5.2 Records/Audit. Records of Consultant's direct personnel payroll, reimbursable expenses pertaining to this Agreement and records of accounts between City and Consultant must be kept on the basis of generally accepted accounting principles and must be made available to City and its auditors for up to three years following City's final acceptance of the services under this Agreement (this requirement is increased to five years if construction of this project is federally funded). City, its authorized representative, or any federal agency, reserves the right to audit Consultant's records to verify the accuracy and appropriateness of all cost and pricing data, including data used to negotiate this Agreement and any amendments. City reserves the right to decrease the total amount of Agreement price or payments made under this Agreement or request reimbursement from Consultant following final Agreement payment on this Agreement if, upon audit of Consultant's records, the audit discloses Consultant has provided false, misleading, or inaccurate cost and pricing data. Consultant will include a similar provision in all of its Agreements with subconsultants who provide services under the Agreement to ensure that City, its authorized representative, or the appropriate federal agency, has access to the subconsultants' records to verify the

accuracy of all cost and pricing data. City reserves the right to decrease Agreement price or payments made on this Agreement or request reimbursement from Consultant following final payment on this Agreement if the above provision is not included in subconsultant agreements, and one or more subconsultants refuse to allow City to audit their records to verify the accuracy and appropriateness of all cost and pricing data. If, following an audit of this Agreement, the audit discloses Consultant has provided false, misleading, or inaccurate cost and pricing data, and the cost discrepancies exceed 1% of the total Agreement billings, Consultant will be liable for reimbursement of the reasonable, actual cost of the audit.

5.3 Alteration in Character of Work. Whenever an alteration in the character of work results in a substantial change in this Agreement, thereby materially increasing or decreasing the scope of services, cost of performance, or Project schedule, the work will be performed as directed by City. However, before any modified work is started, a written amendment must be approved and executed by City and Consultant. Such amendment must not be effective until approved by City. Additions to, modifications, or deletions from this Agreement as provided herein may be made, and the compensation to be paid to Consultant may accordingly be adjusted by mutual agreement of the Parties. It is distinctly understood and agreed that no claim for extra services or materials furnished by Consultant will be allowed by City except as provided herein, nor must Consultant do any work or furnish any materials not covered by this Agreement unless such work is first authorized in writing. Any such work or materials furnished by Consultant without prior written authorization will be at Consultant's own risk, cost, and expense, and Consultant hereby agrees that without written authorization Consultant will make no claim for compensation for such work or materials furnished.

5.4 Termination. City and Consultant hereby agree to the full performance of the covenants contained herein, except that City reserves the right, at its discretion and without cause, to terminate or abandon any service provided for in this Agreement, or abandon any portion of the Project for which services have been performed by Consultant. In the event City abandons or suspends the services, or any part of the services as provided in this Agreement, City will notify Consultant in writing and immediately after receiving such notice, Consultant must discontinue advancing the work specified under this Agreement. Upon such termination, abandonment, or suspension, Consultant must deliver to City all drawings, plans, specifications, special provisions, estimates and other work entirely or partially completed, together with all unused materials supplied by City. Consultant must appraise the work Consultant has completed and submit Consultant's appraisal to City for evaluation. City may inspect Consultant's work to appraise the work completed. Consultant will receive compensation in full for services performed to the date of such termination. The fee will be paid in accordance with Section III of this Agreement, and as mutually agreed upon by Consultant and City. If there is no mutual agreement on payment, the final determination will be made in accordance with the "Disputes" provision in this Agreement. However, in no event may the fee exceed the fee set forth in Section III of this Agreement nor as amended in accordance with Section "Alteration in Character of Work." City will make the final payment within 60 days after Consultant has delivered the last of the partially completed items and the Parties agree on the final fee. If City is found to have improperly terminated the Agreement for cause or default, the termination will be converted to a termination for convenience in accordance with the provisions of this Agreement.

5.5 Indemnification. To the extent permitted by law, the Consultant ("Indemnitor") must indemnify, save and hold harmless City and its officers, officials, agents and employees ("Indemnitee") from any and all claims, actions, liabilities, damages, losses or expenses (including court costs, attorneys' fees and costs of claim processing, investigation and litigation) ("Claims") caused or alleged to be caused, in whole or in part, by the wrongful, negligent or willful acts, or errors or omissions of Consultant or any of its owners, officers, directors, agents, employees, or subconsultants in connection with this Agreement. This indemnity includes any claim or amount arising out of or recovered under workers' compensation law or on account of the failure of Consultant to conform to any federal, state or local law, statute, ordinance, rule, regulation or court decree. Consultant must indemnify Indemnitee from and against any and all Claims, except those arising solely from Indemnitee's own negligent or willful acts or omissions. Consultant is responsible for primary loss investigation, defense and judgment costs where this indemnification applies. In consideration of the award of this Agreement, Consultant agrees to waive all rights of subrogation against Indemnitee for losses arising from or related to this Agreement. The obligations of Consultant under this provision survive the termination or expiration of this Agreement.

5.6 Insurance Requirements. Consultant must procure insurance under the terms and conditions and for the amounts of coverage set forth in **Exhibit "C"** against claims that may arise from or relate to performance of the work under this Agreement by Consultant and its agents, representatives, employees, and subconsultants. Consultant and any subconsultant must maintain this insurance until all of their obligations have been discharged, including any warranty periods under this Agreement. These insurance requirements are minimum requirements for this Agreement and in no way limit the indemnity covenants contained in this Agreement. City in no way warrants that the minimum limits stated in **Exhibit "C"** are sufficient to protect Consultant from liabilities that might arise out of the performance of the work under this Agreement by Consultant, Consultant's agents, representatives, employees, or subconsultants. Consultant is free to purchase such additional insurance as may be determined necessary.

5.7 Cooperation and Further Documentation. Consultant agrees to provide City such other duly executed documents as may be reasonably requested by City to implement the intent of this Agreement.

5.8 Successors and Assigns. City and Consultant each bind itself, its partners, successors, assigns, and legal representatives to the other party to this Agreement and to the partners, successors, assigns, and legal representatives of such other party in respect to all covenants of this Agreement. Neither City nor Consultant may assign, sublet, or transfer its interest in this Agreement without the written consent of the other party. In no event may any contractual relation be created between any third party and City.

5.9 Disputes. In any dispute arising out of an interpretation of this Agreement or the duties required not disposed of by agreement between Consultant and City, the final determination at the administrative level will be made by City Engineer.

5.10 Completeness and Accuracy of Consultant's Work. Consultant must be responsible for the completeness and accuracy of Consultant's services, data, and other work prepared or compiled under Consultant's obligation under this Agreement and must correct, at Consultant's expense, all willful or negligent errors, omissions, or acts that may be discovered. Correction of errors disclosed and determined to exist during any construction of the project on architectural or engineering drawings and specifications must be accomplished by Consultant. The cost of the design necessary to correct those errors attributable to Consultant and any damage incurred by City as a result of additional construction costs caused by such engineering or architectural errors will be chargeable to Consultant and will not be considered a cost of the Work. The fact that City has accepted or approved Consultant's work will in no way relieve Consultant of any of Consultant's responsibilities.

5.11 Reporting. Written monthly reports, along with updated work schedules, will be made by Consultant in the format prescribed by City. These reports will be delivered to City per schedule. When requested by City, Consultant will attend Council meetings and provide finished documents including correspondence for Council action, supporting charts, graphs, drawings and colored slides of same.

5.12 Withholding Payment. City reserves the right to withhold funds from Consultant's payments up to the amount equal to the claims City may have against Consultant until such time that a settlement on those claims has been reached.

5.13 City's Right of Cancellation. The Parties acknowledge that this Agreement is subject to cancellation by City under the provisions of Section 38-511, Arizona Revised Statutes (A.R.S.).

5.14 Independent Consultant. For this Agreement Consultant constitutes an independent contractor. Any provisions in this Agreement that may appear to give City the right to direct Consultant as to the details of accomplishing the work or to exercise a measure of control over the work means that Consultant must follow the wishes of City as to the results of the work only. These results must comply with all applicable laws and ordinances.

5.15 Project Staffing. Prior to the start of any work under this Agreement, Consultant must submit to City detailed resumes of key personnel that will be involved in performing services prescribed in the Agreement. City hereby acknowledges its acceptance of such personnel to perform services under this Agreement. At any time hereafter that Consultant desires to change key personnel while performing under the Agreement, Consultant must submit the qualifications of the new personnel to City for prior approval. Key personnel include, but are not limited to, principals-in-charge, project manager, and project Consultant. Consultant will maintain an adequate and competent staff of qualified persons, as may be determined by City, throughout the performance of this Agreement to ensure acceptable and timely completion of the Scope of Services. If City objects, with reasonable cause, to any of Consultant's staff, Consultant must take prompt corrective action acceptable to City and, if required, remove such personnel from the Project and replace with new personnel agreed to by City.

5.16 Consultants or Subconsultants. Prior to beginning the work, Consultant must furnish City for approval the names of consultants or subconsultants to be used under this Agreement.

Any subsequent changes are subject to City's written prior approval.

5.17 Force Majeure. If either party is delayed or prevented from the performance of any act required under this Agreement by reason of acts of God or other cause beyond the control and without fault of the Party (financial inability excepted), performance of that act may be excused, but only for the period of the delay, if the Party provides written notice to the other Party within ten days of such act. The time for performance of the act may be extended for a period equivalent to the period of delay from the date written notice is received by the other Party.

5.18 Compliance with Federal Laws. Consultant understands and acknowledges the applicability of the Americans with Disabilities Act, the Immigration Reform and Control Act of 1986 and the Drug Free Workplace Act of 1989 to it. Consultant agrees to comply with these laws in performing this Agreement and to permit City to verify such compliance.

5.19 No Israel Boycott. By entering into this Agreement, Consultant certifies that Consultant is not currently engaged in, and agrees for the duration of the Agreement, not to engage in a boycott of Israel as defined by state statute.

5.20 Legal Worker Requirements. A.R.S. § 41-4401 prohibits City from awarding an Agreement to any consultant who fails, or whose subconsultants fail, to comply with A.R.S. § 23-214(A). Therefore, Consultant agrees Consultant and each subconsultant it uses warrants their compliance with all federal immigration laws and regulations that relate to their employees and their compliance with § 23-214, subsection A. A breach of this warranty will be deemed a material breach of the Agreement and may be subject to penalties up to and including termination of the Agreement. City retains the legal right to inspect the papers of any Consultant's or subconsultant's employee who provides services under this Agreement to ensure that Consultant and subconsultants comply with the warranty under this provision.

5.21 Lawful Presence Requirement. A.R.S. §§ 1-501 and 1-502 prohibit City from awarding an Agreement to any natural person who cannot establish that such person is lawfully present in the United States. To establish lawful presence, a person must produce qualifying identification and sign a City-provided affidavit affirming that the identification provided is genuine. This requirement will be imposed at the time of Agreement award. This requirement does not apply to business organizations such as corporations, partnerships, or limited liability companies.

5.22 Covenant Against Contingent Fees. Consultant warrants that no person has been employed or retained to solicit or secure this Agreement upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, and that no member of the Chandler City Council, or any City employee has any interest, financially, or otherwise, in Consultant's firm. For breach or violation of this warrant, City may annul this Agreement without liability or, at its discretion, to deduct from the Agreement price or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

5.23 Non-Waiver Provision. The failure of either Party to enforce any of the provisions of this Agreement or to require performance of the other Party of any of the provisions hereof must

not be construed to be a waiver of such provisions, nor must it affect the validity of this Agreement or any part thereof, or the right of either Party to thereafter enforce each and every provision.

5.24 Disclosure of Information Adverse to City's Interests. To evaluate and avoid potential conflicts of interest, Consultant must provide written notice to City, as set forth in this Section, of any work or services performed by Consultant for third parties that may involve or be associated with any real property or personal property owned or leased by City. Such notice must be given 7 business days prior to commencement of the services by Consultant for a third party, or 7 business days prior to an adverse action as defined below. Written notice and disclosure must be sent in accordance with Section 6.7 above. An adverse action under this Agreement includes, but is not limited to: (a) using data as defined in the Agreement acquired in connection with this Agreement to assist a third party in pursuing administrative or judicial action against City; or (b) testifying or providing evidence on behalf of any person in connection with an administrative or judicial action against City; or (c) using data to produce income for Consultant or its employees independently of performing the services under this Agreement, without the prior written consent of City. Consultant represents that except for those persons, entities, and projects identified to City, the services performed by Consultant under this Agreement are not expected to create an interest with any person, entity, or third party project that is or may be adverse to City's interests. Consultant's failure to provide a written notice and disclosure of the information as set forth in this Section constitute a material breach of this Agreement.

5.25 Data Confidentiality and Data Security. As used in the Agreement, "data" means all information, whether written or verbal, including plans, photographs, studies, investigations, audits, analyses, samples, reports, calculations, internal memos, meeting minutes, data field notes, work product, proposals, correspondence and any other similar documents or information prepared by, obtained by, or transmitted to Consultant or its subconsultants in the performance of this Agreement. The Parties agree that all data, regardless of form, including originals, images, and reproductions, prepared by, obtained by, or transmitted to Consultant or its subconsultants in connection with Consultant's or its subconsultant's performance of this Agreement is confidential and proprietary information belonging to City. Except as specifically provided in this Agreement, Consultant or its subconsultants must not divulge data to any third party without City's prior written consent. Consultant or its subconsultants must not use the data for any purposes except to perform the services required under this Agreement. These prohibitions do not apply to the following data provided to Consultant or its subconsultants have first given the required notice to City: (a) data which was known to Consultant or its subconsultants prior to its performance under this Consultant or its subconsultants by a third party, who to the best of Consultant's or its subconsultants' knowledge and belief, had the legal right to make such disclosure and Consultant or its subconsultants are not otherwise required to hold such data in confidence; or (c) data which is required to be disclosed by virtue of law, regulation, or court order, to which Consultant or its subconsultants are subject. In the event Consultant or its subconsultants are required or requested to disclose data to a third party, or any other information to which Consultant or its subconsultants became privy as a result of any other Agreement with City, Consultant must first notify City as set forth in this Section of the request or demand for the data. Consultant or its subconsultants must give City sufficient facts so

that City can be given an opportunity to first give its consent or take such action that City may deem appropriate to protect such data or other information from disclosure. All data must continue to be subject to the confidentiality agreements of this Agreement. Consultant or its subconsultants assume all liability to maintain the confidentiality of the data in its possession and agrees to compensate City if any of the provisions of this Section are violated by Consultant, its employees, agents or subconsultants. Solely for the purposes of seeking injunctive relief, it is agreed that a breach of this Section must be deemed to cause irreparable harm that justifies injunctive relief in court. Consultant agrees that the requirements of this Section must be incorporated into all subagreements entered into by Consultant. A violation of this Section may result in immediate termination of this Agreement without notice.

5.26 Personal Identifying Information-Data Security. Personal identifying information, financial account information, or restricted City information, whether electronic format or hard copy, must be secured and protected at all times by Consultant or its subconsultants. At a minimum, Consultant or its subconsultants must encrypt or password-protect electronic files. This includes data saved to laptop computers, computerized devices, or removable storage devices. When personal identifying information, financial account information, or restricted City information, regardless of its format, is no longer necessary, the information must be redacted or destroyed through appropriate and secure methods that ensure the information cannot be viewed, accessed, or reconstructed. In the event that data collected or obtained by Consultant or its subconsultants in connection with this Agreement is believed to have been compromised, Consultant or its subconsultants must immediately notify City contact. Consultant agrees to reimburse City for any costs incurred by City to investigate potential breaches of this data and, where applicable, the cost of notifying individuals who may be impacted by the breach. Consultant agrees that the requirements of this Section must be incorporated into all subcontracts entered into by Consultant. It is further agreed that a violation of this Section must be deemed to cause irreparable harm that justifies injunctive relief in court. A violation of this Section may result in immediate termination of this Agreement without notice. The obligations of Consultant or its subconsultants under this Section must survive the termination of this Agreement.

5.27 Jurisdiction and Venue. This Agreement is made under and must be construed in accordance with and governed by the laws of the State of Arizona without regard to the conflicts or choice of law provisions thereof. Any action to enforce any provision of this Agreement or to obtain any remedy with respect hereto must be brought in the courts located in Maricopa County, Arizona, and for this purpose, each Party hereby expressly and irrevocably consents to the jurisdiction and venue of such court.

Agreement and the application will not be affected and will be enforceable to the fullest extent permitted by law.

Except as may otherwise be set forth in this Agreement, any performance provided for herein will be timely made if completed no later than 5:00 p.m. (Chandler time) on the day of performance.

5.34 Third Party Beneficiary. Nothing under this Agreement will be construed to give any rights or benefits in the Agreement to anyone other than City and Consultant, and all duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of City and Consultant and not for the benefit of any other party.

EXHIBIT "A"
SCOPE OF SERVICES/SCHEDULE

CITY OF CHANDLER
OCOTILLO WATER RECLAMATION FACILITY (WRF)
CAPACITY EVALUATION (RERATING) PROJECT
SCOPE OF SERVICES
OCTOBER 7, 2022

The City would like to engage the services of Wilson Engineers to complete a capacity rerating study and permitting for the existing Ocotillo WRF from the current capacity to a potentially higher capacity. The Ocotillo WRF is divided into two separate treatment trains. The conventional treatment train has a capacity of 11.4 MGD and the membrane bioreactor (MBR) process has a capacity of 6.6 MGD for a total rated capacity of 18 MGD. There are improvements that are being made to the conventional treatment train (such as replacement of existing filters with disc filters and rehabilitation of existing clarifiers etc). During that time period the conventional treatment train flows were reduced and flows to the MBR treatment train at the Ocotillo WRF was temporarily increased to 9 MGD capacity to accommodate construction work. The MBR train was able to effectively treat additional flows. In view of this, the City would like to investigate the possibility of rerating and increasing the capacity of the MBR treatment train permanently. In addition, the MBR vendor (Veolia) has come up with a new MBR cassette design that allows installation of new cassettes with larger surface area in the same treatment basins. The higher capacity cassettes has the potential to increase the overall treatment capacity.

The project scope would include an evaluation of all unit processes within the treatment facility, review of influent characteristics, and review of the current BNR model and update the existing model, review of available data from the facility, identify and develop any additional testing as necessary, to support rerating of the Plant. The rerating of the Plant will require permits from the Arizona Department of Environmental Quality (ADEQ), with a major amendment to the Aquifer Protection Permit (APP) and the Maricopa County Environmental Services Department (MCESD) review and approval of the capacity increase. The scope of services for this project is identified in the following paragraphs.

TASK 1.0 OCOTILLO WRF RERATING PRELIMINARY EVALUATION

Prior to preparation of the preliminary design report for submission to the ADEQ, the following items shall be evaluated.

Task 1.1 Collect and Review OWRF Historical Operations and Testing Data. Wilson Engineers will obtain the historical operating data for the Ocotillo WRF. The data review will include evaluation of the each unit process and operating parameters, operations strategy, and compare them against the design criteria. Wilson Engineers will review the operations data available during the temporary increase in capacity of the MBR treatment train and will evaluate the performance for the purposes of rerating.

Task 1.2 Review Unit Process Design Criteria. Wilson Engineers will conduct a review of the current design criteria of each unit process and identify potential future design criteria values for increasing capacity based on the as the as-built information of Ocotillo WRF and condition of process equipment along with review of the operation of the facility and performance over the last few years. Wilson Engineers will also review the historical information on the mass loadings at the Ocotillo WRF and determine the new mass loadings.

Task 1.2 Update and Calibrate BNR Process Model. Wilson Engineers will prepare the base BNR process model for the Ocotillo WRF and will update the model to calibrate with existing conditions. The calibration of the model will include confirmation of the current conditions and verification of multiple parameters under different operating conditions. After calibration, BNR models will be prepared for multiple scenarios and updated with proposed conditions (updated mass loadings and higher flows) to demonstrate the capability of the existing process.

Task 1.3 Additional Testing and Data Collection. After completion of the review of the data, Wilson Engineers will identify the testing that is required for verification purposes. Wilson will work with the Ocotillo WRF operations staff to develop testing protocol and parameters and duration. A testing protocol document will be prepared with assistance from the City staff. Wilson Engineers will collect data from the unit process testing. Wilson will assist the City during testing period with any questions related to protocol or implementation. Wilson Engineers will collate, tabulate and evaluate the data received from the Ocotillo WRF and outside laboratory. The data from the testing will be shared with the City and will be included in subsequent report for capacity evaluation.

Task 1.5 Prepare Capacity Evaluation Report. Prepare a draft report summarizing the test results, evaluation of the current data, previous testing and potential opportunities for increasing the plant capacity. The evaluation will also include a preliminary review of the installation of the new membrane bioreactor cassettes into existing membrane basins and resulting capacity impact. This effort will include review of the proposed membrane cassettes at the Ocotillo WRF with the Vendor (Veolia). The capacity evaluation will include other unit process evaluation at the Ocotillo WRF, such as Aeration Basins, Blowers, Disinfection Systems, Sludge Handling Facilities (including sludge holding and dewatering facilities) along with MBR system accessories. The report will include scenarios and recommendation for preliminary rerating based on tasks performed above. The capacity evaluation report will also include recommendations for each unit

process. After completion of the preliminary evaluation, and discussions with the City, a determination on the capacity increase of the plant will be made.

Task 2.0 DESIGN REPORT

Task 2.1 Prepare Preliminary Design Report. Based on the evaluation identified above, Wilson Engineers will update the design criteria for the Ocotillo WRF and prepare a revised preliminary design report. The purpose of the report is to document the engineering design basis for the processes at the Ocotillo WRF so that a complete APP Permit Application can be submitted to ADEQ. The report shall meet the requirements set forth in the Arizona Revised Statute R19-9-B202A for obtaining an APP. This statute requires the following to be included in the report:

1. Wastewater Characterization
2. Method of Disposal
3. BADCT Demonstration
4. Description of normal operation
- 5a. Operation and Maintenance Plan
- 5b. Contingency and Emergency Operation Plan
6. Construction Management Controls
7. System Start Up Plan
8. Site Diagram for Setbacks
9. Engineers Certification

Electronic copies of the draft report shall be submitted to the City for review.

Subtask 2.2 Final Design Report for submittal to the Agencies. Incorporate comments received from the City and submit the Final Report to the ADEQ and MCESD. Any comments from the regulatory agencies will be addressed as part of permitting process.

Task 3.0 ADEQ PERMITTING

Subtask 3.1 ADEQ Pre-Application Meeting. The Engineer shall arrange for and attend a pre-application meeting with ADEQ. As part of this subtask, the Engineer shall preliminarily outline the Design Report

contents to discuss with ADEQ. Wilson Engineers will prepare and distribute minutes of the pre-application meeting.

Subtask 3.2 APP Application. The Engineer shall provide services to complete the APP Application and to submit the appropriate package (consisting of the Design Report along with completed application) to ADEQ for the Ocotillo WRF.

Subtask 3.3 ADEQ Coordination. The Engineer shall monitor the status of the permitting process, provide additional requested information, meetings with agencies, coordinate ADEQ's Administrative Review, Technical Review, review of information to be published for public comments, and review and coordination of the draft APP permit prior to the final permit.

Task 4.0 MCESD PERMIT

Subtask 4.1 Maricopa County Environmental Services Department Approval. The Engineer shall submit a copy of the Design Report for County review and address any comments they may have. The Engineer shall submit an ATC application if MCESD requires one and obtain approval from the County for the re-rating of the Ocotillo WRF.

TASK 5.0 MEMBRANE PROCUREMENT COORDINATION

Wilson Engineers will assist the City with the determination of any modifications necessary to membrane accessories (such as the backwash air system, the purge and chemical feed systems, permeate pumps and other ancillary systems). Wilson will also coordinate with the Vendor (Veolia) and will review the preliminary package that will be developed with the Vendor. Wilson will also review the procurement schedule and will prepare a summary report of other improvements that are necessary to replace the existing membrane cassettes with new. This task not does not include preparation of the engineering drawings, specifications, or review of shop drawings for procurement are not included. The City may choose to add these services at a later date.

Assumptions:

- 1. Task for Detailed Design and Bid Services are not included.*
- 2. No Building Permit is needed, therefore permit review coordination is not included in the scope of work.*
