

Mission

Founded in 2023, the National Youth Council Coalition aims to establish **impactful** connections between youth councils across the United States. Prioritizing collaboration, the NYCC will serve as a network of councils and an organization to promote youth voices.

Purpose

NYCC strives to create a network that councils can utilize to share their initiatives, collaborate with other councils in the region, and establish meaningful partnerships.

Addressing the Disconnect

Advisors and youth delegates say that they wish they knew more about what other cities were doing, as well as how they could partner with one another. NYCC strives to eliminate the disconnection between youth councils across the country by creating a united network of youth leaders.

Membership Benefits

- Gain access to an exclusive, one-of-a-kind database that gives you and your council access to a variety of initiatives
- Directly connect with other youth leaders who are looking to inspire change in their communities
- Grow relationships with youth councils across the country
- Interactive maps to see where NYCC member councils are located.
- Collaborate with youth councils in your region to maximize youth engagement and outreach
- Resources for rebuilding inactive councils
- Tools for municipalities looking to establish a youth council
- Strategic plans/toolkits to start community projects
- Learn more about youth conference opportunities (you might meet other NYCC members there)!
