Increasing your taxes and giving themselves pay raises.

Do the corrupt appointed County Judge, the four Commissioners, and the County Attorney do anything to actually serve the people in Burnet County ?

$900,000 tax dollars to pay for magic black box electronic voting machines and we get a primary election that has many unresolved issues.
Your political power is your voice in the election of people to represent you.
If the voters cannot trust the results of an election the voters have no voice.
This election involving the corrupt appointed County Judge Bryan Wilson is a scandal that reeks of fraud and cover up.

The five men on the Commissioners Court are not representing anyone in Burnet County.
Why are we paying the County Attorney a salary if we are forced to pay tens of thousands of dollars for a private law firms legal counsel ?

Why is this Court hiding behind private legal counsel ?
Why is the County Attorney redacting Public Information Requests and seeking assistance from the Attorney Generals Office on releasing information about the election and Oakley's demand letter ?

Fraud, Lies, Cover Ups, and Corruption.

HOW IS ANY OF THIS IN THE INTEREST OF BURNET COUNTY ?
How does any of this serve the Taxpayers, Voters, and Citizens of Burnet County ?

The corrupt lying bureaucrat Bryan Wilson is nothing more than a con artist in a cheap suit who is leading the county into deeper and deeper debt.

TIME TO SAY NO !
