

COMMISSIONERS MEETING
6/28/2024
Agenda Item #27 "Old Business"
Questions on Record Regarding Special Audit

Judge Oakley: 27 is previous agenda items, I don't have anything there, we have the 28.....

Commissioner Billy Wall: Judge?

JO: Yes, sir?

Charlie Parker: I have some questions to ask on an item....

JO: Okay.

CP: If I can speak.

JO: Okay. We'll see what the County Attorney thinks is prudent, where we can go. Some things we can talk about, we got to be careful about things that aren't posted.

CP: Okay. Well, this is of course all public record. I have a copy for everybody.

Eddie Arredondo, County Attorney: What agenda item are we under?

JO: We are under Old Business, 27, discussion regarding any previous agenda items.

CP: And this is specifically, my name is Charlie Parker, by the way, specifically about meeting Minutes from September 26, 2023, item 21b, on the forensic audit. Anyway, I've got some questions here related to that...the first question is: To date, what are the total costs incurred by the taxpayers of Burnet County for the forensic audit performed by Baker Tilly? In the original letter of intent, Baker Tilly agreed to keep their fees to \$20,000. This fee excludes expenses like travel, certain costs, etc. So that's what I'm asking.

JO: Yes, so the contract was not to exceed \$20,000, um, we initially had to do a retainer of \$7,500, and that's being returned, I've copied you on that email,

CP: And I saw that in the Minutes.

JO: So it's not exceeding \$20,000.

CP: But but I mean it specifically states in there, expenses like copying costs, travel expenses...

JO: You're.....you're referring to number 5?

Commissioner Billy Wall: Four.

CP: No, number 4.

JO: They are, um, under a license, uh - correct me if I'm wrong here - because this service is, ah, requires a license, it allows you to, um, engage with a professional service, um, if it's below a certain threshold which I believe is fifty thousand? Is that correct?

Karin Smith, Burnet County Auditor: I believe under a professional service, it's exempt from the fifty thousand.

JO: Okay, so you don't have to put it up to bid for professional services, so if you needed legal representation, or in this case CPA, so you're exempted from putting out to bid, and again, they were selected based on their name, (laugh) of who they are, I mean, they're the Boeing of CPA

CP: Yeah. That's not a good example

JO: (laughter) but that may not be a good example.

CP: But, again, a Certified Public Accountant is, has a license, you know, by the State, and, I'm just wondering, you know, why there wasn't, you know, again, if they're the biggest out there and that was the reasoning, I

JO: Several, I'll tell you that I personally contacted, probably, seven or eight different organizations, and, lot of them didn't do this particular kind of work, and whatnot, and so Baker Tilly again being the elephant in the room, or the gorilla in the zoo on this particular one, they were based chosen on their size.

CP: Okay.

JO: Which, you know, I would've, I would have rather used a smaller firm if it was closer, but I could not identify one that would do this specific kind of work, and still meet the criteria of not being local because it needed to be an outside firm.

CP: Well, they do have offices in Austin, and I wonder why...

JO: Those offices don't do this particular form of, ah, work....

CP: Okay.

JO: They have multiple different divisions and whatnot, and the Texas offices, um, again, don't do this kind of particular work.
