Eligible Activities and Costs

All SLCGP **Objective 1 Governance and Planning** projects must support the implementation of the approved State SLCGP Plan. Additionally, projects can only support one-time services that reduce cybersecurity risks to; and identify, respond to, and recover from cybersecurity threats to information systems owned or operated by or on behalf of local governments within the Texas. 2. **Cloud Migration Strategy:** Developing cloud migration strategy.

Program-Specific Requirements

1. All Grantees will be required to participate in a limited number of free services by the Cybersecurity & Infrastructure Security Agency (CISA). For these required services and memberships, please note that participation is not required for submission and approval of an application but is a post-award requirement.

- **Web Application Scanning** is an “internet scanning-as-a-service.” This service assesses the “health” of your publicly accessible web applications by checking for known vulnerabilities and weak configurations. Additionally, CISA can recommend ways to enhance security in accordance with industry and government best practices and standards.
- **Vulnerability Scanning** evaluates external network presence by executing continuous scans of public, static IPs for accessible services and vulnerabilities. This service provides weekly

vulnerability reports and ad-hoc alerts.

To register for these services, email vulnerability_info@cisa.dhs.gov with the subject line "Requesting Cyber Hygiene Services – SLCGP" to get started. Indicate in the body of your email that you are requesting this service as part of the SLCGP. For more information, visit [CISA's Cyber Hygiene Information Page](#).

2. Eligible applicants are required to join the Texas Information Sharing and Analysis Organization (TX-ISAO): a free membership to a forum for entities in Texas to share information regarding cybersecurity threats, best practices, and remediation strategies. To request membership, visit <https://qat.dir.texas.gov/request-list-access.html>.

Selection Process

Application Screening: PSO will screen all applications to ensure that they meet the requirements included in the funding announcement. SLCGP applications will be reviewed through a two-phased State and Federal review process for completeness, adherence to programmatic guidelines, and feasibility.

State Review:

1. Merit Review: The Texas SLCGP Planning Committee will review applications to understand the overall demand for the project, cost effectiveness, feasibility and alignment with the objectives listed in the State's SLCGP Plan.
2. PSO will consider comments and recommendations from the SLCGP Planning Committee along with other factors and make all final funding recommendations to DHS/CISA. Other factors may include cost effectiveness, overall funds availability, priorities and strategies, legislative directives, and geographic distribution. PSO may not recommend funding for all applications or may only recommend part of the amount requested. In the event that funding requests exceed available funds, PSO may revise projects to address a more limited focus.

Federal Review: DHS/CISA will evaluate whether proposed projects are: 1) both feasible and effective at reducing the risks for which the project was designed; and 2) able to be fully completed within the period of performance. Projects must be approved by DHS/CISA before PSO releases an award.
