

ORDINANCE NO. 17-\_\_\_\_\_

AN ORDINANCE OF THE CITY OF BILLINGS, PROVIDING THAT THE BILLINGS, MONTANA CITY CODE BE AMENDED BY REVISING SECTIONS 17-101, 17-103, 17-104, 17-105, 17-106, 17-107; REDEFINING RESIDENTIAL, COMMERCIAL AND INDUSTRIAL ZONES FOR NOISE AND WAIVER PURPOSES; ALLOWING FOUR NOISE WAIVERS PER TWELVE MONTH PERIOD; AND PROVIDING THAT ANY VIOLATION IS A MUNICIPAL INFRACTION AND RETAINING OTHER ADDITIONAL LEGAL REMEDIES SUCH AS ABATEMENT OR INJUNCTION.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY BILLINGS THAT:

**Section 1.** That Section 17-101, of the Billings, Montana City Code is amended so that such section shall read as follows:

**Sec. 17-101. - Definitions.**

As used in this chapter, unless the context otherwise requires, the following words and phrases shall have the meanings ascribed to them in this section:

*Ambient noise* is the noise which exists at a point of measurement in the absence of the sound emitted by the source being measured, being the total effect of all other sounds coming from near and far.

*dB(A)* means sound levels in decibels measured on an "A" scale of a standard sound level meter having characteristics defined by the American National Standards Institute, Publication S.4-1970.

*Decibel.* Sound pressure level in decibels is a logarithmic unit used to express the magnitude of sound pressure with respect to a reference sound pressure. It is defined as twenty (20) times the logarithm to the base ten (10) of the ratio of the sound pressure to the reference sound pressure. By international standards, the reference sound pressure is  $2 \times 10^{-5}$  newtons/meter squared. By example, a doubling of sound pressure, at any magnitude, will result in a six (6) decibel increase in sound pressure level; a ten-fold increase will result in a 20-decibel increase in sound pressure level.

*Emergency work* is unanticipated work, maintenance, or construction required to restore property to a safe condition following a public calamity, meteorological event, accident, or any other event which interrupts essential services or utilities, endangers persons or property, or adversely affects infrastructure.

Residential area includes all residential zones within the City:

~~Commercial-central.~~

*"Industrial"* includes all industrial zones within the City:

~~Industrial-light;~~

~~Industrial-heavy.~~

**Section 2:** That section 17-103 of the Billings, Montana City Code is amended so that such section shall read as follows:

**Sec. 17-103. - Noise limitations.**

- (a) The maximum permissible decibel limits on noise emitting from sources in residential, commercial and industrial districts are as follows.
- b) Noise will be measured at a distance of twenty-five (25) feet from the source or at the boundary of the lot, whichever is the greater distance. Noise radiating from

properties or buildings in excess of the dB(A) established for the districts and times in Table I herewith constitutes prima facie evidence that such noise is a public nuisance. This includes noise from such activities as production, processing, cleaning, servicing, testing and repair of vehicles, materials, goods or products. Noises caused by home or building repair, construction, or grounds maintenance are excluded as provided in Section 17-104.

Table I—Limitations

Districts	7:00 a.m.—8:00 p.m.	8:00 p.m.—7:00 a.m.
Residential	65 dB(A)	55 dB(A)
<del>Light c</del> Commercial	80 dB(A)	60 dB(A)
<del>Heavy commercial</del>	<del>85 dB(A)</del>	<del>70 dB(A)</del>
Industrial	90 dB(A)	80 dB(A)

(c) At boundaries between zones, the lower of the dB(A) level shall be applicable.

**Section 3:** That Section 17-104 of the Billings, Montana City Code is amended with new language so that such section shall read as follows:

**Sec. 17-104 Hours of Authorized Outdoor Events**

**Section 5:** That Section 17-105 of the Billings, Montana City Code is renumbered and amended so that such section shall read as follows:

**Sec. 17-1065. - Measurement of noise.**

For the purpose of determining and classifying any noise as excessive or unusually loud as prohibited by this chapter, the following test measurements and requirements shall be applied:

- (1) The noise shall be measured on a sound level meter meeting current American National Standards Institute standards, operated on the "A" weighted scale, or other noise measuring instrument proven sufficiently reliable by commonly accepted scientific standards and admissible in a court of law.
- (2) No noise source shall constitute a violation of this chapter unless the noise source is at least ten (10) dB(A) above the ambient noise at the time of measurement.
- (3) In all sound level measurements, consideration shall be given to the effect of the ambient noise level created by the encompassing noise of the environment from all sources at the time of the sound level measurement.

**Section 6:** That Section 17-105 of the Billings, Montana City Code is renumbered and amended so that such section shall read as follows:

**Sec. 17-1076. - Waiver.**

- (a) Any person may apply to the city administrator or designee for a waiver from the provisions of this chapter. The city administrator shall designate waiver application and review procedures and application fees by administrative order. The city administrator may designate representatives from police, parks, building, and engineering to review and grant waivers under this section by administrative order. Each day of an event shall require a separate approved waiver. Except for public construction projects, no more than four waivers may be granted involving the same location within twelve (12) months. Events occurring in the Central Business District (CBD) and East Billings Urban Renewal District (EBURD) shall be exempt from this limit
- (b) Waiver review procedures established by the city shall include but not be limited to consideration of the following criteria:
- (1) Whether the noise would endanger the public health, safety, or welfare;
  - (2) That compliance with the provisions of this chapter from which a waiver is sought would cause serious hardship without producing equal or greater benefit to the public;
  - (3) The time of day the noise will occur;
  - (4) The duration of the noise;
  - (5) The loudness of the noise relative to the maximum permissible sound levels as set forth in this chapter;
  - (6) Whether the noise is continuous or intermittent;
  - (7) The distance of proposed activity from residential housing or other noise-sensitive properties;
  - (8) Whether the proposed activity is within or outside of the Central Business District (CBD) or East Billings Urban Renewal District (EBURD), and whether the proposed activity encourages the promotion of entertainment and nightlife in an area where residential housing is sparse;
  - (9) Any other factor that is reasonably related to the impact of the noise on the health, safety and welfare of the community, the degree of hardship that may result from the enforcement of the provisions of this article, and the benefit to the public of granting such a waiver.
- (c) Any waiver application may be granted or denied by the city. Any applicant denied a waiver by the city may appeal the denial to the city council. An appeal must be presented to the City Administrator for inclusion on the next available City Council Regular agenda at least thirty (30) calendar days before the event is scheduled to occur.
