

**BROAD REACH POWER**

Wednesday, October 5, 2022

Dear Texas City Planning and Zoning Commission,

Broad Reach Power would like to formally request an extension to the permitting period for BRP Zeya BESS LLC property located in Texas City off 34<sup>th</sup> Street.

Broad Reach Power Subdivision – Replat of LOT2A in the Highway 146 Business Park Minor Replat No. 2

Due to supply constraints for larger pieces of equipment for the project site, the project has been delayed from the original timeline. Therefore, permitting requests will not be in place within the 1-year period following the re-zoning approval. Broad Reach Power would like to request an extension to the 1-year period due to the delay in the project timeline.

Please consider this letter as an official request for extension for your consideration. We are happy to provide any further information that you may require.

Best Regards,

*Gemy Thomas*
