To Burnet County Elected Officials:

Please note that the county website shown below, where the defective Notice (screenshot below) was posted up until ~8AM today, has been updated however the webpage is one where members of the Public generally go to see about meeting dates and to see the agenda.

When considering the high level of public interest in the agenda topics, we have to wonder if proper Notice was given.

Apologies for all the recent emails.

Thank you for your time and attention,

[REDACTED]

Good morning,

1. Is there no meeting tomorrow?
2. The hyperlink for "Proposed Budget Notices and Hearings" doesn't link to anything.
3. The "Proposed Tax Rate Notice" also doesn't link to anything.
4. Maybe there aren't any budget and tax rate notices required yet?
