

TRANSPORTATION ADVISORY COMMITTEE AGENDA
VIRTUAL VIDEO CONFERENCE
December 17, 2020 MEETING TIME: 10:30 a.m.

1. Call to Order: Scott Walker, Transportation Coordinator

2. **PUBLIC COMMENT PERIOD** – As required (3-minute maximum per person.) *Any member of the public may be heard on any subject that is not on the agenda. The Transportation Advisory Committee will not take any action on non-agenda items at this time, but could choose to add an item to the next meeting’s agenda for discussion.*

Due to COVID-19, the meeting will be held through a virtual platform. The information for accessing the meeting is found below.

Public comment will be taken only during the Public Comment periods as indicated on the agenda. Comments may be sent to the Committee via email before 5:00 PM on Wednesday, December 16, 2020. All emails received prior to this time will be read into the record for public comments.

The Public may call in during specific Public Comment periods at (406) 237-6165. All callers will be in a queued system and are asked to remain on hold and be patient. Calls will be taken in the order in which they are received. Callers will be restricted to 3 minutes of testimony as is customary. Live coverage can be viewed:

<https://www.facebook.com/Billings-Planning-Community-Services-Department-1738982159659260/?ref=bookmarks>
 - a. **Comments on items not on the agenda and requests to add items to future agendas.**

 - b. **Comments on items non-public and public hearing agenda items.**

3. Motion. Approval of the minutes o July 23, 2020

4. Old Business
 - a. Motion. Billings Urban Area Transportation Improvement Program, (TIP), Federal Fiscal Years 2020-2024, Amendment I, Scott Walker, Transportation Coordinator, presenting.

5. New Business

6. Other Business
 - a. Discussion. Functional Classification and Urban System update. Grand Avenue to 54th Street West. Scott Walker, Transportation Coordinator, presenting.

 - b. Discussion. Urban Fund Priorities. Lora Mattox, Transportation Planner.

 - c. Public Transit Agency Safety Plan Safety Targets. MET Transit. Rusty Logan, MET Transit Manager

7. Future Agenda Items

8. Adjournment

Transportation Advisory Committee (TAC)

**Billings Technical Advisory Committee
 Virtual Video Conference Meeting 10:30 AM
 DRAFT Meeting Minutes—JULY 23, 2020**

1. Call the meeting to order:

Transportation Coordinator Scott Walker called the meeting to order at 10:30 a.m. Due to the COVID-19 health concerns, the format of the Transportation Advisory Committee meeting will be held in a virtual videoconferencing environment. The normal hearing room on the 1st Floor at 2825 3rd Ave North, (Miller Building), will be closed during the meeting and no one will be attending this hearing in person.

Attendance

Committee Members			
Scott Walker, Transportation Coord., Chairman, T.A.C.	X	Wyeth Friday, Director, Planning and Community Services	X
Tim Miller, Director YC Public Works Dept.	--	Mike Black, Civil Engineer, YC Public Works Dept.	-
Debi Meling, City Engineer City of Billings Engineering	-	Erin Claunch, Traffic Engineer City of Billings Engineering	-
Rusty Logan, Manager, MET Transit	X	Clark Snyder, Environmental Health RiverStone Health	--
Katie Potts Urban Planning Section, MDT	X	Carol Strizich, Supervisor Urban Planning Section, MDT	--
Kenn Winegar, Urban Planning Section, MDT		Alan Woodmansey, Federal Highways	
Kurtis Schnieber, MDT	x	Ryan Hammon, FHWA	X

Others Participating

Monica Plecker, Planning Division Manager; Tammy Deines, Planning Clerk; Lora Mattox Transportation Planner

2. Public Comment:—Public comment will be taken only during the Public Comment periods as indicated on the agenda. Comments may be sent to Board via email before 1:00 PM on Wednesday, July 22, 2020. All emails received prior to this time will be read into the record. The Public may call in during specific Public Comment periods at **(406) 237-6165**. All callers will be in a queued system and are asked to remain on hold and be patient. Calls will be taken in the order in which they are received. Callers will be restricted to 3 minutes of testimony as is customary. Live coverage can be viewed:

<https://www.facebook.com/Billings-Planning-Community-Services-Department-1738982159659260/?ref=bookmarks>

Scott Walker opened the public comment portion of the meeting and asked if there was anyone wishing to make a comment at this time. There was no public comment.

3. Minutes of June 4, 2020.

Motion

Director Wyeth Friday made a motion and it was seconded by Erin Claunch to approve the minutes of May 14, 2020 as submitted. The motion carried with a unanimous voice vote.

4. **Old Business:** There is no Old Business.

5. **New Business:**

5a. **Motion/Recommendation. 2021 Unified Planning Work Program. Scott Walker, Transportation Planning Coordinator, presenting.**

BACKGROUND

The City-County Planning Division is presenting the 2021 Unified Planning Work Program (UPWP) for the Transportation Advisory Committee for review and recommendation to the Billings Policy Coordinating Committee (PCC).

The UPWP is primarily for programming the federal dollars that Billings receives from the Federal Highway Administration (FHWA) for transportation planning and the Federal Transit Administration (FTA) for transit (MET) planning. These funds are passed through the Montana Department of Transportation (MDT). All transportation-planning activities are included in the UPWP so that it represents a comprehensive document for the urban transportation planning program.

This UPWP proposes planning activities for Federal Fiscal Year 2021, which runs from October 1, 2020, through September 30, 2021. This UPWP corresponds directly with the Planning Division's annual work plan. The significant changes in this year's program include an update to the Community Transportation Safety Plan, an update to the Billings Safe Routes to School Plan, and initiation of the North Bypass Corridor Study. The Transit section is Chapter II of the UPWP. The document is consistent with past programs in its content and format.

Approval of the 2021 UPWP allows the City to access Federal funds for transportation planning in the community. Federal and local funds are combined to provide most of the planning work done by the Planning Division for the City and the County. If the UPWP is not approved, there would be a significant loss of resources for community planning and the community's ability to manage transportation planning projects and programs would be severely limited.

The breakdown of funding sources for the FY 2021 UPWP is estimated below:

\$250,000 Planning Dept. Fee Revenue (City of Billings)

\$75,000 Planning Dept. Fee Revenue (Yellowstone County)

\$503,000 Yellowstone County Planning Levy

\$1,828,800 Federal Planning (PL) Allocation
 \$2,656,800 Total Program Funding (UPWP)

RECOMMENDATION

Staff recommends the Transportation Advisory Committee forward a recommendation of approval of the 2021 UPWP to the City/County Planning Board and the City and County Governing bodies.

FUNDING SUMMARY FEDERAL FISCAL YEAR 2021			
WORK ELEMENT	FUNDING SOURCES FY 2021		
	PL	LOCAL	EST. COST

2020 Project Priorities

- **Bike/Scooter Share Impact Study**-this study is under contract and projected for completion this fiscal year.
- **North Bypass Corridor Study**-this study will move forward in 2021
- **5th Avenue Corridor Feasibility Study**-This study is under contract with Sanderson Stewart
- **Complete Inner Belt Loop Corridor Study**-governing body review is complete with PCC approval on Tuesday, July 21, 2020.
- **Complete Wayfinding Signage Plan**-Completed
- **Traffic Counter Replacement**
- **Downtown Traffic Circulation - Public Participation Phase.** This has been waylaid due to COVID-19. Projected to be completed in in FY21 UPWP.
- **County Growth Policy Update** –continued to FY21 UPWP

2021 Priorities

- **Complete Bike/Scooter Share Impact Study**
- **North Bypass Corridor Study**
- **Complete 5th Ave. Corridor Feasibility Study**
- **Community Transportation Safety Plan**
- **Safe Routes to School Plan Update**
- **Complete Downtown Traffic Circulation - Public Participation**
- **County Growth Policy Update**

Discussion

Scott Walker called for questions and discussion. Kurtis Schnieber, MDT asked about the North Bypass Corridor Study. Scott Walker explained this study would focus on organized growth, consideration of infrastructure other than the road itself, and uses from a Planning perspective. He stated he feel this study is timely as this project will change the look and feel of this part of the community. (Johnson Lane to Highway 212).

Transit Section-Rusty Logan, MET Transit Manager

The Transit section of the UPWP is also structured into separate elements with specific activities and functions outlined within each element. As with PL funds, reimbursement of funds occurs quarterly; amounts will differ for each quarter based upon the activities undertaken and eligible hours spent per element. Federal funding is provided via FTA Section 5303 for multimodal transportation planning in metropolitan areas. Funds are apportioned via a formula including factors such as urbanized area population. Local match is provided through local transportation mills, transit fares, advertising revenue, and other applicable sources.

Transit Funding Overview

2021 Funding Detail

WORK ELEMENT	FUNDING SOURCES FY 2021			STAFF HOURS
	LOCAL	FTA	EST. COST	
44.21.01 Administration	\$5,743	\$22,973	\$28,716	353.40

44.24.02 Current Service	\$14,734	\$58,935	\$73,669	950.40
44.25.01 T.I.P.	\$2,034	\$8,138	\$10,172	125.18
44.26.15 ADA Service	\$14,064	\$56,257	\$70,321	907.20
TOTAL	\$58,481	\$233,926	\$292,407	3362.18

2020 to 2021 Funding Comparison

WORK ELEMENT	FY21 EST. COST	FY 2020 EST. COST
44.21.01 Administration	\$28,716	\$31,235
44.24.01 Future Service	\$94,529	\$70,857
44.24.02 Current Service	\$73,669	\$72,397
44.25.01 T.I.P.	\$10,172	\$10,636
44.26.15 ADA Service	\$70,321	\$65,466
TOTAL	\$292,407	\$250,591

Transit 2021 Highlights

- **Policy updates in response to 2019 FTA Triennial Review process.**
Financial and Procurement Policies, Public Participation Plan, updated Title VI non-discrimination plan, updated Equal Employment Opportunity policy and plan
- **Community Wide Transit Survey:** complete online; ran mid-December to January 31 - 627 total response. 446 responses received were from City of Billings residents; when considering a population of approximately 120,000, this means the survey results were well within a 95% confidence level with a 5% margin of error. The results are being utilized in both future service evaluation as well as current service enhancements.
- **Operational analysis modeling future transit:** Operational analysis for future transit including assessment of existing costs, development of real-world cost model based upon employee hours and potential hours on street, development of various proposals for high frequency service including potential 15-minute peak service. Expanded agreements include updated service with the Adult Resource Alliance (increased eligibility to all seniors for medical rides) revised and simplified agreement with State of Montana DD services.
- **Developed contingencies for COVID**
- **Significant technology updates** Automated Passenger Counters, Automated Voice Annunciation and Infotainment Systems, On board WIFI, Electronic Fare Collection, Paratransit Software update, Cloud-Based Planning Software

- **Significant revision to the Human Services Transportation Coordination Plan**
- **Expanded and modified agreements for increased service to senior/disability pop.**
Expanded agreements include updated service with the Adult Resource Alliance (increased eligibility to all seniors for medical rides) revised and simplified agreement with State of Montana DD services.

Transit 2021 Highlights

- **Public Transit Agency Safety Plan-** significantly increased focus on training and safety assurance; training course and lot
- **Transit Development Plan/Strategic Plan considering both fixed-route and paratransit** -development of more in-depth process to foster communication between City departments in the overall planning landscape as well as guide transit related routing decisions in regards to development and community feedback/demand. Hope to create a more holistic approach to transit design as well as provide an increased level of input regarding overall city development
- **Master Marketing Plan/Strategy** - – assessing new means of marketing, further integration with online and social media, explore outside of traditional avenues, increase community engagement
- **Grant development and application**
- **Fixed-route overhaul and designated stop assessment** - new vehicles to support this – pushing for high enough frequency during peaks that customers will not need to check the schedule
- **Continue investigation of service expansion** - started exploratory assessments of Lockwood area and it's cost effectiveness, need further evaluation of existing infrastructure and ability to actually operate a vehicle in that area
- **Continue developing partnerships via Coordination group and other venues** - Alliance, State of Montana, Montana State University

Discussion

Scott Walker called for questions and discussion. Ryan Hammon asked about Grant development and applications. Rusty Logan explained they have continued to be able to equalize funding to replace aging vehicles and buses to bring the fleet up to date. They are considering green technology grants. Ryan Hammon spoke to the need of ensuring eligibility under that funding category. Rusty Logan concurred and said MET is exploring feasibility.

Public Comment: No public calls were received.

Review Schedule

TAC	7/16	Recommendation Memo due 7/9
Planning Board #1	7/28	Presentation/Public Hearing
Planning Board #2	8/11	Recommendation
City Council Work Session	8/3	
City Council	8/10	Recommendation
Commissioners Discussion	8/3	
Commissioners	8/4	Recommendation
PCC	8/18	Final Action

Motion

Scott Walker made a motion and Wyeth Friday seconded the motion to forward a recommendation of approval of the 2021 Unified Planning Work Program as presented by staff.

Discussion

Scott Walker called for discussion on the motion. There was none. He noted a July 22, 2020 email from Debi Meling stating appointment of proxy vote in favor of the 2021 Unified Planning Work Program as presented by staff.

Member	Y/N	Member	Y/N
Scott Walker Transportation Coord. Chairman,	x	Wyeth Friday , Director, Planning and Community Services	x
Tim Miller , Director Yellowstone County Public Works	-	Mike Black , Civil Engineer Yellowstone County Public Works	-
Debi Meling , City Engineer City of Billings Engineering	x	Erin Claunch, Traffic Engineer City of Billings Engineering	x
Rusty Logan , MET Transit Manager	x	Clark Snyder , Environmental Health RiverStone Health	- -

	-	-	Kenn Winegar Urban Planning Section, MDT	-	-
Kurtis Schnieber, MDT	x		Ryan Hammon, FHWA	x	

The motion carried with a unanimous voice vote.

6. Other Business

6a. Update/Discussion. MET Transit, Rusty Logan

Rusty stated MET complies with the governor’s order and wearing of masks is mandatory on buses. Funds were received to purchase and distribute masks. Riders have been compliant. MET is working to get a feel for what the community will do with school openings this fall to determine student ridership.

6b. Katy Potts, MDT Planning introduced Parker Osterlow, Planner, who is newly employed at MDT Planning, and Committee Members welcomed him.

ADJOURNMENT

TO BE APPROVED BY A MOTION AT THE NEXT SCHEDULED MEETING

Introduction

Preface

The Yellowstone County Board of Planning (YCBP) is the Metropolitan Planning Organization, (MPO), for the Billings metropolitan planning area. The Transportation Improvement Program, (TIP), is the funding mechanism for transportation projects requesting federal dollars in the Billings urbanized area. All MPO's are required by the current Federal Highway Bill SAFETEA LU to produce a TIP and update it at least every four years. SAFETEA LU was the first Transportation Bill that required a TIP. The bill was signed into law by President Bush in 2005, and extended by President Obama through June 2012. The act and extensions authorized highway, highway safety, transit, and other surface transportation programs.

On July 6, 2012 Moving Ahead for Progress in the 21st Century (MAP-21) was signed into law. The law provides federal program funding through the end of Federal Fiscal Year 2014 and brings program structure changes that will be fully addressed in future long range transportation plans and TIPs. The Fixing America's Surface Transportation Act (FAST Act) was signed into law on December 4, 2015, and authorizes federal transportation funding for federal fiscal years 2016 through 2020. This document contains a list of all surface transportation projects requesting the use of federal funds. Local jurisdictions working through the Billings MPO's Policy Coordinating Committee (PCC) determine how the area's transportation system is developed and expanded.

About the Transportation Improvement Program

The TIP is a short-range program of highway and transit projects in the Billings metropolitan planning area and is prepared by YCBP staff in cooperation with state and local agencies. The basic purpose of the TIP is to provide the mechanism for scheduling federal funds for surface transportation projects, indicating regional priorities, and demonstrating a short range transportation vision for the area. A secondary purpose of the TIP is to provide information about other transportation projects in the planning area that are exempt from the TIP approval process such as projects that do not utilize federal funds.

TIP Process and Development

The development of the TIP document is the responsibility of the Billings MPO and provides an opportunity for local officials to determine priorities and spending for federal highway and transit funds. Any transportation project located in the Billings metropolitan planning area must be included in the TIP prior to receiving federal funds. TIP projects must be included in the area's 20-year Transportation Plan, and are proposed for the TIP by local elected officials, transit operating officials, or state highway agencies. The TIP is reviewed and endorsed annually by the Billings MPO's Policy Coordinating Committee, (PCC), and may be modified through the TIP amendment process. The PCC includes a Billings City Council representative, the Chair of the Yellowstone County Commission, the President of the Yellowstone County Board of Planning and the District Administrator of the Montana Department of Transportation. After PCC endorsement, the TIP is submitted to the Montana Department of Transportation (MDT) and to the Federal Highway Administration and Federal Transit Administration for federal review of the document and approval of conformity and fiscal constraint determination.

Federal Regulations

The Transportation Improvement Program (TIP) is a required planning program for federally assisted highway and transit improvements for the Billings metropolitan planning area and the Montana Department of Transportation (MDT) over a five-year period. The principal focus is given to the first two years of the program, the Biennial Element, which contains projects that could be implemented between October 1, 2020 –

Billings FFY 2020-2024 Transportation Improvement Program Amd 1

September 30, 2024 (FFY 2020 & 2024). The TIP is prepared annually and is in conformance with 23 CFR, Part 450 324-330.

Financial Resources

A range of federal funding sources is available to the Billings planning area for the purposes of funding transportation system improvements. Following is a list of those sources which, when available to the Billings area, are shown in the Transportation Improvement Program. Project implementation is indicated as expected to occur during the pertinent program year. Billings has had a favorable history of receiving federal earmarks as reflected in the table below.

BILLINGS FEDERAL EARMARK HISTORY –2017 through 2021

Project	Earmark
Billings Bypass	\$22,445,600
Zimmerman Trail	\$ 6,242,553

Funding Sources

- Surface Transportation Program Urban (STPU)
- Surface Transportation Program Primary (STPP)
- National Highway System (NHS)
- Interstate Maintenance (IM)
- Highway-Railway Crossing Program (RRX)
- Highway Safety Improvement Program (HSIP)
- Bridge Replacement and Rehabilitation Program (HBRRP)
- Urban Pavement Preservation (UPP)
- Transportation Alternatives Program (TAP)
- State Funded Construction (SFC)
- Congestion Mitigation Air Quality (CMAQ)
- Montana Air Congestion Initiative (MACI)
- FTA Section 5339 (Formerly Sec. 3)
- FTA Section 5307 (Formerly Sec. 9)
- FTA Section 5310 (Formerly Sec. 16)
- Congressionally Directed Funds (MT, NCPD, DEMO)

AIR QUALITY CONSISTENCY

Billings was designated as a non-attainment area for both Total Suspended Particulates (TSP) and Carbon Monoxide (CO) on March 3, 1978, (Federal Register, Vol. 44, No. 150, page 45421, August 2, 1979). As such, Billings was required to prepare a Transportation Control Plan (TCP). The TCP identified strategies to mitigate the TSP and CO problems. The TCP is the Billings element of Montana's State Implementation Plan (SIP). The TIP is required to be, and is, consistent with the TCP as discussed in the Billings conformity statement.

In 1987 the standard for TSP was dropped, and a new standard for particulate matter under 10 microns in size (PM - 10) was adopted (7/1/87 at 52 FR 24854). The Environmental Protection Agency (EPA), has also adopted the PM 2.5 standard and Billings is considered to be in compliance with both of these new standards.

Conformity of the Billings Area Transportation Improvement Program with the 1990 Clean Air Act

A portion of the Billings Urbanized Area, (Billings), was designated non-attainment for carbon monoxide (CO) on 3/3/78 (43 FR 8962) with a secondary classification of "unclassified". EPA approved the Billings CO Control Plan on 1/16/86 (51 FR 2397). Billings was then re-designated as "Not Classified" on 11/6/91 (56 FR 56697). The area meets the qualifications of the Clean Air Act (CAA) for classification as an attainment area for ozone.

The Billings "not classified" carbon monoxide (CO) nonattainment area was re-designated by the Environmental Protection Agency (EPA) to attainment for the CO National Ambient Air Quality Standards (NAAQS) with an approved limited maintenance plan effective April 22, 2002. Under a CO limited maintenance plan, the motor vehicle emissions budgeted may be treated as essentially non-constraining for the length of the maintenance period because growth would need to exceed reasonable expectations to create a violation of the NAAQS for transportation-related CO. Therefore conformity demonstration using regional emissions analysis is not required; however, individual projects may still be required to conduct "hot spot" analysis.

As demonstrated in the following sections, the Transportation Improvement Program (TIP) satisfactorily meets the requirements established by the 1990 amendments to the CAA regarding the conformity of TIP's.

- The most recent estimates of CO mobile source emissions have been developed by the Analytical Services Section, Montana Department of Environmental Quality and are based upon development and transportation data provided by the Yellowstone County Board of Planning.
- EPA has approved the second 10-year carbon monoxide (CO) maintenance plan for the Billings area. This second 10-year CO maintenance plan meets the requirements of CAA section 175A (b) and is also a Limited Maintenance Plan (as was the maintenance plan with the original 2002 EPA approval.) The second 10-year CO maintenance plan continues to correctly reflect the Limited Maintenance Plan transportation conformity requirements. The EPA-approved Billings second 10-year CO maintenance plan is available at the Planning office.

Billings FFY 2020-2024 Transportation Improvement Program Amd 1

Transportation Control Measures

Specific Transportation Control Measures have not been proposed for Billings recently, however, the SIP completed in 1986 included the widening of Exposition Drive (Main Street) and the signalization at Main Street and First Avenue North. Both of these projects were completed in 1983.

There are no Transportation Control Measures (TCM's) in the State Implementation Plan (SIP) and therefore there are no specific TCM's recommended for implementation in this TIP.

TIP Conformity

As a prerequisite for receiving Federal-aid transportation funds through the TIP, a determination must be made that the proposed transportation projects do not cause or contribute to violations of the carbon monoxide ambient air quality standards. An analysis, which meets the EPA conformity determination regulations specified in 40 CFR Part 51 was performed in conjunction with the development of the Billings Urban Area 2018 Long Range Transportation Plan. The plan discusses conformity analysis in Chapter 14, pages 172-174. As the transportation projects in the TIP are contained in the Transportation Plan's analysis, a separate analysis for the TIP is not necessary.

Regionally Significant Projects

There are no new regionally significant projects in this 2017-2021 Billings Urban Area TIP.

40 CFR part 93, subpart A - §93.126 Highway and Transit projects included in subpart A are exempt from the requirement to determine conformity. Such projects may proceed toward implementation even in the absence of a conforming transportation plan and TIP. A project will not be exempt if the MPO in consultation with other agencies, the EPA, FHWA, or FTA concur that it has potentially adverse emissions impacts for any reason.

REGIONALLY SIGNIFICANT PROJECT (2020-2024)

Project	Scope	Comments
Billings Bypass (aka North Bypass)	Location/Environmental	New Construction

Energy Conservation Considerations

Energy impact analyses have been conducted as a part of the urban transportation planning process. In addition, increased attention has been given to energy conservation and contingency planning on a project specific basis.

As part of the 2018 update of the Billings Urban Area Transportation Plan, energy conservation was considered in each of the proposed alternative transportation networks.

Billings FFY 2020-2024 Transportation Improvement Program Amd 1

The City of Billings has a well-developed transit system, and ride-sharing opportunities have been examined. Transit facilities and highway system proposals will continue to be considered in a comprehensive method through the adopted Transportation Planning process.

The detailed energy conservation analysis of specific projects has been conducted for each of the major highway construction projects recommended in the 2018 update of the Billings Urban Area Transportation Plan.

PROGRAMMING OF NON-URBAN SYSTEM, FEDERAL AID, AND STATE FUNDING

Proposed projects involving federal-aid funding, other than urban system funding, that are proposed within existing rights-of-way and which are determined to not significantly change traffic patterns, may not be considered to be of appropriate scale to warrant a modification to a currently valid TIP.

When there is knowledge of such projects prior to the annual adoption of the TIP, each project will be included in the program. Generally, projects falling within this category are those which serve to preserve and maintain the integrity of the existing plant or facility such as: overlays to improve or maintain surface conditions; bridge expansion joints and deck repairs necessary to maintain structural and surface sufficiency; slope repair necessary to maintain drainage adequacy; etc. Projects of this nature will be identified by MDT with appropriate justification when requesting program approval of federal highway funds. Local urban area officials will be advised by the Department through the local planning process of the Department's intent to expend federal funds (non-urban system) for such improvements in their area.

Performance Measures

Performance measures have historically been used in Transportation Planning; the Moving Ahead for Progress in the 21st Century Act, (MAP-21), transformed the Federal-aid highway program by establishing requirements for performance management to promote the most efficient investment of Federal transportation funds. The Fixing America's Surface Transportation, (FAST), Act continues these requirements to increase the accountability and transparency of this program and to support improved investment decisions through a focus on performance outcomes for national transportation goals. Establishing performance measures encourage Metropolitan Planning Organizations (MPOs) and State Transportation Departments to maximize the allocation of resources in their respective areas, as well as monitor the performance of the system for eventual use of future resources.

The Billings MPO supports the State targets for applicable performance measures for safety, pavement and bridge condition, system performance, freight, and CMAQ, and will support the Billings MET Transit for associated transit performance measures. Thus, the MPO will plan and program projects that contribute toward relevant targets for each performance measure.

Safety

The goal of safety performance measures is to reduce the number of traffic fatalities and serious injuries in the public right of way. Interstate Maintenance, National Highway, Highway Safety

Billings FFY 2020-2024 Transportation Improvement Program Amd 1

Improvement Program, Surface Transportation Program Off-System, Secondary, and State Funded Construction funding sources support projects with the intent to improve safety measures.

Pavement and Bridge Condition

Pavement and bridge condition performance measures aim to maintain roadway and bridge infrastructure in such a way it remains functional and in good repair. Pavement and Bridge Condition are impacted most by Interstate Maintenance, National Highway, Bridge Program, and Urban Pavement Preservation funding sources. Projects included for funding under these sources were selected in part due to their contribution towards pavement and bridge condition targets.

System Performance

System performance measures exist to improve the efficiency of the overall transportation system, while helping to reduce congestion and travel times and increase reliability of the system. These measures are related to Congestion Mitigation and Air Quality, Surface Transportation Program Urban, and Transportation Alternatives funding sources. Projects included in these funding sources will contribute to meeting state targets for system performance.

FREIGHT-NATIONAL HIGHWAY FREIGHT PROGRAM (NHFP)*

The purpose of freight performance measures is to improve the national freight network, while providing access to trade and enhancing the capacity of communities to participate in, and support regional economic development. Freight performance measures are most strongly influenced by the National Highway Freight Program Federal funding source. Project selected for National Highways funding will contribute to improving the national freight network and meeting state targets.

National Highway Freight Program (NHFP)*

Funding shown in thousands of dollars

NHFP TOTAL			0.0	0.0	8,500.0	11,326.8	0.0	0.0	0.0	2,660.8	17,166.0	19,826.8

Funding projections are based on best available information and are subject to change given current funding uncertainties and unknown impacts of future congressional or other federal actions. Federal program funding availability may impact the scheduling of projects. Funding will be subject to the obligation limitation set by the annual appropriations process.

*NHFP is funded by the federal National Highway Performance Program.

Congestion Mitigation and Air Quality (CMAQ)

The collection of data regarding air quality performance measures helps to evaluate projects to ensure they are protecting and enhancing the health of the natural environment. These performance measures may be impacted by Congestion Mitigation and Air Quality, Montana Air and Congestion Initiative Discretionary Program, Transportation Alternatives, and Federal Transit Administration funding sources and associated projects that provide support for non-motorized transportation projects and programming that enhances air quality and encourages sustainable transportation options.

Advancement of Projects

It is mutually agreed that the first two years of this program is the best estimate of the project phase that will be undertaken during the Biennial timeframe. Occasionally, projects advance through the design process faster than anticipated. An approved project may accelerate into the next logical phase providing that the funding source does not change from that, which was initially identified in the TIP. Federal, State, and local governments have agreed that a TIP revision is not required in order to accelerate a specific project phase, so long as other planned work is not unduly delayed. The priorities with regard to the FTA Section 5307 projects in the Biennial Element are:

1) Operating Assistance.

- The priorities with regard to the FTA Section 5310 projects in the Biennial Element are: 1) Replacement vehicles for MET Special Transit.
- The priorities with regard to the FTA Section 5339 projects are: 1) Assistance for bus/bus facilities

PRIVATE ENTERPRISE PARTICIPATION

Both the City of Billings and Yellowstone County have locally developed policies and procedures to examine opportunities for private sector participation in the provision of transit services and related support services. The City of Billings adopted resolution 86-15346 which states said policy and provides a process for implementation. The Council approved that resolution on July 7, 1986. Further, a Private Transportation Enterprise Participation Policy (PEP) and implementing procedures were adopted by the MPO's Technical Advisory Committee on April 24, 1986; by the Policy Coordinating Committee on May 8, 1986; and by the Yellowstone County Planning Board on May 13, 1986.

The City's MET Transit Department has examined various opportunities for private sector provision of services. The Department utilizes private tire firms to handle parts of servicing of the tire inventory. The Department also contracts with various private firms for radiator repair, air compressor rebuilds, as well as glass, bodywork on the vehicles, and occasional component rebuilds.

The required TIP documentation related to the PEP process is as follows:

- a) The City of Billings MET Transit System solicited the possible interest or involvement of the private sector in providing leased tires for the MET Transit fleet of coaches. In the spring of 1993, 1996, 2001, 2006 and 2011, and 2016 a Request for Bids was sent to potentially interested private vendors and was also advertised in a local newspaper and a national transit journal. Bids are evaluated based on cost and ability to perform. Three firms requested bid packages. The current contract for the tire lease is in effect through August 31, 2020 with one additional one-year renewal option. It will again be advertised for bid following execution of the final option.
- b) No other proposals were received from the private sector.
- c) There are no known impediments to holding service out for competition.
- d) There are no known private sector complaints.

The Yellowstone County-City of Billings Planning Division has and will continue to follow its adopted policy and procedures regarding private sector participation. The mailing list of private

providers has been updated and used to provide notice about TAC and PCC meetings, including those that deal with the Unified Planning Work Program, (UPWP), projects and process as well as the TIP process. Through these mailings the private providers are aware of the development of the proposed transit capital and operating projects as well as the proposed paratransit capital projects for the five years covered in the TIP.

FEDERAL TRANSIT ADMINISTRATION **PROJECTS**

The Federal Transit Act funded projects, including FTA Section 5339 grant projects, (Biennial Element) are intended to insure the continued efficient operation, maintenance and administration of the MET Transit system fleet and facilities, including meeting federal regulations such as the Americans with Disabilities Act (ADA). The operating grants are for the fiscal years of July 1, 2019 to June 30, 2023 and the Section 5339 grant projects will permit Bus and Bus Facilities projects in Fiscal Years 2020 through 2024.

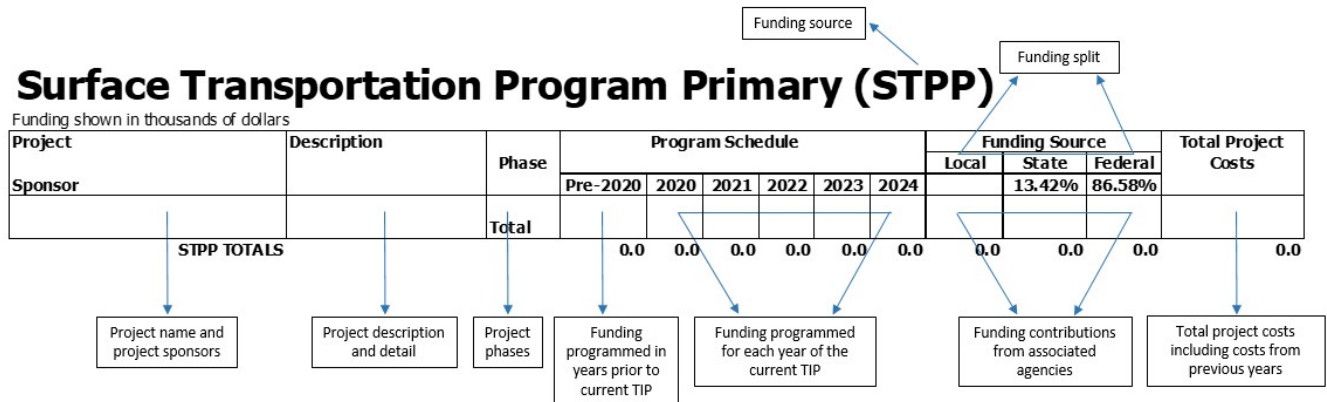

The vehicle purchases for MET PLUS are projects to enable the City to continue providing the required specialized demand-responsive paratransit service for citizens who are unable to use the MET Transit System due to their disabling conditions. The projects to purchase vehicles for other entities will address some of the transportation needs of individuals with disabilities and senior populations.

Major Federally Funded Project Summary

Section 1203(h)(7)(B) of MAP-21 requires publication of an annual listing of projects for which Federal funds have been obligated in the TIP in the preceding year consistent with the categories identified in the TIP.

Understanding the TIP Funding Tables

The TIP project funding tables consist of multiple components, and are designed to best display integral information regarding the projects within the TIP. The image below identifies and explains each of the various components of the TIP project funding tables, and can be used as a tool to understand the information being presented within the funding tables.

All construction projects included in the TIP will be completed in multiple phases (i.e. PE, RW, IC, and CN). Funding for each construction project is broken down by the costs of each specific phase. The table below provides a description of construction project phases and additional project phases the reader can expect to see within TIP funding tables.

Project Phase	Description
CN	Construction – Construction and/or reconstruction work performed by the agency or contractor
IC	Incidental Construction – ‘Safety net’ for unexpected construction expenditures
OT	Other – Additional programmatic expenditures including costs for marketing, education, and outreach
PE	Preliminary Engineering – Analysis and design work completed prior to project construction (the abbreviation EIS will be added if phase includes an environmental impact statement)
Purch.	Purchase – Procuring equipment, software, vehicles, or facilities
RW	Right of Way – Tasks associated with acquiring and preparing the right of way for a project (e.g. property acquisition and utility relocation)
Transit	Transit operations

Public Comment

The MPO will post the draft Transportation Improvement Program (TIP) to the Transportation Resource page of the City of Billings Website. Link to the page is: <https://www.ci.billings.mt.us/2336/Transportation-Resources> . MPO additionally will post agendas for the Boards, Council and Commission that review and act on the Transportation Improvement Program here: <https://www.ci.billings.mt.us/117/Agendas-Minutes> . The MPO published a Public Hearing Notice in the Yellowstone County News on May 8 and May 22, 2020 noting that public comment will be received on the Transportation Improvement Plan at the Yellowstone County Planning Board Meeting scheduled for Wednesday, May 27, 2020.

Below is a list of the Public Meetings that allow for public review and comment on the Transportation Improvement Program. Each meeting notes the number of public attending and comments received from any public:

- Technical Advisory Committee: Thursday, December 17, 2020
(Video Conference Format with public streaming due to COVID-19)
Attendance at Meeting: TAC Members, Planning Staff
Public Comment period

- YC Planning Board: Tuesday, January 26, 2021
(Video Conference Format with public streaming due to COVID-19)
Attendance at Meeting: Planning Board members, Planning Staff
Public Comment period

- Billings City Council: Monday, February 08, 2021
(Video Conference Format with public streaming due to COVID-19)
Attendance at Meeting: City Council Members, Staff
Public Comment period

- YC Board of Commissioners: Tuesday, February 2, 2021
(Video Conference Format with public streaming due to COVID-19)
Attendance at Meeting: Commissioners, Staff
Public Comment period

- Policy Coordinating Committee: Tuesday, February 16, 2021
(Public meeting and Video Conference Format with public streaming) Attendance at Meeting: PCC Members, Staff, MDT Planning; Public Comment period

Public Participation Plan City of Billings

MET Transit

The purpose of the City of Billings MET Transit Public Participation Plan is to ensure and improve access to MET's decision-making process for all members of the public including low-income, minority, and other disadvantaged populations. MET endeavors to provide opportunities for the public to assist and provide input on transit projects in regards to social, environmental, and economic impacts to the area's population.

The Public Participation Plan identifies methods for informing and involving the public in the decision making process, including minority and limited-English proficiency (LEP) populations. Methods of informing the public include, but are not limited to, printed material, partner and community outreach, press releases, paid advertising, transit advertising, and the MET website and social media platforms. Methods of involving the public include, but are not limited to, public meetings, public hearings, surveys, Aviation and Transit Commission meetings, public comment cards, and multiple feedback options.

To download a copy of MET's updated (10/2019) Public Participation Plan, insert the link below in your browser

Certification

The Billings Metropolitan Planning Organization for the Billings, Montana, urbanized area hereby certifies that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

- I. 49 USC. Section 5303 and 23 USC. 134 and CFR 450.334;
- II. Title VI of the Civil Rights Act of 1964, as amended (42 USC. 2000d-1) and 49 CFR, Part 21;
- III. Section 1101(b) of the MAP-21 (Pub. L. 112-141) regarding the involvement of disadvantaged business enterprises in the FHWA and the FTA funded projects (49 CFR part 26);
- IV. The provision of the Americans With Disabilities Act of 1990 (42 USC. 12101 *et esq.*) and the U. S. DOT implementing regulation (49 CFR Parts 27, 37 and 38);
- V. The provision of 49 CFR part 20 regarding restrictions on influencing certain activities;
- VI. Sections 174 and 176(c) and (d) of the Clear Air Act as amended (42 USC. 7504, 7506(c) and (d));
- VII. 49 USC. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex or age in employment or business opportunity;
- VIII. 23 CFR, Part 230, regarding the implementation of an equal employment opportunity on Federal and Federal-aid highway construction contracts;
- IX. The Older Americans Act as amended (42 USC. 6101), prohibiting discrimination on the basis of age in program or projects receiving Federal financial assistance;
- X. Section 324 of Title 23 USC. regarding the prohibition of discrimination based on gender; and
- XI. Section 504 of the Rehabilitation Act of 1973 (29 USC. 794) and 49 CFR, Part 27 regarding discrimination against individuals with disabilities.

Billings, Montana
Metropolitan Planning Organization

Woody Woods, President, Yellowstone County Board of Planning
