Dear Applicant:

On July 24, 2023, the Billings City Council conditionally approved the preliminary plat of Howard Billings Industrial Subdivision subject to the following conditions of approval:

1. To protect public health and safety, prior to final plat approval, the applicant will submit all drawings and specifications for water systems, sewer systems and stormwater systems to the City of Billings Engineering Department for review and approval prior to installation.
2. To protect public health and safety and minimize traffic conflicts, prior to final plat approval, City Engineering has requested the developer directly line up their Holiday Lane road with the existing Holiday Lane on the east side of Mullowney. This shall be depicted correctly on the Final Plat.
3. To protect public health and safety and to minimize the possibility of traffic conflicts, prior to final plat approval, the applicant will place a no access strip on lots that have a lot line in common with the road edges of Mullowney Lane and South Frontage Road. Lot 2, Block 5 and Lot 1, Block 1, shall have a no access strip place on it from Mullowney Lane going west for 100 feet. Lot 17, Block 1, and Lot 1, Block 3 shall have a no access strip placed on them from South Frontage Road going south 100 feet.
4. To protect public health and safety and minimize the impacts on local services, the subdivider shall provide connectivity to an existing trail and neighboring subdivision by installing a pedestrian bridge across Hogan's Slough. This bridge will connect the existing trail located in QFC subdivision to this proposed subdivision with a 10-foot-wide paved surface that will extend from their new internal street to the existing 10-foot wide paved trail in QFC subdivision. The connection shall be depicted on the final plat and the SIA shall include language describing the bridge and pedestrian connection.*
**Note, This condition reflects the Planning Boards recommendation of denial for the variance. If the City Council approves the variance, this condition of approval will no longer apply.*
5. To protect public health and safety, prior to final plat, the applicant will coordinate with the USPS to locate a central box unit for the subdivision and provide enough space for the mail delivery person to safely stop there and deliver the mail.
6. Minor changes may be made in the SIA and final documents, as requested by the Planning, Legal or Public Works Departments to clarify the documents and bring them into the standard acceptable format.
7. The final plat shall comply with all requirements of the City of Billings Subdivision Regulations, rules, policies, and resolutions of the City of Billings, and the laws and Administrative Rules of the State of Montana.

Should you have any questions please contact Dave Green at (406) 657-8666 or by email at greend@billingsmt.gov

July 24, 2023

Sincerely,

William A. Cole, Mayor
