Judge Oakley,

What a sickening and heartbreaking story about Commissioner Wall's livestock being found so emaciated. I tried to leave a message at Commissioner Wall's office, but his voice mailbox is of course full. Judge Oakley, you should demand his resignation immediately, such that the County Court takes a position condemning this conduct by one of your members. I hope that Commissioner Wall will face criminal penalties for his actions as well, to the extent he is personally liable. His actions are inexcusable, and you as a leader should stand up and say so.

Respectfully, Bill Coskey
