# ParkView Rear Back-up Camera (XAC)

The ParkView® Rear Back Up Camera[1] displays a video image on the Uconnect® touchscreen (note: on some vehicles the image is displayed on the auto-dimming rearview mirror) of the area behind your vehicle when the vehicle is shifted into reverse. It helps determine if an obstacle is in the vehicle's path when backing up and is particularly effective in showing objects behind the vehicle that aren't viewable in the exterior mirrors.

1. Always check entire surroundings visually before proceeding.

## Transfer Case Skid Plate Shield (XEF)

The transfer case skid plate protects the underside of the transfer case from uneven surfaces and protrusions when driving off-road.

# Trailer Brake Control (XHC)

The trailer brake controller operates the trailer's brakes so it brakes in tandem with the vehicle's brakes. This system is electronic and fully integrated.
