

The down and dirty theatrics that Donna Wilcox has orchestrated since her initial appearance at the Jan. 3, 2025 Burnet County Commissioners Court meeting have been more than devious, all while Donna has called for "Decorum In the Court".

Since then we all have heard repeatedly about "Threats and Intimidation". The only threats and intimidation were carried out by Gil Jones and the Gil Jones support team. And their false mantra of threats and intimidations were the actual threat and used as an intimidation tactic !

Lies, lies, and more lies told by clever liars.

Donna Wilcox attempted to create a false narrative in her personal attack on a man's character with a slanderous and defamatory email regarding Chief Deputy Alan Trevino's closing comments during Feb. 11th Commissioner's interview. She went on to create the false "concern for my personal safety" narrative and states that she wanted to file a formal complaint. Unbelievable. She knew that her statements were baseless fabrications, and a very dirty tactic.

This woman claims to be a "Christian" while she so easily bears false witness against Chief Deputy Alan Trevino. And she claims to be a Republican while she employs leftist "Rules For Radicals" tactics with personal character attacks to intentionally and falsely defame an individual ?

The "Despicable Drama Duo" that was paraded in before the March 11th Commissioners Court was really disgusting to watch, and I was astonished by their lies and false allegations that were obviously meant to disparage not only Chief Deputy Alan Trevino, but the entire Burnet County Sheriff's Department.

The little 81 year old retired Mr. Gil Jones certainly showed his complete lack of integrity in his public comments attacking Chief Deputy Alan Trevino during the last commissioners court meeting on Tuesday, March 11th. Really down in the mud dirty and very desperate. Then he admits that the "Goal" was to make sure Alan Trevino was not the nominee.

I wonder if the disgraced former County Judge James Oakley is behind all of this ? This kind of down in the gutter and roll around in the mud politics is certainly his "gangster thug" style.

Lies, lies, and more lies told by clever liars.

Why all the desperation ? What is the hidden agenda, the ulterior motive ?

The only thing I can assess is there must be a much larger level of corruption in Burnet County that has to be hidden. Hidden at all costs. And Donna Wilcox and Gil Jones obviously are the leaders of the team desperately trying to cover up and clean up the crime scene. What do Barack Hussein Obama, Hillary Rodham Clinton, and Donna Holland Wilcox have in common ? They all use the same Saul Alinsky leftist "rules for radicals" Community Organizer Tactics.
