Pro Edge Performance Training is a small personal training gym located on 56th street between Galveston and Oakland street north of Chandler Boulevard. Pro Edge Performance Training has been in business since September 1, 2007. The site is zoned I-1 (Planned Industrial district) and an approval of a use permit zoning application is required in order to operate a non-industrial land use at this location. I have filed a Use Permit zoning application with the city of Chandler Planning division, requesting to continue to allow me to operate a personal training gym at this location.
