## **Background**

The Chandler Police Department recognizes the current Arizona statutory law dictating that “no unnecessary or unreasonable force shall be used in making an arrest, and the person arrested shall not be subjected to any greater restraint than necessary for his detention.”<sup>1</sup> The Chandler Police Department stipulates that officers must adhere to their training unless the situation justifies a deviation from that training.<sup>2</sup>

The Chandler Police Department began to utilize the Use of Force Review Board in 2008 to ensure the proper documentation of all applications of force, to evaluate those applications for adherence to established policy, and to determine any additional training needs.<sup>3</sup> The board meets monthly to evaluate the prior month’s incidents, and quarterly reviews are prepared to share information and findings with the Citizen Review Panel.

This analysis contains use of force statistics for the third quarter of 2022 to identify prevalent trends or deficiencies per the current CALEA standard.<sup>4</sup> In addition to an internal comparative analysis, this report will illustrate training issues that have emerged throughout the quarter, as well as the number and general nature of injuries sustained by personnel and suspects.

## **2022 Third Quarter Review**

The Chandler Police Department logged 2222 arrests during the third quarter of 2022, averaging approximately two and one half (2.5) arrests per day. The third quarter of 2022 yielded a total of fourteen (14) incidents resulting in a use of force by Chandler Police Officers to effect an arrest or detain a subject under reasonable suspicion or probable cause.

All reportable incidents were reviewed by the Use of Force Review Board. This board meets monthly to determine if the applications of force are justified in accordance with the policies of the Chandler Police Department.

The following tables document the fourteen (14) incidents reviewed by the board for the months of July, August, and September of 2022. It includes the types of force used and dispositions. In some incidents there were multiple applications of force used by various officers. For this reason, there were twenty-seven (27) distinct applications of force. This report will deliver the summaries of the fourteen (14) reviewed incidents.
