

DIGITAL MASS SURVEILLANCE In Burnet County

You all are servants of the people.

You all took an oath to support the Constitution of the U.S.

The Fourth Amendment is very clear

“The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.”

On March 11th, 2025 the four commissioners approved a \$44,000 dollar contract with Flock.

This approval did not include any discussion between the commissioners, no explanation of what Flock was, what service Flock would provide to the public, or who would use the service. The word camera was never spoken.

License Plate Readers were not discussed.

24 hour a day Surveillance of each passing vehicle was never revealed during the court meeting. In less than four minutes all four commissioners voted to approve the Flock Contract without hesitation or the slightest concern.

No one in Burnet County was informed about this intrusive technology. No one in Burnet County had a say in this.

An administrative court conducting business with taxpayers money with zero transparency and zero concern for it's fiduciary responsibilities to the taxpayers of Burnet County.

You are all violating the social contract with the people you are supposed to be serving.

Obviously there is not a single elected official on this court that has the slightest regard for **protecting the inalienable rights of the citizens** in Burnet County.

That should be **the first and highest responsibility** of every elected official in Burnet County.

You are all servants of the people in this county and you have all failed miserably in the performance of your duties.

Your audacity and utter disregard for the people is shocking.

How dare you all.

Mass Surveillance Flock Cameras Are Not Acceptable.

The Inalienable right to privacy and due process is non negotiable.

George Orwell's novel 1984 was a warning not a guide.

I am calling on this court to end the contract with Flock and remove all Flock cameras and hardware as well as any Signal Trace software or hardware from Burnet County immediately.
