

June 16th, 2020

Dear Sponsor,

On June 8th, 2020, the Transportation Policy Board (TPB) of the Capital Area Metropolitan Planning Organization (CAMPO), in partnership with the Texas Department of Transportation (TxDOT) – Austin District, took the significant step of reprioritizing \$633 million from currently funded projects to contribute to the construction of the IH-35 Capital Express Central Project, which will address the most significant transportation issue in the region and one of the most important priorities of the state. Unfortunately, the reprioritization process necessitated the deferral of many projects currently funded through state and federal resources. We understand the significant impacts this action will have for improving regional mobility and what it may represent for the development and implementation of individual projects.

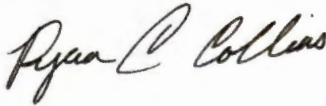

Projects funded with Surface Transportation Block Grant (Category 7) funding were selected to be deferred, maintained, or partially maintained by the TPB through an extensive process outlined in the Special Funding Report, with the TPB approving the recommendations in Baseline Scenario C. The TxDOT – Austin District approved a companion selection of regional projects funded with Categories 2, 4, and 12. A complete list of projects and the approved decisions can be found in the accompanying lists. Additional information on the selection process can be found in the Special Funding Report.

Category 7 projects with full or partial funding maintained will be listed as required in the 2021 – 2024 Transportation Improvement Program (TIP), Statewide Transportation Improvement Program (STIP) and the 2045 Regional Transportation Plan (RTP). As a reminder, maintained projects must adhere to the TPB policy that requires projects to demonstrate continual development progress or funding will be considered for immediate deobligation and reallocation at the discretion of the TPB.

At the direction of the TPB at the June 8, 2020 meeting, deferred projects will be removed from the main body of the TIP, listed in an illustrative list in the appendices, and included in the 2045 RTP. Sponsors are strongly encouraged to continue developing deferred projects as applicable including the completion of preliminary engineering, public involvement, right-of-way acquisition, and environmental clearance to ensure that the projects demonstrate the appropriate readiness in order to be considered for funding in the future as financial resources become available.

If you have any questions about the process, decision or next steps for Category 7 funded projects, please contact me at ryan.collins@campotexas.org or contact your TxDOT – Area Office representative for questions regarding your current or pending Advanced Funding Agreement. For any questions regarding projects funded with Category 2, 4, or 12 please contact the TxDOT – Austin District.

Sincerely,

Ryan Collins
Short Range Planning Manager
Capital Area Metropolitan Planning Organization
