If the transfer is by operation of law, then a Realty Transfer Certificate with the required supporting documentation should be filed with the local Department of Revenue Office where the property is located. Please see Part 4 for further detailed information.

The Department of Revenue will change the ownership record when this form is fully and accurately completed and signed.

PART 1 – DATE OF TRANSFER (SALE)

This should be the date on which the instrument or deed was executed (the date the instrument or deed was signed by the Seller (Grantor) and Buyer (Grantee) unless otherwise specified in the deed or date of decedent's death). By his/her signature the preparer indicates the information provided is true and correct to the best of his/her knowledge, that the seller (grantor) and the buyer (grantee) have examined the completed Realty Transfer Certificate and agree the information contained within is correct and accurate.

WATER RIGHT DISCLOSURE INFORMATION

The Water Right Disclosure is required by Montana Law. Legislators decided it is important for both the buyer and seller of property to know what the water right situation is — whether any water rights exist, and whether they are being transferred with or withheld from the property.

A water right is a legally protected right to beneficially use water in priority that was obtained in accordance with Montana law. Buyers should be careful to investigate whether water being used on a piece of property amounts to a valid water right, or is merely an unauthorized and unprotectable use of water. In Montana all irrigation water rights must have a valid DNRC water right number to be of record. However, existing rights for livestock and individual domestic, as opposed to municipal uses, based on an instream flow or groundwater source before July 1, 1973, do not need a DNRC water right number. If a water right does not have a DNRC number, and does not fall within the above narrow exception, then there is no water right.

Once the water rights appurtenant to a piece of property have been identified, the investigation of water right should not stop there. Although a water right may have a valid DNRC water right number, it may still be subject to final adjudication in Montana's general stream adjudication. The Montana Water Court is currently adjudicating all Statements of Claim for pre-July 1, 1973, water rights. How good a water right is depends on how it comes out of the adjudication, and how its priority compares to other water rights on a source of supply. You may need to consult an attorney or water rights consultant for an opinion as to the status of that water right. The Montana Water Court can answer questions about the current status of Statements of Claim being adjudicated by calling 1-800-624-3270 (in state) or 406-586-4364.

If there are water rights which have been historically used on the property being transferred, but are not going to be transferred in the sale of land, the deed must specifically exempt (reserve) those water rights from the land sale. Otherwise, if the deed is silent, the water rights automatically pass with the land by operation of law.

The following descriptions may be of some help in determining which box to mark in Part 7, Water Rights Disclosure. If further assistance is needed, you may want to seek legal advice.

CHECK ONLY ONE BOX (on Part 7, Water Rights Disclosure on page 3)

To correctly complete this water right disclosure the seller needs to know if there are water rights in the seller's or previous land owner's name that are on record with the Department of Natural Resources & Conservation (DNRC).

- A. Property is served by a public water supply, i.e., city or water district provides water.** Check this box if the water you use on the land described in this document is provided by a city, town, water users association, or other entity. The seller does not need to file a Water Right Ownership Update form.
- B. Seller has no water rights on record with DNRC to transfer.** Check this box if you do not have any water rights on record with the Department of Natural Resources & Conservation. The seller does not need to file a Water Right Ownership Update form.
- C. Seller is transferring ALL water rights on record with DNRC to the Buyer.** If all of the water rights you (seller) have on record with the DNRC will be transferring to the buyer, check this box. The seller does not need to file a Water Right Ownership Update form. All of the water rights associated with the land described in part 3 will have the owner name automatically updated. The fee for the ownership update must be submitted to the DNRC with the following information: the buyer's name and address, the seller's name and address, the geocode, the water right numbers being transferred, and the amount of the fee. The fee and the filing fee log sheet can be found at the following website, www.dnrc.mt.gov/wrd/water_rts/HB39/. Submit the fee and filing fee log sheet to **OWNERSHIP UPDATE, DNRC, PO BOX 201601, HELENA MT 59620-1601**. DNRC will send an acknowledgement of the ownership update to the new owner.
- D. Seller is dividing or exempting (reserving) water rights.** Seller must file Water Right Update form. If you (seller) have divided the property and water rights or have exempted (reserved) the water rights (not transferred with the land sale), check this box and complete the Certification on page 4. The seller must submit an Ownership Update-Exempt (Reserved) Water Right Form No. 642 and filing fee identifying which water right has been kept by the seller. If a water right has been divided, the seller must file an Ownership Update-Divided Interest Form No. 641 and filing fee explaining how and with whom the water right was divided.

Contact the DNRC for information if water is used on the property other than described above.
