

Project Re:Code

Mission Statement – To create a zoning code that allows for efficient and intelligent growth while meeting the goals of the community today and into tomorrow. As the Steering Committee, working groups, City & County staff review, revise and draft new zoning regulations, we will adhere to the following Guiding Principles:

- **CLARIFY AND SIMPLIFY** - All new regulations will be written in Plain English to maximize readers' ability to find what they need, understand what they find, and use what they find to meet their needs.
- **REGULATE WHAT MATTERS** - The regulations will have a clear alignment with community goals today while allowing for changing goals in the future..
- **PRESERVE AND PROTECT THE RIGHTS OF OWNERS AND RESIDENTS** - The regulations will recognize and incorporate clear and well defined processes that uphold property rights and access to housing choices.
- **PREVENT CONFLICTS** - The regulations will be internally consistent and will not create direct or un-reconcilable conflicts.
- **OPTIONS AND CONTEXT** - The regulations will provide a range of site development options with clear criteria and guidelines for allowing alternatives to future development as well as changes to existing neighborhoods as the community's goals change.
- **MAINTAIN WHAT WE CARE ABOUT** - The regulations will encourage stability of existing neighborhoods while allowing for changes over time.
- **FILL THE VOID** – The regulations will consider and include land uses and combinations of land uses that have been overlooked or not considered in the current code and methods for accommodating new use options.
- **PROSPERITY** – The regulations will serve to support the community's need and desire to remain regionally competitive in the recruitment of businesses, expansion of existing business, and private investment in the economy, all to promote job creation.
