- Quoted prices are good for 14 days.
- Order pricing will be held for 16 weeks from the date listed on page 1 of this Purchase Agreement.
- Pricing will be subject to price of steel increases if payment is not received at time of delivery or offer to deliver.
- Pricing will not be affected if delivery schedule cannot be met by Mueller.
- Changes (change orders) applied to this Purchase Agreement will incur monetary changes, including but not limited to changes in scope of work and price of steel increases.

Schedule Dates:

Approval Drawings Sent Week Of: _____

Building Delivery Week Of: _____

Returned: _____

Approval Drawings must be returned "Approved" within 10 business days to maintain schedule. Anchor bolts (if included) will be sent after final approval of drawings

Notes: Any specification changes may void this Purchase Agreement. This purchase agreement is void without the signatures of the customer and Mueller Representative. The above dates are valid only if this agreement and deposit are returned within 5 working days from this date:

Terms and Conditions

Date: 3/12/2019

- 1) **Mueller:** When the word "Mueller" is used in this document, it shall be construed to mean Mueller, Inc.
- 2) **Material To Be Furnished:** This Order Document covers only items specifically set out in this document. In the event of conflict between drawings, specifications, and this document, only material listed herein will be furnished. All materials furnished are to be governed by Mueller specifications, and any variance or deviation from the Mueller Order Document must be so stated. All other material furnished will be at extra charge. Due to a program of continuing improvement, product literature and specifications are subject to change without notice.
- 3) **MBMA Manual:** The Metal Building Manufacturers Association "COMMON INDUSTRY PRACTICES" section, 2012 edition, is part of this Order Document as though fully set forth herein. By execution of this Order Document, Buyer acknowledges knowledge of this standard and complete familiarity with the contents thereof.
- 4) **Taxes:** Except as otherwise expressly provided herein, all excise, privilege, occupation, sales, use, personal property, and other taxes applicable to the sale, purchase, construction, use or ownership of any of Mueller's products and/or work provided herein, and for which Mueller shall be liable to collect or pay, shall be added to the Order Document and shall be paid by Buyer. Buyer further agrees to indemnify and hold harmless Mueller against any state or federal taxes.
- 5) **Freight:** Freight is "F.O.B. Jobsite". Delivery as scheduled, as much as practical, at the convenience of the Buyer. Buyer assumes full responsibility for furnishing Mueller adequate roadways to construction site. Buyer agrees to make available a safe passable location for unloading. If, in the opinion of the driver, it is impractical to reach the site to off load, the point of delivery shall be that place where, in the opinion of the driver, off loading may reasonably proceed.
- 6) **Shortages and Damages:** If, in the opinion of the Buyer, any material damaged prior to receipt by Buyer to a degree that will prevent use of such material with minor field repair, delivery of damaged material shall be refused by Buyer, noted by item as "damaged" on shipping documents and returned on delivery truck to Mueller or to common carrier. Under no circumstances shall damaged material which cannot be used with minor field repair be unloaded at jobsite. Mueller shall not be liable for the correction of errors in design, detailing, manufacturing, or shipping if Buyer does not comply with the provisions of MBMA "Common Industry Practices", 2012 edition, governing the correction of errors and repairs, and material count. It is specifically agreed that claims for errors, shortages, imperfections, and deficiencies will not be entertained by Mueller unless made in writing to the appropriate sales department of Mueller within three (3) days after receipt of goods, and Mueller shall not in any event be liable for labor charges or consequential damages arising from the use of defective materials. It is further agreed that no backcharges or offsets of any kind will be accepted by Mueller unless agreed to in writing before any work is done. The maximum hourly rate for labor allowed by Mueller for said backcharges shall not exceed \$30.00 per hour. All documentation as required by Mueller and all claims must be submitted to Mueller within six (6) months of shipment. Any applicable statute of limitations shall begin to run not later than the shipment of the Mueller Material and Mueller's liability is limited to and shall not exceed the amount of the fee paid to Mueller for completion of the scope of work on this project.
- 7) **WARRANTY. MUELLER MAKES NO WARRANTIES EXCEPT THAT MATERIAL PROVIDED UNDER THIS AGREEMENT SHALL CONFORM TO MUELLER'S STANDARD WARRANTIES, IF ANY, IN EFFECT AT THE TIME OF THIS AGREEMENT. MUELLER'S LIABILITY IS LIMITED AS SET FORTH ON ITS STANDARD WARRANTIES, AND UNDER NO CIRCUMSTANCES SHALL SELLER BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES. SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF WORKMANSHIP, MERCHANTABILITY, SUITABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ALL OF WHICH ARE HEREBY DISCLAIMED BY SELLER AND WAIVED BY BUYER. SELLER MAY DELIVER, BY SEPARATE DOCUMENT, CERTAIN LIMITED WARRANTIES TO BUYER, WHICH LIMITED WARRANTIES MUST BE SIGNED BY BOTH SELLER AND BUYER PRIOR TO OR AT THE TIME OF DELIVERY TO BUYER TO BE EFFECTIVE.**
- 8) **Delay:** Mueller shall not be liable for any direct, consequential, or liquidated damages including loss of use which Buyer may suffer by reason of Mueller's delays in the performance of this agreement resulting from circumstances beyond Mueller's reasonable control. Causes of such delays include, but are not limited to strikes, fires, floods, storms, riots, differences with workmen, loss or damage of materials, inability to obtain workmen or materials, excessive backlog, or other circumstances beyond Mueller's reasonable control. Should any work agreed to be performed by Mueller be interrupted or delayed by Buyer in excess of 60 days on account of factors beyond Mueller's control, then upon notice by Mueller of such interruption or delay, Buyer will pay Mueller the total of Mueller's costs of materials and work performed, plus current overhead costs and 10% of the herein agreed consideration. Delivery time on materials not normally carried in the stock of Mueller shall be predicted upon the availability to Mueller of this particular type of material. In the event the buyer delays delivery beyond the "must ship by date" price increases encountered by Mueller shall be passed along to the Buyer. Should the Buyer enter an order for permit or approval hold, Mueller may invoice at the time of delivery of drawings. In the event Buyer delays the approval of drawings by more than thirty (30) days after receiving same or requests a delay in fabrication beyond thirty (30) days of scheduled fabrication, Mueller may invoice Buyer for any services performed and any special materials purchased for the project and the price quote herein shall be subject to revision at Mueller's option. In the event Buyer delays delivery of building and/or parts after fabrication is complete and ready to ship, Mueller will immediately invoice Buyer for the total amount which shall be due and payable upon receipt of invoice. Mueller also reserves the right to charge the Buyer for storage at prevailing rates. Material stored at Mueller is subject to deterioration due to the effects of weather and such deterioration is not cause by rejection.

Terms and Conditions

Date: 3/12/2019

- 9) **Insurance:** Mueller agrees to carry Workman's Compensation insurance as required by the laws of the State where Mueller's work is performed. Mueller agrees to carry Workman's Compensation insurance and Comprehensive General Liability insurance, including Property Damage, and Automobile Liability, covering work performed by Mueller. Certificates of insurance coverage will be forwarded upon request. All other forms of insurance will be carried by Builder/Buyer, unless otherwise agreed in writing. The Buyer agrees that the Buyer or Owner will procure Buyers Risk Insurance, without cost to Mueller, covering Mueller's material, equipment, and labor for standard all-risk perils of loss including collapse, and such policy shall contain a waiver of subrogation toward Mueller. Mueller shall receive a share of any payments of loss under such policy as its interest may appear and any deductible therein shall be to the Buyer's account. While Mueller shall be responsible for actual damages caused solely by Mueller's negligence, Buyer agrees to defend and hold harmless Mueller from any and all claims, suits, damages, losses, and expenses arising out of or in connection with any alleged or real injury (including death or total destruction) to any person or property which results from the work performed or the materials supplied hereunder, the Buyer acknowledges that Mueller's work hereunder is performed in accordance with the Order Document and Mueller specifications only without limiting the above. If retrofit, materials or materials extend any existing structures and/or labor are supplied hereunder, Mueller's negligence shall not include anything which results from transfer of any load to the existing structure. The Buyer acknowledges further that Mueller has not performed any tests of suitability of the materials of work supplied hereunder and Buyer has not relied on Mueller's statement, promises or assurances in regard to such suitability.
- 10) **Credit:** Reasonable doubt on the part of Mueller of Buyer's financial responsibility shall entitle Mueller to stop operations, decline shipment, without delivery of any material in transit, or to exercise any other rights or remedies Mueller possesses in law and/or equity, without liability whatsoever unto Mueller, until Buyer shall have paid for all material referred to in this proposal, or satisfied Mueller of its financial responsibility. It is further agreed that Buyer will pay all costs of collecting, securing, or attempting to collect or secure any indebtedness which may be hereunder, including a reasonable attorney's fee, whether the same be collected or secured by suit or otherwise. Should Buyer fail to make payment upon terms designated by Mueller, a penalty of 1 ½ percent per month shall be levied on the 5th day of delinquency, and each 30th day thereafter, based on the balance of any invoice resulting from this Order Document or approved change orders. If state law of Buyer prohibits this rate, the interest charged in the annual percentage rate will be the maximum allowed by state law. Payment for all materials delivered shall become due immediately upon delivery in accordance with the terms stated within this Order Document. In the event payment terms are not stated within this Order document, all material become due on delivery or offer to deliver at the option of Mueller.
- 11) **Code Compliance:** Buyer agrees that it will be Buyer's responsibility to see that any building ordered from Mueller meets the local codes or regulations. Mueller guarantees only that the buildings will meet specific loadings outlined in the Order Document. Buyer understands that Mueller's engineer is not the engineer of record. Mueller reserves the right to change design or make structural substitutions which do not materially affect the strength or structural integrity of the buildings covered under this proposal. The "Design Practice" section of the MBMA Manual, 2006 edition, may be used as a general reference guide for clarification and interpretation of design load application.
- 12) **Acceptance and Cancellation:** This proposal is subsequent to Buyer's acceptance within 14 days. Thereupon, this proposal will become a Contract and final expression of agreement between Buyer and Mueller relating to the materials and/or work herein proposed to be sold. The Order Acceptance Letter issued by Mueller shall be an integral part of this order. After acceptance and under said Order Document from the date of acceptance through the date of cancellation. This Order Document cannot be modified except in writing signed by both parties. In the event of modification of this Order Document, any such modification shall be deemed to include all provisions of this Order Document.
- 13) **Assignment:** Neither party shall assign this Order Document or sublet it as a whole without written consent of the other.
- 14) **Enforcement:** In the event that any one or more of the provisions contained herein shall for any reason be held to be unenforceable in any reason be held to be unenforceable in any respect, such unenforceability shall not affect any of the provisions of this agreement, but this agreement shall be construed as if such unenforceable provisions have never been contained herein. All questions of enforceability and interpretation which may arise under this agreement shall be construed in accordance with and determined by the provisions of the Uniform Commercial Code.
- 15) **Entire Agreement:** This writing is intended by the parties as a final expression of their agreement, and it is intended also as a complete and exclusive statement of terms of their agreement. It is specifically understood and agreed that Mueller shall have no liability whatsoever under any contract between the buyer and other parties, unless Mueller agrees thereto in writing at the time of acceptance of the proposal. No purchase order issued in conjunction with this order shall be binding unless specifically agreed to in writing by a Mueller Manager.
- 16) **Special Inspection:** Proposal and Contract contains no provision for special inspection requirements by outside parties. If a fabrication inspection is required Mueller must be notified a minimum of four (4) weeks prior to the scheduled delivery date. According to the AISC Code of Standard Practice, Section 6.5, "Acceptance of the prepared surface must be made prior to application of primed coat, because the degree of surface preparation cannot be readily verified after Painting" AISC 6.5.3 goes on to say "The fabricator's workmanship on surface preparation is considered accepted by the owner unless specifically disapproved prior to paint application." Therefore, the inspection must take place at Mueller's manufacturing facility prior to application of the primer without interruption to production of any materials. Such items as inspector fees, travel expenses, and special inspection equipment are not by Mueller. Since Mueller fabricates from "No Picture Drawings", the AWS modified and approved welding procedures can only be adequately inspected on our site. Shop drawings cannot be provided off site. Any conditions inspected must pertain specifically to the materials manufactured by Mueller for this order. Refer to MBMA "Common Industry Practices" (see section 4.2.6 of the 2006 edition of the Metal Building Systems Manual). Field Inspections of any nature are not within the scope of work of this order.
- 17) **Order Documents:** It shall be the responsibility of Buyer to carefully check order acknowledgements immediately upon receipt and to notify Mueller of any discrepancy. This order document is governed under the laws of the state where the order is accepted.

Terms and Conditions

Date: 3/12/2019

- 18) **Force Majeure Event:** Neither Mueller nor the Buyer shall be liable for any delay in or inability to complete the performance of the Agreement because of unforeseen circumstances beyond their respective control, such as acts of God, industrial conflicts (including without limitation strikes, lockouts, and work interruptions), government rules, regulations, suspensions or requisitions of any kind, fires, casualties or accidents. Either party affected by a Force Majeure event shall promptly upon learning of such event give notice to the other party, stating the nature of the Force Majeure event, its anticipated duration, and all actions being taken to avoid or minimize its effect.
- 19) **Governing Law and Venue:** The Order Document shall be governed by and construed in accordance with the laws of the State of Texas. Each party, acting for itself and its successors and assigns, hereby expressly and irrevocably consents to the jurisdiction of and venue in the courts of the State of Texas, as well as the United States District Court for the Northern District of Texas, for the confirmation and enforcement of any arbitration award or for any litigation which may arise out of or be related to the Order Document, or any other agreement related hereto. Both Buyer and Seller waive any objection based on *forum non-convenes* or any objection to venue of any such action.

End of Terms & Conditions

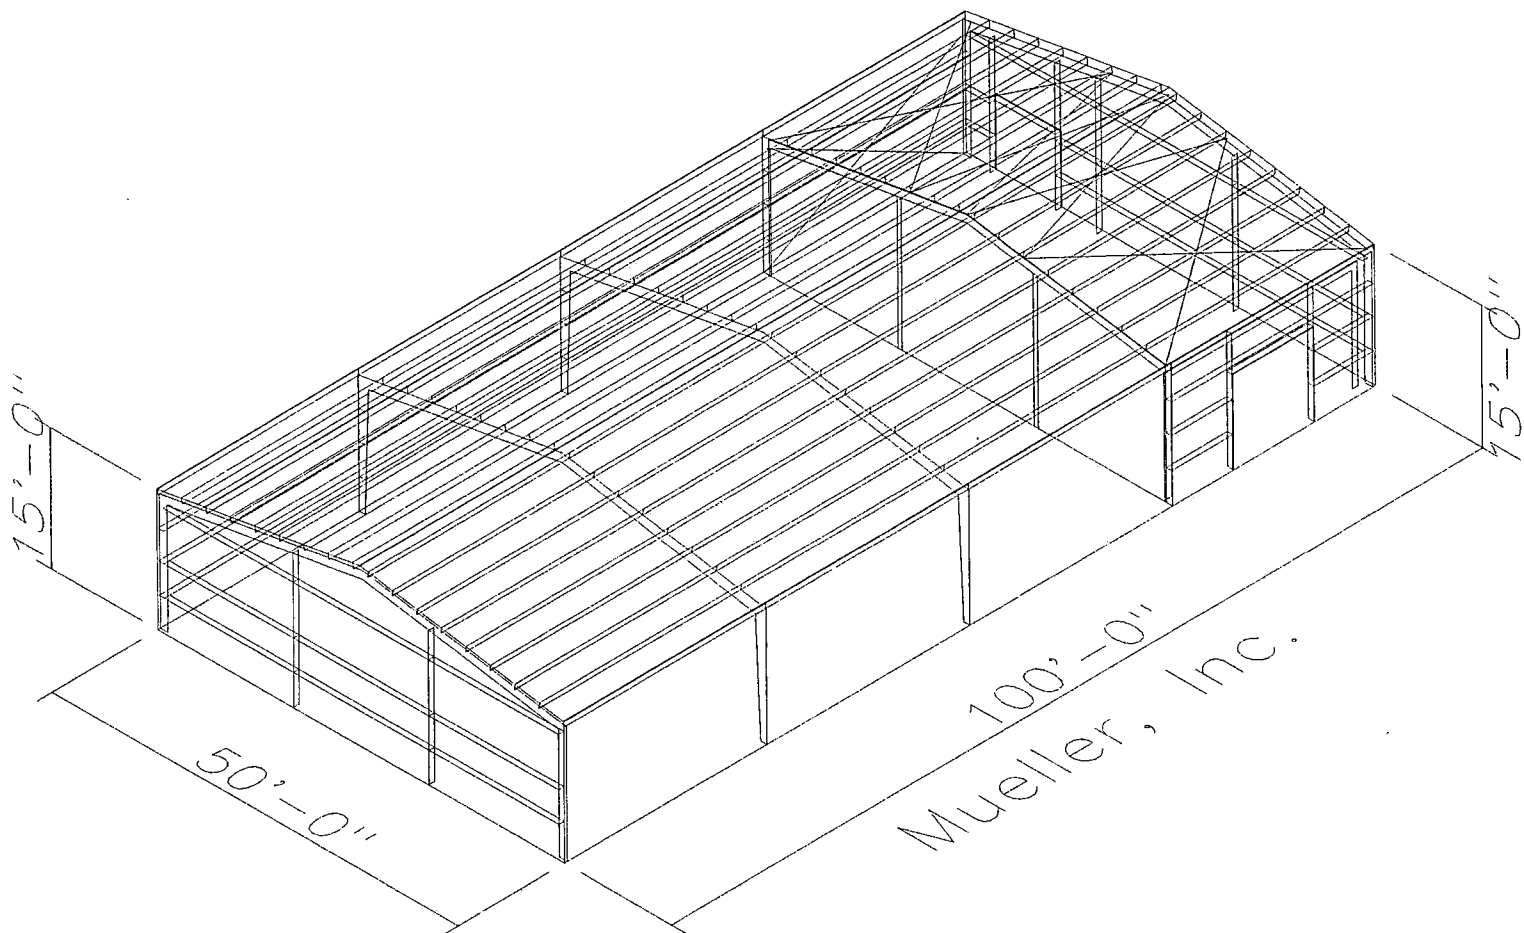

Buyer understands that by signing below, it accepts this Agreement, and its terms and conditions become legally binding on Buyer at the time of Seller's acceptance. Prior to accepting this Agreement, Seller encourages Buyer to carefully review this Agreement and, if desired, consult professional legal counsel. Prior to Buyer's acceptance of this Agreement, Seller also encourages Buyer to contest and negotiate with Seller any terms or conditions of this Agreement that Buyer deems objectionable or unacceptable.

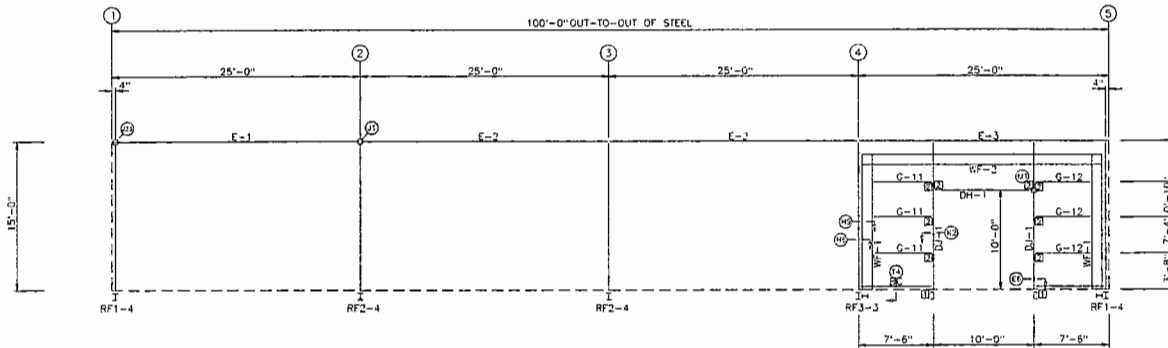

This Agreement entered into as of the day and year first written above by:
