

PUBLIC COMMENTS, COMMISSIONERS COURT, JULY 25, 2023

Good morning, gentlemen, Claire Nybro here. I have handouts again, to be included in the public record. Thank you.

You all were all missed at the election fraud event Sunday night in Fredericksburg. (By the way, I'm calling it "election fraud" now because no one involved in the fraud has any integrity whatsoever.) But you can educate & redeem yourselves by coming to tonight's event in Liberty Hill, beginning at 6 PM at Main Street Social, with Tina Peters and Dr. Daugherity. You'll recall this is the second event I've invited you to that none of you attended. Dr. Daugherity can explain in great detail the many ways in which our elections are co-opted and subverted by the corporate and government gangsters. Yes, election fraud is highly organized crime.

It's quite fascinating how they do it, in an evil, Machiavellian manner. It's just one of the ways in which we working class slobs have been duped, and we've swallowed their lies for far too long, but not anymore. Their crimes have become too treasonous and too obvious to overlook, and they are becoming more panic-stricken every day as they struggle under the weight of their lies. Elections are the lynchpin for all of their crimes - everything rests on controlling who gets elected. Do you know who the 2 Joes are who said, "Those who vote decide nothing. Those who COUNT THE VOTE decide everything"? Those 2 Joes would be Joe Biden and Joseph Stalin.

Five states now have counties that are going back to hand marked and counted paper ballots: California, Arizona, New Mexico, Arkansas, and, as of yesterday, Spalding County, Georgia. Citizen auditors are helping to take back our country.

Which county in Texas will go down in history as the first to complete the Tally Texas Two Step?

Step #1 is Get The Machines Out.

Step #2 is Adopt Chapter 65.

Visit www.tallytexas.org.

Thank you for your time, gentlemen.
