

Draft 2020-2024 TIP New Project Information Sheet

The projects listed below are new to the Draft 2020-2024 Transportation Improvement Program (TIP). All other projects listed in the 2020-2024 TIP have been listed in previous programs.

TIP Format Changes:

The TIP is now formatted by funding source, previous versions of the document were organized by yearly tabs. This allows us to better track the life of a project, particularly when early phases (PE, for example) no longer fall within the time frame of the TIP. There is an additional tab to track projects with three or more funding sources; this tab shows all phases (PE, RW, IC, CN) and funding sources. You will still see the project on each individual funding source tab as well.

NH Funding Tab:

UPN 9022 1st Ave North – Billings

- Project Split for 1ST AVENUE NORTH - BILLINGS (UPN 9022). The original project (from Division Street to N. 9th Street) has been split into three segments.
 - SOW remains the same for all segments – major reconstruction to address poor pavement conditions and substandard curb, gutter, and sidewalk.
 - Excess lane widths eliminated from the travel lanes will be used to create additional sidewalk width and/or boulevard width
 - Bulb-outs are proposed at numerous intersections to provide traffic calming and shorten the distance pedestrians must navigate to cross 1st Ave.
- Project 9022 has been shortened to the intersection of N. 9th St. to the RR Xing located between N. 22nd and N. 20th.
- \$14 million (all phases)

UPN 9880 1st Ave N – RR Xing To Broadway

- Reconstruction Project on 1st Ave. N between the railroad crossing (near N 20th Street) and Broadway.
- \$7.8 million (all phases)

UPN 9881 1st Ave N – Broadway to Division

- Reconstruction Project on 1st Ave N. between Division Street and Broadway.
- \$7.2 million (all phases)

National Highway Freight Program Funding Tab:

UPN 7972 Yellowstone River Bridges

- A new funding source added to this project
- \$19.8 million

Railroad Crossing Funding Tab:

UPN 9827 Steffes Rd – Billings

- New project added to program
- Upgrade of existing highway-rail grade crossing signal equipment
- \$225,000

Highway Safety Improvement Program Funding Tab:

UPN 9383 Rimrock & 62nd St W (Roundabout)

- Project transitioned from the OT Study into the PE phase

Bridge Program Funding Tab:

UPN 9720 Shiloh Rd/I-90 Bridge

- New project added to program
- Bridge rehabilitation project for a structure on Shiloh Rd. over Interstate 90. Rehab work is necessary on the deck, superstructure, and substructure
- \$3.0 million

Montana Air Quality Congestion Funding Tab:

UPN 8717 Main Street Billings

- New funding source added to the CN phase of the project
- \$1.1 million

UPN 9198 Mossmain Interchange – West Billings Inch (the limits of this project are not all within the MPO Planning Boundary)

- New funding source added to the CN phase of the project
- \$400,000
