

Attachment B

Zoning Commission Determinations Zone Change #933 – 1229/1239 Poly Drive

Prior to any recommendation to the City Council, the Zoning Commission shall consider the following:

1. *Is the new zoning designed in accordance with the Growth Policy?*

The proposed zone change is consistent with the following goals of the Growth Policy:

- *Predictable land use decisions that are consistent with neighborhood character and land use patterns. (Land Use Element Goal, page 6)*

The proposed zoning would permit the existing multi-family apartment to continue in conformity with the zoning. The development has fit in well with the existing neighborhood for more than 40 years and continued investment in the property will preserve the neighborhood integrity. The proposed zoning, R-60, is consistent with the neighborhood character and land use patterns on Poly Drive.

- *More housing and business choices with each neighborhood. (Land Use Element Goal, page 6)*

The existing zoning is restricted to single-family only residential uses. The proposed zoning will allow the retention of the multi-family apartments on Poly Drive. This will allow the housing choice in this neighborhood to remain diverse.

2. *Is the new zoning designed to secure from fire and other dangers?*

The new zoning requires minimum setbacks, open and landscaped areas and building separations. The new zoning, as do all zoning districts, provides adequate building separations and density limits to provide security from fire and other dangers.

3. *Whether the new zoning will promote public health, public safety and general welfare?*

Public health, safety and general welfare will be promoted by the proposed zoning. The nonconforming zoning discourages investment in the property.

4. *Will the new zoning will facilitate the adequate provision of transportation, water, sewerage, schools, parks and other public requirement?*

Transportation: The proposed zoning should have no impact on transportation.

Water and Sewer: The City provides water and sewer services to the property.

Schools and Parks: There should not be any impact to schools from the proposed zone change.

Fire and Police: The subject property is currently served by the city Public Safety Services.

5. *Will the new zoning provide adequate light and air?*

The proposed zoning provides for sufficient setbacks to allow for adequate separation between structures and adequate light and air.

6. *Will the new zoning effect motorized and non-motorized transportation?*

Traffic generation from the apartments will not change since the maximum number of units on the lot has existed since 1967.

7. *Will the new zoning will promote compatible urban growth?*
The new zoning does promote compatibility with urban growth. The new zoning will allow investment in the property increasing property value over time.
8. *Does the new zoning consider the character of the district and the peculiar suitability of the property for particular uses?*
The proposed zoning does consider the character of district and the suitability of the property for multi-family uses. The location of the property on a minor arterial street near a signal controlled intersection makes it suitable for this use.
9. *Will the new zoning conserve the value of buildings?*
The existing multi-family apartment value will be conserved by the new zoning.
10. *Will the new zoning encourage the most appropriate use of land throughout the City of Billings?*
The proposed zoning will permit an existing housing type in the neighborhood to continue and is the most appropriate use of the property.
