project"); and

WHEREAS, in furtherance of the Project, the Knox County Commission's approval of the acquisition of slope and construction easements and/or right-of-way on two (2) tracts is necessary.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Commission of Knox County hereby approves and authorizes Knox County to acquire the necessary slope easements, construction easements and right-of-way on two (2) tracts of land for the widening of Bakertown Road between Schaad Road and Ball Road as identified and outlined in the plans prepared by LDA Engineering, a copy of which is attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED, that the use of eminent domain to acquire said easements and right-of-way is hereby authorized if necessary.

BE IT FURTHER RESOLVED, that the Knox County Mayor is hereby authorized to execute any and all documents which may be necessary to acquire right-of-way and the easements on the identified tracts for the Project, subject to the review and approval of the Knox County Law Director.

BE IT FURTHER RESOLVED, that the Knox County Commission understands that this Resolution authorizes the acquisition of slope easements, construction easements, and right-of-way on two (2) tracts of land for the Project and that the area to be acquired is subject to change and any such change shall not require the approval of the Knox County Commission. It shall only be necessary for the Knox County Commission to approve easement and/or right-of-way acquisitions on any additional tracts not already identified on the plans attached hereto and approved herein.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

WHEREAS, Knox County is preparing to begin the Johnson Road Widening and Realignment Project (the "Project"); and

WHEREAS, in furtherance of the Project, Knox County desires to enter into a contract with LDA Engineering in the amount of $95,000.00 to provide professional engineering design and surveying services for the Project, which services are further detailed in the attached agreement; and

WHEREAS, the proposed agreement sets forth the terms and conditions under which the services will be provided.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The engineering design contract with LDA Engineering for the Johnson Road Widening and Realignment Project is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the engineering design contract with LDA Engineering for the Johnson Road Widening and Realignment Project shall be executed subject to such amendment or action not affecting the substantive provisions of the proposal as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Reference: Proposal for Professional Services
Johnson Road Realignment and Widening

Dear Ben,

LDA appreciates the opportunity to work with Knox County Engineering on this project. Below is our proposal to provide engineering and surveying services.

PROJECT DESCRIPTION

The Johnson Road Realignment and Widening project consists of the reconstruction and widening of approximately 800 feet of two-lane roadway, from 900 feet north of Schaad Road to 1,600 feet south of Ball Road. The existing roadway in this section is not wide enough to allow two vehicles to pass each other in opposite directions.

The desired typical section is two 10' lanes with 2' paved shoulders. The minimum typical section is two 9' lanes with 1' paved shoulders. Both sections will be evaluated during preliminary design.

Most of the project site is in the 100-year floodplain, and some of it is within the floodway of Grassy Creek. Environmental and permitting concerns will be balanced with the most favorable roadway alignment. For example, placing fill material will be prohibited in the floodway, and will need to be limited and/or mitigated in the floodplain. The goal is to submit a No-Rise Certification to FEMA, rather than a Conditional Letter of Map Revision.

SCOPE OF SERVICES

1. Survey and Base Mapping

    a. Conduct a field survey along the corridor to include roadways, water bodies, drainage pipes and structures, sidewalks, driveways, buildings, utilities, trees, walls, fences, signs, property corners, right-of-way markers, and any other notable features. Topographic data will be collected with sufficient detail to depict contours at 1-foot intervals.
    b. Compile all available KGIS data for the project site and vicinity.
    c. Integrate KGIS and field data to create comprehensive base mapping.
    d. Research deeds and plats to establish existing right-of-way, property lines, and close parcel boundaries.

2. Engineering and Design

    a. Prepare construction plans, specifications, and cost estimates (PS&E) for the project as described above. Quantities tables and cost estimates will utilize TDOT pay item numbers.
    b. Submit PS&E for review and comment at 30%, 60%, and Final. Incorporate review comments into final construction documents.
    c. Coordinate with utilities (KUB, telecom, etc.) and property owners to minimize conflicts and plan for relocations. Utility owners will provide relocation plans, if necessary.
    d. Construction Plans will include the following components/sheets:
        i. Typical sections and notes
        ii. Property maps and acquisition table
        iii. Roadway geometry and grading
        iv. Drainage modeling and improvements – culvert upsizing or replacement, roadside ditch conveyance, rerouting of runoff, etc.
        v. Signing and pavement markings plan
        vi. Traffic control and detour plan
        vii. Erosion Prevention and Sediment Control plan
        viii. Roadway cross sections at 50' intervals and at critical locations
    e. TDOT Standard Drawings and Specs will be the governing guidelines for engineering and design. Other standards may include ADA, MUTCD, AASHTO, and FHWA publications.

3. Permitting

    a. TDEC – NPDES General Permit for Storm Water Discharges – this is not included in the scope of work because the total disturbed area looks to be less than one acre.
    b. FEMA – Prepare a No-Rise Certification for floodplain encroachment. This includes all required survey to obtain stream cross sections and any other incidentals required for the No-Rise approval. If a CLOMR becomes necessary, we'll revise the scope at that time.

4. Pre-Construction and Bidding

    a. Draft the Bid Advertisement
    b. Prepare bid documents and technical specifications (Project Manual)
    c. Attend the pre-bid meeting and respond to bidders' questions
    d. Prepare addenda to the original bid documents, if required
    e. Attend the bid opening
    f. Review the bids and prepare the bid tabulation

EXCLUDED SERVICES

Although not a complete list of services to be excluded from this proposal, the following services are specifically excluded.

- Geotechnical engineering (use standard pavement design for local/collector roads)
- Lighting design
- Landscape design
- Right-of-way acquisition, appraisals, and appraisal review
- Legal descriptions (assumes all improvements will be within existing right-of-way)
- Construction engineering and inspection

PROJECT FEES

The estimated fees associated with each task are listed below. A detailed record of time and expenses will be kept using these budgets, and LDA will bill lump sum monthly, based on percent complete for each task. If the scope of services changes and requires a budget amendment, a revised proposal or supplement request will be submitted for approval.

Task 1: Survey and Base Mapping	$ 14,000.
Task 2: Engineering and Design	$ 55,000.
Task 3: Permitting (No-Rise Certification)	$ 22,000.
Task 4: Pre-Construction and Bidding	$ 4,000.
Total	**$ 95,000.**

This proposal is subject to the attached EJCDC Standard Form E-520, Short Form of Agreement Between Owner and Engineer for Professional Services. If all conditions of this proposal are acceptable, please sign below for authorization to proceed. Thank you again for this opportunity.

Respectfully,

Jason C. Elliott, P.E.
Principal / Engineer

ACCEPTANCE OF PROPOSAL AND AUTHORIZATION TO PROCEED

By: _____ Date: _____

SHORT FORM OF AGREEMENT BETWEEN OWNER AND ENGINEER FOR PROFESSIONAL SERVICES

THIS IS AN AGREEMENT effective as of _____
("Effective Date") between

Knox County, Tennessee ("Owner")

and

LDA Engineering ("Engineer").

Owner's Project, of which Engineer's services under this Agreement are a part, is generally identified as follows:

Johnson Road Realignment and Widening ("Project").

Engineer's Services under this Agreement are generally identified as follows:

See attached Proposal for Professional Services

[Describe scope of services, or refer to an attachment. See Exhibit A, EJCDC E-500, for an example of a full scope of engineering services.]

Owner and Engineer further agree as follows:

1.01 *Basic Agreement and Period of Service*

A. Engineer shall provide, or cause to be provided, the services set forth in this Agreement. If authorized by Owner, or if required because of changes in the Project, Engineer shall furnish services in addition to those set forth above. Owner shall pay Engineer for its services as set forth in Paragraphs 7.01 and 7.02.

B. Engineer shall complete its services within a reasonable time, or within the following specific time period: *It is estimated that all services as currently outlined will be completed within approximately nine months from the notice to proceed. This assumes all proposed improvements will be within existing right-of-way and that property/easement acquisition will not be required.*

C. If the Project includes construction-related professional services, then Engineer's time for completion of services is conditioned on the time for Owner and its contractors to complete construction not exceeding N/A months. If the actual time to complete construction exceeds the number of months indicated, then Engineer's period of service and its total compensation shall be appropriately adjusted.

Copyright ©2009 National Society of Professional Engineers for EJCDC. All rights reserved.

2.01 *Payment Procedures*

A. *Invoices*: Engineer shall prepare invoices in accordance with its standard invoicing practices and submit the invoices to Owner on a monthly basis. Invoices are due and payable within 30 days of receipt. If Owner fails to make any payment due Engineer for services and expenses within 30 days after receipt of Engineer's invoice, then Engineer may, after giving seven days written notice to Owner, suspend services under this Agreement until Engineer has been paid in full all amounts due for services, expenses, and other related charges. Owner waives any and all claims against Engineer for any such suspension.

3.01 *Termination*

A. The obligation to continue performance under this Agreement may be terminated:

1. For cause,

a. By either party upon 30 days written notice in the event of substantial failure by the other party to perform in accordance with the Agreement's terms through no fault of the terminating party. Failure to pay Engineer for its services is a substantial failure to perform and a basis for termination.

b. By Engineer:

1) upon seven days written notice if Owner demands that Engineer furnish or perform services contrary to Engineer's responsibilities as a licensed professional; or

2) upon seven days written notice if the Engineer's services for the Project are delayed for more than 90 days for reasons beyond Engineer's control.

Engineer shall have no liability to Owner on account of a termination by Engineer under Paragraph 3.01.A.1.b.

c. Notwithstanding the foregoing, this Agreement will not terminate as a result of a substantial failure under Paragraph 3.01.A.1.a if the party receiving such notice begins, within seven days of receipt of such notice, to correct its substantial failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt of notice; provided, however, that if and to the extent such substantial failure cannot be reasonably cured within such 30 day period, and if such party has diligently attempted to cure the same and thereafter continues diligently to cure the same, then the cure period provided for herein shall extend up to, but in no case more than, 60 days after the date of receipt of the notice.

Copyright ©2009 National Society of Professional Engineers for EJCDC. All rights reserved.

2. For convenience, by Owner effective upon Engineer's receipt of written notice from Owner.

B. The terminating party under Paragraph 3.01.A may set the effective date of termination at a time up to 30 days later than otherwise provided to allow Engineer to complete tasks whose value would otherwise be lost, to prepare notes as to the status of completed and uncompleted tasks, and to assemble Project materials in orderly files.

C. In the event of any termination under Paragraph 3.01, Engineer will be entitled to invoice Owner and to receive full payment for all services satisfactorily performed or furnished in accordance with this Agreement and all reimbursable expenses incurred through the effective date of termination.

4.01 *Successors, Assigns, and Beneficiaries*

A. Owner and Engineer are hereby bound and the successors, executors, administrators, and legal representatives of Owner and Engineer (and to the extent permitted by Paragraph 4.01.B the assigns of Owner and Engineer) are hereby bound to the other party to this Agreement and to the successors, executors, administrators, and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements, and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. Unless expressly provided otherwise, nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any contractor, subcontractor, supplier, other individual or entity, or to any surety for or employee of any of them. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

5.01 *General Considerations*

A. The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality. Engineer makes no warranties, express or implied, under this Agreement or otherwise, in connection with Engineer's services. Subject to the foregoing standard of care, Engineer and its consultants may use or rely upon design elements and information ordinarily or customarily furnished by

Copyright ©2009 National Society of Professional Engineers for EJCDC. All rights reserved.

others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

B. Engineer shall not at any time supervise, direct, control, or have authority over any contractor's work, nor shall Engineer have authority over or be responsible for the means, methods, techniques, sequences, or procedures of construction selected or used by any contractor, or the safety precautions and programs incident thereto, for security or safety at the Project site, nor for any failure of a contractor to comply with laws and regulations applicable to such contractor's furnishing and performing of its work.

C. This Agreement is to be governed by the law of the state or jurisdiction in which the Project is located. The Chancery Court and/or the Circuit Court of Knox County, Tennessee shall have exclusive and concurrent jurisdiction of any disputes which arise hereunder.

D. Engineer neither guarantees the performance of any contractor nor assumes responsibility for any contractor's failure to furnish and perform its work in accordance with the contract between Owner and such contractor. Engineer is not responsible for variations between actual construction bids or costs and Engineer's opinions or estimates regarding construction costs.

E. Engineer shall not be responsible for the acts or omissions of any contractor, subcontractor, or supplier, or of any of their agents or employees or of any other persons (except Engineer's own employees) at the Project site or otherwise furnishing or performing any construction work; or for any decision made regarding the construction contract requirements, or any application, interpretation, or clarification of the construction contract other than those made by Engineer.

F. The general conditions for any construction contract documents prepared hereunder are to *conform to the standard language and requirements of projects that are administered by Knox County Engineering and Public Works, unless the parties agree otherwise.*

G. All documents prepared or furnished by Engineer are instruments of service, and Engineer retains an ownership and property interest (including the copyright and the right of reuse) in such documents, whether or not the Project is completed. Owner shall have a limited license to use the documents on the Project, extensions of the Project, and for related uses of the Owner, subject to receipt by Engineer of full payment for all services relating to preparation of the documents and subject to the following limitations: (1) Owner acknowledges that such documents are not intended or represented to be suitable for use on the Project unless completed by Engineer, or for use or reuse by Owner or others on extensions of the Project, on any other project, or for any other use or purpose, without written verification or adaptation by Engineer; (2) any such use or reuse, or any modification of the documents, without written verification, completion, or adaptation by Engineer, as appropriate for the specific purpose intended, will be at Owner's sole risk and

Copyright ©2009 National Society of Professional Engineers for EJCDC. All rights reserved.

without liability or legal exposure to Engineer or to its officers, directors, members, partners, agents, employees, and consultants; and (3) such limited license to Owner shall not create any rights in third parties.

H. To the fullest extent permitted by law, Engineer shall indemnify and hold harmless Owner, and Owner's officers, directors, members, partners, agents, consultants, and employees from all claims, costs, losses, and damages arising out of or relating to this Agreement, any Task Order, or any specific project, provided that any such claim, cost, loss, or damage is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than the Work itself), including the loss of use resulting therefrom, but only to the extent caused by any negligent act or omission of Engineer or Engineer's officers, directors, members, partners, agents, employees, or Consultants.

I. To the fullest extent permitted by law, a party's total liability to the other party and anyone claiming by, through, or under the other party for any cost, loss, or damages caused in part by the negligence of the party and in part by the negligence of the other party or any other negligent entity or individual, shall not exceed the percentage share that the party's negligence bears to the total negligence of Owner, Engineer, and all other negligent entities and individuals.

J. The parties acknowledge that Engineer's scope of services does not include any services related to a Hazardous Environmental Condition (the presence of asbestos, PCBs, petroleum, hazardous substances or waste as defined by the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq., or radioactive materials). If Engineer or any other party encounters a Hazardous Environmental Condition, Engineer may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Project affected thereby until Owner: (1) retains appropriate specialist consultants or contractors to identify and, as appropriate, abate, remediate, or remove the Hazardous Environmental Condition; and (2) warrants that the Site is in full compliance with applicable Laws and Regulations.

K. Owner and Engineer agree to negotiate each dispute between them in good faith during the 30 days after notice of dispute. If negotiations are unsuccessful in resolving the dispute, then the dispute shall be mediated. If mediation is unsuccessful, then the parties may exercise their rights at law.

6.01 *Total Agreement*

A. This Agreement (including any expressly incorporated attachments), constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a duly executed written instrument.

Copyright ©2009 National Society of Professional Engineers for EJCDC. All rights reserved.

7.01 *Basis of Payment—Hourly Rates Plus Reimbursable Expenses*

A. Using the procedures set forth in Paragraph 2.01, Owner shall pay Engineer as follows:

1. An amount equal to the lump sum budgets as outlined in the Proposal for Professional Services dated December 6, 2024.

2. The total compensation for services and reimbursable expenses is estimated to be $95,000.00.

7.02 *Additional Services:* For additional services of Engineer's employees engaged directly on the Project, Owner shall pay Engineer an amount equal to the cumulative hours charged to the Project by each class of Engineer's employees times standard hourly rates for each applicable billing class; plus reimbursable expenses and Engineer's consultants' charges, if any.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement, the Effective Date of which is indicated on page 1.

WHEREAS, Knox County has determined the need to construct two (2) turnarounds on Lobetti Road (the "Project"); and

WHEREAS, in furtherance of the Project, the Knox County Commission's approval of the acquisition of right-of-way on two (2) tracts of land is necessary.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Commission of Knox County hereby approves and authorizes Knox County to acquire right-of-way on two (2) tracts of land for the construction of two (2) turnarounds on Lobetti Road, as identified on the plans attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED, that the use of eminent domain to acquire said right-of-way is hereby authorized if necessary.

BE IT FURTHER RESOLVED, that the Knox County Mayor is hereby authorized to execute any and all documents which may be necessary to acquire right-of-way on the identified tracts for the Project, subject to the review and approval of the Knox County Law Director.

BE IT FURTHER RESOLVED, that the Knox County Commission understands that this Resolution authorizes the acquisition of right-of-way on two (2) tracts of land for the Project and that the area to be acquired is subject to change and any such change shall not require the approval of the Knox County Commission. It shall only be necessary for the Knox County Commission to approve easement and/or right-of-way acquisitions on any additional tracts not already identified on the plans attached hereto and approved herein.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

WHEREAS, Knox County desires to have a contractor provide Professional Engineering Consultant Services for the Powell High School Greenway Project; and

WHEREAS, the Knox County Procurement Division issued a solicitation for Letters of Interest and a Request for Qualifications for the purpose of finding a qualified contractor to provide the Professional Engineering Consultant Services; and

WHEREAS, the response of Cannon & Cannon, Inc. to the Letters of Interest and Request for Qualifications was determined to be the most responsible and responsive submittal meeting the specifications and needs of Knox County; and

WHEREAS, the proposed contract with Cannon & Cannon, Inc. is in the amount of $231,000.00 and is effective beginning August 1, 2025 and ends upon completion of the services, as further detailed in the attached contract; and

WHEREAS, Cannon & Cannon, Inc. has the necessary experience, qualifications, and expertise to perform the services for Knox County.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The contract with Cannon & Cannon, Inc. for the provision of Professional Engineering Consultant Services for the Powell High School Greenway Project is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the contract with Cannon & Cannon, Inc. for the provision of Professional Engineering Consultant Services for the Powell High School Greenway Project shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Knox County Government

and

Cannon & Cannon, Inc.

This Contract, made and entered into this _____day of _____, 2025 between Knox County Government, hereinafter referred to as "County" and Cannon & Cannon, Inc., hereinafter referred to as "Contractor".

Whereas, County requested solicitations for Professional Engineering Consultant Services for the Powell High School Greenway (Solicitation #3630) and;

Whereas, Contractor submitted qualifications in accordance with said requested specifications, the response of which is the most responsible and responsive submittal meeting specifications accepted by County;

Whereas, Contractor agrees and undertakes to provide said services for County, as set forth in the Request for Qualifications (Solicitation #3630), and at the price quoted for said services by Contractor in their Scope of Services (Attachment E). Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by this document and attachments hereto.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;

Witnesseth:

1. Terms of this Contract. This Contract commences on the 1st day of August 2025 and ends upon completion of the services listed in the Contractor's Scope of Services (Attachment E) unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. Knox County reserves the right to obtain these services from other sources if the need arises. Knox County reserves the right to revoke the award if a pattern of unavailability arises with the Contractor.

2. Payment. County shall pay Contractor the amount as agreed upon per the Contractor's Scope of Services (Attachment E) pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by Knox County.

3. Invoicing and reporting requirements. Contractor shall invoice Knox County per the payment terms outlined the Contractor's Scope of Services (Attachment E). Invoices shall be sent to the following:

Knox County Engineering and Public Works
205 W. Baxter Avenue
Knoxville, TN 37917

4. Termination. County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) calendar days. Upon termination, County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the prior specific written permission of County.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give Knox County at least thirty (30) calendar day advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

5. Appropriations. In the event no funds are appropriated by the County for Professional Engineering Consultant Services for the Powell High School Greenway in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of Professional Engineering Consultant Services for the Powell High School Greenway, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of County.

10. This Contract shall be governed by the laws of the State of Tennessee both as to interpretation and performance. The Chancery Court and/or the Circuit Court of Knox County, Tennessee, shall have exclusive and concurrent jurisdiction of any disputes, which arise hereunder.

11. Right to inspect. County reserves the right to make periodic inspections of the manner and means the services are performed.

12. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex or national origin or any individual trait or characteristic found to be an illegal consideration shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall upon request show proof of such non-discrimination, and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under the Contract for inspection by County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. Contractor shall indemnify**,** defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, suppliers, agents or employees or due to any negligent act, occurrence, or omission or commission of Contractor, its subcontractors, suppliers, agents, or employees.

15. Delivery. Contractor shall render the Professional Engineering Consultant Services for the Powell High School Greenway in accordance with Request for Qualifications and the Contractor's Scope of Services (Attachment E).

16. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

17. Limitations of liability. In no event shall County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if County has been advised of the possibility of such damages.

18. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

A. Letter of Interest – Solicitation #3630 and Addendum I
B. Contractor's Response to Letter of Interest – Solicitation #3630
C. Request for Qualifications – Solicitation #3630
D. Contractor's Response to Request for Qualifications – Solicitation #3630
E. Contractor's Scope of Services

In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) this Contract, (2) Attachment C, (3) Attachment D, (4) Attachment E.

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year first above written.

Letter of Interest
Solicitation #3630 and Addendum I

The Procurement Division of Knox County, Tennessee will receive sealed Letters of Interest (LOI) and Request for Qualifications (RFQ) for **Professional Engineering Consultant Services** as specified herein. LOIs must be received by **2:00 p.m.** on **March 11, 2025**. Late submittals will neither be considered nor returned.

Deliver LOIs To:

Solicitation Number 3630
Knox County Procurement Division
Suite 100
1000 North Central Street
Knoxville, Tennessee 37917

The Envelope must show the Company Name, Solicitation Name, Solicitation Number & Closing Date.

SECTION I GENERAL TERMS AND CONDITIONS

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information routed to Brian Hubbs, Construction and Contract Specialist, at 865-215-5753. Questions may be emailed to brian.hubbs@knoxcounty.org. If you haven't heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division may be obtained on the internet at www.knoxcounty.org/procurement.

1.2 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste, or abuse, please file your report online at http://www.knoxcounty.org/audit/hotline.php.

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.3 **BUSINESS OUTREACH PROGRAM:** Knox County has established a Business Outreach Program which has the responsibility of increasing opportunity for small, minority and women owned businesses. This is being accomplished through community education programs, policy edification, active recruitment of interested businesses and process re-engineering.

Knox County is committed to ensuring full and equitable participation for all disadvantaged businesses. Knox County welcomes submittals from those disadvantaged businesses that have an interest in providing the goods and/or services listed herein. In addition, Knox County strongly encourages the inclusion of disadvantaged businesses by non-disadvantaged Contractors who may wish to partner or subcontract portions of this agreementin order to accomplish the successful delivery of goods and/or services.

If you are a disadvantaged business and would like additional information about our Business Outreach Program, please contact:

Diane Woods, CPPB, Business Outreach Administrator
Knox County Procurement
Telephone: 865-215-5760
Fax: 865-215-5778
Email: diane.woods@knoxcounty.org

1.4 **CONFLICT OF INTEREST:** Vendors must have read and complied with the "Non-Conflict of Interest" statement provided in the vendor registration process prior to the closing of this solicitation. .

1.5 **COPIES:** Knox County **requires** that LOIs being submitted be one (1) marked original and three (3) exact copies. An electronic copy on CD/flash-drive, in one (1) complete file, is also required.

1.6 **DECLARATIVE STATEMENT:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the LOI being deemed non-responsive and disqualified.

1.7 **ELECTRONICALLY SUBMIT RESPONSE:** Due to the nature of this solicitation, the Knox County Procurement Division **will not** accept electronically submitted responses. A hard copy response must be submitted with one (1) marked original and three (3) exact copies. An electronic copy on CD/flash-drive, in one (1) complete file, is also required. Email and facsimile submissions are strictly prohibited.

1.8 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys." The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of purchase orders, on-line retrieval and submittal of quotes, bids and proposals for our vendor-clients and on-line requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations we need your help. When doing business with Knox County we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our on-line Procurement system, "KnoxBuys," if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions, please contact the Procurement Division Representative listed in Section 1.1 of this document.

1.9 **INCURRED COSTS:** Knox County will not be liable in any way for costs incurred by any respondent in the preparation and submission of its LOI in response to this solicitation, nor for the presentation of its qualifications and/or participation in any required meetings, discussions or negotiations. If any oral presentations are required, Knox County advises vendors to be thorough and complete in submission of information.

1.10 **LOI DELIVERY:** All LOIs must be submitted in hard copy to the address listed in the solicitation. Knox County requires vendors, when hand delivering LOIs, to time and date stamp the envelope before depositing it in the bid box. Knox County will not be responsible for any lost or misdirected mail sent by common carrier, nor will Knox County be responsible for submittals delivered to addressees and Suites other than the delivery address and Suite specified at the top of this solicitation. The time clock in the Procurement Division shall serve as the official record of time.

Solicitations must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.11 **NO CONTACT POLICY:** After the date and time the firm receives this solicitation, any contact initiated by any firm with any Knox County representative, other than the Procurement Division representative listed herein, concerning this LOI **is strictly prohibited**. Any such unauthorized contact may cause the disqualification of the firm from this process. If the firm is found in violation of this section for any reason, it could result in debarment from Knox County's bidders' list for twenty-four (24) months.

1.12 **NON-COLLUSION:** Vendors, by submitting a signed LOI, certify that the accompanying submittal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under Tennessee or United States law.

1.13 **PUBLIC RECORDS ACT:** Knox County is subject to the Tennessee Public Records Act 10-7-503 et seq. Respondents are cautioned that all documents submitted on behalf of this LOI shall be open to the public for viewing and inspection and Knox County will comply with all legitimate requests.

1.14 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, request that LOIs be submitted on paper and shall:

- Be submitted on recycled paper,
- Not include pages of unnecessary advertising,
- Be made on both sides of each sheet of paper.

1.15 **SIGNING OF SUBMITTALS: In order to be considered all Submittals must be signed. Please sign the original in blue ink.** By signing the response document, the respondent acknowledges and accepts the term andconditions stated in the LOI document. It is suggested that mailed LOIs be sent by certified or registered mail with return receipt requested or LOIs sent via common carrier include tracking and delivery confirmation.

1.16 **TITLE VI OF THE CIVIL RIGHTS ACT:** "Nondiscrimination in Federally Assisted Programs" - "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. section 2000 et seq. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI.

1.17 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regards to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.18 **VENDOR REGISTRATION:** Prior to the closing of this solicitation, ***ALL INTERESTED FIRMS*** must be registered with the Procurement Division. Please register on-line at our website at www.knoxcounty.org/procurement and click on "Online Vendor Registration." All interested firms must be registered with the Procurement Division **prior** to submitting their response.

1.19 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II SCOPE OF WORK

2.1 **SCOPE OF WORK:** Knox County, an Equal Opportunity Employer, is seeking to retain the services of a professional engineering consultant to prepare plans and permits for the construction of a new greenway and pedestrian bridge to serve the Powell High School area. The proposed greenway would extend from Powell Drive along Brickyard Road to W. Emory Road where it continues west connecting with the existing pedestrian facility in front of Powell High School. This work may be funded in part by the Transportation Alternatives Program Grant (TAP). The professional engineering consulting firm **must** be on TDOT's preapproved list. Responsibilities of the professional engineering consultant include but are not limited to 1) environmental documentation, 2) preparation of engineering design plans based on preliminary conceptual layouts, 3) preparation of engineering construction plans, 4) acquisition of necessary permits, 5) construction bidding assistance and 6) responding to construction Requests for Information (RFI's).

State Project Number: 47LPLM-F3-225
Federal Project Number: TAP-4700(68)
Project Pin: 134645.00

All TDOT design standards and specifications will be followed. This project is subject to the environmental reviews pursuant to the National Environmental Policy Act (NEPA).

All Design Services must be performed in accordance with the latest edition of the TDOT Right of Way Manual and the latest edition of the TDOT Local Government Guidelines for the Management of Federal and State Funded Transportation Projects. Consultant invoicing and payment for services will be administered by Knox County in accordance with TDOT guidelines. Knox County shall be billed on a monthly basis for work completed and accepted by the County and Knox County Engineering and Public Works.

2.2 **AWARD:** Knox County intends to issue a one-time award and lump-sum contract. The Knox County Procurement Division will draft the contract. Knox County will not accept any vendor's contract. Vendors are cautioned that the Knox County Mayor is the only individual who can legally bind Knox County to a contractual agreement. Knox County reserves the right to purchase these items/services from other sources if the need arises. Knox Countyreserves the right to revoke the award if a pattern of unavailability arises with the vendor.

2.3 **ESTIMATED SCHEDULE:**

1. Question deadline: Prospective respondents may submit questions no later than February 26, 2025 at 4:30 p.m. eastern time. All questions must be emailed to Brian Hubbs at brian.hubbs@knoxcounty.org.
2. Letters of Interest due March 11, 2025 at 2:00 p.m. eastern time.
3. Short list of three (3) firms selected by March 25, 2025.
4. Qualifications of short-listed firms due by April 9, 2025 at 2:00 p.m. eastern time.
5. Final selection of highest ranked firm by April 23, 2025.

2.4 **LETTERS OF INTEREST:** Firms may request consideration by submitting a letter of interest to **Knox County Procurement, 1000 N. Central St., Suite 100, Knoxville, TN 37917**. All letters of interest must be received by **Knox County Procurement** on or before **March 11, 2025 at 2:00 p.m. local time.** The letter of interest shall indicate the scope of services to be completed by any sub-consultants.

2.5 **LETTERS OF INTEREST REQUIREMENTS/EVALUATION:** Firms shall submit letters of interest with firm contact information including name, address and email of primary contact. The letters of interest shall also include:

- **Work experience in required discipline with other government agencies and projects of similar size and scope. Details shall include context and description of contracts. (20 Points)**
- **Demonstrated specialized expertise related to the project. (10 Points)**
- **Demonstrated capabilities of firm including number of employees assigned to the project and TDOT approval letter for projects of this nature of work. (10 Points)**
- **Professional licensure (10 Points)**

From the letters of interest, Knox County will select a minimum of three (3) qualified firms to submit qualifications. A Request for Qualifications document will be sent to these top three (3) qualified firms upon selection. The top ranked consultant will be selected from this list.

2.6 **PRE-QUALIFICATION:** Knox County requires that all consultants being considered are pre-qualified with TDOT. Additional TDOT pre-qualification procedures, pre-qualification forms and current "Standard Procurement Policy for Engineering and Technical Services" are available at this website: www.tennessee.gov/tdot.

2.7 **QUALIFICATIONS EVALUATION:** Knox County will evaluate the top three (3) firms on the following criteria:

- **General Qualifications of Firm (40 Points)**
  - Years in business and years key personnel have performed civil engineering design services.
  - Number of licensed professionals.
  - Capabilities and resources of firm.
  - Number of support personnel and roles.
- **Key Personnel assigned to Project (30 Points)**
  - Resumes of key personnel to work with Knox County.
  - Specific areas of expertise.
  - Availability of personnel to Knox County.
- **Current Projects and Workload (20 Points)**
  - List of current or past projects of similar size and scope.
  - Initial budget and final cost for above project.
  - Start date and final completion date for above projects.
  - Projected workload.
- **Licensure, Insurance and Litigation (10 Points)**
  - Provide evidence of licensure to practice appraisals in the State of Tennessee.
  - Provide evidence of appropriate insurance coverage.
  - Provide information of any litigation in which the firm has been involved within the past five (5) years.

The consultant evaluation committee holds the ability to conduct interviews based on scoring.

Pre-qualification procedures, example letter of interest, list of pre-qualified firms and certified DBEs, TDOT's standard procurement policy, and additional information can be found at the following website: www.tn.gov/tdot/business-redirect/consultantinfo/consultantinfo-forms.html. For information on pre-qualification, please contact Christine Smotherman at (615)741-4460 or Christine.Smotherman@tn.gov.

Evaluation proceedings will be conducted within the established guidelines regarding equal employment opportunity and nondiscriminatory action based upon the grounds of race, color, sex, creed or national origin interested certified Disadvantaged Business Enterprise (DBE) firms as well as other minority-owned and women owned firms are encouraged to respond to all advertisements by Knox County. For information on DBE certification, please contact David Neese at (615)741-3681 or David.Neese@tn.gov. Details and instructions for DBE certification can be found at the following website: https://www.tn.gov/tdot/civil-rights/small-business-development-program.html.

Failure to submit any of the above information or any other information requested in this solicitation may result in the response being disqualified.

RE: Letter of Interest for New Greenway and Pedestrian Bridge to Serve the Powell High School Area Solicitation 3630

Dear Mr. Hubbs and Members of the Selection Committee,

Cannon & Cannon, Inc. (CCI) is pleased to submit this Letter of Interest for the Powell High School Greenway and Pedestrian Bridge project. With unlimited TDOT prequalification, nearly 30 years of experience, and extensive work in greenway, pedestrian infrastructure, and civil engineering, we are well-equipped to meet the project's design, permitting, and construction administration needs.

CCI has extensive experience in greenway planning and implementation, with past projects including the First Creek Greenway, Halls Greenway Connector, and Melton Lake Greenway. These projects highlight our ability to develop ADA-compliant, community-focused pedestrian infrastructure that integrates with existing environments.

Additionally, our work in the Powell High School Landing Project, Clinton Hwy Multifamily, and Powell Multi-Family Development demonstrates our deep familiarity with the Powell area's site conditions, permitting requirements, and infrastructure needs. Our local expertise ensures a streamlined approach to design and implementation.

Our team includes experts in transportation, traffic operations, stormwater management, and surveying, ensuring seamless project execution. Led by Jeff Beckett, PE (Project Manager), our key personnel bring specialized experience in pedestrian infrastructure, ADA compliance, and flood mitigation. We are committed to delivering a safe, accessible, and community-enhancing greenway that integrates seamlessly with existing infrastructure.

To further enhance our capabilities, we have partnered with two subconsultants: CEC, Inc., which will provide environmental engineering services, and GEI, which will provide geotechnical engineering services. Their expertise will support a comprehensive and technically sound approach to the project.

We appreciate your consideration and welcome the opportunity to further discuss our qualifications. Please feel free to reach out with any questions.

Warm regards,

Jeff Beckett

Mr. Jeff Beckett, PE
Project Manager/Transportation Team Leader

FIRM QUALIFICATIONS

CCI (Cannon & Cannon, Inc.) is a service-focused firm offering public improvement related engineering and surveying services since 1996. Our firm employs a diverse group of registered professional engineers with expertise in traffic and transportation, site/civil enhancement, stormwater, alternative transportation/pedestrian trails and greenways, utilities (water, wastewater, communications, electric, gas), permitting, and general civil engineering. We offer a complete professional service package for infrastructure design projects.

PREMIER

Work Experience

Below is a brief overview of related experience:

First Creek Greenway and Pedestrian Bridge Plan

Knoxville, TN | 2024–Ongoing

Cannon & Cannon, Inc. (CCI) is developing construction plans for the First Creek Greenway project, which will extend from Willow Avenue to Fifth Avenue crossing First Creek with a pedestrian bridge. The project, coordinated with the City of Knoxville and Knoxville Utilities Board (KUB), is located on city property, KUB property, or within the public right-of-way. The scope includes a pre-fabricated pedestrian bridge proposed layout, profile, and cross-sections, incorporating ADA guidelines. CCI is conducting a project walk-through and coordination meetings, utilizing existing boundary and topographic survey data to streamline the design process. CCI evaluated four alternative alignments, including construction cost estimates, to assist the city in determining the best approach for implementation.

Public Building Authority – Halls Greenway Connector

Knox County, TN | 2018–Ongoing

CCI developed construction plans and cost estimate for a multi-phase greenway project connecting Clayton Park to the existing greenway along Andersonville Pike. The design includes a shared use path, where a section is located under the existing bridge and is supported by proposed walls. The design also includes sidewalk connections, sidewalk connections, pedestrian signals, and crosswalk improvements. The project is divided into four phases to enhance connectivity and accessibility in the Halls community.

Legacy Parks Foundation Beaver Creek Powell Flood Study

Powell, TN | 2020

The Beaver Creek Kayak Launch No-Rise Analysis evaluated the impact of a proposed kayak launch along Beaver Creek near Powell, Tennessee. Conducted by Cannon & Cannon, Inc. (CCI), the study ensured that the installation of an 18-foot by 14-foot dock with an ADA-compliant gangway did not increase floodwater elevations, complying with FEMA and Knox County regulations. Using HEC-RAS modeling, CCI compared pre- and post-project conditions, confirming that the structure did not cause a rise in 100-year or 500-year flood elevations. The report provided supporting hydrologic and hydraulic analysis, ensuring regulatory compliance for the project's approval.

City of Knoxville First Creek Greenway & Sidewalk Improvements

Knoxville, TN | 2011–2018

Cannon & Cannon, Inc. (CCI) provided engineering design and surveying services for approximately 3,500 feet of greenway and sidewalk construction. The project included ADA-compliant bridges, retaining walls, and adjacent infrastructure modifications. Services included field surveying, NEPA documentation, civil engineering,

City of Knoxville First Creek Greenway & Sidewalk Improvements

hydraulic analysis, and construction engineering inspection (CEI).

City of Oak Ridge Melton Lake Greenway Phase IV

Oak Ridge, TN | 2010–2012

CCI provided surveying, design, and CEI services for the 2-mile extension of the Melton Lake Greenway. The project included ADA-compliant parking, access nodes, observation piers, and environmental coordination. The greenway connects to Haw Ridge Park and integrates with an existing mountain bike trail system.

City of Oak Ridge Melton Lake Greenway Phase IV

Legacy Parks Foundation Powell High School Landing Project

Powell, TN | 2025–Ongoing

Cannon & Cannon, Inc. (CCI) served as a subconsultant to Ross/Fowler for the Legacy Parks Foundation on the Beaver Creek – Powell High School Landing project. CCI's role included conducting a pre- and post-development runoff analysis to demonstrate a net reduction in site runoff, supporting regulatory compliance with Knox County flood requirements. They also developed permit sketches and narratives for the expansion of the existing kayak launch, securing approvals from TDEC, USACE, and TVA. Additionally, CCI prepared erosion control plans based on site layout and grading plans while ensuring compliance with environmental regulations. Their involvement extended to providing limited construction administration services as needed, with plan revisions available as additional services

Olympus Development Company Clinton Hwy Multifamily

Knoxville, TN | 2025–Ongoing

Cannon & Cannon, Inc. (CCI) is providing surveying and civil engineering services for the Clinton Hwy Multifamily – Powell project in Knox County, TN, on behalf of Olympus Development Company. The scope includes an ALTA survey, site layout, grading and drainage design, utility planning, and a Stormwater Pollution Prevention Plan (SWPPP). CCI is also coordinating a Traffic Impact Analysis (TIA) scope with Knoxville Knox County Planning/TDOT and managing permitting and agency approvals. Additionally, CCI is offering limited construction administration services, ensuring compliance with local regulations and project requirements.

Crest Residential, LLC Powell Multi-Family Development

Powell, TN | 2024–Ongoing

Cannon & Cannon, Inc. (CCI) is providing civil engineering services for the Powell Multi-Family Development in Knox County, TN, on behalf of Crest Residential, LLC. The scope includes preliminary engineering with a conceptual site layout, grading, and utility plan, as well as traffic impact study coordination with Knox County. CCI is also responsible for developing construction documents covering site layout, drainage, erosion control, stormwater management, and utility planning. Additionally, the firm is managing permitting and agency approvals and providing limited construction administration services to support the project through development.

Proposed Project Team

CCI will dedicate 6 professionals to the proposed project, with additional staff available if necessary.

Jeff Beckett, PE (Project Manager)
With extensive experience in greenway, trail, and streetscape design, Jeff is well-suited to lead the Powell High School Greenway and Pedestrian Bridge project. His expertise in hydrologic and hydraulic design, storm sewer systems, and stream restoration ensures the greenway will be designed with effective drainage and environmental considerations.

Becky Bottoms, PE, PTOE (Senior Traffic Engineer)
Becky's expertise in traffic operations, intersection design, and pedestrian facilities will support the integration of the greenway with existing transportation infrastructure. She will ensure compliance with TDOT standards for traffic impact, signage, and pedestrian safety measures at crossings and intersections.

Jason Hunt, PE (Project/Conceptual Planning)
Jason specializes in site design for parks, waterfronts, and recreational facilities, making him a key asset in developing the greenway alignment and pedestrian bridge integration. His experience in stormwater detention and HEC-RAS river analysis modeling will help mitigate potential flooding concerns along the greenway route.

Thomas Palmer (Design Engineer)
With a strong background in transportation design and Open Roads 3D modeling, Thomas will assist in developing the sidewalk, roadway, and greenway layouts, ensuring ADA compliance and smooth integration with the surrounding infrastructure. His expertise in lighting and parking expansion can also support trailhead design.

Bob Lusby, RLS (Surveying Director)
With 44 years of experience, Bob specializes in TDOT roadway surveys, greenways, and streetscapes, directing field crews for transportation and site development projects. His expertise ensures precise alignment and site verification for the Powell High School Greenway and Pedestrian Bridge.

John Winter, RLS (Surveying Specialist)
John has over 20 years of experience in TDOT roadway, sidewalk, and greenway surveys, specializing in boundary mapping, easements, and construction layout. His expertise ensures accurate survey data and property acquisition mapping for seamless project integration.

CEC, Inc. will provide environmental engineering services for the proposed project.

GEI will provide geotechnical services for the proposed project.

Subject: Evaluation of Consultant Pre-qualification Form
(DT-0330 Revised 08/09)

Dear Mr. Daugherty:

The Department has completed an evaluation of your firm's Consultant Pre-Qualification Form DT-0330 received on April 12, 2022. You are hereby informed that your firm shall be considered as having **Unlimited Qualification** for the following disciplines for a three-year period beginning **April 13, 2022**:

Administrative	**GIS Specialist**
CADD Technician	**Geologist**
Civil Engineer	**Land Surveyor**
Electrical Engineer	**Landscape Architect**
Environmental Engineer	**Mechanical Engineer**

Your firm has requested experience code U03 Utilities: Subsurface Utility Engineering (SUE) and/or experience code U04 Utilities Design/Coordination/Inspection: Electrical Power; Communications; Gas/Oil; Water; Sewer/Sanitary Systems (Distribution/Transmission). The request for more information for these codes will come in a separate e-mail from our Right of Way Office.

Please be advised that consulting firms desiring to contract with TDOT must assume full responsibility for renewing their pre-qualification status via the DT-0330 Part 1 Form.

Thank you for keeping the information regarding the qualification of your firm current with us. Should you have any questions in this regard, please contact this office.

Sincerely,

for Jennifer Lloyd, P.E.
Civil Engineering Director
Roadway Design Division

Request for Qualifications
Solicitation #3630

The Procurement Division of Knox County Tennessee will receive sealed Request for Qualifications (RFQ) for **Professional Engineering Consultant Services** as specified herein. RFQs must be received by **2:00 p.m.** on **April 17, 2025**. Late submittals will neither be considered nor returned.

Deliver Qualifications To:

Solicitation Number 3630
Knox County Procurement Division
Suite 100
1000 North Central Street
Knoxville, Tennessee 37917

The Envelope must show the Company Name, Solicitation Name, Solicitation Number & Closing Date.

SECTION I GENERAL TERMS AND CONDITIONS

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information routed to Brian Hubbs, Construction and Contract Specialist, at 865-215-5753. Questions may be emailed to brian.hubbs@knoxcounty.org. If you have not heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division may be obtained on the internet at www.knoxcounty.org/procurement.

1.2 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste, or abuse, file a report online by accessing http://www.knoxcounty.org/audit/hotline.php.

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.3 **BUSINESS OUTREACH PROGRAM:** Knox County has established a Business Outreach Program which has the responsibility of increasing opportunity for small, minority and women owned businesses. This is being accomplished through community education programs, policy edification, active recruitment of interested businesses and process re-engineering.

Knox County is committed to ensuring full and equitable participation for all disadvantaged businesses. Knox County welcomes submittals from those disadvantaged businesses that have an interest in providing the goods and/or services listed herein. In addition, Knox County strongly encourages the inclusion of disadvantaged businesses by non-disadvantaged Contractors who may wish to partner or subcontract portions of this agreement in order to accomplish the successful delivery of goods and/or services.

If you are a disadvantaged business and would like additional information about our Business Outreach Program, please contact:

Diane Woods, Business Outreach Administrator
Knox County Procurement
Telephone: 865-215-5760
Fax: 865-215-5778
Email: diane.woods@knoxcounty.org

1.4 **CONFLICT OF INTEREST:** Vendors must have read and complied with the “non-conflict of interest” statement provided in the vendor registration process prior to the closing of this solicitation.

1.5 **COPIES:** Knox County **requires** that Qualifications being submitted be one (1) marked original and three (3) exact copies. An electronic copy on CD/flash-drive, in one complete file, is also required.

1.6 **DECLARATIVE STATEMENT:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the RFQ being deemed non-responsive and disqualified.

1.7 **ELECTRONICALLY SUBMIT RESPONSE:** Due to the nature of this solicitation, the Knox County Procurement Division **will not** accept electronically submitted responses. A hard copy response must be submitted with one (1) marked original and three (3) exact copies. An electronic copy on CD/flash-drive, in one complete file, is also required. Email and facsimile submissions are strictly prohibited.

1.8 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys". The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of purchase orders, on-line retrieval and submittal of quotes, bids and proposals for our vendor-clients and on-line requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations we need your help. When doing business with Knox County we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our on-line Procurement system, "KnoxBuys", if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions please contact the Procurement Division Representative listed in subsection 1.1 of this document.

1.9 **INCURRED COSTS:** Knox County will not be liable in any way for costs incurred by any respondent in the preparation and submission of its RFQ in response to this solicitation, nor for the presentation of its qualifications and/or participation in any required meetings, discussions, or negotiations. If any oral presentations are required, Knox County advises vendors to be thorough and complete in submission of information.

1.10 **NO CONTACT POLICY:** After the date and time the firm receives this solicitation, any contact initiated by any firm with any Knox County representative, other than the Procurement Division representative listed herein, concerning this RFQ **is strictly prohibited**. Any such unauthorized contact may cause the disqualification of the firm from this procurement transaction.

1.11 **NON-COLLUSION:** Vendors, by submitting a signed RFQ, certify that the accompanying submittal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under Tennessee or United States law.

1.12 **PUBLIC RECORDS ACT:** Knox County is subject to the Tennessee Public Records Act 10-7-503 et seq. Respondents are cautioned that all documents submitted on behalf of this RFQ shall be open to the public for viewing and inspection and Knox County will comply with all legitimate requests.

1.13 **QUALIFICATION DELIVERY:** Knox County requires respondents, when hand delivering responses, to time and date stamp the envelope before depositing it in the bid box. The time clock in the Procurement Division shall become the official record of time. Knox County shall not be responsible for lost or misdirected mail sent by common carrier, nor will Knox County be responsible for qualifications delivered to addresses other than the delivery address specified at the top of this solicitation.

Solicitations must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.14 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, request that RFQs be submitted on paper and shall:

- Be submitted on recycled paper.
- Not include pages of unnecessary advertising.
- Be made on both sides of each sheet of paper.

1.15 **SIGNING OF QUALIFICATIONS: In order to be considered all Qualifications must be signed. Please sign the original in blue ink.** By signing the response document, the respondent acknowledges and accepts the term and conditions stated in the RFQ document. It is suggested that mailed RFQ's be sent by certified or registered mail with return receipt requested or RFQ's sent via common carrier include tracking and delivery confirmation.

1.16 **TITLE VI OF THE CIVIL RIGHTS ACT:** "Nondiscrimination in Federally Assisted Programs" - "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. section 2000 et seq. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI.

1.17 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regards to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.18 **VENDOR REGISTRATION:** Prior to the closing of this solicitation, ***ALL INTERESTED FIRMS*** must be registered with the Procurement Division. A vendor application may be submitted online at www.knoxcounty.org/procurement. Select the On-Line Vendor Registration link and complete the forms. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register less than twenty-four (24) hours prior to the solicitation closing time.

1.19 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II OBLIGATIONS, RIGHTS AND REMEDIES

These terms and conditions shall be part of the contract. Knox County reserves the right to negotiate other terms and conditions it deems appropriate and necessary under the circumstances to protect the public's trust.

2.1 **ALTERATIONS OR AMENDMENTS:** No alterations, amendments, changes, modifications or additions to this Contract shall be binding on Knox County without the prior written approval of the County.

2.2 **APPROPRIATION:** In the event no funds are appropriated by Knox County for the goods or services in any fiscal year or insufficient funds exist to purchase the goods or services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

2.3 **ASSIGNMENT:** Contractor shall not assign or sub-contract this agreement, its obligations or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County.

2.4 **BOOKS AND RECORDS:** Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract and make such materials available at its offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under this agreement for inspection by County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this agreement.

2.5 **CHILD LABOR:** Contractor agrees that no products or services will be provided or performed under this Contract that have been manufactured or assembled by child labor.

2.6 **COMPLIANCE WITH ALL LAWS:** Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of goods and/or services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

2.7 **DEFAULT:** If Contractor fails to perform or comply with any provision of this Contract or the terms or conditions of any documents referenced and made a part hereof, Knox County may terminate this Contract, in whole or in part, and may consider such failure or noncompliance a breach of contract. Knox County expressly retains all its rights and remedies provided by law in case of such breach, and no action by Knox County shall constitute a waiver of any such rights or remedies. In the event of termination for default, Knox County reserves the right to purchase its requirements elsewhere, with or without competitive solicitation.

2.8 **GOVERNING LAW; VENUE:** This agreement shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province.

Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum.

2.9 **INCORPORATION:** All specifications, drawings, technical information, Request for Qualifications, Award and similar items referred to or attached or which are the basis for this Contract are deemed incorporated by reference as if set out fully herein.

2.10 **INDEMNIFICATION/HOLD HARMLESS:** Contractor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the agreement by Contractor, its subcontractors, suppliers, agents, or employees or due to any negligent act or occurrence or any omission or commission of Contractor, its subcontractors, suppliers, agents or employees.

2.11 **INDEPENDENT CONTRACTOR:** Contractor shall acknowledge that it and its employees serve as independent contractors and that Knox County shall not be responsible for any payment, insurance, or incurred liability.

2.12 **INSPECTION AND ACCEPTANCE:** Warranty periods shall not commence until Knox County inspects and formally accepts the goods and/or services. The terms, conditions and timing of acceptance shall be determined by Knox County. Knox County reserves the right to reject any or all items or services not in conformance with applicable specifications, and Contractor assumes the costs associated with such nonconformance. Acceptance of goods or services does not constitute a waiver of latent or hidden defects or defects not readily detectable by a reasonable person under the circumstances.

2.13 **IRAN DIVESTMENT ACT:** By submission of this RFQ, each respondent and each person signing on behalf of any respondent certifies, and in the case of a joint submittal each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each responding firm is not on the list created pursuant to Tennessee Code Annotated Section 12-12-106. Vendors are to submit the Affidavit of Compliance, **Exhibit B**, with their bid.

2.14 **LIMITATIONS OF LIABILITY:** In no event shall Knox County be liable for any indirect, incidental, consequential, special, or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

2.15 **NO BOYCOTT OF ISRAEL:** Pursuant to Tennessee Code Annotated Title 12, Chapter 4, Part 1, by submission of a response to this solicitation, each respondent and each person signing on behalf of any respondent certifies, and in the case of a joint response each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each respondent is not currently engaged in, and will not for the duration of the contract engage in, a boycott of Israel. Vendors are to submit the Affidavit of Compliance, **Exhibit B**, with their bid.

2.16 **NON-DISCRIMINATION AND NON-CONFLICT STATEMENT:** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin or any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this agreement, or in the employment practices of vendor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination. Contractor covenants that it complies with the Fair Wage and Hour Laws, the National Labor Relations Act, and other federal and state employment laws as applicable. Contractor covenants that it does not engage in any illegal employment practices.

Contractor covenants that it has no public or private interest and shall not acquire directly or indirectly any interest which would conflict, in any manner, with the provision of its goods or performance of its services. Contractor warrants that no part of the total contract amount provided herein shall be paid directly or indirectly to any officer or employee of Knox County as wages, compensation, or gifts in exchange for acting as officer, agent, employee, subcontractor, or consultant to Contractor in connection with any goods provided or work contemplated or performed relative to the agreement.

2.17 **ORDER OF PRECEDENCE:** In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) Contract, (2) Request for Qualifications (3) Contractor's Response, (4) Award, (5) Special Terms and Conditions, (6) General Terms and Conditions, (7) Specifications, (8) Drawings.

2.18 **RECORDS:** Contractor will maintain records of products and/or services provided to Knox County and make them available on request.

2.19 **REMEDIES:** Knox County shall have all rights and remedies afforded under the U.C.C. and Tennessee law in contract and in tort, including but not limited to rejection of goods, rescission, right of offset, refund, incidental, consequential, and compensatory damages and reasonable attorney's fees.

2.20 **RIGHT TO INSPECT:** Knox County reserves the right to make periodic inspections of the manner and means the service is performed or the goods are supplied.

2.21 **SEVERABILITY:** If any provision of this Contract is declared illegal, void or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

2.22 **TAX COMPLIANCE:** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges by submission of their signed submittal that they are current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

2.23 **TERMINATION:** Knox County may terminate this agreement with or without cause, upon written notice of not less than thirty (30) calendar days. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the terminationdate shall be paid.

2.24 **WARRANTY:** Contractor warrants to Knox County that all items delivered and all services rendered shall conform to the specifications, drawings, qualifications, and/or other descriptions furnished and/or incorporated by reference, and will be fit for the particular purpose purchased, of merchantable quality, good workmanship, and free from defects. Contractor extends to Knox County all warranties allowed under the U.C.C. Contractor shall provide copies of warranties to the County. Return of merchandise not meeting warranties shall be at contractor's expense.

SECTION III SCOPE OF WORK

3.1 **SCOPE OF WORK:** Knox County, an Equal Opportunity Employer, is seeking to retain the services of a professional engineering consultant to prepare plans and permits for the construction of a new greenway and pedestrian bridge to serve the Powell High School area. The proposed greenway would extend from Powell Drive along Brickyard Road to W. Emory Road where it continues west connecting with the existing pedestrian facility in front of Powell High School. This work may be funded in part by the Transportation Alternatives Program Grant (TAP). The professional engineering consulting firm **must** be on TDOT's preapproved list.

Responsibilities of the professional engineering consultant include but are not limited to:

- Environmental documentation,
- Preparation of engineering design plans based on preliminary conceptual layouts,
- Preparation of engineering construction plans,
- Acquisition of necessary permits,

State Project Number: 47LPLM-F3-225
Federal Project Number: TAP-4700(68)
Project Pin: 14645.00

All TDOT design standards and specifications will be followed. This project is subject to the environmental reviews pursuant to the National Environmental Policy Act (NEPA).

All Design Services must be performed in accordance with the latest edition of the TDOT Right of Way Manual and the latest edition of the TDOT Local Government Guidelines for the Management of Federal and State Funded Transportation Projects. Consultant invoicing and payment for services will be administered by Knox County in accordance with TDOT guidelines. Knox County shall be billed on a monthly basis for work completed and accepted by the County and Knox County Engineering and Public Works.

3.2 **AWARD:** Knox County intends to issue a one-time award and lump-sum contract. The Knox County Procurement Division will draft the contract. Knox County will not accept any vendor's contract. Vendors are cautioned that the Knox County Mayor is the only individual who can legally bind Knox County to a contractual agreement.

Knox County reserves the right to purchase these items/services from other sources if the need arises. Knox County reserves the right to revoke the award if a pattern of unavailability arises with the vendor.

3.3 **COMPLIANCE WITH ALL APPLICABLE REGULATIONS:** Successful firm agrees and covenants that the company, it's agents and employees will comply with all City, County, State and Federal codes, laws, ordinances, rules and regulations applicable to the business to be conducted under this Contract. If the vendor performs any work knowing it to be contrary to such codes, laws, ordinances, rules and regulations, the vendor shall bear all costs arising from them.

3.4 **CONTACT PERSONNEL:** It shall be essential to the success of this Contract to develop a good working relationship with the Contractor. It is imperative that the Knox County account be handled efficiently and professionally. Knox County should be assigned no more than two (2) Contractor contacts to handle billing inquiries and service related issues. In the event one (1) or both contacts leave the Knox County account, the Contractor shall formally introduce the new contacts to County personnel. These contacts must be knowledgeable of the Knox County account to avoid any interruption of service.

3.5 **CONTRACT EXECUTION:** It is the intent of Knox County to enter into a contract with the highest evaluated respondent to negotiate the contract cost. The Contact must be voted on by Knox County Commission and receive a majority vote. The successful vendor may be required to be present at the Knox County Commission Meetings to answer questions relating to the services performed. Adequate notification will be given by the Knox County Procurement Division if the vendor will need to attend the meetings. The Knox County Procurement Division will draft the Contract. Knox County **will not** accept any vendor's contract. Vendors are hereby cautioned that the Knox County Mayor is the only individual who can legally bind Knox County to a contractual agreement.

3.6 **EVALUTION REVIEW:** Knox Count reserves the right to use all pertinent information (also learned from sources other than disclosed in the RFQ process) that might affect the County's judgement as to the appropriateness of a qualified vendor. This information may be appended to the evaluation process results.

3.7 **EXCEPTIONS TO SPECIFICATIONS:** Vendors taking exception to any part or section of this solicitation shall indicate such exceptions in their submittal. Failure to indicate any exceptions shall be interpreted as the vendor's intent to fully comply with the solicitation as written. Conditional or qualified offers are subject to rejection in whole or in part. Any exceptions shall be included in Part VIII of the submittal as instructed in Section IV, RFQ Format. Do not strike through or in any way alter the RFQ. Exceptions listed within other sections of the submittal shall not reviewed or considered.

3.8 **INSURANCE:** The successful Contractor(s) must carry the insurance as indicated on the Insurance Attachment hereto. As proof of the Contractor's willingness to obtain and maintain the insurance, the Contractor must complete, sign and have its insurance agent sign the attachment, **Exhibit A**, and submit it with their response.

Upon the Notification of Intent to Award, the successful Contractor(s) will be required to submit a Certificate of Insurance (COI) showing the specified coverage and naming Knox County, Tennessee as additional insured; endorsement pages shall be included. It shall be the successful vendor's responsibility to keep a current COI and endorsement pages on file with the Knox County Procurement Division during the life of the Contract.

3.9 **LICENSING REQUIREMENTS:** Vendors must hold and maintain the proper license from the State of Tennessee Licensing Board for the type of work requested. Vendors must submit a copy of the license. All licensing must be in accordance with Tennessee Code Annotated.

3.10 **NEGOTIATIONS:** Knox County reserves the right to enter into Contract negotiations with the highest-rated vendor. If Knox County and the selected vendor cannot negotiate a successful agreement, Knox County may terminate said negotiations and begin negotiations with the next highest-rated vendor. This process will continue until a Contract has been executed or all submittals have been rejected. No vendor shall have any rights against Knox County arising from such negotiations.

3.11 **NEWS RELEASE BY VENDORS:** As a matter of policy, Knox County does not endorse the services of a Contractor. A Contractor will not make news releases concerning any resultant contract from this solicitation without the prior written approval of Knox County.

3.12 **PRE-QUALIFICATION:** Knox County requires that all consultants being considered are pre-qualified with TDOT. Additional TDOT pre-qualification procedures, pre-qualification forms and current "Standard Procurement Policy for Engineering and Technical Services" are available at this website: www.tennessee.gov/tdot.

3.13 **QUALIFICATIONS EVALUATION:** Knox County will evaluate the top three (3) firms on the following criteria:

- **General Qualifications of Firm (40 Points)**
  - Years in business and years key personnel have performed civil engineering design services
  - Number of licensed professionals
  - Capabilities and resources of firm
  - Number of support personnel and roles
- **Key Personnel assigned to Project (30 Points)**
  - Resumes of key personnel to work with Knox County
  - Specific areas of expertise
  - Availability of personnel to Knox County
- **Current Projects and Workload (20 Points)**
  - List of current or past projects of similar size and scope
  - Initial budget and final cost for above project
  - Start date and final completion date for above projects
  - Projected workload
- **Licensure, Insurance and Litigation (10 Points)**
  - Provide evidence of licensure to practice engineering in the State of Tennessee
  - Provide evidence of appropriate insurance coverage
  - Provide information of any litigation in which the firm has been involved within the past five (5) years

The consultant evaluation committee holds the ability to conduct interviews based on scoring.

Pre-qualification procedures, example letter of interest, list of pre-qualified firms and certified DBEs, TDOT's standard procurement policy, and additional information can be found at the following website: https://www.tn.gov/content/tn/tdot/business-redirect/consultantinfo.html. For information on pre-qualification, please contact Christine Smotherman at 615-741-4460 or Christine.Smotherman@tn.gov.

Evaluation proceedings will be conducted within the established guidelines regarding equal employment opportunity and nondiscriminatory action based upon the grounds of race, color, sex, creed or national origin interested certified Disadvantaged Business Enterprise (DBE) firms as well as other minority-owned and women owned firms are encouraged to respond to all advertisements by Knox County. For information on DBE certification, please contact David Neese at 615-741-3681 or David.Neese@tn.gov. Details and instructions for DBE certification can be found at the following website: https://www.tn.gov/tdot/civil-rights/small-business-development-program.html.

SECTION IV RFQ FORMAT

Vendors shall use the following format for the preparation and submission of their qualifications. Failure to follow this format may be just cause for rejection of submittals. Cost of preparation of qualifications is the sole responsibility of the vendor. Knox County requires that qualifications being submitted be one (1) marked original and three (3) exact copies. An electronic copy in a single .pdf file on a CD/DVD or flash drive is also required.

Part I **SIGNED LETTER AUTHORIZING SUBMISSION OF THE QUALIFICATIONS**

Part II **VENDOR INFORMATION**

- Company Name, Address, and telephone number
- Contact name(s) and telephone number(s)
- Contact email address
- Firm's Vendor Number as assigned by the Knox County Procurement Division
- Firm's Knox County Business License (if applicable)
- Firm's Employer Identification Number (EIN)
- Copies of all licenses, permits and professional certifications for company and employees
- Acknowledgment of Addenda (if applicable)

Part III **GENERAL QUALIFICATIONS OF THE FIRM**

Provide complete qualifications and capabilities of the firm for conducting the Scope of Work in Section 3.1. Include the firm's number of years in business and years key personnel have performed civil engineering design services. Provide the number of licensed professionals for this project along with support personnel and roles.

Part IV **KEY PERSONNEL ASSIGNED TO THE PROJECT**

Provide the resumes of the key personnel that will be working on the project. Resumes should be no longer than one page and include number of years working on similar projects and a list of sample projects similar to the scope of work. Include all specific areas of expertise and show availability of personnel to work on this project.

Part V **CURRENT PROJECTS AND WORKLOAD**

Provide a list of current or past projects that are similar in size and scope. Include initial budget/final costs and start/completion dates for current or past projects. Provide the firm's projected workload for next six months.

Part VI **LICENSURE, INSURANCE AND LITIGATION**

Provide evidence of licensure to practice engineering in the State of Tennessee and appropriate insurance coverage. Describe any litigation with which the firm has been involved in the past five (5) years.

Part VII **REQUIRED ATTACHMENTS**

Firms are to complete and provide the following attachments here:

- Knox County Insurance Checklist, **Exhibit A**
- Affidavit of Compliance with Iran Divestment Act / No Boycott of Israel, **Exhibit B**

Part VII **ADDITIONAL INFORMATION**

Respondents may submit additional information regarding their Firm and the services they offer that may add value to their submittal.

Part VIII **EXCEPTIONS**

Respondents are to include any and all exceptions taken to this solicitation under this part. Do not mark through or otherwise alter the language of this RFQ in your response.

Failure to submit any of the above information or any other information requested in this Request for Qualifications may result in the response being disqualified.

RE: Statement of Qualifications | New Greenway and Pedestrian Bridge to Serve the Powell High School Area Solicitation 3630

Dear Mr. Hubbs and Members of the Selection Committee,

Cannon & Cannon, Inc. (CCI) is pleased to submit our Statement of Qualifications for the design and permitting of the proposed greenway and pedestrian bridge project serving the Powell High School area. With deep local roots and proven expertise in greenway planning, bridge design, NEPA compliance, and stakeholder coordination, our team is uniquely positioned to deliver a safe, accessible, and well-integrated pedestrian facility that connects and enhances the Powell community.

We are excited by the opportunity to support a project that will provide lasting value to students, families, and pedestrians in the area. Our qualifications include extensive experience on federally funded greenway and transportation projects, including the City of Knoxville's First Creek Greenway adjacent to Fulton High School, the Halls Greenway Connector, and the City of Oak Ridge's Melton Lake Greenway. Our team is fully pre-qualified by TDOT and committed to meeting Local Programs and NEPA documentation requirements.

CCI boasts four **Powell High School alumni** including Becky Bottoms, Brian Haas, Alan Grissom, and Russ Edens, most of whom hold leadership roles at CCI. This project is personal to us and we are proud to bring our full capabilities to support a safe and community-centered design in a place we know and love.

We look forward to the opportunity to partner with Knox County on this initiative and would welcome the chance to discuss how our experience and local commitment can best serve this project.

Warm Regards,

Jeff Beckett

Mr. Jeff Beckett, PE
Project Manager/Transportation Team Lead

GENERAL QUALIFICATIONS OF FIRM

FIRM QUALIFICATIONS

CCI (Cannon & Cannon, Inc.) is a service-focused firm offering public improvement related engineering and surveying services since 1996. Our firm employs a diverse group of registered professional engineers with expertise in traffic and transportation, site/civil enhancement, stormwater, alternative transportation/pedestrian trails and greenways, utilities (water, wastewater, communications, electric, gas), permitting, and general civil engineering. We offer a complete professional service package for infrastructure design projects.

PREMIER

CONSULTING

ENGINEERS

CCI has a focused mission: ***"Enhancing Community Life by Design."*** Providing quality solutions and practical application of professional engineering services is how we accomplish the mission.

We have an Owner's Perspective to our project approach – a perspective enhanced by our numerous "former owners" that are now in leading roles here at CCI. **We start every project by sitting in your chair first so that project decisions are based on your challenges, needs and goals.**

Related Experience

- **City of Knoxville First Creek Greenway and Pedestrian Bridge Conceptual Plan**
  Knoxville, TN | 2024–Ongoing
  Project Manager | CCI is developing construction plans for the First Creek Greenway extension, which includes a pedestrian bridge connecting Willow Avenue to Fifth Avenue. The project involves ADA-compliant design, multiple alignment evaluations with cost estimates, and coordination with the City of Knoxville and KUB using existing survey data to streamline the process.
- **Knox County Engineering & Public Works | Marietta Church Roundabout**
  Knox County, TN | 2023–Ongoing
  Transportation Team Lead | CCI provided professional engineering services for construction of a roundabout and minor realignment of Marietta Church Road at Hardin Valley Road. Scope of services included survey, engineering design, permitting and construction drawings in accordance with Knox County and TDOT standard guidance. Utility coordination is ongoing with bid assistance to follow.
- **Knox County (Public Building Authority) Halls Greenway Connector**
  Halls, TN | 2018–Ongoing
  Project Manager | CCI provided engineering services for a multi-phase greenway connection from Clayton Park to Andersonville Pike, including trail design, sidewalk connections, and pedestrian signal improvements. The project enhanced walkability and connectivity throughout the Halls community with conceptual planning and phased construction cost estimates.
- **Knox County Engineering & Public Works | Coward Mill Roadway Widening/Realignment**
  Knox County, TN | 2020–2025
  Project Manager | Design and development of ROW/construction plans for the widening and realignment of 1.7 miles of Coward Mill Road in Knox County, including survey, bridge design, and utility coordination under an accelerated timeline. Addressing complex challenges such as at-grade railroad crossings, vertical curve issues, and alignment adjustments for new subdivisions while ensuring compliance with Knox County and TDOT standards.
- **Knox County Engineering & Public Works | Hardin Valley Road Roundabout**
  Knox County, TN | 2020–2023
  Project Manager | CCI provided surveying and engineering design services for roadway improvements at the intersection of Hardin Valley Road and Hickory Creek Road, addressing a problematic horizontal curve. The recommended solution—a modern four-legged roundabout—will improve traffic flow and accommodate a proposed subdivision, with design spanning 0.3 miles of steep terrain. CCI's scope includes right-of-way and construction plans, traffic control planning, drainage analysis, utility coordination, and coordination with local stakeholders.
- **City of Rockwood Trailhead & Greenway**
  Rockwood, TN | 2016–2020
  Project Manager | CCI partnered with the City of Rockwood to improve pedestrian access between the city and Tom Fuller Memorial Park through a Transportation Alternatives and Safe Routes to School project. The greenway, featuring paved and boardwalk sections, was designed to meet ADA and TDOT Local Programs guidelines, with CCI also handling NEPA documentation and permitting.
- **City of Knoxville First Creek Greenway & Sidewalk Improvements**
  Knoxville, TN | 2011-2018
  Project Engineer | CCI delivered engineering and surveying services for 3,500 feet of greenway and sidewalk improvements near Fulton High School, extending to Edgewood Park. The project improved pedestrian infrastructure adjacent to major roads and contributed to the continued development of Knoxville's Greenway System.

BRIAN HAAS, PE, PTOE TRANSPORTATION DIVISION LEAD

With 19 years of experience, Brian has a proven ability to manage complex engineering projects, ensuring they are delivered on time, within budget, and with a focus on quality and client satisfaction. His portfolio includes managing municipal and large scale contracts across Tennessee, showcasing his expertise in coordinating all phases of project execution.

Related Experience

- **Knox County Engineering & Public Works | Pedestrian Improvements Ebenezer/South Peters Road**
  Knox County, TN | 2024–Ongoing
  Transportation Division Lead | Cannon & Cannon, Inc. (CCI) is providing professional engineering services for pedestrian facility upgrades at the intersection of Ebenezer and South Peters Road. The scope includes base mapping, field inventory, engineering design, and the preparation of construction drawings and bid documents in accordance with County standards. CCI is also assisting with pedestrian signal timing and supporting the construction bidding process.
- **City of Knoxville Chapman Highway and Fort Avenue Traffic Signal Improvements Project**
  Knoxville, TN | 2024–Ongoing
  Project Manager | Cannon & Cannon, Inc. (CCI) is providing traffic engineering design services for the Chapman Highway at Fort Avenue Traffic Signal Improvements Project in coordination with the City of Knoxville. The project includes signal upgrades, pedestrian enhancements, geometric evaluations, stakeholder coordination, right-of-way support, and preparation of construction plans.
- **City of Knoxville Staff Supplement Services for Transportation Engineering Division**
  Knoxville, TN | 2023–Ongoing
  Project Manager | Cannon & Cannon, Inc. (CCI) is currently contracted by the City of Knoxville's Transportation Engineering Division to provide staff supplement services, addressing a temporary staffing shortage. CCI's support includes technical mentorship, traffic signal timing, transportation design plan reviews, and citizen request investigations. Project management involves tracking tasks, assigning work to experts, and coordinating monthly meetings to ensure smooth project progression and responsive service to the city's needs.
- **Traffic Signal Improvements for University of Tennessee Area**
  Knoxville, TN | 2021–Ongoing
  Project Manager | The City of Knoxville selected Cannon & Cannon, Inc. (CCI) to design an Advanced Traffic Management System (ATMS) expansion for 38 traffic signals in the University of Tennessee area. This project includes upgrades to Ethernet-based communication, modern signal controllers, cabinets, vehicle detection, and connected vehicle technology. CCI's services encompass design plans, environmental documentation, systems engineering, permitting, bid assistance, and traffic signal timing. Funded by the Federal Highway Administration's CMAQ program, the project is managed through Tennessee Department of Transportation's Local Programs process.
- **Knox County Engineering & Public Works | Pedestrian Crossing Lovell/Schaeffer Road**
  Knox County, TN | 2020
  Senior Traffic Engineer | Cannon & Cannon, Inc. (CCI) developed a complete set of construction plans for a pedestrian crossing on the north leg of Lovell Road at its intersection with Schaeffer Road. The project included field inventory, base mapping, and the design of missing pedestrian features such as curb ramps, pushbutton posts, pedestrian signals, and ADA-compliant components. CCI also prepared cost estimates, incorporated County comments, and supported coordination and plan revisions through the construction phase.
- **Knox County Engineering & Public Works | Ball Camp Traffic Signal System Timing**
  Knox County, TN | 2019–2020
  Senior Traffic Engineer | Cannon & Cannon, Inc. (CCI) developed and implemented new traffic signal timing plans for four intersections in the Ball Camp community of northwest Knox County. The project included data collection, capacity analysis using Synchro 10, development of optimized signal phasing and timing plans, and field implementation with adjustments based on observed traffic conditions. Final deliverables included updated controller settings, traffic volume data, and a summary of results and recommendations submitted to Knox County.

BECKY BOTTOM, PE, PTOE SENIOR TRAFFIC ENGINEER

Becky has been with CCI since 2006 and has over 30 years of experience in traffic and transportation engineering. As a Senior Traffic Engineer Becky is responsible for designing, planning, and improving transportation systems to ensure efficient movement of people and goods. Her expertise includes traffic impact and operations studies, intersection design, traffic signal design, street lighting design, signing, pavement marking and traffic control plans.

JASON HUNT, PE CIVIL SITE TECHNICAL LEAD

Jason has been with CCI since 2004. He has 20 years of experience in civil site engineering and is closely involved in site related projects for institutional, mixed-use, industrial and commercial developments and is an expert in the field of site design for parks, sports complex facilities, waterfront, and private facilities. He leads numerous site design projects in Tennessee and Kentucky. He has designed numerous stormwater collection and detention facilities, bridge analysis and HEC/RAS river analysis modeling. Jason is an integral leader and key to project success.

Related Experience

- **Legacy Parks Foundation Powell High School Landing Project**
  Powell, TN | 2025–Ongoing
  Project Manager | As a subconsultant to Ross/Fowler, CCI supported the Powell High School Landing kayak launch expansion with runoff analysis, permitting, erosion control plans, and limited construction administration. The project ensured regulatory compliance with local, state, and federal agencies including TDEC, USACE, and TVA.
- **Crest Residential, LLC Powell Multi-Family Development**
  Powell, TN | 2024–Ongoing
  Senior Civil Site Engineer | Cannon & Cannon, Inc. (CCI) is providing civil engineering services for the Powell Multi-Family Development in Knox County, TN, on behalf of Crest Residential, LLC. The scope includes preliminary engineering with a conceptual site layout, grading, and utility plan, as well as traffic impact study coordination with Knox County. CCI is also responsible for developing construction documents covering site layout, drainage, erosion control, stormwater management, and utility planning. Additionally, the firm is managing permitting and agency approvals and providing limited construction administration services to support the project through development.
- **Legacy Parks Foundation Beaver Creek Powell Flood Study**
  Powell, TN | 2020
  Senior Civil Site Engineer | CCI conducted a no-rise analysis for a new ADA-accessible kayak launch along Beaver Creek, ensuring compliance with FEMA and Knox County flood regulations. Using HEC-RAS modeling, CCI demonstrated that the structure would not increase flood elevations, supporting successful permitting and project approval.
- **City of Knoxville First Creek Greenway & Sidewalk Improvements**
  Knoxville, TN | 2011-2018
  Senior Civil Site Engineer | CCI delivered engineering and surveying services for 3,500 feet of greenway and sidewalk improvements near Fulton High School, extending to Edgewood Park. The project improved pedestrian infrastructure adjacent to major roads and contributed to the continued development of Knoxville's Greenway System.
- **Lakeshore Park Improvements**
  Knoxville, TN | 2015–2016
  Project Manager for a new City of Knoxville park , with greenspace, new playground, parking lot, updating trails, and new ball field. The project required site layout and design for new parking lot, playground, grading, green infrastructure and drainage, stormwater design, and sanitary sewer design. Performed drainage calculations, and erosion prevention and sediment control devices, and Sureties calculations. The project required Storm Water Pollution Prevention Plan (SWPPP) report. CCI worked with Ross/Fowler Landscape Architecture, Denark Construction and Knoxville Utilities Board (KUB). Performed construction administration.
- **Suttree Landing Park and Boathouse/Pavilion**
  Knoxville, TN | 2013–2016
  Senior Civil Site Engineer for a 5-acre park on the South Waterfront in downtown Knoxville. It includes approximately 1800 linear feet of riverwalk running parallel to the Tennessee River, a festival lawn, a boathouse/pavilion, a landscaped water quality feature, and facilities that support water-based activities such as kayaking. CCI Managed 8 subconsultants and provided recommendations and developed plans and specifications for the long-term maintenance of the entire park, streetscape, wetlands, and all other areas or amenities considered as part of the park and roadway project.
- **City of Oak Ridge Melton Lake Greenway Phase IV**
  Oak Ridge, TN | 2010–2012
  Senior Civil Site Engineer | For the Melton Lake Greenway, CCI provided full design and CEI services for a 2-mile multi-use trail featuring lake access, forested terrain, and wetland areas. The project included ADA-compliant amenities, sustainable landscaping, and coordination with TDOT and environmental agencies for permitting.

JOHN WINTER, RLS SURVEY TEAM LEAD

John is responsible for producing all survey drawings, deed research, legal descriptions, transportation surveys, easement drawings, boundary and ALTA/ACSM surveys, property acquisition maps and construction layout data – all elements impacting land ownership. He has provided surveys for numerous institutional, commercial, industrial and residential developments. John has been with CCI since 1997.

Related Experience

- **Knox County Engineering & Public Works | Marietta Church Roundabout**
  Knox County, TN | 2023–Ongoing
  Surveying Specialist | CCI provided professional engineering services for construction of a roundabout and minor realignment of Marietta Church Road at Hardin Valley Road. Scope of services included survey, engineering design, permitting and construction drawings in accordance with Knox County and TDOT standard guidance. Utility coordination is ongoing with bid assistance to follow.
- **Knox County Engineering & Public Works | Emory at Beaver Ridge**
  Knox County, TN | 2023–Ongoing
  Surveying Specialist | CCI is providing professional engineering services for roadway and intersection improvements at the intersection of SR 131 at SR 131 and West Emory Rd. Roadway improvements along West Emory Road include roadway widening from 2 lanes to 3 lanes, including a center turn lane with curb, gutter, and sidewalks. The intersecting roadway of Beaver Ridge Road is being improved to include separate right and left turn lanes as well as a fully actuated traffic signal. Project is being developed through TDOT Local Programs and is currently in the NEPA Phase.
- **Knox County (Public Building Authority) Halls Greenway Connector**
  Halls, TN | 2018–Ongoing
  Surveying Specialist | CCI provided engineering services for a multi-phase greenway connection from Clayton Park to Andersonville Pike, including trail design, sidewalk connections, and pedestrian signal improvements. The project enhanced walkability and connectivity throughout the Halls community with conceptual planning and phased construction cost estimates.
- **Knox County Engineering & Public Works | Coward Mill Roadway Widening/Realignment**
  Knox County, TN | 2020–2025
  Surveying Specialist | Design and development of ROW/construction plans for the widening and realignment of 1.7 miles of Coward Mill Road in Knox County, including survey, bridge design, and utility coordination under an accelerated timeline. Addressing complex challenges such as at-grade railroad crossings, vertical curve issues, and alignment adjustments for new subdivisions while ensuring compliance with Knox County and TDOT standards. Coordinating all utility relocations per Local Government Guidelines for Federal and State Funded Transportation Projects.
- **Knox County Engineering & Public Works | Hardin Valley Road Roundabout**
  Knox County, TN | 2020–2023
  Surveying Specialist | CCI provided surveying and engineering design services for roadway improvements at the intersection of Hardin Valley Road and Hickory Creek Road, addressing a problematic horizontal curve. The recommended solution—a modern four-legged roundabout—will improve traffic flow and accommodate a proposed subdivision, with design spanning 0.3 miles of steep terrain. CCI's scope includes right-of-way and construction plans, traffic control planning, drainage analysis, utility coordination, and coordination with local stakeholders.
- **City of Knoxville First Creek Greenway & Sidewalk Improvements**
  Knoxville, TN | 2011-2018
  Surveying Specialist | CCI delivered engineering and surveying services for 3,500 feet of greenway and sidewalk improvements near Fulton High School, extending to Edgewood Park. Elizabeth M. Porter, P.G.
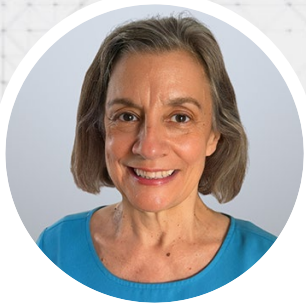
Principal



32 YEARS OF EXPERIENCE

EDUCATION

B.A., Geology, State University of New York at Buffalo, 1983

M.S., Geology, University of Georgia, 1985

Ms. Porter is a Professional Geologist with more than 31 years of environmental consulting and ecological experience. As a Project Management Professional (PMP) and a Principal in the Knoxville, Tennessee office, Ms. Porter has managed hundreds of multi-year and multi-discipline environmental and ecological projects. Her project management experience encompasses a wide range of disciplines including brownfield redevelopment, EPA assessment and cleanup grants, wetland delineations and stream assessments, Clean Water Act permitting, mitigation and monitoring, NEPA coordination, regulatory coordination, mitigation banking, and stream restoration.

NEPA PROJECT EXPERIENCE

Blount County Greenway, C2RL, Maryville, TN*
Role: Project Manager
The Blount County Highway Department contracted C2RL for design services for a greenway trail. C2RL contracted with Ms. Porter's former employer for preparation of the NEPA document. Ms. Porter was the Project Manager for the NEPA document for the construction of a greenway trail near Heritage High School.

Robert C. Jackson Drive Extension, CDM Smith, Maryville, TN*
Role: Project Manager
CDM Smith contracted with Ms. Porter's former employer. Ms. Porter was Project Manager for a jurisdictional waters assessment and threatened and endangered species survey for the Robert C. Jackson Drive extension. The alignment required fill of 3.1 acres of wetland and culverting of two perennial streams.

Inner Loop - I-24 NEPA Services, HNTB, Nashville, TN*
Role: Project Manager
On behalf of TDOT, HNTB contracted Ms. Porter's former employer to provide NEPA support services for the Inner Loop/I-24 corridors in Nashville, TN. Ms. Porter was Project Manager for the environmental evaluation, including the ecology, Phase I ESA, archaeological, historic structures and preliminary noise evaluations and reporting.

Veterans Blvd Extension NEPA, CDM Smith , Sevierville, TN*
Role: Project Manager
CDM Smith retained Ms. Porter (working for a former employer) to manage the natural resources evaluation and anticipated permitting of a proposed rural arterial extension for the City of Sevierville from Highway 66 to Dolly Parton Parkway. An additional phase of the project was initiated in 2022 to perform environmental services and prepare the NEPA document.

Hydric Soils Training, Ohio Wetlands Foundation

Fundamentals of Professional Practice, ASFE, The Geoprofessional Business Association

Ms. Rowe specializes in wetland/stream delineations and assessments, mitigation, monitoring, stream and wetland restoration, NEPA coordination, MS4 plan development and monitoring, Clean Water Act Section 404 and 401 permitting, and project management. Ms. Rowe also performs threatened and endangered (T&E) species surveys, rapid biological assessments, and is proficient in using ArcMap and GIS for data inclusion into reports, permit applications, and site maps. She has experience completing Tennessee Rapid Assessment Method (TRAM) and Stream Quantification Tool (SQT) data collection, and biological and chemical stream sampling. She has built excellent working relationships with regulatory personnel in federal, state, and local government agencies, which is beneficial when working through complex regulatory requirements during the permitting process.

PROJECT EXPERIENCE

SR-449 / Veterans Boulevard Extension (Phase 2), CDM Smith, Sevierville, TN
Role: Project Manager
Project ecologist for an approximately 5-mile-long project between Robert Henderson Road and SR-66. Efforts included: stream/wetland delineation, GPS data collection and mapping, endangered species habitat survey and USFWS consultation, macroinvertebrate sampling, onsite verification meeting with the USACE, and SQT data collection and analysis to support 401/404 permitting efforts. Completed the Tennessee Environmental Evaluation Report (TEER) document for TDOT's approval.

Ball Camp Pike Improvements, Knox County Engineering and Public Works, Knoxville, TN
Role: Project Manager
Responsible for a jurisdictional waters assessment and protected species survey for two phases of a roadway extension. Obtained TDEC and USACE individual permits for multiple stream relocations, culverts, and wetland fills. Mitigation for Phase I included relocation of streams using natural channel design methods, stream credit purchase, wetland preservation, and wetland credit purchase. Phase II included stream relocation and wetland credit purchase. Employed TDEC SQT method to determine stream quality uplift that will result from the relocation project. Also coordinated additional agency involvement, including SHPO, USFWS, TWRA, and TDEC DNA. Currently assisting with long-term monitoring of the permittee-responsible mitigation areas.

Virtue Road Improvements, LDA Engineering, Knoxville, TN*
Role: Project Manager
Project biologist responsible for performing activities necessary to obtain a TDOT Categorical Exclusion (CE). Efforts included stream and wetland delineations on a one-mile long corridor on Virtue Road and Boyd Station Road in accordance with TDOT NEPA requirements. Performed a natural resource evaluation of the proposed corridor and prepared an Environmental Boundaries Report (EBR), evaluated the site for protected species, coordinated with multiple federal agencies regarding the project, and prepared the final NEPA document for TDOT approval.

Civil & Environmental Consultants, Inc.

Clinton Todd Justice, P.E., PMP
Senior Project Manager, Senior Geotechnical Engineer

resume

Todd Justice is a Geotechnical Engineer and Project Management Professional working out GEI's Knoxville office. His areas of expertise include geotechnical explorations and project management. His areas of proficiency include: Geotechnical explorations including CPT exploration, shallow foundations, deep foundations, geophysical investigations, stability analyses, liquefaction analysis, site improvement (grouting, stone columns, and sand drains), bearing capacity/settlement analysis, retaining wall analysis, rock slope analysis, grout curtains, slurry cut-off walls, earthen dams, and ash disposal facilities; Instrumentation, including vibrating wire and standpipe piezometers, inclinometers for slope movement, groundwater; Foundation Construction Testing and Inspection, including shallow foundations, driven piles, drilled shafts, mini/micro piles, cap and compaction grouting; QA/QC Services – multi-phase testing/inspection, asphalt, concrete, and soil; and Acid Rock Drainage (ARD), including experience in the evaluation of ARD potential and mitigation procedures.

Mr. Justice is also proficient in quality management, risk management, and budget planning and control. He is active in the development of project and contract opportunities with Tennessee Valley Authority (TVA) and other Federal and State Government clients.

PREVIOUS PROJECT EXPERIENCE

Third Creek Greenway Repair, Cannon & Cannon, Inc., Knoxville, TN. In-House Reviewer. Field exploration, laboratory testing, and providing recommendations for stabilizing a City of Knoxville greenway section, which had been exhibiting signs of distress (i.e., settlement, pavement cracking) and had to be cordoned off. Performed slope stability analysis of the distressed greenway section and designed the repair using Slope/W.

Schaad Road Turn Lane Retaining Wall, Knox County Engineering and Public Works, Knoxville, TN. In House Reviewer. Field exploration and laboratory testing in support of the design of a retaining wall needed for a new turn lane at a major intersection in northwest Knox County. Oversaw design of a cantilevered cast-in-place concrete retaining wall with a sensitive pipe crossing at the maximum wall section. Performed global stability analysis of the proposed wall using Slope/W. Design was performed in general accordance with Tennessee Department of Transportation standards.

Texas Avenue Sidewalk Retaining Wall, Cannon & Cannon, Inc., Knoxville, TN. In House Reviewer. Field exploration, laboratory testing, and providing recommendations for design and construction of a new retaining wall needed for roadway and sidewalk improvements along a busy urban roadway. Performed global stability analysis of the proposed retaining wall using Slope/W.

GEI Consultants

Ocoee No. 2 Flume Work Area Access Road, Geotechnical Exploration, Tennessee Valley Authority, Polk County, TN. Project manager and geotechnical engineer responsible for geotechnical exploration along the existing access road from the Ocoee No. 2 Powerhouse to the work bench for the Ocoee No. 2 Flume at the Tennessee Valley Authority's (TVA) Ocoee No. 2 Hydropower Plant in Polk County, Tennessee. The purpose of this exploration was to determine the general subsurface conditions along the existing access road and to provide geotechnical recommendations and considerations for design and construction of roadway realignment/modifications, including proposed roadway embankments, cut and fill slopes, pavement design, and drilled shaft foundation recommendations for a new bridge.

Veterans Boulevard, Geotechnical Exploration, Sevierville Public Building Authority, Sevierville, TN. Project manager and geotechnical engineer responsible for geotechnical exploration along the proposed 4.8 mile roadway alignment. Geotechnical engineering analyses and recommendations were provided for design and construction of the roadway cut and fill slopes and pavement sections.

TDOT State Route 101, Geotechnical Exploration, American Consulting Engineers, Cumberland County, TN. Geotechnical engineer of record for the 3.3 mile Tennessee Department of Transportation (TDOT) roadway which included widening and realignment. The purpose of this exploration was to determine the general subsurface conditions along the proposed new roadway alignment and to provide geotechnical recommendations and considerations for design and construction of roadway /modifications, including proposed roadway embankments, cut and fill slopes, pavement design.

TDOT State Route 32 (US 321), Geotechnical Exploration, TDOT, Cosby, TN. Project coordinator and geotechnical engineer responsible for geotechnical exploration and recommendations for a 6.7 mile Tennessee Department of Transportation (TDOT) roadway which included widening and realignment. The purpose of this exploration was to determine the subsurface conditions along the proposed new roadway alignment and to provide geotechnical recommendations and considerations for design and construction of the roadway / modifications, roadway embankment, cut and fill slopes, and pavement design. Difficult drilling conditions were anticipated as a part of the exploration and considered in the planning phase of the project. Colluvial deposits consisting of cobble and boulder size material were known to be present at the project site. Special drilling techniques were utilized as necessary using a casing advancer to successfully advance borings through the colluvium to planned depths and obtain quality samples.

TDOT State Route 32, Elizabethton Connector, Geotechnical Exploration, TDOT, Carter County, TN. Project coordinator and geotechnical engineer responsible for geotechnical exploration and recommendations for a 3.9 mile Tennessee Department of Transportation (TDOT) roadway. The purpose of this exploration was to determine the subsurface conditions along the proposed new roadway alignment and to provide geotechnical recommendations and considerations for design and construction of the roadway, roadway embankment, cut and fill slopes, and pavement design.

TDOT State Route 63, LaFollette to Frontier Road, Geotechnical Exploration, TDOT, LaFollette, TN. Project coordinator and geotechnical engineer responsible for geotechnical exploration and recommendations for a 5.8 mile Tennessee Department of Transportation (TDOT) roadway which included widening and realignment. The purpose of this exploration was to determine the subsurface conditions along the proposed new roadway alignment and to provide geotechnical recommendations and considerations for design and construction of the roadway / modifications, roadway embankment, cut and fill slopes, and pavement design. Responsible for performing visual-manual classification of soil and rock samples, preparation of calculations, and reporting.

GEI Consultants

Richard L. Price, P.E.
Structural Engineer

resume

Richard Price is a structural engineer with a wide variety of project experience including bridges, industrial structures, new buildings design, building renovation, water resource facilities, and foundations. His bridge project experience includes the design of new single span and multi-span highway bridges, pedestrian bridges and construction equipment bridges. Mr. Price has performed a variety of inspection and repair projects for bridges too. As part of these projects he has utilized steel, concrete and timber design engineering principles to design a wide variety of superstructure and substructure. He frequently prepares structural plans and construction drawings utilizing 3D models to coordinate the structural construction documents against other disciplines and trades. Mr. Price also prepares structural specifications, and engineer's cost estimates.

PROJECT EXPERIENCE

North Avenue Future Pedestrian Bridge, New City LLC, Atlanta, GA. Lead Structural and Inspection Engineer for the field inspection of a steel-and-concrete multi-span bridge with a wood deck crossing North Road. The inspection focused on current condition of the bridge superstructure and gathering dimensional information to determine the suitability for future use as a pedestrian bridge. Based on available reference information, the inspection, and field measurements, the bridge was evaluated to rate its ability to carry existing and anticipated future loads. A bridge inspection report and recommendations for repairs and load limits was issued.

22.5 Mile Bridge and North N-3 Lane Bridge, Menominee County Road Commission, Menominee County, MI. Lead Structural Engineer for the designed bridge abutments and footings and drafted the rebar shop drawings for the footings.

Bruckner Expressway – Unionport Bridge, Unionport Constructors JV, New York, NY. Structural Engineer. Assisted in design of construction trussell bridges, site access walkways and concrete thermal curing plans.

Consulting Engineering Services for Burlington Northern-Santa Fe Railroad Bridge Replacements, James McHugh Construction Company, Princeton and Wyanet, IL. Structural Engineer for numerous construction-related services requested by the general contractor. This project included the design of temporary work platforms, construction bridges, bridge girder splice design, and hoisting/demolition plans for replacement of two railroad bridges during one fast tracked 36-hour shutdown. Preplanning and up-front preparatory work was key to completing the two-bridge replacement project in one weekend.

Temporary Bridge Design, M.J. Electric, Iron Mountain, MI. Lead Structural Engineer for the structural design of modular, single-span, structural steel bridge with timber crib abutments. Bridge was designed for use on construction projects, where crossings would require bridge spaces of 12 to 48 feet, with a variety of construction vehicular loads. The components for multiple bridges have been fabricated and are currently in use.

East Side Access Contract CM014B, GCT Constructors, JV, New York, NY. Structural Engineer. Structural Engineer for numerous construction-related services requested by the general contractor. This project included the design of temporary work platforms, construction access bridges, load transfer jacking programs and

GEI Consultants

miscellaneous temporary column supports. Project responsibilities included structural analysis and design, including seismic analysis. Responsibilities also included the development of rebar shop drawings for the construction of the elevator.

Millecoquins Bridge, Michigan Department of Technology and Budget, Garfield Township, MI. Lead Structural Engineer. Responsible for the design of a replacement single span replacement bridge and substructure. Provided oversight and review of structural models and calculations used to determine the bridge and abutment capacity and layout. Supervised and approved contractor documents and engineering cost estimate.

County Road 607 and 565 Bridge Replacements, Marquette County Road Commission, Marquette County, MI. Civil Engineer. Lead Structural Engineer. Responsible for the design of steel pile and concrete substructure for two bridge replacements on county roads. Oversight and review of development structural models used to abutment capacity and layout. Supervised and approved contractor documents and engineering cost estimate.

County Road 22.5 and N3 Bridge Replacements, Menominee County Road Commission, Menominee County, MI. Structural Engineer. Responsible for the design of steel pile and concrete substructure for two bridge replacements on county roads. Oversight and review of development structural models used to abutment capacity and layout. Supervised and approved contractor documents and engineering cost estimate.

Temporary Bridge Crossings, SEMCO Energy Gas Company, Port Huron, MI. Structural Engineer. To facilitate the construction of a natural gas pipeline, three clear-span steel bridge will be temporarily placed over the waterway for construction access. The bridges are anticipated to be in place for approximately four to five months to support the various construction crews necessary for the installation of the pipeline. Reviewed and developed recommendations for the temporary bridge supports and abutments.

UPPCO Warehouse Steel Inspection & Assessment, Marquette, MI. Lead Special Inspector and Project Manager. A newly constructed warehouse was inspected to determine if the installed steel structural members match the design drawings. Aerial lift machine was used to reach different locations of the structure and evaluate the proper installation of bolts and other fasteners. Inspection responsibilities included reviewing design drawings, operation of areal lift, inspection of connection and structural members. Project management responsibilities included generating and reviewing inspection reports that went to the project owner, design team, and contractor's team.

UPPCO Warehouse Steel Inspection & Assessment, Marquette, MI. Lead Special Inspector and Project Manager. A newly constructed warehouse was inspected to determine if the installed steel structural members match the design drawings. Aerial lift machine was used to reach different locations of the structure and evaluate the proper installation of bolts and other fasteners. Project responsibilities included reviewing design drawings, operation of areal lift, inspection of connection and structural members. Additionally supervised and reviewed inspection work of other inspectors.

Condition Assessment of Forsyth Township Fire Department Structure, Gwinn, MI. Senior Structural Engineer. Lead team in performance of condition assessment of the existing structure. The site observations consisted of one day onsite for professional engineer. GEI identified the condition of the existing building elements and specifically noted structural elements that required repairs. GEI eventually performed some slab coring and sampling as part of additional work necessary to re-support the fire station first floor. GEI's project deliverable included a summary letter of findings and recommendations based on our site observations. Findings described the current condition of structural members, condition of the exterior and interior walls, and any limiting factors for future capital improvements. A photo log from the site visit was also be submitted to the Township and referenced in the letter summarizing our findings. The Township used this project to prioritize future repairs.

GEI Consultants

FIRMS AVAILABILITY

Our staff has the capacity for assisting Knox County with preparation of plans and permits for the construction of a new greenway and pedestrian bridge to serve the Powell High School area.

We are eager, primed and ready to begin the upcoming project. When it comes to calculating workload availability, CCI performs a process called Forward Project Management (FPM). Each project and significant project task is pre-planned and pre-staffed. This management plan allows the project team to fully focus energy and effort to each specific project without distraction. Through practiced and disciplined high intensity project management, or FPM, we are able to assure availability for your project needs. Our team is located in close proximity to the project site, and closely familiar with the scope.

The team's availability, prioritization, and project familiarity is combined into the recipe for a successful project.

CCI's office and design team are located **only 15-20 minutes** from the Procurement Division of Knox County and **20–30 minutes** from the project site. If meetings are necessary at the either place, CCI staff are available for scheduled or impromptu meetings as requested.

City of Knoxville First Creek Greenway & Sidewalk Improvements

Cannon & Cannon completely understands the goal of every consultant and contractor is to have all their staff utilized with promising back log. That is our goal as well. **Availability is not defined by workload and projects, but priorities, commitments and follow through.** Upon project award, CCI will meet with Knox County for a kick-off meeting to listen and understand your priorities and establish commitments through a cooperative schedule. CCI has a history of being responsive, meeting client's schedules, and executing follow-through to exceed Knox County's expectations.

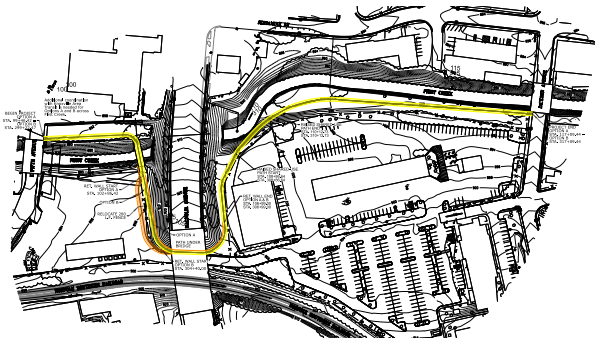
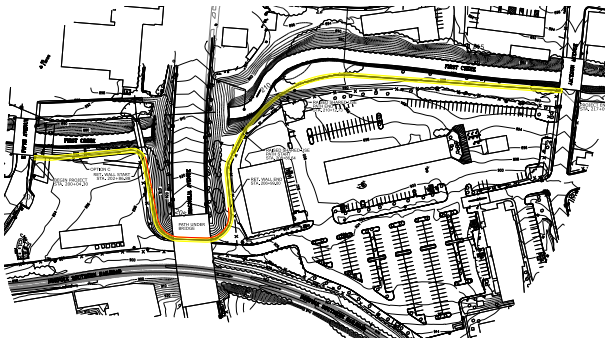
CITY OF KNOXVILLE
FIRST CREEK GREENWAY AND PEDESTRIAN BRIDGE CONCEPTUAL PLAN

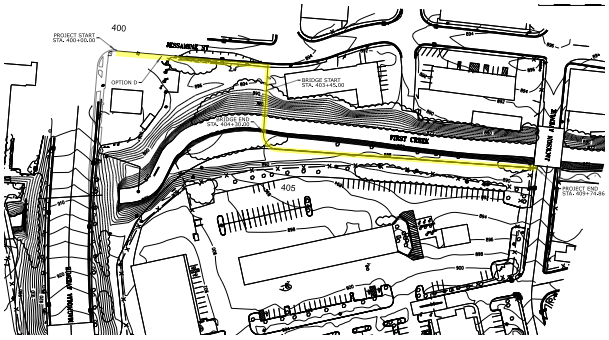
KNOXVILLE, TN



Preliminary Concept A & B



Preliminary Concept C



Preliminary Concept D

Cannon & Cannon, Inc. (CCI) is developing construction plans for the First Creek Greenway project, which will extend from Willow Avenue to Fifth Avenue crossing First Creek with a pedestrian bridge. The project, coordinated with the City of Knoxville and Knoxville Utilities Board (KUB), is located on city property, KUB property, or within the public right-of-way. The scope includes a pre-fabricated pedestrian bridge proposed layout, profile, and cross-sections, incorporating ADA guidelines. CCI is conducting a project walk-through and coordination meetings, utilizing existing boundary and topographic survey data to streamline the design process. CCI evaluated four alternative alignments, including construction cost estimates, to assist the city in determining the best approach for implementation.

CITY OF ROCKWOOD TRAILHEAD & GREENWAY

ROCKWOOD, TN

Greenway

The City of Rockwood partnered with CCI to embark on a project to improve pedestrian access by linking sidewalks and greenways between the City and Tom Fuller Memorial Park. This greenway is a combined Transportation Alternatives and Safe-Routes-to-School Project, which connects the downtown area to the City's premier lake front park. Adjacent to the trail is a community school that also benefits from the upgrades with improved ADA ramp access and sidewalk upgrades. The Rockwood Greenway includes both paved and boardwalk sections meeting in compliance with ADA. This project followed TDOT's Local Programs and ADA Compliance Office Guidelines for the Management of Federally and State Funded Transportation Projects. CCI also managed the preparation of the documentation required under the National Environmental Policy Act (NEPA) in accordance with the TDOT Tennessee Environmental Procedures Manual.

FINAL COST
$166,091

SCOPE OF SERVICES:

- Prepare NEPA documentation and permitting
- Preliminary and Final Design Phase
- Architectural design for comfort station including mechanical, electrical and structural
- Preliminary construction cost estimate
- Coordinate with TDOT and utility companies for Right-of Way and utility certifications
- Submit final construction documents and plan to TDOT for approval
- Construction Administration
- Construction Engineering & Inspection (CEI)
- Easements

Restrooms & Parking

Greenway

CITY OF KNOXVILLE
FIRST CREEK GREENWAY
& SIDEWALK IMPROVEMENTS

KNOXVILLE, TN

Completed Greenway

First Creek Greenway – a connector project: The First Creek Greenway continues the on-going development and construction of the Knoxville Greenway System. Cannon & Cannon, Inc. (CCI) was retained by the City of Knoxville to provide engineering design and surveying services for improvements that include approximately 3,500 feet of greenway and sidewalk construction – a portion of which is adjacent to Broadway and several other major routes in the area. The project begins near the front entrance of Fulton High School and terminates on the north side of Edgewood Park.

CCI was responsible for the following services:

- Field Surveying
- Environmental – NEPA documentation and regulatory agency coordination
- Civil engineering and design
- Hydraulic Analysis and No-Rise Certification or Letter of Map Revision
- Landscape architecture and design
- Structural and geotechnical engineering for pedestrian bridge foundation
- Erosion Prevention and Sediment Control and Permitting service
- Right-of-Way and Utility coordination
- Construction Engineering and Inspection services (CEI) Project funding by a Transportation Enhancement Grant, administered by TDOT.

Completed Greenway

CCI joined the City to meet stringent ADA requirements through an area of both exiting infrastructure and greenfield sections. Design includes bridges, retaining walls and adjacent infrastructure modifications along the First Creek multi-purpose Greenway.

Ribbon Cutting

KNOX COUNTY (PUBLIC BUILDING AUTHORITY) HALLS GREENWAY CONNECTOR

HALLS, TN

CCI provided professional engineering services to design the Halls Greenway from Clayton Park to the existing greenway located along Andersonville Pike at Halls Plaza. Initially CCI developed a conceptual plan and cost estimate for the project and then the project was divided into four phases:

- Phase 1 - Greenway design from Clayton Park to the trailhead at Marco's Pizza
- Phase 2 - Greenway design from the trailhead at Marco's Pizza to Andersonville Pike
- Phase 3 - Shared Use Path Connection between Marco's Pizza Trailhead to Afton Drive
- Sidewalk connection from Afton Drive to existing sidewalks along the west side of Maynardville Pike at the Exxon property
- Pedestrian Signal and Crosswalk Improvements at the Intersection of Afton Drive and Maynardville Pike
- Estimated Cost of Construction
- Phase 4 - Sidewalk Connection between end of Phase 2 at Andersonville Pike and the terminus of the proposed TDOT sidewalk at intersection of Andersonville Pike and the east side of Maynardville Pike
- Estimated Cost of Construction

CITY OF OAK RIDGE
MELTON LAKE GREENWAY PHASE IV

OAK RIDGE, TN

The Melton Lake Greenway borders a diverse ecological environment. Alive with abundant wildlife along its 5 miles length, the multi-use trail features lake front access, forested terrain and wetland areas.

Providing full services for a successful project, CCI began with topographic and boundary survey along the entire Phase 2 route (2 miles) developing legal exhibits where necessary for property acquisition.

Following the initial field survey work, CCI developed design and construction documents and provided Construction Engineering and Inspection (CEI) for the Melton Lake Greenway Trail. The project included vehicular parking area designed to ADA standards and recreational/leisure access nodes including the popular non-motorized off-road Haw Ridge Park.

Notable features of the 10' wide multi-use trail include:

- Interface with existing mountain bike trail system
- Special interest area development
- Alternative trail surfacing
- Indigenous planting plan
- Observation pier along Melton Lake
- Construction Documents
- Designed and constructed under the Local Programs of TDOT.
- CCI adhered to minimum ADA slopes for this greenway with incredible views.

Process and Design plans adhered to TDOT Enhancement Fund criteria including preparing and facilitating mandatory public meeting and review/ approval requirements. Preparation and submittal of all permits including, TVA 26-A, Stormwater Pollution Prevention Plan (SWPPP) and Aquatic Resource Alternation Plan (ARAP) was critical to the project's success. CCI provided topographic and boundary surveys along the proposed greenway route and also prepared legal exhibit for acquisitions.

LEGACY PARKS FOUNDATION
BEAVER CREEK POWELL FLOOD STUDY

POWELL, TN

The Beaver Creek Kayak Launch No-Rise Analysis evaluated the impact of a proposed kayak launch along Beaver Creek near Powell, Tennessee. Conducted by Cannon & Cannon, Inc. (CCI), the study ensured that the installation of an 18-foot by 14-foot dock with an ADA-compliant gangway did not increase floodwater elevations, complying with FEMA and Knox County regulations. Using HEC-RAS modeling, CCI compared pre- and post-project conditions, confirming that the structure did not cause a rise in 100-year or 500-year flood elevations. The report provided supporting hydrologic and hydraulic analysis, ensuring regulatory compliance for the project's approval.

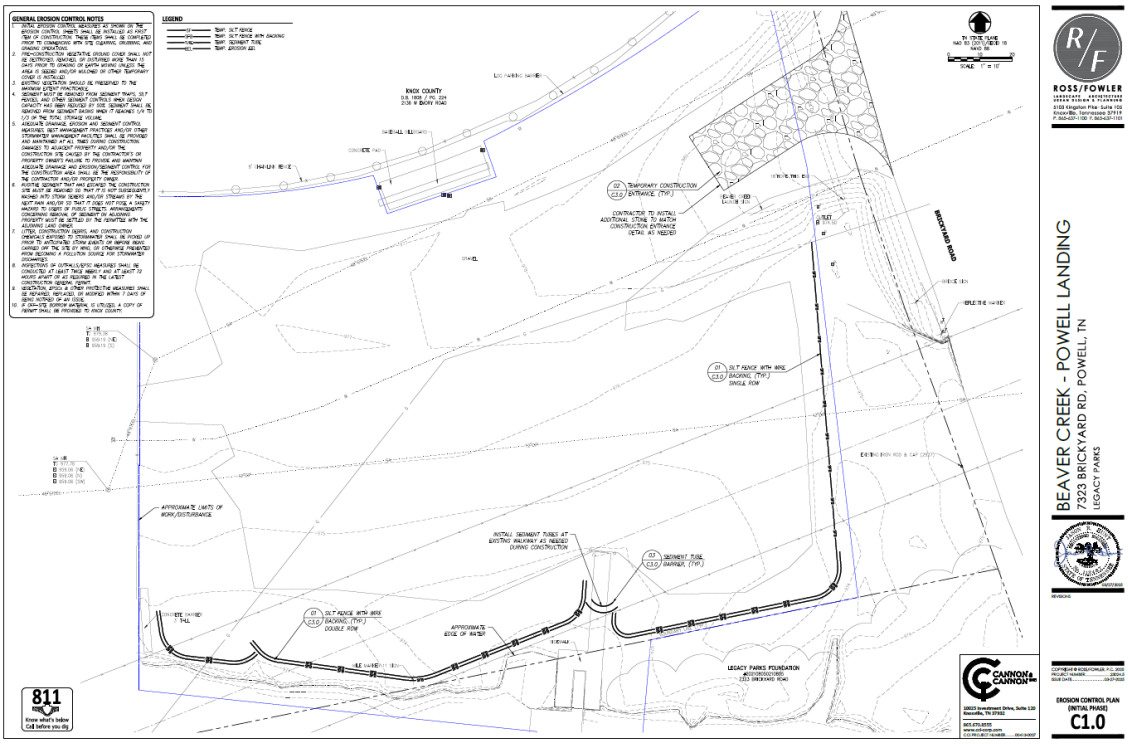
LEGACY PARKS FOUNDATION
POWELL HIGH SCHOOL LANDING PROJECT

POWELL, TN



Erosion Control Plan

Cannon & Cannon, Inc. (CCI) served as a subconsultant to Ross/Fowler for the Legacy Parks Foundation on the Beaver Creek – Powell High School Landing project. CCI's role included conducting a pre- and post-development runoff analysis to demonstrate a net reduction in site runoff, supporting regulatory compliance with Knox County flood requirements. They also developed permit sketches and narratives for the expansion of the existing kayak launch, securing approvals from TDEC, USACE, and TVA. Additionally, CCI prepared erosion control plans based on site layout and grading plans while ensuring compliance with environmental regulations. Their involvement extended to providing limited construction administration services as needed, with plan revisions available as additional services.

Construction Drawings and Specifications

Aquatic & Terrestrial Habitat Surveys

CWA §404/401/ARAP Permitting

Bid Documents

Streambank Restoration Design

Tree Planting

Educational Sign Design and Installation

Topographic Surveys

Construction Observation

OWNER OBJECTIVE

The City of Maryville, Tennessee, sought to restore a section of Pistol Creek in Pearson Springs Park and Sandy Springs Park. Pistol Creek had suffered from historic human impacts. It had been straightened and dredged, and the natural streamside forest was cut down. Changes in the surrounding land-use caused more stormwater to enter Pistol Creek at a faster rate, upsetting its natural balance and leading to massive erosion of the streambanks.

The streambank erosion created unattractive scenery and threatened to damage parts of the Alcoa-Maryville Greenway, and increased sediment pollution was detrimental to the natural habitat. In addition to addressing erosion, the City also sought to improve the water quality and wildlife habitat to enhance the beauty of the park.

CEC APPROACH

This streambank stabilization project went along 2,200 linear feet of Pistol Creek, and several eco-friendly techniques were used. Bio-engineering bank treatments were used to reshape the streambanks, and boulder and log structures were used to increase stability. Native trees and shrubs were also planted alongside the stream.

Stabilization of the streambank reduced bank erosion and sediment entering Pistol Creek, which helped protect Pearson Springs Park, enhance natural habitat, and provide a safe and beautiful natural resource for the residents of Maryville to enjoy.

Key Elements

- Geotechnical Exploration
- Slope Stability Analysis

PROJECT

Third Creek Greenway Repair

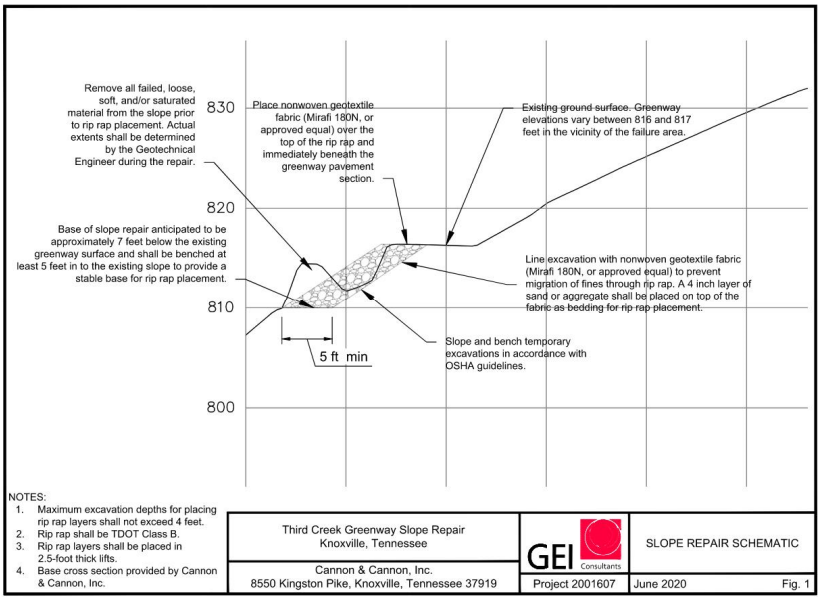
Location: Knoxville, Tennessee
Client: Cannon & Cannon, Inc.

GEI provided geotechnical exploration, laboratory testing, and engineering services to Cannon & Cannon, Inc. (CCI) for repair of a distressed section of a City of Knoxville (the City) greenway.

A section of the Third Creek Greenway in Knoxville, Tennessee was experiencing distress in the form of cracking and downhill translation of the adjacent slope. The area of concern was approximately 50 feet long and impacted the entire outside (i.e., fill side) section of the greenway, which had to be cordoned off by the City. Vertical slope displacements appear to be on the order of 3 to 4 feet, as depicted in the photographs.

The City requested CCI perform a study of the area and prepare typical construction details and bid documents for the selected repair alternative. CCI requested GEI assist in this effort by providing field exploration, laboratory testing, and engineering analysis of the preferred stabilization alternative, which was a rip rap slope/rock buttress.

GEI performed a field exploration at the site consisting of soil test borings and obtained samples for laboratory testing. Upon receipt of the laboratory test results, GEI performed slope stability analysis of the current and proposed repair geometries. GEI then developed a slope repair schematic (shown below) for use in the City's repair.



PROJECT

Virtue Road Improvements

Location: Farragut, Tennessee
Client: Vaughn & Melton and BELL Construction

GEI personnel provided geotechnical exploration, laboratory testing, and engineering services to Vaughn & Melton (V&M) for a realignment, greenway, and bridge replacement project in the Town of Farragut (Town). Additional materials testing support was provided to Bell Construction during construction of the project.

A section of Virtue Road in Farragut, Tennessee had exceeded traffic capacity and required a bridge replacement. Additionally, a closed depression adjacent to the roadway was evaluated as a potential sinkhole. A new greenway was also to be constructed to replace the existing sidewalk for the length of the project.

The Town requested V&M perform a study of the area and prepare typical roadway plans and design a replacement bridge. V&M requested GEI personnel assist in this effort by providing field exploration, laboratory testing, and engineering analysis of the closed depression.

GEI personnel performed a field exploration at the site consisting of soil test borings and obtained samples for laboratory testing. Upon receipt of the laboratory test results, GEI personnel prepared a geotechnical report with recommendations for construction of the roadway and new bridge. Analysis of the closed depression indicated it was likely not karst related.

BELL Construction was awarded the contract to construct the new bridge, greenway, and roadway widening. GEI personnel managed the materials testing on the project including observations of the bridge foundations during construction, field density testing, and laboratory testing.

PROJECTED WORKLOAD

The listing below represents active projects that utilize members of our proposed project team and also have significant work remaining. These projects are in various stages of completion and many are on hold pending action by others – such as TDOT Local Programs. The following is our best estimate of our staff availability at the present time for the next 12 months based on current work remaining under contract:

- Transportation Division Staff: 60%
- Utility Coordination Staff: 20%
- Survey: 20% (Generally maintains a 3-4 week backlog)

Please understand – If CCI is selected for this project – we will manage project tasks and set priorities according to project milestones. We will complete these tasks in a timeframe that will meet and hopefully exceed Knox County's requirements.

- Putnam Co, I-40 at Baxter Lighting and Signals
- Sullivan Co, SR 36 Roadway Lighting
- Carter Co, I-26 Interchange Lighting
- Unicoi Co, I-26 Interchange Lighting

Subject: Evaluation of Consultant Pre-qualification Form
(DT-0330 Revised 11/24)

Dear Mr. Daugherty:

The Department has completed an evaluation of your firm's Consultant Pre-Qualification Form DT-0330 received on March 20, 2025. You are hereby informed that your firm shall be considered as having **Unlimited Qualification** for the following disciplines for a three-year period beginning **March 25, 2025**:

Administrative
CADD Technician
Civil Engineer
Construction Inspector
Construction Manager
Electrical Engineer
Environmental Engineer
GIS Specialist
Geologist
Hydraulic Engineer
Land Surveyor
Project Manager
Technician / Analyst
Transportation Engineer
Water Resource Engineer

Please be advised that consulting firms desiring to contract with TDOT must assume full responsibility for renewing their pre-qualification status via the DT-0330 Part 1 Form.

Thank you for keeping the information regarding the qualification of your firm current with us. Should you have any questions in this regard, please contact this office.

Sincerely,

Chad Schulhauser (Mar 25, 2025 15:31 CDT)

APPENDIX

1.0 Firm Overview

1.1 Knoxville Summary

The Knoxville, TN office of CEC was established in 2014 with two practices, civil and survey. The office has since grown to include ecological, environmental, structural, and water resources practices to compliment the civil and survey practices. It currently includes 73 staff across the noted disciplines. The staff in Knoxville have developed great relationships across the public and private sectors and include a client mix of public and regulatory agencies, municipalities, universities, architects, land developers, contractors, manufacturers, and mining companies.

Civil & Environmental Consultants, Inc. (CEC) was established in 1989 to provide industry-focused consulting services that advance our clients' strategic business objectives, and since that, time has grown for a company of more than 1,500 professionals.

CEC is recognized for providing knowledgeable, innovative design solutions and integrated expertise in the primary practice areas of civil engineering, survey, environmental engineering and sciences, ecological sciences, waste management, GIS, and water resources.

CEC provides high quality professional engineering and environmental science to private and public sector clients. Our services will be offered when properly educated managers and staff are available to meet our clients' technical requirements, time schedule, and budget. Our Core Values include safety, integrity, collaboration, personal and professional development, and service excellence. We provide our clients with personal business relationships; senior project leadership, responsiveness, client advocacy, a knowledge/ understanding of our client's needs, and integrated services.

CEC's Strategic Plan Goals include the following: Accident & Incident Free Workplace: a safe workplace for CEC employees and subcontractors that achieve the safety metrics required by our clients. Culture of Leadership Development: a continuous and sustainable supply of leaders to allow for coherent leadership transition and company growth. Consistently Deliver Quality Services: the services performed on schedule and within budget for our clients.

Be Known for Industry and Technical Expertise: build the reputation as knowledgeable employees and experts in the industries that we serve.

Operate with a Responsible Business Culture: a business culture that is respected by clients, competitors, regulators, the community, and our employees.

CEC will provide services from the Knoxville office but will draw additional support from other CEC offices as necessary to support our clients for requested services as we have done for the past 6 years.

Our staff and company have assisted a significant variety of clients in the public, private, manufacturing, and institutional markets by providing a wide array of engineering and environmental services. Our team is dedicated to serving our clients as a trusted partner and provide exceptional client service from project inception to project closeout and beyond.

GEI Consultants

Founded in 1970, GEI has grown from a small geotechnical specialty firm to over 1,500 professionals with 59 offices in the United States and Canada. As a nationwide leader in geotechnical engineering, GEI's core strength lies in its expertise in this field. While we also offer environmental, water resources, and construction management services, geotechnical engineering remains our primary focus.

GEI has a robust civil, geotechnical, and geostructural engineering design practice. This group designs roads, bridges, foundations, and pipe/pipeline infrastructure projects throughout the US and abroad, including bridges, greenways, pedestrian and bike paths, boardwalks, overlooks, and sidewalks.

GEI has provided geotechnical engineering consulting for numerous landmark construction projects, including commercial, institutional, and industrial buildings; dams, levees, pipelines; tunnels, highways, bridges; and construction-related structures like slurry walls and excavation support systems. Many of these projects also benefit from our environmental, water resources, and ecological expertise, which complement our comprehensive knowledge of soil behavior, groundwater flow, and earth science. This is evidenced by our numerous geotechnical projects and our indefinite delivery contracts with many agencies.

GEI is renowned for its exceptional heritage and expertise in geotechnical investigation and analysis, dating back to our founders. Over the years, we have developed proven methods for economically obtaining the geotechnical data needed to support engineering projects. Our geologists and geotechnical engineers are adept at evaluating project design needs and collecting and reviewing existing information to create an effective and economic data collection effort.

Our qualifications in geotechnical investigations are supplemented by our team's extensive capabilities in geotechnical analysis and evaluation and in preparing geotechnical reports with recommendations for design and construction. Our expertise spans the full spectrum of geotechnical activities, such as review of historical information, subsurface explorations, laboratory testing, geotechnical analyses of all types, distress investigations, foundation design, groundwater studies, subsidence studies, and fault and seismic studies. We often perform value engineering to confirm that viable alternatives are considered and presented.

GEI has an excellent track record for performing projects within established schedules and budgets. We have recent and varied experience with "on call" engineering service contracts and we have the staff capacity to efficiently perform multiple task orders concurrently, something we have done many times for our clients.

The GEI project team's specialized experience can effectively deliver infrastructure planning and design improvement services while minimizing risks typically associated with these types of capital spending efforts. GEI has been involved extensively with public and private sector clients in the scoping, planning, and delivery of infrastructure capital improvements and upgrades including assessments, capital planning, design, bidding, and construction.

Our unique ability to provide so many engineering and science services in-house saves our clients valuable time and money, while providing opportunities to rehabilitate existing parks or to reclaim under-utilized urban sites into public open spaces, parks, and waterfronts.

Contractor's Scope of Services

June 30, 2025

Ben A. Friend, P.E.
Civil Engineering Manager
Knox County Engineering and Public Works
205 West Baxter Avenue
Knoxville, TN 37917

RE: PIN: 134645.00, Proposed Greenway and Pedestrian Bridge
Powell High School Area, Knox County, Tennessee

Dear Mr. Friend:

Cannon & Cannon, Inc. (CCI) is pleased to submit this proposal to Knox County Engineering and Public Works for providing professional engineering and surveying services related to the Powell High School Greenway and Pedestrian Bridge Project. The proposed greenway would extend from the intersection of Powell Drive and Brickyard Road, cross Beaver Creek with a pedestrian bridge, follow the boundary of Powell High School with connection to the existing pedestrian facility along W. Emory Road. See attached map. Since the project is partially funded as part of the Transportation Alternatives Program Grant (TAP), the design services will be performed in accordance with the TDOT Local Government Guidelines. We have based our scope and services on our understanding of the project scope and our previous coordination meeting.

SCHEDULE OF FEES (LUMP SUM - See Attached Scope of Services)	**$231,000**
Topographic and Property Survey	$12,500
NEPA and Concept Plans (10%)	$45,000
Preliminary Plan Phase (40%)	$30,000
Geotechnical Exploration and Report	$33,000
FEMA Flood Study	$25,000
Right-Of-Way Plan Phase (70%)	$30,000

Utility, Right-of-Way, and Permitting Coordination	$12,000
Final Construction Plans (100%)	$30,000
Bidding Services	$7,500
Construction Administration (RFIs)	$6,000

Cannon & Cannon, Inc. (CCI) appreciates the opportunity to prepare this proposal to provide engineering and surveying services for Powell High School Greenway and Pedestrian Bridge. In accordance with your request, the following is a summary of our proposed scope of work and fee structure.

This proposal is valid for 90 days from the date this letter was sent for your review. The budget and timeframe for this proposal shall be renegotiated if it hasn't been signed within this period of time.

We look forward to working with you on this project. Please do not hesitate to contact us with any questions or if you require additional information.

Sincerely,

Jeff Beckett

Attachments: CCI Standard Hourly Rates
CCI Terms and Conditions

SCOPE OF WORK

A. TOPOGRAPHIC AND PROPERTY SURVEY

i. Topographic Survey, including planimetric and utilities.
   - Utility survey does not include location of underground utilities.
   - Above grade and underground utilities will be shown based on visible appurtenances, public records, and/or maps provided by the utility owners.

ii. Property Survey includes right of way and property owner research.

B. NEPA AND CONCEPT PLANS

i. National Environmental Policy Act (NEPA) Documentation
   a. Per TDOT Local Programs Guidelines
   b. Jurisdictional Waters Assessment
   c. Archaeological Survey along Beaver Creek
   d. Protected Species Habitat Assessment

ii. Concept Plans (10%) to be provided with the NEPA document submittal.

C. PRELIMINARY PLANS

i. Title Sheet
ii. Typical Sections
iii. Right-of-Way Notes, Utility Notes, and Utility Owners
iv. Property Map
v. Present Layout
vi. Right-of-Way Details
vii. Proposed Layout
viii. Profiles
ix. Drainage Maps
x. Structural Plans for Bridge Abutments and Prefabricated Bridge Selection.
xi. Greenway Cross-Sections
xii. Preliminary Engineering Construction Cost Estimate

D. GEOTECHNICAL EXPLORATION AND REPORT

i. Geotechnical Drilling and Laboratory Services
   a. At Each Bridge Abutment
   b. Along Greenway path (150-200 ft spacing)

ii. Geotechnical Data Report with boring logs and test results.

E. FEMA FLOOD STUDY

i. Based on the Beaver Creek FEMA Floodway, Flood Plain Mapping and Flood Model, CCI will evaluate the impacts of the proposed greenway and pedestrian bridge.
ii. CCI will evaluate a No-Rise Flood Study and Certification per FEMA regulations.
iii. It is anticipated that Letters of Map Revisions are not warranted. Additional services and fees may be provided upon request.

F. ROW PLANS

i. Preliminary Plans Finalized
ii. Property Maps, Acquisition Tables, and ROW Detail Sheets
iii. Drainage Maps, Culvert Cross Sections and Drainage Design
iv. Structural Design of Bridge Abutments and Prefabricated Bridge Selection.
v. Erosion Prevention and Sediment Control Phased Sheets for Permitting
vi. Traffic Control Plans
vii. Preliminary Engineering Construction Cost Estimate

G. UTILITY, RIGHT-OF-WAY, AND PERMITTING COORDINATION

i. Per TDOT LP guidelines, Initial and Final Utility Coordination with Utility Certification.
ii. Per TDOT LP guidelines, Right-of-Way Coordination with Knox County. CCI to provide legal descriptions for easements and right-of-way acquisition. (Does not include property assessment or acquisition services), Coordinate ROW Certification
iii. Tennessee Department of Environmental and Conservation Permitting (including NPDES, SWPPP and ARAP permitting if necessary), Permit Certification

H. FINAL CONSTRUCTION PLANS

i. Incorporate ROW plans to Construction Plans
ii. List of Standard Drawings (TDOT specifications)
iii. Estimated Quantities and Tabulated Quantities
iv. General and Special Notes
v. Engineer's Construction Cost Estimate
vi. Prepare bid book and technical specifications per TDOT LP guidelines.

I. BIDDING SERVICES

i. Advertise Per TDOT LP Guidelines.
ii. Attend and facilitate Pre-Bid Meeting and Bid Opening.
iii. Respond to contractor's questions for clarification.
iv. Prepare and distribute Bid Addenda as needed.
v. Provide Bid Tabulation and Award recommendation.

J. LIMITED CONSTRUCTION ADMINISTRATION PHASE

i. Attend Pre-Construction Meeting
ii. Contractor Request for Information and Responses

ADDITIONAL SERVICES

The following services are not included in this proposal and may require an amended budget:

1. Utility Design and Relocation
2. Full Construction Engineering Inspection
3. Construction Staking Services

FEE STRUCTURE

Based on our understanding of this project, the proposed budget for the scope of work described is $231,000. CCI will invoice this on a lump sum basis, with monthly invoices to be issued in accordance with monthly estimates of the percent completion of the project. Additional services that may become necessary beyond the project scope of work will be invoiced on an hourly basis at the then-current CCI standard hourly rates. In the unforeseen event the scope of work significantly changes requiring an amended budget, a revised proposal will be submitted for your approval prior to proceeding.

CCI will start work immediately upon authorization to proceed. Reference is made to the attached CCI Standard Terms and Conditions to be included as part of this proposal.

STANDARD TERMS AND CONDITIONS

PROJECT: **PIN 134645.00 PROPOSED GREENWAY AND PEDESTRIAN BRIDGE**
POWELL HIGH SCHOOL AREA, KNOX COUNTY, TENNESSEE

CLIENT: KNOX COUNTY, TENNESSEE

1. APPLICATION: The following terms and conditions shall apply to, and are expressly incorporated in, any Agreement whereby KNOX COUNTY, TENNESSEE hereinafter, "CLIENT") engages CCI (Cannon & Cannon, LLC.) (herein after, "CCI") for its provision of any engineering and related consulting services for CLIENT, and unless excluded or modified in writing, and signed by CCI and CLIENT, all such terms and conditions shall supersede any differing or contrary terms or conditions set forth in any other document exchanged between CCI and CLIENT, including any contract documents pertaining to the above referenced project.

2. STANDARD OF PERFORMANCE: The standard of care for all professional services rendered by CCI, whether engineering or survey services, is that degree of care and skill ordinarily employed by the engineering or surveying profession practicing under the same or similar circumstances, including the particular circumstances of the referenced project. CCI makes no warranties, expressed or implied, with respect to the provision of its services to the CLIENT, nor does CCI assume or owe any fiduciary duty to CLIENT in connection with CCI's provision of any services.

3. DEFECTS/IMPERFECTIONS IN SERVICE: The CLIENT shall promptly report to CCI any defects or suspected defects in CCI's services so that CCI may take measures to minimize the consequences of such defects. The CLIENT further agrees to impose a similar notification requirement on all contractors and subcontractors that perform work on the Project. Failure by the CLIENT to notify CCI of known or suspected defects in CCI's services shall relieve CCI of the responsibility for said defects above the sum that would have been required to remedy said defects when first discovered or suspected.

4. CORPORATE PROTECTION: It is intended by the parties to this Agreement that CCI's services in connection with the Project shall not subject CCI's individual employees, officers or directors to any personal liability for the risks associated with this Project. Therefore, and notwithstanding anything to the contrary contained herein or in any other agreement, the CLIENT agrees that any claim, demand, cause of action, or suit arising from this Agreement and/or CCI's services shall be directed and/or asserted only against CCI, a Tennessee corporation, and not against any of CCI's individual employees, officers or directors.

5. INTERPRETATION: Waivers and indemnities in this Agreement are business understandings between the parties and shall apply to all legal theories of recovery, including breach of contract or warranty, breach of fiduciary duty, tort (including negligence), strict or statutory liability, or any other cause of action. "Parties" means the CLIENT and CCI, and their officers, directors, partners, and employees.

6. SERVICES AND INFORMATION: CLIENT will provide all criteria and information pertaining to CLIENT's requirements for the project, including design objectives and constraints, space, capacity and performance requirements, and any budgetary limitations. CLIENT will also provide copies of any CLIENT-promulgated Standard Details, Standard Specifications, or Standard Bidding Documents which are to be incorporated into the project. CLIENT will furnish the services of soils/geotechnical or other consultants that include reports and appropriate professional recommendations when such services are deemed necessary by the CCI or any other design professionals engaged by CLIENT. CLIENT bears sole responsibility for the technical accuracy and content of any CLIENT-furnished documents and services. In performing professional engineering, and/or surveying and related services hereunder, it is understood by CLIENT that CCI is not engaged in rendering any type of legal, insurance or accounting services, opinions or advice. Further, it is the CLIENT's sole responsibility to obtain the advice and counsel of attorneys, insurance counselors or accountants to protect the CLIENT's legal, risk, and financial interests. To that end, the CLIENT agrees that CLIENT or the CLIENT's representative shall examine all studies, reports, sketches, drawings, specifications, proposals and other documents, opinions or advice prepared or provided by the CCI, and will obtain the advice of an attorney, insurance counselor or other consultant as the CLIENT deems necessary to protect the CLIENT's interests before CLIENT takes action or forebears to take action based upon or relying upon the services provided by CCI. CLIENT recognizes and acknowledges that CCI's performance of services is, in part, dependent upon CLIENT's timely and complete tender of project-related information, e.g. as-built surveys or the like, which may bear on the services CCI has been engaged to perform. CCI shall be entitled to rely upon the accuracy and completeness of such CLIENT information. Unless otherwise expressly agreed in writing, CCI shall bear no obligation to independently verify the accuracy or completeness of such CLIENT information, and shall bear no liability for any loss, damage, or imperfection in its services which is attributable, in whole or in part, to any inaccuracy or incompleteness in such CLIENT provided information.

7. ACCESS TO THE SITE / JOBSITE SAFETY: Unless otherwise agreed in writing, CCI shall have access to the project site for activities necessary for the performance of its services. CCI will take precautions to minimize damage resulting from these activities, but CCI has not included in the project fee the cost of restoration of any damage.

The CLIENT understands that CCI has not been retained and is not responsible, in any way, for the means, methods, sequence, procedures, techniques, scheduling of the project Contractor or of the Contractor's construction related activities, nor has CCI been retained or responsible for jobsite safety. CCI will not be responsible for any losses or injuries that occur at the Project site other than to CCI employees or CCI subconsultants. Any reference in any work product of CCI, including its Instruments of Service, to any site or construction phase safety measures are not intended as, nor shall they be construed, as directives for the Contractor's compliance with applicable safety rules and regulations.

8. LIMITS OF CONSTRUCTION SITE OBSERVATION: To the extent CCI's and/or its Consultant's scope of services may involve any observation of portions of the project work, such review by CCI and/or its Consultants shall not relieve the contractor(s) from its sole responsibility for performing the work in accordance with applicable contract documents and standards of practice and performance in the construction industry. CCI shall not control or have charge of, and shall not be responsible for, any construction means, methods, techniques, sequences, procedures of construction, health or safety programs or safety techniques or safety precautions set forth in any project contract documents. CCI shall not manage, supervise, control or have charge of construction or the contractor's safety program or safety practices. Further, CCI shall not be responsible for the acts or omissions of the contractor or other parties on the project arising out of its/their failure to comply with any federal, state, local, or contractually imposed safety rules and regulations.

9. INDEMNIFICATION: If any claim for personal injury or property damage is brought against the CLIENT by any third-party in relation to CCI's project related services, and such claim is directly related, in whole or in part, to the negligent errors or omissions of CCI, CCI will indemnify the CLIENT against any loss or judgment, including reasonable attorneys' fees and costs, but only to the extent such loss or judgment is actually caused by CCI's negligence.

10. INSURANCE: CCI agrees to procure and maintain, at its expense, Worker's Compensation insurance as required by law of the state within which the project lies; Automobile Liability insurance; Commercial General Liability insurance; and Professional Liability Insurance for claims arising out of CCI's negligent performance of any professional services rendered on behalf of CLIENT. Upon request, CLIENT shall be made an additional insured on Commercial General and Automobile Liability insurance policies and certificates of insurance will be furnished to the CLIENT. CLIENT is not, and cannot be made, an additional insured on CCI's Professional Liability Insurance. CLIENT represents that it is self-insured. Upon request, CLIENT may obtain a certificate of insurance from CCI confirming the issuance of such insurance.

11. N/A

12. OWNERSHIP/RE-USE OF DOCUMENTS/ELECTRONIC DATA: All data, reports, drawings, specifications, record drawings, surveys or survey data and other deliverables (collectively, "Instruments of Service"), whether in printed or electronic media format, provided or furnished by CCI to CLIENT pursuant to this Agreement are, and shall remain, the property of CCI, and in which Instruments of Service CCI shall retain all ownership and property interest therein, including the copyright and the right of reuse at the discretion of the CCI, whether or not the project is commenced or completed.

Because data stored in electronic media format can deteriorate or be modified inadvertently or maliciously without authorization of the data's creator, the party receiving electronic files agrees that it will perform acceptance tests or procedures within 60 days, after which the receiving party shall be deemed to have accepted the data thus transferred. Any transmittal errors detected within the 60-day acceptance period will be corrected by the party delivering the electronic files.

When transferring documents in electronic media format, the transferring party makes no representations as to long-term compatibility, usability, or readability of such documents resulting from the use of software application packages, operating systems, or computer hardware differing from those used by the documents' creator.

CLIENT may make and retain copies of Documents for information and reference in connection with use on the Project by CLIENT. CCI grants CLIENT a limited license to use the Documents on the Project, extensions of the Project, and for related uses of the CLIENT, subject to receipt by CCI of full payment for all services relating to preparation of the Documents and subject to the following limitations: (1) CLIENT acknowledges that such Documents are not intended or represented to be suitable for use on the Project unless completed by CCI, or for use or reuse by CLIENT or others on extensions of the Project, on any other project, or for any other use or purpose, without written verification or adaptation by CCI; (2) any such use or reuse, or any modification of the Documents, without written verification, completion, or adaptation by CCI, as appropriate for the specific purpose intended, will be at CLIENT's sole risk and without liability or legal exposure to CCI or to its officers, directors, members, partners, agents, employees, and Consultants; and (3) such limited license to CLIENT shall not create any rights in third parties. If CCI at CLIENT's request verifies the suitability of the Documents, completes them, or adapts them for extensions of the Project or for any other purpose, then CLIENT shall compensate CCI at rates or in an amount to be agreed upon by CLIENT and CCI. CLIENT or CCI may terminate the Agreement, in whole or in part, by giving seven (7) days written notice, if the other party substantially fails to fulfill its obligations under the Agreement through no fault of the terminating party. Where the method of payment is "lump sum", or cost reimbursement, the final invoice will include all services and expenses

associated with the project up to the effective date of termination. An equitable adjustment shall also be made to provide for termination settlement costs CCI incurs as a result of commitments that had become firm before termination, and for reasonable profit for services performed.

CCI WILL NOT BE LIABLE FOR ANY LOSS OR DAMAGE CAUSED BY A DISTRIBUTED DENIAL-OF-SERVICE ATTACK, VIRUSES OR OTHER TECHNOLOGICALLY HARMFUL MATERIAL THAT MAY INFECT YOUR COMPUTER EQUIPMENT, COMPUTER PROGRAMS, DATA OR OTHER PROPRIETARY MATERIAL DUE TO YOUR USE OF THE WEBSITE OR THE SERVICE OR ITEMS OBTAINED THROUGH THE WEBSITE OR THE SERVICE OR TO YOUR DOWNLOADING OF ANY MATERIAL POSTED ON IT, OR ON ANY WEBSITE LINKED TO IT. IN NO EVENT WILL CCI BE LIABLE FOR DAMAGES OF ANY KIND, UNDER ANY LEGAL THEORY, ARISING OUT OF OR IN CONNECTION WITH YOUR USE, OR INABILITY TO USE, THE SERVICES OR ANY WEBSITES ASSOCIATED WITH IT, INCLUDING ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, INCLUDING BUT NOT LIMITED TO, PERSONAL INJURY, PAIN AND SUFFERING, EMOTIONAL DISTRESS, LOSS OF REVENUE, LOSS OF PROFITS, LOSS OF BUSINESS OR ANTICIPATED SAVINGS, LOSS OF USE, LOSS OF GOODWILL, LOSS OF DATA, AND WHETHER CAUSED BY TORT (INCLUDING NEGLIGENCE), BREACH OF CONTRACT OR OTHERWISE, EVEN IF FORESEEABLE.

13. OPINIONS OF CONSTRUCTION COST: Any opinions of probable project cost or probable construction cost provided by CCI are made on the basis of information available to CCI, together with CCI's experience and qualifications with regard to the aspects of the project for which CCI is providing its professional services. However, since CCI has no control over the cost of labor, materials, equipment or services furnished by others, or over the contractor(s') means and methods of operations or of its determining prices, or over competitive bidding or market conditions, or with regard to the timing of the project work, CCI does not warrant or guarantee that any proposals, bids, price terms, or actually incurred project or construction costs will not vary from any opinions of probable project cost or probable construction cost provided by CCI.

14. DESIGN WITHOUT CONSTRUCTION PHASE SERVICES: Where it is understood and agreed to that CCI's engagement does not include project observation or the review of the Contractor's performance or any construction phase services, the CLIENT shall be responsible at their sole discretion for such services. Further, the CLIENT assumes all responsibility for interpretation of the Contract Documents and for construction observation and/or supervision and waives any claims against CCI that may be in any way connected thereto.

If the CLIENT requests in writing that CCI provide any specific construction phase services and if CCI agrees in writing to provide such services, then CCI shall be compensated for these services as provided for in the Agreement.

15. SUSPENSION OF SERVICES/TERMINATION: In the event CLIENT fails to pay CCI's invoices as they become due, CCI reserves the right, in its sole discretion, to suspend all work under its agreement with CLIENT, and CLIENT bears all risk of delay or other resulting impact to CCI's resumption of performance. The obligation to provide further services under this Agreement may be terminated without cause by either party upon seven (7) days written notice. On termination by either the CLIENT or CCI, the CLIENT shall pay CCI with respect to any services performed to the date of termination (including all reimbursable expenses incurred).

16. SEVERABILITY: If any provision of this Agreement is held invalid or unenforceable, the remaining provisions shall be valid and binding upon the parties. One or more waivers by either party of any provision, term of condition shall not be construed by the other party as a waiver of any subsequent breach of the same provision, term or condition.

17. CCI'S INVOICES AND PAYMENT: CCI will transmit, on at least a monthly basis, its invoice(s) for services. CCI may transmit its invoices more frequently as the circumstances may dictate, or on a

shorter interval as requested by CLIENT. CLIENT agrees to pay such invoice(s) within thirty (30) calendar days of the date of receipt. All charges for professional services and expenses will conform to CCI's schedule of rates which is appended to the Agreement. CLIENT's payment of CCI's invoices shall not be conditioned on any contingency, such as CLIENT's payment of any corresponding funds from a lender or other third-party. CCI will retain receipts for reimbursable expenses in general accordance with the Internal Revenue Service rules pertaining to the support of expenditures for income tax purposes. Receipts will be reasonably available for inspection by CLIENT's auditors upon request. If CLIENT reasonably disputes any charge within a CCI's invoice, CLIENT agrees to give CCI prompt written notice of such dispute, but CLIENT shall otherwise pay all non-disputed charges. Any disputed charges shall be settled within the next billing cycle of CCI.

18. CHANGES: The parties agree that any change or modification to the Agreement, including any document incorporated therein, including to these Standard Terms and Conditions, shall be void and of no force or effect unless such change(s) is/are reduced to writing, dated, executed by an authorized representative of each party, and made part of this Agreement. Adjustments in the period of services and in compensation shall be in accordance with applicable paragraphs and sections of this Agreement. Any proposed fees by CCI are estimates to perform the services required to complete the project as CCI understands the project to be defined. For those projects involving conceptual or process development services, activities often are not fully definable in the initial planning. In any event, as the project progresses, the facts developed may dictate a change in the scope of services to be performed. CCI will inform CLIENT of such situations so that changes in scope and adjustments to time of performance and compensation can be made as required. If such change(s), additional services, or suspension of services results in an increase or decrease in the cost of or time required for the performance of the services, and an equitable adjustment shall be made, and the Agreement modified accordingly.

19. N/A

20. DISPUTE RESOLUTION: All claims, disputes and other matters in question arising out of, or relating to, this Agreement, or the breach thereof, shall be resolved according to the dispute resolution procedures set forth herein, and the parties agree to be bound by all such procedures.

All disputes shall, as an express condition precedent to any other claims procedure or claim for relief, be submitted to non-binding mediation, to be conducted by a third-party neutral mutually agreed upon by the parties. Mediation shall be initiated by written demand upon the adverse party, setting forth the claims asserted. The costs of the mediator shall be borne pro rata by all parties to the mediation. A mediator shall be retained within 30 days of tender of demand for mediation, and a party's agreement to a mediator shall not be unreasonably withheld. Mediation shall be venued in Knox County, Tennessee, or at such other location as the parties may mutually agree.

If mediation does not result in resolution of the dispute, then any and all claims of the parties shall be subject to litigation in the state courts in Knox County, Tennessee. As an express condition precedent to the filing of any claim for professional errors and omissions against CCI, whether by litigation or otherwise, CLIENT shall, at least 60 days prior to the initiation thereof, serve upon CCI at its principal office a written report from a Tennessee licensed professional engineer setting forth the factual grounds for such claim and the engineer's specific opinions as to each instance of any breach of the standard of care by CCI. Such report shall include the engineer's credentials and list of all information reviewed and considered in making such report.

No third-party shall be joined in any dispute resolution proceeding or litigation without the express written consent of CCI. Under no circumstances shall any claim or dispute resolution proceeding be subject to the Federal Arbitration Act.

21. PLACE OF CONTRACTING/GOVERNING LAW: CCI's Agreement to be engaged by CLIENT shall be deemed made and entered into in the State of Tennessee. All terms of CCI's engagement and course of performance shall be construed and governed by the laws of the State of Tennessee. In no event shall any project situated in Tennessee be made subject to the laws of another state.

22. HAZARDOUS MATERIALS: CLIENT represents to CCI that, to the best of CLIENT's knowledge, no hazardous materials are present at the project site. However, in the event hazardous materials are known to be present, CLIENT represents that to the best of its knowledge it has disclosed in writing to CCI the existence of all such hazardous materials, including but not limited to asbestos, PCB's, petroleum, hazardous waste, or radioactive material located at or near the project site, including type, quantity and location of such hazardous materials. In the event CCI encounters undisclosed hazardous materials, CCI shall notify CLIENT and, to the extent required by law or regulation, the appropriate government officials, and CCI may, at its option and without liability for consequential or any other damages to CLIENT, suspend performance of services on that portion of the project affected by hazardous materials until CLIENT: (i) retains appropriate specialist consultant(s) or contractor(s) to identify and, as appropriate, abate, remediate, or remove the hazardous materials; and (ii) warrants that the project site is in full compliance with all applicable laws and regulations. CLIENT acknowledges that CCI is performing professional services for CLIENT and that CCI is not and shall not be required to become an "arranger," "operator," "generator," or "transporter" of hazardous materials, as defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1990 (CERCLA), which are or may be encountered at or near the project site in connection with CCI's services under this Agreement. If, in CCI's sole discretion, CCI's services hereunder cannot be performed in the manner customarily performed by CCI because of the existence of hazardous materials, CCI shall be entitled to terminate this Agreement for cause on 30 days written notice.

23. EXECUTION: Upon execution by all parties, these Standard Terms and Conditions, together with all contract documents, including the exhibits and schedules made a part thereof, constitute the entire Agreement between CCI and CLIENT, and supersede and control over all prior written or oral understandings. This Agreement may be amended, supplemented, or modified only by a written instrument duly executed by the parties.

24. NO THIRD-PARTY BENEFICIARIES: Nothing contained in this Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either the CLIENT or the CCI. The CCI's services under this Agreement are being performed solely for the CLIENT's benefit, and no other party or entity shall have any claim against the CCI because of this Agreement or the performance or nonperformance of services hereunder.

25. THIRD-PARTY CONSENTS: If the CLIENT requests CCI to execute any consent reasonably required to facilitate assignment to a lender, CCI agrees to execute only such consents that are consistent with these terms and conditions, and provided further that such consent is submitted to CCI for review at least 14 days prior to any required execution.

CLIENT hereby acknowledges its receipt, review, and acceptance of the foregoing terms and conditions, and CLIENT represents that it has been afforded an opportunity to review same, and hereby agrees that such terms and conditions represent an arms-length transaction between CLIENT and CCI, each having equal bargaining power.

WHEREAS, Knox County has determined the need to realign E. Copeland Drive at Greenwell Drive (the "Project"); and

WHEREAS, in furtherance of the Project, the Knox County Commission's approval of the acquisition of right-of-way on one (1) tract of land is necessary.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Commission of Knox County hereby approves and authorizes Knox County to acquire right-of-way on one (1) tract of land for the realignment of E. Copeland Drive at Greenwell Drive as identified on the survey prepared by Robert G. Campbell and Associates, a copy of which is attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED, that the use of eminent domain to acquire said right-of-way is hereby authorized if necessary.

BE IT FURTHER RESOLVED, that the Knox County Mayor is hereby authorized to execute any and all documents which may be necessary to acquire right-of-way on the identified tract for the Project, subject to the review and approval of the Knox County Law Director.

BE IT FURTHER RESOLVED, that the Knox County Commission understands that this Resolution authorizes the acquisition of right-of-way on one (1) tract of land for the Project and that the area to be acquired is subject to change and any such change shall not require the approval of the Knox County Commission. It shall only be necessary for the Knox County Commission to approve easement and/or right-of-way acquisitions on any additional tracts not already identified on the plans attached hereto and approved herein.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

WHEREAS, Knox County is preparing to begin construction of the ATMS Phase II traffic signal improvements at 15 intersections in Knox County (the "Project"); and

WHEREAS, the Knox County Procurement Division conducted a competitive bid process for construction of the Project and it has been determined that Progression Electric, LLC submitted the lowest responsible and responsive bid to perform the work; and

WHEREAS, the proposed contract with Progression Electric, LLC is in the amount of $1,979,885.39 and sets forth the terms and conditions for the undertaking of the Project; and

WHEREAS, Progression Electric, LLC has the necessary qualifications to perform the work for Knox County.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The construction contract with Progression Electric, LLC for the ATMS Phase II traffic signal improvements at 15 intersections in Knox County is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the construction contract with Progression Electric, LLC for the ATMS Phase II traffic signal improvements at 15 intersections in Knox County shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

THE COUNTY OF KNOX COUNTY

INSTRUCTIONS TO BIDDERS

BIDS TO BE RECEIVED

[DATE]

Sealed bids for the construction of the following projects will be received by the COUNTY OF KNOX COUNTY, **1000 N CENTRAL STREET, SUITE 100, KNOXVILLE, TENNESSEE 37917** until **4:00 PM 05/08/2025** and opened publicly at 1000 N CENTRAL STREET, SUITE 100, KNOXVILLE, TENNESSEE 37917, **4:00 PM 05/08/2025**. The reading of the bids will begin at **4:00 PM**.

The proposed construction shall be performed in accordance with the most current version of the Standard Specifications for Road and Bridge Construction of the Tennessee Department of Transportation, and the Standard Roadway and Structures Drawings of the Tennessee Department of Transportation which are incorporated herein by reference and made a part hereof. In addition, only the Special Provisions contained within the applicable Proposal Contract will be considered binding. Any reference to any Special Provision not contained within the applicable Proposal Contract shall be disregarded. All questions related to the Proposal Contract, Plans, Specifications or Special Provisions shall be directed to the **ENGINEER, TERRANCE HILL, P.E., KIMLEY-HORN AND ASSOCIATES, INC. (615-564-2869). A non-mandatory pre-bid meeting will be conducted at 10:00 AM AT 1000 N CENTRAL STREET, SUITE 100, KNOXVILLE, TENNESSEE 37917**). Information received from other offices of the COUNTY OF KNOX COUNTY strictly advisory.

IMPORTANT NOTICE TO BIDDERS:

Prospective bidders should read the following instructions carefully before submitting their bids. Special attention is called to the regulations of the COUNTY OF KNOX COUNTY that total bids, rather than unit prices, will be read. Proposals shall be rejected as being irregular if they fail to contain a unit price for each item listed. Extensions of the various items must be sub - totaled, carried forward, and shown as a grand total following the last proposal item. All entries must be in ink.

After a bidder has deposited a proposal with the COUNTY OF KNOX COUNTY, he can withdraw it only on written request in accordance with Subsection 102.07 of the Tennessee Department of Transportation Standard Specifications.

Totals read at the opening of the bids are not guaranteed to be correct and no final award of the contract will be made until bids and extensions have been checked and re-checked.

On all projects which are financed in whole or in part by funds received through Federal agencies and/or the Tennessee Department of Transportation, the awarding of contracts by the COUNTY OF KNOX COUNTY will be subject to approval by the Tennessee Department of Transportation. The COUNTY OF KNOX COUNTY reserves the right to reject any bid proposal which is not acceptable to the parties as listed, although such bid proposal would otherwise qualify

as the lowest and best bid under the Tennessee Department of Transportation Standard Specifications.

The COUNTY OF KNOX COUNTY reserves the right to reject any or all Proposals, to waive technicalities or to advertise for new Proposals, if in the judgment of the awarding authority and subject to TDOT concurrence, the best interest of the COUNTY OF KNOX COUNTY will be promoted thereby.

The COUNTY OF KNOX COUNTY reserves the right to cancel the award of any Contract, at any time prior to execution of said Contract by all parties without any liability against the COUNTY OF KNOX COUNTY.

The awarding of the contract or rejection of all proposals will be made within 60 days after the formal opening of the proposals. Upon award, a detailed letter of instructions will be forwarded along with appropriate documents to the low bidder.

The COUNTY OF KNOX COUNTY hereby notifies all bidders, that it will affirmatively insure that in any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the basis of age, race, color, religion, national origin, sex or disability in consideration for an award.

The COUNTY OF KNOX COUNTY is an equal opportunity affirmative action employer, drug-free, with policies of nondiscrimination on the basis of race, sex, religion, color, national or ethnic origin, age, disability, or military service.

PREQUALIFICATION OF BIDDERS:

Each prospective bidder and subcontractor will be required to file a document entitled "Prequalification Questionnaire." The foregoing shall be filed on a form provided by the Tennessee Department of Transportation. The form must be filled out completely, and the truth and accuracy of the information provided must be certified by a sworn affidavit signed by an officer, partner, owner or other authorized representative of the applicant who has authority to sign contracts or other legal documents on behalf of the applicant. A prospective bidder must be prequalified by and in good standing with the Tennessee Department of Transportation prior to the issuance of a proposal form. A prospective subcontractor must be prequalified by and in good standing with the Tennessee Department of Transportation prior to being approved as a subcontractor. Each prospective bidder or subcontractor shall notify the Tennessee Department of Transportation if there is any subsequent change in the name, organization or contact information provided.

Prospective bidders' "Prequalification Questionnaire" shall be filed with the Tennessee Department of Transportation at least fourteen (14) days prior to the date of opening bids on any letting in which the applicant intends to submit a bid to the COUNTY OF KNOX COUNTY, or at least fourteen (14) days prior to the date on which the applicant requests approval as a subcontractor under a contract awarded by the COUNTY OF KNOX COUNTY. Bidders intending to submit proposals consistently shall complete and submit the prequalification application annually; however, this document may be changed during such period upon submission of additional favorable reports or upon receipt by the Tennessee Department of Transportation of substantiated evidence of unsatisfactory performance. The Tennessee Department of

Transportation reserves the right to request additional information and documentation to clarify and/or verify any information submitted in an applicant's prequalification application.

The prequalification form can be found at the web address
http://www.tn.gov/tdot/section/tdot-construction-division

A proposal to be used for non-bidding purposes may be issued to any interested party regardless of prequalification. This proposal Contract will be marked "Void for Bidding". A contractor that has purchased a proposal contract that was marked "void for bidding" can buy another book once they are fully prequalified before the bid date.

LICENSING REQUIREMENTS

According to the types of funds used, contractor bidding requirements differ. When using any Federal funds, proposals shall be completed as described below:

Proposals shall be submitted by a bidder licensed with the Tennessee Department of Commerce and Insurance (TDCI), Board for Licensing Contractors (BLC) within twenty-one (21) days of the bid opening, in accordance with Subsection 102.11 of the Tennessee Department of Transportation Standard Specifications.

Prior to recommending award of a contract, the Local Government will confirm that the lowest responsible bidder is licensed with the BLC. Because TDOT work classifications and the BLC licensing classifications slightly differ, the Local Government will verify only that the apparent low bidder is licensed in the general classification (e.g., Heavy Construction (HC), Highway, Railroad, Airport Construction (HRA), Specialty (S), Municipal and Utility Construction (MU), or Electrical Contracting (CE)) and not the specific subcategories of these classifications for the type of work involved in the project. This is in recognition that the prime contractor is required to complete 30% of the specific project work and may subcontract the remainder of the work.

Title 48 of Tennessee Code requires all contractors and subcontractors that are domestic or foreign Corporations, Limited Liability Companies, Limited Partnerships, or Limited Liability Partnerships to be in good standing with the Secretary of State (i.e., have a valid Certificate of Existence/Authorization). This includes being duly incorporated, authorized to transact business, and/or in compliance with other requirements as detailed by the Secretary of State.

Bidders that are domestic or foreign corporations, limited liability companies, limited partnerships, or limited liability partnerships, must be in good standing with the Secretary of State (i.e., have a valid Certificate of Existence/Authorization) on or before twenty-one (21) days after proposals are opened.

PROPOSAL BOND

Each proposal must be accompanied by a bidder's bond, or Cashier's Check, or Certified Check made payable to the COUNTY OF KNOX COUNTY in an amount equaling not less than five percent (5%) of the amount bid. In the case of optional items in the proposals, the amount of the bidder's bond or check must be in an amount equaling not less than five percent (5%) of the total amount of the bid based on the high option.

If the bidder's bond is offered as guaranty, the bond must be on the form furnished by the COUNTY OF KNOX COUNTY and made by a surety company, qualified and authorized to transact business in the State of Tennessee and must be acceptable to the COUNTY OF KNOX COUNTY.

If a check is offered as guaranty, the check of the successful bidder will be cashable at the discretion of the COUNTY OF KNOX COUNTY, pending the satisfactory execution and acceptance of the contract and the contract bond.

ISSUANCE OF BIDDING DOCUMENTS

This COUNTY OF KNOX COUNTY and the Tennessee Department of Transportation are on a cash basis for sales of Plans, Proposal Contracts, Standard Specifications, Standard Drawings, Standard Drawing Books and Tabulations of Bids. Requests for documents must be accompanied by cash, check, money order, or they may be mailed to the buyer C.O.D.

A charge of **$0.00** plus **9.25%** sales tax, for in-state delivery, will be made for each Proposal Contract. This charge is applicable regardless of whether the Proposal is to be used for bidding or non-bidding purposes. Proposals will be obtainable until the time set for opening bids. The charge for Plans and/or Cross-sections will be as specified in the Notice to Contractors and this charge will be applicable before the letting and for three months after the letting. Plans ordered after the three month period will be furnished at **$5.00** per sheet. Individual Plan sheets and individual Standard Drawings will be furnished at **$5.00** per sheet. Tabulations of bids will be furnished at **$5.00** per sheet. Tennessee Department of Transportation Standard Drawing Books will be furnished by the Tennessee Department of Transportation at **$100.00** per book plus **9.25%** sales tax, for in-state delivery. The most recent version of the Tennessee Department of Transportation Standard Specifications for Road and Bridge Construction will be furnished by the Tennessee Department of Transportation at **$12.00** per book plus **9.25%** sales tax, for in-state delivery. There will be a minimum charge of $2.00 on any purchase. All documents will be furnished without refund and transmitted at your risk.

When two or more contractors wish to bid together in a joint venture, each contractor will be required to make a written request for such a proposal to the COUNTY OF KNOX COUNTY. This request shall be signed by an authorized signatory of each firm.

Requests for joint venture proposals may be made in person or by telephone. However, the proposal for said joint venture will not be issued until the request in writing, as set forth above, is received by the COUNTY OF KNOX COUNTY.

MANDATORY SUBMITTAL OF SUBCONTRACTOR BID QUOTES (BIDDERS LIST)

All bidders for each project must provide a list of all subcontractors who provide a quote to perform work. The list shall be provided on the TDOT form "Certification Regarding Subcontractor Bid Quotes" (Bidders List) and include the type of work in which quotes were submitted. All bidders shall submit this form before the close of business (4:30 PM, Local Time) three (3) business days after the date on which bids are required to be submitted (e.g., if bids are required to be submitted on a Friday, then the completed from is due by 4:30 PM on the following Wednesday). Failure to complete and submit this form with the time period required may result in the proposal being deemed non-responsive and forfeiture of bid bond for the bidder. Any bidder that fails to submit the required bidders list may have their prequalification

status changed and ability to bid as prime contractor rescinded.

REJECTION OF PROPOSALS

Proposals will be rejected as irregular if prior to the formal opening of the Proposal all of the following documents have not been signed: (1) the bidder shall sign by written signature the Proposal form, (2) the bidder shall sign by written signature the Proposal Certification form, (3) the bidder shall sign by written signature the Proposal Bond form or the Proposal Guarantee, whichever is applicable, (4) the Agent or Attorney-in-Fact representing a Surety Company shall sign by written signature the Proposal Bond, if applicable. In addition, Proposals will be rejected if any of the above signatures are a reproduced copy, such as, but not limited to a photostatic copy or a facsimile transmission. An original, dated and valid Power of Attorney for the Attorney-in-Fact must accompany the Proposal and the Contract. The accompanying Power of Attorney must be dated, and the date must be the exact same date as the date on the Proposal Bond. The Proposal and the Proposal Bond, including the attached Power of Attorney, shall be valid and binding for 60 days subsequent to the date of opening bids.

Proposals shall be completed on the forms as issued. Proposals will be rejected as being irregular if they are not prepared on the prescribed forms; if they show any omissions, alterations of form, additions, or conditions not called for, unauthorized alternate bids, or irregularities of any kind; or if they fail to contain a unit price for each item listed. Proposals may be rejected if any of the unit prices contained therein are mathematically unbalanced, either excessive or below the Engineer's Estimate.

Written alterations to unit prices and extensions of the various items in the bid item sheets of the Proposal or, for computer assisted bids (CAB), in the CAB program generated set of bid item sheets will not be cause for rejection of the Proposal, provided each alteration is made in ink and is initialed by a duly authorized official of the company. In case of conflict between altered unit prices or extensions thereof, the unit price in numerals will govern.

The Plans and Specifications are as much a part of the proposal form as if they were bound therein. All of the documents contained therein are part of the proposal. Proposals shall not be taken apart. Proposals taken apart may be subject to rejection. Photostatic or facsimile copies of Proposal sheets may not be attached to the Proposal. Proposals containing forms not issued by the COUNTY OF KNOX COUNTY may be subject to rejection.

Proposals will be rejected as irregular if the bidder fails to acknowledge all addenda.

Proposals will be rejected as irregular when submitted by a bidder who is not prequalified and in good standing on the date of letting in accordance with Subsection 102.01 of the Tennessee Department of Transportation Standard Specifications and Chapter 1680-5-3, Prequalification of Contractors, of the Rules of the Tennessee Department of Transportation.

Proposals will be rejected as irregular when submitted by a bidder who is not licensed according to the requirements as detailed above.

Reasonable grounds for believing that there has been collusion among the Bidders will cause a rejection of all Proposals in which the Bidders involved are interested.

ADDENDA

Addenda to the Proposal will be acknowledged by all bidders. Failure to acknowledge receipt of Addendum Letters is grounds for rejection.

RETAINAGE

Effective for all contracts, the COUNTY OF KNOX COUNTY will not hold retainage. In addition, the Contractor will not be able to hold retainage from the subcontractor.

SUBCONTRACTS

Your special attention is called to Section 105 - Control of Work, and Section 108 - Prosecution and Progress of the Tennessee Department of Transportation Standard Specifications, concerning duties of the contractor and subletting of contracts.

CHANGED CONDITIONS

Your special attention is called to Section 104.02 of the Tennessee Department of Transportation Standard Specifications, concerning changed conditions on this contract.

The following information applies to Federal-Aid construction projects:

NOTICE TO ALL BIDDERS

To report bid rigging activities call:

1-800-424-9071

The U.S. Department of Transportation (DOT) operates the above toll-free "hotline" Monday through Friday, 8:00 a.m. to 5:00 p.m. eastern time. Anyone with knowledge of possible bid rigging, bidder collusion, or other fraudulent activities should use the "hotline" to report such activities.

The "hotline" is part of the DOT's continuing effort to identify and investigate highway construction contract fraud and abuse and is operated under the direction of the DOT Inspector General. All information will be treated confidentially and caller anonymity will be respected.

Supplemental Specifications – 100SS

of the

Standard Specifications for Road and Bridge Construction

January 1, 2021

Subsection 101.03, (pg. 5), 8-21-23; **Terms;** Revise:

Change Directive. A written document issued by the Department that provides the Contractor with additional compensation, time, or both as determined to be fair and reasonable by the Department and that does not require the consent or signature of the Contractor or Surety. The Change Directive becomes a part of the Contract when properly executed and approved by the Department.

Subsection 101.03, (pg. 7), 12-26-24**; Definition and Terms;** Revise Holidays definition:

Holidays. Holidays recognized by the State of Tennessee occur as follows:

New Year's Day	January 1
Martin Luther King Jr. Day	Third Monday in January
Presidents' Day	Third Monday in February
Good Friday	Friday before Easter
Memorial Day	Last Monday in May
Juneteenth	June 19
Independence Day	July 4
Labor Day	First Monday in September
Columbus Day	Second Monday in October
Veterans Day	November 11
Thanksgiving Day	Fourth Thursday in November
Christmas Day	December 25

All days appointed by the Governor of this State, or by the President of the United States, as days of fasting or thanksgiving.

Plan notes precluding restrictions to traffic on holiday weekends, unless specifically noted otherwise, do not apply to weekends associated with Martin Luther King Jr. Day, Presidents' Day, Juneteenth, Columbus Day, and Veterans Day

Subsection 102.09, (pg. 17), 12-19-22; **Rejection of Proposals;** Revise No. 10:

10. The apparent low bidder fails to complete and submit the Department form "Certification Regarding Subcontractor Bid Quotes" (Bidders List) electronically before the close of business (4:30 PM Central Time) within five (5) calendar days after the date on which bids are required to be submitted.

Subsection 102.09, (pg. 17), 12-26-24**; Rejection of Proposals;** Revise No. 10:

10. ~~The apparent low~~A bidder fails to comply with the "Instructions to Bidders" regarding the "Mandatory Submittal Of Subcontractor Bid Quotes (Bidders List)".~~complete and submit the Department form "Certification Regarding Subcontractor Bid Quotes" (Bidders List) electronically before the close of business (4:30 PM Central Time) within five (5) calendar days after the date on which bids are required to be submitted.~~

Subsection 104.03.B & C, (pg. 23-24), 9-7-21; **Contract Change Notification; B & C;** Revise subsections:

B. Written Acknowledgement by Engineer

The Engineer will provide written acknowledgement of the Contractor's written notice within ten (10) calendar days.

C. Written Response by Engineer

The Engineer will provide a written response within the specified number of calendar days based on the requested contract change:

1. For requested changes to the contract time in excess of one hundred eighty (180) days or requested changes that alter the original contract amount by more than $200,000, the Engineer will respond within thirty (30) days of receiving the Contractor's written notice.

2. For requested changes to the contract time in excess of ninety (90) days but less than or equal to one hundred eighty (180) days, or requested changes that alter the original contract amount by more than $100,000 but less than or equal to $200,000, or by more than ten percent (10%) of the original contract, whichever is less, the Engineer will respond within twenty-one (21) days of receiving the Contractor's written notice.

3. For all other requested changes to the contract, the Engineer will respond within fourteen (14) calendar days of receiving the Contractor's written notice.

The written response to the Contractor's written notice will include one of the following:

1. Confirmation that a change is necessary in accordance with **104.02**, and direction on how the Work will proceed.

2. A denial of the request for a change, which will include references to the Contract as to why the condition does not represent a change.

3. A request for additional information stating the specific information needed and the date by which it must be received. The Engineer will respond to the additional information provided within fourteen (14) calendar days.

When a change is necessary, the Engineer will make appropriate adjustments to the Contract price and time, if warranted, in accordance with **108.07**, **109.04**, **109.05.A**, and **109.06**. If the Contractor disagrees with the Engineer's decision or does not agree with the Contract adjustments, the Contractor may pursue the issue as a claim in accordance with **105.16**.

Subsection 104.03.C, (pg. 24,25), 8-21-23; **Written Response by Engineer;** Add 3rd Paragraph and Revise 4th Paragraph:

The Contractor will, upon request, have an opportunity to discuss the Contract change by informal meeting with the Department's Regional representatives associated with the change prior to the issuance of the Engineer's written response. If such a meeting is held, the Contractor shall use the opportunity to present relevant information and respond to any information provided by the Engineer or other Department officials with knowledge of the Work.

When a change is necessary, the Engineer will make appropriate adjustments to the Contract price and time, if warranted, in accordance with **108.07, 109.04, 109.05.A**, and **109.06**. If the Contractor disagrees with the Engineer's decision or does not agree with the Contract adjustments, the Contractor may pursue the issue as a Request for Equitable Adjustment in accordance with **105.16**. At this time, the Department may issue a Change Directive even if the Contractor does not pursue a Request for Equitable Adjustment.

Subsection 104.04, (pg. 25-26), 12-27-23; **Maintenance of Traffic;** Revise 2nd and 5th Paragraph:

The Department will pay for materials used at the direction of the Engineer to construct and maintain approaches, crossings, intersections, and other features at contract unit prices unless the Contractor is responsible for the damage. Open cuts of roadways and streets shall be safely maintained for traffic during the Work. This includes, but is not limited to, placing and compacting a bituminous mix in the open cuts or placing metal plates over the open cuts, where allowed, before returning traffic to the roadway. Tie-ins for sideroads shall be safely maintained for traffic by paving to the binder course, striping, and placing temporary or permanent signs as needed, at minimum, unless otherwise directed by the Engineer. Maintenance of traffic control features, mowing, and pothole patching (cold mix) are incidental to the work and the responsibility of the Contractor.

Do not close lanes or restrict traffic on the following days without the Engineer's written consent:

- Easter: After 6:00 pm on the Thursday preceding Good Friday through Easter Sunday until the following Monday at 6 am.
- Memorial Day: After 12:00 noon on the preceding Friday through Memorial Day until the following Tuesday at 6 am.
- Independence Day:
  a. Monday: After 12:00 noon on the preceding Friday through Independence Day until the following Tuesday at 6 am.
  b. Tuesday: After 12:00 noon on the preceding Friday through Independence Day until the following Wednesday at 6 am.
  c. Wednesday: After 12:00 noon on the preceding Tuesday through Independence Day until the following Thursday at 6 am.
  d. Thursday: After 12:00 noon on the preceding Wednesday through Independence Day until the following Monday at 6 am.
  e. Friday: After 12:00 noon on the preceding Thursday through Independence Day until the following Monday at 6 am.
  f. Saturday: After 12:00 noon on the preceding Thursday through Independence Day until the following Monday at 6 am.
  g. Sunday: After 12:00 noon on the preceding Friday through Independence Day until the following Tuesday at 6 am.
- Labor Day: After 12:00 noon on the preceding Friday through Labor Day until the following Tuesday at 6 am.
- Thanksgiving: After 12:00 noon on Wednesday before Thanksgiving through Sunday following Thanksgiving until the following Monday at 6 am.
- Christmas/New Year's Day: December 24 through January 1 and any preceding and/or following days that fall on a weekend.

Subsection 105.16, (pg. 49-55), 8-21-23; **Claims for Adjustment and Disputes;** Revise Subsection:

105.16 Request for Equitable Adjustment (REA) and Disputes

This subsection details the optional REA process for receiving, reviewing, and deciding on REAs submitted to the Department. If such REAs cannot be successfully negotiated or resolved within this process, the Contractor has the right to submit a formal claim through the Tennessee Claims Commission as acknowledged in this subsection.

All events or conditions that have a potential or anticipated effect on the Project's progress or schedule and that may result in a REA by the Contractor shall be documented contemporaneously with the event or

discovery of the pertinent condition(s), or immediately thereafter. REAs that are submitted without proper documentation will not be reviewed by the Department.

A. Notice of Intent to File a REA

If the Contractor has followed the process under **104.03** to request additional compensation, time, or both under **104.02 or 108.07** and the Contractor disagrees with the Engineer's decision or the Contract adjustments made by the Department, the Contractor may provide notice of intent to file a REA. The Contractor shall provide such notice in writing within thirty (30) calendar days of receiving the Engineer's decision as provided in **104.03**.

After submitting the notice of intent to file a REA, if the subject work is not yet complete, the Contractor shall maintain adequate records related to the REA, including records of the disputed labor, equipment and materials, and schedule updates per **108.03** showing compensable delays to the completion date. If applicable, update and disclose this information to the Department monthly. The Department may audit REA records at any time. Unless the Engineer suspends in writing the affected work, the Contractor shall continue to perform the disputed work. If such notice to file a REA is not given, or if the Engineer is not given sufficient opportunity for keeping strict account of the Contractor's actual Work, then the Contractor waives any claim for additional compensation under the REA process. Such notice by the Contractor and the Engineer's accounting of the cost shall not, in any way, prove or substantiate the validity of the REA. Nothing in this Subsection shall be construed as establishing any REA contrary to the terms of **104.02 or 108.07**.

B. Submission of REA

Within sixty (60) calendar days after submitting the notice of intent to file a REA, or within sixty (60) calendar days after completion of the disputed Work, whichever is later, or within such time agreed upon by the parties in writing, the Contractor shall submit a complete REA package. The REA package shall include all documents supporting the REA and provide sufficient detail to enable the Department to ascertain the basis and amount of the REA. If requested by the Contractor, the Department may extend the sixty (60) calendar day period in writing. As a minimum, the following information shall be submitted with each REA:

1. A REA certification containing the language shown in Figure 105.16-1; this figure can be found on the Department's Construction Division website.

2. A detailed factual statement of the REA for additional compensation, time, or both, providing all necessary dates, locations, and items of work affected by the REA, including:

   a) Each aspect of the Project affected by matters related to the REA.

   b) The specific Project locations where Project work has been so affected;

   c) The number of people working on the affected aspects of the Project at the pertinent time(s);

   d) The types and number of pieces of equipment working on the affected aspects of the Project at the pertinent time(s); and

e) If applicable, any other request for relief that the Contractor intends to file or has reason to believe that it may file against the Department that would be impacted by the matters related to the REA.

3. The specific provisions of the Contract that support the REA and a statement of the reasons why such provisions support the REA;

4. If an extension of contract time is sought, a schedule analysis as required by **108.07**;

5. If additional compensation is sought, the amount and specifics of the compensation in accordance with the following:

   a) Compensable Items: Must be compensable under **109.04**,

   b) Compensable Delay related costs: Must be compensable under **109.06**; and

   c) Non-Recoverable Costs: Per **109.07**, non-recoverable costs shall not be considered in a REA.

6. Any worksheets used to prepare the REA, which indicate the cost components of each item of the REA, including but not limited to the pertinent costs of labor, benefits and insurance, materials, equipment, and compensable subcontractor costs, as well as all documents which establish the relevant time periods, individuals involved, and the Project hours and the rates for the individuals.

The Contractor and its subcontractors and suppliers involved with the REA shall cooperate with any inquiries or requests by the Department for clarification and data supporting the submitted documentation.

C. REA Informal Meeting

Within thirty (30) calendar days of receiving the Contractor's REA submittal, the Department will contact the Contractor in writing to schedule a meeting to afford the Contractor an opportunity to discuss the disputed matters informally with the Department. If the Contractor elects to participate in a meeting, the Contractor shall use this opportunity to present relevant information and respond to any information provided by the Engineer or other Department officials with knowledge of the Work. Proceedings in any REA meeting are compromise negotiations and are not admissible in litigation in accordance with Tennessee Rule of Evidence 408.

D. Department Decision

When the Contractor properly files a REA and allows for reasonable and timely access to the Contractor's relevant books and records, the Department will review the REA and render a written decision to the Contractor to either affirm or deny the REA package, in whole or in part, within sixty (60) calendar days after receipt of the REA package or after the informal meeting. If more time is needed for review, the Department will notify the Contractor in writing of the additional time required.

The Department will assemble and maintain the REA record consisting of the REA and all other information considered by the Department in reaching a decision. Once the Department assembles the REA record, the submission and consideration of additional information or data, other than for clarification and support of previously submitted documentation, will not be permitted. The Department will provide a copy of the REA record and the written decision to the Contractor describing the information considered by the Department in reaching a decision and the basis for that decision.

If as a result of the REA documentation or REA Informal Meeting, the Department and the Contractor reach an agreement to resolve the REA, the Department will prepare a Change Order setting forth the terms of any additional compensation or time, or both, as agreed, and the Change Order will be processed for approval in accordance with the Department's standard procedures.

If the Department agrees that the Contractor is due additional compensation, time, or both, but the Department and the Contractor cannot agree on the amount, the Department may issue a Change Directive providing for additional compensation, time, or both, as the Department determines to be fair and reasonable. The Contractor may continue to pursue a claim as acknowledged in this Subsection.

If the Department denies the REA, the Contractor may either accept the Department's decision as final or submit to the Department a written notice of intent to file a claim with the Tennessee Claims Commission to the Department. The Contractor may file a claim with the Tennessee Claims Commission in accordance with TCA § 9-8-307.

Subsection 106.06.A.1, (pg. 61), 12-15-21; **Field Laboratory, Type A;** Revise No. 1:

1. Scales of appropriate capacity and design to weigh the required samples. Scales are to be sensitive to within 0.1% of the sample to be weighed. Provide standard weights for scale calibration. Scale calibration shall be completed annually, by an independent source.

Subsection 107.13, (pg. 75), 1-9-23; **Legal Responsibilities of the Contractor;** Add New 3rd Paragraph:

The Contractor certifies that it is not currently engaged in, and covenants that it will not, for the duration of the Contract, engage in a boycott of Israel, as that term is defined in Tenn. Code Ann. § 12-4-119. This certification does not apply to a Contract with a value of less than two hundred fifty thousand dollars ($250,000) or if the Contractor has fewer than ten (10) employees.

Subsection 107.20, (pg. 78), 12-19-22; **Certified Payrolls;** Revise Subsection:

As specified by Minimum Wage Scales for Federal-Aid and State Funded Construction contract provisions, submit and certify payrolls for each week in which any contract work is performed. All payrolls shall be submitted electronically through the website using AASHTOWare Project Civil Rights & Labor (CRL) software.

Register for payroll access and develop a method of import prior to the Preconstruction Conference. Ensure each subcontractor, including all Disadvantaged Business Enterprises (DBE), certified Small Business Enterprises (SBE), and DBE or SBE haulers, has registered in CRL for payroll access and developed their method of import prior to commencing Work.

Assume all responsibility for ensuring all payrolls and all subcontractor payrolls are submitted and certified electronically in CRL for each week in which any contract work is performed. If all payrolls are not received in this timeframe, the progress payment shall be withheld until all necessary payrolls have been received.

Once Work begins for the Contractor or subcontractor, if in any week the Contractor or subcontractor does not perform Work, check the box "No Work Until Further Notice" in CRL.

Subsection 108.01, (pg. 79, 80), 12-15-21; **Subletting of Contract;** Revise Item list:

Item 105-01 – Construction Stakes, Lines and Grades
Item 202-01 – Removal of Asbestos
Item 203-40 – Rock Anchors, Anchor Blocks, Tie Back Anchors
Item 209 – Project EPSC
Item 411-12 - Scoring
Item 411-33 – Stamped Asphalt
Item 501-03 – Concrete Shoulder Rumble Strip
Item 503-01 – Grinding Concrete Pavement
Item 602-03 – Steel Structures
Item 602-04 – Steel Structures
Item 602-10.81 – Heat Straightening
Item 603-02 – Repainting Steel Structures
Item 603-05 – Containment and Disposal of Waste
Item 604-04.01 – Applied Texture Finish (New Structures),
Item 604-04.02 – Applied Texture Finish (Existing Structures)
Item 604-04.10 – Graffiti Protection
Item 604-04.20&.21 – Painting or Staining Concrete Surfaces
Item 604-04.62 – Clean and Texture Finish Median Barrier
Item 604-05.31 – Bridge Deck Grooving (Mechanical)
Item 604.07 – Retaining Wall
Item 604-42.01 – Underwater Divers
Item 606-26.05 – Core Drilling for Piles (Abandoned)
Item 617 – Bridge Deck Sealant
Item 619 – Polymer Modified Concrete Overlay
Item 624 – Retaining Wall
Item 625-01.08,10,11 – Inclinometer, Camera Drilled Shaft Inspections
Item 705 – Guardrail
Item 706 – Guardrail Adjusted, Removed and Reset
Item 707 – Fences
Item 712 – Temporary Traffic Control
Item 713 – Highway Signing
Item 714 – Roadway and Structure Lighting
Item 716 – Pavement Markings
Item 721 – Landscape and Irrigation
Item 724 – Landscape Lighting
Item 725 – ITS items
Item 730 – Traffic Signals
Item 740 – Geosynthetics
Item 79* – Utilities
Item 801 – Seeding
Item 802 – Landscape Plantings
Item 803 – Sodding
Item 805 – Erosion Control
Item 806 – Project Mowing

Subsection 108.01, (pg. 79, 80), 12-19-22; **Subletting of Contract;** Add to & Revise Item list:

Item 108-03 – CPM Project Schedule

Item 203-11 – Scaling and Trimming
Item 203-40 – Anchors
Item 406 – High Friction Surface Treatment
Item 617 – Bridge Deck Sealant and Thin Epoxy Overlay

Subsection 108.03.A, B, & C, (pg. 81,82,85,87,88), 9-7-21; **Contract Change Notification; A & B;** Revise Heading,
C.1.c; Add new No.vi, **C.3;** Revise last paragraph, **C.4;** Revise last paragraph & add sentence:

A. Project Durations Less Than 9 Months

B. Project Durations 9 Months to 24 Months

C.1.c Narrative report in PDF file format fit to 8.5x11 inch paper and including:…

vi. The quantity and estimated daily production rate for controlling activities;

vii. Description of the calendars including identification of workdays per week, holidays, number of shifts per day, and number of hours per shift;

viii. Description of how the schedule accommodates adverse weather days for each month; and

ix. Description of execution plan, including number and type of crews, a list of subcontractors' crews, and expected equipment, but not limited to large equipment transport and delivery, transportation permits for oversized/overweight loads, and availability.

3. Baseline CPM Schedule.

The Engineer and Contractor will review the draft baseline CPM schedule at a meeting specific for the review of the schedule. The Engineer will accept the draft baseline CPM schedule, provide review comments, or request additional information. Make appropriate adjustments or provide additional information within 14 calendar days. The Engineer's acceptance is based solely on whether the baseline schedule meets the requirements of **108.03**. Review comments made by the Engineer on the initial schedule will not relieve the Contractor from compliance with the Contract. The Contractor is responsible for scheduling, sequencing, and prosecuting the Work to comply with the Contract requirements.

4. Schedule Updates.

Submit the updated schedule electronically to the Engineer in accordance with the requirements of this subsection. The Engineer reserves the right to reject any schedule updates because of changes in relationships between activities on the critical path, inadequate or inaccurate narrative updates, or other deficiencies in the schedule updates as required in this subsection.

The Department will measure and pay for CPM Project Schedule in accordance with **108.11** and **108.12** respectively.

Subsection 108.03.C, (pg. 84, 87-88), 6-1-23; **Prosecution of Construction, Project Durations Greater Than 24 Months or When Required By Contract;** Revise 1st Paragraph, **C.4**; Revise 1st and Relocate last Paragraph:

Develop a Critical Path Method (CPM) project execution schedule and subsequent updates as required or as specifically requested by the Engineer. Generate the CPM schedule using Primavera Project Management (P6) scheduling software. The Department will measure and pay for CPM Project Schedule in accordance with **108.11** and **108.12** respectively.

C.4. Schedule Updates. Update the CPM schedule on a quarterly (3 months) basis to show current progress. Include the following with each update:

~~The Department will measure and pay for CPM Project Schedule in accordance with **108.11** and **108.12** respectively.~~

Subsection 108.03.C, (pg. 87-88), 12-26-24**; Prosecution of Construction, Project Durations Greater than 24 Months or When Required by Contract;** Add as last Paragraph, **C4.** Revise 1st Paragraph:

Review and acceptance by the Engineer will not constitute a waiver of any Contract requirements and will in no way assign responsibilities of the work plan, scheduling assumptions, and validity of the work plan or schedule to the Department. Failure to include in the Progress Schedule any element of work required for timely completion of the Contract shall not excuse the Contractor from his contractual obligations.

C.4. Schedule Updates – Update the CPM schedule on a quarterly (3 month) basis to show current progress. If actual construction falls behind the plan of operations or schedule by more than 3 months, update the schedule on a monthly basis at no additional cost to the Department. Continue to submit monthly updates until project completion or the schedule is no longer behind by 3 months or more. Include the following with each update:…

Subsection 108.03.D, (pg. 88-89), 6-1-23; **Schedule Revisions;** Revise 1st Paragraph and Revise No. 2:

The Engineer will determine the progress of the Contract by either the time versus money straight line method or the schedule updates submitted by the Contractor. If actual construction falls behind the plan of operations or schedule by more than 15% or 60 calendar days, whichever is less, submit for approval a revised schedule that reflects timely completion. The Engineer may request a revision of the schedule at any time if a critical circumstance regarding the scheduling, sequencing, or prosecution has changed with planning or progress of the Work. Circumstances that may lead to such a request include the following:

2. A difference of 60 calendar days between the actual sequence or duration of work and that depicted in the schedule; or

Subsection 108.09, (pg. 95), 12-19-22; **Failure to Complete Work on Time;** Revise Table 108.09-1:

Table 108.09-1: Liquidated Damages for Failure to Complete the Work on Time

Original Contract Amount ($)			Daily Charge ($/day)
0	to	500,000	500.00
> 500,000	to	1,000,000	600.00
> 1,000,000	to	2,000,000	800.00
> 2,000,000	to	10,000,000	1,000.00
>10,000,000	to	20,000,000	1,600.00
>20,000,000			2,500.00

Subsection 108.09, (pg. 7), 1-8-25; **Failure to Complete the Work on Time;** Revise Table 108.09-1:

Table 108.09-1: Liquidated Damages for Failure to Complete the Work on Time

Original Contract Amount ($)			Daily Charge ($/day)
0	to	500,000	500.00
> 500,000	to	1,000,000	600.00
> 1,000,000	to	2,000,000	800.00
> 2,000,000	to	10,000,000	1,000.00
>10,000,000	to	20,000,000	1,600.00
>20,000,000			2,2500.00

Subsection 108.11, (pg. 99), 9-7-21; **Method of Measurement;** Add subsection 108.11:

108.11 Method of Measurement

The Department will measure construction CPM Project Schedule as a percentage of the lump sum price bid for the completion of the work specified in **108.03.C** and partial payment will be made according to the schedule in Table 108.11-1.

Table 108.11-1: Payment Schedule for CPM Project Schedule

Estimate Number or Percent of Total Contract Amount of Previous Estimate	Total Percent of CPM Project Schedule Lump Sum Bid Item
Estimate # 1	20%
Estimate # 3	40%
20%	50%
40%	60%
60%	70%
80%	80%
95%	100%

Subsection 108.11, (pg. 99), 6-1-23; **Method of Measurement;** Revise Table 108.11-1:

Table 108.11-1: Payment Schedule for CPM Project Schedule

Requirement or Percent of Total Contract Amount of Previous Estimate	Total Percent of CPM Project Schedule Lump Sum Bid Item
Initial Project Schedule	10%
Baseline CPM Schedule	40%
20%	50%
40%	60%
60%	70%
80%	80%
95%	100%

Subsection 108.12, (pg. 99), 9-7-21; **Basis of Payment;** Add subsection 108.12:

108.12 Basis of Payment

The Department will make partial payments for CPM Project Schedule on the basis of a percentage of the lump sum price bid in accordance with the schedule shown in Table 108.11-1.

If the Contractor fails to provide monthly schedule updates or address the Engineer's comments regarding the monthly schedule update, within 10 calendar days following the progress estimate pay period cutoff date, the Engineer will withhold payment for CPM Project Schedule and may withhold up to an additional 5% of the monthly estimate payment, until such time as an acceptable update has been provided.

No additional payments will be made for schedule revisions as requested per **108.03.D**.

Such payment is full compensation for meeting all requirements of **108.03.C** and **D**.

Subsection 108.12, (pg. 99), 6-1-23; **Basis of Payment;** Add new 2nd Paragraph and Revise existing 2nd and 3rd Paragraphs:

If the Contractor fails to provide an Initial Project Schedule or a Baseline CPM schedule, or address the Engineer's comments regarding the Initial Project Schedule or Baseline CPM schedule, within 10 calendar days following the progress estimate pay period cutoff date, the Engineer will withhold payment for CPM Project Schedule and may withhold up to an additional 10% of that month's estimate payment, until such time as an acceptable Initial Project Schedule or Baseline CPM schedule has been provided and accepted.

If the Contractor fails to provide quarterly CPM schedule updates, or address the Engineer's comments regarding the quarterly schedule update, within 10 calendar days following the progress estimate pay period cutoff date, the Engineer will withhold payment for CPM Project Schedule and may withhold up to an additional 5% of that month's estimate payment, until such time as an acceptable update has been provided and accepted.

No additional payments will be made for Engineer requested schedule revisions as requested per **108.03.D**.

Subsection 109.02, (pg. 105-106), 5-30-24; **Scope of Payment;** Revise & Relocate Paragraph 5 to Paragraph 4 and Revise Paragraphs 6 & 7:

Ensure each subcontractor, including all certified Disadvantaged Business Enterprises (DBE), certified Small Business Enterprises (SBE), and DBE or SBE haulers or material suppliers has registered for AASHTOWare Project Civil Rights & Labor (CRL) prior to commencing Work.

The Department requires...

Document within CRL the actual amount paid to all subcontractors, material suppliers, and haulers during the monthly estimate period for which the certification is being made. All subcontractors, DBE or SBE material suppliers, and DBE or SBE haulers shall acknowledge payment entry in AASHTOWare Project Civil Rights & Labor (CRL) within fourteen (14) calendar days from the date of posting. The Department will withhold estimate payments if the required information is not submitted or if subcontractors, at any tier, material suppliers, or haulers are not paid after the thirty (30) calendar daytime period. Any delay or postponement of payment beyond the thirty (30) calendar day timeframe will be subject to terms listed in TCA §12-4-707(b).

The Contractor, subcontractors, at any tier, material suppliers, or haulers shall not withhold any retainage from progress payments made to their subcontractors. The Contractor, subcontractors at any tier, material suppliers, or haulers shall not withhold progress payments due to subcontractors at any tier, material suppliers, or haulers for work or services performed under the Contract to offset any amounts that may be owed with respect to any agreement other than the Contract.

Subsection 109.06, (pg. 116), 8-21-23; **Compensable Delay Costs;** Revise 2nd Paragraph:

Compensable delay costs will not be paid unless the compensable delay causes completion of the Work to exceed the original or previously adjusted Contract completion date. Compensable delay costs will not be considered for previously negotiated Change Orders or for costs that have already been included in bid items, negotiated prices, or force account payments described in **109.04**; no additional consideration will be given for home office overhead and/or field office overhead. The Department will not pay for delay costs incurred by subcontractors.

Subsection 109.06.D, (pg. 117), 8-21-23; **Extended Field Overhead;** Revise 3rd Paragraph:

Compute these costs on a calendar day basis using actual costs incurred due to the delay to provide project specific general supervision, field office facilities and supplies, maintenance of field operations, traffic control maintenance, and extended erosion control inspection. If the Contractor and the Department cannot agree on additional field overhead costs, the Department may consider, at its sole discretion, calculating a daily extended field overhead rate as a percentage (in accordance with Table 109.06-1) of the original Contract amount divided by the Contract duration.

Subsection 109.07, (pg. 118,119), 8-21-23; **Non-Recoverable Costs;** Revise No. 5 & 6 and Add No. 7 & 8:

5. Attorney fees, claim preparation expenses, and cost of litigation;

6. Consequential and/or incidental damages, including but not limited to, interest of monies in dispute, loss of bonding capacity, any indirect costs or expenses, interest on investment or any resultant insolvency;

7. Loss of bidding opportunities; and

8. Reduction of bidding capacity.

Subsection 307.02, (pg. 242), 8-28-24**; Materials;** Revise Materials list:

Grading A, ACRL, AS, B, BM, BM2, C, CM, CS, or CW…**903.06**

Subsection 307.03.A, (pg. 243, 244), 8-28-24**; Composition of Mixtures, General;** Revise Table 307.03-01 and Table 307.03-2:

Table 307.03-1: Mixture Composition

Mixtures	Proportions of Total Mixture, Percent by Weight	
	Combined Mineral Aggregate, %	Asphalt Cement, % (1)
Grading AS and ACRL	96.3 - 97.7	2.3 - 3.7
Grading A	95.8 - 96.7	3.3 - 4.2
Grading B, BM, and BM2	93.8 - 95.8	4.2 - 6.2
Grading C, CM, and CW	93.8 - 95.8	4.2 - 6.2
Grading CS	92.3 - 94.7	5.3 - 7.7

(1) If the effective combined specific gravity of the aggregate exceeds 2.80, the Engineer may adjust the proportions specified.

Table 307.03-2: Mixture Design Properties

Mix (1)	Stability (minimum) lbf (2)	Design Void Content % (2)	Production Void Content, % (2)	VMA (minimum) % (2)	Dust-Asphalt Ratio (3)
307-B	2,000	4.0±0.2	3-5.5	11.5	0.6-1.5
307-BM	2,000	4.0±0.2	3-5.5	13.5	0.6-1.5
307-BM2	2,000	4.0±0.2	3-5.5	13.5	0.6-1.5
307-C	2,000	4.0±0.2	3-5.5	13.0	0.6-1.5
307-CM	2,000	4.0±0.2	3-5.5	13.0	0.6-1.5
307-CS	2,000	3.0±0.5	1-5	---	---
307-CW	1,500	4.0±0.2	3-5	13.0	0.6-1.5

(1) To identify critical mixes and make appropriate adjustments, the mix design shall meet these design properties for the bitumen content range of Optimum Asphalt Cement ±0.25%.

(2) Tested according to AASHTO T 245 with 75 blows with the hammer on each end of the test specimen, using a Marshall Mechanical Compactor.

(3) The dust-asphalt ratio is the percent of the total aggregate sample that passes the No. 200 sieve, as determined by AASHTO T 11, divided by the percent asphalt in the total mix.

Subsection 307.03.B.1, (pg. 245), 12-27-23; **Recycled Asphalt Pavement (RAP);** Revise Table 307.03-3:

Table 307.03-3: Mixtures Using RAP

Mix Type	% RAP (Non-processed) (1)	Maximum % RAP (Processed) (2)	Maximum % RAP Processed & Fractionated (3)	Maximum Particle Size (inches)
307-ACRL	0	00	-	-
307-AS	0	10	10	-
307-A	15	20	35	1-1/2
307-B	15	30	35	1-1/2
307-BM	15	30	35	3/4
307-BM2	15	30	35	3/4
307-C	15	30	35	3/8
307-CW	15	30	35	1/2
307-CS	0	15	25	5/16

(1) "Non-processed" refers to RAP that has not been crushed and screened or otherwise sized prior to its use.

(2) "Processed" refers to RAP that has been crushed and screened or otherwise sized such that the maximum recycled material particle size is less than that listed in Table 307.03-3 prior to entering the dryer drum.

(3) "Fractionated" refers to RAP that has been processed over more than one screen, producing sources of various maximum particle sizes (e.g., ¾ to ½ inch, ½ inch to #4, etc.). The Contractor may use the larger percentages of fractionated RAP specified only if the stockpile meets the consistency requirements set forth in Departmental procedures for approval of asphalt mix designs.

Subsection 307.03.B.1, (pg. 245), 8-28-24**; Recycled Asphalt Pavement (RAP);** Revise Table 307.03-03:

Table 307.03-3: Mixtures Using RAP

Mix Type	% RAP (Non-processed) (1)	Maximum % RAP (Processed) (2)	Maximum % RAP Processed & Fractionated (3)	Maximum Particle Size (inches)
307-ACRL	0	00	-	-
307-AS	0	10	10	-
307-A	15	20	35	1-1/2
307-B	15	30	35	1-1/2
307-BM	15	30	35	3/4
307-BM2	15	30	35	3/4
307-C	15	30	35	3/8
307-CM	15	30	35	1/2
307-CW	15	30	35	1/2
307-CS	0	15	25	5/16

(1) "Non-processed" refers to RAP that has not been crushed and screened or otherwise sized prior to its use.

(2) "Processed" refers to RAP that has been crushed and screened or otherwise sized such that the maximum recycled material particle size is less than that listed in Table 307.03-3 prior to entering the dryer drum.

(3) "Fractionated" refers to RAP that has been processed over more than one screen, producing sources of various maximum particle sizes (e.g., 3/4 to 1/2 inch, 1/2 inch to #4, etc.). The Contractor may use the larger percentages of fractionated RAP specified only if the stockpile meets the consistency requirements set forth in Departmental procedures for approval of asphalt mix designs.

Subsection 307.03.C, (pg. 248), 8-28-24**; Anti-Strip Additive;** Revise 1st sentence:

Check asphaltic concrete mixtures (Grading A, AS, ACRL, B, BM,BM2, C, CM, CS, and CW) for stripping by the following methods:

Subsection 307.07, (pg. 250), 8-28-24; **Thickness and Surface Requirement;** Revise Table 307.07-1:

Table 307.07-1: Maximum Surface Deviation

Mixture	Maximum Deviation (inches)
Grading A, ACRL, and AS	1/2
Grading B, BM, BM2, C, CM, CS, and CW	3/8

Revise 307.09, (pg. 251), 10-17-23**; Basis of Payment;** Revise Table 307.09-01:

Table 307.09-1: Asphalt Cement Content

Mix Type	Asphalt Content
307 A	4.0%
307 AS	3.5%
307 ACRL	3.5%
307 B	4.3%
307 BM	5.0%
307 BM2	5.0%
307 C	5.0%
307 CW	5.0%
307 CS	6.5%

Subsection 307.09, (pg. 251), 8-28-24; **Basis of Payment;** Revise Table 307.09-1:

Table 307.09-1: Asphalt Cement Content

Mix Type	Asphalt Content
307 A	4.0%
307 AS	3.5%
307 ACRL	3.5%
307 B	4.3%
307 BM	5.0%
307 BM2	5.0%
307 C	5.0%
307 CM	5.0%
307 CW	5.0%
307 CS	6.5%

(Rev. 12-26-24)

January 1, 2021

Supplemental Specifications – 400SS

of the

Standard Specifications for Road and Bridge Construction

January 1, 2021

Subsection 403.04, (pg. 285), 12-15-21; **Preparing Surface;** Revise Paragraph:

Prepare the designated surface as specified in **405.05**. Ensure that the surface is dry when applying tack coat.

Subsection 403.04, (pg. 285), 12-27-23; **Preparing the Surface;** Revise Paragraph:

Prepare the designated surface as specified in **405.05**. Ensure that the surface is swept clean and dry when applying tack coat.

Subsection 403.05.C, (pg. 286), 12-15-21; **Fog Sealing;** Revise 1st Paragraph:

When the Contract requires bituminous material for fog sealing of shoulders, provide emulsified asphalt meeting **403.02** or an item from QPL 40A. Apply diluted emulsified asphalt at a rate of 0.10 to 0.15 gallons per square yard based on a dilution rate of one-part emulsified asphalt to one part water. This application may require two equal increments if run-off occurs. Apply fog seal when the ambient air temperature or the surface temperature is a minimum of 50°F.

Subsection 405.06.A, (pg. 290), 12-27-23; **Applying Bituminous Material;** Revise 3rd Paragraph:

At least 7 working days before the scheduled start of construction of any bituminous seal coat, submit a starting aggregate spread rate and emulsion shot rate as determined by AASHTO R 102 or an equivalent design method. Apply emulsified asphalt by pressure distributor at a uniform rate in accordance with Table 405.06-1 below. The exact rate will be established by the Engineer.

Subsection 407.03.E.1, (pg. 310), 10-17-23; **Tensile Strength Ratio;** Revise Table 407.03-4:

Table 407.03-4: Criteria for Stripping and Moisture Susceptibility

Asphalt Cement	Minimum Tensile Strength	Minimum TSR
Polymer Modified	100 psi	80%
Non-Polymer Modified	80 psi	80%
411 OGFC	50 psi	70%

Subsection 407.06.B, (pg. 324), 12-19-22; **Material Transfer Devices (MTDs);** Revise 2nd Paragraph:

The MTD shall have a minimum storage capacity of 15 tons and shall be equipped with mixing augers in the bottom of the storage hopper that are capable of remixing or re-blending the material as the material is removed from the storage hopper. The mixing augers shall be operational and used at all times during placement of the asphalt mixes. The MTD shall have a rear discharge conveyor that swivels to allow feeding the paving machine from the front, side or rear.

Subsection 407.09, (pg. 326-327), 12-15-21; **Weather Limitations;** Revise No. 2 & 3:

2. The bituminous plant mix is placed according to the temperature limitations specified in Table 407.09-1 and when weather conditions otherwise allow the pavement to be properly placed, compacted, and finished. Placement may proceed if either the air or surface temperature is met except for 411-TL, 411-TLD, 411-TLE, and 411-OGFC mixtures.

   Measurement of the surface temperature shall be done on pavement that is shaded from direct sunlight unless no shaded location exists. If paving based on the air temperature, stop work once the air temperature falls below the minimum threshold. Do not start paving if the surface temperature does not meet the requirements and the air temperature is forecast to fall below the minimum temperature within 4 hours of starting work.

Table 407.09-1: Temperature Limitations

Compacted Thickness	Minimum Air or Surface Temperature (°F)	
	Unmodified mixes (PG 64, 67)	Modified mixes (PG 70, 76, 82)
≤ 1.5 inches	45	55
> 1.5 inches to < 3.0 inches	40	50
≥ 3.0 inches	35	45

3. For 411-TL, 411-TLD, 411-TLE, and 411-OGFC mixtures, placement shall proceed only when the pavement surface temperature and the air temperature are a minimum of 55° F and rising. Stop paving if the air temperature falls below 55°F immediately. Placement of these mixtures is restricted to the period between April 1 and October 31.

   For all other mixtures, do not place bituminous plant mix, with a compacted thickness of 1.5 inches or less, between November 30 and April 1. Do not place bituminous plant mix, with a compacted thickness greater than 1.5 inches, between December 15 and March 16. If the temperature meets the above requirements, outside of normal paving season, a request for a seasonal limitation waiver may be submitted for Departmental consideration. Requests shall be submitted in writing at least one week before the anticipated need.

Subsection 407.09, (pg. 326-327), 12-27-23; **Weather Limitations;** Revise Table 407.09-1, No. 3, and Remove No. 4:

Table 407.09-1: Temperature Limitations

Compacted Thickness	Minimum Air or Surface Temperature (°F)	
	Unmodified mixes (PG 64, 67)	Modified mixes (PG 70, 76, 82)
< 2.0 inches	45	55
≥ 2.0 inches	35	35[1]

[1]If compacted thickness < 3 inches and Temperature is < 55 degrees, an approved Warm Mix Additive is required in the mix.

3. For 411-TL, 411-TLD, 411-TLE, and 411-OGFC mixtures, placement shall proceed only when the pavement surface temperature and the air temperature are a minimum of 55°F and rising. Stop paving if the air temperature falls below 55°F immediately. Placement of these mixtures is restricted to the period between April 1 and October 31.

~~4. If determined necessary by the Department, the Contractor....~~

Subsection 407.13, (pg. 331), 8-28-24; **Mixing;** Revise 5th Paragraph No. 5:

5. The Contractor may store bituminous mixtures of Gradings A, AS, ACRL, and B for up to 48 hours, and Gradings BM, BM2, C, CS, CM, CW, D, E, and F for up to 96 hours, in a storage silo by complying with the following:

   (a) Add an approved silicone additive to the asphalt cement for mixes to be stored beyond the day of mixing.
   (b) Keep the stored bituminous mixture sealed at all times during storage.

(c) Fill the storage silo to at least 90% of capacity.

Subsection 407.15.A, (pg. 334), 12-19-22; **Compaction, General;** Revise Table 407.15:

Table 407.15 – Roller Requirements by Mix Type

Mix Type	Roller Requirements
307-A, 307-B, 307-BM-2, 307-C, 307-CW (except surface)	3 Rollers (Intermediate roller shall be Pneumatic)
307-AS, 307-ACRL, 411-D, 411-E, 307-CW (surface), 313-Asphalt Treated Permeable Base	3 Rollers (unspecified)
411-TL, 411-TLD, 411-TLE (when lift thickness > 1 inch)	3 Rollers (unspecified)
411-TL, 411-TLD, 411-TLE, 307-CS (when paved as a continuous layer)	2 Rollers (unspecified)
411-OGFC	2 Rollers (both rollers shall be static steel double drum, 10 Ton minimum
Any mix used for scratch paving	2 Rollers (breakdown shall be pneumatic)

Subsection 407.15.A, (pg. 334), 8-28-24; **Compaction, General;** Revise Table 407.15:

Table 407.15 – Roller Requirements by Mix Type

Mix Type	Roller Requirements
307-A, 307-B, 307-BM-2, 307-C, 307-CM, 307-CW (except surface)	3 Rollers (Intermediate roller shall b Pneumatic)
307-AS, 307-ACRL, 411-D, 411-E, 307-CW (surface), 313-Asphalt Treated Permeable Base	3 Rollers (unspecified)
411-TL, 411-TLD, 411-TLE (when lift thickness > 1 inch)	3 Rollers (unspecified)
411-TL, 411-TLD, 411-TLE, 307-CS (when paved as a continuous layer)	2 Rollers (unspecified)
411-OGFC	2 Rollers (both rollers shall be static steel double drum, 10 Ton minimum
Any mix used for scratch paving	2 Rollers (breakdown shall be pneumatic)

Subsection 407.15.B, (pg. 336), 12-27-23; **Density Requirements;** Revise Table 407.15-1:

Table 407.15-1: Density Requirements for Bituminous Pavement

Mix Type	% of Maximum Theoretical Density (Lot Average)	No Single Test Less Than, % (Sub Lot)
Travel Lanes ADT <1,000 A, B, BM, BM-2, C, CW, D, E TL, TLD, TLE (lift thickness > 1 inch)	90.0	87.0
Travel Lanes 1,000 <ADT <3,000 A, B, BM, BM-2, C, CW, D, E TL, TLD, TLE (lift thickness > 1 inch)	91.0	89.0
Travel Lanes ADT >3,000 A, B, BM, BM-2, C, CW, D, E TL, TLD, TLE (lift thickness > 1 inch)	92.0	90.0
Travel Lanes and Shoulders Any ADT CS,, OGFC TL, TLD, TLE (lift thickness <= 1 inch)	NA	NA
Shoulders B, BM, BM-2, D, E TL, TLD, TLE (lift thickness > 1 inch)	88.0	85.0

Subsection 407.15.B, (pg. 336), 8-28-24; **Compaction, Density Requirements;** Revise Table 407.15-1:

Table 407.15-1: Density Requirements for Bituminous Pavement

Mix Type	% of Maximum Theoretical Density (Lot Average)	No Single Test Less Than, % (Sub Lot)
Travel Lanes ADT <1,000 A, B, BM, BM-2, C, CM, CW, D, E TL, TLD, TLE (lift thickness > 1 inch)	90.0	87.0
Travel Lanes 1,000 <ADT <3,000 A, B, BM, BM-2, C, CM, CW, D, E TL, TLD, TLE (lift thickness > 1 inch)	91.0	89.0
Travel Lanes ADT >3,000 A, B, BM, BM-2, C, CM, CW, D, E TL, TLD, TLE (lift thickness > 1 inch)	92.0	90.0
Travel Lanes and Shoulders Any ADT CS, OGFC TL, TLD, TLE (lift thickness <= 1 inch)	NA	NA
Shoulders B, BM, BM-2, D, E TL, TLD, TLE (lift thickness > 1 inch)	88.0	85.0

Subsection 407.15.C, (pg. 336-337), 12-15-21; **Test Strips;** Revise 1st Paragraph:

Construct test strips for all mixtures that require density testing to establish rolling patterns, to accommodate the Department to calibrate nuclear gauges, to verify that the base course or surface course mixture meets the density requirements of the specifications, and for mix design and production verification as required. Adjustments to the roller pattern may be made at the direction of the Engineer for mixtures that do not require density testing.

Subsection 407.20.B.2.a, (pg. 342), 12-27-23; **Defective Materials, Acceptance or Rejection;** Revise 3rd Paragraph:

All acceptance samples will be split, and half of the sample will be retained by the Inspector. If the results of an acceptance test are questioned, the Central Laboratory will test the remaining half of the acceptance sample. The Department will use the results obtained by the Central Laboratory to evaluate the quality of the lot. The Contractor may submit a written request to have the split sample tested at a Regional Laboratory.

Subsection 407.20.C.3, (pg. 346-347), 12-15-21; **Loss on Ignition (LOI);** Revise 2nd & Remove 4th Paragraph:

If the percent of LOI in the aggregate differs by plus or minus 2% from the LOI indicated in the JMF, the Department will make a payment deduction in the price bid for the mix applied to the entire days production, not as a penalty but as liquidated damages. The percent of total payment to be deducted will be 5 times the percent that the LOI exceeds the JMF tolerance of plus or minus 2%.

~~To determine the deduction, the Department will use lots of approximately 5,000 square yards. The Department inspector will perform sampling and testing to establish the LOI according to the Department's sampling and testing procedures. If the initial tests indicate a variation in the LOI of plus or minus 2% than the value shown on the mix design, the Contractor shall perform the additional sampling necessary to establish the LOI of the aggregate in each lot, with the cost of the sampling being included in the contract unit prices bid for the paving items.~~

Subsection 410.06, (pg. 349), 12-26-24; **Preparing Designated Surface;** Revise Sentence:

Prepare the designated surface upon which the material is to be placed as specified in **4054.05.**

Subsection 410.11, (pg. 350), 12-26-24; **Maintenance;** Revise Sentence:

Perform maintenance as specified in **4054.09.**

Subsection 411.06, (pg. 361), 12-26-24; **Preparing the Designated Surface;** Revise 1st Sentence:

Prepare the designated surface upon which the material is to be placed as specified in **4054.05.**

Subsection 411.03.B, (pg. 353), 12-15-21; **Proportioning;** Revise Table 411.03-01:

Table 411.03-1: Proportions of Total Mixture, Percent by Weight

Surface Course	Effective Combined Mineral Aggregate	Asphalt Cement
Grading D	93.0 – 94.3	5.7 – 7.0 (1)
Grading E (2)	93.0 – 94.3	5.7 – 7.0 (1)
Grading E (shoulders)	93.5 – 94.0	6.0 – 6.5 (1)
Grading TL	92.5 – 94.3	5.7 – 7.5 (1)
Grading TLD	93.0 – 94.3	5.7 – 7.0 (1)
Grading TLE	93.0 – 94.3	5.7 – 7.0 (1)
Grading TLE (shoulders)	93.5 – 94.0	6.0 – 6.5 (1)
Grading OGFC	92.0 – 94.0	6.0 – 8.0 (1)

(1) If the effective combined specific gravity of the aggregate exceeds 2.80, the above proportions may be adjusted as directed by the Engineer. The upper limit for flow values shall not apply to mixes with modified asphalt liquids.

(2) The minimum allowable asphalt cement content for 411E low volume mixtures is 5.3%.

Subsection 411.03.B.4, (pg. 356), 10-17-23; **Grading OGFC;** Revise Table 411.03-5:

Table 411.03-5: Mixture Properties (Grading OGFC)

Mix	Minimum Void Content %(1)	Voids in Coarse Aggregate % (2)	Max. Cantabro Abrasion Loss % (2) (3)	Drain Down Loss % (4)
411OGFC	17	$VCA_{DRC} > VCA_{MIX}$	20	<0.3%

(1) Determined using the "Volume Method" described in Section 6.2.2. of AASHTO T 269.

(2) As described in National Asphalt Pavement Association (NAPA) Publication IS-115, "Design, Construction and Maintenance of Open-Graded Friction Courses."

(3) Cantabro Abrasion Loss specimens shall be aged as loose mix for 4 hours at lab compaction temperature.

(4) Tested in accordance with AASHTO T 305.

Subsection 411.03.C.1, (pg. 357), 12-27-23; **Recycled Asphalt Pavement;** Revise Table 411.03-6:

Table 411.03-6: Use of Recycled Asphalt Pavement

Mix Type	% RAP (Non-processed) [1]	Maximum % RAP (Processed) [2]	Maximum % RAP Processed and Fractionated [3]	Maximum Particle Size (inch)
411-D (PG64-22, PG67-22)	0	15	20	½
411-D (PG70-22, PG76-22, PG82-22)	0	10	15	½
411-E & 411-TLE (Roadway)	0	15	20	½
411-E & 411-TLE (Shoulder)	15	30	35	½
411-TL (PG64-22, PG67-22)	0	15	15	5/16
411-TL (PG70-22, PG76-22, PG82-22)	0	10	10	5/16
411-TLD (PG64-22, PG67-22)	0	15	15	5/16
411-TLD (PG70-22, PG76-22, PG82-22)	0	10	10	5/16

[1] "Non-processed" refers to RAP that has not been crushed and screened or otherwise sized such that the maximum recycled material particle size is less than that listed above prior to entering the dryer drum.

[2] "Processed" refers to RAP that has been crushed and screened or otherwise sized such that the maximum recycled material particle size is less than that above prior to entering the dryer drum.

[3] "Fractionated" refers to RAP that has been processed over more than one screen, producing sources of various maximum particle sizes (e.g., ¾ to ½ inch, ½ inch to #4, etc.). The Contractor may use the larger percentages of fractionated RAP specified only if the stockpile meets the consistency requirements set forth in Departmental procedures for approval of asphalt mix designs.

Subsection 411.03.C.1, (pg. 358), 12-15-21; **Recycled Asphalt Pavement;** Revise 2nd Paragraph:

All mixes shall contain at least 80% virgin asphalt, except for 411E Shoulder and 411TLE Shoulder Mixtures, which shall have at least 65% virgin asphalt.

Subsection 414.03.B, (pg. 367), 12-19-22; **Micro-Surfacing;** Revise Table 14.03-3:

Table 414.03-3: Micro-Surfacing

Test	Requirement
Mixing Time Test, seconds at 77 °F (T-102)	120 min
Mix Time, at 50 and 100 °F	(informational)
Set Time Tests: 30 minutes (T-139)	12 kg-cm min
Early Rolling Traffic Time: 60 minutes (T-139)	20 kg-cm min
Wet Stripping Test, % coating (T-114)	90% min
Wet Track Abrasion Test, loss in g/ft^2 (T-100)	75 max 6 days 50 max 1 hour
Measurement of Excess Asphalt (T-109)	50 grams/ft^2 max Sand Adhesion, 1,000 Cycles at 125 lbs
Classification Compatibility (T-144)	11 pt. min

Subsection 414.06.B, (pg. 377), 12-19-22; **Quality Control;** Add Subsection 5:

5. **Aggregate Gradation**. Prior to the start of production and at a minimum of once per day of production, perform a washed gradation (AASHTO T 27 with AASHTO T 11) of the stockpiled aggregate to ensure the gradation meets the mixture control tolerances of Table 903.12-2.

Subsection 415.03, (pg. 382), 12-19-22; **General Requirements;** Revise 1st Paragraph:

Coordinate operations so that vertical longitudinal faces do not exceed height requirements indicated by plans in areas to be used by public traffic. Taper transverse faces in a manner approved by the Engineer to avoid creating a traffic hazard. Perform cold planing in the direction of traffic.

STATE OF TENNESSEE

(Rev. 12-19-22) January 1, 2021
(Rev. 12-27-23)

Supplemental Specifications – 500SS

of the

Standard Specifications for Road and Bridge Construction

January 1, 2021

Subsection 501.13, (pg. 399), 12-19-22; **Testing Concrete;** Revise 2nd Paragraph:

The Engineer will determine the 28-day compressive strength of the concrete under construction by conducting tests during the progress of work in accordance with **604.15**. The method of making and curing test specimens will be in accordance with AASHTO R 100. Furnish the concrete necessary for the Engineer to conduct the field tests and provide a storage facility with watertight tanks of satisfactory size and number to accommodate the cylinder specimens. The Engineer may allow concrete that fails to meet the specified strength to remain in place, but the Department will pay for such concrete at a reduced price as specified in **604.31** to compensate for the loss of strength. Any reduction in payment because of low strength will be in addition to any reduction in payment related to deficiencies in pavement thickness or rideability.

Subsection 501.17.B, (pg. 409), 12-27-23; **Pay Factor and Required Corrective Action;** Revise 4th Paragraph:

A grinding strategy plan is required before any corrective action begins. Software such as ProVAL is required to generate a grinding plan. Submit a copy of the grinding plan for approval to the Engineer at least 5 days prior to starting any work. The grinding plan must include existing profile, proposed profile, start and stop grinding locations, length of proposed grinding, and direction of grinding. Perform required corrective work with approved grinding equipment or removing and replacing pavement as directed by the Engineer. Perform all corrective action at no cost to the department. Grinding equipment must meet **604.27.C**.

January 1, 2021

Supplemental Specifications – 600SS

of the

Standard Specifications for Road and Bridge Construction

January 1, 2021

Subsection 602.04.A, (pg. 429), 12-15-21; **Shop Inspection;** Revise A:

Fabricators of steel bridges shall hold the following certifications in accordance with the AISC Certification Program – Bridge QMS Certification:

1. As a minimum, all fabricators shall be certified in the category of Certified Bridge Fabricator – Intermediate Bridge (IBR) with applicable supplemental requirements.
2. Fabricators of advanced type bridges, as defined in the AISC Standard for Steel Bridges, shall be certified in the category of Certified Bridge Fabricator – Advanced (ABR) with applicable supplemental requirements.
3. Fabricators of diaphragms, cross-frames, floor beams, stringers (rolled beams) and laterals shall be certified in the category of Certified Bridge Fabricator – Intermediate Bridge (IBR), as a minimum.
4. Fabricators of bridge bearings, expansion joints, sign structures and other metal highway components as listed in the AISC standard shall hold certification under the AISC Certification Program – Bridge Component QMS Certification (CPT). As an alternative, fabricators of bridge bearing or expansion joints may hold certification under the Bridge QMS Certification in the category of Certified Bridge Fabricator – Intermediate Bridge (IBR).

Subsection 602.04.B, (pg. 429), 12-27-23; **Quality Assurance (QA) Shop Inspection;** Revise 1st & 3rd and Remove 2nd Paragraphs:

At least 6 weeks before starting shop fabrication, provide written notification to the Materials and Tests Division, with a copy to the Engineer, as to the location and schedule of the fabrication of structural steel, so that the Department may arrange for QA shop inspection.

Subsection 602.18.B, (pg. 460), 12-27-23; **Visual Inspection and Repair of Plate Cut Edges;** Revise Paragraph:

Visually inspect and repair plate cut edges in accordance with Article 5.2.6 of the AASHTO/AWS *Bridge Welding Code*, D1.5, current edition.

Subsection 602.19, (pg. 460, 461), 12-27-23; **Welds;** Revise Numbers 1 thru 9 and Add Table 602.19-1:

The following are revisions to the AASHTO/AWS *Bridge Welding Code*:

1. Add the following sentence to Article 8.1.1.1:

   After fabrication, Quality Control (QC) shall mark each piece (girders, beams, diaphragms, X-frames, bearings, etc.) with the fabricator's logo and the CWI Number of the QC Inspector accepting the piece. These stamps will signify that Quality Control (QC) has inspected the piece and that it meets the requirements of the plans and specifications.

2. Delete Article 8.1.3.1(3).

3. Delete Article 8.1.3.2.

4. Delete the last sentence in Article 8.1.3.4 and substitute the following:

   Only individuals certified for NDT Level II may perform nondestructive testing.

5. Delete 8.1.3.4(1) and 8.1.3.4(2).

6. Delete the period at the end of Article 8.6.1 and add the following:

   and access to all records necessary to verify conformance to plans and specifications.

7. Delete Article 8.7.1 and substitute the following:

   Complete joint penetration groove welds in main members, as identified in the contract documents shall be QC tested by nondestructive testing.

   Radiographic and ultrasonic testing shall both be performed using methods and frequencies required in the revised AWS Table 8.1 specified in Table 602.19-1.

   Longitudinal butt joints in beam or girder webs shall be 100% QC tested by nondestructive testing.

8. Add the following Article 8.22.4:

   Each Ultrasonic Unit shall be certified for general operational performance at a minimum time interval of 12 months with a method approved by the instrument manufacturer.

Table 602.19-1: NDT Methods and Frequency (revised AWS Table 8.1)

Weld Type	Joint Type	Process	Member Design Stress Type	NDT Method	Frequency
CJP groove welds	Butt joints other than in webs of flexural members	Other than ESW or EGW	Tension or reversal	RT and UT	100% of each joint
			Compression or shear	RT and UT	25% (See 8.7.4)
		ESW or EGW	Tension or reversal	RT and UT	100% of each joint
			Compression or shear	RT and UT	25% (See 8.7.4)
	Butt joints in webs of flexural members, transverse to the direction of bending stress	Other than ESW or EGW	Tension	RT and UT	1/6 of the web depth beginning at the tension flange or flanges for each joint
		ESW or EGW		RT and UT	
		Other than ESW or EGW	Compression	RT and UT	25% of the remainder of the web depth for each joint
		ESW or EGW		RT and UT	
	Butt joints in webs of flexural members, parallel to the direction of bending stress	Other than ESW or EGW	Shear	RT and UT	100% of each joint
		ESW or EGW		RT and UT	
	T- or corner joints	Any	Tension or reversal	UT	100% of each joint
			Compression or shear (including web to either flange)		25% (See 8.7.4)
PJP groove welds and fillet welds, Grade HPS 690W (HPS 100W)	Any	Any	Any	MT	100% of each joint
PJP groove welds and fillet welds, all other grades					10% (See 8.7.4)

Subsection 602.29, (pg. 465), 12-XX-23; **Annealing and Stress Relieving;** Revise 4th Paragraph:

Stress relieve members, such as bridge shoes, pedestals, or other parts that are built up by welding sections of plate together, according to Section 6.4 of AASHTO/AWS *Bridge Welding Code* D1.5 when required by the Contract.

Subsection 602.39, (pg. 470), 12-XX-23; **Erection, Shear Stud Connectors;** Revise 1st Paragraph:

After erecting the beams, attach the shear stud connectors in compliance with OSHA standards. Install the studs in the locations shown on the Plans. Install and test shear studs in accordance with the latest version of AASHTO/AWS D1.5, Chapter 9 Stud Welding. Clean the surface receiving the stud by shot blasting or grinding to a bright metal surface immediately before welding. Weld studs using automatically timed stud welding equipment only. At the beginning of each day or shift, each individual welder/operator and equipment must complete the Production Control/Pre-production Testing described in paragraph 9.7.1 of AASHTO/AWS D1.5. Only allow individuals, who repeatedly demonstrate satisfactory installation, to install the shear studs. The Contractor is responsible for the quality of all welds.

Subsection 603.01.B, (pg. 481), 12-26-24; **Certification Requirements;** Revise Subsection:

All contractors or subcontractors involved in field surface preparation or coating application shall be certified according to the Association for Materials Protection and Performance (AMPP) ~~Society for Protective Coatings (SSPC) Painting Contractor Certification Program (PCCP) or NACE International Institute Contractor Accreditation Program (NHCAP~~).

Contractors or subcontractors performing field coating application shall be certified according to ~~SSPC~~AMPP QP1, Field Application. ~~or equivalent, including NHCAP AS-1 Field.~~

Contractors and subcontractors performing field surface preparation of existing structures shall be certified according to ~~SSPC~~AMPP QP2, Field Removal of Hazardous Coatings. ~~or equivalent, including NHCAP AS-2 Hazard Waste Removal.~~

Ensure that all contractors and subcontractors that perform field surface preparation or field coating application are certified to the requirements of ~~SSPC~~AMPP; QP1 or QP2~~, or NHCAP; AS-1 Field or AS-2~~ before Contract award and remain certified for the duration of the Project. If a contractor's or subcontractor's certification expires or is suspended, do not allow that contractor to perform any work until the certification is reissued or reinstated. The Department will not consider any requests for time extensions for any delay in the completion of the Project due to an inactive certification and may apply liquidated damages. Provide a copy of the certifications to the Engineer before beginning work and notify the Engineer of all changes in certification status.

Subsection 603.06.A, (pg. 484), 12-26-24; **Schedule of Painting, New Structures;** Revise Table:

Table 603.06-1: System A – Inorganic/Organic Zinc

Paint System	Specification	Minimum Dry Film Thickness (mils)	Maximum Dry Film Thickness (mils)
Primer (shop coat)	Inorganic/Organic Zinc Silicate Paint, **910.03**	2.5	5.0
Intermediate Tie Coat	**910.03,** as modified below	2.0	5.0
Finish Coat (color coat)	Urethane Finish, **910.03** (match color shown on the Plans)	2.0	5.0

Subsection 604.03.A.1.a, (pg. 502), 12-19-22; **Design and Production Parameters;** Revise Table 604.03-1 and 4th paragraph:

Table 604.03-1: Composition of Various Classes of Concrete

Class of Concrete	Min 28-Day Compressive Strength (psi)	Min Cement Content (pound per cubic yard)	Maximum Water/Cement Ratio (pound/pound)	Air Content % (Design ± production tolerance)	Slump (inches)
A	3,000	564	0.45	6 ± 2	3 ± 1 (1)
D, DS (2,3)	4,000	620	0.40	7 (3)	8 max
L (3,4)	4,000	620	0.40	7 (3)	8 max
S (Seal)	3,000	682	0.47	6 ± 2	6 ± 2
X (5)					

(1) For slip forming, the slump shall range from 0 to 3 inches.

(2) Use Class D concrete in all bridge decks except box and slab type structures unless otherwise shown on the Plans. Use Class DS concrete in bridge decks with polish-resistant aggregate described in **903.03** and **903.24**.

(3) Design Class D, Class DS, and Class L concrete at 7% air content. Acceptance range for pumping and other methods of placement is 4.5-7.5%. Sampling will be at the truck chute.

(4) The unit weight of air dried Class L concrete (lightweight concrete) shall not exceed 115 pounds per cubic foot as determined according to ASTM C567.

(5) Plan specific requirements

Include chemical admixtures in the concrete mixture based on the ambient air temperature and expected weather conditions.

If using chemical admixtures, the allowable slump shall be a maximum of 8 inches. Do not exceed the water cement ratio.

Subsection 604.03.A.1.a, (pg. 502), 12-26-24; **Design and Production Parameters;** Revise Table 604.03-1 and Add Tables 604.03-1(a) and 604.03-1(b) after the last paragraph:

Table 604.03-1: Composition of Various Classes of Concrete

Class of Concrete	Min 28-Day Compressive Strength (psi)	Min Cement Content (pound per cubic yard)	Maximum Water/Cement Ratio (pound/pound)	Air Content % (Design ± production tolerance)	Slump (inches)
A	3,000	564	0.45	6 ± 2	3 ± 1 (1)
D, DS (2, 3, 6, 7)	4,000	620	0.40	7 (3)	8 max
L (3, 4, 6)	4,000	620	0.40	7 (3)	8 max
S (Seal)	3,000	682	0.47	6 ± 2	6 ± 2
X (5)					

(1) For slip forming, the slump shall range from 0 to 3 inches.

(2) Use Class D concrete in all bridge decks except box and slab type structures unless otherwise shown on the Plans. Use Class DS concrete in bridge decks with polish-resistant aggregate described in **903.03** and **903.24**.

(3) Design Class D, Class DS, and Class L concrete at 7% air content. Acceptance range for pumping and other methods of placement is 4.5-7.5%. Sampling will be at the truck chute.

(4) The unit weight of air dried Class L concrete (lightweight concrete) shall not exceed 115 pounds per cubic foot as determined according to ASTM C567.

(5) Plan specific requirements

(6) Class D, Class DS and Class L require the surface resistivity in accordance with AASHTO T 358 for design approval, acceptance, and verification requirements in accordance with Table 604.03-1(a) and Table 604.03-1(b).

(7) Class D and Class DS shall have a minimum supplementary cementitious material(s) replacement of 25% and in accordance with Table 604.03-4.

Table 604.03-1(a): Surface Resistivity Requirements for Mix Design Approval

Chloride Ion Penetration	Apparent Surface Resistivity[a] 4 by 8 in. (100 by 200 mm) Cylindrical Specimens (kΩ·cm) a = 3.8 cm	Action
High	< 12	Not approved; must redesign
Moderate	12 - 36	Approved with project verification
Low	≥ 37	Fully approved

[a] Wenner probe tip spacing; determined from 28-day acceptance cylinders

Table 604.03-1(b): Surface Resistivity Requirements for Project Acceptance and Verification

Chloride Ion Penetration	Apparent Surface Resistivity[a] 4 by 8 in. (100 by 200 mm) Cylindrical Specimens (kΩ·cm) a = 3.8 cm	Action
High	< 12	Redesign before next pour
Moderate	12 - 20	Monitor results
Low	≥ 21	Mix Design is verified

[a] Wenner probe tip spacing; determined from 28-day acceptance cylinders

Subsection 604.03.A.1.d, (pg. 504), 12-19-22; Add Subsection d:

d. **Performance Engineered Mixtures (PEM) Design and Production Parameters**

Proportion the concrete based on a water-cement ratio that does not exceed the maximum shown in Table 604.03-3. The fine aggregate shall not exceed 50% by volume calculation of the total aggregate volume. The volume of paste shall not exceed 25%. The Contractor may elect to use PEM as an alternate/option in replacement of Class A concrete.

Document mixture adjustments, for moisture corrections, on the daily concrete report. Ensure that the adjusted mix complies with all the performance criteria specified in Table 604.03-3.

Table 604.03-3: Composition of Performance Engineered Concrete

Class of Concrete	Min 28-Day Compressive Strength (psi)	Min Cement Content (pound per cubic yard)	Maximum Water/Cement Ratio (pound/pound)	Air Content % (Design ± production tolerance)
$PEM_{(1,2,3,4,5)}$	3,000[(1)]	-	0.45	6 ± 2

(1) Or as shown on the Plans or approved shop drawings.
(2) Air Content must be accompanied with the Super Air Meter (SAM) number AASHTO T 395 for data collection only.
(3) Resistance of Concrete to Rapid Freezing and Thawing AASHTO T 161 for data collection only.
(4) Surface Resistivity Indication of Concrete's Ability to Resist Chloride Ion Penetration AASHTO T 358 for data collection only.
(5) Determining the Reactivity of Concrete Aggregates and Selecting Appropriate Measures for Preventing Deleterious Expansion in New Concrete Construction ASTM R80 for data collection only.

All Standards of Practice for Developing Performance Engineered Concrete Pavement Mixtures AASHTO R 101 are for data collection only.

Include chemical admixtures in the PEM mixture based on the ambient air temperature and expected weather conditions. Dosage rates for any admixtures incorporated into the concrete shall be stated during the mix design submittal process. All admixtures shall be compatible and incorporated into the concrete in accordance with the manufacturer's recommendations. Concrete mixtures utilizing multiple admixture manufacturers shall prove compatibility in accordance with the Departmental procedures.

Subsection 604.03.A.1.d, (pg. 504), 12-26-24; **Performance Engineered Mixtures (PEM) Design and Production Parameters;** Revise Table 604.03-3:

Table 604.03-3: Composition of Performance Engineered Concrete

Class of Concrete	Min 28-Day Compressive Strength (psi)	Min Cement Content (pound per cubic yard)	Maximum Water/Cement Ratio (pound/pound)	Air Content % (Design ± production tolerance)
PEM (1,2,3,4,5)	3,000(1)	-	0.45	6 ± 2

(1) Or as shown on the Plans or approved shop drawings.
(2) Air Content must be accompanied with the Super Air Meter (SAM) number AASHTO T 395 for design approval.
(3) Resistance of Concrete to Rapid Freezing and Thawing AASHTO T 161 for data collection only.
(4) Surface Resistivity Indication of Concrete's Ability to Resist Chloride Ion Penetration AASHTO T 358 for design approval, acceptance, and verification requirements in accordance with Table 604.03-1(a) and Table 604.03-1(b).
(5) Determining the Reactivity of Concrete Aggregates and Selecting Appropriate Measures for Preventing Deleterious Expansion in New Concrete Construction ASTM R80 for data collection only.

All Standards of Practice for Developing Performance Engineered Concrete Pavement Mixtures AASHTO R 101 are for data collection only.

Subsection 604.03.A.2, (pg. 504-505), 12-19-22; **Mix Design Submittal;** Revise 1st and 3rd Paragraphs, and Add 6th Paragraph:

2. **Mix Design Submittal.** Submit, for approval, the proposed design in accordance with Departmental procedures at least 14 days prior to use. Develop the design using saturated surface dry aggregate weights. The design shall be prepared in an approved testing laboratory by a TDOT Certified Concrete Mix Design Technician. The TDOT Certified Concrete Mix Design Technician shall certify that the information contained on the design submittal is correct and is the result of information gained from the actual trial batch. Build trial batches for design no more than 90 days before submitting the design. The trial batch shall produce an average compressive strength to

indicate that the specified 28-day strength can be obtained in the field. Make all strength determinations using equipment meeting the requirements of, and in the manner prescribed by, AASHTO T 22. The design shall provide concrete of the strength specified in all applicable Special Provisions, Plans, and Specifications. The approved mix design will expire at the end of each calendar year or if it does not meet the minimum 28-day strength requirements. Assume responsibility for all costs of concrete design, preparation, and submittal.

Self-consolidating concrete (Classes SCC, SH-SCC, and P-SCC) shall be verified prior to placement either at the ready mix, precast, or prestressed facility. The concrete producer shall notify Regional Materials and Tests a minimum of 1 business day prior to performing a trial batch verification of the submitted design. The trial batch will ensure that all batched quantities and target admixture dosage rates are acceptable and meet specification prior to design approval. All quantities and identified admixture target dosage rates shall meet the tolerances specified in **604.11**.

Performance engineered concrete (Class PEM) shall be verified prior to placement. The concrete producer shall perform trial batching in the presence of a Headquarters Materials and Tests representative. All quantities and admixture dosage rates shall meet the tolerances specified in **604.11**. Gradations shall be submitted with each request.

Subsection 604.03.A.2, (pg. 505), 1-8-25; **Mix Design Submittal;** Add 7th Paragraph:

For Class D, Class DS, Class PEM, and Class L concrete mixtures, surface resistivity values shall be submitted in accordance with Table 604.03-1(a) and Table 604.03-1(b).

Subsection 604.03.A.3, (pg. 506), 12-19-22; **Partial Cement Replacement with Fly Ash or Slag Cement;** Revise 3rd Paragraph, Table 604.03-03, and 4th Paragraph:

When designing Portland cement concrete with Type I or Type IL cement modified by the addition of fly ash and/or slag cement, meet the maximum cement replacement rates (by weight) and minimum substitution ratios (by weight) specified in Table 604.03-4 for the applicable type of modifier.

Table 604.03-4: Type I or Type IL Cement Modified by Fly Ash or Slag Cement

Modifier	Maximum Cement Replacement Rate % (by weight)	Minimum Modifier Cement Substitution Rates (by weight)
Slag Cement (Grade 100 or 120)	35.0	1:1
Class "F" Fly Ash	25.0	1:1
Class "C" Fly Ash	25.0	1:1

The Contractor may use ternary cementitious mixtures (mixtures with Portland cement, slag cement, and fly ash) for Class A, Class D, Class DS, Class PEM concrete provided that the minimum Portland cement content is 50%. The maximum amount of fly ash substitution in a ternary cementitious mixture shall be 20%. The Department will allow Type IS cement with ternary cementitious mixtures. When using a Type IS cement, do not use any additional slag cement as a partial replacement for the hydraulic cement. The Department will allow a maximum of 20% fly ash as a partial hydraulic cement replacement in Class A concrete using only Type IS cement.

Subsection 604.03.B, (pg. 507-510), 12-19-22; **Quality Control and Acceptance of Concrete;** Revise 2nd and 5th Paragraphs, Add Sentence after 5th Paragraph, Revise Nos. 7,8,10,11, and 9th Paragraph:

The minimum size of a batch shall be 2.5 cubic yards. If less than 2.5 cubic yards is needed, the concrete must be provided by a Volumetric Continuous Mixer as specified in **604.04.C.**

The concrete producer shall develop for the Engineer's approval and maintain at the plant a plant-specific Process Control Plan that shall apply to all Department contracts for the calendar year. Communicate all changes made to the Process Control Plan during the year to the Regional Materials and Tests Supervisor. Develop for the Engineer's approval a placement site Process Control Plan stating the procedures for sampling, testing, and inspection of the concrete. Maintain a record of all tests and inspections performed at the facility and placement site. Provide these documents to the Engineer upon completion of the Project for inclusion in the Project records. Provide a binder of current records in accordance with Departmental procedures.

No water shall be added in the field for Class PEM concrete.

7. Conduct slump AASHTO T 119 or slump flow ASTM C1611 and air tests AASHTO T 152. For Class PEM provide the Super Air Meter (SAM) number for informational purposes only.

8. Conduct yield tests AASHTO T 121. If yield varies more than plus or minus 2% from that shown on the design, stop all batching operations until the problem has been identified and corrected or a new concrete design has been obtained. Additionally for Class PEM only, determine Unit Weight by AASHTO T 121.

10. Conduct tests for concrete and ambient air temperatures AASHTO T 309.

11. Provide a daily report to the Engineer that identifies the date, Contract and Project, Item number(s), batch weights, aggregate gradations, moisture corrections, admixtures, slump, air content, temperatures, and similar pertinent information.

The Department or its representative will be responsible for performing all acceptance tests. A TDOT Concrete Field-Testing Technician or ACI equivalent will sample and test in accordance with Departmental 604.04 510 procedures. The Department will ensure the Contractors initial curing conditions are properly maintained during the initial curing period as specified in **722.09** and all acceptance cylinders are transported according to AASHTO R 100.

Subsection 604.03.B, (pg. 507-510), 1-8-25; **Quality Control and Acceptance of Concrete;** Revise 5th and 6th Paragraphs, Revise No. 7, and 10th Paragraph:

The concrete producer shall develop for the Engineer's approval and maintain at the plant a plant-specific Process Control Plan that shall apply to all Department contracts for the calendar year. Communicate all changes made to the Process Control Plan during the year to the regional Materials and Tests Field Services Team Lead. Develop for the Engineer's approval a placement site Process Control Plan stating the procedures for sampling, testing, and inspection of the concrete. Maintain a record of all tests and inspections performed at the facility and placement site. Provide these documents to the Engineer upon completion of the Project for inclusion in the Project records. Provide a binder of current records in accordance with Departmental procedures.

No water shall be added in the field for Class PEM concrete above the approved water-cement ratio submitted and approved during trial batching.

7. Conduct slump AASHTO T 119 or slump flow ASTM C1611 and air tests AASHTO T 152. For Class D, Class DS, Class PEM, and Class L provide the Sequential Air Meter (SAM) AASHTO T 395 number for design approval and Surface Resistivity AASHTO T 358 for design approval, acceptance, and verification requirements in accordance with Table 604.03-1(a) and Table 604.03-1(b).

The Department or its representative will be responsible for performing all acceptance and verification tests. A TDOT Concrete Field-Testing Technician or ACI equivalent will sample and test in accordance with Departmental 604.04~~-510~~ procedures. The Department will ensure the Contractors initial curing conditions are properly maintained during the initial curing period as specified in **722.09** and all acceptance cylinders are transported according to AASHTO R 100.

Subsection 604.04.A.1, (pg. 511), 12-19-22; **Batching Plant, Multi-Aggregate Feed System, and Equipment, General;** Revise 2nd Paragraph:

All producers of concrete shall be on the Department's Producer List.

Subsection 604.04.B.3, (pg. 513), 12-19-22; **Truck Mixers and Truck Agitators;** Revise 1st Paragraph:

Ensure that truck mixers used for mixing and hauling concrete, as well as the truck agitators used for hauling central-mixed concrete, meet all the applicable requirements specified in **604.04.B.1**. Truck mixers shall have a manufacturer's plate indicating the various uses for which the equipment is designed, the gross volume of the drum, and the minimum and maximum speed of rotation of the drum or blades for charging, mixing and agitating. Equip truck mixers with an approved device for recording the number of revolutions of the drum or blades.

Subsection 604.15.A, (pg. 532), 12-19-22; **Compressive Strength Tests of Concrete, General;** Revise 2nd Paragraph:

The frequency of testing for compressive strength to determine when forms may be removed, or when a structure may be put into service, shall be as requested by the Contractor or as deemed necessary by the Engineer in accordance with **604.15.C** or **604.15.D**.

Subsection 604.15.B, (pg. 532-533), 12-19-22; **Concrete Acceptance Cylinders;** Revise 1st, Remove 2nd and Revise 3rd, 5th, and 6th Paragraphs:

The Department will test the specimens for compressive strength according to AASHTO T 22. Provide the necessary concrete for making test specimens and adequate curing and storage facilities specified in **722.09** at no additional cost to the Department. Provide hourly temperature data for each day the specimens were kept in the initial curing environment.

~~Concrete cylinders submitted for testing beyond 28 days shall comply with the design strength requirements specified in **604.03** or the Plans.~~

If the acceptance cylinders fail to meet the specified strengths, the Contractor must provide QC data from the batching operation for the suspect concrete delivered and a letter of intent to core the suspect location. When these requirements are met, the Contractor may then elect to drill a minimum of two or maximum of three concrete core samples per set of cylinders from the hardened concrete. The cores shall be obtained in accordance with Departmental procedures. Obtaining the concrete cores and repairing the concrete core holes shall be at no cost to the Department.

The Engineer will not accept cores submitted for testing beyond 56 days.

The average compressive strength of all the cores taken to represent the failing concrete acceptance cylinders will be considered to be the acceptance strength of record for the in-place concrete. Any core that fails to meet the standard for cores in the Departmental procedures will be discarded untested and not considered in the average compressive strength. In accordance with **604.31**, the Engineer will accept at a reduced pay concrete that meets the required strengths specified in **604.03** or the Plans for the respective class.

Subsection 604.15.B, (pg. 532-533), 1-8-25; **Concrete Acceptance Cylinders;** Revise 1st and Add 6th Paragraph:

The Department will test the specimens for compressive strength according to AASHTO T 22 and surface resistivity for Class D, Class DS, Class PEM, and Class L according to AASHTO T 358 and Table 604.03-1(b). Provide the necessary concrete for making test specimens and adequate curing and storage facilities specified in **722.09** at no additional cost to the Department. Provide hourly temperature data for each day the specimens were kept in the initial curing environment.

If acceptance cylinders fail to meet the specified surface resistivity values for Table 604.03-1(b) for Class D, Class DS, Class PEM, and Class L concrete mixtures, the entire surface shall be sealed with an approved penetrating sealer listed on the Department's Qualified Producer List at no additional cost to the Department.

Subsection 604.15.C, (pg. 534), 12-19-22; **Compressive Strength Tests of Concrete, Early Break Cylinders;** Revise 1st Paragraph:

Make and cure all test specimens according to AASHTO R 100, and the applicable procedures therein defined for Field Cured Specimens, unless otherwise specified by the Engineer. The Department will test the specimens for compressive strength according to AASHTO T 22. Provide the necessary concrete for making test specimens at no additional charge to the Department.

Subsection 604.15.D, (pg. 534), 12-19-22; **Compressive Strength Tests of Concrete, Maturity Method;** Add Subsection D:

D. Maturity Method

Strength of concrete in-place may be estimated by the Standard Practice for Estimating Concrete Strength by the Maturity Method AASHTO T 325 and Departmental procedures for critical activities. (open pavement to traffic, removing forms, post tension, shipping, cold weather).
The Department will break a set of cylinders made from the pour in question to verify the strength-maturity relationship, the concrete will be accepted on the basis of the 28 day strength as defined by the strength-maturity relationship. If the cylinders break within 10% of the estimated strength based on the strength-maturity relationship, the concrete will be accepted on the basis of the 28 day strength as defined by the strength-maturity relationship. If the cylinders break outside of the 10% tolerance, the 28 day cylinders will be broken and the concrete will be accepted per **604.15.B.**

Subsection 604.16.E, (pg. 539), 12-27-23; **Placing Concrete, Joints;** Remove 4th and Revise 5th Paragraphs:

For box culvert construction, place the concrete in the walls and allow to set at least 4 hours before constructing the top slab.

Subsection 604.19, (pg. 541), 12-19-22; **Removal of Forms and Falsework;** Revise 3rd Paragraph:

Release and remove falsework and supports under concrete structures only when the following conditions are met:

1. Representative specimens of the concrete, made and cured in accordance with **604.15.C**, attain a compressive strength of 3,000 pounds per square inch or when Strength Maturity relationship indicates the concrete has achieved 3000 pounds per square inch and has been verified per **604.15.D.**

2. The concrete has been in place a minimum of 7 days, not counting days of 24 hours each in which the temperature falls below 40 °F, or 21 calendar days, whichever occurs first.

Subsection 604.27.C, (pg. 551), 12-27-23; **Pay Factor and Required Corrective Action;** Revise 3rd Paragraph:

A grinding strategy plan is required before any corrective action begins. Software such as ProVAL is required to generate a grinding plan. Submit a copy of the grinding plan for approval to the Engineer at least 5 days prior to starting any work. The grinding plan must include existing profile, proposed profile, start and stop grinding locations, length of proposed grinding, and direction of grinding. Perform corrective action, including grinding of bridge decks and approach slabs, removal of pavement tie-ins, resurfacing, and application of sealants, at no additional cost to the Department.

Subsection 604.31, (pg. 557), 12-19-22; **Basis of Payment;** Revise 6th & 7th Paragraphs and Revise Equation:

Where concrete mixture does not meet the specified strength but is allowed to be included in the permanent construction as specified in **604.20** or the acceptance strength of record fails to meet the strength specified in **604.15**, the Department will use the following equation to determine the price deduction for the invoiced price of the defective concrete mixture.

$$PD = (3 \times Ds) \times IP \times Q$$

Where:

PD = Price Deduction by the Dollar

$$Ds = \left[\frac{(\text{Specified Strength} - \text{Actual Strength})}{\text{Specified Strength}}\right]$$

IP = Invoice Price by the Cubic Yard

Q = Quantity of Defective Concrete by the Cubic Yard

The price deduction shall only apply to the invoiced delivery cost of the defective concrete mixture. The deduction shall not apply to incidental items associated with the bid items such as labor, reinforcing steel, etc. Supply the Engineer with a certified invoice from the producer for the defective concrete mixture. The certified invoice will be for the cost of the concrete mixture with taxes and fees delivered to the project.

Subsection 607.02.B, (pg. 579), 12-15-21; **Materials, Pipe Culverts, Cross Drains, Side Drains, & Storm Drains;** Remove 1st Sentence:

B. Pipe Culverts, Cross Drains, Side Drains, & Storm Drains

~~Where Pipe Culverts (Cross Drains & Median Drains) are specified, provide them in accordance with the following:~~

Subsection 607.07, (pg. 582), 12-15-21; **Joining Pipe:** Revise 5th paragraph.

HDPE, PP, SRTRP, and PVC pipe shall be joined in accordance with ASTM D3212 and meet the performance requirements for water-tight. Install joints so that the connection of pipe sections, for a continuous line, will be free from irregularities in the flow line.

Subsection 615.09, (pg. 624), 12-19-22; **Proportioning and Mixing of Concrete;** Revise 5th Paragraph:

Make concrete test specimens for Class P and Class P-SCC, in accordance with AASHTO R 100 and ASTM C1758 respectively, to determine the adequacy of the concrete design and the minimum time at which the stress may be applied to the concrete. Cure the test specimens used to determine the time at which stress may be applied in the same manner and under the same conditions as the bridge members. The initial curing of specimens to determine the design strength of the concrete shall be specified above with additional curing water, as provided in AASHTO R 100. The compressive strength of the concrete will be estimated using the Maturity Method in accordance with **604.15.D.** The frequency of sampling and testing will be in accordance with Departmental procedures.

Subsection 619.04.A, (pg. 652-653), 12-15-21; **Volumetric Continuous Mixers;** Revise No. 3 & Ticket List:

3. The volumetric mixing plant shall be operated and calibrated by a Volumetric Mixer Operator with a TDOT Concrete Field Testing Technician Certification or equivalent. In the presence of the Engineer, perform the calibration of gate settings according to the manufacturer's recommendations for the mix design to be used before starting work. The calibration procedure shall account for the moisture content of the aggregates. The yield shall be maintained within a tolerance of plus or minus 1% and verified using a minimum 2 cubic feet container every 50 cubic yards. Recalibrations will be necessary when indicated by the yield checks, and at any other times the Engineer deems necessary to ensure proper proportioning of the materials.

Each load of concrete produced by a volumetric continuous mixing plant shall be accompanied by a Concrete Delivery Ticket. The ticket shall include as a minimum the following:

a. Date
b. Contract number
c. County
d. Class of concrete
e. Concrete design number
f. Number of cubic yards
g. Load number
h. Truck number
i. Maximum water allowed by design
j. Total water added
k. Water-cementitious materials ratio
l. Time loaded
m. Time discharged
n. Signature of producer's Volumetric Mixer Operator

Subsection 619.04.A, (pg. 653), 12-19-22; **Volumetric Continuous Mixers;** Revise Ticket List:

Each load of concrete produced by a volumetric continuous mixing plant shall be accompanied by a Concrete Delivery Ticket. The ticket shall include as a minimum the following:

a. Date
b. Contract number
c. County
d. Class of concrete
e. Concrete design number
f. Number of cubic yards
g. Load number
h. Truck number
i. Maximum water allowed by design
j. Total water added
k. Water-cementitious materials ratio

l. Time discharged
m. Signature of producer's Volumetric Mixer Operator

Subsection 622.03.A, (pg. 665), 12-19-22; **Proportioning and Quality Assurance of Shotcrete, Proportioning;** Revise 3rd Paragraph:

Shotcrete shall meet the performance requirements specified in Table 622.03-1 and meet the requirements for cement replacement in **604.03.A.3**.

Subsection 623.02.C.1, (pg. 673), 12-15-21; **Modular Roadway Expansion Joints, Fabrication and Construction;** Revise No. 1:

1. Construct the expansion joint systems as shown on the shop drawings. Meet the tolerance requirements included in AASHTO specifications. Perform all welding according to AWS specifications and by certified welders only. Ensure that fabricators are certified under the AISC Certification Program – Bridge Component QMS Certification (CPT). As an alternative, fabricators of bridge bearing or expansion joints may hold certification under the Bridge QMS Certification in the category of Certified Bridge Fabricator - Intermediate Bridge (IBR).

Subsection 623.03.C.2, (pg. 676, 677), 12-15-21; **Strip Seal Expansion Joints, Fabrication and Construction;** Revise No. 2:

2. Shop drawings shall also supply information regarding material specifications, geometry, a table of variable temperature and dimensions, and a bill of material. The maximum joint opening shall be 4 inches. Construct the expansion joint systems in accordance with the details shown on the shop drawings. Tolerance requirements shall be in accordance with AASHTO Specifications. Perform all welding in accordance with AWS specifications and by certified welders only. Ensure that fabricators are certified under the AISC Certification Program – Bridge Component QMS Certification (CPT). As an alternative, fabricators of bridge bearing or expansion joints may hold certification under the Bridge QMS Certification in the category of Certified Bridge Fabricator - Intermediate Bridge (IBR).

(Rev. 12-26-24)

January 1, 2021

Supplemental Specifications – 700SS

of the

Standard Specifications for Road and Bridge Construction

January 1, 2021

Subsection 702.02, (pg. 688), 12-19-22; **Materials, Revise 4th Paragraph:**

The Department will make compressive strength test specimens in accordance with AASHTO R 100.

Subsection 705.06, (pg. 697-698), 12-19-22; **Installation of Posts; Revise 1st, 2nd, Nos. 1,2,3, & 4 and 4th Paragraphs:**

Before beginning any excavation or driving any guardrail post, determine the location of all underground electrical, drainage, and utility lines in the vicinity, and conduct work to avoid damaging these facilities. Dig or drill holes to the depth shown on the Plans and/or the approved Shop Drawings and to a size that will allow proper setting of the posts and sufficient room for backfilling and tamping. Drive posts using approved methods and equipment, provided the posts are erected in the proper position and are free of distortion, burring, or other damage.

If solid rock is encountered while installing guardrail posts to the minimum depth required. The installation of guardrail posts shall meet requirements that are detailed in the Departments Standard Drawings or approved Shop Drawings for drilling post holes.

If solid rock is encountered when installing end terminals using tubes, install posts 1 and 2 to full depth or a minimum of 36 inches into the solid rock. Backfill the holes around the steel tube with the cutting spoils.

See approved shop drawings for additional information concerning post depth and hole size.

Backfill dug holes with selected earth or other suitable materials in layers not to exceed 4 inches in thickness. Thoroughly tamp each layer. After backfilling and tamping is complete, hold the posts or anchors securely in place.

Subsection 705.06, (pg. 698), 12-15-21; **Installation of Posts; Add new 7th Paragraph:**

When an underground structure or utility prevents proper post installation for a run of guardrail, posts may be omitted along the run of guardrail only as detailed in the Department's Standard Drawings. A post will not be omitted from any end terminal or transition. If the conditions noted for omitting posts cannot be used, then the use of a guardrail footing or weak post attachment to culvert may be used as detailed in the Department's Standard Drawings

Subsection 705.10, (pg. 700), 12-15-21; **Basis of Payment; Add new 7th Paragraph:**

When posts are omitted from a run of guardrail, payment shall be as noted in the Standard Drawings.

a. For 1 post being omitted, the Department will pay the contract unit price for W Beam Guardrail (Type 2) MASH TL-3.

b. For 2 or 3 posts being omitted, the Department will pay for the linear feet of nested W Beam rail as detailed in the Standard Drawings at a rate equal of 1.5 times the contract unit price for W Beam Guardrail (Type 2) MASH TL-3.

c. If a guardrail footing or attachment to culvert was used, the Department will pay for work as noted in the Standard Drawings.

Subsection 710.06, (pg. 723), 12-19-22; **Aggregate Underdrains (with Pipe); Revise 1st Paragraph:**

Excavate the trench to receive the pipe at the locations shown on the Plans or as directed by the Engineer. If the Plans do not show dimensions, construct the width of the trench to be not less than 12 inches. Make the trench deep enough to intercept the water-bearing strata and to allow installation of the pipe and cover material. Unless otherwise shown on the Plans, spread a 2-inch layer of aggregate on the bottom of the trench, compact it, and bring to a uniform grade.

Subsection 712.02, (pg. 731-732), 12-15-21; **Materials; Revise List:**

Aluminum	916.02
Paint	910.02
Cold Rolled Carbon Steel -16 gauge	ASTM A1008
Non-metallic Drums and Barricades	QPL
Reflective Sheeting	916.06

Subsection 712.02.B, (pg. 732), 12-15-21; **Temporary Pavement Marking Material; Revise 1st Paragraph:**

Unless otherwise specified, the material for pavement marking shall be either temporary pavement marking tape listed on the Department's QPL, or reflectorized paint with raised reflective pavement markers placed as shown on the Plans

Subsection 712.02.E, (pg. 733), 12-15-21; **Portable Impact Attenuators; Revise Heading & 1st Paragraph:**

E. Temporary Work Zone Crash Cushions

Temporary work zone crash cushions shall be in accordance with the Plans and Specifications, meet the requirements for the appropriate test level, and meet the requirements of and be listed on the Department's QPL or Standard Drawings.

Subsection 712.04 & D, (pg. 734 & 737), 12-26-24; **General, Signs;** Revise 4th Paragraph, & **D;** 5th Paragraph:

During periods of non-use, remove warning signs and other devices from the work area, and cover or otherwise position them so they do not convey their message to the traveling public and do not present a safety hazard to drivers. If covered, maintain the covering material in a neat and workmanlike manner during its use. The method of covering the sign face shall not deface or damage the retroreflective sheeting of the sign. Plastic bags shall not be allowed to cover signs.

D. Signs

Cover all existing signs or portions of a sign(s) that are not applicable to the Traffic Control Plan so as not to be visible to traffic, or remove such sign(s) from the roadway when not in use. Signs shall be covered with an opaque, form fitting, tear resistant material that fully obscures the sign text and shall not deface or damage the retroreflective sheeting of the sign. Plastic bags shall not be allowed to cover signs.

Subsection 712.04.B, (pg. 735-736), 12-15-21; **THP Troopers and Uniformed Law Enforcement Officers; Revise 2nd Paragraph:**

When a THP Trooper is not available, the Contractor may provide a Uniformed Law Enforcement Officer if approved by the Engineer and the Regional Safety Coordinator or Regional Operations Office. All Uniformed Law Enforcement Officers shall provide a marked Federal, State, County, City, or Metropolitan government law enforcement vehicle equipped with blue lights and have the authority to write traffic tickets and make arrests within the project site. The Uniformed Law Enforcement Officer shall maintain a detailed written log of enforcement activities and shall submit the log to the Engineer for verification each month.

Subsection 712.06, (pg. 743), 12-15-21; **Temporary Marking; Revise Heading, Add No. 2, & Revise No. 1 & 3:**

712.06 Temporary Pavement Marking

Unless otherwise specified, install temporary pavement marking as follows:

1. Provide 4-inch wide pavement marking (line) for center, edge, lane and barrier lines as shown on the Plans for projects that will have traffic maintained overnight. For temporary pavement markings (line) on intermediate layers of pavement, use reflective tape, reflectorized paint, and raised pavement markers, or a combination thereof as shown on the Plans or as required by the Engineer, and install meeting **716, 910.02, 919.04**, or Department's QPL at the end of each day's work. Short, unmarked sections will not be allowed. Preserve established no-passing zones, if any, on the existing pavement; if no-passing zones have not previously been established, establish them before beginning the work. Mark two-lane, two-way highways with 10-foot long center lines applied on 40-foot centers and appropriate no-passing barrier lines.

2. When required, provide temporary pavement markings at intersections for temporary pavement markings on intermediate layers of pavement. The Department will require temporary intersection pavement markings to be reflectorized paint, or removable pavement marking meeting **716, 910.02, 919.04**, and or Department's QPL.

3. Where required on the completed permanent pavement surface, meet **716.03**.

Subsection 712.09, (pg. 744, 745), 12-15-21; **Method of Measurement; Revise No. 5, 7, 8 & Add 9:**

5. Warning Lights and Flashing Arrow Boards by the unit, Changeable Message Signs per each for the type designated. Payment will be based on the maximum number in place at one time.

7. Temporary Work Zone Crash Cushion based on the initial installation of each. No additional payment will be made for removal, moving, and reinstalling at other locations on the Project as directed by the Engineer. Payment will be based on the maximum number in place at one time.

8. Temporary pavement marking (line) for edge, center, lane and barrier lines will be measured as listed in the plans, complete in place and accepted, as Painted Pavement Marking (Line) regardless of whether the lines are painted, taped markings, or raised pavement markers, or a combination of the above as shown on the Plans or as required by the Engineer. Only the marked line will be measured for payment.

9. Temporary pavement markings at intersections will be measured as listed in the plans complete in place and accepted as Painted Pavement Marking (Description) or Removable Pavement Marking (Description)

Subsection 712.10, (pg. 746, 747), 12-15-21; **Basis of Payment; Revise Item List & Paragraphs 4, 5, 9, Remove Paragraph 8:**

Item	*Pay Unit*
Traffic Control	Lump Sum
Portable Barrier Rail	Linear Feet
Temporary Work Zone Crash Cushion	Each
Signs	Square Feet
Flexible Drums	Each
Temporary Barricades (Type)	Linear Feet
Removable Pavement Marking (Description)	Linear Feet
Changeable Message Sign Unit	Each
Arrow Board (Type C)	Each
Barrier Rail Delineator	Each
Temporary Flexible Tubular Delineator	Each

Payment for Temporary Work Zone Crash Cushion will be made at the contract price, complete in place, with total payment based on the maximum number in place at one time as specified in **712.09**.

Payment for Signs (Construction) is full compensation for providing sign panels with proper sheeting and legend, erecting on proper supports, furnishing all mounting hardware, covering when not in use, relocating, handling, and maintaining until Project completion. Vertical Panels will be paid as Signs (Construction).

Payment for Removable Pavement Marking items shall be full compensation for the installation, maintenance, and removal of the marking line when it is no longer required.

Subsection 714.02, (pg. 757-758); 12-26-24, **Materials**; Revise subsection:

Provide materials as specified in **917** and as follows:

Portland Cement Concrete, Class A **604**
Crushed Stone Grading D **903.05**
Steel Bar Reinforcement for Concrete Structures **907.01**
Welded Steel Wire Fabric **907.03**
Gray Iron Castings **908.07**
Inorganic Zinc Paint **910.03**
Cement Concrete Curing Materials **913**
Conduit ..... **917.05** or **917.07**

Within 30 days after the issuance of the work order, submit to the Engineer ~~four collated~~one digital set~~s~~ of the manufacturer's descriptive literature and technical data, fully describing the types of lighting equipment proposed for use. In the descriptive literature, identify the manufacturer and model, and include sufficient information for the Engineer to determine if the equipment or material meets the requirements of the Plans and these Specifications. Include with the~~se~~ set~~s~~ of submittal data a list of the materials submitted along with descriptive material for, but not limited to, the following items when applicable.

1. Complete photometric data of luminaires as published by the manufacturer with independent testing laboratory results.

~~2. Computer printouts showing illumination levels throughout each interchange area where high mast luminaires are to be installed.~~

2~~3~~. General details of light standards, breakaway bases, and bracket arms. For light standards ~~taller than~~with a mounting height from 30 feet to 50 feet, submit one set of design calculations and ~~six~~ one digital print~~s~~ of "Design" or "Shop" drawings to the Traffic Design Division ~~of Structures~~ for approval purposes. The Department will review these drawings at the earliest possible date and will return ~~two~~ digital prints marked "Approved for Fabrication," or "Returned for Revisions as Noted." Respond by taking appropriate action to ensure the earliest possible correction of these items so as not to delay the installation.

3~~4~~. Highmast tower details with a set of design calculations for each height including access hole, base, anchorage, head frame, and lowering device. Include specification references for materials and location, type, size, and extent of welds. In addition to the set of design calculations, submit ~~six~~one digital print~~s~~ of "Design" or "Shop" drawings for each highmast tower height to the Traffic Design Division ~~of Structures~~ for approval purposes~~,~~ in a manner similar to that specified in Item 2~~3~~ above for light standards ~~taller than~~with a mounting height from 30 feet to 50 feet.

4~~5~~. Dimension sheets and performance data on all related equipment.

The Engineer will retain one copy and forward one copy each to the local entity (city or county engineer) and the Traffic Design ~~Operations~~ Division for their review.

Also include with the submittal set~~s~~ detailed scale drawings of all non-standard or special equipment and of all proposed deviations from the Plans. Deviations from the Plans or Specifications require approval from the Traffic Design ~~Operations~~ Division. Include a letter requesting deviations or alternate materials in the submittal for Traffic Design ~~Operations~~ Division approval. Upon request, submit for approval sample articles of materials proposed for use. The Department will not be liable for any materials purchased, labor performed, or delay to the Work prior to such approval.

In addition to the above, include with each submittal a notarized letter certifying that all lighting system materials listed in the submittal conform to the Plans and Specifications. Also submit to the Engineer a statement from the Maintaining Agency that all lighting system materials listed in the submittal are acceptable to the Agency.

Subsection 714.03, (pg. 758); 12-26-24, **Codes**; Revise subsection:

Furnish material and perform all work in strict accordance with the latest revision of the National Electrical Code (NEC), the National Electrical Safety Code (NESC), the Illuminating Engineering Society (IES) publications, ANSI standards, and the codes, regulations, and rules prevailing in the area in which the Work is being performed, as applicable.

Subsection 714.05.A.1, (pg. 759-761); 12-26-24, **Underground Conduit, General**; Revise 1st, 4th, 5th, and 6th Paragraphs, Add new **1.c**:

Underground conduit shall ~~consist of~~be placed as: encased~~,~~ ~~or~~ direct burial conduit, or by direction boring method. Install conduit in a trench excavated to the dimensions and lines specified.

Obstructions encountered when excavating trenches for underground conduit may require minor changes, such as in locations of conduit runs and pull boxes. Obtain the Engineer's approval before making such changes. Where possible, contact the utility companies to have clear distance required by the specific utility company's standards and specifications to keep electric conduits and pullboxes away from ~~provide a minimum of 12 inches between the finished lines of conduit runs and~~ utility facilities, such as gas lines, water mains, and other underground facilities not associated with the electrical system. Where the conduit run is adjacent to concrete walls, piers, footings, and similar structures, maintain a minimum of 4 inches of undisturbed earth or firmly compacted soil between the conduit and the adjacent concrete or, when the conduit is encased, between the encasement and the adjacent concrete.

Unless shown on the Plans, do not excavate trenches in existing pavement or surfaced shoulders to install conduit. If it is necessary to place a conduit under an existing pavement, install the conduit by ~~jacking~~directional boring ~~-~~or other approved means with galvanized rigid steel conduit or schedule 80 PVC conduit.

Keep ~~jacking and~~ drilling pits at least 10 feet from the edge of the paved shoulder or sidewalk unless otherwise directed by the Engineer. When the Plans specifically allow excavation of a trench through an existing pavement or surfaced shoulder, restore the pavement and/or surface and base to their original condition. Do not leave boring pits open for extended periods of time.

c. **Directional Boring Conduit**. To be used under existing: roads, sidewalks, and business drive.

Subsection 714.05.B, (pg. 762); 12-26-24, **Conduit On Structures**; Revise 1st, & Add New Last Paragraph:

Existing bridges i~~I~~nstall conduits, conduit fittings, hangers, expansion fittings, and accessories as shown on the Plans and, unless otherwise specified, in accordance with the following:…

Proposed bridges provide structural lighting item materials for the bridge designer to include in the proposed bridge superstructure and substructure when lighting is required.

Subsection 714.08.A.3, (pg. 766); 12-26-24, **Wood Poles**; Revise Paragraph:

3. **Wood Poles (For Utility Use Only).** Excavate for wood poles as specified for prestressed concrete butt base pole foundations in **714.08.A.2**. Dig or drill the holes to the depth shown on the Plans and in such diameter to allow satisfactory use of mechanical tamping equipment.

Subsection 714.10, A & B, (pg. 767-769); 12-26-24, **Luminaires, A. High Intensity Discharge (HID), B. Light Emitting Diode (LED)**; Revise 1st Paragraph, Remove **A., B**; Revise 1st Paragraph & No. 3:

The Department only ~~U~~uses Light Emitting Diode (LED)~~the following~~ luminaire~~s types on the~~ for roads and bridges: ~~High Intensity Discharge (HID) which includes High Pressure Sodium (HPS) and Metal Halide (MH); Fluorescent and Induction lamps; and Light Emitting Diode (LED).~~

~~A. High Intensity Discharge (HID)~~

~~High Intensity Discharge (HID) luminaires shall meet IES standards from LM-51-00 to LM-35-02. The HID luminaire shall be covered by a one-year written warranty starting from the system acceptance date. All the other electrical and mechanical component parts of the HID shall be covered by a five-year written warranty starting from the system acceptance date. The signed warranty certificate shall be submitted prior to final payment.~~

~~B.~~ **Light Emitting Diode (LED)**

Light Emitting Diode (LED) luminaires shall be manufactured in accordance with ANSI C136.37-2011 (or recent version). All testing and data sheets for proposed LEDs shall be included in the submittal package and shall include, but not limited to, the following: Illuminating Engineering Society ~~of North America~~ (IES~~NA~~): LM-79-08, LM-80-08, RP-8-14, TM-3-95, and TM-15-07 (all should be up-to-date versions). In addition to these requirements, the LEDs shall meet the following requirements:

3. **Optical Assembly**. The LED optical assembly package shall have a minimum Ingress Protection rating of IP 66 according to ANSI/IEC 60529. The luminaire shall have a standardized refractor/reflector to meet the required optical distribution as required by the plans. The optical assembly shall utilize high brightness, long life, minimum 70 color rendering index (CRI), (3000 K-5700 K) color temperature ~~(+/- 300 K)~~ LEDs binned according to ANSI C78.377. Lenses shall be UV-stabilized acrylic or glass. Provisions for house-side shielding shall be provided when specified.

Subsection 714.14, (pg. 770-771); 12-26-24, **Control Center**; Revise subsection:

Furnish and install a service pole or poles of the design, type, size, and class, and at the locations shown on the Plans, for the electric connection use. Install the service pole(s) as specified in **714.08** and as shown on the Plans. Set the service pole(s) plumb.

Notify the power company, at least 30 days before connection, of the need to furnish power to operate the lighting system.

Unless otherwise specified, furnish and install all the control center equipment and electrical supply facilities. The electrical supply facilities shall include the necessary service conduit from the control cabinet to the ~~delivery point~~proposed light poles designated on the Plans.

Construct a concrete slab for all proposed light control centers, unless the utility company wants to place the proposed light control center on a pole, of the dimensions and thickness indicated, around the

service pole foundation. Construct the slab of Class A concrete meeting the requirements of **604**, and reinforce the slab, if specified, as shown on the Plans.

Construct a 6-foot chain-link fence and gate, if the utility company requests, of the size specified around the control center as shown on the Plans and as specified in **707.**

Subsection 714.20.F, (pg. 774); 12-26-24, **Luminaires**; Revise Paragraph:

The Department will measure Luminaires of the size, type, and design specified by the unit, per each, ~~regardless of their classifications (i.e. LED, HID).~~

Subsection 714.21.E, & **F,** (pg. 777-778); 12-26-24, **Light Standards & Luminaires**; Revise Paragraphs:

E. Light Standards

The Department will pay for Light Standards of the type specified at the contract unit price per each, complete in place. Such payment is full compensation for furnishing and installing the complete light standards, including the ~~foundation,~~ standard, bracket arm or arms, associated hardware and wiring, grounding materials, excavation, backfilling materials, and backfilling. The Department will measure foundations for typical light standard (30 feet to 50 feet) and high mast towers separately.

F. Luminaires

The Department will pay for Luminaires of the size and type specified at the contract unit price per each, ~~regardless of their classifications (i.e. LED, HID),~~ complete in place. Such payment is full compensation for furnishing and installing the complete luminaire, including the ballast(s) or driver(s), lamp(s), glare shields where required, and associated hardware and wiring.

Subsection 716.03.B, (pg. 790), 12-15-21; **Application; Revise No. 3 & Add No. 4:**

3. **Temporary Pavement Marking (Line).** When thermoplastic is used on the final pavement surface, the Contractor may use reflectorized paint for the center, edge, lane and barrier lines installed meeting **716.07** and **910** at the end of each day's work and then install the permanent pavement marking after the paving operation is completed. Short, unmarked sections are not allowed. The Department will not directly measure and pay for temporary markings for the final surface and will consider the costs thereof to be incidental to the item for the permanent thermoplastic pavement markings (line).

4. **Temporary Pavement Markings at Intersections**. When required, temporary pavement markings at intersections are to be installed with reflectorized paint meeting **716.07** and **910**. The Department will measure and pay as noted in **712.09** and **712.10,**

Subsection 716.07.A, (pg. 793), 12-15-21; **Application; Revise 11th Paragraph:**

When reflectorized paint is required for temporary or final marking, install the paint meeting **910.02** at the end of each day's work. Do not leave any short, unmarked sections.

Subsection 717.03, (pg. 799-800), 12-19-22; **Basis of Payment; Revise Subsection:**

The Department will pay for Mobilization on a lump sum basis.

The Department will make partial payments for Mobilization based on the amount bid for mobilization and the total original contract amount for all items of work. If the amount bid for the item of Mobilization exceeds 10% of the total amount bid for the Contract, the Department will pay that portion exceeding 10% on the last partial pay estimate. Payments will be made according to Table 717.03-1.

Table 717.03-1: Payment Schedule for Mobilization

Payment Estimate Number or Completion of Contract	Payment Amount whichever is least	Accumulated Payment whichever is least
Estimate # 1	25% Lump Sum Item or 2.5% Contract Price	25% Lump Sum Item or 2.5% Contract Price
5% of Contract (Excluding previous mobilization payments and stockpile payments per 109.09)	25% Lump Sum Item or 2.5% Contract Price	50% Lump Sum Item or 5.0% Contract Price
10% of Contract (Excluding previous mobilization payments and stockpile payments per 109.09)	25% Lump Sum Item or 2.5% Contract Price	75% Lump Sum Item or 7.5% Contract Price
50% of Contract (Including previous mobilization payments and stockpile payments per 109.09)	25% Lump Sum Item or 2.5% Contract Price	100% Lump Sum Item or 10.0% Contract Price
Last Partial Pay Estimate	Portion Exceeding 10%	Portion Exceeding 10%

If 50% or more of the total original contract amount is completed by the payment of Estimate #1, a payment of 75% of the price bid for Mobilization will be made on Estimate #1. The remainder of the price bid for Mobilization will be paid on the following estimate.

Subsection 722.06.E, (pg. 803), 12-19-22; **Interior Utility Services; Revise Subsection E:**

E. Telephone and Internet

Provide telephone service with voicemail and two incoming phone lines. Provide internet service with wifi and two data ports for wired connections.

Subsection 722.09, (pg. 805), 12-19-22; **Concrete Cylinder Storage; Revise 1st Paragraph:**

Provide a storage facility (shed/building) for temporary storage of concrete acceptance cylinders. The storage facility shall be of sufficient size and construction to protect the concrete cylinders from the elements and damage. Obtain the Engineer's approval of the storage facility location. Department personnel shall have access to the storage facility. Equip the storage facility with a concrete curing environment consisting of a box or water curing tank with a heating/circulating system of sufficient size to properly cure all acceptance cylinders before transferring for final storage and testing. Provide a temperature measuring device capable of recording the conditions inside the curing environment. The curing environment shall comply with AASHTO M 201, and proper curing of the cylinders shall be in accordance with AASHTO R 100. Temperature data for the curing environment shall be kept for the duration of the projects and made available to the Department upon request. The Department will not accept any concrete without the Engineers approval of the storage facility.

Supplemental Specifications – 900SS

of the

Standard Specifications for Road and Bridge Construction

January 1, 2021

Subsection 901.01, (pg. 900), 12-19-22; **Hydraulic Cement;** Revise List, 2nd, and 3rd Paragraphs:

Portland Cement.....AASHTO M 85
Blended Hydraulic Cement..... AASHTO M 240

The maximum allowable equivalent alkalis for Portland Cement is 0.60 % when used in roadways with aggregates meeting the requirements of **903.24**.

Use Type I, Type IL, Type IP, or Type IS cement unless otherwise specified. Do not mix different types or sources of cement.

Subsections Listed, (pg. varied), 12-19-22; **Hydraulic Cement 901.01;** Revise Following Subsections:

204.06.B, (pg. 156), **Revise Materials List:**

304.02, (pg. 230), **Revise Materials List:**

306.02, (pg. 238), **Revise Materials List:**

309.02, (pg. 252), **Revise Materials List:**

312.05, (pg. 266), **Revise 1st Paragraph first sentence:**

313.02, (pg. 270), **Revise Materials List:**

616.03, (pg. 635), **Revise Materials List:**

619.02, (pg. 650), **Revise Materials List:**

619.03, (pg. 651), **Revise Table 619.03-1:**

619.13, (pg. 657), **Revise 1st Paragraph first sentence:**

622.02, (pg. 664), **Revise Materials List:**

Subsection 903.01, (pg. 903), 12-26-24; **Fine Aggregate for Concrete;** Revise Table 903.01-2:

Table 903.01-2: Gradation Requirements for Fine Aggregate

Sieve Size	Total Percent Passing by Weight
3/8 inch	100
No. 4	95-100
No. 16	50-90
No. 50	5-35
No. 100	0-20
No. 200 (1)	0-3

(1) If the fine aggregate is manufactured from crushed stone and if material finer than the No. 200 sieve consists of the dust of fracture, essentially free from clay or shale, this limit may be increased to ~~10~~7%.

Subsection 903.03, (pg. 904-905), 12-19-22; **Coarse Aggregate for Concrete;** Revise 2nd,4th,5th,6th and 7th Paragraphs:

Coarse aggregate for hydraulic cement concrete to be used in the finished riding surfaces of roadways shall meet requirements of 903.24 unless otherwise specified. Coarse aggregate for bridge decks (except decks that will be overlaid with HFST or Asphalt Pavements during the same construction season) and overlays on interstates and four or more lane highways shall meet **903.24** unless otherwise specified.

Coarse aggregate in Portland cement concrete pavements for finished riding surfaces of travel lanes including mainline pavements and ramps shall consist of Size No. 467. Ensure that either the Size No. 4 or Size No. 67 fractions meet **903.24**.

Coarse aggregate in two-lift composite pavements shall consist of Size No. 467 in the lower lift, graded as specified in **903.22,** the coarse aggregate for the lower lift does not have to meet the requirements of **903.24**. Coarse aggregate in the upper lift shall be Size No. 57 or 67 graded as specified in **903.22** and shall meet **903.24** riding surface requirements.

The coarse aggregates for travel lanes and bridge decks shall be crushed and consist of stone, slag, gravel, quartzite, gneiss, or combination thereof. The absorption of plus 4 material shall not exceed 5% on any individual aggregate. Do not use uncrushed gravel, pea gravel, or any other uncrushed particles. Crushed gravel, if used, shall consist of siliceous washed particles after processing, of which at least 70% by count of the material retained on the No. 4 sieve contains a minimum of two fractured faces. One face shall be fractured for the approximate average diameter or thickness of the particle.

Subsection 903.03, (pg. 904), 12-26-24; **Coarse Aggregate for Concrete;** Revise 2nd Paragraph:

~~Coarse aggregate for hydraulic cement concrete to be used in the finished riding surfaces of roadways shall meet requirements of **903.24** unless otherwise specified.~~ Coarse aggregates for bridge decks, portland cement concrete pavements (including ramps), ~~(except decks that will be overlaid with HFST or Asphalt Pavements during the same construction season)~~ and overlays used for the finished riding surfaces ~~on interstates and four or more lane highways~~ shall meet requirements of **903.24**. ~~unless otherwise specified.~~

Subsection 903.06.C, (pg. 914), 8-26-24; **Combined Aggregate Grading;** Revise Table 903.06-4:

Table 903.06-4: Hot Plant Mix Leveling CourseMixture Design Range of Gradations

Sieve Size	Total Percent Passing, by Weight					
	Grading BM	Grading BM2 (1)	Grading C	Grading CM	Grading CW	Grading CS
1-1/4 inch	--	100	--	--	--	--

No. 200	0-6.5	2.5-6.5	2.5-6.5	2.5-6.5	2.5-6.5	6-13.5

(1) When using natural sand as the fine aggregate, limit it to a maximum amount of 20% by weight of the mineral aggregate.

Subsection 903.11.C.3, (pg. 920), 12-19-22; **Grading OGFC;** Remove 2nd Paragraph:

~~Recycled asphalt pavement (RAP) milled from Department or other State Highway Agency projects shall be assumed to contain 75% polish-resistant material.~~

Subsection 903.12.B, (pg. 921-922), 12-19-22; **Aggregate for Micro-Surface;** Revise 1st, 2nd Paragraphs, and Table 913.12-2:

The aggregate shall be crushed slag, crushed granite, or crushed stone (crushed stone as specified in **903.24**) meeting the gradation limits specified in Table 903.12-2 and the physical properties of ASTM D692, except the percent of fractured pieces shall be 100. The aggregate shall meet the quality requirements in **903.25**. The aggregate shall have a minimum sand equivalent, as determined in accordance with AASHTO T 176, of 65. Polish-resistant aggregates will not be required for leveling courses, provided they will be covered with riding surface mixtures. Provide a Type A laboratory as defined by **106.06** capable of verifying gradation at the location of stockpiled material.

If blending aggregates from more than one source, use automated proportioning and blending equipment which has individual bins for each aggregate source used to produce a uniform stockpile meeting the job mix formula gradation. Proportion and blending equipment shall be calibrated at the beginning of production. All aggregate sources shall be polish-resistant as specified in **903.24**.

Table 903.12-2: Gradation Limits for Aggregate for Micro-Surface Based on Wash Gradation

Sieve	Design Master Range (Total Percent Passing)	Mixture Control Tolerances
3/8 inch	100	
No. 4	70-98	±5.0
No. 8	45-70	±5.0
No. 16	28-50	±5.0
No. 30	19-34	±5.0
No. 50	12-25	±4.0
No. 100	7-18	±3.0
No. 200	4-15	±2.0

Subsection 903.24, (pg. 927), 12-26-24; **Aggregates for Riding Surfaces (Polish-Resistant Aggregates);** Revise Table 903.24-1:

Table 903.24-1: Quality Requirements for Type I, II, III, and IV Aggregate

Aggregate Property	Test Method	Type I (all roads)	Type II (all roads)	Type III (15,000 ADT max, excluding Interstates)	Type IV (5,000 ADT max)
Silica Dioxide Content, % min	ASTM C25	40%	30%	20%	10%
Calcium Carbonate Content, % max		32%	--	--	--
Acid Insoluble Residue, % min	ASTM D3042	50%	35%	25%	--
British Pendulum Number,(1)(2) min	AASHTO T 278 AASHTO T 279	30	30	25	22

(1) After 9 hours of accelerated polishing using the British Wheel in accordance with AASHTO T 279

(2) British Pendulum Number only required for limestone aggregates.

Subsection 904.03 (pg. 931-934), 12-15-21; **Emulsified Asphalt;** Revise Table 904.03-1(c):

Table 904.03-1(c): Test Requirements for Emulsified Asphalt

Subsection 908.04.A & C, (pg. 947-949), 12-26-24**; High Strength Bolts, Specifications;** Revise A No. 1 and C No. 1 a & b, and C No. 3.a:

A.1 Bolts. ASTM F3125, Grade A325 and Grade A490 – High Strength Bolts for Structural Joints.

C.1.a Perform proof load tests, in accordance with ASTM F606 Method 1, at the minimum frequency of testing specified in ASTM F3125 Grade A325 paragraph 9.2.4.

C.1.b Perform wedge tests on full size bolts, in accordance with ASTM F606 paragraph 3.5, at the minimum frequency of testing specified in ASTM F3125 Grade A325 paragraph 9.2.4.

C.3.a Except as modified herein, perform the rotational-capacity test in accordance with the requirements of ASTM F3125 Grade A325.

Subsection 908.09, (pg. 955), 12-27-23; **Bronze Bearing Plates, Plain;** Revise Subsection:

Provide plates conforming to ASTM B22, Alloy UNS No. C90500, C91100, or C86300, or ASTM B100, Alloy UNS No. C51000.

Subsection 914.01, (pg. 977), 12-19-22; **Non-Reinforced Concrete Pipe;** Revise 2nd Paragraph:

Manufacture all non-reinforced concrete pipe to meet the Department's procedure for the Manufacture and Acceptance of Precast Concrete Products.

Subsection 916.06, (pg. 988), 12-15-21; **Reflective Sheeting;** Revise Subsection:

Provide reflective sheeting from the Department's QPL conforming to AASHTO M 268 and the supplementary requirements for fungus resistance of AASHTO M 268. The sheeting material shall have a precoated adhesive backing or a heat and pressure activated adhesive backing protected by a removable liner.

For all signs with a SILVER-WHITE and ORANGE background when used on temporary barricades and channelizing drums, provide reflective sheeting that meets or exceeds AASHTO M 268, Type B.

For all permanent panel signs with a SILVER-WHITE, YELLOW, RED, GREEN, BROWN, or BLUE background, provide reflective sheeting that meets or exceeds AASHTO M 268, Type D.

For overhead permanent signs attached to sign structures which overhang travel lanes and are not illuminated with sign lighting, provide reflective sheeting that meets AASHTO M 268, Type D.

For all other sign types, provide reflective sheeting that meets or exceeds AASHTO M 268, Type B.

For FLOURESCENT ORANGE background, provide reflective sheeting that meets or exceeds AASHTO M 268, Type B.

Subsection 916.06, (pg. 988), 12-27-23; **Retroreflective Sheeting;** Revise 2nd and Add 3rd Paragraph:

For all signs with a SILVER-WHITE and ORANGE background when used on temporary barricades, provide retroreflective sheeting that meets or exceeds AASHTO M 268, Type B.

For all sheeting with a SILVER-WHITE and FLUORESCENT ORANGE background when used on channelizing drums, provide retroreflective sheeting that meets or exceeds AASHTO M 268, Type B. The SILVER-WHITE material shall be of the same manufacturer as the FLUORESCENT ORANGE material.

Subsection 916.07, (pg. 988,989), 12-15-21; **Legends, Borders, and Accessories;** Revise Subsection:

Provide letters, numerals, symbols, borders, and route markers conforming to the MUTCD.

A. Type "A" Class I (Demountable)

Provide silver-white letters, numerals, symbols, borders, and route markers of a pre-coated pressure sensitive or a tack-free heat-activated adhesive reflective sheeting permanently adhered to the sign panel.

For all permanent panel signs, provide reflective sheeting that meets AASHTO M 268, Type D.

Mechanically apply the reflective sheeting to the properly prepared sign panel with the equipment and in a manner prescribed by the sheeting manufacturer. Letters, numerals, symbols, borders, and route markers shall be 0.032-inch-thick aluminum sheet of 3003 H14 Alloy or approved composite material. Properly degrease and etch aluminum, or treat with a light, tight, amorphous chromate type coating.

Supply each letter, numeral, symbol, and route marker with mounting holes, and secure to the sign surface with corrosion-resistant screws, bolts, or rivets.

B. Type "A" Class 2 Cut-Out (Direct Applied Reflective Sheeting Copy)

Provide silver-white cut-out letters, numerals, symbols, borders, and route markers of a pre-coated pressure sensitive or a tack-free heat-activated adhesive reflective sheeting.

For all permanent panel signs, provide reflective sheeting that meets AASHTO M 268, Type D.

For all other sign types, provide reflective sheeting that meets or exceeds AASHTO M 268, Type B.

Subsections Listed, (pg. varies), 12-19-22; **Replace Reflective with Retroreflective 916.06;** Revise Following Subsections:

916.05.H, (pg. 986), **Revise 2nd Paragraph:**

916.05.H.3, (pg. 986), **Revise 1st Paragraph:**

Subsection 921.09, (pg. 1022), 12-19-22; **Grout; Revise Subsection:**

Submit grout mix designs to the Department's Materials and Tests. Grout designs shall use hydraulic cement meeting the requirements of **901.01** or an appropriate alternative from the Department's Qualified Products List. Use sand conforming to the requirements of **903.02.** Use water that has been approved by the Engineer.

When non-shrinking or non-shrinking fast-setting grout is specified, either formulate it by incorporating an admixture, or use a pre-mixed grout. Mix and use the grout in accordance with the manufacturer's recommendations. Grouts will be reviewed as follows:

A. Non-Structural Grout

Grout specified without a strength requirement will be non-structural and shall have its design submitted per Departmental procedures. Mix grout in small quantities as needed, and do not retemper or use grout after it has begun to set. Unless otherwise specified or directed, provide grout consisting of one part Portland cement and two parts sand by volume, mixed with sufficient water to form a grout of proper consistency.

B. Structural Grout

Grout specified with a strength requirement will be structural grout and shall have its design submitted per Departmental procedures.

STATE OF TENNESSEE
Rev: October 10, 2016 January 1, 2021

SPECIAL PROVISION

REGARDING

EMPLOYING AND CONTRACTING WITH ILLEGAL IMMIGRANTS

The State shall endeavor to do business only with those contractors and subcontractors that are in compliance with the Federal Immigration and Nationality Act. This policy shall apply to all State Contractors including subcontractors. This policy statement is issued to establish implementation guidance to procuring state agencies and contractors reflecting the requirements of *Tennessee Code Annotated* §12-3-309 regarding the employment of illegal immigrants in the performance of state contracts.

1. The Contractor hereby attests, certifies, warrants, and assures that the Contractor shall not knowingly utilize the services of an illegal immigrant in the performance of this Contract and shall not knowingly utilize the services of any subcontractor who will utilize the services of an illegal immigrant in the performance of this Contract. The Contractor shall reaffirm this attestation, in writing, by submitting to the State a completed and signed copy of the "Attestation form" provided by the Department, semi-annually during the period of this Contract.

2. Prior to the use of any subcontractor in the performance of this Contract, and semi-annually thereafter, during the period of this Contract, the Contractor shall obtain and retain a current, written attestation that the subcontractor shall not knowingly utilize the services of an illegal immigrant to perform work relative to this Contract and shall not knowingly utilize the services of any subcontractor who will utilize the services of an illegal immigrant to perform work relative to this Contract.

3. The Contractor shall maintain records for its employees used in the performance of this Contract. Said records shall include a completed federal Department of Homeland Security Form I-9, *Employment Eligibility Verification*, for each employee and shall be subject to review and random inspection at any reasonable time upon reasonable notice by the State.

The Contractor understands and agrees that failure to comply with this section will be subject to the sanctions of *Tennessee Code Annotated* § 12-3-309 for acts or omissions occurring after January 1, 2007. This law requires the Chief Procurement Officer, Department of General Services, to prohibit a contractor from contracting with, or submitting an offer, proposal, or bid to contract with the State of Tennessee to supply goods or services for a period of one year after a

contractor is discovered to have knowingly used the services of illegal immigrants during the performance of this contract.

For the Purposes of this policy, "illegal immigrant" shall be defined as a non-citizen who has entered the United State of America without federal government permission or stayed in this country beyond the period allowed by a federal government-issued visa authorizing the non-citizen to enter the country for specific purposes and a particular time period.

STATE OF TENNESSEE

(Rev. 6-20-11) January 1, 2021

SPECIAL PROVISION

REGARDING

BUY AMERICA REQUIREMENTS

All manufacturing processes for iron and steel products, and coatings applied thereon, used in this project shall occur in the United States except that if the proposal has bid items for furnishing domestic and foreign iron and steel, the bidder will have the option of (1) submitting a bid for furnishing domestic iron and steel, or (2) submitting a bid for furnishing domestic iron and steel and a bid for furnishing foreign iron and steel. If option (2) is chosen, the bid will be tabulated on the basis of (a) the total bid price using the bid price for furnishing domestic iron and steel and, (b) the total bid price using the bid price for furnishing foreign iron and steel.

For the total bid based on furnishing foreign iron and steel to be considered for award, the lowest total bid based on furnishing domestic iron and steel must exceed the lowest total bid based on furnishing foreign iron and steel by more than 25 percent. The 25 percent differential applies to the total bid for the entire project, not just the bid prices for the steel or iron products.

Iron and steel products are defined as products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed from iron and steel made in the United States. Iron products are included, however, pig iron and processed, pelletized, and reduced iron ore may be purchased outside the United States.

Manufacturing begins with initial melting and continues through the coating stage. Any process which modifies chemical content, physical size or shape, or the final finish is considered a manufacturing process. Coatings include epoxy, galvanizing, painting or any other surface protection that enhances the value and/or durability of a material.

The contractor shall provide a certification to the Engineer with each shipment of iron and steel products to the project site that the manufacturing processes for the iron and steel products occurred in the United States. No steel shall be placed until the contractor ensures the requirements of this Special Provision are met.

The above requirements do not prevent a minimal use of foreign materials, if the cost of such materials used does not exceed 0.1 percent of the total contract cost or $2,500.00, whichever is greater. If steel not meeting the requirements of this Special Provision is used, the contractor shall provide a written statement to the Department prior to its use indicating where the steel will be incorporated in the work,

the value of the steel, the percentage of the contract amount, and the appropriate invoices shall be submitted as documentation.

The contractor shall be responsible for all cost associated with any steel that is permanently incorporated into the project that does not meet the requirements of this Special Provision without prior written approval from the Department, up to and including removal and replacement.

STATE OF TENNESSEE

(Rev. 2-8-21)
(Rev. 12-9-24)

January 1, 2021

SPECIAL PROVISION

REGARDING

WATER QUALITY AND STORM WATER PERMITS

Description

This work consists of the conditions that apply to all construction activities on the project pursuant to the following:

1. Section 404 of the Federal Clean Water Act (33 U.S.C. §1344), and all implementing regulations, including without limitation regulations of the U.S. Army Corps of Engineers governing permits for discharges of dredged or fill material into waters of the United States in 33 CFR Part 323; and
2. Section 408 authorized under Section 14 of the Rivers and Harbors Act of 1899 (33 U.S.C.§408), and all implementing regulations, including without limitation regulations of the U.S. Army Corps of Engineers governing changes to USACE Civil Works projects; and
3. The Tennessee Water Quality Control Act (T.C.A. §69-3-101, et seq.) and all implementing regulations, including without limitation the Rules of the Tennessee Department of Environment and Conservation governing NPDES permits in Chapter 400-40-10, and Aquatic Resource Alteration permits in Chapter 400-40-7; and
4. Section 26a of the TVA Act of 1933 as amended (49 Stat. 1079, 16 U. S. C. sec. 831y1.) and all implementing regulations, including without limitation the regulations of the Tennessee Valley Authority governing construction in the Tennessee River System in 18 C.F.R., Part 1304; and
5. The Tennessee Wildlife Resources Agency Reelfoot Lake Watershed Management permit program (T.C.A. section 70-5-1,), and all implementing regulations, including without limitation regulations authorizing any activity, practice, or project which has or is likely to have the effect of diverting surface or subsurface water from the Lake or have the effect of draining or otherwise removing water from Reelfoot Lake; and
6. Coast Guard Bridge Permit (USCG) (Section 9 of the Rivers and Harbors Appropriation Act of 1899) and all implementing regulations, including but not without limitation for projects which impact streams deemed navigable by the U.S. Coast Guard.

Responsibility

Assume all responsibilities of the permittee as indicated in the permit that relates to protection of the "waters of the United States" and/or "waters of the State of Tennessee."

Obtain any additional permits required by the Contractor for off-site waste and/or borrow areas and associated off project work areas.

Sign the Notice of Intent (NOI) form, provided by the Department, indicating acceptance of the stipulations contained in the permit. Submit the signed NOI to the TDOT HQ Construction Division by email within 10 calendar days after submittal of the contract proposal or the Department may at its discretion cancel the award with the Contractor forfeiting the bid bond.

Implement the provisions of the Water Quality (including, but not limited to, TDEC ARAP, USACE 404, TVA Section 26a, Coast Guard, TWRA) and Storm Water [including, but not limited to, National Pollution Discharge Elimination System (NPDES), Statewide Stormwater Management Plan (SSWMP)] Permits and requirements that pertain to construction activities.

Review of the permit provisions, including NPDES Permit provisions the site specific SWPPP, the contract plans, Standard Specifications and contract Special Provisions and find the permit requirements and erosion prevention and sediment control (EPSC) procedures to be reasonable, workable, and binding.

The Contractor shall not be released from the project site responsibilities under the NPDES permit provisions until the Notice of Termination (NOT) is submitted to TDEC by the TDOT Regional Operations Engineer. The NOT is a certification that the construction project is permanently stabilized, and all construction related discharges have ceased. This means that the use of EPSC measures to alleviate concerns of surface erosion and transport of sediment to surface water conveyances or to waters of the state is no longer necessary. Furthermore, it means that permanent controls, hard surfaces and/or vegetation, used on the project are deemed adequate to prevent erosion and sediment transport and no other potential sources of construction-related pollution are on the project.

The Contractor shall not be released from any warranty provided for EPSC plantings, including sod and trees. If the entire project is complete as outlined in **105.15** of the Standard Specifications, the tree plantings shall still be required to meet the requirements of **802** Standard Specifications.

NPDES Permit Required Action

Accompany the TDOT EPSC inspector or TDOT consultant on all EPSC inspections of the entire construction project including permitted locations and potentially impacted streams and attend all QA/QC Project Assessments.

EPSC Inspections shall be conducted as required in the most current TN Construction General Permit. EPSC inspections shall be performed on the schedule established in the TN Construction General Permit until the site is permanently stabilized to determine if the permit requirements are being met. Where sites or portion(s) of the construction project have been temporarily stabilized,

the inspections only have to be conducted once per month until construction activity resumes. Written notification of the intent to change the inspection frequency and the justification for such request must be submitted to the TDOT Field Office and the TDEC Central Office before proceeding.

A representative who holds a current TDEC "*Fundamentals of Erosion Prevention and Sediment Control Level I*" certification shall accompany the TDOT EPSC inspector on all required EPSC inspections. The project supervisor(s) shall also hold a current TDEC "*Fundamentals of Erosion Prevention and Sediment Control Level I*" certification. Proof of required personnel training for the individual(s) shall be provided to the TDOT Field Office prior to beginning of construction.

The TDOT EPSC inspector shall document all deficiencies on the required current TDOT EPSC Inspection Report form. Sign the TDOT EPSC Inspection Report form and any supporting documentation indicating that there is agreement with the report, recommendations and repair schedule as stated in the documentation.

Make necessary maintenance and repairs relative to deficiencies in these permit conditions or requirements within 24 hours after an inspection identifies the maintenance or repair need, and/or as directed by the Department, unless conditions make a particular activity impracticable. Any such conditions that make immediate repairs impracticable shall be documented on the inspection report and provided to the TDOT Field Office and be accompanied by an expected repair schedule based on forecasted weather conditions.

Review the site specific SWPPP that will be made available prior to or at the pre-construction conference for any additional EPSC requirements. Sign and submit two copies of the SWPPP signature page provided by the Department in the site specific SWPPP. Submit for review and approval any changes/revisions to the SWPPP to prevent erosion and sediment transport at any time after contract execution. Rejection of any submittals by the Department does not relieve the liability for appropriate Best Management Practices (BMPs).

If at any time during this contract, the requirements for the Water Quality Permits and/or the Storm Water Permits for Construction Related Activities are changed/revised/updated, the Contractor shall be notified in writing by the Department of such requirements. Comply with the new requirements within 30 days of the Department notification.

If at any time that sedimentation is occurring or has occurred in streams impacted by the project, immediately notify the TDOT Field Office to evaluate the EPSC measures employed. A determination of the cause for sedimentation will be made by the Department. Immediately repair or replace defective EPSC measures and install, as applicable, additional or other EPSC measures with the goal of eliminating future sedimentation. Once a remediation plan is provided by the Department, within 24 hours after notification, begin the remediation as required. Based on the cause of sedimentation, the Department will determine if the cost of remediation will be performed at the Contractor's expense.

Failure to Comply

In the event a Notice of Noncompliance, Notice of Violation, Notice of Deficiency, or Order is issued by any State or Federal Agency on this project, any required corrective action and all fines will be the sole responsibility of the Contractor as outlined in **107.01** of the Standard Specifications.

Failure to comply or take immediate corrective actions required within 24 hours, unless documented conditions make a particular maintenance or repair activity impracticable immediately, shall be reason for the Department to suspend all other work on the Project, except EPSC and traffic control. The Department will apply non-refundable deductions of monies from the Contract per calendar day from monies due to the Contractor for any EPSC work on the Project. This deduction can be made for each location, as determined by the Department, for each calendar day that the deficiency is allowed to remain and charged as item description *"Failure to Comply with Permit Deduction"*. A deduction shall be made from monies due the Contractor, not as a penalty, but as liquidated damages, as indicated in **108.09** of the Standard Specifications.

If the necessary corrections/adjustments are not done in a timely manner as required, the Department will implement the provisions of **209.07** and **109.08** of the Standard Specifications that provides for the Department making repairs and recovering the costs thereof from the Contractor.

The Department will not participate in any payment or reimbursement for fines and will not authorize time extensions due to delays in project progress for work stoppage, to remedy the violations stated within the NOV, as stated in **105.01** of the Standard Specifications.

Spill Prevention, Control, and Countermeasure

To help prevent the discharge of oil into navigable waters, the U.S. Environmental Protection Agency (EPA) developed the Spill Prevention, Control, and Countermeasure (SPCC) Program. The SPCC Program is under the authority of Section 311 (j)(1)(C) of the Federal Water Pollution Control Act (Clean Water Act) in 1974. The rule may be found at Title 40, Code of Federal Regulations (CFR), Part 112. Additional information regarding the preparation and requirements of a SPCC Plan can be found at: Overview of the Spill Prevention, Control, and Countermeasure (SPCC) Regulation | US EPA

If applicable based upon the total aggregate capacity of aboveground oil storage, develop a site specific SPCC Plan per EPA requirements. This plan shall be provided to the TDOT Field Office as part of the required submittals during the project Pre-Construction Meeting or at which time the conditions on the project site meet the applicable criteria. If applicable, obtain any other necessary local, state, and federal permits as applicable. The SPCC Plan and/or permits shall be kept on-site.

Comply with all aspects of the site specific SPCC Plan including but not limited to performing any required inspections as directed by the SPCC Plan as well as implementing material and spill management practices per the project's SWPPP. In the event, where a release containing a hazardous substance in an amount equal to, or in excess of a reportable quantity established under either 40 CFR 117 or 40 CFR 302 occurs during a 24-hour period, immediately notify the TDOT Field Office.

STATE OF TENNESSEE

SPECIAL PROVISION

REGARDING

EQUAL EMPLOYMENT OPPORTUNITY

Electronic Code of Federal Regulations (e-CFR):
23 CFR 230 Chapter 1 Subchapter C Appendix A to Subpart A

Specific Equal Employment Opportunity Responsibilities

General

a) Equal employment opportunity requirements not to discriminate and to take affirmative action to assure equal employment opportunity as required by Executive Order 11246 and Executive Order 11375 are set forth in Required Contract Provisions (Form PR-1273 or 1316, as appropriate) and these Special Provisions which are imposed pursuant to Section 140 of Title 23, U.S.C., as established by Section 22 of the Federal-Aid Highway Act of 1968. The requirements set forth in these Special Provisions shall constitute the specific affirmative action requirements for project activities under this contract and supplement the equal employment opportunity requirements set forth in the Required Contract Provisions.

b) The contractor will work with the Tennessee Department of Transportation and the Federal Government in carrying out equal employment opportunity obligations and in their review of his/her activities under the contract.

c) The contractor and all his/her subcontractors holding subcontracts not including material suppliers, of $10,000 or more, will comply with the following minimum specific requirement activities of equal employment opportunity: (The equal employment opportunity requirements of Executive Order 11246, as set forth in Volume 6, Chapter 4, Section 1, Subsection 1 of the Federal-Aid Highway Program Manual, are applicable to material suppliers as well as contractors and subcontractors). The contractor will include these requirements in every subcontract of $10,000 or more with such modification of language as is necessary to make them binding on the subcontractor.

Equal Employment Opportunity Policy

The contractor will accept as his operating policy the following statement which is designed to further the provision of equal employment opportunity to all persons without regard to their race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability and to promote the full realization of equal employment opportunity through a positive continuing program:

> It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability. Such action shall include employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or forms of compensation; and selection for training, including apprenticeship, preapprenticeship, and/or on-the-job training.

Equal Employment Opportunity Officer

The contractor will designate and make known to the Tennessee Department of Transportation contracting officers an equal employment opportunity officer (hereinafter referred to as the EEO Officer) who will have the responsibility for and must be capable of effectively administering and promoting an active contractor program of equal employment opportunity and who must be assigned adequate authority and responsibility to do so.

Dissemination of Policy

a) All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action, or who are substantially involved in such action, will be made fully cognizant of, and will implement, the contractor's equal employment opportunity policy and contractual responsibilities to provide equal employment opportunity in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:

   1) Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's equal employment opportunity policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer or other knowledgeable company official.

   2) All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer or other knowledgeable company official covering all major aspects of the contractor's equal employment opportunity obligations within thirty days following their reporting for duty with the contractor.

   3) All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer or appropriate company official in the contractor's procedures for locating and hiring minority group employees.

b) In order to make the contractor's equal employment opportunity policy known to all employees, prospective employees, and potential sources of employees, i.e., schools, employment agencies, labor unions (where appropriate), college placement officers, etc., the contractor will take the following actions:

1) Notices and posters setting forth the contractor's equal employment opportunity policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.

2) The contractor's equal employment opportunity policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

Recruitment

a) When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be published in newspapers or other publications having a large circulation among minority groups in the area from which the project work force would normally be derived.

b) The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minority group applicants, including, but not limited to, State employment agencies, schools, colleges and minority group organizations. To meet this requirement, the contractor will, through his EEO Officer, identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority group applicants may be referred to the contractor for employment consideration.

In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, he is expected to observe the provisions of that agreement to the extent that the system permits the contractor's compliance with equal employment opportunity contract provisions. (The U.S. Department of Labor has held that where implementation of such agreements have the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Executive Order 11246, as amended).

c) The contractor will encourage his present employees to refer minority group applicants for employment by posting appropriate notices or bulletins in areas accessible to all such employees. In addition, information and procedures with regard to referring minority group applicants will be discussed with employees.

Personnel Actions

Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability. The following procedures shall be followed:

a) The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.

b) The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.

c) The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.

d) The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with his obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of his avenues of appeal.

Training and Promotion

a) The contractor will assist in locating, qualifying, and increasing the skills of minority group and women employees, and applicants for employment.

b) Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs, i.e., apprenticeship, and on-the-job training programs for the geographical area of contract performance. Where feasible, 25 percent of apprentices or trainees in each occupation shall be in their first year of apprenticeship or training. In the event the Special Provision Regarding Training Program Requirements is provided under this contract, this subparagraph will be superseded as indicated therein.

c) The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.

d) The contractor will periodically review the training and promotion potential of minority group and women employees and will encourage eligible employees to apply for such training and promotion.

Unions

If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use his/her best efforts to obtain the cooperation of such unions to increase opportunities for minority groups and women within the unions, and to effect referrals by such unions of minority and female employees. Actions by the contractor either directly or through a contractor's association acting as agent will include the procedures set forth below:

a) The contractor will use best efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minority group members and women for membership in the unions and increasing the skills of minority group employees and women so that they may qualify for higher paying employment.

b) The contractor will use best efforts to incorporate an equal employment opportunity clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability.

c) The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the Tennessee Department of Transportation and shall set forth what efforts have been made to obtain such information.

d) In the event the union is unable to provide the contractor with a reasonable flow of minority and women referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to their race, color, religion, sex, sexual orientation, gender identity, national origin, age or disability, making full efforts to obtain qualified and/or qualifiable minority group persons and women. (The U.S. Department of Labor has held that it shall be no excuse that the union with which the contractor has a collective bargaining agreement providing for exclusive referral failed to refer minority employees). In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the Tennessee Department of Transportation.

Subcontracting

a) The contractor will use his best efforts to solicit bids from and to utilize minority group subcontractors or subcontractors with meaningful minority group and female representation among their employees. Contractors shall obtain lists of minority-owned construction firms from the Tennessee Department of Transportation.

b) The contractor will use his best efforts to ensure subcontractor compliance with their equal employment opportunity obligations.

Records and Reports

a) The contractor will keep such records as are necessary to determine compliance with the contractor's equal employment opportunity obligations. The records kept by the contractor will be designed to indicate:

   1) The number of minority and non-minority group members and women employed in each work classification on the project.

   2) The progress and efforts being made in cooperation with unions to increase employment opportunities for minorities and women. (Applicable only to contractors who rely in whole or in part on unions as a source for their work force),

   3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minority and female employees, and

   4) The progress and efforts being made in securing the services of minority group subcontractors or subcontractors with meaningful minority and female representation among their employees.

b) All such records must be retained for a period of 3 years following completion of the contract work and shall be available at reasonable times and places for inspection by authorized representatives of the of the Tennessee Department of Transportation and the Federal Highway Administration.

c) The contractors will submit an annual report to the Tennessee Department of Transportation each July for the duration of the project, indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on Form PR 1391. If on-the-job training is being required by "Training Special Provision," the contractor will be required to furnish Form FHWA 1409.

d) The contractor and subcontractors will be required to complete other reports as instructed by the Engineer.

e) Current estimates may be withheld by the Engineer when reports are not received within the above specified time limits.

STATE OF TENNESSEE

(Rev. 6-20-22)
(Rev. 9-7-22)

January 1, 2021

SPECIAL PROVISION

REGARDING

STANDARD FEDERAL EQUAL EMPLOYMENT OPPORTUNITY

CONSTRUCTION CONTRACT SPECIFICATIONS (EXECUTIVE ORDER 11246)

Electronic Code of Federal Regulations (e-CFR):
41 CFR 60-4.3 Equal Opportunity Clauses

1) As used in these specifications:

   a) "Covered area" means the geographical area described in the solicitation from which this contract resulted;

   b) "Director" means Director, Office of Federal Contract Compliance Programs, United States Department of Labor, or any person to whom the Director delegates authority;

   c) "Employer identification number" means the Federal Social Security number used on the Employer's Quarterly Federal Tax Return, U.S. Treasury Department Form 941.

   d) "Minority" includes:

      I. Black (all persons having origins in any of the Black African racial groups not of Hispanic origin);

      II. Hispanic (all persons of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish or Portuguese Culture or origin, regardless of race);

      III. Asian and Pacific Islander (all persons having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands); and

      IV. American Indian or Alaskan Native (all persons having origins in any of the original peoples of North America and maintaining identifiable tribal affiliations through membership and participation or community identification).

2) Whenever the Contractor, or any Subcontractor at any tier, subcontracts a portion of the work involving any construction trade, it shall physically include in each subcontract in excess of $10,000 the provisions of these specifications and the Notice which contains the applicable goals for minority and female participation, and which is set forth in the solicitations from which this contract resulted.

3) If the Contractor is participating (pursuant to 41 CFR 60-4.5) in a Hometown Plan approved by the U.S. Department of Labor in the covered area either individually or through an association, its affirmative action obligations on all work in the Plan area (including goals and timetables) shall be in accordance with that Plan for those trades which have unions participating in the Plan. Contractors must be able to demonstrate their participation in and compliance with the provisions of any such Hometown Plan. Each Contractor or Subcontractor participating in an approved Plan is individually required to comply with its obligations under the EEO clause, and to make a good faith effort to achieve each goal under the Plan in each trade in which it has employees. The overall good faith performance by other Contractors or Subcontractors toward a goal in an approved Plan does not excuse any covered Contractor's or Subcontractor's failure to take good faith efforts to achieve the Plan goals and timetables.

4) The Contractor shall implement the specific affirmative action standards provided in paragraphs 7a though p of these specifications. The goals set forth in the solicitation from which this contract resulted are expressed as percentages of the total hours of employment and training of minority and female utilization the Contractor should reasonably be able to achieve in each construction trade in which it has employees in the covered area. Covered Construction contractors performing construction work in geographical areas where they do not have a Federal or federally assisted construction contract shall apply the minority and female goals established for the geographical area where the work is being performed. Goals are published periodically in the Federal Register in notice form, and such notices may be obtained from any Office of Federal Contract Compliance Programs office or from Federal procurement contracting officers. The Contractor is expected to make substantially uniform progress toward its goals in each craft during the period specified.

5) Neither the provisions of any collective bargaining agreement, nor the failure by a union with whom the Contractor has a collective bargaining agreement, to refer either minorities or women shall excuse the Contractor's obligations under these specification, Executive Order 11246, or the regulations promulgated pursuant thereto.

6) In order for the nonworking training hours of apprentices and trainees to be counted in meeting the goals, such apprentices and trainees must be employed by the Contractor during the training period, and the Contractor must have made a commitment to employ the apprentices and trainees at the completion of their training, subject to the availability of employment opportunities. Trainees must be trained pursuant to training programs approved by the U.S. Department of Labor.

7) The Contractor shall take specific affirmative actions to ensure equal employment opportunity. The evaluation of the Contractor's compliance with these specifications shall be based upon its effort to achieve maximum results from its actions. The Contractor shall document these efforts fully, and shall implement affirmative action steps at least as extensive as the following:

   a) Ensure and maintain a working environment free of harassment, intimidation, and coercion at all sites, and in all facilities at which the Contractor's employees are assigned to work. The Contractor, where possible, will assign two or more women to each construction

project. The Contractor shall specifically ensure that all foremen, superintendents, and other on-site supervisory personnel are aware of and carry out the Contractor's obligation to maintain such a working environment, with specific attention to minority or female individuals working at such sites or in such facilities.

b) Establish and maintain a current list of minority and female recruitment sources, provide written notification to minority and female recruitment sources and to community organizations when the Contractor or its unions have employment opportunities available and maintain a record of the organization's responses.

c) Maintain a current file of the names, addresses and telephone numbers of each minority and female off-the-street applicant and minority or female referral from a union, a recruitment source or community organization and of what action was taken with respect to each such individual. If such individual was sent to the union hiring hall for referral and was not referred back to the Contractor by the union or, if referred, not employed by the Contractor, this shall be documented in the file with the reason therefor, along with whatever additional actions the Contractor may have taken.

d) Provide immediate written notification to the Director when the union or unions with which the Contractor has a collective bargaining agreement has not referred to the Contractor a minority person or woman sent by the Contractor, or when the Contractor has other information that the union referral process has impeded the Contractor's efforts to meet its obligations.

e) Develop on-the-job training opportunities and/or participate in training programs for the area which expressly include minorities and women, including upgrading programs and apprenticeship and trainee programs relevant to the Contractor's employment needs, especially those programs funded or approved by the Department of Labor. The contractor shall provide notice of these programs to the sources complied under 7.b) above.

f) Disseminate the Contractor's EEO policy by providing notice of the policy to unions and training programs and requesting their cooperation in assisting the Contractor in meeting its EEO obligations; by including it in any policy manual and collective bargaining agreement; by publicizing it in the company newspaper, annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.

g) Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination, or other employment decisions including specific review of these items with onsite supervisory personnel such as Superintendents, General Foremen, etc., prior to the initiation of construction work at any job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.

h) Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.

i) Direct its recruitment efforts, both oral and written, to minority, female, and community organizations, to schools with minority and female students and to minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other training by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screenings procedures, and tests to be used in the selection process.

j) Encourage present minority and female employees to recruit other minority persons and women and, where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a Contractor's workforce.

k) Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR Part 60-3.

l) Conduct, at least annually, an inventory and evaluation at least of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriation training, etc., such opportunities.

m) Ensure that seniority practices, job classifications, work assignments and other personnel practices, do not have a discriminatory effect by continually monitoring all personnel and employment related activities to ensure that the EEO policy and the Contractor's obligations under these specifications are being carried out.

n) Ensure that all facilities and company activities are nonsegregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.

o) Document and maintain a record of all solicitations of offers for subcontracts from minority and female construction contractors and suppliers, including circulation of solicitations to minority and female contractor associations and other business associations.

p) Conduct a review, at least annually, of all supervisor's adherence to and performance under the Contractor's EEO policies and affirmative action obligations.

8) Contractors are encouraged to participate in voluntary associations which assist in fulfilling one or more of their affirmative action obligations (7a through p). The efforts of a contractor association, joint contractor-union, contractor-community, or other similar group of which the contractor is a member and participant, may be asserted as fulfilling any one or more of its obligations under 7a through p of these Specifications provided that the contractor actively participates in the group, makes every effort to assure that the group has a positive impact on the employment of minorities and women in the industry, ensures that the concrete benefits of

the program are reflected in the Contractor's minority and female workforce participation, makes a good faith effort to meet its individual goals and timetables, and can provide access to documentation which demonstrates the effectiveness of actions taken on behalf of the Contractor. The obligation to comply, however, is the Contractor's and failure of such a group to fulfill an obligation shall not be a defense for the Contractor's noncompliance.

9) A single goal for minorities and a separate single goal for women have been established. The Contractor, however, is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, and all women, both minority and non-minority. Consequently, the Contractor may be in violation of the Executive Order if a particular group is employed in a substantially disparate manner (for example, even though the Contractor has achieved its goals for women, generally, the Contractor may be in violation of the Executive Order if a specific minority group of women is underutilized).

10) The Contractor shall not use the goals and timetables or affirmative action standards to discriminate against any person because of race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability.

11) The Contractor shall not enter into any Subcontract with any person or firm debarred from Government contracts pursuant to Executive Order 11246.

12) The Contractor shall carry out such sanctions and penalties for violations of these specifications and of the Equal Opportunity Clause, including suspension, termination and cancellation of existing subcontracts as may be imposed or ordered pursuant to Executive Order 11246, as amended, and its implementing regulations, by the Office of Federal Contract Compliance Programs. Any Contractor who fails to carry out such sanctions and penalties shall be in violation of these specifications and Executive Order 11246, as amended.

13) The Contractor, in fulfilling its obligations under these specifications, shall implement specific affirmative action steps, at least as extensive as those standards prescribed in paragraph 7 of these specifications, so as to achieve maximum results from its efforts to ensure equal employment opportunity. If the Contractor fails to comply with the requirements of the Executive Order, the implementing regulations, or these specifications, the Director shall proceed in accordance with 41 CFR 60-4.8.

14) The Contractor shall designate a responsible official to monitor all employment related activity to ensure that the company EEO policy is being carried out, to submit reports relating to the provisions hereof as may be required by the Government and to keep records. Records shall at least include for each employee the name, address, telephone numbers, construction trade, union affiliation if any, employee identification number when assigned, social security number, race, sex, status (e.g., mechanic, apprentice, trainee, helper, or laborer), dates of changes in status, hours worked per week in the indicated trade, rate of pay, and locations at which the work was performed. Records shall be maintained in an easily understandable and retrievable form; however, to the degree that existing records satisfy this requirement, contractors shall not be required to maintain separate records.

15) Nothing herein provided shall be construed as a limitation upon the application of other laws which establish different standards of compliance or upon the application of requirements for the hiring of local or other area residents (e.g., those under the Public Works Employment Act of 1977 and the Community Development Block Grant Program).

(Rev. 6-20-22) January 1, 2021

SPECIAL PROVISION

REGARDING

NOTICE OF REQUIREMENT FOR AFFIRMATIVE ACTION

TO ENSURE EQUAL EMPLOYMENT OPPORTUNITY (EXECUTIVE ORDER 11246)

Electronic Code of Federal Regulations (e-CFR):
41 CFR 60-4.2 -- Solicitations

1) The Bidder's attention is called to the "Equal Opportunity Clause" and the "Standard Federal Equal Employment Specifications" set forth herein.

2) The goals and timetables for minority and female participation, expressed in percentage terms for the Contractor's aggregate workforce in each trade on all construction work in the covered area, are as follows:

County	Goals for Female Participation in each Trade
All Counties	6.9

County	Goals for Minority Participation for each Trade
Lincoln	11.2
Hamilton, Marion, Sequatchie	12.5
Bledsoe, Bradley, Grundy, McMinn, Meigs, Monroe, Polk, Rhea	8.6
Carter, Hawkins, Sullivan, Unicoi, Washington	2.6
Greene, Hancock, Johnson	3.2
Anderson, Blount, Knox, Union	6.6
Campbell, Claiborne, Cocke, Cumberland, Fentress, Grainger, Hamblen, Jefferson, Loudon, Morgan, Roane, Scott, Sevier	4.5

County	Goals for Minority Participation for each Trade
Montgomery	18.2
Davidson, Cheatham, Dickson, Robertson, Sumner, Williamson, Wilson, Rutherford	15.8
Bedford, Cannon, Clay, Coffee, Dekalb, Franklin, Giles, Hickman, Houston, Humphreys, Jackson, Lawrence, Lewis, Macon, Marshall, Maury, Moore, Overton, Perry, Pickett, Putnam, Smith, Stewart, Trousdale, Van Buren, Warren, Wayne, White	12.0
Shelby, Tipton	32.3
Benton, Carroll, Chester, Crockett, Decatur, Dyer, Fayette, Gibson, Hardeman, Hardin, Haywood, Henderson, Henry, Lake, Lauderdale, McNairy, Madison, Obion, Weakley	26.5

These goals are applicable to all the Contractor's construction work (whether or not it is Federal or federally assisted). If the Contractor performs construction work in a geographical area located outside of the covered area, it shall apply the goals established for such geographical area where the work is actually performed. With regard to this second area, the Contractor also is subject to the goals for both its federally involved and nonfederally involved construction.

The Contractor's compliance with the Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required by the specifications set forth in CFR Part 60-4.3(a), and its efforts to meet the goals. The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade, and the Contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor or from Project to Project for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, the Executive Order and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

3) The Contractor shall provide written notification to the Director of Office of Federal Contract Compliance Programs within 10 working days of award of any construction subcontract in excess of $10,000 at any tier for construction work under the contract resulting from this solicitation.

U.S. Department of Labor – Regional Office
Office of Federal Contract Compliance Program
61 Forsyth Street, Room 7B75
Atlanta, GA 30303

The notification shall list the name, address, and telephone number of the subcontractor; employer identification number; estimated dollar amount of the subcontract; estimated starting and completion dates of the subcontract; and the geographical area in which the contract is to be performed.

(Rev. 8-20-18)
(Rev. 9-7-22)

January 1, 2021

SPECIAL PROVISION

REGARDING

DISADVANTAGED BUSINESS ENTERPRISE PARTICIPATION – LOCAL PROGRAMS

The disadvantaged business enterprise (DBE) requirements of 49 CFR Part 26 apply to this contract. Accordingly, Disadvantaged Business Enterprises (DBEs) as defined in 49 CFR Part 26 shall have the maximum appropriate opportunity to participate in the performance of this contract or in the performance of subcontracts to this contract. In this latter regard, the Contractor shall take all necessary and reasonable steps in accordance with 49 CFR Part 26 to ensure that DBEs have the opportunity to compete for and perform subcontracts. The Contractor shall not discriminate on the basis of race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability in the award of subcontracts.

The Contractor shall submit to the Civil Rights Division Small Business Development Program (CRD-SBDP) copies of any subcontract agreements with DBEs upon execution. The Contractor shall identify all DBE subcontractors at the Preconstruction Conference and indicate the approximate date for each DBE subcontractor's appearance on the project. Before terminating and/or substituting a DBE subcontractor, the Contractor must give notice in writing to the DBE subcontractor, with a copy to TDOT's CRD-SBDP, of its intent to terminate and/or substitute including the reason for the request.

The Contractor shall provide notification to the Project Supervisor at least 24 hours prior to each DBE beginning work. The project supervisor or Inspector must complete a "Commercially Useful Function Checklist" to document the first date of work, work items, equipment, and forces of each DBE. The Contractor shall take full responsibility for the performance of a commercially useful function (CUF) by all DBE subcontractors, manufacturers, and materials suppliers who work on or provide materials for the project.

The Contractor shall provide a monthly payment certification to the Department entitled "Prompt Payment Certification Form." The Department shall provide the Contractor with the Prompt Payment Certification Form. An officer of the Contractor shall provide an electronic signature to the Prompt Payment Certification Form and return in Excel format via email to DBE.Runningtally@tn.gov and to the Project Supervisor concurrently. The Prompt Payment Certification Form shall be submitted monthly beginning no later than sixty (60) days after payment of the first estimate. Payments must abide by the conditions set in T.C.A. § 12-4-707.

Prior to receiving final payment, the Contractor shall provide to the project supervisor and CRD-SBDP certification of the dollars paid to each DBE firm, using Form CC3, "Certification of DBE Accomplishment." The certification shall be dated and signed by a responsible officer of the Contractor and by a responsible officer of the DBE. Falsification of this certification may

SP1246LP

result in formal enforcement actions, including civil actions for false claims, suspension and debarment proceedings, or other administrative actions affecting bidder qualifications.

The Contractor and all subcontractors shall retain, for a period of not less than three (3) years after final acceptance of a project, copies of canceled checks or other documentation that substantiates payments to DBE firms. These records shall be available at reasonable times and places for inspection by authorized representatives of the Department and various Federal Agencies.

The Contractor is advised that failure to carry out the requirements as set forth above shall constitute a breach of contract, and after notification by the Department, may result in termination of the contract or other remedy as the Department deems appropriate, which may include, but is not limited to:

1) Withholding monthly progress payments:

2) Assessing sanctions;

3) Liquidated damages; and/or

4) Disqualifying the contractor from future bidding as non-responsible.

The Title VI and nondiscrimination provisions of USDOT Order 1050.2A at Appendixes A and E are incorporated by reference. 49 CFR Part 21.

STATE OF TENNESSEE

(Rev. 6-20-22)
(Rev. 9-7-22)
(Rev.3-1-23)

January 1, 2021

SPECIAL PROVISION

REGARDING

DBE CONTRACT GOAL

Electronic Code of Federal Regulations (e-CFR):
49 CFR 26

All contractors shall pursue affirmative action requirements to encourage and increase participation of firms certified as a Disadvantaged Business Enterprise (DBE) as set forth in this special provision and in accordance with 49 CFR Part 26. The bidder shall arrange for the percentage of the work specified on the cover of the Proposal Contract to be performed by Tennessee Uniform Certification Program (TNUCP) Disadvantaged Business Enterprises (DBEs) or otherwise clearly demonstrate adequate good faith efforts as described herein. All payments must follow the conditions set by the most current T.C.A. § 12-4-707.

The Contractor shall take full responsibility for ensuring the performance of a "commercially useful function" (CUF), as defined in 49 CFR Part 26, by all DBE subcontractors, manufacturers, and materials suppliers who work on the project or provide materials for the project.

A. Disadvantaged Business Enterprise Policy

The Contractor shall abide by the following provision and include in all subcontract agreements the following provision, which is designed to promote full participation of DBEs as suppliers and subcontractors through a continuous, positive result-oriented program on contracts let by the Department:

The Contractor, sub-recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The Contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of U.S. Department of Transportation- assisted contracts. Failure by the Contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the Department deems appropriate, which may include, but is not limited to:

1) *Withholding monthly progress payments;*
2) *Assessing sanctions;*
3) *Liquidated damages; and/or*
4) *Disqualifying the contractor from future bidding as non-responsible.*

The Title VI and nondiscrimination provisions of USDOT Order 1050.2A at Appendixes A and E are incorporated by reference. 49 CFR Part 21.

B. Counting DBE Participation toward Meeting Goals

The Contractor shall count DBE participation toward goals in accordance with 49 CFR Part-26. If the DBE performs a CUF on the contract including those functions as a subcontractor, expenditures to a DBE contractor count toward DBE goals. A DBE performs a CUF when it is responsible for execution of the specified work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a CUF, the DBE must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, installing (where applicable), and paying for the material itself. The work performed by the DBE firm shall be necessary and useful to the completion of the contract, and consistent with normal highway construction industry practices in Tennessee. Work performed by a DBE firm in a particular transaction may be counted toward the goal only if the Department determines that it involves a CUF. The determination is verified by the "Commercially Useful Function Checklist" and the requirements of 49 CFR Part 26.

> *Note: In accordance with 49 CFR 26.55(c), to determine whether a DBE is performing a CUF, the Department must evaluate the amount of work subcontracted, industry practices, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing, and the DBE credit claimed for its performance of the work, and other relevant factors. A DBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of DBE participation. In determining whether a DBE is such an extra participant, the Department must examine similar transactions, particularly those in which DBEs do not participate.*
>
> *When a DBE is presumed not to be performing a commercially useful function, the DBE may present evidence to rebut this presumption. The Department may determine that the firm is performing a commercially useful function given the type of work involved and normal industry practices.*

The bidder may count the following DBE expenditures involving a CUF towards the DBE goal:

1. Projects where the DBE is the Prime Contractor

The entire portion(s) of the contract to be completed by certified DBE firm's own forces will be counted toward meeting the goal. This will also include the cost of supplies and materials obtained by the DBE for the work of the contract, including supplies purchased or equipment leased by the DBE. Items of the contract subcontracted to non-DBE firms will not be counted toward the goal.

> *Note: If a DBE does not perform or exercise responsibility for at least 30 percent of the total cost of its contract with its own work force, or the DBE subcontracts a greater portion of the work of a contract than would be expected on the basis of normal industry practice for the type of work involved, the Department must presume that it is not performing a commercially useful function.*

2. Portions of a Bid from a Joint Venture

When a DBE performs as a participant in a joint venture, only the total dollar value of the contract equal to the distinct, clearly defined portion of the work of the contract that the DBE performs with its own forces will count toward DBE goals. A bid from a joint venture between a DBE and a non-DBE Contractor shall include an explanation of DBE commitments on Form 8-5, which must be approved by the Civil Rights Division - Small Business Development Program (CRD-SBDP) and Local Programs Division prior to the letting. Only the DBE's portion will be counted toward the goal. Joint venture agreements have to be approved separately from the bid documents, prior to the awarding of the contract.

3. DBE Subcontractors

The DBE subcontractor shall assume actual and contractual responsibility for provision of materials and supplies, subcontracted work, or other commercially useful functions of the items of work subcontracted to them. When a DBE subcontracts part of the work of its contract to another firm, the value of the subcontracted work may be counted toward the DBE goal only if the DBE's subcontractor is also a DBE. Work that a DBE subcontracts to a non-DBE firm does not count toward the DBE goal. Cost of materials purchased from, or the cost of equipment leased from the non-DBE Contractor will not count toward the project DBE commitment. Prior written approval must be obtained from the CRD- SBDP for any DBE use of the Contractor's personnel or equipment.

4. DBE Manufacturers

The Contractor may count toward the DBE goal 100% of its expenditures for materials and supplies required under a contract and obtained from a DBE manufacturer only if the DBE operates or maintains a factory or establishment that produces, on the premises, the materials, supplies, articles, or equipment required under the contract and of the general character described by the specifications.

5. DBE Regular Dealers (Material Suppliers)

The Contractor may count toward the DBE goal 60% of its expenditures for materials and supplies required under a contract and obtained from a DBE regular dealer. For purposes of this section, a regular dealer is a firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles, or equipment of the general character described by the specifications and required under the contract are bought, kept in stock, and regularly sold or leased to the public in the usual course of business. To be a regular dealer, the firm must be an established, regular business that engages, as its principal business and under its own name, in the purchase and sale or lease of the products in question. A firm may be a regular dealer in such bulk items as petroleum products, steel, cement, gravel, stone, or asphalt without owning, operating, or maintaining a place of business where such products are bought, kept in stock, and regularly sold to the public if the firm owns and operates the distribution equipment for the products. Any supplementing of the regular dealer's own distribution equipment shall be by a long-term lease and not on an ad hoc or contract-by-contract basis. Any lease containing the terms of the agreement shall be made available to and must be approved in writing by CRD-SBDP.

6. Other DBE Suppliers

With respect to materials or supplies purchased from a DBE which is neither a manufacturer nor a regular dealer, count the entire amount of fees or commissions charged for assistance in the procurement of the materials and supplies, or fees or transportation charges for the delivery of materials or supplies required on a job site, toward DBE goals; provided, the Department finds the fees to be reasonable and not excessive as compared with fees customarily allowed for similar services. The cost of the materials and supplies themselves shall not count toward DBE goals.

7. Transportation or Hauling of Materials

The Contractor may count towards the DBE goal hauling in either DBE-owned trucks or in trucks leased to or by DBE firms. The verification of truck drivers employed by DBE firms will continue to be by submission of payrolls independent from any Davis-Bacon regulations. Use the following factors in determining whether a DBE trucking company is performing a CUF:

a. The DBE must be responsible for the management and supervision of the entire trucking operation for which it is responsible on a particular contract, and there cannot be a contrived arrangement for the purpose of meeting DBE goals.

b. The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.

c. The DBE receives credit for the total value of the transportation services it provides on the contract using trucks it owns, insures, and operates using drivers it employs.

d. The DBE may lease trucks from another DBE firm, including an owner-operator who is certified as a DBE. The DBE who leases trucks from another DBE receives credit for the total value of the transportation services that the lessee DBE provides on the contract.

e. The DBE may also lease trucks from a non-DBE firm, including an owner-operator. The DBE that leases trucks equipped with drivers from a non-DBE is entitled to credit for the total value of transportation services provided by non-DBE leased trucks equipped with drivers not to exceed the value of transportation services provided by DBE-owned trucks or leased trucks with DBE employee drivers. Additional participation by non- DBE owned trucks equipped with drivers receives credit only for the fee or commission it receives as a result of the lease arrangement. If the DBE chooses this approach, it must obtain written consent from the Department [CRD- SBDP].

f. The DBE may lease trucks without drivers from a non-DBE truck leasing company. If the DBE leases trucks from a non-DBE truck leasing company and uses its own employees as drivers, it is entitled to credit for the value of these hauling services.

g. For purposes of this paragraph, a lease must indicate that the DBE has exclusive use of and control over the truck. Leases cannot be Department contract-specific, must be long term, and must be approved by CRD-SBDP. This does not preclude the leased truck from working for others during the term of the lease with the consent of the DBE, so long as the lease gives the DBE absolute priority for use of the leased truck. Leased trucks must display the name and identification number of the DBE.

h. Prior to hauling, the Contractor and DBE shall provide the District Supervisor a complete list of trucks that will be used on the project for DBE goal participation. The Department will provide a form that shall be used by the Contractor and the DBE to identify the trucks. A revised list will be required any time the trucks used changes. The Contractor and DBE must be able to adequately document the actual amount of hauling eligible for DBE goal participation.

8. Contracted Labor / Temporary Employment Agencies

The Department will count the entire amount of fees or commissions charged by a DBE firm for providing a bona fide service, such as professional, technical, consultant, or managerial services, or for providing bonds or insurance specifically required for the performance of the contract; provided, however, the Department must find the fee to be reasonable and not excessive as compared to the fees customarily allowed for similar services.

C. Contract Award Procedures

The established DBE goal will be shown on the proposal as a percent of the total amount bid. If the total proposed DBE work submitted with the bid is less than the percentage participation goal set by the Department, the bidder shall, within three (3) business days from the bid openings, either propose sufficient additional DBE participation to meet the goal or clearly demonstrate by documentation that good faith efforts were made to meet the goal.

1. Bidder's Responsibility

It is the bidder's responsibility to determine the level of professional competence and financial responsibility of any proposed DBE subcontractor. The bidder shall ascertain that the proposed DBE subcontractor has suitable experience and equipment to perform a commercially useful function for work that is common industry practice in the Tennessee highway construction industry.

The Contractor shall develop and maintain records of negotiations with DBEs to reach agreeable prices, quotations, and work schedules, including but not limited to a record of dates when the Contractor first contacted each DBE.

2. DBE's Responsibility

Before bidding and subsequently entering into a contract (as a contractor or subcontractor), the DBE should consider the scope and size of the project, as well as whether it is certified to receive credit for the type of work performed. As with any contract, this is a legally binding document and should be performed to the best of one's ability. However, should a DBE ever have to withdraw from a contract, it shall provide the CRD-SBDP and Contractor with written documentation. A DBE should only withdraw when there is no other option, as non-completion of its duties may result in temporary disqualification of a prequalified bidder or subcontractor by suspending the privilege of bidding on Department contracts or becoming an approved subcontractor, as outlined in Chapter 1680-05-03 of the Rules of the Department.

3. Proposals with Established Project DBE Goals

For proposals with established project goals, the bidder will be required to complete Form 8-5: DBE Award Information. The bidder shall list the following information on each Form 8-5 that is submitted:

a. The names and addresses of all DBE firms being used or being considered for use under the contract as part of the bidder's DBE commitment.

b. The work classification(s) for each DBE on the contract.

c. The "Amount to DBE" which has been committed to each DBE firm for use on the contract.

d. Written documentation of the bidder's commitment to use a DBE subcontractor whose participation it submits to meet a contract goal; and

e. Written confirmation from each listed DBE firm that it is participating in the contract in the kind and amount of work provided in the Contractor's commitment.

f. All other requested information that is on Form 8-5.

Submit the quote from the DBE and the completed DBE Form 8-5 within three (3) business days after the Letting. Failure to provide the quote and the completed form or documentation clearly evidencing a good faith effort, as detailed in Section 4 below, within three (3) business days after the Letting may cause the bid to be rejected as irregular. Only certified DBE firms may be used. Contractor may access certification information by viewing the TNUCP DBE Directory website.

When DBE goal projects are involved and the Contractor subcontracts to a non- DBE, and the non-DBE subcontractor in turn subcontracts to a DBE as a second-tier subcontractor, the Contractor must affirm in writing his/her knowledge and approval of such an arrangement. Recognition of a second-tier arrangement with a DBE subcontractor for goal work must be forwarded to the CRD-SBDP Director for verification, in writing, prior to any work being performed by the DBE which is intended to be counted toward the goal.

4. Bidder Selection and Good Faith Efforts

a. Bidders shall submit proposals that meet the DBE goal or shall submit documentation clearly evidencing that they made a good faith effort to meet the DBE goal. Contractors who meet or exceed the contract goal will be assumed to have made good faith efforts to utilize DBE firms. DBE firms who bid as Prime Contractors will be considered to have met the goal.

b. In making a fair and reasonable judgment as to whether the bidder has made adequate good faith efforts, the Department shall consider quality, quantity, and intensity of the different kinds of efforts that the bidder has made. The following list of factors is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases. In any event, the Department may consider whether the bidder:

1) Selected portions of the work likely to attract DBE participation. The total dollar value of the portions selected should meet or exceed the contract DBE goal. If it is necessary, the bidder should break down subcontracts into economically feasible units in order to facilitate participation.

2) Provided notice to a reasonable number of specific DBEs, including those not regularly used by the bidder, that their participation in the contract is being solicited in sufficient time to allow them to participate effectively.

3) Provided interested DBEs with adequate information about the plans, specifications, and requirements of the contract.

4) Advertised in trade association publications or minority-focused media concerning participation opportunities.

5) Effectively used the services of available minority community organizations, minority contractors' groups, local, state, or federal minority business assistance offices, or other organizations that provide assistance in the recruitment and placement of DBEs.

6) Negotiated in good faith with interested DBEs, including not rejecting DBEs as unqualified lacking sound reasons based on a thorough investigation of their capabilities.

7) Made efforts to assist interested DBEs in obtaining bonding or insurance required by the bidder.

8) Submitted all quotations received from DBEs, and for those quotations not accepted, an explanation of why the DBE was not accepted including price comparisons. Receipt of a lower quotation from a non-DBE will not in itself excuse a bidder's failure to meet the contract goal.

9) Has adequate records of its contacts and negotiations with DBEs.

c. If the Contractor has not met the DBE goal or submitted documentation clearly evidencing good faith efforts within three (3) business days after the bid opening, the Contractor's bid will be considered non-responsive and may be cause for the forfeiture of the Proposal Guaranty which shall become the property of the Department, not as penalty, but as liquidated damages. The Department then may consider the next lowest responsive bid for award.

As soon as practical after contract award, the Contractor shall submit copies of all binding subcontracts and purchase orders with DBEs to the respective District Supervisor and to CRD-SBDP.

No progress estimate shall be processed until copies of all binding subcontracts and purchase orders with DBEs have been received.

5. Joint Checking Allowance for DBE

A DBE must receive pre-approval by the Department before using a joint check. Joint check requests shall be submitted by the DBE to CRD-SBDP prior to the subcontract agreement.

The following are some general conditions that must be met regarding joint check use:

a. The second party (typically the Contractor) acts solely as a guarantor.
b. The DBE must release the check to the supplier.
c. The use of joint checks must be a commonly recognized business practice in the industry.
d. The DBE remains responsible for all other elements of 49 CFR Part 26.55(c)(1).
e. The DBE is not required to use a specific supplier nor the Contractor's negotiated unit price.
f. The DBE shall submit receipt/copy of cancelled checks to CRD- SBDP.

D. Construction Requirements

1. Preconstruction Conference

The Contractor shall identify all DBE subcontractors and indicate the approximate dates for their appearance on the project. The Department will review the contract information to verify the actual work to be performed by the DBE subcontractors and will review any lease agreements allowed as part of the DBE commitment. Information submitted shall match Form 8-5.

2. Process for Removal of a DBE

At no time shall a DBE be terminated or substituted without prior written consent from CRD-SBDP. This includes, but is not limited to, instances in which the Contractor seeks to perform work originally designated for a DBE subcontractor with its own forces or those of an affiliate, a non-DBE firm, or with another DBE firm. The Contractor shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless the Contractor obtains the CRD-SBDP's written consent as provided herein. Absent such written consent, the Contractor shall not be entitled to any payment for work or material unless it is by the listed DBE. The CRD-SBDP may provide such written consent only if it agrees that the Contractor has good cause to terminate the DBE firm, as further described below.

Before terminating and/or substituting a DBE subcontractor on a project that includes SP1247 in the Contract Proposal, the Contractor must give notice in writing to the DBE subcontractor, with a copy to the CRD-SBDP, of its intent to request to terminate and/or substitute including the reason for the request.

The Contractor must then give the DBE five (5) days to respond to the Contractor's notice. The DBE shall then advise the CRD-SBDP and the Contractor of the reasons, if any, why it objects to the proposed termination of its subcontract and why the CRD-SBDP should not approve the Contractor's action. If required in a particular case as a matter of public necessity (e.g., safety), the CRO-SBDP may provide a response period shorter than five (5) days.

If approval is granted for removal, CRD-SBDP will submit a letter to the Contractor and the DBE. Good faith efforts shall then be directed at finding another DBE subcontractor to perform at least the same amount of work under the contract as the DBE that was terminated, to the extent needed to meet the contract goal established.

The good faith efforts shall be documented by the Contractor. If requested by the CRD-SBDP, the Contractor shall submit the documentation within seven (7) days, which may be extended for an additional seven (7) days, if necessary, at the request of the Contractor, and the CRD-SBDP shall provide a written determination to the Contractor stating whether or not good faith efforts have been demonstrated.

The Contractor has the responsibility to comply with 49 CFR Part 26.53(f) and all applicable policies and regulations.

Reasons for termination and/or substitution of a DBE subcontractor must meet the reasons for good cause as outlined in the current 49 CFR Part 26.53(f), which include, but are not limited to, circumstances in which the listed DBE subcontractor:

a. Fails or refuses to execute a written contract.

b. Fails or refuses to perform the work of its subcontract in a way consistent with normal industry standards. Provided, however, that good cause does not exist if the failure or refusal of the DBE subcontractor to perform its work on the subcontract results from the bad faith or discriminatory action of the Contractor.

c. Fails or refuses to meet the Contractor's reasonable, nondiscriminatory bond requirements.

d. Becomes bankrupt, insolvent, or exhibits credit unworthiness.

e. Becomes ineligible to work on public works projects because of suspension and debarment proceedings pursuant with 2 CFR Parts 180 and 1200 or applicable state law.

f. Is not a responsible subcontractor, as determined by the Department.

g. Voluntarily withdraws from the project and provides written notice to the Contractor of its withdrawal.

h. Is ineligible to receive DBE credit for the type of work required.

i. Is unable to complete its work on the contract as a result of death or disability of an owner; and/or

j. For other documented good cause, the Department may elect to compel the termination of the DBE subcontractor; provided that good cause does not exist if the Contractor seeks to terminate a DBE it relied upon to obtain the contract so that the Contractor can self-perform the work for which the DBE was engaged, or so that the Contractor can substitute another DBE or non-DBE subcontractor after contract award.

3. Brokering of work by DBEs is not allowed and is a material breach of contract. A DBE firm involved in brokering of work may result in removal or suspension of DBE certification and/or formal enforcement actions, including civil actions for false claims, suspension and debarment proceedings, or other administrative actions affecting bidder qualifications. Any firm involved in brokering of work that engages in willful falsification distortion, or misrepresentation with respect to any facts related to the project shall be referred to the U. S. Department of Transportation's Office of the Inspector General for prosecution under Title 18, U.S. Code, Section 641. Contractor shall place this provision in all subcontracts with DBEs.

4. The Contractor shall provide notification to the Project Supervisor at least 24 hours prior to each DBE beginning work. A Department Project Supervisor/Inspector must complete a Commercially Useful Function (CUF) Checklist to document the first date of work, work items, equipment, and forces of each DBE.

5. The Contractor shall provide a monthly payment certification to the Department entitled "Prompt Payment Certification Form." The Department shall provide the Contractor with a computer generated Prompt Payment Certification Form: LP Form 8-29. An officer of the Contractor shall provide electronic signature to the Prompt Payment Certification Form and return via email to DBE.Runningtally@tn.gov.

   Prompt Payment data shall be submitted monthly beginning no later than sixty (60) days after payment of the first estimate.

6. The Department will hold estimate payment if previously listed information is not submitted. Reasons for non- payment to a DBE could include the following:
   a. Whether the DBE is performing satisfactorily.
   b. Whether the Contractor has reason to believe the DBE is not performing a commercially useful function, and if so, why, and what steps the Contractor is taking to rectify the situation.

In the event the Contractor reports questions in relation to prompt payment regarding whether a DBE is independent and performing a commercially useful function and takes appropriate steps promptly to address the issue, then the Department will take this effort into account when considering Contractor compliance measures as described below. Payments must abide by the conditions set in TCA 12-4-707.

E. Post Construction Requirements

Prior to receiving final payment, the Contractor shall provide to the Project Engineer and CRD-SBDP certification of the dollars paid to each DBE firm, using Form 8-35; CC3. The certification shall be dated and signed by a responsible officer of the contractor and by a responsible officer of the DBE. Falsification of this certification may result in removal or suspension of DBE certification and/or formal enforcement actions, including civil actions for false claims, suspension and debarment proceedings, or other administrative actions affecting bidder qualifications. The final estimate will not be paid to the Contractor until proper certifications including CC-3 have been made.

F. Required Records

The Contractor and all subcontractors shall retain, for a period of not less than three (3) years after final acceptance of a project, copies of canceled checks or other documentation that substantiates payments to DBE firms. These records shall be available at reasonable times and places for inspection by authorized representatives of the Department and various Federal Agencies. Copies shall be provided to the Department if requested.

G. Contractor Compliance

If the Contractor fails to comply with Special Provision 1247 and/or 49 CFR Part 26, including failure to obtain goal where a good faith effort was not accepted, the Department shall take one or a combination of the following steps:

1. Withhold from the Contractor the monetary value of the unattained goal percentage plus an additional 10% for engineering costs, not as penalty but as liquidated damages.

2. Suspend the Contractor from participation in Department bid lettings pursuant to rules promulgated by the Department.

3. For repeated failures to comply, debar the Contractor pursuant to rules promulgated by the Department.

4. Invoke other remedies available by law and/or in the contract.

5. Invoke any other lawful remedy agreed upon by the Commissioner and the Contractor in writing.

REQUIRED CONTRACT PROVISIONS
FEDERAL-AID CONSTRUCTION CONTRACTS

I. General
II. Nondiscrimination
III. Non-segregated Facilities
IV. Davis-Bacon and Related Act Provisions
V. Contract Work Hours and Safety Standards Act Provisions
VI. Subletting or Assigning the Contract
VII. Safety: Accident Prevention
VIII. False Statements Concerning Highway Projects
IX. Implementation of Clean Air Act and Federal Water Pollution Control Act
X. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion
XI. Certification Regarding Use of Contract Funds for Lobbying
XII. Use of United States-Flag Vessels:

ATTACHMENTS

A. Employment and Materials Preference for Appalachian Development Highway System or Appalachian Local Access Road Contracts (included in Appalachian contracts only)

I. GENERAL

1. Form FHWA-1273 must be physically incorporated in each construction contract funded under title 23, United States Code, as required in 23 CFR 633.102(b) (excluding emergency contracts solely intended for debris removal). The contractor (or subcontractor) must insert this form in each subcontract and further require its inclusion in all lower tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services). 23 CFR 633.102(e).

The applicable requirements of Form FHWA-1273 are incorporated by reference for work done under any purchase order, rental agreement or agreement for other services. The prime contractor shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider. 23 CFR 633.102(e).

Form FHWA-1273 must be included in all Federal-aid design-build contracts, in all subcontracts and in lower tier subcontracts (excluding subcontracts for design services, purchase orders, rental agreements and other agreements for supplies or services) in accordance with 23 CFR 633.102. The design-builder shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Contracting agencies may reference Form FHWA-1273 in solicitation-for-bids or request-for-proposals documents, however, the Form FHWA-1273 must be physically incorporated (not referenced) in all contracts, subcontracts and lower-tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services related to a construction contract). 23 CFR 633.102(b).

2. Subject to the applicability criteria noted in the following sections, these contract provisions shall apply to all work performed on the contract by the contractor's own organization and with the assistance of workers under the contractor's immediate superintendence and to all work performed on the contract by piecework, station work, or by subcontract. 23 CFR 633.102(d).

3. A breach of any of the stipulations contained in these Required Contract Provisions may be sufficient grounds for withholding of progress payments, withholding of final payment, termination of the contract, suspension / debarment or any other action determined to be appropriate by the contracting agency and FHWA.

4. Selection of Labor: During the performance of this contract, the contractor shall not use convict labor for any purpose within the limits of a construction project on a Federal-aid highway unless it is labor performed by convicts who are on parole, supervised release, or probation. 23 U.S.C. 114(b). The term Federal-aid highway does not include roadways functionally classified as local roads or rural minor collectors. 23 U.S.C. 101(a).

II. NONDISCRIMINATION (23 CFR 230.107(a); 23 CFR Part 230, Subpart A, Appendix A; EO 11246)

The provisions of this section related to 23 CFR Part 230, Subpart A, Appendix A are applicable to all Federal-aid construction contracts and to all related construction subcontracts of $10,000 or more. The provisions of 23 CFR Part 230 are not applicable to material supply, engineering, or architectural service contracts.

In addition, the contractor and all subcontractors must comply with the following policies: Executive Order 11246, 41 CFR Part 60, 29 CFR Parts 1625-1627, 23 U.S.C. 140, Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d et seq.), and related regulations including 49 CFR Parts 21, 26, and 27; and 23 CFR Parts 200, 230, and 633.

The contractor and all subcontractors must comply with: the requirements of the Equal Opportunity Clause in 41 CFR 60-1.4(b) and, for all construction contracts exceeding $10,000, the Standard Federal Equal Employment Opportunity Construction Contract Specifications in 41 CFR 60-4.3.

Note: The U.S. Department of Labor has exclusive authority to determine compliance with Executive Order 11246 and the policies of the Secretary of Labor including 41 CFR Part 60, and 29 CFR Parts 1625-1627. The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with 23 U.S.C. 140, Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), and Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d et seq.), and related regulations including 49 CFR Parts 21, 26, and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR Part 230, Subpart A, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements.

1. Equal Employment Opportunity: Equal Employment Opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (*see* 28 CFR Part 35, 29 CFR Part 1630, 29 CFR Parts 1625-1627, 41 CFR Part 60 and 49 CFR Part 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 U.S.C. 140, shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR Part 35 and 29 CFR Part 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:

a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract. 23 CFR 230.409 (g)(4) & (5).

b. The contractor will accept as its operating policy the following statement:

"It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, sexual orientation, gender identity, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training."

2. EEO Officer: The contractor will designate and make known to the contracting officers an EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting an active EEO program and who must be assigned adequate authority and responsibility to do so.

3. Dissemination of Policy: All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action or are substantially involved in such action, will be made fully cognizant of and will implement the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:

a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer or other knowledgeable company official.

b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.

c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.

d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.

e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.

a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.

b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.

c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.

5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age or disability. The following procedures shall be followed:

a. The contractor will conduct periodic inspections of project sites to ensure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.

b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.

c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.

d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action

within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

6. Training and Promotion:

a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.

b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs (i.e., apprenticeship and on-the-job training programs for the geographical area of contract performance). In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).

c. The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.

d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.

7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. 23 CFR 230.409. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:

a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.

b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability.

c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.

d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.

8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established thereunder. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.

9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.

a. The contractor shall notify all potential subcontractors, suppliers, and lessors of their EEO obligations under this contract.

b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

10. Assurances Required:

a. The requirements of 49 CFR Part 26 and the State DOT's FHWA-approved Disadvantaged Business Enterprise (DBE) program are incorporated by reference.

b. The contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to:
(1) Withholding monthly progress payments;
(2) Assessing sanctions;
(3) Liquidated damages; and/or
(4) Disqualifying the contractor from future bidding as non-responsible.

c. The Title VI and nondiscrimination provisions of U.S. DOT Order 1050.2A at Appendixes A and E are incorporated by reference. 49 CFR Part 21.

11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.

a. The records kept by the contractor shall document the following:

(1) The number and work hours of minority and non-minority group members and women employed in each work classification on the project;

(2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and

(3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women.

b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on Form FHWA-1391. The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

III. NONSEGREGATED FACILITIES

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of more than $10,000. 41 CFR 60-1.5.

As prescribed by 41 CFR 60-1.8, the contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, sexual orientation, gender identity, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location under the contractor's control where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding $2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size), in accordance with 29 CFR 5.5. The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. 23 U.S.C. 113. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. 23 U.S.C. 101. Where applicable law requires that projects be treated as a project on a Federal-aid highway, the provisions of this subpart will apply regardless of the location of the project. Examples include: Surface Transportation Block Grant Program projects funded under 23 U.S.C. 133 [excluding recreational trails projects], the Nationally Significant Freight and Highway Projects funded under 23 U.S.C. 117, and National Highway Freight Program projects funded under 23 U.S.C. 167.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

1. Minimum wages (29 CFR 5.5)

a. *Wage rates and fringe benefits.* All laborers and mechanics employed or working upon the site of the work (or otherwise working in construction or development of the project under a development statute), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of basic hourly wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics. As provided in paragraphs (d) and (e) of 29 CFR 5.5, the appropriate wage determinations are effective by operation of law even if they have not been attached to the contract. Contributions made or costs reasonably anticipated for bona fide fringe benefits under the Davis-Bacon Act (40 U.S.C. 3141(2)(B)) on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph 1.e. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics must be paid the appropriate wage rate and fringe benefits on the wage determination for the classification(s) of work actually performed, without regard to skill, except as provided in paragraph 4. of this section. Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: *Provided,* That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classifications and wage rates conformed under paragraph 1.c. of this section) and the Davis-Bacon poster (WH–1321) must be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

b. *Frequently recurring classifications.* (1) In addition to wage and fringe benefit rates that have been determined to be prevailing under the procedures set forth in 29 CFR part 1, a wage determination may contain, pursuant to § 1.3(f), wage and fringe benefit rates for classifications of laborers and mechanics for which conformance requests are regularly submitted pursuant to paragraph 1.c. of this section, provided that:

(i) The work performed by the classification is not performed by a classification in the wage determination for which a prevailing wage rate has been determined;

(ii) The classification is used in the area by the construction industry; and

(iii) The wage rate for the classification bears a reasonable relationship to the prevailing wage rates contained in the wage determination.

(2) The Administrator will establish wage rates for such classifications in accordance with paragraph 1.c.(1)(iii) of this section. Work performed in such a classification must be paid at no less than the wage and fringe benefit rate listed on the wage determination for such classification.

c. *Conformance.* (1) The contracting officer must require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract be classified in conformance with the wage determination. Conformance of an additional classification and wage rate and fringe benefits is appropriate only when the following criteria have been met:

(i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(ii) The classification is used in the area by the construction industry; and

(iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(2) The conformance process may not be used to split, subdivide, or otherwise avoid application of classifications listed in the wage determination.

(3) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken will be sent by the contracting officer by email to DBAconformance@dol.gov. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(4) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer will, by email to DBAconformance@dol.gov, refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(5) The contracting officer must promptly notify the contractor of the action taken by the Wage and Hour Division under paragraphs 1.c.(3) and (4) of this section. The contractor must furnish a written copy of such determination to each affected worker or it must be posted as a part of the wage determination. The wage rate (including fringe benefits where appropriate) determined pursuant to paragraph 1.c.(3) or (4) of this section must be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

d. *Fringe benefits not expressed as an hourly rate.* Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor may either pay the benefit as stated in the wage determination or may pay another bona fide fringe benefit or an hourly cash equivalent thereof.

e. *Unfunded plans.* If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, *Provided,* That the Secretary of Labor has found, upon the written request of the contractor, in accordance with the criteria set forth in § 5.28, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

f. *Interest.* In the event of a failure to pay all or part of the wages required by the contract, the contractor will be required to pay interest on any underpayment of wages.

2. Withholding (29 CFR 5.5)

a. *Withholding requirements.* The contracting agency may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime contractor or any subcontractor for the full amount of wages and monetary relief, including interest, required by the clauses set forth in this section for violations of this contract, or to satisfy any such liabilities required by any other Federal contract, or federally assisted contract subject to Davis-Bacon labor standards, that is held by the same prime contractor (as defined in § 5.2). The necessary funds may be withheld from the contractor under this contract, any other Federal contract with the same prime contractor, or any other federally assisted contract that is subject to Davis-Bacon labor standards requirements and is held by the same prime contractor, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the contractor liability for which the funds were withheld. In the event of a contractor's failure to pay any laborer or mechanic, including any apprentice or helper working on the site of the work all or part of the wages required by the contract, or upon the contractor's failure to submit the required records as discussed in paragraph 3.d. of this section, the contracting agency may on its own initiative and after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

b. *Priority to withheld funds.* The Department has priority to funds withheld or to be withheld in accordance with paragraph

2.a. of this section or Section V, paragraph 3.a., or both, over claims to those funds by:

(1) A contractor's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(2) A contracting agency for its reprocurement costs;

(3) A trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a contractor, or a contractor's bankruptcy estate;

(4) A contractor's assignee(s);

(5) A contractor's successor(s); or

(6) A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901–3907.

3. Records and certified payrolls (29 CFR 5.5)

a. *Basic record requirements* (1) *Length of record retention.* All regular payrolls and other basic records must be maintained by the contractor and any subcontractor during the course of the work and preserved for all laborers and mechanics working at the site of the work (or otherwise working in construction or development of the project under a development statute) for a period of at least 3 years after all the work on the prime contract is completed.

(2) *Information required.* Such records must contain the name; Social Security number; last known address, telephone number, and email address of each such worker; each worker's correct classification(s) of work actually performed; hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in 40 U.S.C. 3141(2)(B) of the Davis-Bacon Act); daily and weekly number of hours actually worked in total and on each covered contract; deductions made; and actual wages paid.

(3) *Additional records relating to fringe benefits.* Whenever the Secretary of Labor has found under paragraph 1.e. of this section that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in 40 U.S.C. 3141(2)(B) of the Davis-Bacon Act, the contractor must maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

(4) *Additional records relating to apprenticeship.* Contractors with apprentices working under approved programs must maintain written evidence of the registration of apprenticeship programs, the registration of the apprentices, and the ratios and wage rates prescribed in the applicable programs.

b. *Certified payroll requirements* (1) *Frequency and method of submission.* The contractor or subcontractor must submit weekly, for each week in which any DBA- or Related Acts-covered work is performed, certified payrolls to the contracting agency. The prime contractor is responsible for the submission of all certified payrolls by all subcontractors. A contracting agency or prime contractor may permit or require contractors to submit certified payrolls through an electronic system, as long as the electronic system requires a legally valid electronic signature; the system allows the contractor, the contracting agency, and the Department of Labor to access the certified payrolls upon request for at least 3 years after the work on the prime contract has been completed; and the contracting agency or prime contractor permits other methods of submission in situations where the contractor is unable or limited in its ability to use or access the electronic system.

(2) *Information required.* The certified payrolls submitted must set out accurately and completely all of the information required to be maintained under paragraph 3.a.(2) of this section, except that full Social Security numbers and last known addresses, telephone numbers, and email addresses must not be included on weekly transmittals. Instead, the certified payrolls need only include an individually identifying number for each worker (*e.g.,* the last four digits of the worker's Social Security number). The required weekly certified payroll information may be submitted using Optional Form WH–347 or in any other format desired. Optional Form WH–347 is available for this purpose from the Wage and Hour Division website at *https://www.dol.gov/sites/dolgov/files/WHD/legacy/files/wh347.pdf* or its successor website. It is not a violation of this section for a prime contractor to require a subcontractor to provide full Social Security numbers and last known addresses, telephone numbers, and email addresses to the prime contractor for its own records, without weekly submission by the subcontractor to the contracting agency.

(3) *Statement of Compliance.* Each certified payroll submitted must be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor, or the contractor's or subcontractor's agent who pays or supervises the payment of the persons working on the contract, and must certify the following:

(i) That the certified payroll for the payroll period contains the information required to be provided under paragraph 3.b. of this section, the appropriate information and basic records are being maintained under paragraph 3.a. of this section, and such information and records are correct and complete;

(ii) That each laborer or mechanic (including each helper and apprentice) working on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in 29 CFR part 3; and

(iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification(s) of work actually performed, as specified in the applicable wage determination incorporated into the contract.

(4) *Use of Optional Form WH–347.* The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH–347 will satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(3) of this section.

(5) *Signature.* The signature by the contractor, subcontractor, or the contractor's or subcontractor's agent must be an original handwritten signature or a legally valid electronic signature.

(6) *Falsification.* The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under 18 U.S.C. 1001 and 31 U.S.C. 3729.

(7) *Length of certified payroll retention.* The contractor or subcontractor must preserve all certified payrolls during the course of the work and for a period of 3 years after all the work on the prime contract is completed.

c. *Contracts, subcontracts, and related documents.* The contractor or subcontractor must maintain this contract or subcontract and related documents including, without limitation, bids, proposals, amendments, modifications, and extensions. The contractor or subcontractor must preserve these contracts, subcontracts, and related documents during the course of the work and for a period of 3 years after all the work on the prime contract is completed.

d. *Required disclosures and access* (1) *Required record disclosures and access to workers.* The contractor or subcontractor must make the records required under paragraphs 3.a. through 3.c. of this section, and any other documents that the contracting agency, the State DOT, the FHWA, or the Department of Labor deems necessary to determine compliance with the labor standards provisions of any of the applicable statutes referenced by § 5.1, available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and must permit such representatives to interview workers during working hours on the job.

(2) *Sanctions for non-compliance with records and worker access requirements.* If the contractor or subcontractor fails to submit the required records or to make them available, or refuses to permit worker interviews during working hours on the job, the Federal agency may, after written notice to the contractor, sponsor, applicant, owner, or other entity, as the case may be, that maintains such records or that employs such workers, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available, or to permit worker interviews during working hours on the job, may be grounds for debarment action pursuant to § 5.12. In addition, any contractor or other person that fails to submit the required records or make those records available to WHD within the time WHD requests that the records be produced will be precluded from introducing as evidence in an administrative proceeding under 29 CFR part 6 any of the required records that were not provided or made available to WHD. WHD will take into consideration a reasonable request from the contractor or person for an extension of the time for submission of records. WHD will determine the reasonableness of the request and may consider, among other things, the location of the records and the volume of production.

(3) *Required information disclosures.* Contractors and subcontractors must maintain the full Social Security number and last known address, telephone number, and email address of each covered worker, and must provide them upon request to the contracting agency, the State DOT, the FHWA, the contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or other compliance action.

4. Apprentices and equal employment opportunity (29 CFR 5.5)

a. *Apprentices* (1) *Rate of pay.* Apprentices will be permitted to work at less than the predetermined rate for the work they perform when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship (OA), or with a State Apprenticeship Agency recognized by the OA. A person who is not individually registered in the program, but who has been certified by the OA or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice, will be permitted to work at less than the predetermined rate for the work they perform in the first 90 days of probationary employment as an apprentice in such a program. In the event the OA or a State Apprenticeship Agency recognized by the OA withdraws approval of an apprenticeship program, the contractor will no longer be permitted to use apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(2) *Fringe benefits.* Apprentices must be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringe benefits must be paid in accordance with that determination.

(3) *Apprenticeship ratio.* The allowable ratio of apprentices to journeyworkers on the job site in any craft classification must not be greater than the ratio permitted to the contractor as to the entire work force under the registered program or the ratio applicable to the locality of the project pursuant to paragraph 4.a.(4) of this section. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated in paragraph 4.a.(1) of this section, must be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under this section must be paid not less than the applicable wage rate on the wage determination for the work actually performed.

(4) *Reciprocity of ratios and wage rates.* Where a contractor is performing construction on a project in a locality other than the locality in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyworker's hourly rate) applicable within the locality in which the construction is being performed must be observed. If there is no applicable ratio or wage rate for the locality of the project, the ratio and wage rate specified in the contractor's registered program must be observed.

b. *Equal employment opportunity.* The use of apprentices and journeyworkers under this part must be in conformity with

the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

c. Apprentices and Trainees (programs of the U.S. DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. 23 CFR 230.111(e)(2). The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeyworkers shall not be greater than permitted by the terms of the particular program.

5. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract as provided in 29 CFR 5.5.

6. Subcontracts. The contractor or subcontractor must insert FHWA-1273 in any subcontracts, along with the applicable wage determination(s) and such other clauses or contract modifications as the contracting agency may by appropriate instructions require, and a clause requiring the subcontractors to include these clauses and wage determination(s) in any lower tier subcontracts. The prime contractor is responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in this section. In the event of any violations of these clauses, the prime contractor and any subcontractor(s) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier subcontractors, and may be subject to debarment, as appropriate. 29 CFR 5.5.

7. Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

8. Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract as provided in 29 CFR 5.5.

9. Disputes concerning labor standards. As provided in 29 CFR 5.5, disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

10. Certification of eligibility. a. By entering into this contract, the contractor certifies that neither it nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of 40 U.S.C. 3144(b) or § 5.12(a).

b. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of 40 U.S.C. 3144(b) or § 5.12(a).

c. The penalty for making false statements is prescribed in the U.S. Code, Title 18 Crimes and Criminal Procedure, 18 U.S.C. 1001.

11. Anti-retaliation. It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

a. Notifying any contractor of any conduct which the worker reasonably believes constitutes a violation of the DBA, Related Acts, this part, or 29 CFR part 1 or 3;

b. Filing any complaint, initiating or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under the DBA, Related Acts, this part, or 29 CFR part 1 or 3;

c. Cooperating in any investigation or other compliance action, or testifying in any proceeding under the DBA, Related Acts, this part, or 29 CFR part 1 or 3; or

d. Informing any other person about their rights under the DBA, Related Acts, this part, or 29 CFR part 1 or 3.

V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

Pursuant to 29 CFR 5.5(b), the following clauses apply to any Federal-aid construction contract in an amount in excess of $100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchpersons and guards.

1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek. 29 CFR 5.5.

2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph 1. of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages and interest from the date of the underpayment. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or

mechanic, including watchpersons and guards, employed in violation of the clause set forth in paragraph 1. of this section, in the sum currently provided in 29 CFR 5.5(b)(2)* for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph 1. of this section.

* $31 as of January 15, 2023 (See 88 FR 88 FR 2210) as may be adjusted annually by the Department of Labor, pursuant to the Federal Civil Penalties Inflation Adjustment Act of 1990.

3. Withholding for unpaid wages and liquidated damages

a. *Withholding process.* The FHWA or the contracting agency may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime contractor or any subcontractor for any unpaid wages; monetary relief, including interest; and liquidated damages required by the clauses set forth in this section on this contract, any other Federal contract with the same prime contractor, or any other federally assisted contract subject to the Contract Work Hours and Safety Standards Act that is held by the same prime contractor (as defined in § 5.2). The necessary funds may be withheld from the contractor under this contract, any other Federal contract with the same prime contractor, or any other federally assisted contract that is subject to the Contract Work Hours and Safety Standards Act and is held by the same prime contractor, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the contractor liability for which the funds were withheld.

b. *Priority to withheld funds.* The Department has priority to funds withheld or to be withheld in accordance with Section IV paragraph 2.a. or paragraph 3.a. of this section, or both, over claims to those funds by:

(1) A contractor's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(2) A contracting agency for its reprocurement costs;

(3) A trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a contractor, or a contractor's bankruptcy estate;

(4) A contractor's assignee(s);

(5) A contractor's successor(s); or

(6) A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901–3907.

4. Subcontracts. The contractor or subcontractor must insert in any subcontracts the clauses set forth in paragraphs 1. through 5. of this section and a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor is responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs 1. through 5. In the event of any violations of these clauses, the prime contractor and any subcontractor(s) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier subcontractors, and associated liquidated damages and may be subject to debarment, as appropriate.

5. Anti-retaliation. It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

a. Notifying any contractor of any conduct which the worker reasonably believes constitutes a violation of the Contract Work Hours and Safety Standards Act (CWHSSA) or its implementing regulations in this part;

b. Filing any complaint, initiating or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under CWHSSA or this part;

c. Cooperating in any investigation or other compliance action, or testifying in any proceeding under CWHSSA or this part; or

d. Informing any other person about their rights under CWHSSA or this part.

VI. SUBLETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System pursuant to 23 CFR 635.116.

1. The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contract price before computing the amount of work required to be performed by the contractor's own organization (23 CFR 635.116).

a. The term "perform work with its own organization" in paragraph 1 of Section VI refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions: (based on longstanding interpretation)

(1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;

(2) the prime contractor remains responsible for the quality of the work of the leased employees;

(3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and

(4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submission of payrolls, statements of compliance and all other Federal regulatory requirements.

b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract. 23 CFR 635.102.

2. Pursuant to 23 CFR 635.116(a), the contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.

3. Pursuant to 23 CFR 635.116(c), the contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.

4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract. (based on long-standing interpretation of 23 CFR 635.116).

5. The 30-percent self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements. 23 CFR 635.116(d).

VII. SAFETY: ACCIDENT PREVENTION

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

1. In the performance of this contract the contractor shall comply with all applicable Federal, State, and local laws governing safety, health, and sanitation (23 CFR Part 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the contracting officer may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract. 23 CFR 635.108.

2. It is a condition of this contract, and shall be made a condition of each subcontract, which the contractor enters into pursuant to this contract, that the contractor and any subcontractor shall not permit any employee, in performance of the contract, to work in surroundings or under conditions which are unsanitary, hazardous or dangerous to his/her health or safety, as determined under construction safety and health standards (29 CFR Part 1926) promulgated by the Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704). 29 CFR 1926.10.

3. Pursuant to 29 CFR 1926.3, it is a condition of this contract that the Secretary of Labor or authorized representative thereof, shall have right of entry to any site of contract performance to inspect or investigate the matter of compliance with the construction safety and health standards and to carry out the duties of the Secretary under Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).

VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR Part 635) in one or more places where it is readily available to all persons concerned with the project:

18 U.S.C. 1020 reads as follows:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the cost thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

Whoever knowingly makes any false statement, false representation, false report or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

Whoever knowingly makes any false statement or false representation as to material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-aid Roads Act approved July 11, 1916, (39 Stat. 355), as amended and supplemented;

Shall be fined under this title or imprisoned not more than 5 years or both."

IX. IMPLEMENTATION OF CLEAN AIR ACT AND FEDERAL WATER POLLUTION CONTROL ACT (42 U.S.C. 7606; 2 CFR 200.88; EO 11738)

This provision is applicable to all Federal-aid construction contracts in excess of $150,000 and to all related subcontracts. 48 CFR 2.101; 2 CFR 200.327.

By submission of this bid/proposal or the execution of this contract or subcontract, as appropriate, the bidder, proposer, Federal-aid construction contractor, subcontractor, supplier, or vendor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal Highway Administration and the Regional Office of the Environmental Protection Agency. 2 CFR Part 200, Appendix II.

The contractor agrees to include or cause to be included the requirements of this Section in every subcontract, and further agrees to take such action as the contracting agency may direct as a means of enforcing such requirements. 2 CFR 200.327.

X. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION

This provision is applicable to all Federal-aid construction contracts, design-build contracts, subcontracts, lower-tier subcontracts, purchase orders, lease agreements, consultant contracts or any other covered transaction requiring FHWA approval or that is estimated to cost $25,000 or more – as defined in 2 CFR Parts 180 and 1200. 2 CFR 180.220 and 1200.220.

1. Instructions for Certification – First Tier Participants:

a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.

b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction. 2 CFR 180.320.

c. The certification in this clause is a material representation of fact upon which reliance was placed when the contracting agency determined to enter into this transaction. If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this transaction for cause of default. 2 CFR 180.325.

d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances. 2 CFR 180.345 and 180.350.

e. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180, Subpart I, 180.900-180.1020, and 1200. "First Tier Covered Transactions" refers to any covered transaction between a recipient or subrecipient of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a recipient or subrecipient of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

f. The prospective first tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction. 2 CFR 180.330.

g. The prospective first tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions," provided by the department or contracting agency, entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold. 2 CFR 180.220 and 180.300.

h. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. 2 CFR 180.300; 180.320, and 180.325. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. 2 CFR 180.335. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the System for Award Management website (https://www.sam.gov/). 2 CFR 180.300, 180.320, and 180.325.

i. Nothing contained in the foregoing shall be construed to require the establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of the prospective participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

j. Except for transactions authorized under paragraph (f) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default. 2 CFR 180.325.

* * * * *

2. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – First Tier Participants:

a. The prospective first tier participant certifies to the best of its knowledge and belief, that it and its principals:

(1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency, 2 CFR 180.335;.

(2) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property, 2 CFR 180.800;

(3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (a)(2) of this certification, 2 CFR 180.700 and 180.800; and

(4) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default. 2 CFR 180.335(d).

(5) Are not a corporation that has been convicted of a felony violation under any Federal law within the two-year period preceding this proposal (USDOT Order 4200.6 implementing appropriations act requirements); and

(6) Are not a corporation with any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted, or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability (USDOT Order 4200.6 implementing appropriations act requirements).

b. Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant should attach an explanation to this proposal. 2 CFR 180.335 and 180.340.

* * * * *

3. **Instructions for Certification - Lower Tier Participants:**

(Applicable to all subcontracts, purchase orders, and other lower tier transactions requiring prior FHWA approval or estimated to cost $25,000 or more - 2 CFR Parts 180 and 1200). 2 CFR 180.220 and 1200.220.

a. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances. 2 CFR 180.365.

d. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180, Subpart I, 180.900 – 180.1020, and 1200. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations. "First Tier Covered Transactions" refers to any covered transaction between a recipient or subrecipient of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a recipient or subrecipient of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated. 2 CFR 1200.220 and 1200.332.

f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold. 2 CFR 180.220 and 1200.220.

g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the System for Award Management website (https://www.sam.gov/), which is compiled by the General Services Administration. 2 CFR 180.300, 180.320, 180.330, and 180.335.

h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

i. Except for transactions authorized under paragraph e of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily

excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment. 2 CFR 180.325.

* * * * *

4. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion--Lower Tier Participants:

a. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals:

(1) is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency, 2 CFR 180.355;

(2) is a corporation that has been convicted of a felony violation under any Federal law within the two-year period preceding this proposal (USDOT Order 4200.6 implementing appropriations act requirements); and

(3) is a corporation with any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted, or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability. (USDOT Order 4200.6 implementing appropriations act requirements)

b. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant should attach an explanation to this proposal.

* * * * *

XI. CERTIFICATION REGARDING USE OF CONTRACT FUNDS FOR LOBBYING

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts which exceed $100,000. 49 CFR Part 20, App. A.

1. The prospective participant certifies, by signing and submitting this bid or proposal, to the best of his or her knowledge and belief, that:

a. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

b. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

2. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

3. The prospective participant also agrees by submitting its bid or proposal that the participant shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such recipients shall certify and disclose accordingly.

XII. USE OF UNITED STATES-FLAG VESSELS:

This provision is applicable to all Federal-aid construction contracts, design-build contracts, subcontracts, lower-tier subcontracts, purchase orders, lease agreements, or any other covered transaction. 46 CFR Part 381.

This requirement applies to material or equipment that is acquired for a specific Federal-aid highway project. 46 CFR 381.7. It is not applicable to goods or materials that come into inventories independent of an FHWA funded-contract.

When oceanic shipments (or shipments across the Great Lakes) are necessary for materials or equipment acquired for a specific Federal-aid construction project, the bidder, proposer, contractor, subcontractor, or vendor agrees:

1. To utilize privately owned United States-flag commercial vessels to ship at least 50 percent of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to this contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels. 46 CFR 381.7.

2. To furnish within 20 days following the date of loading for shipments originating within the United States or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, 'on-board' commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph (b)(1) of this section to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Office of Cargo and Commercial Sealift (MAR-620), Maritime Administration, Washington, DC 20590. (MARAD requires copies of the ocean carrier's (master) bills of lading, certified onboard, dated, with rates and charges. These bills of lading may contain business sensitive information and therefore may be submitted directly to MARAD by the Ocean Transportation Intermediary on behalf of the contractor). 46 CFR 381.7.

ATTACHMENT A - EMPLOYMENT AND MATERIALS PREFERENCE FOR APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM OR APPALACHIAN LOCAL ACCESS ROAD CONTRACTS (23 CFR 633, Subpart B, Appendix B) This provision is applicable to all Federal-aid projects funded under the Appalachian Regional Development Act of 1965.

1. During the performance of this contract, the contractor undertaking to do work which is, or reasonably may be, done as on-site work, shall give preference to qualified persons who regularly reside in the labor area as designated by the DOL wherein the contract work is situated, or the subregion, or the Appalachian counties of the State wherein the contract work is situated, except:

a. To the extent that qualified persons regularly residing in the area are not available.

b. For the reasonable needs of the contractor to employ supervisory or specially experienced personnel necessary to assure an efficient execution of the contract work.

c. For the obligation of the contractor to offer employment to present or former employees as the result of a lawful collective bargaining contract, provided that the number of nonresident persons employed under this subparagraph (1c) shall not exceed 20 percent of the total number of employees employed by the contractor on the contract work, except as provided in subparagraph (4) below.

2. The contractor shall place a job order with the State Employment Service indicating (a) the classifications of the laborers, mechanics and other employees required to perform the contract work, (b) the number of employees required in each classification, (c) the date on which the participant estimates such employees will be required, and (d) any other pertinent information required by the State Employment Service to complete the job order form. The job order may be placed with the State Employment Service in writing or by telephone. If during the course of the contract work, the information submitted by the contractor in the original job order is substantially modified, the participant shall promptly notify the State Employment Service.

3. The contractor shall give full consideration to all qualified job applicants referred to him by the State Employment Service. The contractor is not required to grant employment to any job applicants who, in his opinion, are not qualified to perform the classification of work required.

4. If, within one week following the placing of a job order by the contractor with the State Employment Service, the State Employment Service is unable to refer any qualified job applicants to the contractor, or less than the number requested, the State Employment Service will forward a certificate to the contractor indicating the unavailability of applicants. Such certificate shall be made a part of the contractor's permanent project records. Upon receipt of this certificate, the contractor may employ persons who do not normally reside in the labor area to fill positions covered by the certificate, notwithstanding the provisions of subparagraph (1c) above.

5. The provisions of 23 CFR 633.207(e) allow the contracting agency to provide a contractual preference for the use of mineral resource materials native to the Appalachian region.

6. The contractor shall include the provisions of Sections 1 through 4 of this Attachment A in every subcontract for work which is, or reasonably may be, done as on-site work.

TENNESSEE DEPARTMENT OF TRANSPORTATION

2025 MINIMUM WAGE SCALES FOR FEDERAL AID HIGHWAY CONSTRUCTION

"General Decision Number: TN20250147 01/03/2025

Superseded General Decision Number: TN20240147

State: Tennessee

Construction Type: Highway

Counties: Tennessee Statewide.

HIGHWAY CONSTRUCTION PROJECTS

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(1).

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022:	. Executive Order 14026 generally applies to the contract. . The contractor must pay all covered workers at least $17.75 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2025.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	. Executive Order 13658 generally applies to the contract. . The contractor must pay all covered workers at least $13.30 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2025.

(Rev. 01/03/25)

STATE **OF** **TENNESSEE**

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Additional information on contractor requirements and worker protections under the Executive Orders is available at http://www.dol.gov/whd/govcontracts.

==========

** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 ($17.75) or 13658 ($13.30). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at
https://www.dol.gov/agencies/whd/government-contracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications

and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than ""SU"", ""UAVG"", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The ""SU"" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union

prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

a) a survey underlying a wage determination
b) an existing published wage determination
c) an initial WHD letter setting forth a position on a wage determination matter
d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be

directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.

SPECIAL PROVISION

REGARDING

PROHIBITION ON CERTAIN TELECOMMUNICATION AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT

Installation of telecommunication and video surveillance equipment, services or systems shall contain no components from providers as listed in Title 2 Code of Federal Regulations (CFR) Part 200.216.

The prohibition on certain telecommunication and video surveillance services or equipment regulation in Title 2 CFR 200.216 shall apply to this contract. Take all necessary and reasonable steps in accordance with Title 2 CFR 200.216 to ensure that no prohibited telecommunication and video surveillance services or equipment are included in any of the work in this contract. As defined in Title 2 CFR 200.471, the regulation provides clarity that the telecommunications and video surveillance costs associated with Title 2 CFR 200.216 are unallowable for services and equipment from the providers.

It is prohibited from installing equipment, services, or systems that use covered telecommunications equipment or services from providers described in section 889 of the National Defense Authorization Act for Fiscal Year 2019 (NDAA 2019).

As described in section 889 of the NDAA 2019, "covered telecommunications equipment or services" means:

- Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);
- Video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);
- Telecommunications or video surveillance services provided by such entities or using such equipment; or
- Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country. The term "covered foreign country" means the People's Republic of China.

Any prohibited equipment installed must be removed and replaced at the contactor's expense with acceptable equipment.

SPECIAL PROVISION

REGARDING

BUILD AMERICA, BUY AMERICA ACT REQUIREMENTS

The Build America, Buy America Act (BABA) Public Law No. 117-58 SEC. 70914 that all of the iron, steel, manufactured products, and construction materials used are subject to Build America, Buy America requirements and are produced in the United States.

Effective 10/23/2023, the Office of Management and Budget (OMB) revised guidance in the Code of Federal Regulations (CFR) title 2 and add a new part 184 – Buy America Preferences For Infrastructure Projects and revised 200.322.

A. Iron and steel: FHWA existing requirements SP106A Regarding Buy America.

B. Manufactured products: FHWA Buy America Final Rule 11/25/1983, 48 FR 53099; Waiver for Manufactured Products.

C. Construction materials includes an article, material, or supply that is or consists of only one of the materials listed except as provided in 2).

1) Construction materials:

- non-ferrous metals;
- plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables);
- Glass (including optic glass);
- Fiber optic cable (including drop cable);
- Optical fiber;
- Lumber;
- Engineered wood; and
- Drywall.

2) Minor additions of articles, materials, supplies, or binding agents to a construction material do not change the categorization of the construction material.

SP106BA

Construction materials incorporated into the project must meet one of the following construction material standards to be considered "**produced in the United States**".

1) Non-ferrous metals. All manufacturing processes, from initial smelting or melting through final shaping, coating, and assembly, occurred in the United States.
2) Plastic and polymer-based products. All manufacturing processes, from initial combination of constituent plastic or polymer-based inputs, or, where applicable, constituent composite materials, until the item is in its final form, occurred in the United States.
3) Glass. All manufacturing processes, from initial batching and melting of raw materials through annealing, cooling, and cutting, occurred in the United States.
4) Fiber optic cable (including drop cable). All manufacturing processes, from the initial ribboning (if applicable), through buffering, fiber stranding and jacketing, occurred in the United States. All manufacturing processes also include the standards for glass and optical fiber, but not for non-ferrous metals, plastic and polymer-based products, or any others.
5) Optical fiber. All manufacturing processes, from the initial preform fabrication stage through the completion of the draw, occurred in the United States.
6) Lumber. All manufacturing processes, from initial debarking through treatment and planing, occurred in the United States.
7) Drywall. All manufacturing processes, from initial blending of mined or synthetic gypsum plaster and additives through cutting and drying of sandwiched panels, occurred in the United States.
8) Engineered wood. All manufacturing processes from the initial combination of constituent materials until the wood product is in its final form, occurred in the United States.

Provide certifications to the Engineer for the construction materials that they meet the Build America Buy America Act requirements. Assure all submittals required for Buy America are submitted to the Engineer prior to the products and or materials being incorporated in the project.

Effective August 16, 2023, with the US Department of Transportation (DOT) Office of the Secretary Docket No.: DOT-OST-2022-0124:
Waiver of Buy America Requirements for De Minimis Costs and Small Grants, decision, certain waivers to the requirements stated herein are allowed.

The BABA's domestic preferences for iron and steel, manufactured products, and construction materials used in projects funded under DOT administered financial assistance programs will not apply under a single financial assistance award for the following situations:

SP106BA

1) The total value of the noncompliant products is no more than the lesser of $1,000,000 or 5% of total applicable costs for the project; where the "total value of the non-compliant products" does not include the value of those products subject to a separate Buy America waiver. "Total applicable project costs" are defined as the cost of materials (including the cost of any manufactured products) used in the project that are subject to a domestic preference requirement, including materials that are within the scope of an existing waiver and the de minimis cost portion of the waiver does not apply to iron and steel subject to the requirements of 23 U.S.C. 313/ 23 CFR 635.410 (b)(4), or

2) The total amount of Federal financial assistance applied to the project, through awards or subawards, is below $500,000 but this does not apply to iron, steel, and manufactured goods subject to the requirements of 49 U.S.C. 22905(a).

The waiver does not apply to products that are the subject of two separate product-specific Buy America waivers from the Department:

1) For awards administered by FHWA that are subject to 23 U.S.C. 313, the waiver does not apply to electric vehicle chargers, as defined in the notice at 88 FR 10619.

2) For awards that are subject to 49 U.S.C. 5323(j), the waiver does not apply to mass-produced, unmodified non-ADA accessible vans and minivans with seating capacity for at least six adults not including the driver, as those terms are used in the notice at 87 FR 64534.

DOT Waiver of Buy America Requirements for De Minimis Costs requirements:

Provide certifications, documents, and calculations to the Engineer for all of the noncompliant products anticipated to be used in the project before being incorporated.

The contractor shall be responsible for all cost associated with products that are permanently incorporated into the project that does not meet the requirements of this Special Provision without prior written approval from the Department, up to and including removal and replacement.

STATE **OF** **TENNESSEE**

January 17, 2023 January 1, 2021

SPECIAL PROVISION

REGARDING

CERTIFIED PAYROLLS – LOCAL PROGRAMS

As specified by Minimum Wage Scales for Federal-Aid and State Funded Construction contract provisions and Special Provision 1273, submit certified payrolls for Contractor and subcontractor workforce to the Engineer weekly for each week in which any work is performed. Once Work begins, if in any week the Contractor or subcontractor does not perform Work, submit the following statement to the Engineer: "No work performed by (contractor name) for the week ending _____."

Assume all responsibility for ensuring all payrolls and all subcontractor payrolls are submitted and certified electronically for each week in which any contract work is performed. If all payrolls are not received in this timeframe, the progress payment shall be withheld until all necessary payrolls have been received.

There will be no direct payment for recording and reporting of this information. All cost associated with this provision shall be considered incidental.

STATE OF TENNESSEE

(Rev. 7-28-21) January 1, 2021

SPECIAL PROVISION

REGARDING

HIGHWAY SIGNS, LUMINAIRES, AND TRAFFIC SIGNALS

Scope

These design requirements shall apply to **713**-Highway Signing, **714**-Roadway and Structure Lighting, and **730**-Traffic Signals of the current Standard Specifications.

Description

The design of the supports for overhead sign bridges and butterfly configurations, high mast lighting, luminaires, CCTV camera poles, and traffic signal strain poles and mast arm structures shall be in accordance with the American Association of Highway and Transportation Officials (AASHTO) LRFD Specifications for Structural Supports for Highway Signs, Luminaires and Traffic Signals, 1st edition, with addenda.

General Conditions

All overhead sign bridges and butterfly sign structures, traffic signal strain poles and mast arm structures and high mast light poles 90-feet or greater in height, shall be designed using the Fatigue Category 1 provisions found in the subject specifications except that, design for galloping-induced fatigue and truck-induced gust fatigue, are excluded. Fatigue designs are not required for luminaire poles less than 55-feet in height, span-wire poles, or roadside sign poles.

In lieu of designing for galloping-induced fatigue in mast arm pole assemblies, a 60-inch by 16-inch by 0.125 gauge aluminum or galvanized steel panel shall be installed horizontally near the end of the mast arm with the long axis of the panel collinear with the long axis of the mast. The panel shall be mounted at such a height as to provide a least a 6-inch clearance from the top of the signal assembly or sign blank located on the mast arm within the length of the anti-galloping panel. The panel and attachment hardware shall be shown on the shop drawings, and is considered an item included in the price bid for the mast arm assembly.

Additionally, all mast arm connections to the support pole shall be accomplished using a wrap-around ring stiffener assembly.

The design coordination instructions are as follows:

a. The Basic Wind Speed shall be 120 mph for Extreme 1 Limit State.
b. The Design Life shall be 50 years resulting in a 1,700 year Recurrence Interval.

PROPOSAL

TO THE COUNTY OF KNOX COUNTY, TENNESSEE

By submitting this Proposal, the undersigned bidder represents that it has carefully examined the site of the work described herein, has become familiar with local conditions and the character and extent of the work; has carefully examined the Plans, the *Standard Specifications for Road and Bridge Construction* (January 1, 2021) adopted by the State of Tennessee, Department of Transportation, with subsequent revisions which are acknowledged to be a part of this Proposal, the Special Provisions, the Proposal Form, the Form of Contract, and the Form of Contract Payment and Performance Bond; and thoroughly understands their stipulations, requirements, and provisions.

The undersigned bidder has determined the quality and quantity of materials required; has investigated the location and determined the sources of supply of the materials required; has investigated labor conditions; and, has arranged for the continuous prosecution of the work herein described.

By submitting this Proposal, the undersigned bidder agrees to provide all necessary equipment, tools, labor, incidentals, and other means of construction, to do all the work, and furnish all the materials of the specified requirements which are necessary to complete the work in accordance with the Plans, and the Specifications, and agrees to accept as payment in full the unit prices for the various items described in the Specifications that are set forth in this Proposal. The bidder understands that the quantities of work specified are approximate only and are subject to increase or decrease and that any such increase or decrease will not affect the unit prices set forth in this Proposal. Compensation for "extra work" which may be required by the COUNTY OF KNOX COUNTY in connection with the construction and completion of the work but which was not reflected in the Plans and Specifications at the time of bidding, will be made in the following manner: work for which there is a unit price set forth in this Proposal will be compensated at that unit price; work for which there is no unit price set forth in this Proposal will be compensated in accordance with the applicable Tennessee Department of Transportation Standard Specifications.

By submitting this Proposal, the parties hereto, in the performance of this Contract, shall not act as employees, partners, joint ventures, or associates of one another. It is expressly acknowledged by the parties hereto that such parties are independent contracting entities and that nothing in this Contract shall be construed to create an employer/employee relationship or to allow either to exercise control or direction over the manner or method by which the other transacts its business affairs or provides its usual services. The employees or agents of one party shall not be deemed or construed to be the employees or agents of the other party for any purpose whatsoever.

By submitting this Proposal, the undersigned bidder, if awarded the contract, agrees that it will be responsible for compliance with the Patient Protection and Affordable Care Act ("PPACA") with respect to itself and its employees, including any obligation to report health insurance coverage, provide health insurance coverage, or pay any financial assessment, tax, or penalty for not providing health insurance. The Contractor shall indemnify the State and hold it harmless for any costs to the State arising from Contractor's failure to fulfill its PPACA responsibilities for itself or its employees.

By submitting this Proposal, the undersigned bidder, if awarded the contract, shall be registered with the Department of Revenue for the collection of Tennessee sales and use tax or provide confirmation from the Department of Revenue that the bidder is not required to register for the Tennessee sales and use tax. This registration requirement is a material requirement of this Contract.

By submitting this Proposal, the undersigned bidder hereby agrees to be bound by the award of the Contract and, if awarded the Contract on this Proposal, to execute the required Contract and the required Contract Payment and Performance Bond within ten (10) days after receipt of notice of the award. The undersigned bidder submits herewith the required Proposal guaranty in an amount of not less than five percent (5%) of the total amount of the Proposal offered and agrees and consents that the Proposal guaranty shall immediately be at the disposal of the COUNTY OF KNOX COUNTY, not as a penalty, but as an agreed liquidated damage if the required Contract and Contract Payment and Performance Bond are not executed within ten days from receipt of the notice of award.

By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each bidder is not on the list created pursuant to § 12-12-106. This list is generated to identify entities ineligible to contract with the State of Tennessee or any political subdivision of the State per the Iran Divestment Act, T.C.A. §§ 12-12-101 – 113, and the current list may be found at the Tennessee Department of General Services, Central Procurement Office, website under the Public Information Library webpage at the following link: http://tn.gov/assets/entities/generalservices/cpo/attachments/List_of_persons_pursuant_to_Tenn._Code_Ann._12-12-106._Iran_Divestment_Act-July.pdf.

Robert L. Raney, Senior Vice President

On this the 3rd day of February, 2017, before me personally appeared Robert L. Raney, who acknowledged himself to be the Senior Vice President of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of the corporations by himself as a duly authorized officer.

In Witness Whereof, I hereunto set my hand and official seal.

My Commission expires the 30th day of June, 2021

Marie C. Tetreault
Marie C. Tetreault, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company's name and seal with the Company's seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognizance, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company's seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, **Kevin E. Hughes**, the undersigned, Assistant Secretary of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 6th day of May, 2025.

Kevin E. Hughes, Assistant Secretary

To verify the authenticity of this Power of Attorney, please call us at 1-800-421-3880.
Please refer to the above-named Attorney-in-Fact and the details of the bond to which the power is attached.

COUNTY OF KNOX COUNTY, TENNESSEE

PROPOSAL GUARANTEE

CONTRACT NO. 190383

Bidder: Progression Electric LLC
Print Name of Bidder

KNOW ALL MEN BY THESE PRESENTS, that the above-named Bidder has tendered the attached cashier's or certified check in an amount equal to five percent (5%) of the total amount it bid for the project stated above, payable to the COUNTY OF KNOX COUNTY, to be held pending the fulfillment of the following obligation conditions.

NOW, THEREFORE, the condition of this obligation is: the Bidder shall not withdraw its bid within sixty (60) days after the opening of the bids, or within such other time period as may be provided in the Proposal, and if the COUNTY OF KNOX COUNTY shall award a Contract to the Bidder, the Bidder shall, within ten (10) days after it receives written notice of the award, fully execute a Contract on the basis of the terms, conditions and unit prices set forth in its Proposal or bid and provide bonds with good and sufficient surety, as required for the faithful performance of the Contract and for the protection of all persons supplying labor, material, and equipment for the prosecution of the work. In the event the Bidder withdraws its bid after bids are opened, or after award of the Contract has been made fails to execute such the Contract and/or such additional documents as may be required and to provide the required bonds within the time period specified above, then the COUNTY OF KNOX COUNTY shall cash the attached check and retain the funds, not as a penalty, but as agreed upon liquidated damages.

IN WITNESS WHEREOF, the Bidder has caused these presents to be signed by a duly authorized official.

COUNTY OF KNOX COUNTY, TENNESSEE

CONTRACT NO. 190383

This agreement is made and executed in three (3) originals, between the COUNTY OF KNOX COUNTY, and _____ hereinafter referred to as the "Contractor."

WITNESSETH

The COUNTY OF KNOX COUNTY did advertise for, receive and accept a bid from the Contractor for work on the above identified contract.

In consideration of the agreements herein contained, to be performed by the parties hereto and of the payments hereafter agreed to be made, it is mutually agreed by both parties that:

1. The contract between the parties consists of the following "Contract Documents" all of which constitute one instrument:
   (a) the Instructions to Bidders
   (b) the Proposal
   (c) all conditions and terms of this Contract form
   (d) the Contract Payment & Performance Bond and/or Letter of Credit, where applicable
   (e) the most current version of the *Tennessee Department of Transportation Standard Specifications for Road and Bridge* Construction (herein referred to as *TDOT Standard Specifications)*
   (f) Supplemental Specifications
   (g) Revisions and Additions
   (h) Special Provisions
   (i) Addenda
   (j) The most current version of the TDOT Standard Drawings
   (k) The Contract Plans,
   (l) The Work Order
   (m) Construction Changes
   (n) Supplemental Agreements

   All of the provisions contained in the listed Contract Documents are incorporated herein by reference with the same force and effect as though set out in full.

2. The Contract Documents are intended to be complementary and to describe and provide for a complete work. Requirements in one of these are as binding as if occurring in all of them. In case of discrepancy, Supplemental Specifications will govern over the TDOT Standard Specifications; the TDOT Standard Specifications will govern over the local government standard specifications; the Contract Plans will govern over both Supplemental and Standard Specifications, and Special Provisions will govern over both Plans and Specifications. In interpreting Plans, calculated dimensions will govern over scaled dimensions. Contract Plans, typical cross sections and approved working drawings will govern over Standard Drawings.

3. The Contractor agrees to furnish all materials, equipment, machinery, tools and labor and to perform the work required to complete the project in a thorough and

workmanlike manner, to the satisfaction of the appropriate official of the COUNTY OF KNOX COUNTY.

4. The COUNTY OF KNOX COUNTY agrees to pay to the Contractor such unit prices for the work actually done as are set out in the accompanying proposal, in the manner provided for in the TDOT Standard Specifications, Supplemental Specifications and applicable Special Provisions.

5. The Contractor shall, at all times, observe and comply with all applicable federal, state and local laws, ordinances and regulations and shall indemnify and hold harmless the COUNTY OF KNOX COUNTY and all of its officers, agents and servants against any claim of liability or assessment of fines or penalties arising from or based upon the Contractor's and/or its employees' violations of any such law ordinance or regulation. The Contractor shall maintain documentation for all charges against the COUNTY OF KNOX COUNTY under this Contract. The books, records and documents of the Contractor insofar as they relate to the work performed or money received under this contract shall be maintained for a period of seven (7) full years from the date of the final payment and shall be subject to audit at any reasonable time and upon reasonable notice by the COUNTY OF KNOX COUNTY, the State, the Comptroller of the Treasury, the Tennessee Department of Transportation, or their duly appointed representatives.

6. The Contractor shall be responsible for any and all injury or damage to persons or to property arising from the prosecution of the work and due to any act, omission, neglect or misconduct in its manner or method of prosecuting the work or due to its non-execution of the work or due to defective work or materials. The Contractor shall provide proof of adequate and appropriate general liability insurance providing liability coverage in an amount not less that $1 million dollars per occurrence and $300,000 per claimant, naming the COUNTY OF KNOX COUNTY as an additional insured.

7. The Contractor shall indemnify and hold harmless the COUNTY OF KNOX COUNTY and all of its officers, agents and employees from all suits, actions or claims of any character arising from the Contractor's acts or omissions in the prosecution of the work, use of unacceptable materials in constructing the work, infringement of patent, trade mark or copyright, or claims for Workers' Compensation. If any such suit, action or claim is filed, the COUNTY OF KNOX COUNTY may retain from the monies due to the Contractor under this Contract a sum deemed sufficient by the COUNTY OF KNOX COUNTY to protect the COUNTY OF KNOX COUNTY from loss therefrom. Upon resolution of the suit, action or claim, any remaining retained funds will be released.

8. Upon execution of this Contract, the Contractor shall be prepared to begin the work to be performed under the Contract, but will not proceed until it has received official "Notice to Proceed". This official notice will stipulate the date upon which it is expected that the Contractor will begin his work, and from which date the working days tabulated against its time limit will begin. All other requirements in regard to the beginning of construction set forth in the Proposal and Special Provisions will date from the official notice.

IN WITNESS WHEREOF, the parties hereto have cause this Contract to be signed and executed by their respective authorized agents or officials.

CONTRACT PAYMENT AND PERFORMANCE BOND

Note: to be filled out post-award

CONTRACT NO. 190383

Be it known that _____, as Principal, and _____, as Surety(ies), all authorized to do business in the State of Tennessee, hereby bind themselves to the COUNTY OF KNOX COUNTY, and other potential claimants, for all obligations incurred by the Principal under its contract with COUNTY OF KNOX COUNTY, for the construction of the above identified contract; in the full contract amount of _____ ($_____).

The obligations of the Principal and Surety(ies) under these payment and performance bonds shall continue in full force and effect until all materials, equipment and labor have been provided AND all requirements contained in the contract, plans and specifications have been completed in a timely, thorough and workmanlike manner. The parties agree that these bonds are statutory in nature and are governed by the provisions contained in Title 12, chapter 4 and Title 54, chapter 5 of the Tennessee Code Annotated relating to bonds required of contractors and that those provisions constitute a part of this bond.

By this instrument, the Principal and Surety(ies) specifically bind themselves, their heirs, successors, and assigns, *in solido*, under the following bonds:

Payment Bond. To the COUNTY OF KNOX COUNTY and all "Claimants," as contemplated by T.C.A. Title 54, chapter 5, in the full contract amount of _____ ($_____), in order to secure the payment in full of all timely claims under the project.

Performance Bond. To the COUNTY OF KNOX COUNTY in the full contract amount of _____ ($_____), in order to secure the full and faithful performance and timely completion of the project according to its plans and specifications, inclusive of overpayments to the contractor and liquidated damages as assessed.

Upon receipt of notice that the Principal is in default under the contract, the Surety(ies) shall undertake to complete performance, without regard to cost. If the Surety(ies) fail or refuse to complete performance of the contract, the COUNTY OF KNOX COUNTY may then proceed with the work in any lawful manner that it may elect until it is finally completed. When the work is thus finally completed, the total cost of the same will be computed. All costs and charges incurred by the COUNTY OF KNOX COUNTY in completing the Work will be deducted from any monies due or which may become due to the Principal. If the total costs of completion exceeds the sum which would have been payable under the Contract, then the Principal and the Surety(ies), *in solido*, shall be liable for and shall pay to the COUNTY OF KNOX COUNTY the amount of such excess.

In witness whereof we have signed this instrument as dated.

A. PROJECT OVERVIEW

Scope of Work

This project – Knox County Advanced Traffic Management System (ATMS) – Phase II consists of fifteen (15) traffic signals in Knox County that will be improved with the installation of new video detection equipment, connected vehicle (CV) infrastructure, and optimization of signal timings. This project will build on the improvements that were constructed as a part of the Phase I project which included the installation of fiber optic cable along the Maynardville Pike.

Other proposed improvements, which vary by intersection, include the installation of traffic signal cabinets, 3-section flashing yellow arrow signal heads, Ethernet field switches, conflict monitors (malfunction management units [MMU]), battery backup units, cell modems, pedestrian signal heads, accessible pedestrian pushbuttons, sign replacements and additions, pavement markings, and ADA curb ramp improvements. These improvements are specifically detailed on the individual intersection improvement plan sheets.

Applicable Standards

All work, materials, and installation procedures shall conform to:

- Special Provision 725 (SP725) for this project
- Construction Plans for this project
- Applicable standard drawings for Lenoir City
- Most recent version of the Tennessee Department of Transportation (TDOT) *Standard*
- *Specifications for Road and Bridge Construction*
- Most recent version of TDOT standard drawings for Roadway, Structure, and Traffic Operations
- Most recent version of TDOT Traffic Design Manual
- Applicable TDOT Traffic Operations Memorandums
- Most recent version of the Federal Highway Administration (FHWA) *Manual on Uniform Traffic*
- *Control Devices (MUTCD)*

All electrical materials and work shall conform to the following:

- National Electrical Code (NEC)
- National Electrical Safety Code (NESC)
- National Electrical Manufacturers Association (NEMA)
- Underwriters' Laboratories, Inc. (UL)
- Electrical Testing Laboratories (ETL)
- National Electrical Testing Association (NETA)
- Institute of Electrical and Electronics Engineers (IEEE)
- Electronic Industries Association (EIA)
- Applicable codes and requirements of governing jurisdictions, including but not limited to:
    - Knox County, Tennessee
    - Lenoir City Utilities Board (LCUB)
    - Knoxville Utilities Board (KUB)

All Intelligent Transportation System (ITS) and traffic signal materials and work shall conform to the following:

- National Transportation Communications for ITS Protocol (NTCIP)
- Most recent version of IEEE 802.3 industry standards for Ethernet and NTCIP standards supporting Ethernet
- International Municipal Signal Association (IMSA)

Testing

The Contractor shall prepare a Testing Plan for this project, to demonstrate compliance. The Testing Plan shall be reviewed by the Engineer, and approved by the Engineer, prior to the Contractor commencing with the activities outlined within the Testing Plan.

The Contractor shall provide reasonable opportunity for the Engineer to observe and witness each and every test. Upon conclusion of each test, the Contractor shall submit the test results to the Engineer for review. Following the Engineer's observation/witness of the test and Engineer's review of the test results;

- If the test is deemed successful by the Engineer, the Engineer may deliver notice of a successful test.
- If the test is deemed unsuccessful by the Engineer, the Contractor shall be responsible for troubleshooting, making corrections as appropriate, and coordinating with the Engineer to perform another iteration of testing. This process shall repeat until the Engineer determines the test is successful.

At minimum, the following tests shall be performed by the Contractor to demonstrate compliance with this document and manufacturer standards – pertaining to specific components and pay items:

- Bench Tests – The Contractor shall perform Bench Tests prior to installation of pay items as specified within this document.
- Field Acceptance Tests – The Contractor shall perform Field Acceptance Tests following complete installation and configuration of pay items as specified within this document.

At minimum, the following tests shall be performed by the Contractor to demonstrate compliance with this document and manufacturer standards – pertaining to the system and project:

- Preliminary System Acceptance Test – The Contactor shall perform this Preliminary System Acceptance Test following complete installation and configuration of all project components, to demonstrate successful network communications are present and fully functional between the TOC and the field devices.
    - If the Preliminary System Acceptance Test is deemed successful by the Engineer, the Engineer may deliver notice of successful Preliminary System Acceptance, and the Burn-In Period may commence.
    - If the Preliminary System Acceptance Test is deemed unsuccessful by the Engineer, the Contractor shall be responsible for troubleshooting and making corrections as appropriate. Once this work has been completed, and a minimum of 14 calendar days has elapsed, the Contractor shall perform another iteration of the Preliminary System Acceptance Test.
    - This process shall repeat until the Engineer determines the Preliminary System Acceptance Test is successful.
    - Once the Preliminary System Acceptance Test is deemed successful, the Burn-In Period may commence.

- Final System Acceptance Test – The Contactor shall perform this Final System Acceptance Test following successful completion of the Burn-In Period. The same activities that occurred during the Preliminary System Acceptance Test shall occur during the Final System Acceptance Test.
    - If the Final System Acceptance Test is deemed successful by the Engineer, the Engineer may deliver System Acceptance to the Contractor.
    - If the Final System Acceptance Test is deemed unsuccessful by the Engineer, the Contractor shall be responsible for troubleshooting and making corrections as appropriate. Once this work has been completed, and a minimum of 30 calendar days has elapsed, the Contractor shall perform another iteration of the Final System Acceptance Test.
    - This process shall repeat until the Engineer determines the Final System Acceptance Test is successful.

These tests are in addition to any testing requirements required by this document. Other testing requirements including, but not limited to, manufacturer testing and certification prior to shipment or other testing prior to the equipment receipt, are still applicable.

The Contractor shall perform all testing using vendor and/or off-the-shelf software, and the Contractor shall be responsible for providing all vendor and/or off-the-shelf software necessary to perform all testing.

Project testing shall be included in the cost of other pay items and will not be measured separately for payment.

.

B. TRAFFIC SIGNAL CONTROLLER

1. Description

Furnish, install, configure, and test McCain ATC eX2 TS2 Type 2 traffic signal controllers as shown in the plans. The McCain ATC eX2 is considered the Knox County standard.

2. Materials

The McCain ATC eX2 shall have the following features:

- Backlit LCD display
- Two (2) 100Base-T Ethernet ports
- Two (2) High speed USB ports
- SDLC Port (SP-3)
- Three (3) general purpose serial ports

3. Functional Requirements

The McCain ATC eX2 ATC traffic signal controller shall meet the following functional requirements:

- Meets or exceeds NEMA TS2-2003 v.2.06 / ATC 5.2b standards
- Linux Operating System
- Compliant with NCTIP 1201 and 1202
- Freescale PowerQUICC II Pro microprocessor
- Speaks NCTIP protocol
- 16MB Flash memory
- 128MB DDR RAM memory
- 2MB Non-volatile SRAM

4. Construction Methods

Before any new controller is installed in the field, the Contractor shall program the controller to be consistent with the phasing and timing plans furnished by the Engineer. The appropriate communications settings (including the IP address) will be programmed by the Contractor. The Contractor shall install the controller in the controller cabinet, making the necessary connections between the controller and the terminal blocks in the controller cabinet.

For local controllers connected to an existing or proposed traffic signal system, the Contractor shall fully integrate the new controller with the existing or proposed communications equipment and network. The Contractor shall setup and configure the local intersection at Knox County's central traffic management software and fully test the communications before acceptance testing.

Under this contract, the contractor shall be required to submit an IP addressing convention to the Engineer for approval prior to configuring the controllers with network addresses.

Warranty

Signal controllers shall be replaced or repaired by the manufacturer if a controller fails to function as intended due to workmanship or material defects within the first 24 months from the date of being put into field operation at no cost (including shipping) to Knox County.

Documentation

For each new controller furnished by the Contractor, one hard copy of the user's manual shall be provided by the Contractor and placed in the plastic envelope inside the cabinet. One electronic copy of the user's manual shall be provided by the Contractor to Knox County.

The Contractor shall provide to Knox County the following information for each new controller furnished by the Contractor:

- Manufacturer's name, model number, and serial number
- Length of warranty and start date
- MAC address of the Ethernet network interface

5. Testing

Refer to the following requirements:

Manufacturer Testing

- The manufacturer of the Controller shall have tested each unit to verify successful operation.
- Contractor shall provide the manufacturer test results that demonstrate satisfaction of the Controller requirements.

Bench Test

- Bench Test shall be performed for each Controller.
- Before the testing occurs, Bench Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Field Acceptance Test

- Field Acceptance Test shall be performed for each Controller
- Before the testing occurs, Field Acceptance Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Preliminary System Acceptance Test

- Refer to System Integration section.

Final System Acceptance Test

- Refer to System Integration section.

6. Measurement and Payment

Payment at the contract unit price, per each, shall be made for each accepted controller of the type specified. This shall be payment in full for furnishing and installing the controller in the controller cabinet,

making all connections inside the controller cabinet as required to render the installation operable, and fully integrating the controllers with the existing traffic signal system.

Pay Item	Pay Unit
730-16.14 CONTROLLER (MCCAIN ATC CONTROLLER)	EACH

C. TRAFFIC SIGNAL CONTROLLER CABINET

1. Description

Controller shall be housed in a rigid, weatherproof cabinet, constructed, finished and equipped as follows and as shown on the Standard Details. All cabinets shall be wired to TS-2 Type 2 standards.

The cabinet shall be constructed from type 5052-H32 aluminum with a minimum thickness of 0.125 inches. The cabinet shall be supplied with a natural aluminum finish. Sufficient care shall be taken in handling to ensure that scratches are minimized. All surfaces shall be free from weld flash. Welds shall be smooth, neatly formed, free from cracks, blowholes and other irregularities. All sharp edges shall be ground smooth. The main door and police door-in-door shall close against a weatherproof and dust-proof, closed-cell neoprene gasket seal. The gasket material for the main door shall be a minimum of 0.250 inches thick by 1.00 inch wide. The gasket material for the police door shall be a minimum of 0.250 inches thick by 0.500 inches wide. The gaskets shall be permanently bonded to the cabinet. All enclosures must be constructed, approved, and marked in accordance with the requirements for Type 1 Industrial Control Panel Enclosures contained in UL 508A, the Standard for Industrial Control Panels. Enclosure must meet NEMA 3R rating requirements and be marked with UL approval sticker.

The main panel shall be constructed from 5052-H32 brushed aluminum of 0.125 inches minimum thickness and installed so as to minimize flexing when plug-in components are installed. All main panels are provided with a mounting mechanism which allows easy access to all wiring on the rear of the panel. Lowering of the main panel can be accomplished without the use of hand tools. Complete removal can be accomplished by the use of simple hand tools. The load switch position main panels shall have all field wires contained on two (2) rows of horizontally mounted terminal blocks. The upper row shall be wired for the pedestrian and overlap field terminations. The lower row shall be reserved for phase one (1) through phase eight (8) vehicle field terminations. All logic-level, NEMA-controller and Malfunction Management Unit input and output terminations on the main panel shall be permanently labeled. Cabinet prints shall identify the function of each terminal position. All field output circuits shall be terminated on a non-fused barrier type terminal block with a minimum rating of 10 amps. All Terminals and Facilities configurations shall be provided with sufficient RS-485 Port 1 communication cables to allow for the intended operation of that cabinet. All wiring shall be neat in appearance. All cabinet wiring shall be continuous from its point of origin to its termination point. Butt type connections or splices are not acceptable.

The power panel portion of the main panel shall include the following components:

- A minimum of one (1) 40-amp main breaker for 12 or 16 position cabinets or a minimum of one (1) 30-amp breaker for four (4) or eight (8) position cabinets. This breaker shall supply power to the controller, MMU, signals, cabinet power supply and auxiliary panels. Breakers shall be, at minimum, a thermal magnetic type UL listed for HACR service with a minimum of 10,000 amp interrupting capacity.
- A minimum of one (1) 15-amp auxiliary breaker. This breaker shall supply power to the fan, light, and GFI utility outlet.
- An EDCO model SHP-300-10 or exact approved equivalent surge arrester.
- A 50 amp, 125 VAC radio interference line filter.

- A normally-open, 50-amp, Solid State Relay (SSR). Shall be Crydom Model Number HA4875H or approved equal.
- A minimum of one (1) 8-position neutral bus bar is capable of connecting three #12 wires per position.
- A minimum of one (1) 6-position ground bus bar capable of connecting three #12 wires per position.
- A minimum of one (1) NEMA type 5-15R GFI utility outlet.

The cabinet shall be provided with a thermostatically controlled (adjustable between 55-160 degrees Fahrenheit) ventilation fan in the top of the cabinet plenum. The fan plate shall be removable with the use of simple hand tools for serviceability. A minimum of one, maximum of two, exhaust fans shall be provided. The fan shall be a ball bearing type fan and shall be capable of drawing a minimum of 100 cubic feet of air per minute (CFM). The Fan / Thermostat assembly shall be connected to the power panel by means of a 4-position plug-in cable or hardwired to an appropriate circuit breaker. A 40-watt incandescent refrigerator lamp and socket mounted on an aluminum bracket shall be mounted in the cabinet to sufficiently illuminate the field terminals. The lamp shall be wired to either a 15-amp ON / OFF toggle switch mounted on the power panel or to a door-activated switch mounted near the top of the door.

2. Testing

Refer to the following requirements:

Manufacturer Testing

- The manufacturer of the Cabinet shall have tested each unit to verify successful operation.
- Contractor shall provide the manufacturer test results that demonstrate satisfaction of the Cabinet requirements.

Bench Test

- Bench Test shall be performed for each Cabinet.
- Before the testing occurs, Bench Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Field Acceptance Test

- Field Acceptance Test shall be performed for each Cabinet.
- Before the testing occurs, Field Acceptance Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Preliminary System Acceptance Test

- Refer to System Integration section.

Final System Acceptance Test

- Refer to System Integration section.

3. Measurement and Payment

The Traffic Signal Controller cabinet will be measured in units of each and paid for at the contract price per each. The price bid shall include furnishing, installing, system integration, and testing of a complete Traffic Signal Controller Cabinet including the unit and concrete foundation (as specified by TDOT), all the

associated harnesses and cabling, all auxiliary cabinet equipment (load switches, flasher relay switches, MMU, etc.), satisfactory completion of testing and training requirements and all work, equipment, and appurtenances as required to effect the full operation including remote and system control of the local traffic signal complete in place and ready for use. The price bid shall also include all system documentation including shop drawings, operations and maintenance manuals, wiring diagrams, block diagrams, and other material necessary to document the operation of the Traffic Signal Controller Cabinet. This price shall be full compensation for all labor, tools, materials, equipment, and incidentals necessary to complete the work.

The contract unit price shall be full compensation for all work specified in this section.

Payment will be made under:

Pay Item	Pay Unit
730-15.07 CABINET (TS2 TYPE 2, BASE MOUNTED)	EACH

D. BATTERY BACK-UP SYSTEM

1. Description

This work shall consist of furnishing and installing a true-on-line, power conditioner and DSP processor based uninterruptible power system (UPS) designed for transportation and traffic applications. The inverter shall be in operation at all times capable of supplying clean regulated power (both voltage and frequency) to all loads at all times. This system shall be fully NEMA compliant and meet the full operating temperature range of – 40C to +74C. This system must be fully power factor corrected and fully functional with any type of auxiliary power generator. The UPS system shall be installed in conformance with the Manufacturers recommendations and as specified herein. The Contractor shall be responsible for determining the appropriate size/capacity of the UPS system based on the intersection design. UPS shall be sized with a minimum load to provide at least 8 hours of full run-time operation

2. Materials

The UPS shall consist of three major components: (1) the electronics module, (2) a detachable power interface module, and (3) the external battery system. The **Electronics Module (EM)** shall consist of the following:

- True sine wave, high frequency inverter.
- Two-stage, temperature compensated, battery charger.
- For connection from the Electronics Module to the Power Interface Module and Battery System, dedicated harnesses shall be provided and braided nylon sleeve over all conductors.
- Local and remote control of UPS functions.
- Local and remote communications capabilities.
- A detachable Power Interface Module for inserting power safely and reliably.
- Capable of accepting an NTCIP-ready adapter, a Spread Spectrum Radio modem or a Broadband Ethernet Radio.
- Ethernet connectors for remote signal alarms, monitoring and remote communications and data retrieval.

The **Power Interface Module (PIM)** shall consist of the following:

- A PIM shall be required to safely insert utility power into the UPS system.
- The PIM shall include a manual bypass switch to allow the utility power to pass directly to the signal cabinet without passing through the UPS.

The external **Battery System** shall consist of the following:

- The battery shall be comprised of extreme temperature, Nickel-Zinc batteries.
- The battery system shall consist of a double string of two 500W battery modules (unless otherwise noted on the Plans).
- Batteries shall be certified to operate at extreme temperatures (from -40°C to +74°C) and shall not require aid of any external devices to cool or heat the batteries.
- The batteries shall be provided with appropriate wiring harness. This harness shall connect the battery pack to the UPS module. The harness shall be a minimum of 5 feet in length.

- The interconnect cable shall be protected with abrasion-resistant nylon sheathing.

When a separate cabinet is required, the cabinet shall house the batteries, wiring, related equipment, and the UPS, which includes converter/inverter/charger unit, power transfer relay, power management unit, manually operated bypass switch and other control panels and wiring harnesses. The cabinet shall be a nominal 48" High x 24" Wide X 24" Deep. Cabinet shall in conjunction with the traffic signal cabinet foundation in accordance with the plan details. Cabinet for UPS shall be weatherproof and constructed of welded sheet aluminum, 0.125-inch minimum. Cabinet mounting attachments shall be durable, corrosion resistant, chemically compatible so as not to adversely react with the aluminum of the cabinet or isolated from it and of heavy-duty construction. Cabinets shall house the external batteries, wiring, related equipment, and the UPS, which includes converter/inverter/charger unit, power interface bypass switch and other control panels and wiring harnesses. The UPS cabinet door shall be hinged on the right side of the cabinet. Cabinet doors shall provide full access to the cabinet interior and shall have durable gaskets to ensure weatherproofing. Cabinet doors shall have a screened and louvered vent design to prevent rain entry, with a standard size furnace vent filter. The filter tray shall be sized to house and secure the filter in place. A screened air exhaust opening under the top overhang shall be provided. One thermostatically controlled vent fan with a screened guard in the top section of the cabinet with a capacity of exhausting at least 100 CFM shall be provided. The thermostat shall be adjustable from 80 degrees F to 130 degrees F. Degree markings shall be indicated on the thermostat in 10-degree increments. The fan shall be AC operated from the same line output of the Manual Bypass Switch that supplies power to the Traffic Signal Control Cabinet. A two-position terminal block shall be provided on the fan panel. Proper over current protection shall be provided for the fan circuit. An LED lamp receptacle and an ON/OFF door switch shall be located in the cabinet so that it provides unobstructed illumination of the interior of the cabinet. Wiring for the lamp, fan and other auxiliary equipment shall be connected via terminal blocks. Wiring from the UPS to the traffic signal controller cabinet shall be accomplished as follows. Foundation shall be included in the payment price of the cabinet.

Environmental Requirements
The UPS shall meet or exceed NEMA temperature standards from -40° C to +74° C. The UPS shall be certified and field proven to meet or exceed NEMA temperature standards. A certificate of compliance shall be supplied with the Traffic UPS. The UPS internal component boards shall be conformal coated.

Battery Requirements
The battery system shall be certified and field proven to meet or exceed NEMA temperature standards from –40° C to +74° C. Batteries modules shall be 48-volt nickel-zinc (sealed) with an output of 500 watts. Battery modules shall have a single power, quick connector. Signal cabinets shall be provided with two battery modules, unless otherwise noted on the Plans.

Communications, Controls and Diagnostics Requirements
The UPS shall visually display basic alarm monitoring on the front panel indicating:

- UPS Fault
- Backup Mode On
- Relay Triggered

Full interactive remote computer monitoring and control of the UPS functions may be achieved via connection to a standard RJ-45 Ethernet port on the front of the UPS.

Front panel controls shall consist of no less than: Power On, Cold (DC) Start, Load 1 and Load 2 switching. The Windows configuration software shall allow the user to monitor and control the following UPS functions through a direct connection to the Ethernet port on the UPS:

- Real time input status including frequency, voltage, current and power.
- Real time output status including frequency, voltage, current and power.
- Real time battery status including charge type, on time totals, charge level, voltage, current and temperature.
- Real time nominal output rating, nominal output power, nominal low battery time, audible alarm status and nominal battery life.
- Active alarms – input bad, output bad, overload, bypass bad, output off, UPS shutdown and charger failure.

Electrical Requirements
Input Voltage:

▪ Nominal Input Voltage	120 VAC, Single Phase
▪ Input Voltage Range	85 (+/- 5%) VAC to 140 (+/- 5%) VAC
▪ Input Frequency	50 to 70 Hz (+/- 5%)
▪ Input Current (Maximum Draw)	15 Amps, Power-Factor Corrected
▪ Input Protection	Input Fuse (15 Amp)

Output Specification:

▪ Nominal Output Voltage	120 VAC, Single Phase
▪ Power Rating	1000W
▪ Output Frequency	60 Hz (+/- 6Hz)
▪ Efficiency	0.97

3. Functional Requirements
Operation
The UPS shall be capable of producing, simultaneously, a fully regenerated and regulated, conditioned and true sine wave power with hot standby and continuous AC outputs.

The UPS's inverter shall be on at all times to produce continuous, clean, regulated power to all loads. The inverter shall have a minimum operating efficiency of 92%. The continuous power output shall be provided for signals, controllers and modems; Standby output can be provided for signals in flash mode operation. Up to the maximum load rating, the UPS shall be capable for running any combination of signal heads, whether Incandescent, LED or Neon, by any manufacturer, regardless of power factor, without overdriving the poorer power factor LED heads which may cause early degradation, low luminosity or early signal failure.

Upon loss of utility power, the UPS shall utilize battery power in support of the system via a supplied Power Interface Module (PIM). The switch to battery power shall occur in 100 milliseconds or less after the loss of utility power or the UPS can be operated in the true on-line mode with the inverter supplying power to all cabinet loads at all times. In the event of UPS failure and/or battery depletion, the Power Interface Module (PIM) will ensure that the UPS will drop out and, upon return of utility power, the traffic control system will default to normal operating mode.

The Power Interface Module shall enable removal and replacement of the UPS without shutting down the traffic control system (i.e. "hot swap" capability).

Existing Flasher Modules and Flash Transfer Relays shall be utilized. To facilitate emergency crews and police activities, the UPS shall be compatible with police panel functions (i.e. "Signals OFF" switch must kill power to the field wiring even when on UPS/Battery power).

The UPS shall not duplicate or take over flash operation or flash transfer relay functions. The UPS shall be capable of providing continuous, fully conditioned, regulated, sinusoidal (AC) power to selected devices such as signal controllers, modems, communications hubs, NTCIP adapters and video equipment at all times. The UPS shall operate on an Input voltage range between 85 (+- 5%) Vac and 140 (+- 5%) Vac before switching to battery power. The UPS shall be supplied with one external Ethernet port located on the front panel of the UPS. The Ethernet port shall provide the user the option to select certain output functions. These functions shall be signals that the user can assign as signal utility interrupt, low battery and inverter active conditions or utility fail indicate. These signals shall be capable of being interfaced to any controller's auxiliary alarm inputs. The UPS shall be fully power factor corrected. Each UPS shall be provided with Windows based configuration software.

4. Construction Methods

Installation

Install the battery backup system components in the cabinet and integrate in accordance with the electrical requirements for the equipment being protected and all manufacturers' recommendations.

Mounting Configuration

The Battery Backup System shall be shelf-mount, rack-mount, swing-tray mount, or a combination thereof. Shelves, racks, trays, and vertical mounting channels shall be corrosion-resistant, heavy duty, with sufficient strength to hold the batteries without deforming, bending, or breaking.

The mounting method for a NEMA style shall be shelf-mount or wall-mount. The mounting method for an ATC style: shall be rack-mount.

5. Testing

Refer to the following requirements:

Manufacturer Testing

- The manufacturer of the Battery Back-Up System hall have tested each unit to verify successful operation.

- Contractor shall provide the manufacturer test results that demonstrate satisfaction of the Battery Back-Up System requirements.

Bench Test

- Bench Test shall be performed for each Batter Back-Up System.
- Before the testing occurs, Bench Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Field Acceptance Test

- Field Acceptance Test shall be performed for each Battery Back-Up System.
- Before the testing occurs, Field Acceptance Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.
-

Preliminary System Acceptance Test

- Refer to System Integration section.

Final System Acceptance Test

- Refer to System Integration section.

6. Measurement and Payment

Uninterruptible power supplies for new traffic signal cabinets (as noted on the Plans) shall be incidental to the price of the traffic signal cabinet. The price shall include furnishing and installing the complete uninterruptible power supply, power interface module, battery system, cables, cabling, software, testing, certifying, complete documentation, and all incidental items necessary for a fully functioning system.

Uninterruptible power supplies for existing traffic signal cabinets (as noted on the Plans) will be measured in units of each and will be paid for at the contract unit price per each. The price shall include furnishing and installing the complete uninterruptible power supply, power interface module, battery system, cables, cabling, software, testing, certifying, complete documentation, and all incidental items necessary for a fully functioning system.

Uninterruptible power supply cabinet (if necessary and as noted in the plans) will be measured in units of each and will be paid for at the contract unit price per each. This price shall include furnishing and installing cabinet, thermostatically controlled fan in the cabinet with a vent, thermostat, switches, air filter, fluorescent lamp receptacle, fluorescent lamp, conductor cables, flexible cables, over current protection devices (fuses/circuit breakers), terminal blocks, power panels, surge protection devices, circuit diagrams, grounding systems, gaskets, bolts, weatherproofing, conduits and fittings. The cabinet concrete foundation and work pad shall be included in the cost of the cabinet.

730-15.08, CABINET (BATTERY BACKUP, BASE MOUNTED)	EACH

E. ETHERNET SWITCH (FIELD LAYER 2)

1. Description

Furnish equipment for the LAN that complies with IEEE standard 802. Furnish Ethernet LAN switches that are fully compatible and interoperable with the network monitoring software, the Ethernet and the L3 switch at the TOC.

Furnish Ethernet Switches that comply with the following electrical safety requirements: UL60950 or CSA C22.2 No. 60950 (safety requirements for IT equipment) and FCC Part 15 Class A for EMI emissions. Furnish Layer 2 (L2) Field Gigabit Ethernet Switches fabricated for use in traffic signal controller cabinets that meet or exceed NEMA TS-2 requirements for temperature, shock, humidity, and vibration.

2. Materials

Furnish L2 Field Gigabit Ethernet Switches that are din-rail mounted and come equipped with hardware to permit mounting on a din-rail in addition to placement on a cabinet shelf, and shall be optically compatible with the existing Layer 2 and Layer 3 switches installed in the Knox County ATMS Phase I project. The existing Layer 2 Switches are the EtherWAN EX73931-OVB Series and the Layer 3 is an EtherWAN EX77964-8VC x 3.

Furnish Ethernet Switches with internal Power Supply. Furnish field Ethernet switches meeting the following power supply requirements:

- 85 to 264 Vac (50/60Hz)/ 88 to 300Vdc.
- Power supply shall have two stage isolation accomplished via two transformers: first steps down from primary AC/DC to 48VDC; the second steps down from 48VDC to 3.3VDC.
- A power cord of no less than 5 feet in length shall be supplied.
- The switch shall require no more than 10W of power.

Furnish Field Gigabit Ethernet Switches that weigh no more than 3 lbs and are no more than 150 cubic inches in volume.

Furnish ruggedized field Ethernet switches with the following minimum characteristics:

- Minimum of eight (8) 10BASE-T/100BASE-TX ports.
- Minimum of two (2) 1000 BaseX Optical uplink ports that utilize SFP plugs.
- Furnish SFP modules rated to service the Field Ethernet to Field Ethernet optical uplinks and Field Ethernet to Gig-E Hub Uplink rated for optical attenuation required to service the link. Use SFP modules that are LX or ZX and are matched and compatible with the SFP module it is mated with. Furnish attenuators if required to service link without saturating receiving optics.
- Furnish SFP modules rated for use with the optical cable furnished under this project.
- Furnish SFP modules compatible with the existing Layer 3 Aggregation Switches at Knox County.
- Furnish SFP modules with LC connector or other connector approved by the Engineer.

- SFP modules shall be considered incidental to the field Ethernet switch, including the eight SFP modules to complete all four groups at the TOC Layer 3 switches.
- Management console port.
- Furnish SMFO fiber patch cables and barrel adapters.

Furnish Field Ethernet switches with the following features:

- 10/100BaseTX ports
- RJ45 connectors
- Cable type: Category 5e, unshielded twisted pair (CAT 5e UTP)
- Segment Length: 100m
- Auto-negotiation support (10/100Mbps)
- Auto MDIX crossover capability
- Full Duplex operation (IEEE 802.3x)
- TVS (transient voltage suppression) between Line +/-, Line +/ground, and Line –/ground to protect the circuitry

3. Functional / Networking Requirements

The switch shall support automatic address learning of up to 8192 MAC addresses. The switch shall support the following advanced layer 2 functions:

- IEEE 802.1Q VLAN, with support for up to 4096 VLANs
- IEEE 802.1p priority queuing
- IEEE 802.1w rapid spanning tree
- IEEE 802.1s multiple spanning tree
- IEEE802.1AD link aggregation
- IEEE 802.3x flow control
- IGMPv2 with 256 IGMP groups
- Port Rate Limiting
- Configuration via test file which can be modified through standard text editor
- Forwarding/filtering rate shall be 14,880 packets per second (PPS) for 10Mps, 148,800 PPS for 100Mps, and 1,488,000 PPS for 1000Mps
- DHCP Option 82

Network Management Functionality Requirements:

- SNMPv2, SNMPv3
- RMON
- GVRP
- Port Mirroring
- 802.1x port security
- Radius Server
- TACACS+ Server
- SSL – Secure Socket Layer

- SSH – Secure Shell
- TFTP
- Network Time Protocol (NTPv3)
- Simple Network Time Protocol (SNTPv3)
- Management via web or Telnet

4. Construction Methods

Furnish MAC addresses in a spreadsheet for all equipment utilized as part of this project, in addition to the equipment models, serial numbers, and firmware revisions. Equipment shall be registered in the name of Knox County. Affix MAC Address label to each device utilized.

Furnish IP addresses for all equipment utilized as part of this project. Affix final IP address to each device used. Use labels that do not smear or fade.
In field equipment cabinets, fully integrate new Ethernet switches with the fiber optic interconnect centers. Integrate all field equipment as called for on Plans.

Fully integrate switches with computer and central system hardware to form a complete local area network that allows users from Knox County's TOC as shown on the communication schematic in the Plans to access applications on servers.

Fully integrate LAN equipment to provide virus protection, user authentication, and security functions to prevent unauthorized users and data from entering the signal system LAN.

Under this contract, the contractor shall be required to submit an IP addressing convention to the Engineer for approval prior to configuring the Ethernet Switches with network addresses.

5. Testing
Refer to the following requirements:

Manufacturer Testing

- The manufacturer of the Ethernet Switch (Field Layer 2) shall have tested each unit to verify successful operation.
- Contractor shall provide the manufacturer test results that demonstrate satisfaction of the Ethernet Switch (Field Layer 2) requirements.

Bench Test

- Bench Test shall be performed for each Ethernet Switch (Field Layer 2).
- Before the testing occurs, Bench Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Field Acceptance Test

- Field Acceptance Test shall be performed for each Ethernet Switch (Field Layer 2).
- Before the testing occurs, Field Acceptance Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Preliminary System Acceptance Test

- Refer to System Integration section.

Final System Acceptance Test

- Refer to System Integration section.

6. Measurement and Payment

Payment will be made under:

Pay Item	Pay Unit
730-03.41 ETHERNET SWITCH (FIELD LAYER 2)	EACH

F. ACCESSIBLE PEDESTRIAN SYSTEM

1. Description

This Section specifies the minimum requirements for Accessible Pedestrian Signal (APS) equipment furnished and installed. The work shall consist of providing all labor, materials, equipment, and incidentals necessary to furnish, install, and test APS equipment. This work consists of furnishing and installing APS equipment complete and ready for service.

Furnish and install push button integrated APS that include pedestrian push button, push button locator tone, raised tactile arrow, audio and vibro-tactile walk indications, automatic volume adjustment, pedestrian information sign, and all necessary hardware. Furnish the R10-3e with appropriate arrow direction for the pedestrian information sign.

2. Materials

Provide the accessible pedestrian signals with a two (2)-inch diameter pedestrian push button that contains a tactile arrow whose direction can be easily adjusted in the field. Ensure each push button actuates a sturdy, momentary, normally-open switch with a minimum rating of 20 million actuations. Include on the button, a raised tactile arrow having a high visual contrast with the remainder of the button face. Ensure the housing is weather-tight and fabricated from aluminum. Ensure the housing is suitable for mounting on wood and metal poles. Paint surfaces of the pedestrian push button housing in highway yellow, unless otherwise specified, with an electrostatically-applied, fused-polyester paint method. Ensure the thickness of the paint is a minimum of 2.5 mils. Provide the pedestrian information sign that is integral to the housing. Ensure the accessible pedestrian signals can provide tones, sounds, and speech messages that are synchronized at an intersection. Provide a means for adjusting the base sound level for the tones, sounds, and speech messages. Ensure the tones, sounds, and speech messages will adjust automatically to the ambient noise level up to a maximum of 100 dBA. Provide the custom speech messages in both English and Spanish languages. Ensure you can program the accessible pedestrian signal by a means not readily accessible by unauthorized persons.

Ensure each push button provides a standard locator tone that is deactivated when the traffic signal is operating in the flash mode. Provide a user-programmable audible beaconing feature that is initiated by an extended push button press of one second or more. Ensure the audible beaconing feature increases the volume of the push button locator tone during the pedestrian change interval of the called pedestrian phase and operates in one of the following ways:

- The louder audible walk indication and louder locator tone comes from the far end of the crosswalk, as pedestrians cross the street,
- The louder locator tone comes from both ends of the crosswalk, or
- The louder locator tone comes from an additional speaker that is aimed at the center of the crosswalk and that is mounted on a pedestrian signal head.

Provide confirmation of the push button activation by an LED pilot light. Ensure the pilot light remains illuminated until the pedestrian's green or WALKING PERSON (symbolizing WALK) signal indication is displayed. Ensure each press of the pushbutton initiates a "wait" speech message during all intervals except the Walk interval.

Ensure you can select a percussive tone and custom speech message to sound during the "Walk" interval. Provide a push button that vibrates during the "Walk" interval. Ensure the "Walk" indications have the same duration as the illuminated pedestrian signals except when the signal is programmed to rest in the walk interval. Ensure the "Walk" indications are deactivated when the traffic control signal is operating in a flashing mode. When audible "Walk" indications are selected as a percussive tone, ensure the tone repeats at eight (8) to 10 ticks per second and consists of multiple frequencies with a dominant component at 880 Hz.

Ensure the accessible pedestrian signals are weatherproof and suitable for operation in wet locations. Ensure proper operation over a temperature range of -30ºF (-34ºC) to 165ºF (+74ºC). Ensure all circuit boards have a moisture resistant coating. Ensure the equipment interfaces and operates properly in the signal cabinet.

3. Construction Methods

Install in accordance with the manufacturer's recommendations. Mount push button integrated accessible pedestrian signals in a tamperproof manner on wood and metal poles, signal pedestals, or pushbutton posts as indicated in the signal plans. Install each pushbutton so that the tactile arrow is pointed in the direction of travel and is aligned parallel to the direction of travel on the associated crosswalk.

Ensure pushbuttons are separated by a distance of at least 10 feet such that they clearly indicate which crosswalk has the WALK indication. Where there are constraints on a particular corner that make it impractical to provide the 10 feet of separation between the two pushbuttons, the pushbuttons may be placed closer together or on the same pole, with approval by the Engineer. If two pushbuttons are placed on the same pole or with less than 10 feet separation, provide a speech walk message for the WALK indication and a speech pushbutton information message.

Adjust the intensity of the pushbutton locator tones so they are audible six (6) feet to 12 feet from the pushbutton, or to the building line, whichever is less. Ensure the pushbutton locator tones are no more than five (5) dBA louder than ambient sound. Configure audible "Walk" indication to be audible at the nearest end of the associated crosswalk.

If speech messages are used, have each recorded custom speech message approved by the Engineer in advance.

4. Testing

Refer to the following requirements:

Manufacturer Testing

- The manufacturer of the APS shall have tested each unit to verify successful operation.
- Contractor shall provide the manufacturer test results that demonstrate satisfaction of the APS requirements.

Bench Test

- Bench Test shall be performed for each APS

- Before the testing occurs, Bench Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Field Acceptance Test

- Field Acceptance Test shall be performed for each APS.
- Before the testing occurs, Field Acceptance Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Preliminary System Acceptance Test

- Refer to System Integration section.

Final System Acceptance Test

- Refer to System Integration section.

5. Measurement and Payment

The APS will be measured in units of each and paid for at the contract price per each. The price bid shall include furnishing, installing warranties, full operation and configuring the APS in accordance with applicable Standards, Specifications, and requirements. The price bid shall also include the mounting hardware, power cable, user manuals, testing, warranties, and any and all other equipment required to complete installation of the unit. This price shall be full compensation for all labor, tools, materials, equipment, and incidentals necessary to complete the work.

The contract unit price shall be full compensation for all work specified in this section. Payment will be made under:

Pay Item	Pay Unit
730-26.09, PEDESTRIAN PUSHBUTTON WITH 15IN SIGN	EACH

G. CONNECTED VEHICLE (CV) EQUIPMENT

1. Description

General Requirements

Contractor shall furnish, install, configure, and test Connected Vehicle (CV) Road Side Units (RSU) field devices as shown on the Construction Plans for this project.

The following are general requirements.

1. RSU shall provide DSRC/C-V2X/Bluetooth technology and capabilities.
2. RSU shall be deployment grade electronic instruments that must be capable of both transmitting and receiving 5.x GHz RF paths for facilitating connected vehicle applications as well as receiving Discoverable and Non-Discoverable Bluetooth signals. Each unit shall include all components necessary for complete functionality of the unit. Types of proposed devices include RSU, and handheld units or referred to as Multi Channel Test Tool (MCTT).
3. RSU shall provide the latest certified and commercially available version of equipment with the latest firmware pre-installed.

The following are the required minimum qualifications for the Contractor for the installation and integration of the RSU. Written proof of the Contractor's ability to meet these requirements shall be submitted to TDOT for review and approval prior to any procurement of related materials and work related to the RSUs.

4. Experience providing equipment for and working on similar vehicle to infrastructure (V2I) tests or projects.
5. Experience working with USDOT's Affiliated Connected Vehicle Test Beds and Pilots.
6. Staff availability and resumes showing experience in similar V2I installation projects.
7. Experience working with Basic Safety Message standard SAE J2735_201603 and SAE J2945/1 latest version.
8. Ability to perform training and oversight for the installers and other staff.

The following standards and criteria shall be followed:

9. DSRC Message Set Dictionary – the SAE J2735_201603 Library for Basic Safety Message (BSM), Signal Phasing and Timing (SPaT), Map Data (MAP), and Traveler Information Message (TIM): https://www.sae.org/standardsdev/dsrc/
10. V2X Message Set Dictionary – the SAE J2735_202007 Library: https://www.sae.org/standards/content/j2735_202007/
11. Best Practices for Surveying and Mapping Roadway and Intersections for Connected Vehicles; Connected Vehicle Pooled Fund Study; May 15, 2016: http://escholarship.org/uc/item/4f88m75k#page-1
12. USDOT SPaT Documentation: www.itsforge.net
13. USDOT SCMS: http://www.its.dot.gov/pilots/pdf/SCMS_POC_EE_Requirements.pdf, or later
14. USDOT Intersection MAP and SPaT Tool: https://webapp2.connectedvcs.com/

15. TDOT's Dedicated Short Range Communication (DSRC) Statewide Guidance: https://www.tn.gov/content/dam/tn/tdot/traffic-engineering/TDOTDSRC_Final%20Report_version%201.0_Nov%202018.pdf

All materials specified in this section shall carry a minimum one-year manufacturer's warranty from the date of Final Acceptance against any imperfections in workmanship or materials. Warranties shall cover complete replacement at no charge for the equipment.

2. Materials

Road Side Unit (RSU)

Technology:

1. All devices offered shall be new and available for purchase from the awarded Vendor.
2. DSRC/C-V2X RSU shall be carrier grade.
3. DSRC two-way communication protocol shall employ and integrate the Institute of Electrical and Electronics Engineers (IEEE) 802.11p, 1609.0 through 1609.12 standards (latest edition) and the Society of Automotive Engineers (SAE) J2735_201603 message set dictionary. Simple Network Management Protocol (SNMP) shall be supported to interface with the TDOT ATMS software.
4. C-V2X two-way communication protocol shall employ and integrate the IEEE 1609.2 (latest edition), ETSI EN 302 571 (latest edition) and 3GPP, latest Release standards and the SAE J2735_201603 message set dictionary. Simple Network Management Protocol (SNMP) shall be supported to interface with the TDOT ATMS software.
5. The RSU C-V2X radio shall be upgradable to 5G.
6. The Bluetooth Radio shall be adjustable and support the communication with both Discoverable and Non-Discoverable signals.
7. The RSU shall support the capability to hook up a remote antenna that can be run a distance of at least 60' away from the base unit.
8. The RSU shall support an Internet Protocol (IP) iPv4 and iPv6 connection to the USDOT Security Credential Management System (SCMS).
9. The RSU shall support NIST and Brainpool Elliptic Curve Cryptography. The RSU shall also support the storage of at least 500 security keys through a V2X-embedded Hardware Security Module.
10. The RSU shall transmit the Signal Phasing and Timing (SPaT), Traveler Information Messages (TIMs), and intersection geometry (or MAP) messages as defined in SAE J2735_201603.
11. The RSU shall forward Basic Safety Messages (BSMs) received from passing vehicles to a configurable remote network host.
12. The RSU shall support Global Positioning System (GPS) as specified in the latest USDOT RSU Specification.
13. The RSU devices shall connect to an existing IP network via Ethernet. The RSU shall have at least 1 RJ-45 Ethernet port for network connection and support iPv4 and iPv6 address configuration dual stacked.
14. The RSU devices shall have software applications installed which will accept information from signal controllers to broadcast SPaT messages.
15. The RSU hardware shall be powered via Power over Ethernet (PoE) of at least PoE 802.3af.

16. Any additional enclosures required to accommodate supporting equipment shall be National Electrical Manufacturers Association (NEMA) rated with surge protection.
17. The RSU must include a Security Credential Management System (SCMS).

Material:

All equipment shall be new and constructed using the highest quality, commercially available components and techniques to assure high reliability and minimum maintenance. The Contractor shall submit, prior to installation, a complete set of shop drawings of all the equipment and components listed within these special provisions and included as part of the installation.

1. RSUs shall be compatible with the Iteris BlueARGUS platform to work cohesively with existing RSUs.
2. The RSU shall include 2 Omni-Directional Antennas for Bluetooth detection. The RSU shall also include a minimum of 2 external antenna mounting ports with antennas for DSRC/C-V2X broadcast with at least 1 additional mounting port for GPS antenna if external antenna is required for GPS support.
3. A NEMA TS2 AC/DC power supply for powering PoE unit shall be included.
4. Mounting brackets, mounting plates, and stainless-steel straps shall be included as needed for mounting.
5. Category 6, minimum, ethernet cable that is long enough to run between the RSU and ethernet switch shall be included.
6. UL 497B Listed, Series-connected surge protector with POE support for Ethernet Cable.

On Board Unit (OBU)

1. OBU shall transmit Basic Safety Message (BSM) and Pedestrian Safety Message (PSM) messages as defined by SAE J2945/1.
2. OBU shall receive and process BSM, PSM, SPaT, SRM, SSM, MAP, TIM, and provide applicable information to the driver/motorist.
3. OBU shall support both 10 MHz and 20 MHz channels in the 5.9 GHz DSRC band and properly communicate with RSUs.
4. OBU shall support C-V2X and properly communicate with RSUs.
5. OBU shall support and provide Global Positioning System (GPS) as specified in SAE J2945/1.
6. OBU shall be a "carry-in" device that is portable and intended for use in the vehicle but not permanently integrated into the vehicle system.
7. OBU shall be capable of being powered by in-vehicle electrical distribution systems.
8. Any additional enclosures required to accommodate supporting equipment for the OBU shall be National Electric Manufacturers Association (NEMA) rated with surge protection.
9. OBU shall be fully operational and configured to communicate with RSUs.

3. Installation

Road Side Unit (RSU)

1. Shall be installed in accordance with the manufacturer's recommendations.

2. The RSU must be installed in accordance with TDOT Dedicated Short Range Communication (DSRC) Statewide Guidance (latest version). As noted in this document:
    a. DSRC/C-V2X radio and components shall be installed per latest FCC standards and regulations.
    b. All conduits and ducts shall be sealed with a rubber fitting or a weather head.
    c. All mounting hardware shall be stainless steel.
    d. Bracket arm to be include as part of RSU pay item.
    e. The maximum height for mounting the RSU shall be 26' above the roadway surface.
    f. RSU shall be mounted in such a manner to achieve clear line of sight to the roadway for all intersection approaches.
    g. The final mounting location shall be approved by the Engineer prior to installation.
    h. The method and materials used to mount the RSU shall be submitted by the Contractor and approved by the Engineer prior to installation.
    i. Connect RSU to ethernet switch in signal cabinet using PoE cable as approved by the Engineer.
    j. RSU manufacturer representative shall be present during RSU equipment installation and set-up.
3. Per the FCC regulations the DSRC radio shall be mounted at a maximum height of 26' above the roadway surface before a maximum Equivalent Isotropically Radiated Power (EIRP) limitation occurs.
4. The RSU mounting offset from the desired structure should be such to maximize range of the device. For example: pole locations set further back from the roadway, should consider using a bracket arm (ex: 6'-18') for mounting the RSU. Pole locations that are behind guardrail near to the roadway, may use a standard L bracket arm for securing the RSU to the pole.
5. RSU mounting location shall be optimized to achieve clear line of sight to the roadway, free of radio frequency (RF) signal path interference from trees, bridges, overpasses and other structures.
6. The Contractor shall perform a site survey to confirm the most appropriate field location for each RSU.
7. DSRC/C-V2X spectrum coordination must be completed to assure all FCC regulatory requirements are met and to ensure no interference with other existing radio frequency (RF) signals is present.
8. An Ethernet signal booster shall be provided and installed if the length of the Ethernet cable connecting the RSU and the Equipment Cabinet is greater than 328'.
9. The Contractor shall install and configure the SCMS.
10. Shall be installed in accordance with the manufacturer's recommendations.
11. Shall be configured and integrated with the traffic signal cabinet and with other devices/equipment within the cabinet to provide successful operation.
12. Shall be configured to provide remote access from the Traffic Operations Center (TOC).
13. Contractor and/or manufacturer shall review the proposed location for each RSU as shown on the Construction Plans. If Contractor and/or manufacturer recommends a location that deviates from the Construction Plans, the Contractor shall coordinate with the Engineer to determine the final installation location for each RSU.
14. The RSU shall be configured to successfully transmit J2735 messages.
15. Contractor shall be responsible for obtaining the necessary Federal Communications Commission (FCC) licensure and/or approval for each RSU. Contractor shall provide documentation of FCC

licensure and/or approval to the Engineer, Knox County, and TDOT. The following information is anticipated to be required (but not limited to):

a. Site Name
b. Latitude (DD MM SS.SS)
c. Longitude (DD MM SS.SS)
d. Municipality
e. Site Elevation
f. Hardware Make/Model
g. Serial #

16. Contractor shall develop MAP and/or Geometric Intersection Description (GID) for each intersection approach, including (but not limited to):
    a. Ingress lanes drawn to 1000' or nearest signalized intersection, whichever is less
    b. Number of lanes
    c. Type of lane (e.g., left-turn, through, right-turn)
    d. Pedestrian signals
    e. Signal phase and pedestrian countdown (in seconds)
    f. Red Light Violation Warning
    g. Work Zone
    h. Speed Zone
17. Contractor shall configure the MAP for each RSU.
18. Contractor shall establish and fully configure a Security Credential Management System (SCMS) to provide each RSU with digital certificates to authenticate messages, and provide the ability to revoke certificates when warranted.
    a. Contractor shall coordinate with the Engineer, Knox County, and TDOT to establish a connection from the Knox County network to the INTEGRITY Security Services (ISS) SCMS server.
    b. Contractor shall be responsible for any fees and licenses required to provide Knox County with SCMS functionality for a minimum of three (3) years after successful completion of the Final System Acceptance Test.
    c. Contractor shall be responsible for enrolling each RSU in the SCMS and establishing normal operations for retrieving operational certificates.

19. The complete RSU shall carry a one-year manufacturer's warranty from the date of successful completion of the Final System Acceptance Test.

On Board Unit (OBU)

1. Shall be setup in accordance with the manufacturer's recommendations.
2. Shall be configured and integrated to provide successful operation with each RSU installed as part of this project.
3. Shall be connected to a vehicle as directed by the Engineer

4. Testing

Refer to the following requirements:
NOTE: Where "Road Side Unit (RSU)" is specified below, the requirements apply to "Road Side Unit (RSU)" and "On Board Unit (OBU)".

Manufacturer Testing

- The manufacturer of the Road Side Unit (RSU) shall have tested each unit to verify successful operation.
- Contractor shall provide the manufacturer test results that demonstrate satisfaction of the Road Side Unit (RSU) requirements.

Bench Test

- Bench Test shall be performed for each Road Side Unit (RSU).
- Before the testing occurs, Bench Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Field Acceptance Test

- Field Acceptance Test shall be performed for each Road Side Unit (RSU).
- Before the testing occurs, Field Acceptance Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Preliminary System Acceptance Test

- Refer to System Integration section.

Final System Acceptance Test

- Refer to System Integration section.

Method of Measurement

Road Side Unit (RSU) will be measured in units of each and shall include all labor, equipment, materials, installation, testing, and any incidental requirements to satisfy this document.
On Board Unit (OBU) will be measured in units of each and shall include all labor, equipment, materials, installation, testing, and any incidental requirements to satisfy this document.

Basis of Payment

The contract unit price shall be full compensation for all work specified in this section. Payment will be made under:

Pay Item	Unit
725-28.01 ROAD SIDE UNIT (RSU)	EACH
920-11.04 ON BOARD UNIT (OBU)	EACH

Road Side Unit (RSU) and On Board Unit (OBU) will be paid as follows:

1. Initial 40% of the contract unit price upon successful completion of Bench Test
2. Additional 30% of the contract unit price upon successful completion of Field Acceptance Test
3. Additional 20% of the contract unit price upon successful completion of Preliminary System Acceptance Test
4. Final 10% of the contract unit price upon successful completion of Final System Acceptance Test

H. VEHICLE DETECTION (360-DEGREE CAMERA)

1. Description

Contractor shall furnish, install, configure, and test Vehicle Detector (360-Degree Camera) units as shown on the Construction Plans for this project.

2. Materials

Refer to the following requirements:

Camera

- Shall provide a 360-degree view of the signalized intersection and all signalized intersection approaches.
- Shall provide vehicle presence detection for all signalized intersection approaches from one (1) camera.
- Shall support and deliver High Dynamic Range (HDR) video that at minimum delivers MJPEG color video images.
- Shall be capable of being powered by Power over Ethernet (PoE).
- Shall have a maximum power consumption of 55W.
- Shall be FCC Class A.
- Physical properties
    - Shall not exceed 8 pounds in weight.
    - Shall not exceed 18 inches (height) x 10 inches (diameter) for its physical dimensions.
- Operating conditions
    - Shall be capable of continuous operation over an ambient temperature range of -29°F to 165°F (-34°C to 74°C).
    - Shall be capable of continuous operation over a relative humidity range of 0% to 100%.
    - Shall maintain accurate performance in all weather conditions, including rain, freezing rain, dry snowfall, moist snowfall, wind, dust, and changes in temperature and light, including direct light on sensor at dawn and dusk, and including low-light situations.
    - Shall be waterproof and dust-tight.
- Shall be capable of operating as intended while incurring vibrations that range between 5 Hz and 25 Hz.
- Shall be capable of tracking vehicles entering, traveling through, and exiting the signalized intersection. Shall be capable of generating and providing vehicle turning movement counts as well as pedestrian crossing counts at the signalized intersection.

Processor:

- Shall provide the computer processing for the data and video sent by the camera.
- Shall work with the camera to provide vehicle presence detection for all signalized intersection approaches from one (1) camera.
- Shall be capable of rack-mount or shelf-mount installation within a cabinet.

- Shall be capable of the following detector I/O: TS1, TS2, or ATC interface.
- Shall provide the minimum connectivity:
  - One (1) USB 3.0
  - One (1) Wide Area Network (WAN)
  - One (1) Ethernet for 10/100/1000 Mbps
  - Three (3) Ethernet for 10/100/1000 Mbps with Passive POE
  - Built-in Cellular LTE Modem
- Shall support and deliver High Dynamic Range (HDR) video that at minimum delivers MJPEG color video images and/or H.264 color video images.
- Shall be capable of being powered by 120/240 VAC 50/60 Hz.
- Shall have a maximum power consumption of 55W.
- Shall be FCC Class A.
- Physical properties
  - Shall not exceed 18 pounds in weight.
  - Shall not exceed 10 inches x 14 inches x 4 inches for its physical dimensions.
- Operating conditions
  - Shall be rated NEMA TS2.
  - Shall be capable of continuous operation over an ambient temperature range of -29°F to 165°F (-34°C to 74°C).
  - Shall be capable of continuous operation over a relative humidity range of 0% to 95% non-condensing.
- Shall be capable of operating as intended while incurring vibrations that range between 5 Hz and 25 Hz.
- Shall be capable of tracking vehicles entering, traveling through, and exiting the signalized intersection. Shall be capable of generating and providing vehicle turning movement counts as well as pedestrian crossing counts at the signalized intersection.

Other Incidental Items:

- Cables and wires to provide wired connections between the camera and processor shall be considered incidental and should be approved by the manufacturer for use with the camera and processor.
- Mounting equipment to position the camera in an appropriate 3-axis location (including height above the traveled way, and lateral position) as recommended by the manufacturer shall be considered incidental and should be approved by the manufacturer for use with the camera.

3. Installation

Refer to the follow requirements:

Vehicle Detector (360-Degree Camera)

- The requirements for installation pertain to all components of the Vehicle Detector (360-Degree Camera), including but not limited to, the camera, the processor, and the other incidental items.
- Shall be installed in accordance with the manufacturer's recommendations. If the manufacturer's recommendations deviate from the Construction Plans, then Contractor shall communicate the proposed deviation to the Engineer, and only proceed with installation once approved by the Engineer.

- Shall be configured with the appropriate detection zones as shown on the Construction Plans for this project.
- Shall be configured and integrated with the traffic signal cabinet and with other devices/equipment within the cabinet to provide successful operation.
- Shall be configured to provide remote access from the Traffic Operations Center (TOC), without any additional one-time costs or recurring costs, including but not limited to, the ability for Knox County to view the video streams through a web portal that is hosted and maintained by the manufacturer.

4. Testing

Refer to the follow requirements:

Manufacture Testing
- The manufacture of the Vehicle Detector (360-Degree Camera) shall have tested each unit to verify successful operation.
- Contractor shall provide the manufacturer test results that demonstrate satisfaction of the Vehicle Detector (360-Degree Camera) requirements.

Bench Test
- Bench Test shall be performed for each Vehicle Detector (360-Degree Camera).
- Before the testing occurs, Bench Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Field Acceptance Test
- Field Acceptance Test shall be performed for each Vehicle Detector (360-Degree Camera).
- Before the testing occurs, Bench Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

Preliminary System Acceptance Test
- Refer to System Integration section.

Final System Acceptance Test
- Refer to System Integration section.

5. Method of Measurement

Vehicle Detector (360-Degree Camera) will be measured in units of each and shall include all labor, equipment, materials, installation, testing, and any incidental requirements to satisfy SP725.

6. Basis of Payment

The contract unit price shall be full compensation for all work specified in this section. Payment will be made under:

Payment will be made under:

Pay Item	Pay Unit
730-13.14 VEHICLE DETECTOR (360-DEGREE CAMERA)	EACH
730-13.15 VEHICLE DETECTOR (TWO 360-DEGREE CAMERA)	EACH

I. SYSTEM INTEGRATION

1. Description

Contractor shall provide System Integration to configure all components and systems to provide complete operational capability and full functionality. Successful System Integration shall provide the following:

- Coordinate with Knox County IT personnel pertaining to the communications connection of traffic signals to Knox County fiber.
- Coordinate with Knoxville Utilities Board (KUB) or LCUB pertaining to the electrical service connection of traffic signals to KUB or LCUB power, respectively.
- Coordinate the configuration and integration of the new Advanced Transportation Controller (ATC) units within the traffic signal cabinets.
- Coordinate the configuration and integration of 15 traffic signals included within this project to provide cabinet door open alarms, with remote monitoring and notifications within the Transparity central software, and capable of providing notifications through SMS and email.
- Coordinate the configuration and integration of the vehicle detector (360-Degree Camera) to be accessible within the Transparity central software, and accessible through either vendor software or vendor web portal.
- Configure and integrate the Connected Vehicle (CV) equipment to be accessible within the Transparity central software, and accessible through either vendor software or vendor web portal.
- Configure and integrate the battery backup system to be accessible within the Transparity central software, and accessible through either vendor software or vendor web portal.
- Cost to update Knox County's existing Transparity software to include four (4) new intersections shall be included in this pay item.

2. Testing

Refer to the following requirements:

General

1. Contractor shall provide incidental testing necessary to perform System Integration as described above and below.

Preliminary System Acceptance Test

- Preliminary System Acceptance Test shall be performed for System Integration.
- Before the testing occurs, Preliminary System Acceptance Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.
- Preliminary System Acceptance Test shall include procedures to demonstrate successful System Integration as described in this section.

Final System Acceptance Test

- Final System Acceptance Test shall be performed for System Integration.
- Before the testing occurs, Final System Acceptance Test procedures and requirements shall be proposed by the Contractor and approved by the Engineer.

- Final System Acceptance Test shall include procedures to demonstrate successful System Integration as described in this section.

2. Measurement and Payment

System Integration will be measured on a lump sum basis and shall include all labor, equipment, materials, installation, testing, and any incidental requirements. The contract unit price shall be full compensation for all work specified in this section. Payment will be made under:

Pay Item	Description	Unit
725-24.51	SYSTEM INTEGRATION	LS

System Integration will be paid as follows:

- Initial 20% of the contract unit price upon successful completion of Field Acceptance Test
- Additional 60% of the contract unit price upon successful completion of Preliminary System Acceptance Test
- Final 20% of the contract unit price upon successful completion of Final System Acceptance Test

J. PROJECT ACCEPTANCE

1. Description

The requirements for Training, As-Built Plans, and Burn-In Period are established henceforth.

2. Training

Training for each specific component and pay item shall only occur following completion of the corresponding Stand Alone Test. Furthermore, all Training shall be completed before the Conditional System Acceptance Test may occur.
The Contractor shall provide training to Knox County for the following specific components and pay items, for the minimum timeframes:

- Vehicle Detector (360-Degree Camera), (minimum 4-hour training)
- Connected Vehicle (CV) Equipment, (minimum 4-hour training)
- Battery Backup System, (minimum 4-hour training)

The Contractor shall submit a detailed Training Plan to the Engineer for review and approval. The detailed Training Plan shall include, at a minimum, course agendas, detailed description of functions to be demonstrated, and a schedule.

The Contractor shall provide training for a minimum of ten (10) personnel, to be identified and determined by Knox County. All training shall include a complete demonstration of the configuration, operation capabilities, and maintenance requirements of each component in the system. The training shall also provide hands-on demonstration of all software configuration and functionality. The Contractor personnel that delivers the training shall possess qualifications that, at a minimum, satisfy the recommendation qualifications of the equipment manufacturer. If necessary, the Contractor shall provide a representative of the manufacturer to provide the training.

Knox County shall be responsible for coordinating and providing the venue for all training, and Knox County shall be responsible for determining whether the training shall occur in-person or virtually.

3. As-Built Plans

The Contractor shall provide As-Built Plans to the Engineer and Knox County. Furthermore, the As-Built Plans shall be prepared and approved before the Conditional System Acceptance Test (CSAT) Test may occur. There shall be a minimum of three (3) deliverables for the As-Built Plans:

- As-Built Plans, in PDF format
- Geographic Information System (GIS) database, in *.shp format
- System Equipment Inventory, in Microsoft Access or Microsoft Excel format

At all times, the Contractor shall maintain an updated version of these three (3) deliverables, which shall be made available for review upon request by the Engineer.

As-Built Plans
The following requirements pertain to the As-Built Plans:

- Shall be provided in PDF format.
- The Contractor shall use the PDF file of the Construction Plans, and provide markups created using digital entries within the PDF file.
- All materials, devices, and infrastructure included in this project shall be included with the as-built GPS coordinates.
- The Contractor shall use a hand-held GPS device to determine the GPS coordinates (in a format approved by the Engineer) for all materials, devices, and infrastructure included in this project. The GPS coordinates shall have an accuracy within 1 foot (i.e. 12 inches) of the data point location.

GIS Database

The following requirements pertain to the GIS Database:

- Shall be provided in GIS format, specifically *.shp format.
- The Contractor shall prepare a new *.shp file, or modify a *.shp file provided by the Engineer, as directed by the Engineer.
- All materials, devices, and infrastructure included in this project shall be included with the as-built GPS coordinates.
- The Contractor shall use a hand-held GPS device to determine the GPS coordinates (in a format approved by the Engineer) for all materials, devices, and infrastructure included in this project. The GPS coordinates shall have an accuracy within 1 foot (i.e. 12 inches) of the data point location.

System Equipment Inventory

The following requirements pertain to the System Equipment Inventory:

- Shall be provided in Microsoft Access or Microsoft Excel format.
- Shall include GPS coordinate information from the As-Built documentation.
- At a minimum, the System Equipment Inventory shall include the following information about each equipment component:
    a. Device/equipment item name
    b. Pay item number
    c. Location (station and device ID)
    d. Sheet number in Construction Plans
    e. GPS coordinates
    f. Make, model, and manufacturer part number
    g. Serial number
    h. Revision ID
    i. Firmware ID
    j. Purchase date
    k. Installation date
    l. Manufacturer contact information

4. Burn-In Period

Following the Engineer's delivery that notifies the Contractor of a successful Conditional System Acceptance Test (CSAT) Test, the Burn-In Period may commence. The following requirements pertain to the Burn-In Period:

- The duration of the Burn-In Period shall be 90 calendar days, during which the entire system must successfully operate to satisfy the requirements within the Construction Plans and this document.
- The Engineer and Knox County shall observe the entire system to determine that all components successfully operate.
- The Engineer and Knox County shall have discretion to determine a failure.
- Failure shall be defined as when any component or the system is not successfully operating functioning to satisfy the requirements within the Construction Plans and this document.
- If failures are observed by the Engineer or Knox County, the Contractor shall be notified.
    - Within four (4) hours of being notified of a failure, the Contractor shall acknowledge receipt of the failure notification.
    a. Within 48 hours of being notified of a failure, the Contractor shall repair/correct the failure to return the failed component and/or system to successful operation.
    b. If the Contractor does not fulfill the above responsibilities, the Burn-In Period shall be paused until successful operation is restored to the satisfaction of the Engineer.
- If one (1) failure occurs within 30 calendar days on any component, the Burn-In Period shall be paused until successful operation is restored to the satisfaction of the Engineer, at which time the Burn-In Period shall resume with no time addition to the duration of the Burn-In Period.
- If two (2) failures of like nature occur within 30 calendar days on the same component, the Burn-In Period shall be paused until successful operation is restored to the satisfaction of the Engineer, at which time the Burn-In Period shall resume with a 14-calendar day addition to the duration of the Burn-In Period.
- If three (3) or more failures of like nature occur within 30 calendar days on the same component, the Burn-In Period shall be terminated. The Contractor shall repair or replace the component to restore successful operation to the satisfaction of the Engineer, at which time the entire Burn-In Period shall restart from the beginning.
- During the Burn-In Period, the Contractor shall maintain a "Burn-In Period log" that contains all failure notifications received from the Engineer and Knox County. Each failure notification shall include the date received, information regarding the failure, corrective action taken by the Contractor, and the date successful operation was restored to the satisfaction of the Engineer. The Contractor shall provide the "Burn-In Period log" to the Engineer upon request.
- The Burn-In Period shall be considered complete upon the successful completion of the Burn-In Period timeframe and the Engineer's review and approval of the "Burn-In Period log".

5. Measurement and Payment

Training shall include all labor, equipment, materials, installation, testing, and any other incidental requirements. Training will be included in the cost of System Integration (Item Number 725-28.20) and will not be measured separately for payment. 1. Refer to the System Integration section of this document.

As-Built Plans shall include all labor, equipment, materials, installation, testing, and any other incidental requirements. As-Built Plans will be included in the cost of Construction Stakes, Lines and Grades (Item Number 105-01) and will not be measured separately for payment. 1. Refer to the System Integration section of this document.

Burn-In Period shall include all labor, equipment, materials, installation, testing, and any other incidental requirements. Burn-In Period will be included in the cost of System Integration (Item Number 725-28.20) and will not be measured separately for payment.

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 05/08/2025

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

BLANKET ADDITIONAL INSURED
(Includes Products-Completed Operations If Required By Contract)

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

PROVISIONS

The following is added to **SECTION II – WHO IS AN INSURED**:

Any person or organization that you agree in a written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only:

a. With respect to liability for "bodily injury" or "property damage" that occurs, or for "personal injury" caused by an offense that is committed, subsequent to the signing of that contract or agreement and while that part of the contract or agreement is in effect; and

b. If, and only to the extent that, such injury or damage is caused by acts or omissions of you or your subcontractor in the performance of "your work" to which the written contract or agreement applies. Such person or organization does not qualify as an additional insured with respect to the independent acts or omissions of such person or organization.

The insurance provided to such additional insured is subject to the following provisions:

a. If the Limits of Insurance of this Coverage Part shown in the Declarations exceed the minimum limits required by the written contract or agreement, the insurance provided to the additional insured will be limited to such minimum required limits. For the purposes of determining whether this limitation applies, the minimum limits required by the written contract or agreement will be considered to include the minimum limits of any Umbrella or Excess liability coverage required for the additional insured by that written contract or agreement. This provision will not increase the limits of insurance described in Section III – Limits Of Insurance.

b. The insurance provided to such additional insured does not apply to:

(1) Any "bodily injury", "property damage" or "personal injury" arising out of the providing, or failure to provide, any professional architectural, engineering or surveying services, including:

(a) The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders or change orders, or the preparing, approving, or failing to prepare or approve, drawings and specifications; and

(b) Supervisory, inspection, architectural or engineering activities.

(2) Any "bodily injury " or "property damage" caused by "your work" and included in the "products-completed operations hazard" unless and specifically requires you to provide such coverage for that additional insured during the policy period.

c. The additional insured must comply with the following duties:

(1) Give us written notice as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, such notice should include:

(a) How, when and where the "occurrence" or offense took place;

(b) The names and addresses of any injured persons and witnesses;

(c) The nature and location of any injury or damage arising out of the "occurrence" or offense.

(2) If a claim is made or "suit" is brought against the additional insured:

© 2018 The Travelers Indemnity Company. All rights reserved.

(a) Immediately record the specifics of the claim or "suit" and the date received; and

(b) Notify us as soon as practicable and see to it that we receive written notice of the claim or "suit" as soon as practicable.

(3) Immediately send us copies of all legal papers received in connection with the claim or "suit", cooperate with us in the investigation or settlement of the claim or defense against the "suit", and otherwise comply with all policy conditions.

(4) Tender the defense and indemnity of any claim or "suit" to any provider of other insurance which would cover such additional insured for a loss we cover. However, this condition does not affect whether the insurance provided to such additional insured is primary to other insurance available to such additional insured which covers that person or organization as a named insured as described in Paragraph **4.**, Other Insurance, of Section **IV** – Commercial General Liability Conditions.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

BUSINESS AUTO EXTENSION ENDORSEMENT

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM

GENERAL DESCRIPTION OF COVERAGE – This endorsement broadens coverage. However, coverage for any injury, damage or medical expenses described in any of the provisions of this endorsement may be excluded or limited by another endorsement to the Coverage Part, and these coverage broadening provisions do not apply to the extent that coverage is excluded or limited by such an endorsement. The following listing is a general coverage description only. Limitations and exclusions may apply to these coverages. Read all the provisions of this endorsement and the rest of your policy carefully to determine rights, duties, and what is and is not covered.

A. **BROAD FORM NAMED INSURED**

B. **BLANKET ADDITIONAL INSURED**

C. **EMPLOYEE HIRED AUTO**

D. **EMPLOYEES AS INSURED**

E. **SUPPLEMENTARY PAYMENTS – INCREASED LIMITS**

F. **HIRED AUTO – LIMITED WORLDWIDE COVERAGE – INDEMNITY BASIS**

G. **WAIVER OF DEDUCTIBLE – GLASS**

H. **HIRED AUTO PHYSICAL DAMAGE – LOSS OF USE – INCREASED LIMIT**

I. **PHYSICAL DAMAGE – TRANSPORTATION EXPENSES – INCREASED LIMIT**

J. **PERSONAL PROPERTY**

K. **AIRBAGS**

L. **NOTICE AND KNOWLEDGE OF ACCIDENT OR LOSS**

M. **BLANKET WAIVER OF SUBROGATION**

N. **UNINTENTIONAL ERRORS OR OMISSIONS**

PROVISIONS

A. BROAD FORM NAMED INSURED

The following is added to Paragraph **A.1., Who Is An Insured**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE**:

Any organization you newly acquire or form during the policy period over which you maintain 50% or more ownership interest and that is not separately insured for Business Auto Coverage. Coverage under this provision is afforded only until the 180th day after you acquire or form the organization or the end of the policy period, whichever is earlier.

B. BLANKET ADDITIONAL INSURED

The following is added to Paragraph **c.** in **A.1., Who Is An Insured**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE**:

Any person or organization who is required under a written contract or agreement between you and that person or organization, that is signed and executed by you before the "bodily injury" or "property damage" occurs and that is in effect during the policy period, to be named as an additional insured is an "insured" for Covered Autos Liability Coverage, but only for damages to which this insurance applies and only to the extent that person or organization qualifies as an "insured" under the Who Is An Insured provision contained in Section II.

C. EMPLOYEE HIRED AUTO

1. The following is added to Paragraph **A.1., Who Is An Insured**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE**:

   An "employee" of yours is an "insured" while operating an "auto" hired or rented under a contract or agreement in an "employee's" name, with your permission, while performing duties related to the conduct of your business.

2. The following replaces Paragraph **b.** in **B.5., Other Insurance**, of **SECTION IV – BUSINESS AUTO CONDITIONS**:

   b. For Hired Auto Physical Damage Coverage, the following are deemed to be covered "autos" you own:

   (1) Any covered "auto" you lease, hire, rent or borrow; and

   (2) Any covered "auto" hired or rented by your "employee" under a contract in an "employee's" name, with your

© 2015 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

permission, while performing duties related to the conduct of your business.

However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

D. EMPLOYEES AS INSURED

The following is added to Paragraph **A.1., Who Is An Insured**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE**:

Any "employee" of yours is an "insured" while using a covered "auto" you don't own, hire or borrow in your business or your personal affairs.

E. SUPPLEMENTARY PAYMENTS – INCREASED LIMITS

1. The following replaces Paragraph **A.2.a.(2)**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE**:

   (2) Up to $3,000 for cost of bail bonds (including bonds for related traffic law violations) required because of an "accident" we cover. We do not have to furnish these bonds.

2. The following replaces Paragraph **A.2.a.(4)**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE**:

   (4) All reasonable expenses incurred by the "insured" at our request, including actual loss of earnings up to $500 a day because of time off from work.

F. HIRED AUTO – LIMITED WORLDWIDE COVERAGE – INDEMNITY BASIS

The following replaces Subparagraph **(5)** in Paragraph **B.7., Policy Period, Coverage Territory**, of **SECTION IV – BUSINESS AUTO CONDITIONS**:

(5) Anywhere in the world, except any country or jurisdiction while any trade sanction, embargo, or similar regulation imposed by the United States of America applies to and prohibits the transaction of business with or within such country or jurisdiction, for Covered Autos Liability Coverage for any covered "auto" that you lease, hire, rent or borrow without a driver for a period of 30 days or less and that is not an "auto" you lease, hire, rent or borrow from any of your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households.

(a) With respect to any claim made or "suit" brought outside the United States of America, the territories and possessions of the United States of America, Puerto Rico and Canada:

(i) You must arrange to defend the "insured" against, and investigate or settle any such claim or "suit" and keep us advised of all proceedings and actions.

(ii) Neither you nor any other involved "insured" will make any settlement without our consent.

(iii) We may, at our discretion, participate in defending the "insured" against, or in the settlement of, any claim or "suit".

(iv) We will reimburse the "insured" for sums that the "insured" legally must pay as damages because of "bodily injury" or "property damage" to which this insurance applies, that the "insured" pays with our consent, but only up to the limit described in Paragraph **C.**, Limits Of Insurance, of SECTION II – COVERED AUTOS LIABILITY COVERAGE.

(v) We will reimburse the "insured" for the reasonable expenses incurred with our consent for your investigation of such claims and your defense of the "insured" against any such "suit", but only up to and included within the limit described in Paragraph **C.**, Limits Of Insurance, of SECTION II – COVERED AUTOS LIABILITY COVERAGE, and not in addition to such limit. Our duty to make such payments ends when we have used up the applicable limit of insurance in payments for damages, settlements or defense expenses.

(b) This insurance is excess over any valid and collectible other insurance available to the "insured" whether primary, excess, contingent or on any other basis.

(c) This insurance is not a substitute for required or compulsory insurance in any country outside the United States, its territories and possessions, Puerto Rico and Canada.

© 2015 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

You agree to maintain all required or compulsory insurance in any such country up to the minimum limits required by local law. Your failure to comply with compulsory insurance requirements will not invalidate the coverage afforded by this policy, but we will only be liable to the same extent we would have been liable had you complied with the compulsory insurance requirements.

(d) It is understood that we are not an admitted or authorized insurer outside the United States of America, its territories and possessions, Puerto Rico and Canada. We assume no responsibility for the furnishing of certificates of insurance, or for compliance in any way with the laws of other countries relating to insurance.

G. WAIVER OF DEDUCTIBLE – GLASS

The following is added to Paragraph **D., Deductible**, of **SECTION III – PHYSICAL DAMAGE COVERAGE**:

No deductible for a covered "auto" will apply to glass damage if the glass is repaired rather than replaced.

H. HIRED AUTO PHYSICAL DAMAGE – LOSS OF USE – INCREASED LIMIT

The following replaces the last sentence of Paragraph **A.4.b., Loss Of Use Expenses**, of **SECTION III – PHYSICAL DAMAGE COVERAGE**:

However, the most we will pay for any expenses for loss of use is $65 per day, to a maximum of $750 for any one "accident".

I. PHYSICAL DAMAGE – TRANSPORTATION EXPENSES – INCREASED LIMIT

The following replaces the first sentence in Paragraph **A.4.a., Transportation Expenses**, of **SECTION III – PHYSICAL DAMAGE COVERAGE**:

We will pay up to $50 per day to a maximum of $1,500 for temporary transportation expense incurred by you because of the total theft of a covered "auto" of the private passenger type.

J. PERSONAL PROPERTY

The following is added to Paragraph **A.4., Coverage Extensions**, of **SECTION III – PHYSICAL DAMAGE COVERAGE**:

Personal Property

We will pay up to $400 for "loss" to wearing apparel and other personal property which is:

(1) Owned by an "insured"; and

(2) In or on your covered "auto".

This coverage applies only in the event of a total theft of your covered "auto".

No deductibles apply to this Personal Property coverage.

K. AIRBAGS

The following is added to Paragraph **B.3., Exclusions**, of **SECTION III – PHYSICAL DAMAGE COVERAGE**:

Exclusion **3.a.** does not apply to "loss" to one or more airbags in a covered "auto" you own that inflate due to a cause other than a cause of "loss" set forth in Paragraphs **A.1.b.** and **A.1.c.**, but only:

a. If that "auto" is a covered "auto" for Comprehensive Coverage under this policy;

b. The airbags are not covered under any warranty; and

c. The airbags were not intentionally inflated.

We will pay up to a maximum of $1,000 for any one "loss".

L. NOTICE AND KNOWLEDGE OF ACCIDENT OR LOSS

The following is added to Paragraph **A.2.a.**, of **SECTION IV – BUSINESS AUTO CONDITIONS**:

Your duty to give us or our authorized representative prompt notice of the "accident" or "loss" applies only when the "accident" or "loss" is known to:

(a) You (if you are an individual);

(b) A partner (if you are a partnership);

(c) A member (if you are a limited liability company);

(d) An executive officer, director or insurance manager (if you are a corporation or other organization); or

(e) Any "employee" authorized by you to give notice of the "accident" or "loss".

M. BLANKET WAIVER OF SUBROGATION

The following replaces Paragraph **A.5., Transfer Of Rights Of Recovery Against Others To Us**, of **SECTION IV – BUSINESS AUTO CONDITIONS** :

5. Transfer Of Rights Of Recovery Against Others To Us

We waive any right of recovery we may have against any person or organization to the extent required of you by a written contract signed and executed prior to any "accident" or "loss", provided that the "accident" or "loss" arises out of operations contemplated by

© 2015 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

such contract. The waiver applies only to the person or organization designated in such contract.

N. UNINTENTIONAL ERRORS OR OMISSIONS

The following is added to Paragraph **B.2., Concealment, Misrepresentation, Or Fraud**, of **SECTION IV – BUSINESS AUTO CONDITIONS**:

The unintentional omission of, or unintentional error in, any information given by you shall not prejudice your rights under this insurance. However this provision does not affect our right to collect additional premium or exercise our right of cancellation or non-renewal.

WHEREAS, the Knox County Commission previously approved Knox County's HUD-approved 2020-2024 Consolidated Plan; and

WHEREAS, Substantial Amendments to the 2020-2024 Consolidated Plan and the Annual Action Plans of Program Years (PY) 2020, (PY) 2021, and (PY) 2024 within the Consolidated Plan are necessary for various project and program related activities and allocations benefiting low-to-moderate income persons in Knox County, as further detailed in the attached Substantial Amendments.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Knox County Commission hereby approves the Substantial Amendments to Knox County's 2020-2024 Consolidated Plan and the Annual Action Plans of Program Years (PY) 2020, (PY) 2021, and (PY) 2024 for various project and program related activities and allocations benefiting low-to-moderate income persons of Knox County, as further detailed in the Substantial Amendments document attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Knox County Grants and Community Development Substantial Amendments

2020 – 2024 Consolidated Plan Substantial Amendment

The Substantial Amendment to the Program Year (PY) 2020 Annual Action Plan within Knox County's HUD-approved 2020 – 2024 Consolidated Plan address Community Development Block Grant CARES Act (CDBG-CV) projects. CDBG-CV funds are utilized to address public service needs that were exacerbated by the COVID-19 pandemic.

Knox County will re-allocate unused funds in the amount of $64,804.57 to Sacred Ground Hospice Care. Sacred Ground provides low-moderate income individuals with the end-of-life care they would not normally have been able to afford.

2020 AP-35 Projects

The following COVID-19 related project is proposed to be funded. The associated activity will meet HUD's National Objective to benefit low-and-moderate income persons.

Project	CDBG-CV Allocation	National Objective	CDBG Matrix Code
Sacred Ground Hospice Care End-of-life care for low-to-moderate income persons.	Adding $64,804.57 for a total of $169,803.57	LMC	05M Health Services

2021 Annual Action Plan Substantial Amendment

The Substantial Amendment to Knox County's HUD-approved PY 2021 Annual Action Plan addresses the County's HOME American Rescue Plan (HOME-ARP) Allocation. HOME-ARP provides funding to reduce homelessness and increase housing stability across the country.

Knox County will amend its PY 2021 Annual Action Plan to establish the *HOME-ARP* project to provide programs and services in accordance with its HOME-ARP Allocation Plan. In addition to the amendment, an updated Allocation Plan will be uploaded reflecting an increase of $1,764 in funding due to an incorrect formula allocation.

2021 AP-35 Projects

The following HOME-ARP project is proposed to be established. The forthcoming activities meet HUD's National Objective to benefit low-and-moderate income persons.

Project	Allocation	National Objective	CDBG Matrix Code
HOME-ARP Programs and Services for qualifying populations.	$1,324,322	LMC	Various

2024 Annual Action Plan Substantial Amendment

The Substantial Amendment to Knox County's HUD-approved PY 2024 Annual Action Plan addresses improving the quality of existing housing stock in the County.

Knox County will cancel the PY 2024 CDBG funded *Infrastructure for Affordable Housing* project due to the project receiving funding from another source. The PY 2024 resources for the project, in the amount of $310,000, will be reallocated Knox County Home Rehabilitation Program. Home rehabilitation activities improve the conditions of existing housing stock occupied by low-to-moderate-income households. This reallocation has been documented in the proposed PY 2025 Annual Action Plan.

2025 AP-35 Projects

The following project is proposed to be funded. The forthcoming activities meet HUD's National Objective to benefit low-and-moderate income households.

Project	Allocation	National Objective	CDBG Matrix Code
Provide Home Rehabilitation Assistance	$310,000	LMH	14A- Rehab, Single-Unit Residential

WHEREAS, by means of Resolution R-24-3-501, the Knox County Commission approved an Agreement with Sacred Ground Hospice House to provide $19,758.00 in CDBG-CV program funds for end-of-life hospice care for under/uninsured individuals ("Contract No. 24-133"); and

WHEREAS, by means of Resolution R-24-8-501, the Knox County Commission approved Amendment No. One to Contract No. 24-133 to provide additional CDBG-CV program funds in the amount of $30,000.00 for Sacred Ground Hospice House; and

WHEREAS, subject to U.S. Department of Housing and Urban Development's (HUD) approval, Knox County desires to enter into Amendment No. Two to Contract No. 24-133 with Sacred Ground Hospice House to extend the term of the contract to June 30, 2026 and provide additional CDBG-CV program funds in the amount of $64,804.57 for a total of $114,562.57, as further detailed in the attached proposed amendment.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

Amendment No. Two to Contract No. 24-133 with Sacred Ground Hospice House for end-of-life hospice care for under/uninsured individuals is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, that Amendment No. Two to Contract No. 24-133 with Sacred Ground Hospice House for end-of-life hospice care for under/uninsured individuals shall be executed subject to such amendment or action not affecting the substantive provisions of the agreement as may be required and approved by the Knox County Law Director

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

AMENDMENT NO. TWO TO
CONTRACT NO. 24-133
AGREEMENT BETWEEN
KNOX COUNTY
AND
SACRED GROUND HOSPICE HOUSE

This Amendment No. Two to the Agreement by and between **KNOX COUNTY**, hereinafter referred to as the "**County"**, and **SACRED GROUND HOSPICE HOUSE,** a nonprofit corporation hereinafter referred to as "**Awardee"** and which is located at 1120 Dry Gap Pike, Knoxville, Tennessee 37918.

WITNESSETH

WHEREAS, the County and Awardee have previously entered into a certain Agreement designated Knox County Contract No. 24-133 (CFDA 14.218) on April 3, 2024 for the operation of Sacred Ground Hospice House.

WHEREAS, the County and Awardee desire to amend their Agreement as hereinafter provided:

NOW, THEREFORE, in consideration of the foregoing premises and other good and valuable consideration, the receipt and legal sufficiency of which are hereby acknowledged, the County and Awardee agree to amend their Agreement as follows:

1. SECTION B, "SCOPE OF WORK,", NUMBER 2 shall be and is hereby modified to read, "The County will provide to Awardee **ONE HUNDRED FOURTEEN THOUSAND FIVE HUNDRED SIXTY-TWO DOLLARS AND 57/100 ($114,562.57)** in CDBG Coronavirus (CDBG-CV) for the operation of Sacred Ground Hospice House.

2. SECTION C, "TERM OF CONTACT," shall be and is hereby modified to read, "The term of this Agreement shall be March 1, 2024 through June 30, 2026. Awardee will make every effort to ensure that all goals of this Public Service project are completed no later than the 30th day of June, 2026. Should any unforeseen circumstances arise, the contract may be extended to September 30, 2026, but only with approval of Knox County Community Development.

   Timely completion of the work specified in this Agreement is an integral and essential part of performance. The expenditure of CDBG Coronavirus (CDBG-CV) funds is subject to Federal deadlines and could result in the loss of the Federal funds. Failure to meet these deadlines may result in cancellation of this contract and the revocation of CDBG Coronavirus (CDBG-CV) funds.

3. SECTION D, "COMPENSATION AND REIMBURSEMENT OF EXPENSES", NUMBER 1, shall be and is hereby modified to read, "It is expressly understood and agreed that in no event will the total amount paid by the County to Awardee under this Agreement exceed **ONE HUNDRED FOURTEEN THOUSAND FIVE HUNDRED SIXTY-TWO DOLLARS AND 57/100 ($114,562.57)**. Project expenses paid to Awardee are provided through the CDBG Program for services satisfactorily rendered as outlined in Appendix B, "Performance Measurements". Project expenses shall be paid based on vouchers for actual expenses

incurred or paid. Requests for payment must be submitted by Awardee on agency letterhead with adequate and proper documentation of eligible cost incurred in compliance with 2 CFR Part 200 and necessary for HUD IDIS disbursement requirements. All such expenses shall be in conformance with the approved project budget schedule, Appendix C. Requests to adjust line items will be considered on a case-by-case basis and require approval from the Knox County Grants and Community Development (KCGCD) Department prior to invoicing. Knox County Grants and Community Development has the discretion to amend the budget line items outlined in Appendix C, or performance measurements outlined Appendix B, by form of an amendment to the Agreement, including incorporating new line items or transferring funding between established budget line items included in this Agreement. A budget amendment and approval shall be required prior to payment of any expenses not conforming to the approved project budget found in Appendix C.

4. Delete the original Appendix B to the Contract in its entirety and replace it with the Appendix B attached hereto.

5. Delete the original Appendix C to the Contract in its entirety and replace it with the Appendix C attached hereto.

Except as hereby modified, all other terms and conditions of the original Agreement shall remain in full force and effect.

In witness whereof, the parties hereto have caused this Amendment No. Two to Contract No. 24-133 (CFDA 14.218) to be executed in one original as of the latest date written below.

APPENDIX B- SACRED GROUND HOSPICE HOUSE
PERFORMANCE MEASUREMENTS

OUTCOME/OBJECTIVE:

Awardee performs a public service activity that is funded to provide end-of-life hospice care to uninsured and underinsured Knox County residents.

PERFORMANCE INDICATORS:

Number of individuals receiving residential treatment _____

GOALS, OBJECTIVES AND TASKS

The County will provide **$114,562.57** from CDBG Coronavirus (CDBG-CV) funds to Awardee for the coordination of medical services for 25 individuals. Individuals served may be at a higher risk for contracting the coronavirus or have been negatively impacted as a result of the COVID-19 pandemic. Awardee will operate this activity for individuals who do not have the insurance or financial means to pay for end-of-life care; which meets the increased demand for services since the onset of the pandemic. Assistance may only be provided to low- and moderate-income individuals residing within Knox County, outside the boundaries of the City of Knoxville and the Town of Farragut.

The following specific data will be required for reporting monthly and annually:

- Amount of money leveraged (from other Federal, state and private resources);
- Income levels of persons assisted by 30, 50, or 80 percent of area median income, adjusted for family size;
- Race and ethnicity; and
- Female headed and elderly households.

Duplicative Assistance Not Allowed: To the extent feasible, Awardee must ensure that any assistance provided is not duplicative of any other federally, funded assistance provided to the household. Applicants can self-attest that duplicative assistance has not been received and the Awardee should have processes in place to review and confirm that duplicative assistance is not provided.

GRANT CONTRACT
BETWEEN THE STATE OF TENNESSEE,
DEPARTMENT OF HEALTH
AND
THE GOVERNMENT OF KNOX COUNTY DBA KNOX COUNTY HEALTH DEPARTMENT

This grant contract ("Grant Contract"), by and between the State of Tennessee, Department of Health, hereinafter referred to as the "State" or the "Grantor State Agency" and Grantee The Government of Knox County dba Knox County Health Department, hereinafter referred to as the "Grantee," is for the provision of Viral Hepatitis Program Services, as further defined in the "SCOPE OF SERVICES AND DELIVERABLES."

Grantee Edison Vendor ID # 2830

A. SCOPE OF SERVICES AND DELIVERABLES:

A.1. The Grantee shall provide the scope of services and deliverables ("Scope") as required, described, and detailed in this Grant Contract.

A.2. Service Definitions.

a. Acute Viral Hepatitis - the early stage of viral infection of the liver caused by one of three different hepatitis viruses (A, B, or C). Signs and symptoms of early (or acute) viral hepatitis include yellowing of the skin or eyes (jaundice), abdominal pain, vomiting, nausea, diarrhea, malaise, grey-colored stools, or dark urine. For hepatitis B virus and hepatitis C virus, acute infection can lead to chronic viral hepatitis infection.

b. Adult – any individual aged 18 and older.

c. Centers for Disease Control and Prevention (CDC) – a division of the U.S. Department of Health and Human Services.

d. Confidential - any Service Recipient who has indicated within that they would not like to be contacted.

e. Chronic Viral Hepatitis - a long-term illness that occurs when hepatitis B virus or hepatitis C virus remains in a person's body. Chronic viral hepatitis infection can last a lifetime and lead to serious liver problems, including cirrhosis (scarring of the liver) or liver cancer.

f. Hepatitis B Virus (HBV) - a double-stranded deoxyribonucleic acid (DNA) virus in the family Hepadnaviridae and genus Orthohepadnavirus that impacts the liver. It is most commonly transmitted by sexual contact but can also be transmitted by contact with other body fluids. It is a bloodborne pathogen and vaccine preventable.

g. Hepatitis C Virus (HCV) - an enveloped, ribonucleic acid (RNA) virus in the family Flaviviridae and genus Hepacivirus that impacts the liver. It is most commonly transmitted by blood-to-blood contact. It is a bloodborne pathogen and is not vaccine preventable.

h. Human Immunodeficiency Virus (HIV) – an enveloped, ribonucleic acid (RNA) virus in the family Retroviridae and genus Lentivirus that weakens a person's immune system by destroying the white blood cells that fight infection. It is most commonly transmitted by sexual contact but can also be transmitted by contact with other body fluids. It is a bloodborne pathogen and is not vaccine preventable.

i. Tennessee Department of Children's Services (DCS) – a Tennessee public child welfare agency who establishes statewide standards of performance that reflect best practices for child welfare.

j. Viral Hepatitis - an infection that causes liver inflammation and damage.

k. Viral Hepatitis Program Navigator (VHPN) - are involved in a thorough process of client engagement and care coordination, including: identifying, engaging, referring, and documenting HCV and HBV program clients

A.3. Service Goals. The goal of the State Viral Hepatitis Program is to implement and coordinate activities and services related to prevention, testing, diagnosis, surveillance, and linkage to treatment and other supportive services.

A.4 Service Recipients (Clients). Individuals testing HCV RNA-positive at local health department and residing in the Grantee's geographic boundaries (which can be identified here: public health region(s)); and individuals living with HCV who had a recent live birth and residing in the Grantee's geographic boundaries. If Client is assigned to you and does not reside in your geographical boundaries, please coordinate with the navigator responsible for that area. If the Client assigned to you resides out of state, email the client ID to VH.Health@tn.gov so the Client can be removed from your queue.

A.5. Service Description. The Grantee shall use the grant funds to implement and coordinate activities related to Viral Hepatitis services along the care continuum as follows:

a. The Grantee agrees to provide Viral Hepatitis Case Navigator (VHCN) services listed below in accordance with the State Viral Hepatitis Program and as outlined in the Tennessee Department of Health's Viral Hepatitis Program Navigator Training Manual. Necessary data sharing will occur via REDCap, a secure platform. Additional information regarding REDCap can be found here: https://redcap.health.tn.gov/redcap/.

(1) Development of a region-specific provider directory (detailing HCV, mental health, and substance use disorder treatment providers within a reasonable travel distance of the Grantee's geographic boundaries) and update directory quarterly (January, April, July, October). All directories should be in the format created in 2020, adhere to the directory formatting and expectations, and require minimal editing;
(2) Send updated directory to Central Office Director of Prevention and Clinical Services for review and inclusion on SharePoint quarterly (January, April, July, October);
(3) Refer non-Confidential Adults testing HCV RNA-positive in health departments residing in Grantee's geographic boundaries, as indicated in a queue populated weekly by the State, to treatment or other services (e.g., mental health services, substance use disorder treatment) based on Service Recipient-centered goals.
(4) If Service Recipient resides outside of Grantee's geographic boundaries, then follow guidance outlined in A.4;
(5) Make contact attempts for at 100% of Service Recipients identified for navigation to include two phone call and/or text message attempts on different days/times and a "No Contact Letter" (unless prior approval received Director of Viral Hepatitis Prevention and Clinical Services to follow a different process);
(6) Document all Service Recipient contact attempts (phone call, text message, letter) and referrals provided by the State as outlined by the Director of Viral Hepatitis Prevention and Clinical Services;
(7) Utilize only State Viral Hepatitis Program-approved packets, letters, and directories and send only information relevant to what was verbally discussed with Service Recipient;
(8) Participate in monthly quality assurance calls with Director of Viral Hepatitis Prevention and Clinicals Services or VHCN Lead to review reports submitted to the State;
(9) Participate in yearly site visits with Director of Viral Hepatitis Prevention and Clinical Services and Viral Hepatitis Program Director to review scopes;
(10) Attend and participate on all Central Office Viral Hepatitis Program webinars;
(11) Participate in VHCN trainings as scheduled.

b. The Grantee agrees to provide perinatal HCV virus navigation services listed below in accordance with the State Viral Hepatitis Program.

(1) Refer non-Confidential Adults (see service definition of confidential and adults in A.2.b and A.2.d.) living with HCV-infection who had a recent live birth residing in the Grantee's geographic boundaries (regardless of where tested), populated weekly by the State in the navigator queue, to HCV treatment or other services (e.g., mental health services, substance use disorder treatment) based on Service Recipient-centered goals. Discuss infant HCV testing recommendations with birth parent or DCS contact if child is not in custody of birth parent. If Service Recipient resides outside of Grantee's geographic boundaries, then follow guidance outlined in A.4;
(2) For 100% of Service Recipients populated in navigator queue, verify address and phone number information utilizing available resources prior to contacting Service Recipient;
(3) Make contact attempts for 100% of Service Recipients identified for navigation to include two phone call and/or text message attempts on different days/times and a No Contact Letter (unless prior approval received from Director of Viral Hepatitis Prevention and Clinical Services to follow a different process);
(4) Document all Service Recipient contact attempts (phone call, text message, letter) and referrals provided as outlined by the Director of Viral Hepatitis Prevention and Clinical;
(5) For 100% of infants populated in navigator queue, verify custody via available resources, for infants in foster care, coordinate with appropriate DCS Nurse Consultant to ensure guardian receives HCV infant testing information; document nurse information and report to State as directed by Director of Viral Hepatitis Prevention and Clinical Services;
(6) Ensure 100% of infants populated in navigator queue are followed longitudinally to ensure appropriate antenatal diagnostic HCV testing; document and report longitudinal contact attempts concluding when infant HCV testing completed;
(7) Utilize only State Viral Hepatitis Program-approved packets, letters, and directories and send only information relevant to what was verbally discussed with Service Recipients;
(8) Participate in monthly quality assurance calls with Viral Hepatitis Perinatal Hepatitis C Coordinator to review reports;
(9) Participate in yearly site visits with Director of Viral Hepatitis Prevention and Clinical Services and Viral Hepatitis Program Director to review scopes;
(10) Attend and participate on all Central Office Viral Hepatitis Program webinars;
(11) Participate in trainings as scheduled.

c. The Grantee agrees to provide viral hepatitis prevention services listed below in accordance with the State Viral Hepatitis Program.

(1) Refer non-Confidential Adults testing HCV anti-HCV positive, RNA-negative in health departments or reporting a history of substance use or incarceration and residing in Grantee's geographic boundaries, as indicated in a queue populated weekly by the State, to harm reduction services (e.g., mental health services, substance use disorder treatment) based on Service Recipient-centered goals. If Service Recipient resides outside of Grantee's geographic boundaries, then follow guidance outlined in A.4;
(2) For 100% of Service Recipients populated in navigator queue, verify address and phone number information utilizing available resources prior to contacting Service Recipient;
(3) Make contact attempts for 100% of Service Recipients identified for navigation to include two (2) phone call and/or text message attempts on different days/times and one (1) No Contact Letter (unless prior approval received from Director of Viral Hepatitis Prevention and Clinical Services to follow a different process);

(4) Document all Service Recipient contact attempts (phone call, text message, letter) and referrals provided as outlined by the Director of Viral Hepatitis Prevention and Clinical;
(5) Utilize only State Viral Hepatitis Program-approved packets, letters, and directories and send only information relevant to what was verbally discussed with Service Recipients;
(6) Participate in monthly quality assurance calls with Viral Hepatitis Community Outreach Coordinator to review reports;
(7) Participate in yearly site visits with Director of Viral Hepatitis Prevention and Clinical Services and Viral Hepatitis Program Director to review scopes;
(8) Attend and participate on all Central Office Viral Hepatitis Program webinars;
(9) Participate in trainings as scheduled.

d. The Grantee agrees to provide navigation services for any other population identified as a priority by the State Viral Hepatitis Program.

e. The Grantee agrees to seek approval, in writing, from the Director of Viral Hepatitis Prevention and Clinical Services and the Viral Hepatitis Program Director of any assignments outside of those defined in this document and ahead of accepting assignments.

A.6. Incorporation of Additional Documents. Each of the following documents is included as a part of this Grant Contract by reference or attachment. In the event of a discrepancy or ambiguity regarding the Grantee's duties, responsibilities, and performance hereunder, these items shall govern in order of precedence below.

a. this Grant Contract document with any attachments or exhibits (excluding the items listed at subsections b., and c., below);

b. Viral Hepatitis NBS User Guide, provided by the state upon request; and

c. Programmatic Navigators Training Manual, provided by the state upon request.

A.7. In the event that the Grantee is subject to an audit in accordance with Section D.19. hereunder, the Grantee shall log in to their account on the Edison Supplier Portal to complete the Information for Audit Purposes (IAP) and End of Fiscal Year (EOFY) eForms.

A.8. No funds awarded under this Grant Contract shall be used for lobbying federal, state, or local officials.

A.9. Inspection and Acceptance. Acceptance of the work outlined above will be made by the State or Its authorized representative through reports, teleconferences, site visits and/or other periodic reviews. The Grantor State Agency will make the final determination in terms of acceptance of the work being performed under this Grant Contract.

A.10. State Data Use. The State data must remain in the United States, regardless of whether the data is processed, stored, in-transit, or at rest. Access to State data shall be limited to US-based (onshore) resources only. Configuration or development of software and code is permitted outside of the United States. However, software applications designed, developed, manufactured, or supplied by persons owned or controlled by, or subject to the jurisdiction or direction of, a foreign adversary, which the U.S. Secretary of Commerce acting pursuant to 15 CFR 7 has defined to include the People's Republic of China, among others are prohibited. Any testing of code outside of the United States must use fake data. A copy of production data may not be transmitted or used outside the United States."

B. TERM OF CONTRACT:

This Grant Contract shall be effective on July 1, 2025 ("Effective Date") and extend for a period of twelve (12) months after the Effective Date ("Term"). The State shall have no obligation to the Grantee for fulfillment of the Scope outside the Term.

C. PAYMENT TERMS AND CONDITIONS:

C.1. Maximum Liability. In no event shall the maximum liability of the State under this Grant Contract exceed Ninety-Three Thousand, Seven Hundred Twenty Dollars ($93,720.00) ("Maximum Liability"). The Grant Budget, attached and incorporated as **Attachment 1** is the maximum amount due the Grantee under this Grant Contract. The Grant Budget line items include but are not limited to, all applicable taxes, fees, overhead, and all other direct and indirect costs incurred or to be incurred by the Grantee.

C.2. Compensation Firm. The Maximum Liability of the State is not subject to escalation for any reason unless amended. The Grant Budget amounts are firm for the duration of the Grant Contract and are not subject to escalation for any reason unless amended, except as provided in Section C.6.

C.3. Payment Methodology. The Grantee shall be reimbursed for actual, reasonable, and necessary costs based upon the Grant Budget, not to exceed the Maximum Liability established in Section C.1. Upon progress toward the completion of the Scope, as described in Section A of this Grant Contract, the Grantee shall submit invoices prior to any reimbursement of allowable costs.

C.4. Travel Compensation. Reimbursement to the Grantee for travel, meals, or lodging shall be subject to amounts and limitations specified in the "State Comprehensive Travel Regulations," as they are amended from time to time, and shall be contingent upon and limited by the Grant Budget funding for said reimbursement.

C.5. Invoice Requirements. The Grantee shall invoice the State no more often than monthly, with all necessary supporting documentation, and present such to:

Invoices.HIV@tn.gov Rosanna.R.Lape@tn.gov

a. Each invoice (**Attachment 2**) shall clearly and accurately detail all of the following required information (calculations must be extended and totaled correctly).

(1) Invoice/Reference Number (assigned by the Grantee).
(2) Invoice Date.
(3) Invoice Period (to which the reimbursement request is applicable).
(4) Grant Contract Number (assigned by the State).
(5) Grantor: Tennessee Department of Health, CEDEP Division.
(6) Grantor Number (assigned by the Grantee to the above-referenced Grantor).
(7) Grantee Name.
(8) Grantee Tennessee Edison Registration ID Number Referenced in Preamble of this Grant Contract.
(9) Grantee Remittance Address.
(10) Grantee Contact for Invoice Questions (name, phone, or fax).
(11) Itemization of Reimbursement Requested for the Invoice Period— it must detail, at minimum, all of the following:

i. The amount requested by Grant Budget line-item (including any travel expenditure reimbursement requested and for which documentation and receipts, as required by "State Comprehensive Travel Regulations," are attached to the invoice).
ii. The amount reimbursed by Grant Budget line-item to date.
iii. The total amount reimbursed under the Grant Contract to date.
iv. The total amount requested (all line-items) for the Invoice Period.

b. The Grantee understands and agrees to all of the following.

(1) An invoice under this Grant Contract shall include only reimbursement requests for actual, reasonable, and necessary expenditures required in the delivery of service described by this Grant Contract and shall be subject to the Grant Budget and any other provision of this Grant Contract relating to allowable reimbursements.

(2) An invoice under this Grant Contract shall not include any reimbursement request for future expenditures.

(3) An invoice under this Grant Contract shall initiate the timeframe for reimbursement only when the State is in receipt of the invoice, and the invoice meets the minimum requirements of this section C.5.

(4) An invoice under this Grant Contract shall be presented to the State within Thirty (30) days after the end of the calendar month in which the subject costs were incurred or services were rendered by the Grantee. An invoice submitted more than Thirty (30) days after such date will NOT be paid. The State will not deem such Grantee costs to be allowable and reimbursable by the State unless, at the sole discretion of the State, the failure to submit a timely invoice is warranted. The Grantee shall submit a special, written request for reimbursement with any such untimely invoice. The request must detail the reason the invoice is untimely as well as the Grantee's plan for submitting future invoices as required, and it must be signed by a Grantee agent that would be authorized to sign this Grant Contract.

C.6. Budget Line-items. Expenditures, reimbursements, and payments under this Grant Contract shall adhere to the Grant Budget. The Grantee may vary from a Grant Budget line-item amount by up to twenty percent (20%) of the line-item amount, provided that any increase is off-set by an equal reduction of other line-item amount(s) such that the net result of variances shall not increase the total Grant Contract amount detailed by the Grant Budget. Any increase in the Grant Budget, grand total amounts shall require an amendment of this Grant Contract.

C.7. Disbursement Reconciliation and Close Out. The Grantee shall submit any final invoice and a grant disbursement reconciliation report within forty-five (45) days of the Grant Contract end date, in form and substance acceptable to the State. (**Attachment 3**)

a. If total disbursements by the State pursuant to this Grant Contract exceed the amounts permitted by the section C, payment terms and conditions of this Grant Contract, the Grantee shall refund the difference to the State. The Grantee shall submit the refund with the final grant disbursement reconciliation report.

b. The State shall not be responsible for the payment of any invoice submitted to the State after the grant disbursement reconciliation report. The State will not deem any Grantee costs submitted for reimbursement after the grant disbursement reconciliation report to be allowable and reimbursable by the State, and such invoices will NOT be paid.

c. The Grantee’s failure to provide a final grant disbursement reconciliation report to the State as required by this Grant Contract shall result in the Grantee being deemed ineligible for reimbursement under this Grant Contract, and the Grantee shall be required to refund any and all payments by the State pursuant to this Grant Contract.

d. The Grantee must close out its accounting records at the end of the Term in such a way that reimbursable expenditures and revenue collections are NOT carried forward.

C.8. Indirect Cost. Should the Grantee request reimbursement for indirect costs, the Grantee must submit to the State a copy of the indirect cost rate approved by the cognizant federal agency or the cognizant state agency, as applicable. The Grantee will be reimbursed for indirect costs in accordance with the approved indirect cost rate and amounts and limitations specified in the attached Grant Budget. Once the Grantee makes an election and treats a given cost as direct or indirect, it must apply that treatment consistently and may not change during the Term. Any changes in the approved indirect cost rate must have prior approval of the cognizant federal

agency or the cognizant state agency, as applicable. If the indirect cost rate is provisional during the Term, once the rate becomes final, the Grantee agrees to remit any overpayment of funds to the State, and subject to the availability of funds the State agrees to remit any underpayment to the Grantee.

C.9. Cost Allocation. If any part of the costs to be reimbursed under this Grant Contract are joint costs involving allocation to more than one program or activity, such costs shall be allocated and reported in accordance with the provisions of Central Procurement Office Policy Statement 2013-007 or any amendments or revisions made to this policy statement during the Term.

C.10. Payment of Invoice. A payment by the State shall not prejudice the State's right to object to or question any reimbursement, invoice, or related matter. A payment by the State shall not be construed as acceptance of any part of the work or service provided or as approval of any amount as an allowable cost.

C.11. Non-allowable Costs. Any amounts payable to the Grantee shall be subject to reduction for amounts included in any invoice or payment that are determined by the State, on the basis of audits or monitoring conducted in accordance with the terms of this Grant Contract, to constitute unallowable costs.

C.12. State's Right to Set Off. The State reserves the right to set off or deduct from amounts that are or shall become due and payable to the Grantee under this Grant Contract or under any other agreement between the Grantee and the State of Tennessee under which the Grantee has a right to receive payment from the State.

C.13. Prerequisite Documentation. The Grantee shall not invoice the State under this Grant Contract until the State has received the following, properly completed documentation.

a. The Grantee shall complete, sign, and return to the State an "Authorization Agreement for Automatic Deposit (ACH Credits) Form" provided by the State. By doing so, the Grantee acknowledges and agrees that, once this form is received by the State, all payments to the Grantee under this or any other grant contract will be made by automated clearing house ("ACH").

b. The Grantee shall complete, sign, and return to the State the State-provided W-9 form. The taxpayer identification number on the W-9 form must be the same as the Grantee's Federal Employer Identification Number or Social Security Number referenced in the Grantee's Edison registration information.

D. STANDARD TERMS AND CONDITIONS:

D.1. Required Approvals. The State is not bound by this Grant Contract until it is signed by the parties and approved by appropriate officials in accordance with applicable Tennessee laws and regulations (depending upon the specifics of this Grant Contract, the officials may include, but are not limited to, the Commissioner of Finance and Administration, the Commissioner of Human Resources, and the Comptroller of the Treasury).

D.2. Modification and Amendment. This Grant Contract may be modified only by a written amendment signed by all parties and approved by the officials who approved the Grant Contract and, depending upon the specifics of the Grant Contract as amended, any additional officials required by Tennessee laws and regulations (the officials may include, but are not limited to, the Commissioner of Finance and Administration, the Commissioner of Human Resources, and the Comptroller of the Treasury).

D.3. Termination for Convenience. The State may terminate this Grant Contract without cause for any reason. A termination for convenience shall not be a breach of this Grant Contract by the State. The State shall give the Grantee at least thirty (30) days written notice before the effective termination date. The Grantee shall be entitled to compensation for authorized expenditures and satisfactory services completed as of the termination date, but in no event shall the State be liable

to the Grantee for compensation for any service that has not been rendered. The final decision as to the amount for which the State is liable shall be determined by the State. The Grantee shall not have any right to any actual general, special, incidental, consequential, or any other damages whatsoever of any description or amount for the State's exercise of its right to terminate for convenience.

D.4. Termination for Cause. If the Grantee fails to properly perform its obligations under this Grant Contract, or if the Grantee violates any terms of this Grant Contract, the State shall have the right to immediately terminate this Grant Contract and withhold payments in excess of fair compensation for completed services. Notwithstanding the exercise of the State's right to terminate this Grant Contract for cause, the Grantee shall not be relieved of liability to the State for damages sustained by virtue of any breach of this Grant Contract by the Grantee.

D.5. Subcontracting. The Grantee shall not assign this Grant Contract or enter into a subcontract for any of the services performed under this Grant Contract without obtaining the prior written approval of the State. If such subcontracts are approved by the State, each shall contain, at a minimum, sections of this Grant Contract pertaining to "Conflicts of Interest," "Lobbying," "Nondiscrimination," "Public Accountability," "Public Notice," and "Records" (as identified by the section headings). Notwithstanding any use of approved subcontractors, the Grantee shall remain responsible for all work performed.

D.6. Conflicts of Interest. The Grantee warrants that no part of the total Grant Contract Amount shall be paid directly or indirectly to an employee or official of the State of Tennessee as wages, compensation, or gifts in exchange for acting as an officer, agent, employee, subcontractor, or consultant to the Grantee in connection with any work contemplated or performed relative to this Grant Contract.

D.7. Lobbying. The Grantee certifies, to the best of its knowledge and belief, that:

a. No federally appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

b. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this contract, grant, loan, or cooperative agreement, the Grantee shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

c. The Grantee shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into and is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352.

D.8. Communications and Contacts. All instructions, notices, consents, demands, or other communications required or contemplated by this Grant Contract shall be in writing and shall be made by certified, first class mail, return receipt requested and postage prepaid, by overnight courier service with an asset tracking system, or by email or facsimile transmission with recipient confirmation. All communications, regardless of method of transmission, shall be addressed to the respective party as set out below:

The State:

Shamia Roberts, BSN, RN
Viral Hepatitis Program Director
Andrew Johnson Tower, 6th Floor, HIV/STI/Viral Hepatitis
710 James Robertson Parkway
Nashville, TN 37243
Email: Shamia.Roberts@tn.gov
Phone: 615-517-0723

The Grantee:

Kevin Parton, Senior Director
The Government of Knox County dba Knox County Health Department
140 Dameron Avenue
Knoxville, Tennessee 37917
Email Address: Kevin.Parton@knoxcounty.org
Telephone#: (865) 215-5273

A change to the above contact information requires written notice to the person designated by the other party to receive notice.

All instructions, notices, consents, demands, or other communications shall be considered effectively given upon receipt or recipient confirmation as may be required.

D.9. Subject to Funds Availability. This Grant Contract is subject to the appropriation and availability of State or Federal funds. In the event that the funds are not appropriated or are otherwise unavailable, the State reserves the right to terminate this Grant Contract upon written notice to the Grantee. The State's right to terminate this Grant Contract due to lack of funds is not a breach of this Grant Contract by the State. Upon receipt of the written notice, the Grantee shall cease all work associated with the Grant Contract. Should such an event occur, the Grantee shall be entitled to compensation for all satisfactory and authorized services completed as of the termination date. Upon such termination, the Grantee shall have no right to recover from the State any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

D.10. Nondiscrimination. The Grantee hereby agrees, warrants, and assures that no person shall be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination in the performance of this Grant Contract or in the employment practices of the Grantee on the grounds of handicap or disability, age, race, color, religion, sex, national origin, or any other classification protected by federal, Tennessee state constitutional, or statutory law. The Grantee shall, upon request, show proof of nondiscrimination and shall post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.

D.11. HIPAA Compliance. As applicable, the State and the Grantee shall comply with obligations under the Health Insurance Portability and Accountability Act of 1996 (HIPAA), Health Information Technology for Economic and Clinical Health Act (HITECH) and any other relevant laws and regulations regarding privacy (collectively the "Privacy Rules"). The obligations set forth in this Section shall survive the termination of this Grant Contract.

a. The Grantee warrants to the State that it is familiar with the requirements of the Privacy Rules and will comply with all applicable HIPAA requirements in the course of this Grant Contract.

b. The Grantee warrants that it will cooperate with the State, including cooperation and coordination with State privacy officials and other compliance officers required by the Privacy Rules, in the course of performance of this Grant Contract so that both parties will be in compliance with the Privacy Rules.

c. The State and the Grantee will sign documents, including but not limited to business associate agreements, as required by the Privacy Rules and that are reasonably necessary to keep the State and the Grantee in compliance with the Privacy Rules. This provision shall not apply if information received by the State under this Grant Contract is NOT "protected health information" as defined by the Privacy Rules, or if the Privacy Rules permit the State to receive such information without entering into a business associate agreement or signing another such document.

D.12. Public Accountability. If the Grantee is subject to Tenn. Code Ann. § 8-4-401 *et seq*., or if this Grant Contract involves the provision of services to citizens by the Grantee on behalf of the State, the Grantee agrees to establish a system through which recipients of services may present grievances about the operation of the service program. The Grantee shall also display in a prominent place, located near the passageway through which the public enters in order to receive Grant supported services, a sign at least eleven inches (11") in height and seventeen inches (17") in width stating:

NOTICE: THIS AGENCY IS A RECIPIENT OF TAXPAYER FUNDING. IF YOU OBSERVE AN AGENCY DIRECTOR OR EMPLOYEE ENGAGING IN ANY ACTIVITY WHICH YOU CONSIDER TO BE ILLEGAL, IMPROPER, OR WASTEFUL, PLEASE CALL THE STATE COMPTROLLER'S TOLL-FREE HOTLINE: 1-800-232-5454.

The sign shall be on the form prescribed by the Comptroller of the Treasury. The Grantor State Agency shall obtain copies of the sign from the Comptroller of the Treasury, and upon request from the Grantee, provide Grantee with any necessary signs.

D.13. Public Notice. All notices, informational pamphlets, press releases, research reports, signs, and similar public notices prepared and released by the Grantee in relation to this Grant Contract shall include the statement, "This project is funded under a grant contract with the State of Tennessee." All notices by the Grantee in relation to this Grant Contract shall be approved by the State.

D.14. Licensure. The Grantee, its employees, and any approved subcontractor shall be licensed pursuant to all applicable federal, state, and local laws, ordinances, rules, and regulations and shall upon request provide proof of all licenses.

D.15. Records. The Grantee and any approved subcontractor shall maintain documentation for all charges under this Grant Contract. The books, records, and documents of the Grantee and any approved subcontractor, insofar as they relate to work performed or money received under this Grant Contract, shall be maintained in accordance with applicable Tennessee law. In no case shall the records be maintained for a period of less than five (5) full years from the date of the final payment. The Grantee's records shall be subject to audit at any reasonable time and upon reasonable notice by the Grantor State Agency, the Comptroller of the Treasury, or their duly appointed representatives.

The records shall be maintained in accordance with Governmental Accounting Standards Board (GASB) Accounting Standards or the Financial Accounting Standards Board (FASB) Accounting Standards Codification, as applicable, and any related AICPA Industry Audit and Accounting guides.

In addition, documentation of grant applications, budgets, reports, awards, and expenditures will be maintained in accordance with U.S. Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

Grant expenditures shall be made in accordance with local government purchasing policies and procedures and purchasing procedures for local governments authorized under state law.

The Grantee shall also comply with any recordkeeping and reporting requirements prescribed by the Tennessee Comptroller of the Treasury.

The Grantee shall establish a system of internal controls that utilize the COSO Internal Control-Integrated Framework model as the basic foundation for the internal control system. The Grantee shall incorporate any additional Comptroller of the Treasury directives into its internal control system.

Any other required records or reports which are not contemplated in the above standards shall follow the format designated by the head of the Grantor State Agency, the Central Procurement Office, or the Commissioner of Finance and Administration of the State of Tennessee.

D.16. Monitoring. The Grantee's activities conducted and records maintained pursuant to this Grant Contract shall be subject to monitoring and evaluation by the State, the Comptroller of the Treasury, or their duly appointed representatives.

D.17. Progress Reports. The Grantee shall submit brief, periodic, progress reports to the State as requested.

D.18. Annual and Final Reports. The Grantee shall submit, within three (3) months of the conclusion of each year of the Term, an annual report. For grant contracts with a term of less than one (1) year, the Grantee shall submit a final report within three (3) months of the conclusion of the Term. For grant contracts with multiyear terms, the final report will take the place of the annual report for the final year of the Term. The Grantee shall submit annual and final reports to the Grantor State Agency. At minimum, annual and final reports shall include: (a) the Grantee's name; (b) the Grant Contract's Edison identification number, Term, and total amount; (c) a narrative section that describes the program's goals, outcomes, successes and setbacks, whether the Grantee used benchmarks or indicators to determine progress, and whether any proposed activities were not completed; and (d) other relevant details requested by the Grantor State Agency. Annual and final report documents to be completed by the Grantee shall appear on the Grantor State Agency's website or as an **Attachment 4** to the Grant Contract.

D.19. Audit Report. The Grantee shall be audited in accordance with applicable Tennessee law.

At least ninety (90) days before the end of its fiscal year, the Grantee shall complete the Information for Audit Purposes ("IAP") form online (accessible through the Edison Supplier portal) to notify the State whether or not Grantee is subject to an audit. The Grantee should submit only one, completed form online during the Grantee's fiscal year. Immediately after the fiscal year has ended, the Grantee shall fill out the End of Fiscal Year ("EOFY") (accessible through the Edison Supplier portal).

When a federal single audit is required, the audit shall be performed in accordance with U.S. Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

A copy of the audit report shall be provided to the Comptroller by the licensed, independent public accountant. Audit reports shall be made available to the public.

D.20. Procurement. If other terms of this Grant Contract allow reimbursement for the cost of goods, materials, supplies, equipment, or contracted services, such procurement shall be made on a competitive basis, including the use of competitive bidding procedures, where practical. The Grantee shall maintain documentation for the basis of each procurement for which reimbursement is paid pursuant to this Grant Contract. In each instance where it is determined that use of a competitive procurement method is not practical, supporting documentation shall include a written justification for the decision and for use of a non-competitive procurement. If the Grantee is a subrecipient, the Grantee shall comply with 2 C.F.R. §§ 200.317—200.327 when procuring property and services under a federal award.

The Grantee shall obtain prior approval from the State before purchasing any equipment under this Grant Contract.

For purposes of this Grant Contract, the term "equipment" shall include any article of nonexpendable, tangible, personal property having a useful life of more than one year and an acquisition cost which equals or exceeds ten thousand dollars ($10,000.00).

D.21. Strict Performance. Failure by any party to this Grant Contract to insist in any one or more cases upon the strict performance of any of the terms, covenants, conditions, or provisions of this Grant Contract is not a waiver or relinquishment of any term, covenant, condition, or provision. No term or condition of this Grant Contract shall be held to be waived, modified, or deleted except by a written amendment signed by the parties.

D.22. Independent Contractor. The parties shall not act as employees, partners, joint venturers, or associates of one another in the performance of this Grant Contract. The parties acknowledge that they are independent contracting entities and that nothing in this Grant Contract shall be construed to create a principal/agent relationship or to allow either to exercise control or direction over the manner or method by which the other transacts its business affairs or provides its usual services. The employees or agents of one party shall not be deemed or construed to be the employees or agents of the other party for any purpose whatsoever.

D.23. Limitation of State's Liability. The State shall have no liability except as specifically provided in this Grant Contract. In no event will the State be liable to the Grantee or any other party for any lost revenues, lost profits, loss of business, loss of grant funding, decrease in the value of any securities or cash position, time, money, goodwill, or any indirect, special, incidental, punitive, exemplary or consequential damages of any nature, whether based on warranty, contract, statute, regulation, tort (including but not limited to negligence), or any other legal theory that may arise under this Grant Contract or otherwise. The State's total liability under this Grant Contract (including any exhibits, schedules, amendments or other attachments to the Contract) or otherwise shall under no circumstances exceed the Maximum Liability originally established in Section C.1 of this Grant Contract. This limitation of liability is cumulative and not per incident.

D.24. Force Majeure. "Force Majeure Event" means fire, flood, earthquake, elements of nature or acts of God, wars, riots, civil disorders, rebellions or revolutions, acts of terrorism or any other similar cause beyond the reasonable control of the party except to the extent that the non-performing party is at fault in failing to prevent or causing the default or delay, and provided that the default or delay cannot reasonably be circumvented by the non-performing party through the use of alternate sources, workaround plans or other means. A strike, lockout or labor dispute shall not excuse either party from its obligations under this Grant Contract. Except as set forth in this Section, any failure or delay by a party in the performance of its obligations under this Grant Contract arising from a Force Majeure Event is not a default under this Grant Contract or grounds for termination. The non-performing party will be excused from performing those obligations directly affected by the Force Majeure Event, and only for as long as the Force Majeure Event continues, provided that the party continues to use diligent, good faith efforts to resume performance without delay. The occurrence of a Force Majeure Event affecting Grantee's representatives, suppliers, subcontractors, customers or business apart from this Grant Contract is not a Force Majeure Event under this Grant Contract. Grantee will promptly notify the State of any delay caused by a Force Majeure Event (to be confirmed in a written notice to the State within one (1) day of the inception of the delay) that a Force Majeure Event has occurred and will describe in reasonable detail the nature of the Force Majeure Event. If any Force Majeure Event results in a delay in Grantee's performance longer than forty-eight (48) hours, the State may, upon notice to Grantee: (a) cease payment of the fees until Grantee resumes performance of the affected obligations; or (b) immediately terminate this Grant Contract or any purchase order, in whole or in part, without further payment except for fees then due and payable. Grantee will not increase its charges under this Grant Contract or charge the State any fees other than those provided for in this Grant Contract as the result of a Force Majeure Event.

D.25. Tennessee Department of Revenue Registration. The Grantee shall comply with all applicable registration requirements contained in Tenn. Code Ann. §§ 67-6-601 – 608. Compliance with applicable registration requirements is a material requirement of this Grant Contract.

D.26. Charges to Service Recipients Prohibited. The Grantee shall not collect any amount in the form of fees or reimbursements from the recipients of any service provided pursuant to this Grant Contract.

D.27. No Acquisition of Equipment or Motor Vehicles. This Grant Contract does not involve the acquisition and disposition of equipment or motor vehicles acquired with funds provided under this Grant Contract.

D.28. State and Federal Compliance. The Grantee shall comply with all applicable state and federal laws and regulations in the performance of this Grant Contract. The U.S. Office of Management and Budget's Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is available here: http://www.ecfr.gov/cgi-bin/text-idx?SID=c6b2f053952359ba94470ad3a7c1a975&tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl

D.29. Governing Law. This Grant Contract shall be governed by and construed in accordance with the laws of the State of Tennessee, without regard to its conflict or choice of law rules. The Grantee agrees that it will be subject to the exclusive jurisdiction of the courts of the State of Tennessee in actions that may arise under this Grant Contract. The Grantee acknowledges and agrees that any rights or claims against the State of Tennessee or its employees hereunder, and any remedies arising there from, shall be subject to and limited to those rights and remedies, if any, available under Tenn. Code Ann. §§ 9-8-101 through 9-8-408.

D.30. Completeness. This Grant Contract is complete and contains the entire understanding between the parties relating to the subject matter contained herein, including all the terms and conditions agreed to by the parties. This Grant Contract supersedes any and all prior understandings, representations, negotiations, or agreements between the parties, whether written or oral.

D.31. Severability. If any terms and conditions of this Grant Contract are held to be invalid or unenforceable as a matter of law, the other terms and conditions shall not be affected and shall remain in full force and effect. To this end, the terms and conditions of this Grant Contract are declared severable.

D.32. Headings. Section headings are for reference purposes only and shall not be construed as part of this Grant Contract.

D.33. Iran Divestment Act. The requirements of Tenn. Code Ann. § 12-12-101, *et seq.*, addressing contracting with persons as defined at Tenn. Code Ann. §12-12-103(5) that engage in investment activities in Iran, shall be a material provision of this Grant Contract. The Grantee certifies, under penalty of perjury, that to the best of its knowledge and belief that it is not on the list created pursuant to Tenn. Code Ann. § 12-12-106.

D.34. Debarment and Suspension. The Grantee certifies, to the best of its knowledge and belief, that it, its current and future principals, its current and future subcontractors and their principals:

a. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal or state department or agency;

b. have not within a three (3) year period preceding this Grant Contract been convicted of, or had a civil judgment rendered against them from commission of fraud, or a criminal offence in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or grant under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false statements, or receiving stolen property;

c. are not presently indicted or otherwise criminally or civilly charged by a government entity (federal, state, or local) with commission of any of the offenses detailed in section b. of this certification; and

d. have not within a three (3) year period preceding this Grant Contract had one or more public transactions (federal, state, or local) terminated for cause or default.

The Grantee shall provide immediate written notice to the State if at any time it learns that there was an earlier failure to disclose information or that due to changed circumstances, its principals or the principals of its subcontractors are excluded or disqualified, or presently fall under any of the prohibitions of sections a-d.

D.35. Confidentiality of Records. Strict standards of confidentiality of records and information shall be maintained in accordance with applicable state and federal law. All material and information, regardless of form, medium or method of communication, provided to the Grantee by the State or acquired by the Grantee on behalf of the State that is regarded as confidential under state or federal law shall be regarded as "Confidential Information." Nothing in this Section shall permit Grantee to disclose any Confidential Information, regardless of whether it has been disclosed or made available to the Grantee due to intentional or negligent actions or inactions of agents of the State or third parties. Confidential Information shall not be disclosed except as required or permitted under state or federal law. Grantee shall take all necessary steps to safeguard the confidentiality of such material or information in conformance with applicable state and federal law.The obligations set forth in this Section shall survive the termination of this Grant Contract.

D.36. State Sponsored Insurance Plan Enrollment. The Grantee warrants that it will not enroll or permit its employees, officials, or employees of contractors to enroll or participate in a state sponsored health insurance plan through their employment, official, or contractual relationship with Grantee unless Grantee first demonstrates to the satisfaction of the Department of Finance and Administration that it and any contract entity satisfies the definition of a governmental or quasigovernmental entity as defined by federal law applicable to ERISA.

E. SPECIAL TERMS AND CONDITIONS:

E.1. Conflicting Terms and Conditions. Should any of these special terms and conditions conflict with any other terms and conditions of this Grant Contract, the special terms and conditions shall be subordinate to the Grant Contract's other terms and conditions.

E.2. Printing Authorization. The Grantee agrees that no publication coming in the jurisdiction of Tenn. Code Ann. § 12-7-101, *et seq*., shall be printed pursuant to this Grant Contract unless a printing authorization number has been obtained and affixed as required by Tenn. Code Ann. § 12-7-103(d).

E.3. Environmental Tobacco Smoke. Pursuant to the provisions of the federal "Pro-Children Act of 1994" and the "Children's Act for Clean Indoor Air of 1995," Tenn. Code Ann. §§ 39-17-1601 through 1606, the Grantee shall prohibit smoking of tobacco products within any indoor premises in which services are provided to individuals under the age of eighteen (18) years. The Grantee shall post "no smoking" signs in appropriate, permanent sites within such premises. This prohibition shall be applicable during all hours, not just the hours in which children are present. Violators of the prohibition may be subject to civil penalties and fines. This prohibition shall apply to and be made part of any subcontract related to this Grant Contract.

E.4. The Grantee shall provide a drug-free workplace pursuant to the "Drug-Free Workplace Act," 41 U.S.C. §§ 8101 through 8106, and its accompanying regulations.

E.5. Personally Identifiable Information. While performing its obligations under this Grant Contract, Grantee may have access to Personally Identifiable Information held by the State ("PII"). For the purposes of this Grant Contract, "PII" includes "Nonpublic Personal Information" as that term is defined in Title V of the Gramm-Leach-Bliley Act of 1999 or any successor federal statute, and the rules and regulations thereunder, all as may be amended or supplemented from time to time ("GLBA") and personally identifiable information and other data protected under any other applicable laws, rule or regulation of any jurisdiction relating to disclosure or use of personal information ("Privacy Laws"). Grantee agrees it shall not do or omit to do anything which would cause the State to be in breach of any Privacy Laws. Grantee shall, and shall cause its employees, agents and representatives to: (i) keep PII confidential and may use

and disclose PII only as necessary to carry out those specific aspects of the purpose for which the PII was disclosed to Grantee and in accordance with this Grant Contract, GLBA and Privacy Laws; and (ii) implement and maintain appropriate technical and organizational measures regarding information security to: (A) ensure the security and confidentiality of PII; (B) protect against any threats or hazards to the security or integrity of PII; and (C) prevent unauthorized access to or use of PII. Grantee shall immediately notify State: (1) of any disclosure or use of any PII by Grantee or any of its employees, agents and representatives in breach of this Grant Contract; and (2) of any disclosure of any PII to Grantee or its employees, agents and representatives where the purpose of such disclosure is not known to Grantee or its employees, agents and representatives. The State reserves the right to review Grantee's policies and procedures used to maintain the security and confidentiality of PII and Grantee shall, and cause its employees, agents and representatives to, comply with all reasonable requests or directions from the State to enable the State to verify or ensure that Grantee is in full compliance with its obligations under this Grant Contract in relation to PII. Upon termination or expiration of the Grant Contract or at the State's direction at any time in its sole discretion, whichever is earlier, Grantee shall immediately return to the State any and all PII which it has received under this Grant Contract and shall destroy all records of such PII.

The Grantee shall report to the State any instances of unauthorized access to or potential disclosure of PII in the custody or control of Grantee ("Unauthorized Disclosure") that come to the Grantee's attention. Any such report shall be made by the Grantee within twenty-four (24) hours after the Unauthorized Disclosure has come to the attention of the Grantee. Grantee shall take all necessary measures to halt any further Unauthorized Disclosures. The Grantee, at the sole discretion of the State, shall provide no cost credit monitoring services for individuals whose PII was affected by the Unauthorized Disclosure. The Grantee shall bear the cost of notification to all individuals affected by the Unauthorized Disclosure, including individual letters and public notice. The remedies set forth in this Section are not exclusive and are in addition to any claims or remedies available to this State under this Grant Contract or otherwise available at law. The obligations set forth in this Section shall survive the termination of this Grant Contract.

E.6. Information Technology Security Requirements (State Data, Audit, and Other Requirements).

a. The Grantee shall protect State Data as follows:

(1) The Grantee shall ensure that all State Data is housed in the continental United States, inclusive of backup data. All State data must remain in the United States, regardless of whether the data is processed, stored, in-transit, or at rest. Access to State data shall be limited to US-based (onshore) resources only.

All system and application administration must be performed in the continental United States. Configuration or development of software and code is permitted outside of the United States. However, software applications designed, developed, manufactured, or supplied by persons owned or controlled by, or subject to the jurisdiction or direction of, a foreign adversary, which the U.S. Secretary of Commerce acting pursuant to 15 CFR 7 has defined to include the People's Republic of China, among others are prohibited. Any testing of code outside of the United States must use fake data. A copy of production data may not be transmitted or used outside the United States.

(2) The Grantee shall encrypt Confidential State Data at rest and in transit using the current version of Federal Information Processing Standard ("FIPS") 140-2 validated encryption technologies.

(3) The Grantee shall implement and maintain privacy and security controls that follow the guidelines set forth in the most current version of NIST 800-171, "Protecting Controlled Unclassified Information in Nonfederal Systems and Organizations," with the State to review the implementation of this Section. The State must have proof of compliance with NIST 800-171 in the form of a third-party audit at a minimum every two years or upon request.

No additional funding shall be allocated for these examinations as they are included in the Maximum Liability of this Contract.

(4) The Grantee must annually perform Penetration Tests and Vulnerability Assessments against its Processing Environment per the NIST 800-115 definition. “Processing Environment” shall mean the combination of software and hardware on which the Application runs. “Application” shall mean the computer code that supports and accomplishes the State’s requirements as set forth in this Contract. “Penetration Tests” shall be in the form of attacks on the Grantee’s computer system, with the purpose of discovering security weaknesses which have the potential to gain access to the Processing Environment’s features and data. The “Vulnerability Assessment” shall be designed and executed to define, identify, and classify the security holes (vulnerabilities) in the Processing Environment. The Grantee shall provide a letter of attestation on its processing environment that penetration tests and vulnerability assessments have been performed on an annual basis and taken corrective action to evaluate and address any findings. The Grantee must provide a letter of attestation that includes a penetration testing and vulnerability assessments report per NIST 800-115 that outlines risk exposure of the critical, high, and moderate risks and how they were mitigated, within 30 days of receiving the results.

In the event of an unauthorized disclosure or unauthorized access to State data, the State Strategic Technology Solutions (STS) Security Incident Response Team (SIRT) must be notified and engaged by calling the State Customer Care Center (CCC) at 615-741-1001. Any such event must be reported by the Grantee within twenty-four (24) hours after the unauthorized disclosure has come to the attention of the Grantee.

(5) If a breach has been confirmed a fully un-modified third-party forensics report must be supplied to the State and through the STS SIRT. This report must include indicators of compromise (IOCs) as well as plan of actions for remediation and restoration. Grantee shall take all necessary measures to halt any further Unauthorized Disclosures.

(6) Upon State request, the Grantee shall provide a copy of all Confidential State Data it holds. The Grantee shall provide such data on media and in a format determined by the State

(7) Upon termination of this Contract and in consultation with the State, the Grantee shall destroy, and ensure all subcontractors shall destroy, all Confidential State Data it holds (including any copies such as backups) in accordance with the current version of National Institute of Standards and Technology (“NIST”) Special Publication 800-88. The Grantee shall provide a written confirmation of destruction to the State within ten (10) business days after destruction.

b. Minimum Requirements

(1) The Grantee and all data centers used by the Grantee to host State data, including those of all Subcontractors, must comply with The Grantee and all data centers used by Grantee to host State data, including those of all subcontractors, must comply with the most current version of NIST 800-171, “Protecting Controlled Unclassified Information in Nonfederal Systems and Organizations,” with the State to review the implementation of this Section. The State must have proof of compliance with NIST 800-171 in the form of a third-party audit at a minimum every two years or upon request. Knox County Information Security Management Policy is attached as Attachment #5.

(2) The Grantee agrees to maintain the Application so that it will run on a current, manufacturer-supported Operating System. “Operating System” shall mean the software that supports a computer's basic functions, such as scheduling tasks, executing applications, and controlling peripherals.

(3) If the Application requires middleware or database software, Grantee shall maintain middleware and database software versions that are always fully compatible with current

versions of the Operating System and Application to ensure that security vulnerabilities are not introduced.

(4) In the event of drive/media failure, if the drive/media is replaced, it remains with the State and it is the State's responsibility to destroy the drive/media, or the Grantee shall provide written confirmation of the sanitization/destruction of data according to NIST 800-88.

c. Business Continuity Requirements. The Grantee shall maintain set(s) of documents, instructions, and procedures which enable the Grantee to respond to accidents, disasters, emergencies, or threats without any stoppage or hindrance in its key operations ("Business Continuity Requirements"). Business Continuity Requirements shall include:

(1) "Disaster Recovery Capabilities" refer to the actions the Grantee takes to meet the Recovery Point and Recovery Time Objectives defined below. Disaster Recovery Capabilities shall meet the following objectives:

i. Recovery Point Objective ("RPO"). The RPO is defined as the maximum targeted period in which data might be lost from an IT service due to a major incident: 1 hour

ii. Recovery Time Objective ("RTO"). The RTO is defined as the targeted duration of time and a service level within which a business process must be restored after a disaster (or disruption) in order to avoid unacceptable consequences associated with a break in business continuity: 24 hours

(2) The Grantee and the Subcontractor(s) shall maintain a documented Disaster Recovery plan and shall share this document with the State when requested. The Grantee and the Subcontractor(s) shall perform at least one Disaster Recovery Test every three hundred sixty-five (365) days. A "Disaster Recovery Test" shall mean the process of verifying the success of the restoration procedures that are executed after a critical IT failure or disruption occurs. The Disaster Recovery Test shall use actual State Data Sets that mirror production data, and success shall be defined as the Grantee verifying that the Grantee can meet the State's RPO and RTO requirements. A "Data Set" is defined as a collection of related sets of information that is composed of separate elements but can be manipulated as a unit by a computer. The Grantee shall provide written confirmation to the State after each Disaster Recovery Test that its Disaster Recovery Capabilities meet the RPO and RTO requirements.

E.11. Comptroller Audit Requirements.

When requested by the State or the Comptroller of the Treasury, the Grantee must provide the State or the Comptroller of the Treasury with a detailed written description of the Grantee's information technology control environment, including a description of general controls and application controls. The Grantee must also assist the State or the Comptroller of the Treasury with obtaining a detailed written description of the information technology control environment for any third or fourth parties, or Subcontractors, used by the Grantee to process State data and/or provide services under this Contract.

Grantee will maintain and cause its Subcontractors to maintain a complete audit trail of all transactions and activities in connection with this Contract, including all information technology logging and scanning conducted within the Grantee's and Subcontractor's information technology control environment. Upon reasonable notice and at any reasonable time, the Grantee grants the State or the Comptroller of the Treasury with the right to audit the Grantee's information technology control environment, including general controls and application controls. The audit may include testing the general and application controls within the Grantee's information technology control environment and may also include testing general and application controls for any third or fourth parties, or Subcontractors, used by the Grantee to process State data and/or provide services under this Contract. The audit may include the Grantee's and Subcontractor's compliance with NIST 800-171 and all applicable requirements, laws, regulations, or policies.

Upon reasonable notice and at any reasonable time, the Grantee and Subcontractor(s) agree to allow the State, the Comptroller of the Treasury, or their duly appointed representatives to perform information technology control audits of the Grantee and all Subcontractors used by the Grantee. Grantee will provide to the State, the Comptroller of the Treasury, or their duly appointed representatives access to Grantee and Subcontractor(s) personnel for the purpose of performing the information technology control audit. The audit may include interviews with technical and management personnel, physical or virtual inspection of controls, and review of paper or electronic documentation.

The Grantee must have a process for correcting control deficiencies that were identified in the State's or Comptroller of the Treasury's information technology audit. For any audit issues identified, the Grantee and Subcontractor(s) shall submit a corrective action plan to the State or the Comptroller of the Treasury which addresses the actions taken, or to be taken, and the anticipated completion date in response to each of the audit issues and related recommendations of the State or the Comptroller of the Treasury. The corrective action plan shall be provided to the State or the Comptroller of the Treasury upon request from the State or Comptroller of the Treasury and within 30 days from the issuance of the audit report or communication of the audit issues and recommendations. Upon request from the State or Comptroller of the Treasury, the Grantee and Subcontractor(s) shall provide documentation and evidence that the audit issues were corrected.

Each party shall bear its own expenses incurred while conducting the information technology controls audit.

REPORTING TEMPLATE

Introduction

Reporting Template has three parts:
•Schedule A,
•Schedule B, and
•Schedule C which are Program Expense Reports (PER), Program Revenue Reports (PRR) and Reconciliation Between Total and Reimbursable Expenses and Total Expense Summary Report.
Program Expense Reports (PER), Program Revenue Reports (PRR) and Reconciliation Between Total and Reimbursable Expenses and Total Expense Summary Report including Schedule A-1 and Schedule B-1 must be submitted in the same format/the same column heading each quarter. The final Report (definition can be found in grant contract agreement) must be approved by the contracting state agency.

Schedule Headings

At the top of each schedule, the name of the reporting contractor/grantee and the period covered by the report need to be entered. The period of the report should always be the most recent quarter ended and report programs in the same sequence as the previous quarter.

Column Headings

For each program for Schedule A and B, Contracting State Agency, Program Name, Assistance Listing Number/Program Number, Edison Contract Number, and Grant/Contract Term should be entered. These can be found in the grant contract agreement.
•The Contracting State Agency is for the state agency who awards the grant and initiates the contract agreement.
•The Program Name is the title to describe the program or the title that corresponds to the Federal Assistance Listing number.
•The Assistance Listing Number/Program Name is a number assigned to identify the Federal Assistance Listings under which the subaward was made by the contracting State agency.
•The Edison contract number is the number assigned by the contracting state agency and should include the amendment number, if any. This can be found in the grant contract agreement.
•The grant/contract term is the beginning and ending dates of the grant/contract. This can be found in the grant contract agreement.

Program Columns

Program expense columns (Quarter-To-Date and Year-To-Date) are for reporting direct program expenses. Direct program expenses that benefit more than one program (i.e., allocable-direct costs) may be allocated to the benefitted programs within the expense categories. The cognizant state agency should approve the method used for cost allocations and the contacting state agency should abide by the cost allocation approved by the cognizant state agency.
The Quarter-To-Date column can be used to capture all expenses for the specific quarter. For example, the expenses for the 2nd quarter (from 10/1/22 to 12/31/2022) can be entered in this column.
All accumulated expenses for each program can be entered in Year-To-Date column. For example, if a grantee/organization has entered the expenses for the 2nd quarter in Quarter-To-Date column, all accumulated expenses for the 1st quarter and the 2nd quarter should be entered in Year-To-Date column.

PROGRAM EXPENSE REPORT (PER) SCHEDULE A

Purpose/Scope

The Program Expense Report (PER Schedule A) contains expenses by the detailed line items and then summarizes by subtotals or total**.** This schedule can be used for any grants received from a state agency or multiple state agencies.

These expenses include direct and allocated direct program expenses in each line item. Per 2 CFR Part 200.413, direct costs are those costs that can be identified specifically with a particular final cost objective, such as a grant, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy. Per 2 CFR Part 200.405, allocable direct costs are those that benefit more than one program, but do not fall under the criteria of indirect costs.

Except for depreciation, every expense reported in Lines 1 through 21 must represent an actual cash disbursement or accrual (as defined in the Basis for Reporting Expenses/Expenditures section on page 1 of this instructions). If more than two programs (e.g., four programs), complete multiple Schedule As to report all four program expenses.

Instruction for Expenses by Object Line-Items

Line 1 Salaries and Wages

Enter the amount of compensation, fees, salaries, bonuses, severance payments, and wages paid to program directors, program managers/staffs, and employees.

References:

2 CFR Part 200.430
Form 990 Part IX line 5, 7

Line 2 Employee Benefits & Payroll Taxes

Enter (a) the grantee's/organization's contributions to pension plans and to employee benefit programs such as health, life, and disability insurance; and (b) the grantee's/organization's portion of payroll taxes such as social security, Medicare taxes, and unemployment and workers' compensation insurance.

References:

2 CFR Part 200.431
Form 990 Part IX lines 8, 9, 10

Line 3 Total Personnel Expenses

Add lines 1 Salaries and Wages and 2 Employee Benefits & Payroll Taxes.

Line 4 Professional Fees

Enter the costs/fees of professionals, consultants, and personal-service contractors who are not officers or employees of the grantee/organization. These include legal, accounting, and auditing fees.

References:

2 CFR Part 200.459
Form 990 Part IX line 11

Line 5 Supplies

Enter the grantee's/organization's expenses for office supplies, housekeeping supplies, and other supplies.

References:
2 CFR Part 200.453
Form 990 Part IX line 13

Line 6 Telecommunication

Enter the grantee's/organization's expenses for telephone, cellular phones, beepers, telegram, FAX, telephone equipment maintenance, internet, cloud servers, and other related expenses.

References:
2 CFR Part 200.471
Form 990 Part IX line 13

Line 7 Postage and Shipping

Enter the grantee's/organization's expenses for postage, messenger services, overnight delivery, outside mailing service fees, freight and trucking, and maintenance of delivery and shipping vehicles. Include vehicle insurance here or on line 14.

References:
2 CFR Part 200.474
Form 990 Part IX line 13

Line 8 Occupancy

Enter the grantee's/organization's expenses for use of office space and other facilities including rent, heat, light, power, other utilities, outside janitorial services, mortgage interest, real estate taxes, and similar expenses. Include property insurance here or on line 14.

References:
2 CFR Part 200.465
Form 990 Part IX line 16

Line 9 Equipment Rental and Maintenance

Enter the grantee's/organization's expenses for renting and maintaining computers, copiers, postage meters, other office equipment, and other equipment, except for telecommunications, truck, and automobile expenses, reportable on lines 6, 7, and 11, respectively.

References:
2 CFR Part 200.452
Form 990 Part IX line 13

Line 10 Printing and Publications

Enter the grantee's/organization's expenses for producing printed materials, purchasing books and publications, buying subscriptions to publications, publication costs for electronic and print media, and page charges for professional journal publications.

References:
- 2 CFR Part 200.461
- Form 990 Part IX line 13

Line 11 Travel

Enter the grantee's/organization's expenses for airfare, transportation, meals and lodging, subsistence, and related items incurred by employees on official business of the organization. These costs may be charged on an actual cost basis, on a per diem or mileage basis in lieu of actual costs incurred, consistent with those normally allowed in like circumstances in the organization's non-federal/state-funded activities and in accordance with organization's written travel reimbursement policies. Include gas and oil, repairs, licenses and permits, and leasing costs for company vehicles. Include travel expenses for meetings and conferences. Include vehicle insurance here or on line 14.

If an organization does not have the written travel reimbursement policies, they may use the State Travel policy which is:

F&A Policy 08 Comprehensive State Travel Regulations.

References:
- 2 CFR Part 200.475
- Form 990 Part IX line 17

Line 12 Conference and Meetings

Enter the grantee's/organization's expenses for conducting or attending meetings, conferences, seminars, retreats, and conventions including registration fees. When host of conference, include rental of facilities, speakers' fees and expenses, costs of meals and refreshment (food and beverages), and printed materials for the conference.

References:
- 2 CFR Part 200.432
- Form 990 Part IX line 19

Line 13 Interest

Enter the interest expense for the business related loans and interest costs that are related to capital leases on equipment, trucks and automobiles, and other notes and loans. Do not include mortgage interest reportable on line 8.

References:
- 2 CFR Part 200.449
- Form 990 Part IX line 20

Line 14 Insurance

Enter the grantee's/organization's expenses for liability insurance, fidelity bonds, and other insurance. Do not include employee-related insurance reportable on line 2. Do not include shipping vehicle, property, and organization vehicles for travel if reported on lines 7, 8, or 11 respectively.

References:

2 CFR Part 200.447

Form 990 Part IX line 23

Line 15 Grants and Awards

Enter the grantee's/organization's awards, grants, subsidies, and other pass-through expenditures to other organizations. Include allocations to affiliated organizations. Include in- kind grants to other organizations. Include scholarships, tuition payments, travel allowances, and equipment allowances to clients. These expenses will not include when calculating Administrative Expense in line 22.

References:

2 CFR Part 200.1

Form 990 Part IX line 1

Line 16 Specific Assistance to Individuals

Enter the grantee's/organization's direct payment for expenses of clients, patients, and individual beneficiaries. Include such expenses as medicines, medical and dental fees, children's board, food and homemaker services, clothing, transportation, insurance coverage, scholarships, fellowships, stipends, research grants, wage supplements, and similar payments.

References:

2 CFR Part 200.456

Form 990 Part IX line 2

Line 17 Depreciation

Enter the expenses the grantee's/organization's records for depreciation (the method for allocating the cost of fixed assets to periods benefitting from asset use) of equipment, buildings, leasehold improvements, and other depreciable fixed assets.

References:

2 CFR Part 200.436

Form 990 Part IX line 22

Line 18 Other Nonpersonnel Expenses

Enter the grantee's/organization's allowable expenses for Advertising, Information Technology, Bad Debts, Contingency Provisions, Fines and Penalties, Independent Research and Development, Organization Costs, Rearrangement and Alteration, Recruiting, and Taxes. Include the Organization's and Employees' Membership Dues in Associations and Professional Societies. Include other fees for the Organization's Licenses, Permits, and Registrations, etc.

NOTE: Expenses reportable on lines 1 through 17 should not be reported as an additional expense category on line 18. A description should be attached for each additional category entered on line 18. The contracting state agency may determine these requirements in the grant contract agreement.

a) Advertising:

Enter expenses paid for advertising. Include amounts for print and electronic media advertising. Also include internet site link costs, signage costs, and advertising costs for the organization's in-house fundraising campaigns.

References:
2 CFR Part 200.421
Form 990 Part IX line 12

b) Information Technology:

Enter expenses for information technology, including hardware, software, and support services such as maintenance, help desk, and other technical support services. Also include expenses for infrastructure support, such as website design and operations, virus protection and other information security programs and services to keep the organization's website operational and secured against unauthorized and unwarranted intrusions, and other information technology contractor services.

References:
2 CFR Part 200.1
Form 990 Part IX line 14

c) Bad Debts:

Enter expense amounts for losses (whether actual or estimated) arising from uncollectable accounts and other claims, related collection costs, and related legal costs.

References:
2 CFR Part 200.426
Form 990 Part IX line 24

d) Contingency Provisions:

Enter expense amounts for contributions to a contingency reserve or any similar provision made for events the occurrence of which cannot be foretold with certainty as to time, intensity, or with an assurance of their happening.

References:
2 CFR Part 200.433
Form 990 Part IX line 24

e) Fines and Penalties:

Enter costs of fines and penalties resulting from violations of, or failure of the organization to comply with Federal, State, and local laws and regulations except when incurred as a result of compliance with specific provisions of an award or instructions in writing from the awarding agency.

References:
2 CFR Part 200.441
Form 990 Part IX line 24

f) Independent Research and Development:

Enter the expenses of all research activities, including the training of individuals in research techniques.

References:
2 CFR Part 200.1
Form 990 Part IX line 24

g) Organization Costs:

Enter expenses such as incorporation fees, brokers' fees, fees to promoters, and organizers.

References:
2 CFR Part 200.455
Form 990 Part IX line 24

h) Rearrangement and Alteration:

Enter expenses incurred for ordinary or normal rearrangement and alteration of facilities. Include the expenses incurred in the restoration or rehabilitation of the organization's facilities.

References:
2 CFR Part 200.462
Form 990 Part IX line 24

i) Recruiting:

Enter expenses for recruiting staff and maintaining workload requirements, costs of "help wanted" advertising, operating costs of an employment office necessary to secure and maintain an adequate staff, costs of operating an aptitude and educational testing program and relocation costs incurred incident to recruitment of new employees.

References:
2 CFR Part 200.463
Form 990 Part IX line 24

j) Taxes:

Enter expenses for payment of taxes to the local government or state.

References:
2 CFR Part 200.470
Form 990 Part IX line 24

k) Organization's and Employee's Membership Dues in Associations and Professional Societies:

Enter expenses of the organization's membership or subscriptions in business, technical, and professional organizations.

References:
2 CFR Part 200.454
Form 990 Part IX line 24

Line 19 Total Nonpersonnel Expenses

Add lines 4 Professional Fees through 18 Other Non-personnel Expenses.

Line 20 Reimbursable Capital Purchases

Enter the organization's purchases of fixed assets. Include land, equipment, buildings, leasehold improvements, and other fixed assets.

References:

2 CFR Part 200.439

Form 990 Par X line 10a or Schedule D Part VI

Line 21 Total Direct Program Expenses

Add Line 3 Total Personnel Expenses, and Line 19 Total Non-personnel Expenses, and Line 20 Reimbursable Capital Purchases. These expenses are the summary of the direct and allocated direct program expenses that entered in Line 1 Salaries and Wages through Line 20 Reimbursable Capital Purchases.

Reference:

2 CFR Part 200.405 2 CFR Part 200.413

Form 990 Part IX, column B

Line 22 Administrative Expenses

The distribution will be made in accordance with an allocation plan approved by your cognizant state agency. Pass-through funds (Line 15 Grants and Awards) are not included when computing administrative expenses.

References:

2 CFR Part 200.414

Form 990 Part IX, Column C

Line 23 Total Direct Program and Administrative Expenses

Line 23 is the total of Line 21 Total Direct Program Expenses and Line 22 Administrative Expenses. Total Direct Program and Administrative Expenses (Line 23) Year To Date (if quarter end 3/31/2023) should agree with Total of YTD (Year To Date) Actual Expenditures Through 3/31/2023 (Column E) of the Invoice for Reimbursement.

Line 24 In-Kind Expenses

In-kind Expenses is for reporting the value of contributed resources (non-cash) applied to the program. Approval and reporting guidelines for in-kind contributions will be specified by those contracting state agencies who allow their use toward earning grant funds.

References:

2 CFR Part 200.434

Form 990 Part XI line 6

Line 25 Total Program Expenses

The sum of Line 23 Total Direct Program and Administrative Expenses and Line 24 In-kind Expenses goes on this line.

PROGRAM EXPENSE REPORT (PER) SCHEDULE A-Q1-Q4

Purpose/Scope

This template tracks expenses for all the quarters and summarizes in the Year-To-Date column. The Year-To-Date column can be linked to Year-To-Date column of the Schedule A.

Additionally, this schedule provides the Grant Budget Amount (from grant contract agreement) column and the Over/(Under) Budget Amount column which compares cumulative Year-To-Date expenses to Grant Budget Amount.

Instruction for Expenses by Object Line-Items

The instructions for expense line items are the same as Schedule A.

PROGRAM REVENUE REPORT AND RECONCILIATION BETWEEN TOTAL PROGRAM AND REIMBURSABLE EXPENSES SCHEDULE B

Purpose/Scope

Program Revenue Report (PRR) and Reconciliation Between Total and Reimbursable Expenses, Schedule B, are intended to capture all revenue by the detailed source and reconcile total program expenses and reimbursable expenses. Each revenue column should match up with the Edison Contract Number and the Program Name from Schedule A and align with its corresponding expense column from the Schedule A. The Reconciliation of Total Program Expenses And Reimbursable Expenses, at the bottom of Schedule B, should be completed to show how Total Program Expenses (Line 51 of Schedule B or Line 25 of Schedule A) reconciles to the amount to be reimbursed.

If multiple programs exist, additional copies of the Schedule B can be used to enter all Program Revenue and Reconciliation Between Total and Reimbursable Expenses.

Additional supplemental schedules showing the Sources of Revenue in the aggregations may be attached, if needed. The contracting state agency may provide more guidance in the grant contract agreement.

Instruction for Sources of Revenue

• Reimbursable Program Funds

Line 31 Reimbursable Federal Program Funds

Enter the portion of Total Direct Program & Administrative Expenses reported on Line 23 of the Schedule A that are reimbursable from the Federal program funds.

Reference:
Form 990 Part VIII 1e

Line 32 Reimbursable State Program Funds

Enter the portion of Total Direct Program & Administrative Expenses reported on Line 23 of the Schedule A that are reimbursable from the state program funds.

Reference:
Form 990 Part VIII 1e

Line 33 Total Reimbursable Program Funds

Add Line 31 Reimbursable Federal Program Funds and Line 32 Reimbursable State Program Funds.

• Matching Revenue Funds

Note: matching requirements can be found in the grants contact agreement for the grants received from the contracting state agency.

Line 34 Other Federal Funds

Enter the matching portion (the grantee portion) of the program costs that will be covered by other Federal fund sources.

Reference:
Form 990 Part VIII 1e

Line 35 Other State Funds

Enter the matching portion (the grantee portion) of the program costs that will be covered by other State fund source.

Reference:
Form 990 Part VIII 1e

Line 36 Other Government Funds

Enter the matching portion (the grantee portion) of the program costs that will be covered by other government fund source.

Reference:
Form 990 Part VIII 1e

Line 37 Cash Contributions (Nongovernment)

Enter the matching portion (the grantee portion) of the cash contributions that were received from corporations, foundations, trusts, and individuals, United Ways, other not-for-profit organizations, and affiliated organizations. This is only applicable when the grantee has received contributions from above donors for this program and this is included as expense line-items of the Schedule A.

References:
Form 990 Part VIII 1f

Line 38 In-Kind Contributions (Equals Schedule A. Line 24)

Enter the matching portion (the grantee portion) of the direct and administrative in-kind contributions.

Approval and guidelines for valuation and reporting of in-kind contributions will be specified by those grantor agencies who allow their use toward program purposes.

References:
Form 990 Part VIII line 1f and Part XI line 6

Line 39 Program Income

Enter the matching portion (the grantee portion) of program income. For example, income from fees for services performed.

Reference:
Form 990 Part VIII line 2a to 2f

Line 40 Other Matching Revenue

Enter the matching portion of other revenues that are not included in lines 34 through 39.
References:
Form 990 Part VIII 3 through 11e

Line 41 Total Matching Revenue Funds

Add lines 34 through 40.

Line 42 Other Program Funds

Enter any other program revenues that are funded by the contracting state agency but are not reported as matching revenue funds on Line 41 Total Matching Revenue Funds. Example of this can be in-kind expenses (Line 24 of Schedule A), if any.

References:
Form 990 Part VIII 1a through 11e

Line 43 Total Revenue

Add lines 33, 41, and 42.
References:
Form 990 Part VIII 12

Instruction for Reconciliation Between Total and Reimbursable Expenses

Line 51 Total Program Expenses

This line is brought forward from Line 25 Total Program Expenses on Schedule A.

Line 52 Other Unallowable Expenses

Enter amount for Other Unallowable Expenses here. Some program expenses may not be reimbursable under certain grants. Example of this can be the in-kind expenses which is non-cash item. This will vary according to the contracting state agency and the type of grant or contract. Consult with the contracting state agency that funds the program for additional guidelines.

Line 53 Excess Administration

This line may be used to deduct allocated Administration and General expenses (indirect costs) in excess of the allowable percentage specified in the grant contract agreement or the indirect cost rate that is approved by the cognizant State agency. This line may also be used to deduct an adjustment resulting from limitations on certain components of Administration and General expenses. Consult with the contracting state agency that funds the program for additional guidelines.

Line 54 Matching Expenses

Total program expenses should be deducted from matching (cost sharing) expenses required by the program compliance. This portion can be a specified as an amount or percentage to match the federal award. Program income (e.g., user fees or rental of real property) can be deducted from matching portion.

Line 55 Reimbursable Expense (Line 51 Less Lines 52, 53, And 54)

This should equal the amount the contracting state agency has already paid for the quarter's operations of the program. The cumulative Year-To-Date column is what the grantor has actually paid to date if the organization has submitted the invoice and reimbursed monthly.

Line 56 Total Reimbursement To Date

The Quarter-to-Date column is the total amounts received for this quarter from filing of Invoices for Reimbursement (usually monthly). The cumulative Year-to-Date column amount is the total amount received for the grant program.

Line 57 Difference (Line 55 minus Line 56)

This is the portion of Reimbursable Expenses that are not paid yet. If a grantee submits a monthly invoice for reimbursement and reimbursement has been received, this will be zero.

Line 58 Advances

Any advance payments from the contracting state agency should appear on this line. Most of time, the contracting state agency will not pay the expenses in advance.

Line 59 This Reimbursement (Line 57 minus 58)

The remainder should be the amount due under the grant contract. Request for reimbursement is made through the invoicing process and not through filing of the quarterly or annual report. Any amounts showing here needed to be included in the invoice for reimbursement.

NONGRANT EXPENSE REPORT (NER)
NONGRANT REVENUE REPORT (NRR) AND
RECONCILIATION BETWEEN TOTAL NONGRANT AND REIMBURSABLE EXPENSES
SCHEDULE A-1, SCHEDULE A-1-Q1-Q4, and SCHEDULE B-1

Purpose/Scope

These schedules may be used for the nongrants/unallowable expenses that are not reimbursed/will not be reimbursed by the contracting state agencies.

These schedules should be completed to reconcile expenses per the Total Expense Summary Report (Schedule C) to the trial balance/general ledger when the nongrants/unallowable expenses exist in the grantee's books.

Instruction for Schedules A-1, A-1-Q1-Q4, and B-1

The instruction for these schedules A-1, A-1-Q1-Q4, and B-1 are the same as the instructions for Schedule A and B except these expenses will not be reimbursed by the contracting state agency.

Heading sections may be entered as N/A if this heading is not applicable for Nongrant/Unallowable Expense or Revenue.

TOTAL EXPENSE SUMMARY REPORT
Schedule C

Purpose/Scope

The Total Expense Summary Report is intended to recap all the direct program expenses in one column, separately identify nongrant/unallowable expenses, and total administrative expenses in other columns, as well as a grand total of all the expenses of the grantee. The amounts in Grand Total Year-to-Date column should tie to the general ledger/trial balance of the grantee/organization.

Schedule C should be only one schedule regardless if there are multiple Schedule As and Bs. The grantee will complete all the schedules at one time and will submit the same schedule to the multiple contracting state agencies if the grantee has received awards from the multiple state agencies.

Instruction for Expenses by Object Line-Items

The object line-items are the same as Schedule A. See each line-item instruction in Schedule A.

Instruction for Columns

Total Direct Program Expenses Column

This column is the summary of all the individual programs' cumulative year to date expenses as identified separately under the respective program names in Schedule A.

Total Nongrant/Unallowable Expenses Column

The nongrant/unallowable expense column includes the following expenses:

I. The cumulative year-to-date expenses for all other programs that are not funded by the contracting state agency/agencies.

II. The cumulative year-to-date expenses for fund-raising activities, if any.

III. Other cumulative year-to-date expenses that are not allowable for reimbursement according to the terms of the grants or the Federal guidance.

Total Administrative Expenses Column

The administrative expenses column is for categorizing the cumulative year-to-date administrative expenses into the Expense by Object. Total Direct Program Expenses (line 21) of this column is the sum of all the line 21s. Line 22 of this column will make line 21 amount to be a credit amount so that Total Direct and Administrative Expenses is showing zero since these expenses are already claimed in columns Total Direct Program Expenses Year-To-Date and Total Nongrant/Unallowable Expenses Year-To-Date.

Grand Total Column

The Grand Total column contains all the cumulative year-to-date expenses for the entire reporting organization. The Grant Total Year-to-Date expenses must be traceable to the reporting organization's general ledger or trial balance.

VETO OVERRIDE:_____
DATE

MINUTE BOOK_____PAGE_____

WHEREAS, the U.S. Environmental Protection Agency has awarded Knox County Air Quality Management funding in support of its ongoing collection of data on the ambient air concentrations of fine particulate matter throughout Knox County as part of its PM 2.5 Air Monitoring Program; and

WHEREAS, Knox County desires to accept the award in the amount of $65,000.00 over the project period of April 1, 2025 through March 31, 2027.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Knox County Commission hereby authorizes the acceptance of funding in the amount of $65,000.00 over the period of April 1, 2025 through March 31, 2027 from the U.S. Environmental Protection Agency for Knox County Air Quality Management's PM 2.5 Air Monitoring Program.

BE IT FURTHER RESOLVED, that the Cooperative Agreement, Administrative Conditions, and Programmatic Conditions providing for such funding are hereby adopted and approved in substantive form as presented this date, copies of which are attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Knox County Mayor is hereby authorized to execute the Cooperative Agreement and any and all other documents which may be required for Knox County to receive funding from the U.S. Environmental Protection Agency for said purpose, subject to the review of the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

PROJECT TITLE AND DESCRIPTION

Particulate Matter (PM 2.5) Ambient Monitoring Network

This action approves an award in the amount of $65,000 to the Knox Department of Air Quality Management. The funding received from this grant will assist with necessary development, establishment, and maintenance of adequate monitoring programs for the prevention and control of air pollution or implementation of national primary and secondary air quality standards. Activities to be performed include collecting quality assured PM2.5 concentrations and submitting the results to the Environmental Protection Agency's national air quality database. Expected outcomes and anticipated deliverables include increasing knowledge regarding the character and extent of PM2.5 in the ambient air, and the eventual development and execution of the State's implementation plan. Intended beneficiaries are residents of Knox County, Tennessee. No subawards are included in this assistance agreement.

BUDGET PERIOD	PROJECT PERIOD	TOTAL BUDGET PERIOD COST	TOTAL PROJECT PERIOD COST
04/01/2025 - 03/31/2027	04/01/2025 - 03/31/2027	$ 260,000.00	$ 260,000.00

NOTICE OF AWARD

Based on your Application dated 02/14/2025 including all modifications and amendments, the United States acting by and through the US Environmental Protection Agency (EPA) hereby awards $ 65,000.00. EPA agrees to cost-share 100.00% of all approved budget period costs incurred, up to and not exceeding total federal funding of $ 65,000.00. Recipient's signature is not required on this agreement. The recipient demonstrates its commitment to carry out this award by either: 1) drawing down funds within 21 days after the EPA award or amendment mailing date; or 2) not filing a notice of disagreement with the award terms and conditions within 21 days after the EPA award or amendment mailing date. If the recipient disagrees with the terms and conditions specified in this award, the authorized representative of the recipient must furnish a notice of disagreement to the EPA Award Official within 21 days after the EPA award or amendment mailing date. In case of disagreement, and until the disagreement is resolved, the recipient should not draw down on the funds provided by this award/amendment, and any costs incurred by the recipient are at its own risk. This agreement is subject to applicable EPA regulatory and statutory provisions, all terms and conditions of this agreement and any attachments.

Administrative Conditions

General Terms and Conditions

The recipient agrees to comply with the current Environmental Protection Agency (EPA) general terms and conditions available at: https://www.epa.gov/system/files/documents/2024-10/fy_2025_epa_general_terms_and_conditions_effective_october_1_2024_or_later.pdf

These terms and conditions are in addition to the assurances and certifications made as a part of the award and the terms, conditions, or restrictions cited throughout the award.

The EPA repository for the general terms and conditions by year can be found at: https://www.epa.gov/grants/grant-terms-and-conditions#general.

A. Correspondence Condition

The terms and conditions of this agreement require the submittal of reports, specific requests for approval, or notifications to EPA. Unless otherwise noted, all such correspondence should be sent to the following email addresses:

- Federal Financial Reports (SF-425): rtpfc-grants@epa.gov
- All other forms/certifications/assurances, Indirect Cost Rate Agreements, Requests for Extensions of the Budget and Project Period, Amendment Requests, Requests for other Prior Approvals, updates to recipient information (including email addresses, changes in contact information or changes in authorized representatives) and other notifications:
  - Leah Vasser, Grants Management Specialist, vasser.leah@epa.gov, (404)562-9742
  - Erin Frew, Project Officer, frew.erin@epa.gov, (404)562-9370
- Payment requests (if applicable):
  - Erin Frew, Project Officer, frew.erin@epa.gov, (404)562-9370
- Quality Assurance documents, workplan revisions, equipment lists, programmatic reports and deliverables:
  - Erin Frew, Project Officer, frew.erin@epa.gov, (404)562-9370

B. Contingent Funding

EPA is funding this agreement incrementally. There is no guarantee of funding beyond the first year. The **Total Approved Assistance Amount** identified on Line 12 of the budget table of this award is contingent upon the availability of appropriated funds, EPA funding priorities, and satisfactory progress in carrying out the activities described in the scope of work. If EPA informs the recipient that the amount on Line 12 will be reduced, the recipient agrees to provide an updated workplan and budget information, as needed, to amend the agreement.

Programmatic Conditions

A. Performance Reporting and Final Performance Report

Performance Reporting:

In accordance with 2 CFR 200.329, the recipient must relate financial data and project or program accomplishments to the performance goals and objectives of the EPA award and must provide cost information to demonstrate cost-effective practices (for example, through unit cost data) when reporting program performance. The recipient agrees to submit performance reports that include information on each of the following areas: 1) A comparison of accomplishments to the outputs/outcomes established in the assistance agreement work plan for the reporting period (for example, comparing costs to units of accomplishment); 2) explanations on why established outputs/outcomes were not met; and 3) Additional information, analysis, and explanation of cost overruns or higher-than-expected-unit costs.

Additionally, the recipient agrees to notify the EPA when a significant development occurs that could impact the award. Significant developments include events that enable meeting milestones and objectives sooner or at less cost than anticipated or that produce different beneficial results than originally planned. Significant developments also include problems, delays, or adverse conditions which will impact the ability to meet the milestones or objectives of the award, including outputs/outcomes specified in the assistance agreement work plan. If the significant developments negatively impact the award, the recipient must include information on their plan for corrective action and any assistance needed to resolve the situation.

Performance Reports - Frequency

The recipient agrees to submit **annual** performance reports electronically to the EPA Project

Officer.

Annual reports are due within 90 days after the annual reporting period ends on December 31st. The progress report is due March 31.

The recipient must submit the final performance report no later than 120 calendar days after the period of performance.

B. Air Quality Index Forecasting:

As resources permit, the grantee agrees to participate in Air Quality Index forecasting for those areas with continuous PM2.5 monitoring and report all continuous PM2.5 data to AQS and to the PM2.5 mapping program.

C. EPA Involvement in Cooperative Agreement (Substantial Involvement):

EPA's role in the Agreement will include the review and approval of the grantee's PM 2.5 annual monitoring network plan.

D. Problems, Delays or Adverse Conditions:

In accordance with 2 CFR §200.328(d)(1), the recipient agrees to inform EPA as soon as problems, delays or adverse conditions become known which materially impair the ability to meet the outputs/outcomes in the assistance agreement workplan.

E. Quality Assurance:

Authority: Quality Assurance applies to all assistance agreements involving environmental information as defined in 2 C.F.R. § 1500.12 Quality Assurance.

The recipient shall ensure that subawards involving environmental information issued under this agreement include appropriate quality requirements for the work. The recipient shall ensure sub-award recipients develop and implement a Quality Assurance (QA) planning documentin accordance with this term and condition; and/or ensure sub-award recipients implement all applicable approved QA planning documents.

1.Quality Management Plan (QMP)

a. Prior to beginning environmental information operations, the recipient must:

i. Submit a previously EPA-approved and current QMP,

ii. The EPA Quality Assurance Manager or designee (hereafter referred to as QAM) will notify the recipient and EPA Project Officer (PO) in writing if the QMP is acceptable for this agreement.

b. The recipient must submit the QMP within 90 days after grant award, and/or no more than 120 days after grant award.

c. The recipient must review their approved QMP at least annually.These documented reviews shall be made available to the sponsoring EPA organization if requested. When necessary, the recipient shall revise its QMP to incorporate minor changes and notify the EPAPO and QAM of the changes. If significant changes have been made to the Quality Program that affect the performance of environmental information operations, it may be necessary to re-submit the entire QMP for re-approval. In general, a copy of any QMP revision(s) made during the year should be submitted to the EPA PO and QAM in writing when such changes occur. Conditions requiring the revision and resubmittal of an approved QMP can be found in section 6 of EPA's Quality Management Plan (QMP) Standard.

2. Quality Assurance Project Plan (QAPP)

a. Prior to beginning environmental information operations, the recipient must:

i. Submit a previously EPA-approved QAPP proposed to ensure the collected, produced, evaluated, or used environmental information is of known and documented quality for the intended use(s).

ii. The EPA Quality Assurance Manager or designee (hereafter referred to as QAM) will notify the

recipient and EPA Project Officer (PO) in writing if the previously EPA-approved QAPP is acceptable for this agreement.

b. The recipient must submit the QAPP 90 days after grant award, and/or no more than120days after grant award.
c. The recipient shall notify the PO and QAM when substantive changes are needed to the QAPP. EPA may require the QAPP be updated and re-submitted for approval.

d. The recipient must review their approved QAPP at least annually. The results of the QAPP review and any revisions must be submitted to the PO and the QAM at least annually and may also be submitted when changes occur.

For Reference:

• Quality Management Plan (QMP) Standard and EPA's Quality Assurance Project Plan (QAPP) Standard; contain quality specifications for EPA and non-EPA organizations and definitions applicable to these terms and conditions.

• EPA QA/G-5: *Guidance for Quality Assurance Project Plans*.

•(QAM and/or PO may insert QA references that inform or assist the recipient here).

•EPA's Quality Program website has a list of QA managers, and Non-EPA Organizations Quality Specifications.

• The Office of Grants and Debarment Implementation of Quality Assurance Requirements for Organizations Receiving EPA Financial Assistance.

F. Competency of Organizations Generating Environmental Measurement Data:

Data In accordance with Agency Policy Directive Number FEM-2012-02, Policy to Assure the Competency of Organizations Generating Environmental Measurement Data under Agency-Funded Assistance Agreements, Recipient agrees, by entering into this agreement, that it has demonstrated competency prior to award, or alternatively, where a pre-award demonstration of competency is not practicable, Recipient agrees to demonstrate competency prior to carrying out any activities under the award involving the generation or use of environmental data.

Recipient shall maintain competency for the duration of the project period of this agreement and this will be documented during the annual reporting process. A copy of the Policy is available online at https: //www.epa.gov/measurements-modeling/documents-about-measurement-competency-under-assistance-agreements or a copy may also be requested by contacting the EPA Project Officer for this award.

G. Geospatial Data Standards:

All geospatial data created must be consistent with Federal Geographic Data Committee (FGDC) endorsed standards. Information on these standards may be found at www.fgdc.gov.

H. Cybersecurity Grant Condition for Other Recipients, Including Consortia:

(a) The recipient agrees that when collecting and managing environmental data under this assistance agreement, it will protect the data by following all applicable State or Tribal law cybersecurity requirements.

(b) (1) EPA must ensure that any connections between the recipient's network or information system and EPA networks used by the recipient to transfer data under this agreement, are secure. For purposes of this Section, a connection is defined as a dedicated persistent interface between an Agency IT system and an external IT system for the purpose of transferring information. Transitory, user-controlled connections such as website browsing are excluded from this definition. If the recipient's connections as defined above do not go through the Environmental Information Exchange Network or EPA's Central Data Exchange, the recipient agrees to contact the EPA Project Officer (PO) no later than 90 days after the date of this award and work with the designated Regional/Headquarters Information Security Officer to ensure that the connections meet EPA security requirements, including entering into Interconnection Service Agreements as appropriate. This condition does not apply to manual entry of data by the recipient into systems operated and used by EPA's regulatory programs for the submission of reporting and/or compliance data.

(2) The recipient agrees that any subawards it makes under this agreement will require the subrecipient to comply with the requirements in (b)(1) if the subrecipient's network or information system is connected to EPA networks to transfer data to the Agency using systems other than the Environmental Information Exchange Network or EPA's Central Data Exchange. The recipient will be in compliance with this condition: by including this requirement in subaward agreements; and during subrecipient monitoring deemed necessary by the recipient or subrecipient under 2 CFR 200.332(e), by inquiring whether the subrecipient has contacted the EPA Project Officer. Nothing in this condition requires the recipient to contact the EPA Project Officer on behalf of a subrecipient or to be involved in the negotiation of an Interconnection Service Agreement between the subrecipient and EPA.

WHEREAS, Knox County Air Quality Management has been awarded funding from the U.S. Environmental Protection Agency in support of its ongoing Air Pollution Control Program; and

WHEREAS, Knox County desires to accept the award in the amount of $100,000.00 over the project period of October 1, 2024 through September 30, 2026; and

WHEREAS, this award requires a local contribution from Knox County, as further detailed in the attached agreement.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Knox County Commission hereby authorizes the acceptance of funding in the amount of $100,000.00 over the period of October 1, 2024 through September 30, 2026 from the U.S. Environmental Protection Agency for Knox County Air Quality Management's ongoing Air Pollution Control Program.

BE IT FURTHER RESOLVED, that the Cooperative Agreement, Administrative Conditions, and Programmatic Conditions providing for such funding are hereby adopted and approved in substantive form as presented this date, copies of which are attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Knox County Mayor is hereby authorized to execute the Cooperative Agreement and any and all other documents which may be required for Knox County to receive funding from the U.S. Environmental Protection Agency for said purpose, subject to the review of the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

PROJECT TITLE AND DESCRIPTION

Air Pollution Control Program Support

See Attachment 1 for project description.

BUDGET PERIOD	PROJECT PERIOD	TOTAL BUDGET PERIOD COST	TOTAL PROJECT PERIOD COST
10/01/2024 - 09/30/2026	10/01/2024 - 09/30/2026	$ 1,991,916.00	$ 1,991,916.00

NOTICE OF AWARD

Based on your Application dated 08/01/2024 including all modifications and amendments, the United States acting by and through the US Environmental Protection Agency (EPA) hereby awards $ 100,000.00. EPA agrees to cost-share 41.17% of all approved budget period costs incurred, up to and not exceeding total federal funding of $ 100,000.00. Recipient's signature is not required on this agreement. The recipient demonstrates its commitment to carry out this award by either: 1) drawing down funds within 21 days after the EPA award or amendment mailing date; or 2) not filing a notice of disagreement with the award terms and conditions within 21 days after the EPA award or amendment mailing date. If the recipient disagrees with the terms and conditions specified in this award, the authorized representative of the recipient must furnish a notice of disagreement to the EPA Award Official within 21 days after the EPA award or amendment mailing date. In case of disagreement, and until the disagreement is resolved, the recipient should not draw down on the funds provided by this award/amendment, and any costs incurred by the recipient are at its own risk. This agreement is subject to applicable EPA regulatory and statutory provisions, all terms and conditions of this agreement and any attachments.

Attachment 1 - Project Description

This action provides funding in the amount of $100,000.00 to Knox County, Tennessee, for development and implementation of air pollution control programs throughout the County.

The activities include implementing activities within the scope of the Section 105 program including: 1) To implement national priorities as defined in the Environmental Protection Agency's (EPA) national guidance and consistent with EPA's Strategic Plan; 2) actions mandated by statute or regulation; 3) Program activities delegated to the recipient (state, local or tribe) for which EPA provides section 105 grant funding. A continuing program typically includes, but is not limited to, such activities as: analysis and planning for attainment and maintenance of national ambient air quality standards (NAAQS); control strategy development and implementation; reduction of risks from hazardous air pollutants; air quality monitoring; ambient air quality and source modeling; inventory of emissions; regulation development and implementation; non-Title V related permitting and enforcement; public outreach; staff training and development; air pollution data analysis and management; air cross-media analysis and control; air pollution prevention activities; and other innovative approaches to pollution reduction including economic incentive and market-based (allowance and trading) programs.The anticipated deliverables include development and implementation of stationary source regulations; promulgation and update of enhanced mobile source regulations; improvement of emission inventories for modeling simulations; and operating monitoring network(s) that collects air data to improve and maintain the public's air quality. The expected outcomes include a broadened awareness of air quality programs that are established to address the attainment and maintenance of (NAAQS) as well as immediate and emerging threats to public health and welfare from air pollution (CAA 105(a)). The intended beneficiaries include local residents of Knox County who will have decreased exposure to criteria and hazardous air pollutants.No subawards are included in this assistance agreement.

Administrative Conditions

National Administrative Terms and Conditions

General Terms and Conditions

The recipient agrees to comply with the current Environmental Protection Agency (EPA) general terms and conditions available at: https://www.epa.gov/system/files/documents/2024-10/fy_2025_epa_general_terms_and_conditions_effective_october_1_2024_or_later.pdf

These terms and conditions are in addition to the assurances and certifications made as a part of the award and the terms, conditions, or restrictions cited throughout the award.

The EPA repository for the general terms and conditions by year can be found at: https://www.epa.gov/grants/grant-terms-and-conditions#general.

A. Correspondence Condition

The terms and conditions of this agreement require the submittal of reports, specific requests for approval, or notifications to EPA. Unless otherwise noted, all such correspondence should be sent to the following email addresses:

•Federal Financial Reports (SF-425): rtpfc-grants@epa.gov and *Angela Stampley, Stampley.Angela@epa.gov*

•All other forms/certifications/assurances, Indirect Cost Rate Agreements, Requests for Extensions of the Budget and Project Period, Amendment Requests, Requests for other Prior Approvals, updates to recipient information (including email addresses, changes in contact information or changes in authorized representatives) and other notifications: *Angela Stampley, Stampley.Angela@epa.gov and Jimmy Robinson, Robinson.Jimmy@epa.gov.*

•Payment requests (if applicable): *Angela Stampley, Stampley.Angela@epa.gov*

•Quality Assurance documents, workplan revisions, equipment lists, programmatic reports and deliverables: *Angela Stampley, Stampley.Angela@epa.gov*

B. Contingent Funding

EPA is funding this agreement incrementally. There is no guarantee of funding beyond the first year. The **Total Approved Assistance Amount** identified on Line 12 of the budget table of this award is contingent upon the availability of appropriated funds, EPA funding priorities, and satisfactory progress in carrying out the activities described in the scope of work. If EPA informs the recipient that the amount on Line 12 will be reduced, the recipient agrees to provide an updated workplan and budget information, as needed, to amend the agreement.

Programmatic Conditions

A. Joint Evaluation for FY 2025:
Participate with EPA in an end of year evaluation of performance to be completed by December 31, 2025. This evaluation will be based on jointly evaluating and reporting progress and accomplishments under the workplan throughout the year. In accordance with 40 CFR 35.115 and the EPA Policy on Managing Unliquidated Obligations and Ensuring Progress under EPA Assistance Agreements, the joint evaluation process will include:

1. discussions of accomplishments as measured against work plan commitments;
2. discussions of the cumulative effectiveness of the work performed under all work plan components;
3. discussions of existing and potential problem areas;
4. suggestions for improvement, including, where feasible, schedules for making improvements; and
5. discussions of how effectively grant funds were managed and utilized, considering any accumulation of unliquidated obligations.
6. Conditional Workplan Approval for FY 2025: The recipient agrees to continue workplan negotiations until the workplan is fully approved.

B. PERFORMANCE REPORTING AND FINAL PERFORMANCE REPORT

Performance Reports – Content

In accordance with 2 CFR 200.329, the recipient agrees to submit an annual Section 105 Grant Summary Report electronically to the EPA Administrative Project Officer within 120 days after the reporting period ends on September 30 each year. The report should include the following information: 1) a statement that all workplan commitments and outputs/outcomes under the EPA strategic plan goal(s) and objective(s) have been met; 2) or if commitments are not met, then explain the reasons why the established outputs/outcomes were not achieved; and 3) any additional pertinent information including, when appropriate, analysis and explanation of unliquidated obligations (e.g., unspent EPA funds), cost overruns or high-unit costs. Additionally, the report must prominently display the three Essential Elements for state and local agency workplans under the CAA Section 105 categorical grant program: 1) Strategic Plan Goal; 2) Strategic Plan Objective; and 3) Workplan Commitments plus time frame. (See Grants Policy Issuance 11-03 State Grant Workplans and Progress Reports for more information). EPA is not requiring a final report for CAA Section 105 grant program in accordance with 2 CFR 300.328(e).
Additionally, the recipient agrees to inform EPA as soon as problems, delays, or adverse conditions which will materially impair the ability to meet the outputs/outcomes specified in the grant workplan are known.

C. Cybersecurity Condition

Cybersecurity Grant Condition for Other Recipients, Including Intertribal Consortia

(a) The recipient agrees that when collecting and managing environmental data under this assistance agreement, it will protect the data by following all applicable State or Tribal law cybersecurity requirements.

(b) (1) EPA must ensure that any connections between the recipient's network or information system and EPA networks used by the recipient to transfer data under this agreement, are secure. For purposes of this Section, a connection is defined as a dedicated persistent interface between an Agency IT system and an external IT system for the purpose of transferring information. Transitory, user-controlled connections such as website browsing are excluded from this definition.

If the recipient's connections as defined above do not go through the Environmental Information Exchange Network or EPA's Central Data Exchange, the recipient agrees to contact the EPA Project Officer (PO) no later than 90 days after the date of this award and work with the designated Regional/Headquarters Information Security Officer to ensure that the connections meet EPA security requirements, including entering into Interconnection Service Agreements as appropriate. This condition does not apply to manual entry of data by the recipient into systems operated and used by EPA's regulatory programs for the submission of reporting and/or compliance data.

(2) The recipient agrees that any subawards it makes under this agreement will require the subrecipient to comply with the requirements in (b)(1) if the subrecipient's network or information system is connected to EPA networks to transfer data to the Agency using systems other than the Environmental Information Exchange Network or EPA's Central Data Exchange. The recipient will be in compliance with this condition: by including this requirement in subaward agreements; and during subrecipient monitoring deemed necessary by the recipient under 2 CFR 200.332(d), by inquiring whether the subrecipient has contacted the EPA Project Officer. Nothing in this condition requires the recipient to contact the EPA Project Officer on behalf of a subrecipient or to be involved in the negotiation of an Interconnection Service Agreement between the subrecipient and EPA.

D. Competency Policy

Competency of Organizations Generating Environmental Measurement Data

In accordance with Agency Policy Directive Number FEM-2012-02, Policy to Assure the Competency of Organizations Generating Environmental Measurement Data under Agency-Funded Assistance Agreements,

Recipient agrees, by entering into this agreement, that it has demonstrated competency prior to award, or alternatively, where a pre-award demonstration of competency is not practicable, Recipient agrees to demonstrate competency prior to carrying out any activities under the award involving the generation or use of environmental data. Recipient shall maintain competency for the duration of the project period of this agreement and this will be documented during the annual reporting process. A copy of the Policy is available online at https://www.epa.gov/sites/production/files/2015-03/documents/competency-policy-aaia-new.pdf or a copy may also be requested by contacting the EPA Project Officer for this award.

E. Geospatial Data Standards

All geospatial data created must be consistent with Federal Geographic Data Committee (FGDC) endorsed standards. Information on these standards may be found at https://www.fgdc.gov/.

F. QUALITY ASSURANCE

Authority: Quality Assurance applies to all assistance agreements involving environmental information as defined in 2 C.F.R. § 1500.12 Quality Assurance.

The recipient shall ensure that subawards involving environmental information issued under this agreement include appropriate quality requirements for the work. The recipient shall ensure sub-award recipients develop and implement the Quality Assurance (QA) planning documents in accordance with this term and condition; and/or ensure sub-award recipients implement all applicable approved QA planning documents.

1.Quality Management Plan (QMP)

a. Prior to beginning environmental information operations, the recipient must:

i. Submit a previously EPA-approved and current QMP,

ii. The EPA Quality Assurance Manager or designee (hereafter referred to as QAM) will notify the recipient and EPA Project Officer (PO) in writing if the QMP is acceptable for this agreement.

b. The recipient must submit the QMP within 90 days after grant award, and/or no more than 180 days after grant award.

c. The recipient must review their approved QMP at least annually.These documented reviews shall be made available to the sponsoring EPA organization if requested. When necessary, the recipient shall revise its QMP to incorporate minor changes and notify the EPAPO and QAM of the changes. If significant changes have been made to the Quality Program that affect the performance of environmental information operations, it may be necessary to re-submit the entire QMP for re-approval. In general, a copy of any QMP revision(s) made during the year should be submitted to the EPA PO and QAM in writing when such changes occur. Conditions requiring the revision and resubmittal of an approved QMP can be found in section 6 of EPA's Quality Management Plan (QMP) Standard.

2. Quality Assurance Project Plan (QAPP)

a. Prior to beginning environmental information operations, the recipient must:

i. Submit a previously EPA-approved QAPP proposed to ensure the collected, produced, evaluated, or used environmental information is of known and documented quality for the intended use(s).

ii. The EPA Quality Assurance Manager or designee (hereafter referred to as QAM) will notify the recipient and EPA Project Officer (PO) in writing if the previously EPA-approved QAPP is acceptable for this agreement.

b. The recipient must submit the QAPP 90 days after grant award, and/or no more than 180 days after grant award.

c. The recipient shall notify the PO and QAM when substantive changes are needed to the QAPP. EPA may require the QAPP be updated and re-submitted for approval.

d. The recipient must review their approved QAPP at least annually. The results of the QAPP review and any revisions must be submitted to the PO and the QAM at least annually and may also be submitted when changes occur.

For Reference:

• Quality Management Plan (QMP) Standard and EPA's Quality Assurance Project Plan (QAPP) Standard; contain quality specifications for EPA and non-EPA organizations and definitions applicable to these terms and conditions.

• EPA QA/G-5: Guidance for Quality Assurance Project Plans.

•(QAM and/or PO may insert QA references that inform or assist the recipient here).

•EPA's Quality Program website has a list of QA managers, and Specifications for EPA and Non-EPA Organizations.

• The Office of Grants and Debarment Implementation of Quality Assurance Requirements for Organizations Receiving EPA Financial Assistance

G. Minimum Matching Share Requirement:

This award and the resulting federal funding share of **57.00%** as shown under “Notice of Award” above is based on estimated costs requested in the recipient's application dated August 1, 2024. While actual total costs may differ than those estimates, the recipient is required to provide no less than **40%** of the final total allowable program/project costs (outlays). EPA's participation shall not exceed the total amount of federal funds awarded or the maximum federal share for this program of 60% of the final total allowable program/project costs.

H. Use of Logos

If the EPA logo is appearing along with logos from other participating entities on websites, outreach materials, or reports, it must **not** be prominently displayed to imply that any of the recipient or subrecipient's activities are being conducted by the EPA. Instead, the EPA logo should be accompanied with a statement indicating that the City of Jacksonville, received financial support from the EPA under an Assistance Agreement. More information is available at: https://www.epa.gov/stylebook/using-epa-seal-and-logo#policy.

WHEREAS, Knox County has received a grant contract from the Tennessee Department of Health for the provision of Implementation of Dementia: Community, Assistance, Resources and Empowerment (CARE) Services for the period beginning June 1, 2025 and ending September 29, 2025; and

WHEREAS, under the terms of the proposed grant contract, the Knox County Health Department will receive the amount not to exceed $10,000.00 for the aforesaid purpose, as further defined in the Scope of Services and Deliverables section of the attached grant contract; and

WHEREAS, this grant contract does not require matching funds from Knox County.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The grant contract with the Tennessee Department of Health for the provision of Implementation of Dementia: Community, Assistance, Resources and Empowerment (CARE) Services is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the grant contract with the Tennessee Department of Health for the provision of Implementation of Dementia: Community, Assistance, Resources and Empowerment (CARE) Services shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

GRANT CONTRACT
BETWEEN THE STATE OF TENNESSEE,
DEPARTMENT OF HEALTH
AND
KNOX COUNTY GOVERNMENT DBA KNOX COUNTY HEALTH DEPARTMENT

This grant contract ("Grant Contract"), by and between the State of Tennessee, Department of Health, hereinafter referred to as the "State" or the "Grantor State Agency" and Grantee Knox County Government dba Knox County Health Department, hereinafter referred to as the "Grantee," is for the provision of Implementation of Dementia: Community, Assistance, Resources, & Empowerment (CARE) services, as further defined in the "SCOPE OF SERVICES AND DELIVERABLES."

Grantee Edison Vendor ID # 2830

A. SCOPE OF SERVICES AND DELIVERABLES:

A.1. The Grantee shall provide the scope of services and deliverables ("Scope") as required, described, and detailed in this Grant Contract.

A.2. Service Definitions.

a. ADRD means Alzheimer's disease and related dementias.

b. Caregiver means someone who provides support with daily activities of living, manages medications, coordinates healthcare, and ensures safety and well-being for someone living with a dementia diagnosis. They may care for family members of origin (mom, dad, brother, sister, grandparent, etc.) or their chosen family (congregation member, neighbor, close friend).

c. Chronic conditions mean hypertension, traumatic brain injury, diabetes mellitus, cardiovascular diseases, obesity, hypercholesterolemia, sleep disorders, depression, Parkinson's disease, multiple sclerosis, chronic kidney disease, and other mood disorders.

d. Community means a group of people who share common characteristics, interests, values, or geographic location including, but not limited to, neighborhood, town, city, region, heritage, traditions, language, cultural practices, and religious group or spiritual tradition.

e. Community partners mean local and state government agencies, nonprofit organizations, senior centers, community groups, health and social service providers, educational institutions, researchers, healthcare providers, faith/religious-based organizations, advocacy groups, local businesses, and employers, etc.

f. Dementia means a group of symptoms that someone can experience if they are living with a diagnosis of Alzheimer's disease, vascular dementia, Lewy body dementia, frontotemporal dementia, other dementia, including Huntington's disease, or a mixture from more than one cause. Symptoms cause a decline in cognitive abilities, severe enough to interfere with daily life and independent functioning.

g. Dementia: CARE means Dementia: Community, Assistance, Resources, and Empowerment

h. Emergency preparedness is the process of planning and organizing resources to respond effectively to emergencies or disasters. It includes creating response plans, training

individuals, stockpiling supplies, coordinating with agencies, and adapting for vulnerable populations to ensure safety and swift recovery.

i. Local government means municipal or county-level authorities responsible for governing smaller geographic areas, such as cities, towns, or counties.

j. Local health department means public health agencies that serve smaller, specific geographic areas such as individual cities or counties.

k. Metro government means larger regional governments that oversee urban areas and surrounding regions, often including multiple cities or counties.

l. Metro health department means Madison, Shelby, Knox, Davidson, Hamilton, and Sullivan counties which operate under local governance, and also work closely with the State.

A.3. Service Goal. Execute the approved work plan aimed at enhancing the well-being of caregivers and the individuals with dementia they support.

A.4. Service Recipients. Individuals living with dementia, caregivers, local or metro communities.

A.5. Service Description. The Grantee shall:

a. Implement programs/services that improve the well-being of service recipients, as outlined in the approved Application for Dementia: CARE, Attachment 1.

b. Evaluate the effectiveness of the implemented services, as described in the approved Application for Dementia: CARE, Attachment 1.

c. Foster community engagement and collaboration.

d. Ensure inclusivity by addressing the needs and perspectives of all individuals, including older adults and other underserved or underrepresented groups, throughout the contract period. This includes using culturally sensitive language, ensuring physical and virtual accessibility, providing translation services, and removing barriers to participation.

e. Submit a sustainability plan to the State to ensure the continuation of services as a community resource.

A.6. Service Reporting. The Grantee must:

a. Confirm or modify the submitted work plan within 30 days of the start of the contract.

b. Submit a monthly status report, in a format provided by the State, by the first Monday of each month, summarizing:

(1) Key activities, accomplishments, milestones, events, training, or partnerships.
(2) Challenges encountered and strategies used to address them.
(3) Notable successes, preliminary findings, or impacts.
(4) Relevant attachments or supporting documents.

c. Upon the State’s request, facilitate a virtual meeting to provide service status updates with relevant representatives and partners. If the Grantee requires additional technical assistance, a request can be made at any time.

d. Submit all developed marketing materials, press releases, media, or other forms of mass communication, and curriculum for review and approval by the State prior to release to ensure continuity of messaging and cobranding and branding guidelines are maintained.

e. Submit a final report, due by September 29, 2025, detailing activities conducted during the contract term. This should include, but is not limited to:

(1) Summaries for key activities undertaken and accomplishments achieved during the contract period. This may include project milestones reached, events conducted, training sessions held, or partnerships established.
(2) Identification of challenges or obstacles encountered during the reporting period and the strategies implemented to address them. This could include technical difficulties, resource constraints, or unexpected delays.
(3) Identification of successes, seen and unforeseen, preliminary findings, or impacts resulting from project activities.
(4) Inclusion of relevant attachments or supporting documents, such as photos, flyers, reports, meeting minutes, or data tables, to provide additional context and evidence of progress.

A final report submittal process will be determined by the State.

f. Provide annual accrual data in a format provided by the State prior to the end of the State fiscal year (June 30, 2025).

A.7. In the performance of the services under this Grant Contract, the Grantee will collect and maintain data for its own use. The Grantee will not host any information for or on behalf of the State.

A.8. Incorporation of Additional Documents. Each of the following documents is included as a part of this Grant Contract by reference or attachment. In the event of a discrepancy or ambiguity regarding the Grantee's duties, responsibilities, and performance hereunder, these items shall govern in order of precedence below.

a. this Grant Contract document with any attachments or exhibits (excluding the items listed at subsections b. and c., below);

b. the State grant proposal solicitation as may be amended, if any;

c. the Grantee's proposal (Attachment 1) incorporated to elaborate supplementary scope of services specifications.

A.9. Incorporation of Federal Award Identification Worksheet. The federal award identification worksheet, which appears as Attachment 2 is incorporated in this Grant Agreement.

A.10. In the event that the Grantee is subject to an audit in accordance with Section D.19. hereunder, the Grantee shall log in to their account on the Edison Supplier Portal to complete the Information for Audit Purposes (IAP) and End of Fiscal Year (EOFY) eForms.

A.11. No funds awarded under this Grant Contract shall be used for lobbying federal, state, or local officials.

B. TERM OF CONTRACT:

B1. This Grant Contract shall be effective for the period beginning on June 1, 2025 ("Effective Date") and ending on September 29, 2025, ("Term"). The State shall have no obligation to the Grantee for fulfillment of the Scope outside the Term.

C. PAYMENT TERMS AND CONDITIONS:

C.1. Maximum Liability. In no event shall the maximum liability of the State under this Grant Contract exceed ten thousand dollars ($10,000.00) ("Maximum Liability"). The Grant Budget, attached and incorporated as Attachment 3 is the maximum amount due the Grantee under this Grant Contract. The Grant Budget line-items include, but are not limited to, all applicable taxes, fees, overhead, and all other direct and indirect costs incurred or to be incurred by the Grantee.

C.2. Compensation Firm. The Maximum Liability of the State is not subject to escalation for any reason unless amended. The Grant Budget amounts are firm for the duration of the Grant Contract and are not subject to escalation for any reason unless amended, except as provided in Section C.6.

C.3. Payment Methodology. The Grantee shall be reimbursed for actual, reasonable, and necessary costs based upon the Grant Budget, not to exceed the Maximum Liability established in Section C.1. Upon progress toward the completion of the Scope, as described in Section A of this Grant Contract, the Grantee shall submit invoices (Attachment 4) prior to any reimbursement of allowable costs.

C.4. Travel Compensation. Reimbursement to the Grantee for travel, meals, or lodging shall be subject to amounts and limitations specified in the "State Comprehensive Travel Regulations," as they are amended from time to time, and shall be contingent upon and limited by the Grant Budget funding for said reimbursement.

C.5. Invoice Requirements. The Grantee shall invoice the State no more often than monthly, with all necessary supporting documentation, and present such to:

Office of Healthy Aging
c/o Miranda Givens
710 James Robertson Parkway, 5th Fl
Nashville, TN 37219
Email: Miranda.Givens@tn.gov

a. Each invoice shall clearly and accurately detail all of the following required information (calculations must be extended and totaled correctly).

(1) Invoice/Reference Number (assigned by the Grantee).
(2) Invoice Date.
(3) Invoice Period (to which the reimbursement request is applicable).
(4) Grant Contract Number (assigned by the State).
(5) Grantor: Department of Health & Office of Healthy Aging.
(6) Grantor Number (assigned by the Grantee to the above-referenced Grantor).
(7) Grantee Name.
(8) Grantee Tennessee Edison Registration ID Number Referenced in Preamble of this Grant Contract.
(9) Grantee Remittance Address.
(10) Grantee Contact for Invoice Questions (name, phone, or fax).
(11) Itemization of Reimbursement Requested for the Invoice Period— it must detail, at minimum, all of the following:

i. The amount requested by Grant Budget line-item (including any travel expenditure reimbursement requested and for which documentation and receipts, as required by "State Comprehensive Travel Regulations," are attached to the invoice).

ii. The amount reimbursed by Grant Budget line-item to date.
iii. The total amount reimbursed under the Grant Contract to date.
iv. The total amount requested (all line-items) for the Invoice Period.

b. The Grantee understands and agrees to all of the following.

(1) An invoice under this Grant Contract shall include only reimbursement requests for actual, reasonable, and necessary expenditures required in the delivery of service described by this Grant Contract and shall be subject to the Grant Budget and any other provision of this Grant Contract relating to allowable reimbursements.
(2) An invoice under this Grant Contract shall not include any reimbursement request for future expenditures.
(3) An invoice under this Grant Contract shall initiate the timeframe for reimbursement only when the State is in receipt of the invoice, and the invoice meets the minimum requirements of this section C.5.
(4) An invoice under this Grant Contract shall be presented to the Grantor State Agency within thirty (30) days after the end of the calendar month in which the subject costs were incurred or services were rendered by the Grantee. An invoice submitted more than thirty (30) days after such date will NOT be paid. The Grantor State Agency will not deem such Grantee costs to be allowable and reimbursable by the Grantor State Agency unless, at the sole discretion of the Grantor State Agency, the failure to submit a timely invoice is warranted. The Grantee shall submit a special, written request for reimbursement with any such untimely invoice. The request must detail the reason the invoice is untimely as well as the Grantee's plan for submitting future invoices as required, and it must be signed by a Grantee agent that would be authorized to sign this Grant Contract.

C.6. Budget Line-items. Expenditures, reimbursements, and payments under this Grant Contract shall adhere to the Grant Budget. The Grantee may vary from a Grant Budget line-item amount by up to twenty percent (20%) of the line-item amount, provided that any increase is off-set by an equal reduction of other line-item amount(s) such that the net result of variances shall not increase the total Grant Contract amount detailed by the Grant Budget. Any increase in the Grant Budget, grand total amounts shall require an amendment of this Grant Contract.

C.7. Disbursement Reconciliation and Close Out. The Grantee shall submit a grant disbursement reconciliation report within thirty (30) days following the end of each quarter and a final invoice and final grant disbursement reconciliation report within forty-five (45) days of the Grant Contract end date and in form and substance acceptable to the Grantor State Agency (Attachment 5).

a. If total disbursements by the State pursuant to this Grant Contract exceed the amounts permitted by the section C, payment terms and conditions of this Grant Contract, the Grantee shall refund the difference to the State. The Grantee shall submit the refund with the final grant disbursement reconciliation report.

b. The State shall not be responsible for the payment of any invoice submitted to the State after the grant disbursement reconciliation report. The State will not deem any Grantee costs submitted for reimbursement after the grant disbursement reconciliation report to be allowable and reimbursable by the State, and such invoices will NOT be paid.

c. The Grantee's failure to provide a final grant disbursement reconciliation report to the State as required by this Grant Contract shall result in the Grantee being deemed ineligible for reimbursement under this Grant Contract, and the Grantee shall be required to refund any and all payments by the State pursuant to this Grant Contract.

d. The Grantee must close out its accounting records at the end of the Term in such a way that reimbursable expenditures and revenue collections are NOT carried forward.

C.8. Indirect Cost. Should the Grantee request reimbursement for indirect costs, the Grantee must submit to the State a copy of the indirect cost rate approved by the cognizant federal agency or the cognizant state agency, as applicable. The Grantee will be reimbursed for indirect costs in accordance with the approved indirect cost rate and amounts and limitations specified in the attached Grant Budget. Once the Grantee makes an election and treats a given cost as direct or indirect, it must apply that treatment consistently and may not change during the Term. Any changes in the approved indirect cost rate must have prior approval of the cognizant federal agency or the cognizant state agency, as applicable. If the indirect cost rate is provisional during the Term, once the rate becomes final, the Grantee agrees to remit any overpayment of funds to the State, and subject to the availability of funds the State agrees to remit any underpayment to the Grantee.

C.9. Cost Allocation. If any part of the costs to be reimbursed under this Grant Contract are joint costs involving allocation to more than one program or activity, such costs shall be allocated and reported in accordance with the provisions of Central Procurement Office Policy Statement 2013-007 or any amendments or revisions made to this policy statement during the Term.

C.10. Payment of Invoice. A payment by the State shall not prejudice the State's right to object to or question any reimbursement, invoice, or related matter. A payment by the State shall not be construed as acceptance of any part of the work or service provided or as approval of any amount as an allowable cost.

C.11. Non-allowable Costs. Any amounts payable to the Grantee shall be subject to reduction for amounts included in any invoice or payment that are determined by the State, on the basis of audits or monitoring conducted in accordance with the terms of this Grant Contract, to constitute unallowable costs.

C.12. State's Right to Set Off. The State reserves the right to set off or deduct from amounts that are or shall become due and payable to the Grantee under this Grant Contract or under any other agreement between the Grantee and the State of Tennessee under which the Grantee has a right to receive payment from the State.

C.13. Prerequisite Documentation. The Grantee shall not invoice the State under this Grant Contract until the State has received the following, properly completed documentation.

a. The Grantee shall complete, sign, and return to the State an "Authorization Agreement for Automatic Deposit (ACH Credits) Form" provided by the State. By doing so, the Grantee acknowledges and agrees that, once this form is received by the State, all payments to the Grantee under this or any other grant contract will be made by automated clearing house ("ACH").

b. The Grantee shall complete, sign, and return to the State the State-provided W-9 form. The taxpayer identification number on the W-9 form must be the same as the Grantee's Federal Employer Identification Number or Social Security Number referenced in the Grantee's Edison registration information.

D. STANDARD TERMS AND CONDITIONS:

D.1. Required Approvals. The State is not bound by this Grant Contract until it is signed by the parties and approved by appropriate officials in accordance with applicable Tennessee laws and regulations (depending upon the specifics of this Grant Contract, the officials may include, but are not limited to, the Commissioner of Finance and Administration, the Commissioner of Human Resources, and the Comptroller of the Treasury).

D.2. Modification and Amendment. This Grant Contract may be modified only by a written amendment signed by all parties and approved by the officials who approved the Grant Contract and, depending upon the specifics of the Grant Contract as amended, any additional officials required by Tennessee laws and regulations (the officials may include, but are not limited to, the Commissioner of Finance and Administration, the Commissioner of Human Resources, and the Comptroller of the Treasury).

D.3. Termination for Convenience. The State may terminate this Grant Contract without cause for any reason. A termination for convenience shall not be a breach of this Grant Contract by the State. The State shall give the Grantee at least thirty (30) days written notice before the effective termination date. The Grantee shall be entitled to compensation for authorized expenditures and satisfactory services completed as of the termination date, but in no event shall the State be liable to the Grantee for compensation for any service that has not been rendered. The final decision as to the amount for which the State is liable shall be determined by the State. The Grantee shall not have any right to any actual general, special, incidental, consequential, or any other damages whatsoever of any description or amount for the State's exercise of its right to terminate for convenience.

D.4. Termination for Cause. If the Grantee fails to properly perform its obligations under this Grant Contract, or if the Grantee violates any terms of this Grant Contract, the State shall have the right to immediately terminate this Grant Contract and withhold payments in excess of fair compensation for completed services. Notwithstanding the exercise of the State's right to terminate this Grant Contract for cause, the Grantee shall not be relieved of liability to the State for damages sustained by virtue of any breach of this Grant Contract by the Grantee.

D.5. Subcontracting. The Grantee shall not assign this Grant Contract or enter into a subcontract for any of the services performed under this Grant Contract without obtaining the prior written approval of the State. If such subcontracts are approved by the State, each shall contain, at a minimum, sections of this Grant Contract pertaining to "Conflicts of Interest," "Lobbying," "Nondiscrimination," "Public Accountability," "Public Notice," and "Records" (as identified by the section headings). Notwithstanding any use of approved subcontractors, the Grantee shall remain responsible for all work performed.

D.6. Conflicts of Interest. The Grantee warrants that no part of the total Grant Contract Amount shall be paid directly or indirectly to an employee or official of the State of Tennessee as wages, compensation, or gifts in exchange for acting as an officer, agent, employee, subcontractor, or consultant to the Grantee in connection with any work contemplated or performed relative to this Grant Contract.

D.7. Lobbying. The Grantee certifies, to the best of its knowledge and belief, that:

a. No federally appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

b. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this contract, grant, loan, or cooperative agreement, the Grantee shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

c. The Grantee shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into and is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352.

D.8. Communications and Contacts. All instructions, notices, consents, demands, or other communications required or contemplated by this Grant Contract shall be in writing and shall be made by certified, first class mail, return receipt requested and postage prepaid, by overnight courier service with an asset tracking system, or by email or facsimile transmission with recipient confirmation. All communications, regardless of method of transmission, shall be addressed to the respective party as set out below:

The State:

Miranda Givens, Commissioner's Fellow
Department of Health
710 James Robertson Parkway, 5th Fl
Nashville, TN 37219
Miranda.Givens@tn.gov
Telephone # NA

The Grantee:

Kevin Parton, Senior Director
Knox County Government dba Knox County Health Department
1408 Dameron Avenue
Knoxville, TN 37917
tdhcontracts@knoxcounty.org
Telephone # 865-215-5273
FAX # 865-215-5295

A change to the above contact information requires written notice to the person designated by the other party to receive notice.

All instructions, notices, consents, demands, or other communications shall be considered effectively given upon receipt or recipient confirmation as may be required.

D.9. Subject to Funds Availability. This Grant Contract is subject to the appropriation and availability of State or Federal funds. In the event that the funds are not appropriated or are otherwise unavailable, the State reserves the right to terminate this Grant Contract upon written notice to the Grantee. The State's right to terminate this Grant Contract due to lack of funds is not a breach of this Grant Contract by the State. Upon receipt of the written notice, the Grantee shall cease all work associated with the Grant Contract. Should such an event occur, the Grantee shall be entitled to compensation for all satisfactory and authorized services completed as of the termination date. Upon such termination, the Grantee shall have no right to recover from the State any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

D.10. Nondiscrimination. The Grantee hereby agrees, warrants, and assures that no person shall be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination in the performance of this Grant Contract or in the employment practices of the Grantee on the

grounds of handicap or disability, age, race, color, religion, sex, national origin, or any other classification protected by federal, Tennessee state constitutional, or statutory law. The Grantee shall, upon request, show proof of nondiscrimination and shall post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.

D.11. HIPAA Compliance. As applicable, the State and the Grantee shall comply with obligations under the Health Insurance Portability and Accountability Act of 1996 (HIPAA), Health Information Technology for Economic and Clinical Health Act (HITECH) and any other relevant laws and regulations regarding privacy (collectively the "Privacy Rules"). The obligations set forth in this Section shall survive the termination of this Grant Contract.

a. The Grantee warrants to the State that it is familiar with the requirements of the Privacy Rules and will comply with all applicable HIPAA requirements in the course of this Grant Contract.

b. The Grantee warrants that it will cooperate with the State, including cooperation and coordination with State privacy officials and other compliance officers required by the Privacy Rules, in the course of performance of this Grant Contract so that both parties will be in compliance with the Privacy Rules.

c. The State and the Grantee will sign documents, including but not limited to business associate agreements, as required by the Privacy Rules and that are reasonably necessary to keep the State and the Grantee in compliance with the Privacy Rules. This provision shall not apply if information received by the State under this Grant Contract is NOT "protected health information" as defined by the Privacy Rules, or if the Privacy Rules permit the State to receive such information without entering into a business associate agreement or signing another such document.

D.12. Public Accountability. If the Grantee is subject to Tenn. Code Ann. § 8-4-401 *et seq*., or if this Grant Contract involves the provision of services to citizens by the Grantee on behalf of the State, the Grantee agrees to establish a system through which recipients of services may present grievances about the operation of the service program. The Grantee shall also display in a prominent place, located near the passageway through which the public enters in order to receive Grant supported services, a sign at least eleven inches (11") in height and seventeen inches (17") in width stating:

NOTICE: THIS AGENCY IS A RECIPIENT OF TAXPAYER FUNDING. IF YOU OBSERVE AN AGENCY DIRECTOR OR EMPLOYEE ENGAGING IN ANY ACTIVITY WHICH YOU CONSIDER TO BE ILLEGAL, IMPROPER, OR WASTEFUL, PLEASE CALL THE STATE COMPTROLLER'S TOLL-FREE HOTLINE: 1-800-232-5454.

The sign shall be on the form prescribed by the Comptroller of the Treasury. The Grantor State Agency shall obtain copies of the sign from the Comptroller of the Treasury, and upon request from the Grantee, provide Grantee with any necessary signs.

D.13. Public Notice. All notices, informational pamphlets, press releases, research reports, signs, and similar public notices prepared and released by the Grantee in relation to this Grant Contract shall include the statement, "This project is funded under a grant contract with the State of Tennessee." All notices by the Grantee in relation to this Grant Contract shall be approved by the State.

D.14. Licensure. The Grantee, its employees, and any approved subcontractor shall be licensed pursuant to all applicable federal, state, and local laws, ordinances, rules, and regulations and shall upon request provide proof of all licenses.

D.15. Records. The Grantee and any approved subcontractor shall maintain documentation for all charges under this Grant Contract. The books, records, and documents of the Grantee and any approved subcontractor, insofar as they relate to work performed or money received under this Grant Contract, shall be maintained in accordance with applicable Tennessee law. In no case shall the records be maintained for a period of less than five (5) full years from the date of the final payment. The Grantee's records shall be subject to audit at any reasonable time and upon reasonable notice by the Grantor State Agency, the Comptroller of the Treasury, or their duly appointed representatives.

The records shall be maintained in accordance with Governmental Accounting Standards Board (GASB) Accounting Standards or the Financial Accounting Standards Board (FASB) Accounting Standards Codification, as applicable, and any related AICPA Industry Audit and Accounting guides.

In addition, documentation of grant applications, budgets, reports, awards, and expenditures will be maintained in accordance with U.S. Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

Grant expenditures shall be made in accordance with local government purchasing policies and procedures and purchasing procedures for local governments authorized under state law. The Grantee shall also comply with any recordkeeping and reporting requirements prescribed by the Tennessee Comptroller of the Treasury.

The Grantee shall establish a system of internal controls that utilize the COSO Internal Control - Integrated Framework model as the basic foundation for the internal control system. The Grantee shall incorporate any additional Comptroller of the Treasury directives into its internal control system.

Any other required records or reports which are not contemplated in the above standards shall follow the format designated by the head of the Grantor State Agency, the Central Procurement Office, or the Commissioner of Finance and Administration of the State of Tennessee.

D.16. Monitoring. The Grantee's activities conducted and records maintained pursuant to this Grant Contract shall be subject to monitoring and evaluation by the State, the Comptroller of the Treasury, or their duly appointed representatives.

D.17. Progress Reports. The Grantee shall submit brief, periodic, progress reports to the State as requested.

D.18. Annual and Final Reports. The Grantee shall submit, within three (3) months of the conclusion of each year of the Term, an annual report. For grant contracts with a term of less than one (1) year, the Grantee shall submit a final report within three (3) months of the conclusion of the Term. For grant contracts with multiyear terms, the final report will take the place of the annual report for the final year of the Term. The Grantee shall submit annual and final reports to the Grantor State Agency. At minimum, annual and final reports shall include: (a) the Grantee's name; (b) the Grant Contract's Edison identification number, Term, and total amount; (c) a narrative section that describes the program's goals, outcomes, successes and setbacks, whether the Grantee used benchmarks or indicators to determine progress, and whether any proposed activities were not completed; and (d) other relevant details requested by the Grantor State Agency. Annual and final report documents to be completed by the Grantee shall appear on the Grantor State Agency's website or as an Attachment 6 to the Grant Contract.

D.19. Audit Report. The Grantee shall be audited in accordance with applicable Tennessee law.

At least ninety (90) days before the end of its fiscal year, the Grantee shall complete the Information for Audit Purposes ("IAP") form online (accessible through the Edison Supplier portal) to notify the State whether or not Grantee is subject to an audit. The Grantee should submit only

one, completed form online during the Grantee's fiscal year. Immediately after the fiscal year has ended, the Grantee shall fill out the End of Fiscal Year ("EOFY") (accessible through the Edison Supplier portal).

When a federal single audit is required, the audit shall be performed in accordance with U.S. Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

A copy of the audit report shall be provided to the Comptroller by the licensed, independent public accountant. Audit reports shall be made available to the public.

D.20. Procurement. If other terms of this Grant Contract allow reimbursement for the cost of goods, materials, supplies, equipment, or contracted services, such procurement shall be made on a competitive basis, including the use of competitive bidding procedures, where practical. The Grantee shall maintain documentation for the basis of each procurement for which reimbursement is paid pursuant to this Grant Contract. In each instance where it is determined that use of a competitive procurement method is not practical, supporting documentation shall include a written justification for the decision and for use of a non-competitive procurement. If the Grantee is a subrecipient, the Grantee shall comply with 2 C.F.R. §§ 200.317—200.327 when procuring property and services under a federal award.

The Grantee shall obtain prior approval from the State before purchasing any equipment under this Grant Contract.

For purposes of this Grant Contract, the term "equipment" shall include any article of nonexpendable, tangible, personal property having a useful life of more than one year and an acquisition cost which equals or exceeds ten thousand dollars ($10,000.00).

D.21. Strict Performance. Failure by any party to this Grant Contract to insist in any one or more cases upon the strict performance of any of the terms, covenants, conditions, or provisions of this Grant Contract is not a waiver or relinquishment of any term, covenant, condition, or provision. No term or condition of this Grant Contract shall be held to be waived, modified, or deleted except by a written amendment signed by the parties.

D.22. Independent Contractor. The parties shall not act as employees, partners, joint venturers, or associates of one another in the performance of this Grant Contract. The parties acknowledge that they are independent contracting entities and that nothing in this Grant Contract shall be construed to create a principal/agent relationship or to allow either to exercise control or direction over the manner or method by which the other transacts its business affairs or provides its usual services. The employees or agents of one party shall not be deemed or construed to be the employees or agents of the other party for any purpose whatsoever.

D.23. Limitation of State's Liability. The State shall have no liability except as specifically provided in this Grant Contract. In no event will the State be liable to the Grantee or any other party for any lost revenues, lost profits, loss of business, loss of grant funding, decrease in the value of any securities or cash position, time, money, goodwill, or any indirect, special, incidental, punitive, exemplary or consequential damages of any nature, whether based on warranty, contract, statute, regulation, tort (including but not limited to negligence), or any other legal theory that may arise under this Grant Contract or otherwise. The State's total liability under this Grant Contract (including any exhibits, schedules, amendments or other attachments to the Contract) or otherwise shall under no circumstances exceed the Maximum Liability originally established in Section C.1 of this Grant Contract. This limitation of liability is cumulative and not per incident.

D.24. Force Majeure. "Force Majeure Event" means fire, flood, earthquake, elements of nature or acts of God, wars, riots, civil disorders, rebellions or revolutions, acts of terrorism or any other similar cause beyond the reasonable control of the party except to the extent that the non-performing

party is at fault in failing to prevent or causing the default or delay, and provided that the default or delay cannot reasonably be circumvented by the non-performing party through the use of alternate sources, workaround plans or other means. A strike, lockout or labor dispute shall not excuse either party from its obligations under this Grant Contract. Except as set forth in this Section, any failure or delay by a party in the performance of its obligations under this Grant Contract arising from a Force Majeure Event is not a default under this Grant Contract or grounds for termination. The non-performing party will be excused from performing those obligations directly affected by the Force Majeure Event, and only for as long as the Force Majeure Event continues, provided that the party continues to use diligent, good faith efforts to resume performance without delay. The occurrence of a Force Majeure Event affecting Grantee's representatives, suppliers, subcontractors, customers or business apart from this Grant Contract is not a Force Majeure Event under this Grant Contract. Grantee will promptly notify the State of any delay caused by a Force Majeure Event (to be confirmed in a written notice to the State within one (1) day of the inception of the delay) that a Force Majeure Event has occurred, and will describe in reasonable detail the nature of the Force Majeure Event. If any Force Majeure Event results in a delay in Grantee's performance longer than forty-eight (48) hours, the State may, upon notice to Grantee: (a) cease payment of the fees until Grantee resumes performance of the affected obligations; or (b) immediately terminate this Grant Contract or any purchase order, in whole or in part, without further payment except for fees then due and payable. Grantee will not increase its charges under this Grant Contract or charge the State any fees other than those provided for in this Grant Contract as the result of a Force Majeure Event.

D.25. Tennessee Department of Revenue Registration. The Grantee shall comply with all applicable registration requirements contained in Tenn. Code Ann. §§ 67-6-601 – 608. Compliance with applicable registration requirements is a material requirement of this Grant Contract.

D.26. Charges to Service Recipients Prohibited. The Grantee shall not collect any amount in the form of fees or reimbursements from the recipients of any service provided pursuant to this Grant Contract.

D.27. No Acquisition of Equipment or Motor Vehicles. This Grant Contract does not involve the acquisition and disposition of equipment or motor vehicles acquired with funds provided under this Grant Contract.

D.28. State and Federal Compliance. The Grantee shall comply with all applicable state and federal laws and regulations in the performance of this Grant Contract. The U.S. Office of Management and Budget's Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is available here: http://www.ecfr.gov/cgi-bin/text-idx?SID=c6b2f053952359ba94470ad3a7c1a975&tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl

D.29. Governing Law. This Grant Contract shall be governed by and construed in accordance with the laws of the State of Tennessee, without regard to its conflict or choice of law rules. The Grantee agrees that it will be subject to the exclusive jurisdiction of the courts of the State of Tennessee in actions that may arise under this Grant Contract. The Grantee acknowledges and agrees that any rights or claims against the State of Tennessee or its employees hereunder, and any remedies arising there from, shall be subject to and limited to those rights and remedies, if any, available under Tenn. Code Ann. §§ 9-8-101 through 9-8-408.

D.30. Completeness. This Grant Contract is complete and contains the entire understanding between the parties relating to the subject matter contained herein, including all the terms and conditions agreed to by the parties. This Grant Contract supersedes any and all prior understandings, representations, negotiations, or agreements between the parties, whether written or oral.

D.31. Severability. If any terms and conditions of this Grant Contract are held to be invalid or unenforceable as a matter of law, the other terms and conditions shall not be affected and shall

remain in full force and effect. To this end, the terms and conditions of this Grant Contract are declared severable.

D.32. Headings. Section headings are for reference purposes only and shall not be construed as part of this Grant Contract.

D.33. Iran Divestment Act. The requirements of Tenn. Code Ann. § 12-12-101, *et seq.*, addressing contracting with persons as defined at Tenn. Code Ann. §12-12-103(5) that engage in investment activities in Iran, shall be a material provision of this Grant Contract. The Grantee certifies, under penalty of perjury, that to the best of its knowledge and belief that it is not on the list created pursuant to Tenn. Code Ann. § 12-12-106.

D.34. Debarment and Suspension. The Grantee certifies, to the best of its knowledge and belief, that it, its current and future principals, its current and future subcontractors and their principals:

a. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal or state department or agency;

b. have not within a three (3) year period preceding this Grant Contract been convicted of, or had a civil judgment rendered against them from commission of fraud, or a criminal offence in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or grant under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false statements, or receiving stolen property;

c. are not presently indicted or otherwise criminally or civilly charged by a government entity (federal, state, or local) with commission of any of the offenses detailed in section b. of this certification; and

d. have not within a three (3) year period preceding this Grant Contract had one or more public transactions (federal, state, or local) terminated for cause or default.

The Grantee shall provide immediate written notice to the State if at any time it learns that there was an earlier failure to disclose information or that due to changed circumstances, its principals or the principals of its subcontractors are excluded or disqualified, or presently fall under any of the prohibitions of sections a-d.

D.35. Confidentiality of Records. Strict standards of confidentiality of records and information shall be maintained in accordance with the requirements of this Grant Contract and applicable state and federal law. All material, information, and data regardless of form, medium or method of communication, that the Grantee will have access to, acquire, or is provided to the Grantee by the State or acquired by the Grantee on behalf of the State shall be regarded as "Confidential Information." The State grants the Grantee a limited license to use the Confidential Information but only to perform its obligations under the Grant Contract. Nothing in this Section shall permit Grantee to disclose any Confidential Information, regardless of whether it has been disclosed or made available to the Grantee due to intentional or negligent actions or inactions of agents of the State or third parties. Confidential Information shall not be disclosed except as required under state or federal law or otherwise authorized in writing by the State. Grantee shall take all necessary steps to safeguard the confidentiality of such Confidential Information in conformance with the requirements of this Grant Contract and with applicable state and federal law.

As long as the Grantee maintains State Confidential Information, the obligations set forth in this Section shall survive the termination of this Grant Contract.

D.36. State Sponsored Insurance Plan Enrollment. The Grantee warrants that it will not enroll or permit its employees, officials, or employees of contractors to enroll or participate in a state sponsored health insurance plan through their employment, official, or contractual relationship with Grantee unless Grantee first demonstrates to the satisfaction of the Department of Finance and Administration that it and any contract entity satisfies the definition of a governmental or quasigovernmental entity as defined by federal law applicable to ERISA.

E. SPECIAL TERMS AND CONDITIONS:

E.1. Conflicting Terms and Conditions. Should any of these special terms and conditions conflict with any other terms and conditions of this Grant Contract, the special terms and conditions shall be subordinate to the Grant Contract's other terms and conditions.

E.2. Printing Authorization. The Grantee agrees that no publication coming within the jurisdiction of Tenn. Code Ann. § 12-7-101, *et seq*., shall be printed pursuant to this Grant Contract unless a printing authorization number has been obtained and affixed as required by Tenn. Code Ann. § 12-7-103(d).

E.3. Environmental Tobacco Smoke. Pursuant to the provisions of the federal "Pro-Children Act of 1994" and the "Children's Act for Clean Indoor Air of 1995," Tenn. Code Ann. §§ 39-17-1601 through 1606, the Grantee shall prohibit smoking of tobacco products within any indoor premises in which services are provided to individuals under the age of eighteen (18) years. The Grantee shall post "no smoking" signs in appropriate, permanent sites within such premises. This prohibition shall be applicable during all hours, not just the hours in which children are present. Violators of the prohibition may be subject to civil penalties and fines. This prohibition shall apply to and be made part of any subcontract related to this Grant Contract.

E.4. Federal Funding Accountability and Transparency Act (FFATA). This Grant requires the Grantee to provide supplies or services that are funded in whole or in part by federal funds that are subject to FFATA. The Grantee is responsible for ensuring that all applicable requirements, including but not limited to those set forth herein, of FFATA are met and that the Grantee provides information to the State as required.

The Grantee shall comply with the following:

a. Reporting of Total Compensation of the Grantee's Executives.

(1) The Grantee shall report the names and total compensation of each of its five most highly compensated executives for the Grantee's preceding completed fiscal year, if in the Grantee's preceding fiscal year it received:

i. 80 percent or more of the Grantee's annual gross revenues from federal procurement contracts and Federal financial assistance subject to the Transparency Act, as defined at 2 C.F.R. § 170.320 (and sub awards); and

ii. $25,000,000 or more in annual gross revenues from federal procurement contracts (and subcontracts), and federal financial assistance subject to the Transparency Act (and sub awards); and

iii. The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. § 78m(a), 78o(d)) or § 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at http://www.sec.gov/answers/execomp.htm.).

As defined in 2 C.F.R. § 170.315, "Executive" means officers, managing partners, or any other employees in management positions.

(2) Total compensation means the cash and noncash dollar value earned by the executive during the Grantee's preceding fiscal year and includes the following (for more information see 17 § C.F.R. 229.402(c)(2)):

i. Salary and bonus.
ii. Awards of stock, stock options, and stock appreciation rights. Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with the Statement of Financial Accounting Standards No. 123 (Revised 2004) (FAS 123R), Shared Based Payments.
iii. Earnings for services under non-equity incentive plans. This does not include group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of executives, and are available generally to all salaried employees.
iv. Change in pension value. This is the change in present value of defined benefit and actuarial pension plans.
v. Above-market earnings on deferred compensation which is not tax qualified.
vi. Other compensation, if the aggregate value of all such other compensation (e.g. severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the executive exceeds $10,000.

b. The Grantee must report executive total compensation described above to the State by the end of the month during which this Grant Contract is established.

c. If this Grant is amended to extend the Term, the Grantee must submit an executive total compensation report to the State by the end of the month in which the amendment to this Grant becomes effective.

d. The Grantee will obtain a Unique Entity Identifier (SAM)and maintain its number for the term of this Grant. More information about obtaining a Unique Entity Identifier Number can be found at: https://www.gsa.gov

The Grantee's failure to comply with the above requirements is a material breach of this Grant for which the State may terminate this Grant Contract for cause. The State will not be obligated to pay any outstanding invoice received from the Grantee unless and until the Grantee is in full compliance with the above requirements.

E.5. Transfer of Grantee's Obligations. The Grantee shall not transfer or restructure its operations related to this Grant Contract without the prior written approval of the State. The Grantee shall immediately notify the State in writing of a proposed transfer or restructuring of its operations related to this Grant Contract. The State reserves the right to request additional information or impose additional terms and conditions before approving a proposed transfer or restructuring.

E.6. Equal Opportunity. As a condition for receipt of grant funds, the Grantee agrees to comply with 41 C.F. R. § 60-1.4 as that section is amended from time to time during the term.

E. 7. Title VI Compliance. Grantee shall comply with requirements of Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d-1, pursuant to the guidelines established by the Tennessee Human Rights Commission's Title VI Compliance Office, by completing all of the following items:

a. Provide name and contact information of Grantee's Title VI Coordinator to State.

b. Ensure Policies and Procedures Manual contains a Title VI section with information on: (a) Filing a complaint; (b) Investigations; (c) Report of findings; (d) Hearings and appeals; (e) Description of Title VI Training Program; (f) Limited English Proficiency (LEP) procedure; and (g) Retaliation.

c. Train all staff (regular, contract, volunteer) on Title VI upon employment and annually thereafter. Training documentation shall be made available upon request of State, and include: 1) dates and duration of each training; 2) list of staff completing training on each date.

d. Annually complete and submit a Title VI self-survey as supplied by State.

e. Implement a process and provide documentation to ensure service recipients are informed of Title VI and how to file a discrimination complaint.

Additional Title VI resources may be found at: https://sos.tn.gov/TitleVI

E.8. Americans with Disabilities Act. The Grantee must comply with the Americans with Disabilities Act (ADA) of 1990, as amended, including implementing regulations codified at 28 CFR Part 35 "Nondiscrimination on the Basis of Disability in State and Local Government Services" and at 28 CFR Part 36 "Nondiscrimination on the Basis of Disability in Public Accommodations and Commercial Facilities," and any other laws or regulations governing the provision of services to persons with a disability, as applicable. For more information, please visit the ADA website: http://www.ada.gov.

E.9. Healthy Eating Requirements. Grant recipients who purchase or serve snacks or meals in conjunction with their performance under this Grant Contract shall provide only healthy foods. No high sugar beverage shall be served at any time. Fruits and vegetables shall be given preference in menu selections.

E.10. Assistance Listing Number. When applicable, the Grantee shall inform its licensed independent public accountant of the federal regulations that require compliance with the performance of an audit. This information shall consist of the following Assistance Listing Numbers: 93.334.

E. 11. The Grantee shall ensure that all State Data is housed in the continental United States, inclusive of backup data. All State data must remain in the United States, regardless of whether the data is processed, stored, in-transit, or at rest. Access to State data shall be limited to US-based (onshore) resources only.

All system and application administration must be performed in the continental United States. Configuration or development of software and code is permitted outside of the United States. However, software applications designed, developed, manufactured, or supplied by persons owned or controlled by, or subject to the jurisdiction or direction of, a foreign adversary, which the U.S. Secretary of Commerce acting pursuant to 15 CFR 7 has defined to include the People's Republic of China, among others are prohibited. Any testing of code outside of the United States must use fake data. A copy of production data may not be transmitted or used outside the United States.

IN WITNESS WHEREOF,

KNOX COUNTY GOVERNMENT:

GLENN JACOBS, COUNTY MAYOR **DATE**

APPROVED AS TO FORM: CONTRACT No.:

JESSICA JERNIGAN-JOHNSON, DEPUTY LAW DIRECTOR **DATE**

KNOX COUNTY HEALTH DEPARTMENT:

KEVIN PARTON, SENIOR DIRECTOR **DATE**

DEPARTMENT OF HEALTH:

RALPH ALVARADO, MD, FACP, COMMISSIONER **DATE**

Response ID:36 Data

1. Applicant Information

1. Organization Name:

Knox County Health Department

2. Primary Contact Person:

Name: : Reantha LeSueur
Title: : Program Manger
Email: : reantha.lesueur@knoxcounty.org
Phone #: : 865-215-5545

3. Secondary Contact Person:

Name: : Rachel Frazier
Title: : Health Educator
Email: : rachel.frazier@knoxcounty.org

4. Organizational Address:

Street: : 140 Dameron Ave.
City: : Knoxville
State: : TN
Zip Code: : 37917

5. Do you propose to use subcontractors for any portions of the scope of services?

No

If yes, please provide the name and address of each subcontractor and what specific services each will perform.

6. Select one (1) of the following as it applies to this application:

We have reviewed the sample contract with legal counsel and have found no issues with proceeding with the contract as it is currently written.

Please attach details of requested modifications to the sample contract.

2. Project Overview

7. Project Title:

Peace of MIND (Memory Informed Needs for Disaster Preparedness) in Knox County

8. Problem Statement and Abstract: The problem statement should define the local issue the project will address, focusing on how it impacts the target population and broader community. Use data and evidence to highlight the significance and urgency of the problem. Provide a concise summary of the proposed project, outlining the main goals, target population(s), and anticipated outcomes.

An emergency situation of any magnitude can be a highly stressful and impactful event for anyone, but especially those with dementia and their caregivers. Providing dementia patients and their caregivers with emergency preparedness protocols prior to an emergency event could make a stressful, and confusing situation more navigable. The Knox County Health Department's (KCHD) 2023 Abridged Community Health Assessment (CHA) highlighted significant disparities across the social determinants of health. According to the 2023 CHA, 11.2% adults live with diabetes; however, the rate among Black adults is higher at 17.2%.

The trend continues with overall obesity rates (36%) and obesity rates among Black adults (52.9%). Moreover, the 2023 US Census indicates the fastest growing population in Knox County are adults over 65. Among this population, 31% live with two to three chronic conditions. Minimizing these risk factors that are associated with dementia can reduce the number of dementia related deaths over time.

According to the TN Alzheimer's and Related Dementia Advisory Council Tennessee State Plan, there are 120,000 individuals with Alzheimer's Disease (a form of dementia), and these individuals are being cared for by 439,000 informal caregivers. Considering the large number of caregivers, it is key to support and equip them with education and resources to keep individuals with dementia safe. According to the Alzheimer's Association, 10.6% of Knox County adults 65+ have Alzheimer's. Additionally, the Knox County Health Department's 2019 Community Health Assessment indicates that Alzheimer's is the 6th leading cause of death.

According to the Healthy Brain Initiative, there is an estimated 10 billion hours of unpaid care annually to people living with dementia. On a local level in Knox County, the cost of care is over $7 billion for an estimated 376k caregivers, and 4.96 million hours. Given the burden faced by caregivers, and intentional efforts to prepare those with dementia,

Knox County's fastest growing population are those over 65 years of age. In September 2023, KCHD served as the convening organization to pursue membership on behalf of Knox County to join AARP's Age-Friendly Network. Working with a team comprised of leaders in various Knox County departments, the Knoxville-Knox County Planning Organization, and local AARP volunteers, KCHD submitted a Knox County action plan to AARP that addressed three domains of livability: housing, social participation and outdoor spaces and buildings. AARP granted Knox County admission into the Age-Friendly Network of Communities on September 22, 2024. In addition, KCHD created an internal workgroup to review current programs and services to identify strategies to promote brain health and healthy aging. In October 2024, KCHD submitted the Trust for America's Health Age-Friendly Public Health System application in and became the first metro in Tennessee to be recognized.

The Knox County Health Department (KCHD) proposes Peace of MIND (Memory Informed Needs for Disaster Preparedness) Kits. These kits will be for individuals with dementia, their family, and caregivers to quickly take with them in any emergency event. To effectively distribute kits, our partner the Knoxville-Knox County Office on Ageing, will serve as a distribution site. Providing emergency kits with essential items, as well as a list of resources, will aid in reducing fear and anxiety surrounding an emergency event.

9. Narrative: Provide a detailed explanation of your proposed initiative, providing a comprehensive view of the goals and objectives, methods and activities, expected outcomes, and partnerships and collaborations. It should reflect your understanding of the community's needs, demonstrate the feasibility of your approach, and align with the goals of the funding opportunity.

The Knox County Health Department (KCHD) proposes the following goals to address emergency preparedness for individuals living with dementia and their caregivers.

Goal 1: By August 31, 2025, create 500 Peace of MIND Kits.

Goal 2: By September 29, 2025, host at least one distribution event in collaboration with the KCHD emergency preparedness division and the Knoxville-Knox County Community Action Committee's (CAC) Office on Aging.

Goal 3: By September 29, 2025, provide education and resources in relation to dementia and emergency preparedness in an online format, on the Knox County Health Department's Age-Friendly webpage, targeting caregivers.

Goal 1: KCHD Senior Safety Health Educator will partner with KCHD's Emergency Preparedness Health Educator to identify and prioritize a list of items that should be included in Knox County's Peace of MIND Kits. Examples of potential items that will be included in the Peace of MIND Kits include the following items: waterproof bag, current medication list, emergency contact list, small toiletry kit, a comfort item (coloring book or blanket), and pill case. KCHD will provide blank versions of the medication list and contact list, with instructions on how it can be filled out with a caregiver and physician. To keep important documents safe, self-adhesive waterproof sheets will be provided in the kits, and a lamination machine will be available to laminate any material at scheduled distribution events. Additionally, the kits will include a printed resource list outlining local shelters, food banks, and

emergency services numbers.

Goal 2: KCHD will promote emergency preparedness for people living with dementia and caregivers on KCHD's well established social media channels bringing increased awareness to this important topic to the community. KCHD will also partner with content experts to incorporate best practices in meeting the unique needs of the target population. KCHD will host at least two distribution events. The first event will be in August, once the kits have been shared by our community partners and marketed on KCHD social media accounts. The August event will serve as a kickoff of the Peace of MIND campaign and will be hosted in partnership with the Community Action Center (CAC) Office on Aging and the John T. O'Connor Senior Center. The O'Connor Senior Center is one of the largest senior centers and provides services to a wide array of zip codes in the Knoxville community. The second event will be held in September during Senior Fall Prevention Awareness Month. For the past 17 years, KCHD's Senior Safety Health Educator collaborates with partners to host a Fall Prevention Awareness Day (FPAD). This day brings together vendors who provide services for the aging population including balance screening, vision tests, Medicare information, and other health-related vendors. This event is a well-attended, with over 100 participants this past year and includes senior citizens, adult day center attendees, as well as caregivers. The Knox County Mayor kicks off this annual event as a guest speaker, sharing the importance of senior safety in the community. Utilizing the target audience for the FPAD event at the O'Connor Senior Center, KCHD will organize and facilitate an emergency preparedness table with the Peace of MIND kits. KCHD personnel will be available to answer questions and distribute kits as well as other essential emergency preparedness resources provided by KCHD's emergency response health educator for attendees.

The Knox/East TN Healthcare coalition, an organization that works directly with at-risk populations will serve as a key partner in marketing and distributing the Peace of MIND kits in conjunction with their broader networks as well as on a regional level.

Along with Peace of MIND distribution, KCHD's Senior Safety and Emergency Preparedness Health Educators will provide community outreach on a variety of educational topics. Senior safety presentations include information on fall prevention, brain health, and dementia, such as Alzheimer's. KCHD will use this as an opportunity to educate attendees on emergency preparedness, and its importance in relation to those with dementia. Presentations are given in various locations in the community, targeting vulnerable populations, with a focus on including caregivers in senior safety presentations.

Goal 3: KCHD will review and update the Age-Friendly webpage to include information on emergency preparedness for those living with dementia, education on Peace of MIND Kits, and when distribution events will occur. Additionally, the webpage will have resources for caregivers on how they can create their own kits and provides additional emergency preparedness information for not only the aging population, but those with dementia.

The KCHD team expects three overall outcomes from this project, as outlined from the three goals. First, 500 people living with dementia, and their caregivers, will receive a Peace of MIND kit to better equip themselves in an emergency event. Second, the team expects an increase in emergency preparedness education among those living with dementia using social media, as well as two distribution events in collaboration with partners. The third expected outcome is to have an updated healthy aging webpage to include emergency preparedness information and resources. Looking beyond the three specific expected outcomes, KCHD expects an overall increase in understanding of emergency preparedness for those living with dementia and their caregivers. This project has a specific focus on those with dementia but given the vast reach of KCHD and its partners, emergency preparedness education will reach others who are aging, and become an essential piece of overall senior safety. If awarded this funding, KCHD anticipates additional partnerships to replicate the kits, and an overall increased interest in emergency preparedness. Additional partnerships to pursue will be distribution points with emergency preparedness staff assisting with creating kits on site, lamination stations for important documents, or online platforms in addition to KCHD promoting similar emergency preparedness strategies.

10. Estimated Project Reach:

KCHD will create and distribute at least 500 individual Peace of MIND kits in collaboration with our community partners assistance, reaching approximately 1,000 people. Kits will be given to caregivers of individuals living with dementia. In addition, the greater Knox County Community will be reached through educational events, social media presence, and KCHD's Healthy Aging webpage, reaching thousands of people. Monthly educational events conducted by the KCHD Senior Safety Health Educator will reach between 80-100 attendees during the grant cycle.

11. Staff and Leadership: Outline the approach to managing the project effectively, ensuring timely execution and alignment with funding goals including description of proposal leadership and oversight, plans for communication among team members and partners, and strategies to address potential challenges or delays.

The Knox County Health Department (KCHD) team involved in this project has many years of combined education and experience in collaboration with partners, bringing a wealth of knowledge into project management. The primary Health Educator on this project has 35 years of working in senior safety and public health, the Program Manager has 8 years of experience working in public health in various roles at KCHD, and the Director has 18 years of experience in public health also from work in various roles held at KCHD. The Peace of MIND project will primarily be managed by the KCHD Senior Fall Prevention Health Educator, with direct oversight from a Health Promotion and Outreach Program Manager. The Health Educator's main role will be to gather materials for the kits, create the kits, coordinate distribution, and deliver education to promote emergency preparedness among those living with dementia. The Program Manager's role will assist the Health Educator as needed, coordinating with partners, assisting with promotion, evaluation, and attending distribution events. Additionally, the Director of Community Health will have oversight of the project by assisting with identifying new partners and overall sustainability of the project.

The Health Educator on this project will report to the Health Promotion and Outreach Program Manager in terms of communication in relation to this work. The KCHD team will work directly with partners for distribution and distribution events through individual meetings and emails. The Program Manager will update the Director in individual meetings to keep everyone updated on the progress or any challenges faced.

In the event of a delay in creating the kits, the KCHD team will work directly with the necessary parties such as a product vendor to reorganize or change products that will better suit our timeline. If there is a delay in distribution, KCHD will have open lines of communications with partners to reschedule in a timely manner.

One potential challenge will be working with partners to ensure that kits are given to caregivers of those living with dementia. Additionally, recording the necessary information when the kits are picked up is crucial to evaluating the success of this project. This will be addressed in the beginning of the project with our partners by sharing detailed instructions on who is eligible for the Peace of MIND kit, as well as physical and digital copies of a table to note who is picking the kit up and their contact information. The KCHD team will also be available to answer any questions with partners in-person, via email, and at distribution events.

12. Partner List: Provide a list of community partners that will be involved.

Knoxville-Knox County CAC Office on Aging

Knox County Senior Centers

Knox East TN Healthcare Coalition Advisory Board

KCHD Emergency Preparedness Division

Knox County Libraries

13. Sustainability: Explain how the project's benefits will be sustained beyond the funding period. This may include sustainability strategies, community involvement, capacity building, infrastructure maintenance, and scalability and replication.

The Knox County Health Department (KCHD) team plans to sustain this project beyond the funding period through a variety of methods. This will include working with partners to supplement and replicate the kits to reach a wide audience of the aging population, beyond those living with dementia. The East TN Wellness Roundtable (ETWR), facilitated by KCHD staff, brings together area professionals and organizations to learn about current wellness trends. KCHD will offer dementia related trainings to the ETWR group, including options such as Dementia Friendly America, ACT on Alzheimer's, and Dementia Friendly at Work. These trainings will provide an opportunity to sustain the project beyond the funding period and extends the reach of education to community businesses across the area. The KCHD Senior Fall Prevention Health Educator will replicate the Peace of MIND Kits, which aligns with current work on healthy aging, aging in place, fall prevention, brain health, and dementia related

diseases such as Alzheimer's. In addition to creating and sharing the kits, KCHD's Age-Friendly webpage will provide a large platform to teach residents on how to create their own kits, with budget friendly options. The website will include directions on creating the kits and the printable materials. These resources can be used by anyone interested in emergency preparedness and extends beyond caregivers of those living with dementia.

14. Evaluation Narrative: Describe how the applicant will evaluate the impact and success of the project. Include evaluation metrics and indicators, details on data collection methods and analysis, and timeline for evaluation (baseline, interim, final). Also, describe how findings will be used to adjust or improve the project during implementation, inform future projects or initiatives, and share lessons learned with other communities.

The success of the Peace of MIND project will be measured by number of kits distributed, hosting at least one distribution event, and extending education on emergency preparedness for those living with dementia.

To evaluate the success on distribution, each time a kit is distributed it will be noted. Information collected upon receiving a kit will include contact information, where they heard about the kits, and email information to be sent a follow up survey. This will provide the KCHD team distribution metrics, and a mechanism to provide a follow up survey whether the kit useful, easy to use/understand, and if any additional resources are needed. The baseline for this measure will begin at zero at the start of the funding period, a mid-period number will be tracked, and final number distributed at the end. Data will be analyzed by noting number distributed and assessing the feedback from surveys on a qualitative level. The data will provide the team distribution progress, the marketing impact, as well trends in relation to zip code or area of the county where people are obtaining the kits.

To evaluate progress on education, the number of presentations will be recorded. Participants will also complete a survey to assess knowledge change. The survey will assess baseline knowledge of emergency preparedness before and after a presentation. Additionally, utilizing the existing KCHD social media and website, the number of views and reach will be tracked.

All data tracked will be used to evaluate success of the program and will provide valuable insight into where more education is needed in the community. KCHD staff will assess future needs and determine how future kits will be distributed.

15. Total Amount of Funding Requested:

$10,000

16. Budget Narrative: Provide a clear explanation of amount of funds requested (up to $10,000.00) and how funds will be allocated to support the proposal. It should detail each anticipated expense, explain how the costs align with the proposal, and provide justification of the requested funds. Additionally, this section should highlight any other funding sources, including in-kind contributions and describe any history in receiving State funds.

The Knox County Health Department is requesting the full amount, $10,000, to implement the three goals outlined in our application.

Supplies
Grant funding ($6,000) will be used to purchase emergency kit items that may include items such as a waterproof bag, a comfort item like as a coloring book, small toiletry kit, and self-adhesive waterproof sheets.

Printing
The additional items in the kits will include item that will use printing fees ($2000). The printed items will include an emergency contact list, medication list, and resource list.

Professional Fees
Promotion of the kits, as well as overall emergency preparedness for those living with dementia will use professional fees ($2000). This will include using KCHD's established social media channels, and paid promotion on the Meta sites including Facebook and Instagram.

In-kind
KCHD has many partners and organizations who support community initiatives and have an interest in supplying additional

items to the kits, as an in-kind expense. To support distribution of the kits, the CAC Office on Aging will supply the venue. Additional in-kind expenses include time from the KCHD Senior Safety and Emergency Preparedness Health Educators, the Health Promotion and Outreach Program Manager, and Director of Community Health.

The health department has received multiple grants, both competitive and non-competitive funding, from the state to fund various initiatives in Knox County.

3. Additional Attachments

17. Please upload your signed Competitive Requirements document here:

COMPETITIVE_REQUIREMENTS_Knox_County_Health_Department.pdf

18. Please upload the following REQUIRED additional attachments here:
Work Plan (Gantt chart, Excel, or table format; include: activity, responsible party, timeline, expected outcome, resources needed, evaluation method)
Key Personnel Resumes or Biosketches
Letters of Support (LOS) or Commitment (LOC) from community or regional partners; two (2) minimum.

Instructions & Hints

Do not send a worksheet that is linked to another file

Line by line instructions are on the "line by line info" tab
Retain this file in blank form
Use "File Save As" to save information for a specific contract or reporting period
File Names: **Please use the following format when naming files.**
name of agency REPORTING PERIOD END.xls
do not abbreviate the agency name
example: davidson county health MARCH 02.xls
Reporting period - the start and end dates of the quarter being reported
Reporting periods are based on the Agency's fiscal year
Grant period - the start and end dates of the contract being reported
Send a report for every quarter even if there is no activity for that quarter
Abbreviations - do not abbreviate the Agency name
Number pages using the "page_____of _____ pages" format

THE WORKSHEET IS NOT PROTECTED
do not overwrite formulas (identified by yellow shading and "0") or change formats
do not overwrite/edit shaded areas (move to the cell beyond the shading for input)
do not add (insert) lines **do not change shaded areas**

Expense and Revenue pages can show information for 2 contracts
Use separate Schedules A & B to report contracts for each granting State agency
Use additional expense and revenue pages for more than 2 contracts
copy all lines & fields to the first blank line below the last line in column A
with the cursor at the start of the added page, use "insert" "page break" for print purposes
reset print range to cover the added page(s) and correct the page numbers
Contract Number is the State Contract Number, NOT the agency program number
Report by program within the State Contract Number within State Department
Summarize programs into totals by State Contract Number and State Department totals
Do not combine State Contract Numbers
One Funding Information Summary and one Schedule C are required from each contractor submitting reports
Review Section C in all contracts for reporting requirements

ALLOCATION OF ADMINISTRATIVE COSTS
Requires completion of all attached sheets

NOTE If files are not properly named and print ranges not set, the report will be returned for correction
Do not send invoices with expense reports
If refund due, mail reports with check or send note with e-mail that check in the mail

e-mail completed files to: Policy3.AMO.Health@tn.gov
e-mail filing replaces mailing forms

Nashville, TN 37243

PROGRAM EXPENSE REPORT (Excerpted from Policy 3 statement)
SCHEDULE A
EXPENSE BY OBJECT LINE-ITEMS

There are seventeen specific object expense categories; two subtotals (Line 3, Total Personnel Expenses, and Line 19, Total Non-personnel Expenses); and Reimbursable Capital Purchases (Line 20), above Line 21, Total Direct Program Expenses. All expenses should be included in one or more of the specific categories, or in an additional expense category entered under Line 18, Other Non-personnel Expenses. The contracting state state agency may determine these requirements.

With the exception of depreciation, everything reported in Lines 1 through 21 must represent an actual cash disbursement or accrual as defined in the Basis For Reporting Expenses/Expenditures section on page 13.

THE YEAR-TO-DATE EXPENSES MUST BE TRACABLE TO THE REPORTING AGENCY'S GENERAL LEDGER

Line 1 Salaries And Wages
On this line, enter compensation, fees, salaries, and wages paid to officers, directors, trustees, and employees. An attached schedule may be required showing client wages or other included in the aggregations.

Line 2 Employee Benefits & Payroll Taxes
Enter (a) the organization's contributions to pension plans and to employee benefit programs such as health, life, and disability insurance; and (b) the organization's portion of payroll taxes such as social security and medicare taxes and unemployment and workers' compensation insurance. An attached schedule may be required showing client benefits and taxes or other included in the aggregations.

Line 3 Total Personnel Expenses
Add lines 1 and 2.

Line 4 Professional Fees
Enter the organization's fees to outside professionals, consultants, and personal-service contractors. Include legal, accounting, and auditing fees. An attached schedule may be required showing the details in the aggregation of professional fees.

Line 5 Supplies
Enter the organization's expenses for office supplies, housekeeping supplies, food and beverages, and other supplies. An attached schedule may be required showing food expenses or other details included in the aggregations.

Line 6 Telephone
Enter the organization's expenses for telephone, cellular phones, beepers, telegram, FAX, E-mail, telephone equipment maintenance, and other related expenses.

Line 7 Postage And Shipping
Enter the organization's expenses for postage, messenger services, overnight delivery, outside mailing service fees, freight and trucking, and maintenance of delivery and shipping vehicles. Include vehicle insurance here or on line 14.

Line 8 Occupancy
Enter the organization's expenses for use of office space and other facilities, heat, light, power, other utilities, outside janitorial services, mortgage interest, real estate taxes, and similar expenses. Include property insurance here or on line 14.

Line 9 Equipment Rental And Maintenance
Enter the organization's expenses for renting and maintaining computers, copiers, postage meters, other office equipment, and other equipment, except for telephone, truck, and automobile expenses, reportable on lines 6, 7, and 11, respectively.

Line 10 Printing And Publications
Enter the organization's expenses for producing printed materials, purchasing books and publications, and buying subscriptions to publications.

Line 11 Travel
Enter the organization's expenses for travel, including transportation, meals and lodging, and per diem payments. Include gas and oil, repairs, licenses and permits, and leasing costs for company vehicles. Include travel expenses for meetings and conferences. Include vehicle insurance here or on line 14.

Line 12 Conferences And Meetings
Enter the organization's expenses for conducting or attending meetings, conferences, and conventions. Include rental of facilities, speakers' fees and expenses, printed materials, and registration fees (but not travel).

Line 13 Interest
Enter the organization's interest expense for loans and capital leases on equipment, trucks and automobiles, and other notes and loans. Do not include mortgage interest reportable on line 8.

Line 14 Insurance
Enter the organization's expenses for liability insurance, fidelity bonds, and other insurance. Do not include employee-related insurance reportable on line 2. Do not include property and vehicle insurance if reported on lines 7, 8, or 11.

Line 15 Grants And Awards
Enter the organization's awards, grants, subsidies, and other pass-through expenditures to individuals and to other organizations. Include allocations to affiliated organizations. Include in-kind grants to individuals and organizations. Include scholarships, tuition payments, travel allowances, and equipment allowances to clients and individual beneficiaries. Pass-through funds are not included when computing administrative expenses reported on Line 22.

Line 16 Specific Assistance to Individuals
Enter the organization's direct payment of expenses of clients, patients, and individual beneficiaries. Include such expenses as medicines, medical and dental fees, children's board, food and homemaker services, clothing, transportation, insurance coverage, and wage supplements.

Line 17 Depreciation
Enter the expenses the organization records for depreciation of equipment, buildings, leasehold improvements, and other depreciable fixed assets.

Line 18 Other Non-personnel Expenses

NOTE: Expenses reportable on lines 1 through 17 should not be reported in an additional expense category on line 18. A description should be attached for each additional category entered on line 18. The contracting state agency may determine these requirements.
Enter the organization's allowable expenses for advertising (1), bad debts (2), contingency provisions (7), fines and penalties (14), independent research and development (reserved) (17), organization (27), page charges in professional journals (29), rearrangement and alteration (39), recruiting (41), and taxes (47). Include the organization’s and employees' membership dues in associations and professional societies (26). Include other fees for the organization's licenses, permits, registrations, etc.

Line 19 Total Non-personnel Expenses
Add lines 4 through 18.

Line 20 Reimbursable Capital Purchases
Enter the organization's purchases of fixed assets. Include land, equipment, buildings, leasehold improvements, and other fixed assets. An attached schedule may be required showing the details for each such purchase.

Line 21 Total Direct Program Expenses
Add lines 3, 19, and 20.
Includes direct and allocated direct program expenses.

Line 22 Administrative Expenses
The distribution will be made in accordance with an allocation plan approved by your cognizant state agency.

Line 23 Total Direct And Administrative Expenses
Line 23 is the total of Line 21, Total Direct Program Expenses, and Line 22, Administrative Expenses. Line 23, Total Direct and Administrative Expenses Year-to-Date should agree with the Total of Column B, Year-to-Date Actual Expenditures of the *Invoice for Reimbursement.*

Line 24 In-Kind Expenses
In-kind Expenses (Line 24) is for reporting the value of contributed resources applied to the program. Approval and reporting guidelines for in-kind contributions will be specified by those contracting state agencies who allow their use toward earning grant funds. Carry forward to Schedule B, Line 38.

Line 25 Total Expenses
The sum of Line 23, Total Direct and Administrative Expenses, and Line 24, In-kind Expenses, goes on this line.

PROGRAM REVENUE REPORT (PRR)
SCHEDULE B
SOURCES OF REVENUE

The revenue page is intended to be an extension of the total expenses page, in that the columns should match up by contract/attachment number and program title. There are ten revenue sources (Schedule B, Part 1) and three subtotals (Lines 33, 41, and 43). Additional supplemental schedules for one or more of the line items may be attached, if needed. Each revenue column should be aligned with its corresponding expense column from Schedule A.

Reimbursable Program Funds

Line 31 Reimbursable Federal Program Funds
Enter the portion of Total Direct & Administrative Expenses reported on Line 23, Schedule A, that is reimbursable from federal program funds. The state funding agency may require an attached detail listing and reconciliation schedule.

Line 32 Reimbursable State Program Funds
Enter the portion of Total Direct & Administrative Expenses reported on Line 23, Schedule A, that is reimbursable from state program funds. The state funding agency may require an attached detail listing and reconciliation schedule.

Line 33 Total Reimbursable Program Funds (Equals Schedule B, Line 55)
Add lines 31 and 32.

Matching Revenue Funds

Line 34 Other Federal Funds
Enter the portion of matching revenues reported on Line 54, Subtract Matching Expenses (Equals Line 41), that is from other federal funds. The state funding agency may require an attached detail listing and reconciliation schedule.

Line 35 Other State Funds
Enter the portion of matching revenues reported on Line 54, Subtract Matching Expenses (Equals Line 41), that is from other state funds. The state funding agency may require an attached detail listing and reconciliation schedule.

Line 36 Other Government Funds
Enter the portion of matching revenues reported on Line 54, Subtract Matching Expenses (Equals Line 41), that is from other government funds. The state funding agency may an attached detail listing and reconciliation schedule.

Line 37 Cash Contributions (Non-government)
Enter the portion of matching revenues reported on Line 54, Subtract Matching Expenses (Equals Line 41), that is from such sources of cash contributions as corporations, foundations, trusts, individuals, United Ways, other not-for-profit organizations, and from affiliated organizations. The state funding agency may require an attached detail listing and reconciliation schedule.

Line 38 In-Kind Contributions (Equals Schedule A, Line 24)
Enter the portion of matching revenues reported on Line 54, Subtract Matching Expenses (Equals Line 41), that is from direct and administrative in-kind contributions. The state funding agency may require an attached detail listing and reconciliation schedule. Approval and guidelines for valuation and reporting of in-kind contributions will be specified by those grantor agencies who allow their use toward earning grant funds.

Line 39 Program Income
Enter the portion of matching revenues reported on Line 54, Subtract Matching Expenses (Equals Line 41), that is from program income related to the program funded by the state agency. The state funding agency may require an attached detail listing.

Line 40 Other Matching Revenue
Enter the portion of matching revenues reported on Line 54, Subtract Matching Expenses (Equals Line 41), that is from other revenues not included in lines 34 through 39. The state funding agency may require an attached detail listing.

Line 41 Total Matching Revenue Funds
Add lines 34 through 40

Line 42 Other Program Funds
Enter program income related to the program funded by the state agency but not reported as matching revenue funds on Line 54.

Line 43 Total Revenue
Add lines 33, 41, and 42

RECONCILIATION BETWEEN TOTAL EXPENSES AND REIMBURSABLE EXPENSES
SCHEDULE B - (Lines 51 to 59)

This section, at the bottom of Schedule B, is for subtracting non-reimbursable amounts included in Total Expenses (Line 25, Schedule A and Line 51, Schedule B).
The first line of this section, Line 51, Total Expenses, is brought forward from the last last line of the corresponding Schedule A Total Expense Page.

There are three categories of adjustments for which titled lines are provided:

Line 52 OTHER UNALLOWABLE EXPENSES:
Some program expenses may not be reimbursable under certain grants. This is a matter between the contracting parties, and will vary according to the state agency involved and the type of grant or contract. Consult your contract or the department that funds the program for guidelines.

Line 53 EXCESS ADMINISTRATION:
This adjustment line may be used to deduct allocated Administration and General expenses in excess of an allowable percentage specified in the grant contract. It may also be used to deduct an adjustment resulting from limitations on certain components of Administration and General expenses. Again, the specific guidelines of the department and grant involved are the controlling factor.

Line 54 MATCHING EXPENSES (Equals Schedule B, Line 41)
Since the goal is to arrive at a reimbursable amount, the expenses paid out of other sources of funding, local support and program user fees for example, will have to be deducted. The amount left should be only that which is to be paid for by the contracting state agency.

Line 55 REIMBURSABLE EXPENSES (Line 51 less Lines 52, 53, and 54)
(Equals Schedule B, Line 33)
This is the amount that the contracting state agency will pay for the quarter's operations of the program. The cumulative column is what the grant actually paid to date.

Line 56 TOTAL REIMBURSEMENT-TO-DATE
In the quarter-to-date column, this is the total received for this quarter from filing of the Invoice For Reimbursement. The cumulative column's amount is the total received for the grant year-to-date.

Line 57 DIFFERENCE (Line 55 less Line 56)
This is the portion of Reimbursable Expenses not yet paid.

Line 58 ADVANCES
Any advance payments for a grant should appear on this line.

Line 59 THIS REIMBURSEMENT (Line 57 less Line 58)
The remainder should be the amount due under the grant contract. Actual payments are made through the invoicing process and not through the filing of this report.

POLICY 3 REPORTING REQUIREMENTS - SUMMARY

Policy 3 requires reporting the entire operation of the Grantee agency. This could include numerous programs and contracts. Policy 3 requirements are outlined in each contract and are available on line at: https://www.tn.gov/content/dam/tn/finance/documents/fa_policies/policy3.pdf

The "Contractor/Grantee" is the agency receiving the state grant.

The "Contracting State Agency" is the state agency that gives the grant.

Reports are normally due 30 days after the close of the Grantee's accounting quarter and year, which may/may not coincide with the State accounting quarter and year end. Exact requirements are in the contract.

Policy 3 reporting requires one report from each contracting agency consisting of Schedules A, B, and C and a Funding Information Summary. Schedules A and B detail each program added to a contract total. Schedules A and B are designed to show 2 programs per page and there would be only one Schedule C per grantee. On Schedules A and B, programs that are not state funded can be rolled into a single program category. The lines on Schedule A for year-to-date information add across all programs/contracts to the corresponding line on the Schedule C - Grant contracts in the first column and non-grant operations in the second column.

The third column of the Schedule C shows Administrative Expenses incurred by the Grantee. Administrative expenses are generally those that benefit programs but are not directly associated with the program/contract. These could include the Executive Director, office operation, accounting staff, and other similar expenses. This column will also show the allocation of Administrative Expenses to the various programs/contracts, if this is done by the Grantee. If allocated, a negative on line 22 is equal to the Administrative Expense allocated to the grant and non-grant programs/contracts. Administrative Expenses may include some items that are not subject to allocation so the amount allocated may/may not equal the total Administrative Expense reported. Allocation of Administrative Expenses requires an approved allocation plan.

The fourth column of the Schedule C shows the total operation of the reporting grantee for the year-to-date. The Policy 3 report should, in total, match the total operation of the Grantee.

The funding Information Summary shows the method of allocating Administrative Expenses. If there is no approved allocation plan and the grantee does not allocate Administrative Expenses, then there is no entry on Schedule C, line 22 and no allocation to the programs/contracts. This form must be submitted with every report.

WHEREAS, Knox County desires to have a contractor provide armed security guard services for the Knox County Health Department; and

WHEREAS, the Knox County Procurement Division requested proposals for this purpose and it has been determined that Shield & Buckler Security, Inc. submitted the proposal that is most responsible and responsive and best conforms to the specifications and needs of Knox County and the Knox County Schools; and

WHEREAS, the proposed contract with Shield & Buckler Security, Inc. is effective for a one (1) year term beginning on August 1, 2025 and may be extended for four (4) additional years, one (1) year at a time, which may result in a total of five (5) years; and

WHEREAS, Shield & Buckler Security, Inc. has the necessary qualifications to provide the services for Knox County.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The contract with Shield & Buckler Security, Inc. for the provision of armed security guard services for the Knox County Health Department is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the contract with Shield & Buckler Security, Inc. for the provision of armed security guard services for the Knox County Health Department shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Knox County Tennessee

and

Shield & Buckler Security, Inc.

This Contract made and entered into between Knox County, Tennessee, hereinafter referred to as the "County" and Shield & Buckler Security, Inc., hereinafter referred to as "Contractor".

Whereas, the County requested bids for Armed Security Guard Services for Knox County Government (Request for Proposal #3661) and;

Whereas, Contractor agrees and undertakes to provide said services for the County, as set forth in the Request for Proposal. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects to be governed by the Request for Proposal covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;

Witnesseth:

1. **Term of this Contract.** This Contract commences on the 1st day of August 2025 and ends the 31st day of July 2026 unless terminated in conformity with the terms of this Contract as contained in paragraphs 5 and 6. The County intends to issue a one-year (1) award. Upon the mutual agreement of the Contractor and the County, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability arises with the Contractor.

2. **Payment.** The County shall pay Contractor as agreed upon in the County's Request for Proposal for the Armed Security Guard Services per the Contractor's response to Request for Proposal #3661; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County.

3. **Amendments.** Any and all amendments to the Contract shall be reviewed by the Knox County Procurement Division. The County and Contractor must mutually agree to any changes to the agreed upon fees as set out in the Contractor's Proposal.

4. **Invoicing and reporting requirements.** Contractor shall invoice the County for the Armed Security Guard Services pursuant to Request for Proposal #3661.

5. **Termination.** The County may terminate this Contract with or without cause upon written notice of not less than thirty (30) days. Upon termination, County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the prior written permission of the County.

Should the Contractor fail to provide the Armed Security Guard Services detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was contacted. The Contractor shall rectify the problem within the time frame established by the County. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least ninety (90) day advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

6. **Appropriations.** In the event no funds are appropriated by the County for these services in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

7. **Independent contractor.** Contractor acknowledges that Contractor, its agents and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability, except as set forth in this Contract.

8. **Compliance with all federal, state, and municipal laws.** Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the Armed Security Guard Services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

9. **Severability clause.** If any provision of this Contract is declared illegal, void, or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

10. **Prohibition against assignment.** Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County.

11. **This agreement** shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum.

12. **Right to inspect.** The County reserves the right to make periodic inspections of the manner and means the services are performed.

13. **Nondiscrimination statement.** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin, or any individual trait or characteristic found to be an illegal consideration shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

14. **Books and records.** Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

15. **Contractor** shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the agreement by Contractor, its subcontractors, suppliers, agents, or employees or due to any negligent act or occurrence or any omission or commission of Contractor, its subcontractors, suppliers, agents or employees.

16. **Delivery.** Contractor shall render the Services for the County in accordance with the terms of the Contract and the Contractor's Proposal.

17. **Tax Compliance.** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its proposal and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

18. **Limitations of liability.** In no event shall the County or Contractor be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if advised of the possibility of such damages. The total aggregate liability of Contractor, regardless of whether such liability is based on contract, tort, strict liability, breach of warranty, or otherwise, in connection with the performance of the services or otherwise under this Contract, shall be limited to the fees actually received by the Contractor in respect of the services provided hereunder. Contractor shall be solely responsible for all of the liabilities and obligations under this Contract, whether or not performed in whole or in part by the Contractor, any affiliate of the Contractor, any other Contractor Firm, or any subcontractor. The County shall have no recourse, and shall bring no claim, against any Contractor Firm other than the Contractor, or against subcontractors, members, shareholders, directors, officers, managers, partners, agents, representatives, or employees of any Contractor Firm (or any of their respective successors or permitted assigns) with respect to the services or otherwise under this Contract.

19. **Public Notice.** All notices, informational pamphlets, press releases, research reports, signs, and similar public notices prepared and released by the Contractor in relation to this Agreement shall include the statement, "This project is funded under a grant contract with the State of Tennessee." All notices by the Contractor in relation to this Agreement shall be approved by the State.

20. **Conflicts of Interest.** The Contractor warrants that no par of the Agreement shall be paid directly or indirectly to an employee or official of the State of Tennessee as wages, compensation, or gifts in exchange for acting as an officer, agent, employee, subcontractor, or consultant to the Contractor in connection with any work contemplated or performed relative to this Agreement.

21. Lobbying. The Contractor certifies, to the best of its knowledge and belief, that: No federally appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this contract, grant, loan, or cooperative agreement, the Contract shall complete and submit Standard Form- LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

The Contractor shall require that the language of this certification be included in the award documents of all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into and is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352.

22. Public Accountability. If the Contract is subject to Tenn. Code Ann. § 8-4-401, et seq. or if this Agreement involves the provision of services to citizens by the Contractor on behalf of the State, the Contractor agrees to establish a system through which recipients of services may present grievances about the operation of the service program. The Contractor shall also display in a prominent place, located near the passageway through which the public enters in order to receive Grant supported services, a sign at least eleven inches (11") in height and seventeen inches (17") in width stating:

NOTICE: THIS AGENCY IS A RECEPIENT OF TAXPAYER FUNDING. IF YOU OBSERVE AN AGENCY DIRECTOR OR EMPLOYEE ENGAGING IN ANY ACTIVITY WHICH YOU CONSIDER TO BE ILLEGAL, IMPROPER, OR WASTEFUL, PLEASE CALL THE STATE COMPTROLLER'S TOLL-FREE HOTLINE: 1-800-232- 5454.

23. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

A. Request for Proposal #3661 and Addendum I, Addendum II and Addendum III
B. Contractor's Response to Request for Proposal #3661 and Addendum I, Addendum II and Addendum III

It is agreed that this Contract represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original as of the latest day and year written below.

Knox County Procurement
Knox County Government

The Procurement Division of Knox County, Tennessee will receive sealed proposals for the provision of **Armed Security Guard Services** as specified herein. Proposals must be received by **2:00 p.m.** on **May 20, 2025.** Late proposals will neither be considered nor returned.

Deliver Proposals To:

Proposal Number 3661
Knox County Procurement Division
Suite 100
1000 North Central Street
Knoxville, Tennessee 37917

The Proposal Envelope must show the Company Name, Proposal Number, Proposal Name & Proposal Closing Date.

SECTION I PROPOSAL PREPARATION AND SUBMISSION

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information routed to Susan Colella, Buyer, at 865-215-5769 or emailed to susan.colella@knoxcounty.org. If you have not heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division and current solicitations may be obtained on the internet at www.knoxcounty.org/procurement.

1.2 **ACCEPTANCE:** Vendors shall hold their price firm and subject to acceptance by Knox County for a period of ninety (90) business days from the date of the proposal closing, unless otherwise indicated in their proposal.

1.3 **ALTERNATIVE PROPOSALS:** Knox County will not accept alternate proposals (those not equal to specifications) unless authorized by the Request for Proposals (RFP).

1.4 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste, or abuse, file a report online by accessing http://www.knoxcounty.org/audit/hotline.php.

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.5 **AWARD:** Award may be made to the most responsive, responsible proposer(s) meeting specifications and presenting the product(s) and/or service(s) that is in the best interest of Knox County. Knox County reserves the right to award this proposal on an all-or-none basis, schedule basis or by multiple awards. Knox County reserves the right to not award this proposal. The award will be made in accordance with the evaluation criteria specified herein.

1.6 **BUSINESS OUTREACH PROGRAM:** Knox County has established a Business Outreach Program which has the responsibility of increasing opportunity for small, minority and women owned businesses. This is being accomplished through community education programs, policy edification, active recruitment of interested businesses and process re-engineering.

Knox County is committed to ensuring full and equitable participation for all disadvantaged businesses. Knox County welcomes submittals from those disadvantaged businesses that have an interest in providing goods and/or services listed herein. In addition, Knox County strongly encourages the inclusion of disadvantaged businesses by non-disadvantaged Contractors who wish to partner or subcontract portions of this agreement in order to accomplish the successful delivery of goods and/or services. If you are a disadvantaged business and would like additional information about our Business Outreach Program, please contact:

Diane Woods, Business Outreach Administrator
Knox County Procurement
Telephone: 865.215.5760
Fax: 865.215.5778
Email:diane.woods@knoxcounty.org

1.7 **CONFLICT OF INTEREST:** Vendors must have read and complied with the "Non-Conflict of Interest" statement provided in the vendor registration process prior to the opening of this solicitation.

1.8 **COPIES:** Knox County requires that proposals be submitted as one (1) marked as original and one (1) exact copy. Proposers must submit with their written response an exact electronic version of their proposal in a single file in a flash drive format.

1.9 **DECLARATIVE STATEMENTS:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the proposal being considered non-responsive and disqualified.

1.10 **ELECTRONIC TRANSMISSION OF PROPOSALS:** Knox County's Procurement Division **will not** accept electronically transmitted proposals. Email and Facsimile submissions are strictly prohibited. Due to the nature of the information requested, all submissions shall be in written format.

1.11 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys." The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for online vendor registration and maintenance, electronic receipt of purchase orders, online retrieval and submittal of quotes, bids and proposals for our vendor-clients and online requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations we need your help. When doing business with Knox County we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our online Procurement system, "KnoxBuys," if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions, please contact the Procurement Division Representative listed in Section 1.1 of this document.

1.12 **INCURRED COSTS:** Knox County will not be responsible for any costs incurred by the proposer in the preparation of their proposal.

1.13 **MULTIPLE PROPOSALS:** Knox County will consider multiple proposals that meet specifications.

1.14 **NON-COLLUSION:** Proposers, by submitting a signed proposal, certify that the accompanying proposal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce or any other fraudulent act punishable under Tennessee or United States law.

1.15 **PAYMENT METHOD:** Knox County utilizes two (2) methods of placing orders for products. The first is the use of Purchase Orders. These Purchase Orders will be issued from Knox County Procurement Division via email. The Purchase Order will detail the quantity, specific item(s) and the contracted price for each item.

The second method is the use of the Knox County E-Commerce Card (VISA). Orders placed with the credit card will list the same information as the Purchase Order. Vendors will be given the card information and approval to process the transactions by the requesting department. Vendors must indicate in their proposal if the vendor will accept the Knox County E-Commerce Card (VISA) as a form of payment. Proposers are prohibited from charging Knox County any type of merchant fee from their financial institution to accept this type of payment.

1.16 **POSSESSION OF WEAPONS:** All vendors, their employees and their agents are prohibited from possessing any weapons on Knox County property without prior written consent from the County. In the case of a vendor whose Contract requires possession of firearms or other weapons to successfully complete their Contract, vendor must provide personnel who are bonded to bear said weaponry.

1.17 **PROCESSING TIME FOR PAYMENT:** Vendors are advised that a minimum of thirty (30) days is required to process invoices for payment.

1.18 **PROOF OF FINANCIAL AND BUSINESS CAPABILITY:** Vendors must, upon request, furnish satisfactory evidence of their ability to furnish products or services in accordance with the terms and conditions of these specifications. Knox County will make the final determination as to the vendor's ability.

1.19 **PROPOSAL DELIVERY:** Knox County requires proposers, when hand delivering proposals, to time and date stamp the envelope before depositing it in the bid box. Knox County will not be responsible for any lost or misdirected mail sent by common carriers, nor will Knox County be responsible for proposals delivered to addresses or suites other than the delivery address and suite specified at the top of this solicitation. The time clock in the Procurement Division shall serve as the official record of time. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register less than twenty-four (24) hours prior to the proposal closing time.

Submittals must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.20 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, requests that proposals being submitted on paper shall:

- Be submitted on recycled paper.
- Not include pages of unnecessary advertising.
- Be made on both sides of each sheet of paper.

1.21 **RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS:** It is the responsibility of the prospective proposer to review the entire Request for Proposals packet and to notify the Procurement Division if the specifications are formulated in a manner that would unnecessarily restrict competition. Any such protest or question regarding the specifications or proposing procedures must be received in the Procurement Division by **4:30 p.m. local time on May 6, 2025.** These requirements also apply to specifications that are ambiguous.

1.22 **SIGNING OF PROPOSALS: In order to be considered, all proposals must be signed. Please sign the original in blue ink.** By signing the proposal document, the vendor acknowledges and accepts the terms and conditions stated in the proposal document.

1.23 **TAXES:** Knox County purchases are not subject to taxation. Tax exemption certificates will be provided upon request.

1.24 **TITLE VI OF THE 1964 CIVIL RIGHTS ACT AND TITLE IX OF THE EDUCATIONAL AMENDMENT OF 1972:** "Nondiscrimination in Federally Assisted Programs"—"No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. Section 2000. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI and Title IX.

1.25 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regard to solicitations and closures:

- If the Mayor closes the administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.26 **USE OF PROPOSAL FORMS:** Vendors must complete the proposal forms contained in the proposal package. Failure to complete the proposal forms may result in proposal rejection.

1.27 **VENDOR DEFAULT:** Knox County reserves the right, in case of vendor default, to procure the articles or services from other sources and hold the defaulting vendor responsible for any excess costs occasioned thereby. Should the vendor default be due to a failure to perform or because of a request for a price increase, Knox County reserves the right to remove the vendor from the County's bidder's list for twenty-four (24) months.

1.28 **VENDOR REGISTRATION:** Prior to the closing of this proposal, ***ALL PROPOSERS*** must be registered with the Procurement Division. Please register online at our website at www.knoxcounty.org/procurement and click on "Online Vendor Registration." Vendors must be registered with the Procurement Division *prior* to submitting their proposal. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register electronically less than twenty-four (24) hours prior to the proposal closing time.

1.29 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II OBLIGATIONS, RIGHTS AND REMEDIES

These terms and conditions shall be part of the Contract. Knox County reserves the right to negotiate other terms and conditions it deems appropriate and necessary under the circumstances to protect the public's trust.

2.1 **ALTERATIONS OR AMENDMENTS:** No alterations, amendments, changes, modifications or additions to this Contract shall be binding on Knox County without the prior written approval of the County.

2.2 **APPROPRIATION:** In the event no funds are appropriated by Knox County for the goods or services in any fiscal year, or insufficient funds exist to purchase the goods or services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

2.3 **ASSIGNMENT:** Contractor shall not assign or subcontract this agreement, its obligations or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County.

2.4 **BOOKS AND RECORDS:** Vendor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract and make such materials available at its offices at all reasonable times during the Contract period and for five (5) years from the date of the final payment under this agreement for inspection by County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Vendor's costs of manufacturing, acquiring or delivering the products and services governed by this agreement.

2.5 **CHILD LABOR:** Contractor agrees that no products or services will be provided or performed under this Contract that have been manufactured or assembled by child labor.

2.6 **COMPLIANCE WITH ALL LAWS:** Contractor is assumed to be familiar with and agrees to observe and comply with all Federal, State and Local laws, statutes, ordinances and regulations in any manner affecting the provision of goods and/or services and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

2.7 **DEFAULT:** If Contractor fails to perform or comply with any provision of this Contract or the terms or conditions of any documents referenced and made a part hereof, Knox County may terminate this Contract, in whole or in part, and may consider such failure or noncompliance a breach of Contract. Knox County expressly retains all its rights and remedies provided by law in case of such breach, and no action by Knox County shall constitute a waiver of any such rights or remedies. In the event of termination for default, Knox County reserves the right to purchase its requirements elsewhere, with or without competitive solicitation.

2.8 **GOVERNING LAW/VENUE:** This agreement shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue, and inconvenient forum.

2.9 **INCORPORATION:** All specifications, drawings, technical information, Request for Proposals, Proposal, Award and similar items referred to or attached or which are the basis for this Contract are deemed incorporated by reference as if set out fully herein.

2.10 **INDEMNIFICATION—HOLD HARMLESS:** Contractor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of or due to breach of the agreement by Contractor, its subcontractors, suppliers, agents or employees or due to any negligent act or occurrence or any omission or commission of Contractor, its subcontractors, suppliers, agents or employees.

2.11 **INDEPENDENT CONTRACTOR:** Contractor shall acknowledge that it and its employees serve as independent contractors and that Knox County shall not be responsible for any payment, insurance or incurred liability.

2.12 **IRAN DIVESTMENT ACT:** By submission of this RFP response, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not on the list created pursuant to Tennessee Code Annotated § 12-12-106.

2.13 **LIMITATIONS OF LIABILITY:** In no event shall Knox County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

2.14 **NO BOYCOTT OF ISRAEL:** Pursuant to Tennessee Code Annotated Title 12, Chapter 4, Part 1, by submission of a response to this solicitation, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not currently engaged in, and will not for the duration of the Contract engage in, a boycott of Israel.

2.15 **NON-DISCRIMINATION AND NON-CONFLICT STATEMENT:** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin or individual trait found to be and illegal consideration shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this agreement or in the employment practices of vendor. The Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination. Contractor covenants that it complies with the Fair Wage and Hour Laws, the National Labor Relations Act and other Federal and State employment laws as applicable. Contractor covenants that it does not engage in any illegal employment practices.

Contractor covenants that it has no public or private interest and shall not acquire directly or indirectly any interest that would conflict in any manner with the provision of its goods or performance of its services. Contractor warrants that no part of the total Contract amount provided herein shall be paid directly or indirectly to any officer or employee of Knox County as wages, compensation, or gifts in exchange for acting as officer, agent, employee, subcontractor or consultant to Contractor in connection with any goods provided or work contemplated or performed relative to the agreement.

2.16 **ORDER OF PRECEDENCE:** In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) Contract, (2) Request for Proposals, (3) Contractor's Response, (4) Award, (5) Special Terms and Conditions, (6) General Terms and Conditions, (7) Specifications, (8) Drawings.

2.17 **REMEDIES:** Knox County shall have all rights and remedies afforded under the U.C.C. and Tennessee law in Contract and in tort, including but not limited to, rejection of goods, rescission and right of set-off, refund, incidental, consequential and compensatory damages and reasonable attorney fees.

2.18 **RIGHT TO INSPECT:** Knox County reserves the right to make periodic inspections of the manner and means the service is performed or the goods are supplied and warehoused.

2.19 **SEVERABILITY:** If any provision of this Contract is declared illegal, void or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

2.20 **TAX COMPLIANCE:** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its proposal or proposal and signature, it is current in its respective Federal, State, County and City taxes of whatever kind or nature, and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

2.21 **TERMINATION:** County may terminate this agreement with or without cause at any time upon written notice of not less than thirty (30) calendar days. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the termination date shall be paid.

SECTION III SPECIAL TERMS AND CONDITIONS

3.1 **INTENT:** The intent of the solicitation is to set forth and convey to prospective proposers the general requirements for providing the Knox County Health Department with quality Armed Security Guard Services. Award will be based on Best Value. Best Value means more than low cost. It includes initial cost, service quality and other factors detailed herein.

3.2 **ACCEPTANCE:** Vendors are advised that the payment of an invoice does not necessarily constitute an acceptance of services that are provided. Acceptance requires a specific written action by Knox County so stating.

3.3 **ADDITIONS OR DELETIONS:** Knox County reserves the right to add services as the need arises or to delete services that have become obsolete or no longer in demand. If services are to be added, Knox County and the Contractor will arrive at a mutually agreed price. Any additions or deletions must be approved in writing by Knox County Procurement prior to any changes in service.

3.4 **AGENCY CONTACTS:** The Contractor will be given a list of key personnel directly associated with the services to be performed for contact information. Only the Knox County Procurement Division will have the authority to make changes during the term of this agreement and in compliance with any resulting Contract.

3.5 **AWARD LENGTH:** The length of this Contract will be one (1) year with the option to renew upon mutual consent of both parties. The term agreement may be renewed for an additional four (4) years, one (1) year at a time, for a possible total of five (5) years. Knox County reserves the right to purchase these products and/or services from other sources if the need arises. Knox County reserves the right to revoke the award if a pattern of unavailability arises with the vendor.

3.6 **CHANGES AFTER AWARD:** It is possible that after the award, Knox County might change its needs or requirements. Knox County reserves the right to make such changes after consultation with the vendor. Should additional costs arise, Knox County reserves the right to consider accepting these charges provided the vendor can document the increased costs. Knox County also reserves the right to accept proposed service changes from the vendor if they lower the cost to Knox County and/or provide improved service.

3.7 **COMMUNICATIONS:** The successful execution of this contract will require extensive communication between all parties involved. While information may be transmitted via telephone, it should always be followed up with an email. It is essential that the Contractor have efficient email capabilities. The Contractor will be required to submit a list of individuals, along with direct phone numbers, cell phone numbers and email addresses for the agency's contacts. These individuals must be familiar with the Knox County Contract and have the authority to make adjustments as requested by Knox County.

3.8 **COMPLIANCE WITH ALL APPLICABLE REGULATIONS:** Vendor agrees and covenants that the company, its agents, and employees will comply with all City, County, State and Federal codes, laws, rules and regulations applicable to the business to be conducted under this contract. If the vendor performs any work knowing it to be contrary to such laws, ordinances, rules and regulations, the vendor shall bear all costs arising from such work.

3.9 **CONTACT PERSONNEL:** Essential to the success of this Contract is the development of a good working relationship between the Vendor and Knox County. It is imperative that the Knox County account be handled efficiently and professionally. Knox County should be assigned no more than two (2) Vendor contacts to handle billing inquiries and service-related issues. In the event one (1) or both contacts leave the Knox County account, the Vendor shall formally introduce the new contacts to Knox County personnel. These contacts must be knowledgeable of the County's account to avoid an interruption of service.

3.10 **CONTRACT EXECUTION:** The award of this proposal may result in a Contract between Knox County and the successful Vendor(s). The Contract may require approval of Knox County Commission and must receive a majority vote. The successful Vendor(s) may be required to be present at Knox County Commission meetings to answer questions relating to the service to be performed. Adequate notification will be given by Knox County Procurement Division if the awarded vendor(s) will need to attend meetings. There shall be no cost to Knox County for attendance of the Vendor(s). If a Contractor's Master Agreements, Service Agreements, Terms and Conditions or other contract agreements are submitted they will not be accepted.

3.11 **EVALUATION CRITERIA:** This proposal will be evaluated using the following criteria:

Approach to Scope of Work	40 Points
Experience and Qualifications	40 points
Cost	20 points

Knox County may select an Evaluation Committee for this solicitation to thoroughly review and score all submitted responsive and responsible proposals. Each evaluator will have the ability to award up to 100 points, based on the Evaluation Criteria, per submission.

3.12 **EVALUATION REVIEW:** Knox County reserves the right to use all pertinent information that might affect the County's judgment as to the appropriateness of an award to the best evaluated Vendor(s). This information may be appended to the proposal evaluation process results. Information on a service provider from reliable sources, and not within the service provider's proposal, may also be noted and made part of the evaluation file. Knox County shall have sole responsibility for determining a reliable source. Knox County reserves the right to conduct written and/or oral discussions/interviews after the proposal closing. The purpose of such discussions/interviews is to provide clarification and/or additional information to make an award that is in the best interest of Knox County.

3.13 **EXCEPTIONS TO SPECIFICATIONS:** Vendors taking exception to any part or section of these specifications shall indicate such exceptions on their submittal. A failure to indicate any exception(s) shall be interpreted as the Vendor's intent to fully comply with the specifications as written. Conditional or qualified offers are subject to rejection in whole or in part. Any exceptions shall be included in Tab IX of the submittal. Do not strike through or in any other way alter the RFP. Exceptions listed within other sections of the submittal shall not be reviewed or considered.

3.14 **GRATUITIES AND KICKBACKS:** It shall be a breach of ethical standards for any person or company to offer, give or agree to give any employee or former employee, or for any employee or former employee to solicit, demand, accept or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or a purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing or in any other advisory capacity in any proceeding or application, request for ruling, determination, claim or controversy or other particular matter, pertaining to any program requirement of a contract or subcontract or to any solicitation or proposal therefore. It shall be a breach of ethical standards for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor or a person associated therewith, as an inducement for the award of a subcontract or order. Breach of the provisions of this paragraph is, in addition to a breach of this Contract, a breach of ethical standards which may result in civil or criminal sanction and/or debarment or suspension from being a contractor or subcontractor under Knox County contracts.

3.15 **INSURANCE:** The successful Vendor(s) must carry the insurance as indicated on the Insurance Checklist hereto. As proof of the Vendor's willingness to obtain and maintain the insurance, the Vendor must complete, sign, and have its insurance agent sign the attachment and submit it with the proposal. Upon receipt of a Notification of Intent to Award, the successful vendor will be required to submit a Certificate of Insurance (COI) including any corresponding endorsement page(s) with the specified coverage and listing Knox County as an additional insured. It shall be the successful vendor's responsibility to keep a current COI and endorsement page(s) on file with Knox County Procurement for as long as the contract is in effect. Refer to the Insurance Checklist (Attachment C) regarding coverage and endorsement requirements.

3.16 **INVOICING PROCEDURES:** Knox County requests that reports be easy to read and understand. There shall be no additional charge for this information and procedures to be included. Each report shall include a breakdown of the service provided and shall list the contracted unit price. Supporting documentation shall be included with reports as applicable. Reports without this information may be returned to the Contractor for correction.

Invoices shall be sent to the address indicated below. Invoices must be submitted in triplicate and must match the corresponding Contract number. Email invoices to:

Knox County Health Department
Attn: Leslie Collier
140 Dameron Avenue
Knoxville, TN 37917

3.17 **INVOICE REVIEW:** Knox County shall review all reports for adherence to the terms and conditions of the Contract. Variations from the Contract and Contract pricing are strictly prohibited. Any variance found on the invoice will result in rejection of that invoice. Rejected invoices will be returned to the Contractor(s) for correction. Repeated variations may result in the termination of the Contract with that particular Contractor.

3.18 **NEGOTIATION:** Knox County may select a successful proposer based on initial offers received without discussions. Therefore, each proposal shall contain the proposer's best terms from a cost or price and service standpoint. Knox County reserves the right to enter into Contract negotiations, including, but not limited to, rates and term, with the highest-rated proposer. If Knox County and the selected proposer cannot negotiate a successful agreement, Knox County may terminate said negotiations and begin negotiations with the next highest-rated proposer. This process will continue until an agreement has been reached or all proposers have been rejected. No proposer shall have any rights against Knox County arising from such negotiations.

3.19 **NEWS RELEASES BY VENDORS:** As a matter of policy, Knox County does not endorse the services of a Contractor. A Contractor will not make news releases concerning any resultant contract from this solicitation without the prior written approval of Knox County.

3.20 **NO CONTACT POLICY:** After the date and time that the vendor receives this solicitation, any contact initiated by any proposer with any Knox County representative, other than the Procurement Division representative listed herein, concerning this Request for Proposals, is strictly prohibited. Any such unauthorized contact may cause the disqualification of the proposer from this procurement transaction.

3.21 **OFFER WITHDRAWAL:** No proposal can be withdrawn after it is filed unless the proposer makes a request in writing to the Knox County Procurement Division prior to the time set for the closing of proposals or unless the County fails to accept within ninety (90) business days after the date fixed for the closing of the RFP.

3.22 **PRICING:** The Contractor(s) warrants that the unit price stated for all items shall remain firm for a period of twelve (12) months from the first day of the Contract period. If the Contractor's price is increased after the initial year, Knox County must be given a written notice to consider.

Such a request shall include as a minimum, (1) the cause for the adjustment; (2) the amount of the change requested with documentation to support the requested adjustment. Price increases will only be considered at the renewal period(s). If the price increase is rejected the vendor may:

3.22.1 Continue with the existing prices.
3.22.2 Request a lower price increase.
3.22.3 Not accept the renewal offer.

Contractor(s) must submit proof of price increase. If a price increase is approved by Knox County Procurement and the requesting department the approval notification will be made in writing and the Contractor(s) will be notified of the new price schedule and the effective date

3.23 **PROPOSAL EVALUATION:** In evaluation of submitted proposals, Knox County reserves the right to use any or all of the ideas from the proposals submitted without limitation and to accept any part or the entire successful proposal in selecting an operation which is judged to be in the best interest of Knox County. All material submitted becomes property of Knox County.

3.24 **PROPOSAL FORMAT:** This solicitation is in the Request for Proposals format. At the specified date and time, each proposer's name will be publicly read aloud. No further information will be given at that time. Evaluation of the proposals will proceed as expeditiously as possible and successful, as well as unsuccessful, notification will be given.

3.25 **PROPOSER OBLIGATION:** Proposers shall become fully acquainted with conditions relating to the scope of the work detailed in this RFP. Failure to become acquainted with the existing conditions shall in no way absolve the proposer of any obligations with respect to this RFP or the Contract.

3.26 **PUBLIC RECORDS ACT:** Knox County is subject to the Tennessee Public Records Act 10-7-503 et seq. Proposers are cautioned that all documents submitted on behalf of this Request for Proposals shall be open to the public for viewing and inspection.

3.27 **QUANTITIES:** Knox County does not guarantee any quantity of services will be utilized under this solicitation. Services will be utilized on an as needed basis.

3.28 **REFERENCES:** Proposers **must** submit a list of three (3) references, with Public Sector projects preferred, which you have performed this type of service within the past three years. Provide the name of the agency or institution, the person to contact, their **current** telephone number, **current** email address and the nature and size of the contract. Do not list the Knox County Government as a reference. References must be submitted on the attached Reference Check Form.

3.29 **REJECTION OF PROPOSALS:** Knox County reserves the right to reject any and all proposals received as a result of this request and to waive any informality, technical defect or clerical error in any proposal, as the interests of Knox County may require. Non-acceptance of any proposal will be devoid of any criticism of the proposal and of any implication that the proposal is deficient in any manner.

Non-acceptance of any proposal shall be construed as meaning simply that the County does not deem the proposal acceptable or that another proposal was deemed more advantageous to Knox County for the particular services proposed.

3.30 **REMOVAL OF CONTRACTOR'S EMPLOYEES:** Contractor agrees to utilize only experienced, responsible, and capable people in the performance of the work. Knox County may require that the Contractor remove from the job covered by this Contract, employees who endanger persons or property or whose continued employment under this Contract is inconsistent with the interest of Knox County.

3.31 **SUBMIT QUESTIONS:** Prospective proposers may submit questions concerning this solicitation until **May 6, 2025 at 4:30 p.m. local time**. Submit questions as noted in Section 1.1.

3.32 **TENNESSEE REGISTRATION:** The successful proposer must meet any applicable State of Tennessee registration requirements.

SECTION IV SCOPE OF WORK

The successful vendor will provide Armed Security Guard Services for the Knox County Health Department. Proposers must submit pricing based on the requirements detailed in accordance with the requirements and specifications stated below. The Request for Proposals outlines the scope of services and requirements that must be addressed by any Contractor submitting a response to this solicitation

4.1 **SCOPE OF WORK:** Knox County is seeking a Contractor(s) to provide Armed Security Guard Services for the Knox County Health Department, hereafter referred to as the County. The County is seeking to partner with a security provider to enforce security related policies, as well as to protect the public, staff and property of the Knox County Health Department.

An Armed Security Guard refers to a security guard engaged in the service of any Contract resulting from this RFP. While on premise, the security staff will be under the supervision of a designated security liaison at Knox County Health Department.

4.2 **BACKGROUND INFORMATION:** The main location of the Knox County Health Department is located at 140 Dameron Ave, Knoxville 37917 and has three (3) levels with approximately sixty thousand (60,000) square feet, along with public and employee parking lots. This facility will be the main location for armed security services. Occasionally, armed security guard services may be needed at:

West Clinic
9000 Executive Park Drive, Suite A301B
Knoxville, Tn 37923

4.3 **CONTRACTOR RESPONSIBILITIES:** Proposers must provide a narrative description of their proposed work plan for providing Armed Security Guard Services. The Vendor's response should detail how they will provide Armed Security Guard Services to the County. The Contractor shall:

4.3.1 Have and, if awarded, maintain any required certificates and licenses related to the provision of this service.

4.3.2 Submit monthly invoices to a designated Knox County Health Department supervisory employee that documents the charges for services rendered for that month.

4.3.3 Ensure that the security service is licensed, and security personnel certified under TCA -62-35-101 et seq. with a Certificate of Insurance per TCA 62-35-114. Contractor engaged in providing service to Knox County must maintain any applicable certifications and receive on-going training as required by TCA-62-35-101 et seq. during the term of this service. Contractor must be in good standing with the Knox County Sheriff's Office (KCSO). A copy of the license(s) and certification(s) of any personnel assigned to the Knox County Health Department must be submitted with the proposal and maintained during contract period.

4.3.4 Ensure that appropriate professional reference and background checks will be conducted by the Contractor on all individuals utilized by the Contractor for the execution of any service provided to Knox County arising from this RFP.

4.3.5 The Contractor will maintain a drug-free workplace in accordance with applicable federal, state and local laws and regulations. Due to the safety-sensitive nature of armed security guard services, all personnel assigned under this contract will be free from the influence of drugs and alcohol at all times while performing services.

- The Contractor will have a drug testing program that includes, at a minimum:
    - Pre-Employment Testing
    - Random Testing
    - Reasonable Suspicion Testing
    - Post-Incident Testing

Any individual who tests positive for illegal drugs or is found to be under the influence of alcohol while on duty will be immediately removed from KCHD premises and will not be reassigned to this contract.

4.3.6 The Contractor will maintain documentation of its drug-free policy, testing procedures and results of drug tests and make them available to Knox County upon request. Non-compliance with this requirement may result in contract termination.

4.3.7 Perform monthly checks on service provided to Knox County arising from this RFP to include face-to-face meetings with designated Knox County Health Department staff upon request.

4.4 **EQUIPMENT:** Guards shall be dressed in a professional manner which clearly identifies them as a security guard. Contractor shall provide each guard with all clothing and equipment necessary to perform the tasks described herein. This may include, but is not limited to, proper weaponry, appropriate seasonal outer garments, flashlights, safety shoes, reflective vests, ballistic vest and cell phones. A two-way radio will be provided by the Knox County Health Department at the beginning of the shift and returned when shift is concluded. Guards shall bear a symbol, badge, emblem or insignia clearly identifying the wearer as a security guard. Contractors must provide their guards with a photo identification badge.

Note: Use of cell phones by security personnel except for business purposes is prohibited.

4.5 **EXPERIENCE:** Proposers will be required to supply information demonstrating their experience providing Armed Security Guard Services

4.6 **GUARD DUTIES:** The following are the minimum responsibilities of the Armed Security Guard at the Knox County Health Department.

- Maintain a highly visible security presence inside and outside the facility, which will include foot patrol.
- Good communication skills. Bilingual will be helpful but not required.
- Display proper photo identification badge while on any property belonging to Knox County.
- Regularly patrol all public areas of Knox County Health Department including:
  - The Basement level, First and Second Floors
  - Public Restrooms
  - Outdoor Knox County Health Department property, including parking lots (public/employee)
- Working with designated health department personnel to ensure that security cameras are functioning properly and to monitor security cameras as needed.
- Handle security related emergencies and security issues reported by staff and public.
- When alerted by staff, promptly respond to calls to engage with and/or remove unruly patrons and visitors.
- Ability to handle stressful situations and/or individuals under stressful circumstances.
- Ability to follow directions without hesitation and under stressful situations.
- Maintain familiarity with means by which to summon emergency personnel.
- Provide armed security for authorized special events at the Knox County Health Department as required. Locations may vary.
- Maintain confidentially of any clients and patients seeking/receiving services at KCHD.
- Maintain a daily activity log and submit log to designated Knox County Health Department personnel.
- Investigate any accidents occurring at the facility, with a follow-up written report to be completed as soon as practicable following the accident. Submit incident reports as required to employee health nurse immediately following incidents.
- Maintain familiarity with the exact location and proper use of emergency equipment including but not limited to fire extinguisher.
- Perform other duties as required.

4.7 **GUARD QUALIFICATIONS:** The following are the minimum qualifications for individuals rendering Armed Security Guard Services. Contractor must include copies of licenses and certifications for all individuals who may provide services related to this RFP.

4.7.1 Contractor's employees assigned to a Contract resulting from this RFP must be certified as an armed security guard by the State of Tennessee, under TCA 62-35-101 et seq.

4.7.2 Contractor's employees assigned to a Contract resulting from this RFP must have extensive training and prior experience with security practices and have the ability to engage with the public in a manner that reflects the County's expected level of service, values and rules of conduct.

4.7.3 Security staff shall have comprehensive training in dealing with persons with mental illness, substance abuse issues and homelessness.

4.7.4 Security staff shall be familiar with security and crime issues relating to the downtown Knoxville area.

4.8 **HIPAA/HITECH:** As applicable, Contractor must comply with the Health Insurance Portability and Accountability Act of 1996, Public Law 104-91 (HIPAA) and the Health Information Technology for Economic and Clinical Health Act, Public Law 111-005 (the HITECH Act).

4.9 **HOURS & SCHEDULING:** The following are the standard operating hours which are the typical hours that Armed Security Guard personnel will be needed at the Knox County Health Department. Security Services will not be required if the Health Department is closed due to weather events, actions taken by the Knox County Mayor or holidays observed by Knox County. A listing of holidays observed by Knox County can be found at the following link: https://www.knoxcounty.org/hr/holidays.php. Security Guard Services utilized during the hours noted below will be billed at the Regular Business Hours Fixed Hourly Rate. Special events requiring extended hours will be submitted to the Contractor in the form of a monthly calendar prior to the start of each month and the scheduling of guards should be done in a manner that minimizes overtime.

Armed Security Guard Hours of Operation	
Monday – Friday	7:45 AM – 5:00 PM*

*Note: The second and fourth Tuesday of every month are extended clinics. On these days, the Health Department will extend its hours to 7:00 p.m. This extended schedule is to be billed at the standard hourly rate.

4.10 **PARKING:** Parking is available at all KCHD facilities at no charge.

SECTION V PROPOSAL FORMAT

The following guidelines should be followed when responding to the Request for Proposals. Negligence in adhering to the criteria listed below will be considered when reviewing the responses and evaluating the proposers. Knox County reserves the right to reject any proposal for failure to comply with the requested response specifications. The County reserves the right to amend the Request for Proposals by addendum prior to the final date of proposal submission.

- Knox County requests proposals be in sufficient detail to address all requirements.
- The County requests responses be submitted in a three-ring binder containing sections separated by tabs. **Do not submit spiral bound or glued responses.**
- Please submit one (1) marked original and one (1) exact copy.
- Page numbers should be placed on the bottom center of pages.
- Proposers shall also submit an exact copy of the original proposal on a flash drive. **This shall be in one (1) complete pdf file. Do not include multiple folders on the flash drive.**

TAB I **SIGNED COVER LETTER AUTHORIZING SUBMISSION OF THE PROPOSAL**

TAB II **PROPOSER INFORMATION**
Company Name, Address, Knox County Vendor Number, Primary Contact Person, Contact Telephone Number, Contact Email, copy of Knox County Business License (if applicable), State of Tennessee Sales Tax Number (if applicable), Federal Tax Identification number (EIN), statement as to whether or not you will accept payment via credit card, acknowledgement of addenda (if applicable).

TAB III **TABLE OF CONTENTS**

TAB IV **APPROACH TO SCOPE OF WORK (40 Points)**
Proposers are to thoroughly detail how their proposed services will meet the requirements outlined in the Scope of Work. Proposers must demonstrate an understanding of Knox County's needs and fully explain the organization's overall approach to meet the County's requirement to include:

- Proposers must submit a comprehensive narrative explanation of the methodology it intends to employ along with an explanation of how the methodology will serve to accomplish the work and provide the deliverables described in the scope of work.
- Proposers must provide an implementation plan and comprehensive narrative statements that outline the management plan it intends to follow. This information should fully illustrate how the plan will serve to accomplish the work and furnish the deliverables described in the scope of work.
- Describe the recruitment, screening and hiring policies of the firm. Contractor is to clearly outline the recruitment and screening processes by which guards are hired, including the medium through which the Contractor advertises and any of the organization's minimum hiring requirements. Detail the process by which the Contractor conducts and maintains screenings and professional reference checks.
- Describe how the organization's training processes align with and support the ability of the Contractor to meet the mandatory requirements of this RFP. Detail the Contractor's policies and practices regarding on-going training. Identify the manufacturer, model and caliber of weapon guards will carry. Detail the Contractor's "Response to Resistance" protocol.
- For each of the individuals who may provide service, provide the following information: (a) title; (b) a listing of current certifications/licenses held by that person; (c) area(s) of expertise, experience and training. If new guard personnel are added during the course of the contract, the Contractor must submit their credentials for approval by KCHD before they begin service.
- Detail the organization's guard staffing resources. Identify the total number of guards available to perform the services detailed herein and identify the number of guards that will be utilized during a standard forty (40) hour week. Describe the Contractor's staffing policy toward special events and employee absences
- Provide an overview of how the scheduling of guards will be done in a manner that minimizes overtime.
- Provide a sample monthly guard schedule reflecting two (2) extended hour clinics and one (1) 4-hour special event on a Saturday following an extend hour clinic.
- Identify the individual(s) who will be responsible for submitting monthly invoices and performing quarterly checks with facility managers. Provide a sample invoice corresponding to the sample schedule detailed above.

TAB V **EXPERIENCE AND QUALIFICATIONS (40 POINTS)**

- Provide a thorough background and description of the firm, identifying the number of years that the firm has been in business. Detail the firm's experience providing Armed Security Guard Services comparable to those being requested in this RFP.
- Vendors are to complete References per Attachment A. Do not use the Knox County Health Department or Knox County Government as a reference.

TAB VI **PROPOSED COST**

Please detail the costs of the services outlined in this proposal in the format provided in Attachment B. Cost of services shall be quoted as a regular fixed hourly rate as well as a fixed overtime hourly rate for services performed outside of the regular operating hours of the Knox County Health Department. Hourly rates are to include all travel and ancillary out of pocket expenses.

NOTE: This tab shall only be included in the original document and the exact electronic version. This tab is to be submitted under separate cover from the other parts of the vendor's proposal. This tab will be reviewed after the other sections of the vendor's proposal have been reviewed and scored.

TAB VII **CERTIFICATIONS/LICENSES**

Provide copies of all certifications/licenses required to perform the work detailed herein.

TAB VIII **OTHER INFORMATION**

Proposers may include any other information deemed pertinent to this solicitation.

TAB IX **EXCEPTIONS**

Please note any and all exceptions taken to any part this Request for Proposals. If none are taken, please clearly state so. Do not mark through or otherwise alter the language of this RFP in your response.

TAB X **ATTACHMENTS**

Addendum I Request for Proposals No. 3661
Armed Security Guard Services

Addendum Date: April 22, 2025 **Buyer: Susan Colella**

Closing Date: May 20, 2025 @ 2:00 P.M. EST **Total Page(s): 2**

The following is for clarification:

Question 1. Please advise how many guards will be assigned to work at the two locations per day.
Answer 1. Only the main health department location will need a guard every day. Currently there is 1 guard assigned.

Question 2. If there are already guards or a security firm in place, would Knox County be interested in retaining any of those existing officers through our company?
Answer 2. That is at the discretion of the company that is awarded the contract.

Question 3. Are there any specific concerns or operational nuances we should be aware of, such as special events or seasonal surges, beyond what's noted in the RFP?
Answer 3. We maintain an ongoing calendar of special events and needs for security beyond core business hours.

Question 4. Provide more information regarding the type of uniform and identification required? Will standard company uniform and identification be accepted?
Answer 4. Standard company uniform and identification is acceptable.

Question 5. Provide clarification regarding "in good standing with Knox County Sheriff's Office" as stated in Section 4.3.3.
Answer 5. If bonded by the Knox County Sheriff's Office.

OFFICE OF COUNTY MAYOR GLENN JACOBS

Procurement Division, 1000 N. Central Street, Suite 100, Knoxville, TN 37917

Question 6. Is a Knox County business license required?
Answer 6. Only if the vendor's location is physically located within Knox County.

End of Addendum I.
Please acknowledge Addendum I in your response.

Armed Security Guard Services

Addendum Date: May 13, 2025 **Buyer: Susan Colella**

Closing Date: May 20, 2025 @ 2:00 P.M. EST **Total Page(s): 1**

The following is for clarification:

Question 1. Does the Knox County Health Department want us to exclude or include GeoCheck in the pricing?

Answer 1. Pricing should include all services needed to fulfill the scope of services.

Question 2. Section 4.9 - ***" Note: The second and fourth Tuesday of every month are extended clinics. On these days, the Health Department will extend its hours to 7:00 p.m. This extended schedule is to be billed at the standard hourly rate."***
Will this be utilized every Tuesday or should it be priced as per the RFP which states every other Tuesday?

Answer 2. Pricing should include all services needed to fulfill the scope of services.

End of Addendum III.
Please acknowledge Addendum III in your response.

SECURITY SERVICE PROPOSAL

Armed Security Guard Services
Knox County Health Department

Proposal Number 3661

Proposal Deadline: May 20, 2025

TAB I – SIGNED COVER LETTER AUTHORIZING SUBMISSION OF THE PROPOSAL

Susan Colella, Buyer
Knox County Procurement Division
Suite 100
1000 North Central Street
Knoxville, TN 37917

May 1, 2025

Dear Susan,

I hope this message finds you well. I am writing to introduce Shield & Buckler Security, Inc. (SBSI) and authorize the submission of this proposal with the intent of securing a contract for Armed Security Guard Services. In today's rapidly evolving society, the threats we face are becoming increasingly complex, and it is vital to have a reliable security team that can address these challenges effectively.

As the CEO of SBSI, I am responsible for directing our response to requests for proposals and ensuring that we continually strive to expand our security service operations while providing our clients with excellent customer service. Shield & Buckler Security, Inc. provides client-centered security solutions that ensure the safety and protection of our clients. Our team of highly trained and experienced security guards is equipped to handle all aspects of security operations ranging from hospitals, schools, factories, government buildings, financial institutions, to special events.

At SBSI, we prioritize hiring, training, and deploying professional security guards who embody our values of integrity, dependability, and professionalism. Due to the nature of operating in a health department setting while representing Knox County, it is very important that your security company is dedicated to safety, accountability, communication, and customer service.

We believe that in our almost 20 years of service we have developed a team that is fully capable of meeting and exceeding the standard of service that Knox County expects and deserves for the Knox County Health Department's staff and customers. Our team is ready to provide exceptional security services to ensure your peace of mind, and I thank you for the opportunity to submit our security service proposal. Our team is ready to provide exceptional security services to ensure your peace of mind, and I thank you for the opportunity to submit our security service proposal.

Best Regards,

Brandi L. Kern

IV – APPROACH TO SCOPE OF WORK

SERVICE METHODOLOGY

SBSI has provided armed and unarmed security guards for 19 years. Initially, SBSI focused on unarmed security services before expanding to armed security services. Each year, SBSI grows by adhering to our mission and core values. Proper vetting and training of our security team are crucial, along with maintaining a collaborative relationship between our corporate staff and the clients we serve. This relationship is made possible by our well-trained and vigilant security team, dedicated and professional account management, and our advanced account and personnel management systems.

SBSI account managers have access to TrackTik which allows the account manager to manage all aspects of timekeeping, invoicing, scheduling, attendance, and metrics. SBSI corporate staff will also have access to TrackTik for the purpose of monitoring personnel management from the corporate office.

The account manager will be the first contact person for the Knox County Health Department requests and communications, and work directly with the Knox County Health Department manager or designee. The account manager will have an SBSI assigned phone and email account for any requests for additional coverage. The account manager will be responsible for all scheduled assignments. If the assigned account manager needs assistance with finding coverage, the assigned account manager will coordinate other account managers and the SBSI corporate recruiter for assistance. The SBSI corporate recruiter stays current with all staffing positions within the company.

The assigned account manager is responsible for all communications regarding SBSI security guards. The account manager will determine the response to the communication and coordinate a timely and effective response in accordance with SBSI's policies and procedures.

Customer service is our priority. One of the best ways to serve a client is to handle any complaints quickly and efficiently regarding our staff by being available, addressing the issue presented, and following up with the client to present a plan of action. When complaints are generated by anyone other than SBSI personnel, the account manager will receive the complaint and report the plan of action to the designated direct report personnel of the Knox County Health Department, and to the SBSI HR department.

All newly hired security guards are given the required training and issued all the necessary uniforms and equipment items to successfully perform their required duties. All subsequent requests for uniforms and equipment will be reported directly to the SBSI corporate staff via a dedicated quartermaster's email address and the security personnel will receive a response advising a course of action. All uniforms and equipment are purchased from Summit Uniforms.

SBSI's capacity to operate and expand as a security service provider is contingent upon both technical and tactical expertise. With regard to technical knowledge, SBSI holds licensure as a Private Protective Security Company in the State of Tennessee and has established comprehensive policies, procedures, and post orders that enable our security personnel to serve our clients effectively and efficiently. Regarding tactical knowledge, SBSI is managed by individuals with extensive experience in military, law enforcement, and security training. The management team at SBSI ensures that our security guards receive thorough training and are well-equipped to adhere to our established policies, procedures, and post orders.

SBSI's client portfolio primarily includes clients who necessitate a minimum staffing level for security guards, ensuring that the absence of a security guard does not impede the client's daily operations. SBSI has a proven track record of ensuring staffing levels are met for all our clients. This level of accountability is possible using our personnel management and reporting system, TrackTik. Our security team receives their schedules electronically through TrackTik, which keeps each member of our team fully informed of their duty assignments. TrackTik also allows our staff to be notified by text when security guards fail to clock in at the required time of their shift, which allows the supervisor to make immediate corrections to resolve the situation. If the supervisor cannot promptly resolve the staffing issue, the account manager will take over the assignment. Ensuring accountability to our clients involves holding each individual in the Chain of Command responsible for the duties listed in their job descriptions.

SBSI employs over 220 security guards in the East TN area, with the hiring process managed by a full-time recruiter. The primary responsibilities of the recruiter include advertising, interviewing, and assigning members to the security team. The recruiter operates from the corporate office located at 3309 E Governor John Sevier Hwy.

RECRUITMENT, SCREENING, & HIRING

Recruitment & Retention Plan

The following information will define the team member fulfillment process that SBSI uses to recruit our most important value and identify the process used to retain good quality security guards. There are three steps to our team member fulfillment process: recruiting, onboarding, and retaining. All three steps are equally important to ensure the success of our security team and our ability to provide the customer service that our clients deserve.

Recruiting Plan

SBSI understands our contractual and moral obligation to ensure that we staff the predetermined number of hours in our contract. That requires SBSI to fulfill a very basic aspect of managing security operations. We must constantly be aware of our staffing levels relevant to the number of hours that we are contractually mandated to fulfill. We have several ways to ensure that we are continually aware of our current level of team member fulfillment.

- Weekly Staff Meetings
    - Executive Staff Meetings – Mondays
        - Account Managers
        - Corporate Recruiter
        - Director of Human Resources
        - Chief Operating Officer
    - Management Staff Meetings – Wednesdays, with management of locations with staffing deficiencies.
        - Account Manager
        - Corporate Recruiter
        - Site Supervisor
- Metric Analysis
    - TrackTik Reporting Data
    - Payroll Overtime Reporting
- Site Visits
    - Account Managers
    - Supervisors

Onboarding Plan

After determining the need for recruiting, and completing the hiring process, the new candidates must be brought onboard our security team. This process will be the first impression that we make on new hires. It is very important that the process is organized, efficient, and informative. If we demand professionalism from our security team, we must set the example at the highest level and from the very beginning.

Upon completion of the initial interview, the recruiter will determine whether the candidate meets the requirements to continue in the hiring process. The candidates who are marked "Currently Qualified" will be contacted to come back to our corporate office to begin the onboarding process.

Onboarding consists of hiring and equipping new recruits.

- **Hire** – The hiring process begins with the first corporate contact, which is predominantly in response to our most used online tool, Indeed. The corporate contact is made in two ways.
    - Candidate Initiated – The candidate contacts SBSI by submitting a resume, applying, or contact by phone or email.
    - Corporate Initiated – The candidate responds to SBSI initiated contact, generally by Indeed, during the recruitment process.

When SBSI determines that a candidate meets the initial requirements for the hiring process, an initial interview is conducted by the SBSI recruiter. The interview will identify basic information allowing the candidate and the interviewer to determine the level of interest in both parties to continue with or terminate the process.

The interview allows for an evaluation and subsequent rating in the six following characteristics by asking behavior-based questions:

1. Conflict Management
2. Positive Service Attitude
3. Problem Solving
4. Judgement/Decision Making
5. Learning Orientation
6. Safety Orientation.
7. Communication Skills

During the interview the recruiter will make the following observations:

- Communication skills are assessed and rated as acceptable or unacceptable.
- Appearance is assessed and rated as acceptable or unacceptable
- The following automatic disqualifiers are noted:

    1. Tattoos that are deemed offensive.
    2. Disrespectful Attitude
    3. Lack of Interest
    4. Use of Profanity
    5. Unprofessional Demeanor

The following standards apply to all security personnel employed by SBSI.

- *Education.* Minimum high school diploma or GED.
- *Employment Background.* 3-year employment history
- *Criminal Record.* Clean criminal record.
- *Driving Record.* Valid TN OLN, history of reasonable care and judgment.
- *Physical Ability.* Able to perform security guard duties.
- *Appearance.* Positive appearance with good personal grooming habits.
- *Public Relation Skills.* Positive public relation skills, enough to permit them to interact positively with employees and visitors, the media, law enforcement agencies, and the general public.
- *Compliance of Laws.* Full compliance with state licensing laws.

- **Equip**

    - Professional Uniform Attire
    - All Necessary Equipment

During this time, SBSI will conduct an extensive background check. The following procedure allows for a comprehensive background check. SBSI uses our ADP background investigation services. We use ADP for the National Criminal search in addition to specific localities. The National search may catch records where a person did not reside and includes other National database information (sex offenders/wanted lists).

SBSI's HR Manager uses the professional references gained through the application process to contact the listed references by phone.

For any employees that will be driving as part of their duties, we will also use a Motor Vehicle record verification.

Retention Plan

SBSI believes in team philosophy. It is hard to build a strong reliable team when you must continually replace the members. SBSI approaches retention by continually evaluating five aspects of our company structure and culture.

The first aspect is pay and benefits. We believe that pay is a major point of retention for all employees. Our pay structure is competitive with all non-governmental security contracts in the security industry. There are security jobs that pay exceptionally well; however, they are contracted with government agencies such as the Department of Justice and the Department of Defense. For all the other security contracts in our region, we do offer similar and often higher pay rates. SBSI is working on building a performance and longevity pay increase structure.

SBSI offers health insurance benefit plans that are products of BlueCross BlueShield. SBSI utilizes Summit Uniforms to purchase uniform items. Whenever a uniform item or piece of equipment needs replaced, the supervisor will have it replaced as soon as possible.

The second aspect is that we make every attempt to hire the right candidate from the very beginning. One of the fastest ways to hurt the morale of a security team is to require them to work with incompetent and unprofessional team members. Most security guards enter the profession with the intention of making security their chosen profession. When you have security guards who take their career seriously, they do not want to work with those that do not take it seriously and those who do not perform their share of the assigned duties.

We must make sure that the people we hire are willing and able to conform to the culture that we have built. It is our duty to ensure that new candidates know what is expected from them and what to expect when working for SBSI.

The third aspect involves promoting people in supervision roles who are leaders and not just supervisors. SBSI continually evaluates the leaders within the company. Another major point of contention for anyone in the security field is the role of the people tasked with managing other people. Security guards want to be respected by their leaders, they want to feel supported by their leaders and they want to have faith that their leaders are technically and tactically proficient. All the leaders within the company will attend leadership classes. We will promote and foster leaders who subscribe to a servant leadership mindset. To help and ensure that our leaders keep with the corporate culture, and to help our security guards feel vested in the company culture, we will occasionally utilize performance review surveys for management. The surveys evaluating management will be completed by security guards.

SBSI will also have two weekly staff meetings, when possible. One is for the Director of Operations and the Assistant Directors of Operations to meet for strategic planning. The second will include predetermined line supervisors for strategic planning and feedback. Meeting regularly will help our team stay in line with the corporate culture.

The fourth aspect is to foster an environment where every security guard feels engaged. We want every team member to feel fully engaged with our team and our operational goals. We want to motivate our security guards to feel as though they are making a difference every time they put on their uniform and come to work. To accomplish this task, we will take the following steps.

- Performance Evaluations
  - To reinforce good performance.
  - To help identify room for improvement.
- Performance Awards
  - Conduct promotions
  - Officer of the Month awards.
    - Every month a guard will be recognized for exceptional service.
    - Pin to wear on the uniform, a certificate, and a gift card.
- Training Opportunities
  - 16 Hours of Annual In-Service Training
  - Other training classes during the year on a voluntary basis.
- Clearly defined and communicated standards for advancement.

The fifth and final aspect is for SBSI to be a brand that every team member can be proud of. We want to be a company known for positives, and for the involvement and support of the clients and the communities where we serve.

TRAINING PROCESS

Training is the cornerstone in the foundation of a competent, successful, and motivated security guard. The highest paid, best dressed, and equipped security guard, without the knowledge and information needed to perform assigned duties, will ultimately fail professionally, and create liability for SBSI and our clients.

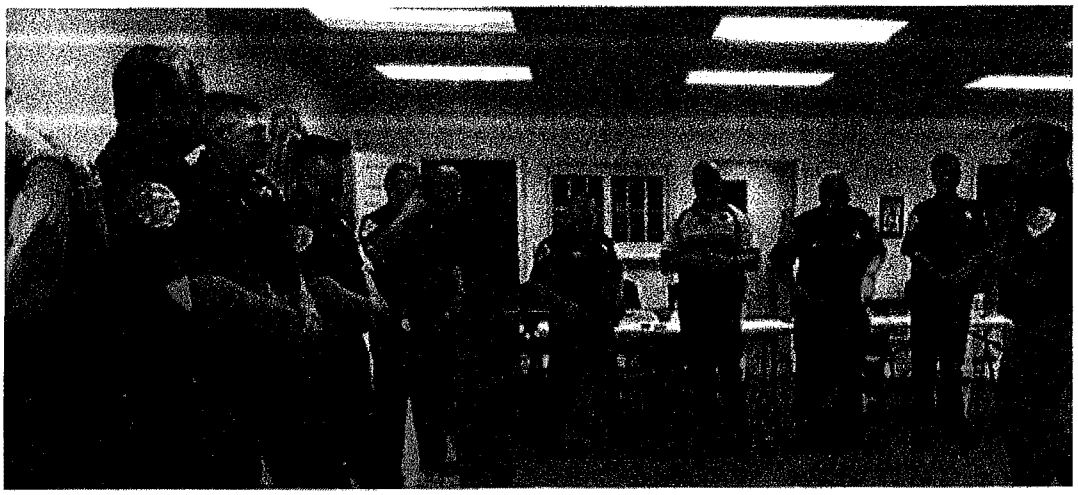
Specific training required by clients will be added to our curriculum. The range of security services may require state and federally mandated training, and the client preferred training. All training will be tailored to meet both expectations.

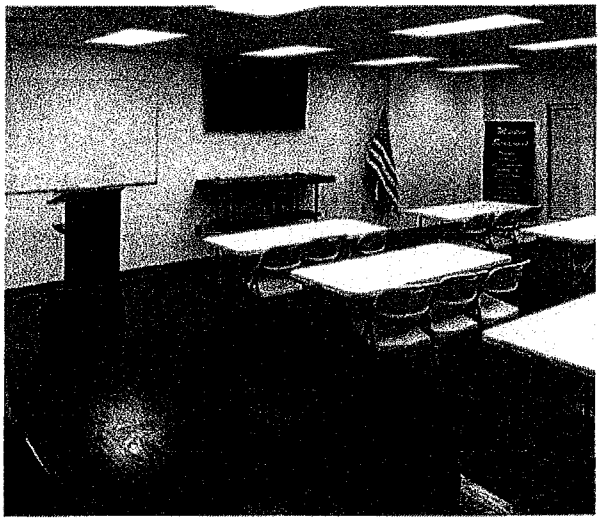
SBSI training topics include, but are not limited to the following:

- Professionalism & Ethics
- TN State Law
- Crisis Intervention Team (CIT) Training
- Weapon Proficiency
- Active Shooter Response
- Report Writing
- Basic Security Guard Procedures
- Developing Crisis Plans
- De-escalation & Force Response
- PPS Rules & Regulations
- Defensive Tactics & Handcuffing
- Leadership Training
- Stop the Bleeding First Aid
- Crime Scene Preservation
- Advanced Security Guard Procedures

Our local training facility is located next to our corporate office.

3309 E Governor John Sevier Hwy. Suite 102
Knoxville, TN 37914

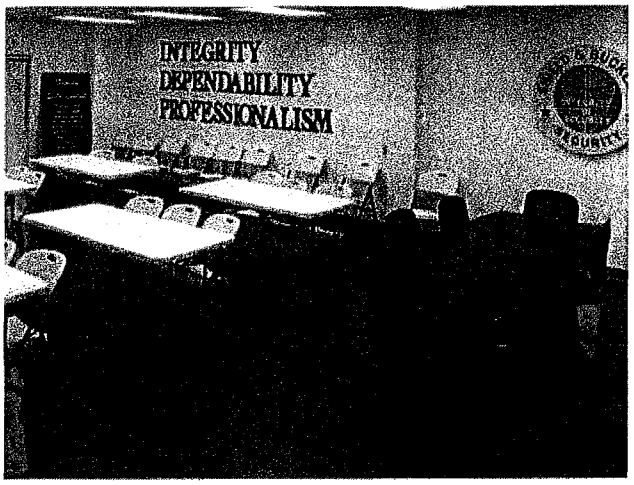




Our Director of Training retired from the Knox County Sheriff's Office after serving 30 years. During his career he served as the Director of Training at the Knox County Sheriff's Office.

The location of our facilities allows for easy access from wherever our team members may be coming from.

Our facilities are used to train our security guards but are also available for any training that our clients may request for their staff.



Ongoing Training

To ensure continual training, we require 16 hours of in-service training conducted annually. Inservice training is conducted at our training center by certified and experienced training staff. New hire training and in-service training consists of the following curriculum example:

Depending on the client's needs and requirements, SBSI offers the following training regimen. (Example Curriculum)

- Basic Guard Training
    - Legal
        - TCA-Applicable
        - Use of Force
        - Sexual Harassment
        - Laws vs Rules
        - HIPPA/Confidentiality
        - CPR/AED/First Aid
        - Mindset
        - Report Writing
    - Customer Service
        - Professionalism & Ethics
        - Chain of Command
        - De-escalation
        - Serve & Protect
- On the Job Training
    - Phase One
        - Post Orders Training
    - Phase Two
        - On Site Training

Issued Weapons

Whenever SBSI is contractually mandated to issue a firearm to our security team members, we issue the Glock 19. The Glock 19 is chambered in a 9mm. This specific handgun provides security guards of any size and stature with the ability to obtain an effective grip and allows for easily obtained Levell 3 duty holsters. SBSI purchases our firearms from Craig's Firearms, and we have a coporate team member certified through Glock as a Glock armorer.

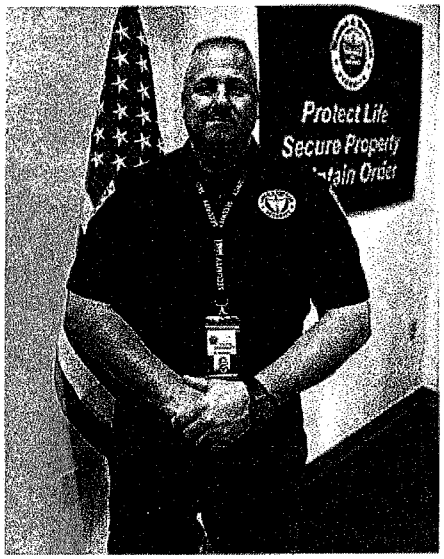
Security Guards must be fully licensed and in posession of the TN State issued PPS card, and pass an SBSI qualification course prior to being issued a firearm. SBSI requires each security guard to pass our qualification with a minimum score of 85%.

Unifoms & Equipment

Guard presence and bearing are two of the most fundamental traits of a successful security program. Guard presence is so important for two reasons.

1. SBSI understands that a security guard will quite often give the first impression of your business, and the first impression of our security team.

2. The very presence of a security guard, who is wearing a professional uniform and is properly equipped, is the number one deterrent.

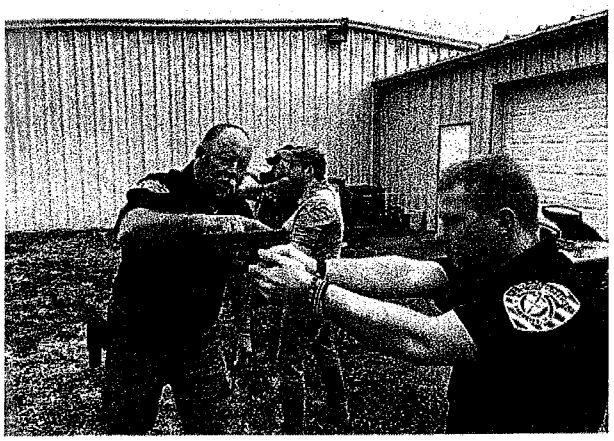


Our uniforms and duty gear are all ordered and prepared by Summit Uniforms. Summit Uniforms is in Knoxville and supplies all local Law Enforcement agencies with uniforms and equipment. Here are pictures of our security guard uniforms.

In accordance with TN State laws and regulations, SBSI trains and certifies, and issues the following equipment:

- Two Sets of Uniforms
- Hats
- Flashlights
- Photo ID Card
- Ballistic Vest
- Jackets
- Rain Gear
- Reflective Vest
- Cell Phone
- Spray & Batton

Standard Armed Uniform



Resonse to Resistance Protocal

The following policy dictates our use of force procedures and training.

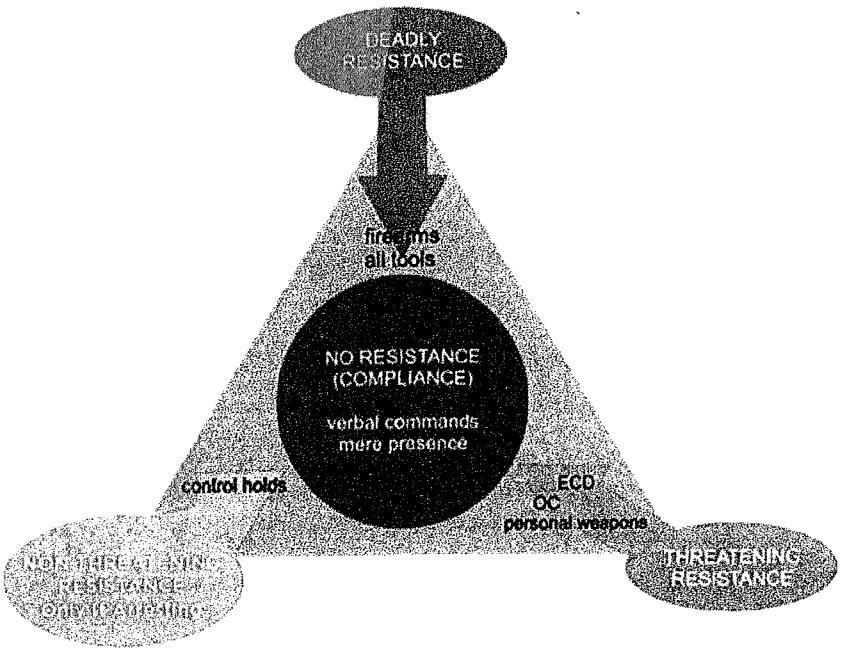
SBSI personnel are authorized to use the amount of force objectively reasonable when the facts and circumstances known to the personnel require the defense of themselves or someone else from imminent bodily harm.

During the regular course of duty, security personnel may, at one time or another, may encounter situations requiring them to make arrests or use force to protect themselves or someone else from imminent bodily harm. This is a delicate matter, and they must thoroughly understand the extent of their legal authority in this regard.

Arrests and force involve interference with personal liberty, creates liability, and a the risk of dangerous situations. As a result, they are strictly regulated by law and SBSI policy. Security guards have no police or law enforcement authority to make an arrest; rather, they only exercise citizen's arrest rights. Most arrests made by security personnel are in situations where time prohibits the prior securing of an arrest warrant or contacting law enforcement. Aressts and use of force are always reserved for last resort efforts to protect clients personnel and property.

SBSI uses the Dynamic Resistance Response Model as our Use of Force policy and training tool for the following reasons:

- Complies with Tennessee Law
- More fluid and easy to understand
- Puts suspect into one of four categories
    - Not Resistant(Compliant)
    - Non Threatening resistant
    - Threatening Resistant
    - Deadly Resistance



In the DRM diagram, no resistance (compliance) is in the center of the triangle, emphasizing that as the goal of every encounter. If a suspect's resistance level places the security guard on one of the three corners of the triangle, the guard's response (appropriate use of force) is intended to move the suspect's behavior to the center of the triangle and compliance. If force is used by the security guard in response to the suspect's resistance level, the sole purpose of the application of force is to gain compliance.

INDIVIDUALS WHO MAY PROVIDE SERVICES

SBSI has many security guards qualified for assignment to the Knox County Health Department security post. Credentials held by the individuals qualified for this position include, but are not limited to the following:

- Military and Law Enforcement Experience
- Verified & Proven Security Guard Experience
- Certified Training Experience
    - Active Shooter Certifications
    - CPR/AED/First Aid Certifications
    - Intermediate Weapons Certifications
    - Certified De-escalation Training
    - State Certified PPS Wepons Qualification
    - SBSI Handgun Qualification

As stated in the RFP 3661, all security guard's credentials assigned to the Knox County Health Department security post will be submitted to KCHD for review prior to assignment. Please see attached resume of one potential candidate for this position. The resume is attached as **Attachment H**.

GUARD STAFFING RESOURCES

Total Number of Guards Available

SBSI employs over 220 security guards in the East TN area, with the hiring process managed by a full-time recruiter. The primary responsibilities of the recruiter include advertising, interviewing, and assigning members to the security team. The recruiter operates from the corporate office located at 3309 E Governor John Sevier Hwy.

The schedule for the Knox County Health Department allows for one person to work the weekly schedule in its entirety. This allows for familiarity of the employees, the building and property, the crime trends of the area, the customers that frequent the site, and the policies and procedures of the site. Several other security guards (floating guards) will be trained at this location, including the supervisor and account manager to ensure sufficient staffing for emergencies, absences, extended hours, and special events.

Special Events Staffing

SBSI has several contracts that are specifically for staffing special events. This allows SBSI to have security guards willing and able to cover special events when they are requested.

The most effective way to ensure coverage is for the client reperesenative to contact the account manger with requests for special event security. The account manager will ensure that staffing is provided per the request.

Employee Absences Staffing

SBSI utilizes a web-based staffing, reporting, and payroll management system called TrackTik. The system is used to create and distribute schedules, manage skills and licensing requirements, manage attendance, provide analytics and metrics data, and payroll management.

Guards are assigned their shifts and clock in and out with the TrackTik system. When a guard is late for a post, not present at a post, or works over the assigned time, the system will automatically notify the respective supervisor. When a guard must call off from an assignment the supervisor logs into TrackTik and is able to see what guards are available to work during the specific period. The system only identifies the guards who are properly trained and authorized to work for the Knox County Health Department.

The account manager will ensure proper scheduling, attendance, accurate and complete reporting, commendations and discipline, and direct reporting to the client.

It is SBSI's policy that the shifts that are open will be covered by guards through non-billed overtime, predetermined and cross trained floating guards, or the supervisor is required to work the shift. If the supervisor is unavailable, the account manager is responsible for covering the shift.

Our recruiter ensures that we have a group of guards that are cross trained at certain sites. This group of floating guards are hired for the sole purpose of filling in at sites that may have an unplanned vacancy.

SAMPLE MONTHLY GUARD SCHEDULE

The following schedules are examples of the view that the client is able to see within the client portal, and the following schedules are a printed version. The schedules are loaded and distributed by one of SBSI's corporate team members. The client may log into their portal at any time to review the schedule.

V – EXPERIENCE AND QUALIFICATIONS

SBSI has provided armed and unarmed security guards for 19 years. Initially, SBSI focused on unarmed security services before expanding to armed security services. Each year, SBSI grows by adhering to our mission and core values. Proper vetting and training of our security team are crucial, along with maintaining a collaborative relationship between our corporate staff and the clients we serve.

On September 25, 2006, Shield and Buckler Security, Inc. (SBSI), commenced operations as a locally owned and operated security company. The founders, Eric and Brandi Kern, started the company with one contract providing eight hours of nightly service at a construction site with one unarmed security guard. Since then, SBSI has expanded to employ approximately 220 security guards across middle to east Tennessee and South Carolina.

With nearly 20 years in operation, SBSI has acquired important insights into measuring success in a service-related industry, particularly one focused on providing safety and security to clients. SBSI recognizes the importance of conducting operations with integrity, dependability, and professionalism while constantly adapting to evolving threats and risks in the communities we serve.

SBSI's core values and extensive experience have enabled the development of a customer service program committed to the following principles:

- Active listening skills that enable our security team to listen to clients and respond effectively, ensuring clients feel valued and heard.
- Consistent and effective communication to align our security team with clients' missions and core values, maintaining proficiency and effectiveness.
- Quick and effective solutions to promptly address any challenges faced by clients and resolve issues efficiently.
- Continuous improvement to continually enhance customer service processes and provide optimal service to clients.

As SBSI has grown, it has served a diverse range of clients, improving services and training for our security team. From construction site security to schools and hospitals, SBSI understands the specialized training and services required by each client. Our security team is aware of the sensitive nature of healthcare environments, the dynamic nature of healthcare environments, and the importance of adhering to the roles of security guards in the State of Tennessee while operating in healthcare environments.

Work History

08/2023 to 02/2024 **Deputy Sheriff**

Jefferson County Sheriff's Office – Dandridge, TN

- Reduced criminal activity through diligent surveillance.
- Conducted thorough investigations that led to the successful prosecution of numerous offenders.
- Assisted in the training of new deputies, sharing knowledge and experiences to help them excel in their roles.
- Handled high-pressure situations calmly and professionally, minimizing risks to public safety.
- Maintained accurate reports and records, aiding in the proper documentation of cases for judicial proceedings.
- Utilized advanced technology tools for efficient information gathering during investigations and daily operations.
- Managed crime scenes meticulously, preserving vital evidence for forensic analysis and case resolutions.
- Participated actively in ongoing training programs designed to enhance skills necessary for deputy sheriff duties.
- Assessed potentially dangerous situations quickly; employed de-escalation techniques when needed to maintain peace.
- Investigated incidents and crimes, collected evidence, and recorded witness statements.
- Patrolled designated areas in patrol vehicle and on foot to identify security and safety issues.
- Organized criminal documents such as logs, records, reports, and agendas to streamline processing and improve traceability.
- Identified suspicious activity and conducted interviews with witnesses to build cases.
- Gathered information and evidence to assist in solving crimes.
- Observed jail and inmate activity to maintain order and safety of 200 inmates and guards.
- Draft reports detailing incidents and safety violations.

04/2023 to 08/2023 **Lieutenant, Deputy Sheriff**

Morgan County Sheriff Office – Wartburg, TN

- Improved community safety by implementing proactive policing strategies and coordinating with local agencies.
- Established strong relationships with community leaders, fostering trust and cooperation between law enforcement and residents.

- Enhanced department efficiency by streamlining report processes and introducing new technologies for data management.
- Developed comprehensive training programs for deputies, ensuring a consistently high level of professional skill and knowledge.
- Managed emergency situations effectively, protecting lives and property through swift decision-making and resource allocation.
- Maintained high levels of officer safety by enforcing strict adherence to protocols during high-risk situations and incidents.
- Mentored new deputies throughout their probationary period, providing guidance on policy adherence and procedural execution.
- Coordinated with law enforcement agencies to respond to security incidents and emergencies.

01/2023 to 04/2023 **Deputy Sheriff**

Loudon County Sheriff's Office – Loudon, TN

- Handled high-pressure situations calmly and professionally, minimizing risks to public safety.
- Maintained accurate reports and records, aiding in the proper documentation of cases for judicial proceedings.
- Participated actively in ongoing training programs designed to enhance skills necessary for deputy sheriff duties.
- Assessed potentially dangerous situations quickly; employed de-escalation techniques when needed to maintain peace.

01/2019 to 01/2023 **Dir: Transport and Mobile Crisis, Deputy Sheriff**

Monroe County Sheriff's Office – Madisonville, TN

- Improved community safety by conducting routine patrols and responding to emergency calls promptly.
- Enhanced public trust by providing professional and compassionate assistance during emergencies.
- Collaborated with other law enforcement agencies for joint operations, resulting in improved efficiency and effectiveness.
- Handled high-pressure situations calmly and professionally, minimizing risks to public safety.
- Provided security at various community events, ensuring a safe environment for attendees.
- Conducted thorough investigations that led to the successful prosecution of numerous offenders.
- Assisted in the training of new deputies, sharing knowledge and experiences to help them excel in their roles.
- Maintained accurate reports and records, aiding in the proper documentation of cases for judicial proceedings.
- Served warrants efficiently while maintaining strict adherence to legal guidelines and procedures.

- Testified effectively in court, presenting clear evidence that contributed to successful case outcomes.
- Developed strong relationships with community leaders, fostering open communication channels for addressing concerns collaboratively.
- Utilized advanced technology tools for efficient information gathering during investigations and daily operations.
- Managed crime scenes meticulously, preserving vital evidence for forensic analysis and case resolutions.
- Participated actively in ongoing training programs designed to enhance skills necessary for deputy sheriff duties.
- Contributed to department initiatives focused on improving policies, procedures, equipment usage, or overall performance standards within the organization.
- Assessed potentially dangerous situations quickly; employed de-escalation techniques when needed to maintain peace.
- Coordinated with social services agencies like Child Protective Services or mental health specialists as required during specific incidents.
- Investigated incidents and crimes, collected evidence, and recorded witness statements.
- Organized criminal documents such as logs, records, reports, and agendas to streamline processing and improve traceability.
- Provided public safety assistance at community events to maintain safe and secure environments.
- Identified suspicious activity and conducted interviews with witnesses to build cases.
- Gathered information and evidence to assist in solving crimes.
- Observed jail and inmate activity to maintain order and safety of 400 inmates and guards.
- Monitored crowded public areas and events to mitigate risk and promote safety.
- Maintained structure and security during court proceedings.
- Served court documents and completed civil process duties for cases.
- Drafted reports detailing incidents and safety violations.
- Utilized clear communication and interpersonal skills to build relationships with citizens.
- Built excellent rapport and working relationship with community to build trust and improve upon communication.
- Responded to emergency calls to provide assistance to citizens in need.
- Participated in continuous firearms proficiency, defensive driving and arrest technique training.
- Conducted searches of individuals, vehicles and premises.
- Identified, pursued and arrested suspects and perpetrators of criminal acts.
- Rendered aid to accident victims and other persons requiring first aid for physical injuries.
- Checked vehicle equipment for proper functioning prior to use.

01/1990 to 02/2018 **Owner/operator Private Detective/Security Agency**

Executive Protection Services – Atlanta, GA

- Increased customer satisfaction by implementing efficient business processes and providing exceptional service.
- Developed and maintained strong relationships with clients, resulting in repeat business and referrals.
- Managed financial aspects of the business, including budgeting, financial reporting, and tax preparation.
- Implemented marketing strategies to increase brand awareness and attract new customers.
- Negotiated contracts with clients for thorough services
- Mentored staff members on best practices in customer service and sales techniques, leading to increased performance levels.
- Oversaw daily operations, ensuring all tasks were completed accurately and efficiently by team members.
- Hired trained, and managed a high-performing team of employees dedicated to achieving company goals.
- Successfully navigated challenging economic conditions by making informed decisions that protected the business"s financial stability.
- Evaluated industry competition regularly to maintain a competitive advantage in the marketplace.
- Trained new employees on proper protocols and customer service standards.
- Interacted well with customers to build connections and nurture relationships.
- Trained and guided team members to maintain high productivity and performance metrics.
- Handled problematic customers and clients to assist lower-level employees and maintain excellent customer service.
- Assisted in recruiting, hiring and training of team members.
- Scheduled employees for shifts, taking into account customer traffic and employee strengths.
- Tracked employee attendance and punctuality, addressing repeat problems quickly to prevent long-term habits.
- Observed each employee's individual strengths and initiated mentoring program to improve areas of weakness.
- Negotiated price and service with customers and vendors to decrease expenses and increase profit.
- Identified and qualified customer needs and negotiated and closed profitable projects with high success rate.
- Assisted in training new operators, sharing knowledge of best practices and promoting a culture of teamwork amongst peers.
- Actively participated in cross-functional teams, contributing valuable input on process improvements and best practices for overall operational success.
- Provided on-the-job training to newly hired workers and team members.
- Worked outside in all weather conditions.

- Recognized upset conditions, determining cause, and took appropriate corrective action.

Addendum I Request for Proposals No. 3661
Armed Security Guard Services

Addendum Date: April 22, 2025 **Buyer: Susan Colella**

Closing Date: May 20, 2025 @ 2:00 P.M. EST **Total Page(s): 2**

The following is for clarification:

Question 1. Please advise how many guards will be assigned to work at the two locations per day.
Answer 1. Only the main health department location will need a guard every day. Currently there is 1 guard assigned.

Question 2. If there are already guards or a security firm in place, would Knox County be interested in retaining any of those existing officers through our company?
Answer 2. That is at the discretion of the company that is awarded the contract.

Question 3. Are there any specific concerns or operational nuances we should be aware of, such as special events or seasonal surges, beyond what's noted in the RFP?
Answer 3. We maintain an ongoing calendar of special events and needs for security beyond core business hours.

Question 4. Provide more information regarding the type of uniform and identification required? Will standard company uniform and identification be accepted?
Answer 4. Standard company uniform and identification is acceptable.

Question 5. Provide clarification regarding "in good standing with Knox County Sheriff's Office" as stated in Section 4.3.3.
Answer 5. If bonded by the Knox County Sheriff's Office.

OFFICE OF COUNTY MAYOR GLENN JACOBS

Procurement Division, 1000 N. Central Street, Suite 100, Knoxville, TN 37917

Question 6. Is a Knox County business license required?
Answer 6. Only if the vendor's location is physically located within Knox County.

End of Addendum I.
Please acknowledge Addendum I in your response.

Armed Security Guard Services

Addendum Date: May 13, 2025 **Buyer: Susan Colella**

Closing Date: May 20, 2025 @ 2:00 P.M. EST **Total Page(s): 1**

The following is for clarification:

Question 1. Does the Knox County Health Department want us to exclude or include GeoCheck in the pricing?

Answer 1. Pricing should include all services needed to fulfill the scope of services.

Question 2. Section 4.9 - *" Note: The second and fourth Tuesday of every month are extended clinics. On these days, the Health Department will extend its hours to 7:00 p.m. This extended schedule is to be billed at the standard hourly rate."*
Will this be utilized every Tuesday or should it be priced as per the RFP which states every other Tuesday?

Answer 2. Pricing should include all services needed to fulfill the scope of services.

End of Addendum III.
Please acknowledge Addendum III in your response.

III – PROPSED COST

COST PROPOSAL METHODOLOGY

The proposed bill rates and methodology for determining them are outlined below. The listed pay rate is the minimum for all security guards assigned to the Knox County Health Department, but SBSI may pay higher wages during the contract period without changing the bill rate.

Per Proposal Number 3661, overtime rates will only apply when security hours are requested outside of the contractually mandated hours of service.

Armed Security Guard Personnel Rates (Bill Rate of 1.6%)			
	Pay Rate	Bill Rate	OT Bill Rate
Uniformed Armed Security Guard	$ 18.00	$ 28.80	$ 43.20
***All hours and yearly costs are approximate.**			
Knox County Health Department	**Hours**	**Bill Rate**	**Weekly Cost**
Armed Security Guard – 7:45a-5:00p (9.25 hrs.) Monday-Friday	46.25	$ 28.80	**$ 1,332.00**
Weekly Totals:	**46.25**		**$ 1,332.00**

Armed Security Guard Personnel Rates (Bill Rate of 1.6%)			
	Pay Rate	Bill Rate	OT Bill Rate
Uniformed Armed Security Guard	$ 18.00	$ 28.80	$ 43.20
***All hours and yearly costs are approximate.**			
Knox County Health Department (Week With Extended Hours)	**Hours**	**Bill Rate**	**Weekly Cost**
Armed Security Guard – 7:45a-5:00p (9.25 hrs.) Monday, Wednesday-Friday	37	$ 28.80	**$ 1,065.60**
Armed Security Guard – 7:45a-7:00p (9.25 hrs.) Monday-Friday	11.25	$ 28.80	**$ 324.00**
Weekly Totals:	**48.25**		**$ 1,389.60**

SG Hourly Bill Rate Expense Details	
Expense	**Details**
Wage	$18.00
Payroll Taxes	$1.62
General Liability/WC	$1.03
Account Manager	$1.00
TrackTik	$.59
Insurance Benefits	$1.04
Inservice Training	$.27
Uniform & Equipment	$.12
PTO	$.68
Unbudgeted Overhead	$4.45
Hourly Bill Rate:	**$28.80**

Billing Notes

Bill Rate-

The proposed bill rate allows for hiring at a competitive wage based on the region of service.

General Liability/WC Insurance-

Liability insurance is gauged by the exposure created by the insurance provider, which is determined by the number of hours worked and the wages paid.

Account Manager-

The bill rate includes adjusting to contribute to the corporate supervision required for the assigned security officers.

TrackTik-

Cell phones equipped with SBSI's personnel management and reporting system will be assigned to the Client's site. One cell phone per post will be assigned to the contract.

Medical Insurance Benefits-

Medical insurance benefits are available through Blue Cross Blue Shield of Tennessee.

Inservice Training-

Each security guard will be required to complete 16 hours of in-service training a year. The training is conducted at our training facility by experienced instructors. Additional training will be pushed out by our trainer throughout the year but will never replace the 16 hours of classroom instruction.

Uniforms & Equipment-

Our security guards are issued professional and durable uniforms. Blauer is the brand of uniform shirts, and the pants are also one of the major national uniform suppliers., typically 5.11 or Propper.

PTO-

Security guards earn PTO according to SBSI policy. After one year of full-time employment, they receive 40 hours of PTO and gain an extra day each subsequent year.

Unbudgeted Overhead-

Overtime and general expenses will be covered by the unbudgeted overhead bill rate adjustment.

WHEREAS, by means of Resolution R-17-4-604, the Knox County Commission approved the Fiscal Year 2017-2018 Knox County Indigent Care Program Agreement to provide necessary medical outpatient specialty care, emergency care, inpatient care, and primary care to Knox County residents who qualify for the Indigent Care Program; and

WHEREAS, in 2018, Knox County and area hospitals entered into Amendment One to the Indigent Care Program Agreement; and

WHEREAS, by means of Resolution R-19-6-602, the Knox County Commission approved Amendment Two to the Indigent Care Program Agreement to reduce the total amount of money available for services under the program from $4,200,000.00 to $2,995,000.00 during Fiscal Year 2019-2020 and to provide for other revisions to the Reimbursement for Services section of the agreement; and

WHEREAS, by means of Resolutions R-20-9-605, R-21-6-603, R-22-7-606, R-23-7-604, and R-24-7-601, the Knox County Commission approved further amendments to the Indigent Care Program Agreement to provide for revisions to the Reimbursement for Services section of the agreement for certain fiscal years; and

WHEREAS, Knox County and participating hospital systems now desire to enter into Amendment Eight to the Indigent Care Program Agreement to provide for revisions to the Reimbursement for Services section of the agreement for Fiscal Year 2026.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

Amendment Eight to the Knox County Indigent Care Program Agreement for Fiscal Year 2025-2026 is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, that Amendment Eight to the Knox County Indigent Care Program Agreement for Fiscal Year 2025-2026 shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

AMENDMENT EIGHT KNOX COUNTY INDIGENT CARE PROGRAM SUMMARY

IV. REIMBURSEMENT FOR SERVICES

IV. A.

The total amount of money available for services under this program during fiscal year 2017 – 2018 will be $4,200,000; $1,050,000 in each quarter of the fiscal year.

Was replaced with:

The total amount of money available for services under this program during fiscal year 2025 – 2026 will be $2,995,000; $748,750 in each quarter of the fiscal year.

IV. B. 1.

The maximum amount available for reimbursement to Cherokee Health Systems in any fiscal quarter will be $308,750 of the total amount appropriated for indigent care for that fiscal quarter.

Was replaced with:

The maximum amount available for reimbursement to Cherokee Health Systems in any fiscal quarter will be $173,750 of the total amount appropriated for indigent care for that fiscal quarter.

IV. B. 4.

For any fiscal quarter, up to $350,000 of the quarterly allocation for indigent care plus any carryover "physician designated funds," will be allocated to physicians as follows.

Was replaced with:

For any fiscal quarter, up to $250,000 of the quarterly allocation for indigent care plus any carryover "physician designated funds," will be allocated to physicians as follows.

IV. B. 5.

The remaining funds of $291,250 from the quarterly allocation for indigent care will be divided among the hospitals as grants for their services to indigent patients.

Was replaced with:

The remaining funds of $250,000 from the quarterly allocation for indigent care will be divided among the McNabb Center for operations of EmPATH Unit in the amount of $112,500 and the remaining $137,500 among hospitals as grants for their services to indigent patients.

IV. B. 5.

Within thirty days of the end of each quarter of the fiscal year, each hospital requesting a payment must submit a statement for each certified Indigent Care Program patients treated as inpatients, outpatient or in its emergency room. The list will be compared with patient medical records at the Health Department and the total number of days service for that hospital will be calculated. If any hospital has provided less than five (5) percent of the total Indigent Care Program hospitalization during a given quarter, and has kept open a public emergency room during all of that quarter, that hospital will be eligible for an grant equal to five percent of the total hospital fund available for that quarter. The remaining hospital fund will then be distributed to the other participating hospitals in proportion to the number of days of services provided.

Was replaced with:

Within thirty days of the end of each quarter of the fiscal year, each hospital requesting a payment must submit a statement for each certified Indigent Care Program patient treated as an inpatient, outpatient or in its emergency room. The list will be compared with patient records at the Health Department and the total number of days service for that hospital will be calculated. The hospital fund will be distributed to the participating hospitals in proportion to the number of days of services provided.

AMENDMENT EIGHT KNOX COUNTY INDIGENT CARE PROGRAM

FISCAL YEAR 2025 - 2026

This document outlines the Knox County Indigent Care Program as it will operate from **July 1, 2025 to June 30, 2026.**

* * * * * * * * * * * * * * * * * *

I. TERMS OF AGREEMENT

This agreement commences on the 1st day of July 2025 and ends the 30th of June 2026 unless terminated in conformity with the terms of this agreement as contained in paragraph VII. A. Knox County intends to issue a (1) year award ("Initial Term"). After the Initial Term this Agreement shall automatically renew for additional one (1) year period each a "Renewal Term" (the Initial Term and all Renewal Terms shall be collectively referred to herein as the "Term"). This may result in a total of five (5) years. After the Initial Term either party may, in its sole discretion, terminate this Agreement without cause by giving the other party thirty (30) days prior written notice.

II. ELIGIBILITY

II. A. Eligibility for the Knox County Indigent Care Program will be determined by Cherokee Health Systems based on the guidelines provided by the Knox County Health Department. To be eligible one must be a resident of Knox County and have been a resident of Knox County for a minimum of 30 days and have a total income level within guidelines set by the County at the beginning of the contract period. In the case of college students who are ineligible for institutionally provided health services, total family support will be used for the income determination. Income eligibility guidelines may be changed by the County at the beginning of any subsequent contract period upon notification to the Executive Officers and the Indigent Care Advisory Committee, an ad hoc committee of participating hospitals, or designee prior to the signing of a new agreement. Once set, the Indigent Advisory Committee will be notified of any changes in the eligibility guidelines during the contract period.

II. B. Knox County Health Department will provide a secure electronic copy containing the name, address, birth date, and dates of eligibility of currently certified indigent patients to each participating hospital and EMS providers on the 1st and 16th day of each month.

II. C. Pursuant to Tennessee Code Annotated, Section 41-4-115(a), medical care of prisoners in the Knox County Jail and Corrections Facility are the responsibility of Knox County during the term of their incarceration. Primary care will be provided to prisoners directly by the medical staffs in the jail and corrections facility, with hospital care, testing which cannot be provided through the jail or correctional facility's clinic, and specialty physician care covered by the indigent care program.

II. D. Children in the East Tennessee Regional Juvenile Service Center who are not covered by TennCare will be considered Indigent Care patients.

II. E. TennCare program patients will not ordinarily be eligible for services under the Indigent Care Program. A patient who is thought to be eligible for TennCare will be advised to apply for TennCare by the Cherokee Health Systems. If they do not apply for TennCare within 60 calendar days after being advised to do so, they may be removed from the Indigent Care Program with 30 days notification.

III. SERVICES PROVIDED

III. A. Primary Care Services will be provided by Cherokee Health Systems as specified in the Indigent Primary Care Services Agreement between Cherokee Health Systems and Knox County, dated May 1, 2017. No reimbursement will be made for visits to physicians' offices or other non-emergency outpatient facilities unless the individual patient has been referred for that consultation by a physician at the Cherokee Health Systems. Referrals will be limited to medical necessity and may be approved by the Knox County Health Department. All patients, except for lab visits or blood pressure checks, will be charged a five-dollar ($5.00) co-pay per visit to the clinic. In extreme hardship circumstances with a medical necessity determination, the physician manager may waive the co-pay. The pharmacy will not collect a co-pay from patients who have completed the eligibility determination process and been deemed Indigent Care Program patients. Prisoners in the Knox County Jail and Corrections Facility are not subject to this process and may, under certain

circumstances, be charged fees in accordance with Tennessee Code Annotated, Section 41-4-115 (c) (d) (f).

III. B. Prescription medicines will be provided for Indigent Care patients who have been screened and meet the Indigent Care guidelines. Medicines will generally be available and dispensed by the Cherokee Health Systems Pharmacy as provided in the Agreement. A licensed pharmacist will dispense prescriptions or refills from a restricted formulary; patients who are under the care of a Cherokee provider will be limited to no more than seven (7) prescriptions per month. A drug profile will be maintained on each patient and may be reviewed through a peer review process.

III. C. Dental care is provided at the Health Department for indigent adults only for relief of pain and infection and when a dental condition constitutes a major and immediate threat to the general health of the patient. Only persons at or below current federal poverty guidelines qualify for dental services at the Health Department. Enrollment onto the dental only program will be done in the dental department. Patients seeking only dental care will not be enrolled in the Indigent Care Program, but will be able to fill a limited number of prescriptions at Cherokee Health Systems for treatment of infection and pain written by Knox County Health Department dentists.

III. D. Specialty physicians' services and hospital inpatient care will be provided to Indigent Care patients when required. Specialty physician referrals will be limited to a medical necessity and may be subject to approval by Knox County Health Department staff. Cherokee Health Systems will maintain patient records and manage the referral process for Indigent Care patients. Medical records will be provided to the specialty physician at the time of referral, following HIPAA directed policy and procedure. Patients will be advised that the physician-patient relationship established by the referral will end at the conclusion of the referred consultation or treatment.

III. E. Each hospital's medical staff will establish a mechanism for equitable distribution of hospital patients among their staffs. In so far as possible, inpatients will be assigned to hospitals on a rotating basis. Rather than establish a rigid hospital rotation system, the program will rely on the good judgment of the coordinating staff at the Cherokee Health Systems to consider the availability of services and

space, the preferences of the patient and the physician accepting the referral, and the importance of continuity of treatment in selecting a hospital. The coordinating Cherokee Health Systems staff will be instructed to assure that the number of referrals to each participating hospital in each quarter of the year be as uniform as possible.

III. F. Occasionally a registered Indigent Care Program patient will require emergency medical care beyond the capabilities of Cherokee Health Systems or may require emergency care at a time when Cherokee's clinic is not open. In such instances the patient may use the emergency department of a participating hospital. When this occurs, any physician called in to assist in the patient's care may submit a statement for care to the County and the hospital may count the emergency department visits as part of its total credited hospital days. (See Reimbursement for Services Section.) If the patient is admitted to the hospital as an inpatient, regular Indigent Care Program accounting procedures will apply.

III. G. No patient will be discouraged from seeking hospital treatment for a true emergency. However, Indigent Care Program patients will be educated by Cherokee Health Systems staff when they are certified for the program that if they abuse the privilege of using hospital emergency department care they individually may be declared ineligible for the Indigent Care Program. The decision to refuse reimbursement for a specific patient shall belong to the County alone and shall be effective upon written notice to participating hospitals. The County will also simultaneously notify the patient by registered letter and attempt to contact him/her by telephone or in person to discuss the problem. Emergency department physicians who agree to participate in this program also agree to assist in the identification and education of such patients.

III. H. Physicians to whom a case is referred will be expected to select the most cost- effective location for provision of services. If necessary surgery can be performed in a physician's office or in an outpatient surgery center then that alternative should be considered.

III. I. Knox County and the Knox County Health Department will not attempt to limit the services a practicing physician may offer to an individual patient. Certain services, however, will be ineligible for reimbursement under the Indigent Care

Program. Examples include cosmetic procedures, restorative dentistry, nursing home care, services of prohibitive cost, and services, which duplicate those provided by the Knox County Health Department, such as certain vaccinations.

III. J. Upon Knox County Health Department's authorized request, physicians and hospitals are expected to provide the Knox County Health Department with discharge summaries and/or office notes documenting of the medical treatment provided each Indigent Care Program patient.

III. K. Knox County Health Department reserves the right to declare patients ineligible for the Indigent Care Program based on their noncompliance with the program guidelines and for non-adherence to instructions issued by the clinicians regarding medications and treatment. Any acts or threats of violence toward any care provider may result in the patient being deemed ineligible indefinitely for the Indigent Care Program. The decision to declare a patient ineligible for the program shall belong to the County alone and shall be effective upon written notice to the participating hospitals. The County will also simultaneously notify the patient by registered letter and attempt to contact him/her by telephone or in person to discuss the problem.

IV. REIMBURSEMENT FOR SERVICES

IV. A. Reimbursement for services provided under the Knox County Indigent Care Program will be computed and paid by quarter of the fiscal year. The total amount of money available for services under this program during Fiscal Year 2025 - 2026 will be $2,995,000; $748,750 in each quarter of the fiscal year. The funding level may increase from year one based on the amount of funding appropriated by Knox County. The methodology for reimbursement described in IV. B. will be used regardless of the funding level. If the funding level does change Knox County reserves the right to determine how the increase in funding will be applied to the contract.

IV. B. At the end of each fiscal quarter, funds will be disbursed in the following order:

1. Cherokee Health Systems will be reimbursed for the cost of providing Indigent Care Program administration and for the cost of providing primary medical care and other health care related services to certified Indigent Care Program patients. The maximum amount available for reimbursement to Cherokee Health

Systems in any fiscal quarter will be $173,750 of the total amount appropriated for indigent care for that fiscal quarter.

2. Medical supplies of specific nature such as: orthopedic, chemotherapy, enteral nutrition, equipment rental, and colostomy/ileostomy will be paid at 100% of charges to the providers if approved by Knox County Health Department.

3. Community physicians will be reimbursed for services provided to certified Indigent Care Program patients who are referred to them by the Knox County Health Department, or who are served in an emergency circumstance by an emergency department physician or a physician called at the request of the emergency department physician or participating hospital. Any physician requesting payment for treating an Indigent Care Program patient must submit a statement containing the name of the patient, the date of treatment, the description of treatment, the Current Procedural Terminology (CPT) code of the treatment and the physician's charge for the treatment given to that patient. This statement shall be submitted to the Indigent Care Program Accountant, Knox County Health Department, 140 Dameron Avenue, Knoxville, Tennessee 37917-6413.

4. A physician statement will not be accepted for payment unless it is submitted within 30 days of the end of the month in which an outpatient treatment or consultation was given or in which a patient was discharged from the hospital.

CPT codes on the statement will be reviewed for consistency with the referring diagnosis. For any fiscal quarter, up to $250,000 of the quarterly allocation for indigent care plus any carryover "physician designated funds," will be allocated to physicians as follows. The initial computation will be based on 100% of indigent care patient charges from accepted physician statements. This percentage may be altered during the fiscal year by joint agreement of the Indigent Care Advisory Committee and Knox County. Whatever percentage is selected will apply to all physicians submitting statements for a fiscal quarter. If the amounts owed for physicians' services for any quarter exceed the above limit, the payment for each physician for that quarter will be reduced proportionately, based on the Medicare or similar systems relative value scale until the total payment for physicians' services equals the limit. If the amounts owed for physicians' services for any quarter are less than the available funds, the excess shall be carried forward into the next

quarter as "physician designated funds" and shall be added to the funds available for distribution to physicians.

After funds are distributed for the fourth quarter of the contract, any excess funds shall be reserved. These reserves shall be available for appropriation by the Knox County Commission for funding for the Indigent Care Program or for any other health- related matters, which they deem appropriate. If such funds are not encumbered or expended within two (2) fiscal years of their addition to the reserve, those funds shall be returned to undesignated general fund balance.

5. The remaining funds of $250,000 from the quarterly allocation for indigent care will be divided among the McNabb Center for operations of EmPATH Unit in the amount of $112,500 and the remaining $137,500 among hospitals as grants for their services to indigent patients.

Money so divided will be considered a summary grant to each hospital rather than payment for any specific patient bill. Provided, however, that if the amount of funds available to be distributed to the hospitals for any quarter exceeds the amount of total allowable Indigent Care Program patient charges by each individual hospital for such quarter, the excess shall be carried forward into the next quarter and added to the amount of funds available for distribution to the hospitals.

For purposes of this computation each emergency room visit or referred outpatient visit which requires the facilities of the hospital by an Indigent Care Program patient will count as one-third of an inpatient day.

Within thirty days of the end of each quarter of the fiscal year, each hospital requesting a payment must submit a statement for each certified Indigent Care Program patient treated as an inpatient, outpatient or in its emergency room. The list will be compared with patient records at the Health Department and the total number of days service for that hospital will be calculated. The hospital fund will be distributed to the participating hospitals in proportion to the number of days of services provided.

If a patient remains hospitalized at the end of one of the first three quarters of the fiscal year, all of the charges for that uninterrupted hospitalization, whether from the physician or the hospital, will be deferred to the quarter of the fiscal year in which the patient is discharged. During the first quarter of the fiscal year, it will be necessary for physicians and hospitals to submit separate statements for

services rendered to a patient before and after July 1.

IV. C. In some instances, a Knox County prisoner, adult, or child in custody of Knox County may be eligible for Medicare, TennCare, or may possess third party insurance. Medical services to these persons will not be reimbursed or counted in the day allocation formula for hospitals under the Indigent Care Program until and unless the eligible days and/or physician visits under the applicable programs have been exhausted.

V. PROGRAM SUPPORT SERVICES

V. A. A subcommittee may be established to oversee the program and provide advice to program administrators. The Indigent Care Advisory Committee or designee will review the overall program and provide advice concerning eligibility requirements, covered services, administrative practices and expenditures. Membership will consist of one representative from each participating hospital, a representative of the County Health Department, a representative of the County Mayor, and a citizen, other than an elected or appointed official, officer, or employee of Knox County Government, selected by the Knox County Commission.

VI. AMENDMENT

VI. A. This program agreement may be amended during the course of a fiscal year only by the signed consent of all parties who sign the original agreement.

VII. ADDITIONAL PROVISIONS

VII. A. Appropriations. In the event no funds are appropriated by County for the indigent health care services in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to either party.

VII. B. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that County shall not be in any manner responsible for any payment, insurance or incurred liability.

VII. C. Compliance with all federal, state, and municipal laws. Contractor **is** assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of medical services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

VII. D. Severability clause. If any provision of this agreement is declared illegal, void, or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

VII. E. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of County.

VII. F. This Agreement shall be governed by the laws of the State of Tennessee both as to interpretation and performance.

VII. G. Right to inspect. County reserves the right to make periodic inspections of the manner and means the services are performed.

VII. H. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex or national origin, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall upon request show proof of such non-discrimination, and shall post in conspicuous places available to all employees and applicants notices of nondiscrimination.

VII. I. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for three (3) years from the date of the final payment under the Contract for inspection by County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those hooks, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

VII. J. Contractor shall indemnify, defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees.

VII. K. It is agreed that this Contract, represents the entire Contract between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

VII. L. There are no third-party beneficiaries accruing any rights under this contract.

KNOX COUNTY INDIGENT CARE PROGRAM

We, the undersigned, agree to participate in the Knox County Indigent Care Program as outlined in the attached program description dated fiscal year 2025 – 2026 "Amendment Eight". This agreement must be approved by the Knox County Commission and signed by the Knox County Mayor, any or all additional signatures, from the hospitals systems listed below will create a valid contract between Knox County and that hospital system. Any hospital system that does not sign will not be contracted with Knox County and will not be participating in the Indigent Care Program. The lack of participation by one or more hospital systems will not affect the Knox County Indigent Care Programs contractual position with participating hospital systems.

WHEREAS, Knox County desires to construct the Halls Greenway Connector for the benefit and well-being of the citizens of Knox County; and

WHEREAS, that project will require Knox County to enter into a License Agreement with the State of Tennessee to allow the County to use certain excess land belonging to the State, as more fully set out in the License Agreement, including Exhibit A thereto, between the State of Tennessee and Knox County attached to this Resolution; and

WHEREAS, that project will require that Knox County acquire the necessary rights -of-way and construction easements for five (5) tracts of land and use portions of two (2) parcels of land owned by Knox County for the construction of the Halls Greenway Connector and associated sidewalks, as more fully set out in Exhibit A to the License Agreement attached to this Resolution.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The License Agreement, including Exhibit A thereto, between the State of Tennessee and Knox County, Tennessee regarding the construction of the Halls Greenway Connector is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the License Agreement, including Exhibit A thereto, between the State of Tennessee and Knox County, Tennessee regarding the construction of the Halls Greenway Connector shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

LICENSE AGREEMENT

THIS AGREEMENT is made and entered into as of this the _____day of _____, 20__ by and between THE STATE OF TENNESSEE, acting by and through its Commissioner of Transportation, (hereinafter referred to as "State") and KNOX COUNTY, T**ENNESSEE** (hereinafter referred to as "Licensee").

WHEREAS, Licensee desires to use a portion of the Licensed Premises for a project constructing a multimodal path on the south side of State Route 71 (US 441), a sidewalk on the west side of State Route 33, a multimodal path under the Beaver Creek bridge for State Route 33, and a sidewalk connecting to the east side of State Route 33 (being more specifically described in Exhibit A being attached to and made a part of this License; and

WHEREAS, the State is willing to permit said use of the Licensed Premises subject to certain conditions.

NOW, THEREFORE, in consideration of the execution of this License Agreement, it is mutually agreed between the parties hereto as follows:

1. **LICENSE** – Licensee is hereby granted permission to use the Licensed Premises to install and operate a multimodal path on the south side of State Route 71 (US 441), a sidewalk on the west side of State Route 33, a multimodal path under the Beaver Creek bridge for State Route 33, and a sidewalk connecting to the east side of State Route 33 in Knox County, Tennessee in accordance with the attached plans for the Halls Greenway PIN 132052.00 (hereinafter referred to as the "Improvements").

2. **USE OF LICENSED PREMISES** - Licensee shall be permitted to use the Licensed Premises **for a public use purpose, subject to cancellation for failure to continue public use** for the operation of the Improvements. Licensee shall not be permitted to use the Licensed Premises for any other purpose except by prior written permission of the State. Licensee's use of the Licensed Premises is subject to any easements of record and to the right of any utility owner to operate and maintain any existing utility facilities within the Licensed Premises.

3. **FEE** – Licensee shall pay $0 per year to the State for the use of the Licensed Premises.

4. **TERM** – The License is a 25 year, renewable license which shall begin on [month/day], [year] and shall end on [month/day], [year].

5. **ACCESS** – The State shall provide Licensee access to the Licensed Premises at all times for the uses authorized herein.

6. **MAINTENANCE** – The costs of any maintenance and operation of the Improvements shall be at the sole expense of Licensee;

7. **IMPROVEMENTS:**

A. Any improvement(s) made pursuant to this License Agreement by Licensee shall be subject to the prior written approval of the STATE. Any improvement(s) erected upon said Licensed Premises, whether erected before or after this License Agreement, must be properly maintained in such manner as to cause no interference with traffic and said improvement(s) and area within the right-of-way boundaries shall be kept free of refuse, trash or any other unsightly materials. If said improvement(s) and area are not so maintained in accordance with the standards set by the STATE, the STATE shall be notified, and such improvement(s) and area shall immediately be brought up to such standards by the Licensee upon being directed to do so by a representative of the STATE.

B. If Licensee proposes to construct any improvement over or under the roadway, Licensee shall submit detailed plans to the STATE for prior approval. If approved, Licensee shall construct and maintain the improvement in accordance with the approved plans and any additional standards established by the STATE, as set forth in Exhibit "A" hereto or as it may hereafter be amended. Whether an improvement has been erected before or after this License Agreement, Licensee shall inspect the improvement at least one (1) time during any consecutive twelve (12) month period of this License Agreement to determine if the improvement is structurally sound and maintained in accordance with the standards set by the STATE. The inspections shall be conducted by, or under the supervision of, a professional engineer licensed in the State of Tennessee and in a manner substantially similar to the inspection standards for bridges and tunnels established in 23 CFR Part 650, as determined by the STATE. Licensee shall submit a copy of each inspection report to the STATE, and Licensee shall retain a copy of all inspection reports made during the term of this License Agreement. Licensee grants the STATE, and its contractors or agents, a right to enter to the Licensed Premises upon the STATE's request for the purpose of conducting an inspection of any improvement made pursuant to this License Agreement. Licensee shall promptly repair any structural or other deficiencies in the improvement identified in the Licensee's or the STATE's inspection. Any repair(s) made by Licensee are subject to approval by the STATE.

8. **TRAFFIC CONTROL** - At no time will work authorized by this License Agreement interfere with the normal flow of traffic on roadways adjoining the Licensed Premises. Licensee is responsible for providing traffic control for this work zone in accordance with the requirements of the current *Manual on Uniform Traffic Control Devices*. If proper traffic control is not in place, TDOT may order Licensee to stop work until proper traffic control is put in place.

9. **FIRE HAZARD** - The Property shall not be used for the manufacture or storage of flammable material or for any other purpose deemed by the STATE or the Federal Highway Administration to be a potential fire hazard or other hazard to the highway. The determination as to whether or not a use constitutes such a hazard shall be in the sole discretion of the STATE or the Federal Highway Administration. The operation and maintenance of said property will be subject to regulation by the STATE to protect against fire or other hazard which could impair the use, safety or appearance of the highway. LICENSEE shall provide access, at all times, for firefighters and accompanying equipment.

10. **DAMAGE TO STATE PROPERTY** - Licensee shall be liable for any damage to state property resulting from Licensee's use of the Licensed Premises and/or

installation and operation of the Improvements, including but not limited to, the roadway, shoulders, guardrail, drainage, landscaping, signs and controlled-access fences. All repair or replacement of such damage shall be made in accordance with the current TDOT Standard Specifications for Road and Bridge Construction, TDOT Standard Drawings and any other applicable design and/or construction standards or guidelines.

11. **LIABILITY** - Licensee shall assume all liability for claims arising out of conduct on the part of the Licensee for which it would be liable under the Tennessee Governmental Tort Liability Act, Tenn. Code Ann. § 29-20-101, et seq., up to the limits for which it can be held liable for such conduct under that act, arising from its use of the Licensed Premises. In addition, Licensee shall require that any contractor of Licensee that performs any work on the Licensed Premises, including any installation, maintenance, or operation of the Improvements, shall indemnify and hold harmless the State and all of its officers, agents and employees from all suits, actions or claims of any character arising from the contractor's acts or omissions in the prosecution of the work.

12. **INSURANCE** - The Licensee, its successors and assigns, agrees to maintain adequate public liability insurance, which may include self-insurance, and will provide satisfactory evidence of such insurance to the State. Further, the liability limits of this insurance must not be less than the exposure and limits of the Licensee's liability under the Tennessee Governmental Tort Liability Act, Tenn. Code Ann. § 29-20-101, et seq. The insurance policy shall include a provision for the insurance company to notify the State in writing of any cancellation or changes of the policy at least 30 days in advance of the cancellation or change. In addition, Licensee shall require that any contractor of Licensee that performs any work on the Licensed Premises, including any installation, maintenance, or operation of the Improvements, shall provide proof of adequate and appropriate general liability insurance providing liability coverage in an amount not less than $1 million dollars per occurrence and $300,000 per claimant, naming the State of Tennessee as an additional insured.

13. **PERMITS** – Licensee is responsible for obtaining and paying the costs of all permits, licenses or other approvals by any regulatory body having jurisdiction over the uses authorized herein. Prior to commencing the work authorized herein, Licensee shall notify Tennessee One Call regarding any excavation(s) and shall ensure that the provisions of TCA 65-31-101 et seq. are met.

14. **COMPLIANCE** – All work on the Licensed Premises shall be performed in compliance with current TDOT Landscape Design Guidelines and TDOT Standard Drawings in addition to applicable federal, state and local laws and regulations. Should Licensee fail or neglect to comply with any term or condition of this License Agreement or to comply with written notice and demand, this License shall be subject to termination. In the event of such termination, Licensee shall immediately remove any and all of its Improvements from the licensed Premises and surrender all rights and privileges under this License Agreement; otherwise, on written notification by the State, the Improvements will be removed and said Licensed Premises restored to its former condition in a timely manner at the expense of the Licensee.

15. **TITLE VI ASSURANCES** – The Licensee for itself, its successors in interest and assigns, as part of the consideration hereof does hereby covenant and agree that in the event facilities are constructed, maintained, or otherwise operated on the property described in this License Agreement for a purpose for which the State or a State program or activity is extended or for another purpose involving the provision of similar services or benefits, the Licensee shall maintain and operate such facilities and services in compliance with all other requirements imposed pursuant to Title 49, Code of Federal Regulations, Part 21,

Nondiscrimination in Federally Assisted Programs of the Department of Transportation – Effectuation of Title VI of the Civil Rights Act of 1964, and as said regulations shall be amended.

16. **AMERICANS WITH DISABILITIES ACT ASSURANCES** – The Licensee for itself, its successors in interest and assigns, as part of the consideration hereof does hereby covenant and agree that in the event facilities are constructed, maintained, or otherwise operated on the property described in this License Agreement for a purpose for which the State or a State program or activity is extended or for another purpose involving the provision of similar services or benefits, the Licensee shall maintain and operate such facilities and services in compliance with all other requirements imposed pursuant to Title 28, Code of Federal Regulations, Parts 35 and 36, Nondiscrimination on the Basis of Disability in State and Local Government Services and Nondiscrimination on the Basis of Disability by Public Accommodations and in Commercial Facilities, and as said regulations shall be amended. The Licensee further agrees that if any pedestrian facilities are constructed, maintained, or operated on the property described in this License, the Licensee shall construct, maintain, and operate such facilities in compliance with the Architectural and Transportation Barriers Compliance Board's "Accessibility Guidelines for Pedestrian Facilities in Public Rights-of-Way" (36 CFR Part 1190; published in the Federal Register, August 8, 2023).

17. **REVERSION** – In the event that the Licensed Premises is needed for a transportation project, Licensee shall remove any and all of its Improvements from the Licensed Premises and surrender all rights and privileges under this License Agreement within 60 days of receiving written notice from the State. In the event that the Licensed Premises is needed for a highway maintenance project, the use of the Licensed Premises will cease temporarily until the maintenance project is completed. In the event that a utility owner needs to maintain an existing utility facility, the Licensee's use of the Licensed Premises may cease or be impaired until the utility maintenance activity is completed.

18. **ADJACENT PROPERTY** – Licensee states and affirms that the Improvements constructed and maintained on the Licensed Premises are not relevant to any adjacent property's activities, features, or attributes that qualify the adjacent property for protection under Section 4(f) of the Department of Transportation Act of 1966 (Pub. L. 89—670, 80 Stat. 931) now codified at 23 U.S.C. § 138, 49 U.S.C. § 303, and 23 CFR Part 774 (hereinafter referred to as "Section 4(f)"). Therefore, neither the act of reversion nor termination of this Agreement, nor any transportation related activities occurring on the Licensed Premises (including, but not limited to, maintenance activities, construction activities, etc.), would result in a substantial impairment to the activities, features, or attributes that may qualify Licensee's adjacent or nearby property for protection under Section 4(f).

19. **NO PERMANENT OWNERSHIP** – Licensee does not currently possess, nor through this Agreement acquire, permanent ownership or control over the Licensed Premises.

20. **TERMINATION** – The State may terminate this License at will with 60 days written notice to Licensee.

21. **ASSIGNMENT** – The license shall not be transferred, conveyed or assigned to another party without prior written approval from the State.

Community Parks and Knox County Youth Sports Facility Use Permit

2447 Sutherland Avenue, Knoxville, TN 37919 Phone: 215-6600 Fax: 215-6603

Short Term Facility Use Permits are provided to non-profit organizations (Conduits) engaged in providing sports leagues to the public. This Short-Term Use Permit is intended for sports specific seasonal field use only. This is not a lease, and the holder of this permit does not have rights to this property beyond this permit. Knox County provides the land for public use and various levels of maintenance including repairs of county-built and owned facilities. The Permittee shall hold Knox County and Knox County Parks & Recreation harmless for any claims made against Knox County or Knox County Parks & Recreation arising from the use and occupancy of the park facility by the Permittee, its members, and any person in attendance during use of the park facility by the Permittee.

Applicant's Name:

Application Date:

Name of Non-Profit (the "Permittee"):

Describe your organization:

Describe your proposed activity and any equipment that will be used:

Park Name(s):

Section(s) of Park, sport fields, or buildings to be used:

The authorized time frames for facility usage are listed below based on sports seasons. Sports Season Dates Table.

FAILURE TO PROVIDE THE FOLLOWING WILL RESULT IN TERMINATION OF THIS PERMIT. Documents must be provided 90 days prior to the start of your sports season. Please see Sports Season Dates Table for start dates.

- **ANNUAL INSURANCE**- The Permittee shall provide Knox County Parks and Recreation an annual certificate of insurance showing a general liability insurance policy with limits of one million dollars ($1,000,000) per each occurrence and one million dollars ($1,000,000) general aggregate and naming Knox County, Tennessee as additional insured.
- **ANNUAL REPORTS-** Due on or before December 31st. The Permittee shall provide Knox County Parks and Recreation an annual report of sports commissioners, contact information (active telephone numbers and email addresses), number of Youth Sports participants by sport, and a copy of your IRS Form 990.

- **VOLUNTEER BACKGROUND CHECK REPORT**- Permittee shall provide, prior to the start of each sports season, Knox County Parks and Recreation a report of completed background checks for all volunteers (coaches, volunteers, workers, officials, etc.)

- **NAYS LEAGUE DIRECTOR TRAINING & MEMBERSHIP -** Prior to approval of a facility use permit each organization must ensure all youth sports league commissioners complete the National Alliance of Youth Sports (NAYS) League Director Training and Membership program. Knox County will fund this training for all league directors who have an approved facility use permit. NAYS League Director Training & Membership provides education and liability protection for individuals who volunteer to be part of a league's leadership team.

- **KNOX COUNTY YOUTH SPORTS ADVISORY REPRESENTATIVE –** Permittee shall elect a representative to serve on the KCYSAB. See KCYSAB By Laws eligibility requirements.

LEAGUE ASSESSMENTS

League assessments (parent surveys) QR codes will be placed around the areas of practices and games. It will then be up to the parent(s) to complete the assessment. Assessment questions will address quality issues such as: general league organization, facilities, coaching, staffing, officials, customer service, registration, communication, uniforms, etc. The results of the assessments will be shared with the KCYSAB.

USE OF OTHER GROUPS

Knox County Parks and Recreation shall work with other groups **(ex., non-profits, travel teams/organizations, and Knox County Schools)** to accommodate practices and games when the permittee is not using the field(s). If the Permittee would like to use the park, outside of your designated sports season, then the Permittee shall use KCPR reservation software to reserve facilities.

LEAGUE TOURNAMENT POLICY

Permittees shall provide for their recreational Baseball/Softball league six (6) total tournaments within one calendar year. Permittees shall be allowed preseason, postseason, and fundraiser tournament in the Fall (3) and Spring (3) Baseball/Softball Seasons within March 1st thru May 30th and Sept 1st thru October 31st. No other tournaments shall be allowed without special events application with approval by KCPR.

Knox County Cup: Each Soccer organization user permittee will have all their teams participate in the Knox County Cup in lieu of an annual user permit fee.

Knox County Diamond Classic: Each Baseball organization facility user permittee and Softball organization user permittee will have all their teams participate in the Knox County Diamond Classic in lieu of an annual permit fee.

Knox County Basketball Classic: Each Youth Basketball program receiving Knox County funds for gym use fees will have all their teams participate in the Knox County Basketball Classic (Indoor and Outdoor) Tournaments.

WEEKEND TOURNAMENT POLICY

Facilities should be open on weekends for public use and make up dates for league play. Any tournaments outside of league dates require a special events application with approval by KCPR.

RENEWAL/CANCELATION

Any violation of this permits policies is cause for revocation of all access to KCPR facilities. Either Knox County or the Non-Profit may cancel this permit any time with a 30-day written notice. This permit is good for 1 year, providing all annual and seasonal documentation is provided per annual reporting section and no current policy violations.

INSPECTION/PARK ENTRANCE

Knox County Parks & Recreation will inspect the property periodically; therefore, a copy of the gate/concession/bathroom/storage facilities keys/codes must be on file at Knox County Parks & Recreation office at 2447 Sutherland Ave. Failure to provide them shall result in Knox County Parks & Recreation changing the locks and codes.

REPAIRS AND CONSTRUCTION

All requests for repairs must be submitted in writing via preventative software system to KCPR. New construction must be submitted in writing via Donation Form to KCRP.

NEW LANGUAGE-ADDITIONS

As our youth sports continues to grow so does our awareness of the need for change and consistency in our youth sports department. The following additions have been made to create more clearly defined and manageable areas of practice for all organizations associated with Youth Sports in Knox County.

PREVIOUS	EFFECTIVE IMMEDIATELY
• ID Badges provided and required by KCPR.	• Sports Commissioners/ 501C3 determine if ID Badges are required.
• Countywide Registration Refund Policy.	• Sports Commissioners/501C3 determine their refund policies for registration.
• Provide KCPR Game and Practice Schedules.	• Game and Practice Schedules no longer required to be provided to KCPR unless field rental is required.
• Registration Fee Annual Reporting submitted to KCPR.	• Registration Fee Annual Reporting no longer required to be submitted to KCPR.
• User Agreement Basketball Use Only Policy	• User Permit Basketball Use Only Policy no longer applies.
• KCPR Senior Director or designee may appeal Grievance Procedures	• KCPR Senior Director of designee will no longer intervene with Community Park Grievances. Grievances will be reviewed by the KCYSAB.
• Coaches training required	• Administrators and Coaches Training Required. (Ex. NAYS)
• Community Youth Basketball KCS Reservations made by KCPR.	• Community Youth Basketball KCS Reservations made by Basketball Commissioners or designee.
• Annual Report include a list of 501C3 Officers Contact Information	• Annual Report include a list of 501C3 Officers and Sports Commissioners Contact information for each sport, and number of Youth Participants in each sport.

Helpful Tip: All questions regarding facility conditions and usage should be handled by Knox County Parks & Recreation. All questions regarding the athletic program will be handled by specific youth sports commissioners assigned to the program.

SPORTS SEASON DATES TABLE

Knox County Parks and Recreation recognizes the following as hard dates for the beginning/ending of each Fall/Winter/Spring Sports Season:

Sport	Fall	Winter	Spring
Baseball	Sept. 1st - Oct. 31st		March 6th - May 31st
Basketball		Dec. 1st - Feb. 18th	
Football	July 11th - Nov. 12th		March 27th - May 5th
Lacrosse	Sept. 1st - Nov. 12th		Feb 13th - May 1st
Soccer	July 11th - Nov. 12th		
Softball	Sept. 1st - Oct. 31st		March 6th - May 31st

We have established hard dates November 15 and March 15 to coincide with our winterization/de-winterization process. Facility users who desire temporary portable restroom service after November 15th and prior to March 15th the facility permit holder will be responsible for providing those services, Knox County will not provide, clean or fund temporary portable restrooms services during winterization. All activities outside of the designated sports seasons shall be managed by Knox County Parks and Recreation.

INDEMNITY AND HOLD HARMLESS AGREEMENT

The Permittee hereby releases Knox County and Knox County Parks & Recreation from all liability arising from the Permittee's use and occupancy of the park facility. The Permittee certifies that it has had an opportunity to inspect the premises covered by this use permit and that permittee finds the premises fit for such use and free of all dangerous and defective conditions.

The Permittee shall hold Knox County and Knox County Parks & Recreation harmless for any claims made against Knox County or Knox County Parks & Recreation arising from the use and occupancy of the park facility by the Permittee, its members, and any person in attendance or present during use of the park facility by the Permittee. The permittee shall further defend and indemnify Knox County and Knox County Parks & Recreation for all claims made against Knox County or Knox County Parks & Recreation arising from the Permittee's use and occupancy of the park facility.

The Permittee agrees it they will be responsible for control and proper use of the park facility or section of the park facilities indicated above. If damage or injury to the park facility occurs during Permittee's use of the park facility, permittee shall pay the costs of remediating and repairing such damages upon demand. Knox County shall not be liable for debts incurred by the permittee.

The undersigned hereby certifies that he/she has read this permit, agrees to be bound to Knox County Parks and Recreation Rules and Regulations and Knox County Charter and has legal authority to bind the Permittee to this permit and has been authorized to execute Agreement on behalf of the Permittee.

Additional Signatures

Knox County Parks and Recreation Rules and Regulations

1. Knox County Parks & Recreation reserves the right to schedule activities or fields.
2. Knox County Parks & Recreation reserves the right to conduct repairs at park facilities. Notice will be given to user groups in advance whenever possible.

3. Park facilities or portions thereof may be used for recreational, cultural, and such other purposes to promote the welfare of the community.

4. Any and all improvements made to the park property must be approved in writing by the Recreation Department. Permit holders are responsible for obtaining all local, state, or federal permits required for any improvement projects. Copies of all permits, architectural plans, and blueprints must be submitted to the Recreation Department. Permittees may be responsible for utilities and repairs to such improvements as agreed upon by both parties. All improvements become property of Knox County.

5. The holder of an approved application to use grounds, equipment, or space in a park shall agree to observe the following rules and regulations of the Parks & Recreation Dept.

   a. To exercise the utmost care in the use of park premises.
   b. To repair or pay Knox County for any damage arising from the occupancy of any portion of the park premises.
   c. All activities must be under competent adult supervision and approved by the Recreation Department.
   d. The use of alcoholic beverages, firearms or fireworks are allowed only with appropriate local and state permits and Knox County Parks and Recreations approval.
   e. Drugs, profane language, or gambling in any form is not permitted on park property.

6. Knox County Parks & Recreation reserves the right to cancel the use of the park facility at any time due to an emergency.

7. Knox County Parks & Recreation will approve and periodically review use and a fee schedule for the use of park facilities by community or civic organizations and other non-profit, recreational, or religious groups. The Permittee must make available the fee schedules to the Recreation Manager and/or Sports Operation Managers.

8. Knox County Parks & Recreation reserves the right to limit fees charged for admission to Knox County Parks. If limits are implemented a copy will be provided to the non-profit.

9. Casual versus scheduled use. It is intended that public parks will be used by the community for casual use such as local children playing pick-up games. However, when organized teams wish to utilize any park on a weekly basis then they must acquire permission from Knox County as identified in" **USE OF OTHER GROUPS"** above. In addition, casual use is not permitted where fields are prepared for games such as softball/baseball fields when fields are lined for games or during inclement weather or wet field conditions.

KNOX COUNTY PARKS AND RECREATION MAINTENANCE RESPONSIBILITIES

Knox County Parks and Recreation will be responsible for mowing inside and outside of ballfields and any common grounds that lie within the park's boundaries. The mowing will be handled by the Parks and Recreations mowing crews and contracted mowers. Knox County Parks and Recreation shall be responsible for fixing and/or replacing the fencing that encloses all ballfields and park boundaries. Below are the other maintenance responsibilities that Knox County Parks and Recreation shall provide:

Chapter 27 PARKS AND RECREATION FACILITIES[1]

ARTICLE I. PARKS

Sec. 27-1. Definitions.

For the purposes of this chapter the following terms, phrases, words, and their derivations shall have the meaning given herein. When not inconsistent with the context, words used in the present tense include the future, words in the plural number include the singular number and words in the singular number include the plural number. The word "shall" is always mandatory and not merely directory.

County is Knox County, Tennessee.

Director is the senior director of recreation and parks of Knox County, the person immediately in charge of all park area and its activities, and to whom all park employees in such area are responsible, or, if designated by the director, this shall include deputy directors.

Park is all county-owned parks including any facilities or improvements.

Person is any person, firm, partnership, association, corporation, company or organization of any kind.

Vehicle is any wheeled conveyance, whether or not motor powered, animal-drawn, or self-propelled. The term shall include any trailer in tow of any size, kind or description. Exception is made for baby carriages and vehicles in the service of the county parks.

(Ord. No. O-10-4-102, § 1, 5-24-10; Ord. No. O-20-11-101, § 1, 12-21-20; Ord. No. O-21-7-103, § 1, 8-23-21)

Sec. 27-2. Persons invited to use county parks; park hours.

(a) All persons are invited to use county parks and their facilities who will comply with the terms hereof and such rules and regulations as may be promulgated hereunder governing the use of county parks.

(b) No person shall, under any circumstances, enter for the purpose of remaining therein or remain in any park from sunset and one-half hour before sunrise without general or special permission from the parks and recreation department. Lighted facilities (ball fields, tennis courts, skateparks, etc.) shall remain open until 10:00 p.m. unless otherwise posted, or if authorized by the department during an event. Night time use of boat launch and fishing areas shall be permitted so long as it does not create nuisance for adjacent property owners. Park areas under repair shall be closed as needed.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-3. Unlawful activities generally.

It shall be unlawful and constitutes a misdemeanor for any person within county parks to:

[1]Note(s)—At the discretion of the editor to preserve the style of this Code, certain subsections of this chapter have been renumbered from that of the enacting Ord. No. O-10-4-102.

(1) *Buildings and other property.*

a. *Disfigurement and removal.* Willfully mark, default, disfigure, injure, tamper with, or displace or remove any building, bridges, tables, benches, fireplaces, railings, paving or paving material, water lines or other public utilities or parts of appurtenances thereof, signs, notices or placards, whether temporary or permanent, monuments, stakes, posts, or other boundary markers, or other structures or equipment, facilities or park property or appurtenances whatsoever, either real or personal.

b. *Rest rooms and washrooms.* Failure to cooperate in maintaining rest rooms and washrooms in a neat and sanitary condition. No person over the age of six years shall use the rest rooms and washrooms designated for the opposite sex unless said person is physically or emotionally incapable of using same without the assistance of a parent, guardian or caregiver.

c. *Removal of natural resources.* Dig or remove any soil, rock, stones trees, shrubs or plants, down-timber, or other wood or materials, or make any excavation by tool, equipment, blasting or other means or agency.

d. *Erection of structures.* Construct or erect any building or structure of whatever kind, whether permanent or temporary in character, or run or string any public service utility into, upon or across such lands, except on special written permit issued hereunder.

(2) *Trees, shrubbery, lawns.*

a. *Injury and removal.* Damage, cut, carve, transplant or remove any tree or plant or injure the bark, or pick the flowers or seeds, of any tree or plant. Nor shall any person attach any rope, wire or other contrivance to any tree or plant. A person shall not dig in or otherwise disturb grass areas, or in any other way injure or impair the natural beauty or usefulness of any area.

b. *Climbing trees, etc.* Climb any tree or walk, stand or sit upon monuments, vases, fountains, railing, fences, or upon any other property not designated or customarily used for such purposes.

c. *Hitching of animals.* Tie or hitch a horse or other animal to any tree or plant.

(3) *Wild animals, birds, etc.*

a. *Hunting, molesting, etc.* Hunt, molest, harm, frighten, kill, trap, chase, tease, shoot or throw missiles at any animal, reptile or bird; nor shall he remove or have in his possession the young of any wild animal, or the eggs or nest, or young of any reptile or bird. Exception to the foregoing is made in that snakes known to be deadly poisonous may be killed on sight.

b. *Feeding.* Give or offer, or attempt to give any wild animal or bird any food, tobacco, alcohol or other known noxious substances.

(4) *Explosives, firearms and weapons.* Bring into or have in his possession in any park any firearms (with the exception of those persons with a duly issued, current handgun carry permit issued by the state), slingshots, firecrackers, torpedoes, fireworks or other missile propelling instruments or explosives, including any substance, compound, mixture or article having properties of such a character that alone or in combination or contiguity with other substances, mixtures, compounds or articles may propel missiles or may decompose suddenly and generate sufficient heat, sound, gas or pressure or any or all of these to produce rapid flames, combustion or noxious or dangerous odors or sounds such as to annoy any other person or to injure any person or property without appropriate and approved permits or licenses from the county or the state.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-4. Sanitation.

It shall be unlawful for any person within county parks to:

(1) *Pollution of waters.* Throw, discharge, or otherwise place or cause to be placed in the waters of any fountain, pond, lake, stream, bay or other body of water in or adjacent to any park or any tributary, stream, storm sewer or drain flowing into such waters any substance, matter or thing, liquid or solid, which will or may result in the pollution of said waters.

(2) *Refuse and trash.* Have brought in or shall dump, deposit or leave any bottles, broken glass, ashes, paper, boxes, cans, dirt, rubbish, waste, garbage, or refuse or other trash. No such refuse or trash shall be placed in any waters in or contiguous to any park, or left anywhere on the grounds thereof, but shall be placed in the proper receptacles where these are provided; where receptacles are not so provided, all such rubbish or waste shall be carried away from the park by the persons responsible for its presence, and properly disposed of elsewhere.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-5. Traffic.

It shall be unlawful for any person within the parks to:

(1) *State motor vehicle laws and county traffic ordinances apply.* Fail to comply with all applicable provisions of the state motor vehicle traffic laws and the traffic ordinances of the county in regard to equipment and operation of vehicles together with such regulations as are contained in this chapter and other ordinances.

(2) *Obey personnel; enforcement of traffic regulations.* Fail to obey all traffic officers and park employees, such persons being hereby authorized and instructed to direct traffic whenever and wherever needed in the parks.

(3) *Operation confined to specific areas.* Drive any vehicle on any area except the paved park roads or parking areas, or such other areas as may on occasion be specifically designated as temporary parking areas by the director.

(4) *Parking.*

a. *Designated areas.* Park a vehicle in other than an established or designated parking area, and such use shall be in accordance with the posted directions thereat and with the instructions of any employee who may be present.

b. *Full-parking.* Full-park on the road or driveway at any time.

c. *Night parking.* Leave a vehicle standing or parked at night without lights clearly visible for at least 100 feet from both front and rear and on any driveway or road area except legally established parking areas.

d. *Emergency procedure.* Fail to immediately notify a park employee or by placing a note on disabled vehicle of an emergency in the nature of a breakdown requiring the assistance of a tow truck, mechanic or other person.

e. *Abandonment.* Leave a vehicle within the boundaries of the park after park hours unless such vehicle be disabled and is reported by the driver to a park employee. Any vehicle remaining in said park after closing hours, except as is excepted herein will be towed away and stored at the expense of the owner.

(5) *Bicycles, motorcycles and all terrain vehicles.*

a. *Confined to roads.* Ride a bicycle or motorcycle on other than a paved vehicular road or specifically designated route or trail.

b. *All terrain vehicle.* Ride an all terrain vehicle in the park.

c. *Operation generally.* Ride a bicycle or motorcycle on other than on the right-hand side of the road paving as close as conditions permit, and bicycles and motorcycles shall be kept in single file when two or more are operating as a group. Bicyclists and motorcyclists shall, at all times, operate their machines with reasonable regard to the safety of others, signal all turns and follow the recommended passing procedures when overtaking vehicles. No motorcycles shall be operated in the park unless equipped with a properly functioning muffler adequate to suppress motor noise to a comfortable level of sound.

d. *Rider prohibited.* Ride any other person on a bicycle unless properly equipped for such purpose.

e. *Night operation.* Ride a bicycle or motorcycle on any road within the park between 30 minutes after sunset or 30 minutes before sunrise without an attached headlight plainly visible at least 200 feet in front of, and without a red tail light or red reflector plainly visible from at least 100 feet from the rear of such bicycle or motorcycle.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-6. Recreational activities.

It shall be unlawful for any person within a county park to:

(1) *Swimming, etc.* Swim, bathe or wade in any waters or waterways in or adjacent to such park unless so designated and clearly marked by signs.

(2) *Fishing.* Fishing without complying with the "Tennessee Fishing Regulations" as published by the Tennessee Wildlife Resources Agency and any local rules or guidelines.

(3) *Picnic areas.*

a. *Generally.* Picnic or lunch in a place other than those designated for that purpose. Park employees shall have the authority to regulate the activities in such areas when necessary to prevent congestion and to secure the maximum use for the comfort and convenience of all. Visitors shall comply with any directions given to achieve this end.

b. *Availability.* Violate the regulation that use of the individual fireplaces/grills together with tables and benches follows generally the rule of "first come, first served."

c. *Duty of picnicker.* Leave a picnic area before the fire is completely extinguished and before all trash in the nature of boxes, papers, cans, bottles, garbage and other refuse is placed in the disposal receptacles where provided. If no such trash receptacles are available, then refuse and trash shall be carried away from the park area by the picnicker to be properly disposed of elsewhere.

(4) *Camping.* Except as specifically set out below, to set up tents, shacks or any other temporary shelter for the purpose of overnight camping, nor shall any person leave in a park after closing hours any movable structure or special vehicle to be used or that could be used for such purpose, such as house-trailer, camp-trailer, camp-wagon or the like. Overnight "pup tent" camping by organized groups sponsored by recognized youth development agencies is permissible by special permit of the director. Camping in designated areas with permit as designated by the director is permissible.

(5) *Games.* Take part in or abet the playing of any games involving thrown or otherwise propelled objects such as balls, stones, arrows, javelins or model airplanes except in areas set apart for such forms of recreation. The playing of rough or comparatively dangerous games such as football, baseball and quoits is prohibited except on the fields and courts or areas provided therefore.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-7. Animals in county parks.

(a) *Leash requirement.* All animals must be on a leash not exceeding six feet in length and in the custody of a competent person while on county park property.

(b) *Prohibited animals.* The following animals are not permitted in county parks:

(1) Livestock;

(2) Wild or exotic animals privately owned;

(3) Where a county park sign prohibits all animals privately owned; and

(4) Any animal behaving in a dangerous or potentially dangerous manner or any dog that has been classified as dangerous.

(c) *No animals allowed in designated county parks.* No privately owned animals will be permitted in county parks that have a designated sign posted to that effect. This restriction will be designated in certain parks that have a high volume of participants and inadequate areas for animals.

(d) *Responsibility for animal waste.* The owner or person having custody of an animal must remove from the county park all waste generated by such animal.

(e) *Off-leash dog parks.* Dog owners shall be responsible and liable for the control and behavior dogs while using designated off-leash dog parks.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-8. Skateboarding, skating and bicycling.

(a) No person shall use a skateboard in any park except at such times and upon places as may be designated or maintained therefore. Skateboards shall be permitted on paved greenway trails unless otherwise posted.

(b) Any person operating a skateboard, skates, bicycle or other similar device in a county skatepark shall wear a protective helmet of good fit fastened securely upon their head with all straps of the helmet. Such helmet must be approved by the American National Standards Institute (ANSI), the Snell Memorial Foundation, the American Society for Testing and Materials (ASTM) or otherwise approved by the commissioner of safety.

(c) It shall be unlawful for any parent or legal guardian of a person below the age of 13 to knowingly permit such person to operate a skateboard, skates, bicycle or similar device in a county-owned skatepark without wearing a helmet as described in subsection (b) of this section. Such parents or legal guardians violating this ordinance shall receive a citation to court pursuant to subsection (b) of this section.

(d) Any person violating any requirement set forth in subsections (a), (b) or (c) of this section shall be guilty of a violation and upon conviction sentenced to pay a fine of $25.00 and court costs.

(e) A law enforcement officer or county representative may deny use of a county skatepark to individuals who do not follow the posted rules at the skateparks.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-9. Certain behavior declared unlawful.

It shall be unlawful for any person within the county park to:

(1) *Alms.* Solicit alms or contributions for any purpose, whether public or private, unless as permitted in writing by the director.

(2) *Fires.* Build or attempt to build a fire except in such areas and under such regulations as may be designated by the director. No person shall drop, throw or otherwise scatter lighted matches, burning cigarettes or cigars, tobacco paper or other inflammable material within any park area or on any highway, road or street abutting or contiguous thereto.

(3) *Closed areas.* Enter an area posted as "Closed to the Public," nor shall any person use or abet the use of any area in violation of posted notices.

(4) *Going onto ice.* Go onto the ice on any of the waters except such areas as are designated as skating fields, and provided a safety signal is displayed.

(5) *Exhibit permits.* Fail to produce and exhibit any permit from the director upon request of any authorized person who shall desire to inspect the same for the purpose of enforcing compliance with an ordinance or rule.

(6) *Interference with permittees.* Disturb or interfere unreasonably with any person or party occupying any area or participating in any activity under the authority of a permit.

(7) *Intoxicating beverages.* Possess controlled substances and/or alcoholic beverages, wine, and/or beer at any time, except in places with valid permits such as marinas, restaurants and golf courses.

(Ord. No. O-10-4-102, § 1, 5-24-10; Ord. No. O-20-11-101, § 1, 12-21-20; Ord. No. O-21-7-103, § 2, 8-23-21)

Sec. 27-10. Merchandising, advertising and signs.

No person in a county park shall:

(1) *Vending and peddling.* Expose or offer for sale any article, thing or service nor shall he station or place any stand, cart or vehicle for the transportation, sale of display of any such article or thing. Exception is here made as to any regularly licensed concessionaire acting by and under the authority and regulation of the director, and those conducting activities under a permit where such permit permits the sale of articles or things. The exception under the permit shall only be granted to those activities which are charitable in purpose.

(2) *Advertising.* Announce, advertise or call the public attention in any way to any article or service for sale or hire without written permission from the director.

(3) *Signs.* Paste, glue, tack or otherwise post any sign, placard, advertisement or inscription whatever, nor shall any person erect or cause to be erected any sign whatever on any public lands or highways or roads adjacent to a county park.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-11. Park operating policy.

(a) *Reserved and closed areas.* Any section or part of a county park may be declared closed to the public by the director at any time and for any interval of time, either temporarily or at regular and stated intervals (daily or otherwise) and either entirely or merely to certain uses, as the director shall find reasonably necessary. No

group shall utilize an athletic field that is posted as requiring reservations, without a reservation from the department or authorizing association. All use is prohibited on fields with signs indicating under repair or fields that are locked or otherwise secured. Provided, further, nothing herein shall be constructed as to prohibit informal neighborhood use of fields that are not under repair or secured. Informal use shall consist of no more than ten people and shall not be an organized team.

(b) *Special events.*

(1) *Application.* A person seeking issuance of a permit hereunder shall file an application with the appropriate director.

(2) *Standards for issuance.* The director shall issue a permit hereunder when he finds:

a. That the proposed activity or use of the park will not unreasonably interfere with or detract from the general public enjoyment of the park;

b. That the proposed activity and use will not unreasonably interfere with or detract from the promotion of public health, welfare, safety and recreation;

c. That the proposed activity or use is not unreasonably anticipated to incite violence, crime or disorderly conduct;

d. That the proposed activity will not entail unusual, extraordinary or burdensome expense or police operation by the county; and

e. The facilities desired have not been reserved for other use at the day and hour required in the application.

(3) *Effect of permit.* A permittee shall be bound by all park rules and regulations and all applicable ordinances fully as though the same were inserted in said permits.

(4) *Liability of permittee.* The person or persons to whom a permit is issued shall be liable for any loss, damage or injury sustained by any person whatever by reason of the negligence of the person or persons to whom such permit shall have been issued, and shall provide certificate of insurance before the event.

(5) *Revocation.* The director shall have the authority to revoke a permit upon a finding of violation of any rule or ordinance, or upon good cause shown.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-12. Naming of parks.

(a) The following criteria shall be used in determining the appropriateness of the naming designation:

Geographic location, natural, historical or cultural feature.

(1) A person with significant community service, minimum 25 years.

(2) A person with significant community service or distinction.

(3) A donation of approximately 50 percent of the value of the property or facility.

(4) As approved by the county commission in the acquisition of any property.

(b) Nominations will be accepted and considered only when received from community-based organizations which have been in existence a minimum of three years. The nominating organization will be required to provide information about its history. A formal vote of the organization's executive board must be taken. Requests will not be considered when submitted by an individual or a group for self-nomination. The only

exception to this policy is when a significant financial contribution is made and the naming is a condition of the gift.

(c) The department will not consider a naming request if any of the following conditions are present:

(1) Duplicates the name of another park or park feature;

(2) Endorses or advocates religion or a specific religious belief;

(3) Has obscene connotations; or

(4) Demeans, intimidates or maliciously portrays any racial and ethnic group.

(d) No park once named may ever be changed, unless by a two-thirds majority of the county commission.

(e) A request for naming of a park, recreational area or facility shall be submitted in writing, including criteria from subsection (b) above, to the parks and recreation department, recommended by the parks and recreation advisory board and shall be approved in writing by the mayor and district commissioner(s) or one county commissioner from the district and one at-large county commissioner.

(f) The parks and recreation department may offer the opportunity for public input on the proposed naming.

(g) The parks and recreation department can initiate the naming process whenever deemed necessary and/or in the best interest of the county.

(h) This article shall not apply to leased properties. However, all naming on leased properties shall not carry forward after the termination of the lease.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-13. Enforcement.

(a) *Officials.* The director, park employees, and members of the county sheriff's department shall, in connection with their duties imposed by law, diligently enforce the provisions of this chapter.

(b) *Ejectment.* The director, any park employees, and members of the county sheriff's department shall have the authority to eject from the parks any person acting in violation of this chapter, rules, the county sports code of conduct and regulations promulgated hereunder.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-14. Additional rules and regulations.

The director shall have the authority to promulgate such rules and regulations as may be necessary to carry out the provisions of this chapter and to assure an impartial, fair and safe use and enjoyment of county parks by those persons lawfully using the parks. The director shall have the authority to schedule the use of park facilities under this section. Regulations pertaining to specific activities shall be displayed in a prominent and public location at the point of the activity controlled. Rules and regulations pertaining to the parks as a whole shall be publicly and prominently displayed at each entrance to county parks. Rules and regulations adopted in accordance with this section shall have the same force and effect as if copied herein verbatim.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-15. Liability for injuries or damages.

All persons using the parks will do so at their own risk. The county will not be liable for any injuries or damages sustained by persons using said parks.

(Ord. No. O-10-4-102, § 1, 5-24-10)

Sec. 27-16. Use of tobacco and vapor products prohibited.

(a) The use of tobacco products and vapor products are prohibited on the grounds of a public park, public playground, public greenway, or any public property that is accessible to use by youth as long as the public park, public playground, public greenway, or public property is owned or controlled by Knox County. This prohibition does not apply to buildings, sidewalks, or roads.

(b) As used in this section 27-16:

(1) a. *Greenway* means:

i. An open-space area following a natural or man-made linear feature designed to be used for recreation, transportation, and conservation, and to link services and facilities; or

ii. A paved, gravel-covered, woodchip-covered, or wood-covered path that connects one greenway entrance with another greenway entrance;

b. If a greenway traverses a park that is owned or operated by Knox County, or instrumentality thereof, the greenway is considered a portion of that park unless designated otherwise by the County Commission.

(2) *Playground* means an indoor or outdoor facility that is intended for recreation of children;

(3) *Tobacco product* means any product that contains tobacco that is intended for human use; and

(4) *Youth* means persons under 21 years of age.

(Ord. No. O-21-7-103, § 3, 8-23-21)

WHEREAS, by means of Resolution R-23-7-804, the Knox County Commission approved an agreement with Trane U.S. Inc. ("Trane"), designated as Knox County Contract No. 23-414, for Phase 3B of the Energy Conservation and Infrastructure Improvement Program for Knox County Government facilities (the "Trane Energy Services Project Phase 3B"); and

WHEREAS, the Trane Energy Services Project Phase 3B addresses identified needs and upgrades for the Women's Basketball Hall of Fame, Knox County Libraries, Knox County Parks and Recreation, Knox County Sheriff's Office and the Public Building Authority; and

WHEREAS, by means of Resolution R-24-11-801, the Knox County Commission approved Change Order #1 to Contract No. 23-414 in the amount of $276,484.00 for the furtherance of Trane Energy Services Project Phase 3B to address electrical code and life safety issues identified at six (6) Knox County Parks; and

WHEREAS, Knox County has received Change Order #2 to Contract No. 23-414 in the amount of $385,711.00 for the furtherance of Trane Energy Services Project Phase 3B to expand the ball field lighting design, as further detailed in the attached Change Order # 2.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

Change Order # 2 to the agreement with Trane U.S. Inc. for additional work on Trane Energy Services Project Phase 3B is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, that Change Order # 2 to the agreement with Trane U.S. Inc. for additional work on Trane Energy Services Project Phase 3B shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Subject: **Request for Change Order (No 2) for Knox County Contract 23-414, Trane Project J1-65182-4338-1**

Dear Matt,

This request for a change order is to address the request to expand the ball field lighting design to accommodate playing cricket at Forks of the River park. A new lighting design has been completed and is included with this change order request.

In the following pages, you will find an accounting of scope and cost for the required work and assuming timely approval, the additional work will not impact scheduling.

Once again, thank you for the trust you place in Trane and your continued support. If you have any questions or would like additional information please do not hesitate to contact us (Owen's cell phone 865-755-5869, Nancy's cell phone 865-603-5381) or e-mail oanevader@trane.com or nmcbee@trane.com.

Sincerely,

Owen Nevader
Comprehensive Solutions Leader

Request for Change Order #2

Knox County Government and Trane
Knox County Contract 23-414
Trane Project No. J1-65182-4338-1

This Change Order No. 2 is made and entered into as of the _____ day of July, 2025, to amend that certain Agreement (hereinafter the "Agreement"), dated as of July 27, 2023, by and between Trane U.S. Inc., (hereinafter "Trane") and Knox County Government (hereinafter "Customer").

1. Under **Article 1** of the Agreement, the following exhibits and sub-exhibits are modified as follows. The **modified exhibits** are attached hereto, or deleted as noted below, and are incorporated herein by this reference for this Change Order No. 2, only:

Exhibit A:	Schedule of Values
Exhibit B:	General Scope of Services

2. Under **Article 2** of the Agreement, the **Contract Price** increases by the amount associated with the scope for this **Change Order No 2 = $385,711**

   a. Original Contract Value = $27,614,289
   b. Revised total Contract Value via Change Order No. 1 = $27,890,773
   c. Revised total Contract Value via Change Order No. 2 = $28,276,484

3. Except as expressly provided herein, all other provisions of the Agreement remain the same.

IN WITNESS WHEREOF, the duly authorized representatives of the parties have each executed this Change Order No. 02, effective as of the date first above written.

WHEREAS, by means of Resolution R-24-4-802, the Knox County Commission approved a contract with Lasting Impressions Lawn Care, designated as Knox County Contract No. 24-197, for the provision of mowing and general grounds maintenance (the "Contract"); and

WHEREAS, Knox County and Lasting Impressions Lawn Care desire to enter into an amendment to the Contract in order to add the new Schaad Road medians at a cost of $875.00 per cut during mowing season, as further detailed in the attached amendment to the Contract.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Amendment to Contract No. 24-197 with Lasting Impressions Lawn Care for the addition of the new Schaad Road medians is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Amendment to Contract No. 24-197 with Lasting Impressions Lawn Care for the addition of the new Schaad Road medians shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Amendment to Contract No. 24-197

Knox County Government

And

Lasting Impressions Lawn Care

This Amendment to Agreement is made and entered into by and between Knox County Government ("Knox County"), and Lasting Impressions Lawn Care ("Contractor").

WITNESSETH:

WHEREAS, Knox County and Contractor have previously entered into a certain Agreement dated April 26, 2024, for Mowing and General Grounds Maintenance (Bid #3528), (hereinafter referred to as the "Agreement"):

NOW, THEREFORE, in consideration of the foregoing premises, and other good and valuable consideration, the receipt and legal sufficiency of which are hereby acknowledged, Knox County and Contractor agree to amend their Agreement as follows:

1. Addition of new Schaad Road medians to be mowed and trimmed two (2) times per month during mowing season unless directed otherwise by Knox County Engineering and Public Works for $875 per cut.

Except as hereby modified, all other terms and conditions of the original Agreement between Knox County and Contractor shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have caused this Amendment to Contract No. 24-197 to be executed on the day and year indicated below.

WHEREAS, by means of Resolution R-22-9-802, Knox County, Tennessee (the "County"), the City of Knoxville, Tennessee (the "City") and Young-Williams Animal Center of East Tennessee ("Young Williams") entered into a Defined Services Contract to promote the responsible care and welfare of animals, including public education, sheltering services, adoption services, and veterinary care including spaying, neutering, and timely or emergency care to prevent suffering; and

WHEREAS, the County, the City and Young-Williams now desire to extend the Defined Services Contract to extend the term for the period commencing on July 1, 2025 and terminating on June 30, 2026; and

WHEREAS, the proposed Extension of Defined Services Contract also increases the annual amount that the County and the City each compensate Young-Williams from $1,075,000.00 to $1,101,822.00.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Extension of Defined Services Contract among Knox County, the City of Knoxville, and Young-Williams Animal Center of East Tennessee to promote the responsible care and welfare of animals is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Extension of Defined Services Contract among Knox County, the City of Knoxville, and Young-Williams Animal Center of East Tennessee to promote the responsible care and welfare of animals shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

EXTENSION OF DEFINED SERVICES CONTRACT

THIS EXTENSION OF DEFINED SERVICES CONTRACT is made and entered into by and among KNOX COUNTY, TENNESSEE, THE CITY OF KNOXVILLE, TENNESSEE, and YOUNG-WILLIAMS ANIMAL CENTER OF EAST TENNESSEE, 3201 Division Street, Knoxville, TN 37919, (hereinafter altogether "the parties").

WITNESSETH:

WHEREAS, the parties have previously entered into a certain Defined Services Contract designated as County Contract No. 22-453 and City Contract No. C-22-0506 (hereinafter referred to as the "Contract"); and

WHEREAS, ARTICLE III of the Contract, titled "TERM", provides the procedure by which the parties can extend the Contract for a period of one (1) year at a time; and

WHEREAS, the parties desire to extend the Contract for the term commencing on July 1, 2025 and terminating on June 30, 2026; and

WHEREAS, ARTICLE IV of the Contract, titled "Payment Terms and Conditions", states that the County and the City will each compensate the Agency $1,075,000.00 for the term of the Contract; and

WHEREAS, the parties desire to increase the aforesaid amount to $1,101,822.00.

NOW, THEREFORE, in consideration of the foregoing premises and other good and valuable consideration, the receipt and legal sufficiency of which are hereby acknowledged, the parties agree as follows:

1) The term of the Contract is extended for the period commencing on July 1, 2025 and terminating on June 30, 2026.

2) The County and the City will each compensate the Agency $1,101,822.00 for the term of the Contract.

3) Except as hereby modified, all terms and conditions of the Contract shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have executed this Extension of Defined Services Contract as of the latest date written below.

WHEREAS, Knox County (the "County") and Young-Williams Animal Center of East Tennessee ("Young-Williams") previously entered into Personal Property Lease Agreement dated May 17, 2024 whereby the County leased to Young-Williams various surplus vehicles and equipment useful for the collection of stray and dangerous animals for Young-Williams to perform its obligations to the County and the City of Knoxville according to a Defined Services Contract assigning to Young-Williams certain Animal Control functions; and

WHEREAS, the County, the Knox County Sheriff's Office ("KCSO"), and Young-Williams now desire to enter into an agreement by which the County and KCSO will sell to Young-Williams for One Dollar ($1.00) the surplus vehicles and equipment previously leased to Young-Williams; and

WHEREAS, the proposed Personal Property Sales Agreement formalizes the agreement among the County, KCSO and Young-Williams with respect to the sale of the surplus vehicles and equipment to Young-Williams.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Personal Property Sales Agreement among Knox County, the Knox County Sheriff's Office and Young-Williams Animal Center of East Tennessee for the sale of surplus vehicles and equipment to Young-Williams is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Personal Property Sales Agreement among Knox County, the Knox County Sheriff's Office and Young-Williams Animal Center of East Tennessee for the sale of surplus vehicles and equipment to Young-Williams shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

PERSONAL PROPERTY SALES AGREEMENT

THIS AGREEMENT is made by and among **KNOX COUNTY, TENNESSEE**, a political subdivision of the State of Tennessee, ("**COUNTY**") , the **KNOX COUNTY SHERIFF'S OFFICE** (a/k/a the **KNOX COUNTY SHERIFF'S DEPARTMENT**) ("**KCSO**"), and the **YOUNG-WILLIAMS ANIMAL CENTER OF EAST TENNESSEE, 3201 Division Street, Knoxville, TN, 37919,** a non-profit public benefit corporation organized and existing under the laws of the State of Tennessee, ("**YOUNG-WILLIAMS** ").

WITNESSETH:

WHEREAS, the County and the KCSO own various surplus vehicles and equipment useful for the collection of stray and dangerous animals.

WHEREAS, pursuant to the Personal Property Lease Agreement dated May 17, 2024, the County leased such surplus vehicles and equipment to Young-Williams so that it may perform its obligations to the County and the City of Knoxville ("City") according to the terms of the Defined Services Contract dated April 12, 2024.

WHEREAS, the County, the KCSO, and Young-Williams desire to enter into an agreement by which the County and the KCSO will sell to Young-Williams the surplus vehicles and equipment leased to Young-Williams by the aforementioned Personal Property Lease Agreement.

WHEREAS, the County and Young-Williams agree to waive the provisions of Article 5 of the Personal Property Lease Agreement.

WHEREAS, the Personal Property Lease Agreement will terminate upon the execution of this Personal Property Sales Agreement.

NOW, THEREFORE, the County, the KCSO, and Young-Williams, for the mutual considerations stated herein, agree as follows:

ARTICLE 1.
BASIC AGREEMENTS

1.1 *SALE OF PROPERTY*. For and in consideration of the sum of One Dollar ($1.00) paid, the receipt and sufficiency of which are hereby acknowledged, the County and the KCSO hereby bargain, sell, assign, transfer and convey unto Young-Williams AS IS the surplus vehicles, including all their improvements and attachments, and other equipment identified in attached Appendix A subject to the terms and conditions provided in this Agreement. Specific vehicle identification information is listed in Appendix B. Together, these constitute "surplus equipment."

TO HAVE AND TO HOLD said surplus equipment unto Young-Williams, its successors and assigns, forever.

The County and the KCSO, for themselves and their representatives, do hereby covenant with Young-Williams, its successors and assigns, that the County and the KCSO are the true and lawful owners of said surplus equipment hereby transferred and have the full power to sell and convey the same.

ARTICLE 2.
HOLD HARMLESS AND INDEMNIFICATION

Young-Williams shall defend, indemnify and hold harmless the County, the KCSO, and their officers, employees and agents (hereinafter collectively the "County") from any and all liabilities which may accrue against the County or any third party for any and all lawsuits, claims, demands, losses or damages alleged to have arisen from an act or omission of Young-Williams in performance of this Agreement.

Young-Williams shall save, indemnify and hold the County harmless from the cost of the defense of any claim, demand, suit or cause of action made or brought against the County alleging liability referenced above, including, but not limited to, costs, fees, attorney fees, and other expenses of any kind whatsoever arising in connection with the defense of the County; and Young-Williams shall assume and take over the defense of the County in any such claim, demand, suit, or cause of action upon written notice and demand for same by the County. Young-Williams will have the right to defend the County with counsel of its choice that is satisfactory to the County, and the County will provide reasonable cooperation in the defense as Young-Williams may request. Young-Williams will not consent to the entry of any judgment or enter into any settlement with respect to an indemnified claim without the prior written consent of the County, such consent not to be unreasonably withheld or delayed. The County shall have the right to participate in the defense against the indemnified claims with counsel of its choice at its own expense.

Young-Williams shall save, indemnify and hold County harmless and pay judgments that shall be rendered in any such actions, suits, claims or demands against County alleging liability referenced above.

The indemnification and hold harmless provisions of this Agreement shall survive termination of the Agreement.

ARTICLE 3.
BUYBACK PROVISIONS

Should Young-Williams stop performing animal control functions, the KCSO shall have the right of first refusal to buy back any of the surplus equipment that is not, in the KCSO's sole discretion, defunct. The KCSO shall have 90 days from the date that Young-Williams stops performing animal control functions to give notice to Young-Williams of its decision to buy back any of the surplus equipment. If the KCSO does not notify Young-Williams of its intent to exercise its right to buy back the surplus equipment within said 90 days, that right shall be waived. It is understood and agreed that the KCSO will pay a total of One Dollar ($1.00) for any and all surplus equipment it buys back.

ARTICLE 4.
NOTICES

Any notice required or permitted under this Lease will be directed to the following representatives or such other address as either party may designate by written notice to the other:

Knox County:
Glenn Jacobs
Mayor of Knox County
400 Main Street, Suite 615
Knoxville, TN 37902
865-215-2005

Young-Williams:
Khann Chov, Executive Director
Knoxville, TN, 37919
jtesterman@young-williams.org
865-215-6599

cc: Tom Spangler
Knox County Sheriff's Office
400 Main Street, Suite L165
Knoxville, TN 37902
865-215-2444

Notices shall be in writing and shall be effective when actually delivered in person, received via facsimile transmission, or private carrier with signature confirmation, or when received in the U.S. mail, certified with return receipt requested, postage pre-paid and addressed to the party as stated above.

ARTICLE 5.
MISCELLANEOUS PROVISIONS

4.1 *REQUIRED APPROVALS*. None of the parties is bound by this Agreement until it is approved by the appropriate officials shown on the signature page of this Agreement.

4.2 *ARTICLE CAPTIONS*. The captions appearing in this Agreement are for convenience only and are not a part of this Agreement; they do not in any way limit or amplify the provisions of this Agreement.

4.3 *GOVERNING LAW AND VENUE*. This Agreement shall be interpreted, construed and governed according to the laws of the State of Tennessee. Further, all legal proceedings relating to the subject matter of this Agreement shall be maintained in the Chancery Court and/or the Circuit Court of Knox County, Tennessee, and each party agrees that jurisdiction and venue for any such legal proceedings shall lie exclusively with such courts.

4.4 *ENTIRE AGREEMENT*. This Agreement forms the entire Agreement among the County, the KCSO, and Young-Williams as to the subject hereof. Any prior representations, promises, agreements, oral or otherwise, among the parties, which are not embodied in this writing, will be of no force or effect.

IN WITNESS WHEREOF, the County, the KCSO, and Young-Williams have executed this Agreement in three (3) copies as of the latest date written below.

WHEREAS, the Clerk and Master of Knox County Chancery Court (the "Clerk and Master") desires to engage the services of a law clerk to assist and support the Chancellors of Chancery Court for Knox County, Tennessee (the "Chancellors"), as further detailed in the attached Independent Contractor Professional Services Agreement; and

WHEREAS, the Clerk and Master desires to engage Richard Mayberry to serve as law clerk and provide the services necessary for the Chancellors to conduct their duties and responsibilities; and

WHEREAS, Richard Mayberry has agreed to serve in the capacity as law clerk to the Chancellors for the period of July 1, 2025 through June 30, 2026 and to receive compensation in the amount of $59.23 per hour with total compensation not to exceed $115,500.00; and

WHEREAS, the proposed Independent Contractor Professional Services Agreement sets forth the terms and conditions under which Richard Mayberry will serve as law clerk to the Chancellors.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Independent Contractor Professional Services Agreement with Richard Mayberry for serving as law clerk to the Chancellors of Chancery Court for Knox County, Tennessee is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Independent Contractor Professional Services Agreement with Richard Mayberry for serving as law clerk to the Chancellors of Chancery Court for Knox County, Tennessee shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

KNOX COUNTY, TENNESSEE GOVERNMENT
INDEPENDENT CONTRACTOR PROFESSIONAL SERVICES AGREEMENT
WRITTEN EXTENSION AGREEMENT

THIS INDEPENDENT CONTRACTOR PROFESSIONAL SERVICES AGREEMENT (the "Agreement"), effective as of the 1st day of July 2025, is by and between Knox County, Tennessee, and J. Scott Griswold, Clerk and Master of Knox County Chancery Court ("Clerk and Master"), as the First Parties, and Richard Mayberry, an individual resident of the State of Tennessee ("Contractor"), as the Second Party.

RECITALS:

WHEREAS, the Office of the Clerk and Master is a Tennessee Constitutional Office which supports the business of the Chancery Division and Probate Division of Knox County Chancery Court, which courts hear a variety of cases and handle a heavy volume of business and activity through its three (3) Chancellors, who are State Court Trial Judges;

WHEREAS, the Chancellors of Knox County Chancery Court, the Honorable John F. Weaver, the Honorable Richard B. Armstrong Jr. and the Honorable Christopher D. Heagerty, preside over a variety of cases coming before them, which include cases involving complex questions of fact and law and which frequently require written findings and conclusions to dispose of cases in a reasonable and expeditious manner;

WHEREAS, by Administrative Order entered April 9, 2022, the Chancellors authorized the Clerk and Master to engage the services of a law clerk funded through his operating budget under Knox County Government, which law clerk shall possess the appropriate knowledge, training, and skill to assist and support the Chancellors in the disposition of the heavy volume of cases which come before them;

WHEREAS, Contractor possesses the specialized knowledge, training, and skill and does not need any training necessary to ensure the proper support of the Chancellors, including conducting legal research, drafting trial briefs, drafting findings of fact and conclusions of law, and final orders and other legal documents, as well as providing assistance to the Chancellors during courtroom proceedings;

WHEREAS, the Clerk and Master desires to engage Contractor to provide the services necessary for the Chancellors to conduct their duties and responsibilities and to pay Contractor at the hourly rate of $59.23 per hour as an independent contractor and to fund the position through his annual operating budget as approved by Knox County Government;

WHEREAS, the Contractor, as a non-employee, independent contractor will receive an IRS Form 1099 each year and will be personally responsible for complying with all IRS rules and regulations covering independent contractors and personally paying all required sums for estimated taxes, social security, FICA, and the like directly to the IRS;

WHEREAS, Contractor will not receive any benefits available to employees such as paid vacations, sick pay, insurance, and retirement.

WHEREAS, Contractor has agreed to serve in the capacity as law clerk to the Chancellors for the period of July 1, 2025 through June 30, 2026 and thereafter as needed through a written extension of this Agreement.

WITNESSETH:

NOW, THEREFORE, in consideration of the foregoing premises, the mutual promises and covenants contained herein, and other good and valuable consideration, the receipt, adequacy and sufficiency of which are hereby acknowledged, the parties agree as follows:

Section 1. The Clerk and Master hereby engages Contractor and Contractor hereby accepts such engagement, and Contractor hereby agrees to provide specialized services to the Chancellors of the Chancery Court for Knox County, Tennessee, for the period of July 1, 2025 through June 30, 2026, as directed by the Chancellors.

Section 2. Contractor agrees to be immediately available under this Agreement by phone, email, and in person for the benefit of the Chancellors in the administration of justice to their respective Courts.

Section 3. The Clerk and Master will pay Contractor $59.23 per hour on a monthly basis for his professional services and Contractor shall provide proper documentation to reflect hours devoted to the Chancellors and to enable the compensation to be paid on a monthly basis through the Knox County Finance Department under the operating budget, and the total compensation paid to Contractor shall not exceed $115,500.00 as calculated on an annual basis based upon 1,950 annual hours.

Section 4. The services Contractor shall provide include conducting legal research, verifying citations, drafting trial briefs and other applicable legal documents, providing assistance in the Courtroom to the Chancellors, including during oral arguments, motions, and trials, and preparing memorandums and legal briefs citing applicable legal authority, to enable the Chancellors to complete their duties and responsibilities in an efficient and expeditious manner.

Section 5. Contractor acknowledges that he is an independent contractor and nothing in this agreement is intended to, nor shall it be construed to, create an employer-employee relationship with the Clerk and Master under his salary suit; provided, however, that the services to be rendered hereunder by Contractor shall be rendered in a manner consistent with the prevailing standards of care exercised by an attorney in Tennessee under the Rules of the Tennessee Supreme Court, and the Clerk and Master shall not withhold on behalf of Contractor any sums for income tax, unemployment insurance, Social Security, or any other withholding pursuant to any law or requirement of any governmental body relating to amounts paid to Contractor, all of which shall be the sole responsibility of Contractor; neither shall the Clerk and Master or Knox County or the Chancellors make available to Contractor any of the benefits afforded to employees of Knox County, the Clerk and Master, or Chancellors, except as specifically provided herein. Contractor

shall indemnify and hold the Clerk and Master and Chancellors harmless from and against any and all loss or liability whatsoever arising, with respect to any and all losses incurred on account of any breach of the provisions of this agreement by Contractor. In the event the United States Internal Revenue Service, or any other governmental body questions or challenges the independent contractor status of Contractor, Contractor, the Clerk and Master, and the Chancellors shall have the right to participate in any discussion or negotiation occurring with such entity irrespective of who initiates such discussions or negotiations.

Section 6. If any compensation is paid to or expense reimbursement is made on behalf of Contractor that is disallowed, in whole or in part, as a deductible expense for Federal or State income tax purposes, and if the Clerk and Master is required to make payments to a taxing authority as a result of such disallowance, Contractor shall repay an amount equal to the disallowance.

Section 7. Either party may terminate this agreement with or without cause at any time and the term of this Agreement is not assignable and shall begin on July 1, 2025, and shall terminate on June 30, 2026, unless terminated sooner or extended by written agreement as provided herein.

Section 8. This Agreement contains the entire understanding of the parties with respect to its subject matter, and this Agreement may be amended only by a written instrument duly executed by all parties or their respective heirs, successors, assigns, or legal personal representatives.

Section 9. In the event either party hereto fails to perform any of its obligations under this Agreement or in the event of a dispute arises concerning the meaning or interpretation of any provision of this Agreement, neither party will be entitled to collect any costs, expenses or attorney fees from the other party.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed by themselves or their duly authorized representative as of the date and year set out above.

WHEREAS, *Tennessee Code Annotated*, §§ 67-7-201 *et seq.*, permits counties, upon the adoption of a resolution by a two-thirds vote of the county legislative body, to enact a mineral severance tax for the benefit of the county road fund to be administered by the state Department of Revenue; and

WHEREAS, Knox County levied a mineral severance tax on sand, gravel, sandstone, chert and limestone severed from the ground within its jurisdiction pursuant to the authority granted in *Tennessee Code Annotated*, §§ 67-7-201 *et seq.*, in Resolution Number R-22-6-902; and

WHEREAS, *Tennessee Code Annotated*, §§ 67-7-201 *et seq.*, permits counties to increase the mineral severance tax in accordance with the rates set forth in § 67-7-203; and

WHEREAS, due to factors such as rising material costs, inflation, and supply chain disruptions, the cost of county road and bridge construction and maintenance has increased dramatically and Knox County needs additional revenue for construction and maintenance of its roads and bridges.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

SECTION 1. There is hereby levied an increase in mineral severance tax on the above-named minerals at a total levy of twenty cents ($0.20) per ton for a tax period beginning July 1, 2025.

SECTION 2. The Mineral Severance Tax of Knox County shall be collected by the State Department of Revenue in accordance with the rules and regulations promulgated by the Department of Revenue.

SECTION 3. A certified copy of this Resolution shall be transmitted immediately upon its passage to the Department of Revenue of the State of Tennessee and shall be spread upon the minutes of the county legislative body.

SECTION 4. For purposes of collection, this Resolution shall take effect on the first day of the month occurring at least sixty (60) days after the certified copy is received by the Department of Revenue; for all other purposes it shall be effective upon passage by a two-thirds (2/3) majority vote of the county legislative body of Knox County, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

PUBLIC CHAPTER NO. 285

HOUSE BILL NO. 695

By Representatives Baum, Hale

Substituted for: Senate Bill No. 889

By Senator Reeves

AN ACT to amend Tennessee Code Annotated, Title 67, Chapter 7, Part 2, relative to mineral severance tax.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF TENNESSEE:

SECTION 1. Tennessee Code Annotated, Section 67-7-203(a), is amended by deleting the subsection and substituting instead:

(a) The rate of the tax must be set by the county legislative body, but must not exceed the following amounts per ton on sand, gravel, sandstone, chert, or limestone severed from the ground in the county:

(1) For a tax period that begins prior to July 1, 2025, fifteen cents (15¢) per ton;

(2) For a tax period that begins on or after July 1, 2025, and prior to July 1, 2030, twenty cents (20¢) per ton;

(3) For a tax period that begins on or after July 1, 2030, and prior to July 1, 2035, twenty-five cents (25¢) per ton; and

(4) For a tax period that begins on or after July 1, 2035, and for subsequent tax periods, thirty cents (30¢) per ton.

SECTION 2. Tennessee Code Annotated, Section 67-7-201, is amended by deleting subsection (b) and redesignating the remaining subsection.

SECTION 3. Tennessee Code Annotated, Section 67-7-207(b), is amended by designating the existing language as subdivision (1) and adding the following new subdivision:

(2) Not less than thirty (30) days after the end of a county's fiscal year, each county that receives revenue from a tax levied pursuant to this part shall provide an annual written report to the comptroller of the treasury, the commissioner of transportation, the chair of the transportation and safety committee of the senate, and the chair of the committee of the house of representatives having jurisdiction over transportation issues, detailing the amount of revenue deposited into the county road fund during the previous fiscal year, the amount of revenue spent by the county, and how those expenditures have been designated and used for construction, maintenance, and repair of the county system pursuant to subdivision (b)(1).

SECTION 4. Tennessee Code Annotated, Section 67-7-212, is amended by adding the following new subsection:

(d) A county legislative body that has authorized a tax under this part may increase the tax rate in accordance with § 67-7-203(a) by adopting a resolution by a two-thirds (2/3) majority vote. The presiding officer of the county legislative body shall deliver a certified copy of the resolution increasing the tax rate to the department of revenue. The new tax rate must not be collected by the department of revenue pursuant to the county legislative action until the first day of a month occurring at least sixty (60) days after the receipt of a certified copy of such action by the department.

SECTION 5. This act takes effect upon becoming a law, the public welfare requiring it.

HOUSE BILL NO. 695

PASSED: April 10, 2025

CAMERON SEXTON, SPEAKER
HOUSE OF REPRESENTATIVES

RANDY MCNALLY

Knox County Tennessee Road Acceptance

Name of Subdivision: Amber Vista Subdivision
Developer: JOL, LLC.
Commission District: 6
Inspector: David Willett
Date: June 25, 2025

Name of Road	Length of Road	Resurfacing w/Profile Mill Included in Cost
Inspiration Rd	968 LF	$35,126.14
Magnificent Ln	770 LF	$27,941.25
	Total Miles 0.33	Total $64,083.43

Knox County Engineering is recommending the acceptance of the right-of-way along the above streets as shown on the recorded plat instrument number 202303090048914, and any ROW that may have been dedicated along Buttermilk Road.

New Road Checklist:

Name of Subdivision: Amber Vista Subdivision
Inspector: David Willett
Date Surfaced: April 30, 2025

- ✓ Curbs are backfilled
- ✓ Correct signs have been installed per the MUTCD manual
  - Street signs
  - Stop signs
  - Speed limits signs
  - Children at play signs
  - No Outlet signs if applicable
  - Street is free of standing water
- ☐ Sidewalks are located within the ROW
- ☐ Bridge(s) spanning 20' or more located within this road section
  - If yes, provide a brief description:
  - _____
    _____
    _____
  - EPW file # 121-072

Recommended for road acceptance: Yes

Final Plat of Dorchester Subdivision

Certification of Final Plat – All Indicated Markers, Monuments and Benchmarks to be Set When Construction is Completed.

I hereby certify that I am a registered land surveyor licensed to practice surveying under the laws of the State of Tennessee. I further certify that this plat and accompanying drawings, documents, and statements conform, to the best of my knowledge, to all applicable provisions of the Knoxville-Knox County Subdivision Regulations except as has been itemized, described and justified in a report filed with the Planning Commission, or for variances and waivers which have been approved as identified on the final plat. The bond or other security that is posted to guarantee the completion of streets and related improvements shall also guarantee the installation of the indicated permanent reference markers and monuments, and benchmarks and property monuments upon completion of the subdivision.

Registered Land Surveyor: RYAN S. LYNCH

Tennessee License No.: 2447

Date: 08/04/2022

Certification of Class and Accuracy of Survey

I HEREBY CERTIFY THAT THIS IS A CATEGORY "V" SURVEY IN ACCORDANCE WITH THE TENNESSEE STANDARDS OF PRACTICE.

Certification of the Accuracy of Survey

Survey accuracy shall meet the requirements of the current edition of the Rules of Tennessee State Board of Examiners for Land Surveyors – Standards of Practice.

I hereby certify that this survey was prepared in compliance with the current edition of the Rules of Tennessee State Board of Examiners for Land Surveyors – Standards of Practice.

AMENDMENT TO DECLARATION OF RESTRICTIONS FOR HUNTERS GLEN SUBDIVISION

THIS AMENDMENT TO DECLARATION OF RESTRICTIONS (Amendment) is made and entered into as of the 27th day of May, 2025, by **S & E PROPERTIES, LLC, a Tennessee Limited Liability Company** (hereinafter referred to as "Developer"), and **NS PARTNERS, LLC, a Tennessee Limited Liability Company** (hereinafter referred to as "Builder").

WITNESSETH:

WHEREAS, Developer acquired certain property by Warranty Deed, dated January 22, 2021, recorded January 26, 2021, and of record in Instrument No. 202101260060418, in the Register's Office for Knox County, Tennessee; and

WHEREAS, Developer developed certain property known and designated as Hunters Glen Subdivision, as shown by map of the same of record in Instrument No. 202202020060223, in the Register's Office for Knox County, Tennessee; and

WHEREAS, Developer developed certain property known and designated as Phase 2 of Hunters Glen Subdivision, as shown by map of the same of record in Instrument No. 202401310036791, in the Register's Office for Knox County, Tennessee; and

WHEREAS, Developer caused to have recorded certain Declaration of Covenants and Restrictions for Hunters Glen Subdivision, dated January 22, 2022, recorded February 2, 2022, and of record in Instrument No. 202202020060222, in the Register's Office for Knox County, Tennessee; and

WHEREAS, Developer caused to have recorded certain Declaration of Restrictions for Hunters Glen Subdivision, Phase 2 (Annexation Agreement), dated September 8, 2024, recorded September 20, 2024, and of record in Instrument No. 202409200016237, in the Register's Office for Knox County, Tennessee; and

WHEREAS, certain lots in Hunters Glen Subdivision, as shown on the above-referenced plats, contain sidewalks for the common use and enjoyment of all lot owners of said subdivision, which are located on certain lots, and which are considered to be private property and not public property; and

Knox County, TN Page: 1 of 5
REC'D FOR REC 5/27/2025 2:03 PM
RECORD FEE: $29.00 T20250019589
M. TAX: $0.00 T. TAX: $0.00
202505270062311

WHEREAS, Developer now desires to amend said Restrictive Covenants to provide for certain obligations of the Hunters Glen Homeowners Association, Inc. (HOA) regarding the obligation of maintenance of said sidewalks, as further stated herein; and

NOW THEREFORE, in consideration of the premises and mutual benefits to be derived by all parties concerned, the said Developer does hereby covenant and agree that any and all sidewalks located on any lot in Hunters Glen Subdivision, as shown by map of the same of record in Instrument No. 202202020060223, and map of the same of record in Instrument No. 202401310036791, shall be maintained by said HOA, and not by Knox County, Tennessee. It is the responsibility of said HOA to ensure that all sidewalks are traversable and safe for pedestrian use. Further all lot owners shall be granted an easement of pedestrian access for the common, reasonable use and enjoyment of said sidewalks in said subdivision. This Amendment shall be running with the land and shall be binding upon all subsequent owners of lots in Hunters Glen Subdivision, and shall inure to the benefit of all owners of said lots in said subdivision. NS Partners, LLC, a Tennessee Limited Liability Company, is joining in this Amended Declaration of Restrictions for the purpose of affirming and lending consent, as Builder.

IN WITNESS WHEREOF, the parties have caused this instrument to be executed as of the date first above written.

ORDER OF THE KNOX COUNTY MAYOR
APPOINTING UTILITY BOARD DIRECTOR

IN RE:	)
	)
APPOINTMENT TO THE	)
BOARD OF DIRECTORS OF THE	)
LENOIR CITY UTILITIES BOARD	)

In accordance with T.C.A. § 7-52-118, the Knox County Mayor recommended LeeAnn Foster for appointment to fill a vacancy on the Lenoir City Utilities Board of Directors by the expiration of the term of George Bove. On June 23, 2025, the City Council of Lenoir City approved the Knox County Mayor's recommendation to appoint LeeAnn Foster to the Lenoir City Utilities Board of Directors.

IT IS THEREFORE ORDERED, ADJUDGED AND DECREED, AS FOLLOWS:

(a) That LeeAnn Foster is hereby appointed to the Board of Directors of the Lenoir City Utilities Board to serve a four (4) year term expiring June 30, 2029. Ms. LeeAnn Foster took the oath of office on July 2, 2025, a copy of which is attached as Exhibit A hereto.

(b) That a copy of this Order shall be entered into the minutes of the Knox County Commission as required by T.C.A. § 7-82-307(a)(4), and that a certified copy of this Order shall be provided to the Lenoir City Utilities Board of Directors and the appointee as required by T.C.A. § 7-82-307(a)(4).

(c) That this Order shall be kept by the Knox County Clerk as a permanent record of Knox County, and the Knox County Clerk shall issue certified copies of this Order as shall be requested.

ENTERED this 8th day of July, 2025.

GLENN JACOBS
KNOX COUNTY MAYOR

OATH OF OFFICE

BOARD OF COMMISSIONERS
LENOIR CITY UTILITY BOARD

I, LeeAnn Foster, do solemnly swear that I will perform with fidelity the duties of the office to which I have been appointed and which I am about to assume. I do solemnly swear to support the Constitution of the State of Tennessee and the Constitution of the United States and to faithfully perform the duties of the office of Commissioner for the Lenoir City Utility Board.

LeeAnn B Foster

RE: Lenoir City Utility Board Commissioner Appointment

Dear Mayor Aikens,

I am nominating Mrs. LeeAnn Foster to the Lenoir City Utility Board of Directors for a four-year term, which would expire on June 30, 2029. I feel Mrs. Foster's professional background and dedication to the community makes her more than qualified to serve the Lenoir City Utility Board.

The nominee is:

Mrs. LeeAnn Foster
1344 Charlottesville BLVD
Knoxville, TN 37922

Please do not hesitate to contact me if there are an questions.

Sincerely,

Glenn Jacobs
Knox County Mayor

Mayor Jacobs:

I hope this finds you well. I am in receipt of your correspondence recommending Ms. LeeAnn Foster to serve in the previously held seat of Mr. George Bove effective at the end of the term in June 2025. I am in agreement with your recommendation, and City Council voted on June 23, 2025 to appoint Ms. LeeAnn Foster as the Knox County Representative on the Lenoir City Utilities Board, effective at the expiration of the current term in June 2025 and to continue through June 30, 2029.

If you have any questions, please do not hesitate to contact me.

Thank you,

Tony R. Aikens
Mayor
