New Business:

- a. Crash Mapping**

The board had 3 months of crash data to discuss and map. During this discussion it was talked about possibly needing more traffic signals on N 30th St due to the number of bike and pedestrian accidents that have happen on N 30th St. The discussion on this ended around 12:45pm.

b. Downtown Cycle Track

The board talked about the educational ride that TrailNet held on September 20th. The intersection of 6th Ave N & N 31st St was also talked about. This is where the cycle track ends. There is concern about how cyclists get across 6th Ave N safely. The board came up with a recommendation to send to Public Works for a bike crossing on the west side of N 31st St going north across 6th Ave N. The board feels like this would be the best solution as of now for this intersection.

Old Business:

a. E-Bike trail etiquette/speed.

Mike Hayes talked about etiquette flyers and is going to email the board about the different options that he has.
