We have established a project-specific order of precedence for the inquiry documents -- not only to help establish a baseline for our pricing, but also to maintain technical continuity, to confirm the intent and priorities for the project, and to provide the basis for solving discrepancies within the inquiry and construction documents. Our order of precedence is as follows:

- a. Generocity Services Proposal.
- b. Addenda Issued by Client.
- c. Scope of Work issued by Client within the Invitation to Bid.
- d. Directives and work scope specifically and graphically issued within the Construction Drawings prepared by Client.
- e. Manufacturer's recommendations and Installation Instructions.
- f. Directives, regarding project work scope, specifically within the Project Specifications prepared by the Client.
- g. All Project Specifications prepared by Client that are specifically applicable to the project scope of work and project drawings.
- h. Owner's Engineering Facility Standards that are specifically referred to within this inquiry, and that have been issued as part of the inquiry.
- i. Balance of applicable project bid documents.

SERVICES & MATERIALS PROVIDED BY CLIENT/OWNER

2. Pre-design testing, investigation of soils and other existing structures for engineering purposes.
3. Probing of existing grade in effort to detect subsurface obstructions, obstacles, or hazardous material.

3. If any code interpretation, that may be issued by the Client, his agents, the Municipals Plan Checking Department, Code Enforcement, or Inspections Department, or Inspection Department results in additional more stringent project requirements than those shown graphically on the inquire drawings, or that is specifically named or directed within the inquiry specifications (as they relate to the drawings), the additional cost shall be assessed and passed on to the Client.
