Stephanie,

Will you please place the following on the next agenda:

- * Discussion and/or action to accept 15 hot spots from the Tocker Foundation to be utilized by the Bertram Library.

Backup to follow.

Thanks,

Karin

Ok. I will talk to you maybe later today to get that on the next CC. The monthly service is covered by another company.

Donations as well as grants need to go through Commissioners Court for approval. Does the grant cover the monthly service?

Ok. Just so everyone understands, and it may not make a difference, Bertram did not complete a grant for these hotspots. We were chosen as well as Blanco and Llano libraries to receive them.

512 - 627 - 7480

Thanks for yall's help. Have a great day.

Thanks Ann-

I'm going to defer to Karin to see if we need to recognize the grant award, etc... on these units.

Morning Judge,

Going back to the end of January when we first met at PEC in Marble Falls with Connected Nation and the other counties. If you remember Tocker Foundation in Austin gifted Bertram Library/Friends with 10 hotspots. We have had some setbacks in moving forward with the hotspots. The carrier has now changed and we are ready to move forward. My question, is this something that needs to go through Commissioners Court? At this time all we have to do is put a barcode on them and enter them into our library cataloging system and they will be ready for check out. Patron's will be required to sign user agreements and hotspots will be checked out limited time periods.

Thanks,
