And Many More!

**Michael Bruckner, Assistant to the City Manager,
City of Arcadia, CA**

"Revize has done it again! Another game changing, cutting edge website that moves the industry forward by connecting citizens to services in as few clicks as possible."

Project Goals

The following list details this project's goals:

Visually Appealing

Clients have told us that Revize seems to have the best creative design team than most other county government website designers. We love creating a rebranding style, non-profit website design with a more eye catching, beautiful website appeal to help them increase communication with their constituents and create new interest with prospective constituents and their families. Because of that, Revize has been asked to build websites for the Tourism industry as well.

Easy to Find Content

Revize conducted a Resident Web Visitor Usability Study with 9 municipalities. As a result, we already know how a resident or web visitor wants to navigate their county website and get organizational information in their easy to reach manner. They told us that they want to get to any web page in One Click right from the Home Page, no matter how many levels the web page was buried. Revize created a navigation system that does just that and our clients love it. We will be happy to demonstrate it to you!

Increase Partner Engagement and Follow-Up

Please refer to our list of website features and you will see a plethora of features specifically to allow for interactivity with your residents, partners and all constituents, including web forms for responses, feedback, online payments, home page alerts, etc. We also design the website with "Calls to Action" in mind to inspire web visitors to participate in your organization.

Increase Search Engine Visibility

Every Revize web page is programed to allow 100% of every web page content to be indexed by all the popular Search Engines. We also allow non-technical Editors access each web page's Meta Data so you can not only increase your web presence, but also contour the search so if someone types a question in the Bing or Google Search box, it will try to pull them to the web page on your new website with the ANSWER! Not your home page.

Seamless Integration with Social Media

Revize will add Social Media icons and Social Media integration to your website's News Center as well as create a social media Wall or a clean looking Social Media Center to show off your latest social media posts.

Mobile- and User-Friendly

Your new website should be usable on any and all devices including phones, tablets and PCs. Revize has made Responsive Website Designs a website standard for over 8 years. Because of that, we add in additional Responsive Programming to take advantage of the new mobile

phone technologies like the new High-Definition Video Cards to make your web visitors' website experience more enjoyable and smoother.

Easy to Update Content

The Revize CMS non-technical website editing solution has a 25-year maturity and was written for non-technical editors to edit the website in an easy common-sense manner through a methodology called In-Page Editing or Live-Page Editing.

Clients have indicated that if you know how to read, and know about 5% of Microsoft Word, you should be able to edit a Revize Non-profit Website (without training). Allow us to give you a demonstration.

ADA Compliant Website

Revize has been building ADA compliant websites for the last two years. In Florida, every county and municipality are being sued and taken to court for not meeting ADA compliant. So far, no fines have been given on any Revize website – Revize has 83 clients in Florida. Your new website will adhere to the new WCAG 2.1 AA requirements and Section 508. We will also train your content editors how to keep it ADA compliant when writing content. With your approval, Revize will also install an ADA Accessibility Widget, free of charge. This widget brings the ADA software for reading and resizing text, change color contrasts, etc. on the fly for the vision impaired and disabled web visitor.

Example – Double Click on the Man Icon in the lower right corner to see it in action:

https://www.largo.com/facilities_directory/index.php

Cyber-Security

Revize has not had any website security intrusions for over 9 years. Revize has partnered with Amazon Web Services (AWS) and Google Cloud Service Platform (GCP) for its LIVE WEB server hosting infrastructure needs. Both AWS and GCP are industry leaders in high availability cloud server architecture, both server farm infrastructure is highly secured, scalable, and redundant for 24/7/365 availability. Snapshot/Mirror Image backups of all of our cloud servers guarantees 100% data protection and recovery in case of any disaster. Also, Revize has dedicated CMS servers in two state-of-the-art physical data centers located in Chicago and Detroit. Onsite/Offsite data backups of all our dedicated servers are scheduled nightly with R1Soft backup service. Additionally, Revize utilizes multiple Tier 1 bandwidth providers such as Level 3, Wiltel, and Cogent for redundancy and continuous connectivity. These procedures provide our clients with up to 500Mbps of fast fiber optic up-stream connectivity. Revize can also host both your Internet and Intranet websites; your Intranet is secure and only accessible by authorized users through a login system.

Thank you for considering Revize as your web development partner. For over two decades, Revize has been a leader in providing high quality, non-profit & government-

compliant web solutions. Located in Troy, Michigan we have launched hundreds of non-profit and government websites nationwide, including over 300 right here in Michigan, a myriad of industry awards and hundreds of satisfied clients stand as testament to the quality and value of our work. Every member of the Revize team understands that your website is more than a website. It's a valuable resource that can help you build a better community.

Regarding the actual design and build of your new website, and ongoing hosting and support, Revize has been doing this for over 25 years. What you need to know is that over the last 6 months there's been an increase of hacking of government agency websites by 394%, especially if they're using what's called free software, open-source software like WordPress and Drupal. Revize does not use that technology. We have a secure, refined content management system developed specifically for non-profit and government class organizations like yourself for use by non-technical individuals to edit the website easily. Revize has a full proof, secure hosting environment that so far has been bulletproof against hackers for over 8 years. We have 3 redundant Server Farms across the whole United States and multiple backups of all the information.

We have worked hard to establish a reputation for creating online community websites that engage, inform, and increase participation of your community. With our help, your community's website can serve your residents better, inspire them more, and get them actively involved in your municipal government. Please contact me if you have any questions at all.

Sincerely,

Danny Callaway
Account Executive

Revize Project Team

Revize has been in business for over 25 years and has over 45 employees. We have more than the adequate number of staff to complete your project within your 28 weeks' time frame.

We understand the importance of having a talented and experienced staff. We are proud of our well-respected team of top-notch experts in the field of government website design, development, analysis, content management, training and support. From the first creative concepts through to the design phases, and from site launch to training of personnel and continued support of your website project, we have the right group of seasoned professionals to work with you through the website process and beyond. We are pleased to introduce them:

Thomas Jean

Project Manager

As a project manager, Thomas has brought to Revize a very special skill set. Not only does he manage some of our highest priority projects, he is also a genuine subject matter expert when it comes to the inner workings of government. As an elected Township Trustee in a Michigan Township, he knows the advantages that come with modernizing the way government does business. Additionally, he serves as President of a registered 501c3 non-profit organization, Genesee Forward, that promotes community development. With his unique background and education from one of the nation's top universities, Thomas is uniquely experienced to give an honest and accurate assessment of your community's website needs.

- Philosophy: Learn as much as possible about our clients and use that knowledge to help build an amazing website.
- Education: BA degree in Political Science from University of Michigan.
- Expertise: Government procedure, special projects, public affairs, community development.
- Role on your website project: Project Manager

Joseph J Nagrant

Business Development Director

Joseph is an accomplished professional internet and website design consultant with more than 20 years of successful business development and account management leadership experience. He has worked with well over 400 townships, cities, counties, educational institutions, companies, and non-profit organizations. He's a foremost expert in translating technical solutions into compelling living websites and other online community building opportunities. Additionally, he is a board member for Mott Community College (Flint, MI) MTEC Center, IT Advisory Council, Education Advisory Group. He also participates in many government discussions regarding the Internet for government use, including being a frequent guest on WDET (NPR) public radio and in The Detroit News. He has an excellent reputation for building and sustaining effective, long lasting client relationships.

- Philosophy: "Put yourself in the client's shoes and do what is best for them."
- Education: BS in Electrical Engineering, Lawrence Tech University, MS in Business, Central Michigan University.
- Expertise: 29+ years of project, sales and marketing experience with government, education, corporate, and non-profit organizations.
- Role on your website project: Supervisor of account management between client and project team.

Ray Akshaya

Technical Director

Ray has 20+ years of extensive technical experience with internet and website solutions. He has worked on hundreds of government, non-profit and educational websites and has a keen eye for web visitor requirements, information architecture, and usability. He is also a long-time veteran of Revize Software Systems and our clients enjoy working with him. In his career, he has deployed and/or assisted with technical solutions for more than 500 websites. When working on a project, Ray always visualizes himself in the client's chair at the closing stages of the project and makes sure that all decisions made on a project are in alignment with the client's vision and best practices for developing the system.

- Philosophy: "Work Hard, Help People and Live Honest."
- Education: MS in Engineering Science, Louisiana State University, Baton Rouge
- Expertise: Client Management, Project Management, Technology Development for CMS & Web Apps
- Role on your website project: Technical Director

Samir Alley

Creative Director

Samir has more than a decade of experience in managing web site design projects. He has deployed 360+ municipal websites and has a solid background in web design and the latest web technologies. Formerly with Google, Samir is a leader equipped to handle any kind of sophisticated web project. He is an exceptional communicator with an innate listening skill that gives him the ability to understand and deploy a client's unspoken needs. Samir's blend of creativity, proficiency, and technical knowledge is unsurpassed in the industry.

- Philosophy: "Empathy, Focus, and... Impute"
- Expertise: Web Project Management - Adobe Design Premium CS5.5: Photoshop, Illustrator, InDesign, Flash, DreamWeaver, Fireworks, HTML, CSS, CSS3, SEO, PHP, JavaScript, MySQL, JQuery and HTML5.
- Role on your website project: Graphic design of website and backup support.

Denise Brazier

Project Manager/Trainer

Denise is an educator by nature. Her 20 years of experience in the public school system has made her a master of engaging participants during training. She effortlessly builds effective relationships with all clients. Denise has served as Advisory Counselor, Coordinator, Publicity Director, and Project Manager for several organizations in the education, non-profit and public sectors. She has been appointed to the state's quality committee evaluating organizational policies and procedures for recognition.

- Philosophy: "Always explain things in the terms of your audience to ensure their understanding"
- Education & Training: MS in the Art of Education from Marygrove College. Certification in Secondary Education
- Expertise: Training, education, teaching, public affairs and project management.
- Role on your website project: Trainer for the Content Management toolset and project manager

Did you know?

Revize will put together a project team based on the unique needs of your project!

Executive Summary

Thank you for considering Revize Software Systems for your new website project. We understand the importance of this undertaking and know how motivated your government/community is to selecting the right vendor; one who will work with you through all the steps required to build the perfect website featuring a plethora of high-quality online services that your constituents will want to use regularly.

In more than two decades of working with government leaders, as well as through nationwide surveys, we have learned that the key to choosing a website vendor is finding the right balance between the total cost of the solution and the quality of the design, online apps and user functionality. In simpler terms, you need a solution that works for you and serves your constituents.

With more than 3,100 government clients nationwide, Revize Software Systems is one of the industry's leading providers. We credit our rapid growth to our 25-year track record of building award-winning government websites and content management systems. When you work with Revize, you're not just a client, you become part of the Revize family and will receive the service and support you need and expect! We are among the most highly respected government website experts in the United States and we proudly stand by our work.

Revize has been a pioneer in implementing the latest trends in design by using Responsive Web Design (RWD). This technology ensures that site visitors have an optimal viewing experience — easy reading and navigation with a minimum of resizing, panning, and scrolling — across a wide range of devices, from desktop monitors to mobile phones. RWD provides flexible and fluid website layouts that adapt to almost any screen. When you implement a dynamic new website powered by Revize, you will not only get an outstanding look, layout and navigation, but you also receive 24/7 access to our Government Communication Center for residents, business and visitors.

Did you know?

Revize will put together a project team based on the unique needs of your project!

Here you will find the communication tools you need such as

- Public Service Request App
- Calendar of Events
- E-Notification Modules
- On-Line Payment Portal
- Facilities Reservations
- News Center with Facebook/Twitter Integration
- Emergency Alerts
- Online Forms / Survey Tools
- E-Newsletter Applications
- Job Posting and Tracking Module
- Public Records Request Track

Our Award-Winning Government CMS

Revize is renowned as a leader in providing practical, high-value, easy to use content management software Government CMS. This simple-to-use yet powerful solution enables clients to manage their online presence with high functionality and style. With applications such as an online document center, public service request app, public records request tracker, agendas and minutes, frequently asked questions and more, Revize ensures that our clients have the tools they need to make information and services available for website users at the click of a mouse.

Quick Deployment, Personalized Training and Support

Revize addresses time concerns by completing websites in considerably less time than our competitors. And because our software is so easy to use, we are also able to effectively train our clients in less than half the time it takes our competitors. Our training program is customized based on each client's needs, and we provide hands on training the way you want it - either onsite or off site through web conferencing tools. We pride ourselves on the skills of our support staff, who are responsive, knowledgeable, and helpful. Our online support portal is available 24X7X365 for issue tracking and management. We also provide phone and email support during regular business hours.

Did you know?

Our technical support staff are trained developers. When you call for tech support, you'll be speaking to staff with direct knowledge of development!

Company Profile

Revize Software Systems was founded in June, 1995 as a "new media" development company specializing in the creation of interactive web design, multimedia content delivered on CD-ROM, and video production. Since then, Revize has made an unsurpassed name for itself in the web/internet industry as THE master of government website design, which remains our specialty. We now boast more than 3,300 clients in North America and have created acclaimed website designs for hundreds of municipalities and counties, as well as government departments and agencies. In September, 1996 as the Internet was becoming a world-wide reality, Revize began developing a Web Content Management System (CMS) for the government market to enable non-technical contributors to quickly and easily update content on their websites. The result was the creation of our state-of-the-art Revize Government CMS. Our mission has always been to enhance the communications of government organizations nationwide with their varied and valued audiences.

Focused exclusively on creative web design, government web apps and content management technologies, Revize continues to invest in its technology, continually adding new capabilities and features that manifest our vision. While many municipalities choose Revize to develop and cost-effectively manage their website content, clients also use Revize as an information-sharing platform. Our suite of Revize Government web-based solutions has proven valuable as a powerful technology that empowers clients to build and maintain sophisticated web sites, all while using the Internet and internal Intranets/Extranets to acquire, analyze, process, summarize and share information – ensuring that the right people always have the right information at the right time

Government Project Experience

Morrow County, Ohio

<https://morrowcountyohio.gov>

This is one of 5 websites Revize has built for Morrow County, Ohio. The Morrow County website design has a delightful and friendly professional county look and feel. This informational website brings together an amazing design with a full suite of web apps to engage the residents they serve. Smooth transitions from the home page to interior pages of this website allow users to find exactly what they are looking for easily. Not only does it serve as a informational programs website but as an inspirational website as well.

Montgomery County, Texas

www.mctx.org

Montgomery County is a County of over 570,000 residents about 36 miles north of Houston, Texas. Montgomery County has many departments with varying levels of needs on the website. The success of any county website relies on balancing these departmental needs, whilst showcasing a unified vision. In this website, we did just that. While respecting the County's history, we also designed the site to towards innovation. Users will notice that they can easily find the most important online services without having to search through line after line of text. Also, the Revize HR application was added into this website for a seamless hiring process. All 3rd party applications are integrated in a way that was right for each department. This website is the perfect mix of functionality and design!

Isle of Wight County, Virginia

www.co.isle-of-wight.va.us

Isle of Wight County is a longtime Revize client. This website was recently redesigned in 2020 to highlight all of what the county has to offer. The design does not overburden the user with too much content. It separates that content into different focus areas. This lets the residents get information in a way that is much more of an experience. The straightforward news and events feature images that promote click-through. With the Revize CMS this County is able to quickly and easily update the website in just a few clicks!

Bell County, Texas

www.bellcountytexas.com

Bell County is a very longtime Revize client. This website was recently redesigned in 2018 to highlight all of what Bell County has to offer. The design does not overburden the user with too much content. It separates that content into different focus areas. This lets the residents get information in a way that is much more of an experience. The straightforward news, and events feature images that promote click-through. With the Revize CMS this County is able to quickly and easily update the website in just a few clicks! It is the perfect design to house all government information to a population of approximately 350,000 residents.

Tipton County, Tennessee

County Design Featuring a Full Width Video

www.tiptonco.com

Tipton County wanted a design unlike any County out there. With this design we pushed the limit of what people think when they see a county website. We integrated a video that plays on the full width homepage. **Using video in this manner increases resident return visits by 59% and 93% of first-time visitors watch the entire video.** In addition, this site features more scrolling than you may notice on more traditional websites. That is a good thing! Users are now, more than ever, viewing websites on their hand-held devices. Some estimates say this is as high as 60% of all internet usage! With more scrolling we are able to give the user a lot of information, without having to squeeze it into such a small space. We use images, icons, and interactive features to create an experience for the user. This type of design also allows us to extend the County's brand in a way that is unmatched in the industry!

Citrus County, Florida

www.citrusbocc.com

Citrus County is a beautiful county in Florida with something to offer everyone. We wanted to make sure their new design was something special for their residents to use on a daily basis. We had a design discovery meeting going over the designs they felt would show off their county in the best light. We used our Resident Usability study results to lay out the Home Page where a resident can get anywhere on the website in one click in a majority of all cases. Their staff was with us every step of the way. Inner pages are flexible to allow departments to have dedicated pages with a cohesive feel across all pages. This website is an elite representation of the power and beauty of the Revize process.

The City of Largo, Florida

www.largo.com

The City of Largo, Florida is a clear example of how we adapt to our clients' needs and custom tailor our process. During our discovery meeting, we determined that, in addition to the city website, there were some overarching goals of tourism, downtown development, performing arts center, and increasing the library's presence online. Therefore, instead of "shoehorning" those departments in the main City website, we built a new City website, DDA website, Performing Arts Center website, and Library website, all with a similar brand but a unique design. Our focus is to help achieve the goals of our clients. While we cannot guarantee this type of addition, we are always looking for ways to deliver more than our clients expect!

Revize Quote

Phase 1: Project Planning and Analysis, SOW	\$750
Phase 2: Discovery & Design from scratch - One concept, three rounds of changes, home page design, and inner page design, includes Responsive Web Programming for great viewing on mobile screens.	\$7,750
Phase 3 & 4: Template Development - Set-up all CMS modules listed on the following page with I-framing or linking to any additional 3rd party web application. You also receive all updates to all CMS modules for the life of your Revize relationship. And you own the technology, design and content!	\$8,000
Temporary Webgen Site	\$2,000
Phase 5: QA Testing	\$1,250
Phase 6: Site map development/content reorganization and migration from old website into new website including spell checking and style corrections – up to 1,000 webpages and documents (approximate amount on your website today). To help remove stale content, Revize will not be moving over old announcements, events, or calendar items.	\$2,500
Phase 7: Content editing and site administration training via web conference (one day session up to 8 hours)	Included
Phase 8: Go Live!	Included
Annual Fee, pre-paid: Includes Unlimited Tech Support, CMS software updates (up to 3 users), Email services, security software updates, SSL security certificate, and website health checks. Website hosting Included free of charge (10 GB storage space, 100GB monthly bandwidth limit) with pre-paid annual fee (no email services):	\$8,450
Grand Total (1st year) Second year and onward investment	\$30,700 \$8,450/year

Free website design refresh after year four of service if client signs a 5-year locked-in rate agreement.

Flexible Payment Option

Offers local governments an alternative payment plan that makes it easier to purchase a new website on your budget and spreads the one-time project design and development costs over a longer period of time. Through a 5-year contract, The Revize Client First Plan dramatically lowers the one-time project development and start-up costs of launching a new website. What Revize does is combine the one-time and recurring fees and spreading them over the life of the contract. And because we value our continuing relationships with our customers, [you will receive a website design refresh at the beginning of your fourth year with Revize, Free of Charge.](#)

The Revize Client First Plan Annual Recurring Fees – Interest Free

First Year	\$12,900
Second Year.....	\$12,900
Third Year.....	\$12,900
Fourth Year.....	\$12,900
Fifth Year.....	\$12,900

Website Features Included

The Following Applications & Features will be integrated into Your Website:
In addition to the Government Content Management System that enables non-technical staff to easily and quickly create/update content in the new web site, Revize provides a suite of applications and features specifically designed for government. All of those apps and features are fully described in the following section. The applications and features are grouped into five categories:

- **Citizen's Communication Center Apps**
- **Citizen's Engagement Center Apps**
- **Staff Productivity Apps**
- **Site Administration and Security Features**
- **Mobile Device and Accessibility Features**

Citizen's Communication Center Apps

- Home Page Alert
- Document Center with Keyword Search
- FAQs with Keyword Search
- Public Service Request App
- Staff Directory with Keyword Search
- E-Notifications (Text & Email)

- News Center with Facebook/Twitter Integration
- "Share This" Social Media App
- Interactive Forms App
- Web Calendars
- Photo/Video Galleries
- Quick Link Buttons
- Sliding Feature Bar
- Language Translator

Citizen's Engagement Center Apps

- Citizen Request Center with Captcha
- RSS Feed

Staff Productivity Apps

- Image Manager
- iCal Integration
- Link Checker
- Menu Manager
- Online Web Form Builder with drag & drop text fields
- Website Content Archiving
- Website Content Scheduling

Site Administration and Security Features

- Audit Trail
- Drag and Drop Menu Management
- Drag and Drop Picture Management
- Drag and Drop Document Management
- History Log
- URL Redirect Setup
- Roles and Permission-based Security Mode
- Secure Site Gateway
- Unique Login/Password for each Content Editor
- Web Statistics and Analytics Dashboard

Mobile Device and Accessibility Features

- ADA Compliant WCAG 2.1 AA
- ADA Accessibility Widget

Hosting Service

Revize has partnered with Amazon Web Services (AWS) and Google Cloud Service Platform (GCP) for its LIVE WEB server hosting infrastructure needs. Both AWS and GCP are industry leaders in high availability cloud server architecture, both server farm infrastructure is highly secured, scalable, and redundant for 24/7/365 availability. Snapshot/Mirror Image backups of all our cloud servers guarantees 100% data protection and recovery in case of any disaster. Also, Revize has dedicated CMS servers in two state-of-the-art physical data centers located in Chicago and Detroit. Onsite/Offsite data backups of all our dedicated servers are scheduled nightly with R1Soft backup service. Additionally, Revize utilizes multiple Tier 1 bandwidth providers such as Level 3, Wiltel, and Cogent for redundancy and continuous connectivity. These procedures provide our clients with up to 500Mbps of fast fiber optic up-stream connectivity.

Revize hosts your web sites and web applications on redundant (3 TB Hard Drive, 3.2 GHz CPU and 32 GB RAM) servers to provide enhanced performance and reliability. The Revize technology architecture physically separates the CMS from the website to provide another layer of redundancy/security. With this model, we keep an up-to-the-minute exact duplicate of your website in the event your site must be restored. Revize support staff will simply republish your site within a guaranteed two hours (as opposed to several hours or days' time frame our competitors offer).

Revize will host both your Extranet and Intranet; your Intranet is secure and only accessible by authorized users through a login system.

There are no special software requirements to run a Revize hosted website and CMS solution. We make it all very simple. All you need is an internet connection and a browser. We also provide complete maintenance of your website, which includes but is not limited to: OS patches, intrusion prevention, antivirus, and software upgrades.

Final Phase: You Go Live!

At last, your website content is complete and your staff is sufficiently trained! The final phase in the process is to redirect your website domain name from your old site to your beautiful new one. Once this is completed, Revize will closely monitor the transfer for the first 24 hours to ensure that everything is working properly. Any issues that arise will be immediately resolved.

Marketing & Ongoing Consultation

Revize seizes on every effort to make our clients' sites highly visible. We draft press releases for posting on our website and for distribution locally, and will continuously monitor your site after it goes live so that you can take advantage of all marketing

opportunities. We also look to submit your site for different awards and recognition competitions to further maximize your site's exposure.

Search Engine Registration and Marketing

Revize will input all the targeted keywords to make your web pages search engine friendly, thus enabling users to find targeted information when they do a Google, Yahoo or any other search on your site.

Security

Revize takes website security very seriously and we provide our clients with the very best website protection protocols. Our data centers are located on secure premises equipped with card-reader access, security cameras and guards on duty 24/7 to ensure the physical protection from unauthorized entry.

Our web and network administrators monitor network activity 24-hours-a-day to ensure system integrity and protection against threats such as Denial of Service (DoS) attacks that could corrupt your website or block user access. Maintaining the secure configuration of our web servers is managed through application of appropriate patches and upgrades, security testing, vulnerability scans, monitoring of logs, and backups of data and OS.

Security Controls, SSL, and Active Directory (LDAP)

- Anti-malware software such as antivirus software, anti-spyware software, and rootkit detectors
- Shield Plus Security Bundle to prevent DDoS attacks
- Intrusion detection and prevention software (such as file integrity checking software)
- Host-based firewalls to protect CMS servers from unauthorized access
- Patch management software
- Security and Authentication Gateways
- Content filters, which can monitor traffic to and from the web server for potentially sensitive or inappropriate data and take action as necessary
- HTTPS (Hypertext Transfer Protocol over SSL), which provides encryption and decryption for user page requests that require more secure online transactions
- SSL (Secure Socket Layer) provides an encrypted end-to-end data path between a client and a server regardless of platform or OS
- If you have an existing SSL Certificate we can transfer it to the new website. Otherwise, if included, we will install a new SSL Certificate upon go live.
- Active Directory (LDAP) is compatible with the Revize CMS. It can be set up in a variety of configurations. As part of the process we will work with you to determine which configuration will best meet your needs.

Application Security Authentication

- Role-Based Security: Role-based authentication to add individual user accounts and assign them system roles like Editor, Developer, Administrator, Workflow Approvers, etc., or department roles and empower the department to assign specific roles to users.
- Permission-Based Security: Ability to set up Content Owners/Editors and restrict which site pages they are authorized to update
 - Global & Department Workflow Management: Create workflow management and approval processes where authorized department personnel become approvers

Did you know?

Software Maintenance

Revize rolls out two new versions of the Revize CMS, and six to eight product updates every year. The Revize CMS is continuously enhanced to keep pace with cutting edge technologies and industry trends. When a software update or new version is rolled out, Revize will automatically update all servers used by our subscription service clients.

“As a Revize client, you will receive full access to all enhancements to the core components and modules in the Revize CMS at no additional charge.”

Revize Website Analytics

Revize has Custom APIs for Google Web Analytics that is integrated in each of our client's websites. Analytics makes it easy to understand how your site and app users are engaging with your content, so you know what's working and what's not. Revize CMS dashboard for Analytics provides an overall picture of how residents are interacting with your site, which pages/documents are being viewed most, how much traffic you are getting in your site across different geographic regions etc. You can filter and download all sorts of analytics reports for your IT Team and Management to analyze the data and effectiveness of your website content and services offered. Below is a graphical view of our analytics dashboard interface, the data shown is for our own website but this will be replaced by your site data when it's integrated.
