

**AMENDED**  
**PLANNED DEVELOPMENT AGREEMENT FOR**  
**LENHARDT SQUARE**

This AMENDED PLANNED DEVELOPMENT AGREEMENT FOR LENHARDT SQUARE (“Agreement” or “PDA”) is made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 2021 by and between, the LENHARDT SQUARE MASTER ASSOCIATION, INC., a Montana corporation (“LSMA”) and the CITY OF BILLINGS, a Montana municipality (“the City”) of 210 North 27<sup>th</sup> Street, Billings, Montana 59101.

RECITALS

NOW WHEREAS:

1. The Lenhardt Square Master Association is an association of the owners of the property in Lenhardt Square established under the Covenants, Conditions, Restrictions and Easements for Lenhardt Square.
2. The Lenhardt Square Planned Development agreement was entered into between the Founders and the City of Billings 13 years ago and in the interceding years, there have been significant changes in the Billings housing market, infrastructure constraints and funding, surrounding development and the general economics of construction.
3. Since the original PDA was adopted, a portion of the Lenhardt Square property has been sold and developed and in that process variances from the PDA have been requested and granted.
4. The Founders and Developers of Lenhardt Square desire to update the PDA to allow for continued development within Lenhardt Square in a manner that better meets the needs of the housing market, the Developers, and the City.

NOW THEREFORE, the undersigned hereby establish and declare that the following amendments to the Lenhardt Square Planned Development Agreement shall apply to all of the real estate in Lenhardt Square and shall bind all of the present and future property owners of such real estate and shall run with the land.

This PLANNED DEVELOPMENT AGREEMENT FOR LENHARDT SQUARE (“Agreement” or “PDA”) is made and entered into this 28<sup>th</sup> day of April, 2008, by and between tenants in common LENHARDT PROPERTY, LP, a Montana limited partnership, of 4035 Cedarbrook Court, Bellingham, Washington 98229-5007, LENHARDT FARM LLC, of 240 East Drive, Baton Rouge, Louisiana 70806, and LENHARDT ENTERPRISES, LLC, of 4401 Highway 3, Billings, Montana 59106 (collectively “Founders”), and the CITY OF BILLINGS, a Montana municipality (“the City”), of 210 North 27<sup>th</sup> Street, Billings, Montana 59101.

## RECITALS

NOW WHEREAS:

1. Founders own as tenants in common approximately 114 acres of real property in Billings, Montana, more particularly described as:

Tracts 1A, 2A, 3A, 4A, 5A of Certificate of Survey 2063, Amended according to the official plat thereof on file and of record in the office of the Clerk and Recorder of Yellowstone County, Montana as Document Number 3460596.

The foregoing property, which has been owned and farmed by the Lenhardt family for many decades, shall hereafter be known collectively as “LENHARDT SQUARE.” The five individual parcels that make up the Lenhardt farm shall hereafter be known as the “Tracts” or, if referred to individually, as a “Tract.”

2. In furtherance of their plan to liquidate the property and terminate their co-tenancy relationship, the Founders desire to place certain building and use restrictions on the property within LENHARDT SQUARE, specify certain land use and design regulations for LENHARDT SQUARE, and establish a pattern of development that is consistent with Lenhardt family values and that protects the value of the investment property being liquidated.

3. In 2001 the City of Billings and Yellowstone County adopted a neighborhood plan titled the “West Billings Plan.” The purpose of the plan was to establish development guidelines in West Billings “to meet the community’s shared vision for the future of West Billings, enabling it to thrive on growth and change through innovative, aesthetic land use and responsible development” (page 1). The West Billings Plan established these policy goals, among others, for future development in the West Billings area:

- Recognition that it is not desirable for West Billings to develop with a low-density, rural character (p. 14);
- More compact development patterns are desirable because they make full use of urban services, offer cost-effective infrastructure, and hold down costs to the taxpayer (p. 15);
- Concentrate multi-family, office, and non-retail uses between commercial nodes along arterial streets (p. 17);
- Provide opportunities for a mix of housing types and mixed-use development by encouraging planned unit developments (pp. 22, 24);
- Increase residential densities and promote medium and high-density residential development within walking distance to commercial centers, medical facilities, and recreational amenities (pp. 21, 23);
- Link pedestrian-friendly residential, commercial, mixed-use, and park areas through a linear open space network, subdivision entryways, and special arterial treatments (p. 38);
- Create commercial developments with unique, identifiable focal points such as parks and linear open space (p. 38).

4. The City of Billings is growing to the west, adding more commercial and professional businesses. By providing convenient, nearby living opportunities for employees, our community can reduce the cost of constructing roads, sewers, and other infrastructure and consume fewer scarce natural resources.

5. The Shiloh Interchange and Shiloh Road have created a major new entryway into Billings that provides convenient access for commuters and visitors coming from Montana communities to the west and Wyoming communities to the south, leading to increased commercial growth along the King Avenue and Shiloh Road corridors.

6. LENHARDT SQUARE is located near what will likely become the most important new commercial area in Billings. In 2001 the City approved Montana Sapphire Subdivision, a 65-acre commercial development located on the southwest corner of the King Avenue/Shiloh Road intersection and southeast of LENHARDT SQUARE. In 2004 the City approved the Planned Development Agreement for The Village, a planned unit development managed by St. Vincent Healthcare Foundation, Inc. located on the northwest corner of the King Avenue/Shiloh Road intersection and directly to the east and adjacent to LENHARDT SQUARE. The Village will be a quality, mixed-use development with commercial, clinical, medical, and residential uses. In July 2007 the City approved a petition to annex the 164 acre Western Sky Subdivision located on the south side of King Avenue immediately south of LENHARDT SQUARE. This subdivision is being re-platted as King Meadows Subdivision and will consist of small single family lots and also provide for multi-family development. Lastly, the City is currently in the process of reviewing an application for approval of Shiloh Crossing Subdivision, which, if approved, will be a 74-acre commercial development on the southeast corner of the King Avenue and Shiloh Road intersection that is intended to house a large retail mall.

7. The increasing cost of residential lot development and single family housing construction makes quality single family housing cost-prohibitive for many young professionals, working families and retired seniors, many of whom will be working in the emerging commercial districts along King Avenue and Shiloh Road and/or seeking convenient access to medical services provided in The Village.

8. Founders desire to provide an opportunity for future development consistent with the West Billings Plan that will accommodate a variety of residential living opportunities and necessary services to support the increased commercial development occurring on the west end of Billings; encourage pedestrian and non-motorized interconnectivity; promote densities that economically support the extension of city services; and utilize economies of scale to increase the affordability of residential housing in West Billings.

9. Founders enter into this Agreement with the City to ensure that LENHARDT SQUARE will be developed and maintained in a manner that is complementary to the neighborhood and other planned developments in the area, including The Village, and that will protect the value of any property of Founders that remains undeveloped.

10. Founders seek the City's approval of the LENHARDT SQUARE planned development zoning district described in this Agreement in accordance with Unified Zoning Regulations Sec.

27-1301 through 27-1310.

NOW THEREFORE, the undersigned hereby establish and declare the following plan for LENHARDT SQUARE, including such restrictions and protective covenants as set forth herein that shall apply to all of the real estate described hereinabove, shall bind all of the present and future property owners of such real estate, and shall run with the land.

## AGREEMENT

### ARTICLE I – PURPOSES

**A. Neighborhood Compatibility and Complementary Features.** The planned development zoning district described in this Agreement is intended to provide an opportunity for future development that will create an attractive and functional neighborhood with a variety of living opportunities in close proximity to the growing commercial development on the west end of Billings. It will include planned circulation patterns to encourage pedestrian access and reduce vehicular congestion and pedestrian/vehicular conflicts. LENHARDT SQUARE will create livable residential areas with necessary services and businesses within walking distance of each other and adjacent residential and commercial areas. It will provide connectivity to other adjacent neighborhoods of West Billings as they develop, and complement the existing planned developments in the area.

**B. Flexibility for Future Development.** This Agreement and the development it describes shall permit flexibility to meet the demands of the residential, commercial, and health care markets as they change over time. In accordance with that goal, this Agreement is designed and intended to afford the future Developer of each Tract within LENHARDT SQUARE latitude to design and construct future development in a way that meets the needs and desires of the time while still ensuring sound development for the benefit of the Founders' remaining Tracts and the neighborhood generally.

**C. Specific Goals for Tract Development.** The parties enter into this Agreement to accomplish the purposes set forth herein and further the following additional objectives of LENHARDT SQUARE:

1. To provide for an appealing architectural arrangement of buildings and spaces through the use of a wide variety of living opportunities, architectural sizing, and residential services;
2. To provide for ample but not excessive off-street parking that is well screened and landscaped and that incorporates multilevel parking where feasible;
3. To provide for well-configured squares, plazas, walkways, bikeways, greens/commons, landscaped streets and parks that are woven into the pattern of the entire development and dedicated to collective social activity, recreation, and visual enjoyment;
4. To require attractive landscaping beneficial to residents and the community;

5. To provide for a pedestrian-friendly and bicycle-friendly environment;
6. To facilitate and foster complementary uses serving the needs of the residential, commercial, professional and medical community in the area;
7. To promote a unique, attractive, and distinctive mixed-use development;
8. To promote and assist in the orderly development of LENHARDT SQUARE and the west end of Billings;
9. To encourage creativity in design, quality, and character of new development; and
10. To minimize adverse aesthetic impacts associated with excessive lighting, signage, parking and other design features.

**D. Consistency with Overall Community Goals.** The parties understand, acknowledge and agree that this plan for LENHARDT SQUARE includes and promotes consideration of the following:

1. Creating a planned development zone that permits single family, small and large scale multi-family, and residential-commercial mixed-use development uses in proximity to one another, while protecting and respecting the character and quality of adjacent uses;
2. Increasing urban densities to utilize land use efficiencies and economies to slow suburban sprawl;
3. Encouraging flexibility in design and use of mixed-use and residential zones to allow for economy, convenience, variety, and amenity;
4. Enhancing the aesthetics of the increasingly commercialized King Avenue and Shiloh Road corridors;
5. Ensuring adequate provision of public services such as water, sewer, public safety, public parks, open space, storm water control, and vehicular and pedestrian-bicycle circulation; and
6. Reducing traffic congestion and degradation of the existing air quality.

Livestock grazing, if permitted, will be limited to a reasonable carrying capacity that prevents overgrazing. Founders may prohibit farming and/or flood irrigation in LENHARDT SQUARE in the sole, exclusive and unreviewable discretion of Founders.

Irrigation.** Founders, in their sole and unreviewable discretion, may elect to retain any shares in the irrigation district serving LENHARDT SQUARE, transfer such shares to the Master Association, or transfer such shares back to the irrigation district. Founders specifically reserve, and do not waive or abandon, irrigation and drainage easements for the conveyance of water and collection of waste water wherever irrigation or drainage ditches are currently located in LENHARDT SQUARE. Without limiting the foregoing, Founders currently believe that such ditches are currently located generally along the north and south boundaries of the property. All such easements shall continue as long as flood irrigation is conducted on any Tract of LENHARDT SQUARE or as long as any such easement is necessary to convey or drain water for the benefit of an adjacent property owner. In addition, any signage advertising a Home Occupation shall be displayed in a lobby or other place inside the structure where the business is located or, if located on or outside of the structure, the sign shall not exceed two (2) square feet in size. Only one sign may be displayed for each Home Occupation. Section 27-606(f) and (g) of the Unified Zoning Regulations shall not apply to such a business to the extent those provisions are inconsistent with this subparagraph.

**9. Scheduled Sporting Events and Related Facilities.** Parks and other Common Areas located in LENHARDT SQUARE are intended primarily for the benefit of residents of LENHARDT SQUARE and only secondarily for the benefit of other persons. Common Areas should be constructed to include attractive landscaping, benches, picnic and game tables, walkways, children's play facilities, and other amenities that serve the immediate neighborhood and appeal to a diversity of users. Amenities that promote traffic and parking congestion should be avoided as much as possible. To that end no Common Area shall be used for, and no

Common Area shall be constructed to include infrastructure that is specifically intended to be used for the organized play of football, baseball, soccer, track, or other similar sports by competing teams on a scheduled or regular basis. The standards described in the Annexation Agreement shall apply to all Tracts within LENHARDT SQUARE unless Developer applies for and obtains a variance from the City of Billings. All applications for variance must be approved in writing by Reviewer prior to submittal to the City. Reviewer may approve or disapprove the variance in its sole discretion.

**B. Tract Development Standards.** Tract development standards are provided to establish minimum guidelines for the development of facilities within LENHARDT SQUARE, including site work, buildings, accessory structures, parking, signage, lighting, fencing and landscaping. These standards establish the minimum construction requirements to be adopted by Developers within LENHARDT SQUARE. More detailed architectural and landscape design guidelines (Master Design Guidelines) will be adopted by the Founders pursuant to the CCRs to govern the aesthetic and functional standards for public areas, streetscape, pedestrian areas, buildings and signage. Developers may, subject to approval by the Reviewer, adopt more (but not less) detailed and/or stringent site, building and landscape design criteria to govern construction within their respective Tracts. All construction within LENHARDT SQUARE shall comply with the Unified Zoning Regulations, International Building Code, or any other building codes or building regulations applicable under local, state, or federal law.

1. **Lot Size.** Developers shall be responsible for submitting plats for further subdivision of each Tract to the City of Billings for subdivision approval. Within these plats, Lots designated for single family construction shall comply with the minimum size requirements described in Exhibit B (Second Amended). In accordance with Exhibit B (Second Amended), Lot size for multi-family, commercial, and mixed-use structures may vary in size depending upon the number of dwelling units contained in the structure. There are no maximum Lot size requirements. All Lots must comply with the lot coverage and setback standards set forth in this Agreement.

2. **Lot Coverage.** Lot coverage requirements are set forth in the General Requirements in Exhibit B (Second Amended) and are based upon a percentage of total square footage of the Lot. The total combined lot coverage for all structures on any Lot shall not exceed the maximum requirements established in Exhibit B (Second Amended).

3. **Setbacks.** Minimum setback requirements are set forth in the General Requirements in Exhibit B.

4. **Parking.**

(a) **Required Parking.** Adequate parking shall be provided by each Unit Owner for residents, visitors, customers, renters, and employees. Parking requirements may be satisfied by on-site parking, approved street parking, off-site parking facilities, or any combination thereof. The following requirements shall apply in each zone:

(ii) **MF-R.** Minimum parking requirements for multi-family residential uses shall be 1.5 parking spaces times the number of Dwelling Units (rounded to the next highest number of spaces). Except as provided hereafter, the maximum number of parking spaces shall not exceed 1.75 times the number of Dwelling Units (rounded to the next highest number of spaces). Developer may construct more than 1.75 parking spaces per Dwelling Unit, but all spaces in excess of that number must be incorporated as part of a structure that includes multi-family Dwelling Units or in a separate underground or multi-level parking facility. Covered or enclosed parking facilities shall be provided at a rate of .70 parking spaces per Dwelling Unit. In order to insure adequate parking, parking spaces, including enclosed spaces, must be maintained in a manner that accommodates vehicle parking and may not be used primarily for non-vehicular storage.

(iii) **MU.** The minimum parking requirements for residential dwelling units within the MU district shall be determined as set forth in the attached Exhibit C. No more than ten percent (10%) of the area of any lot within Tract 4A may be utilized for surface parking.

(b) **Joint Parking.** Joint parking agreements are encouraged. Unit Owners may enter into agreements with other Unit Owners located within a 600-foot radius to share parking spaces provided the agreement complies with the requirements set forth in Exhibit C. For uses not referenced in the joint use matrix found in Exhibit C, allowable joint use parking reductions requested by the Developer shall be determined by the City zoning coordinator with the consent of Reviewer up to, and not exceeding, a total reduction factor of 1.5.

(c) **Off-Site Parking.** Each off-site parking area shall be accessible by a public right-of-way. If space is leased in an off-site parking area to meet minimum parking requirements, the term of any lease while minimum parking requirements are in effect shall be for the duration of the time that the building, use, or activity served by such parking area is in existence at such location. Each such lease shall be subject to prior review by the City of Billings and shall provide that if the right to use the designated off-site parking is for any reason terminated or forfeited the City shall be immediately advised. In case of such termination or forfeiture, all uses and activities so

served shall cease until adequate off-street parking meeting the requirements of this Agreement is again provided. All requirements for setbacks, landscaping, signage, and lighting established in this Agreement, the CCRs, and/or the Master Design Guidelines or other applicable standards shall apply to off-site parking facilities. All off-site and on-site parking facilities shall satisfy any applicable handicapped accessibility requirements. Off-site parking shall be located within six hundred (600) feet of the building or use for which it is required, which distance shall be measured along a straight line between the two (2) nearest points of the Lots containing the main use and the accessory parking use.

(d) **Garages.** The incorporation of multi-level parking garages into principal building structures in the Mixed-Use and Multi-Family-Restricted zones is encouraged. Ground level parking garages shall be limited to 10500 square feet and may accommodate no more than fifty-two (52) vehicles unless approved by the Reviewer. Freestanding multi-level parking garages shall be considered a principal structure. A minimum of ten (10) feet, or the applicable IBC minimum standard, whichever is greater, shall be maintained between garages and other structures. Parking garages must conform to CCRs and Master Design Guidelines.

Right-of-Way and Landscaped Green Belt Improvements Generally.** A minimum 10-foot landscaped green belt, which may be incorporated into any required building setback, shall be landscaped and maintained along any property line that abuts the Shiloh Drain or a public or private right-of-way or street unless the same is bordered by a developed Pathway or Linear Parkway maintained by the Master Association, an Owners Association, or the City. Founders shall establish design standards for such landscaped green belt areas. Developers shall be responsible for installation of the landscaped green belts in accordance with the CCRs and Master Design Guidelines. Unless maintenance responsibilities are specifically accepted by the Master Association and/or City, Unit Owners shall maintain their yards as well as the space in the landscaped green belt area and any easement or right-of-way up to the back of the curb, the edge of paving of the street, or the midline of any easement not bordering a street, in conformance with the CCRs and Master Design Guidelines. Landscaped green belts and required setbacks may overlap so that the total area of the two is the greater of either the green belt area or the setback.

**6. Average Density Limits.** The number of residential Dwelling Units shall not exceed the maximum density-per-acre limits set forth in Exhibit B (Second Amended). For purposes of determining compliance with this requirement, the total number of residential Dwelling Units in the subject Tract or parcel of the development shall be divided by the gross acres of the Tract or parcel excluding any open space/pathways set aside in such Tract or parcel pursuant to the Master Plan. Average density limits shall be measured by evaluating the average, overall per-acre density for each part of a Developer's project that is subject to a different density limitation. Density limits shall not be measured by evaluating the actual density for each individual acre. Actual per-acre densities in a particular part of a Developer's project area may be higher than the allowed limits if the average density for the Developer's property in each zone as a whole complies with the density limitations set out in Exhibit B (Second Amended).

**7. Landscaped Green Belts Along King Avenue, C/S 2064, C/S 3125 and C/S 1400.** A minimum twenty (20) foot wide landscaped green belt shall be maintained inside the south property line of all Units in Tracts 1A, 4A and 5A adjoining King Avenue. The Developers of Tracts 1A, 4A, and 5A shall be responsible for installation of the landscaped green belts in accordance with the CCRs and Master Design Guidelines. The landscaped green belts described in this paragraph shall be maintained in accordance with Article V.B.5. Landscaped green belts and required setbacks may overlap so that the total area of the two is the greater of either the green belt area or the setback.

**8. Loading, Storage and Service Areas.** Loading and service areas shall not be permitted in the front of any Lot or in any side yard adjacent to and visible from a street within LENHARDT SQUARE and shall be subject to design standards adopted by the Founders.

**9. Fence, Wall, Berms and Hedge Improvements.** Fences, walls, berms and hedges within LENHARDT SQUARE shall be constructed according to the following minimum standards:

- (c) A permit shall be obtained from the City prior to constructing any fence over six (6) feet in height or any wall over four (4) feet in height.

**10. Accessory Structures.** Detached accessory structures other than garages shall be no larger than 300 square feet. A minimum of 5 feet, or the applicable Unified Zoning Regulations minimum standard, whichever is greater, shall be maintained between detached accessory structures other than garages and any other structure. All detached accessory structures must conform to the CCRs and Master Design Guidelines. Accessory structures in Tract 4A are subject to special review in accordance with Article V.G.1. above.

**11. Projections.** In Tracts other than Tract 4A , awnings, stoops, open porches, balconies, bay windows, cantilevered decks, permitted signage, and similar projections may extend into fifty percent (50%) of the width of any required building setback provided the projection does not cause a hazard or interfere with any improved Linear Parkway located within the setback. In Tract 4A such projections may extend to, but not over, the boundary of the public right-of-way. The lowest point of any projection must be at least eight (8') feet beyond the surface of any sidewalk, pathway, driveway or other travel surface located below the projection.

**12. Signage.** The signage requirements included in Article 27-700 of the Unified Zoning Regulations (“Sign Code”) and any subsequent amendments thereto shall govern the regulation of signage in LENHARDT SQUARE so far as they are not inconsistent with this

Agreement. To the extent that different Sign Code regulations apply depending upon the zoning category where the signage is located, for this purpose Tracts 1A, 2A, 3A and 5A shall be deemed to be a residential professional zone and Tract 4A shall be deemed to be a commercial zone. For purposes of regulating signage Tract 4A shall be subject to the same regulations that govern the Central Business District, including Ordinance No. 07-5437 approved October 22, 2007 amending Section 27-705(c) of the Unified Zoning Regulations. In addition all signs shall comply with CCRs and Master Design Guidelines.

**13. Lighting.**

(a) All outdoor pole lighting shall be fully shielded (no light emitted by the fixture is projected above the horizontal plane of the fixture) and mounted at heights no greater than twenty (20) feet above grade;

(b) All outdoor lighting, except street lights, shall be located and aimed or shielded so as to minimize stray light trespassing across property boundaries.

(c) Canopy, marquee and “wall pack” lighting shall be fully shielded. No internally illuminated fascia shall be allowed.

(d) All lighting shall comply with CCRs and Master Design Guidelines.

**14. Design Standards.** Additional Design Standards may be included within the CCRs and/or Founders may adopt Master Design Guidelines for use in LENHARDT SQUARE. Such standards and guidelines shall govern building, landscape and Common Area construction. Developers may adopt more stringent standards or guidelines and/or additional compatible standards or guidelines for areas located within the Tract being developed, provided such standards or guidelines are compatible with the Master Design Guidelines and approved by the Reviewer. All construction within LENHARDT SQUARE shall comply with the International Building Code, the International Fire Code, and any other building codes or building regulations applicable under local, state, or federal law.

**ARTICLE VI – OPEN SPACE**

Master Plan Common Areas Generally.** Founders hereby agree that certain portions of LENHARDT SQUARE will be permanently set aside for park and recreational uses sufficient to meet the needs of the residents of LENHARDT SQUARE. Founders further agree that they will cause an easement for pedestrian and bike travel by the general public to be dedicated in or near the Shiloh Drain Easement Area for inclusion in the Heritage Trail System. The lands set aside in accordance with this Article VI.A. will include the Master Common Areas shown on the Master Plan (Exhibit A (First Amended)) and may include, but are not limited to, open spaces, Green Roofs and other roof-top amenities, park areas, Linear Parkways and pocket parks, gardens, athletic fields, open space corridors, bike trails, walking paths, exercise or play areas or other recreational facilities, sitting areas, picnic areas, roundabout centers, landscaped entryways, indoor or outdoor gathering places and community centers. The total acreage set aside for park and recreational use as depicted on Exhibit A (First Amended) is approximately 15.35 acres.

The general size, location, and design of Master Common Areas described in this Agreement and designated in the Master Plan are conceptual in nature and are subject to modification by Founders and future Developers through the platting process. Any such modifications must, however, be approved by the Reviewer, and the City of Billings must receive the consent of the Reviewer prior to approving any plat that modifies the size, location, or design of the Master Common Areas described herein. The City of Billings shall be entitled to review and approve any material reduction in the size of the Master Common Areas or material change of the function of those areas if such reduction or change would entitle the City to withdraw its waiver of statutory and local park dedication requirements mandated under M.C.A. § 76-3-621(6) and BMCC Sec. 23-1009.A. Nothing in this Agreement shall prohibit a Developer from establishing Developer Common Areas within its Tract, provided maintenance of such additional common areas shall be the responsibility of the Developer and/or any Owners Association created by the Developer, unless the Master Association agrees in writing to undertake such maintenance responsibilities. Developers may agree to assume maintenance responsibilities for Master Common Areas by entering into a written agreement with the Master Association.

**B. Annexation Agreement to Prescribe Standards for Common Areas.** The parties agree that promptly after or in conjunction with the execution of this Agreement they shall negotiate and execute an annexation agreement that will prescribe standards for the designation, development, and maintenance of parks and other Common Areas in LENHARDT SQUARE. Although the particular terms of the annexation agreement will be determined later, it is currently anticipated that the agreement will address these and other issues: (1) waiver by the City of statutory and local regulatory park dedication requirements in accordance with M.C.A. § 76-3-621(6) and BMCC Sec. 23-1009.A.; (2) maintenance obligations of the Master Association, Developers and the City; (3) construction standards for linear parkways; and (4) mutual easements for the construction and maintenance of Common Areas on private and public property.

**C. Roof-Top Amenity Areas.** The roof area of each building over forty feet (40”) in height (measured to the top of the enclosed structure and not including non-enclosed structures, towers, antennae, etc.) in a mixed-use zone (Tract 4A) shall include roof-top amenities that comply with this Agreement. Such roof-top amenities may include, but are not limited to, one or more of the following: Green Roofs, gardens, pools, terraces, decks, balconies, porches, atriums, greenhouses, picnic areas, recreational facilities, or similar amenities. For purposes of this Article VI.C. “roof area” shall include both the roof structure immediately above the uppermost floor of the building and also any horizontal setback areas created when a floor of the building is recessed from the line of the façade of the floor below. One hundred percent of each roof area not necessary for the use, storage, or operation of mechanical equipment related to the function of the building shall be devoted to such roof-top amenities unless the Reviewer grants a partial exemption from this requirement after receiving a written request from the Developer. The Reviewer may exempt part of the roof area from this requirement if the Reviewer determines in its discretion that the portion proposed for exemption is too small, inaccessible, or otherwise unavailable for reasonable construction or maintenance as a roof-top amenity. All roof-top amenities shall be professionally designed and constructed and shall comply with all applicable building codes, ordinances, and laws. Reviewer shall not be required to review any building design, specifications or drawings for compliance with such codes, ordinances, laws or other building standards and therefore shall not be responsible for any violation of the same or any

negligence in the design or construction of any roof-top amenity or other element of any structure. All roof-top amenities shall be well constructed, according to any applicable building and safety codes, repaired, and maintained so that they provide a useful and attractive area for the private or semi-private use of tenants or owners in the subject building or adjacent mixed-use neighborhood in the Tract.

## **ARTICLE VII - CROSS EASEMENTS FOR PEDESTRIANS AND VEHICLES**

At the time each Tract is developed, or at such earlier time as may be determined by Founders or the Developer of the Tract, Founders or the Developer shall grant a non-exclusive easement for pedestrian and bicycle ingress and egress for the benefit of all Developers and Unit Owners and their tenants, contractors, employees, agents, customers, licensees, invitees, successors, and assigns over and across the Common Areas of LENHARDT SQUARE (or the Tract) devoted to pedestrian walkways, bike paths, and private roadways intended for common use.. At the time each Tract is developed, or at such earlier time as may be determined by Founders or the Developer of the Tract, Founders or the Developer shall also grant a non-exclusive easement for vehicular ingress and egress for the benefit of all Developers and Unit Owners and their tenants, contractors, employees, agents, customers, licensees, invitees, successors, and assigns over and across the private roadways of LENHARDT SQUARE (or the Tract).

## **ARTICLE VIII - ENFORCEMENT**

**A. Statement of Purpose.** The parties acknowledge that from time to time disputes may arise involving the City, Founders, Unit Owners, the Master Association, Owners Associations, or other persons bound by this Agreement. In order to minimize the financial and emotional costs that such disputes may exact from the participants, the parties to this Agreement, on behalf of themselves and their successors and assigns hereby commit themselves to work together in a spirit of cooperation to facilitate the prompt resolution of such disputes in a manner that respects and promotes relationships between the parties and without resort to litigation as much as possible.

**B. Right to Enforce by City.** The terms of this Agreement may be enforced by the City as provided for in Article 27-1600 of the City Code of Billings, Montana.

**C. Right to Enforce by Unit Owners and Master Association.** The terms of this Agreement shall run with the land and be binding upon and inure to the benefit of the parties hereto and the owners of property within LENHARDT SQUARE and any person or entity claiming under them. The terms of this Agreement may be enforced by the parties hereto as well as the Unit Owners within LENHARDT SQUARE. The parties further agree that the Master Association shall have standing to enforce the terms of this Agreement relative to the City or any Unit Owner or Owners Association regardless of whether the Master Association owns property in LENHARDT SQUARE. In addition to all rights inuring to them under this Agreement, the parties specifically reserve all rights and remedies available at law or in equity, by statute or otherwise. All such rights and remedies shall be cumulative.

## ARTICLE IX – AMENDMENTS AND VARIANCES

**A. Amendments or Changes.** Amendments or changes to this Planned Development Agreement shall be processed using the same procedures for a new application in accordance with the Unified Zoning Regulations; however, minor modifications may be approved by the zoning coordinator if he/she finds that the change would not:

1. Change the overall character of the development;
2. Increase the number of residential units greater than two (2) percent above those approved pursuant to Exhibit B (Second Amended).
3. Create additional allowed uses;
4. Reduce open space greater than two (2) percent in any Tract; and
5. Change the approved minimum setbacks, maximum lot coverage, or maximum allowed structure height.

If other zoning regulations and/or ordinances applicable to LENHARDT SQUARE are subsequently amended, the amended version of such regulations and/or ordinances shall likewise continue to be applicable to LENHARDT SQUARE to the extent they are not inconsistent with this Agreement.

\* The limitations described in this table are subject to, and in no way supersede, all applicable building codes and regulations. Developers shall at all times comply with the International Building Code, the International Fire Code, and all other local, state, or federal building codes or regulations.

\*\* As of the date this Amended Agreement was originally approved, these zones correspond to the following Tracts: ; MF-R (Tract 1A, Tract 2A, Tract 3A and Tract 5A); MU (Tract 4A, ).

<sup>1</sup> If not inconsistent with the Master Design Guidelines and upon approval of the Reviewer, the front setback from any Linear Parkway may be reduced to less than 5 feet, provided the structure is a minimum of 5 feet from any hard surface walkway or bikeway in the Linear Parkway. This setback does not apply from the Linear parkway on the northside of King Avenue.

<sup>2</sup> Staggered building facades and angled placement of structures relative to the front lot line are encouraged in all zones. The minimum setback requirement in the MF-R zone is also a maximum setback or “build-to” requirement. In that zone at least 20% of the façade must be at the setback line (from the street right-of-way and Linear Parkway) if the structure is oriented parallel to the street. If the structure is oriented at an angle to the street, at least one structural corner of the structure must be located at the setback line.

<sup>3</sup> The zero lot line on one side of a shared property line allowed pursuant to 27-617 Unified Zoning Regulations and for adjacent single family dwellings shall also be permitted in all zones and for accessory structures and garages.  
<sup>4</sup>Height limitation applies to the uppermost, enclosed portion of the structure. Antennae, towers, and non-enclosed portions of a structure may extend fifteen feet (15') above the uppermost, enclosed portion of the structure. The enclosed portion of a structure is the portion that is contained on all sides and overhead.

**EXHIBIT C**

**PART 1**  
**PARKING REQUIREMENTS – MIXED-USE ZONE**

<b>TYPE OF USE</b>	<b>REQUIRED PARKING (spaces / dwelling unit)</b>
Residential	1.0/dwelling unit
Lodging	1.0/bedroom
Office	2.0/1,000 square feet
Retail	3.0/1,000 square feet
Other Uses	To be determined by Zoning Coordinator upon request of Developer and consent of Reviewer

**PART 2**  
**JOINT PARKING FACTORS REDUCTION MATRIX**

Joint use parking agreements may result in a reduction of the combined parking requirements for the Units entering into the agreement. Allowable reductions shall be determined using the following joint parking reduction matrix by dividing the sum of the required parking minimums for each use as specified in Exhibit C, Part 1 by the joint parking reduction factor set forth in the following matrix.

	RESIDENTIAL	LODGING	OFFICE	RETAIL
RESIDENTIAL	1	1.1	1.4	1.2
LODGING	1.1	1	1.7	1.3
OFFICE	1.4	1.7	1	1.3
RETAIL	1.2	1.3	1.2	1

Example: A residential building with ten units requires 10 parking spaces and a neighboring 2,000 square feet office building requires 4 parking spaces. The adjusted minimum parking requirement for the two buildings is 10. ( $10 + 4 = 14 \div 1.4 = 10$ ). Similarly the adjusted minimum parking requirement for a ten unit residential unit and a 3,000 square foot retail store would be 16. ( $16 + 9 = 19 \div 1.2 = 15.83$ ). (Any remainder shall be rounded up.)
