• Magnolia Single Family Design Review Narrative

Project Information:

Shea Homes, as authorized agent approved by the existing Property Owner, is submitting this Design Review Exhibit in accordance with the City of Chandler's Design Criteria. The subject property, known as "Magnolia," is located just east of S. Cooper Road, north of E. Riggs Road, in a portion of the Southwest Quarter of Section 25, Township 2 South, Range 5 East, of the Gila and Salt River Base and Meridian, Maricopa County, Arizona.

Project Characteristics:

Final Plat: PLT22-0032 Approved 08/17/2023

Zoning: PAD

Lot sizes: typical sizes are 75' x 135' with lots 1 – 12, and 80 – 93 being 133.5' deep & lots 55 – 65 being minimum 114' x 145'.

Lot count: 93

Setbacks:

Rear: 20'

*Front: 20' to face of garage door of front-facing garages

*note: side-loaded garages, front porches, and livable spaces may be 14'.

**Sides: 5'/10'

****note:** architectural elements/projections are allowed to encroach up to 12 inches into front and side yard setbacks. Lots 66 & 79 shall be 5' on west side of property and 21' on east side of property.

Maximum Lot Coverage: 60%

Housing Product:

There are four standard plans, with three elevation styles each being proposed for this community, which are all single level homes. Each elevation style will draw from Modern, Transitional, and Valley architectural forms, using more modern detail and application techniques to create a more interesting "transitional" style street scene than the typical production home environment. All homes will have oversized 2-car or 3-car garages with a variety of orientations (front-loaded/tandem 3-car that appears as 2-car, front-loaded 2-car mixed with side-entry single car, or 3-car front-facing w/ 2-foot jog at single bay). The remaining massing forms will take advantage of the shallower setbacks for side-entry garages, porches, and livable spaces by projecting up to the minimum 14' setback line on most plans. All homes are 60 feet in width and fit appropriately with 5' and 10' setbacks on each lot within the community. (Greater east side setbacks for lots 66 & 79 as noted above).

• Magnolia Single Family Design Review Narrative

General Plan Information:

Plan 6001: Single level, 3-car garage, 4 bedroom, 3-1/2 bath, home office, 3103/3157 livable sq. ft., 4183 sq. ft. under roof

Plan 6002: Single level, 3-car garage, 4 bedroom, 3-1/2 bath, home office (or retreat), 3314 livable sq. ft., 4406 sq. ft. under roof

Plan 6003: Single level, 3-car garage, 4 bedroom, 3-1/2 bath, private home office/retreat, lounge, 3659 livable sq. ft., 4672 sq. ft. under roof

Plan 6004: Single level, 3-car garage 4 bedroom, 4-1/2 bath, dedicated lounge, flex room, 4006 livable sq. ft., 4940 sq. ft. under roof

Architectural Elevation Characteristics:

Modern:

- predominantly parapet roof forms
- natural stone veneer accent masses on select plans – optional on others
- architectural plastered lintel over front facing garage door and some front windows
- 12" recessed garage door and 2" recessed front windows
- occasional horizontal accent siding

Transitional:

- mix of pitched, gable roofs and occasional parapet masses
- "zero" overhang detail for more modern aesthetic
- natural stone veneer accent masses on select plans – optional on others
- occasional horizontal accent siding
- architectural plastered lintel over some front windows
- flat "shake" style concrete color-thru roof tile
- 12" recessed garage door and 2" recessed front windows

Valley:

- pitched roofs consisting predominantly of gable roofs
- 12" overhang detail
- accent siding with vertical installation on select masses
- 2x8 thickened front fascia
- flat "slate" style concrete color-thru roof tile
- 12" recessed garage door and 2" recessed front windows

Rear covered outdoor rooms are provided for all plans. Each architectural style provides variation in roof lines, massing, and pitch. Concrete roof tiles, decorative gable recesses, varying window forms with trim or recessed details, exterior veneer applications, or other materials and/or details that are authentic to each stylistic aesthetic help provide diversity while creating a pleasing and cohesive street scene throughout the community.

Magnolia Design Theme

NARRATIVE: MODERN ELEVATION STYLE

The 'Modern' architectural elevation is identifiable by its refined massing strategy that responds to the Sonoran Desert. The design implements long, horizontal fascia, overhangs, and covered patios that protect the residence from direct sunlight. Visual depth is created by offsetting primary building masses to create shade, and shadow, across each elevation. The front entry is one of the most powerful moments within the design, as it implements a 10' entry door along with floor to ceiling windows. The primary roof form on the 'Modern' elevation utilizes a stucco parapet, while the secondary roof masses, and covered patios, create a 'layering' effect by cantilevering overhangs. The intent for our 'Modern' elevation is to achieve a desert contemporary aesthetic that quietly blends into the community.

ELEMENT: OVERALL MASSING & CANTILEVERED OVERHANGS

MODERN ARCHITECTURE CAN BE CHARACTERIZED BY AN ANALYTICAL, AND FUNCTIONAL, APPROACH TO BUILDING DESIGN. THEY ARE TYPICALLY DEFINED BY FLAT ROOFS, OPEN FLOOR PLANS, AND MINIMAL ORNAMENTATION. TWO WELL-KNOWN ARCHITECTS WHO IMPLEMENTED HISTORIC, MODERN ARCHITECTURE IN THE VALLEY ARE FRANK LLOYD WRIGHT, AND AL BEADLE. BOTH ARCHITECTS ACHIEVED AWARD WINNING DESIGN THROUGH THE USE OF SIMPLE, CLEAN ARCHITECTURAL FORMS, THAT HAVE MINIMAL ORNAMENTATION. THE EXPRESSION OF BEAUTY IN A MODERN DESIGN IS NOT HOW MUCH ORNAMENTATION ONE CAN ADD TO A BUILDING. RATHER, IT IS THE METHODICAL APPROACH TO THE DESIGN VIA THE ARCHITECTURAL CHARACTERISTICS LISTED ABOVE.

ELEMENT: HARDIE BOARD SIDING

JAMES HARDIE'S ARTISAN SIDING CREATES ADDED DIMENSIONALITY, AND SOPHISTICATION, TO ALL THREE ELEVATION STYLES. THE PANELING WOULD HAVE A HORIZONTAL ORIENTATION IN THE MODERN/TRANSITIONAL STYLES, AND A VERTICAL INSTALL ON THE VALLEY ELEVATION. THIS DISTINCTIVE DESIGN ELEMENT CAN BE PAINTED TO ACHIEVE A DIFFERENT LOOK BASED ON THE ELEVATION STYLE THAT IT CORRESPONDS WITH. IT OFFERS SUPERIOR PERFORMANCE IN ANY CLIMATE/REGION, AND WORKS VERY WELL TO REPEL HEAT HERE IN THE DESERT. THE PRODUCT IS LOW-MAINTENANCE, AND COMES WITH A 30 YEAR WARRANTY, WHICH SPEAKS TO THE QUALITY OF THE PROJECT.

MODERN VIGNETTE

NARRATIVE: MODERN ELEVATION STYLE

The 'Modern' architectural elevation is identifiable by its refined massing strategy that responds to the Sonoran Desert. The design implements long, horizontal fascia, overhangs, and covered patios that protect the residence from direct sunlight. Visual depth is created by offsetting primary building masses to create shade, and shadow, across each elevation. The front entry is one of the most powerful moments within the design, as it implements a 10' entry door along with floor to ceiling windows. The primary roof form on the 'Modern' elevation utilizes a stucco parapet, while the secondary roof masses, and covered patios, create a 'layering' effect by cantilevering overhangs. The intent for our 'Modern' elevation is to achieve a desert contemporary aesthetic that quietly blends into the community.

ELEMENT: CANTILEVERED PATIOS & COVERED OVERHANGS

THE BEAUTY OF MODERN ARCHITECTURE ARISES NOT FROM FENESTRATION. RATHER, IT COMES FROM THOUGHTFUL DESIGN RESPONSE. FOR INSTANCE, IN THE DESERT WE HAVE HARSH SUN ANGLES/CONDITIONS. LONG, COVERED OVERHANGS PASSIVELY SHADE OUR HOMES, AND ULTIMATELY LOWER ENERGY CONSUMPTION OF EACH DWELLING.

ELEMENT: MATERIALITY

ALL OF OUR MODERN ELEVATION STYLES HAVE MULTIPLE MATERIAL PALLETS THAT ALLOW FOR A DIVERSE STREET SCENE WITHIN THE COMMUNITY. THE USE OF REAL STONE, STUCCO, AND HARDIE BOARD SIDING ALLOWS FOR A TIMELESS DESIGN THAT WILL DIFFERENTIATE OUR COMMUNITY FROM OTHERS. THE NATURAL STONE TYPES ARE SOURCED FROM A LOCAL SUPPLIER, SOLSTICE STONE, AND ARE A TOP-OF-THE-LINE SERIES OF STONE THAT ARE USED ON HIGH END CUSTOM RESIDENTIAL JOBS THROUGHOUT THE VALLEY.

SHEET #
MODERN VIGNETTE 2

NARRATIVE: TRANSITIONAL
The 'Transitional' architectural elevation combines design strategies from both the 'Modern' and 'Valley' styles. Gable end roof masses have been introduced to achieve a massing strategy that nods to the Western Farmhouse aesthetic. While clean, contemporary detailing is found in awning details, flat covered patios, and cantilevered overhangs. The 'Transitional' elevation is a fusion of contemporary and traditional design elements. This home style becomes the catalyst that blends the three architectural styles together, throughout the community.

ELEMENT: MASSING CONCEPT
THE TRANSITIONAL ELEVATION STYLE IS DEFINED BY THE COMBINATION OF BOTH FLAT, AND GABLE END ROOF FORMS. THIS ELEVATION TIES TOGETHER THE MODERN AND TRADITIONAL ELEMENTS FOUND ON THE OTHER TWO STYLES. THIS 'MIDDLE-GROUND' AESTHETIC IS CRITICAL WHEN DESIGNING A COHESIVE COMMUNITY THAT BLENDS THREE DISTINCT ARCHITECTURAL STYLES.

ELEMENT: MATERIALITY & SHADE AWNINGS
THE TRANSITIONAL ELEVATION STYLE HAS MULTIPLE MATERIAL PALLETS THAT ALLOW FOR A DIVERSE STREET SCENE WITHIN THE COMMUNITY. THE USE OF SHADE AWNINGS ALSO ADDS DEPTH, AND SHADOW. ACROSS EACH ELEVATION, THIS ELEVATION STYLE HAS BECOME A HALLMARK FOR COMMUNITIES LIKE THE AZURE RESIDENCES AT THE RITZ IN PARADISE VALLEY (DESIGNED AND BUILT BY SHEA HOMES.)

SHEA HOMES
MAGNOLIA RESIDENCES

NOT FOR
CONSTRUCTION

NARRATIVE: VALLEY
The "Valley" architectural elevation closely relates to the Western Farmhouse aesthetic. This style stems from agrarian influences that directly respond to the warm western sun, and agrarian landscape. The vertical wood siding and trim materials represent the fine carpentry detailing found in the farmhouse aesthetic. Furthermore, the roofing strategy defines itself from the other two elevation styles with its rafter tail detailing. This creates a distinctive shadow around the perimeter of the home, and nods to the timeless craftsmanship of a western farmhouse. Lastly, the "Valley" elevation implements a high, vaulted roof mass in the center of the home, which creates hierarchy, and a strong street presence.

ELEMENT: MASSING CONCEPT
THE VALLEY ELEVATION STYLE REFERENCES WESTERN FARMHOUSE ARCHITECTURE. THIS DESIGN AESTHETIC TENDS TO BE THE MOST SYNONYMOUS WITH THE CHANDLER AREA, AS THIS REGION OF THE VALLEY IS WELL-KNOWN FOR ITS AGRICULTURAL ROOTS. THE TRADITIONAL ARCHITECTURAL ELEMENTS FOUND IN THIS AESTHETIC JUXTAPOSE THE MODERN ELEVATION WITH ITS DETAILING, CREATING A DIVERSE STREET SCENE WITHIN THE COMMUNITY.

ROOF PLAN

6002 - VALLEY

The 'Valley' architectural elevation closely relates to the Western Farmhouse aesthetic. This style stems from agrarian influences that directly respond to the warm western sun, and agrarian landscape. The vertical wood siding and trim materials represent the fine carpentry detailing found in the farmhouse aesthetic. Furthermore, the roofing strategy defines itself from the other two elevation styles with its rafter tail detailing. This creates a distinctive shadow around the perimeter of the home, and nods to the timeless craftsmanship of a western farmhouse. Lastly, the 'Valley' elevation implements a high, vaulted roof mass in the center of the home, which creates hierarchy, and a strong street presence.

6002 - MODERN

The 'Modern' architectural elevation is identifiable by its refined massing strategy that responds to the Sonoran Desert. The design implements long, horizontal fascia, overhangs, and covered patios that protect the residence from direct sunlight. Visual depth is created by offsetting primary building masses to create shade, and shadow, across each elevation. The front entry is one of the most powerful moments within the design, as it implements a 10' entry door along with floor to ceiling windows. The primary roof form on the 'Modern' elevation utilizes a stucco parapet, while the secondary roof masses, and covered patios, create a 'layering' effect by cantilevering overhangs. The intent for our 'Modern' elevation is to achieve a desert contemporary aesthetic that quietly blends into the community.

MODERN

6002 - TRANSITIONAL

The 'Transitional' architectural elevation combines design strategies from both the 'Modern' and 'Valley' styles. Gable end roof masses have been introduced to achieve a massing strategy that nods to the Western Farmhouse aesthetic. While clean, contemporary detailing is found in awning details, flat covered patios, and cantilevered overhangs. The 'Transitional' elevation is a fusion of contemporary and traditional design elements. This home style becomes the catalyst that blends the three architectural styles together, throughout the community.

6004 - VALLEY

The 'Valley' architectural elevation closely relates to the Western Farmhouse aesthetic. This style stems from agrarian influences that directly respond to the warm western sun, and agrarian landscape. The vertical wood siding and trim materials represent the fine carpentry detailing found in the farmhouse aesthetic. Furthermore, the roofing strategy defines itself from the other two elevation styles with its rafter tail detailing. This creates a distinctive shadow around the perimeter of the home, and nods to the timeless craftsmanship of a western farmhouse. Lastly, the 'Valley' elevation implements a high, vaulted roof mass in the center of the home, which creates hierarchy, and a strong street presence.

6004 - MODERN

The 'Modern' architectural elevation is identifiable by its refined massing strategy that responds to the Sonoran Desert. The design implements long, horizontal fascia, overhangs, and covered patios that protect the residence from direct sunlight. Visual depth is created by offsetting primary building masses to create shade, and shadow, across each elevation. The front entry is one of the most powerful moments within the design, as it implements a 10' entry door along with floor to ceiling windows. The primary roof form on the 'Modern' elevation utilizes a stucco parapet, while the secondary roof masses, and covered patios, create a 'layering' effect by cantilevering overhangs. The intent for our 'Modern' elevation is to achieve a desert contemporary aesthetic that quietly blends into the community.

6004 - TRANSITIONAL

The 'Transitional' architectural elevation combines design strategies from both the 'Modern' and 'Valley' styles. Gable end roof masses have been introduced to achieve a massing strategy that nods to the Western Farmhouse aesthetic. While clean, contemporary detailing is found in awning details, flat covered patios, and cantilevered overhangs. The 'Transitional' elevation is a fusion of contemporary and traditional design elements. This home style becomes the catalyst that blends the three architectural styles together, throughout the community.

ROOF PLAN

1 ROOF PLAN
SCALE: 1/4" = 1'-0"

This detailed floor plan illustrates a 4-bedroom residence with a total area of 4,000 sq. ft. The layout includes a large primary suite with a walk-in closet and primary bath, a secondary lounge area, a dining room, a kitchen with a media room, and a flex space. The house also features a two-car garage, an outdoor room, and an interior courtyard. Key dimensions and room labels are provided throughout the plan.

Room Details and Dimensions:

- great rm.**: 20'-1" x 18'-7"
- dining**: 17'-7" x 13'-10"
- kitchen**: Includes media room, refr., micro/oven, pantry, and mech.
- bed. 2**: 12'-3" x 12'-5"
- flex**: 17'-3" x 12'-1"
- ba.3**: Bathroom 3
- bed. 3**: 12'-8" x 12'-6"
- ba.2**: Bathroom 2
- foyer**: Entry area
- entry**: Main entrance
- interior courtyard**: Outdoor space
- outdoor rm.**: 18'-0" x 11'-0"
- lounge**: 23'-0" x 18'-2"
- primary**: 20'-1" x 16'-1"
- primary bath**: Includes walk-in closet
- laun.**: Laundry room
- garage**: 11'-10" x 19'-1" (Front)
- garage**: 22'-1" x 21'-1" (Side)
- ba.4**: Bathroom 4
- bed. 4**: 11'-9" x 12'-1"

Overall Dimensions:

- Front**: 11'-0"
- Side**: 34'-6"
- Depth**: 21'-0"
- Width**: 46'-0"
- Garage Depth**: 22'-8"
- Garage Width**: 6'-0"
