

SW 10th Street Connector Preferred Alternative

MPO Board Update

May 13, 2021

Project Location

Public Engagement Leads to Key Project Changes

- Moved overpass away from Waterways Community Entrance
- No truck restrictions in Connector Lanes
- No tolling of Connector Lanes
- Incorporated a 12-foot Shared Use Path
- Added connections to I-95 General Use Lanes
- Created more buffer space and landscape opportunities

Preferred alternative video place holder

- Brief, narrated video on the Preferred Alternative (coming soon)

Notification of a Preferred Alternative

- Met with City and Elected Officials
- Sent out Elected and Appointed Official notices
- Sent out notices to all interested parties from project database
- Sent out press release
- Updated website for notice of decision including flyer and video
- Utilized social media to provide notice of decision and links to:
 - Flyer
 - Video
 - Website

Next Steps . . .

- Finalize documents and secure Location Design Concept Acceptance (LDCA)
- Continue working with the City and Public on project details such as noise walls, aesthetics, and landscaping
- Advance ITS project(s) to help mitigate traffic impacts in advance of construction
- Advocate for earlier funding of all improvements
- Incorporate incentives that help reduce impacts and accelerate the improvements in the construction packages
- Major construction is anticipated to begin in early 2024 (Funds are currently programmed for Fiscal Years 2024 and 2025)
