

We are SanTan Spirits, an Arizona distillery of 21st century flavors. Our goal in everything we do revolves around our simple mantra of “Uncommon Quality for Everyday Occasions”. Our spirits are made to drink and enjoy among friends. We seek nuance and adventure in flavor while dedicating fully to only the highest quality ingredients and craft processes. The unique flavors and refined quality of our spirits have taken home multiple awards and medals in consecutive years. Our spirits have been recognized and awarded by our peers at competitions from the American Distilling Institute to the San Francisco World Spirits Competition. SanTan Spirits is recognized as one of Visit Phoenix’s Top 10 Distilleries in Arizona. We believe that when it comes to quality spirits, every little detail matters. Each of our spirits is carefully crafted with intention from grain to glass. Proudly located in Chandler Arizona, we are a distillery that gives priority to local, seasonal ingredients through our relationships with farmers and local producers. Our twin artisan pot stills are located in our Chandler facility where we also age and finish in a variety of hand-selected wine barrels.

The project we are seeking approval for is to add a 7ft tall, white painted SanTan Spirits logo to the West end of the brick layered wall, at our Downtown Chandler, SanTan Brewing location 8 S San Marcos Pl, Chandler, AZ 85225. SanTan Brewing currently has artwork of our SanTan Brewing Company bird and company name already located on the North end of the building facing towards San Marcos Pl. This proposed SanTan Spirits artwork would mirror our current painting in dimensions and style.

SanTan Spirits has proudly called Chandler, Arizona home since it was created in 2015. The goal of the proposed art work is to draw interest and brand recognition between Arizona’s largest Brewery and Chandler’s only Distillery. The logo would also sit only feet away from Spirit House and would help draw attention to our craft cocktail bar that makes for an expression of our modern spirits.
