Re: Building Permit Issued

Judge Oakley & Commissioner Luther:

Why do you think Americans have lost confidence in their elected officials?
It is proven again and again that politicians do **NOT** represent the interests of their constituents.
Case and point; the **NON ACTION** of the commissioners' court on Tuesday, July 24, 2018 regarding the building permit issued to Jeff Maddox for the development project on Inks Lake.

Note of interest – this property is on the tax records as **UN-DEVELOPABLE** – Interesting.
Burnet County has been taxing this property at little to no value for lo-these-many years!
How can that be when Burnet County issued a building permit?

Do you politicians take a class on talking out of both sides of your mouth?
I have to wonder; I vividly remember hearing **both** of you state that **you as representatives of the Burnet County Commissioners Court** (along with the property owners surrounding Inks Lake) think that the development of the peninsula **will** put lives and property at risk. Yet you say nothing in open court. It's a shame that we cannot count on our elected officials to stand behind their words.

This is not over – and we will let it be known to all – this is a dangerous situation.

Your *former* supporter,

Pam Teich Ferguson
