**\*\*EXTERNAL EMAIL\*\***

Jon/Kristin,

I am writing to formally request nomination to the Texas Enterprise Zone Program Application for our proposed project in Texas City.

Union Carbide Corporation (“UCC”) is committed to enhancing our operations within Texas City and plan to invest approximately \$37 million to conduct various plant upgrades aimed at enhancing the sustainability initiatives of this facility. Improvements include the installation of a cooling tower designed to minimize heat emissions and a VAM thermal oxidizer that eliminates methane gas, reducing the plant’s greenhouse gas footprint. Additionally, the plant plans to upgrade safety measures by installing advanced tank overfill sensors, automated pump sensors, and gas detection systems, as well as with the installation of upgraded smoke and fire detectors.

To facilitate the application process, Sam and I have authorized Ryan, LLC to assist with the preparation and submission of all necessary documentation.

Thank you for considering our request and please let us know if there are questions. – Nathan and Sam
