Lower Colorado River Authority
Phil Wilson, General Manager

Phil -

Please accept this communication on behalf of the Burnet County Commissioners Court. Based on citizen's request, our court considered and unanimously approved an agenda item on August the 27th concerning advancing a request to lower the level of Lake LBJ for an appropriate duration within the winter timeframe if, and only if, the inflow conditions for such a lowering are conducive. We would never want to degrade or jeopardize the level of Lake Buchanan to refill such a lowering.

Thank you for your consideration of this request that would allow for continued repairs and debris removal from the October flood.

A handwritten signature in black ink, appearing to read "J. Oakley", is written over a light blue horizontal line.
