We senior residents in the Sorrento Subdivision just a block or two east of Good Time Charlie's. We are not regular customers of the restaurant but do visit for their exceptional Fish Fry on Fridays. The live music has never bothered us in our home and we hope that they will be granted the Permit needed to continue with their venue. In the day of Franchise Chain establishments run by big corporations, we should support local businesses that are successful and provide a service and entertainment to residents in the area.

Please consider renewing the permit. They are an asset to Chandler residents and provide good food and entertainment.
