

## Voting Problems

Voting at Home

Early Voting

Mail-in Ballots

Paper Ballots put into

Drop Boxes for

Unmarked Trucks deliver them to

Counting Centers after Closing

Centers for in-Person Voting

Ballot Counting with NO Inspection

Ballot Totals delivered for Tabulating

Election Results 24 to 48 hrs later.

Thousands of People Involved in the  
Voting Centers, Drop Boxes, Delivery  
for Tabulation, Rental spaces, etc.  
Approximate Cost \$500,000,000.

"Too Many People Stirring  
The Pot Spoils The Broth"

The same Information would be sent to everyone's Cell Phone, that's is on the  
Ballot Voting Forms. Less Cost and Time to Print the Forms and Count them.

The Electronic Data sent to the Cell Phones then forward to the Tabulating Center  
on the largest and fastest Super-Computer in Austin Texas.

Biggest problem is to insure NO Immigrants will be allowed to Vote period!!!

I recommend running BOTH voting systems at the same time to prove the point  
the Cell Phone is Faster and more Accurate, and results in 4hrs instead of DAYS.

For more information please call me at 760-805-6241

## Voting Problem Solved

Voting at Home on Cell Phones is easy.  
All voting across the country starts at  
7pm in each time zone, E to W in 4hrs.

Election Results announced in 4 hours.  
Only 12 to 14 people required.  
A fraction of the cost and time \$2million.

# How you can defeat radical leftism

## *The Heritage Foundation*

Dear Fellow Patriot,

The next presidential administration could be a turning point for our country.

After years of inflation, open borders, reckless spending, and rampant crime, America desperately needs effective governance grounded in our founding principles.

Unfortunately, a conservative victory in the next election is not enough to save our country.

That's because today, the deep state controls D.C.

**Regardless of who is in office, career bureaucrats in our federal agencies like the Justice Department, Environmental Protection Agency, and the State Department independently push their own leftist agendas.**

In order to implement common-sense, conservative policies, we must have a plan to rein in these agencies and replace these leftist bureaucrats with principled conservatives.
