

Do you feel like you are Geo-fencing the citizenry more, but enjoying it less ?

Tired of the using the same old SPYWARE ?

Well then try the latest artificial intelligence brand of "Location Analytics Technology"

Contact **Eye of Sauron, Inc.** and **E.O.S.Services** for a quick on line demonstration now !

We are the specialists in tracking and tracing plus.

Government snooping so easy even a mid level administrator can do it.

After all if those constituents aren't doing anything wrong they shouldn't worry about the Government invading their privacy. And what are they hiding anyway ?

Remember **Eye Of Sauron Corporation** and **E.O.S.Services** provides you with the tools your government agency needs for collecting personal information from your targets anytime, anywhere, for any reason, and you don't need to worry about warrants or silly old fashioned inalienable rights nonsense, because once we capture the individual phone IMEI number and ICCID we can secretly give you more data than you can ever imagine, personal financial and bank records, public records information, criminal records, credit bureau reports, job history, etc. All at your fingertips.

Partnering with our company and artificial intelligence we warranty their use of the latest and most advanced tools to gather information in the most efficient manner with plausible deniability guaranteed.

We also offer software packages for Flock Cameras exclusively for the round the clock mass surveillance that you need. And remember we offer great discounts as you add more systems to your information gathering operations. The city streets aren't safe unless they are monitored with our systems.
