

POLICY COORDINATING COMMITTEE AGENDA

January 15, 2019 MEETING TIME: 12:00 p.m.
316 N 26 ST, ROOM 3101
Billings, Montana 59101
(3RD FLOOR, STILLWATER BUILDING)

1. Call to Order/Pledge to the American Flag: PCC Chairman
2. **PUBLIC COMMENT PERIOD** – As required (minute maximum per person.) *Any member of the public may be heard on any subject that is not on the agenda. The Policy Coordinating Committee will not take any action on these items at this time, but could choose to add an item to the next meeting’s agenda for discussion.*
 - a. **Comments on items not on the agenda and requests to add items to future agendas.**
 - b. **Comments on items on the non-public agenda items.**
3. Approval of the minutes of: October 30, 2018
4. Old Business
 - a. MOTION/RECOMMENDATION TO PCC. 2017-2021 TRANSPORTATION IMPROVEMENT PLAN, (TIP), Scott Walker, Transportation Coordinator, presenting.
5. New Business
6. Other Business
7. Future Agenda Items
8. Adjournment

POLICY COORDINATING COMMITTEE

MINUTES –OCTOBER 30, 2018

TO BE APPROVED BY A MOTION NOVEMBER 20, 2018

Members Present: Chairman John Ostlund, Board of County Commissioners; Bill Cole, Mayor, City of Billings; Stefan Streeter, Director, MDT District Office; President Darell Tunnickliff, Yellowstone County Planning Board

Staff Present: Scott Walker, Transportation Planner, Planning & Community Services Department; Lora Mattox, Transportation Planner

Others Present: Denis Pitman, Board of County Commissioners; Tim Miller, Yellowstone County Public Works; Kurtis Schnieber, MDT-Billings; Alan Woodmansey, FHWA; Tobin Novasio, Lockwood Schools; Pat White; Lyle Gabrian, Rimrock Neighborhoods Task Force; Rod Nelson, MDT

Conference Call: Katie Potts, MDT Planning, Kenn Wineger, MDT Planning

1. Call to Order: Commissioner Ostlund called the meeting to order at 12:05 p.m., Board of County Commissioners Board Room, 316 N 26 St, Room 310, Stillwater Building, and welcomed everyone in attendance.

2. Communication from the Audience: Comments on items not on the agenda and requests to add items to future agendas. Comments on items on the nonpublic agenda items. The Rimrock Neighborhoods Task Force submitted a letter regarding the task forces comments on the 2018 Long Range Transportation Plan. Chairman Ostlund recommends that the project for the feasibility/alignment study for a Molt Road connection start with the local governments. Stefan Streeter states that at this time, MDT does not have funds to commit to such a project and that the Environmental Analysis would be required during the identification of alignment possibilities. Bill Cole states that this will need to be an internal discussion with staff on how to proceed as well as to review community priorities.

3. Minutes of September 11, 2018

Motion

Darell Tunnickliff made a motion and it was seconded by Bill Cole to approve the minutes of September 11, 2018. Correction recommended by Katie Potts for the correction of Ryan Hammon's last name spelling. The motion carried with a unanimous voice vote.

5. New Business:

a. Motion. 2018 Transportation Plan Update Scott Walker, Transportation Planner, presenting.

Transportation Coordinator Scott Walker opened this agenda item with some background on the process of the development of the plan. He named the participants of the oversight

POLICY COORDINATING COMMITTEE

MINUTES –OCTOBER 30, 2018

TO BE APPROVED BY A MOTION NOVEMBER 20, 2018

committee and introduced Andy Daleiden of Kittelson & Associates as the primary consultant.

Andy provided an overview of the Transportation Plan with an overview of the presentation below.

What is a long range transportation plan, (LRTP): The plan outlines the long range vision for the transportation system and identifies transportation improvements for a 20-year period, (2040).

Why-federally required to update it? Metropolitan areas with populations over 50,000 are federally required to update their LRTP every 4 years. Updating helps Billings define its vision for the planning effort for future projects. Identifies financial aspects and potential revenue stream for projects.

Who is Involved?: Includes Federal Highway Administration; MDT; MPO- City of Billings and Yellowstone County, MET, Lockwood, Resource Agencies and the Public, Consultant DOWL, Consultant Kittelson & Associates

Elements: 14 Chapters. Introduction, Public & Interagency Involvement; Goals, Objectives, Performance Measure, Targets; Existing and Future land use, Description of Multimodal Transportation System; Safety and Security; Project Programming and conformity.

Public and Interagency Involvement: website: www.billingslrtp.com; Steering Committee; Resource agencies; Youth engagement; Open houses and online survey, Media coordination and social media, E-mail updates

Study area: Urban area, Lockwood, elements of Yellowstone County

LRTP Goals: Safety; Functional Integrity and Efficiency; Prioritized Improvements; Environment; Public Transit; Economic Vitality

Land Use-Population Growth (2-17-2040): West end growth anticipated

Land Use-Employment Growth, (2017-2040). Identified growth in Lockwood, largely due to the TEDD

Functional Classification Map for MPO-similar to 2014 LRTP with a few refinements

Draft Project List-Types/Categories

→**Committed Projects**-Transportation Improvement Program, (TIP); Capital Improvement Plan, (CIP); Years 2018-2028. Fiscal Constraint of LRTP

→**Recommended Projects:** not programmed; Upcoming projects for the TIP and CIP. Years 2029-2040. Fiscal Constraint of LRTP

POLICY COORDINATING COMMITTEE

MINUTES –OCTOBER 30, 2018

TO BE APPROVED BY A MOTION NOVEMBER 20, 2018

→**Illustrative Projects:** Visionary; Not expected to occur within 2040 horizon
33 roadway; 30 intersection. (Programmed) Includes several annual programs, \$343 million.

Draft Project List—Roadway and Intersection Projects

120 Total Projects Identified: 58 Roadway, 62 Intersection projects. Committed Projects: 33 Roadway; 30 Intersection; Includes several annual programs (\$343 million)

Draft Project List/Congestion Management Projects: 28 total projects. Committed projects: 8 Congestion Management (\$13 million)

Draft Project List/Pedestrian Bicycle, &* Multi-use Trail Projects: Pedestrian: 49 total projects; Bicycle Lane Projects: 54 total projects; Bicycle Boulevard Projects: 65 total projects

Draft Project List/Multi-Use Trail Projects: 272 Total Projects: 49-Pedestrian, 54-Bicycle Lane; 65 Bicycle Boulevard, 108 Multi-use trail.

→**Committed Projects:** 8 Pedestrian, 2 Bike Lane, 9 Multi-use trail (\$19 million)

Draft Projects and Strategies-Other Modes: Transit, Truck, Rail

Revenue & Project Cost Analysis-Fiscal Constraint. Estimated Revenue-\$900 M; Estimated C+R Projects-\$800M. Difference: \$100M Remaining

Discussion

Bill Cole asked how the future funding allocations were identified? Andy states that they looked at historic amounts as well as project funding to determine the projected revenue. Darell Tunnicliff asked that when the bypass is completed that this will open up the urban funds for future projects? Andy states that yes, and that during the update of the next LRTP, a more in-depth discussion on projects and community priorities will need to happen. Stefan Streeter states that the Billings MDT District has made the Billings Bypass the priority project, so other projects have been delayed. The Billings District is made up of 12 counties and priority areas can fluctuate based on conditions, use, etc. Bill Cole asks what the estimate is for completion of the Billings Bypass? Stefan Streeter states that the construction is being done in phases and the hope is that the project will be complete in 6-7 years. Darell Tunnicliff thanks Stefan and MDT for the continued collaboration.

Motion

A motion was made by Bill Cole and seconded by Darell Tunnicliff to approve the 2018 Long Range Transportation Plan Update as presented by staff. The motion carried with a unanimous voice vote.

POLICY COORDINATING COMMITTEE

MINUTES –OCTOBER 30, 2018

TO BE APPROVED BY A MOTION NOVEMBER 20, 2018

Future Agenda Items: No items were announced.

ADJOURNMENT: 12:47 pm

**METROPOLITAN TRANSPORTATION PLANNING PROCESS
SELF-CERTIFICATION**

The Billings Metropolitan Planning Organization for the Billings, Montana, urbanized area hereby certifies that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

- I. 49 U.S.C. Section 5303 and 23 U.S.C. 134 and CFR 450.334;
- II. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C 2000d-1) and 49 CFR, Part 21;
- III. Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) regarding the involvement of disadvantaged business enterprises in the FHWA and the FTA funded projects (49 CFR part 26);
- IV. The provision of the Americans With Disabilities Act of 1990 (42U.S.C. 12101 *et seq.*) and the U. S. DOT implementing regulation (49 CFR Parts 27, 37 and 38);
- V. The provisions of 49 CFR part 20 regarding restrictions on influencing certain activities; and
- VI. Sections 174 and 176(c) and (d) of the Clean Air Act as amended (42 U.S.C. 7504, 7506(c) and (d)), 40 CFR, part 93.
- VII. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex or age in employment or business opportunity.
- VIII. 23 CFR, part 230, regarding the implementation of an equal employment opportunity on Federal & Federal-aid highway construction contracts.
- IX. The Older Americans Act as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in program or projects receiving Federal financial assistance.
- X. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender.
- XI. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR, part 27 regarding discrimination against individuals with disabilities.

Billings Montana Metropolitan Organization

Signature/Date: _____

Darryl Tunnicliff, President, Yellowstone County Board of Planning

INTRODUCTION

PREFACE

The Yellowstone County Board of Planning (YCBP) is the metropolitan planning organization (MPO) for the Billings metropolitan planning area. The Transportation Improvement Program (TIP) is the funding mechanism for transportation projects requesting federal dollars in the Billings urbanized area. All MPO's are required by the current Federal Highway Bill SAFETEA LU to produce a TIP and update it at least every four years. SAFETEA LU was signed into law by President Bush in 2005, and extended by President Obama through June 2012. The act and extensions authorized highway, highway safety, transit, and other surface transportation programs.

On July 6, 2012 Moving Ahead for Progress in the 21st Century (MAP-21) was signed into law. The law provides federal program funding through the end of Federal Fiscal Year 2014 and brings program structure changes that will be fully addressed in future long range transportation plans and TIPs. The Fixing America's Surface Transportation Act (FAST Act) was signed into law on December 4, 2015, and authorizes federal transportation funding for federal fiscal years 2016 through 2020. This document contains a list of all surface transportation projects requesting the use of federal funds. Local jurisdictions working through the Billings MPO's Policy Coordinating Committee (PCC) determine how the area's transportation system is developed and expanded.

PURPOSE OF THE TIP

The TIP is a short-range program of highway and transit projects in the Billings metropolitan planning area and is prepared by YCBP staff in cooperation with state and local agencies. The basic purpose of the TIP is to provide the mechanism for scheduling federal funds for surface transportation projects, indicating regional priorities, and demonstrating a short range transportation vision for the area. A secondary purpose of the TIP is to provide information about other transportation projects in the planning area that are exempt from the TIP approval process such as projects that do not utilize federal funds.

THE TIP PROCESS

The development of the TIP document is the responsibility of the Billings MPO and provides an opportunity for local officials to determine priorities and spending for federal highway and transit funds. Any transportation project located in the Billings metropolitan planning area must be included in the TIP prior to receiving federal funds. TIP projects must be included in the area's 20-year Transportation Plan, and are proposed for the TIP by local elected officials, transit operating officials, or state highway agencies. The TIP is reviewed and endorsed annually by the Billings MPO's PCC and may be modified through the TIP amendment process. The PCC includes a Billings City Council representative, the Chair of the Yellowstone County Commission, the President of the Yellowstone County Board of Planning and the District Administrator of the Montana Department of Transportation. After PCC endorsement, the TIP is submitted to the Montana Department of Transportation (MDT) and to the Federal Highway Administration and Federal Transit Administration for federal review of the document and approval of conformity and fiscal constraint determination.

FEDERAL REGULATIONS

The Transportation Improvement Program (TIP) is a required planning program for federally assisted highway and transit improvements for the Billings metropolitan planning area and the Montana Department of Transportation (MDT) over a five-year period. The principal focus is given to the first two years of the program, the Biennial Element, which contains projects that could be implemented between October 1, 2016 – September 30, 2018 (FFY 2017 & 2018).

The TIP is prepared annually and is in conformance with 23 CFR, Part 450 324-330.

FINANCIAL RESOURCES

A range of federal funding sources is available to the Billings planning area for the purposes of funding transportation system improvements. Following is a list of those sources which, when available to the Billings area, are shown in the Transportation Improvement Program. Project implementation is indicated as expected to occur during the pertinent program year. Billings has had a favorable history of receiving federal earmarks as reflected in the table below.

BILLINGS FEDERAL EARMARK HISTORY –2017 through 2021

Project	Earmark
Billings Bypass	\$22,445,600
Zimmerman Trail	\$ 6,242,553

FUNDING SOURCES

- Surface Transportation Program Urban (STPU)
- Surface Transportation Program Primary (STPP)
- National Highway System (NHS)
- Interstate Maintenance (IM)
- Highway-Railway Crossing Program (RRX)
- Highway Safety Improvement Program (HSIP)
- Bridge Replacement and Rehabilitation Program (HBRRP)
- Urban Pavement Preservation (UPP)
- Transportation Alternatives Program (TAP)
- State Funded Construction (SFC)
- Congestion Mitigation Air Quality (CMAQ)
- Montana Air Congestion Initiative (MACI)
- FTA Section 5339 (Formerly Sec. 3)
- FTA Section 5307 (Formerly Sec. 9)
- FTA Section 5310 (Formerly Sec. 16)
- Congressionally Directed Funds (MT, NCPD, DEMO)

AIR QUALITY CONSISTENCY

Billings was designated as a non-attainment area for both Total Suspended Particulates (TSP) and Carbon Monoxide (CO) on March 3, 1978, (Federal Register, Vol. 44, No. 150, page 45421, August 2, 1979). As such, Billings was required to prepare a Transportation Control Plan (TCP). The TCP identified strategies to mitigate the TSP and CO problems. The TCP is the Billings element of Montana's State Implementation Plan (SIP). The TIP is required to be, and is, consistent with the TCP as discussed in the Billings conformity statement.

In 1987 the standard for TSP was dropped, and a new standard for particulate matter under 10 microns in size (PM - 10) was adopted (7/1/87 at 52 FR 24854). The Environmental Protection Agency (EPA), has also adopted the PM 2.5 standard and Billings is considered to be in compliance with both of these new standards.

CONFORMITY OF THE BILLINGS AREA TRANSPORTATION IMPROVEMENT PROGRAM WITH THE 1990 CLEAN AIR ACT

A portion of the Billings Urbanized Area, (Billings), was designated non-attainment for carbon monoxide (CO) on 3/3/78 (43 FR 8962) with a secondary classification of "unclassified". EPA approved the Billings CO Control Plan on 1/16/86 (51 FR 2397). Billings was then re-designated as "Not Classified" on 11/6/91 (56 FR 56697). The area meets the qualifications of the Clean Air Act (CAA) for classification as an attainment area for ozone.

The Billings "not classified" carbon monoxide (CO) nonattainment area was re-designated by the Environmental Protection Agency (EPA) to attainment for the CO National Ambient Air Quality Standards (NAAQS) with an approved limited maintenance plan effective April 22, 2002. Under a CO limited maintenance plan, the motor vehicle emissions budgeted may be treated as essentially non-constraining for the length of the maintenance period because growth would need to exceed reasonable expectations to create a violation of the NAAQS for transportation-related CO. Therefore conformity demonstration using regional emissions analysis is not required; however, individual projects may still be required to conduct "hot spot" analysis.

As demonstrated in the following sections, the Transportation Improvement Program (TIP) satisfactorily meets the requirements established by the 1990 amendments to the CAA regarding the conformity of TIP's.

- The most recent estimates of CO mobile source emissions have been developed by the Analytical Services Section, Montana Department of Environmental Quality and are based upon development and transportation data provided by the Yellowstone County Board of Planning.
- EPA has approved the second 10-year carbon monoxide (CO) maintenance plan for the Billings area. This second 10-year CO maintenance plan meets the requirements of CAA section 175A(b) and is also a Limited Maintenance Plan (as was the maintenance plan with the original 2002 EPA approval.) The second 10-year CO maintenance plan continues to correctly reflect the Limited Maintenance Plan transportation conformity requirements. The EPA-approved Billings second 10-year CO maintenance plan is available at the Planning office.

TRANSPORTATION CONTROL MEASURES

Specific Transportation Control Measures have not been proposed for Billings recently, however, the SIP completed in 1986 included the widening of Exposition Drive (Main Street) and the signalization at Main Street and First Avenue North. Both of these projects were completed in 1983.

There are no Transportation Control Measures (TCM's) in the State Implementation Plan (SIP) and therefore there are no specific TCM's recommended for implementation in this TIP.

TIP CONFORMITY

As a prerequisite for receiving Federal-aid transportation funds through the TIP, a determination must be made that the proposed transportation projects do not cause or contribute to violations of the carbon monoxide ambient air quality standards. An analysis, which meets the EPA conformity determination regulations specified in 40 CFR Part 51 was performed in conjunction with the development of the Billings Urban Area 2014 Long Range Transportation Plan. The plan was found to conform at the federal level November 10, 2014. The analysis appears in Section 4, pages 4-24 through 4-27 of the Plan document and is titled "Air Quality/Conformity". As the transportation projects in the TIP are contained in the Transportation Plan's analysis, a separate analysis for the TIP is not necessary.

There are no new regionally significant projects in this 2017-2021 Billings Urban Area TIP.

40 CFR part 93, subpart A - §93.126 Highway and Transit projects included in subpart A are exempt from the requirement to determine conformity. Such projects may proceed toward implementation even in the absence of a conforming transportation plan and TIP. A project will not be exempt if the MPO in consultation with other agencies, the EPA, FHWA, or FTA concur that it has potentially adverse emissions impacts for any reason.

REGIONALLY SIGNIFICANT PROJECTS

(Table 1): REGIONALLY SIGNIFICANT PROJECTS

Project	Scope	Comments
Billings Bypass (aka North Bypass)	Location/Environmental	New Construction

ENERGY CONSERVATION CONSIDERATIONS

Energy impact analyses have been conducted as a part of the urban transportation planning process. In addition, increased attention has been given to energy conservation and contingency planning on a project specific basis.

As part of the 2014 update of the Billings Urban Area Transportation Plan, energy conservation was considered in each of the proposed alternative transportation networks.

The City of Billings has a well-developed transit system, and ride-sharing opportunities have been examined. Transit facilities and highway system proposals will continue to be considered in a comprehensive method through the adopted Transportation Planning process.

The detailed energy conservation analysis of specific projects has been conducted for each of the major highway construction projects recommended in the 2009 update of the Billings Urban Area Transportation Plan.

PROGRAMMING OF NON-URBAN SYSTEM, FEDERAL AID AND STATE FUNDING

Proposed projects involving federal-aid funding, other than urban system funding, that are proposed within existing rights-of-way and which are determined to not significantly change traffic patterns, may not be considered to be of appropriate scale to warrant a modification to a currently valid TIP.

When there is knowledge of such projects prior to the annual adoption of the TIP, each project will be included in the program. Generally, projects falling within this category are those which serve to preserve and maintain the integrity of the existing plant or facility such as: overlays to improve or maintain surface conditions; bridge expansion joints and deck repairs necessary to maintain structural and surface sufficiency; slope repair necessary to maintain drainage adequacy; etc. Projects of this nature will be identified by MDT with appropriate justification when requesting program approval of federal highway funds. Local urban area officials will be advised by the Department through the local planning process of the Department's intent to expend federal funds (non-urban system) for such improvements in their area.

Performance Measures

Performance measures have historically been used in Transportation Planning; the Moving Ahead for Progress in the 21st Century Act (MAP-21) transformed the Federal-aid highway program by establishing requirements for performance management to promote the most efficient investment of Federal transportation funds. The Fixing America's Surface Transportation (FAST) Act continues these requirements to increase the accountability and transparency of this program and to support improved investment decisions through a focus on performance outcomes for national transportation goals. Establishing performance measures encourage Metropolitan Planning Organizations (MPOs) and State Transportation Departments to maximize the allocation of resources in their respective areas, as well as monitor the performance of the system for eventual use of future resources.

The Billings MPO supports the State targets for applicable performance measures for safety, pavement and bridge condition, system performance, freight, and CMAQ, and will support the Billings MET Transit for associated transit performance measures. Thus, the MPO will plan and program projects that contribute toward relevant targets for each performance measure.

Safety

The goal of safety performance measures is to reduce the number of traffic fatalities and serious injuries in the public right of way. Interstate Maintenance, National Highway, Highway Safety Improvement Program, Surface Transportation Program Off System, Secondary, and State Funded Construction funding sources support projects with the intent to improve safety measures.

Pavement and Bridge Condition

Pavement and bridge condition performance measures aim to maintain roadway and bridge infrastructure in such a way it remains functional and in good repair. Pavement and Bridge Condition are impacted most by Interstate Maintenance, National Highway, Bridge Program, and Urban Pavement Preservation funding sources. Projects included for funding under these sources were selected in part due to their contribution towards pavement and bridge condition targets.

System Performance

System performance measures exist to improve the efficiency of the overall transportation system, while helping to reduce congestion and travel times and increase reliability of the system. These measures are related to Congestion Mitigation and Air Quality, Surface Transportation Program Urban, and Transportation Alternatives funding sources. Projects included in these funding sources will contribute to meeting state targets for system performance.

Freight

The purpose of freight performance measures is to improve the national freight network, while providing access to trade and enhancing the capacity of communities to participate in, and support regional economic development. Freight performance measures are most strongly influenced by the National Highway Freight Program Federal funding source. Project selected for National Highways funding will contribute to improving the national freight network and meeting state targets.

Air Quality

The collection of data regarding air quality performance measures helps to evaluate projects to ensure they are protecting and enhancing the health of the natural environment. These performance measures may be impacted by Congestion Mitigation and Air Quality, Montana Air and Congestion Initiative Discretionary Program, Transportation Alternatives, and Federal Transit Administration funding sources and associated projects that provide support for non-motorized transportation projects and programming that enhances air quality and encourages sustainable transportation options.

CN Estimates Include CE Costs

ADVANCEMENT OF PROJECTS

It is mutually agreed that the first two years of this program is the best estimate of the project phase that will be undertaken during the Biennial timeframe. Occasionally, projects advance through the design process faster than anticipated. An approved project may accelerate into the next logical phase providing that the funding source does not change from that, which was initially identified in the TIP. Federal, State, and local governments have agreed that a TIP revision is not required in order to accelerate a specific project phase, so long as other planned work is not unduly delayed. The priorities with regard to the FTA Section 5307 projects in the Biennial Element are: 1) Operating Assistance.

- The priorities with regard to the FTA Section 5310 projects in the Biennial Element are: 1) Replacement vehicles for MET Special Transit.
- The priorities with regard to the FTA Section 5339 projects are: 1) Assistance for bus/bus facilities

PRIVATE ENTERPRISE PARTICIPATION

Both the City of Billings and Yellowstone County have locally developed policies and procedures to examine opportunities for private sector participation in the provision of transit services and related support services. The City of Billings adopted resolution 86-15346 which states said policy and provides a process for implementation. The Council approved that resolution on July 7, 1986. Further, a Private Transportation Enterprise Participation Policy (PEP) and implementing procedures were adopted by the MPO's Technical Advisory Committee on April 24, 1986; by the Policy Coordinating Committee on May 8, 1986; and by the Yellowstone County Planning Board on May 13, 1986.

The City's MET Transit Department has examined various opportunities for private sector provision of services. The Department utilizes private tire firms to handle parts of servicing of the tire inventory. The Department also contracts with various private firms for radiator repair, air compressor rebuilds, as well as glass, bodywork on the vehicles, and occasional component rebuilds.

The required TIP documentation related to the PEP process is as follows:

- a) The City of Billings MET Transit System solicited the possible interest or involvement of the private sector in providing leased tires for the MET Transit fleet of coaches. In the spring of 1993, 1996, 2001, 2006 and 2011, and 2016 a Request for Bids was sent to potentially interested private vendors and was also advertised in a local newspaper and a national transit journal. Bids are evaluated based on cost and ability to perform. Three firms requested bid packages. The current contract for the tire lease is in effect through August 31, 2017 with four additional one-year renewal options.
- b) No other proposals were received from the private sector.
- c) There are no known impediments to holding service out for competition.
- d) There are no known private sector complaints.

The Yellowstone County-City of Billings Planning Division has and will continue to follow its adopted policy and procedures regarding private sector participation. The mailing list of private providers has been updated and used to provide notice about TAC and PCC meetings, including those that deal with the Unified Planning Work Program, (UPWP), projects and process as well as the TIP process. Through these mailings the private providers are aware of the development of the proposed transit capital and operating projects as well as the proposed paratransit capital projects for the five years covered in the TIP.

FEDERAL TRANSIT ADMINISTRATION PROJECTS

The Federal Transit Act funded projects, including FTA Section 5339 grant projects, (Biennial Element) are intended to insure the continued efficient operation, maintenance and administration of the MET Transit system fleet and facilities, including meeting federal regulations such as the Americans with Disabilities Act (ADA). The operating grants are for the fiscal years of July 1, 2016 to June 30, 2018 and the Section 5339 grant projects will permit Bus and Bus Facilities projects in Fiscal Years 2017-2018 through 2019-2020.

The vehicle purchases for MET Special Transit are projects to enable the City to continue providing the required specialized demand-responsive paratransit service for citizens who are unable to use the MET Transit System due to their disabling conditions. The projects to purchase vehicles for other entities will address some of the transportation needs of developmentally impaired or disabled residents.
