

Proposal for Range Remediation:

Texas City Shooting Range
4000 Bay Street N
Texas City, TX 77592

Scope of Work

Recoil LLC will provide all equipment, materials, and personnel to perform the following scope of work.

Soil will be removed from the pistol ranges to a depth of 2' within the impacted areas and screened on-site. All material will be returned to the berms after screening and graded to match pre-existing conditions.

All soils will be screened using a "Dry" method to help reduce the environmental impact and generation of excess materials. Bullets and fragments > 1/4" will be removed, cleaned, and containerized on-site for recycling. The containerized lead will be weighed, documented, and inventoried before material is shipped off-site. Texas City Shooting Range will then receive a Final Report that includes the Bill of Lading and Certificate of Disposal for all recycled lead.

It is anticipated that all work will be completed within 3-4 days (weather permitting). Recoil LLC employees will work with Texas City range officers to help minimize the impact of daily operations.

Pricing (The proposal is valid for 30 days or otherwise stated)

Item #	Description	Cost
1	Mobilization of Equipment and Personnel	Total Payment \$25,000.00
2	Removal of Lead >1/4" from Ranges	50% to Recoil LLC 50% to Texas City

*Less 50% of the cost of drums, pallets, and trucking

Company History

Recoil LLC was established in 2018 by Matthew Carrera to specialize specifically on outdoor gun range lead remediation. Since its founding, Recoil LLC has recovered and recycled over 9,600,000 pounds of lead from 100+ ranges. The company holds numerous state level contracts across the country (i.e., Florida Fish & Wildlife Commission, Louisiana Wildlife & Fisheries, Alabama Department of Natural Resources, and North Carolina Wildlife Resources Commission).

Matt worked in the Environmental industry for 25 years. During that time, he supervised field operations (removal projects under the USEPA ERRS programs), cleanups, contaminant, decontamination, demolition, and restoration projects. Served in various capacities including Foreman, Site Health and Safety Officer, and Project Supervisor. Also, numerous Safety Audits (both internal and regional) were conducted by the US Environmental Protection Agency and the US Coast Guard.

Safety Policies & Procedures

First, Recoil LLC meets with the Site Safety Officer of every range we work on to discuss the "Scope of Work" as outlined in the contract. All our work is done down range on the berm surface, however, range remediation is not started until the range is shut down and secure (meaning no active shooting while we perform our services). All the dirt work is above surface grade, no below grade excavation is done. We typically go down 2-feet on the berm surface and return the dirt to the berm after we remove the spent lead. All the work is completed with enclosed equipment including a skid steer and a small excavator. The enclosed equipment also minimizes any potential exposure to dust for the crew. All employees use headsets and walkie talkies for communication and safety purposes and to help minimize the need to get out of the equipment. We use a shaker screen machine (typically used to remove/separate rocks) to screen the lead. This machine runs (for the most part) the entire time and is loaded with equipment only. Equipment is turned off and keys are removed prior to working on any piece of equipment owned/rented by Recoil LLC.

Recoil LLC takes the safety and medical monitoring of the employees very seriously! We conduct morning safety meetings to discuss potential hazards, etc., while preparing for operations. Recoil LLC contracts with Concentra to help oversee and provide medical direction. Recoil LLC follows the guidance of the medical professionals at Concentra. With all field employees we do pre-employment physicals, annual physicals, and 6-month blood tests for lead. We start with limiting the exposure to lead by providing enclosed equipment, good hygiene, and require employees to wash their hands after leaving the work area or going on breaks. Special DE-lead soaps and wipes are used as part of our decontamination process. Trucks and equipment are wiped down daily using said soaps and wipes. Trucks (which contain non-cloth seats) are fully decontaminated at least once a week. Personal air monitoring is done every 6 months. Pumps are placed in our enclosed cabs, monitored 10 hours a day, 5-7 days out of the week. Cartridges are then sent off for analysis to make sure exposure is either minimal or nothing.

All employees have and are required to have a current 40-HR HAZWOPER and Lead Awareness/Exposure Training.

Conclusion

We look forward to working with Texas City Shooting Range. If you have any questions or comments regarding this proposal, please feel free to reach out to me at any time.

Thank you for your consideration!

1.0 FIRING RANGE LEAD MAINTENANCE

Metals Treatment Technologies, LLC (MT2) proposes to provide firing range lead maintenance services at the Texas City Municipal Shooting Range. All work will be performed in accordance with applicable Federal, State, and local safety and environmental regulations including US Department of Labor regulations as well as achieving compliance with OSHA, US EPA, State, and NRA and NSSF recommended firing range environmental Best Management Practices (BMPs).

1.1 PROJECT DESCRIPTION

MT2 has estimated soil quantities for processing pending final specifications. MT2 will excavate and process soil from the backstop berms until lead reclamation becomes economically infeasible and/or 80-90% of lead bullets and bullet fragments (measured as weight percent) are removed.

Estimated Project Quantities

Range/Berm	Berm Width (linear ft)	Berm Face Height (ft)	Est. Cut Depth (avg. ft bgs)	Est. Soil Volume (CY)
Pistol Range	132	15	2	149
Rifle Range	190	20	2	281
			Total	430

Site Map

2.0 TECHNICAL APPROACH

THE MT2 LEAD RECLAMATION PROCESS

- **RANGE PROJECT SETUP BY TRAINED & CERTIFIED CREW:** Work crew mobilizes and sets up our specialty equipment, sets up lead dust containment and ventilation; walks range with owner to conduct pre-work planning.
- **WORK PROCESS:** Reclaim lead, restore traps/berms and clean range. ALL work follows written Health and Safety and Work Plans. We are OSHA/EPA Experts with no violations, and we take no shortcuts.
- **JOB COMPLETION:** Finish site work, clean up, containerize, weigh & arrange for transportation of lead drums for recycling and LEGALLY dispose of your lead waste. Optional onsite lead waste treatment with ECOBOND® to ensure you NEVER Generate Hazardous Waste. GUARANTEED! Provide range with detailed log on amount of lead reclaimed and waste.
- **FINAL REPORT** (typically 1-2 weeks later): Prepare final report & important records for range to keep, including: waste manifests, lead reclamation certificates, and other important details to support final project completion to protect you & your range if EPA asks for documentation!

MT2 will minimize the impact on range operations: By implementing our proven methods of containment and staged remedial activities, your project will be effortlessly scheduled and successfully completed with minimal down-time for your range.

BASELINE SERVICES: MT2's technical approach for firing range lead maintenance includes:

- **Project Setup:**
 - Prepare the following project plans, as needed: Work Plan, Health & Safety Plan
 - Complete a site walk-over with Customer representative to identify excavation/processing areas
 - Establish temporary access, site access control, traffic control, and placing appropriate signage
 - Set up of processing area and equipment
- **Berm Excavation:** Excavate soil from the operating backstop berms
 - Excavate estimated depth of 1.0-2.0 feet of soil from the backstop berms or deeper if concentrations of bullets appear economically feasible to recover at deeper depths
- **Lead Reclamation:** Separate lead bullets from the excavated soils

- Separate sand material from bullet and bullet fragments using the EPA-required two-step process
 - MT2's Separation System is comprised of a multi-tiered screen plant to provide gross separation of sand material from bullets and bullet fragments based on size, and MT2's proprietary finishing system to finish the separation based on density
- Remove 90% (weight percent) lead bullets and bullet fragments greater than ¼" as measured in samples collect before and after screening
- **Lead Recycling:** Recycle recovered lead
 - Containerize and securely store recovered lead for shipment, coordinate and ship the clean recovered lead to a licensed lead recycler, providing Customer with necessary documentation to show appropriate recycling
- **Berm Reconstruction:** Re-install processed soils back onto the firing range berms
 - Return screened fines to berm of origin
 - Replace oversize materials to range at a mutually agreed upon location
 - Perform general site cleanup
- **Demobilization & Final Report:** MT2 will develop a range maintenance report to provide the Customer with proper record keeping as recommended by the US EPA, NRA, and NSSF

OPTIONAL SERVICES: If requested, MT2 can provide the following optional services; Section 3.0 provides pricing:

- **Additional Excavation:** MT2 will excavate an additional one (1) foot of depth into the berm for processing. Processed soil will be returned to the berm

3.0 PRICING

MT2 has developed the following pricing for lead maintenance services.

Baseline Firing Range Lead Maintenance Task		QTY	Unit	Price
1	Upfront Payment: Plans, Mobilization, Site Setup and Preparation	1	Lump Sum	\$5,000
2	Lead Maintenance: Excavation, Lead Recovery, Lead Recycling, Replacement of Screened Soil to Berms, and Berm Reconstruction	Up to 430 CY	Lump Sum	\$19,500
3	Final Payment: General site clean-up, Demobilization, and Final Report	-	-	Included
			Total	\$24,500
Estimated Lead Recycling Value				
4	Estimated Client Net Lead Recycling Value	15-20 tons	\$0.62 Per lb	(\$18,600 - \$24,800) ^{1/}
Optional Services ^{2/}				
4	Optional: Additional one (1) foot of excavation for Lead Maintenance services, as outlined above	Up to 215 CY	Lump Sum	\$10,500

^{1/} MT2 owns the recovered lead; MT2 will retain 100% of the proceeds from the recycled lead to offset project costs.

^{2/} Pricing for optional tasks is valid if performed at the time of lead maintenance tasks

3.1 PROJECT APPROACH CLARIFICATIONS AND ASSUMPTIONS

(applicable if marked)

- Pricing based on standard workdays (0700-1700 M-F).
- Stormwater Pollution Prevention Plan (SWPPP) is is not required.
- Customer will provide MT2 access to nearby water source (e.g. hydrant) and pay for water and associated items such as permit/meter/hose as needed. MT2 will utilize a water truck or trailer to provide dust suppression sprinkling as needed during excavation and separation operations.
- Pricing does not include management of live ammunition, only spent rounds. If live ammunition is discovered, it will be left onsite for Customer to manage.
- If applicable MT2 will use appropriately-sized and/or rubber tire equipment and use caution to work around existing range appurtenances with limited access (e.g. backstop berm soils imposed by range knee walls, target systems, overhead baffles, and sidewalls). MT2 will not be responsible for damage to the range, range equipment, or appurtenances should damage occur during processing.
- Measurement of quantities will be based field measurement each day; signed-off daily by MT2 and Customer; and recorded in daily project log
- MT2 will perform dry decontamination of equipment before demobilization.
- MT2 pricing includes: Prevailing Wage Rates Bonding Retainage Liquidated Damages
- Pricing is based on fuel charges not exceeding \$6/gal on diesel and \$5/gal on gasoline based on the U.S. Energy Information Administration (USEIA) conglomerated "U.S." price

(<https://www.eia.gov/petroleum/gasdiesel/listed>). If the USEIA price of fuel is higher than these rates at time of service, MT2 reserves the right to negotiate a fuel surcharge

- MT2 pricing is subject to MT2 review and approval of final contract terms and conditions.
- MT2 pricing valid for 90 days.
- This Agreement is valid for one (1) year from the date the Agreement is last signed by both Parties. This Agreement may be extended upon mutual agreement by Contractor and Customer to allow for optional continued services for up to three (3) years. Should the Customer no longer need this service or not have appropriated funds, this Agreement can be terminated.
- MT2 shall not be responsible for nor have any liability for any damages, injuries or hazards derived from the shooting range operations or from the act of shooting at the shooting range to include but not be limited to bullet or fragment ricochets, or for bullets or shot leaving range containment.

3.2 CLIENT RESPONSIBILITIES:

- Obtain necessary approvals/permits
- Ensure MT2 safe access to the range site
- Complete utility locates and identify any potentially impacted utilities, drainage systems, etc.
- Remove range equipment, vegetation and materials such as timbers, scrap piles, material piles, fencing, concrete slabs, asphalt, and large debris from the lead-impacted soils area
- Protect or remove knee walls; Remove target stands/systems, if applicable
- Customer to provide Upfront Payment prior to MT2 mobilization, if required above, prior to MT2 mobilization. Progress Payment(s) and Final Payment due Net 30 days upon receipt of MT2 invoice. If Customer payment is late, Customer agrees to pay an additional 1.5% per month on the account and all collection fees for any past due amount owed to MT2. MT2 Final Invoice will be submitted to the Customer along with the Range Maintenance Report and Lead Recycling Certificates.
- Replace knee walls, target stands/systems
- Re-seed or re-vegetation of the site, as applicable

3.3 PROJECT SCHEDULE

Project schedule depends on "dry" conditions prior to and during onsite operations. MT2 will coordinate arrival with the Customer to identify a time when dry conditions exist 1-2 weeks prior to arrival and followed by anticipated dry conditions. MT2 can begin this project as early as **first quarter 2026** weather permitting. **Contract work time shall be extended as necessary to allow for completion due to wet weather impacts.**

4.0 MT2 OVERVIEW

Experience you can trust! *MT2 is the #1 and largest nationwide professional firing range lead reclamation, maintenance, cleaning & construction contractor. We offer a wide range of outdoor firing range services from routine range maintenance, cleaning, lead/brass reclamation, and recycling, to trap reconstruction, soil stabilization, all the way to remediation and closure, to best serve your range needs. Our personnel have on average 24 years industry experience – this expertise saves time and money for our customers since there will be no learning curve that may be incurred by less experienced firms. MT2 staff maintain applicable certifications (e.g. OSHA HAZWOPER) and licensing.*

- ✓ **MT2 is the #1 Largest Nationwide Professional Firing Range Lead Reclamation, Maintenance, Cleaning & Construction Contractor Specializing In:**
 - **Lead:** Treatment, Screening & Reclamation to MAXIMIZE Your Lead Value
 - **Environmental:** EPA & OSHA Consulting, Remediation, Soil/Waste Treatment, and Closure
 - **Maintenance:** Soil and Rubber Berms, Traps, Lead Remediation, and Range Improvements
 - **Construction:** Renovation, Design/Build, Improvements, Dismantling/Demolition
- ✓ **MT2 is the Only Nationwide Firing Range Services Provider:** MT2 operates from our network of regional offices and offers full 50 state coverage with OSHA & EPA-certified work teams to provide fast, professional service to fulfill your project needs and schedule. *MT2 has completed over 3,000 firing range projects nationwide*
- ✓ **Lead Removal & Recycling – MT2 exclusively guarantees the highest value for your range lead:** MT2 has performed lead reclamation in all 50 states nationwide to remove and recycle over 15,000,000 lbs. of lead. *To maximize lead recovery, MT2 uses our proprietary lead separation systems to separate lead from soils based on size, and “finish” the process by separating lead from like-size materials based on density. MT2 guarantees to pay the highest percent of LME lead value– we have credited > \$5,600,000 to range owners from lead recycling.*
- ✓ **Lead Recycling Credit Options:** *MT2 guarantees to pay the highest percent of LME lead value. MT2 is committed to getting you the absolute highest value for your range lead so we offer the opportunity to LOCK IN the lead credit value at: 1) The time of contracting or 2) When we arrive onsite and package the lead - You are in control!* When you use our National Service Team to generate maximum lead recycling credit, the Range receives \$\$ in a check, or as credit at the nation’s leading Firing Range Supply Store with preferred pricing. MT2 has developed a strategic alliance with a national distributor of firearms, ammunition and shooting accessories with a 16,000+ catalog of premium firearms & accessories, they have served retail gun shops, major sporting goods stores, gun clubs, shooting ranges and government agencies since 1984; and are a supplier of nearly 100 of the world’s premier shooting industry manufacturers. *You are not limited to using your lead credit for only bullets or targets and we have negotiated highly preferred pricing for you from filters to firearms.*
- ✓ **Exclusive Lead-Contaminated Soil and Waste Treatment:** *MT2 utilizes our exclusive patented and proprietary ECOBOND® technology to treat lead-impacted soils/waste during lead maintenance projects to save an average of 50% on waste disposal or to mitigate potential physical, occupational, and environmental hazards associated with high concentrations of lead in range soils; as well as achieve compliance with OSHA, US EPA, State, and NRA and NSSF recommended firing range environmental Best*

MT2 is the Nation's #1 and largest nationwide professional firing range services provider

- >25 years' experience
- > 3,000 firing range projects nationwide
- Lead Recovery of > 15,000,000 lbs
- MT2 exclusively guarantees to pay the highest percent of LME lead value– we have credited > \$5,600,000 to range owners from lead recycling
- Maintenance, renovation, construction, Design/Build, improvements, soil treatment, and closure
- Successful ECOBOND® treatment of > 10,000,000 tons of lead impacted soils/waste

Management Practices (BMPs). *ECOBOND® is regularly approved and even specified for use by US EPA and state regulatory agencies.*

- ✓ **MT2's Liability Defender Compliance & Performance Promise:** Your choice of a lead reclamation contractor could expose your range to US EPA hazardous waste fines up to \$50,000 per day (penalties double for subsequent violations) and potential criminal charges. *A range owner ALWAYS retains responsibility for ALL lead waste and materials derived from their range even if it is their chosen contractor that improperly handles, transports, or disposes of the lead waste.*
 - When you hire MT2, you can rely on and trust our extensive prior track record as the industry leader. In addition, **we are the only lead reclamation company to guarantee performance** with a \$10,000,000 environmental and lead pollution insurance liability coverage package that protects range owners and managers from claims or occurrences of lead hazard violations, penalties, and cleanup expenses.
- ✓ **Environmental Stewardship Planning:** MT2 has extensive experience assisting range owners understand and meet recommended firing range Best Management Practices including the *development of 100's of site-specific Environmental Stewardship Plans to NSSF, NRA, and EPA guidance standards.*
- ✓ **Firing Range Design and Construction:** With over 20 years' experience, MT2 is a fully integrated professional and technical services firm positioned to design and build projects nationwide for public and private sector clients. Subject: Updated Estimates for Lead Removal
Attachments: MT2 Proposal - Texas City 12.29.25.pdf; Recoil 2025 - TX Texas City Shooting Range - Proposal (Updated).pdf; Jud Judkins 1Priority.png

Good morning sir,

Attached are the updated estimates for the lead removal companies I have been in contact with. 1Priority's Representative Jud Judkins has not returned calls or answered my text asking for a response on his assessment of the range needs. I have attached a screenshot of the text message I sent him in regards to the estimate. Mr. Judkins visited the range on 11-6-2025 @10am and went over the areas that needed their services. After his visit I reached out to see when he would send the estimate and I have gotten no response. There is no bid from the company 1Priority.

If there is anything else needed, please let me know.

Best regards,

Andre P. Roberts
