Review and Recommendation

Planning staff finds the proposal is consistent with the General Plan designation of Transitional Employment Corridor which allows residential to be considered when determining compatibility with existing and future surrounding uses. The site is located between two single-family residential subdivisions, Paseo Lindo to the south and La Costera, to the north. The narrow, elongated rectangular site does not lend itself to function as either employment or commercial uses which may negatively

impact existing residential. The site is approximately one quarter mile north of the Paseo Lindo commercial center, and approximately one-half mile north of larger commercial centers located on the south side of Ocotillo Road which currently provide sufficient commercial/retail uses in the proximate area. For these reasons, staff supports the area plan amendment from Commercial/Office/Business Park to High Density Residential (HDR 12.1-18 DU/ACRE) land use.

The proposed multi-family residential development is a compatible land use on an infill site that creates a transition between single family developments and provides another housing type to the surrounding area. For these reasons, staff finds the proposal to be consistent with the goals of the General Plan and the CAAP, as amended, and recommends approval subject to conditions.

Economic Analysis

An economic and fiscal impact analysis was conducted based on project details provided by the applicant and staff assumptions. The analysis determined the project will generate a positive net fiscal impact for the City. Net income to the City resulting from the project is estimated at approximately \$438,566 over 10 years. This includes revenues from property taxes, building permit and plan review fees, transaction privilege tax on construction, real property rental tax, state shared revenues, and local spending by residents. For the analysis, it was assumed the developer will lease the townhomes.

Airport Commission Conflict Evaluation

Airport Commission meeting held on April 14, 2021

Motion to find a conflict with existing or planned airport operations.

In Favor: 5 Opposed: 1 (Bozelli)

The Airport Commission reviewed the request in accordance with the Airport Conflicts Evaluation Process. The Airport Manager has issued a conflicts evaluation report indicating that the Airport Commission determined that the proposed development does constitute a conflict with existing or planned airport uses. A copy of the Airport Planning Administrator's report detailing the Airport Commission's findings is attached to this memo. The Airport Commission's recommended mitigation measures to address the operational conflict are included as stipulations of the rezoning.

Public / Neighborhood Outreach

- This request was noticed in accordance with the requirements of the Chandler Zoning Code.
- A neighborhood meeting sign was posted on the site and on social media via NextDoor.

- Virtual neighborhood meetings were held on August 3, 2020 with three residents in attendance and on March 16, 2021 with 16 residents attending, including Council members Ellis and Harris. Comments and questions related to the landscape buffer between Paseo Lindo homes, balconies and privacy to their back yards, and the amenity area. The applicant responded there is a green belt on the Paseo Lindo side providing a buffer as well as landscape on the south side of the pool amenity. Proposed balconies are adjacent to the master bedrooms.
- As of writing this memo, Planning staff is not aware of opposition to the request.

Request Preliminary Development Plan (PDP) for site layout and building architecture for flex industrial buildings with office. The approximate 26.2-acre subject site is located at the southwest corner of Gilbert Road and Insight Way.

Background

- Approximately 26.2 acres
- Subject site zoned Planned Area Development (PAD) for light industrial (I-1 uses), office, and showroom within the 80-acre Chandler Airport Business Park (CABP) Phase 2 in 2006
- Separate PDP's are required for properties located along Gilbert Road

- Phase 1, the south portion, will consist of two flex industrial buildings
- Phase 2 will consist of either two additional flex industrial buildings or an office building with consistent architectural design; Phase 2 will be reviewed administratively by staff

Surrounding Land Use Data

North	Insight Way then Watermark development (retail & office)	South	Rockefeller- Chandler Crossroads (flex industrial & commercial)
East	Gilbert Road	West	Insight (office)

Proposed Development Phase 1

Building Square Footage	220,718 total square feet Building A (west) 126,049 square feet Building B (east) 94,319 square feet
Building Height	Maximum 45 feet; Provided 43 feet

Parking Spaces Required	252 spaces
Parking Spaces Provided	305 spaces; allowing for approximately 20% office

Review and Recommendation

Planning staff has reviewed the request and supports the proposal citing consistency with the General Plan, Chandler Airpark Area Plan (CAAP), and the approved PAD zoning for CABP Phase 2. The two proposed flex industrial buildings allow for a mix of uses including manufacturing, research and development, and office. Generally ancillary uses such as office and retail showroom are limited to occupy ten percent of

a building within industrial development unless noted; the proposal requests up to 20 percent office and/or retail showroom accordingly to comply with available parking.

The request was reviewed for compliance with the design standards established within the CABP guidelines including landscaping and signage. The alignment of the two buildings internalize the dock doors and screening of the rear facades. An eight (8) foot wall will be provided between buildings to further screen the rear courts. The development doubled the amount of landscaping and building setback required along Gilbert Road to further buffer from Gilbert Road and residential east of Gilbert Road. A mix of material including glazed glass, metal panels, awnings, steel columns, and form liners are used to enhance the tilt-up walls. The color scheme of earth tones is proposed to be consistent with the CABP guidelines established in 2006. Under Phase 1, all landscaping will be installed along all property lines and at the intersection of Gilbert Road and Insight Way a center identification sign will be constructed. Phase 2 will consist of either two additional flex industrial buildings or an office building depending on market demand and will be reviewed administratively by staff for consistency with the approved architectural design.

Staff finds the proposal to be consistent with the goals of the General Plan, CAAP, and CABP thus recommending Planning and Zoning Commission recommend approval.
