

I object to this court's decision to use the taxpayer's \$40,000 dollars to pay for outside legal counsel.

On top of the \$35,847 dollars already paid to this legal firm.

Eddie Arredondo is the elected County Attorney and is paid a salary and benefit package that the taxpayers of Burnet County pay for. There are also additional attorneys on the County Attorneys staff.

Why does the Commissioner's Court need additional legal representation ?

Why is this being covered up ?

Obviously the cover up of the \$75,847 dollar costs for legal advice pertaining to the disgraced former Judge Oakley's demand / extortion letter for payment of his personal legal fees -\$218,000 dollars.

Why did the County Attorney not provide this advice or legal guidance to the court ?

Is there something else that is being covered up ?

Hidden from the taxpayers under attorney client privilege ?

Or maybe this is being used by the appointed County Judge for his personal legal representation ?

And also as a way to keep Mr. Wilson's official duties while acting as the appointed County Judge and Chair of the Burnet County elections committee hidden under attorney client privilege ?

Are there potential legal problems being covered up by Mr. Wilson ?

Looks bad, smells really bad Mr. Wilson.

NO MORE TAXPAYER MONEY SPENT for outside legal counsel to pay an increase of \$40,000 to Bickerstaff, Heath, Delgado, Acosta, LLP for Burnet County Legal representation.
