IMPORTANT INFORMATION TO CONSIDER WHEN EVALUATING PROPOSALS!! Take a look at Horton Emergency Vehicles (HEV) and you will see why they are so well regarded in the ambulance industry and among the finest available anywhere. A Horton emergency vehicle is BUILT TO WITHSTAND the rigors of ambulance service. Horton ambulances are tested and engineered to be incredibly structurally sound which provides the EMS crew and patient with a SAFER WORKING ENVIRONMENT. They are currently the only manufacturer with an ongoing crash simulation testing program to test things like cabinet mounting stability, door structure & latching strength, and body mounting solidity. ALUMINUM CABINETS SAVE PAYLOAD and are much more DURABLE than wood. An Ambulance built to a higher quality standard will provide REDUCED OPERATING COSTS over the many years the vehicle is in service!! When it comes to quality, durability, customization, and safety, Horton continues to be a leader in the ambulance manufacturing industry.
