

## MOBILE IMMERSIVE PROJECT-BASED LEARNING

Let us bring the MODS STEMobile to you! Our Mobile Makerspace delivers inquiry-based experiences to your school, organization or community center with unique and immersive STEM (Science, Technology, Engineering and Math) programming led by STEM educators. Programs can be customized for time, group size and age group. Free programs may be available, please inquire.

Select from:

### CLEVER CODERS

Your programmers can become Clever Coders! Learners will explore how puzzles and patterns are the building blocks of codes with a mix of on-and-off-screen activities sure to engage and challenge young minds!

### STEAM

Full STEAM ahead! Learners will use their creativity and STEAM (Science, Technology, Engineering, Art and Math) skills, learning science concepts while creating fantastic art!

### EVERGLADES ADVENTURE

Your learners will become eco-engineers, learning about habitats and ecology while using the design-engineering process to help native wildlife and humans thrive together.

### TO FLY

Blast off with the science of flight! Learners will explore forces and defy gravity while discovering the science of flight and related aviation careers from the ground to the sky!

### SOLAR POWER

How can the power of the sun become usable electricity? Learners will delve into the variety of solar options, learning about energy and circuits while working through an engineering challenge.

### WEATHER THE STORM

Get ready for your class to be blown away! Learners will explore weather-related challenges and phenomena (hurricanes, floods or tornadoes) as they take on an engineering challenge to design a creative solution to weather the storm.

## What to expect with your STEMobile visit.

During the program, participants can engage in hands-on experiences or making activities. Our staff will meet participants at your location — indoors or outdoors. Additionally, the Museum will provide tents, tables and all materials.

## What are the STEMobile programs?

MODS offers a wide range of STEM-themes from aviation to weather exploration from coding to engineering challenges. Refer to the front page of this flyer for details. The Museum also can create customized programs to meet your needs (pricing may vary).

## Who is the STEMobile for?

The STEMobile is for everyone! Learners of all ages are welcome. The programs can be designed for specific age groups.

- Hotels and Resorts
- Corporate Parties/Team Building
- After School Programs
- Private Events
- Kids' Zones
- Sporting/Community Events
- Schools/Nonprofits

## What is the price\*?

### Experiential Programs (minimum two - 45-minute sessions with one class or up to 25 learners per session):

- Cost: \$525
- Each Additional Session: \$225

### Drop-in/Festival Style (minimum two - 45-minute sessions):

- Cost: \$600
- Each Additional Session: \$250

For inquiries or to reserve the STEMobile, please email [booking@mods.org](mailto:booking@mods.org). All programs are first-come, first-served and subject to availability.
