

## **CITY VARIANCE # 1272 DETERMINATIONS**

The Board of Adjustment shall make the following determinations prior to granting a variance:

- 1. That special conditions and circumstances exist which are peculiar to the land, the lot or something inherent in the land which causes the hardship, and which are not applicable to other lands in the same district;**

There are not any special circumstances that exist in this situation other than the lot is less than required for current zoning requirements and the structures were built in 1910, before the current zoning was in place.

- 2. That a literal interpretation of the provisions of this Chapter would deprive the applicant of rights commonly enjoyed by other tracts in the same district;**

The subject property is in a subdivision where most development occurred in the early 1900s. There are at least 18 properties in the immediate neighborhood with less than the required lot area for multiple dwelling units. Some have received variance approval and some have not. Similar variances have been granted in the neighborhood. Denying the variance would deprive the applicant of rights commonly enjoyed by other tracts in the same district.

- 3. That granting the variance requested will not confer on the applicant any special privilege that is denied by this Chapter to other land in the same district;**

The variance will not allow the applicant any special privileges. Similar variances have been granted in the area and other properties are developed with smaller lot area without the benefit of a zoning variance.

- 4. That the granting of the variance will be in harmony with the general purpose and intent of this Chapter and with the Growth Policy;**

The variance is in harmony with the general purpose and intent of the zoning regulations and the growth policy.

- 5. In granting any variance, the Board may prescribe appropriate conditions and safeguards in conformity with this Chapter. Violation of such conditions and safeguards, when made a part of the terms upon which the variance is granted, shall be deemed a violation of this Chapter;**

Staff is recommending the following conditions for the reduction in minimum lot size variance request:

1. The variance is to decrease the minimum lot size from 7,000 square feet to 6,201 square feet for an existing duplex dwelling and from a 15-foot front setback (8<sup>th</sup> St West) to allow a minimum front setback of 8 feet (proposed Lots 2B and 2A) in a Residential 6,000 (R-60) zone. No other variance is intended or implied with this approval.
2. The variance is limited to east 87.5 feet of Lot 2, Block 1 of Algeo Subdivision, generally located at 1420 and 1424 8th St. W.
3. Any future re-construction of the existing structure will require compliance with other all other zoning regulations and city ordinances that apply at the time of re-construction.
4. These conditions of variance approval shall run with the land described in this authorization and shall apply to all current and subsequent owners, operators, managers, lease holders, heirs and assigns.

- 6. The Board shall prescribe a time limit within which the action for which the variance is required shall be begun or completed, or both. Failure to begin or complete such action within the time limit set shall void the variance; and**

No time limit is required since no construction is planned at this time.

- 7. Under no circumstances shall the Board grant a variance to allow a use not permissible under the terms of this Chapter in the district involved. A variance shall not be a grant of special privilege inconsistent with limitations placed upon other property in the district.**

The granting of this variance would not allow a use that is not allowed in the zoning district – two-family dwellings are allowed in the R-60 zone.
