Bayou Golf Club  
General Manager  
Bayou Golf Club  
2800 Ted Dudley Dr.  
Texas City, TX

Dear Mr. Boyle

Club Car, Inc. is pleased to have this opportunity to present the following proposal for Bayou Golf Club. I feel confident you will see that it has been designed to meet the needs of your facility and address other issues such as service and product information.

I feel very strongly that our company, products and service is synonymous with the image you strive to project everyday at Bayou Golf Club.

We strive to provide our customers with the most efficient, durable product and a quality unmatched by any golf car manufacturer and have attained international recognition as the leader in our field.

Club Car is the only golf car manufacturer that uses an aluminum frame. Club Car's exclusive frame is rustproof, corrosion resistant and requires no coating even in highly corrosive environments like Texas City. Club Car also has a Powershield which keeps corrosive fertilizers, sand and salt out of the battery compartment area. Due to the very corrosive environment that is near the coast, these features will be of tremendous value to the longevity and performance of your vehicles.

Club Car is proposing this two ways. On the DSE car you can piggy back the Pasadena bid after it is awarded or you can use the Texas BuyBoard Purchase option for both the Precedent and DSE IQ cars.

Thank you for your support of Club Car, Inc. and if I can be of any further assistance please do not hesitate to call me at 936-494-8111.

Sincerely,

*Daugh Walker*
