

Reminder: the Texas Freight Mobility Plan 2017 is now available online for public review and comment. The public comment period will be open for three more weeks, until October 26, 2017. Click [HERE](#) to access the document.

In 2016, TxDOT released the Texas Freight Mobility Plan, the agency's first comprehensive multimodal transportation plan focused on the state's freight industry. The Texas Freight Mobility Plan 2017 allows TxDOT to refresh data sources, add critical elements, and comply with new federal legislation. The Texas Freight Mobility Plan 2017 has been developed to meet the requirements of the current federal transportation act, the Fixing America's Surface Transportation (FAST) Act. TxDOT wants to hear from public and private freight industry stakeholders, and all interested parties, to ensure the updated plan captures the state's freight needs.

Interested parties are invited to download the plan document and appendices. **Comments will be accepted for a 30-day period between September 26, 2017 and October 26, 2017.** Comments may be submitted via:

- Email at TxDOT_Freight@txdot.gov
- Postal mail addressed to TxDOT Freight and International Trade Section, 125 E. 11th St., Austin, TX 78704 (mailed comments must be postmarked by October 26, 2017)

If you have questions or need additional information, please contact Kale Driemeier at 512-936-0961 or kale.driemeier@txdot.gov.
